

This section lists the **M Street RADIO MARKETS** in the United States followed by those in Canada. In general, a station is included in a market if it is licensed to a city in that market or if the market is a primary focus of its marketing activities.

For each listing, the market name is followed by, Metro populations, the M Street 2007 market rank (MST), the Arbitron Spring 2007 market rank (ARB), the Eastlan survey dates (if any) followed by AM and FM stations in dial order.

Metro population figures are based on the 12+ population estimates of Arbitron, if an Arbitron-rated market; or M Street, if the market is not rated. M Street rank is based on population estimates for the M Street-defined market area which is defined by postal zip codes, rather than counties. The market definitions of Arbitron and Eastlan are influenced by stations purchasing each company's rating services, and do not necessarily coincide with each other or with M Street.

Audience estimates are for persons 12+ Monday-Sunday, 6am to midnight, average quarter hour shares and persons from the Metro Survey Area. Ratings for each Arbitron market are from the most recent ratings period for that market.

This year's directory includes Arbitron trend information. The column headers indicate the rating period, or "book" from which the numbers came. Here are our abbreviations, as well as the survey dates for each book:

"W07"	Winter 2007 Arbitron	January 11 - April, 2007
"F06"	Fall 2006 Arbitron	September 21 - December 13, 2006
"U06"	Summer 2006 Arbitron	June 29 - September 20, 2006
"S06"	Spring 2006 Arbitron	March 30 - June 21, 2006

Trend data may not be available for all stations. Arbitron does not release rating information for non-commercial stations.
