Precision means that you avoid the time consuming errors resulting from unfounded data such as these listed below...

- ✗ Called a person who no longer holds that position at the station
- ✗ Emailed someone at a station and had it bounce back
- ✗ Called the desired contact and the number didn't work
- ✗ Placed a buy on a station with good intentions, but the format had changed
- ✗ Were frustrated that you were using data that was out of date!

Precision means that you avoid the time consuming errors resulting from unfounded data such as these listed below...

- ✘ Called a person who no longer holds that position at the station
- ✘ Emailed someone at a station and had it bounce back
- ✘ Called the desired contact and the number didn't work
- ✘ Placed a buy on a station with good intentions, but the format had changed
- ✘ Were frustrated that you were using data that was out of date!

Low Power Radio was added to the market mix by the FCC several years ago. While we do not track these stations the same way as the other stations found in this directory, we did think it might helpful and/or to include basic information about this class of stations.
