ATTENTION:

Buyers and Sellers of AM Network Time

National AM and TV network rates and data will be found in *Network rates and data*, a separate SRDS monthly catalog. *Network rates and data* includes all changes in rates, ownership, affiliations, and program times that have been announced since the original rate cards were issued. Copies of this small, easy-to-handle, easy-to-use book can be distributed to individuals, to members of a conference group; can be conveniently filed, or kept within easy reach for use whenever radio and television network information is needed or desired.

For your subscription to *Network rates and data*—only \$5.00 per year—write today to Subscription Department, Standard Rate & Data Service, 5201 Old Orchard Road, Skokie, Ill.

Product Protection
 All reasonable care will be exercised to avoid the scheduling of advertising in an obviously competitive manner. It is the station's intent to provide at least 10 minutes separation between directly competitive products; however, liability for rebates, credits or makegoods is limited to those occasions when both commercials are originated by the station.
 Affiliated with American Entertainment Network.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

CAUTION:

It is inadvisable to use listing information from SRDS Catalogs for more than 30 days from their date of issue. A single mistake caused through use of out-of-date information can be far more costly than the price of a subscription. Make certain you are working with current information from the latest issue, because current information is safe information.

IF YOU'RE LOOKING FOR THE ATLANTA RADIO MARKET, YOU'RE LOOKING FOR WSB

More people 18 and older listen exclusively to WSB than listen exclusively to all other stations in the metro Atlanta area combined.

It's a fact. According to the latest ARB* figures, we've got the 18+ audience sewn up between 6 am and midnight, Monday through Sunday.

And that means that this sizable portion of the metro Atlanta audience can only be reached through WSB.

Of course that's not really surprising when you take a look at WSB's record. We reach more than three-quarters of a million different persons in an average week.† And in that number are twice as many adults (18+) as are reached by any other station in the market. And the second largest teen market as well.

Fact is, more people listen to WSB. More different people. And they listen longer.

And we're on top of things in the FM market, too. Because WSB-FM's cume audience is #4 out of all radio stations in the Atlanta market as surveyed by ARB.†

WSB. It's time well spent.

WDAK Covers more than any three other stations

IT TAKES A GIANT TO DELIVER COLUMBUS . . . and 72 Counties As Well

Big Johnny Reb Stands Tall in Circulation & Ratings

	CIRCULATION PULSE '68*	
	WDAK	"A" "B"
Homes	36,500	24,400 21,000
Men	36,200	19,400 13,400
Women	34,500	24,900 14,000
Total	89,700	50,800 47,300

15-County Composite — weekly estimate for Columbus Stations

SRDS 1-1-69
*Interviewing conducted in 1967

Pulse Jan.-Feb. 1969, 3-County Area Cume
Delivers more cume households, total men, total women, and total persons 24-hours-a-day, Mon-Sun., than any other station serving Columbus — leading the next station in cume total persons by 19%.

WDAK Dominates Georgia's No. 2 Metro
Columbus is Georgia's second largest metro — a market with bigger spending power than Pensacola, Macon, Montgomery or Raleigh.

Media Director

Says SRDS

Catalogs Are

"Timely and Accurate"

An agency media director writes:

"The tremendous scope and changing nature of the information required for media selection places severe limitations on the usefulness of personal media files.

"Every day my desk is swamped with new literature. I can't possibly read all of it or file it away. And in some cases within a month the literature may be old and not usable.

"That is why I'm a regular subscriber to SRDS catalogs. I constantly use the SRDS catalogs and keep them here on my desk at all times. They are timely and accurate, well organized and concise. The hundreds of Service-Ads in the SRDS catalogs are factual and current, they give me the information I need, when I need it most.

"Just imagine the confusion that would result if all the information in the SRDS catalogs was sent individually to the media buyers—the time consumed in looking for what I had to know would start me wondering whether it DID pay to advertise."

SAVANNAH (7 AM; 2 PM)

(including Garden City)

Chatham County—Map Location H-8

See BRDS consumer market map and data at beginning of the State.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

IDAHO

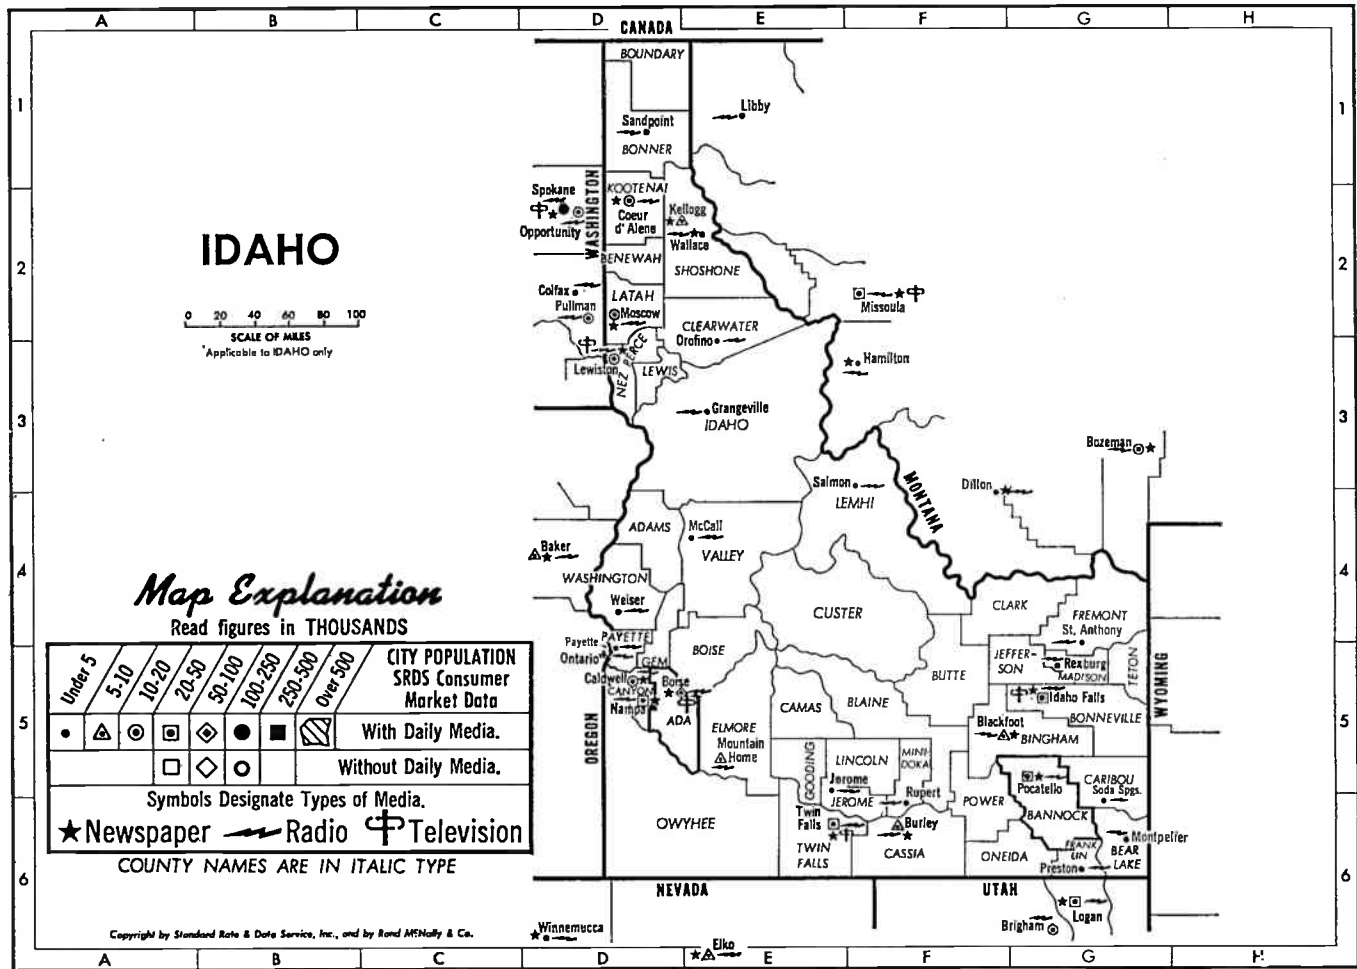

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Negro Population Data

(January 1, 1969)

STATE TOTAL..... 1,800 Pocatello..... 600
 METRO AREAS..... Total Metros..... 1,100
 Boise City..... 500

State, Standard Metropolitan Statistical Areas (SMSA's), county and city estimates are developed exclusively by Market Data division of SRDS.

State, County, City, Metro Area Data

CITIES AND COUNTIES — This list shows counties in which cities are located. Cities are first, counties next.

Boise City—Ada Idaho Falls—Bonneville
 Nampa—Canyon Pocatello—Bannock Twin Falls—Twin Falls

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

ALTON (2 AM; 1 FM)

(incl. Wood River)

Madison County—Map Location D-8
 See SRDS consumer market map and data at beginning of the State.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc., within the area.

BLOOMINGTON (2 AM; 1 FM)

(including Normal)

McLean County—Map Location E-5
See SRDS consumer market map and data at beginning of the State.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

WEFM — Chicago's First FM Station

99.5 FM/Stereo
Zenith Radio Corporation's WEFM has presented the world's finest music to Chicago area listeners for over 27 years. Zenith has introduced a distinctive new FM format—retaining the best features of past programming and augmenting them with many innovations in FM service. WEFM is equipped with the most modern, new technical facilities designed to enhance its superior coverage and broadcast quality. WEFM's new studios are equipped to provide the most advanced stereo FM operation in the country. An advanced new transmitter and a new antenna is installed which is the first in this area both vertically and horizontally polarized to bring top quality reception to the full FM audience, especially the growing number of FM auto radio listeners. WEFM has on its staff some of the best-known names in Chicago broadcasting. In addition to musical programs, WEFM presents a schedule of capsule news, financial reports and other features.

Spot rates are based on the number used during an established 12-month period, and become effective from the beginning of service on firm contracts or as earned.

7. PACKAGE PLANS
Weekly package rates apply to number of spots broadcast for 1 product within a consecutive 7-day period on ROS schedules. Such spots are subject to rescheduling but not elimination when rescheduling is required.

WGIL is located in one of the world's richest agricultural areas, Knox County, which is where Galesburg is located, is one of the top 20 counties in the country in production of hogs. Knox County is the second largest county in the state of Illinois in the production of cattle. Knox County ranks 15th in the amount of agricultural products marketed. Each year over 150,000 acres of corn and 80,000 acres of soybeans are raised in Knox County. Admtral, Outboard Marine, Gates Rubber Co., and Butler have major manufacturing facilities in Galesburg. Radio Station WGIL enjoys a listenership dominance few stations enjoy in their home county. Mostlist gives WGIL 67.8 of the day-time audience. The next closest station has an 8.2. Other surveys reveal similar statistics.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Negro Population Data

(January 1, 1969)	
STATE TOTAL	344,200
METRO AREAS	344,200
Anderson	6,100
Bloomington	1,100
Elkhart	3,100
Evansville	16,000
Fort Wayne	14,300
Gary-Hammond	111,900
East Chicago	127,900
Indianapolis	127,900
Kokomo	3,100
Lafayette-West	1,000
Lafayette	4,000
Marion	7,200
Muncie	4,400
Richmond	17,300
South Bend	6,200
Terre Haute	323,600
Total Metros	323,600

State, Standard Metropolitan Statistical Areas (SMSA's), county and city estimates are developed exclusively by Market Data division of SRDS.

State, County, City, Metro Area Data

Advertisers co-operating in group broadcasts are
required to make individual contracts. Should adver-
tiser fail to use the total time contracted for the
advertiser will be billed for the difference in rate
earned and the rate contracted for. If more time is
used than contracted for, a rebate will be issued for
the difference between the rate earned and the rate
contracted for.
The rates quoted herein are subject to change upon
30 days' notice.

We're Evansville's "VOICE OF AUTHORITY!"

A March, '69 MEDIASTAT survey queried,
 "If someone were to ask you for the
 name of the radio station in Evansville
 whose broadcasts of news and informa-
 tion are the most accurate and reliable,
 which station would you name?" WGBF
 led all five other Evansville radio stations
 in adult response by a full SIX percentage
 points or more. We can frame your mes-
 sage with reliability too. Call WEED, MID-
 WEST TIME SALES, or DAVID CARPENTER
 CO. (South) for details.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

KOMBO RADIO Ranks No. 1

In Selling Iowa's No. 1 Market

CEDAR RAPIDS-WATERLOO

33 Half-Hour Firsts

Pulse figures* show Kombo Radio's High-Powered KWWL in Waterloo and KLWW in Cedar Rapids score 33 half-hour firsts in the combination double metro Cedar Rapids and Waterloo, 6 AM-Midnight, Mon.-Fri.

Leads in All Time Segments

Pulse figures indicate Kombo Radio leads in household shares and total persons during every major day-part — 6-10 AM, 10 AM-3 PM, 3-7 PM, and 7 PM-Mid., M-F — and Kombo Radio strengthens its lead by delivering:

- more total men and more men 18-49, 6 AM-7 PM
- more women 18-49, 6 AM-Midnight
- more total women, 10 AM-7 PM
- more men 18-24 6 AM-Midnight
- more daily and weekly household cumes
- more weekly person cumes

PROTECTING YOUR MEDIA SELECTION, SRDS HOLDS FIRM ON A POLICY OF ACCEPTING ONLY VERIFIED RATING INFORMATION

Our responsibility to present objective, authentic rating information, which in no way misleads or misrepresents, has resulted in a strictly enforced copy acceptance policy.

For all copy referring to or incorporating ratings . . .

- 1) rating claims must be fully identified as to rating service, title and date of report.
- 2) exact market areas of the rating service must be identified, and
- 3) competing stations must be referred to as stations "A," "B," and "C," not by call letters.

Trained SRDS personnel carefully check all advertising copy submitted, and reserve the right to turn down any advertising which doesn't meet these rigid requirements.

Buyers are assured of truthful statements to back their station evaluations. Therefore, every station is encouraged to use current and authoritative data as a valuable service to buyers of time.

Advertiser may set up schedule within a specified 3 hour time segment.
All spots may be combined for frequency discounts. Both plans are combinable for earned frequencies. No weekly minimum number of spots required. However, minimum of 8 10-second spots is required unless combined with 1-minute or 30-second spots. Most plans combinable with other spot services for earned frequency.
May be withdrawn on 30 days written notice.
Rateholders: Weekly minimum of 2 1-minute or 30-second spots required. 10-second spots cannot be used as rateholders.

TEN-FORTY PLAN
I—Mon thru Sat 8-8:30 am.
II—Mon thru Sat 8:30 am-noon & 1-7 pm.
III—Mon thru Sat 7 pm-midnight; Sun all day.
1040 spots to be scheduled within 52 broadcast weeks.

I	40	28	15
II	17	12	6
III	10	7	4

Can be scheduled within requested 1/2-hour segment during applicable Plan hours, depending upon availability. No weekly minimum number of spots required, but quantity in any given week depends upon available time.
All times are combinable.
Spots already broadcast at non-plan rates in same 52-week period can be counted toward number required for Ten-Forty Plan, but will earn their own frequency rates. No rebates or credits granted for those spots broadcast prior to conversion to Ten-Forty Plan.
May be withdrawn on 30 days written notice.

8. MAYBE WITHDRAWN ON 30 DAYS WRITTEN NOTICE.
8. PROGRAM TIME RATES

(†) Consumer Market estimates for retail sales, (total and store types), do not include sales made in military commissaries, post exchanges and eating places on military posts in these counties.

KANSAS

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

"ALWAYS PLANNING AND BUYING TIME"

...says an Agency Time Buyer

In the next breath, he qualified his statement. "We are always planning any buying opportunities to sell our products over the airways."

The difference between these two statements is the difference between life and death to the time buyer. He will have no trouble buying time—every station is eager to sell it. But, when he endeavors to plan and buy opportunities for his product, he needs help.

Help such as how many sets are in use . . . who is listening . . . what type of program is involved . . . what precedes the program . . . what follows it . . . what sort of listening audience has it developed . . . and other qualitative information that will help him judge whether or not the opportunity for his product is there or in another station.

Help that is readily available when he needs it. Help that is current and factual with a minimum of trade "puffs." Help that he needs WHEN he has a specific interest in some area or station.

This time buyer, and many others like him, have cultivated the habit of looking at *Spot Radio Rates and Data Service-Ads* for such qualitative information because of previous pleasant, profitable contacts.

Quoting this particular agency time buyer, "I read the Service-Ads in *Spot Radio Rates and Data*. I look at them when I'm buying; that is, when I'm looking for stations in PARTICULAR markets.

"I don't mean to imply that I idle through the book looking for ads. That I don't do. What happens is this: I will be interested in a particular market. Say Denver. When I am in the Denver section I check all the ads that appear. I see them and read them when I'm getting the technical data I need before I can make my selection of stations."

Next time, and every time, you are planning and buying opportunities for your product via the ether waves, check *Spot Radio Rates and Data Service-Ads* as a preliminary step. Often your search for qualitative information will end there. If further steps are necessary Service-Ads will provide definite guidance on where to look and for what. Saving time, money, and wear-and-tear on you.

Check Service-Ads for faster, more factual "Opportunity" time buying.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

WVLK ... CONSISTENT CIRCULATION LEADERSHIP SINCE 1952

WVLK is again the NO. 1 Lexington coverage station. And according to the new Circulation Pulse 68* WVLK leads both inside and outside the Lexington Metro Area:

Lexington Stations	Homes Reached	Metro Penetration
WVLK	72,300	31,300 68%
Sta. A	37,200	20,700 45%
Sta. B	12,300	10,500 23%

In fact, WVLK reaches more total homes in the state than any other Kentucky station located outside of Louisville.

*Interviewing conducted during 1967

To sell Lexington — Kentucky's first metro in retail sales/hh—and the surrounding 41 counties which account for over 22% of Kentucky's population and retail sales, you need Lexington's coverage leader . . .

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

MONROE (4 AM; 4 FM)

(including West Monroe)

Ouribata Parish—Map Location C-2
See SRDS consumer market map and data at beginning of the State.
Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

MAINE

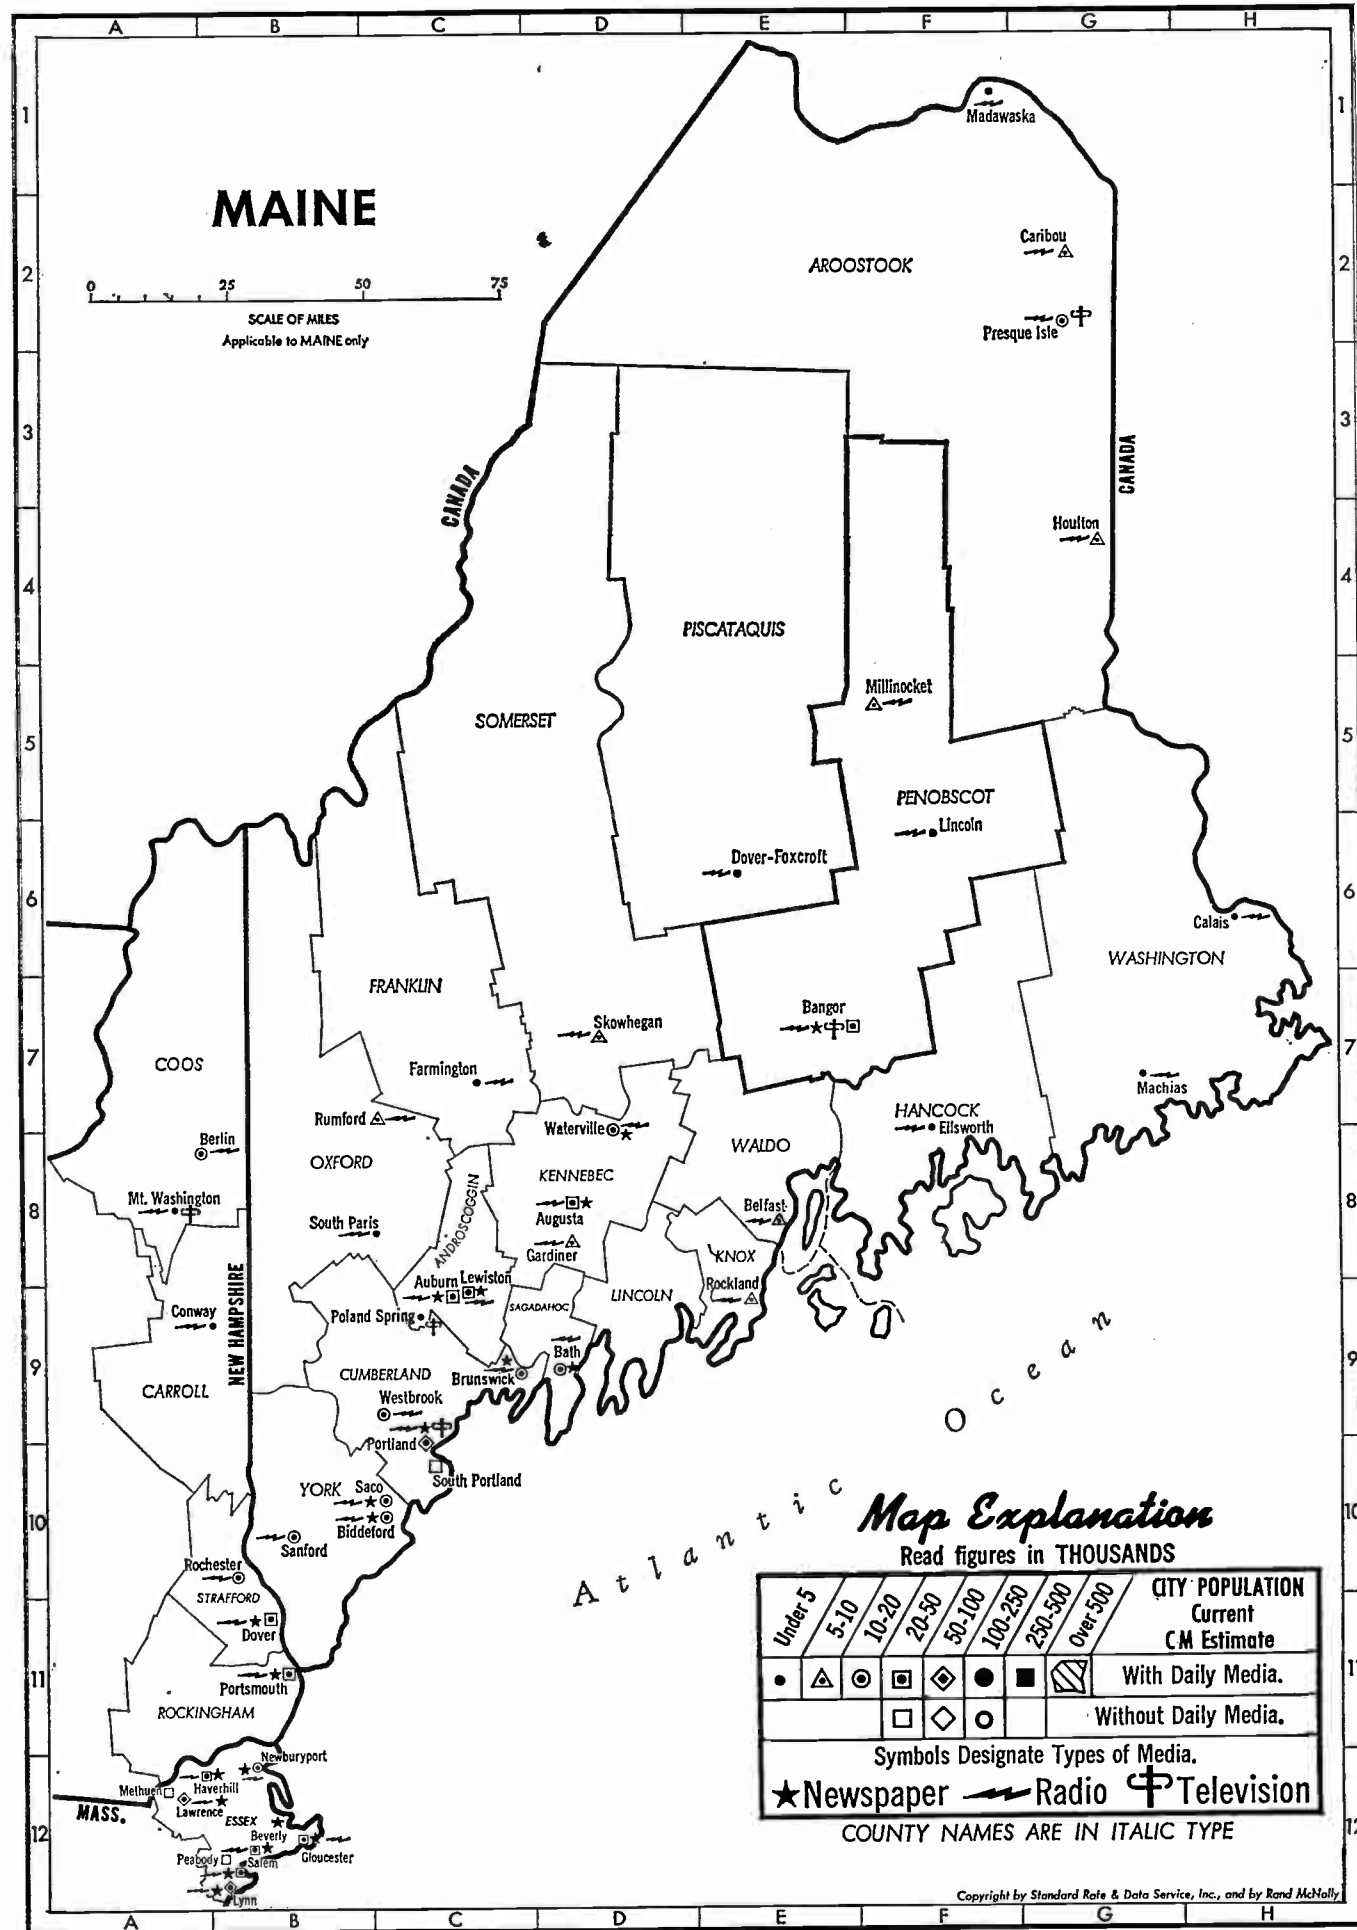

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Negro Population Data

(January 1, 1969)

STATE TOTAL.....	4,700	Portland (S.M.S.A.)	600
METRO AREAS		Portland (County Basis)...	900
