One North Carolina radio buy delivers 589,700 homes with LOCAL STATION IMPACT

ALL KEY METROS SERVED

TN News Network Stations serve all key metro areas in North Carolina — and deliver a statewide total of 589,700 homes and 1,155,740 adults 18+. None of North Carolina's top seven stations can match TN News' coverage, penetration, and local impact — with a rate structure well below any multiple station buy.

12-MAN NEWS STAFF

TN News offers hourly programming prepared by a 12-man originating news staff backed by over 50 stringers and a Washington, D. C. bureau. The daily schedule includes 21 news feeds, 3 sports shows, and 6 weather shows (a full-time meteorologist).

TWO REGIONS IN BUY

TN Radio News Network consists of two regions, or Legs:

- TN East — 34 stations in 32 markets delivering 376,500 men and 370,200 women, 18+-. \$50/participating minute.
- TN West — 28 stations in 23 markets delivering 182,300 men and 226,400 women, 18+-. \$35/participating minute.

Or you can buy the full network for \$70/participating minute on the 12-plan; \$75 on the 6-plan. One order, one invoice, one affidavit. No charge for local cut-ins.

(3) Includes portion in Edgecombe County.
 (4) Consumer Market estimates for retail sales, (total and store types), do not include sales made in military commissaries, post exchanges and eating places on military posts in these counties.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Negro Population Data

(January 1, 1969)

STATE TOTAL 1,300 Fargo-Moorhead
METRO AREAS Total Metros

State, County, City, Metro Area Data

State, Standard Metropolitan Statistical Areas (SMSA's), county and city estimates are developed exclusively by Market Data division of SRDS.

CITIES AND COUNTIES— This list shows counties in which cities are located. Cities are first, counties next.

JOIN THE CAMPAIGN!

Urge media and their representatives to use more informative copy

Your job will be made much easier and more pleasant if media buyers "pass the word along" to representatives and media owners that pertinent information, minus the historic frills and fluffs of media promotion, is needed to buy "opportunities" for products.

First, a brief recapitulation of what SRDS is doing to help you. Through direct mail, salesmen, bulletins, copy service department, and Service-Ads, we are hammering hard to dispel the notion that media buyers are swayed by glittering generalities and have the time to pore through mountains of media promotion digging out needed data.

But, we need help!

Urge the representatives to tell their bosses to use informative copy in Service-Ads near their listing in SRDS publications—copy containing sufficient data to enable you to justify your choice should it be questioned.

Many media buyers have joined hands with SRDS in this campaign to foster informative copy in Service-Ads. These busy media buyers urge the presentation of information in a form that is easy to use—material that they can use with as much confidence, ease, and effectiveness as they use the information in the listings of SRDS publications.

Join this campaign to help you buy media intelligently. Urge the representatives, media owners, radio station managers, etc., to use copy with pertinent data in Service-Ads near their listing for your guidance and convenience.

G52D-2/2

KCJB has Real Radio Reach 72% Share of Home County

KCJB reaches 30,500 total persons weekly in Ward County — more total listeners than any other station in North Dakota — with a 72% daytime share of audience.* These top ratings reflect 1,000 Watt KCJB. With our new power increase to 5,000 Watts, we'll even look better!

Top North Dakota Market

Minot leads all North Dakota cities in retail sales per household — \$9,238. Ward County — the state's second ranked county in households and sales — spends over \$118 million in retail sales annually. Reach more of the big spenders in Minot and Ward County plus primary coverage over 11 North Dakota counties with KCJB-AM and the new KCJB-FM. SRDS CM Data 1-1-69

show you the results of
*Circulation Pulse-68 and why
KSJB is the #1 ADULT radio
value for North and
South Dakota.

At the same time let ATA show
you the results of the full
statewide North Dakota **Pulse.
You reach more adults for your
advertising dollar on KSJB!

5 KW — Full Time — 600 KC

*Circulation Pulse — 1968
**54 County North Dakota and
Clay County, Minnesota
Pulse/Oct.-Nov., 1966.

KSJB

JAMESTOWN — SERVING THE DAKOTAS

*Interviewing conducted in 1967.

KFGO "Growth Power"

- offers a five-man farm service department . . . 15 1/2 hours of farm programming weekly.
- has virtually changed the face of "GROWING FARGO" with continuous, gusty, hard-hitting editorials.
- received the 1968 Northwest Broadcast News Association Outstanding Achievement Award.
- sold 5,000 KFGO cookbooks and drew 3,000 "growth-conscious" housewives

WDAY RADIO'S "BIG EDGE"

is sharper than ever!

Our edge over the next station in the latest Fargo-Moorhead Metro Pulse is keenly clear!

• Eyeball this one: From 6:00 AM to midnight, WDAY-Radio has a 40% greater share than station 'A' . . . 80% greater than station 'B'! AND — AND — in those important time periods (6:00 AM-10:00 AM, 3:00 PM-7:00 PM) WDAY-Radio has a 44% greater share than 'A'!

Our loyal hayseeds have good cases of 'affection

Advertisement
Williams County has the largest population of any county in western North Dakota and eastern Montana. Its county seat, Williston, has twice the population of any city in the area. Just to put the record straight, KEYZ is the only Williston station, and its 5,000 watts of power at 1360 kc. gives the greatest coverage in the heart of the Williston Basin. Its half-million watt includes Divke, Williams, Mountrail and McKeen counties in North Dakota and Richland, Sheridan, Roosevelt and Daniels counties in Montana, plus parts of 9 other counties in both states. Our area is rich in oil, and has bumper crops in wheat, barley, flax, etc.

KGCX

SIDNEY, MONT.

City of license—Sidney, Mont.
Considered by the Mutual Broadcasting System as their Williston, N. D.—Sidney, Mont. outlet.
Studios—Hapig Bldg., Williston, N. D., Phone 572-3778.
See listing under Sidney, Mont.

Advertisement
KGCX is the oldest station in Eastern Mont., and Western N. D., (1926), first network in the area (Mutual) and alone brings top regional spots to area listeners such as Minn. Twins, Minn. Gophers and Minn. Vikings. Aside from complete studios in Williston and Sidney, we broadcast daily from four area towns. We are the home town station for all of North-western N. D. and Northeastern Mont.
Effective May 1, 1966.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

AKRON (4 AM; 3 FM)

Summit County—Map Location F-4
See SRDS Consumer market map and data at beginning of the State.
Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc., within the area.

Stations contiguous to the major city are consolidated
 under the major city heading. This is not to imply
 that all of the stations provide equal coverage of
 the entire area or cities involved. It is part of the
 time buying function to determine extent of indi-
 vidual station coverage, audience delivered, etc. with-
 in the area.

Specials combine and contribute to face of card rates to earn weekly frequency discounts, and combine with each other, in part or fully, as long as applicable unit cost applies. Flat rates do not earn 52 consecutive week discount. Fully preemptible for face of card advertisers.
30 day rate protection only.

FREQUENCY COMBINATION
Minutes, 20/30 seconds and 1/2 min may combine to earn weekly frequency discounts.
CONSECUTIVE WEEK DISCOUNT
52 wk—5%. Applied as earned.
Only consecutive weeks with expenditures of 100.00 or more may combine to qualify for discounts.

What they say about BILL HAMILTON

Bill Hamilton, the NEW WBNS morning radio host, has really made an impact in the Columbus Market.

His rare humor is now the GREAT NEW MORNING SOUND OF CENTRAL OHIO.

The former WBNS AFTERNOON PERSONALITY (where listeners responded with delight to such daring episodes as "the Pidgeon Caper," and the attacks by the "Red Baron" on the WBNS TRAFFIC PLANE) is now regaling the morning audience with more of the same.

One listener writes: "Your humor is fresh, unforced, and a real pick-me-up." Advertisers, like listeners, know what's good for them — Bill Hamilton.

Watch Out For The Other Guy

Maybe you're a good driver. Many drivers aren't. So why put yourself at the mercy of some other guy's mistakes? Better to drive defensively. And expect the unexpected. After all, nearly half the drivers in fatal collisions are good drivers, and in the right. But being in the right isn't enough. You could be dead right.

Published to save lives in cooperation with The Advertising Council and the National Safety Council.

LORAIN-ELYRIA (1 AM; 1 FM)

Lorain County—Map Location E-4
See SRDS consumer market map and data at beginning of the State.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

OKLAHOMA

ADDITIONAL DAILY MEDIA CITIES NOT SHOWN ON STATE MAP

RADIO
Atoka—Atoka County

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

STANDARD RATE & DATA PUBLICATIONS PROVIDE . . .

TIME

. . . saved because SRDS does a large part of the "legwork" for you by making available complete media information in single, useable, monthly publications.

ACCURACY

. . . you can depend on when ever-present time limitations demand specific answers at once. Media listings in SRDS are checked each month, re-checked and checked again to insure the most accurate media information available to the advertising industry.

STANDARDIZED INFORMATION

. . . on all media in logical sequence. No need to hunt for what is needed in a listing. SRDS prepares all information in standard order—aims quick comparison of listings—ends searching through promotional material for factual buying information.

CURRENT INFORMATION

. . . kept up to date between monthly issues through listing-change bulletins that report all major media changes within days of receipt of the changes. Media have long recognized SRDS as the prime source used by buyers of media. Each month SRDS receives thousands of changes from all types of media—changes that are sent on to its users in the shortest possible time.

CONSTANT IMPROVEMENT

. . . because of the dynamic nature of the advertising industry, SRDS has been in a constant state of change for nearly half a century, constantly improving service—adding features needed by buyers—simplifying and clarifying the data of a complicated industry always "on the move."

OREGON

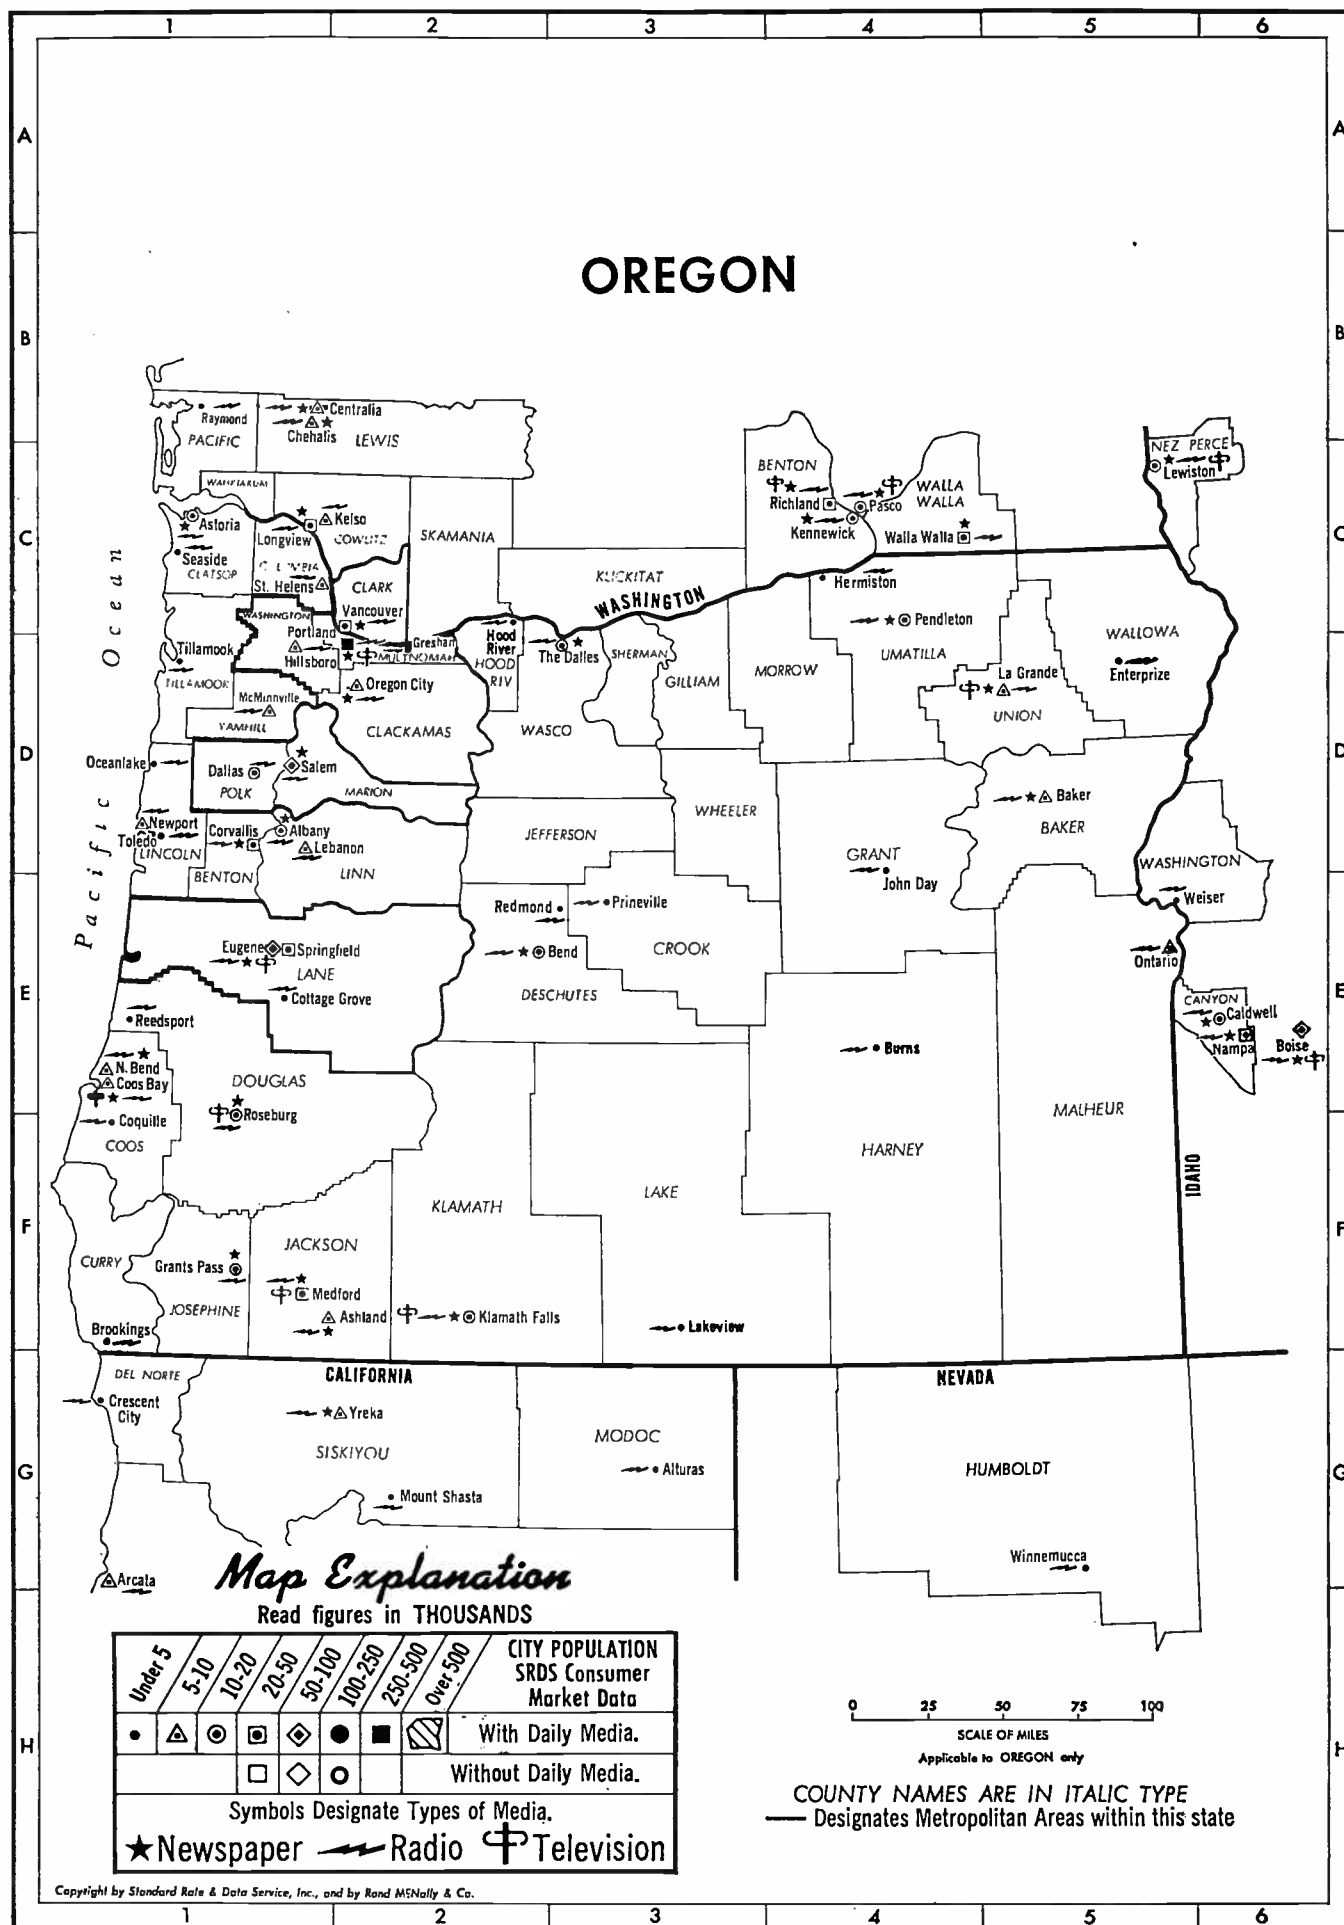

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio-ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Negro Population Data

(January 1, 1969)

COOS BAY-NORTH BEND

(3 AM)

Coos County—Map Location F-1

See SRDS consumer market map and data at beginning of the State.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

EUGENE (7 AM; 3 FM)

Lane County—Map Location E-1
See SRDS consumer market map and data at beginning of the State.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provided equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

SERVICE-ADS Are More Than JUST PROMOTION!

The Service-Ads that media puts into SRDS are more than just publication or station promotion. They represent an honest effort to provide you with information you can use in evaluating media and comparing them with others.

The data you find in Service-Ads can be as valuable to you as the information you pick up from the listing material in Standard Rate. Be sure that you take advantage of this material when it is provided for your use. Read, and Use, the Service-Ads in SRDS!

Philadelphia—WIP—Continued

Minutes, 30-seconds and Newcasts may combine to form weekly frequency discounts. ID's combine on basis of 2 ID's equaling 1 longer period.
 Rate protection: Rates guaranteed for 13 weeks from effective date of any increase providing advertising equalling weekly expenditure of 150.00 is actually running at time of effective date of increase, and providing these broadcasts continue without interruption during rate protection period.
CONSECUTIVE WEEKS DISCOUNT
 52 wk—10%
 Applied as earned. Only consecutive weeks with expenditures of 150.00, or more, may combine to qualify for discounts.

Where a national spot advertiser for a period of at least two years has used a thousand or more spot announcements within each contract year, he will continue to be billed at the thousand-time rate for each subsequent year.
In the event such an advertiser discontinues without completing a contract year after two years, he will not be short-rated. However, when that advertiser

resumes a spot schedule he will be subject to the existing frequency discounts as earned until such time as he fulfills the provision of broadcasting a thousand or more announcements within the contract year for a period of two consecutive years.

SPOT RADIO SELECTION SIMPLIFIED

... BY CITY

Every commercially-licensed AM and FM radio station in the U.S. is listed in *SRDS Spot Radio Rates and Data*. Stations are listed alphabetically according to the city or metro area they serve.

... BY FOREIGN LANGUAGE PROGRAMMING

Stations with at least one program are listed by state, alphabetically showing the language and number of weekly hours of foreign language programming, in the monthly edition.

... BY NEGRO PROGRAMMING

Stations listed alphabetically by state, city and call letters. Stations having at least one regularly scheduled program are shown with total weekly hours of Negro programming, in the monthly edition.

... BY FARM PROGRAMMING

Stations are listed alphabetically by state, showing station's total weekly farm broadcast hours, in the monthly edition.

These special features are kept current monthly. Check the contents page for the location of these and other feature bonuses to aid your media selection.

WILLIAMSPORT (4 AM; 3 FM)

(including South Williamsport)
Lycoming County—Map Location H-3
See SIDS consumer market map and data at beginning of the State.
Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine extent of individual station coverage, audience delivered, etc. within the area.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Negro Population Data

(January 1, 1969)

STATE TOTAL.....	23,700	Providence-Pawtucket-Warwick (County Basis)...	18,700
METRO AREAS		Total Metros (S.M.S.A.)	18,300

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

WQSN

Modern Country's Affluent Adult Station

Only WQSN of Charleston's top 2 stations delivers more mature, affluent adults 25-49 and 25 and over.

In less than one year (Jan.-Aug. 1968), since changing to Charleston's only modern country format, WQSN climbed to the top adult station.

WQSN Adults		
6-10 am	25-49	70.3%
10 am-3 pm	61.1%	72.2%
3-7 pm	61.7%	70.2%
7-12 Mid	34.4%	40.0%

Avg. 1/4-hour listeners, M-F. Share of total listeners.

WQSN AM Drive

#1 in all major phases of male listeners:

- 3,900 Total Men—26% ahead of the other station
- 2,500 Men 25+—56% ahead of the other station

Avg. 1/4-hour listeners, 6-10 am, M-F.

SOUTH DAKOTA

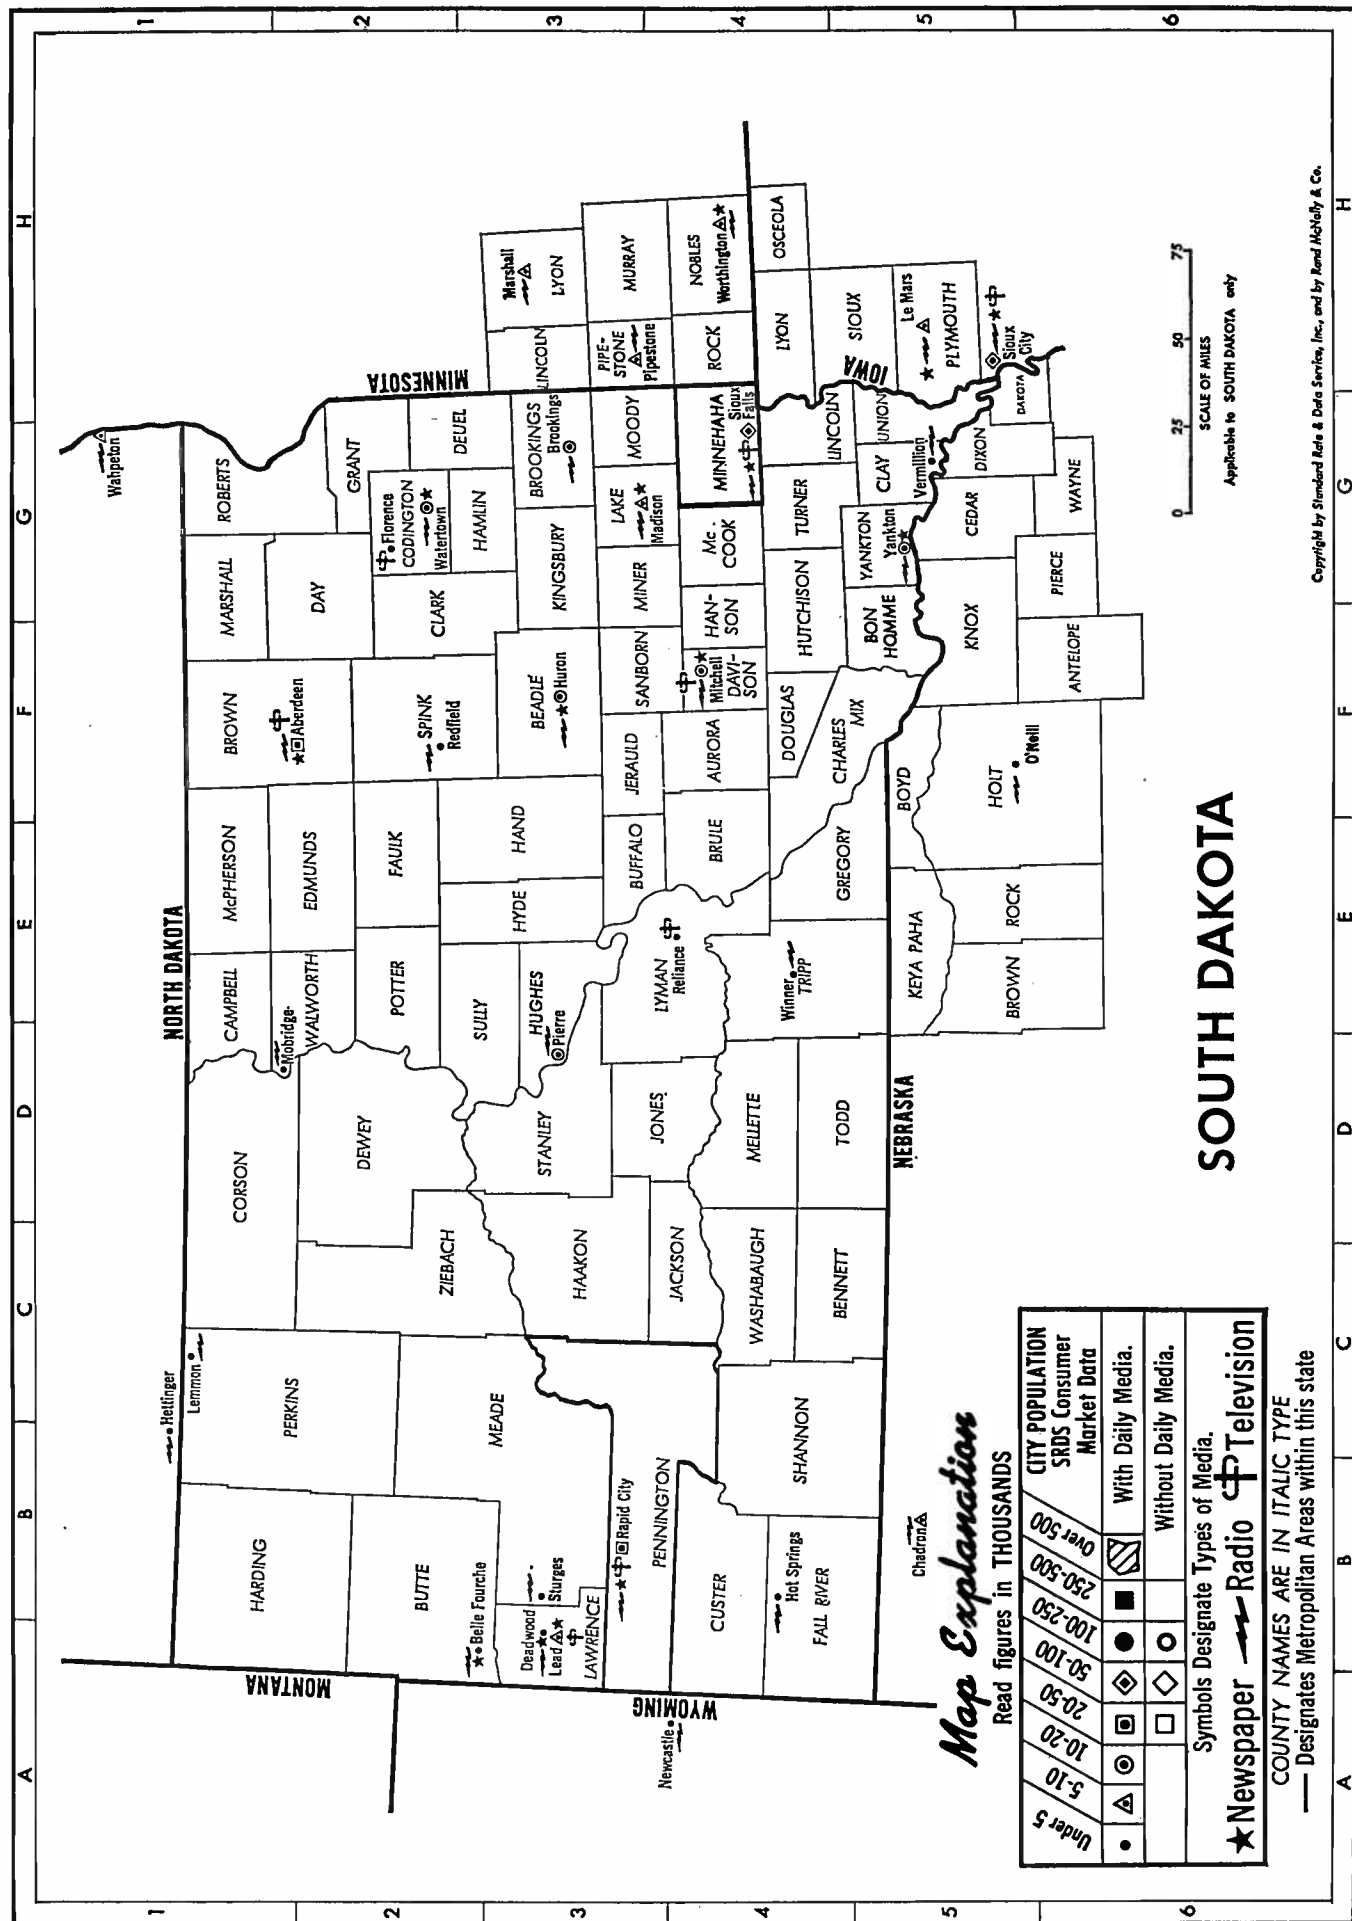

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

Considered by CBS Radio Network as their Sioux City-Sioux Falls-Yankton outlet.

See listing under Yankton, S. D.

**MAXIMUM
SIOUX FALLS
COVERAGE
MUST BE
FROM
WITHIN**

Only KSOO fills the coverage hole left by leading stations in "traditional buy" markets. KSOO alone delivers solid, complete, point-of-purchase coverage in the 16-county Sioux Falls trade area—a region representing close to half of South Dakota's annual retail sales.

	Counties	Net Weekly Circulation
Over 50%	5	23,400
20-49%	10	11,200
5-19%	1	1,300
Totals	16	35,900

Blanket Coverage*

- 59% penetration of 5 key counties — 23,400 Net Weekly Circulation
- 43% penetration of the total area — 35,900 Net Weekly Circulation

Proven Dominance*

- 33.4% more Net Weekly Circulation and
- 46% more adults (62,300) than the nearest competitor

*Circulation Pulse 1968. Interviewing conducted in 1967.

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.

State, County, City, Metro Area Data

State, Standard Metropolitan Statistical Areas (SMSA's), county and city estimates are developed exclusively by Market Data division of SRDS.

CITIES AND COUNTIES—This list shows counties in which cities are located. Cities are first, counties next.

ESTIMATES FOR: STATE COUNTY—Map Loc. City Metropolitan Area	Population 1/1/69 (000)	Households 1/1/69 (000)	Consumer Spendable Income—1968					Total Retail Sales—		Retail Sales—1968 By Selected Store Types										Passen- ger Cars 1/1/69 (000)	Farm Popu- lation 1/1/69 (000)	Gross Farm Income 1968 (\$000)

MEDIA SERVICE-ADS

IN SRDS HELP YOU—

By Backing Up Your

Media Recommendations

When Your Proposals

Are on the Spot!

Whenever you may be in the process of media evaluation and selection, there comes a time when you are called upon to support your media recommendations. You must be a salesman with information about the media you have selected ready at your fingertips to justify your choices.

As the questions and challenges to your judgment come up, you reach for your tools . . . for the media data you have accumulated—for the market information you have screened—for the notes you have made after talking to media representatives. But first, you reach for Standard Rate.

Both the listed information in Standard Rate and the companion media Service-Ads that supplement the information in the

COUNTY NAMES ARE IN ITALIC TYPE

— Designates Metropolitan Areas within this state

Radio Household Data

NOTE: County-by-county estimates of Radio Household Data no longer appear in SRDS. With the advent and wide-spread use of the transistor, Radio Household Penetration has reached at least 95% with little variation on a county-by-county basis. There is no way at present to estimate transistor radio ownership — thus SRDS believes further publication of Radio Household Data is meaningless.
