Atlantic County—Map Location D-10
See SRDS Consumer market map and data at beginning of the state.

Stations contiguous to the major city are consolidated under their major city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined coverage area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations contiguous to the major city area are consolidated under the major city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined coverage area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

ADVERTISEMENT

The city of Williston and the county of Williams are the largest of each in northwestern North Dakota and in northeastern Montana. Williston is county seat and has more than double the population of any city in the area. KEYZ with its 5000 watts of country music power is the only AM radio in Williston and is joined by its sister station KYYZ-FM. Its half-million includes Divide, Burke, Williams, Mountrail and McKenzie counties in North Dakota and Richland, Sheridan, Roosevelt and Daniels counties in Montana, plus parts of 9 other counties in both states. Our area is rich in oil, and has bumper crops in wheat, barley, sunflowers, etc.

PROGRAMMING DESCRIPTION

AGRI BROADCAST NETWORK (ABN): A Farm program network: Daily livestock & grain market reports; agricultural information & interviews. Market programs M-F 5:25 am-5:25 pm; market updates M-F 8x daily; agri weather, news & market strategy daily. Farm show & weather Sat 5:49-7:10 am. Contact Representative for further details. Rec'd 5/18/83.

- PERSONNEL**
Owner & Farm Dir.—Ed Johnson.
National Sales Manager—Jack Farmakis.
Vice-President—Todd Dysle.
Associate Farm Director—Mark Davis.

- REPRESENTATIVES**
J. L. Farmakis, Inc.

- AGENCY COMMISSION**
15%.

TIME RATES
Eff—Rec'd 8/22/84.

- SPOT ANNOUNCEMENTS**
ENTIRE NETWORK: 1 min
Morning, per spot, per station 20.35
Afternoon, per spot, per station 21.35
30 sec. 80% of 1-min.

For more farm information, see listing in Consumer Magazine and Agri-Media Rates and Data.

Stations contiguous to the major city area are consolidated under the major city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

 the state.

Stations contiguous to the major city area are consoli-
 dated under the major city headings. This is not to
 imply that all of the stations provide equal coverage of
 the entire area or cities involved. It is part of the time
 buying function to determine the extent of individual
 station coverage, audience delivered, etc. within the
 area.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined coverage area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined coverage area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.
