Media Code 4 214 9912 0.00 Mid 010069-000
Lake Valley Broadcasters Inc.
300 Commerce Dr., Crystal Lake, IL 60014. Phone 312-648-0552.

PROGRAMMING DESCRIPTION

WXET (FM): Target adults 18-49. MUSIC: Satellite Music Network Star Stations Adult Contemporary format. SPORTS: White Sox baseball. Rec'd 5/22/84.

1. **PERSONNEL**
General Manager—Dean Phelps.
National Sales Manager—Mark Krieschen.
Local Sales Manager—Paula Cepicka.

2. **REPRESENTATIVES**
Hooper Jones Associates, Inc.
Chicago, Milwaukee, Rockford—Contact station direct.

3. **FACILITIES**
ERP 3,000 w. (horiz.), 3,000 w. (vert.); 105.5 mhz. Stereo.
Operating schedule: 24 hours daily. CST.

4. **AGENCY COMMISSION**
None; all rates net to station.
5. **GENERAL ADVERTISING See coded regulations**
AM facilities: WIVS, Crystal Lake.
Affiliated with Satellite Music Network.

TIME RATES
Eff—Rec'd 12/18/84.

SERVICE-ADS IN SRDS

Helping to keep you informed

When it's your job to select and recommend media, you must be able to back up your recommendations with fact. You must have media information ready at your fingertips to justify your choices.

As the questions and challenges to your judgment come up, you reach for your tools . . . for the media data you have accumulated—for the market information you have screened—for the notes you have made after talking to media representatives. But first, you reach for Standard Rate.

Both the SRDS listings and Service-Ads are invaluable to you at this time of selection justification. In the listing for each medium, you find the basic cost and requirement data . . . in the Service-Ads, you find a reiteration of the sales information you were sold on in the first place.

Service-Ads give you, in no-nonsense form, the reasons why a medium was chosen. They remind you of these reasons, concisely and completely, at the time you need them most, when you are selling your selections.

Rapides Parish—Map Location C-4

See SRDS Consumer market map and data at beginning of the state.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations contiguous to the major city are consolidated under major city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined coverage area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Adult-strength WKZO Radio. #1 in Kalamazoo.

WKZO Radio overwhelms the competition for adults in Kalamazoo. Our 18+ AQH audience is more than 57% bigger than our nearest competitor's. Mon. through Sun. Our 18+ cume, 6 a.m. to Mid., Mon. through Sun., is greater than the next two stations combined. And our 18+ exclusive cume, the measure of listener loyalty, is more than double that of the next closest station.

For more details, call your McGavren Guild representative and ask for the latest Birch Radio Standard Market Report.

Stations located within the combined coverage area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations located within the combined City area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

KEEP A CHANGING MARKET FROM CATCHING YOU BY SURPRISE.

If you know radio, you know it's important to keep up with the way a market changes. The audience is often on the move, and listening habits and station preferences can change between ratings reports. These trends are of prime importance to you and sometimes getting information from quarterly reports isn't timely enough. That's why Arbitron Ratings developed **ARBITRENDSSM**, the radio ratings tool for the eighties.

ARBITRENDS gives you a three-month rolling average of top line demographic and daypart information every survey month, so you can see the changes in a marketplace as they happen. It's being offered for 23 major markets as a printed or computer delivered report.

ARBITRENDS also delivers the quarterly reports from our computer to yours. Now your IBM XT[®] can do most of the work for you, helping to turn numbers into information you can use. You get user-selectable report formats that let you pick the specific dayparts, demographics and estimates you need to study.

ARBITRENDS is a first in radio marketing. It's a breakthrough that can give you a picture of a market in a shorter time than ever before, so you can make up-to-the-minute business decisions. That's the power, precision and efficiency of **ARBITRENDS**.

So don't let the ratings catch you by surprise. Call Arbitron Ratings at (212) 887-1300 and find out about the major new trend in radio. It's **ARBITRENDS**, the radio resource of the eighties.

Stations located within the combined city area are consolidated under multiple city headings. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.

Stations contiguous to the major city are consolidated under the major city heading. This is not to imply that all of the stations provide equal coverage of the entire area or cities involved. It is part of the time buying function to determine the extent of individual station coverage, audience delivered, etc. within the area.
