S A L U T A T I O N

We enthusiastically salute the legion of men and women of this dynamic industry for so generously contributing to make the more than twelve hundred pages that follow the most comprehensive reference work in the history of Radio and Television.

This fourteenth annual edition is a complete and compelling story of a revitalized Radio as well as explosively expanding Television industry. Again to all who have helped . . . our sincere appreciation.

JACK ALICOATE
Editor-in-Chief

FOR WORLD-WIDE NEWS . . .

FOR CLEAR, COMPREHENSIVE

COVERAGE . . .

The image shows the letters 'A' and 'P' in a large, bold, sans-serif font. The letters are filled with a dense, textured pattern of small, reddish-brown dots or fibers, giving them a fabric-like or paper-like appearance. The 'A' is on the left and the 'P' is on the right, both centered vertically.

U.P.

1250 radio stations from coast to coast receive from United Press an average of 40 news programs and news features every day — in addition to scores of extra shows of seasonal and special topical interest throughout the year. And some 200 kinds of sponsors buy them. The U.P. bureau nearest you is ready to present further information promptly.

WANT DISTRIBUTION HELP IN THE WORLD'S LARGEST MARKET?

The Bories Organization

(American Training Service, Inc.)

gives you Radio and TV advertising
with **MERCHANDISING ACTION!**

Two great ways to reach the homemaker:

"DEAN CAMERON"

And Now On WJZ 4:30-5 P.M.
Monday - Friday

"KITCHEN KAPERS"

11:30 - 12:00 NOON

Starring

*The Nationally Famous
Radio and Television Quizmaster*

"TINY" RUFFNER

AS

"MASTER OF RECIPES"

For Details call
BOB BORIES

BORIES ORGANIZATION INC.

Murray Hill 8-4900

509 Madison Avenue

New York 22, New York

Read What Radio Daily's Sid White Says:

••• Talk of the industry is the phenomenal growth of the Bories Organization in recent months, using Radio and TV Advertising with Merchandising Action as their slogan. Bob, the housewives' best friend, has two hot properties on the air right now in "Dean Cameron," which switches from WOR to WJZ shortly, and "Kitchen Kapers," on WJZ-TV daily. The Dean, known as the Honey Philosopher, is gaining wide popularity among the daytime fans with his down-to-earth and honey presentation of household facts. "Kitchen Kapers," of course, has already established itself as a solid morning favorite with its daily awards for winning recipes and prominent guests.

TEMPO OF DEFENSE EMPHASIZED

SUPPORT OF RADIO-TV VITAL IN 1951 PLANS

By **WAYNE COY**
Chairman

Federal Communications Commission

WITH the tempo of defense preparations being stepped up more and more over the nation, broadcasters are becoming increasingly concerned over the role they may be expected to play in the common effort.

In the background as a constant inspiration is the splendid contribution of broadcasting to the winning of World War II. The radio was always a ready and generous supporter of the scores of informational tasks that had to be done. Many of these services were unglamorous. They were necessary but difficult jobs that had to be done if the energies of the people were to be directed into the most productive channels. Many of the methods devised by broadcasters to present such material with imagination and action-inspiring appeal will forever remain highwater marks of public service by American broadcasting.

Broadcasters fought the war on the homefront by rallying citizens for bond drives, salvage campaigns, rationing, manpower recruitment, blood banks, conservation, victory gardens, civilian defense and many other indispensable measures.

Now when defense preparations are only in their preliminary stages, the patterns of broadcasting's cooperation have not yet been completely spelled out. However, the nation will find the broadcaster ready, able and willing to perform whatever service may be asked of him.

The details of the broadcaster's participation in the defense preparations will, I know, be determined as before in a cooperative manner with the assistance of the industry's leaders. Until formal plans are announced, I suggest that broadcasters generally review the situation in their own communities and determine what might be done immediately without waiting for any SOS from Washington.

How can the broadcaster start today to strengthen his community? How can he without any advice or outside leadership help his listeners to become more responsible and efficient citizens? Is he devoting all the time he should to informing his listeners about the geography, history, and culture of the danger areas of the world? Is he bringing them full, fair and competent discussion of the issues? Is he bringing civic leaders to the microphone to promote understanding between employees and management, between racial groups? Is he keeping his listeners informed about the processes of government so that they can better understand how decisions are arrived at? Is he giving his listeners an opportunity to "sit in" at the crucial and dramatic sessions of the United Nations? Are there physical defects in the community that ought to be corrected without further delay so that they will not be a drag in an emergency? Is the manpower potential of the community being built up to maximum through adequate technical training in the local school system?

I am sure that checking over such questions will disclose to many broadcasters considerable opportunity to act now towards promoting the national security. In the days ahead, the nation will look increasingly to its broadcasters for this type of leadership.

1950—YEAR OF ACHIEVEMENT

PROGRESS OF INDUSTRY EMPHASIZED IN REPORT

By JUSTIN MILLER

*Chairman of the Board
National Association of Radio and
Television Broadcasters*

NINETEEN HUNDRED AND FIFTY was broadcasting's greatest year. Both radio and television exceeded all previous records of performance; and representatives of the entire industry view the future with confidence and optimism.

While we cannot minimize the impact of the pressures and strains of a nation geared to wartime economy, nevertheless the broadcasting industry is ready and willing to meet the challenge with the same ingenuity, resiliency and dedication to service in the public interest which marked its outstanding record during World War II.

The broadcasters of the country are keenly aware of their obligations and responsibilities during these critical days and they do not take this trust lightly. Theirs is not a "business as usual" attitude. The formation of the Broadcast Advisory Council, shortly after the outbreak of the Korean war, is concrete evidence of the industry's genuine desire to develop ways and means of bringing its tremendous and vital resources into effective coordination with the nation's mobilization and defense program. The Council, which is made up of representatives of all segments of the industry, has met with the President of the United States, members of the Cabinet, the FCC and with top military and civil defense leaders. All have expressed a genuine interest in the Council and have assured us of their deep appreciation for the prompt and voluntary steps taken to unite the industry for fullest cooperation with the government.

Broadcasters are also organizing at the state and community levels so they will be prepared to give all-out aid should disaster strike. Civil defense "networks" have been established in several states; ready to go on the air at a moment's notice to transmit orders, supply information to the people and to prevent panic. Such a program is not achieved without cost—both in time and money—but the broadcasters have voluntarily initiated these activities and are assuming the cost.

Recognizing the vast potentialities of the medium, the Government has classified radio-television as a vital industry, and has given assurance that no greater controls upon it are anticipated than those which were in effect during World War II.

1950 was a year of spectacular achievement for broadcasting. Advertising revenues were the highest in the 30-year history of the industry; programming was better; and audience volume was greater. In the fields of production and distribution, more radio and television receivers reached more people than ever before. The 1950 NAB District Meetings were the most successful ever held and surpassed all previous attendance records.

In the present world crisis, radio and television have a vital stake in the preservation of our freedoms. The confidence of the American people in our vast communications system is not misplaced. The men and women in the industry have long demonstrated their resourcefulness and ability to meet crises and to do what needs to be done. They are ready now to make their greatest contribution toward the preservation of the American way of life.

JACK BENNY

RADIO-TV PATTERN—1951

By **FRANK BURKE**, Editor, *Radio-Television Daily*

Frank Burke

RADIO regained its commercial prestige during 1950 and television broadcasting moved along at such a clip that stations were using black ink in their bookkeeping.

The rejuvenation of radio came despite the Association of National Advertisers' attempts to force nighttime rate cuts because of the inroads of TV. This

revival of listening resulted from the Korean war situation and the declaration of a state of emergency by President Truman. It resulted too from determination on the part of the broadcasting industry to get out and sell the advantages of the medium.

On the TV front the business attainments of 1950 came as a result of the growing audience and the interest of many new advertisers in the sight and sound medium. Almost all of the 107 stations showed a profit and in the single market areas the gross billings exceeded all expectations.

Just to give you an idea how well radio shaped up in 1950, it is estimated that radio net time sales reached over \$453 million, a 6.6 per cent gain over the previous year.

Television time sales for the past year were even more spectacular than those of radio. Net time sales for the past year totaled nearly \$84 million compared with \$27.5 million in 1949.

While the business side of radio and TV broadcasting forged ahead the past year industry leaders moved to effect more efficient organization and NAB became the National Association of Radio and Television Broadcasters. In effecting this reorganization the NAB board was able to bring the Television Broadcasters Association into the fold and launch NAB-TV as the organization representative of the TV broadcasters. In effect this action means the complete reorganization of the

industry's association into autonomous radio and television units.

In reorganizing the industry also paved the way for the expansion of the Broadcast Advertising Bureau operations and it is expected that during 1951 this radio and TV service organization will play an important part in increasing the stature of the two mediums.

Based on the radio and TV accomplishments of the past year and the prospects for 1951 both radio and TV are in for a most prosperous year. The radio billings both on a network and local level have taken a sharp upturn and nighttime TV programming periods are at a premium.

Turning to TV receiver production it is estimated that between January, 1949 to this January, set circulation has increased 12 times. It is now estimated that TV receivers can be found in over 10,000,000 homes and they entertain and inform an audience of around 40,000,000 Americans.

Figures released by R-TMA indicate that during 1950 the total output of TV receivers reached 7,463,800 sets while the radio receiver production was 14,589,000. In 1949 only three million TV sets were produced and the figure on radio receivers was 11,400,000.

Restrictions on the use of cobalt, nickel, copper and other metals imposed by the government will curtail the production of TV and radio receivers during '51. Just how much this curtailment will be is questionable at this time but manufacturers are forecasting cut backs from 25 to 40 per cent as the year progresses.

Broadcasters both in radio and TV are anticipating manpower shortages due to the manpower mobilization by government. It is anticipated that some of the younger men, particularly in the TV field will be drafted, and others will move on to industries offering seemingly more lucrative employment.

The year 1951 although fraught with problems of production, manpower, and administration will be a profitable one for both radio and TV operations. All signs indicate that the tempo of business will continue to grow.

JACK and LIL KIRKWOOD

“THE JACK KIRKWOOD SHOW”

Mutual Don Lee Broadcasting System

TV READY TO AID DEFENSE

By BRIG. GENERAL DAVID SARNOFF, Chairman of the Board, RCA

Sarnoff

DURING 1950, television reached proportions in performance and growth that qualify it as one of America's most promising industries, thereby bringing to fruition the years devoted to research, engineering and planning. As a result the signpost on the road of progress is marked **TELEVISION** — in black and white as

well as in color.

There are about 10,000,000 television sets in the United States and 107 television stations. No new industry ever grew so fast in so short a time. While there are still vast areas of the country served only by sound broadcasting, the appeal of television is so powerful that those who remain out of its range eagerly await its arrival.

At this time of national emergency, America is particularly fortunate in that since the end of World War II television has been developed to the extent that 40,000,000 Americans now comprise the television audience. This is of tremendous importance to the country since it provides a new medium to supplement radio's vast audience in achieving fullest unity of purpose.

The sale of television sets throughout the year contributed to industrial progress and to the pleasures which American families in ever increasing numbers are enjoying.

The rate of television's growth, however, has been slowed by a nation-wide "freeze" put upon the construction of additional television stations. In the public interest it is hoped that the "freeze" will be thawed in 1951 so that television can reach every city, town, farm and school and satisfy the public demand for this new and important service. Hundreds of new television stations await the signal to go on the air.

Television accounted for approximately 75 per cent of RCA's total gross income in 1950. Vision and planning, plus confidence in the service that television could

render, enabled RCA to maintain leadership in television. No other organization has contributed as much to the creation or more to the advancement of the new science and art as a service to the American people and an important tool for industry.

Color television in 1950 was a revelation and a provocation. As a rainbow arches across the sky after a storm, so television in color broke through one of the greatest tempests of controversy and conflicting opinions.

As creator and leading proponent of a compatible all-electronic color television system, RCA fought to assure its development and approval over the outmoded incompatible mechanical scanning apparatus.

The Federal Communications Commission closed its public hearings in May, and in October adopted an incompatible system as the standard for commercial color television despite the fact that eminent scientists and virtually all of the radio-television industry warned against such a move. The Commission set November 20 as the date when commercial operations were to begin.

Acting in the public interest, RCA carried the case to Court and on November 16 the United States District Court in Chicago issued a temporary restraining order which deferred the establishment of commercial color television until further order of the Court.

[In a decision handed down by the Court on December 22, the temporary restraining order was continued in effect until April 1, 1951, or "until terminated by the Supreme Court."]

RCA maintained that the outlawing of its compatible electronic system was indefensible and contrary to the public interest. It pointed out that the FCC Order was "arbitrary and capricious" and unsupported by substantial evidence; that it would bring irreparable injury to the television industry and to the public.

When the RCA compatible system is used, the present owner of a black-and-white receiver does not need an adapter, nor any change whatever, in his present set to receive color programs in black-and-white. If it is desired to see the programs in color, a converter can be used.

(Continued on Page 73)

MR. TELEVISION

RECORD PRODUCTION YEAR

By JAMES D. SECREST, General Manager Radio-Television Manufacturers Association

James D. Secrest

THE radio and TV set production record of 1950 may well stand unchallenged for some years to come despite the capacity of the radio-television industry to better it. The reason, of course, is that military requirements for radio and electronics equipment and parts, plus raw material shortages, in all probability will cut heavily into civilian production throughout the national rearmament program.

The year has clearly demonstrated that television has put the industry into the big leagues, industrially, where it is likely to remain. But because of the vital importance of electronics in modern warfare a large share of the industry's productive capacity will be devoted to national defense indefinitely. In the event of an all-out war, all of the industry's resources will be so used.

Bearing out this production record, R-TMA has estimated TV receiver production during 1950 at 7,468,800 sets, while radio receiver output was 14,589,000. This estimate was made in February, 1951, with the figures representing production by both member and non-member companies. In 1949, only three million TV sets were produced and the figure for radio receivers was 11,400,000.

In 1950, a total of 8,174,600 radios went into home use; 4,740,600 were for automobiles, and 1,674,000 were portables. December production alone, representing a five week period, aggregated 858,500 TV sets and 1,505,600 radio receivers.

Sales of the sets manufactured in 1950 amounted to about \$1.5 billion—a gain of 67 per cent over dollar returns in 1949. Retail sales, of course, were proportionally higher.

Several new production records were established by the industry in 1950. Television receiver output was the highest yet

and 133 per cent above that of 1949. Radio receiving and cathode ray tubes, as well as most other set components, also were produced at the highest rates yet attained by the industry in civilian production.

Television, of course, was the spur that sped the industry on to its new heights. Its rapid growth and the public's insatiable demand for this new form of home entertainment amazed even the manufacturers, particularly in the face of a two-year-old "freeze" on new TV station construction and considerable public discussion of color television.

Only in the late fall did TV set sales start slipping, due largely to tighter credit requirements, an added excise tax, and higher prices. But it was expected that this decline would be offset by reduced production brought on by material shortages.

The year 1950 brought a pronounced public demand for larger television screens, with the result that 16 and 19 inch tubes became the standard and smaller sets were diminishing rapidly. RTMA statistics showed that in October more than 90 per cent of TV picture tube sales to set manufacturers were 16 inches or larger. Rectangular cathode ray tubes and tubes larger than 19 inches also were appearing in increasing numbers.

The proportion of radio-TV-phonograph combinations increased substantially in 1950 as the public indicated a growing preference for complete home entertainment in a single unit.

The sharp comeback in radio receiver sales, which began in the fall of 1949, continued throughout 1950 with the result that, despite the heavy television receiver production, the industry turned out approximately as many radio sets as it did in its greatest pre-war year, 1941, well before the days of commercial television.

Keeping abreast of the industry's progress, RTMA broadened its name to include television, added to its statistics and services, sponsored a series of Town Meetings for television dealers, and otherwise acted to serve the expanding industry.

TV'S PROGRESS IN 1950

By WILL BALTIM, TV Executive, Columbia Pictures Corp.

Will Baltin

TELEVISION zoomed into the "billion dollar class" during 1950 and took its place among the top 10 industries in the United States. Considering this was accomplished after only three years of commercial TV development, and with little more than 100 television stations serving limited sections of the nation.

the fact of its achievement is all the more staggering. Here's how the TV "picture" shaped up at the dawn of 1951: There were 107 television stations operating in 65 U. S. cities and 34 states, covering 65 per cent of the nation's population, or some 25 million families, who account for two-thirds of the nation's retail sales.

Forty-eight cities were interconnected for network TV programs via coaxial cable and microwave relay facilities. Forty-one of these cities were serviced through Bell System common carrier operations and seven by private relays. Network programs were fed for the first time southward to Greensboro, Charlotte, Atlanta, Birmingham and Jacksonville, and westward to Davenport, Ames, Kansas City, Omaha and Minneapolis.

More than 7,500,000 television receivers were produced during 1950, with production running as high as 800,000 a month during the latter quarter of the year. Retail value of these receivers was said to exceed \$1.5 billion.

Advertisers flocked to the new medium in tremendous numbers. During the final quarter of 1950, 4,500 advertisers were using TV, with network billings for the year estimated at \$75,000,000 to \$80,000,000.

while total billings, including local and spot business, exceeded \$100,000,000.

Employment in all facets of television soared to close to 200,000 according to available figures. TV stations and networks accounted for 5,600; receiver manufacturers over 90,000; distributors and retailers 60,000 and service technicians 42,000. Not included in the total are talent firms, program packagers, film makers and independent producers.

Color television became one of the most widely-discussed issues in the television industry when the Federal Communications Commission authorized commercial transmission of the CBS field-sequential system. The authorization was temporarily halted by a court order, following filing of a suit against the F. C. C. by RCA.

Two new systems of program transmission were introduced at the year's end, both of which would provide television with a home "box-office." In Chicago, Zenith Corporation experimented with its "Phonevision" system, transmitting motion pictures supplied by several major film companies to 300 test homes. In New York, Skiatron Television & Electronics Corporation aired tests of its Subscriber-Vision scrambling device via WOR-TV.

The "freeze" on new TV station construction entered its third year in October, with indications it would end during the late summer of 1951. It was feared, however, that world events, having precipitated a national emergency, might delay TV expansion during 1951.

Within two years—from January, 1949, to this January—television receiver circulation had increased twelve times. This means that across the Nation today, television brings its magic charm into 10,000,000 homes to entertain and inform an audience of approximately 40,000,000 Americans.

ADVERTISING EVALUATION

By FREDERIC R. GAMBLE, *President, A.A.A.A.*

Frederic R. Gamble

A YEAR ago this time, broadcasting and the rest of American business were facing a normal buyer's market. Now we face a mobilized economy, with little certain except uncertainty.

We can feel certain, though, that advertising will continue to be used and needed.

Some companies may even be able to step up their output and their advertising. Others will have shortages to contend with, and will need advertising to keep their brand names alive and respected and their distribution channels intact. Advertising will also work in the public service, on campaigns such as those of the Advertising Council.

There is growing recognition of the fundamental role of advertising in advancing our economy and helping to keep it healthy. Secretary of Commerce Sawyer, for instance, has consistently maintained that a strong American economy is the last hope of the world, and that advertising people have a vital role to play in keeping that economy strong.

We can be sure, also, that radio will have an important role, as a great mass advertising medium. The current estimates of more than 41,000,000 U. S. radio homes, and the upsurge in national spot sales, make it clear that radio is continuing to score its gains.

And television will continue to move ahead — even though there may be some delays, due to the FCC freeze, to the problems of color television, to shortages of vital materials and to cost adjustments — to become a new and powerful national medium.

In these years of responsibility and uncertainty and adjustment, it should benefit radio and television people to look to the fundamental structures of advertising in this country.

Many of these people have come to

broadcasting from other lines of business — the number of radio stations has doubled since World War II, and nearly all of our 107 television stations have been built since then — so that broadcasting may have special indoctrination problems.

Yet all of these people need to understand advertising. For broadcasting has no other source of income but advertising, and all its people are dependent on advertising in the final analysis.

As part of this, they will want also to understand the advertising agency. Over the years, the agency has proved itself as the skilled and productive source for national advertising in the U. S., responsible for a larger and larger part of stations' advertising volume and, in many cases, for most of their net profit.

Let me suggest two things, then, that I think forward-looking broadcasting people will want to know more about:

First is the need for sound principles of advertising agency recognition.

It is in the broadcaster's interest to insure as high quality performance as he can by the agencies with whom he does business. These agencies are responsible for the success or failure of their clients who use the station. When the agency is able, the broadcaster is helped; when it is weak, the broadcaster is almost sure to be hurt. For a successful advertiser is the station's best prospect for tomorrow; an unsuccessful advertiser is no longer a customer and, more than that, influences others against becoming customers.

Second is the customary 2 per cent cash discount, the financial safeguard for national advertising.

The 2 per cent cash discount is the payment stimulus allowed by media, who figure on it when setting the card rate, so that it does not come out of net revenue. It is passed along by the agency to the advertiser, who deducts it from his bill when he earns it by paying promptly. This leads advertisers to clear and pay advertising invoices ahead of other bills and puts agencies in funds to pay media by their due dates. It holds down credit losses, by giving agencies warning if the advertiser passes the discount date.

Max Liebman

Producer-Director

“Your Show Of Shows”—WNBT

C. A. B. MEMBERSHIP HITS PEAK

By MALCOLM NEILL, President, Canadian Association of Broadcasters

Malcolm Neill

THE Canadian Association of Broadcasters entered 1951 with the largest and strongest total membership in its history. The Association now embraces 102 of the 125 privately owned stations in Canada; and has additionally 26 associate members.

During the past year, the Association presented highly detailed submissions on private radio's case to the Royal Commission sitting in Ottawa. This effort was the most complete and detailed analysis of the present broadcasting situation and problems ever to be compiled. Officers and officials of the Association accompanied the Royal Commission on its tour of Canada and assisted individual stations in making their presentation.

Interests of member stations were protected at the NARBA Conference in Washington by Mr. George Chandler, of Vancouver, the Chairman of the Association's Technical Committee, and Mr. W. J. Bain, OBE, formerly of the Department of Transport, who was specifically engaged for this purpose.

Near the end of the year, some concern was caused by the appearance of "splinter" groups in the copyright field. Vigorous and detailed effort was required by the Association to protect the interests of its members in this connection.

A new French Language Division was set up with the full support and cooperation of French language broadcasting stations in Canada. A purpose of this Division will be to supply translation of important material to French language stations, so as to make these easily available for broadcast. The Division will also explain to advertisers the value of the French language market in Canada and assist them to utilize it correctly and with maximum impact.

The Sales and Research Division of the Association developed during the past

year a new and important pattern of research and comparison which has materially assisted and will continue to assist the sale of broadcast advertising to agencies and advertisers. These new research tools and techniques have aroused very considerable interest in advertising circles, in both Canada and the United States.

During the course of the year Directors and officials of the Association undertook an unusually large number of speaking engagements, presenting the problems of, and the case for, privately owned broadcasting to a substantial number of associations, clubs, societies and groups in virtually every populated center of Canada. Additionally, information was provided to a large number of official, semi-official and commercial publications.

The Association initiated and sponsored a move during 1950 to promote authenticated, impartial program popularity research. Plans are now under way to have specific techniques and methods laid down for program popularity research by a tripartite organization, similar to the present Bureau of Broadcast Measurement, or by the Canadian Advertising Research Foundation.

The Association's membership was saddened during the year by the loss of Mr. John J. Gillin, Jr., of WOW, Omaha, Nebraska, who, for many years, had regularly attended Canadian Association of Broadcasters' conventions and had achieved a position of unusual regard in the eyes of Canadian broadcasters. Mr. Gillin was referred to as the United States unofficial ambassador to Canada. The Association has now set up a Johnny J. Gillin Jr., Memorial Award to be presented annually to the Canadian station which has performed the most outstanding public service. The first of these awards will be made at this year's annual Meeting—scheduled for February 26 to March 1, 1951, at the Chateau Frontenac, Quebec City.

Regional Meetings were held throughout the country to discuss localized problems, and to permit a more detailed discussion of national problems. The pattern of regional meetings will be extended and enlarged during the current year.

DINAH SHORE MOST POPULAR FEMALE SINGER

By DR. GEORGE GALLUP

Princeton, N. J.

Dinah Shore, star of screen, stage and radio, is voted America's favorite female vocalist in a nation-wide survey by the American Institute of Public Opinion.

Besides being singled out as the top favorite of the U.S.A., Miss Shore also enjoys wide popularity in England where she went recently to sing at a common performance before the King and Queen . . .

From coast to coast a balanced cross section of voters was asked:

Who would you say is your favorite female singer?

All names were volunteered by the persons interviewed; no lists were used.

A REVIEW OF RESEARCH

By **BILL NOBLE**, Associate Editor, *Radio Television Daily*

Bill Noble

RESearch in radio and TV audience measurements continued, during 1950, with the familiar words, "coincidental," "recall," "aided recall," "diary" and "automatic"—all useful in the field of measuring the audience, but none emerged as the sole device which would cause the advertising

time-buying departments to catch the 5:15 home for an early dinner.

The constant refining of methods, however, which has been going on since the first measurement efforts were made back in the thirties has continued, so that "ratings," "indexes" and whatever other name is used are now established, at least in the time-buyers mind, as indicative that the hour or program has a substantial share of the audience, if noted.

With radio having reached what advertisers consider the saturation point, less stress is laid on the number of radio homes or radio families in a given area. The old rule of calling every home with the 0.5 MV/M a primary home, daytime, is still used extensively, while the most recent BMB county figures continue to have a value to the advertiser or agency.

Results of the 1950 Census of Population, published up to now, show the tremendous relocation of our population which has occurred during the past ten years. Researchers, of course, have been cognizant of the fact but once the Government releases the final population figures they can be taken as the basis for projections in the years to come.

As an instance of the shifting of markets during the past ten years, while the nation gained 14.5 per cent in population, 1940-1950, the Pacific Coast States showed gains of 37 per cent in Washington, 39.6 per cent in Oregon and 53.3 per cent in California. On the other hand, three states, North Dakota, Mississippi and Oklahoma actually lost population—and twenty-five other states had gains less than the national increase of 14.5 per cent.

All this adds up to the need of a re-

shuffling of thoughts concerning markets and their potentials—and also of the ways to reach the buying public.

As a mass medium, radio, now at its saturation point, can give the advertiser the greatest market ever available in the history of communications. Home radios, plus car radios and portables, afford the opportunity for mass impressions never before extended to the advertiser.

Meanwhile, 1950 saw TV surge into the picture as an advertising force to be reckoned with. As of the first of the year there were 10,000,000 receivers in the hands of the public with a potential viewing audience of 40,000,000.

As in radio, research firms sought to "rate" programs as to popularity by the various methods previously employed for the audio medium and while programs in the top brackets were more or less uniform, in the findings, those shows of the lower stratum of the "first ten" or "first fifteen" showed surprising jumps in and out of the select circle, whether by national or city rating.

A TV program which has had a consistently high report, week after week, can be considered to be one of the air's popular features. Nevertheless, it is true many shows that never reach the "inner circle" of being reported have substantial audiences. Here, it may be that the attempt to use radio audience reaction techniques has caused a distortion of normal human reporting in "what they saw." It may be that the newer attempts to add up the audience, via the mechanical means now available, will produce satisfactory results.

It must also be remembered that the ownership of a radio set is a fact today—and this goes for individual ownership throughout the family. A TV set, however, is, with only few exceptions, a family ownership partnership, and many programs which can be reported "on" whether by coincidental or through mechanical means do not accurately reflect the wishes of all the persons in the family.

However, both radio and TV seem here to stay. And with the experience of nearly twenty years of research into what people listen to and look at, the simple answer to program popularity still is—GIVE 'EM A GOOD SHOW. They'll listen or look.

U.N. RADIO—NETWORK FOR PEACE

By PETER AYLEN, Director, Radio Division, United Nations

Peter Ayles

IN Mr. Trygve Lie's 1951 New Year's message to member states of the United Nations, we find this following closing paragraph: "No one can foresee how long the dark and dangerous days through which we are moving will continue. But whatever trials may lie ahead of us, we can be sure that the United Nations goal of a peaceful

world will in the end prevail, provided the nations remain loyal to the Charter and to the Organization."

Mr. Benjamin Cohen, Assistant Secretary General for Public Information, has frequently stated that the United Nations will require the fullest measure of support from an enlightened world public opinion. Radio has demonstrated itself during the past five years as perhaps the most effective medium in disseminating United Nations information. Since it is not beset by newspaper shortages, transmission or transportation bottlenecks, foreign exchange scarcities across borders, it reaches millions of the educated and illiterate alike in all languages and dialects.

The deepening political crisis and the aggression in Korea inevitably added enormously to the demand for informational material of all kinds about the United Nations, and placed heavy strain on the limited resources of the Department of Public Information. Less than one hour after the first meeting of the Security Council on the Korean question, on June 25th the United Nations Radio began daily newsbroadcasts in Korea, and from then on, through the General Assembly there has been a constant stepping up of radio service of all kinds.

Both in the United States and overseas, United Nations Radio coverage reached an all-time high during 1950. Daily programs were transmitted regularly in 31 languages including Pushtu (to Afghanistan), Urdu (to Pakistan),

Tagalog (to the Philippines), etc. These programs including newscasts and feature programs prepared by the various services of UN Radio as follows: English Language Service, European and Middle Eastern Service, Latin American Service and Trans-Pacific Service. The actual proceedings through simultaneous interpretation were broadcast in English, French, Spanish, Chinese and Russian. This was made possible as an emergency service through the generous cooperation of the Voice of America, Radiodiffusion Francaise, the British Broadcasting Corporation, Radio Leopoldville and Radio Australia. A staff of 90 international civil servants, drawn from broadcasting systems of member states, carries on the administrative and production services; with some staff members on assignment in the field, one stationed in Korea at present.

U. S. COVERAGE. Year Book readers will be interested to learn that UN coverage continued to expand during the past year. It is gratifying to announce that during 1950 about 1,500 stations, representing five networks and many independent stations, have carried UN daily and weekly programs.

The oldest scheduled program is UNITED NATIONS TODAY (a Peabody Award winner in 1948) which is aired regularly over 150 stations from coast to coast five days weekly, frequently by other stations affiliated with the Mutual Broadcasting System.

Memo From Lake Success, now in its third year, released by the Columbia Broadcasting System, is a weekly 15-minute feature with exclusive interviews or strategic news roundups.

During the spring and summer, the National Broadcasting Company and the Mutual Broadcasting System feature two series of significant documentaries, supervised by Mr. Norman Corwin.

With the inauguration of the Liberty Broadcasting System, another daily series was begun in October, called Spotlight on the UN.

In addition to these network programs, 450 American stations carry a weekly transcribed feature entitled UN STORY.

Kate Smith

R.E.C.—AN INDUSTRY FORUM

By ROBERT SAUDEK, President, Radio Executives Club of New York

Robert Saudek

THE past year has witnessed more controversial issues within the industry than any year since the founding of the Radio Executives Club of New York.

I hope the Club's record for 1950 will measure somewhere near standards set for the organization by the REC's founding fathers back in 1939. At the time the Club was formed

its specific aims were to bring the members together to promote better understanding of problems facing the industry, and to provide for the proper dissemination of information pertaining to industry developments.

With the invaluable assistance of the Club's officers and Advisory Council, this year the REC has served up to its members factual reports from the principal interested parties on both sides of such controversies as Red Channels and Color Television. It also provided an industry forum on the important role which radio and television are to play in the New York State Civil Defense picture when Gen. Lucius D. Clay, Chairman of the New York State Civil Defense Commission, opened the 1950-51 REC season with a report on the Empire State's plans in the event of an A-bomb attack. Questions from the floor, with direct replies from the guest speakers, gave members a thorough briefing on the primary issues before the industry this year.

New departures from old Club traditions were inaugurated in 1950 with the generous assistance and approval of REC members and officers. Attendance at the Club's luncheons this year is running well ahead of average. This, I believe, is partly due to the hearty endorsement the membership has given to the decision to hold these meetings in the Hotel Waldorf-Astoria.

The club took a quick survey on the question of membership at one of its

meetings this year and found that on the average every other person at the luncheon was a non-member. This is an optimistic and altogether healthy sign for the REC because it means that so many of its members find the meetings of such major interest that they are inviting their industry friends to our forum. Eventually, it is hoped that these non-member luncheon guests will themselves become full-fledged REC members.

Another innovation at the REC this year is the five-minute newscast which opens each luncheon. This is rotated among the networks and independent stations in this area and among the editors of the leading radio, television and advertising journals. Under this procedure a newscaster delivers the latest national and international news and a trade paper editor provides the REC with a quick rundown on the day's developments in radio-television and advertising circles.

Shortly after the Christmas program in 1948, the Radio Executives Club Student Emergency Fund for City College of New York students was established with \$1,100. This Fund has been instrumental in rendering financial assistance to worthy students. Since it was set up the Fund has been repaid 100 per cent on all loans it has made. Incidentally, the loan turnover approximates \$200 a month. At one point a grateful student repaid his loan together with an additional \$20. This has been added to the Fund which now stands at \$1,120.

I would like the record to show my appreciation of the many who have been so generous with their time and efforts to help the Club advance. This naturally includes the press who generously opened their news pages to us with full and complete coverage of REC meetings, and specifically to *Radio Daily*, for providing space in the paper to advertise each of the Club's meetings. Of those who have cooperated with me to the fullest possible extent, I would single out Claude Barrere, REC's indefatigable Secretary, Jack Brooke, REC's Treasurer, ABC's Jack Pacey, who headed REC's House Committee and Dave Alber, who handled the Club's publicity, for their efforts.

RADIO AND TELEVISION

FOR COCA-COLA

TELEVISION NEWSCASTING

By JOHN CAMERON SWAYZE, NBC-TV News Commentator

John C. Swayze

THE other day Mrs. Swayze and I were having dinner with some old friends from Kansas City who had just bought a television set but had not yet had it installed. Said one of them:

"If you don't mind talking shop for a moment, tell us something about how your program is put on."

As I sketched the workings of the News Caravan I mentioned in passing a film of an event which had occurred earlier in the day and had been on that evening's show.

"You mean," the friend interrupted in genuine amazement, "that you show pictures of an event the same day it happened?"

And suddenly it was brought home to me that to many parts of the United States some of the wonders of television are still startling. The East grew up with television. Most of the rest of the country did not. Growing up with it, a person is apt to lose sight of the strides that have been made in the staging of programs for the eye as well as the ear. I remember only a little more than two years ago when NBC started its TV news programs via mobile unit from the news room in the RCA building. What went out then wasn't apt to startle anyone, even if they had never seen TV before.

As it moves westward to link up the stations of the nation television more and more is changing the habits of Americans. In the case of the Caravan, for one thing we're doing much to change the eating habits of the populace.

Cartoonist Milton Caniff tells me he and his family now desert the dining room to gather 'round the set to see the news with plates on knees.

Quentin Reynolds says it has altered the dinner hour in his home.

H. Allen Smith says he and his family

have become "living room" diners and he sounds the complaint:

"It's changing our diet. You can't eat steak off your lap. We're becoming a family of meat ball eaters."

All this is interesting and I'm happy to have been in on the birth of network television news. But, boys, it's a much tougher racket than radio. As Henry Cassidy, NBC's European news director once said:

"We didn't realize how well we were off with just radio."

Being seen as well as heard requires more of the newsman on camera as well as from the staff that must handle the other multitudinous details. Slipups can be much more embarrassing than on radio, which in this respect was no slouch itself.

Currently, the News Caravan is being shown in a limited number of motion picture theaters, which break their regular program to conform with the Caravan's schedule and show it in full on their large screens. It is possible it may eventually be in a great number of theaters. This is a development, an offshoot of straight TV, so new its destiny is still anyone's guess.

Another sidelight on TV news, especially during the Korean war, concerns requests. In many cases members of the audience suddenly saw a husband, son or brother on the screen before them as they watched our films from the battlefield. Naturally, they wrote for a copy. In each case we've been able to furnish a film clip from which any photographer can make an enlarged print.

This is a service which television news departments will probably always be called upon to provide, for even in peace people who see themselves or their relatives on the screen in a parade or wherever are apt to want a copy. Such requests should be filled. Totally aside from the public service, can you think of any better good will builder? And when you lose the good will of your audience the people are no longer your friends. Then look out!

FUTURE OF TV IN MEXICO

By **DON EMILIO AZCARRAGA**, Mexico's Leader in Radio, Movies and TV

Emilio Azcarraga

AFTER thirty-five years of paternal dictatorship, old President Porfirio Diaz went into exile. This happened in 1911. At the time, the City of Mexico had a half million inhabitants.

From then on, the ancient Tenochtitlan of the Aztecs has experienced a dizzy growth. Her population has multiplied five fold. Neither the

armed struggle of our civil war which lasted many years, nor the political convulsions, nor the radical social reforms, nor the frequent earthquakes have been able to stop its tremendous growth, physically and in spirit. Today, the City of Mexico is a metropolis with a surface area of approximately 400 square miles and a population of two and a half million inhabitants.

To this City of great contrasts, of sumptuous mansions and miserable hovels, but which is capable of offering all the comforts and refinement of modern civilization, comes today the most extraordinary invention of the century: TELEVISION. The immediate question is: What will happen in Mexico?

I shall begin by mentioning Radio and Movies, which are the natural allies of Television.

The City of Mexico has thirty different commercial broadcasting stations. Two of these are part of my organization; Station XEW and Station XEQ. All of the thirty stations have plants of good quality and most of them are well operated. However, for many years past, XEW and XEQ have dominated and amassed 85 per cent of the total radio audience in Mexico and these same stations handle 80 per cent of all the commercial programs allocated to Radio. Live broadcasts fill sixteen hours daily in XEW and twelve hours daily in XEQ. More than 300 musicians go in and out of these two stations, every day. Ninety per cent of all radio talent on our stations are Mexican born, and a large number of artists have been with us many

years: singers, comedians, producers, dramatic actors, commentators, etc. Nearly all of the Mexican popular music composed in the last 20 years has been promoted and exploited through our microphones. Curiously enough, on the greater portion of the southern border of the United States, these two stations have a greater listening audience in the bilingual towns than any of the American Stations.

All of the above does not mean to imply that we consider ourselves the "intelligentsia" of Radio; but it does make us realize that we must have some fairly good ideas. In quality, not in quantity, our Radio industry does not suffer much by comparison with that of the United States. American Advertising Agencies in Mexico can testify to our high standards.

In the Mexican movie industry which, little by little has dominated the Latin American markets and has made incredible gains over Hollywood, Argentina, England, France and Spain, production this year will reach more than 120 films and the box office receipts have also shown a steady increase. Our company is a very large stockholder and director of the Churubusco-Azteca Studios, where 60 per cent of all long feature Mexican films are made. This City is the home of hundreds of motion picture actors, directors, writers, adapters and fine cameramen. In this country we seem to have nearly everything, especially when we speak of arts and crafts, an environment which offers a solution for whatever problem that may arise. Our Churubusco-Azteca Studios have been constructed and equipped without curtailing costs. It is our proud feeling that no better studios exist anywhere.

Even if we seem to sound slightly immodest we can say that we have the "know how" in Radio and Motion Pictures. We know and understand the everyday family life, the psychology, ideals and common beliefs of our Latin American brothers.

And now Television is here. It is, of course, the natural continuation of our activities in Radio and the Motion Pictures. I feel that it has become our obligation to the people of my great country.

SPOT RADIO CLIMBING

By *FREDERIC W. ZIV, President, Frederic W. Ziv Company*

Frederic W. Ziv

THE trend on the part of national, local, and regional advertisers to sponsor transcribed-syndicated shows, continues to grow stronger.

Advertisers in increasing numbers are investing their money in open-end transcriptions because it is by now a proven fact that shows such as "Bold Venture" can accomplish nothing

short of miracles for the advertiser who has bought it for his city or region.

In short, "spot" radio is bigger than ever, and growing even bigger.

Why? Because the philosophy of advertisers has become more realistic than ever before. Every dollar spent in radio advertising must have a meaningful purpose. There must be no dissipation of funds.

And, having been equipped with a tool such as transcribed-syndicated programming, the advertiser and his agency can now literally make every dollar count. He can select city-by-city, region-by-region the ones in which he has to do the most concentrating. Then, to help him do the job, he can buy a top-drawer program, featuring the nation's greatest entertainment personalities and top production values, and put it on the air in that city or in that region where it will do him the most good.

In other words, it is no longer necessary for him to buy a program which reaches areas of no interest to him whatsoever. Thus, with none of his money wasted in such areas, he is able to get full dollar-for-dollar value from his invested money.

Another tremendously important factor in the continued growth in importance of the transcribed-syndicated industry, has been that the leaders in the field have cut no corners to bring out the finest possible product.

The production budget per half-hour show for "Bold Venture," a transcribed-syndicated show, is \$12,000. In Humphrey Bogart and Lauren Bacall, this show

presents two of the finest and most popular actors in the world today.

This, then, is the trend—spare no dollars to produce the highest caliber show in order to insure that the buyers will be provided with a sure-fire audience puller.

It becomes increasingly clear, as the months go by, that television is not the entire reason for the prosperity of the "spot" radio industry.

It is true that many national sponsors who have put heavy money into television have also put money into "spot" radio to help them do a job in those areas where television does not penetrate deeply enough. It is also true, however, that the "spot" radio industry is standing on its own healthy feet. Advertisers in increasing numbers are buying open-end programs, because the programs themselves are of such high quality that they are a match for, or superior to, other types of programming.

Open-end transcribed programs have many advantages, for local and national advertisers alike.

To the local sponsor, such programming affords the opportunity to present big names, such as Guy Lombardo and Humphrey Bogart, or an established character, such as "Boston Blackie" or "Cisco Kid," as his very own in his community. The local sponsor's own sales message is delivered by his own announcer in the open spots left in the program for that very purpose.

To the national sponsor, such programming insures that his prestige will be maintained in the cities and areas in which he is aware he must concentrate more than in others. He is buying a smooth, high-budgeted production, and he is buying a "name" with which to attract listeners. At the same time, he, too, is able to present his open-end show with that personal touch afforded by the local announcer and local promotions.

Both local and national advertisers are moreover buying a flexible tool. They can select the most advantageous time, day, and station and build a big listenership, and get maximum value per dollar spent.

It is precisely because of the plus values of transcribed-syndicated programming that we, the producers, have found our programs increasingly easier to sell.

PROBLEMS OF THE DUAL OPERATION

By D. L. PROVOST, Business Manager, WBAL and WBAL-TV

D. L. Provost

IT might appear that the dual operator, who is running both a radio and television station, would be Mr. Bayer's largest customer. It doesn't take a CPA to figure two operations should have double the headaches of the single operation. What most people overlook is the fact that while the quantity of problems

is there all right, the dual operator has compensating factors in that he has some control over the cause and effect of these problems.

Let's just briefly look at some examples of this in terms of the special problems that confront the single operator. We will start with radio.

Radio is faced with skidding rates, traceable in many instances to television competition. Whoever thought the day would come when the highest rated programs would be in the daytime? The radio station owner hears plenty from his clients on this theme. The dual operator gets his ears bent plenty, too, but he is in a more fortunate position. He can look at this situation with more composure because he has nice fat ratings on TV to talk about.

In radio, there has been for the last year quite a turmoil over rates. Of course, Excess Profits Tax and war production may quiet this hubbub. Even if it doesn't settle down all together, however, here again is an example of how the dual operator is in a position to look at this situation more calmly for he has had the pleasant experience of seeing his TV rates move forward.

Right here I would like to point out that WBAL is one of those stations which, in the face of uncertain rates and possible loss of audience, has taken a positive approach to this problem. We are developing a merchandising department in order to give our AM clients a helping hand with their products in the grocery, drug

and chain stores. This station is developing, and putting on the air, programs which lend themselves to merchandising the sponsors' products. With strong merchandising help, they are getting far more for the money spent with us than they have in the past; more than they would by putting their money on stations which do not offer this service. Sure, our expense is up, but so is our revenue. We have been running ahead of 1949 . . . and this in spite of being in one of TV's most active markets.

From our experience we know when radio goes out and actively helps the clients, through merchandising and promotion, this business has nothing to fear from the future.

Now let's turn to the problems facing the television operator, who in this lush year grabbed his shirt-tail just in time to keep the whole shirt from going out the window, only to turn around and find the hot breath of the Excess Profits Tax melting his hopes for quickly making up earlier losses. This is no less a problem to the dual operator, but he's got his old reliable friend, radio, to bolster his morale. This Excess Profits Tax comes along at a time when television is caught with high costs . . . while facing drastic set production curtailment. This means no rate increases. While this is a problem to the dual operator, it's another example how he can ride the tide because while TV rates may not move up, the chances are radio rates won't go down. Also, if the advertiser reacts to the current Excess Profits Tax, as he did during the last war, radio revenue should mount.

Having touched upon the single operation, let's now look at those problems which are applicable to the dual operation alone.

It would seem the most pressing problem facing us is to make sure that radio does not get trampled on, and does not get kissed off by the sales staff, the program, technical and all other departments, whether these departments are integrated or separated. It is necessary to keep a sharp watch on the physical setup, or one finds suddenly that his television operation, growing like a brush fire, has

(Continued on Page 107)

WILLIAM BOYD
"Hoppy"

TV: PAST, PRESENT AND FUTURE

By DR. ALLEN B. DU MONT, President Allen B. Du Mont Laboratories, Inc.

Du Mont

TELEVISION'S growth in the years since World War II is best summed up in the single word, "fabulous." Its present status, like that of every industry, is uncertain. It will remain uncertain until the national emergency has been removed. When that happens, television will expand at a rate that will make past

accomplishments seem puny. It will quickly become as much a part of our lives as the automobile, the wonder drugs, the airplane and the other miracles of modern science.

The year 1950 saw the production of seven-and-one-half million television sets, a figure no expert would have dared to predict at the start of that year. It also witnessed the number of television stations rise to 107 with 80 stations interconnected and 27 non-interconnected.

This expansion was effected despite new consumer credit restrictions incorporated in Regulation "W" of the Federal Reserve Board, the FCC freeze on the construction of new television stations which seriously cut down the number of new markets for the industry, the confusion resulting from the question of color television and shortages induced by the international situation.

The expenditures of associated industries, such as advertising, expanded on a similar scale. Although television does not yet have coast-to-coast networks, it already commands tremendous audiences. During the past year advertisers became increasingly aware of these audiences and eager to sponsor new programs.

A second factor, the tremendous power which TV exerts as a sales force, also helped account for the increased advertising revenues. Radio long ago proved itself as a potent sales tool. But at the beginning of 1950 some advertisers still had to be convinced that television could justify its higher costs through increased sales. Any lingering doubts were easily

wiped out during the past year which saw some companies using TV as an advertising medium increase their sales over 35 per cent in TV areas as compared to sales in non-TV areas.

The large scale entry into TV by big advertisers also brought big name stars to TV in large numbers for the first time. While there had been a few stars in the new medium previous to 1950, program budgets as a rule were not large enough to use the top talent of Hollywood and Broadway regularly.

That picture changed radically during 1950. The increased sponsorship has enabled networks to present a wide variety of first class dramatic, musical and comedy programs with topflight talent as guest stars or regular performers.

For the year of 1951, the big problem will be production. The full impact of the defense effort will not be felt until Spring or early Summer. But restrictions on basic materials and shortages of small parts used in receivers already have made it obvious that production will be cut drastically. There will also be fewer technicians left for civilian production because the industry will be concentrating on government work.

Indications are that production in the later part of 1951 will be between 25 and 50 percent of what it was in 1950.

Shortages and increasing costs of basic materials will mean eventual higher prices. But the picture is changing so fast that it is impossible to tell when price rises will come or what they will be. Shortages should not affect sets already in existence because there are sufficient replacement parts for such sets when they need repairs.

Where color TV is concerned, recent court and FCC decisions plus demonstration of newly improved all-electronic color, has indicated the instability of the color situation. It will be a considerable time before the question can be settled. The color question for 1951 will be mostly an academic one.

The problems we face in 1951 are not of our own making. They are created by those who are trying to destroy free society. They are our big problem.

The television industry will do its part in helping to settle that problem.

(Continued from Page 41)

With an incompatible color system, present set owners would not see any picture unless they installed adapters. Even if an adapter for color reception is installed, the black-and-white picture is degraded from 200,000 to 80,000 picture elements.

It would cost the public approximately \$500,000,000 to adapt the 10 million existing sets to an incompatible system. With the RCA compatible system this unnecessary tax upon the public is avoided.

RCA is a staunch advocate of color television, realizing its great advantages and potentialities, as well as its psychological effect. That is why RCA has so aggressively pursued every possible phase in all-electronic television development. It has spent millions of dollars in research and engineering in backing its faith in an all-electronic system.

Historically significant was RCA's introduction of the first all-electronic tri-color tube. Upon the face of this tube appear clear television pictures in full color and unlimited in size. It eliminates the mechanical whirling disk. Demonstrated publicly for the first time in March, 1950, this tri-color tube was heralded as an electronic miracle of the age.

Radio and television broadcasters do not enjoy the freedom of other industries. Before they broadcast on the air, they must necessarily obtain licenses from the Federal Communications Commission. Radio, in its advance, has passed through many trials and tribulations, and now television is passing through similar experiences.

Because of the uncertainties of the international situation and the great importance of having America fully prepared for any emergency, the radio and television industry, like other industries, is faced in 1951 with restrictions on normal expansion.

The Radio Corporation of America has pledged to the President of the United States its fullest cooperation in the national effort to resist aggression and to help preserve world peace. RCA is "at the ready" with all of its resources, facilities and manpower to do its part in helping the Nation to emerge from the crisis into a new era of peace and prosperity.

FUTURE OF TV IN MEXICO

by

DON EMILIO AZCARRAGA

(Continued from Page 65)

We do not know all the potentials of this great art but can only hold up our dampened finger to the wind. Time and experience will teach us. We hope to clasp hands with the peoples of this continent that speak the same language.

TELEVICENTRO, the group of buildings that will house our Television and Radio activities, and which we expect to have ready for inauguration in March or April 1951, will be a great center for the production and distribution of educational and entertainment programs in Television. The total value of our buildings and equipment will amount to three million dollars, or twenty-six million pesos. When completed, we shall have 120,000 square feet of construction.

One of the permanent obligations of all Latins Americans is to be on watch against the old chronic disease of "dictatorships." We must defend Television so that it will not fall into their hands.

This cannot happen here. Our Government, after a careful study of British and other proposed governmental monopolies, decided that Television in Mexico should be left in the hands of private enterprise. The actual truth is that 98 per cent of our government officials and politicians have never cared to interfere with the Radio, the Press and the Movies. I am sure the same good judgment will apply to Television.

The manufacturers of Television receiving sets in the United States should aid Television in Latin America, if they are interested in new and extensive markets. The pioneers of Television, the most progressive and far-sighted should begin preparations for their extension on a large scale to foreign markets. In Mexico we welcome the great contribution to television by the United States.

In Mexico we are willing and ready to accept the task of producing professional Television programs. We are unafraid because we have at hand the necessary talent, the experience and the knowledge of Radio and Motion Pictures.

I have been asked by Radio Daily how I feel about Television in Mexico and this is my answer: I do not feel like an inexperienced bride who is being married for the first time, but like a divorcée who is willing to take the plunge for the third time.

GROWTH OF TV REVIEWED

By FRANK M. FOLSOM, *President of RCA*

Folsom

TELEVISION'S popularity in 1950 mounted with such expanding vigor that by year-end this new art and industry had outdistanced the progress of all of its previous years combined. As 1951 bowed in, the New York metropolitan area alone had more than 2,000,000 sets with an estimated viewing audience of 8,000,000

men, women and children.

Within two years—from January, 1949, to this January—television receiver circulation had increased twelve times. This means that across the Nation today, television brings its magic charm into 10,000,000 homes to entertain and inform an audience of approximately 40,000,000 Americans.

During 1950, the public backed its appreciation of this new broadcasting service by spending a billion and a half dollars for sets—an amount exceeding by more than 100 per cent its purchases in 1949, television's third and best postwar year. To meet these demands, television manufacturers expanded facilities wherever possible and stepped up production schedules to such an extent that in a single month more sets were made available to the public than during the entire year of 1948.

Theatre television, with giant projections of special events on screens of motion picture houses, began to spread across the country in 1950. Installations of RCA Victor's new system were made in a number of cities, including New York, Boston, Washington, Chicago and Los Angeles. This was believed to form the pioneering basis for an independent theatre television network which would supplement regular film fare with special offerings to attract the public. By year-end one large theatre chain was planning for installations in 71 theatres from Yuma, Arizona, to San Francisco.

RCA Victor's 1950 line of home television receivers led the market in popularity. Eighteen models were offered, in-

cluding three with 12½-inch picture tubes, eleven with 16-inch tubes and four with 19-inch tubes. During the year, nearly 70 per cent of the total RCA Victor production was devoted to sets with 16-inch tubes, the overwhelming choice.

The greatly enlarged television audience spurred broadcasters to superlative efforts in extending networks and improving programs. For instance, when the present construction plans of the National Broadcasting Company are completed, NBC's investment in television will be between \$35,000,000 and \$40,000,000. Plans call for the acquisition of more top talent and the start of morning network programming as the number of sponsors increases.

NBC's commanding lead in all phases of television broadcasting is expected to increase as 1951 progresses. The plan is to provide entertainment of such quality and variety that increasing numbers of set owners will be attracted to the NBC network. At the same time, efforts will be made to provide the finest cultural and informational programs.

Among the mammoth tasks of expansion completed by NBC in 1950 was the building of a line-up of talent for programs that could be produced at the rate of a hundred a week. Other tasks included the leasing and transforming of the world-famous Center and Hudson Theaters, in New York, and conversion of three large radio broadcasting studios into suitable locales for the production of the great new television shows.

Television's success in the United States caused progressive groups in a number of countries to begin in 1950 an active participation in the new art. During the year, two television stations were opened in Havana, Cuba, one each in Mexico City and Sao Paulo, Brazil, and plans for a Canadian station were being studied. A third Cuban transmitter is expected to go on the air early in 1951. All of these stations are or will be RCA-equipped throughout.

Expansion of television outside of our borders is of tremendous significance, for it brings closer the day when there can be an exchange of programs, of ideas and culture, to improve understanding between the nations of this hemisphere.

DON McNEILL TV CLUB — ABC-TV

ET LIBRARIES BUILD PROFITS

By A. B. SAMBROOK, Manager, RCA's THESAURUS Sales

A. B. Sambrook

THE radio station that isn't making money from a library service today should investigate and review the highly developed facilities and advanced sales techniques now available to make a transcription service pay for itself.

For all too long, broadcasters have looked upon their library as a source of good music to

build fill-in programs for sustaining and participation periods. Sometimes, when a library supplied opening and closing themes by one of its talent groups, "more showmanship and production" could be used as a sales argument to influence local advertisers to sponsor a complete program. But, as a rule, stations felt that music alone was not enough to interest more than an occasional sponsor in paying for a complete program.

With such limitations on showmanship and sponsor appeal, phonograph records became a competing factor of increasing importance . . . and this competition has resulted in the sensational advance, during the past 18 months, toward the new era of big-name, audience building shows and money-making sales from transcription library-built shows.

What are the highly developed facilities and new sales techniques that make a library pay for itself today?

To appreciate the new era in transcription libraries, one has to understand the basic change in the thinking of the producer who now starts to plan his new talent and programming from the concept: "Will the program build audiences . . . sell sponsors . . . make money for the subscribers?"

This new concept, as created by RCA's THESAURUS Library, requires the new talent and program to be test-proved in listener popularity and audience-building power, to be well known to sponsors, ad agencies and to other buyers of radio programs, and to be easy-to-sell.

In producing the show, THESAURUS transcribes opening and closing signature themes identified with the artist, special voice tracks by the master of ceremonies or conductor as well as voice tracks that introduce the featured artists and local announcer. To sell the program, THESAURUS has designed new sponsor-sales tools which provide a more effective sales approach to the prospective advertiser.

The application of this new concept by RCA's THESAURUS is well illustrated by its show, "THE WAYNE KING SERENADE." The Wayne King brand of entertainment has an established following in every home, and the great success story of its sponsors' sale of merchandise and services is known throughout radio advertising circles. THESAURUS supplies subscribers with an especially prepared sales brochure which tells the Wayne King success story to sponsors and sells the program. An especially produced sales audition disc is provided to demonstrate the program and tell the sponsor about the commercial periods for his advertising messages. The audition disc is backed with special publicity and audience-building announcements by Wayne King and featured artists to show the prospective sponsor how his program and broadcast schedule can be given a personalized promotion build-up by the stars of his show.

Commercial jingles, which have proved so successful for local sponsors, mark another development in the new era of transcription libraries. Including Time and Weather jingles, commercial jingles for many types of sponsors are now supplied in libraries, earning added income for the subscriber.

Today, broadcasters agree that a station cannot afford to be without a top-notch transcription library. The big-name, easy-to-sell, audience-building shows and money-making jingles, plus diversified all-around program-building resources, make a transcription library the greatest source of low-cost programs ever available to the radio industry.

In view of developments in the broadcasting field to date, the transcription library retains its programming leadership by paying its own way.

THE FUTURE OF FILM IN TV

By *BILL PARKER*, Associate Editor, *Radio Annual*

Bill Parker

INDICATING a tremendous growth in the use of film in television, a total of 6,500 hours of television programming were film-recorded by the four major TV networks during 1950. By percentages, over fifty per cent of the network programs of ABC and DuMont and over sixty per cent of those of NBC and CBS were being film recorded at the

time of this writing. While the experts continue to debate the quality and cost of film production versus live production, the trend continues toward recording on film virtually all network programming with the possible exception of news and sports coverage.

Major reason for the use of film in television is, of course, time clearance, which will undoubtedly become progressively worse until the FCC freeze is lifted. A few examples of the time clearance problem are illustrated by the following shows which are among the tops of their respective networks: NBC-TV's Garroway at Large, carried live to 29 markets and on film to 22; DuMont's Star-Time carried live to 11 markets and on film to 17; CBS-TV's Morton Downey show, live on 15 stations and on film over 21; and ABC-TV's Don McNeil show carried live on 18 stations and on film by 10 stations.

In addition to the transcribed and kine-scoped programs mentioned above, there is also an increasing demand for programs filmed expressly for television. As the quality of filmed packages has become higher while costs have decreased, more and more advertisers the past years have requested that their advertising agencies investigate the feasibility of farming out their "live" shows to TV film producers.

The cost for filmed packages is most often the same as for live shows (as will be shown by the following figures); however, the cost can be varied from considerably less to considerably more. Costs can be made less by the saving in rehearsal time, or they can be made con-

siderably more by the desire of the producers to exploit the versatility of movie production—shooting outdoor scenes and trick shots.

General Mills spent \$13,000 per film for the "Betty Crocker Show," \$15,000 for "The Irwins," and another \$15,000 for "The Lone Ranger" (which was frequently among the top ten in the national Nielsen ratings). "Fireside Theater" was produced at a cost of \$14,500 per film for Procter & Gamble. The program was shown over the NBC network in 31 markets and rated "second" place in the national Nielsen ratings several times. "Life With Linkletter" was filmed for Giant Green Peas at a cost of \$7,500 per program; "The Gene Autry Show" at \$17,500; "Truth or Consequences" at \$15,000; "Magnavox Theater" at \$22,500; "Stars Over Hollywood" at \$10,000; "Smilin' Ed McConnell" at \$4,500; "You Bet Your Life" (with Groucho Marx) at \$6,000; and "Party Time In Club Roma" at \$3,000.

Reducing this cost to sponsors, there are many cases in which the sponsors and producers share revenues from subsequent runs of these films, although it is generally customary for the producers to retain the rights alone.

According to an analysis by the Paramount TV Film Network, comparatively few advertisers want or need national coverage. Many more want regional or local coverage. Limited advertising budgets handicap their desire to use TV because they are bound to be dissatisfied with anything less than big-time entertainment. The solution, they say, lies largely in filmed shows—in shared costs—through local sponsorship of a network show or purchase on a spot basis of a syndicated filmed program. Most stations were found to be eager to sell filmed shows to their local sponsors because they, the stations, then receive all the full rate payment for facilities instead of the percentage (usually one-third) that the networks are able to pay them.

In addition, the problem of inadequate cable facilities to serve all the networks may continue with us for some time under wartime material restrictions. Many TV stations will be forced to continue operating on a local basis, thus adding greatly to the role of film in TV.

LONG RANGE ET SELLING

By *ROBERT W. FRIEDHEIM, Sales Manager, World Broadcasting System, Inc.*

R. W. Friedheim

THE most significant step forward taken by program service firms during the past year, has been our development of full-scale Sales Planning Campaigns.

No longer does our industry merely supply programs and features to member stations. We now consider it our responsibility to plan long-range sales cam-

paigns for our affiliated stations, and to present these campaigns in such a way that each and every one of our member stations will thereby have a more certain way of increasing its revenue.

Thus, we are constantly working out new ideas designed to be of monetary benefit to our stations. Our thinking lies along the lines that not only is it necessary to furnish our stations with programs, features, and ideas designed to satisfy their regular advertiser-customers, but with material so appealing that they can make sales to advertisers who previously had not invested any of their dollars in the radio medium.

For example, World initiated during 1950 a series of Pre-Christmas, Pre-Easter, Pre-Father's Day, Pre-Mother's Day, and pre-similar gifts occasions campaigns. All of these were designed to make the job of the station easier and more profitable, by providing the station with material for campaigns to last three and four weeks. Such material was designed so that the station could sell an entire campaign to either a single advertiser, or to multiple advertisers.

Thus have program service firms stepped forward. We have exerted every effort to make it to the great advantage of every station in the country to invest in affiliation with a program service firm. We have progressed towards that goal by devising new material enabling easier sales, by maintaining already high standards of quality in our scripts and discs, and, most important, by working out for the stations

Sales Planning Campaigns thought out to the very last detail.

The result has quite naturally been that our industry has made many new affiliations and maintained the existing ones during the past year.

Nevertheless, adding dollars to member stations' income has not been the only function of the program service firms. In the case of smaller stations, particularly, we have helped increase the stations' prestige in their own community by affording them the opportunity to present as local originations programs featuring great stars, such as Lanny Ross, Dick Haymes, Mimi Benzell and others of similar stature.

In the case of the "Forward America" program, the industry was even able to come up with a show which has been endorsed by the Commander-In-Chief of the Veterans of Foreign Wars, and which won one of the Freedom Awards of the Freedom Foundation, due to its patriotic accomplishments!

It is hard to evaluate which of our services to stations has been of the greatest benefit to them.

Affiliated stations of program service firms have greatly increased their revenue through long-term sales of fully developed programs, such as "Steamboat Jamboree," "Forward America," and "Homemaker Harmonies."

They have also derived sizeable income from production aids, such as a specially composed baseball song, sung by a large choir, complete with sound effects, designed as the opening or closing signature for a sports broadcast.

They have also significantly increased their revenue through use of planned, long-range campaigns designed to help local advertisers sell merchandise for weeks before traditional gifts occasion, such as Easter or June weddings.

Whichever of such material has proven to be of greatest benefit to an individual station, the fact is that the station manager has come to realize that his affiliation with a program service firm is an association he cannot afford to be without.

- 2: Georgia Admitted (1778).
- 3: Battle of Princeton (1777). William S. Paley is elected president of CBS (1929).
- 4: Utah Admitted (1896).
- 5: Stephen Decatur Born (1779). George Washington Carver Died (1943). Week of Prayer, first week in January.
- 6: Carl Sandburg Born (1878). New Mexico Admitted (1912).
- 7: Millard Fillmore, 13th President Born (1800). Electronic system for television, including a dissector tube to scan the image for transmission patented by Philo Taylor Farnsworth (1927).
- 8: Anniversary of the Battle of New Orleans (Louisiana).
- 9: Connecticut Ratified the U. S. Constitution (1778). Connecticut Admitted (1788).
- 10: Ethan Allen Born (1737).
- 11: Alexander Hamilton Born (1757).
- 12: John Singer Sargent Born (1856).
- 13: Salmon Portland Chase Born (1808).
- 14: First Written Constitution Adopted at Hartford, Conn. (1639).
- 15: Mathew B. Brady Died (1896).
- 17: Benjamin Franklin Born (1706). Feast of St. Anthony.
- 18: Daniel Webster Born (1782).
- 19: Robert E. Lee's Birthday (Alabama, Arkansas, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia). Edgar Allen Poe Born (1809).
- 20: Inauguration Day. Begun in 1937. To be observed every fourth year from that date by the 20th Amendment to the Constitution.
- 21: Foundation Day. In the Canal Zone. Thomas Jonathan (Stonewall) Jackson Born (1824).
- 23: S. S. Republic collides with S. S. Florida off N. Y. harbor and flashes CQD signal, summoning rescuers proving value of Marconi apparatus in time of disaster at sea (1909).
- 24: Gold discovered in Calif. (1848).
- 25: Weather Signs. It is an old belief that the weather of the whole year depends upon this day. "Sun on St. Paul's Day means a good year, rain or snow foretells indifferent weather, a mist means want, while thunder predicts 12 months of wind and death." (Shepherd's Almanack, 1676). Scotch Poet Robert Burns Born (1759).
- 26: Michigan Admitted (1837). General Douglas MacArthur Born (1880). First A.E.F. landed in Ireland (1942). Australia Day. Public Holiday in Australia. FM Broadcasters, Inc., holds first annual meeting in N. Y. with attendance of 750 (1944).
- 27: Wolfgang Amadeus Mozart Born (1756). Lewis Carroll, pen name of Charles Lutwidge Dodgson Born (1832).
- 28: Thomas Edison granted patent on his incandescent light (1880).
- 29: William McKinley Born (1843). Kansas Admitted (1861).
- 30: Franklin D. Roosevelt Born (1882).
- 31: Franz Schubert Born (1797). Child Labor Day. Last Sunday in Jan., also the Saturday preceding and the Monday following.

February

- 1: Victor Herbert Born (1859). Supreme Court of the U. S., Chief Justice John Jay presiding, held its first meeting (1790). CQD is adopted as wireless distress call by Marconi Co. (1904).
- 2: Fritz Kreisler Born (1875). Ground Hog Day. Candlemas. Treaty of Guadalupe Hidalgo signed by U. S. and Mexico (1848).
- 3: Horace Greeley Born (1811).

- 31: Feast of St. Ignatius De Loyola.

America runs on
BULOVA
TIME

Again in 1950, as in years past—more Americans chose BULOVA than any other fine watch in the world.

Again, we at BULOVA continued to depend upon spot radio and, increasingly, upon spot television as our principal advertising media. And, we know that the success of these campaigns was due, to a large extent, to the magnificent cooperation of the radio and television stations and their representatives throughout the country.

So, once again, to all of you—our sincere appreciation. We look forward to many more years of pleasant and profitable association.

BULOVA WATCH COMPANY, INC.

- 10: U. S. Declared War on Germany-Italy (1941).
Peace Treaty Signed With Spain (1899).
Mississippi Admitted (1817).
Human Rights Day.
- 21: New Year's Eve.

BMI

offers

**THESE PROGRAM
AIDS TO THE
BROADCASTER**

***BMI services
are all designed
to aid the
broadcaster
and are available
to every
BMI-licensed station.
Check with your
music librarian or
program director
for this material.***

Your BMI Field Representative, who visits your station periodically, can be helpful in many ways. For any personal problem in selecting or programming music send your inquiry to BMI's Station Service Department.

When it's BMI it's Yours!

CONTINUITY SCRIPTS

Music programs that sell... ready for immediate use... smooth, well-written continuity for a variety of purposes:

ACCORDING TO THE RECORD (Five-minutes, daily)
SPOTLIGHT ON A STAR (Five-mins., five times weekly)
INSIDE STORY (15-minutes, three times weekly)
SPECIAL EVENTS (half-hour, on periodic natl. events)

COPYRIGHT RESEARCH

Thorough, up-to-the-minute information on music clearance... a complete basic catalogue and regular supplements of newly published music provided at all times.

BMI PIN UP SHEETS

Convenient and timely reference to the current song leaders... pop hits, folk favorites, rhythm and blues winners... issued monthly.

NEWSLETTER

Personal monthly message to the BMI family. An exchange of radio and music ideas.

BMI MUSIC MEMO

Monthly informational bulletin... the radio man's guide to BMI music... contains Recordata and Pin Up Patter.

DISC DATA

Valuable reference of vital statistics on the nation's popular recording artists.

PROGRAM DIRECTORS' CLINIC

Practical application of music in programming... with instruction in building and maintaining an efficient music library.

RECORD REPORT

Forecast of tomorrow's song hits... weekly facts about BMI-licensed tunes coming up.

HOLIDAY MUSIC

Suggestions of appropriate music for seasonal holiday occasions.

MUSIC DISTRIBUTION

Music of every type, published by BMI and affiliated publishers, and occasionally records, mailed to stations.

BRIDGES, MOODS, INTERLUDES

Classified and cross-indexed reference book of tunes to fit background requirements... supplementary material furnished regularly.

PERFORMINDEX

Handy, time-saving catalogue of most-performed BMI-licensed titles.

CATEGORICAL INDEX

Provides immediate reference to a wide variety of song titles, arranged for selecting appropriate music in countless script situations.

BMI

ALWAYS
at your
SERVICE

Service is one of the basic theme songs of BMI. The nation's broadcasters are using all of the BMI aids to programming . . . its vast and varied repertoire . . . its useful and saleable program continuities . . . its research facilities . . . and all of the elements which are within the scope of music in broadcasting.

The station manager, program director, musical director, disc jockey and librarian takes daily advantage of the numerous time-saving and research-saving functions provided by BMI.

Along with service to the broadcaster—AM, FM, and TV—BMI is constantly gaining new outlets, building new repertoires of music, and constantly expanding its activities.

The BMI broadcast licensee can be depended upon to meet every music requirement.

PROBLEMS OF THE DUAL OPERATION

By D. L. PROVOST, Business Manager, WBAL and WBAL-TV

(Continued from Page 69)

relegated his AM personnel to air locks or the roof. Television is a greedy baby with its cumbersome props, sets, and need for more workers: seven or eight technicians per show compared to radio's one or two. It is a great space consumer. One can't very well kick the infant in the teeth. But the necessity of being on guard every moment cannot be stressed too much, or your radio operation is going to suffer. Some morning you will find it has degenerated into a D. J. operation from the transmitter.

To integrate or separate falls in line as the second big problem. Where should integration take place? And what departments should be separated? Programming seems to fall in the latter category because television program conception and thinking is so different. There may be certain sections within the Program Department that can be run more satisfactorily and economically by integration. On WBAL-TV we have found this holds true for the Public Service and Special Events Departments. Our Public Service Director, operating in both radio and television, and making the many outside calls that are necessary in this field, saves the time of the program people on both stations. It is his responsibility to keep a proper ratio of sustaining to commercial. And by scheduling public service shows and announcements on both stations his "watchdog" position is strengthened.

As in the integration of public service, by handling the News and Special Events Department in the same manner we have saved considerably on employees' hours and expense. We are technically set up in such a manner that news bulletins, for either station, can originate from our news room. By integration of this Department we save the necessity of double news ticker service. We get bulletins on the air faster, too.

Special Events programming necessitates a great deal of ground work on the outside. It is a full-time operation for one man working both stations; it would be a part time job for two men, with one working radio and the other television. Many Special Events are simulcast, and one man in charge of both stations has a better grasp of what is going on and what to do about it.

Our technical staffs are disintegrated completely with two exceptions. One supervisor is in charge of both the AM and TV transmitters. One man is in charge of audio for both stations.

The really tough problem, in the matter of what should be integrated and what should be separated, is the Sales Department. It would seem that one general rule could not apply. This problem must best be governed by the conditions extant in the different TV localities, and by the setup of the Sales Department in the radio operation before TV came along.

In Baltimore, on WBAL-TV, we have a partially separated staff. But, even so, where a salesman has called on an account over a long period this man continues to handle both AM and TV. When an account comes in that is strictly TV, it goes to one of the television salesmen. In Baltimore, none of the agencies or advertisers have separate TV and radio time buying departments, so it would seem unwise for a dual operation to force on clients the time consumed by seeing a representative from each medium. We try to keep our sales operation as fluid as possible. The ratio of time spent in contacting and servicing a TV account is about three to one, compared with radio. This leads our trail back to what, I think, is a dual operator's biggest problem, and that is to protect his radio operation. Because it takes longer to serve a TV account, it means more contact men in your Sales Department to be sure that your radio accounts and prospects are properly serviced.

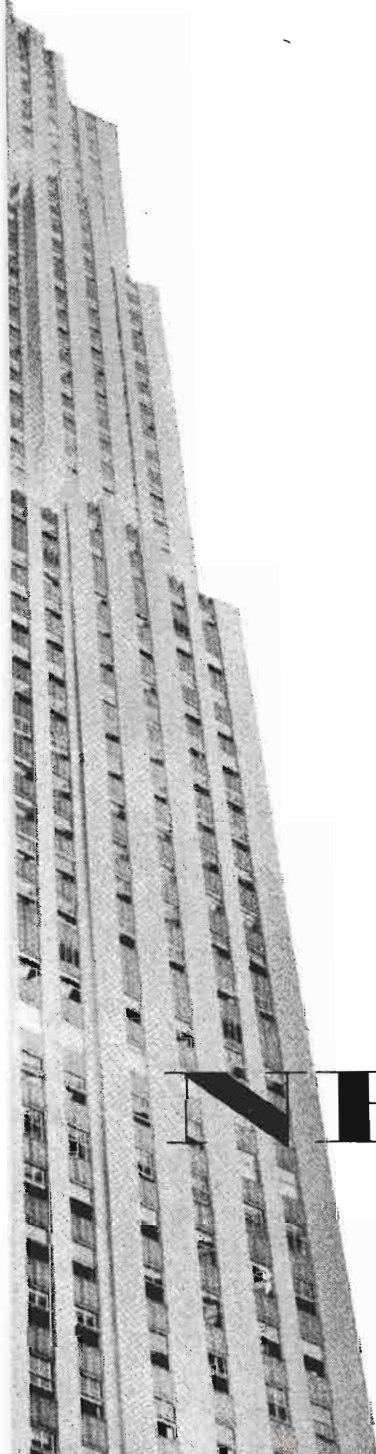

A good open discussion with the employee seeking a change will very frequently pay good dividends. If he has initiative and ideas, you can't afford to take him out of radio; and the chances are good that he can't afford to leave radio. When you find a person like that and point out his worth to himself and the Company by staying in radio, but possibly in a different job, you have strengthened your radio operation.

To sign off this article, the dual operator is in a position to see first hand the stimulation through competition which television has brought to the broadcasting industry. This in itself over-shadows any of the problems which we face.

This year NBC Radio rounds out 25 years of service to advertisers. During this time NBC's leadership has consistently set the pace for the entire radio industry. And today—

NBC is first in audience—the largest in all advertising.

NBC is first in facilities—the finest in all radio.

NBC is first in programming—geared to today's need for low-priced, effective shows.

NBC is first in new advertising ideas—better ways of using network time.

In every respect, NBC Radio is bigger and more economical than any other advertising medium, including the other networks.

NBC RADIO

America's No. 1 Advertising Medium

A service of Radio Corporation of America

YOU DON'T NEED \$1,000,000 TO DO RADIO RESEARCH

Pulse issued radio reports for 14 markets in December, 1950, in the series of continuing surveys. For these reports

115,560 families

were visited and interviewed.

In one year, in these 14 markets, Pulse will interview

847,120 families.

Yes, it will not cost a million dollars to visit and interview these families.

INTERNATIONAL RADIO TODAY

By **PIERRE CRENESSE**, Director, French Broadcasting System in North America

Pierre Crenesse

WITH crisis piling on crisis and each nation's subconscious alerting to the possibility of atomic warfare exploding at any moment, the old year, 1950, came to its expected end, jittery to the last. The new-born who took its place inherited the sins of the father, and was pushed into History's spotlight with no coaching in

the part. The producers and backers of world affairs could only pray that 1951 would survive strengthened by its youth. And deeply interested spectators hoped that the pessimists accustomed to "cry havoc" would be wrong. In a global clash that had its feet in the frozen mud of Korea and its head in the clouds over Lake Success, International Radio continued to record and report quietly, efficiently, and with a minimum of tension, to the troubled world in between. And somehow, the grey futility never completely lost the rosy tinges of hope.

At the Fifth Avenue studios of the French Broadcasting System in North America, France's U.N. Delegates were frequent visitors to the short-wave microphone, as they reported to their countrymen on the "State of the World Union," dispelling the fears which grew like toadstools after each day's verbal stalemates.

Although RDF offices in New York had been sending out programs since 1947, in April of 1949, RadioDiffusion Francaise created a symbolic web of radio stations, called The International Goodwill Network, and offered to North American stations, free of charge, top radio entertainment from the finest of France's talent. Produced in Paris, the 5 separate weekly transcribed shows were made available for just the opportunity to bring the culture of France closer to her American friends. By last year at this time RdF was proud to announce that 220 stations were carrying one or more programs of the IGN. By the end of 1950 the count had

increased to 350, with member stations in Canada, Alaska, Hawaii, The Philippines, Puerto Rico, and Panama broadcasting "Masterworks From France," "Gai Paris Music Hall," "Songs of France," "Bonjour Mesdames," and "French In The Air." All this in addition to the numerous weekly shortwave "feeds" from Paris, containing interviews, news, and special features for individual stations on this side of the Atlantic.

The new year is still not very old, but the hopes for a world that is lasting and secure are ageless. Whenever international nerves grow taut, International Radio will be on hand, the small, still voice of reason: calm during fear . . . hopeful during crisis . . . and in conflict, certain that Peace is never too distant to obtain.

During the four years of the Occupation, France had been cut off from the rest of the world. And even more important, the world had written its history with practically no news from France. Through the many hours of short-wave broadcasting, the outside world and the historic events taking place found their way across the English Channel where they were welcomed behind France's blacked-out windows. But very little of the darkness from within the fallen democracy managed to reach the sunlight of the free nations to the West.

The moment the Liberation was a reality, France set about to reestablish contact with her neighbors around the globe. The total destruction of all transmitters, and other radio equipment, offered the prime challenge—and became the first step in the almost impossible task of reconstruction.

Before waiting for final completion, however, special radio bureaus were organized within French Radio for full scale international broadcasting. Offices were opened in New York City and programs prepared in English, spotlighting French music and culture. But not only Americans were enthusiastic about RDF programs, for at this time overseas broadcasts are beamed to 25 foreign countries around the world—in as many languages. France is now a welcome, constant visitor in every land.

Compliments of a MUTUAL friend

*The character and phrase, "Mister PLUS", are the property of the Mutual Broadcasting System, Inc. They have been continuously employed since November, 1949, to represent the specific *plus-differences* which distinguish Mutual from all other networks.

The profitable *application* of these plus-differences is expressly *not* restricted—by copyright or otherwise—to *present* Mutual clients. Mister PLUS is ready and able to work for *any* advertiser who moves to the Mutual Network in 1951.

REPRESENTED BY RAMBEAU is a Radio Station's mark of distinction throughout the entire field of radio advertising.

REPRESENTED BY RAMBEAU means honest and aggressive sales representation for a few selective stations that have pride in their accomplishments and integrity in their dealings with their audience, their clients and the agencies placing business on these stations.

REPRESENTED BY RAMBEAU means twenty years of clean, successful operation by radio's first exclusive national representative.

HOW TO APPLY FOR FCC LICENSE

Official FCC Procedure for AM, FM and TV Licenses

ANY qualified citizen, firm or group may apply to the Federal Communications Commission for authority to construct a commercial standard, frequency modulation or television broadcast station.

Licensing of these facilities is prescribed by the Communications Act of 1934, which sets up certain basic requirements. In general, applicants must satisfy the Commission that they are legally, technically and financially qualified, and that operation of the proposed station would be in the public interest, convenience and necessity.

The licensing procedure is detailed in Part 1 of the Commission's "Rules Relating to Organization and Practice and Procedure," while station operation is covered by Part 3, "Rules Governing Broadcast Services," and "Standards of Good Engineering Practice."

The application procedure is substantially the same whether the facility sought is an FM, television or standard broadcast station.

Selecting a Frequency

The Communications Act recognizes broadcasting as a competitive industry and invests the Commission with the responsibility of allocating facilities so as to provide a fair, efficient and equitable distribution of radio service.

Standard broadcast stations operate on "local," "regional," or "clear" channels. Local stations are of 100 to 250 watts power and serve smaller communities; stations of 500 watts to 5 kilowatts cover larger centers of population and surrounding areas; stations of 10 to 50 kilowatt maximum power are for large area coverage, particularly at night.

To determine whether an AM frequency is available for assignment in a particular area, it is necessary for the applicant to have a channel study made by a competent engineer. The Commission's engineering personnel cannot undertake to make such studies for prospective applicants.

In the case of FM, the Commission has tentatively allocated geographic blocks of frequencies to accommodate Class A stations (community) and Class B. Stations (metropolitan and rural). Except in the larger cities, the demand for FM stations has not yet exceeded the supply of available frequencies.

Television channels are apportioned for "metropolitan," "community," and "rural" service.

Applying for a Construction Permit

Once a prospective licensee has decided the type of station he wants to apply for, the next step is to make application for a construction permit. This application must be in writing, on a form (No. 301) supplied by the Commission. This form requires information about the citizenship and character of the applicant, as well as his financial, technical and other ability to construct and operate a station, plus details about the transmitting apparatus to be used and the proposed new service. Triplicate copies are required, two of which must be executed under oath or affirmation.

Application Processing

Applications are, in turn, studied by the Commission's Engineering, Law, and Accounting Bureaus, which make their respective recommendations to the Commission. The system of processing is so designed that applications are considered by different categories in the order in which received.

If, upon examination of an application, the Commission determines that there are no engineering conflicts and that all other requirements are met, the application is granted and a construction permit is issued.

Conditional grants are made to qualified FM applications subject to their filing, within 90 days, engineering details concerning their proposed operations, after which construction permits are issued. Television and FM stations are permitted

• • • **How To Apply For FCC License** • • •

interim operation with less than the prescribed power.

All construction authorizations are subject to approval of transmitter site and antenna system by Civil Aeronautics Administration.

Hearings

However, where it appears that interference would be caused to another station above the degree described in the Commission's "Standards of Good Engineering Practice," or if other serious questions are involved, a hearing is usually required before a determination can be made. Sometimes, also, a hearing is necessary because two or more applicants request the same frequency.

In designating an application for hearing, the Commission gives public notice of the issues raised for the information of the applicant and other parties who may be concerned. Prior to the hearing, requests may be made for enlargement of the issues, to amend the application, or to permit other parties to intervene.

Usually the hearing date is not fixed until after the applicant agrees to such a hearing and has filed for his appearance. It may, however, be designated in the original notice. The notice generally allows the applicant a period of 30 days or more in which to prepare. Even after being designated for hearing, an applicant may find it possible to satisfy the issues raised by amending his application, especially if there are engineering considerations.

Hearings are customarily conducted by a presiding officer designated by the Commission. He can be a Commissioner or an examiner. He has authority to administer oaths, examine witnesses and rule upon the admission of evidence. Individual or partnership applicants may appear in person or by counsel, but cooperate applicants must be represented by attorney.

Request for Argument

Within 20 days after the close of the hearing, each party has the privilege of filing proposed findings of fact and conclusions in support of his contentions. After review of evidence and statements,

the Commission enters its proposed decision.

In the event he wishes to contest the proposed decision, the applicant and any other interested party then has 20 days to file exceptions and to request oral argument before the Commission. Oral argument is granted on request. After oral argument the Commission may adopt, modify or reverse its proposed findings.

In event that no exceptions are taken, the Commission issues an order making its proposed findings effective. Within 20 days thereafter, any party involved *may* file a petition for rehearing. Such a petition may be filed whether or not the decision is based upon a hearing, but the petition does not stay the proceedings unless ordered by the Commission.

Construction Permit

When and if an application meets statutory and other requirements, it is granted and a construction permit is issued. The latter specifies a date for commencement and another for completion of construction. A maximum of 60 days from date of grant is provided in which construction shall begin, and a maximum of six months thereafter as the time for completion (or 8 months in all). If the permittee is unable to build his station within the time specified he can apply (on Form 701) for additional time, stating the reasons. Upon completion of construction, the permittee can engage in equipment tests.

License

The final step is to apply (on Form 302) for the actual license. The applicant must show compliance with all terms, conditions, and obligations set forth in the application and the construction permit. After applying for a license, the holder of a construction permit can conduct program tests for a period not to exceed 30 days. A station license is then issued if no new cause or circumstance has come to the attention of the Commission that would make operation of the station contrary to the public interest.

Standard and FM stations are licensed for the statutory limit of three years; television stations for one year.

BOARD OF DIRECTORS 1951-1952

In accordance with Article IV of the By-Laws, the Board of Directors has designated, effective June 23, 1950, the following composition of each of the 17 NAB Districts.

Director	District	States Comprising District
Craig Lawrence	1	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont.
WCOP, Boston, Mass.		
William A. Fay	2	New York and New Jersey.
WHAM, Rochester, N. Y.		
Leonard Kapner	3	Delaware, Pennsylvania, West Virginia and Maryland, excluding the counties of Prince Georges and Montgomery.
WCAE, Pittsburgh, Pa.		
Harold Essex	4	District of Columbia, North Carolina, South Carolina, Virginia and Maryland, including the counties of Prince Georges and Montgomery.
WSJS, Winston-Salem, N. C.		
Thad Holt	5	Alabama, Florida, Georgia, Puerto Rico and Virgin Islands.
WAPI, Birmingham, Ala.		
Harold Wheelahan	6	Arkansas, Louisiana, Mississippi and Tennessee.
WSMB, New Orleans, La.		
Robert T. Mason	7	Kentucky and Ohio.
WMRN, Marion, Ohio.		
(To be named 28th of March)	8	Indiana and Michigan.
Merrill Lindsay	9	Illinois and Wisconsin.
WSOY, Decatur, Ill.		
William B. Quarton	10	Iowa, Missouri and Nebraska.
WMT, Cedar Rapids, Iowa.		
H. W. Linder	11	Minnesota, North Dakota and South Dakota, excluding the counties of Fall River, Shannon, Bennett, Todd, Mellette, Waushabaugh, Washington, Custer, Pennington, Jackson, Jones, Stanley, Haakon, Meade, Lawrence, Butte, Harding, Perkins, Ziebach, Armstrong, Dewey and Corson.
KWLM, Willmar, Minn.		

Natl. Assn. of Radio-TV Broadcasters

Director	District	States Comprising District
Jack Todd KAKE, Wichita, Kansas.	12	Kansas and Oklahoma.
Kenyon Brown KWFT, Wichita Falls, Tex.	13	Texas.
William C. Grove KFBC, Cheyenne, Wyo.	14	Colorado, Idaho, Utah, Wyoming, Montana, New Mexico, and South Dakota, including the counties of Fall River, Shannon, Bennett, Todd, Mellette, Wau-shabaugh, Washington, Custer, Penning-ton, Jackson, Jones, Stanley, Haakon, Meade, Lawrence, Butte, Harding, Per-kins, Ziebach, Armstrong, Dewey and Corson.
Glenn Shaw KLX, Oakland, Calif.	15	California, excluding the counties of San Luis Obispo, Kern, San Bernardino, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego and Im-perial, Nevada, excluding the counties of Mineral, Esmeralda, Nye, Lincoln and Clark, and Hawaii.
Calvin J. Smith KFAC, Los Angeles, California.	16	Arizona, California, including the coun-ties of San Luis Obispo, Kern, San Bernardino, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego and Imperial, and Nevada, includ-ing the counties of Mineral, Esmeralda, Nye, Lincoln, and Clark.
H. Quenton Cox KGW, Portland, Ore.	17	Alaska, Oregon and Washington.

NUMBER ONE

*promotion medium
to reach and influence
advertisers and agencies*

ADVERTISING AGE is the BIG medium with the BIG selling power—with the BIG circulation where it counts among general national advertisers and their agencies. And it offers you the Big value for your promotion dollar.

Editorially, it serves those major executives who must decide whether to use radio or other media—and who must therefore keep abreast of all media in order to evaluate any of them. It is not a "single-industry" paper.

In other words, ADVERTISING AGE is no dummy antenna—but a live tower, properly tuned and loaded to carry your message clearly to those advertising executives who should hear it, and who are able to act on it.

That's why, in the general advertising press—the publications which are dominant in power to influence national advertising and agency executives—ADVERTISING AGE carries the big load of radio promotion beamed to important national advertisers and influential agency executives . . . that's why it can and should carry the major weight of *your* promotion as well.

HARD HITTING, HIGH CALIBER TIME SALESMAN AVAILABLE

Here is a salesman who knows intimately and in a spirit of warm friendship, virtually every single one of the nation's top buyers of radio and TV time and talent.

More than 350 major broadcasting stations (and networks) have profitably employed this salesman on a continuing basis over the past 20 years, among them such outlets as KFI, KJR, KXOK, WCAU, WDSU, WGAR, WGY, WINS, WIRE, WJW, WLS, WWJ, WLW and many more.

National advertising executives, agency time buyers and others important to the radio industry look on this salesman with favor, depend on him for sound ideas and information, make it a practice of spending several hours each month studying his suggestions.

This salesman is today in a position to help in the sale of *YOUR* station. Many of his friends in the industry are your friends. They will recommend him unqualifiedly as a mature salesman reaching more than 12,000 advertising executives each month.

Unusually low cost for high quality representation. For full information, inquire at once. The ADVERTISER Magazine, 11 West 42nd Street, New York 18, N. Y. Manuel Rosenberg, Publisher.

Ask your national representative

You're on the verge of a decision, and a problem.

What business papers to pick for your station promotion?

It's no problem to kiss off, for your choice can have a telling effect on your national spot income.

But where to get the facts?

The answer is simple. Ask your national representative.

He knows. His salesmen get around. They learn which business papers are appreciated, read and discussed by buyers of broadcast time.

His is an expert opinion.

Don't overlook your national representative.

The shortest distance between buyer and seller

PUERTO RICAN RADIO IN 1951

By HARWOOD HULL, JR., General Manager, WAPA, San Juan, Puerto Rico

Harwood Hull Jr.

NINETEEN HUNDRED AND FIFTY-ONE looms as one of the brightest in history for broadcasters in Puerto Rico—the 350 million dollar U. S. market in the Caribbean.

National as well as local advertisers are increasingly aware of the importance of radio as a means of reaching this mass market of over two and a quarter million

U. S. citizens and have during the past few years relied more and more on Radio for their sales message.

Radio facilities in Puerto Rico following the end of World War II increased markedly and at present there are twenty-four AM stations in operation throughout the island's principal cities, each striving towards better programming and improved service to listeners.

With a decided increase in purchasing power in Puerto Rico, plus the increase in outlets, the number of radio receivers in the island has also shot up amazingly and it is now conservatively estimated that there are at least 350,000 sets in use. These figures prove that the island is first in the number of radio homes per thousand in the entire Caribbean area. Add to this the fact that the listener per set figure in Puerto Rico is among the highest in the world and it becomes evident that broadcasting is today playing a more important role in education, entertainment, and sales than ever before.

Puerto Rican purchases from the U. S. mainland increased sharply in the last half of 1950, especially in the two months following the outbreak in Korea. Compared to the same months of 1949, shipments to the island during July and August rose \$22,000,000, or 48 per cent. Every major item, except pork products, participated in the increase, which was equivalent to almost an extra month's purchases. Flour purchases rose 4 per cent in quantity and gasoline shipments were

7 per cent higher. Fertilizer increased 132 per cent and lard was 101 per cent higher. Rice, the territory's leading food staple, gained 78 per cent for the two months.

The value of textiles sent to the island for the needlework industry rose 96 per cent, and buildings material shipments, which had been on a decline for some months, went up 26 per cent in value.

As a result of the post-Korean buying, the island's purchases for the first eight months of the calendar year showed an increase of 15 per cent over the same period a year ago, totaling \$234,000,000.

Island broadcasters themselves are well aware of the encouraging prospects for 1951 and are investing in station improvement in both the technical and programming fields. With the aid of the Puerto Rican Association of Broadcasters, to which all island stations belong, wide improvements in techniques, practices and policies have been instituted. This will continue to reap results in the year ahead. Rate structures have been stabilized and improved methods of operation have also been instituted as a result of the Broadcasters Association.

Theodor Saba, President of the Advertising Agency Association of Puerto Rico, states: "Radio in Puerto Rico has taken giant strides in the right direction during 1950. All agencies have seen better programming, more accurate scheduling, and most important, definite sales results for clients in this top medium. The time-buyer can be assured that no other media in Puerto Rico offers such a wide, universal appeal as does radio and that no major advertising program can afford to be without radio for complete coverage at the lowest cost per impression."

A consensus of opinion from the broadcasters themselves indicates that from contracts already placed by leading national as well as local clients, 1951 appears likely to be a banner year in Puerto Rican radio. The island broadcasters agree, however, that the turn of events in the world situation will be a decisive factor in the economy of the nation which will reflect itself on insular trade and advertising dollars. Economically, Puerto Rico faces 1951 as one of the most encouraging on record.

TIDE Leads in Radio-TV Promotion year after year . . .

1947 — TIDE 9% OVER second publication
1948 — TIDE 25% OVER second publication

CROSLY BROADCASTING CORPORATION

Robert E. Kintner
President

American Broadcasting Company

RADIO and television in America are geared to meet the demands of the public and the government in the national emergency.

We know that the audience in both radio and television is staying close to their receivers in order to keep abreast of current developments on the home front as well as overseas. They are turning to radio and television in ever increasing numbers for this information. In addition the audience for variety, public interest, entertainment and other programming fare constantly is increasing.

To see this picture as it stands at the close of 1950 it is necessary to look at the economic position of radio and television. Here, we find that radio, still way out front in circulation and billings over its younger brother—Television—is getting its second wind.

Looking over the advertising picture as a whole, it seems apparent that more and more advertisers are turning to radio to do their mass audience selling and that, as in the past, they will concentrate on the medium for this job while using other media, including television, for specialized sales efforts.

Looking first at radio we find that it is today the most effective medium for delivering the biggest audience for the advertiser's dollar. Ninety-five percent of the nation's 42,843,800 families are radio families. Radio sponsorship has been increasing steadily, even against the competition of television and other media, and radio gross billings have swelled from \$374,086,686 in 1947 to \$428,990,000 at the end of 1949.

During 1950 production of radio sets—home, automobile, portable—approximated 12,800,000 and current surveys indicate a production of some 7,000,000 sets during the coming year. Certainly this adds up to a picture of a healthy, flourishing industry.

There is, of course, no gainsaying that television has been the "glamour boy" of the advertising world during the past year and that the effect of its impact is just beginning to be realized. We at the American Broadcasting Company are quite cognizant of this.

At the beginning of this year we had eight television advertisers. We now have forty-three commercial television accounts—a five hundred percent increase. Our television network comprises sixty-four stations. ABC's gross television billings are running at the rate of \$21,500,000 a year.

With some 9,845,300 sets installed television now reaches nearly 24 percent of the nation's families. Estimates are that four million more television sets will be produced next year. So that, even with foreseeable cutbacks, the number of TV sets in use during 1951 will be almost double that prevailing during the past year.

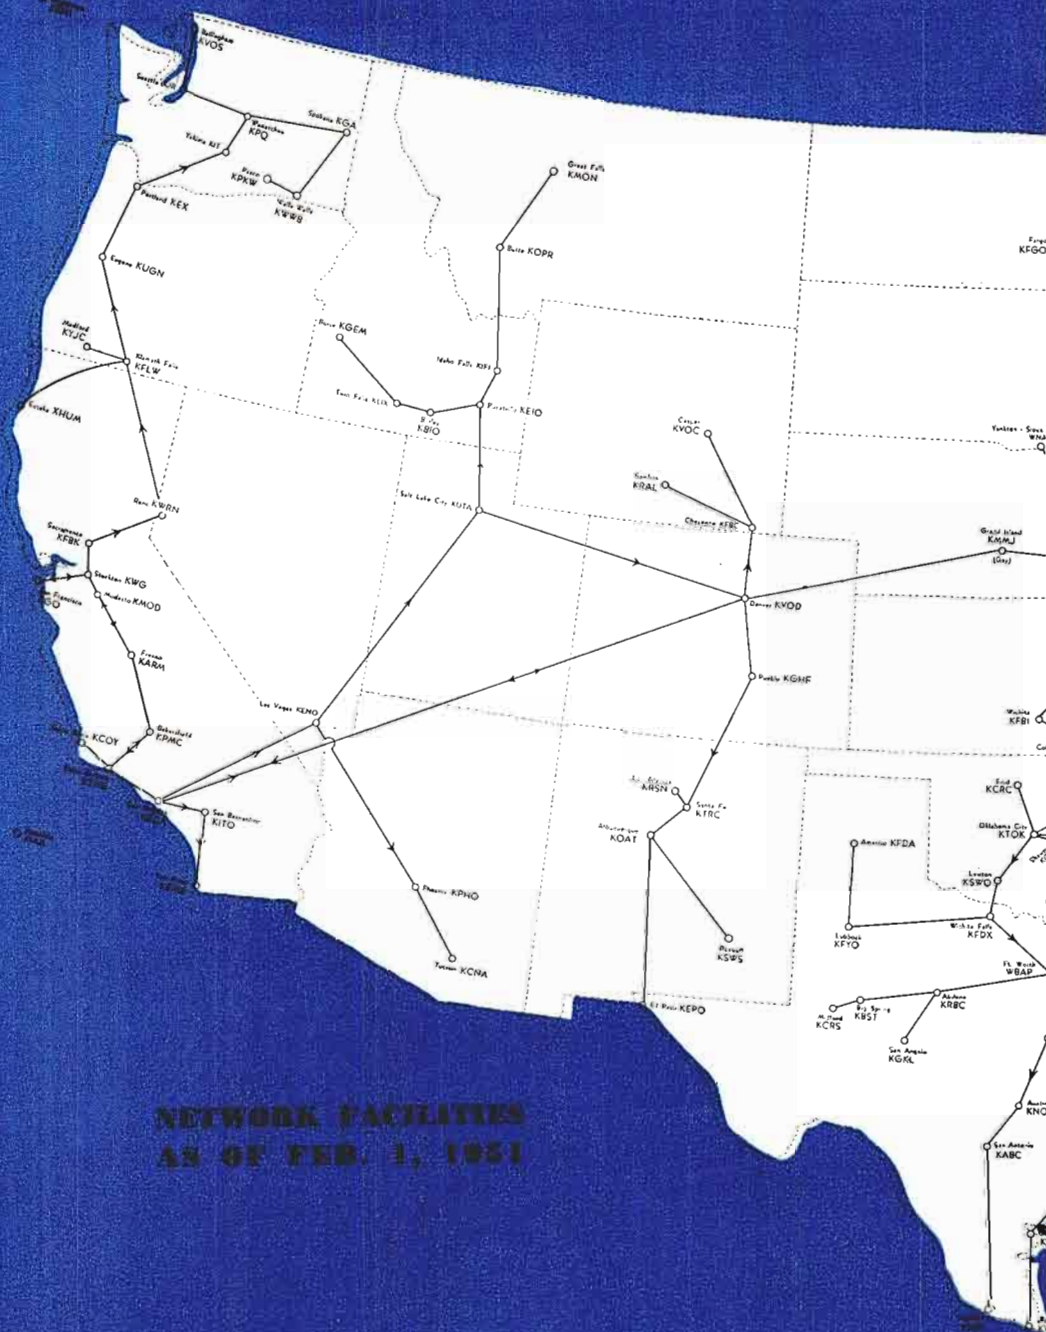

With the greatly expanded audience thus available, there is no doubt that television will achieve great strides in its every phase—programming, production, advertising impact.

The increasing overlap of the radio and television audience calls for the most stringent attention on the part of the broadcaster and the advertiser for the best utilization of both media.

With the uncertainties surrounding the world situation and its constantly changing effect on the domestic economy no clear-cut prediction can be made concerning the future for the industry as a whole. However, this much is certain.

The close of 1950 finds the American Broadcasting Company looking back on a year in which much has been accomplished in both radio and television and the advent of 1951 with its many questions and problems looming ahead finds the company's radio and television networks geared to shoulder their full responsibilities and, by the same token, to shoulder the needs of local and national advertisers for reaching mass audiences on an intimate basis.

Detroit is not only the world's greatest automotive center, it is also one of the nation's most important radio production centers. And the center of Detroit's radio production is.....

TRENDLE-CAMPBELL ENTERPRISES, INC.

Because Trendle-Campbell originates four live programs on two national networks. These are the nationally famous *LONE RANGER*

Monday-Wednesday-Friday weekly, 7:30 to 8:00 p.m. on ABC. Also, the *LONE RANGER* on television every Thursday from 7:30 to 8:00 p.m. on ABC network.

CHALLENGE of the YUKON p.m. Saturday and 3:00 to 3:30 on the Mutual Network.

5:30 to 6:00 p.m. Sunday

AMERICAN AGENT, 8:00 to 8:30 p.m. every Wednesday on ABC.

THE GREEN HORNET about to go on television in the very near future.

TRENDLE-CAMPBELL ENTERPRISES, INC.

1800 Stroh Building

Detroit 26, Michigan

Frank Stanton
President

Columbia Broadcasting System

serve our country in time of crisis, and to protect and defend the present and future of America.

The recent critical months have once again served to demonstrate the continuing vitality and importance of radio.

Once again the people turn to radio as their swiftest and best source of information about the things that most matter to them. It is reassuring to us in broadcasting, as I am sure it must be to our government, to know that radio's power, authority and vigor are undiminished; that today it stands fully prepared to serve the country to its utmost.

And now television has assumed a like stature in many of our communities and is equipped to aid in bringing our people a clear and vivid picture of their times.

We at CBS view the future with the same hopes and the same anxious fears all Americans feel today. But we are confident that the network was never in a better position to serve the needs of the people; to provide them with the fullest, swiftest and most trustworthy news and information; to lighten their burdens with the best of entertainment.

During the past 12 months, CBS has extended the scope of its listening to the highest point in history. In addition to the national favorites familiar to all radio listeners, CBS introduced many new programs and personalities, in every field of programming, and in both radio and television.

Notables names added to the list of exclusive CBS contracts included Frank Sinatra, Harold Peary, Alan Young and Sam Levenson. Additions to CBS schedules included Horace Heidt and Morton Downey in both radio and television; and

Perry Como, Gene Autry and Vaughn Monroe in television. Important and successful television debuts were made during the year by Jack Benny, Edgar Bergen and Charlie McCarthy, Burns and Allen, Ken Murray, and Garry Moore.

The outbreak of hostilities in Korea brought about an acceleration and heightening of CBS news programming. Top news teams were sent at once to the battlefields, and through tape recordings and motion picture films were able to provide important news coverage for both radio and television audiences.

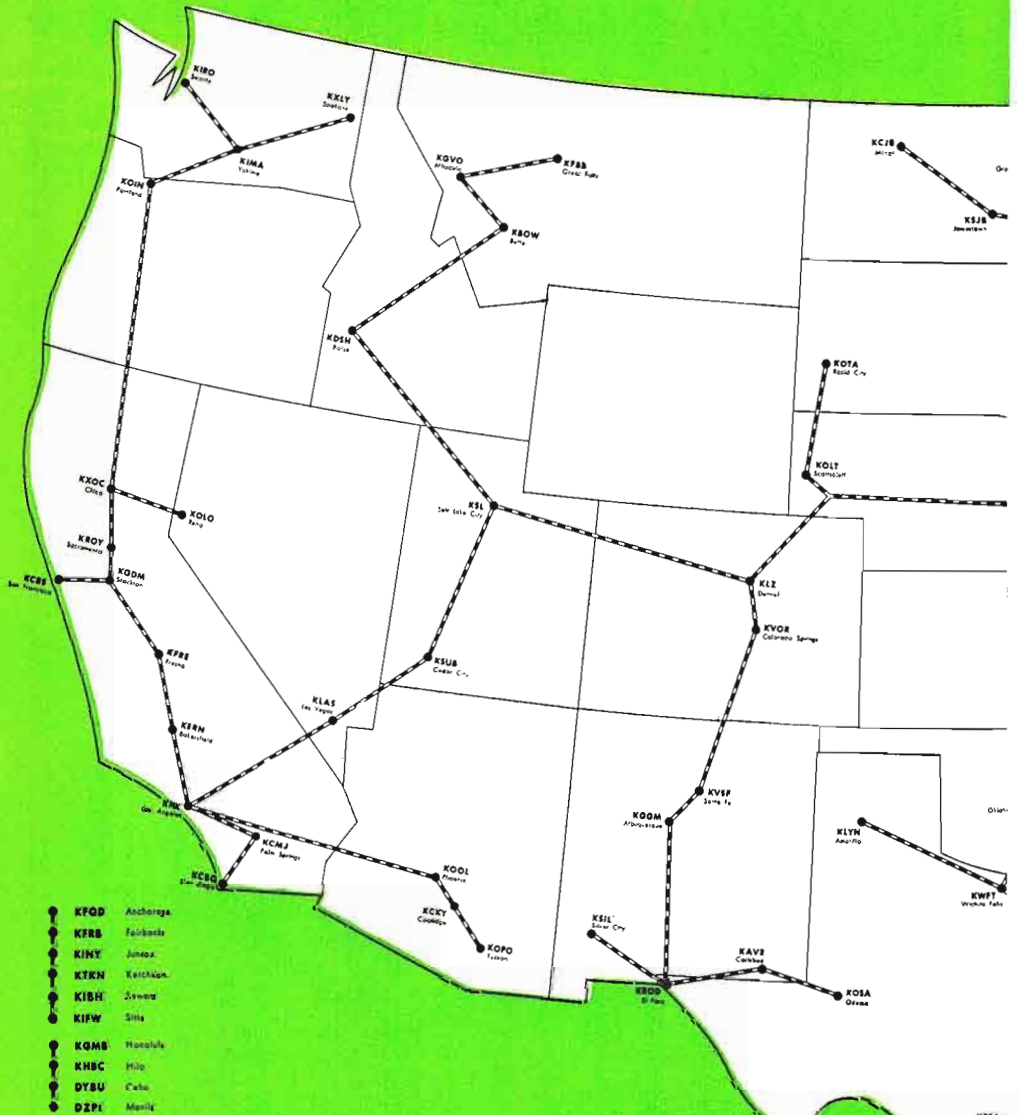

CBS television coverage of the United Nations Security Council and General Assembly sessions won widespread praise from press and public.

Two New Year's broadcasts, one in 1950, one in 1951, brought to the radio and television audiences the voices and faces of top CBS newsmen from all over the world, who had flown to New York for these significant broadcasts, and brought listeners and viewers alike a clear sense of the complex, tense and dramatic world picture. And late in the year a new concept of news programming was introduced with the debut of the program, "Hear It Now," produced by Edward R. Murrow and Fred Friendly, bringing the week's important events in the actual voices of the people who made the news.

During this same year, CBS has extended the services of both its radio and television networks. And it has won substantial recognition from industry, which has expressed confidence in CBS by sponsoring more program time than ever before in the network's history.

With this abundant testimony to the strength of the network in both radio and television, we at CBS face the present year with the firm confidence that never in our history have we been in a stronger or more vigorous position to accept the challenge ahead — and to perform the services radio and television are uniquely designed to accomplish.

FRANK WHITE
President

Mutual Broadcasting System

IT seems to me that one of the purposes served by the Annual Statement tradition lies in the fact that the writing of a president's yearly review requires a time-out look at things from a better perspective than can be had during day-to-day operations. So, let's take time out and see how things look at the beginning of 1951.

One sound effect still being heard throughout the advertising business is the tinkle of the crystal balls belonging to those seers who only a few months back could still see nothing but the prompt obsolescence of all AM radio at the hands of TV. The figures now available reveal that television had a most handsome year in 1950—but so did that segment of network radio with which I am most familiar. So, it is especially gratifying to hear these sages now repudiating their premature AM obituaries.

In this same connection it is also a pleasure for me to report that throughout a large part of 1950 more people were listening to Mutual stations than in 1949. The first December ratings are the latest available from Nielsen as I write this, and they show that nearly 10 per cent more homes were tuned to the average commercial program on Mutual than a year ago. An amiable year-end chat like this is hardly the place to labor the fact that Mutual does seem to be peculiarly resistant to TV—since it is the *only* network to show *any* audience gain during the year.

Why this special improvement against the general trend? Twelve months ago we felt that 1950 was a year for sensible, ear-to-ground, eye-to-horizon planning . . . a time for consolidating assets and accurately weighing their potential value. As to the working out of these plans, the daily pages of this journal have offered

a better chronicle of our progress, month by month, than I could attempt to detail here. But the precise measurement of certain plusses, which helped the progress along, does merit mention in this review.

In the spring of last year, we got Crossley to blaze some trails into little-known areas of the U. S., well off the highways of regular research. His methods were regular enough (coincidental-telephone technique) but his field was that unexplored territory where only one network has a station inside each market. Half a million interviews made this the biggest such study ever made—and advertiser-interest in the findings has fully justified the effort they took.

Home-town audiences listen most to home-town stations . . . in retrospect, that conclusion seems obvious. But since we have far and away the most home-town stations, and since our home-town America adds up to a full fourth of the U. S., it was clearly up to us to prove that conclusion, down to decimal points. So we did—and came up with corollary evidence that TV, significantly, gets into that whole, aggregate market to the extent of less than one-tenth of 1 per cent.

No report on Mutual is complete without a nod to Mister Plus—largely because this trade character is charged with the job of keeping people posted on all the specific advantages that work here. Mister Plus hit his first regular stride in 1950, and he has made it our job to keep him supplied with practical, proven advantages to report. Between us, we plan to keep each other busy through all of the foreseeable future.

What else can I say about the future? Strictly on its performance in 1950, network radio has earned itself the soundest prospects in its history. The only thing original about my own optimism regarding the future of AM lies in the methods of Mutual and its 500-plus AM stations in helping the medium fulfill those prospects.

J. H. McCONNELL
President

National Broadcasting Company

IN a world of change the radio and television industry is at home. Growth and constant innovation are the nature of our industry. Indeed, a world of change, of development and expansion, creates the climate in which our versatile industry thrives. These are the very elements which give us stability. Thoughtful men are rightfully concerned for the future, but we would fail to understand the basic characteristics of our own business if we did not look ahead to 1951 with confidence.

Of course 1951 will be a year of growth for radio and television. To my mind, it is a question only of velocity, of the rate of growth. The nation's defense needs, beyond question, will be our No. 1 priority. Production facilities may be required for military purposes. The field of scientific research will also give precedence to defense needs. In whatever degree these requirements may develop, they will not affect the quality of programming of either radio or television.

Television, in a few swift months in 1950 expanded from its bare infancy to a truly first-rank medium for advertising and entertainment. This was a momentous development. But as we look ahead we ought steadily to remember that in 1950 we recaptured our self-confidence, and then the advertiser's confidence in radio as the great medium of high circulation and low cost. There were some hard lessons learned in both radio and television. These—what we have learned—are our assurance that we will continue to progress through 1951 in the face of all the imponderables.

At the end of this year, television covered areas in which live 90,000,000 people! Advertisers, through experience, demonstrated increased appreciation for its pulling power. Picture quality, programming and production were all immensely improved. There was no question that television had come of age as a truly national advertising medium. Should the government rescind its freeze on new stations, television will be extended to

new areas in 1951. Additional stations and receivers will mean more hours of broadcasting, better programs.

Besides finding ways to meet Television's drain on creative talent, at NBC we have pioneered in finding ways for smaller advertisers to join in major shows previously only available to high budget sponsors. This should provide a wider economic base for television and make it available to more sponsors in the coming year.

Public response to NBC's Sunday night "Big Show" brought the entertainment value of Radio to a fresh summit. And "Operation Tandem" proved that new techniques can sell radio on a basis which is healthy for both the Network and the advertiser, and yet bring the cost of radio advertising to a new low.

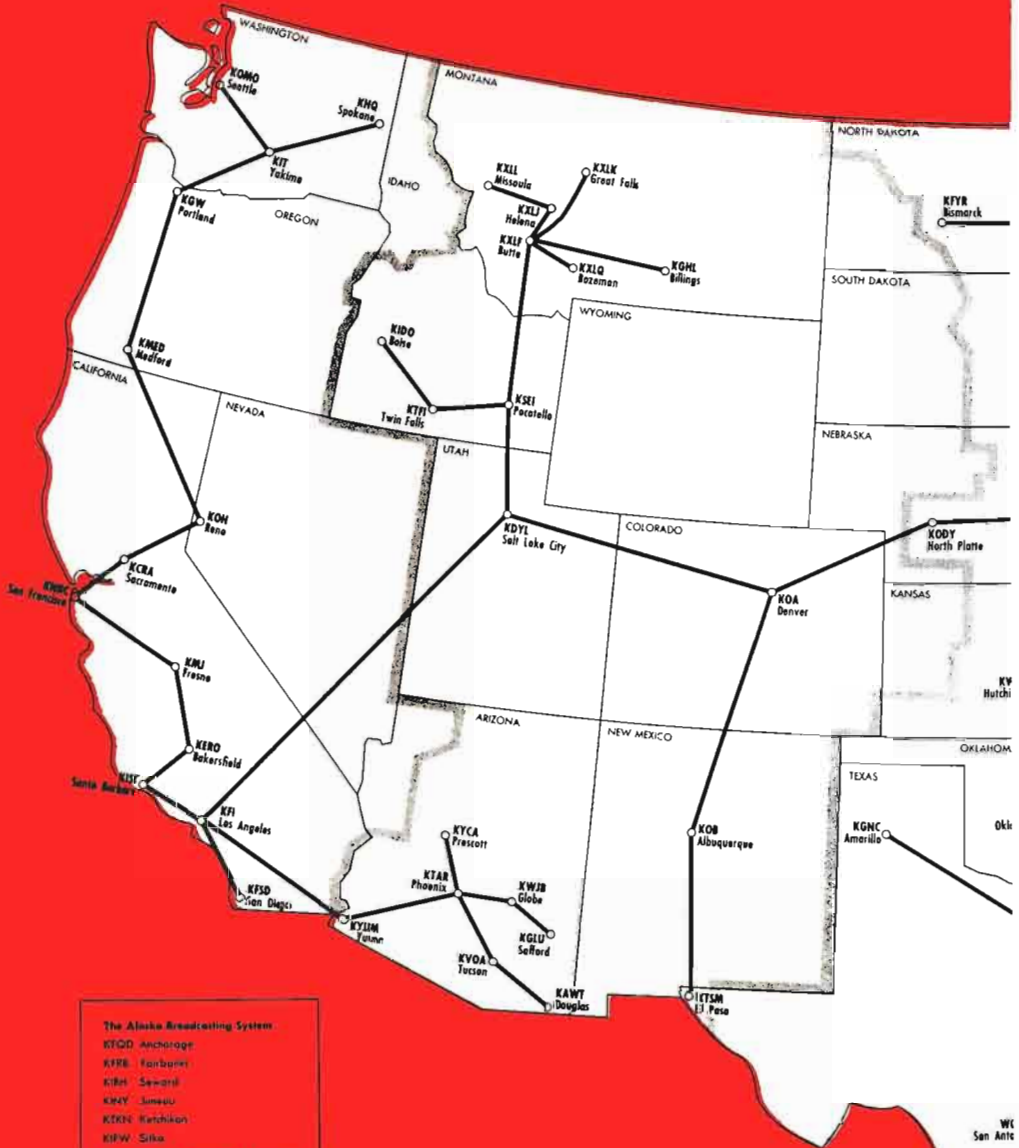

Radio is the basic advertising medium of the country and will remain a vital and effective force in our economy and society as far ahead as anyone can see. It will undergo changes in the years ahead. No institution can remain static and survive. Radio has been accommodating itself to shifting conditions ever since it was established a generation ago, responding to new requirements and reshaping itself as it went along.

Today, radio is being affected by the new force of television, but the elder broadcasting medium, which has lived and grown throughout the social and economic upheavals of the 30's and 40's, will adapt itself successfully to the new environment of the 50's and 60's.

The prime potency of television lies in the extension of the individual's ability to experience—in his own home—things the average viewer never dreamed of before.

Through the newest broadcasting medium, people can effortlessly visit other cities and learn more of their institutions and personalities. They can drop in on Broadway shows, see famed conductors lead symphony orchestras, sit with Congressional committees, watch world events being shaped at the United Nations, or even go under the sea in a submarine, sail out on maneuvers on a Navy carrier, or fly with the Air Force. By thus broadening public experience and bringing the people closer together, television will reduce sectionalism and bring greater unity to the nation.

Accountant	Ethel D. Harris

SERVICES OFFERED: Keystone Broadcasting System is a transcription network principally covering BEYOND-METROPOLITAN markets from coast to coast. Its affiliated stations are joined together in a national system by means of transcription, eliminating wire charges. At time of going to press, the network includes 400 affiliated stations. This is the only national network in the United States offering national radio advertisers the opportunity to cover the BEYOND-METROPOLITAN markets exclusively, in a single transaction, by means of electrical transcription. The System offers its facilities in time periods from one hour down to five minutes, and also makes available announcement periods of one-minute, half-minute and twenty-five words in length. Keystone makes its facilities available nationally or in selected groups.

SERVICES OFFERED: The Liberty Broadcasting System is a national network, stations are joined together through the facilities of the American Telephone & Telegraph Co. At the time of going to press, there are 268 affiliate stations.

400 LOCAL LEVEL

Leading brands using KEYSTONE BROADCASTING SYSTEM know that the KBS local level 400 reaches the rich, high income, small town and rural markets! As the ONLY established and growing Transcription Network, every local KBS affiliate is a home town station . . . and, according to BMB studies, native stations produce more impact with their higher listener-loyalty.

The Keystone Network consists of more than 400 stations located in towns with populations of 10,000 to 50,000 . . . PLUS the RURAL BUYING POWER of that area! These areas are largely beyond the dependable service of major wired networks . . . and effective TV! AND . . . these same markets contain more than HALF OF THE NATION'S RETAIL STORES which do nearly HALF OF THE NATION'S RETAIL BUSINESS!

Investigate this rich and loyal KBS small town and rural market NOW!

KEYSTONE BROADCASTING SYSTEM, INC.

KBS STATIONS REACH THE SMALL TOWN AND RURAL MARKETS – – FREE FROM EFFECTIVE TV!

ONE ORDER ONLY BUYS AN ATTRACTIVE PACKAGE RATE!

Think of it! The Keystone Network operates in the same manner as wired networks . . . **WITH THE SAME ADVANTAGES!** Instead of a large number of clerical, time consuming hours of transactions, KBS reduces your problem to **ONE** order, **ONE** time clearance, **ONE** series of Affidavits of Performance, and **ONE** invoice . . . for all 400 KBS stations . . . or as few stations as needed to meet your needs.

SEARCHING FOR AN ANSWER TO TV-itis?

KBS is the only National radio network without a single station located in a TV City. As a result, many advertisers are using KBS to supplement their TV schedule which doesn't reach the KBS small town and rural market!

500 FIFTH AVE., NEW YORK • 134 N. LaSALLE ST., CHICAGO.

EVERY DAY THIS BELL RINGS
IN **MORE AND MORE** AMERICAN HOMES

It's the Liberty Network bell you're hearing and it's ringing ever more widely with each passing year! In fact, in less than four years the Liberty Network has grown from a tiny group of 5 stations to a vigorous, well-integrated broadcasting system of 275 stations from Massachusetts to California.

Its phenomenal growth is the talk of the radio broadcasting industry. But every bit of it has been *earned* by the delivery of tremendous listening audiences . . . and unrelenting service to advertisers large and small!

THE **LIBERTY BROADCASTING SYSTEM**

PHOENIX

March 15, 1950

Hi Podnuh:

We fellers know you city folks realize Arizona's got the Grand Canyon, the desert and some cows. But do you know we got one of the best skiing areas in the country? That we've got one of the largest pine forests anywhere? That we've got a city, Phoenix, which is the 55th ranking market in the United States? That it is the center of a 3000 square mile irrigated area along the Salt River? That within the oasis there grows some of the finest cotton, citrus fruits, melons and market produce you could want anywhere? That takin' care of them crops and takin' care of the farmers and so on down the line are 329,000 people, all gathered together in one group? That these folks produce a yearly net taxable income of \$538,934,048.00?

As KOOL Clem, one of our hands says, it ain't often out in the west yuh git that many folks all rounded up and reachable so's yuh kin brand 'em all at once. We just want to point out that Radio KOOL, located in Phoenix, offers you the finest, quickest and cheapest method to reach that group.

We're experienced cowhands out here. Your potential customers are herded. Let us stick your brand on 'em.

Sincerely,

Gene Centry

KOOL-CBS

ARIZONA

bitches-bustin' City!
~~easy going~~ **COWTOWN**

We're the fastest growing
METROPOLITAN MARKET

1940 Population — 181,000
79th place nationally
1950 population — 329,000
55th place nationally
(no other metropolitan area among
1st 100 staged as big an advance)

**WHEN CHOOSING ANY
STATION LIST, INCLUDE US**

We're the Capital

1st in total income gain
1st in passenger car registration gain
2nd in population gain (among states)

**IF YOU'RE SELLING HOME
EQUIPMENT, AUTO ACCESSORIES,
FAMILY GOODS AND COMFORTS,
YOU NEED US**

*We're the Southwest
Crossroad*

4 transcontinental highways
4 airlines
2 railroads
3 bus lines
57 truck lines

**IF YOU'RE SELLING TRAVEL,
ADVENTURE, ROMANCE—
YOU NEED US**

*We're America's
largest oasis*

100 miles long, 30 miles wide, the Salt
River Valley is the most successful irri-
gated agricultural project in the world.
Six and seven alfalfa crops a year;
highest per-acre-yield of cotton in the
U. S.; one-fifth of the nation's lettuce.

**IF YOU'RE SELLING WHAT THE
FARMER NEEDS—
YOU NEED US**

We're young

We've got 50,000 veterans and fam-
ilies, three reactivated airfields, three
colleges.

**IF YOUR PRODUCT APPEALS TO
YOUTH, YOU NEED US**

We're a health center

Because we have the warmest, dry-
est, sunniest weather in the country,
we're a mecca for the aged and the
infirm.

**IF YOU'RE SELLING HEALTH,
YOU NEED US**

Source Data: U. S. Census Bureau,
Phoenix Chamber of Commerce, Valley
National Bank.

We've got people, health, wealth, sun and fun;
We've got all classes of prospective buyers

Whatever You Sell — YOU NEED KOOL!

Bonus listenership: Our
population increases over
35% during the tourist
season; our surprisingly low
rate stays a marvelous bar-
gain.

**WHY IS AP
THE BEST?**

BECAUSE—**AP** is faster, more complete, more accurate than any other news service.

THE RADIO DAILY

1501 BROADWAY, NEW YORK 18

Wisconsin 7-6336

OFFICE OF
THE VICE-PRESIDENT

October 31, 1950

Mr. Harry Maizlish
Station KFVB
5833 Fernwood Ave.
Los Angeles, Calif.

Dear Harry:

Now that all your trials and tribulations are over regarding the purchase of the station and you are back on the job as a station owner and operator, please accept our congratulations and good wishes.

We, on RADIO DAILY, do not know of any man in our business who is more deserving of the whole-hearted cooperation of the people in Los Angeles than your good self. We also know of the night and day job that you do on every public service program that comes up in your territory.

Your station has become a leader in public service and because of this, it seems to me that every advertiser coming on your station would receive not only a good audience, but the type of audience that will do the buying.

With kindest personal regards,

Sincerely yours,

A handwritten signature in black ink, appearing to read "Marvin Kirsch", written in a cursive style.

Marvin Kirsch

**PACIFIC COAST
RADIO COVERAGE
IS DIFFERENT, TOO!**

FOR THAT MATTER, even the Pacific Coast is different from any other area in the United States. It's big, it's almost entirely covered with mountains up to 14,495 feet high, and its markets are far apart.

To cover this vast, rich area is a different coverage problem. The great distances, the mountains, the low ground conductivity make long-range broadcasting impractical...yet Don Lee is the only network that does not rely on long-range broadcasting.

Only Don Lee is especially *designed* for the Pacific Coast.

Only Don Lee offers coverage that gives each market a local network outlet of the proper size

WILLET H. BROWN, *President* • WARD D. INGRIM, *Vice-President in Charge of Sales*

The Nation's Greatest Regional Network

to completely cover that market for the least possible money expended.

Only with Don Lee can you tailor your network radio coverage to your distribution. You can buy all or part of Don Lee's 45 stations to match your distribution requirements, with no waste.

There are about 14 million people on the Pacific Coast. Only Don Lee sells them where they live—where they spend their 15½ billions per year, and Don Lee sells them from their own local network stations with all the local selling influence enjoyed by such a station.

If selling the Pacific Coast is your problem, remember coverage is *different* on the Pacific Coast. Use the *only* radio network especially *designed* for the Pacific Coast: DON LEE.

AP SELLS

For Stations and Sponsors —

For instance . . . KGER

“Freeman A. McKenzie, Jr., Long Beach Ford dealer, tells us their daily 15-minute AP newscasts over KGER have produced excellent new and used car sales, increased service business and new business from nearby communities.

“Although I have been in radio more than ten years, I had not used Associated Press news service until two years ago. I find that AP news has meant extra business for us. It is the finest news service I have ever known.”

if...

California—the nation's
 Second Retail State —
 is your market ...

and ... you recognize
 that **SUCCESSFUL**
RADIO ADVERTISING
 demands local tie-in
MERCHANDISING ...

you...

ABSOLUTELY CANNOT
OVERLOOK the Pacific
 Regional Network, your
 Best Salesman in
 California ...

because..

the Pacific Regional
 Network, the nation's
 most flexible sales and
 merchandising radio
 station network ...

... offers to advertisers
 (1) network time pur-
 chase of any or all of 49
 separate California
 AM radio stations;
 (2) outstanding program-
 ming; and (3) **LOCAL**
 radio sales promotion
 in all its ramifications ...
 at substantial savings in
 time, effort and money.

Not **ONE** . . . But **TWO** Organizations

Say WGN reaches more homes
than any other Chicago Station!

First . . .

the 1949 BMB showed WGN reached more homes
than any other Chicago station.

Next . . .

the March-April, 1950, A. C. Nielsen annual report
showed WGN reached more homes.

If your problem is sales . . .

how can you afford not to be on WGN

WGN

AP

Still leading
the field...

in RADIO and TELEVISION in Chicago

WMAQ . . .

✓ **AUDIENCE**—The station more people listen to daily than any other Chicago station (BMB Study No. 2)

✓ **SALES**—After almost 30 years (WMAQ went on the air April 13, 1922), still keeping sponsors happy. Witness the Chicago and North Western Railway, Richman Brothers, Skelly Oil Company, Wieboldt Stores, Inc., and Shell Oil Company who have sponsored WMAQ programs for 10 years or longer

✓ **PROGRAMS**—Still building award-winning programs like "Destination Freedom"; still featuring Chicago's top radio personalities like Norman Ross, Wed Howard, Everett Mitchell; still prepared to build quality programs to fit any advertising budget

. . . WNBQ

✓ **AUDIENCE**—Month after month still attracting more viewers day or night than any other Chicago television station (American Research Bureau)

✓ **SALES**—Still the TV master of the nation's No. 2 market. American Research Bureau surveys prove the audience is ours; any sponsor will tell you our audience buys—sometimes too well (have you heard the Home Container Corporation Fresherator story?)

✓ **PROGRAMS**—Where such stars as Dave Garroway, Wayne King, Clifton Utley, Clint Youle first hit TV stardom.

When you "buy Chicago" . . . Buy

41% GAIN in SALES
over 1949

50% INCREASE in
Mail Response*

200 NEW Local and
Regional Advertisers

BONUS Coverage of Indiana's
FIRST MARKET

Success Stories Galore

Super-Markets, Drug Chains, Meat Packers,
Lumber Dealers, Furniture Dealers! Honest
down-to-earth, documented success stories.
PROVING WCBC SELLING POWER! Details
on request.

Anderson is Indiana's FIFTH Market.

*2000 letters weekly in peak 1950 months.

WCBC, with 1000 EFFECTIVE watts, is in the
CENTER of Indiana's HEAVIEST CONCENTRATION
of population. Mail TELLS the
story: Indianapolis, only 22 air miles distant,
accounts for 17.5% of WCBC mail. Muncie,
only 11 air miles distant, accounts for nearly
20% of WCBC mail. Obviously, WCBC pro-
vides EFFECTIVE SUPPLEMENTAL COVER-
AGE of "Metropolitan Central Indiana."

AP SELLS

For Stations and Sponsors —

For instance . . . WLAM

“WLAM carries a total of 87 sponsored AP newscasts weekly, including ten 15-minute programs for women and 14 others on Sports.

“We have just closed a contract with the Oldsmobile, Cadillac and Chevrolet dealers for the only AP newscast we had left—at 10 P.M., seven nights a week.

“Associated Press news programs are the easiest to sell.”

FRANK S. HOY,
 General Manager,
 WLAM, Lewiston, Me.

AP SELLS
For Stations and Sponsors —

For instance WLAM

"WLAM carries a total of 87 sponsored AP newscasts weekly, including ten 15-minute programs for women and 14 others on Sports.

"We have just closed a contract with the Oldsmobile, Cadillac and Chevrolet dealers for the only AP newscast we had left—at 10 P.M., seven nights a week.

"Associated Press news programs are the easiest to sell."

Think . . .

ABOUT PROGRAMMING

WBAL is affiliated with NBC. *Think* what that means in programming. Besides NBC's Big Shows . . . WBAL's fine local programs . . . with people like Al Ross, Galen Fromme and many others . . . make WBAL the BIG station.

ABOUT POWER

WBAL is the only station in Maryland with 50,000 watts. *Think* what that means in coverage. Besides the rich Baltimore and State of Maryland territory . . . WBAL is the BIG station for a great part of the middle Atlantic states.

ABOUT MERCHANDISING

WBAL boasts a complete promotion and merchandising department. *Think* what that means in selling. There's a direct tie-up with your product and WBAL . . . at the point of sale.

50,000 Watts

Play to New England's Largest Audience on the Yankee Home-town Circuit

Actually the Yankee Network covers more territory than any other New England regional network. It is your medium for reaching New England's largest audience.

Every Yankee home-town station offers you two tangibles—a ready-made, dependable audience for Yankee and Mutual programs and the greater effectiveness of local,

saturation coverage as compared with thin coverage from outside.

With Yankee's 29 home-town stations and their network audience, you get this saturating coverage throughout the entire Yankee six-state area. It is an incomparable combination for selling all New England locally, market by market, and keeping it sold.

Acceptance is THE YANKEE NETWORK'S Foundation

THE YANKEE NETWORK, INC.

AP SELLS

For Stations and Sponsors —

For instance . . . WMLS

"70 AP newscasts on WMLS are sold out. The biggest sponsor is Hill Grocery Company, the largest Alabama retail grocery chain, with three 5-minute AP newscasts daily.

"Associated Press newscasts not only are easy to sell; they sell for our advertisers."

CURTIS O. LILES,
General Manager,
WMLS, Sylacauga, Ala.

*proof of the year-in year-out
selling power of WWJ . . .*

In radio business, you don't get renewals unless you give results. WWJ must be giving them.

Detroit's largest department store, on WWJ for the past 16 years with an hour-long daily program, renewed again. A utility, on WWJ since 1945 with three programs weekly, renewed again. A foremost men's clothing chain, on WWJ for 12 years with a nightly news program, renewed again. An automobile dealers' group, on WWJ 5 programs a week, just renewed again for its third year. And so it goes.

What better proof is there of the effectiveness of WWJ . . . NBC station in Detroit . . . now celebrating its 30th year of community leadership . . . in a market of 1½ million radio sets in the homes and cars of workers who spent more than 3 billion dollars last year in Detroit's retail stores!

Undisputed Leadership by The **KMBC-KFRM** Team!

**NEW HOME
OF THE
KMBC-KFRM
TEAM**

First in Facilities . . .

The KMBC-KFRM Team in spacious new quarters has now placed in the hands of listener and sponsor alike, broadcast operational facilities that are by far the finest in the Heart of America

— and among the best in the entire nation. Typical KMBC-KFRM foresight and planning have taken care of every detail to make "The Team" *FIRST* in facilities in the Kansas City trade area.

First in Audience

A 1950 survey, conducted at the state fairs of Kansas and Missouri and the American Royal, has further confirmed KMBC-KFRM's leadership in Kansas City's trade area. 2,843 interviews with farm and small-town listeners from 142 counties revealed that The Team has far out-stripped its comfortable first-place lead of a year ago and remains *FIRST* in audience.

To Sell the whole Heart of America "WHOLEHEARTEDLY," it's...

The KMBC-KFRM Team

BEST BUY in the BUFFALO MARKET!

WKBW

YOUR WESTERN NEW YORK SALESMAN

Greatest Dollar-for-Dollar Value!

In Western New York, WKBW is delivering more measurable "cash-register" results per dollar invested than any other Buffalo station.

If you want to sell merchandise in Buffalo and the rich Western New York Market, WKBW should be...

Your *FIRST* Choice

FIRST IN POWER

Ten times more powerful than any other Buffalo station. WKBW's 50,000 watts blanket the Eastern Seaboard from Maine to North Carolina . . . adequate power to reach 10,783,700 radio homes in the most populous section of the United States.

FIRST IN FACILITIES

WKBW has the most modern broadcasting facilities in Western New York . . . the last word in transmitting and studio equipment that maintain under all conditions the ultimate in high standards of broadcast quality.

FIRST IN NEWS

Complete aggressive coverage of local and national news including two sponsored daily newscasts by Roger Baker, Buffalo's all-time favorite radio personality — backed by Winchell, Pearson, Agronsky, Davis, Hill and Headline Edition.

FIRST IN SPORTS

Top coverage of local and national sports with Bill Mazer. Gillette Cavalcade of Sports plus Mazer on all local sports events have made WKBW Western New York's Sports Station. To know the value of a WKBW sportscast, ask the man who bought one.

FIRST IN ENTERTAINMENT

WKBW has a strong line-up every day. Screen Guild Players, Stop the Music, Inner Sanctum, Production Parade, Lone Ranger, Mazer's Matinee, The Original Amateur Hour, Tello-Test, Breakfast Club, My True Story. **We Know Buffalo's Wishes.**

FIRST IN PUBLIC SERVICE

WKBW's record of public service in the field of important civic, patriotic and community activities has won the station undisputed leadership. If it benefits the public, you'll hear it on WKBW.

FIRST IN DOLLAR VALUE

WKBW offers greater coverage than any other Buffalo Station and has developed program and copy techniques that ring the register. Ask our Sales Department for our merchandising success stories.

Not Buffalo's Oldest . . . but Buffalo's *FIRST* Station!

the Long Island story

666,200 POPULATION

\$613,220,000 TOTAL RETAIL SALES

\$188,951,000 FOOD STORE SALES

\$138,984,000 AUTOMOTIVE AND
FILLING STATION SALES

\$ 15,084,000 DRUG STORE SALES

That's the market in LONG ISLAND'S NASSAU COUNTY — where WHLI reaches more homes 6 or 7 days a week than any other New York or Long Island Independent Station¹ . . . and where WHLI delivers more daytime listeners than 4 New York City network stations and all New York City Independents put together!

WEVD
**ENGLISH
JEWISH**

has for many years been a most productive medium for a large group of national and local advertisers who recognize the vast potential represented by the more than 600,000 families comprising the Jewish market in the New York metropolitan area.

Distinctive adult programming and a loyal, responsive audience are the WEVD combination which national advertisers have found so effective and economical in maintaining a consistent position of dominance in the Jewish field.

More Italians* Listen to

WOV than any other New York Station *(Network or Independent)*

**In the Vital Selling
Hours of 9 AM to 7 PM
The Fall 1950 Pulse
Shows . . .**

WOV's average rating is 10.2, a 6% INCREASE over Fall 1949—while the nearest competing station in the Italian field has an average rating of only 3.8, a DECREASE of 29%.

This dominance is firmly founded on WOV's unequalled Italian language program service — providing *network quality* entertainment and news coverage from studios both in New York and Rome, Italy . . . with the showmanship and drive that SELL!

***2,100,000**

Italian-Americans Live and Buy in
the Greater New York area.

What kind of a
TEST CITY
is ROCHESTER, N. Y.?

● According to figures in "Sales Management's" November 10, 1950 test market study, Rochester, N. Y., is a MUST on test market programs. Here are the exact rankings for Rochester:

- #1 in New York State
- #1 in the Middle Atlantic States
- #7 in all cities of population from 250,000 to 500,000
- #15 in all American cities of all sizes

BUT . . . "Rochester, N. Y."—as any market analyst knows—is much more than a city. It's a closely-integrated, wonderfully varied market area of both urban and rural population. Hence the next question:

What is the **BEST**
RADIO BUY
in ROCHESTER?

● WHAM—and WHAM **outstandingly**—the only station that offers complete coverage of this rich area. BMB figures prove it: no other Rochester station comes within miles of WHAM'S coverage.

FACTS for FREE!

Write WHAM—or ask your Hollingbery representative—for a copy of the newest compilation of market figures for the WHAM-land area. It's in a convenient filing-folder form, ready to slip right into your market-data drawer.

**WHY IS AP
 THE BEST?**

BECAUSE—AP is more experi-
 enced than any other
 news service . . . more
 than 100 years collect-
 ing and distributing
 news.

AP SELLS

For Stations and Sponsors —

For instance WBIG

“Joseph P. Mitchell, Manager of Gray Seal Paint Co., tells us that, thanks to AP news over WBIG, Gray Seal is one of the best known paint brands in this area. Their entire budget is now being spent on this high-power advertising.

“AP news is accurate, fast and completely unbiased, giving our listeners vivid word pictures of happenings all over the world.”

Prospecting in WFIL-adelphia?

The shortest path to spendable gold in America's Third Market is the coverage route of WFIL.

Stake your claim to higher sales in this rich market through WFIL. In the 14-county Philadelphia Retail Trading Zone—where buying power is greatest—WFIL's signal is strongest.

In those 14 counties and beyond—in all of WFIL-adelphia—the station serves a city, suburban and farm audience over a 4-state area, and talks the language of each.

Buy WFIL—the **ONLY** Philadelphia network station to show a **DAYTIME** and **NIGHTTIME AUDIENCE INCREASE** in the latest BMB report.

**Buy WFIL to
Sell Philadelphia**

ABC AFFILIATE

WFIL
The
Philadelphia Inquirer
Station
Represented by
THE KATZ AGENCY

HEADS or TAILS?

Of course not! Buying today is done on a basis of good, sound reasoning—that's why sponsors on WIP have bought again and again to prove WIP

by creating an

*average volume increase for 7 years of **11%***

and

*a total volume increase for 10 years of **88%***

and

*a 4 year mail increase of **70%***

Why gamble when you can gambol in the green fields of profit? It's no "toss-up" that scores of smart advertisers use WIP to sell their merchandise year after year. Pocket that coin — just "flip" your directory open to our

AP SELLS

For Stations and Sponsors —

For instance WFIL

"M. Z. Bierly, Goodrich tire distributor, has sponsored AP news on WFIL since 1943. New and repeat sales prove its effectiveness.

"AP newscasts are a real value for advertisers. AP needs no 'audience promotion'. In this era of world change and conflict, radio news is the listener's direct wire from headquarters."

WHY IS AP
THE BEST?

BECAUSE—AP has more news correspondents; more news
 bureaus, more miles of news wire than any other
 news service.

more New Englanders
listen to

WPRO

than any other
Rhode Island station

all
latest
seasonal
reports show
WPRO
first in share
of audience!

...compared* to the second-place
station, **WPRO** offers you:

152.4% MORE AUDIENCE

WEEKDAY
MORNINGS

73.5% MORE AUDIENCE

WEEKDAY
AFTERNOONS

50.2% MORE AUDIENCE

EVENINGS
SUN.-SAT.

**Comparison of a typical seasonal survey
(1949-1950 Winter-Spring Hooper Audience
Index for Providence - Pawtucket, R. I.)*

listeners are customers!
customers are buyers!

Profit-Margin **COVERAGE**

Ask for new BMB figures that show WJHL domination in reaching the million plus people in the WJHL area—156,480 radio families. And WJHL attracts 90-95% in Johnson City and vicinity. This coverage is the extra margin that pays bigger profits—makes your budget successful! WJHL leads in Hooperatings! Leads in BMB summaries! Get the facts! Get WJHL's audience! You're sure to get a profitable share of the \$ 264,258,000 annual retail volume.

WHY IS AP
 THE BEST?

BECAUSE—AP has more news
 correspondents, more
 news bureaus, more
 miles of news wire
 than any other news
 service.

WBAP LEADS THE FIELD

YOUR radio and television placements in the rich Southwest are a certainty. Just as certain, after looking over the field, will you be doing business with WBAP (WBAP-570, 5,000 watts, ABC and WBAP-820, 50,000 watts, NBC) and WBAP-TV (Channel 5, ABC and NBC).

At WBAP, as a national advertising agency executive did above, you'll find the "best set-up," the most modern facilities in the business.

To name a few things . . . six large-size radio studios to serve you . . . three great television studios . . . complete disc and Ampex tape recording facilities for the production of high quality transcriptions . . . completely equipped film commercial production department, including film laboratory for processing and developing film.

WBAP leads the Southwest on all counts. Check the station or Free & Peters for complete station and market information.

AP SELLS

For Stations and Sponsors —

For instance . . . WSAZ

“The S. S. Lawrence drug store has sponsored more than 2,500 consecutive AP newscasts over WSAZ—seven each week since 1943.

“Associated Press news is a very important factor in WSAZ’s revenue. It gives us easy-to-sell programming—programming that helps listener-wise and dollar-wise. We carry 59 AP newscasts every week.”

MARSHALL ROSENE,
 General Manager,
 WSAZ, Huntington, W. Va.

WHY IS **AP**
 THE BEST?

BECAUSE— **AP** is more experienced than any other
 news service . . . more than 100 years
 collecting and distributing news.

**YOUR
ADVERTISING
DOLLAR...**

ON CFRB you reach more listeners per dollar than on any other Toronto Station. That's why advertisers keep on using CFRB year after year.

Ask them why! Perhaps they won't quote figures or facts . . . but they'll give you the real answer. They stay because they get results! They stay because they reach more radio homes, more prospects for their product . . . selling an audience that's been increasing for over twenty years!

**CFRB
TORONTO**

C A B

Station Index

Stations

NINETEEN FIFTY-ONE

IN CANADA

From 1944 to 1949 radio homes increased almost 50%. During 1950 there has been a further increase of 10%, making the present total nearly 3,500,000 homes.

In Canada day-time "sets-in-use" have risen from 22% in 1944 to almost 25% in 1949 (Elliott-Haynes), while night-time "sets-in-use" during the same period have risen from 38% to 43%. These figures are substantially higher than those for radio "sets-in-use" for the United States and this disparity is now becoming even more accentuated. "Sets-in-use" in French Canada are the highest in North America.

In Canada radio has an intensity of listening and a concentration of interest enjoyed in few other places or by other media. CBC Network Schedules combine the top-ranking programs from American networks with a wide variety of highly popular home features ensuring consistently faithful audiences.

In Canada both day-time and night-time radio are outstanding buys compared with any other media.

"The Hallmark of Effective Radio"

NOT JUST RADIO, BUT COMMUNITY RADIO

The radio that really sells your goods is not an out-of-town salesman who travels across the country, shoving his foot in every door, delivering the same pitch from the Atlantic to the Pacific.

Rather it is a friendly neighbor, who drops in for a cozy chat about the price of coal, a different recipe, the new cars, or what the Joneses are wearing this year.

That's radio, on the community level, speaking to its neighbors in their own language, through the well-known voice of Bill Smith — old Steve's kid who used to deliver for the corner store and sing in the choir, and is now working as an announcer at Sam Green's radio station.

The service offered to business by Canada's Community Radio Stations is as simple as that.

But there is something more.

One hundred of Canada's privately-owned community stations are bonded together in the Canadian Association of Broadcasters for the general betterment of broadcasting.

While studiously maintaining their individuality and independence, these stations pool their collective strength to give advertisers all the advantages of a nation-wide organization, in terms of co-ordinated effort, with none of the unwieldiness and lack of flexibility of centralized programming.

When you buy time on one, some or all of the 100 CAB stations, you get better merchandising, better programming, better production, better research, better results, because you get a neighborly presentation of your message, besides all the benefits of a national organization devoting its time to these "multiple-pluses" which no individual station could possibly offer.

For Full Information

on your specific merchandising problems, consult

The CANADIAN ASSOCIATION of BROADCASTERS

T. J. Allard,
General Manager,

Canada's Selective Radio Headquarters

The little All-Canada man represents all phases of Canadian broadcasting — both time and talent.

Through the years he has come to symbolize not only the Company he represents, but the medium he champions: *Selective Radio*.

In a vast country with wide "skip-distances" between major markets, All-Canada offers you the most economical, most effective method of reaching the consumer at home through a select group of key Canadian stations.

Call on the All-Canada man wherever your campaign plans extend into the Canadian market. He'll be ready to discuss times and stations; and All-Canada also offers you selection from the world's largest library of transcribed programs.

NINETEEN FIFTY-ONE

*a great new star
in the APS library*

GUY MITCHELL

sensational young singer whose recording of "My Heart Cries For You" has swept the nation. His fresh, exciting talent has brought him stardom almost overnight.

ONE MORE FINE ARTIST joins the Associated family of outstanding musical stars. It's a happy event that means still another great name in the APS roster of leading musical performers. And it's another example of how APS subscribers continue to benefit because they selected the best and ever-improving radio library in the world.

With such excellent talent, plus the finest quality of recording and the experienced sales and promotion service Associated now renders — it is no wonder why APS subscribers unanimously agree that here is the library which "pays as it plays".

Associated is your surest guarantee of *programming at a profit*. Why not write, phone or wire today for more facts on how APS can create bigger sales for *your* station?

Mindy Carson

Vic Damone

Evelyn Knight

Ralph Flanagan

Kay Armen

All these big-name shows

Thesaurus shows sell themselves to your sponsors at once. But the hard-hitting locally slanted sales aids you get—brochures, audition discs, promotion kits—make your selling job even easier.

Thesaurus is complete local programming . . .

BASIC LIBRARY: approximately 5000 selections.

MONTHLY RELEASE: no less than 52 new musical selections each month, with the average number of selections delivered much greater. Hit tunes released in advance of their popularity.

WEEKLY SCRIPTS: continuity for 25 program series . . . 73 individual shows per week, enough material for over 20 full hours of broadcasting. Special scripts for holiday shows and other bonus productions.

PRODUCTION AIDS: voice tracks, theme music, tie-ins, cross-plugs, mood music, sound effects, vocal cues, time and weather jingles, open-end commercial jingles, news and sports signatures, fully-recorded holiday shows.

plus loose-leaf catalog, card index file and storage cabinets.

Mid-Western Sales.....Louis M. Block, Jr.

Services Offered: The Keystone Broadcasting System is a network which assists local radio stations in their programming with transcriptions, with KBS making their time available to national advertisers and their

agencies at an attractive network package rate.

At present, there are more than 400 Keystone affiliates, located in towns of 10,000 to 50,000 population where they reach both the small town and rural markets. For the most part, these Keystone stations serve those areas which are beyond the clear reception areas of the large metropolitan radio stations or other high-power stations. The number of radio homes in these Keystone markets run into the millions, all within the prime area of Keystone affiliates. And, most of these homes are beyond effective television influence of the larger metropolitan areas.

Keystone is a flexible media easily purchased, whole or in part. Entire areas or spot coverage may be selected . . . whichever meets the needs of the advertising program. Regardless of the schedule, Keystone makes its time available at a considerable savings.

In operation, Keystone offers the same advantages as the wired networks. Instead of a large number of individual transactions, KBS reduces your problem to one order, one time clearance, one series of Affidavits of Performance, and one invoice.

During 1951, as in 1950, many of the nation's largest advertisers are using the

... this label

facilities of Keystone. Most of them are in the drug and food field. Types of programming vary from 25 word spots to one hour shows.

ASCAP

MUSIC is the main ingredient of *all* successful entertainment programs—but not just *any* music. When you're in the business of entertaining people, it pays to give them the *best*.

ASCAP music is *demanded* music—the newest and most-requested novelty tunes and ballads . . . the old standbys . . . rhythms and blues . . . folk tunes and sacred songs . . . special music for special occasions.

ASCAP music is *successful*—successful because it's created by America's outstanding composers of stage and screen songs, popular tunes, operettas and concert works.

ASCAP is *growing*—growing with constantly created new works that customers will be demanding tomorrow—and the day after.

All of ASCAP's rich and varied repertory—including the works of world-famous foreign composers—is available to you in one complete package at low cost, and with a minimum of clearance problems.

From Maine to California your local ASCAP representative, at your call, will bring you complete details as to the ASCAP license for your particular needs.

NINETEEN FIFTY-ONE

A. S. C. A. P.

By **OTTO A. HARBACH**

President

A BLANKET AGREEMENT with The American Society of Composers, Authors and Publishers gives a client the right to use any or all of the hundreds of thousands of songs and other musical works whose public performing rights are registered with the Society. This includes most of the world's important compositions of the past fifty-six years, plus the present and future works of America's and Europe's best authors and composers.

Therefore, ASCAP becomes a vast clearing house through which creators can do business with users. It relieves both creator and user of all contractual and legal details and all bookkeeping relating to collections and distributions. To make its vast repertory easily available to licensees, ASCAP spends more than two million dollars yearly. Thus the great costs of music clearance that otherwise would accrue to the user are borne by ASCAP, whose members similarly are relieved of the otherwise onerous—in fact, impossible—task of supervising their musical properties.

Like Radio, ASCAP is truly cosmopolitan. Members of the Society hail from every state. Foreign-born Americans from more than forty countries are included in its membership. All speak the international language of music.

I am happy to extend to the vast radio industry and its young partner of the air waves, the amazing television industry, the greetings of ASCAP. It gives me special pleasure to report that Radio and Television on the one hand, and ASCAP on the other, are approaching our common problems with mutual respect. In this atmosphere, we look to the future with confidence.

ASCAP maintains headquarters in the RCA Building, Radio City, with 25 branches throughout the country. Officers as of Jan. 1, 1951 are:

Otto A. Harbach.....*President*
Saul H. Bourne.....*Vice President*
Oscar Hammerstein, II.....*Vice President*
George W. Meyer.....*Secretary*
Louis Bernstein.....*Treasurer*
A. Walter Kramer.....*Assistant Secretary*
Frank H. Connor.....*Assistant Treasurer*

The Board of Directors comprises 12 writer- and 12 publisher-members, eight of whom are elected annually by the membership for three year terms.

BROADCAST MUSIC, INC.

By CARL HAVERLIN

President

IF HISTORY repeats itself, the first year of BMI's second decade will be one of continuing gains and consolidations, rather than of spectacular growth. In the past years, we have tried to conduct our business, as any business might, by constantly improving both product and service.

The past year has seen the fruition of significant publishing ventures in the field of American music, such as Carl Sandburg's New American Songbag, Songs of the Confederacy, and the Square Dance Book.

While special attention has been given to fostering folk music—with the result that one third of total BMI AM performances in 1950 were folk music—BMI has not avoided its obligations on the wider international scene. Simultaneous with the strengthening of our native roots, BMI has entered into bilateral agreements with the performing rights societies of Spain, Belgium, Austria and Portugal.

BMI has long fostered writers as individuals and it has recently established its writers plan. We are proud of the progress made by this department in the past year. Some of the writers have been responsible for Hit Parade and Honor Roll of Hit Tunes, such as Pee Wee King (Tennessee Waltz, Bonaparte's Retreat); Woody Guthrie (So Long), etc.

As an extension of service, and at the request of several state associations, the well known BMI Program Clinics, which have brought over fifteen hundred station executives to New York has gone out into the field.

OFFICERS OF BMI are: Carl Haverlin, president; Sydney M. Kaye, vice-chairman of the board and general counsel; Robert J. Burton, vice-president in charge of publisher relations; Charles A. Wall, vice-president in charge of finance; Roy Harlow, vice-president, station series; Jean Geiringer, vice-president, foreign relations; Charles E. Lawrence, assistant treasurer, and Alexander D. Nical, controller.

DIRECTORS (elected annually): Justin Miller, chairman; Sydney M. Kaye, vice-chairman; Herbert V. Ackerberg, CBS; John Elmer, WCBM; Walter Evans, Westinghouse Radio Stations, Inc.; Carl Haverlin, BMI; William S. Hedges, NBC; Herbert Hollister, KBOL; Leonard Kapner, WCAE; Joseph A. McDonald, ABC; Paul W. Morency, WTIC; J. Leonard Reinsch, WSB; J. Harold Ryan, Fort Industry, Inc. and James E. Wallen, MBS.

ASSOCIATED MUSIC PUBLISHERS, INC.

By **M. E. TOMPKINS**
President and Secretary

Associated Music Publishers, Inc., 25 West 45th Street, New York 19, New York, a wholly owned subsidiary of Broadcast Music, Inc. is in its fourth fiscal year since its acquisition by Broadcast Music, Inc.

In addition to its own extensive catalogue of orchestra, chamber music and chorus music, it continues to represent exclusively in the United States such fine foreign catalogues as Breitkopf and Hartel—Leipzig; Universal Edition—Vienna; N. Simrock; B. Schott's Soehne—Mainz; Schott & Co., Ltd.—London and Edition Max Eschig—Paris. Associated continues to represent exclusively as selling agent the fine standard and serious music catalogues which were developed by BMI throughout its publishing life. Performance rights continue to be administered by BMI.

AMP Board of Directors: Carl Haverlin, President of BMI; William Hedges, NBC; Sydney M. Kaye, Vice-President of BMI; Paul Morency, WTIC; J. Harold Ryan, Fort Industry Company; M. E. Tompkins.

SESAC, Inc.

By PAUL HEINECKE

President

IN contemplation I realize that for a long time I have been devoting my energies to the cause of music. It has been from a place in the world of music that I have witnessed each phase of the growth and change of the half century. Fifty years with melody — and twenty of those satisfying years at the helm of SESAC. As we leave a momentous year and meet the challenge of the next, I think it more fitting to dwell for a moment on the shape of musical things as they are, than those to come.

SESAC's purpose, generally speaking, has always paralleled the industry's — to satisfy a growing need for rewarding listening across the land. Its publishers have made steady strides in the public interest — contributing to the American culture, catering to the fundamental musical tastes of our people.

We are today making available to all music users the works in over 200 outstanding catalogs, an immense repertory of durable standard music that will continue to grow and go on meeting the test of time. SESAC music, by virtue of our complete Performance License coverage, now blankets the nation.

I am glad to also report that our SESAC Transcribed Library — has become a solid sales stimulant and a real Radio Station operational support — presently at 4000 brilliantly produced selections as well as hundreds of bright salable script shows commercially tested and proven — a fine volume of program notes and a practical, workable Catalog of Bridges, Moods and Themes.

We are proud to offer our big, complete and different Library Service at a rate within every station's reach. It should be of particular satisfaction to discriminating broadcasters who demand balanced musical fare, as light on the ears as on the budget.

Music shall always be a great force in our way of life. Whatever the future asks of radio, SESAC shall continue to mean good listening with "the Best Music in America."

My warmest greetings to you all. May 1951 be the harbinger of lasting good will at home and abroad.

ANNOUNCER-M.C.

RADIO and TV

PL 8-1225

ARE YOU LOOKING FOR GOOD ANNOUNCERS?

We have graduate students on tap who have been trained by network and independent station personnel to do: Announcing, Disk Jockeying, Sportscasting, Newscasting, Programming, Emceeing, Quiz Programs, Producing, Selling, and station routines.

If you need an all-around good beginner who has aired his own programs over New York Radio Stations as part of his school training, drop us a wire collect and by return air mail you will get audition disks and resumes with photographs on some of our top grads.

THE CAMBRIDGE SCHOOL OF RADIO BROADCASTING AND TELEVISION

President, Bess Stern

George S. Carlesco, Director

"You just must see the Freddy Martin Show. Treat yourself to a treat."

HERB STEIN,
Hollywood Reporter

"A smart sponsor should grab Freddy for television. His band is a complete entertainment unit by itself."

NICK KENNY,
N. Y. Mirror

"Tops In Town: Freddy Martin's musical floor shows."

DOROTHY KILGALLEN

"Freddy Martin's 'Band of Tomorrow' is rated terrific."

WALTER WINCHELL

"This is a slick commercial crew . . . band parlays slick sponsorship with a flexible organization and a broad repertory."

HERM, Variety

"We didn't believe it until we saw it. . . . Can't remember ever seeing a band perform production numbers so well. Television oughta grab this gang in a hurry."

SID WHITE,
Radio Daily

FREDDY MARTIN

"BAND OF TOMORROW" 51.9 TELE-QUE

26 WEEKS IN SAN FRANCISCO AND LOS ANGELES

" . . . a noteworthy show. Locally the best yet."

DWIGHT NEWTON,
San Francisco Examiner

" . . . one of the most popular audience participating shows on the video lanes."

Impact is that which happens to someone who has been hit hard. In Television programming it means a dynamic stirring of the senses during and long after the program has been seen.

Bing Crosby Enterprises has been stirring the senses of America's tele-viewing masses with its great dramatic series "Royal Playhouse,*" produced for first run for Procter and Gamble Company under the name "Fireside Theater." Other productions now under way are "Night Editor" featuring that great story teller Hal Burdick, also Professor Lightskull and Doc Twiddle, a rollicking series of mystery plays (15 minutes) done with a great all-chimpanzee cast.

For information on all Bing Crosby Enterprises productions (or if interested in a program series created especially for you) call any United Programs, Inc., office listed below.

TV PROSPECTS FOR 1951

Below is a roundup of TV broadcaster opinion on the prospects for business in 1951. These opinions represent the answers to questions submitted by Radio-Television Daily at the close of business last year. The opinions follow:

Hugh A. L. Half, president and treasurer, Southland Industries, Inc., operators of WOAI-TV, San Antonio, Tex.: "In our first year of operation, TV has shown excellent growth and each month indicates progress. We are looking forward to the year 1951 with great expectations as we have now passed the period where advertisers are buying time on WOAI-TV primarily from the standpoint of obtaining a position or franchise. This is now a well established television market which combined with our type of operation assures advertisers results for their television advertising dollar, not just the hope of obtaining results at some future date."

William Fay, vice-president, Stromberg-Carlson Company, Rochester, N. Y.: "Of course like everyone in station TV operation, we are having difficulty accommodating all network requests for time, but we are selecting the schedule we feel will best serve our audience. I believe the interest in TV which the public has shown for the past two years, will continue to grow—obviously, unless there is a drastic change in our national economic planning, set production will be greatly curtailed."

Marshall Rosene, general manager, WSAZ-TV, Huntington, West Va.: "I am pleased to report that since our microwave relay network went into operation a couple of months ago, our business has grown by leaps and bounds. This is true both as to network as well as national spot business. We are indeed satisfied in the manner our station is progressing, and as to my personal TV predictions for the year 1951, I can only see a continuing upsurge both on the part of set buying, as well as advertising."

Robert D. Swezey, general manager of WDSU, New Orleans, reported "television in New Orleans is moving ahead at pretty much the same rate as it is doing all over the country. Apart from a national emergency of extraordinary impact, I can see no reason why 1951 should not be an exceedingly bright year for television. In

my opinion, it has proved its merits as the most effective advertising media, and a channel for education and entertainment of lasting appeal."

Swezey's optimism was shared by **R. E. Dunville,** president of WLW, Cincinnati, who said:

"Television in 1951 should be good for everyone. In spite of the retention of set sales occasioned by confusing publicity on the matter of color, circulation should continue to increase during 1951 and expanding local and network hours is very definitely indicated. Our three television stations are operating from 7:30 a.m., to as late as 1 a.m., six days a week with a starting time on Sunday of 10:30 a.m., and our greatest problem is time clearances.

"Many stations have resorted to double and triple spotting and it is not anticipated that WLW television will take this step. Expenses will continue to rise in television operations, however, but unless some economic catastrophe occurs, 1951 should be a tremendous year."

By the end of 1951 TV will be tripled or better, according to **Miller C. Robertson,** vice-president in charge of sales at KSTP-TV, Minneapolis-St. Paul. Robertson added:

"According to the number of sets sold, this is one of the fastest growing TV markets. Local accounts are heavy TV time buyers and without a doubt, TV has taken its place in the Twin Cities beside radio as another great advertising medium."

Campbell Arnoux, president of WTAR-TV, Norfolk, Va., in answer to RADIO DAILY's query "how's business?" said "I am glad to say I don't know how it could be any better. We are rapidly reaching the sold-out situation and both local and national spot business is growing by leaps and bounds. Barring unexpected governmental restrictions on production, my personal prediction for TV in 1951 is that we will have more business than we can handle."

TV PROSPECTS FOR 1951

Reporting growing national spot business, *U. A. Latham*, general manager of WKRC-TV, Cincinnati, declared: "I am convinced that TV in '51 will be beyond all predictions, just as the set sales for 1950 extended beyond predictions.

"Undoubtedly, the network commitments will become more and more of a problem as national spot sales grow in size. However, network affiliations are naturally variable in getting the largest possible audience that will attract spot business. Therefore, the problem of balancing local, network and spot sales will become increasingly more difficult as TV advances."

Philip G. Lasky, vice-president and general manager, KPIX, San Francisco: "KPIX is two years old and we are quite gratified with the healthy way it has grown in this initial period. Business in 1950 has been active and satisfactory, and barring unusual upsets because of the world situation, we look to 1951 to bring complete economic stability to the television broadcasting business."

Alvin D. Schrott, manager, WJAC, Johnstown, Pa.: "As far as 1951 is concerned we believe that the set sales will continue to move along at a very good pace. It is almost a certainty that the quality of network shows will continue to improve, thereby swinging many of the 'die-hards' to TV."

Thad Holt, president, WAFM-TV, Birmingham, Ala.: "National spot business is definitely on the increase. 1951 should certainly be a great year for television."

Charles L. Glett, executive vice-president, Don Lee Television: "Business is at an all time high on Channel two, Los Angeles. National spot is growing at a tremendous rate. Barring any unusual circumstances, 1951 will be the most important year in the history of television."

Haan J. Tyler, manager of KFI-TV, Los Angeles, reports: "Business has been excellent with KFI-TV. National spot business is still growing, and being strictly an independent operation, we are not faced with any network affiliate problems. My personal prediction for 1951 is that television in this area will be bigger and better than ever. Most of the stations here are planning expanded schedules. In spite of material shortages and talk about color,

TV set sales are still going forward at a tremendous pace. Before 1951 has seen its finish, there will be over a million sets in the Los Angeles area. That is a market too large to overlook. It is true that there will be some material shortages brought on by an all-out defense effort on the part of our country. Perhaps there will be some sponsors who will have to curtail because of this. There will, however, be others in line to supplant them, and I see nothing but a big year ahead."

Richard B. Hull, radio-TV director for WOI-TV, Ames, Ia.: "Business is good with WOI-TV (both commercial and educational business). Spot business is still growing. The problem of handling network affiliation commitments is a hot one as you can imagine with a 4-network affiliation, an allocated two circuits out of Chicago West and policy which prevents beer, proprietary medicines, etc. and a generally tougher program acceptance policy than is normal (because of College ownership). On the good side is the fact we maintain our own local loop and deal equally with all 4 networks.

"For 1951 I predict TV itself will grow in acceptance and importance and in sale of time. Receiver sales will increase until the end of the first quarter. Only the NPA knows about new stations in view of the emergency and their 'freeze' may be more important than the FCC's."

M. C. Watters of WCPO-TV, Cincinnati, believes: "The trend toward the programming of good shows for daytime viewers will increase in 1951. It is our intention to continue to push WCPO-TV's daytime programming during the new year so that they will become an even greater attraction. Business is fine with WCPO-TV. The national spot business is growing by leaps and bounds. As we subscribe to both the ABC-TV and DuMont Television Networks, we will continue to handle the best programs which are made available to this station by those sources."

Frank Samuels, vice president of ABC in Hollywood, comments: "The national spot business is growing steadily as is our local business."

A. B. C. TELEVISION NETWORK

ROBERT E. KINTNER *President*

Youngest president of a major broadcasting system, ROBERT E. KINTNER, president of the American Broadcasting Company, has played a leading part in the advance of the network to a commanding position in the television field. A native of Stroudsburg, Pa., and a graduate of Swarthmore College, he had a distinguished newspaper career as a financial writer and Washington

KINTNER

correspondent before joining the Army in 1941. Following his discharge from the service as a Lieutenant Colonel, Kintner joined ABC as a vice-president. In 1946 he was elected executive vice-president of the network and in 1949 was elected its president. A resident of New York City, he is married and has two children, Susan and Michael.

FRED M. THROWER *Vice-President in Charge of Television Sales*

With a background of sales contact and sales experience from the time he entered the broadcasting industry at the age of 19, FRED THROWER has been largely responsible for the rapidly rising sales curve of the American Broadcasting Company. In 1942, when the Blue Network (predecessor of ABC) was set up as a separate entity, Thrower was named its general sales manager. In that year, gross billings of the network were

THROWER

\$15,782,493. Last year, with Thrower as its vice-president in charge of sales, the American Broadcasting Company reported gross radio billings of \$42,342,225. He was named to his present post in October, 1950. Thrower served as a naval lieutenant in England, Continental Europe and the CBI theatre during the war. A native of Florida, he is an enthusiastic hunter and deep sea fisherman.

ALEXANDER STRONACH, JR. *National Director of Television Programs*

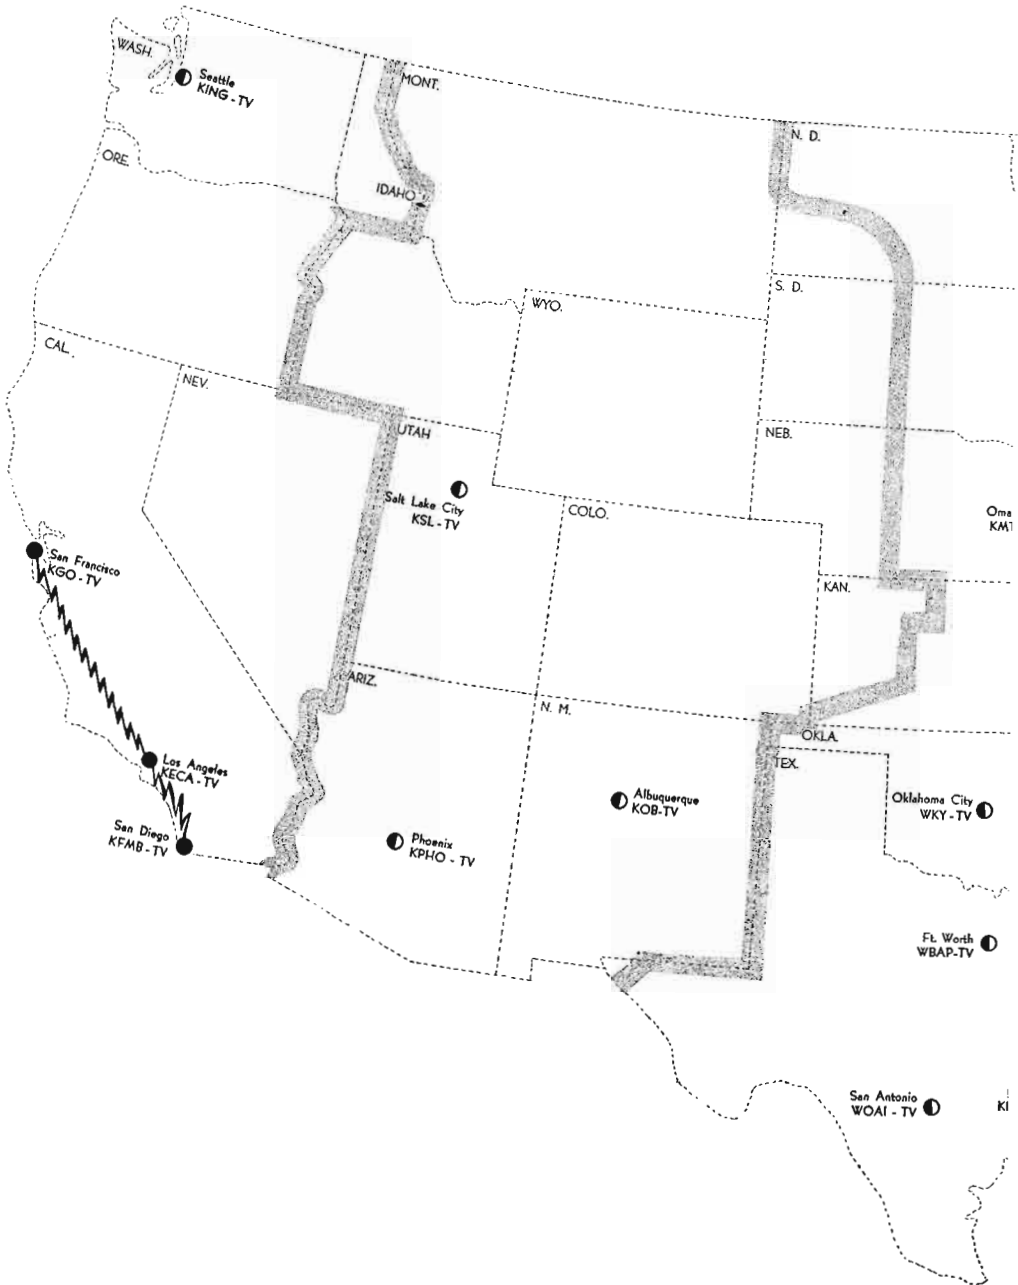

With a wide experience of writing, production, and agency operations in his background, ALEXANDER (SANDY) STRONACH, ABC's national director of television programs, joined the network in September, 1948. A former free lance writer for magazines and motion pictures, Stronach joined Young & Rubicam, Inc., in 1938 as a writer on the "We, The People" radio program. Subsequently, he produced and directed this program as well as

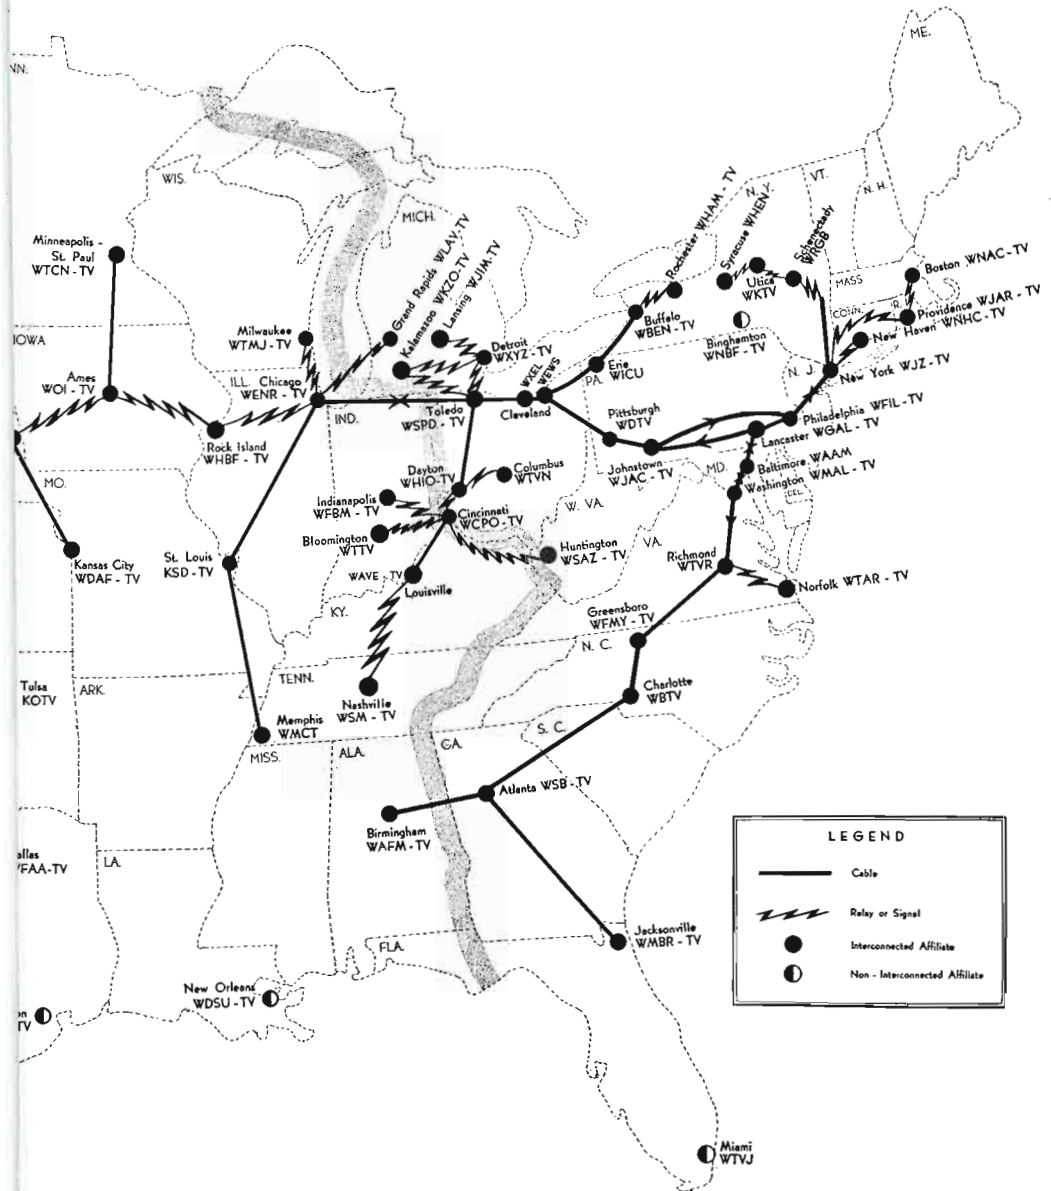

STRONACH, JR.

"Mystery Theatre," "The March of Time" and several other of the agency's commercial programs. In addition, he served as production supervisor, manager of the talent department and program manager for Y & R. In 1947 he became associated with the William Morris Agency as an executive in its radio and television department. In his present post, Stronach coordinates all television operations of ABC and its owned and operated stations.

AMERICAN BROAD

CASTING COMPANY

THE
MAGIC
IS BUILT-IN

There are two pictures on this page: the one you are looking at; and the one they are looking at (which you can't see).

To you the important picture is the people *in front of the television screen*. It is a picture of the special impact achieved only by this medium, yet which goes far beyond the novelty of television.

But we are equally concerned with the picture *on the screen*. For it is the result of creative programming which alone can *sustain* this kind of impact ... building into every program the magic that holds the largest audiences week in and week out.

It is now clear that CBS is the richest source of such programming in television today; that CBS consistently has more of the most popular programs than any other network; and that most of these programs have been created or produced by the Columbia Broadcasting System.

This picture of television's impact is a picture any advertiser can create — but he needs the magic of CBS to hold it.

CBS TELEVISION

COLOR TV ADVANCES—IN MEDICINE

By G. F. ROLL of Smith, Kline and French Laboratories

G. F. Roll

AS the government continues to wrestle with the problem of color television—it's up, it's down, it's up, etc.—and as the war clouds make this question academic, one fact remains clear:

Color television has slipped in the back door and it is performing a function which is becoming increasingly impor-

tant as the country arms itself against aggression.

Color television came into this unofficial status through the waiting room of the American doctor. It is an old story how the Philadelphia pharmaceutical firm, Smith, Kline & French Laboratories, obtained special equipment from the Columbia Broadcasting System to bring color televised surgery and medicine to medical meetings from coast to coast.

What's new is that this project has now apparently become a permanent fixture in the medical and electronic worlds. The color television feature at medical meetings is no longer a novelty, but rather a basic contribution. The American Medical Association, to cite the most conspicuous example, has featured SK&F's color television at its last four meetings and will again have medical colorcasts at its annual session this June in Atlantic City. The American College of Physicians has presented these programs at its last two meetings. In April the American College of Physicians will present its second program of color televised clinics. In addition to these titans, state and city medical groups have brought SK&F's programs to their members.

Why? When you consider that the medium is no longer a novelty and yet maintains its popularity for medical audiences, it becomes clear that its appeal is due to its educational value. This was clearly demonstrated last fall when SK&F, with the cooperation of the Wayne University College of Medicine, put on the first post-

graduate medical seminar conducted entirely by color television. How did this impress Detroit medical circles? The University conducted a survey of some 500 doctors who attended the seminar. Over 300 responded, and out of this amazing return two outstanding statistics were obtained. First, 96 per cent stated that they preferred watching surgery by color television than by sitting in the old fashioned surgical amphitheater. This is not surprising: from the amphitheater you see next to nothing, while on the color television screen you see as much as the surgeon does. Secondly, 85 per cent stated a preference for color televised medical clinics—featuring live patients—as opposed to the usual procedure of hearing a lecture at best accompanied by slides.

This remarkable degree of acceptance was characteristic of the entire series of colorcasts which SK&F has put on using the practical, natural-color system of CBS. And there has been ample opportunity to judge this. In 1950 alone, SK&F color TV traveled 14,000 miles to 13 medical meetings from Boston to San Francisco, transmitting more than 300 individual operations and medical clinics to an audience which reached a total of 137,000.

Thirteen such programs have been scheduled from February to June of this year, starting recently with a program for the annual Atlanta Graduate Medical Assembly.

All of these programs are supervised by SK&F's Medical Television Unit, headed by two physicians, and employing the services of CBS technicians. The camera moves to within a few feet of the operating table, and transmits an unmatched view of the operation to 15 or 20 special receivers set up at the convention site. Generally a micro-wave radio link is used for the transmission. The programs also feature medical clinics involving a certain amount of TV "staging" to maintain utmost interest. The Medical TV Unit has written a special guide for the physicians who appear before the camera, explaining the little points which give the presentation a professional touch.

In short, this series of programs has become the foremost example of television's teaching value.

C. B. S. TELEVISION NETWORK

FRANK STANTON *President*

Joining CBS in 1935 as research director, FRANK STANTON, president of the network, rapidly advanced to a vice presidency in 1942 and was named general manager and elected to the board of directors in 1945. He has been president since 1946. Stanton has a couple of firsts in radio research to his credit. He was the first to develop and use a mechanical device for recording radio set operation and he is a co-developer of the Program Analyzer, a machine for

STANTON

measuring audience reaction to program content. Almost as well known in the field of psychology as radio, Stanton is the author of many books and articles on the former subject. Prior to CBS he had been with the Psychology Department at Ohio State University. During the war he served as a consultant to the Office of Facts and Figures. He was born in Muskegon, Mich., on March 20, 1908, and has degrees from Ohio Wesleyan and Ohio State.

HUBBELL ROBINSON, JR. *Vice-President in Charge of Network Programs*

In story book fashion, HUBBELL ROBINSON, JR. started at the bottom as a messenger with Young & Rubicam in 1928 and in 1944 was made a vice president of the firm. Subsequently he joined the Blue Network (now ABC) as vice president and director of programs and in 1945 he moved to Foote, Cone & Belding as vice president in charge of radio. Robinson came to CBS in 1946 to take over direction of AM network programs. On January 1, 1950 he

ROBINSON, JR.

assumed general supervision and direction of all CBS programming, both radio and TV. Robinson was born in Schenectady, N. Y., on Oct. 16, 1905, attended Phillips Exeter Academy and Brown U., receiving his B. A. in 1927. After graduation he became a reporter on the Schenectady Union Star and later on the Knickerbocker Press in Albany. In 1928 he moved to New York and entered advertising.

J. L. VAN VOLKENBURG *Vice-President in Charge of Network Sales*

A member of the CBS family for 19 years, J. L. VAN VOLKENBURG, has risen through a number of executive posts with the network to his present position as network sales vice-president. He joined CBS in 1932 as general manager of KMOX, a Columbia-owned station in St. Louis. In 1936 he was appointed assistant to the CBS vice-president in charge of the Central Division. Van Volkenburg was named general sales man-

VAN VOLKENBURG

ager of radio sales, in 1945 and, three years later had assumed supervision of Columbia-owned stations as director of station administration. Shortly thereafter he was named vice president and director of Television operation and on Jan. 1, 1950, took over his present assignment. Van Volkenburg was born in Stouxs City, Iowa, Dec. 6, 1903 and attended the University of Minnesota.

COLUMBIA BROAD

DUMONT

20th year

*as pioneer
in television*

1931-1951

ALLEN B. DU MONT

The story of television in those twenty years is the story of Dr. Allen B. Du Mont, President and Founder of the Allen B. Du Mont Laboratories, Inc.

First in development It was Dr. Du Mont whose research, begun in 1931, changed the cathode ray tube from a laboratory curiosity into a practical television picture tube.

First in radar It was Dr. Du Mont's work, on which he applied for patents in 1933, that was developed in military secrecy to provide radar.

First in fine receivers Du Mont built the first home receivers in 1939. Many are still in use. Du Mont was first to offer a fine line of post-war receivers.

First television station Du Mont established the first really equipped, regularly operating station, WABD, New York City, in 1944.

First television network In 1946, Du Mont opened the first television network, Station WABD, New York City, to Station WTTG, Washington D.C.

First in daytime television Du Mont inaugurated the first regular daytime programming in 1948.

First with the big tube Du Mont was the first with the 19-inch tube, the first with the giant 30-inch tube, producing the world's largest direct-view television receiver.

First in station equipment Du Mont has planned, designed and built many of the nation's leading stations — and the high-fidelity electronic equipment used for telecasting.

First in precision electronics Du Mont is the world's foremost maker of scientific precision instruments utilizing the electronic cathode ray tube.

World's largest cathode ray tube plant The Du Mont plant at Clifton, New Jersey, is the world's largest cathode ray tube manufacturing plant.

The name "Du Mont" is on every milestone in the short but eventful history of television. Du Mont has the experience, the know-how,

the facilities. In television broadcasting, network or local, program or spot, it pays to talk it over at Du Mont *first*.

MARKETING SYNDICATED TV

By JOHN L. SINN, President, Ziv Television Programs, Inc.

John L. Sinn

A NATIONAL magazine recently noted that television shows originating in New York, Hollywood, and Chicago, with star-studded casts and high production budgets, do not completely service the needs of television stations throughout the country, who must fill up their time with local shows, locally produced.

The magazine then went on to paint a rather gloomy picture of the failure of the local, "grassroots," stations to come up with worthwhile programs, with a very few exceptions.

If we admit this is so—and it is hard to escape the fact that local producers, directors, and talent are seldom able to compete on equal terms with those in New York, Hollywood, and Chicago—it becomes increasingly evident that the local advertiser who must reach the consumer through television, has to depend more and more upon the producers of top-notch syndicated television films to help him do the job that must be done in his community.

The local television advertiser is the backbone of the industry, just as the local radio advertiser is the backbone of that industry. He is the gent who has less dollars to spend in total than his national competitors; however, frequently he has as many or more dollars as his national competitor to spend in his own city or region.

The unmistakable trend during the past few years among such advertisers has been to sponsor a filmed-syndicated show.

Having found, sometimes through trial and error, that his own community is unable to provide him with the kind of entertainment he must furnish in order to attract attention to his sales message, he has been investing his advertising dollars in programs featuring big-name stars, or nationally established characters, such as "Cisco Kid."

And, he has found that such an investment has paid off for him handsomely, because he now has the tools with which to buck the competition in his own community from both national and other local firms in the same business.

Here are some typical figures to prove the point:

In San Francisco, "Cisco Kid," a filmed-syndicated production featuring name stars (Duncan Renaldo and Leo Carillo) and as established favorite western character (Cisco Kid), has achieved a 45 rating for its sponsor in that city, Kilpatrick Baking Company. In Los Angeles, for Weber's Bread, the program has built a 33 rating against top competition. In Detroit, where it is sponsored by Packer's Super Market, "Cisco Kid" has a rating of 36.

With such ratings, the local sponsor is assured of reaching as big an audience—if not bigger—than his competitors in his city—which is the only city he cares about—or in his region—which is the only region he is interested in. He has invested his money wisely. He has not wasted one cent in market areas where he has no potential customers or where he has no distribution of his product. He has pinpointed his selling message in exactly the city or areas he knows he has to reach.

Is "Cisco Kid" extraordinary in its rating achievements? Let's examine some typical figures achieved by another filmed-syndicated show, "Story Theater," which is half-hour adaptations of famous stories by famous authors, with casts featuring well known Hollywood actors.

In Detroit, for the Detroit Edison Company, "Story Theater" has a rating of 25. For Rosenbaum's Department Store in Pittsburgh, the program has a 60.5. It's a 20 for the Cincinnati Gas and Electric Company, and a 22 for the Harvard Brewing Company in Boston.

In short, the Main Street butcher, baker and candlestick maker, in small towns and big cities, can successfully meet his competition, local and national, in his city at a price he can afford to pay. He need not gamble on a show produced by people without know-how. By turning to the producer of filmed-syndicated programming he is assured of buying the best.

DuMONT TELEVISION NETWORK

DR. ALLEN B. DuMONT *President*

DR. ALLEN B. DU MONT is president of Allen B. Du Mont Laboratories, Inc., the only company in the United States devoted exclusively to television in all its phases. During 1951, the Du Mont Laboratories is celebrating its 20th anniversary. Dr. Du Mont is world famous for making TV possible by perfecting the commercial cathode-ray tube with its clear, bright, and reliable pictures. A Brooklyn-born graduate

DuMONT

of Rensselaer Polytechnic Institute. Dr. Du Mont has an impressive list of "firsts" to his credit. He founded the world's first TV network which has more than 60 stations, three of which are owned and operated by his organizations. He introduced the world's first commercial TV sets, was the first to make regular recordings of TV programs, and this year he has introduced the world's largest TV set, the Du Mont 30-inch model.

MORTIMER W. LOEWI *Director*

COMMANDER MORTIMER W. LOEWI is currently director of the Du Mont Television Network. Financial mentor and business counselor through the early development of the Allen B. Du Mont Laboratories, Inc., Commander Loewi has devoted his attention during the last few years primarily to building the network. In the industry, he is credited with being "the father of daytime television" and with proving low-cost production techniques,

LOEWI

whose need has been emphasized by the recent agreement with the Television Authority. Commander Loewi first came to New York in his college days to study art at Brooklyn's Pratt Institute and the Art Students League, later going to Paris where he studied at Julian Academy. He served with the Navy during World War II, returning to Du Mont afterward to continue his efforts in laying the ground work for effective, competitive, nationwide television.

CHRIS J. WITTING *General Manager*

Joining the Du Mont organization in June 1947, CHRIS J. WITTING has forged to the front of the television industry and, as general manager of Du Mont Television Network, has made substantial contributions to the extension and expansion of sales and program service to the many areas of the nation that currently enjoy video. Witting attended New York University and Columbia University as well as the Fordham Law

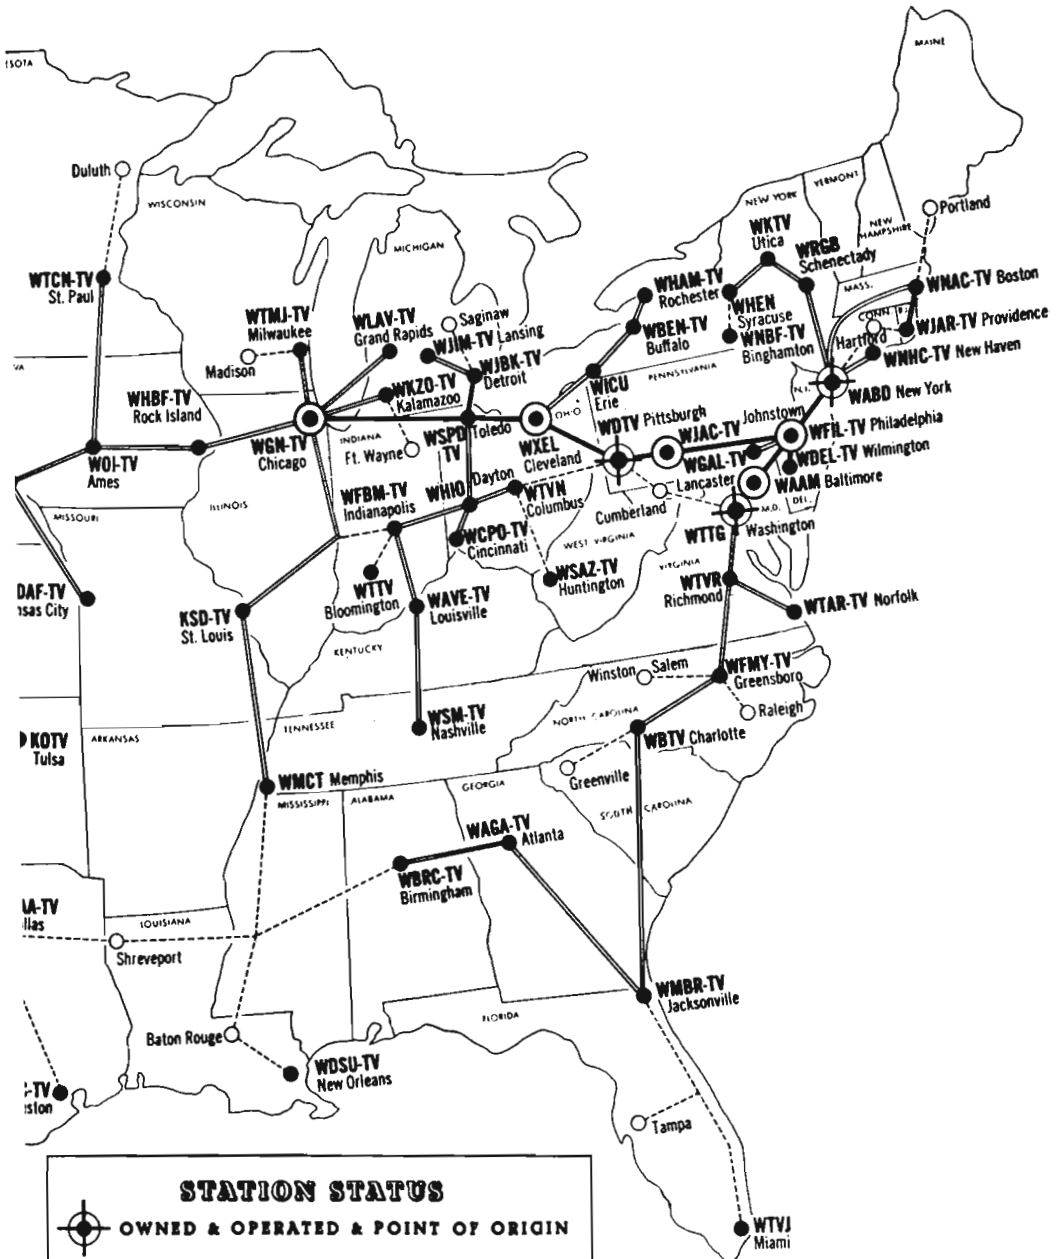

WITTING

School. Thereafter he joined the firm of Price, Waterhouse Company. In 1940 he was elected comptroller of the U.S.O. Camp Shows and as an executive officer of that world-wide organization, he played an important part in providing entertainment to twelve million men scattered over the globe. After a year with the Maritime Service with the rank of Commander, he returned to the U.S.O. Camp Shows.

WILL TV AID MOVIES?

By IRVING SHAPIRO, President of Standard Television Corp.

Irving Shapiro

THE so-called battle between motion pictures and television has assumed a scare importance far beyond reality, largely because the motion picture industry, in attempting to analyze the new giant form of entertainment, has allowed itself to become unnecessarily intimidated, and has given itself up to the excoriation of a supposed

menace.

The fear is unreasonable and the blindness is unnecessary. There is a relationship to television in which our picture industry can gain and grow, and the sooner we find it the better. Instances of business experience are showing us the way, and the following is an example—the occasion of the first televising of *THEIRS IS THE GLORY*. This film was highly praised by the press in England, but theatrical release in the United States was not worked out. It was shown over KECA-TV in Los Angeles. A direct result of this television showing was a number of inquiries from theatrical exhibitors requesting information on the availability of the picture for theatrical bookings. In addition to the direct result, an effect of international understanding was accomplished. The producers of the picture had felt naturally, that they were being denied a hearing in the United States market, and that the possibility of profitable theatrical releases was being unfairly withheld from them. Of course the result of all this, directly from television, is that we have a friend instead of a foe.

Largely because of the motion picture industry's fears of television, the broad possibilities of the new medium as a sales avenue have been neglected, except in the smallest sense. Television has been dramatically successful in selling almost all other American products. An irrational dread, chimeras of impossible competition, have prevented the movies from using it.

Plain common sense must be restored to the connection between pictures and television. The television producer will never have the budget for *GONE WITH THE WIND*, *BEST YEARS OF OUR LIVES*, *SAMSOM AND DELILAH*. Is any observer ready to declare that such entertainment as these productions constitute is in jeopardy from television? Rather, why not take advantage of the television screen to bring home to the public the inescapable fact that it depends upon the motion picture industry for an art and entertainment of the greatest magnitude?

What has television to offer? Let's find some good points in the presumed conflict of giants. The following is an attempt to sketch some of them:

Television can find, or has found, in the movies:

1. A well-developed philosophy and practice of visual narration. Television needed it. Television business is mainly administered by radio people, used to telling their stories with nothing but words and sounds.
2. An equipment of technology and techniques which it would otherwise find impossible, in time and money.
3. A vast storehouse of completed entertainment. Accessible films eliminate all pre-production television expense, and it's terrific.
4. A series idea. Pictures invented it. Television perishes without it.
5. Star power—in the can. A Chicago automobile dealer offers his TV audience Stewart Granger, Yehudi Menuhin, Laurel and Hardy, Frederic March, Burgess Meredith, Constance Bennett, Adolph Menjou, Sir Cedric Hardwicke, Alan Ladd, Ralph Richardson.
6. Fresh cultural and entertainment resources. *MAGIC BOW* had played an art house in Chicago. When it was scheduled and announced for TV, one music teacher made it required viewing for 500 students; besides which it was an entertainment smash, with instant clamor for rerun. Television had it from the British studios, along with *SILVER FLEET*, *TAWNY PIT*, *MR. PERRIN AND MR. TRAIL*, *THE BROTHERS*, *BLIND GODDESS*, *MY BROTHER'S KEEPER*.

N. B. C. TELEVISION NETWORK

NILES TRAMMELL *Chairman of the Board*

One of those career men in radio who has devoted his energies to building broadcasting into the great public service and commercial medium that it is today, NILES TRAMMELL, Chairman of the Board of NBC, got his start as a commercial representative with the Pacific Division of the Radio Corporation of America back in 1923. In 1928 he joined NBC as a salesman and within 12 years had risen to the position of president of the network.

TRAMMELL

Trammell has diligently attended to the improvement of NBC facilities and programs and is now devoting much of his time to the encouragement of new television technique. He is an all-out advocate of black-and-white sight-and-sound transmission. He was born in Marietta, Ga., on July 6, 1894, attended Sewanee Military Academy and the University of the South. Commissioned a second lieutenant, he served in the Army during World War I.

JOSEPH H. McCONNELL *President*

A counsel and executive for RCA since 1941, JOSEPH HOWARD McCONNELL was elected president of NBC on Oct. 7, 1949. Prior to that, he had been executive vice-president and vice-president in charge of finance for RCA. Receiving his Doctor of Laws degree from the University of Virginia in 1931, he became associated with law firms in Florida and North Carolina. In 1933 he joined the legal staff of the NRA, under Donald Richberg, in Washing-

McCONNELL

ton. D. C. McConnell served as director of one of the agency's three legal sections until 1935, when he became an associate in the New York law firm of Cotton, Franklin, Wright & Gordon. There he specialized in the legal phases of government regulation of corporate enterprise. A native of Davidson, N. C., McConnell is a member of many organizations, including Phi Beta Kappa and Kappa Alpha.

CHARLES R. DENNY *Executive Vice-President*

CHARLES R. DENNY, a lawyer by profession, was elected executive vice-president of NBC on July 1, 1948. He was admitted to the law practice in Washington, D. C. in 1936 and until 1938 served with the law firm of Covington, Burling, Rublee, Acheson and Shorb. Appointed to the Department of Justice in 1938, he remained there until 1941. While in the department he served as special assistant to the Attorney General and was later promoted to

DENNY

chief of the Appellate Section of the Lands Division. Denny next moved on to the FCC where he served as general counsel until appointed a commissioner by President Roosevelt in 1945. He was later named assistant chairman and in 1946 President Truman appointed him chairman of the FCC. Denny came to NBC as vice-president and general counsel in Oct. 1947. He is a native of Baltimore, Md.

Milestone in Mass Magic

1951 introduces a new era in television. It marks a major milestone: television's emergence as a mature, a truly mass medium. For 1950 saw the television population more than double in size . . . saw it reach and pass the largest circulation available through national magazines . . . saw it cross the 10,000,000 mark, with more than 40 million viewers every week.

Certainly, now millions all over the country saw the magic of television reflected

in their receivers. Seven new markets were opened to television in 1950. Twenty-one stations were added to the interconnected network to bring NBC programs "live" to 47 markets . . . to 63 markets, all told—63 markets which contain 6 out of every 10 persons in the U.S. And certainly the NBC programs broadcast in these markets played a huge part in raising television to its gigantic, 1951 proportions.

Most popular programs

For throughout the year, most of the top-rated programs were on NBC. Latest reports show NBC with 7 of the top 10 programs. And that's only part of the picture: NBC's program leadership is marked in every major program category: comedy, variety, drama, mystery, news, juvenile, music and women's daytime shows.

Add the NBC broadcasts of the United Nations sessions . . . the operas produced especially for television . . . the modern living series planned for the younger viewers . . . the vivid news reports which every day set higher standards in a new form of journalism—and a host of other memorable programs which round out the most complete and satisfying schedule in television.

Add, too, such bold (and successful) programming concepts as the Saturday Night Revue . . . the Sunday Comedy Hour . . . the Wednesday Four-Star Revue . . . Broadway Open House . . . the Kate Smith Show—and you see why

the average sponsored program on NBC delivered 40% more homes than the average sponsored program on the second network.

Facilities expansion

And to mount these and other programs on NBC's expanded schedules required a parallel

and staggering expansion of facilities, both in space and equipment. The largest and best-equipped scenic construction shop in television was set up, and New York's Center Theatre was converted to the world's largest television studio. Four additional TV studios were opened.

New advertising concepts

Credit NBC's tripled billings to 69 shrewd buyers and to audience-winning programs. But chalk up an assist to NBC's Hofstra Study—the first precise measurement of the sales effectiveness of television advertising. And another assist to the new concepts in selling introduced by NBC: rotating sponsorships . . . alternate-week advertising . . . multiple sponsorship of top-rated shows—ideas which immediately made big-time television practical for moderate-budget advertisers.

A great national asset

The curtain rises on 1951 with television solidly welded into the social and selling structure of the nation . . . with NBC more firmly established as first choice of viewers and therefore by advertisers. And with a clarity that rivals the sparkling images on the screen. 1951 sees television—the most compelling vehicle of mass communication ever devised—ready, at a moment's notice, to serve the need of this country in peace or war.

TV STATION PERSONALITIES

1950-1951

The *Year Book of Television* herewith presents a roster of TV executives in the Station Management field as they appeared in the "Tele Topics" column of 1950-51 editions of *Radio-Television Daily*.

For a man who started out to be a barge line operator on the Mississippi, then became the youngest advertising manager in St. Louis motor circles at the age of 22, ROBERT E. DUNVILLE, president and general manager of the Crosley Broadcasting Corporation, still finds time to devote to the career that became a hobby. A steamboat whistle is, to Bob, what the opening game is to a baseball fan. Bob was born in St. Louis and is a graduate of the University of Missouri. After a short career in the automotive industry,

DUNVILLE

he joined the sales department of KMOX, St. Louis, and shortly thereafter was named assistant general manager of the station. In 1937, Bob joined the staff of WLW and was appointed general manager of WSAI, then owned by the Crosley Broadcasting Corporation. In 1938 he became general manager of the two stations. Bob was appointed vice-president of Crosley and general manager of WLW in 1944 and was elected president of the corporation in 1949.

WILLIAM FAY, vice-president in charge of the broadcasting division of Stromberg-Carlson and a director of that company, is general manager of its three stations, WHAM-AM-FM-TV. He was born in East Hartland, Conn., and after graduating from Albany Business College in 1922 he joined WGY, Schenectady, as musical conductor, baritone soloist and announcer. Bill went to Buffalo in 1927 where he became studio manager of WMAK. While there he also did the play-by-play baseball of the Buffalo Bisons of

FAY

the International League, in addition to his other duties. In 1928 he was invited to WHAM as program manager and in 1929 stepped up to general manager. In 1942 he was made vice-president and director of the Stromberg-Carlson Company. Bill's particular pride is Rochester Radio City, built at a cost of \$1,000,000, and housing the three Stromberg stations. The building was completed in 1948. He is a director of NAB District II which encompasses New Jersey and the Broadcaster's Advisory Council.

M. C. WATTERS broke into radio with NBC in Washington, D. C., following his graduation from Georgetown University. Before going to Rochester, New York, as general manager of the Gannett Newspapers' WHEC, Mort spent a year as radio director of the Lewis Edwin Ryan agency in the capital city. He left Rochester to manage WCHS, Charleston, West Va. and was instrumental in forming the West Virginia Network. In 1938, Mort joined Scripps-Howard Radio, Inc., as general manager of WCPO in Cincin-

WATTERS

nati. Two years later, at the age of 31, he became a vice-president of Scripps-Howard Radio and was made a director of the corporation in 1941. In 1949, Mort directed the construction and opening of WCPO-TV, which was the first television station to become an operation completely separated from and independent of its AM affiliate. Under Mort's guidance, WCPO-TV was the first station to go into heavy daytime programming and one of the first to go into black figures.

GAINES KELLEY, general manager of WFMY-FM and WFMY-TV since the station first went on the air in March, 1948, has had wide experience in newspaper advertising and has taken an active part in community life in Greensboro, N. C. He was reared in Birmingham, Ala., and attended the Birmingham YMCA School of Technology, majoring in administration, office practices and salesmanship. Gaines was associ-

KELLEY

ated with the Progressive Farmer, the South's biggest farm journal for 12 years and from 1932 to 1948 he was classified advertising manager of the Greensboro Daily News and The Greensboro Record, owners of WFMY operations. He is a charter member of the Greensboro Junior Chamber of Commerce and a member of city's C of C as well as a past president of the local Lions Club.

JACK HARRIS, general manager of KPRC and KPRC-TV, Houston, Texas, considers coverage of the Mississippi flood in 1937 as one of the three most important "big stories" he took part in. At the time Jack was director of news and special events at WSM, Nashville. Together with Jack DeWitt, chief engineer, he staged short-wave broadcasts from half a dozen hitherto unreported key spots in the vast flood area. The broadcasts were carried by 600 stations. Four years later Jack was in Washington as deputy to Ed Kirby,

HARRIS

setting up the Army's first radio broadcasting activities. During the war he covered initial Army maneuvers, produced many of the award-winning Army Hour broadcasts; took over Radio Tokyo facilities for Gen. MacArthur, and was in charge of the broadcast of the Japanese surrender aboard the USS Missouri—this was his second "big story." Returning to Texas, Jack took the helm of KPRC and entered TV last June 1 when The Houston Post Company purchased KLEE-TV.

KEN CARTER, general manager of TV station WAAM, Baltimore, has been in the broadcasting business for only eight years. He was born in Baltimore and his early career with a chain of health clubs was due to his youthful ability as an athlete. It was in Hollywood that the "entertainment bug" bit Ken, and when he decided to leave the health club business he turned to radio. His first year in the medium was spent

CARTER

as a time salesman for an independent station in Baltimore. Later he assumed the duties of national sales manager, general sales manager, and, when TV was added, he became general sales manager of the combined operation. After his resignation from WBAL, Ken moved to WMAR-TV on special sales assignments. He joined WAAM in mid-October, 1949, as local sales manager, and was made general manager in November, 1950.

DON FEDDERSON, executive vice-president and general manager of KLAC and KLAC-TV, Hollywood, Cal., entered radio from the newspaper field just eight years ago as sales manager of KYA, San Francisco. He became general manager of the latter station in 1943. When KMTR, Los Angeles, was acquired by Dorothy Schiff, owner of KYA, Don began commuting between the two Coast cities. In 1945 KMTR's

FEDDERSON

call letters were changed to KLAC and all commercial contracts were cancelled so that Don started his management of the station with a clean slate. In 1948, KLAC-TV went on the air just ninety days after groundbreaking ceremonies. Don is president of the newly formed Television Broadcasters of Southern California and active in Chamber of Commerce matters in Southern California.

RICHARD A. BOREL, director of television for the Dispatch Printing Company, owners of WBNS-TV, Columbus, Ohio, entered the radio field in 1933, first serving as business manager for WBNS, assuming the title of general station manager in 1935. In 1949, Dick was named manager of WBNS-TV, concurrent with his radio responsibilities. More recently he assumed his directorship title, as well as having been made an executive vice-president of

BOREL

Radio, Inc., owners of WBNS and WELD-FM. He is now serving his second term as a member of the Affiliates Board of CBS and is also a member of the board of directors of the Television Broadcasters Association. Dick is a graduate of Ohio State University where he was Phi Beta Kappa and active in student dramatics. Prior to his association with WBNS he was connected with the Ohio National Bank.

ALVIN D. SCHROTT, manager of WJAC-TV, Johnstown, Penna., finds his present duties a long way from the vocation he chose as a high school student. Al had devoted his last years in school to the study of printing and hoped to get a job on a newspaper. He was successful in 1932 in joining the Johnstown Tribune Publishing Company, parent company of WJAC—but in the advertising department, not as a printer. After working several years in the local advertising field, Al was

SCHROTT

named national advertising manager. Here he became familiar with the workings and personalities in the country's leading agencies and this knowledge and experience formed the basis upon which he was to build a successful TV station. After Navy service in the war, Al returned to the paper in 1946. One year later he became personnel and credit manager and in 1949 when WJAC-TV needed a manager, Al, green but willing, took on the job.

GEORGE CRANSTON, manager of WBAP, AM, FM, TV, Fort Worth, Texas, was born in Edinburgh, Scotland. As a boy it was his ambition to come to the U. S. and Canada, and to earn passage money he sang as a boy soprano soloist at Edinburgh Episcopal Church, earning a shilling a week. Coming to the new world at sixteen, George worked in a print shop and attended the University of Manitoba, Canada. He served in the 10th Canadian Infantry Battalion in World War I. Before returning to Winnipeg, George

CRANSTON

studied as concert tenor in London. Coming back to Canada, he participated in one of the first radio broadcasts in November, 1919, making him a real veteran of the medium. Shortly afterwards, he went to Chicago and free-lanced around WLS, WEBH and WGN. In 1928 he returned to Winnipeg as program director of CKY and also wrote, produced and directed programs. Tiring of the rugged Canadian winters, George moved to Texas to become mgr. of WBAP in 1930.

CHARLES H. CRUTCHFIELD, vice-president and general manager of WBT and WBTW, Charlotte, N. C., was born in Hope, Ark., moving with his family to Spartanburg, S. C., when he was eight. While a student at Wofford College, Charley, bitten by the radio bug, worked part time at WSPA, Spartanburg, as office boy and telephone operator and later as announcer. In 1931, he joined the announcing staff of WBIG, Greensboro, N. C., and shortly thereafter became program director for the station. Following a

CRUTCHFIELD

stint with several other stations, Charley moved to WBT as an announcer in 1933 and was made program director, two years later. In 1945, he was made general manager of the station, and one year later was appointed to the board of directors, and made secretary and treasurer of the Jefferson Standard Broadcasting Company, operators of WBT. In 1947, Charley was promoted to a vice-presidency. With the debut of WBTW in July, 1949, as the first TV station in the Carolinas, Cahrley enlarged his duties.

LYLE DEMOSS, assistant general manager of WOW and WOW-TV, Omaha, Neb. discovered back in 1923 that radio could best serve his ambition to be an entertainer and musician, so he became an announcer and singer on the Anthony, Kansas, experimental station 9DXH. His early start in radio makes Lyle an honored member of the Radio Pioneers. In 1926 he joined the staff of KGBZ, York, Neb., and later while attending the University of Nebraska at Lincoln, Lyle began his broadcast chores at KFAB.

DEM OSS

WOW was his next stop, where he became production manager in 1937. During the summer Lyle commutes the 500 miles to Chicago weekly where he is an instructor in the Northwestern University Summer Radio Institute. In the Fall and Winter he travels with the Omaha C. of C. "Tribe of Yessir" on its jaunts into the Omaha trade area towns. He is in charge of entertainment, naturally. Lyle is married to the former Antoinette Quattrochi and they have two sons, Billy and Bobby.

RICHARD DOAN has been director of programs for WCBS-TV, New York, since May of this year. He was born in Pratt, Kansas, in 1910 and after graduating from the University of Kansas he worked for several California papers, including the Pasadena Post. Later, Dean came East and became night bureau chief for the AP in Albany. Following his stint in the state capital, he was successively a public relations officer in the Navy for

DOAN

three years during World War II, wire photo editor in the New York bureau of AP, and associate editor of Advertising Age. Doan's next connection was assistant radio and television editor of Variety, following which he became administrative head of Martin Stone Associates. He is married to Dorothy Dean, star of the CBS television program "Vanity Fair." The Doans make their home in Silvermine, Connecticut.

JOHN E. FETZER comes to TV after thirty years in the radio broadcasting business. He started in radio as an engineer and helped build a number of the pioneer stations in the Midwest. Later he was a consulting engineer at home and abroad and passed through the entire gamut of radio jobs from announcing to president. John is president-owner of the Fetzer Broadcasting Company, operating WJEF, CBS outlet in Grand Rapids, WKZO, also CBS in Kalamazoo and WKZO-TV, which is

FETZER

affiliated with the four TV networks. In addition, he is vice-president of KXEL, 50 kilowatt ABC outlet in Waterloo, Ia. John is a veteran of ten years on the NAB Board. During the war he served with Byron Price in the Office of Censorship as the Radio Censor and later joined the famous Eisenhower radio mission in ETO. Since the war John has also served on the board of directors of the American National Bank of Kalamazoo.

MARTIN B. CAMPBELL has guided the destinies of WFAA, Dallas, for the past 18 years and has made the station one of the most influential in the Southwest. Now he has added television, via WFAA-TV, to the roster of air services under The Dallas Morning News banner. The broadcasting bug bit Martin while he was serving as radio editor of the Louisville Times and in 1927 he left the paper to become assistant manager of WHAS, Louisville. In the early thirties Martin trekked

CAMPBELL

southward to accept his present post as general manager of WFAA. Since his association with WFAA, the air properties now include WFAA with 50,000 watts, WBAP, a 5000-watter and now the Channel 8 video service of WFAA-TV. Martin has long been an active and prominent member of NAB with his most conspicuous service as a member of the board of directors. In 1949 he was chairman of the stations planning and advisory committee of NBC.

ROGER W. CLIPP, general manager of the Philadelphia Inquirer's stations, WFIL and WFIL-TV, since 1938, first joined WFIL in 1935 as business manager, after six years with NBC in N. Y. Since 1946, Clipp has been chairman of ABC's planning and advisory committee. He has been secretary-treasurer and a director of BMB since 1944 and active on numerous NAB committees. Recently appointed chairman of the 1951 March of Dimes Campaign of the Philadelphia chapter,

CLIPP

Clipp is also chairman of the Clubs and Entertainment Div. of the United Fund 1950 Campaign and a radio-TV representative of the Philadelphia County Defense Council. A graduate of the Wharton School, he is active in alumni affairs as president of the class of '25. He is a past president of the Poor Richard Club; member of the University Club; Pen and Pencil Club and honorary Colonel in the 111th Infantry of the Pennsylvania National Guard.

NATHAN LORD, vice-president and general manager of WAVE and WAVE-TV, Louisville, Ky., is a native of Louisville and a former director of NAB. Following a sojourn in Alberta, Canada, he returned to Louisville in 1920 and became a reporter for the Post and The Courier-Journal. Eight years later, Nathan left the newspaper as day city editor to become advertising manager of the Girdler Corporation. In 1933 he went with the Herald Post and in the same year became vice-presi-

LORD

dent and general manager of WAVE, Inc. Nathan watched the station grow from 1 kw. to 5 kw in 1940 and helped plan its present Radio and Television Center in 1941. WRXW, FM outlet, was added in 1947 and WAVE-TV, Kentucky's pioneer television station on Nov. 24, 1948. Under Nathan's direction the station established the first direct relay of network programs by a non-interconnected TV station and has gained a reputation for quality entertainment.

WALTER COMPTON, general manager of WTTG, Washington, D. C., was born in Charleston, S. C. After graduation from Roanoke College at Salem, Virginia, Walter entered radio, in 1935, with WDBJ, Roanoke. The following year he joined the staff of WCSC, Charleston as announcer, control operator, copy writer and the usual number of et ceteras. He subsequently transferred to WIS, Columbia and later moved to Greenville as program director of WFBC. In April, 1937, Walter trekked northwards and joined WOL.

COMPTON

He was appointed White House announcer for the station and for Mutual. In 1939, Walter originated "Double or Nothing" thereby setting off the quiz type of program, still with us today. In mid-1945 Walter requested a release from his WOL and Mutual obligations in order to devote his energies to studying the coming new medium of TV. In June, 1947, he originated from Washington the first regularly scheduled daily news program in television for DuMont and in Jan. 1948, he became general manager.

PAUL ADANTI, general manager of WHEN, Syracuse, has held that post with the city's pioneer television station since its organization in the fall of 1948. In the past two years, he has increased the weekly program hours from 20 to the present 80. Paul has been in various phases of radio and TV since his graduation from Union College in 1934. Following a brief teaching career in his home town of Auburn, N. Y., he joined WMBO as chief en-

ADANTI

gineer and program director. Two years later he moved to Syracuse to work in the engineering and program departments of WSYR. This stint was followed by a period with WGY, Schenectady, as a studio engineer. When WRGB, WGY's TV affiliate was licensed in 1940, Paul moved into television. At the time he went to WHEN in 1948, Paul was chief of technical operations at WRGB.

MARIA HELEN ALVAREZ, general manager of KOTV, Tulsa, Okla., is the only woman chief executive in station TV. She started her radio career in 1943 as a continuity writer for a Tulsa radio station. From this start she branched rapidly into other departments and from program writing to writing her own shows were quick steps. In addition, Helen also handled a regular newscasting assignment. Her contacts with advertisers and agencies led her naturally into time sales and at the time she left radio she was an outstanding successful ra-

ALVAREZ

dio account executive. In 1947, Helen decided that the infant TV industry offered greater opportunities for creative expression and she resigned her position to devote herself to full time study of the new medium. Shortly thereafter, Helen made the acquaintance of George E. Cameron, Jr., head of the Cameron oil interests, who was interested in TV as a business venture. Subsequently, Cameron Television, Inc., was formed and Helen was selected to head up the organization which operates KOTV.

CAMPBELL ARNOUX, president and general manager of WTAR Radio Corporation, operators of WTAR and WTAR-TV, was born in New York and spent his early childhood in St. Louis, and moved to Texas where he grew up. He is a graduate of Texas University and got his first job as a reporter on the Fort Worth Record. Following World War I and after a two-year trip around the world, "Cam" became assistant to the director of publicity of the southwestern division of the American Red Cross. In 1922 he became

ARNOUX

a staff writer on the Fort Worth Star-Telegram shortly before the paper installed a radio station — now WBAP. "Cam" got the job as manager only because it had been offered to all other members of the staff who refused to have anything to do with such a thing as radio. After becoming manager of KTHS, Hot Springs, Ark. "Cam" moved to WTAR where he was named manager in 1933. In 1947 he was named president and general manager of the station. WTAR-TV, opened on April 2nd, 1950.

GEORGE M. BURBACH, general manager of KSD and KSD-TV, St. Louis, is a native of that city. He is secretary of The Pulitzer Publishing Company, which owns the St. Louis Post-Dispatch as well as the two broadcasting stations. George has been associated with the company continuously since 1913 when he left the Munsey newspapers to become advertising manager of the Post-Dispatch. He was elected to the company's board of directors in

BURBACH

1922 and in that year KSD went on the air and George was placed in charge of the station's program and business departments. In 1933 he was named general manager of the entire KSD operation. George's foresight concerning the potential impact of TV resulted in the inauguration of KSD-TV on February 2, 1947, as the first completely post-war equipment television station in the country.

E. Y. FLANIGAN, general manager of WSPD and WSPD-TV, Toledo, Ohio, brings to video over 20 years of experience and has earned a national reputation as an authority in the broadcasting field. "Flan" started his career in the theater. Later, he became a press agent and also spent many years in the newspaper business. "Flan" was born in Pittsburgh and has played a large part in helping build up The Fort Industry Company into the largest independent radio operation in America.

FLANIGAN

He is vice-president of The Fort Industry Company, operators of AM stations in Toledo, Wheeling, Fairmont, Lima, Atlanta, Miami and Detroit. The company also operates TV stations in Detroit and Atlanta as well as in Toledo. Concerning TV, "Flan" says that despite two and a half years of operation in Toledo, the local AM station is still showing gains. However, "Flan" predicts that in 1951, WSPD-TV business will double if the station can clear sufficient time.

HAL GROSS, owner and general manager of WJIM-TV, Lansing, Mich., is one of the youngest radio and TV station owners in the country. Hal pioneered in Michigan radio by establishing Lansing's first broadcasting station WJIM, 16 years ago, and is back in the pioneer department with WJIM-TV, established this year. The station has a full late afternoon and evening schedule of TV from all four major TV networks, through channel six. After graduating from the University

GROSS

of Michigan, Hal was associated with the Butterfield Theater Corp. During World War II, he served in the U. S. Navy and was instrumental in setting up and administering the Naval Aviation V-5 program with Harry Kipke, in the midwest region. For plans ahead, Hal says that WJIM and WJIM-TV will soon have a modern new building to house the extensive studios, offices and control rooms of the combined operations.

HUGH A. L. HALFF, president and general manager of WOAI and WOAI-TV is a veteran of broadcasting and has been head of the big Texan outlet since 1932. Hugh was born in Victoria, Tex., moving later to San Antonio. He attended Phillips Exeter Academy and Yale University. After graduation, Hugh returned to San Antonio and joined A. B. Frank and Associates, wholesale dry goods firm. He resigned from the company to join the Southern Equipment Co., then owners and

HALFF

operators of WOAI. In 1931 he was transferred to the broadcasting end of the business where he handled local sales first; then came a turn as announcer, following which he served in the continuity department. Later he became program director. With this background, he was appointed gen. mgr. of WOA in 1932. Six years later, Hugh was named president and treasurer of Southland Industries, Inc., new corporate name of the firm owning WOAI.

G. P. HAMANN, general manager of WBRC, AM and TV, Birmingham, Ala., is one of the most progressive young executives in the radio and TV field. His experience in the field dates back to 1929 at which time he served as a wireless operator in the Maritime Service. Gerry has also been associated with Radiomarine Corp. of America, Page and Davis, consultant engineers of Washington, D. C., and has instructed at the University of Alabama, Birmingham Southern College and Howard Col-

HAMANN

lege in Birmingham and has been a station owner. Gerry, a native of New Orleans, was connected with WSMB of that city for a period of eight years prior to joining WBRC in 1940. Before being made general manager of WBRC, AM and TV, he served as technical director for the station and manager of the FM operation. WBRC was the first station in Alabama to apply for a television license and video operations were begun in July 1949 under Gerry's guidance.

WILBUR M. HAVENS, owner and general manager of WMBG, WCOD and WTVR, Richmond, Va., AM, FM, and TV, respectively, was born in Richmond and has lived there all his life. Wilbur quickly got a job in the automotive business and by 1922 was able to organize his own automotive electric business. Deciding that a knowledge of commercial law would be a good insurance in business he devoted three years of night study to that subject.

HAVENS

With the advent of radio, Wilbur became the Philco battery distributor and his interest in the medium of radio was aroused. He was granted a license for WMBG which went on the air in 1926 with 15 watts power. Today the station operates with 5,000 watts. WCOD, the FM station, went into operation in 1946, while WTVR, the "South's First Television Station" went on the air in April, 1948. He is married to the former Thelma M. Chewning of Richmond.

JOHN S. HAYES, vice-president and general manager of WTOP and WTOP-TV, came to the CBS Washington, D. C. affiliate after 13 months as executive vice-president of WINX and WINX-FM, the former Washington Post stations. WTOP is now the Washington Post outlet. Prior to his WINX service, John was station manager of WQXR and WQXQ, the New York Times stations, from January, 1946 to January, 1948. During World War II, he directed the American Forces Network in the European Theater. John began his

HAYES

radio career at WIP, Philadelphia, and left his job there as co-ordinator of sales and programming to become assistant to the vice-president of WOR in 1936. He entered the Army in 1941 as aide to the Quartermaster General and quickly rose to a lieutenant-colonelcy where he served as Associate Director of Troop Broadcasting Services under General Eisenhower. John was born in Philadelphia and attended local schools there, graduating from the University of Pennsylvania.

LES JOHNSON, vice-president and general manager of WHBF-TV, Quad Cities, Rock Island, Moline, E. Moline, Ill., and Davenport, Ia., became sports editor of The Argus in Rock Island after graduation from college. Later he became publisher of a weekly newspaper in Aledo, Ill. where he was able to indulge in his favorite sport, golf, but which now he has to take in small doses. Les returned to The Argus as advertising manager and 14 years

JOHNSON

ago assumed the general managership of WHBF. With his newspaper background, he was able to build the station into a preeminent news outlet—a position which he jealously guards despite the added duties of managing WHBF-TV. Les has served two terms as NAB director of the Ninth District, and continues to take an active part in industry affairs. He is one of the founders and vice-president of the Illinois Broadcasters Association.

ERNEST A. LANG, commercial manager of WMAR-TV, The Sunpapers television station in Baltimore, helped pioneer the beginnings of TV in Baltimore, a market with a quarter-million receivers. Ernie helped set up the Baltimore station, three years ago. He joined the parent organization, The Sunpapers in 1940 as an advertising salesman, and when the publishing organization undertook its TV operation, Ernie was promoted to commercial manager. He is a native of Austin,

LANG

Minn., and held various advertising positions in the mid-West, his last previous job before coming to Baltimore, being with Gene Howe's Globe-News in Amarillo, Texas. In his contributions to telecasting, Ernie effected sale of the longest continuously sponsored TV program in the Baltimore-Washington area, the "National Sports Parade," which has been on the air in the two cities since April, 1949. He is in charge of both local and national sales for WMAR-TV.

G. BENNETT LARSON, v-p and general manager of WPIX, N. Y. Daily News-owned video outlet, has been a broadcasting figure for 23 years, having started his career in the crystal-set days of 1927 at KYDL, Salt Lake City. Two years later, he descended on N. Y. to spend five years at NBC producing and directing top-flight radio shows. Between 1934 and 1942, Larson was an exec in the radio departments of Joseph Katz Co., R&R and Y&R—directing

LARSON

and producing programs that starred Milton Berle, Al Jolson, Phil Baker, Eddy Duchin and Morton Downey. At WWDG, Washington, D. C., he was general manager and part owner from 1942 until 1945, when he moved up to a managership at WPEN, Philadelphia. Jumping into TV all-the-way, Larson was named a v-p in charge of video at WCAU-TV in 1947, where he remained until his appointment as manager of WPIX.

PHILIP G. LASKY, vice-president and general manager of KSFO and KPX, San Francisco, was born in Denver where he was prominent as an early wireless "ham" during his school days. In 1923 he traveled the world as a ship radio operator. Later he chased fires and covered the police beat from the Omaha "World-Herald" and wound up on the Denver "Post." From there Phil rejoined KLZ, where he had been briefly before. In 1927, Phil joined KDYL, Salt Lake City, and stayed there for eight years. Phil moved to

LASKY

KTAB as general manager in 1935 and shortly thereafter the station changed its call letters to KSFO. Together with W. I. Dumm, owner of KSFO, Phil bought KROW, Oakland. In 1940, the managing of the two stations became too much for Phil so he decided to devote his whole time to KROW. The station was sold in 1945 and Phil returned to KSFO, at the same time acquiring an interest in KXA, Seattle. KSFO received its CP for a TV station in 1947 and Phil put the station on the air in 1948.

U. A. (JAKE) LATHAM, general manager of WKRC-TV, switched his likable personality over to the field of television in 1949. Known by all his co-workers and fellow tradesmen as "Jake," he has been with WKRC for the past 15 years. Before entering radio he had been a factory representative and sales manager for Cincinnati automobile distributors. "Jake" broke into AM because he sold the manager of WKRC some automobiles in such a quick fashion, he was immediately hired and put

LATHAM

on the sales staff. In 1941, "Jake" was made the local sales manager and three years later became general sales manager. He was appointed general sales manager of the TV station in 1949 and was named manager this year. Shortly after "Jake" became manager, WKRC-TV went into early daytime programming, and almost immediately national spot sales increased 250 per cent and total billing rose 183 per cent. "Jake" attended the University of Cincinnati.

W. R. (BILL) McANDREW, general manager of WRC, WRC-FM & WNBW, the three NBC outlets in Washington, D. C., has met radio and TV problems with the same two-fisted approach that won him his name as a "top newsman" in the nation's capital. Bill is a native Washingtonian and was graduated from Catholic University in 1935. He immediately plunged into newspaper work, beginning on the sports desk of the Washington Times-Herald. Later Bill went with the United

McANDREW

Press and then switched to radio, becoming news editor of the NBC red network's D. C. office. From the latter post Bill joined Broadcasting Magazine as executive news editor and in 1942 he was information director of the Board of Economic Warfare. In 1944 Bill joined WRC as news manager. Since then Bill has held down several posts, each with added responsibilities, and in 1949 was named general manager of the three Washington stations.

THOMAS B. McFADDEN, manager of NBC-TV's owned and operated KNBH, Hollywood, was named to that post on April 6th of this year. Having started at NBC in 1934 as a page, McFadden climbed up through the ranks to become director of news and special events, then assistant-manager and later manager of WNBC and WNBT. He also served as a news writer in the web's N. Y. newsroom and as news broadcaster for WGY, Schenectady, and WRC. Washington, D. C. McFadden en-

McFADDEN

tered the service on Pearl Harbor Day, Dec. 7, 1941, as an ensign in Naval intelligence. When he completed his assignment with the 3rd Naval District Headquarters in New York, he resigned his commission and joined the Army as a private, took flight training and was commissioned in 1942 as a pilot with the rank of second lieutenant. He was a captain when discharged in 1945, and after returning to NBC was named director of news and special events of WNBC in 1946.

IRVING ROBERT ROSENHAUS, president and general manager of WATV, Newark, N. J., entered the broadcasting field with a professional background in education and law. "Irv" graduated from Rutgers University and took his law degree at John Marshall Law College, Jersey City, in 1933. He became an attorney-at-law in the same year and counsellor-at-law of the State of New Jersey in 1937. While at law school, "Irv" taught English at Memorial High School in West New York and since that time has never ceased be-

ROSENHAUS

ing interested in education and the extensive public interest programming of WATV and WAAT is a direct reflection of the convictions which were implanted in his mind during those years of teaching. After a short period of practicing law, "Irv" joined the executive staff of the Bremer Broadcasting Corporation as assistant manager of WAAT. Under his guidance the station soon gained dominance in the North Jersey market. In 1947 the corporation was given a CP for a TV station, and in May, 1948 WATV opened.

COL. B. J. PALMER, Iowa's "Mr. Radio" is, today, supporting TV with all the faith and enthusiasm that he has given to radio for 30 years. He is the owner and operator of WHO, 50,000 watt at Des Moines; WOC, oldest radio station west of the Mississippi, and WOC-TV, Iowa's first television station. Back in 1921, B. J. began radio experimentation in Davenport. The following year he was granted the call letters of WOC, just three months after the original

PALMER

license was granted KDKA. During the early years when radio was viewed as a fad, B. J. showed his faith in the medium, when WOC was ordered to divide time with WHO, by purchasing the latter station from Bankers Life Insurance Company and when the depression was at its worst, he built a costly 50,000-watt station to house the latter outlet. Following his innumerable "firsts" in radio, B. J. has done the same in TV. First station in Iowa; first to serve the Quint-Cities.

JAMES G. RIDDELL, president of WXYZ, nc., ABC O & O outlet in Detroit, was born in Glasgow, Scotland. He came to the U. S. at an early age and after graduation from high school in Detroit he found that radio was the career for him and began at WXYZ as office boy in 1931. Within a year, Jim had a promotion and has held many positions with the station, including traffic manager, sales manager and commercial manager. When WXYZ was sold to ABC in 1942, Jim was

RIDDELL

made general manager of the station. Early this year he was promoted to president. As leader of WXYZ-TV, Jim gave the word to pioneer in afternoon TV with the "Pat'n'Johnny" show which won great acclaim as the first afternoon TV show in Detroit, as well as one of the first in the nation. Not content with this, Jim recently started morning television programming from 7:00 to 10:00. Jim is married and the proud father of two daughters, seven and four years of age.

JULIUS F. SEEBACH, JR., member of the Board and v-p of WOR in charge of radio and television, began his climb at WOR as an announcer in 1925. With the exception of a seven-year period at CBS, and a two-year period in which he was administrative secretary of the Metropolitan Opera Association, Seebach has devoted his entire radio-TV career to WOR and WOR-TV. His positions there have included: assistant program director (1926), director of

SEEBACH

program operations (1935), v-p in charge of programs (1941), and a member of the board of directors (1942). At CBS from 1928-1935, he was successively: a continuity writer, production manager, and director of program operations. Born in 1898, Seebach obtained his A.B. degree at Bucknell, after having interrupted his college education for two years to serve as an ambulance driver with the French during World War I.

HY M. STEED, manager of WLAV-AM-FM-TV, Grand Rapids, Michigan, has been finding some time during the past year and a half to apply his theatrical experience to TV. After deserting a law career in Illinois, Hy joined the Army in 1917, becoming leader of the 54th Field Artillery Band soon after his enlistment. Following the war the maestro chose a group from his military band and toured the vaudeville circuits throughout the United States and Canada. In early 1922 his orchestra located in New York, playing at

STEED

such places as the Strand Roof and the Commodore Hotel. Following a stint with a road show company of the Schuberts, Hy and his group left show business flat for radio at WWJ and a hotel booking in Detroit. He has been in radio ever since, taking on executive duties in 1929 with WMBC in Detroit. In 1940, when Leonard A. Versluis gained a CP for the second station in Grand Rapids, Hy moved across the state to become manager. In 1946, FM was added and in August, 1949, WLAV-TV started operations.

DONALD A. STEWART, general manager of WDTV, Pittsburgh, is a veteran in the comparatively young life of TV. He has been in the medium for twelve years, since New York City's World's Fair days. Don has been associated with the Allen B. DuMont Laboratories, Inc. for the past seven years. For some years Don owned and operated a circuit of motion picture and vaudeville theaters in Tampa, Ft. Myers, Sulphur Springs and Ybor City in Flor-

STEWART

ida. He also owned and managed a circuit of theaters in Montana, Colorado, New Mexico and Texas. Don is a native of Wyoming and served in the armed forces for two years in World War I. In the recent war he directed the operation of 576 16-mm hospital ward motion picture theaters for the American Red Cross. He was general manager of Television and Motion Picture Associates, New York.

R. G. WINNIE, station manager of WTMJ and WTMJ-TV, The Milwaukee Journal stations, is a man who grew up with midwest radio station operations and is repeating the process in TV. Russ has been in broadcasting and with the Milwaukee Journal stations for 23 years and has played an active part in the development of both radio and TV in Milwaukee and Wisconsin. As station manager for the AM and TV outlets, Russ works directly under Walter J. Damm, vice-president and general manager of radio.

WINNIE

In this capacity he supervises and directs the day-by-day operations of both stations, including all program and sales activities. He started as an announcer on WTMJ in 1928, one year after graduation from the University of Wisconsin. In his first summer he broadcast play-by-play sports and kept it up for 18 years, thereby establishing some sort of record. While keeping up his sports broadcasts, Russ advanced from job to job with WTMJ, finally becoming assistant manager, and then station manager in 1946.

KENNETH H. BERKELEY, vice-president and general manager of the Evening Star Broadcasting Co. and its three stations, WMAL, WMAL-FM and WMAL-TV, Washington, D. C., is a native Washingtonian, who has been in the radio business since 1923. Ken has been with WMAL as g.m. since ABC-TV was formed in 1942 and WMAL was separated as the Blue Network from the NBC. Prior to this he was connected with WRC, where he saw service also as general manager. Ken followed the

BERKELEY

tide of TV and in Oct. 1947, WMAL-TV was born. This station holds the distinction of being the first TV outlet, not excepting networks, to announce a 7-nights-a-week schedule. Ken believed that viewers should be served on a regularly scheduled basis, so that after a nighttime program was established WMAL-TV also began daytime programming, and it was the first TV station in the country to broadcast over a high frequency band.

HARRY M. BITNER, JR., president and general manager of WFBM and WFBM-TV, Indianapolis, Ind., is one of those people that can acclimate themselves in any trade. Graduating from Franklin & Marshall College in 1935 as a psychology major, Harry's first big job was as a newspaper reporter and rewrite man for the Baltimore News Post. In 1939 he left this position to join the staff of WFBM as an assistant program director; a year later he was made office man-

BITNER

ager of the station and in 1942 he was promoted to general manager. After 3 years of naval service during the war he returned to WFBM as president and general manager in 1946. Since that time WFBM, Inc. has acquired several smaller stations in Indiana and Michigan. In May of 1949, WFBM, Inc., under Harry's leadership, launched the first TV station in Indiana—WFBM-TV, which serves the entire central Indiana area with top TV programming.

CLARENCE L. DOTY, general manager of WJZ-TV, reports that he has been interested in radio since the early '20's when it was a real thrill to hear anything in the headphones except static. In 1923 he helped design and construct and operate the first voice broadcasting station in Charlestown, W. Virginia. Arriving in N. Y. several years later he studied at NYU and Columbia, majoring in business and advertising. From college he joined the National

DOTY

Advertising Dept. of Scripps-Howard newspapers, where he remained seven years. In Jan., 1942, with a varied background of selling in his wake Chick joined the spot sales division of the Blue Network, but after a year entered the Navy for three years. Returning in 1945 to the Blue Network, which by that time had become ABC, Chick was subsequently made sales manager of WJZ and WJZ-TV, and in 1950 was promoted to general manager of WJZ-TV.

HARRISON M. DUNHAM, general manager of KTTV, Los Angeles, was born in Grand Rapids and moved to California at the age of twelve. He is a "fifth generation" attorney, having taken his law degree at Harvard, following his graduation from the University of California at Los Angeles. Harrison joined the law firm of Elliott & Aberle, upon graduation, and two years later was made a partner. In 1939 the Douglas Aircraft Corporation retained the firm and Harrison was named assistant gen-

DUNHAM

eral counsel to the firm. He resigned in 1942 to become general counsel for the Growers Association, Fresno, and a year later purchased a cannery, resigned from the Growers Associations and founded Northern California Canneries. In 1946, Harrison sold his firm and founded two San Francisco food distribution companies. Three years later he sold one company, liquidated the other and then joined the Los Angeles Times in February, 1949, as assistant general counsel.

C. RICHARD EVANS, general manager of KSL and KSL-TV, Salt Lake City, Utah, joined the station's staff as a technician in 1927 while still in his teens and stayed around to watch it expand its facilities until it has become one of the most popular radio and TV outlets in Utah. During the war Dick took time out to work for the government on an engineering research product at Columbia University, and with William Lodge and William Wright, now engineering heads at CBS, he perfected an anti-submarine weapon, still being

EVANS

used by the U. S. Navy. Returning to Salt Lake City in 1943 Dick became KSL's chief engineer, and later was made assistant general manager of the station in 1948. Several months later he was promoted to general manager of the radio outlet and in 1949 when the station went on the air with TV, Dick also assumed the general manager duties of KSL-TV. He is a member of the Acoustical Society of America, the Institute of Radio Engineers and is on the executive committee of the Utah Society of Professional Engineers.

WILLIAM C. SWARTLEY, station manager of Westinghouse Radio Stations in New England, has under his direction four mediums of radio operation—standard band, frequency modulation, shortwave and television. Bill first joined WBZ and WBZA in the capacity of station manager in 1940, after serving as station manager of the Westinghouse stations WOWO and WGL in Fort Wayne, Ind., for a period of two years. Previously he was employed in the office of the president of Westinghouse Electric and Manu-

SWARTLEY

facturing Company as an administrative assistant. Bill is a graduate of Cornell University with a degree in mechanical engineering and during World War II served with the Ordnance Department, U. S. Army, holding the rank of Major. In his present capacity, Bill oversees the activities of the synchronously-operated stations, WBZ and WBZA; the frequency modulation outlets, WBZ-FM & WBZA-FM; the shortwave station WBOS and New England's first commercial TV station, WBZ-TV.

G. RICHARD SWIFT, general manager of WCBS and WCBS-TV, heads both AM and television station activities in the New York area. He joined CBS in 1932 and has held the titles of: assistant director in network operations, head of popular music for Columbia's program department, assistant program director and account exec in WCBS sales, and program director and assistant general manager of WCBS. He was named general manager of

SWIFT

WCBS-AM in March, '49, and of WCBS-TV in May, '50. As program director of WCBS, Swift developed such shows as Godfrey's early morning programs, Bill Leonard's "This Is New York," and the programs of Phil Cook, Margaret Arlen and Jack Sterling. Known to the trade as "Dick," he's 37 years old and lives in the Morristown area of New Jersey with his wife and three children.

ROBERT DWIGHT SWEZEY, the personable general manager of WDSU (AM-TV-FM), New Orleans, is well known among the top brass of broadcasting—his record boasting such titles as: v-p and gen. mgr. of Mutual from 1944-'48, and as gen. counsel and secretary of the Blue Network (ABC) from 1942-'44. Originally, Swezey's profession was that of attorney at law, having practiced in Boston, New York, and Washington from '32 to '38. The background for his career was gleaned at Har-

SWEZEY

vard (where he obtained his A.B. and L.L.B.), and from his studies at George Washington U., Southeastern U., Columbia, and N.Y.U. A very active participant in the organizations of his profession, Swezey is currently chairman of the TV Committee of the NAB, serving on the Finance Committee and the Business Trends Committee; he's a past prexy of the Radio Execs Club of N. Y. and the 150 v-p of the New Orleans AB Club.

EUGENE S. THOMAS, mgr. of TV operations for WOR-TV, returned to the WOR fold in June, this year, after spending 18 months in Washington, D. C., during which time he brought WOIC from the red to the black in the profit column. Thomas is a director of the NAB, representing the TV industry, and of the AFA. He also served two terms as proxy of the New York Ad Club, and was pres. of the Sales Executives Club. A graduate of George Washington U. and Harvard's grad-

THOMAS

uate school of business, Thomas came up through the ranks of newspaper reporting for the Washington Herald, Washington Daily News, and Washington Star before entering the field of public relations. Prior to joining WOR in 1934, he headed the radio department of H. W. Kastor & Sons, Chicago ad agency. At WOR, he has been successively: director of sales promotion and advertising, ass't sales mgr., sales mgr., and executive committee sec'y.

C. ROBERT THOMPSON, a member of the Radio Pioneers, is general manager of WBEN, Buffalo—AM, FM and TV. Bob entered radio even before he graduated from high school, singing over WAIU, Columbus, Ohio, in 1925. The following year he joined the announcing staff of the station. 1928 found Bob at WCAO, Baltimore, as announcer and musical director and later as program director. In 1931 he and Cliff Harris, now of WIP, Philadelphia, leased WTBO, Cumberland,

THOMPSON

Md., and became co-managers. Returning to Columbus in 1932, Bob served as program director of WCAH (now WBNS) and later became manager of WCOL. Shortly after The Buffalo Evening News acquired WEBR, Bob went there in 1938 to supervise programs and shortly afterwards became station manager. He became assistant manager in charge of sales at WBEN in 1942, becoming manager in 1944, acquiring his new title this year.

CHARLES VANDA, former head of CBS' Hollywood programming for many years, is now vice-president in charge of TV for the WCAU, Philadelphia, stations. In Hollywood, he originated and produced such top radio shows as "Suspense," "Intrigue," and "Stars over Hollywood." In addition Charley produced, wrote and directed most of the super-productions in Hollywood Bowl from 1935 to 1946. During World War II, he chaired the Four-Network Radio Committee; co-pro-

VANDA

duced the "This Is War" series and co-authored the entire plan for the Armed Forces Radio Service. Charley became veep of WCAU-TV in March of this year. Perhaps his biggest contribution to Philadelphia TV to date came in September when WCAU-TV undertook a daily schedule of 17 hours, one of the heaviest program logs on any TV station in the country. Among his other accomplishments, Charley created and originated "The Big Top."

S. S. FOX, president and general manager of KDYL and KDYL-TV, Salt Lake City, Utah, is known throughout the industry as one of the real pioneers of both media. Sid began operation of KDYL when it was the 13th licensed broadcasting station in the country and one of the very few west of the Mississippi. Back in 1938 there was talk of something new called "television." Sid put his ear to the ground and purchased demonstration equipment for use in department stores and at the State Fair, to acquaint the people with

FOX

what they might expect from this new field. Demonstrations were started in Sept., 1939. With World War II blocking progress. Sid ordered full speed ahead, following V-J Day, and KDYL-TV took to the air on April 19, 1948,—the first TV station between St. Louis and Los Angeles to be on the air regularly. Sid's early years of experience in film and show business made him particularly adaptable to TV and the KDYL-TV operations have been characterized with a flair for showmanship.

GAYLE V. GRUBB, general manager of KGO-TV, San Francisco, is one of the nation's honest-to-goodness pioneers of broadcasting. Even during his student days at Nebraska University, Gayle was gearing his future to a successful executive career in the entertainment field. He edited his college paper, wrote stories and cartoons, acted in little theatre plays and organized and led an orchestra. In 1924 his path led to radio, KFAB, Lincoln, Neb., where he was manager, program director, entertainer, stenographer, song writer and jani-

GRUBB

tor. Later in 1928 he joined WKY, Oklahoma City, as g.m. and built that station into one of the top radio properties in the country. His outstanding record of WKY led to his appointment in 1945 by ABC as g.m. of the network-owned KGO in San Francisco. In May, 1949, when ABC opened its TV station, KGO-TV, Gayle found himself once more in a pioneer role. Starting out with a 5-day, 15-hour programming week, KGO-TV is now televising 7 days a week with 60 plus hours of programming.

THAD HOLT, president and treasurer of the Voice of Alabama, Inc., operators of WAPI, WAFM and WAFM-TV, Birmingham, Ala., was born in Sumterville, Ala. After graduation from Colorado College, he entered the advertising and sales work field and remained there for 20 years. Among the companies Thad was associated with were: Fawcett Advertising Agency and the Wofford Oil Company, as advertising and sales manager. He entered the radio field in 1937 with WAPI, Birmingham. In

HOLT

1946 he started the first FM operation in Alabama with WAFM, and opened up Alabama's first TV station in 1949 with WAFM-TV. Well-known in Alabama circles, Thad has served as State Director of FERA, WPA, CWA and the NYA. In addition he was at one time assistant national administrator of the WPA in Washington. Thad, a Phi Beta Kappa, was also at one time vice-president and half owner of Famous Features Syndicate in New York.

STANLEY E. HUBBARD, general mgr. and co-founder of KSTP and KSTP-TV, Minneapolis-St. Paul, Minn., has the distinction of getting in on the ground floor of three of the fastest growing industries of modern times: aviation, radio and TV. While a student at Minnesota, in 1910, he built one of the first amateur radio transmitters in the state. Following World War I service, Stan established Hubbard Field at Louisville. A few months later he organized the first commercial airline in the U. S.

HUBBARD

and laid out their routes still used by airlines today. In 1924, Stan started WAMD in Minneapolis. The station call-letters were changed to KSTP in 1928. In June, 1939, he purchased one of the first television cameras and began experimenting with the medium. On April 27, 1948, KSTP-TV, under Stan's guidance, began full commercial operation, housed in the station's ultra-modern radio city building and the only structure in the area built exclusively for radio-TV production.

RICHARD B. HULL, radio and TV director for WOI, Iowa State College, is a man who has come a long way in a little time. Not only is he responsible for the first educationally owned TV station in the U. S., but currently he is also TV chairman for NAEB and director of Region IV of that group. Dick has served 3 terms as president of the National Association of Educational Broadcasters, and in 1946 and '47 was president of the Iowa Radio News Editors. After graduation from Iowa State in 1938 he served as radio

HULL

specialist for the University of Minnesota's Agricultural Extension Service and worked with WCCO, KSTP, WTCN, and KUOM, all in Minn. At WOI-TV, where he was named director in 1946, Dick has instituted a three-fold policy. First, to give the Ames-Des Moines area a complete network program service; secondly to train limited numbers of students in actual TV station situations and thirdly to conduct continuing programs of research on TV audience impact.

GEORGE S. JOHNSON, general manager and chief engineer for KOB-TV, Albuquerque, N. M., first became interested in radio when he had an opportunity to experiment with a neighbor's wireless set. With passing years this interest grew and in 1922 he had obtained his Amateur Operator's license in San Diego, Calif. In 1928, George graduated from the University of Colorado, and immediately entered the radio department of the General Electric Company in Schenectady, N. Y.,

JOHNSON

where he stayed for three years. In 1932, George left this position to become chief engineer for KOB, where he built the station's first 10 kilowatt transmitter, and installed the first 50 kilowatt transmitter in 1941. When KOB applied for a TV station in 1946 George was made general manager and chief engineer. Today he still retains these duties and is also chief engineer for KOB-AM. He was born in Spokane, Washington on March 16, 1906.

KLAUS LANDSBERG, vice-president of Paramount TV Productions, is certain to figure prominently whenever TV pioneers both in Europe and America are discussed. Though only in his early thirties, Klaus is recognized as one of the leading authorities in the TV fields. He has been actively engaged in this work for over 16 years, and he has started more TV programming trends than any other single individual in the nation. In 1937, Klaus was appointed laboratory engineer and assistant to Dr. Korn, the inventor of picture

LANDSBERG

telegraphy, in Berlin, Germany. Coming to America in 1938, Klaus went to work for Farnsworth TV, Inc., as development engineer and the next year was with NBC. It was during this period that Klaus helped make possible the first public demonstration of TV at the World's Fair. After working with DuMont laboratories he was sent to Hollywood to organize W6XYZ, the Paramount Picture TV station in 1941. This TV outlet was on the air 5 years on an experimental basis before it became KTLA.

H. P. LASKER, general manager of WLW-D, Dayton, Ohio, was born and educated in Europe. His first job was working in transportation advertising in France and England, which gave him the experience needed to take on the duties of director of transportation advertising for WLW, when he came to this country. Pete held that post for the Crosley interests for ten years before being appointed sales manager for the TV outlet in Dayton. A little over a year ago he was appointed to his

LASKER

present post. Pete is a devotee of sports and is a leader at the many staff parties on the skating rinks, swimming pools and tennis courts. "The harder you work the body," Pete says, "the harder you can work the mind." While he was born and educated abroad, Pete is constantly crusading for directness of speech and action in the true American tradition and believes the job's the thing. Recently his program director asked Pete to appear on a three-city newscast, during the height of an ice-storm, on skates—and Pete did.

JAMES LEONARD, general manager of WLW-C, Columbus, Ohio, laid the groundwork for his career in radio through his association with the University of Florida's station, WRUF, as announcer, producer and sportscaster in 1934. Two years after his graduation Jim joined the staff of WLW in Columbus, and the combination was so good it's lasted all this time. At WLW, Jim became one of the station's outstanding stars, gaining national recognition through his announcing, singing, MC work,

LEONARD

and participation on various dramatic programs. In 1944, he accepted the position of program director of WSAI also a part of the Crosley Corporation, and during this time he also taught special radio courses at Cincinnati's College of Music, and was instrumental in the development of new talent in that city. In accepting the position of general manager of WLW-C in 1949, Jim assumed the responsibility of establishing Columbus' first TV station and has made it pay off.

CECIL D. MASTIN, general manager of WNBC and WNBC-TV, Binghamton, N. Y., was born in Fairport, N. Y. He entered Syracuse University to study law but after two years he left to pursue the study of voice in New York. He produced a vaudeville act, Mastin and Melvin, and gained theatrical experience from about five years with three different acts which he wrote and produced. "Cec" went to Binghamton in 1915 and established a successful voice studio there. In addition to his teaching, "Cec" instituted several concert courses and

MASTIN

founded the Binghamton Civic Music Series in 1926, and also founded the Binghamton Choral Society. With business experience gained as a partner in a local music store, "Cec" became program director of WNBC in 1929. When the station was bought by the Wiley B. Jones Advertising Agency in 1932, he became general manager. In 1942, FM was added and "Cec," who had been active in early development of FM, added WNBC-FM to his chores. WNBC-TV was launched on Dec. 1, 1949.

JOHN McCORMICK, general manager of WTAM-WNBK, Cleveland, Ohio, is a prime example of a man who eats, breathes and sleeps television. His introduction to this industry began in 1929 when he joined the staff of radio station WGBS in N. Y. as an announcer. Since that time he has been connected with practically every phase of radio and TV with the possible exception of engineering. He was named program director, WGBS, and remained with them when the station came under the Hearst banner and changed its

McCORMICK

call letters to WINS. In 1934 John became program and production manager at WKRC, Cincinnati, and manager in 1936. In 1938 he transferred to WCCO, manager, and in Feb. 1940, he was called to NBC to serve with their Chicago network sales division. John has also seen service as radio director of the Republican National Committee under Herbert Brownell in Washington, D. C. from Feb. 1945 until May 1946, at which time he returned to NBC sales in Chicago. John came to WTAM-WNBK in 1948.

JOHN M. OUTLER, Jr. was born in Metcalf, Ga., and after attending local schools was graduated from Young Harris College and later from Emory College. John's first job was classified advertising manager of the Augusta Herald. In 1916 he joined the Atlanta Journal staff, handling real estate advertising from 1916 until he enlisted in the Army in 1917. John returned to the Journal in 1919 as automobile editor—a position he held until 1926 when he became manager of the paper's Roto Advertising Department. John entered ra-

OUTLER

dio as business manager of WSB in 1930 and became general manager in 1944. With the inauguration of TV in 1948 he assumed the double duties of general manager of both the AM and TV operations. As manager of the South's largest radio station and first TV outlet, John has been a spokesman for local station TV interests and particularly for local programming in the medium. He has been a member of the Standards of Practice Committee of the NAB as well as chairman of the Sales Manager's Executive Committee.

ARDEN X. PANGBORN, newly appointed general manager of WOAI and WOAI-TV, San Antonio, Texas, entered the radio field back in 1940 when he left his post as managing editor of the Portland "Oregonian" to assume managership of KGW and, KEX, the then Red and Blue outlets in the Northwest city. A sports writer at 18, he gave up his job with the "Oregonian" to work his way through the University of Oregon and returned to the paper in 1929.

He became managing editor in 1938 and during his newspaper years also wrote for the pulps. The next year "Pang" entered the radio field and within twelve months was elected Pacific Coast representative on the first NBC planning and advisory committee. Later, "Pang" returned to his post of managing editor of the "Oregonian," a position he held until his recent appointment to the general managership of the AM and TV outlets of Southland Industries, Inc.

PANGBORN

W. D. ROGERS, JR., vice-president and general manager of KEYL-TV, San Antonio, Texas, has been prominent in Southwest advertising circles for many years. He was formerly general sales and advertising manager of the Coca-Cola Bottling Co. of West Texas, and served as president of the Lubbock Advertising Club and the Lubbock Sales Executives Club. Active also in the Lions Club, Dub is past director of the Lubbock Lions Club, recognized as the

largest in the nation and the fourth largest in the world. During World War II, he served in the Air Force for three years until his discharge. Moving to San Antonio in Feb., 1950, he assumed active management of KEYL which was then still under construction. At a meeting in Chicago, Jan., 1951, he was elected to the TV board of directors of KEYL. He is an alumnus of Baylor University, and a member of the Masonic Lodge.

ROGERS, JR.

LEE RUWITCH, vice-president and general manager of WTVJ, Miami, was born in Escanaba, Michigan. He has been associated with the station since August, 1948, when the WTVJ was still in the construction stage. At the time, Lee was rounding out his second year as executive assistant to Col. Mitchell Wollson, co-founder of the station. Following his graduation from the University of Minnesota, Lee was associated with Joseph Ruwich & Sons Department Store in Norway, Michigan.

During the war he served three-and-a-half years in the Navy, mostly in the South Pacific, emerging as a Lieutenant. During the past year, Lee has traveled thousands of miles visiting other TV operations to secure first-hand information and to study personnel and operating methods of both large and small outlets. As a result, WTVJ has grown in stature during the year. Lee was named general manager of the station in 1949 and in January, 1950, he was elevated to vice-president.

RUWITCH

OWEN SADDLER, general manager of KMTV, Omaha, Neb., can look back upon colorful diversified career whenever he wants to. He has been an English Instructor at two universities, a newspaper reporter, and has spent three years in the legal department of E. . Du Pont de Nemours & Co. Add to this 13 years in radio and TV with the May Broadcasting Co., and you find a well-assimilated man. His first experience with radio came in 1938 when he was still working for his Ph.D. at Northwest

SADDLER

tern U. At that time he met the late Earl May, founder of KMA and a radio pioneer, who lured him to the station in 1938. Owen became assistant to the president and, in 1945, became general manager. He has carried over into TV all the enthusiasm he has developed working in radio. He has managed KMTV since its inception in Omaha, Sept. 1, 1949, and at present many TV executives consider KMTV as a model TV operation.

FRANK P. SCHREIBER, manager and treasurer of WGN, Inc., operators of WGN, WGNB and WGN-TV, has been with the parent Tribune Company for thirty years. During this period he has taken an active and important part in the growth of WGN to a place of prominence in the mid-west AM field and has guided the development of WGN-TV in the television field. Frank joined the Tribune in 1918 as a sports writer. In 1926 he was named assistant sports editor and by 1928 was made assistant

SCHREIBER

general purchasing agent. Three years later he joined WGN as director of public relations. In 1940, Frank was named station manager. He has more than a professional interest in WGN's network, Mutual. In fact, Frank feels more like a parent of the network since he was present at the birth of the web in 1936 when WGN formed the Quality Network, which, a short time later, became Mutual. Frank is a native Chicagoan, graduate of Northwestern University, and a red-hot sports fan.

VICTOR A. SHOLIS, vice-president and director of WHAS and WHAS-TV, Louisville, Ky., was born in Scotland of Lithuanian parents. After this novel beginning he came to Chicago and in 1929 became a U. S. citizen through the naturalization of his father. Attending the University of Illinois he graduated summa cum laude in 1931 with a B.S. degree in journalism. In 1934 he joined the Chicago Daily Times, where he became political editor. He served in this capacity until 1939 when he became a special assistant to Secretary

SHOLIS

of Commerce Harry Hopkins. He resigned from the Dept. of Commerce and became a director of the Clear Channel Broadcasting Service in Washington in 1941. After serving three years in the Army he returned to CCBS, but resigned in 1947 to accept the post of director at WHAS. At this 50,000-watt clear-channel station he has set a pace for outstanding local and public service programming, and recently became the second Kentuckian ever to receive the American Cancer Society's award for meritorious service.

FRANKLIN SNYDER, vice-president and station manager of WXEL, Cleveland, was born in Pittsburgh. After graduation from the Carnegie Institute of Technology, where he majored in architecture, he joined the Jones & Laughlin Steel Corporation in the construction engineering department. In 1938, Frank and several of his friends formed the Quality Laboratories, a company engaged in the manufacture and sale of drugs and cosmetics. This organization lasted five years and Frank went on to the Dravo Corporation, a ship-

SNYDER

building firm. In 1944, he transferred to the Magnetic Metals Co., where he served in a sales position. At the conclusion of the war the firm converted to the manufacturing of radio and TV parts. As a result of his business contacts, he became friendly with Herbert Mayer, president of Empire Coil Co., who was in the process of developing a TV station in Cleveland. Resigning from Magnetic Metal in 1949, Frank helped construct and organize WXEL and finally assumed active management.

HARRY L. STONE, general manager of KPHO and KPHO-TV, Phoenix, Arizona, is a veteran of 27 years in the radio business. A believer in the idea that network programs need not originate in New York, Chicago or Los Angeles, Harry set about finding a format early in life that would warrant national recognition. Out of one of his brainstorms came "Grand Ole Opry," still a top Hooper show coast-to-coast. Harry also has to his credit such talent discoveries as Eddy Arnold, Roy Acuff, Minnie Pearl and Ernest Tubbs, and was in-

STONE

strumental in giving Dinah Shore her first start. Though he is far from being a songwriter by trade he recently collaborated with a friend and produced "Chattanooga Shoe-shine Boy" which swept the nation. Formerly vice-president and general manager of WSM and WSM-TV, Nashville, Tenn., he assumed the general managership of KPOH-AM-TV this past year. Harry's main objective appears to be the creation of local live shows for both radio and TV worthy of local acclaim, and produced for national recognition.

KENNETH W. STOWMAN, television sales manager of WFIL-TV, Philadelphia, is a veteran of 25 years in the broadcasting field. He joined the WFIL staff in 1945 as assistant to the general manager, following three and a half years with the U. S. Navy. Before assuming his present position in 1948, Ken directed WFIL-TV operations for more than a year, beginning in February, 1947. During this period the station went on the air for the first time. In the mid-twenties. Ken left a job as radio editor of a Philadelphia newspaper

STOWMAN

to join the staff of a local radio station. Since then he has been associated with the medium, except for his Navy hitch. While in the service he was a lieutenant on the staff of Rear Admiral C. E. Rosendahl, chief of the Naval Airship Training Command at Lakehurst, N. J. Ken studied business administration at Temple University before entering on his career and is a member of the Poor Richard Club and the 50 Club, as well as a board member of T & A of Philadelphia.

HARRY BANNISTER, general manager of WWJ, Detroit, has AM, FM as well as TV activities under his guidance. Harry entered radio in 1931 as a salesman for WMBC in the Motor City. Later he went with WJR and in 1933 he joined WWJ as a salesman. Harry became sales manager for the station in 1935 and was appointed general manager in 1941. He is a former member of the board of directors of the NAB and is a member of the Stations Planning and Advisory Committee of NBC.

BANNISTER

Before entering radio, Harry was associated with E. I. duPont de Nemours and with Brewer Co. He also did a five-year stint with the American Druggist syndicate. In all jobs he was in sales or sales supervizing. On the more personal side, Harry, at his own admittance, is the best gin rummy player and worst crap shooter in radio or TV. He also admits that he plays a violent game of croquet every week-end, in sun, snow, sleet or ice.

P. A. SUGG, vice-president of the WKY Radiophone Company and manager of WKY and WKY-TV, Oklahoma City, Okla., became interested in radio back in 1920 when the medium was still a gadget, and has been in it ever since. In 1929 he entered commercial radio with KPO, San Francisco, and two years later moved to NBC where he served as control supervisor in charge of technical network operations. A Navy reservist, Bud was called to active duty in 1940, and had a major role

SUGG

in the development of radar during the war. He served aboard the U.S.S. California, and later was on the staff of Adm. Nimitz, commander of the Pacific Fleet. Released from active duty in 1945 he became manager of WKY on Jan. 1, 1946, and divided his attention between management of the AM station and direction of preparations for the advent of TV in Oklahoma. WKY-TV went on the air commercially June 6, 1949, with a weekly schedule of about 15 hours of programming.

HAAN J. TYLER, manager of KFI-TV, Los Angeles, Calif., became interested in the radio field because of an old hobby, quartet singing, which had placed him before the microphone for over 5 years with the Edgewater Four around Chicago. He started as a partner in the Broadcasting Checking Bureau, which ceased to exist as broadcasting facilities increased and became more dependable. In 1934 he joined the John H. Dunham Company as an account executive, handling such

TYLER

accounts as O'Henry Candy Bars, Crackerjacks and Campfire Marshmallows. Moving to the coast in 1939 he opened an office for Free & Peters, radio representatives in L. A., and a year later became commercial mgr. of KSFO. Early in 1943, Haan moved to Earle C. Anthony, Inc., as account executive for KFI. In 1947 he became sales manager for KFI, and the following year was promoted to program director and coordinator of TV, and finally manager of KFI-TV in Oct., 1948.

Daytime Television Gets Results

(on WGN-TV, that is)

Since WGN-TV first blazed the way in Chicago television with regularly scheduled daytime programs, advertisers' result stories have been streaming in:

One daytime sponsor says, "We experienced a considerable increase in our Chicago volume right from the start—33⅓%. Our sales are still climbing and are now 50% ahead of last year."

An agency writes that WGN-TV delivered the highest mail response of any of the 28 stations carrying their program. The mail count was higher than either New York or Los Angeles, both of whom currently have more television sets than Chicago.

These are just two of the many daytime result stories on WGN-TV. If you want results for your products—you need WGN-TV in Chicago.

As one advertiser wrote, "I only wish there were fifty WGN-TVs in this country."

WHY IS **AP** THE BEST?

BECAUSE—**AP** is faster, more complete, more
accurate than any other news service.

No Puzzler for TV FILM USERS and DISTRIBUTORS

Whether you're an advertising agency, film producer or distributor, station or network, handling 16mm or 35mm film, don't be puzzled when these and similar questions arise:

Will the film be shipped on time? Are the commercials spliced in properly?

Where can we store surplus film? Where can we consign returned film? Who will examine and repair damages? Who will remove out-dated commercials?

Call Bonded, the world's largest film service organization servicing and shipping over 5,000,000 reels of film yearly for the film and television industries.

Bonded's Television Film Service Division is organized to handle as many film service operations as you require—storage, inspection, shipping, splicing, keeping records and preparing reports and data on all your film—at a nominal fee.

You'll find that Bonded offers the largest film service facilities available anywhere—from storage through screening:

FILM STORAGE—six huge, centrally located warehouses equipped with the latest and best means of protecting film.

PHYSICAL DISTRIBUTION & HANDLING—thoroughly experienced personnel to insure maximum efficiency for both 16mm and 35mm film.

SCREENING—Bonded's *Film Center Theatre* available for day and night 16mm and 35mm screenings.

For additional information, call JUDson 6-1030.

Services Offered

NINETEEN FIFTY-ONE

The 16 mm. sound-on-film portable Recording System combines the highest fidelity in 16 mm. recording practice with wide flexibility and simplicity of operation. The system is completely portable and is capable of recording either negative or direct positive variable area and variable density sound tracks.

The 16 mm. Film Phonograph unit provides the finest quality in high fidelity re-recording and playback. The unique optical system, giving an unusually narrow reproducing image with high light output, accomplishes a material reduction in photo-cell hiss—essential for quality reproduction.

THE NEW MAURER 16 MM CAMERA

The 16 mm. Professional Camera is the result of J. A. Maurer research and development in the 16 mm. field. Designed specifically for professional use, it is equipped with precision high-power focusing and the finest view-finder made.

Standard equipment includes: 235° dissolving shutter, automatic fade control, view-finder, sunshade and filter holder, one 400 foot gear-driven film magazine, a 60-cycle 115-volt synchronous motor, one 8-frame handcrank, power cable and a lightweight carrying case.

For additional information, please write us.

The Model F Prime Recording Optical System and Galvanometer is a light modulating unit for recording sound photographically upon standard film. This system requires no special servicing or spare parts (other than recording lamp). Detailed instructions for mounting in your recorder are included.

E. W. HAMMONS
PRESIDENT

1501 BROADWAY
NEW YORK 18, N. Y.

There Is No Substitute For Know-How

Our Trade Mark, "The Spice of The Program", is known to millions of theatre-goers throughout the world. It has always stood for the finest in screen production.

With the knowledge that television is one of the top industries of our time, this corporation employs men who have the experience, integrity and the know-how of producing films and live shows for the television industry.

Having carefully watched all television programming for the past four years, we have come to the conclusion that television is only as good as its programs and, for this reason, the television industry will have to stop using old, dated films and old-time vaudeville. In order for television to grow, many new ideas, both in films and live shows, will have to be carefully planned and produced by men with the know-how.

Television is going through its growing pains the same as we had in the early stages of motion pictures, legit theatre and vaudeville, and for this reason, we feel that our organization is best suited to fill the very real television need.

If you have a programming problem, we invite you to take advantage of our years of know-how.

TV Film Producers

NINETEEN FIFTY

COMMERCIAL TELEVISION PROGRAMS — 1950

(Network and Local)

The following pages contain an alphabetical listing by program title of the four national television networks' commercial programs as well as locally sponsored programs of television stations in operation during 1950. The programs listed are for the 12-month period ending Dec. 31, 1950. Listing includes program title, sponsor and product, network or station and the advertising agency handling the account. Compilation has been made through the cooperation of ABC, CBS, DuMont, NBC and the television stations listed.

Lessons In Leadership

● For twenty years, the Reeves Soundcraft name has been synonymous with leadership in sound recording media. Such leadership, while it carries great prestige and satisfaction, also imposes obligations and responsibilities. The lessons in leadership we have learned are these:

IN QUALITY—The craftsmen using Reeves Soundcraft products know they are the best, we can give them nothing less. The leader cannot compromise on quality.

IN DEVELOPMENT—Reeves Soundcraft has pioneered in the development of many new devices and methods applicable in the sound recording field. Our laboratories are years ahead of our production facilities—and always will be so long as we choose to lead.

IN PRICING—Reeves Soundcraft recognizes it cannot command a premium in price for its products merely because it is an acknowledged leader. We endeavor to produce custom-type products at mass production prices.

REEVES *Soundcraft* CORP.

Twenty Years of Leadership in Sound Electronics

NINETEEN FIFTY-ONE

RADIO OPERATIONS IN ITALY

By THOMAS B. MORGAN, *Director of Special Events for WOV*

Thomas Morgan

IN addition to the artistic and technical facilities which characterize the Rome studios and offices of WOV of New York, the rooms and corridors have become a veritable center for American and Italo-American activities. WOV listeners visiting Rome use these Rome headquarters as a sort of home base. This is outside the work of the staff, which has attained an enviable distinction in having produced some of the most outstanding radio beats from Rome and the outlying centers of Italy.

To the credit of the WOV-Rome staff goes an accolade for having given the first radio story of the finding and location of the tomb of St. Peter with the relics of the Apostle. This was the result of the decade of excavations which have gone on under the basilica of St. Peter's. The Rome bureau registered a world scoop on the first radio interview with Ingrid Bergman and Roberto Rossellini. The present marital split of Robert Taylor was registered first by WOV-Rome, which obtained the first exclusive interview with Lia de Lio, the new flame of the star of "Quo Vadis," which was filmed here. WOV-Rome was also the only American radio station to records the wedding ceremony of Tyrone Power to Linda Christian in the Church of St. Francis.

The WOV-Rome studios and offices are located in a palatial mansion known as Bondi Palace. It is immediately across the street from the Medici Villa and gardens. On the same block is the famed Villa Borghese, Rome's beautiful Public park. WOV's address is No. 4 Via di Porta Pinciana.

The WOV offices and studios consist of a salon and five spacious rooms with high ceilings, in keeping with the design of a Roman palace. The salon is used as reception and leisure room for the large number of visitors who drop in. Nearly one thousand callers a month have been regis-

tered during a busy season. The large director's room is presided over by George Cueto, who also functions as production manager. A soundproof studio opens from the main salon. The control room is contiguous to the studio. A rehearsal room and large office also open from the main salon.

Four commercial programs emanate from the WOV-Rome studios daily, keeping the entire staff on its toes. These programs take distinctly different forms—news reports, commentaries, interviews, on-the-spot reporting and travelogues.

WOV-New York listeners were treated to a recording of the voices of Linda Christian and Tyrone Power at their wedding in Rome. The WOV mike was in the orange blossoms before the altar where they were wed, and Cueto through his ingenuity obtained a perfect recording of the event.

A WOV recording broadcast in America was credited with saving the life of 12-year old Elio Graffi of Rome. Elio, ill with a believed incurable complaint, spoke through the WOV mike to millions of listeners. Funds for his care poured in from America and the child's life was saved.

In a recent "March of Time" presentation, part of the sound track was recorded by WOV on-the-spot at the Italian Boys Republic.

WOV had the first radio account of the finding of the tomb of St. Peter in the recent excavations. The account was given by chief Vatican archaeologist, Professor Enrico Josi. This was followed by a further exclusive when your writer revealed the story of the finding of the relics of St. Peter. A series of six programs traced the historic phases through which the tomb went preceding its recent discovery. The details of this patient work will be compiled in a book by this writer and Professor Josi. ("The Tomb of St. Peter.")

The personnel of the WOV-Rome studios and offices, in addition to Cueto, Basco, Novasio and Gerbi, include Vera Fontanella, script writer and correspondent; Magio Maffio-Letti, engineer; Lina Lus-trati, traffic; and Matilda Biaggi, secretary. Sponsors placed through WOV-Rome include Linee Aeree Italiane, E.N.I.T., The Island of Sicily, and others.

No mystery...

This ability to serve Mexico's rich market!

Out of Mexico City's thirty-odd broadcasters, XEW and XEQ alone enjoy a combined 85% of the great metropolitan audience.

This remarkable response is also found in provincial Mexico, so substantially covered by W's and Q's nation-wide networks, as well as by the comprehensive good job of a sister organization: Radio Programas de México.

Sounds like a monopoly?... Granted!... However, there's no trick to that... It's downright popularity and listener's loyalty -the pay-off of years of experience and service, plus a stubborn determination to give the Mexican family **good**, friendly radio entertainment!

Mexico's familiar call letters

XEW - XEQ

Coming soon XEWTV
*XEQTV

* With the highest antenna in the world, on Mount Popocatepell, 17,000 feet above sea level.

Levering Tyson, President, Muhlenberg College

FUNCTIONS

The Federal Radio Education Committee was appointed in 1935 by the Federal Communications Commission with the recommendation of that time that the broadcaster, on one hand, and the educator, on the other, combine forces which would: (1) eliminate controversy and misunderstanding between groups of educators and between the industry and educators; (2) promote actual cooperative arrangements between educators and broadcasters on national, regional and local bases. Some two dozen printed publications are described in a free folder entitled, "What the FREC Offers You." Most of them are sold at 25 cents per copy. The monthly FREC Service Bulletin, a four-page publication giving news of current educational radio programs, sources of program material and other information of interest to teachers and broadcasters, is available free on request. Other free publications include a monthly list of Selected Programs for Student Listening and a Directory of College Radio Courses.

 Chairman, Service Committee M. E. Nylin

FUNCTIONS

This Association is a non-profit and co-operative organization founded in 1926 to promote the interests of the radio manufacturing industry in Canada.

THE RADIO PIONEERS CLUB

580 Fifth Ave., New York 19, N. Y.
 Plaza 7-1800

Founder H. V. Kaltenborn
 Honorary Presidents David Sarnoff, Lee de Forest
 President Frank E. Mullen
 First Vice-Pres. Orestes H. Caldwell
 Second Vice-Pres. Arthur B. Church
 V.-P. & Secty. Paul W. Morency
 V.-P. & Treas. Carl Haverlin
 Vice-Presidents Martin Campbell, Jack R. Poppele

FUNCTIONS

"To establish a membership organization of persons who by their long years of service in the field of Radio desire to become associated for the purposes of friendship and education. The Club shall be a central clearing house for the exchange of information and historical data about the Radio industry and shall record in form to be determined facts and data about the history of the Radio industry and its traditions for use by this and future generations. It is felt that this organization with the resultant exchange of information would make a valuable contribution to the public interest."

The purposes as outlined in the constitution are sufficiently broad to enable the Radio Pioneers to undertake almost any task which the Club may desire for the furtherance of the Radio Industry.

Accordingly, 1950 will mark the establishment of a Radio Hall of Fame in which the memories of men and women whose contribution have placed them among the immortals will be perpetuated.

RADIO SCRIPT & TRANSCRIPTION EXCHANGE

U. S. Office of Education, Washington 25, D. C.
 Executive 6300, Ext. 2897

Chief Franklin Dunham
 Radio Education Specialist Gertrude C. Broderic $\frac{1}{2}$

FUNCTIONS

The exchange is designed to promote more effective local broadcasting by educational and civic organizations and radio stations by serving as a clearing house for selected educational radio scripts, transcriptions and production aids, and as a source of all kinds of information pertaining to the field of educational radio.
