RADIO INSPECTOR MOVES OFFICE

The Los Angeles office of the Radio Division of the Department of Commerce is now located in the Brownstein-Louis Bldg., 751 South Figueroa, Room 523. The office is in charge of James M. Chapple. It was formerly in the City Hall building.

JUDGE SYKES HERE JULY 17

Judge E. O. Sykes of the Federal Radio Commission will be in Los Angeles July 17, and for about a week thereafter. The Judge is holding hearings in Seattle in the KJR-KOMO-KVI controversy, beginning July 10, and at the conclusion of that session will come South. Hearings to be held here are in regard to radio channels and services outside the broadcast spectrum.

The Federal Radio Commission is endeavoring to eliminate the zone idea, whereby each of the five members was primarily interested in the radio facilities of his own zone. Under the new plan, Mr. Lafount is as much concerned with a broadcast station in Florida as he is with one in California, and Judge Sykes is expected to worry about our West coast problems along with those of his native state. Furthermore, it was thought best to settle the Seattle argument by sending one of the commission's jurists, who was unfamiliar with the situation, and would hence be guided solely by the evidence submitted by the contestants. It is expected that Commissioner Lafount will visit one of the other zones during the summer.

McNAMEE VS. SCHMELING

Shall a radio announcer of a prize-fight be selected by the broadcasting company or by participants in the fight?

Did the NBC favor Sharkey in the recent fiasco?

These are questions raised by Schmeling in his efforts to disqualify McNamee as the announcer in the next fight. We don't believe a fighter has any more right to tell a broadcasting company who to put in as an announcer than an actor would to tell a newspaper what critic to assign to a theatrical performance.

A broadcaster, be he Aylesworth, President of the NBC, or McNamee, wouldn't last fifteen minutes with the radio audience if he did other than give the man unbiased account of a prize-fight or anything else broadcast.

The trouble, in our opinion, was that McNamee, if anything, was a little too honest in acquainting the radio audience with what a close shave Schmeling had from being defeated. It was this, we believe, which caused der Maxie to make this squawk.

STUDY INTERNATIONAL RADIO PROBLEMS

While most folks are either on vacations or just sliding along on their jobs, Government radio experts will be at work this summer gathering data on international technical radio problems.

An organization meeting was held recently and other sessions will be held at infrequent intervals. Undecided questions, which were left hanging fire at the International Conference at The Hague last Fall, are to be considered along with the application of policies agreed upon at the European meeting.

Preliminary reports will be made by the several Committees to the full Committee on September 4, and these will, in turn, be recommended to the conference of the Interantional Technical Consulting Committee on Radio at Copenhagen in 1931. The International Radiotelegraph Convention will be held at Madrid in 1932.

STUDIO NEWS

Charles McQuirk, writing in Liberty Magazine, referred to the young gentlemen on our cover this week as the "most romantic singer I ever heard." And that is Ted White, KHJ's newest find. Mr. White started life as a newspaper reporter on the United Press Association, and from there trekked to vaudeville and musical comedy. "The Willows," the haunt of the rich and the famous in Reno, Nevada, packed them in to hear Ted White crooning for 76 weeks. Having entertained in night clubs all over the country, it is little wonder that Ted's "Top o' the World Night Club" program on Wednesday nights at 9:30 is proving one of the most popular features on the Pacific Coast. See KHJ's program for other appearances of this much acclaimed young man.

A series of six or eight black-outs, one after the other, combine to make the "Laf-O-Grafs" one of the most entertaining programs to be released from KNX. Dial in next Tuesday night at 8 p. m. and see if you don't agree.

Bill Ray's Ragtime Revue, long a KFWB Sunday night attraction, is being unpacked from moth balls and cedar chest and by the time this magazine is in your hands will probably be on the air over KGER from 10 to 12 midnight, Sundays.

Arthur B. Reeve, one of the world's greatest writers of detective stories and creator of the famous "Craig Kennedy," has joined the ranks of National Broadcasting Company writers and will work in collaboration with Finis Farr in the writing of a series of radio detective stories. The first of these will be on the air Monday afternoon, July 14, at 4:30, and at this writing KOMO and KGO will release the program. More NBC stations will undoubtedly add this feature as soon as possible.

On July 3, KTM's Ranch Boys began to "strut their stuff" before the microphone nightly from 9 to 10, instead of from 7 to 8 in the mornings. This change in schedule is in answer to a city-wide appeal to give everyone a chance to hear this popular feature.

Kenneth Lee is a new addition to the staff of KMTR as announcer and continuity writer. Mr. Lee graduated from U. S. C., majoring in advertising. From a local advertising firm he came to KMTR, where he is understudying for Harry Geise, program director.

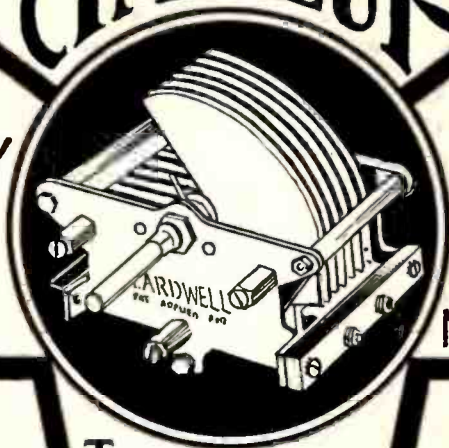

Wm. L. Norvell has been appointed new manager of KEX. Mr. Norvell was formerly with Foster and Kleiser in Portland and district representative in Walla Walla, Washington, and Eugene, Oregon.

"Symphonies Under the Stars," played in the world-famous Hollywood Bowl in Southern California, are being broadcast every Saturday night for eight weeks, having begun July 12 over the National Broadcasting company. Alfred Hertz, internationally known German conductor, affectionately called "The Father of the Bowl," directed the orchestra during the initial program. Succeeding concerts will be given under the batons of such noted directors as Karl Krueger, Bernardino Molinari of Rome, and Enrique Arbos of Spain. This series of summer concerts is one of the most celebrated in the United States. Presented under a star-flecked sky, in a huge, natural amphitheater in the Hollywood Hills, the four programs a week attract thousands of music and beauty lovers from all parts of the country. Stations through which the Hollywood Bowl programs will be released are KHQ, KOMO, KGW, KPO, and KFI.

New Set Owners' Page

Static-Interference-Special Aerials

By K. G. Ormiston

Not so long ago, all of the extraneous noise emitted by the loud speaker of a radio receiver was called "static" by the set owner. He was not aware of the existence of electrical interference; that is, the noises produced in the set electrical circuits, devices and appliances of man-made origin.

But lately this subject of electrical interference and the activities of the various interference committees and their specialists have received so much publicity, that the public has swung to the other extreme and is prone to call all extraneous noise electrical interference. As a matter of fact, with the increased sensitivity of the modern receivers, the level of natural static has increased; and it is important that the owner should recognize this fact.

The average set owner, after hearing much about electrical interference, believes that when his set is operating with the volume control fully advanced on KOA, for example, there is considerable popping and scratching. He immediately attributes this racket to electrical interference and contemplates the installation of a special antenna and ground installation of the "shielded lead-in" type. Since these special antenna installations are helpful only in reducing the effects of electrical interference and improving the signal-to-interference ratio, and do not reduce the effects of natural static, it is very important that the set owner be able to recognize static and differentiate between it and man-made noises. It would be foolish for him to spend money in attempting to conquer the former.

The "shielded lead-in" antenna is an emergency measure to be used only in cases where electrical interference is

severe. It is not an efficient antenna inasmuch as the shielding reduces the signal strength, but is useful in combating interference for the reason that by proper design the interference can be reduced in greater proportion than the signal.

We visited the home of a fan the other evening where an elaborate shielded installation had been put in, in spite of the fact that he had never been troubled with electrical interference. The result was that a beautiful 85-foot flat-top aerial gave him only the received broadcast signal strength to be expected from about 20 feet of wire. Most of the energy picked up by the antenna took the path to ground afforded by the capacity between lead-in and shield. A short wave set, connected to this aerial and ground system gave less signal strength from Eastern stations than was obtained from simply touching the aerial post of the set with the finger and using no ground connection. This is due to the fact that the capacity effect between the lead-in and shield, at the very high frequencies of short waves, constitutes practically a direct short-circuit to ground.

And so, we would advise that this special antenna and ground arrangement be used only where electrical interference is present in an objectionable degree. **DO NOT CONFUSE INTERFERENCE WITH STATIC.** Natural static is particularly pronounced during the summer months, and is always present with distant stations. It is often objectionable with semi-distant stations, and sometimes even mars the reception of powerful stations only fifty miles distant.

Static

(Continued from Page 13)

tant. It sounds more or less like machine guns as reproduced in the "talkies," though there is no regularity to the "pops." If this sort of static is all that your receiver reproduces in addition to the broadcast signals, then there is nothing for you to worry about. If, on the other hand, you hear noises which are obviously man-made, because of the fact that they are periodic or appearing at regular intervals, or start and stop suddenly, or coincide with the passing of trolley cars, the flashing of signs, turning on and off of electrical fixtures or appliances, the dialing of phones, etc., then it will be worthwhile to consult your dealer or the Interference Committee of your Radio Trades Association regarding minimizing these disturbances by means of a special aerial and ground installation.

- 8:30 p. m.—Preview of Sunday School Lesson.
- 9:00-11:00 p. m.—NBC.*

Hot Shots From San Francisco Show

The Pacific Radio Trade Show, held last week at the William Taylor Hotel in San Francisco, was not only a great success but allowed all of the old time radio men, some of whom hadn't seen each other for a year or more, to get together and recount old times.

Hall Berringer from Seattle, Sturdevant from "anywhere," Henry Lapkin of San Francisco, Les Taufenbach and his whole bunch from Los Angeles were strutting around the Show with their chests stuck out because of the great acclaim which Brunswick was getting from the trade. They were especially proud of that marvel of mechanical, electrical and acoustical engineering, the new Brunswick Automatic.

Phil Goth, distributor; Charlie Walter, representative; Davison and Bob Haynes, manufacturers, were all proud of their new Angelus models. All were feeling gay and optimistic.

Shaw, of Arcturus fame, had the first booth in the auditorium and kept things going and attracted a lot of attention with a good-looking dancer, an accordion and a guitar player.

Bennie Kruger, the big CeCo man from the South, was much in evidence and thinks more of his tube line than ever.

The Radiotron group were out in force and were asking everybody to send one of their fast communication letters back home to their wives, sweethearts or friends.

Another group of tube men much in prominence was the KenRad crowd. H. G. Blakeslee, coast representative, and Dick Smiley, general sales manager, were making whoopee and enjoying themselves.

Sparton again tried to make dudes out of everyone by handing out several thousand canes. Leigh Borden, representative, Harry Curtis and Walter Fagan, distributors, were strutting around trying to look as though they were used to carrying canes.

C. W. Hunter, representative, and Mr. Bodman, general sales manager, were talking fast and furious about the new Silver models. "Silver will be good this year," they said. Good for them, we hope it is true.

The Atwater Kent crowd were there, of course. Willis, Ray Thomas, Mark Smith, Ernest Ingold officially represented A. K., and while they didn't show

any sets, they displayed nice red hats, of which they were justly proud.

Big Herb Horn of Los Angeles is at last connected with a crowd after his own heart. The Clarion people gave out green dice for souvenirs and since Herb is the most famous crap shooter in the radio industry he was in perfect accord with this policy.

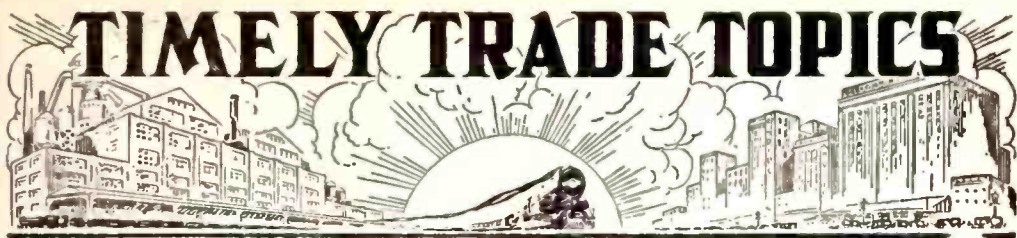

The Kierulff & Ravenscroft crowd, who handle Crosley, was well represented, Charlie Kierrulff, Duffy, Bill Houghings from Los Angeles; Garrett Arnold and his group from San Francisco, Wayne Miller and Bialtkowsky, factory representatives, were pushing around between their booth in the basement and their highest room on the 23rd floor. They are very happy about the new Crosley line-up and expect to do big things this year.

Lloyd Holten, of Rola fame, was much in evidence. He was so happy with his new line-up of sets and speakers that he had the ends of his mustache turned up which made him look as though he were perpetually laughing.

The Philco crowd were out in force and enjoying everything the Show had to offer. McWhorter, Claude Foote, Stanley Curtis, Bart Stebbins and many others were seen about.

There must have been between a hundred and a hundred and fifty Southern California radio and music men and women at the Show, and everyone that we talked to said they were enjoying themselves and getting a great deal out of the Convention. A few who are not mentioned above but whom we saw at the Show are R. B. Yale and his wife of Apex; Herb Zenker and wife of Blue Bird; Fred Dean and wife of Prest & Dean; Fred Prentiss and wife of Zenith; George Lane of Bosch; Ross Hartley, Roy Worth of the Electric Corporation, Dave and Sidney Spector, Fredrickson of Cunningham, Stilliman of Edison, Fritz Falck and wife of Advance, Jimmie Hermans of Pacent, the whole General Motors crowd—L. C. Warner, Jimmie Condon, Henry Gardner, Don Wallace, Otto Bloom, Wiley Doran, etc.; McNeeley of Gilfillan, Starett of Lyric, Bill Cook of National, McDonald of Radio Corporation, Sette of Stein, Bushnell of Sulmock, Lombard Smith, Bert

(Continued on Page 45)

The Dayton Scientific Corporation has recently been incorporated in the state of Ohio. Offices and plant will be located in Dayton. Manufacturing of radio and electrical devices and also research in these lines will be the functions of this company.

The officers are Oscar H. Hulberg, President; H. L. Burns, vice-president and treasurer, and George F. Holland, secretary. Of these, Messrs. Burns and Hulberg are well known to the radio trade.

One of the first products of this corporation will be a short wave receiver suitable for the use of the non-technical trade, and will be sold through distributors. Thirty-three distributors in the United States and South America have been appointed up to July 1. About seventy will be appointed in this country, according to present plans.

Mr. Julian K. Sprague, vice-president of the Sprague Specialties Co. of Quincy, Mass., was a visitor in Los Angeles last week, and while here announced the appointment of the Marshank Sales Company, 224 East 16th St., Los Angeles, as factory representatives. The Sprague Company manufactures mica and electrolytic condensers of high quality. Dave N. Marshank of the Marshank Sales Company will personally represent the line. Since the names of Sprague and Marshank are both so well known to the trade, we need say no more!

The Rola Company, manufacturers of loud speakers and radio receivers, with factory and offices in Oakland, California, will open a Southern California branch at 1321 Maple Avenue, Los Angeles. Mr. Lloyd Holton, general sales manager of the company, made this announcement last week during the Western Radio and Music Trades Convention in San Francisco.

Mr. Mart Borden of the Plymouth Radio Company, prominent midget radio manufacturer of Los Angeles, announced the appointment of two new distributors during the past month. They are: Arizona Radio & Supply Co., 903 West Moreland, Phoenix, Arizona, and Wholesale Radio Supply Co., 269 7th Street.

Jack Miller, who was for several years with Radio Doings, and more recently connected with the Jackson-Bell Manufacturing Company, is now with H. R. Curtiss Co., 1145 Wall Street, Los Angeles. Jack is selling the new Philco line of receivers as well as the J-B midget, and if enthusiasm means anything in this life, he should sell 'em fast and plenty.

Mr. Davison of Davison-Havnes Mfg. Co. of 1012 West Washington Blvd., Los Angeles, makers of the popular Angelus radios is now in Seattle making final arrangements with the Seattle Hardware Co. to act as Washington distributor. With the completion of this deal, Davison-Haynes will have a complete jobber coverage in the west.

Hot Shots From S. F.

(Continued from Page 44)

Knight of Ohiohm, Jerry Hill of De Forest, Emmet Patterson of Patterson, Mart Borden of Plymouth, Dick Huber of United and many others.

Majestic had a nice display and much interest was shown in the new models. We didn't see any of the Ungar & Watson crowd but presume they were too busy to get away from Los Angeles.

Yes, the Show and Convention was a great success. Next year they are planning on holding it at Vancouver and after the speech given by Mr. Kelly enumerating the many joys of his home town there will probably be as large a delegation going to that Convention as attended it this year.

TIMELY TRADE TOPICS

New Philco Models

The eagerly awaited new Philco radios have arrived in Los Angeles. Four brand new features, tone control, station recording dial, automatic volume control and screen grid plus, bring radio enthusiasts an entirely new thrill in radio performance.

After carefully inspecting these latest radio models, the public will enthusi-

to mellow or deep may be thoroughly enjoyed. Thus many additional fine programs are made available.

Philco's new illuminated station recording dial is designed so that favorite stations may be permanently logged and tuned in quickly and easily.

The new automatic volume control will prove a great boon to distance fans especially, for it counteracts fading so that listeners can not only get, but hold and enjoy, the fine programs of far-away stations.

The new models include console, low-boy, highboy, and combination radio-phonograph, and have been richly but simply designed.

astically agree, radio values are higher than at any other time in the history of the industry—more new desirable features at new greatly lowered prices.

Tone control, acclaimed radio's newest miracle by radio engineers, enables the operator to use his own personal touch to secure the finest reception from each radio program. Now through Philco's tone control, four positions of tone quality—brilliant, bright, mellow, deep—enable the user to instantly change the tonal pitch of the program to suit his individual taste and mood. Also, stations which come in harshly in poor locations, or are marred by "interference," now by turning tone control
