**9 TUBES DO THE
WORK OF 11**

**THE BALANCE
ARE WASTED**

By the use of Majestic's specially developed circuits to utilize Multi-Mu, "hiss" and "background noise" have been reduced to a surprisingly low level and all "cross-talk" has been eliminated. Thus the make-shifts, double volume control and the local-distance switch, much used in the past, have been rendered unnecessary and obsolete—and there is better tone quality under all conditions of reception and for all volumes.

**Uniform Calibration — Full - Vision Dial
Acoustic Control and Static Modifier
Automatic Volume Control

UNIFORMITY—You do not have to “switch” Majestic Tubes in your set for maximum efficiency. Exclusive design of Majestic Tubes practically eliminates all variance. The methods of manufacturing, rigid inspections and numerous tests insure **UNIFORMITY** of all Majestic Tubes.

LONGER LIFE—Filament material is “age tested,” which insures Majestic Tubes having a longer life. Higher efficiency is retained in Majestic Tubes during their operating life. Majestic Tubes are unconditionally guaranteed against manufacturing defects.
