Selector[®]

Music Scheduling

The best
use the
best.[™]

"When I first saw Selector in 1980 I thought: innovative, genius. What a great tool to use as we create art everyday on the radio. As each new version of Selector is released today, I find myself still saying: innovative, genius."

How To Use The Ratings Information

As you examine the ratings section of the R&R Directory, Vol. 2, '05, you'll find the following highlights featured in the detailed breakouts for markets 1-100:

1 SHARE TRENDS

All stations in the top 50 markets that earned at least a 1.0 share and the top 10 stations in markets 51-100 (according to the spring '05 Arbitron) are listed. Trends read left to right, with the most recent results on the right. Up to five rating periods are included in any market's trend report, which covers the past year. Stations are ranked according to their Monday-Sunday (total persons 12+) Average Quarter-Hour share.

2 STATION/FORMAT

The call letters are printed in bold type. The format is listed in the column next to it.

3 FREQUENCY/POWER

The frequency and power for each radio signal are shown as listed in the spring '05 Arbitron.

4 AUDIENCE RANKINGS

The six rankings to the right of the frequency/power column will help you determine a station's core strength. The first listing shows the 12+ cume in thousands, followed by five AQH demo ranks.

5 TIME SPENT LISTENING

This column shows the average number of hours and minutes the audience spent listening to the station each week. Based on 12+ total-week listening.

6 OWNER & REP INFORMATION

Station owners (as of August 15, 2005) and their national rep affiliations are shown as listed in the spring '05 Arbitron report.

NOTATIONS

Updates are listed noting format and call-letter changes, as well as LMA activity.

8 OWNERSHIP SHARE

At the end of each top 50 market page are three bar graphs ranking owner share. Owner totals are computed by combining the respective spring '05 Monday-Sunday AQH numbers of the companies.

9 MARKET POPULATION

The 12+ population for each market is shown, with the Black and Hispanic percentages in parentheses. In those markets where the ethnic populations do not achieve established thresholds, the code N/A is used.

Population: 15,283,100 (Black: 17.5%; Hispanic: 19.1%)
