How To Use The Ratings Information

As you examine the ratings section of the R&R Directory, Vol. 2, '02, you'll find the following highlights featured in the detailed breakouts for markets 1-100:

1 SHARE TRENDS

All stations in the Top 50 markets that earned at least a 1.0 share and the Top 10 stations in markets 51-100 (according to the Spring '02 Arbitron) are listed. Trends read left to right, with the most recent results on the right. Up to five rating periods are included in any market's trend report, which covers the past year. Stations are ranked according to their Monday-Sunday (total persons 12+) Average Quarter-Hour share.

2 STATION/FORMAT

The call letters are printed in bold type, with the station format listed below in italics.

3 FREQUENCY/POWER

The frequency and power for each radio signal are shown as listed in the Spring '02 Arbitron.

4 AUDIENCE RANKINGS

The seven rankings to the right of the frequency/power column will help you determine a station's core strength. The first listing shows the 12+ cume in thousands; then the cume rank appears, followed by five AQH demo ranks.

5 TIME SPENT LISTENING

This column shows the average number of minutes the audience spent listening to the station each week. Based on 12+ total-week listening.

6 MORNING AQH SHARE

The 12+, Monday-Friday, 6-10am, Average Quarter-Hour share for each station is given.

7 OWNER & REP INFORMATION

Station owners (as of August 1) and their national rep affiliations as listed in the Spring '02 Arbitron report.

8 FORMAT SHARE

The lower left corner of each Top 50 market page features a bar graph ranking format shares. Format totals are computed by adding the Spring '02 12+ Monday-Sunday AQH numbers shown in each market breakout. For example, all News/Talk/Sports shares are added together.

9 NOTATIONS

Updates are listed noting format and call-letter changes, as well as LMA activity.

10 OWNERSHIP SHARE

The central column of each Top 50 market page features a bar graph ranking owner share. Owner totals are computed by combining the Spring '02 12+ Monday-Sunday AQH numbers of the companies. The arrow points to ABC's ownership share.

11 OWNERSHIP REACH

The lower-right corner of each Top 50 market page features a bar graph ranking owner reach. Owner totals are computed by merging the Spring '02 12+ Monday-Sunday cume numbers of the companies, then dividing into the market's 12+ population base. The arrow points to Inner City's cume reach.

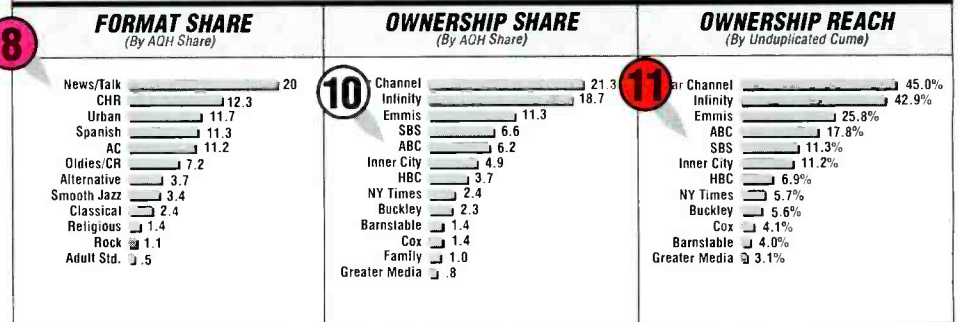

12 MARKET POPULATION

The 12+ population for each market is shown, with the black and Hispanic percentages in parentheses. In those markets where the ethnic populations do not achieve established thresholds, the code N/A is used.

12+ POPULATION: 15,281,600 (Black: 17.9%; Hispanic: 19.2%)

OWN YOUR EVENTS

If no one can see your signs, do they know who staged the event? Make sure you claim ownership at all your events with cost-effective, disposable plastic banners.

The Only Static You'll Get Is From The Caller On Line 1

You may get a lot of noise from an opinionated caller, but your show sounds crystal clear to the radio audience. That is if you have a Gentner Broadcast Telephone System from Harris.

Although the system's console looks like an ordinary telephone your talk show host will see the difference

immediately. Not only is the sound incredibly clean and crisp, the system includes two built-in digital hybrids so you can conference up to four on-air callers simultaneously. And each one will be heard loud and clear. Even Mr.

Cranky on line 1.

Which brings us to another important point.

Gentner Broadcast Telephone Systems have multi-colored line indicators so your host knows who's on the air, who's on hold, who is talking to the producer and who has been screened. Plus, the host can screen calls off the air while other callers are on the air. So if the guy on line 1 isn't a good fit for today's show – he's history.

There's much more to know, of course, including Gentner's 6 or 12 telephone line capabilities, available software to customize a system to your specific requirements, and network solutions that let you connect multiple studios.

To learn all that a Gentner Broadcast Telephone System can do for your operation, contact your local Harris representative.

Gentner.

Powergold 2002

Designed For Microsoft
Windows 95/98/ME/NT/2000/XP

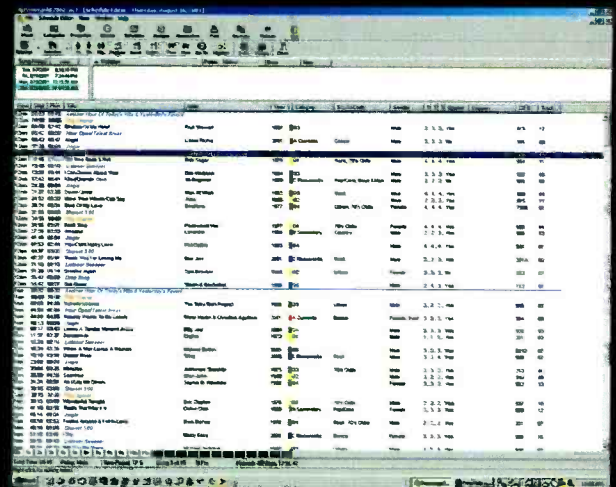

THE LEADERS IN ADVANCED MUSIC SCHEDULING SOFTWARE FOR WINDOWS

POWERGOLD® 2002 MUSIC LIBRARY

- Drag and drop songs from one category into another
- Drag and drop to create new clocks
- Unique violation point scaling ensures the best song is always chosen
- Extremely easy creation of daily music automation files, just click a button

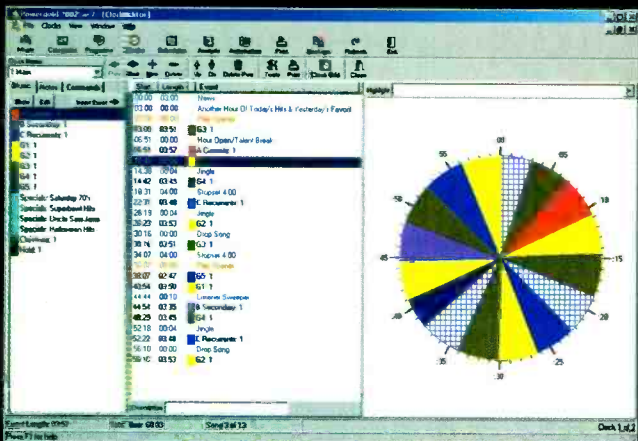

- World's first 32-bit Windows music scheduler
- Create a music schedule in one database and send it to others in the company. Each station then has the ability to merge user-defined portions of that schedule into their own schedule
- Share songs from one central music database
- Import traffic logs
- Reconcile from automation systems

POWERGOLD® 2002 SCHEDULES

"With this many stations and so many users, we needed a music scheduling system that was versatile, flexible, and easy to learn. Powergold® has fit in perfectly! Our users find the program a breeze to navigate and the Windows® platform a welcome, comfortable friend. Because of the solid Windows® platform, our users are able to customize each station's database to meet their exact needs... seemingly unlimited #'s of rules, separation criteria, category creations, and all handled in an interface that's intuitive and logical. Powergold® offers us limitless options with scheduling criteria and has integrated with all of our other systems seamlessly. The reliability, customer service, and support that the folks at Powergold® have provided us have been exactly what any customer could ask for."

Dan Turner, Vice President,
Programming Services

Radio WebStuff

eMarketing, eContent, ePromotion & other eSolutions for radio and records

Radio

Join the growing number of radio stations who realize the value and importance of serving their audience in cyberspace. Email contact is increasingly effective when it is anticipated by and relevant to your listener. Regular website usage is determined by the frequent inclusion of content that is interesting and meaningful to your audience. It's a fact that much of your audience is interacting with digital media. Are they exposed to your brand when they do?

- eMail
- eCRM
- eCards
- Websites
- ePressKits
- Web Content
- eNewsletters
- Database Management

Records

Reaching radio station decision makers has become more difficult, but eMarketing allows you to reach them more efficiently, and allows them to hear the song, see the video, read the bio and access the statistics when they want to, creating a more effective and efficient business environment for everyone. Reaching music consumers directly is becoming increasingly important as well, and rich media email is the single best way to expose them to your artists and their music.

Impact Target Marketing

ITM is the radio and television industry's only true full-service marketing company. We offer proven techniques and tools designed to keep you one step ahead of your competition. In addition to telemarketing, we have developed direct mail, fax, web and e-mail campaigns including Q-CalSM, Cluster ID, #800 promotions, Web Decoder, Get On the PhoneSM, MediaVMailSM (www.mediavmail.com) and interactive television campaigns to name a few.

Key to Services on Page 252

Today's level of fierce competition demands that you prominently display your name every chance you get (location broadcasts, concerts, station sponsored autograph sessions, etc.). With theft, vandalism and loss, it becomes a costly proposition to continuously replace expensive signs and banners costing hundreds of dollars.

Roll-A-Sign™ offers a better way. You get up to four vibrant colors printed on durable, high quality 4 or 6 mil plastic film to display your logo and message brilliantly for an economical price. Now you can afford to display a bright new sign at every public event. They even make great cost-effective promotional give-aways. Just roll off what you need and cut.

- \$ Durable banners for an affordable price.
- \$ UV stabilized plastic won't fade indoors or outdoors.
- \$ Simply FAX your logo and color separation information for a free price quote.

Red, White and True

America's radio listeners have had it with the foolishness of all the shock jocks who demean America with their shenanigans and disregard for the values that make our country the greatest on earth.

The Talk America Radio Network gives your listeners programming that's powerful, credible, entertaining and on the mark. Every weekday around the clock.

Log on to our web site, www.talkamerica.com, to sample the variety of radio hosts who deliver listeners to hundreds of local stations throughout the country. If you think your market is ready to return to Mom's apple pie, and red, white and true, Talk America is for you.

"If a radio station falls in the forest..."

Dear Radio Professionals:

If a radio station falls in the forest, will anybody listen? The answer is "yes." Some radio stations in North America have cut out their hearts, minds and souls, and listeners still listen. Do listeners care? Only if you bother to ask them.

Listeners don't care if radio stations eliminate live and local personalities, local contesting, audience research, external marketing, and ties with the community. Listeners don't care if stations play more commercials without increasing programming value, or if stations change formats with reckless abandon. Listeners don't care that radio stations don't care. Listeners will find other things to do, and many already have.

Then there are other radio stations run by owners who still qualify as "operators" because they understand the meaning and value of "putting the listener first." Paragon Media Strategies is proud to work with radio broadcasters who do care about their listeners and communities. Over time, listeners gravitate toward radio stations that employ a "listener-driven strategy." It is human nature to go where one is wanted.

The recent Fall 2001 ratings of Paragon clients are testimony to their focus on listeners:

Country

KPLX "The Wolf"/Dallas: #1 12+
WFMS/Indianapolis: #1 12+

Alternative/Triple A

WNNX "99X"/Atlanta: #1 M18-34
KFOG/San Francisco: #3 P25-54

CHR

KXJM "Jammin'"/Portland: #1 F18-34
WHTF "Hot 104.9"/Tallahassee: #2 12+

AC

CHFI/Toronto: #1 12+
WRRM "Warm 98"/Cincinnati: #1 F25-54

Classic Rock/Oldies

KXPT "The Point"/Las Vegas: #2 M25-54
KCMO/Kansas City: #1 P35-64

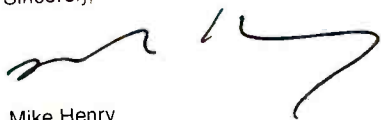

News/Talk/Sports

CFTR-AM "680 News"/Toronto: #1 12+ Cume
KTCK-AM "The Ticket"/Dallas: #5 M25-54

In every market, Paragon clients compete against heartless mega-clusters. In every market, Paragon clients win because they embrace the listener. Short term vs. long term. Wall Street shills vs. radio operators.

Customized research and strategy arm Paragon clients with critical intelligence to grow their market share and revenue. If Paragon Media Strategies can help your radio station or group, please contact me directly via phone or email. I look forward to hearing from you!

Sincerely,

Mike Henry

WANT TO STOMP THE COMPETITION?

Stomping the competition is what Moyes Research is famous for. Now, there are loads of companies who do perceptual research. We'll admit that right at the start.

So, why is it, do you think, that seventy-eight of America's best and most successful radio stations turn to Moyes Research year-after-year to build share and protect their ratings and income streams from their enemies?

Because real winning strategies come from a combination of good solid perceptual research and the experienced application of strategic warfare... something we've been doing longer than any firm in America. Bill Moyes first brought perceptual studies to the radio industry back in 1977 and has been teaching Strategic Warfare Colleges for station management teams since 1980. Ask our clients...they'll tell you that for helping you stomp the competition, nobody touches Moyes Research.

CALL US.

HOW TO USE R&R's PROGRAM SUPPLIER GUIDE

R&R's "Program Supplier Guide" is a compilation of more than 2,000 listings of syndicated programs, radio networks, automated and satellite formats, production music libraries, jingle packages, and song categories. Each listing contains detailed programming and technical information, a brief description, and the name of the distributor and its phone number.

✓ **To Browse Through A Specific Product Category:**

1. Consult the **Table of Contents (Page 1)**. Choose a category and turn to the indicated page.
2. Programs and products are listed alphabetically by title within each category.

✓ **To Find Out What Programs Or Products Offered By A Particular Company:**

1. Turn to the **Index**, which begins on **Page 457**.
2. Every company that offers a product in the "Program Supplier Guide" is listed alphabetically, each with an alphabetical listing of the products it offers.

✓ **To Contact The Distributor Of A Program Or Product:**

1. Each listing contains a phone number to call for more information.

✓ **To Find A Specific Program Or Product:**

1. Turn to the **Index**, which begins on **Page 457**.
2. Complete information on the program or product will be found on the page number indicated.

- ◆ WHO DID THAT MUSIC? LIBRARY

Our catalog is growing! Now with 14 libraries, over 400 CDs and 10,000 titles easily previewed online at www.whodidthatmusic.com. From Classic Rock to Ibiza to Latin Hard House and Romantica to Alternative to Hip-Hop to Smooth Jazz, the libraries are continually updated. Format specific packages available.

Who Did That Music? Catalog puts world class talent such as Stewart Copeland (The Police), Larry Dunn (Earth, Wind and Fire) as well as renowned SONY remixer Byron Brizuela (Laura Pausini and Alejandro Sanz), at your fingertips. You will hear authentic sounding Big Beats, Indie Rock, drum 'n bass and the phatest beds from the maddest rave DJs and remixes working the club circuit from the UK and Germany. From manic guitar tracks that kick to sonic soundscapes that twist and evolve to upbeat acoustic guitar riffs that inspire, **The Who Did That Music? Catalog** delivers a contemporary sound (Chemical Brothers, Sheryl Crow, Dave Matthews, The Crystal Method) that is hard-edged at times, dramatic and compelling at others. Delivers edit-friendly broadcast length cuts in a framework that provides both music and sound design elements hitting at all the critical cutdown points. Custom format packages available.

MAKE YOUR MARK

VIRTUALLY ANYWHERE. To grow, your station needs the best quality bumper/window sticker for your graphic image programs. USTL (US Tape and Label), the world's premiere bumper sticker manufacturer combines 50 years of expertise with leading edge technology and innovation. We provide solutions to your bumper/window sticker needs.

Explore your possibilities today.
Click www.ustl.com or call 800-569-1906

CAPTURE NEW LISTENERS

Does your brand stick?

Marketing today is tougher – more images to compete against, more choices for consumers. To improve your market share and identity, nothing captures the imagination of listeners like a cool decal or sticker – on cars, windows, backpacks, notebooks, clothing – shoot, just about anywhere. A great decal/sticker can become your most cost-effective outdoor marketing. So contact CGI today.

- 29+ YEARS EXPERIENCE IN RADIO
- HIGHEST QUALITY PRODUCTION
- DURABLE, COLORFUL GRAPHICS
- AWARD-WINNING DESIGN STUDIO

Decals – Bumper Stickers – Coupons – Event Stickers – Statics – Concert Patches and more!

SINCE 1973
