**CODE OF PRACTICE  
GOVERNING USE OF  
COMPREHENSIVE HOOPERATINGS**

This copyrighted COMPREHENSIVE HOOPERATINGS REPORT is supplied by C. E. Hooper, Inc., to subscribers to the "NETWORK" PROGRAM HOOPERATINGS.

The REPORTS are supported jointly by advertising agencies, advertisers, networks, stations, talent firms, and others and are issued for the subscriber's individual use in confidence. C. E. Hooper, Inc., reserves the right to suspend the subscription of any "NETWORK" PROGRAM HOOPERATINGS subscriber if, in its opinion, the "Privileges of Use" set forth below have been violated.

**PRIVILEGES OF USE OF COMPREHENSIVE HOOPERATINGS**

No restriction is placed on the use of these Reports within the subscriber's own organization.

No restriction is placed on the use of these Reports in dealing with other continuing subscribers to Hooper Radio Reports.

Quotation of material contained in these Reports to a non-subscriber to Hooper Radio Reports is permitted only in subscriber's individual presentation, conversation or letter and only on specific time periods or programs. No quotation is permitted in terms of blocks of time periods or programs.

In all advertising, promotion or other duplicated material, a network may, in his quotations from or summaries of his own audience measurements based on Hooper Radio Reports, mention the advertising network by name. Quotations of measurements of other network audiences shall refer to "Network B, and/or C, and/or D" or to "Program on competing Network B, and/or C, and/or D." No privilege of use in competitive advertising or presentation.

No privileges of use, reference or quotation are extended to non-subscribers.

Advertising claims, generalizations or comparisons not supported by these reports may not refer to them as source.

These Reports may not be reproduced in whole by any method whatsoever except by written permission of C. E. Hooper, Inc. Abstracts from the Reports in typewritten, mimeographed or other duplicated form are limited to subscriber's own organization.

If facts or figures are quoted, or any statement made on the authority of this Report, C. E. Hooper, Inc., reserves the following right as a matter of policy:

- (1) To confirm the accuracy of facts or figures taken from this Report.
- (2) To publish or otherwise reveal the accurate facts when and if data accredited to our organization are at variance with our records.

This Report is furnished on request under a continuing subscription and with the understanding that use of it will conform strictly with "Your Code of Practice" set forth herein. The Report is based on responses obtained by field investigators who are trained to interview respondents in the manner set forth in the Field Manual for Hooper Radio Reporters. Measurements, constantly in operation, are taken to test the validity of each interviewer's work. Safeguards to the accuracy of the listeners' responses are also introduced in the interviewing. The contents of this Report are believed by C. E. Hooper, Inc. to be reliable within the limits of statistical variations inherent in all sampling operations. However, since the contents are based on acceptance of listeners' responses as made, they cannot properly be guaranteed by C. E. Hooper, Inc.

## GENERAL INTRODUCTION

### *The Report*

COMPREHENSIVE HOOPERATINGS (containing I. UNIFORM NETWORK COMPETITION, II. SECTIONAL HOOPERATINGS and III. HOOPERATINGS CHARTBOOK) is published three times annually:

April	20th
June	20th
November	20th

### *Method and Scope*

The random telephone coincidental method of interviewing is used exclusively in making the measurements reported here. This method has been used continuously by C. E. Hooper, Inc. since 1934. Every figure appearing in this Report is a percentage, either using 100% of the total sample called during the period reported on (example- "Sets-In-Use" and "Ratings"), or in the case of "Share of Audience" comparisons using, as 100% those homes found listening during the period reported on.

All percentages contained in this Report are based on data secured by telephone interviews under precise rules and regulations set forth in "HOOPER RADIO REPORTERS' FIELD MANUAL". The use of those standard instructions achieves uniformity and comparability in the field work during all time periods, between all stations, programs, networks, cities, etc. These rules apply to the detailed procedure to be followed by the interviewer in asking the following coincidental questions and recording the answers to:

1. "Were you listening to your radio just now?"
2. "To what program were you listening, please?"
3. "What station please?"
4. (a) "What is advertised?"  
(b) Audience composition questions.

The interviews are distributed evenly and continuously over the last 13 minutes of each 15 minute broadcast period.

Results obtained from the first question above are used for computation of "Sets-In-Use" percentages. The data on stations and programs "being listened to" are used to compute the "Hooperatings" and "Share of Audience".

Measurements are based on telephone homes in 33 cities geographically well distributed over the nation. (See map on third cover)

**SECTION I**

**UNIFORM NETWORK COMPETITION**

**MARCH - APRIL, 1947**

## UNIFORM NETWORK COMPETITION

### INTRODUCTION

#### **THE REPORT**

The *UNIFORM NETWORK COMPETITION* Report is published three times annually; using as a base homes called in July-August, November-December and March-April respectively each year.

The infrequent publication of this Report recognizes the fact that competition is the "other fellow's programming" over which a radio advertiser has no immediate control and from a frequent detailed analysis of which there could be no reward.

The publication of *UNIFORM NETWORK COMPETITION* also recognizes that, whereas "Network Program Hooperatings" are comparable with the past in definition, changed broadcasting practices involving increased reliance on re-broadcasts, transcriptions and second broadcasts, have in part altered the significance of the 33-City based "Network Program Hooperatings".

#### **SCOPE**

On the pages which follow are an alphabetic listing of Sponsored Network programs with a bar chart showing for each program the program's "Share of Audience" followed by the "Share" for each of the other networks and "Others". It will be noted that no Ratings or "Sets-In-Use" are included in this Report. The reason is to prevent the confusion which might result by our publishing a Rating based on the Uniform Competition Cities which would inevitably differ from the Ratings previously released as the program's "Network Program Hooperatings" and based on the program's individual broadcasts.

The broad two month base is used to eliminate week to week variations in competition conditions and thereby to arrive at a more substantial appraisal of program competition. It also provides a more adequate sample, for, as will be noted in the report of each program, there is a differing number of Hooper checking points in which competition from other network programs is uniform and as a result, in some instances less than a two month base would develop a sample inadequate for reliable analysis. Even the two month base fails to develop a sample adequate for analysis of all programs.

The East, North Central and Southern Hooper geographic areas are used as a base for this Report. (See map third cover). The Mountain and Pacific Areas are excluded because, due to rebroadcasts, local Pacific Coast programming, etc. the majority of transcontinental programs encounter different network competition in those areas than in the Eastern and Central time zones.

The Uniform Network Competition Cities upon which each program's "Share" is based becomes the greatest number of cities in which sponsored network programs are in direct competition. For example, if one of the competing programs is not broadcast in the Southern Area the base for the Uniform Network Competition Index would be only the East and North Central Areas.

The term "Various Programming" is necessarily used in presenting the Uniform Competition Index on Multi-week programs because Sponsored competition, though uniform, may differ from day-to-day or evening-to-evening.

The term "Various Sustaining" is listed for a competing network where during all of the periods serving as a base for this Report the network carried no sponsored network program.

Where a program is more than fifteen minutes in length the Uniform Competition Index is shown for each fifteen minute segment of the program. For 30, 45 or 60 minute programs which encounter sponsored network competition from programs occupying less broadcast time, the base for the UNIFORM COMPETITION INDEX is the number of cities common to the subject program and each of the shorter competing programs

FOR EXAMPLE:

SUSPENSE (CBS, 8:00-8:30 P.M.) has the following network competition:

	<u>ABC</u>	<u>MBS</u>	<u>NBC</u>
8:00 - 8:15 P.M.	Lum & Abner	"Various Sustaining"	Aldrich Family
8:15 - 8:30 P.M.	Monitor Views News	"	"

For the 8:00-8:15 P.M. period Network Competition is uniform in 23 cities but for the 8:15-8:30 P.M. period the competition is uniform in but 19 cities. Suspense's UNIFORM NETWORK COMPETITION INDEX for both the charted 15 minute periods is, therefore, based on 19 cities.

# SECTIONAL PROGRAM HOOPERATINGS

## GENERAL INTRODUCTION

### THE REPORT

It is the function of this Report to establish a continuing record of the comparative popularity of network radio programs measured under conditions of uniform opportunity to listen to local transmission of broadcast by:

*American Broadcasting Company.....(ABC)*  
*Columbia Broadcasting System.....(CBS)*  
*Mutual Broadcasting System.....(MBS)*  
*National Broadcasting Company.....(NBC)*

**SECTIONAL HOOPERATINGS** is a summary report designed to supply network ratings by "33 city" averages compared with "Sectional" Ratings for "East", "North Central", "South", "Mountain" and "Pacific". Daytime and early evening audiences are reported by fifteen-minute time period units Monday through Friday combined. Individual evening, Sunday afternoon and Saturday daytime audiences are reported by half-hour time period units.

In addition to the time period ratings, separate geographic Area ratings are reported for each nationally sponsored program broadcast during the five months comprehended by this Report, (or in case of programs not broadcast during the full five months, for the three or four most recent months comprehended by the Report). These Sectional ratings for individual programs are based on only those Hooper cities locally transmitting the programs and take into account rebroadcasts and/or transcriptions during Hooper interviewing hours, cancellations of a broadcast because of special event, etc.

Composition of the radio audience is also reported in terms of separate geographic areas, by one hour individual evenings, Saturday and Sunday daytime periods and Monday thru Friday daytime periods.

All measurements are based on findings secured by calling telephone homes in 33 large cities of uniform four network service in five geographic areas of the country. *Exceptions:* 8:00 A.M. to 11:00 A.M., New York Time, Monday through Saturday. (See Page B).

## SAMPLE

The coincidental sample is distributed by areas of the country to approximate the distribution of radio homes (see map on third cover). The 33 city sample size by reported time periods is approximately as follows:

<i>15 minute, five times weekly,</i>	
<i>Monday thru Friday daytime period</i>	- 17,250 homes called
<i>30 minute, once weekly evening period</i>	- 13,800 homes called
<i>30 minute, once weekly Sunday afternoon period</i>	- 13,800 homes called
<i>30 minute, once weekly Saturday daytime period</i>	- 6,900 homes called
<i>Grand total of homes called for the Publication of this Report</i>	1,918,200

## INTERVIEWING SCHEDULE

The interviewing weeks begin uniformly on the 1st and 15th of each month. (Exception: adjustments are made in interviewing dates where possible when National Holidays fall within scheduled weeks). The interviewing schedule for this Report, by local time periods, is as follows:

### (MONDAY THROUGH SATURDAY)

<i>Eastern Time Zone</i>	8:00 A.M. - 10:30 P.M.
<i>Central Time Zone</i>	8:00 A.M. - 10:00 P.M.
<i>Mountain Time Zone</i>	8:00 A.M. - 10:00 P.M.
<i>Pacific Time Zone</i>	8:00 A.M. - 10:15 P.M.

### SUNDAY

<i>Eastern Time Zone</i>	12:00 Noon - 10:30 P.M.
<i>Central Time Zone</i>	11:00 A.M. - 10:00 P.M.
<i>Mountain Time Zone</i>	10:00 A.M. - 10:00 P.M.
<i>Pacific Time Zone</i>	9:00 A.M. - 10:15 P.M.

**NOTE:** No interviewing is conducted prior to 8:00 A.M. local time. Evening interviewing periods included in this Report stop not later than 10:30 P.M. local time. See Page D, therefore, for exceptions in the 33 city base by specific time periods.

## DESCRIPTION OF REPORTED PERCENTAGES

*Sets-In-Use* represents the aggregate audience of all programs during a period measured, or the per cent (of total homes called) found listening.

A *Network Program Hooperating* is a measurement of comparative network sponsored program popularity in cities of 4-network service. As such, it reflects properly the presence of full-program and part-program listeners in the sample and effects comparability between audiences to programs of different length, age, type, etc., and provides a measure of the comparative "appeal" of network programs, reflecting also influence of time of broadcast program preceding and following, programs competing but not comparative network strength.

*Available Homes* is the per cent of total homes called in which someone was at home and awake during the stated time period. It, plus "Not at Home" equals 100%.

## COMPUTATION OF APPROXIMATE 33 CITY AVERAGES

Clients who wish to prepare for themselves a "33 City Average" SETS-IN-USE or HOOPERATING which would take into account a rebroadcast of a program to an area may do so by following the instructions below. It should be noted, however, that the resulting "33 City Average" SETS-IN-USE and/or HOOPERATINGS will be only an approximation of the regular Hooper "33 City" figure since weighting of the percentages themselves must be employed. Where an accurate and conclusive "33 City Average" is required, it is recommended that clients request such information directly from C. E. Hooper, Inc.

As stated under "Sample" above, Hooper interviewing is distributed by areas to approximate the distribution of radio homes. Thus, during normal calling, 43.5% of the total Hooper sample is placed in the Eastern Area, 21.8% in the North Central Area, 17.4% in the Southern Area, 4.3% in the Mountain Area and 13.0% in the Pacific Area. To obtain "33 City Average" it is necessary to multiply each reported "Sectional" percentage for the time period in question by the per cent of the Hooper sample taken in that area. Addition of the results for the five areas then gives the approximate "33 City Average"

EXAMPLE: A "33 City Average" SETS-IN-USE is desired for the time period 6:00 P.M. - 6:30 P.M. New York Time, Sunday, in the Eastern, North Central, Southern and Mountain area, combined with the 11:00 P.M.-11:30 P.M., New York Time (8:00 P.M.-8:30 P.M., Pacific Time) Sunday period in the Pacific area:

SUNDAY	AREA	REPORTED "SECTIONAL" SETS-IN-USE	%	OF HOOPER SAMPLE
6:00 - 6:30 P.M., N.Y.T.	Eastern	26.2	X	43.5 11.4
6:00 - 6:30 P.M., N.Y.T.	North Central	28.2	X	21.8 6.1
6:00 - 6:30 P.M., N.Y.T.	Southern	23.8	X	17.4 4.1
6:00 - 6:30 P.M., N.Y.T.	Mountain	23.9	X	4.3 1.0

Approximate "33 City Average" SETS-IN-USE. . . . .27.6

The same procedure may be used to determine an approximate "33 City Average" Hooperating for any one of the networks.

### EXPLANATION OF SYMBOLS USED ON REPORT PAGES

† No interviewing is reported in any area prior to 8:00 A.M. or after 10:30 P.M. local time. Sunday daytime interviewing begins at 12:00 Noon, New York Time. The SETS-IN-USE, HOOPERATING AND AVAILABLE HOMES measurements appearing in the "33 City" column, normally based on all 33 Hooper checking points, are, therefore, subject to the following exceptions:

#### MONDAYS thru SATURDAYS

- 8:00 A.M. - 9:00 A.M., N.Y.T. - Based on Eastern Area Interviewing only.
- 9:00 A.M. - 10:00 A.M., N.Y.T. - Based on Eastern, North Central and Southern Area interviewing only.
- 10:00 A.M. - 11:00 A.M., N.Y.T. - Based on Eastern, North Central, Southern and Mountain Area interviewing only.

#### SUNDAY thru SATURDAYS

- 10:30 P.M. - 11:00 P.M., N.Y.T. - Based on North Central, Southern, Mountain and Pacific Area interviewing only.

†† No "Sectional" Hooperatings are shown for the Mountain area on Saturday prior to 8:00 P.M., New York Time because of sample limitations.

CH Computed Hooperating.

# COMPOSITION OF THE RADIO AUDIENCE

NUMBER OF LISTENERS PER LISTENING SET  
December, 1946 - April, 1947

For "Sectional and Daily" Information See Section II.

# BASIC AUDIENCE TRENDS

Evening Trends based on Sunday - Saturday averages

6:00 - 10:30 P.M., N.Y.T.\*

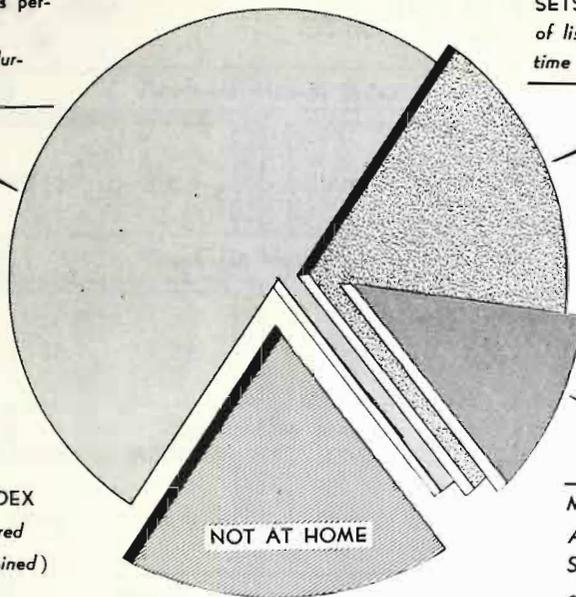

Daytime Trends based on Monday - Friday averages

8:00 A.M. - 6:00 P.M., N.Y.T.\*

## Definitions of Terms

AVAILABLE HOMES INDEX is percent of total homes called in which someone was at home and awake during the time period reported on.

SETS - IN - USE INDEX is average amount of listening to the radio during the time period reported on.

SPONSORED BROADCAST HOURS INDEX is the sum of all time occupied by Sponsored Network Programs (all four networks combined) during the time period reported on.

MONTHLY HOOPERATING INDEX is the Arithmetic mean of all the ratings to Sponsored Network Programs during the time period reported on.

SHARE OF AUDIENCE INDEX is the average audience to all Sponsored Network Programs during the time period reported on.

\* EXCEPTIONS: Monthly Hooperating Index and Share of Audience Index based on average for Sponsored Network Programs only.

# NETWORK PROGRAM

## THE 33 HOOPER SURVEY CITIES

SECTION		% RADIO HOMES*	% HOOPER SAMPLE
EASTERN	13 Cities	44.0	43.5
NORTH CENTRAL	6 Cities	23.4	21.8
SOUTHERN	8 Cities	18.5	17.4
MOUNTAIN	2 Cities	3.2	4.3
PACIFIC	4 Cities	10.9	13.0

ALL THE ABOVE REGULAR HOOPER INTERVIEWING CITIES MEET THE FOLLOWING REQUIREMENTS:

1. Local service by all four networks - ABC, CBS, MBS & NBC.
2. Adequate signal supplied by each local network station within the interviewing area.
3. Sufficiently large list of telephone subscribers.

\* Based on RADIO FAMILIES - U.S.A. 1946, Broadcast Measurement Bureau.
