*Get Listener First Preference Reports, Format Trends  
and the Rating Point Planner Online*

We've expanded the Arbitron Web site once again to help you work faster and more effectively! In addition to the latest Arbitron news you've come to expect from [www.arbitron.com](http://www.arbitron.com), we've added three great new reports to our "Ratings, Reports & Studies" section. These reports will be updated with each survey.

## **First Preference (P1) Report**

Arbitron's new online First Preference Report offers an easy, efficient and useful way of tracking P1s, the core listeners who tune in to one particular station more than any other radio station. While this service replaces the traditional First Preference book, the online First Preference Report provides much more detailed information on the very important P1 audience. Some of the never-before-available features in this report include P1 Time Spent Listening (TSL) information and P1 national averages by format and demo. Plus, users can now compare P1 performance with same-format stations in their market or nationwide. The First Preference Report is available to all radio station and advertising agency clients. MaximiSer® and Media ProfessionalSM clients who are registered Arbitron Data ExpressSM users are automatically registered for online access to the First Preference Report.

## **American Radio Listening Trends**

This section provides a fascinating look at listening trends in the American radio audience. The reports examine what formats Americans listen to, where they listen from and what their demographic breakdown is. The information is based on compilations of top-line data from Arbitron's regular syndicated surveys of radio listeners and consumers and is updated on a continuing basis. Best of all, American Radio Listening Trends reports are available free to anyone visiting the Arbitron Web site.

## **Rating Point Planner**

The Radio Rating Point Planner (RRPP) provides media buyers with Metro AQH Rating averages. Buyers can view averages by rank groups (Top 1, Top 3, Top 5 and Top 10) or by a particular Metro. Information is also available on a variety of demos and dayparts for each of the Top 100 markets as well as some groupings of the Top 100 markets. This service is available to all full-service or regional advertiser and advertising agency clients. Detailed access information is available on the Arbitron Web site.

### What MRC accreditation means

The Arbitron Radio Service has been accredited by the Media Rating Council (MRC) since 1968. To merit continued MRC accreditation, Arbitron: (1) adheres to the Council's Minimum Standards for Media Rating Research; (2) supplies full information to the MRC regarding details of its operation; (3) conducts its measurement service substantially in accordance with representations to its subscribers and the Council; and (4) submits to, and pays the cost of, thorough annual audits of accredited Arbitron services by CPA firms engaged by the MRC. In addition to paying sizable audit charges, Arbitron provides office and file space for MRC auditors as well as considerable staff and computer time involved in various aspects of the audit.

Further information about the MRC's accreditation and auditing procedures can be obtained from the Executive Director, Media Rating Council, 200 W. 57th St., Suite 204, New York, New York 10019.

### Preface

This report is designed to provide a compilation of radio audience estimates representing radio listening during an average week for this market for the Spring 1999 survey period and other information. The surveys to which the Target Listener Trends estimates apply are identified on the Target Listener Trends pages of this report. The estimates are based on listening information recorded in seven-day diaries by persons 12 years of age and older. All audience estimates are approximations subject to statistical variations and other limitations. The reliability of audience estimates cannot be determined to any precise mathematical value or definition.

This report is intended to furnish radio station, advertiser and agency clients of Arbitron with an aid in evaluating radio audience size and composition. Arbitron attempts to provide herein a summary description of methodology for Arbitron audience estimates contained in the Listener Estimates section of this report. A more detailed description of Arbitron methodology can be found in a separate publication titled *Arbitron Radio Description of Methodology* and other associated relevant documents, available to all Arbitron syndicated Radio Report subscribers.

These population estimates are based on 1990 Census data, updated and projected to January 1, 1999, by Market Statistics, a division of Claritas, Inc.

Effective with the Fall 1998 survey, population estimates for this report are based on Market Statistics 1/1/99 whole-county population estimates (1990 Census-based).

For split-county population estimates, the 1/1/99 whole-county populations are allocated to the respective split counties, based on Market Statistics 1/1/98 zip code population estimates (1990 Census-based).

For total Metro in-tab counts for applicable ethnic groups, see Page 4.

These population estimates are based on 1990 Census data, updated and projected to January 1, 1999, by Market Statistics, a division of Claritas, Inc.

Effective with the Fall 1998 survey, population estimates for this report are based on Market Statistics 1/1/99 whole-county population estimates (1990 Census-based).

For split-county population estimates, the 1/1/99 whole-county populations are allocated to the respective split counties, based on Market Statistics 1/1/98 zip code population estimates (1990 Census-based).

## Group Quarters Population Estimates

Group Quarters Populations are included in the universe estimates. Additionally, Group Quarters Populations are included in the sample frame if the individual living quarters (room, suite or apartment) has a private residential telephone number that serves fewer than 10 residents. Persons are not eligible to participate in the survey if their living quarters has no private telephone number or the telephone number is used by 10 or more residents.

## Ethnic Population Estimates

Metro Ethnic Populations are reported for all Standard and Condensed Markets whether or not ethnic sampling procedures are in place (see Page 4). The Percent Total Black and Hispanic Populations are based on Black and Hispanic Populations Persons 12+. The Percent Total Demographic is based on total Metro Demographics on Page 4. Ethnic Population information is based on 1990 Census data, updated and projected to 1/1/99 by Market Statistics.

Hispanic persons may be of any race (White; Black; Native American; Eskimo or Aleut; Asian or Pacific Islander). For purposes of Arbitron reports and publications, Hispanic persons that are Black are not included in Black universe estimates. Hispanic persons of all races are included in estimates of Hispanic universes and Hispanic audience estimates.

## Area Lifestyle Profile

by PRIZM® Groups

PRIZM is a market segmentation system developed by Claritas, Inc. to help marketers target consumers, and to profile markets and audiences by lifestyle. There are 62 PRIZM clusters which are organized into 15 broader social groups denoting basic neighborhood types.

The 15 PRIZM social groups are identified by codes that are listed below the graph.

In this graph, the national composition and this metro's composition for each PRIZM group are shown for Persons 12+. The Index of Concentration compares this metro's composition

with the national composition for each PRIZM group. An index of 100 indicates that the Metro has the same percent concentration as the nation. (For more information about PRIZM and Claritas, Inc., see Page M8.)

# Media Targeting 2000<sup>SM</sup>

A National Study of Consumers and Media

## Consumers Spend More Time with Radio Prior to Largest Purchase!

Media Exposure Prior to Purchasing

(Based on respondents reporting any purchase within 24 hours prior to interviewer contact.)

*Media Targeting 2000* is a national\* study of consumers' estimated average media exposure prior to the largest purchase of the day. This study provides estimated media usage and consumer profiles for 116 different qualitative categories. The above chart for Persons 12+ is an excerpt from the *Media Targeting 2000* report.

\* For the 48 contiguous states of the United States.

### How to Read

An estimated 57 percent of Persons 12+ are exposed to radio within one hour prior to their largest purchase of the day.

For Limitations and Restrictions on Use of the *Media Targeting 2000* report, see Page MT of this report.

# Rating Distortion/Rating Bias Policies and Procedures

In accordance with MRC and industry guidelines, Arbitron provides the following information relating to Rating Distortion and Rating Bias to advise Arbitron clients about applicable policies and procedures and to assist Report users in making evaluations of the audience estimates contained in the "Listener Estimates" section of this report.

Arbitron's original policy statement dated May 20, 1977, has been updated by Arbitron releases of February 1978, December 1981, January 1987, February 1988, June 1992 and handbooks of May 1985, March 1987, June 1990 and October 1996, distributed to all radio stations.

As a practical matter, Arbitron's published guidelines cannot describe all possible station activities. Therefore, in order to avoid possible citation, stations are advised to submit planned activities to Arbitron for a confidential Pre-Review.

## Rating Distortion

**Rating Distortion is defined as: Any activity which Arbitron believes may affect the way diarykeepers record their listening, so that recorded listening differs from actual listening. Rating Distortion includes station activities through which the station has the potential to: learn the identity of diarykeepers; gain access to, or influence over, current or upcoming survey diaries; or prompt the use of diaries for purposes other than those intended by Arbitron. ARBITRON MAY DELIST FROM ITS REPORTS, COMPUTER TAPES, AND OTHER SERVICES THE CALL LETTERS AND AUDIENCE ESTIMATES OF ANY STATION DETERMINED BY ARBITRON TO HAVE ENGAGED IN ACTIVITIES WITH RATING DISTORTION POTENTIAL.**

Rating Distortion may take the form of Diarykeeper Solicitation, Improper Promotional Activities or other means. The following categories and examples are illustrative only and are not all-inclusive:

**Diarykeeper Solicitation** is any attempt by, or on behalf of, a station that encourages diarykeepers to record listening that differs from their actual listening. It may take the form of a public or private appeal for diarykeepers to surrender their diaries or to misreport - in any way (e.g., overstate, understate, misstate) - their actual listening to any station. Diarykeeper Solicitation includes attempted breaches of diary security, whereby a station has the potential to learn the identity of diarykeepers or to gain access to, or influence over, current or upcoming survey diaries.

**Improper Promotional Activities** are those that may not directly appeal to diarykeepers, but that may nevertheless cause diarykeepers to misreport their actual listening. Improper Promotional Activities include, but are not limited to, contests that may cause diarykeepers to misreport their actual listening by offering prizes based on amounts of listening recorded or claimed; attempts to cause diarykeepers to lose their anonymity; promotions that might cause a diarykeeper to surrender a diary.

Rating Distortion is sometimes confused with "hyoping." Rating Distortion involves station activities that may prompt diarykeepers to report listening that differs from their actual listening. Hyoping refers to station activities designed to prompt more actual listenership during the survey period. Rating Distortion is cited under Arbitron's Special Station Activities guidelines; hyoping is not.

## Rating Distortion Violations

Rating Distortion Violations may result in a station's call letters and audience estimates being delisted from the applicable report(s) and other services. Rating Distortion that Arbitron concludes does not warrant delisting may be noted by placement of a notice inside Arbitron's reports; placement of a notice on report covers; placement of a flag on computer disks; and placement of a station's call letters and audience

estimates out of alphabetical sequence, below a special distinguishing line at the bottom of each applicable page in the market report (known as "below-the-line" listing).

## Rating Bias

**Rating Bias is defined as: Any announcement, statement or activity that could alert, sensitize or remind diarykeepers or potential diarykeepers about past, current or future surveys in any way that might affect participation in a current or future survey. Such activities may interfere with the objectivity or conduct of the survey and may take the form of announcements or statements on air, in print, or in any other medium.**

Rating Bias activities may take the form of direct survey announcements that are pre-planned, repeated, or stylized, but may also take the form of any activity - including contests or research - if, in Arbitron's opinion, the activity may sensitize listeners to the process of recording listening in diaries. Survey announcements are messages delivered by a radio station in any medium that alert listeners that a survey is, or soon will be, in progress or that emphasize the importance of participation in radio rating surveys, regardless of whether the word "Arbitron" or "diary" is used, and regardless of whether participants are urged to be "honest" or "accurate."

Sourcing of previous survey information in the form of advertising that promotes a station's success in prior surveys, as permitted by contractual agreement with Arbitron, does not constitute Rating Bias. Note, however, that references to a station's performance in prior surveys in the context of appeals for support are not protected under this guideline, and may, in fact, be violations of Arbitron's guidelines on Rating Bias.

**Extemporaneous Comments/Arbitron** may cite as Extemporaneous Comments any reference on the air, or in any other medium, that mentions or alludes to a past, current, or future Arbitron survey, diary (ies) or radio ratings in any way that might sensitize diarykeepers to a current or future survey, or that may affect the way diarykeepers report their listening in a current or future survey.

The circumstances surrounding a reference will generally affect Arbitron's decision on whether to cite that reference as Extemporaneous Comments. As the name implies, Extemporaneous Comments are generally one-time-only, spontaneous remarks that may have been intended as humorous. Where warranted, however, Arbitron may cite a reference as a Rating Bias and/or Rating Distortion activity, even if the reference appears to have been a one-time-only, spontaneous, or humorous remark.

## Rating Bias/Extemporaneous Comments Violations

Rating Bias Violations or violations cited as Extemporaneous Comments may result in the station's call letters and audience estimates being placed at the bottom of each page below a distinguishing line ("below-the-line"); and/or the activity being noted on the cover of the Report and/or on Page 13 of the Report. Appropriate notice may also be made for other applicable services. In the event of repeated or serious Rating Bias Violations, as determined by Arbitron, a station's call letters and audience estimates may be delisted in applicable reports and other services.

## General Information

General information with respect to Rating Distortion and Rating Bias:

a. Requests for an inquiry should be in writing, accompanied by evidence such as an air-check tape, direct-mail advertisement, or newspaper clipping. Requests will be accepted up to the day after the last day of the survey and should be addressed to: Radio Special Station Activities Committee, The Arbitron Company, 9705 Patuxent Woods Dr., Columbia, MD 21046-1572.

b. The initiation of an inquiry at any time is solely within the discretion of Arbitron.

c. Arbitron will review activities conducted at any time (not just during, or four weeks prior to, a survey) for compliance with these guidelines if, in Arbitron's judgment, the activity has the potential to undermine the credibility of the survey. The same activity could be subject to citation for two or more consecutive surveys, depending on the timing and severity of the activity.

d. Activities by stations not meeting Arbitron's Minimum Reporting Standards for a syndicated Market Report may still be subject to citation in any applicable custom report or other Arbitron service.

e. Activities noted for one station may also be noted for additional stations on which the specific programming segment was also broadcast because of simulcast, syndication, or network relationships.

f. Activities found to be in violation of these guidelines may or may not have actually affected reported listening. Such an effect would be virtually impossible to prove or disprove and Arbitron makes no attempt to do so. Activities violating these guidelines are inherently detrimental to the broadcast, advertising, and audience measurement industries. The fact that such activities occurred undermines confidence in audience estimates.

**ARBITRON RESERVES THE RIGHT to use any available means to draw attention to any station activity that, in Arbitron's opinion, has the potential to undermine the credibility of the survey, even though such activity does not meet any of the specific criteria stated above. Arbitron further reserves the right to take other appropriate action depending upon the content, context, frequency, or repetition of the activity.**

## Industry Statements

"The American Association of Advertising Agencies (AAAA) Media Research Committee opposes any attempt in any medium to distort results of any audience measurement survey... By encouraging daily recording or reporting of radio listening activity, [stations] may be sensitizing the public and thereby contributing to rating distortion or inflation. The AAAA Media Research Committee takes violations of rules against distorting practices, as described by rating services, seriously."

"The Arbitron Radio Advisory Council (ARAC) is very concerned about the continued practice of station activities that are intended to distort ratings data...we strongly recommend that Arbitron take serious action against anyone who violates the accredited standards. Likewise, special treatment should be taken when judging stations that repeatedly break this policy after prior warning."

"The National Association of Broadcasters (NAB) is joined by the Media Rating Council (MRC) in condemning the activities engaged in by some broadcast stations that intentionally distort (or bias) legitimate audience surveys...practices specifically targeting survey respondents severely detract from the reliability and the validity of audience research. Stations that engage in these practices negatively affect the research results, which in turn influences the credibility and value of audience research in an increasingly competitive media marketplace."

"The Radio Advertising Bureau (RAB) Goals Committee condemns any practices by radio stations designed to intentionally bias or cause distortion of the listening estimates reported by the ratings companies...they harm the credibility and value of the audience research, thereby impairing the ability of advertisers to buy efficiently and intelligently to the detriment of all radio stations... [and] the rating companies have adopted stern policies against these activities."

# Special Notices and Station Activities

## The Market

**Metro Definition/** The radio Metro definition of this market is Arbitron defined. It does not conform to the Metropolitan Statistical Area implemented by the U.S. Office of Management and Budget in January 1993.

Audience trend analyses may be affected by any change in the Metro definition. However, there are no changes in the Metro definition for the reporting periods covered by the Target Listener Trends section of this report.

**Designated Market Area (DMA)/** The Philadelphia DMA includes Metro counties from the Philadelphia, Atlantic City-Cape May, NJ, Reading, PA and Trenton, NJ Arbitron Radio Markets.

### Young Male Differential Survey Treatment (DST)/

In this market, Metro consenting Black households with a Male 18-34 year old receive higher diary premiums, additional follow-up calls, per-person follow-up premiums, and diaries are mailed in a special box mailer.

Metro consenting non-Black households with a Male 18-24 year old receive higher diary premiums, additional follow-up calls, household follow-up premiums, and diaries are mailed in a special box mailer.

Additionally, Metro consenting non-Black households with Male 25-34 year old receive additional follow-up calls, and diaries are mailed in a special box mailer.

**Metro Ethnic Controls/** Black and Hispanic Differential Survey Treatments (DST) used in this Metro Survey Area. All Metro counties, including HDBA and/or HDHA splits, receive the same ethnic sampling procedures.

Hispanic persons may be of any race (White; Black; Native American; Eskimo or Aleut; Asian or Pacific Islander). For purposes of Arbitron reports and publications, Hispanic persons that are Black are not included in Black universe estimates. Hispanic persons of all races are included in estimates of Hispanic universes and Hispanic audience estimates.

**Language Preference/** In Hispanic DST Metros, the bilingual diary includes a three-part question to determine the individual language preference of the diarykeeper. The diary question was tested in six diverse Hispanic Metros in Summer 1996 and was found to have no significant impact on Hispanic response rates, in-tab representation by sex/age, or format ratings and shares.

## Radio Diary Expanded to Include Four New Questions/

Effective with the Fall 1998 survey, Arbitron has expanded the radio diary used in this market (in both the Metro and non-Metro areas) to include four new questions that will provide new socioeconomic and work-related information about diarykeepers and their households. In addition to the existing questions on age, sex, place of residence and employment status, the four new questions cover: respondent education level; household income; number of children under age 12 in the household; and workplace zip code for employed persons.

The added questions are printed at the back of the diary on the existing "Quick Questions" page; no new pages were added to the diary. In addition, there are no changes to the section of the diary that captures daily listening activity. The other existing components of Arbitron's standard survey methods for this market (e.g., sample selection, telephone placement and follow-up calls, respondent incentives, etc.) are also unaffected by this change.

In 1990, Arbitron conducted a large-scale research test of similar diary questions in 15 diverse Metros. Results from that test indicated that the addition of the five questions at the back of the standard radio diary caused no statistically significant changes in diary return rates or overall Average Quarter Hour Persons Using Radio ratings (AQH PUR). Overall Cume ratings for Persons 12+, Monday-Sunday, 6AM-Midnight showed a statistically significant increase of 0.1 rating point. In addition, the test results did suggest that ratings for two specific radio formats could possibly be affected. Statistically significant differences were noted for the Oldies format (+0.2 P12+ AQH rating point overall) and the Classical format (-0.1 P12+ AQH rating point overall). No other significant ratings effects were detected in the 1990 research test for any of the remaining 16 station format groupings examined.

The 1990 test of a five-question diary did not include the question about workplace zip code. This question was tested separately in 1997 in five diverse Metros. Results from that test indicate that the added question did not affect diary return rates. But the results did indicate that the test group with the Workplace Zip Code question printed in the diary had an overall Average Quarter Hour Persons Using Radio (AQH PUR) rating 1.0 point (6.5 percent) higher than the standard diary group. The higher AQH PUR rating appeared to be driven by an increase in reported "at work" radio listening.

## The Stations

### New Stations, Call Letter Changes And Trend Data/

| Current Call Letters | Former Call Letters | Prior Trend Data             | On-Air Date/ Date of Change |
|----------------------|---------------------|------------------------------|-----------------------------|
| WEMG-AM              | WURD-AM             | W199<br>FA98<br>SU98<br>SP98 | 06/21/99                    |

| WWDB-AM              | WTEL-AM             |                              | 10/06/98                    |

Stations are identified in this report under their current call letters, and the audience estimates reflect listening recorded for the new and, if applicable, the old call letters. The Trends section displays trend data pertaining to both the old and the new call letters. Survey dates will be listed in the "Prior Trend Data" column whenever trend information exists for a station that has changed call letters. The date of the call letter change will also be included in order to identify which call letters were in use during a particular survey.

No adjustments are made to the reported estimates for a station that does not broadcast for the entire survey period. Since the time a station is off the air is counted as zero listening in the 12-week average, the reported estimates for a station that is on the air less than the entire survey period could understate the audience for the time the station is on the air.

**Technical Difficulty/** The following station(s) reported to Arbitron that they experienced reduced power (REDUCED), intermittent power (INTERMIT), signal interference (SIG INTRF), or were off the air (OFF) for five or more continuous minutes in a quarter-hour during the survey period. No adjustments are made to either diary entries or reported audience estimates for periods of technical difficulty.

| Station | Affected Date and Time       | Problem |
|---------|------------------------------|---------|
| WRDX-FM | MO 05/10/99 10:24A to 10:55A | OFF     |
|         | TU 05/11/99 07:37A to 07:57A | OFF     |
