Nov. 1973

Vol. III — No. XI

# KEYNOTES

## d'ADOLF, WHITEHEAD AND JOHNSON EJECTED.

In the 1973 election to fill three open positions on the SPEEDX 5-member Board of Directors, 63% of the 116 eligible voters responded, and the three newly elected Directors are Steve d'Adolf, Jim Whitehead and Don Johnson. These three, together with the two carry-over Directors (Dave Thorne and Art Glover), will comprise the SPEEDX Board of Directors for the next two year period.

Here are the complete results of the balloting:

Steve d'Adolf (37 votes; elected to 4-year term)  
Jim Whitehead (36 votes; " " " " )  
Don Johnson (26 votes: " " 2-year term)

Alan Brooks (22)	Paul Mayo (25)
Bob Bundy (15)	Al Miller (3)
Bob Butterfield (10)	Gene Moser (9)
Oliver Ellsworth (20)	Carroll Patterson (8)
Art Getzel (3)	Richard Pistek (5)

As their first matter of business, the new Board will be voting this month for their selection of a chairman of the Board (President) for the next two years. That decision will be reported as soon as it becomes available.

Our congratulations to the three newly elected Directors, and to the voters for their participation. We also extend most sincere thanks to the outgoing Directors, Bill Flynn, Paul Mayo, and Chris Iobdell, for their excellent help and guidance over the past two years.

## CONGRATULATIONS TO 6 NEW FULL MEMBERS

LOUIS H. BUEHLER  
ST. CHARLES, MO.

STEVE GELFAND  
BRONX, NY.

EARL C. KAMBER  
COLUMBIA, SC.

JOHN B. VOCKEROTH  
DARBY, PA.

RONALD WARREN  
WATSONVILLE, CA.

TED POLING  
MT. STERLING, II.

Certificates of Full Membership and a copy of the SPEEDX Constitution were mailed to each of the above in October.

## OLIVER ELLSWORTH APPOINTED AS MANAGING EDITOR.

President Art Glover announces the appointment of Oliver Ellsworth, 2043 West 75th Street, Los Angeles, Calif. 90047 as Managing Editor of SPEEDX, to fill the vacancy created by the recent resignation of Bill Flynn.

## SCADS MEETING A BIG SUCCESS.

The Southern California Area DXers get together, held October 20 and 21 in Tustin, Calif. was a big success. 53 SWLs and DXers were in attendance. Many brought radio gear for display and DXing. Talks included interesting topics for both the novice and experienced DXer. Mildred Greene was also there. For those who do not know Mildred, she is the "adopted Grandmother" of Tom Meyer, Host of Happy Station Program, Radio Nederland. We in the Los Angeles area know "Grand-Ma Greene" for her weekly calls to Ray Bream, of KABC Radio talk program. Ray is also a SWLer. The attendance proves that DXers are anxious to meet, share ideas and learn from each other. Don Johnson is to be complimented for the organization and the running of the interesting two day meet.

SPEEDX WELCOMES THE FOLLOWING NEW ASSOCIATE MEMBERS

# DX MONTAGE

RESEARCH/COMPILATION/REDACTION by A. W. ENCKS

74 Massachusetts Road

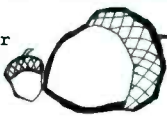

Oakdale, Connecticut 06370

**ONE FULL YEAR OF MONTAGE MADNESS** (or "That Thin Line Between Genius And Insanity")! It was exactly twelve bulletins ago that we took the chance that a light-hearted, moderately entertaining format might gain the general acceptance of the readers. Whether the result is due to understanding, approval, sympathy, or just complete confusion...the letters of support and contribution for these "unique" presentations have confirmed a deep rooted feeling of mine...**ALL RADIO ENTHUSIASTS ARE LUNATICS!** Naturally, the basic element in these installments is satire and we are genuinely pleased that so many of you have caught "the spirit" and intent of this monthly collage. Yet there has been disappointment...How come no one realized that our first DX MONTAGE contained a story about "Telephone Poles"?

### ACORNS FROM OAKDALE:

Martha Mitchell may run for office next time...she may want to be the "Voice of America"...

**N.H.K. MEANS "NEW HOME, KIDI!"** The Winthrop wonder...that enigmatic entity and original B.A.D.Guy, Mike Macken, informs us that NHK has sold their buildings on Uchisaiwai-cho and have moved to the following address:

RADIO JAPAN, NHK  
2-2-1 Jinnan, Shibuya-ku  
TOKYO 150, JAPAN

If you wish to phone...it's (03) 465-1111.

### Calling All Ships

**LONDON (UPI)** — Britain's long-range radio station has adopted procedures for keeping in touch with all the ships at sea.

The government-owned Post Office station at Burnham on Sea, known to shippers as Portushead Radio, now operates calls to ships in the "North Pacific"—north of a line from Callao, Peru, to Saigon—on a fixed-time basis. The Pacific is divided into five sectors, each of which is assigned a fixed time and new frequencies for making radiotelephone calls or sending radio telegrams, the post office said.

**WHAT'S NEW?** Art Glover, a President not yet in danger of impeachment, pens a reminder that details concerning new equipment are among the inquiries most frequently made through club headquarters. In addition to the usual worthwhile content two particularly useful reference sources are **COMMUNICATIONS WORLD** and **COMMUNICATIONS HANDBOOK**. However, the major problem in obtaining these journals is that they are seldom actually available at your local magazine stand. Gilfer Associates, P.O. Box 239, Park Ridge, New Jersey 07656, has been known to stock copies of CW...along with historical travel maps showing Steve d'Adolf's past residences, autographed photos of Woody Seymour tuning his XCR-30, and a myriad of useful SW devices. Failing all else, you could contact the respective publishers...for **COMMUNICATIONS WORLD** write to Davis Publications, Inc., 229 Park Avenue South, New York, N.Y., 10003...while for **COMMUNICATIONS HANDBOOK** send inquiries to Ziff-Davis Publishing Company, 1 Park Avenue, New York, N.Y., 10016...

**THE DISC-JOCKEY PIX PROPAGANDA WAR IS ON!** A well-known Moscow TV commentator recently warned viewers against writing to the Voice of America. According to a New York Times item forwarded by Ron Lanoue. The spokesman claimed that listeners' letters—especially addresses—were used as the basis of an espionage system. He reasoned, "Why would the U.S. spend millions of dollars only to send photos of D.J.'s to Soviet citizens?" Right now, perhaps, the platter-patterers are more believable than the public officials!...

**TURN ON WLSL!** The Detroit area...jealous, no doubt, of all the recent east coast MW furor over pirate broadcasting...has a couple of illegal transmitters of its own late. In a Detroit News story sent by Tom Luberski, a group calling themselves "Radio Revolutionaries" and headed by a leader who goes by a code name, "Electromagnetic Wave", have been doing their thing on various AM frequencies under the call letters WLSL and WFAC. Here is a chance to let the imagination run wild suggesting appropriate interval signals!...

**YOU'RE NOT LIKELY TO HEAR IT ON RADIO AUSTRALIA, BUT...** a pair of Australian scientists are said to have a sinister "superbug" ready to attack French vineyards if France continues with its controversial nuclear atmospheric tests in the Pacific, it was reported by the national daily, The Australian. The unidentified bug is reported to be immune to all insecticides except one developed by its breeders and would bring havoc to the vineyards...particularly if planted near the best of France's champagne grapes. In view of current world problems I'm sure that the last thing this globe needs is yet another "bugging" scandal...

# DX MONTRAGE

**JAM SESSION CESSATION:** Bill Swanson...the name shouldn't sound familiar...he's not a DXer...just a "free-spirit" who shares our office...and little else...left the following item on my desk one morning...and we present it as a further elucidation on the item carried in brief form in last month's Europe/Africa column...Today the BBC!...Tomorrow, the IBA?

**FADE RATING "X":** Shortwave radio propagation conditions as a portent of natural disasters? Possibly. Two West Coast SPEEDXers.... southerner John Kolb and northerner Doug Snyder...and another SWL who has lived everywhere except the west coast...Steve d'Adolf... all call our attention to the news story below. Maybe it'll make those Pacific coast DXers listen more closely to fade-outs in the future. However, no matter where your QTH, don't forget to run for cover every time your signal goes into a deep fade...

## The day the ionosphere disappeared over Hawaii

HONOLULU (AP) — Earthquake scientists say some mysterious happenings — smacking of science-fiction — occurred in the atmosphere about an hour before a major temblor rocked the largest of the Hawaiian Islands last April.

"It's too much like Buck Rogers — we have no explanation for it yet," says Dr. Augustine S. Furumoto of the University of Hawaii.

"Perhaps it was just coincidence but that earthquake had many peculiarities associated with it which deserve the attention of seismologists.

An hour before the earthquake rocked the coastal town of Hilo on Hawaii Island — about 200 miles southeast of Oahu Island, where Honolulu is located — he said these events occurred.

The radiowave reflecting layer of the ionosphere some 50 miles above Oahu suddenly disappeared — that is for some odd reason, the layer did not reflect radiowaves sent up from the ground.

The Navy's Omega Navigational System, a sophisticated system of long-wavelength radio signals employed to guide ships far at sea, began drifting and not making any sense.

But then, "right after the earthquake, the ionosphere began reflecting again. As I

say, it was too much like Buck Rogers...

As for the Navy's Omega, which had begun drifting about an hour before the earthquake, it hit its maximum drift just about the time of the occurrence of the quake and then began to recover.

The April 26 earthquake, centered offshore about 12 miles northeast of Hilo and about 35 miles deep, registered 8.2 on the Richter scale — the same reading recorded for the temblor that virtually levelled the Nicaraguan capital of Managua some months ago.

It was the strongest quake to strike the Hawaiian Islands in more than a century and apparently only its off-shore origin prevented more serious property damage and human injuries.

As it was, buildings were damaged in downtown Hilo, there were several injuries, and there were numerous landslides in suburban Hilo. And buildings shook in downtown Honolulu, 200 miles to the northwest.

In the latter connection, Dr. Furumoto said another peculiar thing about the quake was that four (seismographic) instruments in Oahu kept on vibrating.

The ground vibrated for about two hours — after the quake was first registered — whereas it should have died off

in about a half-hour or 45 minutes.

We're still trying to figure out the reason for this.

Furumoto said detection of the missing ionosphere before the earthquake was an unexpected outgrowth of a new University of Hawaii research project.

The venture is aimed at developing an "innovative, reliable warning system" for tidal waves or "tsunamis."

The quest is based on findings by university researchers that a certain type of earthquake shock wave called a Rayleigh wave long known to be precursor of tidal waves, can be detected in the atmosphere as well as in the ground.

The scientist said that an hour before the earthquake occurred, radio signals of the latter type, which were being used in routine experiments in the tidal-wave venture, began failing to return.

And this, he said, provided a tip-off that the ionospheric blanket — at least above the Oahu stations — had temporarily disappeared.

It also provided scientists with another mystery to probe.

## Soviet Jamming Is Ended

WASHINGTON (AP) — The Soviet Union has stopped interfering with Russian language broadcasts of the Voice of America, the British Broadcasting Corp. and West German Radio, State Department officials said today.

They said the so-called jamming ended Monday evening and affected not only Russian language broadcasts but those in the dialects of Georgia, Uzbek and Armenian. English language broadcasts were never jammed, the officials said.

The State Department said the Soviets continue to interfere with broadcasts by Radio Liberty, a private operation financed in part by the U.S. government. A British Broadcasting Corp. spokesman said the Soviets also are continuing interference with Israel's transmission to the Soviet Union.

The State Department officials said they welcome the development and hope it will continue.

They gave several possible reasons for the development.

One possibility, they said, is that the Soviet Union wants to offset any criticism in the upcoming session of the European Security Conference. The conference resumes Tuesday and an important issue will concern humanitarian factors, including the freer flow of information.

Another official speculated that Moscow was trying to re-forge its image in the wake of adverse reaction in the United States and western Europe to the recent trials and harassments of Russian dissidents.

The officials also said the Russians may have acted because of concern over growing criticism in Congress to repressive acts within the Soviet Union by the Moscow government.

The broadcasts had been jammed continuously since 1968 and for long periods since 1949.

### TECHNICAL TIP

The reason for the high failure rate among XCR-30's is that the hamsters keep dying!

### TO WHOM IT MAY CONCERN

No, Virginia...the interval signal currently used by Kinshasa isn't called "Over Zaire"!

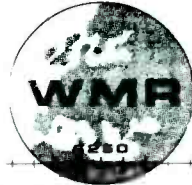

Time it was. And what a time it was! 1058 GMT...two minutes short of "high-noon" in Holland, Sunday, August 19th, 1973...the end of an era for the best known of the so-called "hobby pirates," World Music Radio.

With a run of ten years, WMR probably was the oldest and longest-running of the pirates - commercial or otherwise. Previously under the name of "Radio Europop," WMR had, after moving throughout Holland, finally settled in a farm barn near the small Dutch village of Zydewind.

## "RAID!"

by  
Serge C.P. Neumann  
The Netherlands

## WORLD OF

THE BRIGHTEST SPOT ON THE INTERNATIONAL RADIO DIAL

Recorded programs from 7 different studios in Europe, as well as live disc jockey work from Zydewind, accounted for the weekends-only fare. The staff of ten volunteers presented multi-language programs on Saturdays, called "SCANDI WEEKEND", and English language top 40 programs on Sundays. Programs were broadcast on 6250 kiloHertz with 200 watts, via a "close line type" antenna. Reception reports from Japan were considered the farthest!

August 19th was like many preceding Sundays. Dutch disc jockey Theo Verstraeten was at the helm, punching those slogans & jingles that proclaim: "...the brightest sound on the international radio dial..." (So "bright" was their sound, at least in the minds of some listeners, that several thousand reception reports were received last year alone.)

What any land-based pirate broadcaster must be prepared for came that Sunday at 1058 GMT - albeit 10 years after WMR first went on the air. That eventful knock on the barndoor by authorities...representatives of the police and Dutch Posts, Telephone and Telegraph (PTT)- the latter being the ultimate authority for all broadcasts originating in Holland. They were there to close up shop. (A Hollywood movie scriptwriter might have called it "The Last Sign Off.")

Why the authorities moved to close down WMR at this point remains unclear. WMR was non-commercial, weekend-only, and not endangering any fixed services. It provided no interference to other broadcasters. Why now? As one close source says: "WMR was raided at the request of the BBC Monitoring Service, because the programs of WMR were becoming too popular."

To add to the curiosity of the raid, was the fact that only a few vital pieces of equipment were confiscated. No arrests resulted from the raid. In fact, the Dutch PTT people were so impressed with the WMR operation, that they stayed at the WMR barn for more than four hours and "just talked." The atmosphere during those four hours was described as cordial.

The future of WMR is uncertain. Programming and operation of WMR was made possible by a WMR Listeners Club, and through occasional donations. It's been intimated that WMR may return to the air in about six months, but from a new land-based location inside England itself (where such pirates "are running rampant"). But for now, those QSL cards and related WMR memorabilia have become valuable additions to anyone's collection of verifications.

The shutting-down of WMR by authorities can perhaps be equated to an era in the 1920's, when authorities were busting the speak-easies. Everyone wanted them, but it was the law....

# SPEEDXTRAS

THE PROJECTS DIVISION of SPEEDX

Projects Coordinator — Jack White • 780 NW Wallula Ave • Gresham Oregon • 97030

Publication and distribution of the SPEEDX "WORLD UTILITIES DXers HANDBOOK" was unavoidably delayed for some four or five weeks due to technical difficulties arising with the original or "master" copy. The net result was that several pages were considered unreadable and distribution was withheld pending satisfactory correction.

Such action not only involved the reprinting of both sides of some twenty-one pages scattered rather randomly through the publication, but also included the disassembly of each handbook and subsequent reinsertion of the corrected sheets each in its proper sequence and location....To say the least, a rather arduous task and one not too well adapted to the mechanical techniques employed when collating originally. Further, a round or two of cost renegotiations ensued as lines of responsibility for the mishap were determined and various adjustments explored....Another brief delay followed until final resolution was reached.

However, as of this writing (1 November), all obstacles appear to have been overcome and distribution will likely proceed within a matter of days when the entire production run has been completed, inspected, and accepted. We sincerely regret this delay, and extend profound apologies to all those who have already ordered WUDXH; but after viewing it as originally produced, we were rather certain you would not have been satisfied with the reproduction quality as it was. From this died-in-the-wool ute-chaser who has spent a great deal of time with it, it can be said that the "DX value" of WUDXH will have been well worth a few weeks' additional wait...and be reasonably sure you will agree !!!

---

The "Most Non-QSLs" award has gone the way of the dodo and Radio Free Alcatraz. It seems that no SPEEDXer was willing to claim more than one turn-down during 1972...although we did receive a couple of responses relating some rather unusual or ambiguous wording in their "regrets" letters. If some sort of ground rule can be devised for such non-verifications, perhaps we'll come up with a Select Award in this category. (This editor has one in his files for a 1970 logging of a USN vessel on duty in Vietnam which states: "Naval regulations prohibit dissemination of information related to communications capabilities. However, if it were permissible to do so, I would be most happy to confirm your accurate report.") Maybe there are others who have received similar replies from either military or civilian outlets and some kind of recognition can be initiated....What say??

There have been several other suggestions for future Select Awards which should stimulate widespread response from several corners. Some of these may emerge early in the new year when "Best", "Worst", "Least", or whatever for 1973 can be determined.

One particular achievement has been brought to our attention with several nominations for a Select Award. Unfortunately, we do not at the present time have sufficient details concerning this singular feat to fully confirm it, although with WUDXH matters soon to be out of the way, we'll conduct a more thorough inquiry. It is understood that SPEEDXer and on-the-air radio personality for Radio Nederland, Serge Neumann, may have set some sort of record for QSL "return time". Reports here vary from the almost unbelievable time frame of 4 minutes to something near 4 hours for the entire process of logging to verification receipt. Certainly an elapsed time within such a range is worthy of some kind of recognition and since there have already been a number of nominations, we'll issue an appropriate Select Award upon confirmation of the details.

The purpose of SPEEDX Select Awards is to acknowledge accomplishments that may be outside the scope of more conventional awards, but worthy of recognition. We have set up some with the QSL size offering a while back, and will have others; but if any SPEEDXer knows of an outstanding achievement in the SWling hobby on the part of another SPEEDXer, he can nominate this person for an award by writing SPEEDXTRAS with the complete details. Nominations should be kept to areas such as "Large", "Fast", "Small", etc.

# HAPpenings

NEWS ABOUT THE SPEEDX HANDICAPPED AID PROGRAM

HAP Chairman — Gene Moser • 6805 Woodland Ct • Coloma MI 49038

Word has just arrived that Whitey Herman, HAP-9, has undergone open heart surgery. Last month I reported he had had eye surgery. I'm happy to say he came through that OK. Please see October HAPpenings for Whitey's QTH. Your cards and letters are needed.

If you have written me in October and not received a reply, it's due to a cold. I was put out of action for 4 days, and will hopefully get "out from under" shortly.

Christmas is around the corner now. You no doubt will be looking for a pre-selector, headphones, or that dream machine by Drake, Allied, etc under the tree. But whether you get it depends mainly on if your parents make that special unselfish effort, or if you put in amount of overtime in at the shop. HAPees can't do that. In the main, their money is needed just to live week-by-week. 98% of all HAPees are not employed. So the prospects of their dishing out \$100 to \$500 for a receiver is non-existent. That is why HAP is here. Our receivers are not the best. Most are repaired by Don Johnson, and range in age from 5 to 35 years old. However, they work and provide the HAPee with a useable rig. Our stock in receivers, headphones, etc is not large. Various reading matter and operating money is short. For each HAPee who receives SPEEDX "free", HAP pays \$5.00 toward their membership. Overseas SPEEDX memberships cost us \$14.00 or more depending upon the location. We spent, so far, over \$135.00 in membership fees this year, not counting renewals. When you consider these figures DO NOT include other expenses and you can see why your donation is so very important!!! That's why I began our Christmas Fund drive in September. To help our work and get your name on our special Christmas card page, send your \$1.00-\$2.00 to: Christmas Tree, % SPEEDX, PO Box 321, Santa Ana CA 92702; Checks payable to SPEEDX. December 15 is the deadline for your name to be listed on our Christmas card page. Donations accepted to December 31.

**FLASH!!!** In a recent letter received from Clayton Howard, I was offered the opportunity of recording HAP segments on cassette for replay over DM Party Line. HAP will be heard each month regularly once details are complete. Our sincere thanks to Clayton Howard and HCJB. Also one very important OM for bringing Clayton and me together...Bill Paschke. Bill had Mr and Mrs Howard at his home while they were in the States. They visited Bill twice, and HAP was a major topic.

## "HANDICAPPED AID PROGRAM MAN OF THE YEAR"

This citation is the first Handicapped Aid Program "Man of the Year" award. It is presented in appreciation for outstanding service rendered to HAP during 1973. Namely for originating the Rancho Los Amigos project, providing the coordination between HAP and its associate clubs, and seeing that appropriate publicity was provided.

The officers of the Handicapped Aid Program, on this 20th day of October in the year 1973, proclaim.....

\* WES OGDEN \*

Handicapped Aid Program Man of the Year

*Gene Moser*  
Gene Moser  
HAP Chairman

SWL International of 1375 De Lorimier Ave, Montreal, Quebec, Canada H2H 2B3 has been one of our staunchest supporters for 8 months. They publish a monthly bulletin, SWL NEWS, which runs sixteen 8 1/2 inch pages in mimeo. Columns include SWL Log featuring member's loggings, Bit's 'n Pieces containing information of help or interest to the SWL, Dmer's Dialogue printed 9 times each year. It contains non commercial advertisements, Q and A, and closer friendship between members, HAP-ANARC Report, QSL Corner, and articles on stations/programs. SWLI was formed in July 1972. Membership is reaching 50 spread throughout CA, BC, Ont, NY, MO, KS, Sask, MA Que, NB, IL, Alta, GA, FL, England, etc. SWLI has a 3 man BOD. When Andy Dyer was with us SWLI gave him SWL NEWS on cassette as he was blind. Give SWLI a try as a second club.

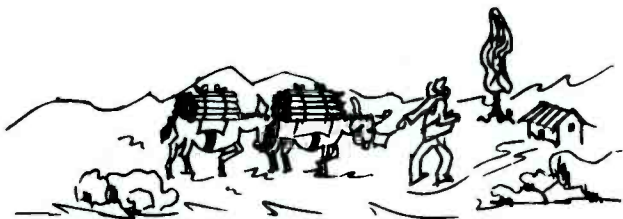

HAP urgently needs headphones!!! At least 6 pair. Also any receivers in any condition. Blank C-60 cassettes too!! Please write to me before shipping.

## REFRAN

"Hablando se entiende la gente"

### RADIO IN CHILE -1973

In the forefront of the political turmoil which paralyzed Chile for the greatest part of 1973, the radio industry predictably underwent some drastic changes in the wake of the September coup. As polarized as the political parties which controlled them, Chilean radio stations filled the airwaves with political rhetoric and propaganda leaving no doubt as to whose side they were on. To the end, Chilean radio fought the battle only to be silenced on 11 September by a military coup d'etat. Now back under government censorship, Chilean radio is today much tamer than before but many interesting DX possibilities still exist.

Radio had always been a part of Chilean political life but never to the extent reached during 1972-73. To explain the escalation of involvement one must be aware of the disastrous decline in advertising revenues which occurred in the months following the nationalization of major Chilean industries by Allende in 1971. The financially weakened stations were easy prey for takeover and the parties of the Unidad Popular (UP) were quick to seize the opportunity. Not to be outdone, the opposition parties also moved to expand their influence vowing to "preserve freedom of speech". When the dust cleared, the count stood at 33 stations in the hands of the Socialists, 29 controlled by the Christian Democrats, and 28 controlled by the Communists. The battle lines were drawn.

Such was the involvement of Chilean radio in the political conflict that just prior to the coup only 10 of the 156 operating stations could be considered politically neutral. 44% of the stations supported the government of Salvador Allende while fully 50% stood in opposition. In the escalating struggle for popular support, the government used every trick imaginable to silence the opposition radio voices. Harassment, such as the cutting of power to radios Minería, Agricultura, Nuevo Mundo, and Yungay only a week prior to the coup, was commonplace and most opposition broadcasters found themselves in court as often as they were on the air.

The coup itself began early in the morning of 11 September when naval units moved to occupy key positions in Valparaiso. Alerted, Allende immediately turned to radio, as he had so many times before, to rally public support and block the coup. But, the armed forces had anticipated that move and only Communist controlled Radio Magallanes was on the air at 9:20 A.M. to broadcast his "no renunciaré" speech. Most stations never got on the air and 24 hr. stations like Portales were silenced in the first wave. Defiantly Radio Magallanes remained on the air urging workers to fight but eventually it too was silenced.

**REVOLUCION ES...**

The silence created by the military was also broken by them later the same day with the appearance of an "official" radio on 6150 khz. Identifying as "La red de Radiodifusión de las Fuerzas Armadas y Carabineros de Chile" this station broadcast, strangely enough, non-stop

popular music broken only by "comunicados" or short announcements which advised of the curfew, issued instructions, and advised certain persons to report to the nearest military or police officer.

Other stations did not begin to reappear until the 15th of September when Radio Presidente Balmaceda was noted in parallel with the military net carrying music, bulletins, and commercial-like messages promoting the slogans "Año de la Renovación" and "Año de la Reconstrucción". Eventually Portales and Corporación also returned and, on 24 September, were noted in parallel with all other Chilean shortwave stations airing the junta produced program "Chile en el Mundo". A defense of the junta's action, this program, which was noted several nights, began with the announcement

"En las bandas de 19,25,31 y 49 metros las emisoras chilenas, con sus equipos de onda corta, presentan ...Chile en el Mundo. A través de esta transmisión Chile informa el mundo de la realidad que se vive en este extremo de Sud América. Ustedes conocerán lo que piensan los chilenos, lo que quiere el pueblo, lo que Chile significa para el resto del mundo. Todo esta realidad en estos programas que serán.....de Chile para el mundo."

which loosely translated means "In the bands of 19,25,31, and 49 meters, Chilean radio stations, with their short wave transmitters, present "Chile en el Mundo". Through this broadcast Chile informs the world of the reality that lives in this extreme of South America. You will know what the Chilean thinks, what the people want, and what Chile means to the rest of the world. All this reality in these programs which are... from Chile for the world."

As of this writing commercial broadcasting is once again being noted on Chilean radio although the 8:00 P.M. curfew has greatly shortened the broadcast day. In general, Radio Presidente Balmaceda, Radio Minería and the other opposition radios appear to have returned to near normal schedules but Radio Corporación and Radio Portales show some interesting changes. Formerly UP controlled stations, these two broadcasters have greatly reshuffled their programming. Relays of other stations are not uncommon resulting in some unusual marriages. Corporación has, for example been noted relaying the FM service of its former enemy, Radio Minería, even to the extent that that stations signoff was carried instead of its own. One suspects the new management is less concerned with identity than with appearing normal to the outside world.

The return to normalcy is likely to be a slow process and, since the cause of the previous financial troubles has not been eliminated, this return is likely to produce some consolidation. One should also not rule out the possibility of nationalization of the radio industry although this is not likely to occur soon. Just in case, however, you'd be well advised to get your QSLs while you can.

#### BRAZILIANS UP FOR SOCCER CHAMPIONSHIP

Many Brazilian broadcasters have recently reactivated little used frequencies in the 19 and 25 meter bands to expand their coverage of the soccer playoffs now in progress. These playoffs will determine the national champion and are, needless to say, being followed with great interest as teams from twenty states are participating. Matches are played on Wednesdays, Thursdays, Saturdays, and Sundays with occasional Friday matches.

One example of a reactivated frequency is the widely noted reactivation of 15135 khz by Radio Record/Panamericana. Another is Radio Timbires which has reactivated 15215 khz. No doubt other stations will come and go with the fortunes of the local entry providing DXers with an excellent opportunity to log some otherwise unheard Brazilians. One note of caution, however, as identifying stations may be a problem as often "Cadelas" or "Redes" are formed to reduce costs. The matches will last until March 1974. It could be a good DX season.

Well, I'd best be into the loggings. For those who are interested, last month's refrain is translated "Nothing ventured, nothing gained". And, for those of you still not familiar with the SIO code used in SPEEDX the following table should be of interest. Remember the deadline is the 15 th of each month so please mail your reports in time to get them here by then.

Rating	S SIGNAL STRENGTH	I INTER- FERENCE	O OVERALL RATING
5	Very Strong	None	Very Good
4	Strong	Slight	Good
3	Fair	Moderate	Fair
2	Weak	Severe	Poor
1	Very Weak	Extreme	Unusable

UNIDENTIFIED

- 3370 0120 Unidentified station noted here with usual LA format under  
severe RTTY QRM (412,8/21;D'Angelo-NY)
- 4820 0515 Unidentified station calling itself, I believe, R. Católico  
with many IDs and cuckoo calls, off at 0515 without clue as  
to location (343,9/25;Sparks-CA) Paz y Bien perhaps???
- 4856 0345 Unidentified Peruvian noted here with  
Andean mx,unclear ID perhaps mentioning  
Tarapoto,anthem @ 0400 (--1,5/12;Schnabel-  
NY) Phil,DSWCI lists a R. Chinchaycocha  
here, located in Punto Fijo,Junin, Peru.
- 6010 0300 Unidentified station here with speech,no ID,  
music,lost at 0352. (322,9/6;Cleveland-CA)
- 9554 1740 Unidentified Mexican with "La Hora de Mexico"  
every minute. (322,10/5;Green-TX) This is  
undoubtedly XEQK La Hora Exacta which is  
reportedly active once again.
- 9630 0147 Unidentified station with ID as R. Nacional,  
talk, music (343,9/23;Trautschold-WI) This  
is most likely R. Nacional de Espana newly planted on this  
frequency.

HCJB FREQUENCY CHANGES

The following changes in HCJB's Frequency Schedule have been  
made according to Roger Stubbe of HCJB's Engineering Department.

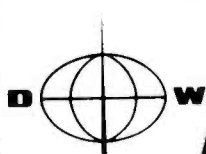

- 11740 khz has been replaced by 11745 khz  
from 0200 to 0715 affecting transmissions  
to North America, South America, and New  
Zealand
- 11895 khz has been replaced by 11865 khz  
from 2045 to 2200 GMT affecting trans-  
missions to Europe in Ger., Fr., and Sp.
- 9700 khz and 9710 khz have been replaced  
by 9760 khz from 0530 to 0830 GMT for  
transmissions to Europe in Nordic, German,  
Spanish and English.

Why not drop them a reception report on the new North America frequency.

\*\* Bye all \*\*

*Jaima Cabeza Blanca*

# SWBC DX - EUROPE/AFRICA

Deadline: 15th  
Times & Dates: GMT  
Frequencies: kHz

Robert Butterfield  
P.O. Box 398  
Belmont, Massachusetts  
02178 U.S.A.

**Highlights:** This month, on the African scene, we have some interesting loggings from the not to often reported Afars and Issas, and Sierra Leone. Also, Seychelles and Liberia came in quite well seeing the number of reports for the respective countries. On to the loggings.

## Europe/Africa Roundup

Ciao! A lot of news and tidbits has been piling up here, so we'll do our best to cut down on the file this month. First off, thanks go to new reporters: Mike Dobosenski, Jack Jones, Jim Meehan, Richard Shaftan (one side of page for loggings, please!), and a very special welcome to Mr. Sridhar who sends his reports all the way from India. Keep those reports coming in.

Also, a few items of correction/forgetfulness. Dan Sheedy writes us that his logging of the Pointe Notre relay, RTVC, Congo is 4843 not 4863, his typo, says he's getting old. Who isn't? Also, our "scusi's" to Mrs. Kathy Testa who we so ingratically left out in last month's expose of the recent BAD Guy's meeting. Sorry.

Well, on to the news. World-Wide DX Club items appear with their permission.

SIO codes: We would appreciate it if from now on you would all use SIO code when reporting the quality for your loggings to this column, along with the other SWBC DX logging columns also. Get into the habit, o-kay?

Roundup DX Calender: From time to time Roundup will provide a listing of national holidays for some countries in Europe and Africa. These holidays may mean extended broadcasts in the respective countries or you just might want to wish the station a happy holiday in your next report. Your comments would be appreciated on this feature. Our source is the U.S. State Dept.

### November/December National Holidays:

November	7-8	U.S.S.R. (Great October Socialist Revolution)
	24	Zaire (National Holiday)
	28	Mauritania (Independence Day)
	29	Yugoslavia (Proclamation Day of the Socialist Federal Republic)
December	1	Central African Republic (Independence Day)
	6	Finland (Independence Day)
	11	Upper Volta (Republic Day)
	12	Kenya (Independence Day)
	18	Niger (Republic Day)

Also, don't forget in addition to these national holidays, Christmas on December 25th and New Year's Day on January 1st.

Would an unlisted address help a DX'er? - continued: Mike Hardester from California sends us this note: "I read with interest your item (September SPEEDX) regarding 'Would an unlisted address help a DX'er?' The same thing occurred with me; however, I did eventually receive a QSL. As I recall, a couple of years ago, postal workers in Accra were then copying addresses of DX'ers sending reports to R. Ghana and selling them to a group who in turn wrote letters requesting penpals in the USA. After a time, the "penpal" was then given a hardluck story and money or a gift was requested. I seem to recall the group was broken up by Ghana authorities, but apparently they might be at it again, only doing a double business by starting up the pen pal business and stealing the letters to R. Ghana. It might be interesting to see if other DX'ers are experiencing something similar. It could behoove USA & Canadian DX'ers if someone contacted a local embassy and explained the situation."

Quite possible Mike. Any comments or experiences from other members?

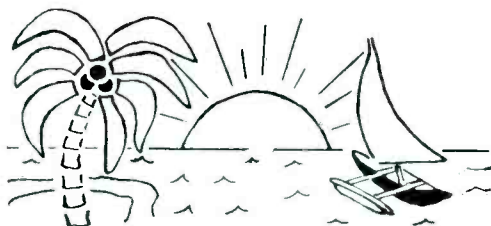

France - Office de Radiodiffusion Television Francaise: ORTF plans a new radio building for 1983. Also, the operation three 500 kw short-wave

# A O NEWS CAN

Used about all loggings received, and hardly insulted anyone in the process. Gee, I must be slipping. Hi! Thanks to regular reporters for your support. You are the backbone of the column. A welcome to these first time A/O reporters. Keep 'em coming people:Gus Miller, Mr Sridhar, Jack Jones, Richard Shaftan, & Jim Meehan.

Only two or three holdouts on using the SIO code for reporting quality. Hmmm. a = approximate. m = measured. t = tentative. \* = sign on/sign off times.

AFGHANISTAN Rumor still has it that Radio Afghanistan will stop their external services due to lack of listener mail. Best get your QSL while you can. Heard at 1800-1830 on 15265/11785/9575 in English. ....dj..

TURKEY Has begun a DX program in English at 2200 @11880 on the last Sunday of the month(I think). They are asking for suggestions.....Ivan Grishin.....

RADIO PALESTINE This pirate has been detained for broadcasts criticizing the Israel position in present war with Egypt. Not heard lately.....Tim Eagen....

IRAQ Frequency of 9740 has been logged separate from normal 9745, so presume it is new service. Logged in language at 2030 w/IS & Arabic tks.....Jon Fay....

MOST WANTED STATIONS Via NASWA's recent poll on most sought after stations, 3 are in the A/O area out of the top five. In order they are:FIBS(Falklands), Grenlands R,R Maldives, R Ulan Bator, & R Vila(New Hebrides). Your Ed has 3 of these in the old log book but, no QSL's.. tnks to Woody Smith & FRENDX....

NORTH VIETNAM Via BELGIUM DX CORNER we learn that the VOV has dropped all of their old frequency's and is now using 10040/15105 for all transmissions in English. (15012v still heard here)...tnks to Bob Butterfield & Belgium DX.....

SAUDI ARABIA In Saudi Arabia you can now smoke in public without being flogged, but all also holic beverages are still banned,hic..... anon.....

ISRAEL Since 6 October the IBA has been using almost all of its SW transmitters to broadcast news of the Mid-East war, in several languages, during the 'in-between' times of its regularly scheduled programs.....BBC-MS

BANGLADESH English according to latest program schedule is;0230-0300, 1230-1300, 1845-1900, & 2100-2200. The 2100 BC is on 9520v as logged in Calif. 1230 BC is on 15455/17690. 0230 on 15520/11650.....BBC-MS.....

PAKISTAN Has English news at 0230 on 17830/21730. 1715-1730 broadcast has been dropped. 0200 news in English has been dropped.....BBC-MS...

INDONESIA RRI Palembang on 4855 has English programing 1530-1600 on Saturday. Yogyakarta on 5047 has English Sunday's at 1130.....SCDX..... November 10-18 their will be an 'International Symposium on Recent Crustal Movements & Associated Seismic & Volcanic Activities' in Bandung, Indonesia. Might be some recognizable items in news that week.....Bill Cleveland.... Bill, couldn't they just say 'Earthquake'? Hi.....dj

JAPAN Ever wonder how many letters an international broadcaster receives? No? I'll tell you anyhow! From April 1972-March 1973 Radio Japan received some 52,350 letters. Tops on the list were letters from Indonesia w/12,786, India w/7,214,and the old USA w/5,110. Thats a lot of stamps.....Jim Whitehead...

REMINDER Send in your news items of general interest. If you find it to be of interest, others will too. GUD HEALTH & GUD DX 73 Don

# STATION SKEDS

THE VOICE OF INDONESIA

RADIO CANADA INTERNATIONAL

EDIFOR: Mark Koukol  
1232 E. Eagle St.  
Naperville, Illinois 60540 USA

Times: GMT

Frequencies: kHz.

Deadline: 15th

Not as many reports this time, but lots of good info. Please remember to put your name on each item you send.

**Algeria:** RTA Algiers noted at 0600 s/on to 0000 s/off daily on new 6145 in Arabic; parallel to 11715/17790/etc. (Richard Wood)

**Austria:** The foreign service of Austrian Radio broadcasts with 100 kW to:

To South America  
2255-2315 11920  
0040-0100 11920

250 kW will be in service by Nov. (Richard Shaftan-Arthur Getzel)

**Brazil:** Radio Nacional de Brasil has these foreign xms acc. to a sked received October 1: 1900-2000 in Italian, 1700-1800 in German, 1800-1900 in French, 1900-2000 in Portuguese, 2000-2100 in English, 2100-2200 in Spanish. All on 15445, 11720, 9665, 6065. (Sandy Eichenhorn)

**Canada:** CBC has this sked in English to N.A. valid to Nov. 3:  
0100-0158 15190, 9525, 6085  
1217-1315 15315, 11720, 5970  
2300-2330 9625, 15190, 11945  
(Ronald Warren)

**Chile:** All Chilean SW stations are operating normally on usual frequencies: Radio Corporacion noted on 15150 1500-0300 or later; La Voz de Chile on 6150 at 0100 often blocked by Radio Atenea, Costa Rica- also noted 2300-0300 on 9690; Radio Minería noted on usual 9750-not 4745-2300-0300 & sometimes 0500 or later; Radio Portales 9570 peaks at 0100, now ID may be Emisora Diego Portales. (Richard Wood)

**Denmark:** Radio Denmark has this sked in Danish to N.A. till Nov. 3:  
1200-1245 15165  
1600-1645 15165

0000-0045 9520

Reports to this address: Danmarks Radio, Kortbølgeafdelingen, 1999 København V, Denmark. (Henry Wikant)

**Ecuador:** Dates given last month for HCJB's DX program Mon-Fri-Sat are U.S. local dates, not GMT which would be Tues-Fri-Sun. Sorry for any mixup this may have caused. HCJB has returned to 11745 ex-11740 for N.A. in English at 0030-0600 //15115. 9560 joins at 0100. (Joseph Smith, Richard Wood, Arthur Getzel-RTB DX Corner)

**Finland:** Radio Finland has these English xms from Nov. 4-March 3:  
To North America  
1400-1430 15185  
0300-0330 9585

To Europe  
1400-1430 9550, 11755  
2030-2100 9550, 11755  
1800-1830 9550, 11755

To South America  
1400-1430 21605  
1800-1830 15185  
2030-2100 9550 (Arthur Getzel)

**Guinea:** Conakry has introduced new 11965 which may replace 15310. 9650 continues in parallel. Apparently 24-hour operation, noted 1900-0600. (Richard Wood)

**Great Britain:** BBC has this English sked to USA from Nov. 4 to March 2:

1100-1615 15070, 11905 (to 1215),  
17790 (from 1300),  
17840 (from 1430),  
15315 (1500-1515)

2000-0415 15260 (to 0330), 9580  
(2115-0030), 9510 (from 2300), 7325 (2300-0400),  
5975 (from 2115)

(direct)

**Haiti:** Radio 4VER has this English sked:

Mon-Sat 2300-0200  
1100-1700

Sundays 1100-2100  
2300-0200

Frequencies used are 3340, 0120, 9770, 11835. (Sandy Eichenhorn)

**Honduras:** HRN, La Voz de Honduras, is in regular nightly operation on 5875, noted 2300-0500. (Richard Wood)

**Israel:** IBA has introduced an all-night service during the Middle East War crisis: 2300 Hebrew, 2315 English, 2330 French, 2345 Russian, 0000 Hebrew, 0015 English, 0030 French, 0045 Russian, 0100 Hebrew, 0115 English, 0130 French, 0145 Russian, 0200 Hebrew, 0215 English, 0230 French, 0245 Russian, 0300 Hebrew, 0315 English, 0330 French,

0345 Russian, 0415 Hebrew ann's and music, 0445 sign off. All observed on 9009 and 9625 and annod also as on 15105. Other freq's in the 41 and 25 m.b. are in use but not specified. English at 0500 as usual on 9009, 9585, 11960.(Richard Wood)

Japan: NHK Radio Japan has a new CTH change from August when they moved into their new broadcasting studio. It is: Radio Japan NHK, 2-2-1 Jinnan, Shibuya-ku, Tokyo 150, Japan.(Bill Paschke)

Lebanon: Beirut to N.A. 0130-0330 now on 9545, badly mixed with Deutsche Welle also to N.A. on same freq.(Richard Wood)

Liberia: ELWA Monrovia is easily heard during its Arabic to N. Africa xmn 2000-2300 on 15170 using 50 kW.(Richard Shaftan)

Mexico: The following stations are inactive: XEUVJ 2160, XEJG 4820, XEHH 11880 & 15110, XEVOZ 15200. (RTB DX-Corner via Arthur Getzel)

South Africa: Radio RSA skeds English to N.A. 2215-2315 on 11900, 9585, 11970, 9695 and 2326-0242 on 11970, 9695, 9585, 6080.(Richard Shaftan)

Spain: RME has this sked of programs to America in Spanish to Dec. 1974:

1030-1230	15145, 11775
1300-1500	17805
2000-2130	15145, 11775
2200-0200	9630
2200-0400	9530, 15145, 11775
0000-0600	9630

(Sandy Eichenhorn)

Sweden: Radio Sweden to ECNA now on 6000 replacing 9665 at 0000-0230.(Richard Wood)

Vietnam, D.R.: Voice of Vietnam Hanoi has replaced some of its old frequencies and is now using 10040 and 15105 for all xmns in English. (RTB DX-Corner via Arthur Getzel)

And that's it for this month. Sorry no second column, but there were no reports to fill it with- let's see it full next month.

RTB DX Corner reports that the Radio Japan Club of Munich will send a list containing the addresses of many young people and DXers for 3 IRCs. You can get your name on it also if you send your name, age, address, and language. Write to: Radio Japan Club, Postfach 12.B, D.8000 Munich 26, German Fed. Rep.

73a in 1973,

*Mark Kachel*

## FLASH! FLASH! FLASH!

Family Stations, Inc. today announced the purchase of international shortwave station WNYW, Radio New York Worldwide, from Bonneville International. Effective tomorrow, (Saturday, October 20), Family will take over the complete programming responsibilities for the facility located in Scituate, Massachusetts. Also, the call letters are being changed from WNYW to WYFR.

The facility consists of four high power shortwave transmitters (a fifth is authorized and will be added as soon as possible) and nine directional antennas on a 28 acre antenna farm. The programs are beamed to Eastern and Western Europe, Africa, and Latin America. Since January of 1973 portions of Family Radio programming have been broadcast over WNYW through the purchase of broadcast time. Now, however, the total broadcast hours of WYFR (formerly WNYW) will be dedicated to Gospel programming produced at the Family Radio Network headquarters and production center in Oakland, California. In addition to Family Radio produced programming, select national and International broadcasts will be released over WYFR.

Family Stations, Inc. also owns and operates six FM stations in the United States. The stations are KEAR, San Francisco; KEBR, Sacramento; KECR, El Cajon (all California); WFME, Newark; WKDN, Camden (both New Jersey); and WFST, Annapolis, Maryland. In addition, Family is the applicant for WCAS (AM) in Cambridge, Massachusetts.

RTTY DXING  
A BRIEF INTRODUCTION

by  
 BRAD LANES ✓

Did you ever think that you could DX on the Radioteletype (RTTY) mode? RTTY is not only the interference bug of SWBC DXers, but is a vast unused type of DX fun.

Radioteletype transmissions are meant for the two stations involved and not the DXer. (As we all know all Utility broadcasts are meant this way too!) The signal is beamed Point-to Point from one station to another. You can tell a RTTY signal by its long and fast rate of pulses. Once you hear this you'll never forget its sound.

A radioteletype station is not very hard to set up. It does not take up much room and as far as costs go it can be surprisingly inexpensive. The cheapest that one could expect to get away with is around \$300. This INCLUDES the receiver. The cost can go as high as \$2000 for a deluxe set-up, I use a DX150 and a SX190 and find it most suitable.

Some of the stations that you can copy are-----

- 1) The Associated Press
- 2) TASS (The Soviet News Agency)
- 3) The U.S. National Weather Service
- 4) United Press International
- 5) RCA and ITT
- 6) Ham Radio Operators
- 7) Many Foreign News and Press Agencies

What does the basic RTTY setup consists of? Well, it consists mainly of 3 basic pieces of equipment.

First, of course, is the receiver. It should be of good quality. That is, it should be selective, sensitive and have a BFO or product detector for SSB reception.

Secondly, you must have a teletype converter. This equipment converts the radio signal, into a signal compatible with the signal needed to operate the teleprinter.

Finally, you need a teleprinter. In can be a receive only variety as you won't be transmitting. All of the above are available at surplus stores, throughout the country.

As with all Utility DX there is the question of the legality of listening to these stations. But as long as you don't give the information to a third party (such as commercial use) you are safe. RTTY stations will also QSL as long as you obey the general rules for reporting to all Utility stations!

Of course you will not purchase anything without finding out more information. If you have any questions call (201) 566-5021 or write Brad Lanes, 33 Idlebrook Lane, Matawan, NJ 07747

Just imagine, you can copy a RTTY transmission from RCA to Havana, Cuba and have it QSLed!!

Editor Note: For more info you can consult:

"RTTY A to Z" published by Cowan Publishing, Pt Washington, NY 11050 for \$5.00 ppd (covers basics of RTTY equipment)

"RTTY Handbook" published by Cowan and sells for \$3.95 (also covers basics of RTTY)

"Confidential Frequency List" published by Gilfer Assoc., P.O. Box 239 Park Ridge, NJ 07656 sells for \$3.95ppd (has a list of RTTY stations among the many lists in this book)

## NEWS

Now that I have that first column under my belt, its all down hill from here on and things can only get better (hi). Thanks for the support; keep it up! Concerning this month's loggings, in Europe, Wayne Oliver has received his QSL from RAI confirming Caltanissetta, Sicily as the site for the 6060 KHz outlet. The special issue "Royal Family" from Radio Nederland has delighted most of its recipients and I have had at least one report saying that Radio Moscow is issuing a new card. More Indonesians are rolling in and Tahiti has finally been heard from by Scott Brown and Larry Nebron. Bill Flynn and Bill Sparks, after waiting two years, have received cards from Radio Maya in Guatemala. And finally, dx'er Dan Henderson is very pleased with his verie from R. Barlavento, Cape Verde Islands.

## EUROPE

- ALBANIA:** Radio Tirana, full data folding card in 150 days by surface for IRC and English rpt. Also received sked. (Kelley FL)
- AUSTRIA:** ORF, 6155, "Holiday Card" w/full data and lots of literature in 32 days air for 2 IRCs. (Hardester) 9655, full data Mountain Paradise card in 41 days by air for no RP and Eng. rpt. Received sked. (Smith TN) 9770, full data color card of "Home" in 75 days air for no RP. (D'Angelo) f/data card and sked in 42 days for 1 IRC. (Kaye) F/data picture postcard of highway system and also sent stamps; 32 days air, no RP (Trautschold) F/data silver card in 34 days air for 1 IRC and Eng. rpt. (Brown)
- BELGIUM:** RTB, 9550, Antenna card in 30 days; also rec'd sked & Script for Eng. rpt and 1 IRC (Vockeroth) 9655, map and Martian card in 29 days, no RP (Brooks)
- BULGARIA:** Radio Sofia, 9700, University card (#1 in series) in 140 days surface for 1 IRC. Also rec'd magazines; no postage on their envelope! (Brown) Same card in 135 days for 1 IRC (Kelley FL) F/data Messebar card (#2 in series) in 120d surface (Johnson) Same, in 150 d surface, no RP (Zelasko)
- CZECHOSLOVAKIA:** Radio Prague, 5930, blue and purple buildings card in 168d by surface for 2 IRCs (Kamber) 11990, F/data mountain scene card in 120d air for no RP (Johnson) Orange, green&white building card, 21d, no RP (Beck)

Mrs.  
Evelyn Dolyak  
Box a.  
Griswold, Iowa

Dear friend:

We had a great pleasure having received your letter with the report and reception of our Emisore. We have the most imporcan work, and consist in to choose - to clasificarte records players, also the progrmation of se veral Emisores fo Colombia. Our Country it's about 3'200.00 habitantes, our City is located on a hill roundes of several mountains like Monserra te. Have a prosper industry of coffee, cotton and a lot of things. The toursits places are very interestin to know and study. If you some day go here, could look at one of the most wonderful cities of Latin American.

We hope you continue listening our Latin American Station - an I wish you lend to usa your Report and reception too.

### QSL POTPOURRI

This potpourri section will include, as space permits, as much QSL info as I can get my hands on. So if you have anything to offer, please send it in. I will also include info direct from stations as I receive it.

The first item is from Radio 4VEH, Haiti - In lieu of sending IRC's for airmail RP, they would prefer 3 U.S. .08¢ stamps, as they have difficulty redeeming the IRC's. Thank you Radio 4VEH.

Next is this note from R. Finland - We have produced a new series of QSL-cards for each of the four seasons. Correct reception reports will be verified in these cards. Thank you, Radio Finland.

And finally, this from Bill Trubee - his wife Tomiko picks the more interesting landscape QSL's and recreates them in 3 by 4 foot paintings; now, that's a big QSL! (hi)

That's it for this month- 73's and hopin' to hear from you,

PLEASE DON'T SQUEEZE THE CHAIRMAN

By Steve Gelfand

As a begining DX-er in 1969. I knew nothing about QSL's and corresponding with stations. My primary reason for having a shortwave set at all was boredom with the same old stuff on AM and FM bands.

At least on shortwave, I figured, I can, when I want, hear some more unusual broadcasts. And it is true because you never know what you might hear. (I mean just once I'd like to hear one of those spies you read about. Just a strange voice saying, "This is X-2...come in Raoul...over..." Or how about that ham in London last year who heard bank robbers communicating with each other on the CB band? Even though he listened to them in the act of robbing a bank for almost two days, the police were never able to locate the right bank! Anyway, it's enough to keep me listening).

As a couple of months passed, I gradually learned about DXing, QSL's, -- SINFO reports and the rest and I began to send out reception reports. When I first heard Radio Peking it was (at the time) my best catch. So why -- shouldn't I send them a reception report? Some of my friends seemed to have good answers like, "You'll be put on an FBI list" (honest guys, until a few months ago I thought Watergate was one of the sea locks on the Panama Canal!) or, "You'll never get a government job if you write to Peking" (I wonder if Kissinger ever wrote to Peking?). But it was too late; the deed was done. I had written to Peking! And lived to tell the tale!!!

A few months later there was a package from Radio Peking in my mailbox. It caused quite a stir in the mailroom of my apartment building, but I casually explained it away by telling everyone that it was only laundered shirts. I think they bought that story.

I opened the envelope and found not shirts, but Peking Review China Reconstructs, a letter thanking me for my letter, a calendar and a printed air-letter asking for my opinions of the magazines.

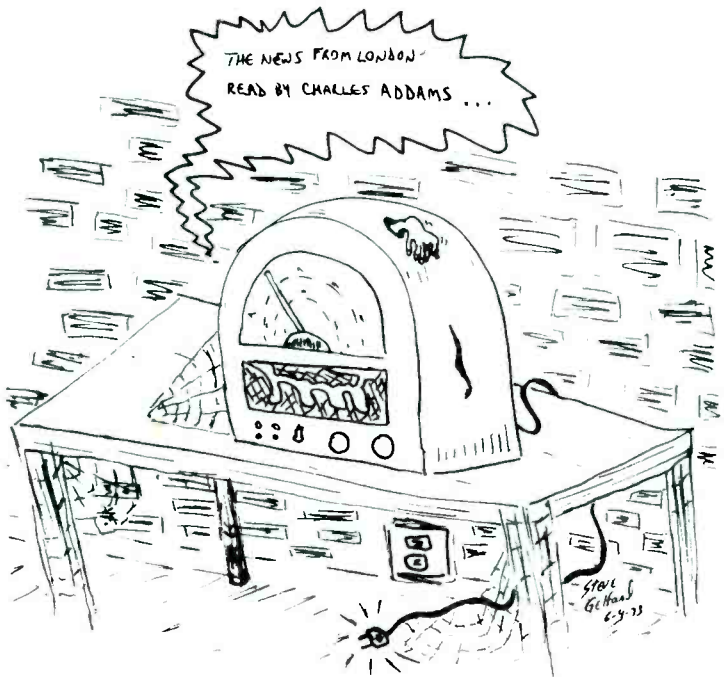

"I'll show those guys," I thought. "They can't go around mailing me propaganda." (And in an almost plain brown envelope vet! I mean it's embarrassing) So on their printed letter, where it said, "What did you think of our magazine" I wrote, "What kind of junk are you sending me? You don't really expect an upstanding American like me to believe any of that nonsense of yours, do -- you? If you do, you're crazy! The only thing you didn't send me was the -- little Red Book!" So much for them!

Well, friends, never let it be said that Radio Peking doesn't read it's mail. In the very next package, there it was - along with the usual magazines the little red book of quotations from Chairman Mao. So, I ask you, what's an imperialist running dog to do?

Now, four years later, I still get a monthly package of laundry... I mean magazines, but I haven't written anymore letters to Radio Peking. I'm not taking any chances of further misinterpretation of my intentions. I don't need any new surprizes in my mailbox.

Dxing Tips : THE OLD "TIGHTEN THAT CONNECTION FOR ME" TRICK OR "HOW TO USE A FRIEND AS AN EXTERNAL ANTENNA"
