This is your second EUROTIPSHEET and the first of our 'weekly' publications. The reactions to our first issue are great and we are proud to say that we now have over 300 correspondents, all belonging to the cream of European radio and television. There are over 130 stations reporting. Not all of these will appear in every issue, but each individual report is used for the calculations of the charts. In this EUROTIPSHEET you'll find some of our new features such as a Spotlight On Australian Music (Thanks to Kent Report), The first of a weekly NEWS article with some background on the most interesting movements in the various hitparades. Our EUROCLIPS videolist is extended and includes all the major t.v. and videoshows in Europe. We give the Music Box rotations, video's as shown by the satellite-channel. You'll find more information in the charts. Please take note that because of the fact that we didn't publish last week, the EUROPEAN AIRPLAY TOP 60 has a high number of new entries.

ABOUT THE CHARTS.....

THE EUROPEAN TOP 100 (SINGLES/ALBUMS):

In many European countries one chart is recognised by the music industry as the "OFFICIAL" hitparade and is therefore used for the compilation of the EUROPEAN TOP 100. However there are other countries where various charts are in existence and often equally important. For these countries we have compiled a number of these charts into one representing the sales in that market. Each chart position for every country then receives, relevant to that position, an equal points rating which is in turn multiplied by a factor determined through the latest known sales percentage of total singles (or album) sales which that country holds in relation to the rest of Europe. There are different percentages for singles and albums. These figures are kindly provided on a regular basis by the industry-organisations such as IFPI - BPI - GALLUP - DEUTSCHE PHONOVERBAND etc.

A EUROPEAN CHART-COMMITTEE WITH EXPERTS FROM A NUMBER OF THESE INDUSTRY- ORGANISATIONS WILL OVERLOOK THE CALCULATION SYSTEM AND WILL DECIDE ON IMPROVEMENTS, CHANGES AND UPDATES.

For the EUROPEAN TOP 100 SINGLES, 25 charts are used from 16 countries. For the EUROPEAN TOP 100 ALBUMS, 20 charts are used from 15 countries. Since the sales percentages of a few countries are too small to get their hits into the EUROPEAN TOP 100 (provided these records are not charted in any other territory), we are also printing a TOP 3 IN EUROPE list each week.

Labels shown are the 'original' labels as known by EUROTIPSHEET or the labels owning rights for Europe. Publishers shown are the 'original' publishers as known by EUROTIPSHEET or the publishers owning rights for all of Europe.

In the near future there will also be special marks on both charts for sales of over 1, 2, or 3 million copies. Special Nr.1 Awards are available for singles and albums reaching the nr.1 position on the charts.

THE EUROPEAN AIRPLAY TOP 60:

The EUROPEAN AIRPLAY TOP 60 is compiled through all our correspondents tips received this week. (*)Records of the week receive extra points. The airplay lists of the airplay report organisations within some of the European countries are also used in the calculations, as well as playlists of the major radiostations. (*)Please note that not all received tips appear in EUROTIPSHEET but they are all used for the calculation of the Airplay Top 60.

THE EUROCLIPS LIST:

This shows the music-videos most aired on television throughout Europe in the week prior to publication. It includes video-t.v.programs and other t.v.shows partly using video's from 14 European countries.

For more detailed information on any of the chart-systems please contact the Chart department.

TURNTABLE HITS**Talk Talk - It's My Life- EMI**

Already out for a few weeks, but still an album that deserves a lot of attention. Group is doing this week a heavy Italian tv promotion schedule, after which a concert tour is planned in Germany and the Benelux. The US will be their next station. The sound of the album is inventive and richly structured. Mark Hollis' voice is one of the most profound we heard since long. It's My Life was their first single.

**The Icicle Works - Icicle Works- Beggars Banquet**

The first album (after 3 single releases) of this new Liverpoolian band, appearing already on some of our major correspondents list. A three piece band very popular in the States and touring at the moment in the UK (after which a big US tour together with Pretenders and Madness will be set up). Atmospheric militant songs reminiscent of the 60's psychedelic era.

**Re-Flex - The Politics Of Dancing- EMI**

Produced by John Punter (Roxy Music, Japan) this album is a melting pot of tight new wave with funk influences perfectly fit for disco mixing. Straight music with 're-flexive' lyrics. Group is recording the video for the new US single **Hurt** at the moment and will probably do an extensive tour with Thompson Twins. In Europe German, French and Dutch dates are in preparation.

NEW RELEASES

INXS - The Swing - Mercury/Phonogram
 Their long awaited 2nd album for the European market. This Australian sextet combines the basics of Rock & Roll with a touch of the finest pop music. Strong catchy songs in which the drum sound plays a heavy part. Group has for the last few weeks promoted their single Original Sin (produced by Nile Rodgers) all over Europe. And not without succes...Down Under the album went straight up to nr. 1 and the US charted the single already up to top 25.
 Possible follow-up single candidates we strongly recommend are I Send A Message, Dancing On The Jetty (absolute great track!) and Face The Change.

Original Soundtrack - Against All Odds - Atlantic
 A very strong album around the classic theme of the triangular relationship (film is subtitled 'Sometimes love is the most dangerous game of all', so that gives us enough clues of what the film is about). The song already heavily tipped by our correspondents and about to make a chart entry is the main theme performed by Phil Collins. Side A is strong all over with songs of Peter Gabriel, Mike Rutherford, Stevie Nicks, Big Country and Kid Creole. Side B is the film music score by Michel Colombier and Larry Carlton. Take a Look at it now...

The Go Go's - Talk Show - IRS
 Looking TV clean the Go Go's make a strong showing with the new album Talk Show. Produced by Martin Rushent the LP is much more 'song/melody' orientated than their previous works, especially on side one. Head Over Heels, which is the single is already starting to pick up tips on this side of the Atlantic, but Your Thought, I'm The Only One and I'm With You are also very strong cuts. These delightful young ladies have put together an extremely good album which is going to go (go) a long way in finally establishing the band in Europe.

CHARTCREDITS EUROPEAN TOP 100 SINGLES
