**ABOUT THE CHARTS.....**  
**THE EUROPEAN TOP 100 (SINGLES/ALBUMS):**  
In many European countries one chart is recognised by the  
music industry as the "OFFICIAL" "hitparade" and is therefore  
used for the compilation of the EUROPEAN TOP 100. However  
there are other countries where various charts are in existence  
and often equally important. For these countries we have  
compiled a number of these charts into one representing the  
sales in that market.  
Each chart position for every country then receives, relevant to  
that position, an equal points rating which is in turn multiplied  
by a factor determined through the latest known sales  
percentage of total singles (or album) sales which that country  
holds in relation to the rest of Europe. There are different  
percentages for singles and albums. These figures are kindly  
provided on a regular basis by the industry-organisations such  
as IFPI-BPI- Gallup- Deutsche Phonoverband etc. A European  
Chart-Committee, with experts from a number of these  
industry-organisations will overlook the calculation system and  
will decide on improvements, changes and updates.  
For the EUROPEAN TOP 100 SINGLES 25 charts are used  
from 16 countries, for the EUROPEAN TOP 100 ALBUMS 20  
charts are used from 15 countries. Since the sales  
percentages of a few countries are too small to get their hits  
into the EUROPEAN TOP 100 (provided these records are not  
charted in any other territory), we are also printing a TOP 3 IN  
EUROPE list each week.  
The EUROPEAN AIRPLAY TOP 60 is compiled through all our  
correspondents tips received this week. (\*)Records of the week  
receive extra points. The airplay lists of the airplay report  
organisations within some of the European countries are also  
used in the calculations, as well as playlists of major radio  
stations. (\*)Please note that not all received tips appear in  
Eurotipsheet but they are all used for the calculation of the  
Airplay Top 60.  
THE EUROCLIPS LIST shows the music-videos most aired on  
television throughout Europe in the week prior to publication. It  
includes video-t.v.programs and other t.v.shows partly using  
video's from 14 European countries.

**MUSICBOX TV STARTS WEEKLY  
PROGRAM ON EUROPEAN TOP 100.**

With the launch of their own satellite channel, starting July 12th, Thorn/EMI has increased it's  
broadcasting time drastically and Music Box is becoming a major force in Europe. The past period  
already saw a strong growth in interest from cable operators to get the popular music video show.  
Record companies have already reported strong reactions in sales of specific repertoire in the  
countries where Music Box broadcasts through Sky Channel. The addition of Holland to their already  
existing cable networks in England, Scandinavia and Switzerland, was a major extension of their  
audience and it is expected that the new Thorn/EMI Music Box channel will become very popular in a  
short time. The idea is to finally have 24 hours music on television in Europe, concentrating on Pop  
and Rock and not so much on Middle of the Road music, which will be more featured on Sky Channels  
own music programs.

Obviously, the enormous extension of  
programming time, is causing some  
headaches for the programming department,  
headed by Jane Kelly - Program Manager and  
Eddy Pumer - Program Controller. Music Box  
is aiming to have almost 4.000.000 cable  
connections by February 1985, with the bulk of  
the audience coming out of Benelux. They also  
expect to have a strong improvement in  
connections in Great Britain and Switzerland.  
Music Box is headed by Charles Levisson,  
who used to run the Arista/Ariola and later  
WEA record companies in England. The  
programming of Music Box consists  
essentially of rock music videos produced by  
the artists themselves and their record  
companies. These videos usually run between  
2,5 and 5 minutes long. Music Box is targeted  
to the 15 - 25 years old audience, but is also  
attracting viewers as young as 8 - 10 and older  
than 25. Although their musical choice will be  
the current main street pop and a lot of  
material based around the British Top 40, they  
also feature European, American and  
Australian songs. A normal Music Box video  
hour includes 14 video clips, presented by a  
number of Veejays and also music news,  
competitions, station identifications,  
advertisements and starguests interviews. The  
videos are linked by graphics about 6 times an  
hour, that is when the VJ's are not on the  
screen. Mike Smith is the most well-known VJ  
appearing, he is also a DJ on BBC Radio One.  
Other VJ's include Sunie, Simon Potter,  
Martin Buchanan and Music Box has just  
announced that Joanne Cambell, a known  
actress, will be starting to appear as VJ from  
July 12th. That is also the date when they start  
the weekly European chart show around the  
European Top 100, obviously we hope that  
you will all be watching this show regularly.  
Music Box is a partnership between Thorn/EMI  
which owns 50% and the Virgin Record Group,  
which has 40 per cent plus Yorkshire  
Television for the remaining 10 per cent.

**ON THE AIR**

Information provided by Eurotipsheet is now  
used regularly by many different radio and tv  
programs in Europe. A live radio program, with  
telephone interviews, around Eurotipsheet on  
RAI, Milano, with program director Fabio

Santini, brought many reactions while, in Italy  
the information is also regularly used by Alex  
Peroni, on Studio 105, the most popular  
station in Milano. In Germany, HR, the  
Frankfurt based station is using the information  
in the programs of Fritz Egner, while in  
Switzerland, Radio 24 (Clem Dalton), as well as  
RSR under leadership of Patrick Allenbach, are  
making special Eurotipsheet programs. In the  
UK it is Guy Hornsby who has already  
mentioned the information a number of times  
during his BBC Radio London show, while a  
little more up North, in Birmingham, Robin Valk  
(BRMB) is using the European Top 100 in his  
programs and so does Tony Newman on  
Liverpools Radio City. Last but not least, RTL  
PLUS, the cable tv station from Luxembourg  
with their programs aimed at Germany, will  
have a special feature around the European  
elections on June the 17th, when they will  
show videos of each European country, based  
on the Top 3 in Europe, as well as the Euroclips  
List as printed in this magazine. Obviously we  
are very honoured by all these important media  
personalities using our information and wish  
you all a lot of success with the programming.

**ALEXANDRA'S  
NEWS CORNER**

Hi, The boys from ANY TROUBLE, returned to  
the UK, after a successful special guest tour in  
Germany, with CHRIS REA. Last week they  
ended their UK Headlining tour with a fantastic  
gig in London. From their recently released  
album Wrong End Of The Race, the second  
single is drawn, entitled Open Fire, which  
definitely deserves to be a big hit. But didn't all  
of their songs? They're due to leave end of  
June, for an American tour, oh by the way,  
rumours have it that ANDY did spend a great  
night in Germany with 3 sheep and a goat!  
(Someone will be shot for passing this  
information on to me, sorry luv!). As it is a  
double album in the UK only, isn't it a shame  
that the music business is structured in  
Europe, to make it totally unprofitable for  
record companies and artists alike, to produce  
a good deal, such as a double album for the  
price of one? (A quote from the one, who was  
just shot!) ★  
INXS did one gig in London last week as well,  
everyone who hasn't already seen them  
should try to see them perform. Beside  
releasing great albums and singles these boys  
are magic to watch on stage!! ★  
QUEENSRÿCHE just put a finishing touch to  
their first album for EMI/America, entitled The  
Warming. This album contains ten selfpenned  
songs, and is due to be released end of  
August, their single will be out on the market  
first week of August. At the same time, the  
band will be leaving to tour in Japan. Tickets  
for their 7 gigs in the "Land of the Rising Sun",  
sold out in 3 days time! September 15th the  
Queenies will be back in the UK for a 24 date  
tour to support DIO, then continue to thunder  
away in the rest of Europe ★ SEE PAGE ► 4

## TURNTABLE TIPS

**Blancmange - Mange Tout** - London  
Although their first 33 went gold in the UK, the continent was not yet ready for them. With this tasteful menu, nothing can go wrong this time. The album contains their last 3 singles, incl. the Eurodance smash Don't Tell Me. The rest of the material is quite a surprise, that it is. A clever mix of electro dance (All Things Are Nice), ballads (Time Became The Tide) and even a- capella in the C&W tune See The Train. Abba's The Day Before You Came, gets an interesting new version while My Baby is catchy synthipop. We ate them all!

**Roger Waters - The Pros And Cons Of Hitch-Hiking** - Harvest  
Musicwise things haven't changed that much since his last ambitious project the Final Cut. The same sudden moves between soft acoustic parts and complete walls of sound. Roger is assisted by a lot of famous session musicians a.o. Eric Clapton. The lyrics give a thorough analysis of the illusions of the sixties. Although it is doubtful if there are more hits apart from the title track, the album as a whole stands firmly upright.

**The Waterboys - Pagan Place** - Island  
The group is centered around the 'new boy wonder of pop/rock' (as one our correspondents aptly called him) Mike Scott, who is responsible for the vocals, guitar, compositions and production. They had a small hit last year with A Girl Called Johnny and wrote the intriguing It Should Have Been You. All of Scott's music falls into the same category: inspired and almost possessed music and lyrics which will please the Dylan, Patti Smith and N.Y. Dolls fans. Strongest tracks: The Big Music, Somebody Might Wave
