ABOUT THE CHARTS.....
THE EUROPEAN TOP 100 (SINGLES/ALBUMS):
In many European countries one chart is recognised by the
music industry as the "OFFICIAL" hit parade and is therefore
used for the compilation of the EUROPEAN TOP100. However
there are other countries where various charts are in existence
and often equally important. For these countries we have
compiled a number of these charts into one representing the
sales in that market.
Each chart position for every country then receives, relevant to
that position, an equal points rating which is in turn multiplied
by a factor determined through the latest known sales
percentage of total singles (or album) sales which that country
holds in relation to the rest of Europe. There are different
percentages for singles and albums. These figures are kindly
provided on a regular basis by the industry organisations such
as IFPI-BPI-Gallup-Deutsche Phonoverband etc.A European
Chart-Committee, with experts from a number of these
industry-organisations will overlook the calculation system and
will decide on improvements, changes and updates.
For the EUROPEAN TOP 100 SINGLES 25 charts are used
from 16 countries, for the EUROPEAN TOP 100 ALBUMS 20
charts are used from 15 countries. Since the sales
percentages of a few countries are too small to get their hits
into the EUROPEAN TOP 100 (provided these records are not
charted in any other territory), we are also printing a TOP 3 IN
EUROPE list each week.
The EUROPEAN AIRPLAY TOP 80 is compiled through all our
correspondents tips received this week.(*)Records of the week
receive extra points. The airplay lists of the airplay report
organisations within some of the European countries are also
used in the calculations, as well as playlists of major radio
stations.(*)Please note that not all received tips appear in
Eurotipsheet but they are all used for the calculation of the
Airplay Top 80.
THE EUROCLIPS LIST shows the music videos most aired on
television throughout Europe in the week prior to publication. It
includes video-t.v.programs and other t.v.shows partly using
video's from 14 European countries.
For more detailed information on any of the chart-systems
please contact our chart department.

EUROTIPSHEET ON HOLIDAYS

Due to the summerseason you missed last week's issue, therefore the correspondent reports from the last 2 weeks were combined into this issue. Please note however that the EUROPEAN TOP 100's had their normal runnings last week.
Don't miss next week's special issue on the New Music Seminar!

SMOOTH VICTORY ??

The Jacksons - Victory- Epic
With all the hoo-hah surrounding one of the most anticipated tours, this (17th) album will be a definite winner on all frontiers. Although not all of the material deserves such a smooth victory, at least half of the material is solid and commercial dance stuff. Michael's contribution *Be Not Always* is a bit too emphatic and sweet for our tastes but Jackie's *Torture* and Tito's *We Can Change The World* are stand out tracks and make up for a slight feeling of initial disappointment.

Prince - Purple Rain- Warner Bros.
This man's approach is so eclectic and hot one can only wonder what the forthcoming movie of the same name will be! Ranging from straight rock, floating symphonic parts, sexy dance music and Hendrix influenced guitar sounds, Prince proves to be one of the most significant acts American black music has delivered since very long. *When Doves Cry* is the best sold single in the history of Warner Bros. and the album deserves the same status. No more words. Let Prince rule the world...
