## TEMPO

2 WEEKS AGO LAST WEEK THIS WEEK

### WZPL Names Gary Hoffmann PD...Again *Heritage Station "Downsizes," Raises The Tempo*

#### FIESTA FUROR

A Cinco de Mayo concert bash in Riverside, CA, "Fiesta '93," was spoiled by feuding gangs. Jade, the third act on a five-act bill supplied by KGGI, ended its performance abruptly after fighting broke out in the audience of about 17,000. Three stabbings and a few drive-by shootings were reported. KGGI MD Mike Marino attributed the violence to "30 to 40 Orange County and L.A. troublemakers." Nevertheless, the station intends to continue to serve its audience later this summer with other events. Only next time, there will likely be a lot more security.

#### KING OF THEIR DOMAIN

The Winter '93 Arbitron book is looking better and better, as KLUC Las Vegas took a massive 2.5 point jump to hit a market-leading 8.8. Congrats to PD Jerry Dean and crew for yet another job very well done.

#### TODD MOVES UP

WBBM FM Chicago upped Todd Cavanah to APD/MD. The added responsibilities will require that Todd relinquish his midday airshift, which will be covered by B96 part-timers.

#### COMINGS & GOINGS

Tony Bristol apparently had second thoughts about sticking around at PRO-FM Providence. He's now entertaining offers from those who call him at 401-353-0042... Night owl Rob Olson bid adieu to WLUM Milwaukee and was replaced by former WPGC overnighter Dakota, who'll also be Hot 102's MD... Former KZRT-FM Killington night guy Marc West segues to overnights at WXXX Burlington, replacing Bobby Ocean... B.B. Good has moved from weekends to nighttime at WRCK Utica... Joan Barnowski joined Berkowitz Broadcast Consulting; she'll handle new business development and work with clients in music and promotion...

#### INDY INTRIGUE

Susquehanna, owners of Top 40 stations such as WNNX Atlanta, KRBE Houston and the new WBHT Wilkes-Barre, has purchased a market partner for Country WFMS Indianapolis. The big question is whether they'll take the former Classical/Educational WFMS into the Mainstream marketplace currently populated by kingpin WZPL and Crossover upstart Hoosier 96...

INDIANAPOLIS - In moves that accomplish two goals, WZPL replaced PD Don London with Gary Hoffmann and made other cutbacks to "downsize" the cost of operations.

The effect of the PD switch can already be heard on the air, as WZPL is sounding more uptempo and currents-based under Hoffmann, who was PD there two times before. "He has been consulting the station and he was here back in the days when we had a 14-15 share, so he's no stranger to Indianapolis," notes GM Roger Ingram. "He made himself available, so now he's here on a full-time basis."

"We have picked up the tempo a bit," he adds. "We had more of a bright AC sound than a Top 40. Were

we missing the runway? Possibly. So now we're a little more on target. We're in a situation where we feel like we're fulfilling the Top 40 role of Indianapolis."

That role has been, at the very least, shared with Hoosier 96, the Crossover station that has built a considerable audience in its two-year existence. "They've always been a serious competitor," Ingram asserts. "Perhaps some people have taken them lightly, but I haven't. Now we'll be able to keep them a little more honest in the marketplace. They've gained a couple of share points that perhaps might have been ours."

WZPL also cut back its staff size, including one night air personality. "We're just basically downsizing a bit to preserve our independent sta-

tus," Ingram explains. "We want to stay in a profitable situation, so that's part of our direction. Now we've got a great staff from the morning show throughout the day-parts. We've been working to be a little more responsive and efficient."

The goal of the moves is to return WZPL to their double-digit glory days. "They're available to us if we do our job properly," he says. "My goal is to create a great product and run a very efficient company free of communication roadblocks. I felt like we had a couple of communication roadblocks and we were getting a little bit overstaffed. Hopefully, now we'll have something more useful than just a smaller company. I think it will be very productive."

### Don London: "I'll Be Back"

Former WZPL Indianapolis PD Don London takes his departure with characteristic grace. "I'm proud to have programmed one of America's highest-rated Top 40s in the Top-50 markets for the last three-and-a-half years," he says. "It was also great to contribute to two consecutive record-billing years."

Although he had been cut loose for just two days, London notes that he has already received "an overwhelming amount of phone calls of support. I'm looking forward to a speedy re-entry into programming or another related position in the business. Most likely, it'll be in programming, but I'm keeping my options open."

Anyone interested in discussing those options can reach him at 317-823-9780.

### Karen Holmes Joins *The Network Forty* *To Head New Alternative Section*

BURBANK - Karen Holmes is joining *The Network Forty* to be Alternative Editor for the magazine's new Alternative section. Holmes, most recently APD/MD at KWOD Sacramento, will be responsible for the magazine's latest expansion into the Alternative Top 40 niche.

Holmes' experience with Al-

ternative Top 40 radio made her the perfect choice to cover the fast-growing niche. "Karen was instrumental in overseeing KWOD's transition to an Alternative format and will oversee *The Network Forty's* Alternative section with the same passion," states *The Network Forty* VP/GM Gerry Cagle.

## M I L E S T O N E S

Just days after shooting the video of "Almost Unreal," Roxette singer Marie Fredriksson gave birth to a healthy daughter, Inez Josefina Bolyos in Stockholm, Sweden. Marie and Michael Bolyos are parents for the first time.

FREDRIKSSON

Marie and Roxette partner Per Gessle wrote and recorded "Almost Unreal," the lead single off the *Super Mario Bros.* soundtrack, just a few

weeks ago. In the video, Fredriksson was shot only from the shoulders up.

Flashy Rock guitarist/producer Mick Ronson, 46, died last week of liver cancer. Ronson came to prominence as the lead guitarist for David Bowie, highlighted in the acclaimed *Ziggy Stardust/Alladin Sane* era. After a brief solo venture, Ronson later played with Mott The Hoople, Lou Reed and Bob Dylan. He also produced albums by Reed, ex-Byrd Roger McGuinn and most recently, Morrissey.

# Summer Tours Run Leaner

*Most Big Names Forgo Ballparks For Arenas*

Concerned with a less-than-bullish economic outlook, concert promoters will be booking more big-name tours into arenas and less into stadiums. Although summers are typically rife with megastar showcases, only Paul McCartney and possibly Depeche Mode in early Fall will be playing to ballpark-sized audiences. The rest prefer the outdoor amphitheatres and large indoor arenas, where it's easier to sell out.

To be sure, there ought to be plenty of packed arenas this summer, as several heavyweight artists will be making the rounds. Surefire SRO's include tours by Aerosmith, Van Halen, Vince Neil, Rod Stewart, Elton

John, Peter Dinklage, Poison, Damn Yankees, Robert Plant and Jimmy Page (individually), Nirvana and Tina Turner. Although the smaller-sized venues may not generate the revenue of a ballpark tour, artists point out that it enables them to get closer to the fans, who generally wit-

ness the performance in a better environment.

Another repercussion of the tenuous economic climate is the growing number of packaged tours, the most renowned and successful being Lollapalooza. The success of the Alternative music Woodstock/sideshow has spawned a couple of imitators. MTV is presenting an Alternative tour featuring Spin Doctors, Soul Asylum and Screaming Trees, while the most intriguing package will be the "Barbecue Mitzvah" tour featuring Stone Temple Pilots, the Butthole Surfers and Basehead. This tour will play drive-in theatres and fans will reportedly be charged by the carload.

## Odds and Ends

### Industry Eyes Geffen/Henley Dispute

The legal battle between Geffen Records and former Eagle Don Henley has aroused the interest of far more than the two litigating parties. The precedence set by the outcome of Henley's attempt to free himself from a Geffen Records recording contract could have repercussions throughout the industry.

The story so far: Henley first signed a solo contract with Geffen in 1984, which was amended four years later. At that time, Henley promised to deliver three studio albums and a greatest-hits package for a higher royalty rate, recording advances and a one-time upfront payment. According to the label, Henley still owes Geffen two more studio releases and the greatest-hits collection. Henley contends that the 1984 agreement sets the precedence and since a 50-year-old California law enables "performers" to negotiate in the open market every seven years, the '84 contract has expired.

If Henley wins the suit, it could possibly turn superstar

artists, who signed longterm deals to one label, into veritable free agents who could go to the highest bidder. Naturally, Geffen will seek an injunction to deny Henley the freedom to negotiate until the matter is settled in the courts. A lengthy court battle is expected; Henley is about to sell his publishing to create a multi-million dollar war chest to pay for legal fees.

Sony Music is about to open a state-of-the-art multi-

use recording arts complex on the West side of Manhattan. The complex, located at 460 W. 54th St., is set in an historic building that once served as movie soundstages for Fox.

Sony Music Studios was created exclusively for use by artists on Sony Music labels such as Columbia, Epic and TriStar Records Group. "Sony Music's dedication to support the creative process is reflected in the development of our artists," states Sony Music President Tommy Mottola. "This center is the first creative complex of its kind anywhere in the world. It provides our artists with the opportunity to create in an environment that nurtures the artistic process."

The five-floor, 25-room complex is designed for recording, mixing, mastering and editing of audio, video and film. It will also serve as the company's center of archival work, including the digital conversion of a 450,000-record library.

## A&M

Teresa Ensenat was appointed VP, A&R. She joins the label after taking a year's sabbatical. Before that, she was VP A&R for MCA and got in the A&R game working with Tom Zutaut at Geffen. Although interested in all types of music, Ensenat is especially attuned to "the new wave of hard Alternative female bands, industrial music and the blending of Rock and Rap."... Former Elektra promo rep John McHugh just landed a marketing gig on the Chaplin lot... Kelly Mills was named Director of Advertising.

## CEMA

Jeff Young was appointed National Sales Manager of EMI Latin.

## EPIC

Vivian Scott was promoted to VP, A&R. She will be responsible for signing and supervising A&R activities of Black Music artists. Previously, she was National Director, A&R.

## MCA

Sheila Coates was appointed Sr. National Director, Marketing of the Black Music Division.

## PLG

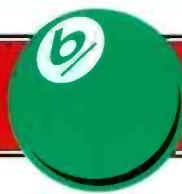

David Yeskel was named Sr. Director, National Sales.

## SONY MUSIC

Cassandra Love was appointed Black Music Marketing Rep, Northwest Branch.

## WARNER BROS.

Christine Wolff was named New York Publicity Manager.

Welcome to the wonderful world of Page 6, where truths, near-truths, rumors and outright lies drive the print and our industry. It's animal logic... or reptile, if you will. The **Chrome Lizard** checks it all. It's a tongue thing... flicking out and picking up the winds of change.

### Did You Hear?

Q106 San Diego's JoJo Kincaid may be burning bridges at his current gig. Is he dialing 911 for help in the 213 area code? Is KIIS-FM's Jeff Wyatt heading the rescue team? And what part does Guy Zapoleon play in all this?

Don London wasted very little time after leaving WZPL Indianapolis. He was lunching in the Big Apple Thursday with WPLJ's Scott Shannon. And is he also talking with Jacor?

Harv Blain of McVay Media is in the house at PRO-FM Providence. He'll be calling the shots for now... and there may not be bullets for anyone else.

### We Like This One Best

Is indy mogul Jeff McCluskey buying *Radio & Records*? If so, the long-awaited restructuring of the parallel system will occur as he cuts out the middleman.

### Almost As Much

If McCluskey pulls it off, will Craig Lambert move to Los Angeles as publisher?

### What's This About...

Richie Balsbaugh buying WZOU in Boston?

WWHT/Hot 105 Columbus is perfecting the art of running lean-and-mean. PD Tom Gilligan and the air staff are running the show with just one salesperson, no receptionist and a promotion director who's about to depart.

Insurance cash whale Jefferson Pilot is infected with duopoly fever and is about to put down payments on some new sticks.

Dr. Don Rose retiring to Phoenix? Hardly. You'll hear him early mornings soon.

Is Belinda Carlisle reforming the Go-Go's for the Lollapalooza tour?

### I Swear This Is True

KKFR Phoenix PD Steve Smith was putting in overtime at KHQT San Jose this past weekend clearing out over 200 titles in their library. Word is the current playlist may be losing weight also.

Clarke Ingram flew in for an interview at KOY-FM Phoenix. The psychic hotline says he feels good about the job, but don't expect any changes until the sale is completed.

Don King is shopping a pay-per-view fight between two L.A.-based independent record promoters. Early odds are rocking back and forth, but so far only crumbs have been wagered.

Prince is going ahead with plans to do an *Unplugged* album, in spite of his recent retirement statements.

### Strange, But True

Who was in Sacramento deep in discussions with agricultural experts this weekend? Interscope's Billy Brill. It seems that Billy's Kiki (who is bilingual) was at LAX waiting on a plane when she engaged a member of the Russian trade delegation in conversation. She found out, among other things, that although the Russian countryside was once covered with dandelion flowers, none have been grown there in over 30 years. Billy was busy putting together a deal to export the "love-me-nots" with a Northern California grower.

### As The Records Turn

Chasing the rumors around the Capitol Tower can make a person

dizzy, but let's keep spinning. Spotted last week playing golf at Calabasas: EMI head Jim Fifield, heavyweight attorney John Branca and former Capitol mover-and-shaker Al Coury. Is Coury headed back to the Tower with pet promo man Peter Napoliello?

What about Capitol Promotion Veep John Fagot? News of Epic proportions are fluttering in New York. And how goes Ritch Bloom's quest?

Rick Bisceglia has signed a monumental contract with Arista. President Clive Davis has designated him a franchise player.

Going for position at Geffen: Tom Zutaut to Geffen in England; John Kalodner offered mega-yen from Sony? And was that Gary Gersh huddled with the MCA business affairs folks looking for loopholes in his contract?

Is Epic's A&R executive Bob Pfeifer going to Hollywood? And is another Sony staffer soon to follow?

Is the wedding off between Motown and Polygram? Where will Ruben Rodriguez and Pendulum land after Elektra?

Is it just me or does Barb Seltzer's stock continue to rise weekly? She's definitely at the top of the New Breed chart.

### That's Bullshit!

What do Johnny Barbis, Gerry Cagle and Craig Lambert all have in common? Too much recent TSH (Time Spend Hanging) with Les "Let's Rock The Box" Garland. Does anyone really believe The Box can overtake MTV? Those doubters should note that Garland was seen recently posing in front of MTV's headquarters holding a sign that read "For Sale, Priced To Move!"

# PUT UP OR SHUT UP

**Gerry Cagle**

**F**or a month, we've received hundreds of phone calls asking one question: What's the big announcement? We were going to debut our new monitoring system, but it's been put off until *R&R* gets theirs on line. That should give us at least another five years or so!

For weeks we've been doing our best to echo the sentiments of the industry. We've identified existing problems and asked for your input on positive changes. You've given us your ideas. Now it's time to put up or shut up.

You're reading the future. *The New Network Forty* contains the changes you've suggested...so far. We will continue to reflect the evolution of our industry in the coming months. New ideas will be added and outdated features discarded as *The New Network Forty* becomes your magazine for the '90s... and beyond.

Here's what's in it:

"The Charts:" The future of Mainstream Top 40 charts lies in accurately reporting *actual* airplay. *The Network Forty* provides the most detailed report of radio airplay through our exclusive Plays Per Week charts. These charts are tabulated from computer-generated music logs from reporting stations across the country.

The national PPW chart appears on page 3. Other PPWs, based on selected format airplay and eight regional breakouts, enable you to chart songs specifically for your format and geographical region. No other source provides this information. *The Network Forty* PPW charts give you the most accurate compilation of actual radio airplay. Our PPW research monitors the majors as well as key secondaries outside the universe of BDS markets and airplay is based on specific formats. You won't be confused by airplay reported from radio stations outside your target audience.

Next to the national PPW chart on page 3 is the traditional chart based on a combination of national airplay, sales and requests. This chart is what program directors across the country predict

will happen in the coming week, based on their individual information. The Charts page in *The Network Forty* provides the only side-by-side comparison of *predicted* versus *actual* airplay.

*The Network Forty* has expanded editorial coverage to include industry news that relates directly to our readers. In addition to the "real" news, our "Page 6" – written by the now infamous Chrome Lizard – will be full of rumors and scandalous activities... the truths and near-truths that make our chosen profession so much fun. Plus, we'll print a weekly picture guaranteed to shock and titillate.

We will provide the radio and record industries the most in-depth promotion information available. Networking with promotion directors and staffs across the country, we will keep you up-to-date on the latest promotions at all radio stations and record companies. We'll also keep you current on promotional availabilities for your station and market.

A new, weekly feature, *The Network Forty Spotlight* will feature an outstanding radio station or record company each week. You'll get a thumbnail sketch of different companies and how they operate. *The Network Forty Interview* will do the same with individuals. Once a month we'll take a detailed look at someone impacting on our business. A periodical "Twenty Questions" feature will deal with others whose expertise is of particular importance.

*The Network Forty* will continue to provide you with the most detailed music information available today. Each week, *The Network Forty* staff networks with program directors and music directors across the county to find out what songs and programming features are working best. This information is available to you daily through the networking process or weekly in the music sections of the magazine.

In addition to Mainstream Top 40, we also provide detailed information on Crossover songs. With this issue, an Alternative section is added. It's like none other in the business. We will chart those songs we believe are ready to cross over into the Mainstream from the Alternative. The Crossover section will provide this information for the Urban and Rhythm stations as well.

*The Network Forty* is the only weekly publication that researches programmers' opinions, retail sales, requests, airplay and outside influences (see "Mass Media") to provide a total overview of music information.

*The Network Forty* "Overnight Requests" will continue to provide the industry with the only daily request information. This information is available to subscribers on a daily basis as well as weekly in the magazine.

We also debut an extensive "Help Wanted" section with "Gottagettagig." It includes everything you need to know to find or fill an opening... and most importantly, it's free!

With all of your help, we've created a magazine that reflects your ideas. We've also included a page of our own. "The Morning Line" is a prediction page compiled by *The Network Forty* staff. It's a guaranteed non-scientific page full of picks by our own "experts" that's sure to take the industry by storm.

Along with "Conference Call," *The Network Forty* will continue to highlight important issues through the only "Editorial" section in the industry. *The Network Forty* has developed a reputation for "telling it like it is" and we will continue to do so.

*The Network Forty* is the only trade magazine that boasts a staff of seasoned radio professionals. Compare us with others and see for yourself. Each editor at *The Network Forty* holds extensive radio credentials and we're dedicated to putting together accurate, important information each week that will help make your job a little easier... whether you're programming a radio station or promoting your record company's product.

We're excited about our changes. It's more than just graphics. It's a commitment to excellence and a commitment to reflect your ideas in a publication that exists for your benefit and betterment. We couldn't have made the changes without your help. There were so many consulted that we would have to expand the magazine just to mention the names. But suffice it to say that *all* of our readers are responsible for the changes. Some more than others. And we ask for your continued commitment to us.

Join us as a weekly reader and partner to help us make *The Network Forty* your magazine for the '90s...and beyond. ▀

**WPLJ, New York**

*Tom Cuddy*

On May 11, 600 WPLJ listeners will go on three-hour cruise of Manhattan with three original members of the TV series, *The Brady Bunch* – oldest son Greg, youngest daughter Cindy and housekeeper Alice. Food, refreshments and live entertainment will also be provided. Listeners can either call in to win tickets, or they can get them as consolation prizes for not winning the current "Secret Songs" contest. "People are calling up saying, 'I don't care if I win the Secret Songs contest; I want to buy the *Brady Bunch* cruise tickets,'" Cuddy notes. "The reaction has astounded us."

**COST:** MCA RECORDS PROVIDES LPs; STATION TRADES CRUISES.

**RETURN:** EXCELLENT EXPOSURE ON MTV, ENTERTAINMENT WEEKLY AND EVEN THE NATIONAL ENQUIRER.

## **"THE HUMAN PINATA"**

**KSOL, San Francisco**

*Michele Linn*

On May 5, Cinco de Mayo, in a San Jose restaurant, morning star Mancow Muller was held aloft like a pinata, wearing a velcro suit with prizes attached to his body. In front of an audience that numbered into the hundreds, listeners got the chance to knock off prizes with a Nerf (foam rubber) bat. Prizes included movie passes, concert tickets, candy bags, keychains, T-shirts and checks for \$107. Why San Jose and not San Francisco? "It's a Cinco de Mayo kind of city," Linn says.

**COST:** PRIZES TRADED; CASH FROM BUDGET.

**RETURN:** BUILT-IN AUDIENCE FOR STATION APPEARANCE; ATTRACTED A SIGNIFICANT SEGMENT OF THE HISPANIC AUDIENCE.

## **"THE EASIEST CONTEST TO WIN"**

**WYHY, Nashville**

*Theresa Birdsong*

To make WYHY stand out in a contest-laden radio market, it's giving away at least 30 trips (no less than one each weekday for six weeks) to warm, sunny resort locales such as Cancun, Mexico, the Bahamas and Panama City Beach, FL. "While everyone else in the market is making it hard to win their contests, we don't make our listeners have to qualify, get a ticket or listen for a specific song," notes Birdsong. "All you have to do is be the seventh caller after you hear the touch tone. We're making it as easy as possible."

**COST:** ALL TRIPS ARE TRADED OUT FOR PROMOTIONS.

**RETURN:** BUILDS CUME, TSL AND RECYCLES LISTENERS.

## **"PARTY AT THE PLAZA"**

**KOY FM, Phoenix**

*Bill Henderson*

KOY FM threw tailgate parties at the Civic Plaza, which was right next door to where the Phoenix Suns played. A local band performed before and after all games; food and refreshments were also available. Approximately 2,000 people took part in the festivities.

**COST:** REFRESHMENTS PROVIDED BY THE CIVIC PLAZA.

**RETURN:** KOY FM WAS IDENTIFIED WITH THE HOTTEST ATTRACTION IN ARIZONA.

## **"VALENTINO PIZZA PUMPER"**

**KFRX, Lincoln**

*Alan Scott*

KFRX's new station vehicle is a 1949 Ford fire truck that originally belonged to a small Nebraska town fire department. Complete with all of its original equipment, the truck is in perfect shape and attracts attention all over the city. The sales staff "sold" the truck to Valentinos, a local pizza chain. Now when the station does remotes with the pizza pumper, they can give away free pizza... a guaranteed crowd-builder for every remote. Although it's only been available for a year, the truck is already in high demand for every parade in Southeast Nebraska and is already well known after a year.

**COST:** SAME AS ANY STATION VEHICLE PURCHASE.

**RETURN:** A MOVABLE 3-D STATION IMAGE THAT BUILDS CUME. ATTRACTS PEOPLE TO REMOTES.

## **"MATCH N WIN"**

**WCIR, Beckley**

*Joe Hovanski*

Patterned after the TV show, *Concentration*, the game consists of 48 numbered blocks representing 24 matches, with a prize for each match. Designated callers pick numbers trying to make a match. Game cards (with rules and numbered grid) are available at the station and at selected area retailers. A mystery number on each card is used for a 15-day trip to the Orient. Five nth callers are picked each weekday; one in each daypart. Those who fail to get a match win a consolation T-shirt.

**COST:** MARGINAL. PRIZES ARE TRADED.

**RETURN:** SUREFIRE TSL BUILDER, AS MATCH "CLUES" ARE GIVEN THROUGHOUT THE DAY.

## **"SECRET SALARY" GAME**

**WFLY, Albany**

*Barb Borini*

From April 12-23, listeners were asked to mail in their secret salary application that WFLY sent out as a direct-mail piece. On weekdays at 7:50 am, listeners tuned in for their first chance to win. Fly 92 announced names at 10 minutes before every hour, between 7:50 am and 3:50 pm, Monday through Friday. When the station called a listener's name, that person had 10 minutes to "punch the clock" by calling WFLY. That listener "earned" a salary of \$92 an hour until the next person's name was announced, and he/she called the station within 10 minutes. If the second listener failed to do so, the first winner earned another \$92 and stayed "on the clock." The 3:50 pm winner continued over to the 7:50 am announcement the next workday morning, making \$92 per hour until the listener was replaced. The station even placed an official want ad in the local newspaper. There were 120 winners; the longest "employee" stayed on the clock for four hours.

**COST:** COST TO THE STATION WAS APPROXIMATELY \$40,000.

**RETURN:** GENERATED A LOT OF TALK AND CREATED TREMENDOUS AWARENESS AND TSL.

## SHAKEDOWN AT B96

B96 (WBBM FM Chicago) PD Dave Shakes sums up his station's programming direction as being "positioned as Chicago's youth culture radio station. We take pride in our ability to deliver 18-plus demos to national and local advertisers," he says. "We're a very focused station with all of our departments – particularly programming, marketing and sales – centered on the philosophy of serving our two customers. Those two customers are our listeners and advertisers." The audience mix is "a synthesis that's unique in Chicago" in that both adults and teens listen to the station on a regular basis.

Musically the station is simply described as a Dance radio station. "We play the hits that fit. We're rhythmic in nature, but you'll also hear a lot of killer ballads. The bottom line is, if you look at the top SoundScan singles in Chicago each week, B96 is usually playing the top 15 out of 20." Often when a station is Dance-oriented, clubs factor heavily into airplay. At B96, "clubs are important to us in that they break new music, but we're by no means a club radio station." In fact, many clubs in Chicago wait to see what music B96 plays before including it in their mix.

Speaking of mixes, Shakes points out that the station is currently busy marketing some of the standout features that air daily on B96. "We've introduced mixes middays, in afternoon drive and at night," he notes. "Those are the B96 Lunch Party at noon, the 5:00

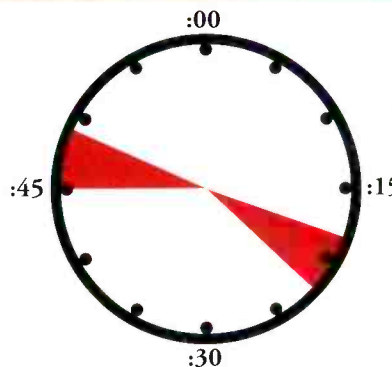

**Dave Shakes, PD B96 Chicago**

Traffic Jam and the 10:00 Remix. Those are in addition to our Friday and Saturday night Street Mix programs." Night jock Alan Kabel also hosts an all-request and dedication party weeknights at 8:00 pm. B96's big marketing promotion this spring and summer is a heavy billboard campaign, supplemented with a bumper sticker contest. The bumper stickers have the same design as the billboards (and are seen for the first time here in *The Network Forty*). The stickers are available at over 300 local White Hen stores in the Chicagoland area. White Hen is a local convenience store. The on-air payoff is \$1,000 if you hear your license number called out over the air.

# PROGRAMMER'S CONFERENCE CALL

caught up in that and keep their mindset on being focused on the format. What can go wrong? Simple things – like keeping your head on so the music doesn't run out, mentioning the old format slogans because you're not keyed in and concentrating, or getting caught up in the early hype from a start-up situation. Keeping the talent from the old format motivated was a problem because we didn't know who was going to fit and who wasn't.

**Bill:** My big problem has been with people in promotion, marketing and programming as far as suppliers not delivering on the dates they promised. My jingles were a little late getting here; I still don't have them all. We're doing our music manually. We had a computer program designed to print the intros, but that screwed up. We had problems with the music computer; we're still getting that handled. Other people affecting my timetable has really screwed me up. I'm dealing with different people here than when I signed on WZZR in Port St. Lucie. As far as everything else is concerned, we had a total team effort in getting everything labeled and organized in the control room. My staff did a great job helping me out.

**J.J.:** Here at KISS-FM, we were about 10 minutes away from going on the air when we looked at each other and asked, "What's the first song?" That was pretty funny. KODZ (the old Y95-turned-Gold) had the most terrific sign-on I ever witnessed. Phil Hall was the PD; we had one jock meeting before the sign-on and everything went perfect. Well...except that I was running the board and was the only one who didn't have a set of headphones, so the first 10 minutes was done by just watching the meters.

**THE NETWORK FORTY: What was the best sign-on situation you have ever been involved with and why?**

**Christopher:** No question about it, Hot 97.7, San Jose. It was really weird because my two very best friends in radio – Steve Smith and Michael Newman – were given the opportunity to sign on Hot 97.7 in January of 1989. We came on at 100

miles per hour and never let up. Our music and audience wouldn't let us because hot energy jams were really hot at that time. What more could you ask for? We put away the monster competition, which was KWSS at the time, in two books. We stayed focused and intense and questioned each other constantly. We screamed and yelled at each other, but we made history. Isn't that what it's all about? We worked hard and contributed to the industry.

**Bill:** I can't choose between WZZR and WBHT. At WZZR, I learned a lot – how to manage people and deal with adversity as well as the philosophy of Top 40 and being the best. WZZR is also where I made some mistakes. Here at WBHT, I have a great staff and it's a great company. The ego is being satisfied by coming back to the market and doing some damage to the old station. That's why my own drive and desire is so high. Not that I hate anyone at WKRZ; they're all really cool and nice to me. But it's a business thing and an ego thing. I wanted to go away from the market, come back and kick ass. Have them take note and have everybody else in the industry take note for my own personal satisfaction. We're not looking to put them out of business – just steal as much business from them as possible. Susquehanna does new stuff that I never knew of and there are different avenues to pursue. It's fun to continue to learn.

**J.J.:** Here at KISS-FM, it was, as Gerry De-Francesco (President of Gannett Radio Division) said, "The smoothest sign-on I had ever seen." The reasoning was that we had all of KIIS in L.A.'s music and Selector info. So when we signed on, it already sounded like KIIS-FM. Couple that with the fact that I was auditioning jocks who were already familiar with the market and the comfort zone was truly there. The comment around the market was, "They sound like they've been on for a year instead of a day!"

## UB40

### "Can't Help Falling In Love"

(VIRGIN)

UB40 has quickly established itself as a band that can do no wrong when it comes to re-makes. "Can't Help Falling In Love" was a hit for Elvis in 1961; UB40's version can be found on the *Sliver* soundtrack (the movie stars Sharon Stone... *schwing!*). "Can't Help Falling In Love" is getting a head start at KROQ and Power 106 L.A., Q106 San Diego, The Power Pig Tampa, KRBE Houston, B97 New Orleans and too many more stations to mention. This is one of those songs that sounds better on the air, so give it a few test spins and see what happens.

## GOO GOO DOLLS

### "We Are The Normal"

(METAL BLADE/WB)

First, a look at a little history. R.E.M., U2, Red Hot Chili Peppers, Toad The Wet Sprocket and many of today's biggest recording acts began as Alternative acts. What do they all have in common? Number-one records, for one thing. Fast forward to the present. The Goo Goo Dolls have the image and name of yet another Alternative band, but its sound is that of a Mainstream act with #1 in its future. "We Are The Normal" is already a success at Alternative radio; perceptive programmers at stations like 99X and WENZ are giving it early airplay. Watch this trio from Buffa-

lo closely, because if we've learned anything from the past, it's that your listeners are going to eat this kind of music up.

## STING

### "Fields Of Gold"

(A&M)

Do you get the feeling that wherever you go, Sting has already been there? Leave it to the former Gordon Sumner to call his latest album *Ten Summoner's Tales* and put 11 cuts on it. "Fields Of Gold" is the second cut from the Top-10 album and it follows in the footsteps of "If I Ever Lose My Faith In You." There's something about Sting's music that's soothing and provocative all at once. When Sting set out to record his latest effort, he experienced a severe case of writer's block. Some artists would simply recycle something old or recruit outside composers. For Sting, writer's block means no new music because every song he does comes from the heart – and *Ten Summoner's Tales* is a look deep inside his soul.

## JORDY

### "Dur Dur D'Et're Bebe (It's Tough To Be A Baby)"

(COLUMBIA)

Why does Jordy have one of the shortest biographies

around? Because the French lad just turned five years old! At five, when most of us were busy looking for more candy and trying to collect as many Matchbox cars as possible, Jordy's career is encircling the globe. "Dur Dur D'Et're Bebe (It's Tough To Be A Baby)" has topped the charts in 14 countries and was Record Of The Year in his native land. Now with America in his sights, Jordy will continue to

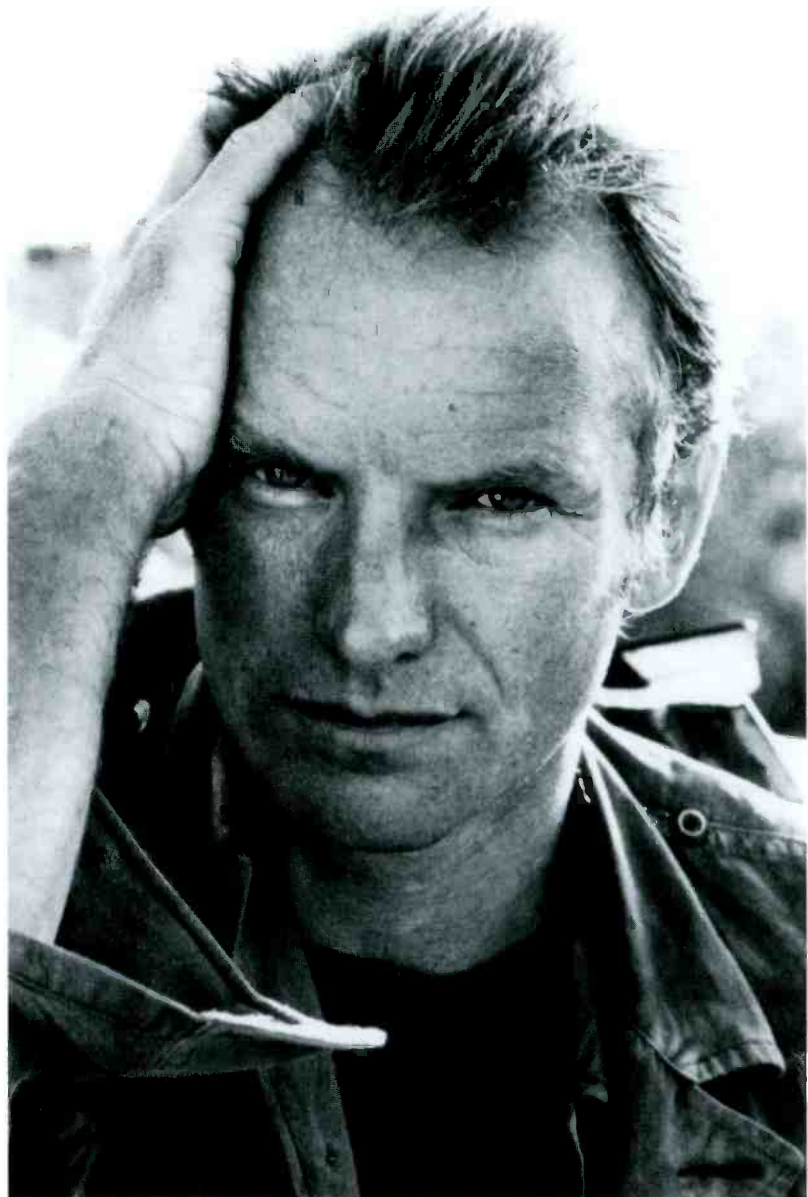

add to his college fund and maybe even get to stay up late now and then.

## BAD COMPANY

### "Little Angel"

(EASTWEST)

The Bad Company of yesterday and the Bad Company of today have little in common, except that they both crank out hits. The current incarnation struck Gold with *Holy Water* and continue to pick up speed

with *Here Comes Trouble*. "Little Angel" is the latest offering and Brian Howe further establishes himself as one of the premier Rock vocalists around. For America's heartland, Bad Company can do no wrong. The endless touring and constant radio exposure have shown that Bad Company will continue to hold on to its legendary stature.

**LUTHER VANDROSS**  
"Little Miracles  
(Happen Every Day)"

(EPIC)  
Just saying the name "Luther" can cause many women to go completely nuts. Luther Vandross has been creating Platinum for over a decade now and has yet to experience failure. Luther's latest effort, *Never Let Me Go*, is certain to take him to the top again if "Little Miracles (Happen Every Day)" is any indication. Not only does Luther shine on this cut, but he has a fairly impressive group of background singers that includes Lisa Fischer and Cissy Houston (you know, Whitney's mom). Urban radio has known about the power of Luther since he first stepped into fame in 1981 and now Mainstream Top 40 has discovered the same.

**PATTY SMYTH**  
"I Should Be Laughing"

(MCA)  
Patty Smyth has gone from nowhere to everywhere since the release of *Patty Smyth*. The first single from the album, "Sometimes Love Just Ain't

Enough" with Don Henley, is still one of the most-played recurrents in the country. "I Should Be Laughing" is the latest offering from the same woman who was the focal point of the group Scandal and the hits, "Goodbye To You" and "The Warrior." She still holds the distinction of creating the biggest-selling EP in the history of Columbia Records and is on her way to Platinum with *Patty Smyth*.

**CATHY DENNIS**  
"Moments Of Love"

(POLYDOR/PLG)  
Cathy Dennis a Dance diva? No way. "Moments Of Love" shows a side of Cathy Dennis that we haven't seen until now. After her debut album, *Move To This*, yielded four hit singles and sold over a million copies, she couldn't wait to get the second album out. On *Into The Skyline*, Cathy blows away any notion of a sophomore jinx by writing all 11 songs on the album. "Moments Of Love" has been previewed on *Beverly Hills 90210*, so it looks like Cathy has a recipe for success and is leaving out no ingredients.

**LOUIE LOUIE**  
"Walk With Me"

with his debut single. Although he hasn't exactly been a household name since then, he's well on his way with his new album, *Let's Get Started*. "Walk With Me" is the perfect vehicle for Louie to stretch out and show us what he's capable of doing. Louie's first shot at fame came when he was picked to play Madonna's Latin lover in her "Borderline" video. As a result of that encounter, Louie was encouraged to start cranking out demos of his original songs. Hit the repeat but-

ton on the CD player; this one gets better with each listen.

## ROCKHEAD

### "Death Do Us Part"

(CAPITOL)

To famed record producer Bob Rock, good things come to those who wait. Rock (who produced albums for Bon Jovi, Metallica, Motley Crue, The Cult, Aerosmith and other notables) took four years to get his band Rockhead going in the right direction. In those four years, the band spent its time in constant rehearsals and trial recording sessions. The self-titled debut album contains both hard rockers and ballads like "Death Do Us Part." Steve Jack's vocals are tough to compare to any other singer's, which is a real advantage in the often sound-alike world of Rock 'N Roll.

## UGLY KID JOE

### "Busy Bee"

(STARDOG/MERCURY)

With the success of "Cats In The Cradle," Ugly Kid Joe proved that they were not a one-hit wonder. "Busy Bee" keeps Whitfield Crane, Cordell Crockett, Klaus Eichstadt, Dave Fortman and Mark Davis

## UGLY KID JOE

in the spotlight. Ugly Kid Joe's debut EP, *As Ugly As They Wanna Be*, has been certified multi-Platinum and their first full-length album, *America's Least Wanted*, has already gone Gold. Although this band is still in its infancy, it has surpassed countless Rock acts who have been on the scene a lot longer.

## JEFFREY GAINES

### "Hero In Me"

(CHRYSLIS/ERG)

Jeffrey Gaines, who began his music career in Harrisburg, Pennsylvania, talks about the kind of heroism that you find in everyday life in "Hero In Me." He displayed his courage by believing in himself and refusing to sell out. Gaines faced a hard choice in 1989; he could've joined a band that already had a deal with a major

label or he could move to Philadelphia and concentrate on a solo career. Gaines chose the latter and his self-titled debut album shows that he made the right choice.

## CLANNAD

### "Harry's Game"

(ATLANTIC/AG)

You're right, you've heard this one before. Clannad's "Harry's Game" was featured in the movie *Patriot Games* and in a Volkswagen commercial. This Irish group has been together for two decades and counted Enya as a member before she headed off for a solo career. "Harry's Game" was originally recorded in 1982, sung in Gaelic and eventually it won the British equivalent of a Grammy, the Ivor Novello award. This type of song is never an easy sell to radio, but

with the exposure "Harry's Game" has already received through other media sources, it's probably already familiar to your audience.

## FAST FORWARD

The Proclaimers' "I'm Gonna Be (In 500 Miles)" (ERG), from the *Benny And Joon* soundtrack, is the buzz record of the week. 99X Atlanta and Z100 New York are a couple of the early entries in the "we-played-it-first" derby.

In the coming weeks, look for the new Natalie Cole and Lisa Fischer's "Colors Of Love" (Elektra). Get your hands on a copy of what could possibly be *the* breakthrough that makes Lisa a superstar.

### "You're The Love Of My Life"

(NEXT PLATEAU/LONDON/PLG)

In this tasty tune, Sybil's incredibly velvet vocals effortlessly blend over a rhythmic mid-tempo beat and melodic pianos. There's nothing harsh or abrasive here; it's just sultry and seductive, which should attract plenty of 18-34 females. Now charting at WQHT, with early adds at WWKX and WCKZ.

## DR. DRE

### "Dre Day"

(DEATH ROW/INTERSCOPE/AG)

Looks like the waiting room is full for this mad doctor. Hot on the heels of "Nuthin' But A 'G' Thang," Dre hits the streets with yet another slamming Hip-Hop tune. With Spring Fever reaching epidemic proportions, the Doc is making house calls with early adds last week at WERQ, KBXX, KKFR, KMEL, WLUM, KHQT and KPLZ. Also climbing up the charts at WPGC, WHYT, WCKZ, KPWR, KSFM, KSOL, KJMZ, KQPW, WIOQ and KUBE.

## MALAIKA

### "Gotta Know (Your Name)"

(A&M)

Malaika's in the house and she's taking names. As CeCe Peniston's homegirl, she dropped onto the Dance scene last year with "So Much Love." Now she slows down the pace just a tad on this smooth mid-tempo groover. Production by Steve "Silk" Hurley, remixes by Todd Terry and Maurice Joshua and background vocals courtesy of

Chantay Savage make this tune a given spin in the clubs.

## JADE

### "One Woman"

(GIANT)

The three-woman ensemble of Joi, Tonya and Di – collectively known as Jade – can seemingly do no wrong. Their previous success with "I Wanna Love You" and "Don't Walk Away" has established this trio as a core artist for Crossover radio. With the latter single *still* receiving major airplay nationwide, "One Woman" is moving up the charts at WPGC, WJKC and KJMZ. Set to a very down tempo, KSOL's Michael Martin says this song should not be considered a ballad, but instead a very nice transition to or from a ballad.

## SWV

### "Weak"

(RCA)

There's nothing weak here. This ballad comes on strong with a hook that you simply cannot miss. On the charts at over 24 major Crossover stations including WQHT, WIOQ, WHYT, WHHH, WLUM, KSOL, KPWR, KGGI and WCKZ. Topping the charts last week at KBXX, KJMZ, KMEL and KUBE.

## HOUSE OF PAIN

### "Who's The Man"

(TOMMY BOY)

From the motion picture of the same name comes this full-bodied jam with fine malt lyrics. Brewed with the hippest of Hops, "Man" contains a sample

from The Kay Gees' "The Master Plan." Already on the air at WQHT and WWKX and in the mix at WZOU, WCKZ, WHHH, KMEL and KPRR.

## A BEAT AHEAD

**MO MUSIC...** On the Club/Mix Show tip, be on the lookout for *Interceptor's* "Higher Love" (Emotive) and Glenn "Sweety G" Toby's "You Got Me Workin'" (Great Jones/Island). Both are excellent House tracks with male vocals... The hottest buzz record in the clubs is Jay Dee's "Plastic Dreams" (Epic), a *fierce* Trance track with very sparse vocals... Vinyl junkies are in for a real treat with Billy Idol's "Heroin" (Chrysalis/ERG), which boasts nine smacking' remixes on two white 12-inches... Out in a few weeks are Sound Factory's "Do It To The Rhythm" (RCA), Midi Rain's "Shine" (Vinyl Solution/Columbia) – check out "Pierre's Chicago House Mix" by DJ Pierre, it's all the rage – and Book Of Love's "Boy Pop" (Sire/WB)... And you must listen to all 11 tracks on the upcoming New Order LP, *Republic* (Qwest/WB). This album takes the group back to its original sound that we've come to know and love. Favorite tracks include "Special," "World," "Ruined In A Day" and "Spooky".

**RASTA RADIO...** On the Reggae tip, check out Chaka Demus & Pliers' "I Wanna Be Your Man" (Mango/Island) – a great jam with light toasting... And how do you categorize Mad Peo-

ple's "Bass" (unsigned). It starts off with tribal chantings and then moves into one helluva Hip-Hop track. It's fresh, it's different, it's *phat!*

**URBAN JAMZ...** With an early add last week at KSFM, U.N.V.'s "Something's Goin' On" (Maverick/Sire/WB) is also on the air at KHQT, WPGC, KKFR, WCKZ and WJMO. It's also #5 in requests at KBXX, where it's getting seven spins a day... Loosely defined, LL Cool J's "Pink Cookies In A Plastic Bag Getting Crushed By Buildings" (Def Jam/Columbia) means safe sex. "Plastic Cookies" are sex organs, the "Plastic Bag" is a condom and "Getting Crushed By Buildings" is having sex... And by all means, give a listen to Mica Paris' "I Wanna Hold Onto You" (Island/PLG) and D-Influence's "No Illusion" (East-West) – both are great.

**BACK STROKE...** Already out and happening are R Rendition's "Drives Me Crazy" (Quality), which is on the air at KHTN and KDON; and Tene Williams' "Give Him A Love He Can Feel" (Pendulum/Elektra), which got 50 spins last week at KPRR, 36 at WJMO and WZOU, 41 at WQHT and 38 at WKSS.

**PARTY ON, WAYNE...** Actor/comic Mike Myers has a new flick coming out in July. Its accompanying soundtrack features a Ned's Atomic Dustbin cover of the Bay City Rollers' "Saturday Night" (Chaos).

## GEN X

You remember who we are, yet let us re-introduce ourselves. We are Generation X. You've seen us before — we're hard to miss. In the early '80s we wore smudged eyeliner, had lethal spikes sprouting from our scalps (before we shaved our heads), dark lips and the blackest wear we could find. Today, sporting various flannel assortments and the grungiest gear from our local Goodwill, we and the Godheads of music are *your* radio revolution. The current boom in "Alternative" music has taken at least 10 years to evolve into a movement that is now marketable to all genres. Mainstream radio, you have heard the Alternative... and it is us.

This column, heretofore known as "Gen X," will be your pilot and comrade to *The Network Forty's* own Alternative chart (appearing to the left). This long-awaited appearance will keep you up-to-date on the hip shots of today's Alternative music that is raising levels of exasperation everywhere, including your own music meetings! We will be here to separate the wheat from chaff and the meat from the bone to create a generous potluck pie that's filling enough for Generation X and digestible enough for radioland.

From the Masters of Alternative talent, recent releases have been burned into Alternative radio playlists worldwide. Already a couple weeks into the release factor are Depeche Mode's salute to bowling alleys, "Walking In My Shoes" (Sire/Reprise), Soul Asylum's grunge look and Petty-ish sound for the '90s, "Runaway Train" (Columbia) and the globe's greatest cover band, UB40, doing its Elvis impersonation, "Can't Help Falling In Love" (Virgin). And new this week is Billy Idol's raving Techno-scrooge rip of The Velvet Underground's "Heroin," which stands firm on familiar ground.

Hoarding in on the Gen X *Star Search* movement, we will showcase important bands who have yet to gain radio recognition or who have been out of the Alter-loop for a period. For instance, take Aimee Mann...*pardon?* Years ago, she had an across-the-board smash with Til Tuesday called "Voices Carry." After doing a disappearing act that would do Houdini proud, she's back with "I Should've Known" (Imago), a hot cider, guitar-crunch Pop concoction that sips from the inside. The Posies' "Dream All Day" (DGC/Geffen) overwhelms us with a Pop/Rock gem that won't go unnoticed for its filling energy and nostalgic melody. Get ready to hear power chords in overdrive with the grungier side of the pit; take an ear to Heatmiser's first single, "Still" (Frontier/BMG). A single that was never intended to settle your nerves.

Novel bands of today and those who aren't as fresh to our palates are continually serving us "top dishes" ready to be chosen, chewed and digested. Take the latest single from Matt Johnson's The The, "Love Is Stronger Than Death" (Epic), in whole. The dimaxing growl of Matt's low, growling vocals, the piqued guitar and heart-pounding drum beats quench investigating appetites. PJ Harvey's second Island/PLG album is out, led by "50 Ft. Queenie," a hard-edged search into the taffeta closets of a transvestite's reality. Tanya Donnelly graduated from Throwing Muses with honors via Belly's "Feed The Tree." The follow-up single, "Slow Dog," will solidify their appeal... The Goo Goo Dolls' "We Are The Normal" (Metal Blade/WB) is just the first hit from an album that's strong all the way through.

Not hard to calculate for newcomers is The Cranberries, who first single, "Dreams" (Island/PLG) boasts clever variations on The Sundays and Sinead-esque vocal inflections. It's a relationship song, but this one won't give you a bellyache. Perry Farrell's puppy, Porno For Pyros, smacked us a couple weeks back with "Cursed Female" (WB), a self-serving arrangement of echoed vocals and tribal-Funk drum beats. Don't judge the single too harshly; there's a male version on the album as well. After that, expect to be confronted with "Pets." Fresh from the Pixies, Frank Black first gave us the hard-driving and intoxicating "Los Angeles;" next up is "Hang On To Your Ego" (4AD/Elektra). Probably the most-requested Alternative cut is Radiohead's "Creep," a perfect yank of guitar riffs and alarming lyrics.

And this is just the beginning. Join us next week in Gen X!

- Top 40 hits include "Running With the Devil," "Pretty Woman," "Hot For Teacher," "Jump," "Dreams," "When It's Love."
- Edward Van Halen, still considered to be one of the most influential lead Rock guitarists in the world, is married to Valerie Bertinelli, who starred in the TV sitcom, *One Day At A Time*.
- The band has opened its own nightclub, Cabo Wabo Cantina, in Cabo San Lucas in Baja, Mexico.
- Latest record: the double-CD live album, *Right Here, Right Now*, is culled from the last three tours. Besides the renditions of past hits, it also features a previously unrecorded song – their version of the Who's "Won't Get Fooled Again."
- A companion piece to new album is the *Right Here Right Now* longform video, a 113-minute tape of concerts in Fresno, CA during the 1991-92 *For Unlawful Carnal Knowledge* tour.

- To this point, Van Halen has sold over 45 million records worldwide; this is their 10th release.
- Recent awards: "Best Hard Rock Performance With Vocal" Grammy. "Video Of The Year," "Best Director" and "Best Editor" MTV Awards for a video of "Right Now."
- Van Halen's Summer tour is one of the hottest tickets in the country; they're selling out arenas within minutes.
- Current single: "Dreams."

- When Ron Wood left the Faces to join the Rolling Stones, Stewart moved to L.A. to concentrate on his solo career. He enjoyed hits with "Tonight's The Night," "Hot Legs," "Do Ya Think I'm Sexy?," "Infatuation," "Some Guys Have All The Luck" and "Forever Young."

- Renowned ladies man is currently married to model Rachel Hunter.
- Latest album: *Unplugged...and Sitting Down* is an MTV acoustic live performance that reunites Stewart with Wood.

## NORTHEAST REGIONAL ANALYSIS

•The top 3 PPW titles at WPLJ New York just don't seem to burn. Boy Crazy and Vanessa Williams both had 40-plus play this week and the 41 PPW for Sting was up from last week's 29. David Crosby & Phil Collins' "Hero" posts the biggest airplay gain along with the new Tina Turner, already receiving 24 plays per week.

•92Q Baltimore's power category this week looks to be Levert, SWV, Men At Large and Regina Belle. Huge PPW gains were made by Silk ("Lose Control") and Chanté Moore as well.

•Big movers at TIC-FM Hartford this week include Laura Enea, SWV ("I'm So Into You") and George Michael's "Somebody To Love," which increases its plays from 5 last week to 30 this week. Heavy rotation continues on The Spin Doctors, Silk, Ugly Kid Joe, Jon Secada and Vanessa Williams. New this week with 23 PPW is Johnny Gill.

## SOUTHERN REGIONAL ANALYSIS

•The most-played records at Star 94 Atlanta last week were Sting, Vanessa Williams, Eric Clapton and The Spin Doctors. Upped in rotation were Jade, Rod Stewart and Janet Jackson. The station is also spiking Inner Circle, Jeremy Jordan and the new Boy Crazy for the first time.

•Like many stations across the country, 195 Birmingham added Kenny G & Peabo Bryson this past week. They also hit 4 Non Blondes. Look for upped rotations on both soon. Top PPWs this week are Sunscreen and Sting, with Duran Duran gaining the most airplay. Also upped in rotation are Restless Heart and Inner Circle.

•The top PPW performer at WAPE Jacksonville this week is, once again, Spin Doctors, but what a move Rod Stewart made! "Have I Told You Lately" is up from just 26 spins last week to 61 this week. Also making an impressive rotation gain - again - is Jade's "Don't Walk Away." New spikes include En Vogue with 32 PPW, Stereo MC's with 23 and Marc Cohn with 9.

•Janet Jackson is at the top of KPLZ Seattle's PPW list this week. Also in power rotation are PM Dawn, Jade, Jeremy Jordan and SWV ("Weak"). Is SWV big enough to rotate two hits simultaneously? Yes, says KPLZ, with "I'm So Into You" still receiving 39 plays per week. Also being spiked: Tené Williams, New Order and Freedom Williams, who's already getting 23 plays per week!

•At KKRZ Portland, Jade, Michael Jackson, SWV ("I'm So Into You"), PM Dawn and Silk garner top rotation honors. New songs being spiked include New Order and Kenny G with Peabo Bryson. In the mix for some time, but showing little burn, are Boy Crazy and the Spin Doctors.

•OK95 in Washington's Tri-Cities checks in with Vanessa Williams, PM Dawn, Boy George and Michael Jackson in the powers. Restless Heart moves up in rotation, as does New Order and Boy Crazy. New songs already receiving over 25 PPW include Tina Turner, Jude Cole, Marc Cohn and David Bowie.

**PAST PERFORMANCE**

The staff of *The Network Forty* gets together every Monday at 5:00 pm for our weekly music meeting. After listening to all of the available new releases for the week, we discuss, analyze and come up with the conclusions that are listed in the "The Morning Line." Individual songs are judged solely on quality and hit potential.

Each week, no more than one record will be the "Consensus Pick;" it's the single that we feel has the greatest potential to be a hit on *The Network Forty* chart. The entire staff must agree on the "Consensus Pick" or there will not be one for that week.

"Best Bets" (maximum of three records, no minimum) are new releases that we believe have great potential to be across-the-board hits. The difference here is that only a majority of *The Network Forty* staffers – and *not* everyone – needs to endorse the record.

The "Handicapper's Pick" (maximum of one record) is one staff member stepping out and picking one new record that they think has the potential to be a hit. We'll print the handicapper's name, so if you don't agree, you'll know who to call.

The "Test Tube Baby" (maximum of one) is a record that will be released in the future, but one that the staff agrees will be a hit.

The "Guest Handicapper" is a programmer from Radioland. The "Guest Handicapper" picks a maximum of three records that they believe has the greatest hit potential. If you want to be a "Guest Handicapper," just let us know and we'll work you in.

The "Past Performance" side of this page is our way of telling you how we're doing. Not only will we blow our own horn when we're right, but we'll admit it when we're wrong. We don't claim to have the right answers *all* the time, but with the collective radio experience of *The Network Forty* staff, we think we'll do just fine.

Finally, "The Morning Line" is done without any outside influence. The records we pick are the records we believe in, without regard to hype or artist affiliation. If we think a record is a hit, you'll see it here.
