## Harte-Hanks To Buy Southern For \$57 Million

Harte-Hanks Newspapers Inc. has agreed in principle to purchase Southern Broadcasting Co. for a total price of \$57 million. Southern, based in Winston-Salem, North Carolina, owns WSGN/Birmingham, KOY & KRFM-FM/Phoenix, WKIK & WYYD-FM/Raleigh, WEZI-FM/Memphis, KULF & KYND-FM/Houston, and WRVA & WRVQ-FM/Richmond.

In order to meet FCC requirements, Harte-Hanks will sell WGHP-TV/High Point, NC, and KFWD-FM/Dallas, which it is buying from Southern. The newspaper chain is also negotiating to buy TV and radio stations in Jacksonville and Tampa. All transactions are subject to government and Southern stockholders' approval.

## Arista Signs Al Stewart; Pacts With Buddah

Arista Records held its 1977 convention in San Diego from August 24-27, utilizing the occasion to announce a number of significant new signings.

Convention attendees learned that Arista has entered into an agreement to distribute Buddah Records (just recently affiliated to RCA for distribution), and that the label has signed hit AOR/Top 40 artist Al Stewart. Also newly signed were former Temptations singer and solo artist Eddie Kendricks, and songwriter/singer Richard Kerr (co-writer of "Mandy"). In addition, Arista has entered into a production agreement with Jeff Lane, producer of Brass

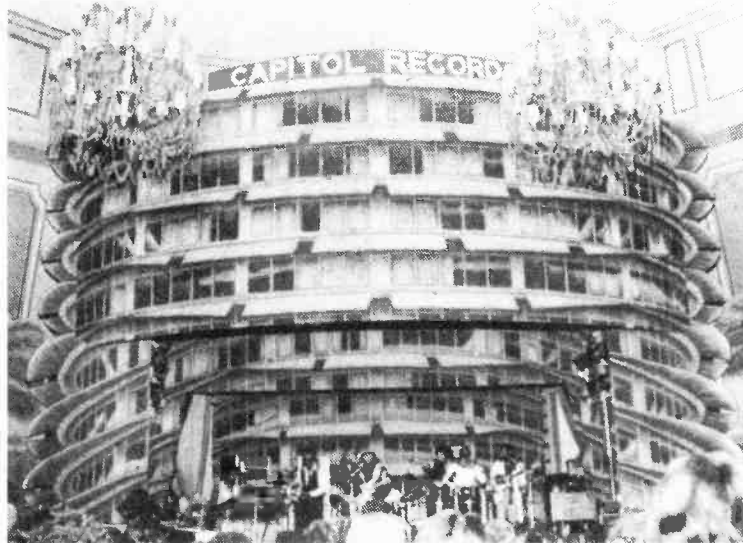

Construction; Lane will produce product by Mandrill, Garnet Mimms, and Kendrick. As previously speculated, Arista will also be distributing Passport Records, an AOR-slanted label formerly distributed by ABC.

Over 300 company personnel and guests attended the Arista meetings, which were highlighted by label President Clive Davis' keynote address and a radio panel featuring key broadcast notables. Speeches, seminars, new product previews, and awards presentations also were spotlighted, as were live performances by ex-Band member Rick Danko, Mandrill, Commander Cody, and the Dwight Twilley Band.

**UNPARALLELED TALENT ON DISPLAY**— The triumphant R&R softball team gathers gleefully before the cameras after a strong showing in its initial contest against a record industry team sponsored by Martoni's. After an intensive practice drill session during the Labor Day Weekend (not to mention the addition of a few talented ringers), the R&R Breakers will be prepared to take on any radio station or record industry team in existence. ## Capitol Conference Combines Confab, Celebration

Capitol Records held its first National Conference since 1971 in San Diego, bringing together over 300 employees from the U.S. and foreign offices. The meeting was the company's biggest ever, and featured seminars, departmental meetings, recreation, an awards banquet, and artist showcases. President Bhaskar Menon delivered the keynote address, announcing an improved financial picture for 1977 and predicting further growth. Performers at the conference included Helen Reddy in a special showcase, Mac McAnally (Ariola), Richard Torrence, Maze featuring Frankie Beverly, Dr. Hook, Bert Sommer, Caldera, and the Little River Band. Conference attendees also saw Carole King and Navarro's Greek Theatre performance in Los Angeles.

Pictured is the Grand Ballroom stage, where the artist showcases

were held, decorated with an enormous ceiling-high reproduc-

tion of the famous Capitol Tower. For more pictorial highlights, turn to page 40.

## AFTRA, Record Industry Talks At Standstill

Recent talks between AFTRA officials and record industry representatives have apparently failed to arrive at mutually acceptable terms for a new contract agreement. AFTRA is reportedly demanding increased rates of payment and higher pension and welfare benefits, with record companies unwilling to go along.

The last effective AFTRA/industry pact expired March 31, with union members working on a day-to-day basis on the understanding that any eventual fee increases would be retroactive. After early August talks ended in disagreement, an impasse has apparently been reached, with no new talks scheduled at present.

R&R's offices will be closed on Lat. or Day, Monday, September 5.

## WGN-Continental Broadcasting Buys Sacramento Stations

WGN-Continental Broadcasting Co. has reached an agreement with Kelly Broadcasting Co. to purchase KCRA & KCTC-FM/Sacramento for an undisclosed amount. Kelly will continue to operate the stations until WGN-Continental assumes control following FCC approval of the sale. The new prospective owners anticipate maintaining the two stations' Pop/Adult formats with the same staff in charge. WGN-Continental also owns WGN-AM & TV/Chicago, WPIX-FM & TV/New York, KWGN-TV/Denver, KDAL-AM & TV/Duluth, and WICC/Bridgeport.

## NAACP Challenges License Renewals For LA. Media

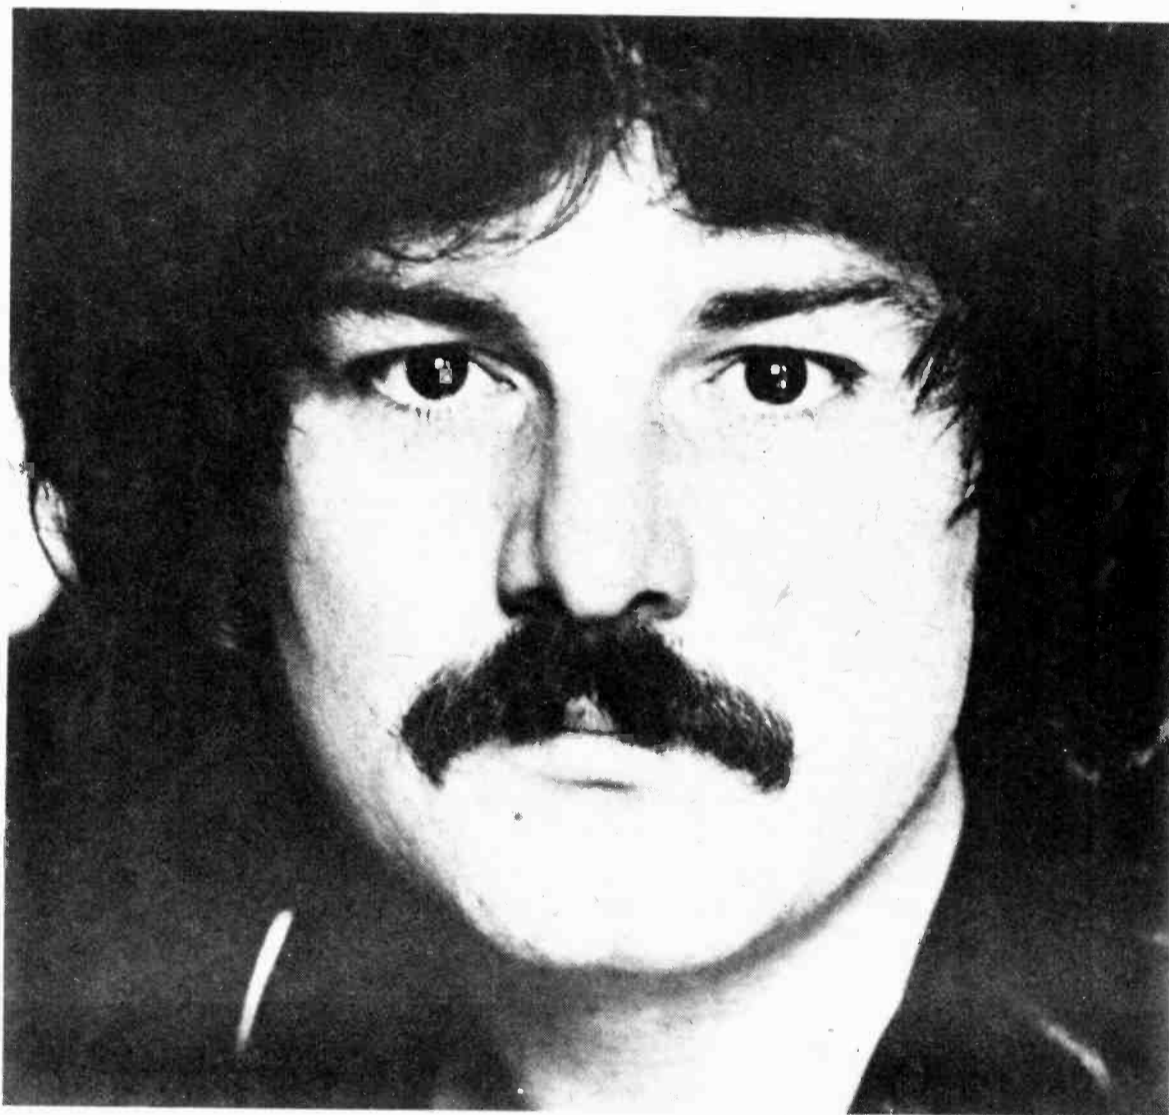

The Beverly Hills/Hollywood chapter of the NAACP has legal proceedings underway to file damage suits against virtually all of Los Angeles' major television stations and a number of key local radio outlets, with the intention of convincing the FCC to deny the renewal of their licenses.

The NAACP accused local broadcast stations of depriving "Black American citizens...of meaningful participation in employment and programming, not to mention meaningful management. The amount to be asked in the proposed suit was expected to be \$500 million.

The main thrust of the NAACP announcement was aimed at television's portrayal of Black culture, but the issue of hiring practices and insufficient numbers of Blacks in key positions, which affect radio and television equally, was also stressed. The NAACP listed the following Los Angeles radio stations as offenders: KABC, KNX, KLAC, KMPC, KFI, XTRA, KHJ, KBRT/KBIG-FM, KTNQ, KIQQ-FM, KPOL-AM-FM, KDAY, KGFJ/KUTE-FM, and KFWB. All VHF television outlets in the city with the exception of KCOP-TV were also named with special attention paid to those stations broadcasting sports regularly.

### FIVE-PARTON HARMONY

KSO/Des Moines held a Dolly Parton lookalike contest following the RCA artist's performance at the Iowa State Fair. Contestants posed next to a lifesize cardboard cutout and polaroid pictures were used to pick the finalists. KSO PD J.P. Andrews hosted the finals, which were chosen by audience applause, and the deserving winner is pictured (far right) with the other lookalikes.

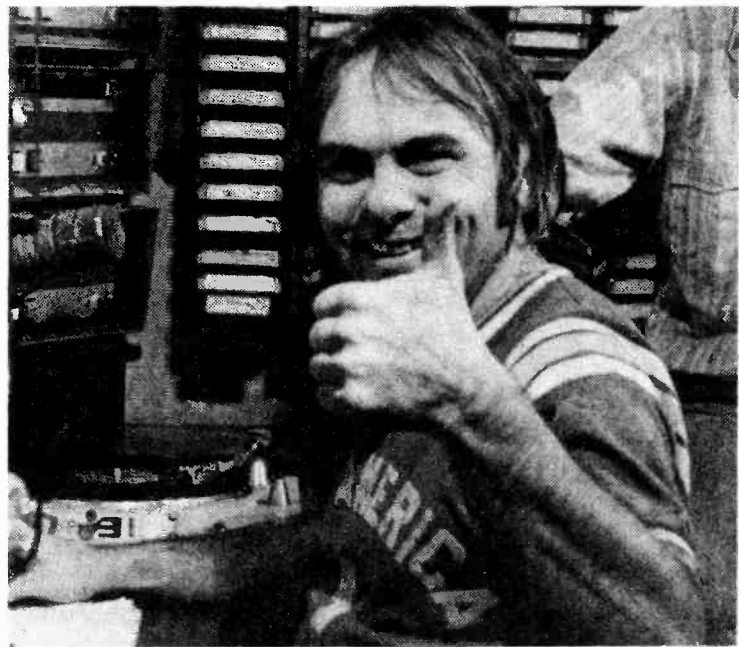

### NINE DAY WONDER:

## Jock On Air For 211 Hours

Rick Tyler, air personality at **KLID/Poplar Bluff, Missouri**, broke the world's record for continuous broadcasting by staying on the air for 211 hours and 29 minutes. The old record, held by Knoxville jock

Jim Humphreys, was 208 1/2 hours. Tyler was allowed short breaks to eat and was permitted to nap during news breaks, none of which lasted more than four or five minutes. He suffered from a sore

throat and swollen feet, and also experienced a number of hallucinations during the marathon. At one point he imagined a lighted sign above the broadcast booth to be a truck about to crash through the wall. He pushed a companion to the ground trying to save his life. The record-breaking attempt attracted widespread press and local TV coverage.

### LIFESONG TO CBS

Lifesong Records will be distributed by CBS as an Associated label as the result of a new agreement. The label has had Top 40 hits with Henry Gross and Dean Friedman, and also has title to the hit recordings of the late Jim Croce, which were produced by label co-owners Terry Cashman and Tommy West. Pictured at the signing (l-r) are Tony Martell, Vice President/General Manager, CBS Associated labels; Ron Alexenburg, Senior Vice President, Epic; Phil Kurnit, Vice President, Lifesong Records; Bruce Lundvall, President, CBS Records; (seated) Terry Cashman, President, Lifesong.

### TANNEST, ANYONE?

WMEE/Ft. Wayne recently staged a "Show Us Your Tan" contest, and the results proved that Indiana women can give California girls some healthy competition. 20,000 people showed up to watch 84 entrants display their skin tones, with first prize being a Caribbean cruise. Pictured is a likely contestant winning tan points for effort.

## FCC Commissioner Denies Bias Accusations

FCC Commissioner **James H. Quello** responded to charges from public lobby group **Common Cause** that the commission favors business interests over consumers by fervently defending FCC (and other federal regulatory groups') procedures. "The commissioners have an open door policy. We're as available as the nearest phone," he said, declaring that the FCC must seek out all interested views on a subject to determine the best

course of action.

Common Cause had reported that regulatory commissioners (including the FCC) met with industry representatives ten times as often as with consumer groups. Quello responded that the frequency of meetings was not as important as the actual content, and that he has often warned industry representatives about attempting to further their own interests in dealing with the FCC.

## STEREO IS NEXT TO GODLINESS

"If He had wanted us to listen to AM, He would have given us only one ear!"

This man can save your ears! He's Programmer Paul Ward of WROR, and he listens to The Radio religiously! Programmer Paul is of the FM persuasion and cannot tolerate AM infidelity! "We must convert the aurally depraved to FM," Programmer Paul knows, "because, as the Good April/May Book says, Two ears are better than one!"

Mono heathens! Take heed! There's hope now! If you actively buy or plan for Boston radio, manage an account for a client using Boston radio, or are a principal manager of a bona fide Boston advertising agency and your

ears suffer the affliction of "AM-only" while in your car. Programmer Paul can convert you to FM now! Send him a brief description of your plight on your company's stationery today! Through the auspices of WROR, Programmer Paul will personally answer your letter and instruct the first 250 of you he hears from how to pick up your FREE FM converter! And, through an exclusive special arrangement with the powers that be, Programmer Paul will even arrange to have it installed for you for a minimal service charge!

Have Faith In FM! WROR Saves!

**WROR 98FM STEREO**  
The Golden Great 98!

©RKO General, Inc. 1977

WROR/Boston Program Director Paul Ward makes a strong case for the righteousness of stereo radio in the above poster, scorning "AM infidelity" and quoting the "Good April/May Book" to back up his "divine" inspiration that "two ears are better than one." The poster's message goes on to encourage "mono heathens" to hear the light and convert their advertising dollars to FM stereo (not forgetting WROR itself), and to "have faith in FM."

## Combined Acquires WDM-FM/Detroit

**Combined Communications**, following their assumption of control at **WWWE/Cleveland** (R&R 8-26), have agreed in principle to purchase **WDM-FM/Detroit** for \$2 million cash and 25,000 shares of **CCC** stock from **Lincoln Broadcasting Co.** The agreement is subject to FCC approval.

## Arbitron Reissues Norfolk Report

**Arbitron** has announced that its April/May Norfolk-Portsmouth-Newport News-Hampton market report will be reissued August 29. According to the company, the original report combined returns from two counties, but response from the smaller county was much heavier than in the larger, and listening behavior in the two counties was "dramatically different." The new report will separate the counties.

## FCC Invites Comments On Dropping 3rd Class Exam

The FCC is requesting broadcast industry comments on its proposal to drop the requirement for tests for third-class radio operators. Under the proposal, routine operation of AM and FM stations, where permitted, could be performed by persons holding the new restricted radio telephone operator permits, for which no exams are required. The proposal also calls for a dual license structure (one series for routine operation, one for technical operation and maintenance). Deadline for comments is October 3, for reply comments, October 31, with further details available from the commission.

## Esquire Acquired By Felker

**Esquire Magazine** has been purchased by a group headed by **Clay Felker**, former **New York, New West**, and **Village Voice** head. **Esquire's** Board of Directors, which administered the slick monthly for 44 years, noted recent losses and expressed hopes that the new leadership would signal a resurgence. The magazine was a pioneer "Men's" publication in the pre-**Playboy** era and has maintained a prestigious literary reputation over the years. The **Esquire** purchase marks a return to publishing for Felker, who recently lost a bitter fight to Australian press magnate **Rupert Murdoch** for control of **New York, New West**, and the **Voice**.

## L.A. Times Removes X-Rated Film Ads

The **Los Angeles Times** eliminated all ads for "hardcore pornographic movies" last week in a surprise move. Times publisher **Otis Chandler** cited a lack of redeeming values and stated it was "entirely out of character" for the Times to "play a role in the promotion of commercialized pornography." In removing the ads, the Times will lose up to \$1.5 million annually, while first box office returns from affected theaters showed up to 25% drops. The paper also previewed its own "Family Film Guide," aimed at evaluating film content in more detail than the usual rating system.

## Networks Net Profits Up 42%

The three national commercial networks earned a combined profit of \$295.6 million in 1976, according to the FCC's annual financial report, representing a 42% increase over last year. Revenues were up 26.5% in 1976. 91% of reporting VHF TV outlets enjoyed a profitable year, while two-thirds of reporting UHF stations were in the black.

## Anacin's "Better-Than-Tylenol" Ads Cause Court Headache

**American Home Products Corp.**, makers of **Anacin**, have been forbidden by a federal District Court permanent injunction from suggesting in radio, TV or print advertisements that **Anacin** is superior to **Tylenol** (**McNeil Laboratories**). The injunction scored **Anacin's** claims as "false representations."

## KFWB Gives News Feminine Slant

**KFWB/Los Angeles**, an All-News station, observed **Woman's Equality Day** (8-26) by inviting a number of female celebrities to read the news all day. Included in the neophyte newscaster ranks were **Judy Carter**, the President's daughter-in-law; **Maureen Regan**, talk show hostess and daughter of ex-Governor Ronald Reagan; **Beatrice Arthur** of "Maude," **Patty Duke Astin**, **Nanette Fabray**, **Barbara Feldon**, and singers **Nancy Wilson** and **Freda Payne**.

## Black Magazine Readership Report Results

In a recent report by **Lee Slurzberg Research** in New York, Black magazines "Ebony," "Jet" and "Essence" have greater Black female readership than general market women's magazines such as "Good Housekeeping," "Better Homes & Gardens" or "McCalls." However, "Sports Illustrated" is read more by Black men than Black-oriented sports magazines such as "Black Stars" or "Black Sports," according to the same poll.

## Upper Class Terms Music High Priority

According to a **Gallup** study commissioned by **NBC**, highly educated and high income groups rate music "very important" in radio programming. 67% of college graduates polled found music important, 66% of business workers, and 62% of those with annual incomes above \$20,000. Demographically, 68% of those under 24 ranked music as important, and 61% of those under 34.

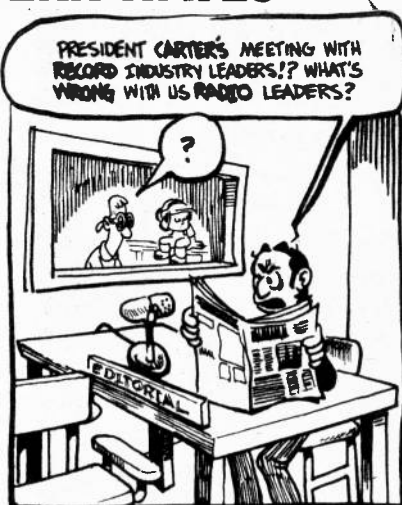

## London Records Projects \$2 Million Profit Increase

**London Records'** profit for fiscal 1978, ending next March, is projected to reach \$2 million over '77's profit figure. A greater volume of Classical product sales, catalog sales and recent Disco releases are given credit for the potential company growth. London is in the process of realigning its national distribution ties and has recently opened a Los Angeles office in anticipation of further growth.

## KTLA/KMPC Studios May Become Historic Monument

The **KTLA/KMPC** studios, located on the site of the old Warner Bros. studios where numerous classic movies were filmed, may be declared a historic-cultural monument. If the **Los Angeles City Cultural Heritage Board's** qualifications are met, the declaration will take place to coincide with the film industry's October 6 celebration of sound pictures' 50th anniversary.

Guitarist **Mike Bloomfield** is also on the Clouds roster. ## Radio Station System Control Responds To English

The IGM company has developed a new system control called "Basic" which responds to English commands, thereby, according to IGM, "virtually eliminating coding of information, event numbers, or other alpha-numeric coded data." When you wish to enter a commercial, you can program a "Basic" system in English and it works. The "Basic" A system holds up to 8000 schedule entries, and reportedly is relatively inexpensive. Further information from IGM, 4041 Home Rd., Bellingham, Washington 98225. Phone number: (206) 733-4567.

## Guitarist Plays 6 Day Solo For World Record

**Tim Smith** of Orlando, Florida broke the world record for continuous guitar playing last week, picking and grinning (or at least picking) for 142 hours and 15 minutes. He broke the old record, held by an English guitarist (not **Alvin Lee**), by 14 1/2 hours. After completing the marathon, Smith complained not of sore fingers, but of sore feet from standing so long. At deadline time, no offer to join **Led Zeppelin** was forthcoming.

## Rock Manager Hartmann Scripts Music Business Film

**John Hartmann**, longtime music industry personal manager (now handling **Poco**, among others), has written the original screenplay for "Los Angeles Story," a film project focusing on three days in the lives of a Rock band playing the Forum. Hartmann and **Harlan Goodman**, also a personal manager, will be Executive Producers, with **Gary Essert** producing. Hartmann intends to cast actor/musicians in key roles.

## Moonlighting Heavier Than Ever In U.S.

4.6 million American workers currently moonlight, a record number, according to the **Labor Department**. One-third of multiple jobworkers moonlight to meet regular expenses, while only 20% reported enjoying their second jobs. Moonlighting is still more common among men than women, but the percentage of increase is much higher for women, who now represent 25% of all moonlighters.

## NBC's Monday Movie Tops TV Week

**Gina Lollobrigida** and her 1969 film vehicle "Buona Sera, Mrs. Campbell," broadcast on **NBC**, topped all comers on TV for the week ending August 21. **ABC** won the network battle for the second straight week with a 15.5 rating, followed closely by **CBS** at 15.1 and **NBC** at 14.3. Perennial leader "Charlie's Angels" came in second, followed by "Laverne & Shirley," "Happy Days," "Barnaby Jones," "Super Cops" (CBS movie special), "Szyzzyk," CBS hot new series, "MASH," "Eight Is Enough" and "The Carey Treatment" (CBS movie special). **ABC's** "David Soul Special" finished 22nd, while the same network's new music-related "Sugar Time" series was 27th, down from 13th in its debut week.

## RCA Unveils Selectavision Videotape Recorder

RCA displayed its new **Selectavision** home videotape recorder, scheduled to reach the market in late September. The unit carries a suggested retail price of \$1000, lower than any of its competitors, and has the capability to record four hours of programming on a single cassette, as opposed to other brands' two. A \$4 million advertising campaign will launch **Selectavision**. RCA also indicated that it has no plans to market prerecorded tapes at this point; blank cassettes will be available at \$17.95 for two-hour tapes and \$24.95 for four-hour.

**Amtrak** has announced prices for their U.S.A. Rail Passes, good for unlimited travel for specified periods, will drop sharply on September 1. Passes for 14 days of travel will decrease from \$290 to \$185; from \$365 to \$250 for 21 days, and from \$450 to \$295 for 30 days. These passes are good on coaches but may be upgraded for travel on metroliners, sleeping cars or other premium space.

## A New Image For Howard Johnson's

**Howard Johnson's** restaurants have long been known as a stopping off place for millions of travelers where they could get a quick bite to eat. The head of Howard Johnson's wants to change that image and turn the restaurants into "a place for dining rather than snacking." Because of this transit image, the restaurants have become vulnerable to the energy crunch, in that a lot of Americans are cutting back their travel plans. To combat this problem, Howard Johnson's will attempt to appeal to more local people and broaden its clientele.

## Cure For Factory Drudgery In The Soviet Union

Soviet psychiatrists have developed what they hope to be the ideal stimulant for the drudgery on furniture assembly lines. The "Rooms Of Good Cheer" are currently being tested in one of the largest furniture factories in the Soviet Baltic Republics. Two special six to eight minute breaks are scheduled where workers can watch special short films of their choice. The idea was put into affect after certain automation had been installed. While the automation relieved physical strain on the workers, it created increased mental strain. The experiment has been so successful so far that the government is taking the "Good Cheer" idea seriously.

## HARDEE BOX MYSTERY

WSGA/Savannah and the local Hardees' hamburger outlet collaborated to suspend a mystery box via crane in the Hardees parking lot for two weeks, while clues were given on the air and listeners registered guesses as to the box's contents. Below, the airborne box; below right, the winner opens his prize (a complete car sound system) with WSGA Assistant PD Brady McGraw looking on.

Rumor is that KIKX/Tucson will go Country September 17. Street Talk is that Jim Collins and Chuck Roberts are the two being looked at for the WAKY PD gig.

Kent Burkhardt is now consulting KANC/Anchorage.

Rumor is that WIBG/Philadelphia will change call letters to WZZD and call itself "Wizard 99."

Rod Stewart has split with his live-in girlfriend Britt Eklund. Rod has agreed to pay her \$2,500 a month and to let her continue to live in his home until a court hearing later this month on her suit against Stewart. Speaking of problems with females, Mick Jagger is reportedly getting ready to drop wife Bianca very shortly.

Will Sandy Beach be the next PD at WKBW? Sandy is a former KB jock and is now in Erie, PA.

KASH/Eugene, Oregon has switched back to Top 40 from an All-News format.

KAYD-FM/Beaumont, Texas, has switched to Top 40 from ACR.

WNDE/Indianapolis PD Dave Parks and his gang just ran a promotion at the Indiana State Fair called "Drop Your Pants." Things are wilder than I thought in Indy. (See page 3 for another example).

Bob Baron is looking for a good jock at WAAY/Huntsville. Also, Chuck Morgan is looking for a Production/Continuity Director for Z95/Grand Rapids.

Former KNUS/Dallas PD Christopher Haze called to say he is alive and well and still living in Dallas and can be reached at 214-369-1010.

If AM radio is dying, nobody in L.A. really knows it. By the fall book there will be three AM Top 40 stations doing battle...KFI, TEN-Q and KHJ.

I was in Providence, Rhode Island, last weekend for the Northeast Secondary Radio Conference, which I thought came off quite well. It was great meeting so many of our R&R reporters and having the time to sit down and talk radio and music. It was also great seeing some of the Boston area promo guys, who still haven't changed. And of course the highlight of my stay was hanging out with Bobby Poe and going to bed early every night...yawn!

This week's photo flashback is from 1967 and shows Bwana Johnny, presently doing mornings at KIOA; Bobby Vee; Nick Anthony and John Antoon. Both Bwana and Anthony were at WUBE/Cincinnati, when the station was Rocking. John Antoon was doing promotion for Liberty Records. As you can see, Bwana was using the Vee album to cover the bulk of his upper-middle demographics.

# Eric Carmen takes the country by storm.

"Boats Against the Current" is that album every performer wants to achieve. An album without compromise. With every dream left in, only better. Eric's 2nd album is exactly as he saw it, heard it, and ultimately produced it.

It isn't easy to go against the

current, but when you finally reach the other side, what a story you have to tell. Eric Carmen rocks his way through 8 original songs that are so wildly beautiful and real, they're going to rock up a storm from coast to coast.

# **"OH LORI": THE ALESSI SINGLE THAT TORE UP THE ENGLISH CHARTS IS TEARING IT UP HERE.**

Billy and Bobby Alessi have become overnight sensations almost overnight. After frenzied mob scenes and many torn clothes, the first Alessi single went Top 10 in England. And now that it's here, watch out.

## ELP Is On The Way At WRKO

# THE ULTIMATE ANSWER TO THE INEVITABLE QUESTION ... WHAT'S HAPPENING AT RETAIL?

## Record Retail Report

On Friday, September 9, 1977, the most definitive communications system between manufacturer and retailer ever conceived will be born. A system designed to accumulate up-to-the-minute new release and merchandising information through the use of knowledgeable, well-trained, concerned, warm bodies whose only function is to talk to as many record retailers as is humanly possible on a daily basis.

We plan on calling between **700 and 1000 dealers weekly!** It's never been done before, and it's been long overdue.

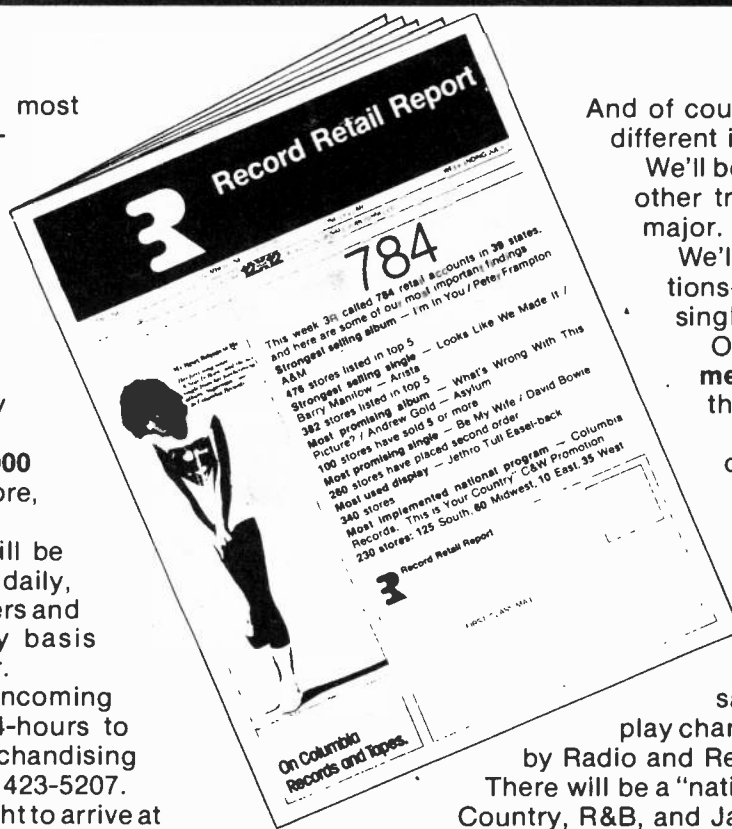

The information that is given to us will be immediately fed back to manufacturers daily, and made available to thousands of retailers and manufacturer personnel on a weekly basis through **Record Retail Report** newsletter.

In addition to our outgoing calls, an incoming "Hot Line" number will be available 24-hours to assist any dealer with important merchandising requests or to accept information. (800) 423-5207.

**3R** will mail 1st class on Wednesday night to arrive at every dealer no later than Friday of the same week.

The information we will supply to the industry will be strikingly different than the standard trade publication, because we won't be interested primarily in best sellers, and "bullets" and "personal picks."

Instead, we'll be asking the retailer what display is the best in his store; which in-store tape or album he plays most; what national program he's part of; does he create his own local programs; what ad mats and minis does he need; what companies call on him regularly; which don't; what is the manufacturer wasting his money on? ... and more, many more pointed and long overdue questions.

And of course we'll have charts, but they too will be different in many ways.

We'll be calling **3 to 5 times** as many dealers as any other trade publication; both major, and not-so-major.

We'll only be asking two "best seller" questions—best selling album, and best selling single. We won't have any "best selling" charts.

Our charts will be based on "**unsolicited mentions.**" The dealer will tell us the name of the product, we won't tell him.

Our charts will be information assimilated on the "most promising" product in each area. The "most promising" albums and singles. The product that the retailer is "just starting to feel;" what **he** thinks could have national bestseller potential, if all the pieces fall into place.

Our charts will be regional, and right next to our "most promising" sales charts will be a "most promising" air-play chart broken down by region and supplied to us by Radio and Records.

There will be a "national crossover potential" chart of possible Country, R&B, and Jazz records to Pop.

There will be a "most played in store" chart.

**3R** has been designed as a working tool that supplies "head start" information. The rest is up to the reader. **3R will be to retail what Radio and Records is to radio!**

But who the hell are we; and what makes us think retailers will talk to us in bold and straightforward terms?

We're **INSIDE 12X12**, the monthly retail merchandising catalog that was launched less than two years ago and has met with incredible industry acceptance. **3R** is a subsidiary of **INSIDE 12X12**. **We know retailers will talk with us, they have been since 12X12's first issue!**

# AOR

(ALBUM ORIENTED ROCK)

## Mike Harrison

At the recent Arista convention in San Diego, I had the pleasure of participating on a radio panel featuring **Gerry Peterson**, PD of **KCBO/San Diego**; **John Sebastian**, PD of **KDWB/Minneapolis**; **Mary Kay Anthony**, National MD for Bartell Broadcasting; and **Ed Wright**, owner/operator of **GEI**, an independent publicity and merchandising company. A variety of topics were discussed, but the main thrust of the meeting was focused upon the details of "passive audience research" and the theory that radio listeners are either artist oriented or song oriented.

As I mentioned in a recent column, it wasn't long ago that music radio listeners were drawn toward particular "images" with which they identified. It was, indeed, the schism between group identification factors that lead to the emergence of a mainstream style of radio and an alternative one. The evolution of the public's consciousness, in regard to music and all its sociological implications, determined the boundaries in the competitive struggle between the two forms.

If in fact, listeners are beginning to find less social identification in music, regarding it mostly for its entertainment properties, it might be wise for AOR and Top 40 programmers to turn their attention toward artist-orientation and song-orientation as a major dividing line in categorizing radio listening habits and tendencies.

Every record has a different degree of potency in its ability to attract a radio listener and that strength changes from day to day, from minute to minute. On one level even a terrible new record by an important artist can be attractive to radio listeners for a limited period of time merely out of cultural curiosity. On a totally different level, certain songs are certainly going to emerge as favorites even among the most sophisticated of audiences. In "The Top 40 Story" **Paul Drew** puts it rather succinctly: "You can't hum a hit album."

It was generally agreed to at the session that no matter what your research tells you or programming methodology you subscribe to, people listen to songs on the radio for a great variety of reasons and the more of those reasons taken into account, studied, and dealt with...the more creative and prone to success a programmer will be.

It was an interesting session and although I didn't have the opportunity to stay for the whole convention, I got the impression that it was successful. Congratulations to **Clive Davis** and fine company!

### Evolution

**Marjorie Gross** has been appointed Creative Director of Nova Broadcasting Services, Inc. Nova, headed by **Tom Yates**, consults **WORJ/Orlando** and **KPAS/EI Paso**...**Chuck Moshontz** is the new **KZEW/Dallas** News Director joining "the Zoo" from **KLAS-TV/Las Vegas**...**Terry Gerbstadt** has moved from middays to do morning news at **T105/Dayton** with **Mike Coste** from **WQDR/Raleigh** joining T105 to do middays. **Alan Michael McConnell** left **WVUD/Dayton** where he did evenings to join T105 doing weekends...**Ron Dennington** was promoted from Program Director to Operations/Program Manager at **KZ100/San Antonio**. **John Czaga** has joined **KZ100** doing news from **WQXI/Atlanta**...**Mike Bechtel** moves to **KWST/Los Angeles** doing weekends from **KXFM/Santa Maria**...**Joe Benson** has left his Music Director position at **WQFM/Milwaukee**. Acting as Interim MD is **Dave-O Popovich**, also doing weekends at **WQFM**...**KAYD/Beaumont** is changing from an AOR format to Top-40 effective 8/29. The **AM KAYC** is also Top-40 and the two stations will do some simulcasting on the weekends. **KAYD** will keep the same air staff and **Michael Danborn** will remain Program Director through the format change.

### Update

**Catching Up:** **WMMS/Cleveland's** recently departed Music Director **Shelly Stile** popped into LA joining **MCA National AOR Director Joy Hall** and yours truly for breakfast. According to Shelly, she's going to check out the West Coast for career possibilities in either radio or records. I spoke to **WMMS PD John Gorman** back in Cleveland who reports that the station still has not named Shelly's successor, but in the meantime the station's extremely popular Public Affairs Director **Murray Saul** has joined the ranks of **Former** soldiers in the "Buzzard Nuclear Army"...**Former KSAN'er** (from the early days) **Stafan Ponek** reports all is doing well at the firm of **Ponek-Fisher Associates** in Mill Valley, California. The company's back to school special "Ring Ring Goes The Bell" will be aired during the Labor Day weekend on some 87 FM stations coast to coast. The 90 minute special features memories of school from **Steve Miller**, **Heart**, **Grateful Dead**, **Foreigner**, **Doobies** and more. The company is also offering "Seeds" a thirty minute weekly program dealing with top artists' formative years. Interested stations should contact either **Ponek** or **Stephen Fisher** at (415) 383-9020...Here's a hot one: Most of you are familiar with the program "American Top 40". Well, the **CBC** in Canada has a similar coast to coast program there called "90 Minutes With A Bullet" hosted by **Jim Millican**. The program utilizes many AOR techniques (special features, in-depth analysis, artist interviews etc.) within a Top 40 singles framework. Jim asked me to mention to our AOR reporters that he's interested in utilizing some of those fabulous artist interviews that American AOR radio is noted for on the Canadian program. He's also looking for on-the-air correspondents. They're even willing to pay for the goodies (if all parties attached are agreeable). Contact **Jim Millican** in Winnipeg at (204)

876-2756...A smiling **Timothy Leary** stopped by the offices of **R&R** along with **Gabriel Wisdom** and **Daniel Gilbertson** to report that the "Joyful Wisdom Program" (written about here a few months back) is now running successfully on some 30 AOR stations across the country including many major markets. They've also kicked off a speakers bureau called **Future Presentations** in which they provide colleges with speakers (including Timothy) discussing the future evolution of mankind. Interested stations can reach Daniel Gilbertson at (213) 876-2756 for info concerning both the Public Affairs program and speakers service...Congratulations to **Billy Juggs** upon his being upped from Music Director of **KMET/Los Angeles** to Assistant Program Director (he'll continue to do music)...Speaking of **KMET**, here's a funny one. Morning man **Jeff Gonzer** couldn't understand why he was receiving calls on the request line from listeners asking him about the Porsche that he used to own. Finally, he discovered that the auto dealer to whom he traded the car had put an ad in the LA Times stating that the vehicle was formerly owned by **Jeff Gonzer**!...**Capitol Record's AOR Director Ray Tusken** reports that numerous members of the company came down with an awful 24 hour-type virus immediately following the company's recent convention in Coronado but everybody at this point is basically back to normal (whatever that is).

### Concerts & Conversation

**Presentations:** **KLBJ/Austin** presented a **Janis Joplin** radio anthology with interviews with **Kenneth Threadgill** and other Austin friends from the early 60's...**KWST/Los Angeles** is presenting a history of **Fleetwood Mac** complete with interviews with past and current members of the group in conjunction with their Los Angeles concert...**WYXE/Madison** presented a free outdoor concert with **38 Special** and **Heartfield** in Warner Park.

**Radio Concerts:** **Steve Miller** on **WMMS/Cleveland**...**The Allman Brothers** on **TK101/Boston**...**Gamble Rogers** live from their studios on **WGVL/Gainesville**...**Jesse Winchester** on **WYXE/Madison**.

**Interviews:** **Mac Gayden**, **Townes Van Zandt** and **Silver Hammer** on **WSIM/Chattanooga**...**Heart** on **WMMS/Cleveland**...**Roy Buchanan** and **Jimmie Spheeris** on **KLBJ/Austin**...**Leo Sayer Climax Blues Band** and **Rick Derringer** on **WVAF/Charleston**...**Rick Derringer** on **WNOR/Norfolk**...**Dick Pinney** on **WJKL/Elgin**...**Fools Gold** and **Chilliwick** on **KZAM/Seattle**...**Pierce Arrow** on **KAWY/Casper**...**Vassar Clements** on **KWFM/Tucson**...**Mahogany Rush**, **Ted Nugent** and **REO** on **KSJO/San Jose**.

# THE FUTURE STARTS TODAY.

Take a breath of pure "Oxygene." It's Jean Michel Jarre's new, miraculous, magical album. It's been the number one album in France, Germany and Holland, and now is in the top five in the U.K. A synthesizer symphony of sound. Eerie, pulsating, haunting. It's tomorrow's sound, today.

## Inside Nashville

In 1954, TILLMAN FRANKS took me by a club in MEMPHIS to see a new kid BOB NEAL had told him about. He was good-looking, tall slim kid with dreamy eyes, slicked back, brilliantined hair and "uncommonly long sideburns." He didn't jump around but he couldn't seem to stand still when he sang. It was as if he had "ants in his pants." Standing on that little dimly-lit bandstand singing race music (that's what we then called Negro Blues) he did what later he explained to me he couldn't help doing: "When I sing, I gotta move," he said. With this kid was an up-right bass player (before Fender electric bass) named BILL BLACK and a skinny kid playing electric lead guitar. Elvis played rhythm, such as it was, SCOTTY MOORE

played lead, with back-beat rhythm licks on the electric, and Bill played slap-style bass, getting a good tone and a slap between the notes. That was their band. I was sufficiently impressed with his performance to invite him to come to HOUSTON to play at my HOEDOWN CLUB. BOB NEAL was his manager, between on-the-air shifts as morning DJ at WMPS/Memphis. I paid ELVIS, Scotty and Bill \$150 to travel from Memphis to Houston and back and play for us. The first time he came, I had been playing his first record about a week and a half. It was an old ARTHUR CRUDUP song called "That's Alright." It was on Tuesday night

Pictured above is an excellent final tribute to Elvis Presley from WFEC/Harrisburg, Pennsylvania. PD Dene Hallum and General Manager Bob Maley designed this memorial billboard that was up six days after the passing of Elvis.

# Home Run Willie

by  
LARRY HOSFORD

In 1973 on one hazy morning after in Santa Barbara, I was having coffee and news. In sports Willie Mays had made his debut as a new York Met with a dramatic game winning pinch hit homer. The club he beat was (perfect irony) the San Francisco Giants with whom Willie had spent more than 20 years as the best of them all. To me, he had with a single swing slapped shut the fickle mouth of every fan and writer who'd ever assumed he'd lost his magic over the years. Willie Mays is alive and immortal and this song I've written should be considered a tribute to him, to pride, to heroism, and to anyone who can see more beauty than beast.

**WIRE'S PICNIC DRAWS RECORD CROWD**—An estimated 60-thousand Country music fans attended the recent Fourth Annual WIRE Picnic at the Indianapolis Raceway Park. The picnic featured a full day of live Country entertainment, as well as food, games and contests. Entertainment was provided by LARRY GATLIN, HANKS WILLIAMS, JR., CONNIE SMITH, BILLY THUNDERKLOUD and many other area groups. Various charities sponsored game booths to raise money for their organizations. WIRE sponsored various contests and games during the picnic, including a girl's softball throwing contest, a tug-of-war, and tractor pull. Admission was free to any person with a vehicle featuring a WIRE rear window sticker. Pictured in top photo are WIRE's Ken Speck and his team and Bill Robinson, WIRE's PD, and his group during the tug-of-war contest. WIRE's LEE SHANNON looks on in the middle. Middle photo shows competitors during the donut-eating contest. Pictured in the bottom shot is Monument recording artist LARRY GATLIN on stage before the crowd.

(Continued from page 44)

and we had about 125 people, a few more than we were having regularly on Tuesday nights. The second time they came, we had over 300, the third time, still on a Tuesday night, it was over 500. The 4th or 5th time Elvis came to Houston to work for me, was at OLD EAGLES HALL on Saturday night, The Grand Prize Jamboree, and we had an overflow crowd, between 700 and 1000. The last time I saw Elvis to TALK to him was a Thursday night in Galveston at the Old City Auditorium. We had FLOYD TILLMAN, TOMMY SANDS and the people from my Houston TV show, and Elvis, Scott, and Bill (they were splitting the "take" on their dates then). Elvis and I were talking backstage during the show and he said, "Hey, I'm finally gonna get to do what you said I should. Mr. Parker got met on a television show in New York with TOMMY and JIMMY DORSEY this Sunday night." (That was the JACKIE GLEASON Summer Replacement Show where he got his first national exposure). I said, "Well Elvis, it was nice knowing you." I knew in my mind, without pretending to be prophetic, after watching our crowds react to his performance, that he was rare. I was right. Elvis was indeed a rare commodity the world will not soon forget.

Elvis Presley proved to be at least one of the world's most influential people of his generation. I'm flattered to have been one of the first to showcase his talents. I would be less than honest in a tribute to Elvis, if I didn't recognize the genius of TOM PARKER. He made millions directing the career of EDDY ARNOLD, and then HANK SNOW, before Elvis ever bought his first \$12.98 guitar. Whatever it was that Col. Tom Parker did for Elvis has historically been proven. And the world can be grateful to him for shaping the legend. Long live the King...

**STARS—PUBLIC PROPERTY?** The mystique of ELVIS PRESLEY's life has again fanned the flame of controversy over "who owns the star, the star or the fan." One artist's opinion, who shall remain unnamed, was approached after a divorce by a fan with questions like: "What happened. Did you fight?" "Were you mean to her?" "Is there somebody else?" and so on, almost like a police interrogation. The artist listened for awhile, then very matter-of-factly asked: "How's your sex life?" ...The irate fan screamed "That's none of your business!" The artist quietly said: "You are right, Ma'am, and what my wife and I do is none of YOURS!"

## POP/ADULT NOTES

MIKE KASABO

Crystal Gayle's brown eyes may be turning blue, but her pocketbook appears to be turning green. Her latest for UA continues to show good action at the Pop/Adult level. See New & Active.

Debbi Boone's "You Light Up My Life" is coming on strong now... see New & Active for latest play.

Gary Hamilton, PD at KHOS/Tucson, called to let us know that the station which had been Country for the past thirteen years has changed to a Pop/Adult format. The station is obviously in need of many records to fulfill their new format requirements. So those companies who can be of service to KHOS with the proper titles should contact Gary at the station. The address is P.O. Box 5946, Tucson, Arizona 85703.

WGST/Atlanta, on the other hand, has dropped its P/A format to go All-News. Bill Dollar, who had been MD along with an air shift is looking for a gig. Dollar can be reached at the station as he will continue with the station for a while during the transition period.

The Floaters "Float On" is showing some good hot action at WOWO, K101, 14FBL, WCMB and KFI.

The new Marvin Hamlisch is off and running at KMBZ and WJNO.

The new Jack Jones record is splitting play at this point. "Dixie Chicken" started off with some adds, but now the flip, "Perfect Strangers" seems to be gaining momentum with adds at KRKK, WJNO, KMBZ.

The Mecos version of "Star Wars" is starting to come on strong now...with hot reports registered at KEX, WNEW, KMBZ, K96, WBT, WAKR and KFI.

From the Country side, Ronnie Milsap continues to be another hot item with strong action at KCRA, KMBZ, WATR, KRMG, WCHV, KDWN, WSIX and WGY.

Paul Nicholas starting to show some good airplay activity now at KFI, WIP, KEX, KGIL, KVI, WMAL and WSJS, with his "Heaven On The 7th Floor."

One of the main topics on the phone again this week was the way programmers are handling the current Elvis single "Way Down." In most areas, the record has run its course, but in some markets it has had a resurgence of popularity...among them are WBEN 11-5, WOWO 25-10, WATR 10-4, debuts 24 WLNH and remains in the number one slot at KDWN. It also reports hot at KCRA, KMBZ, KRNT and WCER.
