• ROCK ROUNDUP •

by Mark Marone

We hope everyone who attended the second annual Billboard/Airplay Monitor Radio Seminar and Awards last weekend in New York enjoyed themselves. It was a great weekend of events, getting reacquainted with old friends and meeting new ones. It seems that anytime a convention is held at the midtown Manhattan, N.Y., Marriott Marquis, there will inevitably be memories of the now defunct New Music Seminar; this time, however, conventioners didn't have to contend with the unpleasant mid-summer smells of the city or the obligatory brawl in the lobby of the hotel. The overall feedback was positive and will be helpful in making this seminar the leader among industry conventions. Thanks to everyone for contributing to a successful event.

To recap, CBGB turned out to be the late-night gathering spot for the modern format Oct. 12. The following night's show at the Academy, which was presented by WHTZ (Z100) New York, was well-attended by the rock community. But did Z100 really rack up more spins on the performing bands' singles than any other station? Or did the crowd have a little something to do with the amount of listeners the station has?

Big thanks go out to all participating facilitators at the seminar, including Bill Gamble, John Gorman, Dave Richards, and Jim Owen, for intriguing and insightful observations on the state of rock radio today. At the well-attended modern session Friday (13), Gorman and Gamble underscored the fact that modern is a hit format and that it is important to play lots of new music in this "nonethnic" format. Among other things, Gamble talked about being willing to "trash heritage artists on a daily basis" and how adding artists to get free X-mas shows can compromise the sound of the station and consequently effect ratings. In what would normally be a tense moment, Gorman accepted his summer Arbitron numbers gracefully in front of the assembled crowd at the session. There was a feeling at the mainstream rock session that the format is as strong as it's been in years, but that cautious optimism was needed to compete with modern. Richards and Owen suggested that stations can play on their heritage somewhat but need to update their sound. Just a reminder of recent additions to the panels: WRZX Indianapolis (modern); KMTT Seattle (triple A); and WTTS Indianapolis (triple A).

**The 1995 Billboard/Airplay Monitor
 Radio Awards Winners
 This Year, You Picked The Hits**

On behalf of everyone at Billboard and Airplay Monitor, thanks for a great second annual radio conference. And congratulations to the winners of the 1995 Billboard/Airplay Monitor Radio Awards.

Both our nominees and our winners were chosen by the readers of Airplay Monitor and Billboard this year; they represent the broadcast industry's highest possible tribute to its own—and an ongoing display of Billboard and Airplay Monitor's commitment to the radio industry.

These are the stations and broadcasters you thought were the best of the best. Now, set aside the dates Sept. 5-7, 1996, for the third annual Billboard/Airplay Monitor Radio Seminar and Awards. And here's to another year of the great stations and broadcasters that will be worthy of celebration in the 1996 Billboard/Airplay Monitor Radio Awards

Records showing an increase in audience over the previous week, regardless of chart movement. Rankings broken down by mainstream and modern formats (on right side of this page) correspond to 40 position charts printed in this week's Monitor and therefore rankings do not exist for recurrenents and records below No. 40. Rankings are not listed for triple A because there is no chart yet. Audience computed by cross-referencing exact times of airplay with Arbitron listener data. ©1995, Billboard/BPI Communications.

Records showing an increase in detections over the previous week, regardless of chart movement. A record which has been on either chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records which attain 800 detections (mainstream) or 900 (modern) for the first time. If two records are tied in number of plays, the record being played on more stations is placed first. Records below the top 20 are removed from the chart after 26 weeks.
