Section II

Put Yourself In Our Place

Even though our place has been busy around the clock, we still haven't forgotten that the true success of a studio is determined by the number of happy clients. For us, that's 100%. Maybe it's because we're in Orlando. Maybe it's our beautiful facility. Or just maybe it's because we still believe that *the difference is how you're handled*. Call or write for our brochure.

More Of Everything . . .

By JIM McCULLAUGH

Billboard's International Recording Equipment & Studio Directory has become a key tool for this rapidly growing industry.

Reflecting the industry's growth and diversification this year's Directory has more equipment listings, more studio listings and more producer listings. In addition, two new geographical areas—Australia and the Bahamas—have been added to the international listings.

The Services feature has been sub-grouped into Audio, Video and Film categories, indicating to what degree a studio is specializing in these related areas. Studios with digital audio recording capability are also indicated. Special features such as sauna, Jacuzzi, game room, and other environmental ambience are also broken out this year.

Almost 700 U.S. and Canadian studios responded to the annual brand name equipment survey—more studios than ever before—underscoring not only the expanding U.S. and Canadian recording studio universe but those studios' increasing willingness to participate in this valuable index for equipment makers and marketers, as well as end users such as producers and artists.

It should be noted that the survey is not meant to be a manufacturer share of market study. It merely reflects equipment brand usage by studios responding to the annual Billboard questionnaire. But, obviously, the greater the universe, the greater import the figures have for both manufactures and studios.

U.S. EQUIPMENT BRAND USAGE SURVEY

This special Billboard survey of recording studio equipment usage was compiled from questionnaires returned by 669 U.S. studios from June through August 1979. Not necessarily reflecting the exact total situation in U.S. studios, the calculations for most equipment categories are a weighted figure based on the number of studios using the equipment and the total number of items as reported to us.

The categories Audio Tape/Recording, Blank Disks, and Noise Reducers are based on a percentage of brand responses against total category voting response. Since many studios voted for more than one brand per category, the percentages on these add up to more than 100%. Because percentages are rounded off, most charts will not add up to 100%.

More Than Great Specs, Great Ideas.

For the past three years we've been telling you about the benefits of using graphic equalizers; now we've made it even easier to appreciate them. Introducing the MXR Dual Fifteen and Thirty-One Band Equalizers. Two equalizers designed with the imagination and understanding to solve your toughest equalization problems. Designed for use in either studios or sound reinforcement situations, our new eqs offer features not previously available at any price.

The Dual Fifteen Band Eq features two channels of equalization with the bands set two-thirds of an octave apart. By breaking the frequencies down further than conventional octave equalizers, you now have the flexibility to contour your music with much greater selectivity. As most musical information occurs in the midrange, this is where you need even more definition, and the Dual Fifteen Band Eq gives you six bands of contour in this area rather than the usual four. In addition, each channel has its own level control.

The Thirty-One Band Eq divides the frequency spectrum even further. A single channel unit, the Thirty-One Band features frequency bands set one-third of an octave apart, generally regarded to be the optimum amount of resolution.

When used in conjunction with any PA system, our equalizers can make a bad environment sound good, and a good performance sound great. Unlike parametric equalizers, the frequency response change is immediate and easily visible, so that when you shape a response curve you know what it's going to sound like.

Both units feature a range of -12 to +12 decibels on each band, standard 19" rack mount, and the rugged construction you always get with an MXR product. Both units also feature phone plug input/output connections, (the Thirty-One Band also features Cannon type XLRs), high slew rate (2V/microsecond), and incredibly low noise (better than -90 dBm). But not only do we offer great specifications, we produce great ideas... you wouldn't expect any less from us.

MXR Innovations, 247 N. Goodman Street, Rochester, New York 14607, (716) 442-5320.

Technics RS-M85 MK2 with metal tape.
We pushed performance to a new high.
But kept the old price.*

Last year you could get the precision of direct drive and the unparalleled accuracy of quartz with Technics RS-M85. The cassette deck *Audio magazine*, June '79 said "had the best tape speed characteristics ever measured in a cassette deck." This year you can get that same accuracy with the RS-M85 MK2. Along with the additional benefits of metal tape. Yet we didn't add a cent to the price.

What we did add is more dynamic range, a wider frequency response and sendust-formulation heads that easily handle the difficult jobs of recording and erasing metal tape.

One more difficult job the RS-M85 MK2 easily handles is keeping wow and flutter down to a microscopic 0.035% while maintaining excellent speed accuracy. But that's not surprising. At least not with Technics quartz-locked direct drive. This servo system compares the rotation of our direct-drive motor with the unwavering frequency of a quartz oscillator,

and instantly applies corrective torque whenever the slightest speed deviation is detected.

Another one of the RS-M85 MK2's bright spots is its two-colored fluorescent (FL) bar-graph meters. A device attack time of just 3 millionths of a second proves they're fast. While no more than 0.1 dB deviation from the 0 VU level proves they're accurate. And that's proof enough.

Still, the RS-M85 MK2 has even more: Like a separate, core-less DC motor for reel drive. Dolby NR. A low-noise, highly linear amplifier section. Full IC logic controls. A 3-position bias/EQ selector with bias fine adjustment. And an optional full-function infrared wireless remote control (RP-070).

Technics RS-M85 MK2. We pushed the performance up. Not the price.

FREQ. RESP. (Metal): 20-20,000 Hz. WOW AND FLUTTER: 0.035% WRMS. S/N RATIO (Dolby in): 69 dB. SPEED DEVIATION: No more than 0.3%.

*Based on Technics' recommended price for RS-M85 and RS-M85 MK2.

EVERY YEAR UNITED WAY VOLUNTEERS WORK TIME AND A HALF SO YOU'RE NOT BOTHERED TIME AND AGAIN.

Once a year — and only once — United Way raises money to support really needed human services.

And once is enough, thanks to the outstanding efforts of the dedicated people who work without pay for United Way each year. Because one efficiently run campaign not only minimizes

fund-raising costs and volunteer time devoted to fund-raising. It also reduces the number of times you're contacted each year.

United Way's continued success year after year proves a very basic point. When you ask the American people for help, they respond.

Thanks to you, it works. for all of us. **United Way**

A Public Service of This Magazine & The Advertising Council

SONY INTRODUCES WIRELESS MICROPHONE SYSTEMS WITH AN INNOVATION NOBODY ELSE HAS: SIGNIFICANTLY BETTER SOUND.

Until now, using a wireless microphone system meant sacrificing the quality of the sound in a trade-off for portability.

No more.

Sony has engineered wireless microphone systems as portable and versatile as any on the market.

But with a very big difference. Excellent sound.

To begin with, Sony offers a wider dynamic range than any other wireless system, a range of 96 dB. This accommodates sound pressure levels up to 130 dB. (While most other wireless systems have limiters which hold their dynamic range to, at most, 75 dB, Sony engineering has produced a system that requires no limiters.)

So what goes into the microphone comes out again at the same sound level. And nothing takes away from the thrill of performance.

What's more, audio distortion is less than 0.1% and signal-to-noise ratio is better than 57 dB (both ± 2.4 kHz deviation, at 1 kHz).

And the new Sony systems are virtually drift-free. Frequency stability is an amazing $\pm 0.005\%$.

Furthermore, Sony wireless systems are available with up to 14 channels in UHF, which means that interference from other sound sources is much less likely than at lower frequencies.

And while many wireless systems are put together with a mixture of components from several manufacturers, Sony uses only one: Sony.

So we've been able to create fully integrated systems that offer you a wide variety of options.

For EFP and ENG, Sony's system includes a tiny lavalier mike, a transmitter about the size of a cigarette

pack and a tuner smaller than a paperback book.

The system also comes with a shoulder-strap antenna and a leather carrying case. Altogether, it's compact and efficient and offers outstanding sound.

For studio and stage use, Sony has a modular rack-mounted system that can be engineered in any combination you want, from single-channel to multi-channel diversity reception.

It can be portable or fixed, and runs from 110 volts AC or 24 volts DC.

For more information, call Sony Professional Audio Products at (212) 371-5800, extension 143 or 145.

You'll find out that no other wireless systems sound as good as Sony's.

SONY

We've never put our name on anything that wasn't the best.

RECORDING STUDIO EQUIPMENT MANUFACTURERS AND IMPORTERS

The following is a list of manufacturers and importers of professional and semi-professional recording studio equipment. A listing of equipment by categories follows the company listings.

IF YOU THINK ALTEC LANSING ONLY MAKES GREAT SPEAKERS...

...Meet The Great Power Behind Them.

At Altec Lansing, we've been making high-quality loudspeakers for over forty years. And we're very proud of the reputation that they've earned during that time. But perhaps it's because we're so well known for our speakers that some people tend to forget that we also make a full line of professional electronics. Equipment that's built with the same quality and reliability that our speakers are famous for.

Case in point: The Altec Lansing 9440A power amplifier.

The 9440A is a dual-channel power amp that delivers the high performance standards that today's audio professional needs. It produces more than 200 watts per channel into 8 ohms of highly reactive loudspeaker load. At 4 ohms the power is typically greater than 400 watts. And even at these levels the 9440A has less than 0.25% THD or IM distortion and a frequency response that's flat ± 0.25 dB from 20 Hz to 20 kHz.

Of course high performance must be matched with high reliability. The 9440A is designed to meet the most demanding conditions. Day-after-day. Year-after-year. Reliability provided by sixteen 250-watt home-

taxial power transistors backed up by a massive die-cast aluminum heat sink. Reliability ensured by an efficient VI limiter, a unique 40% power-limiting circuit and an output relay that protects against dangerous turn-on/turn-off transients. Reliability good enough to earn both UL and CSA approval.

And because we think that an amplifier should do more than just amplify, we've incorporated some features in the 9440A's design that will help make life a little easier. Features like lighted VU meters, meter range switches and provisions for adding plug-in input transformers. Features like a front-panel-mounted switch that converts the 9440A into a single-channel amplifier with a true balanced output. Features that help make the 9440A a versatile addition to any sound system.

But perhaps the best feature of the 9440A is that it's from Altec Lansing — a leader in quality audio products for over four decades.

So if you're thinking about power amps, think about Altec Lansing. Check the Yellow Pages under Sound Systems for the name of your local Altec Lansing sound contractor. And meet the great power behind our speakers.

SCAMP

TOTAL SIGNAL PROCESSING IN A MODULAR SYSTEM!

Another original design from **audio & design recording**

Create your SCAMP system from these interchangeable modules:

- Compressor-Limiter
- Microphone Preamp (transformer-less)
- Sweep Equalizer
- Parametric Equalizer
- Dynamic Noise Filter/Gate (high-pass)
- Dynamic Noise Filter/Gate (low-pass)
- Octave Equalizer
- Distribution Amplifier
- L.E.D. Quad Display Column
- Pan Effects Module (automatic panner)
- Time Shape Module (ADT/Flanger)
- Expander Gate
- Dual Gate

Equally at home on the road or in the studio!
SCAMP may be purchased piece by piece as budget allows.

audio & design recording

Providing the international audio industry with clean, quiet, dependable Signal Processing for more than 15 years. Excellent specs. Exemplary sound. Definitive practicality.

Separating the mother from the master

Stanton's 881S

Stanton-The Professional in The Recording Industry

Application—The Metal Mother—Stanton plays it back

Once the recording studio has delivered the lacquer disc to the plating plant it is sprayed with liquid silver making it electroconductive, and then electroplated with nickel, which is separated from the lacquer. The nickel is now a negative image called a master, and has, instead of a groove, a ridge that comes to a point. The master is treated and nickel plated again and upon separation forms a mother, a positive metal record. Engineers rely on the Stanton 881S cartridge in playback evaluation of the mother.

Stanton's 881S Professional Calibration Standard Cartridge is a sophisticated, low mass phono pickup that features the patented Stereohedron® stylus tip for

truest fidelity and gentlest possible treatment of the record groove. Lightweight, high energy magnets allow reduced mass and higher output than conventional magnets. And each Stanton 881S that comes off the production line has been tested and individually calibrated with the test results packed in each unit to assure the very finest professional quality product regardless of application. *From disc cutting to disco to home entertainment your choice should be the choice of the Professionals... Stanton cartridges.* © 1979 STANTON MAGNETICS

Introducing

A cut above at 80 dB.

You hear it in your head. You know exactly how the final mix will sound. Now cut it that way with the new Ampex Mastering System. It delivers 80 dB at the cutting lathe for superb sound. Here's what makes it great:

ADD-1 The new ADD-1 Audio Digital Delay is your last chance to put some time between mix-down and cutting lathe. Make that time count. The ADD-1 is a totally digital time delay and is totally compatible with normal and half-speed cutting. You can preset and select any interval up to 5 seconds of delay at the push of a button. What was good 5 seconds ago you

now have time to make great with the ADD-1.

ATR-100 Add to the ADD-1 the ATR-100 with its 1/2", 2-track head assembly—unquestionably the finest analog audio tape recorder in the world. The ATR-100 gives you measurably better recording performance and better

The Ampex Mastering System

studio mastering tape, state-of-the-art in every way—performance, consistency, specs.

There simply is no finer tape. Get it all down on Grand Master, just the way you hear it in your mind.

Put them all together and you'll have one beautiful system—a totally transparent tape-to-disc mastering system that gives you 80 dB s/n at the cutting head.

And the only thing better than that is the way the final disc will sound. Just great.

playback than has ever been achieved before, and gentler tape handling than any previous machine, bar none.

Grand Master™ Tape
Don't forget Grand Master

For the last four years you have heard about the innovative design and technical superiority of Harrison consoles. In no place has the Harrison "no compromise" philosophy been more evident than in the Harrison 32C series recording console. This philosophy pays off for you in the knowledge and confidence that your Harrison 32C series console is the most reliable console built anywhere in the world. What does this innovative design, technical superiority and reliability mean to you

success

The Harrison 32C series console has become the industry standard with installations in every major recording center in the world. True, a Harrison console initially costs more than most other consoles, but in the long run this investment in quality pays off in less down time, increased operating efficiency, and a superior recorded product. What does this investment security and operating efficiency mean to you

success

Success is full-time utilization of your recording facility, and that translates into profit for you. Harrison consoles are used in major recording studios around the world. Many of these studios have purchased a second, and even a third Harrison console. Harrison 32 series consoles have been instrumental in the production of Grammy Award winning recordings for "Best Engineered Recording (non-classical)" for the last two years in a row, and you know what that means

success...

the bottom line of our "no compromise" philosophy!

Harrison

AUTOMATED CASSETTE DUPLICATOR

COMBINING duplication and loading into one operation is Recortec's contribution to cutting your labor costs. And, the Bi-Directional Master eliminates the master bin loop! With the system pictured, one operator keeps the C-zero hoppers supplied, puts on new pancakes and spot checks the finished product.

QUALITY is built into this professional equipment to provide the best in open reel type duplication systems. The standard 32 times duplication ratio provides the highest fidelity attainable in high speed duplication. Even at 64 times, the bandwidth is sufficient for most recording applications.

PRODUCTIVITY of your operation can be continually expanded from a start-up 1 x 1 system, to a 1 x 8 as pictured and even to larger configurations. Our systems provide highest productivity, and a quality product with fewer operators. Only Recortec offers automated duplication and loading in one operation!

RECORTEC, INC. 777 PALOMAR AVE., SUNNYVALE, CA 94086 TEL: (408) 735-8821 TWX: 910-339-9367

SUPER GROUP

A. The Schaffer-Vega Diversity System—SVDS

The world's foremost wireless transmission system, the SVDS features crystal controlled, interference-proof, no-drift tuning, full diversity receiver (eliminates drop outs), a Signal-To-Noise Ratio of better than 90 dB, more than 100 yard range, compatibility with all effects, no special installation.

B. The Schaffer B&T Wireless System

All the quality features of the famous SVDS, except diversity receiver, make the B&T a moderately priced system for the transmission of music and vocals.

C. Eventide HM-80 "Baby" Harmonizer™

The first Eventide created for the working musician, the "Baby" is fully digital. Interactive controls, like Delay, Pitch Change, Repeat, On-Board Mizing, Feedback and a unique new feature, Reverse, offer limitless sound possibilities.

D. Eventide H910 Harmonizer™

The most popular special effects unit in the industry, the Harmonizer is a full-fledged digital delay line and a pitch changer with a two-octave range.

E. Eventide H949 Harmonizer™

The newest Eventide, the H949 allows for a multitude of exciting new effects, including Reverse, Flanging, Automatic Repeat, Micro Pitch Change, Random Delay, Feedback, Two P/C Algorithms and much more. Surprisingly affordable.

F. Eventide 1745M Digital Delay

Its modular construction makes it exceptionally flexible—up to five outputs, each with a maximum of 320 ms of delay (640 ms in double mode), selectable in 20 μ s steps.

G. Eventide FL201 Instant Flanger™

Designed to meet the demands of professional industry users, the Instant Flanger's controls—oscillator, manual, remote and envelope may be used in any combination.

H. Eventide 2830 Omnipressor™

The Omnipressor is a compressor, expander, noise gate and limiter in one package, with a dynamic reversal feature which makes high level input signals lower than correspondingly low level signals.

I. VHF Portables

Professional quality, hand-held push-to-talk walkie talkies, used by film makers, production remotes, concert producers and security personnel. Each radio is equipped with a desk-top charger and leather belt case for easy carrying.

J. The KSG Spectet™

Based on a Commodore PET™ 2001-8K computer, this programmable video-display, third-octave, real time audio spectrum analyzer is an intelligent, interactive analyzer costing about half the price of currently available Display-Only units.

This equipment has become the industry standard for thousands of major bands and recording studios. Write or phone us for complete specifications and pricing details. We'll give it to you straight.

NOAA Warning Alarm Receiver

162.40 MHz—162.475 MHz—162.55 MHz

The sole government-operated radio system for communicating attack or disaster warnings directly to the general public!

Use the "institutional grade" receiver most used by NOAA, and designed and built by the same manufacturer as the NOAA WEATHER RADIO transmitters. Under NOAA contract 6-35384 and previous contracts, SRS provides the transmitters, antennas, and receivers for over 340 weather radio stations in the U.S. SRS has also supplied the receivers under separate orders to the Defense Civil Preparedness Agency, radio broadcast stations, Army Corps of Engineers, municipalities, NASA, power companies, etc.

- 162.40, 162.475, 162.55 MHz
- Warning Alarms
 - Single Tone
 - Up To Five Dual Tones (Sequential Or Simultaneous)
 - Relay Contacts For External Alarm
- AC With Internal Rechargeable Battery
- Optional Vox/Monitor Alarm
- Optional Field Strength Meter
- GSA Contract GS-OOS-44652

 AN EQUAL OPPORTUNITY EMPLOYER

Studio quality microphones that don't need a studio to survive.

The CS15P condenser cardioid microphone is equally at home in a recording environment or broadcast studio. When hand-held it puts sex appeal in a voice with its bass-boosting proximity effect. With shaped high-frequency response and its ability to handle high sound pressure levels (140 dB with 1% THD at 1kHz), the CS15P is ideal for close-up vocal or solo instrument miking applications.

When boom mounted, the CS15P has better gain-before-feedback and a better signal-to-noise ratio than most shotguns. It's phantom powered and it's rugged.

The CO15P condenser omni extends frequency response to the very limits of audibility, 20 to 20,000 Hz. Unlike other "omni's," the CO15P maintains its omnidirectional polar pattern at the very highest frequencies. Perfect for the distant miking of an entire orchestra as well as up close on individual instruments. And like the CS15P, it's phantom powered and it's rugged.

The Electro-Voice warranty
Electro-Voice backs up these two microphones with the only unconditional warranty in the business: for two years we will replace or repair your CS15P or CO15P microphone, when returned to Electro-Voice for service, at no charge — no matter what caused the damage!

circle 42 on reader service card

We can do this because we build these microphones to meet our standards for performance, ruggedness and durability. We accept nothing less, and if you're a professional, buying a professional quality microphone, you shouldn't either.

WHY JBL FLATTENS THE COMPETITION.

INTRODUCING THE 4313.

Flat frequency response. It means accuracy. Naturalness. Reality.

JBL gives it to you without the bigger box that you'd expect along with it, since the 4313 only measures about 23" by 14" x 10"!

This new, compact professional monitor produces deep, distortion-free bass. And does it with a newly developed 10" driver. Its massive magnet structure and voice coil are equivalent to most 12" or 15" speakers. Yet it delivers heavy-duty power handling and

On-axis frequency response,
4313 monitor.

a smoother transition to the mid-range than most large-cone speakers.

The 4313's edge wound voice coil midrange accurately reproduces strong, natural vocals and powerful transients.

Up top, a dome radiator provides high acoustic output with extreme clarity and wide disper-

sion. A large 1" voice coil gives it the ruggedness needed in professional use.

Working together, these precision-matched speakers offer superb stereo imaging, powerful sound levels and wide dynamic range.

Audition the 4313 soon.

We think you'll agree that its combination of flat response, power and moderate size flattens the competition.

When The Others Don't Come Up To Level

AGFA-GEVAERT Magnetic Tape will ... and then surpass it!

It doesn't matter if your needs are studio mastering tape, video tape, or bulk audio tape, AGFA-GEVAERT has been answering the high level requirements of a demanding professional European and U.S. market for a long time. And surpassing it everytime—with quality, performance, reliability, and availability.

Our PEM 468 Studio mastering Tape has been accepted on the highest level as "the tape" for top quality original recording. It's available to the discerning as a low-noise, high-output, low-print, in 1/4", 1/2", 1" and 2"; Bintaape in 1/4", 1/2" and 1"; and in Duplicating Tape, 1/4" x 3600'.

When your needs for video tape are varied, AGFA-GEVAERT Video Tape has the range to fill them. From 2" Quad to 1" Helical; 1/2" VIDEOCHROM to 3/4" U-matic cassette; and 3/4" bulk tape to magnetic film. Whether you're producing professional, semi-professional, or amateur programming, with our Video Tape you'll project a high level image.

The Professional Cassette Bulk Tape has long held the reputation as the one tape that really "stacks up". Supplied in pancake form

on stacking hubs, it is offered to the blank loader and duplicator as a Super High Density Tape, or a SUPER FERRO DYNAMIC Tape, in lengths up to 11,500'. Also available is a Mini-Cassette Tape with 2 micron foil, and a Splicing Tape in 150' lengths.

When your standards for recording and duplicating demand the highest, come up to that level, and surpass it, with AGFA-GEVAERT Magnetic Tape. We've been helping others to do it for years. Contact us TODAY!

VIDEOCHROM and SUPER FERRO DYNAMIC are the trademarks of AGFA-GEVAERT, Antwerp/Leverkusen.

MAGNETIC TAPE

circle 6 on reader service card

from AGFA-GEVAERT

The bottom line is... Good sound comes from a SYSTEM.

Accurate Sound can supply your complete *turnkey* Recording Studio needs. We offer quality within your budget.

We also manufacture high speed duplicating equipment—AS 2400 series, professional recording equipment—AS 2600 series, professional microphone stands—Starbird Microphone Boom..

MORE THAN JUST EQUIPMENT

As designers of audio systems, we do not force your needs to coincide with our equipment, we make our equipment meet your needs. We don't just manufacture equipment, we create systems. After all, that's where the sound comes from.

... Because sound comes from a system.

Recording Studio Equipment Manufacturers & Importers

- Product: **Recording & Monitoring**—ULTRACRAFT tonearms; OSAWA, SATIN phono cartridges; Other—OISKMAT turntable mat.
- Otari Corp., 1559 Industrial Rd., San Carlos, Calif. 94070. Tel: (415) 592-8311. TWX: (910) 376-4890. Pres.: M. Hosoda; Sales Mgr.: Steven Krampf.
Product: **Recording & Monitoring**—tape recorders; Other—tape duplicators.
- P A I A Electronics Inc., 1020 W. Wilshire Blvd., Oklahoma City, Okla. 73116. Tel: (405) 843-9626.
Product: **Special Electronic**—PHLANGER delay systems, filters, oscillators, synthesizers; Other—PAIA computer/synthesizer interfaces.
- P M L, see Ercona.
- Pacific Rec'rs & Eng'g, 11100 Roselle St., San Diego, Calif. 92121. Tel: (714) 453-3255.
Product: **Recording & Monitoring**—PACIFIC consoles; **Special Electronic**—MULTILIMITER, MULTIMAX compressors, limiters.
- Panasonic Co. (div. of Matsushita Electric Corp. of America), 1 Panasonic Way, Secaucus, N.J. 07094. Tel: (201) 348-7000.
Product: **Recording & Monitoring**—TECHNICS tape recorders, microphones, amplifiers—monitor, speakers—monitor, mixers, headphones, turntables; **Special Electronic**—TECHNICS equalizers; **Video**—PANASONIC video tape recorders, closed circuit cameras; Other—TECHNICS pre-amplifiers, cassette decks, tuners, meter systems, microphone accessories; PANASONIC high speed 1/2" video cartridge duplicating system, video special effects generators & wipers, lenses, portable color camera systems, compact black & white camera systems, compact color cameras, portable black & white systems, color video projection systems, open reel portable VTR camera ensemble systems, color & black & white monitors.
- Penny & Giles, 1640 Fifth St., Santa Monica, Calif. 90401. Tel: (213) 393-0014. Chief Exec.: Barry Smedley.
Product: **Special Electronic**—attenuators, panners; Other—faders.
- Pentagon Inds. Inc., 4751 N. Olcott Ave., Chicago, Ill. 60656. Tel: (312) 867-9200. Pres.: Tom Horton; VP Mktg.: James Dow; Sales Mgr.: Joe Hollenkamp.
Product: In-cassette, reel-to-reel & reel to cassette duplicators.
- Perfectone, see Image Devices.
Performer, see Ionic.
Permostat, see Stanton.
- Pfanstiehl Chemical Corp., 3300 Washington St., Waukegan, Ill. 60085. Tel: (312) 623-1360.
Product: **Recording & Monitoring**—PFANTONE microphones; PFANSTIEHL phono cartridges, styli—pickup.
- Pfantone, see Pfanstiehl.
- Phase Linear Corp., 20121 48 Ave. W., Lynnwood, Wash. 98036. Tel: (206) 774-3571. Pres.: Donald E. Prewett; Sales Mgr.: Bruce Lowry.
Product: **Recording & Monitoring**—amplifiers—monitor, turntables; **Special Electronic**—delay systems, equalizers, noise reducers.
- Phase Matrix, see Audioanalyst Inc.
- Phlanger, see PAIA Electronics.
- Pickering & Co. Inc., 101 Sunnyside Blvd., Plainview, N.Y. 11803. Tel: (516) 681-0200. TWX: (510) 221-1845. Pres.: Walter O. Stanton; Sales Mgr.: Pete Bidwell.
Product: **Recording & Monitoring**—turntables, phono cartridges, styli—pickup.
- Pioneer, see US Pioneer.
- Pitch Twister, see Lexicon.
- The Plate, see Audicon Inc.
- Poik Audio Inc., 1205 S. Carey St., Baltimore, Md. 21230. Tel: (301) 837-4300. Pres.: George M. Klopfer; Sales Mgr.: Sandy Gross.
Product: **Recording & Monitoring**—speakers—monitor.
- Posthorn Rec'gs, 185 Ave. C, New York, N.Y. 10009. Tel: (212) 677-4082. Owner: Jerry Bruck.
Product: **Recording & Monitoring**—SCHOEPS microphones.
- Powerhouse, see Sound Sales.
- Precision Electronics Inc., 9101 King St., Franklin Park, Ill. 60131. Tel: (312) 678-5350. Pres.: William S. Grommes.
Product: **Recording & Monitoring**—amplifiers—monitor, mixers; **Special Electronic**—GROMMES-PRECISION limiters.
- Prime Time, see Lexicon.
- Pro Audio Seattle, 11057 Eighth NE, Seattle, Wash. 98125. Tel: (206) 367-6800. Pres.: Craig Ingle.
Product: Equip. sales.
- Professional Audio Systems Eng'g Inc., 7330 Laurel Canyon Blvd., North Hollywood, Calif. 91605. Tel: (213) 982-1141. Pres. Richard S. Guy.
Product: **Recording & Monitoring**—PROFESSIONAL MONITOR STANDARD speakers—monitor.
- Professional Monitor Standard, see Professional Audio Systems Eng'g.
- ProTech Audio Corp., PO Box 638, 15 Gail Dr., Lake Ronkonkoma, N.Y. 11779. Tel: (516) 473-5979. Pres.: William Murphy; VP Mktg. & Sales: Rick Belmont.
Product: **Recording & Monitoring**—consoles, amplifiers—monitor, mixers; **Special Electronic**—attenuators, compressors, equalizers, limiters, oscillators, echo chambers.
- Pulse Techniques Inc., 1411 Palisades Ave., Teaneck, N.J. 07666. Tel: (201) 837-2575. Sales Mgr.: E.R. Shenk.
Product: **Special Electronic**—PULTEC equalizers, filters.
- Pultec, see Pulse Techniques.

lexicon 224 DIGITAL REVERB

**This new
Lexicon reverb
brings
great sound
down to size.**

**Model 224 reverberation system
has the sound, the controls,
the compactness you've always wanted.**

The remarkable — and remarkably compact — Lexicon 224 digital reverberation system gives you superb sound unmatched by any other system available today — electronic, digital or mechanical. You get smooth, natural decay without coloration, "twang" or "boing".

And you get unprecedented control over all significant reverberation parameters. It's industry's first reverb with a built-in control memory that provides instant push-button recall of previously set effects.

Model 224 saves studio space and is fully portable. Its 5½" x 8" remote control console puts reverb control right at the producer's fingertips. The system's high speed digital processor holds up to eight different programs and requires only 7 inches of rack space.

Currently available programs include: concert hall programs with stereo input and four outputs that create the space and depth of a live performance with decay times of 0.6 seconds to 70 seconds; acoustic chamber programs that provide sound equal to the best reverberation chambers; plate programs that outperform the highest quality reverberation plates or other mechanical devices with full control of all parameters including pre-delay of up to 256 milliseconds.

Model 224. A major advance from Lexicon. Once you've heard it, you'll never want to do another session without it.

Lexicon, Inc., 60 Turner Street, Waltham, MA 02154 (617) 891-6790

HUSH MONEY.

The dbx 208 tape noise reduction system is a new product that will impress both your engineering staff and your accountant. The 208 features 8 channels of simultaneous noise reduction on plug-in modules, plus a spare, all in a compact 5 $\frac{1}{4}$ " rack mount package.

dbx noise reduction is rapidly becoming the new industry standard because it provides 30 dB noise reduction and 10 dB headroom improvement, from 20 Hz to 20 kHz, without the problems of other systems. The dbx system does not require critical and time-consuming level-match adjustments. Its true RMS detectors are not sensitive to tape recorder phase shift. Its voltage-controlled amplifiers (VCAs) operate over a 100 dB range. Overall the dbx system provides a level of performance and a simplicity of operation that is unsurpassed.

But the 208 is also a great value. It is priced at \$3300. That's \$6600 for your 16-track and \$9900 for your 24-track.* And no matter how complex the future becomes, the 208 system expands simply and economically.

The dbx 208. The easy solution to your noise problems, today and in the future.

dbx, Incorporated,
71 Chapel Street
Newton MA 02195
617-964-3210

The dbx logo consists of the lowercase letters 'dbx' in a bold, sans-serif font. The 'd' and 'b' are connected at the top, and the 'x' is formed by two intersecting diagonal lines.

Why do professional sound engineers in 65 countries read **db** every month?

Thousands upon thousands do—and for one basic reason. Because it's packed with the kind of news, information and ideas they want and need about their profession.

- News of new products and services.
- News of people, places, events.
- New techniques, new methods.
- Test reports on new equipment.
- Knotty problems untangled by experts.
- And a whole lot more!

db is written by working professionals—experts all—like John M. Woram, Norman Crowhurst, Patrick S. Finnegan, Martin Dickstein, and others, specifically for recording engineers, studio technicians, broadcast audio engineers, commercial sound installers, and everyone else with an avid interest in sound.

db—The Sound Engineering Magazine. If you're not reading it every month, there's a gap in your professional arsenal. Subscribe now at low rates! Or, if you have to be convinced, ask for a free sample issue. We're sure you'll agree—you won't want to be without it!

The A 800. The recorder only Studer could build.

In all the world, only the Willi Studer factory in Switzerland has the facilities, designers and craftsmen to build the tape machine recognized as the world's finest — the A 800. Manufacturing tolerances surpass spacecraft standards. Precision construction eliminates shims, so all parts are perfectly interchangeable from machine to machine. A sophisticated microprocessor monitors tape direction, speed, tension and switch status of the electronics for safety, accurate timing and perfect punch-in/punch-out recording and erasure, even in varispeed mode. A "rehearse" function lets you preview an edit, and you can energize just the erase head to wipe out clicks. Motors are high-torque ½ HP, and you can stop 14" reels of 2" tape in two seconds with controlled tension. The multi-channel electronics are phase compensated for excellent transient and square wave response. You can even interlock an A 800 with a video/film system or another A 800.

(Continued on page 48)

Eight good reasons to be a Beyer Buyer.

one The first reason is Beyer. We have fifty years experience making the world's finest microphones and headphones. And an unmatched reputation for quality, reliability and innovation. The choice of professionals everywhere.

two M 160. One of the world's best-loved and most versatile microphones. Warm, soft sound favored by vocalists and musicians alike. Dual ribbon design for high strength and fast transient response.

three Beyer headphones. A full range of high quality professional models for critical monitoring and reliable communication. DT 109 combines stereo headphones and boom-mounted microphone, ideal for on-air use and disco deejays. DT 444S wireless headphone receives sound from an infra-red LED transmitter up to

300 feet away. Full 20-20,000Hz frequency response. Six hour stereo operation on rechargeable NiCad batteries.

four The new M 400. A great performer's mic. Supercardioid pick-up pattern to minimize feedback. Rugged design for long life. Tapered frequency response with rising high end and rolled off lows, plus midrange presence boost. Built-in humbucking coil and pop filter. Dynamic design is unaffected by heat and humidity.

We're looking for a few more great dealers to handle the Beyer line. Contact Norm Wieland at Burns Audiotronics.

five Beyer microphone stands and booms. A full range of mic mounts for floor and desk use, with fixed and folding bases. Available with collapsible tubes for easy packing. Also heavy-duty stands for speaker cabinets.

six Beyer microphone accessories. Wind screens, impedance matching transformers, in-line switches, power supplies, wireless transmitters, stereo arms, goosenecks, clamps, thread adapters, anti-shock suspensions, and even a mic stand ashtray! The whole works. If you can use it with a mic, we make it.

seven M 713. One of our unsurpassed studio condenser mics. Modular system; accepts different transducer capsules and power supplies. Gold-vapored mylar diaphragm for high transient response. Mu-metal shield. Temperature and humidity stable.

eight See your dealer or write for information on our product line. You'll have many more reasons to be a Beyer buyer.

**If it doesn't
have an
ANVIL[®]...
you don't
have a
case.**

A lot of musical instrument and amp cases are going around these days trying to pass themselves off as ANVIL[®] cases. And a few dealers are adding to the confusion by using the word "anvil" to describe cases that may look like ours on the outside but don't even begin to measure up on the inside.

The fact of the matter is simple: If it doesn't have the ANVIL[®] on it—it doesn't have ANVIL[®]'s experience, reputation and quality construction in it.

Sturdy, dependable ANVIL[®] cases are the industry standard—always have been. They're designed around the delicate equipment they carry and are perfectly balanced for easy handling. They're dent-proof, scuff-proof, and slippery-fingered-roadie-proof. And

they're available in just about any color you can name.

So if you want your guitar, synthesizer, cello, drums, amps and sound-reinforcement gear to get to the gig in one piece—depend on ANVIL[®]. We can make a strong case for just about anything.

ANVIL[®] CASES, INC., 4128 Temple City Blvd., (P.O. Box 888), Rosemead, CA 91770 (213) 575-8614.

fact: this condenser microphone sets a new standard of technical excellence. & it sounds superb!

The Shure SM81 cardioid condenser is a new breed of microphone. It is a truly high-performance studio instrument exceptionally well-suited to the critical requirements of professional recording, broadcast, motion picture recording, and highest quality sound reinforcement — and, in addition, is highly reliable for field use.

Shure engineers sought — and found — ingenious new solutions to common

problems which, up to now, have restricted the use of condenser microphones. Years of operational tests were conducted in an exceptionally broad range of studio applications and under a wide variety of field conditions.

As the following specifications indicate, the new SM81 offers unprecedented performance capability — making it a new standard in high quality professional condenser microphones.

SM81 puts it all together!

- WIDE RANGE, 20 Hz to 20 kHz FLAT FREQUENCY RESPONSE.
- PRECISE CARDIOID polar pattern, uniform with frequency and symmetrical about axis, to provide maximum rejection and minimum coloration of off-axis sounds.
- EXCEPTIONALLY LOW (16 dBA) NOISE LEVEL.
- 120 dB DYNAMIC RANGE.
- ULTRA-LOW DISTORTION (right up to the clipping point!) over the entire audio spectrum for a wide range of load impedances. MAXIMUM SPL BEFORE CLIPPING: 135 dB; 145 dB with attenuator.
- WIDE RANGE SIMPLEX POWERING includes DIN 45 596 voltages of 12 and 48 Vdc.
- EXTREMELY LOW RF SUSCEPTIBILITY.
- SELECTABLE LOW FREQUENCY RESPONSE: Flat, 6 or 18 dB/octave rolloff.
- 10 dB CAPACITIVE ATTENUATOR accessible without disassembly and lockable.

Outstanding Ruggedness

Conventional condenser microphones have gained the reputation of being high quality, but often at the expense of mechanical and environmental ruggedness. This no longer need be the case. The SM81 transducer and electronics housing is of heavy-wall steel construction, and all internal components are rigidly supported. (Production line SM81's must be capable of withstanding at least six random drops from six feet onto a hardwood floor without significant performance degradation or structural damage.) It is reliable over a temperature range of -20° F to 165° F at relative humidities of 0 to 95%!

Send for a complete brochure on this remarkable new condenser microphone! (AL577)

THIS SPACE CONTRIBUTED BY THE PUBLISHER

Perfection for the Professional

Drawing upon their unequalled 30 year leadership in magnetic recording technology, Tandberg's TD 20A open reel tape recorder extends their traditionally superior level of performance to even further limits—to even beyond the present capabilities of today's magnetic recording tape! This is due to Tandberg's exclusive ACTILINEAR Recording System, which not only provides up to 20 dB headroom margin over existing tape, but is specifically designed to be used with the new high coercivity tapes that will appear in the market in the near future—including the soon-to-be-available metal particle tapes. No other quality open reel tape recorder can make this obsolescent-proof claim today.

The ACTILINEAR Recording System's extremely linear frequency response ("ruler flat" according to some test reviewers) not only makes the TD 20A essentially immune to slew-rate limiting and transient intermodulation distortion (TIM), but also means better transient response and lower distortion overall.

Adding to the TD 20A's superior level of quality & performance is its unique PROM computer-controlled four-motor transport, as well as its many standard operating features that permit a degree of performance and control flexibility that you would expect only from Tandberg—the world leader in tape recorders.

Visit your authorized Tandberg dealer for a demonstration of the TD 20A. Check our *guaranteed minimum specifications* and rate them against any other manufacturer. Combined with the unsurpassed ease of operation & control, the TD 20A is probably more tape deck than you actually need. Isn't it the way things should be?

For your nearest dealer write:
Tandberg of America, Inc.
Labriola Court
Armonk, N.Y. 10504

TANDBERG 

Tandberg's unique ACTILINEAR Recording System, offering up to 20 dB headroom margin over existing tape. And easily adjustable for use with the new high coercivity tapes to come, so your TD 20A is obsolescent-proof!

Still more features: Four line input mixer + Master gain control with pre-set, Self adjusting input amplifier, Front-panel bias adjustment, Mic sensitivity switch, Channel Sync & Sound-on-Sound, "Free" mode & Edit/Cue facilities, Infrared-controlled motion sensing device, Professional scrape-flutter filter, Separate power supplies for operational functions & audio functions, and Peak-reading equalized meters that have been graphically redesigned for easier reading.

Optional PCM infrared wireless remote control for an ease of operation that doesn't tie you down to the length of a cable. Plus automatic start & stop via a timer switch (optional).

Tandberg's exclusive PROM computer-controlled four-motor transport that eliminates solenoids and relays. The unique fourth motor (behind the left reel) operates the pinch roller & servo brakes, achieving a smooth, noiseless and reliable operation simply not possible with the conventional solenoid-activated systems the fourth motor replaces. The ultimate touch to our "punch-in" record capability.

Professionals depend on their equipment.

Like their BGW amplifiers. Why is it so many have come to rely on BGW? Why in less than ten years have BGW amps become the number one choice among audio pros worldwide?

Because their legendary performance refuses to fail even under the most severe conditions you can throw at them. Rugged, awesome power that's been tamed by continuous common-sense engineering. That's why there are more BGW amps in discos than any other kind, and why there are so many in recording studios and on concert stages. BGW has earned a reputation for building superbly engineered products ... massive heat sinks, large safe operating area, redundant output stages, welded

steel modular construction are all synonymous with a BGW product.

We are now proud to introduce a new cost-effective 175 watt per channel power amplifier... the Model 600. It's a quality basic power amp, built around our super reliable

750 B/C output modules. It's in a big 8 $\frac{3}{4}$ " high rack-mount package so it runs cool and costs substantially less than a 750C. It's a quality BGW amp and the answer to the professional who wants BGW on a budget.

Check out the new 600 at your dealer. He'll show you an amp that lives up to your expectations with performance you can compare to anyone... and reliability that compares to no one.

Depend On Us.

BGW Systems Inc., 13130 S. Yukon Ave., Hawthorne, CA 90250 (213) 973-8090 In Canada: Omnimedia Corp., 9653 Cote de Liesse, Dorval, Quebec H9P 1A3

PLUS ALL THE EXTRAS

726 South 23rd Street Birmingham, Alabama 35233 Telephone 205-251-0483

STATE OF THE ART, IN THE SUNSHINE STATE

Here's our formula:

Take one well designed control room and fill it with the most modern equipment on the market.

Then add one large (45'x 23') studio complemented by a twenty-foot high ceiling with our custom "Pyramid Sound Diffusion System."

Combine these with the tropical climate of Florida, and you'll have the finest sound possible, recorded in the relaxed surroundings of South Florida.

Also available under the same roof is an affiliate company: Artisan Recorders, a plush, 24-track mobile recording unit. Together, we've serviced: Heart, Crosby, Stills & Nash, Linda Ronstadt, Neil Young, Bob Marley, The Outlaws, Betty Wright, Kenny Rankin, Melissa Manchester, Weather Report, The Commodores, Atlanta Rythm Section and many more.

BILLBOARD GIVES THE MUSIC INDUSTRY ITS VITAL STATISTICS EVERY YEAR.

Billboard subscribers get more than they pay for. Only paid subscribers receive six annual directories per year, which contain information and vital statistics about suppliers and services. These invaluable sourcebooks are comprehensive, continually used and then saved from year to year for reference. And they are absolutely free with a Billboard subscription.

Loyal Billboard readers have come to expect extra services such as the annual directories. But they don't buy Billboard because of them. They buy and read Billboard for editorial excellence and consistent performance that has caused the international music business to recognize Billboard as its most influential, authoritative and respected publication.

Billboard is the only publication within the industry to provide its readers with such important business tools as the annual directories. That makes Billboard the industry's only full-service trade magazine. And Billboard continues to believe that extras like the sourcebooks are not really extras at all. They are necessary and indispensable.

It all starts in the spring with **Billboard's International Disco Sourcebook (April)**. This directory provides a listing of disco product companies, a detailed audio equipment survey and other data related to the growing world of disco.

Next in the mail is the **Tape/Audio/Video Market Sourcebook (May)**. Its coverage of the highly competitive and fast-changing market is so thorough that it serves as a constant reference point for professionals.

Billboard's Country Music Sourcebook (June), is the only directory in the entire business devoted to country music, containing names and addresses of country music organizations, artists, Nashville area recording studios, state fairs, radio stations, plus the Opry Hall of Fame.

Summertime brings out **Billboard's International Talent Directory (July)**, the most accurate, up-to-date talent and tour directory. It lists artists, managers, booking agents, promoters, clubs and arenas, campus facilities, fairs and festivals, even rehearsal facilities.

The International Buyer's Guide (Sept.), is the annual "bible" the entire industry around the world turns to shop from lists of marketers, suppliers, publishers, wholesalers, distributors and services.

The International Recording Equipment & Studio Directory (Oct.), supplies Billboard's domestic and international audience with up-to-date statistics on professional recording equipment, recording studios, independent record producers, and a special survey on recording studio equipment usage.

Billboard's annual directories are the industry's most accurate, comprehensive and widely used sourcebooks. They are only one of the services that prove that Billboard readers get

more than they pay for. And Billboard's unique position means our advertisers get more than they bargained for.

Today's music industry depends on Billboard to the extent of reading every issue from cover to cover. And that includes every advertisement.

If you're not a current Billboard advertiser, we thought you should know Billboard gives the music industry its vital statistics every year, and the Audit Bureau of Circulation gives the world our leading circulation statistics (the only industry publication that is ABC audited). Because that's only two of our statistics that makes Billboard such a vital advertising medium.

Billboard[®]

The International Music/Record/Tape Newsweekly

Reach Billboard's highly contemporary dynamic audience. For a sample copy of the greatest selling tool in the Music/Tape/Record Live Entertainment Industry (or for a Rate Card) contact your nearest Billboard Office.

**Some people
come to Miami
for sunshine,
but you
should come
for Coconuts!**

It's great to know you can come enjoy all South Florida's good times and still call home to report a productive session in Miami's newest studio.

At Coconuts Recording Co. the studio itself is as well-designed as it is beautiful. We offer the best equipment available including our MCI 536 automated console, 24 track fully Dolby-ized tape system and a full array of special effects devices. What's really special is that all these "toys" plus a Yamaha concert grand and Hammond's newest B3000 organ are all there for your use at no extra cost.

We know that technical facilities alone aren't everything. So we've made an effort to create a private, homelike atmosphere as well. Even the vending machines are free. All reasons why you should pick Coconuts in Miami!

**Total Recording Service...
from creation through duplication**

For more than 20 years Sound Studios has been on the creative scene in the midwest offering a wide range of audio services.

Service that begins with a staff of professionals dedicated to offering the kind of service that our many satisfied clients have come to expect over the years.

Services that include complete facilities like a multiple track studio with all the amenities.

Two fully equipped voice-

over production studios with five production music libraries and unlimited sound effects.

For the AV producer we provide pulsing for every available format and a variety of hardware for screening.

To round out our total service concept Sound Studios offers disc mastering and custom record pressing. If total concept service is what you require, we would like to be of service.

WHO KNOWS MORE ABOUT GOOD RECORDING THAN A RECORD COMPANY?

NOBODY.

Atlantic Studios.
 A 24-track recording service at its best.
 Serving the entire music industry.

ATLANTIC. THE RECORD COMPANY'S STUDIO.

1841 Broadway, New York, New York 10023 (212) 484-8490

IT'S NOT HARD TO GET GOOD HELP THESE DAYS

Celebration Recording offers two of Manhattan's best 24 track studios, with all the latest equipment and some of the most creative engineering talent in the business. A great track record—including recent work by Diana Ross, Ashford & Simpson, Meco, David Sanborn, Kiki Dee and Joey Travolta.

But the good news is that good help comes easy at Celebration. Prices are realistic. Rates are flexible.

Call Piers Plaskitt right now at (212) 575-9095.
He'll help you clean up your act—at prices that won't clean you out.

SOUND STAGE STUDIOS

10 Music Circle South
 Nashville, Tennessee 37203
 (615) 256-2676

Two 24/16 Track Studios · NEVE and MCI Consoles
 Automation · DOLBY · DBX · Studer Tape Machines

Everything you'd expect in a Great American Studio is now in Memphis.

Compare studios and you'll find that Ardent in Memphis has about everything you could ask for—like 46-track recording, automated mixing, disc mastering, and three completely equipped studios.

Best of all, our prices are generally lower than comparable outfits in the major recording centers.

When you cut at Ardent you can concentrate on the sound without worrying about how much money you're spending.

And down here we know sound. Memphis has been shaking the world with its music for years. We're still doing it every day (and night) at Ardent.

For complete rates and information, call Joe Hardy at 901-725-0855. We'll treat you right.

40 INPUT DUAL 24 TRACK MOBILE RECORDING

Wherever you go...

...we can be there, with all the up-to-date equipment you need to produce a high quality recording. Our 24 track diesel mobile unit has the best equipment available: MCI 428-28LM console, Ampex 2-tracks, Allison rack, teletronix limiters, voiced JBL-4313 monitors, AKG-BX-10 reverb, TV monitor system, a complete collection of dynamic and condenser microphones and transformer splits for 32 microphone lines.

Reelsound has the people and experience to give you sound studio quality on location. Ask some of the artists we've worked with: Al Stewart, Genesis, Joe Ely, Asleep at the Wheel, Leif Garret, Michael Murphy, Willie Nelson, Earth, Wind, and Fire, Ted Nugent, Bee Gee's. Reelsound Recording Company will

capture the sounds you need for TV and film projects, too.

For more information contact Malcolm H. Harper at (512) 472-3325 or (512) 282-0713.

Phone: Area Code 206-746-0734 or 882-0946

Reading about a recording studio is as useless as listening to a book.

We're in the sound business, and we sound great.

But the only sure way to get an idea of what we can do for you is to hear what we're doing for others.

Write for our demo package. We think you'll like what you hear.

Alpha Audio. ALPHA RECORDING CORPORATION **candyapple.**

Rite Rec. Prod'n's Inc., 9745 Lockland Rd., Cincinnati, Ohio

Introducing the new TDK testing machines.

At TDK, we know that your test cassette is a vital element of your laboratory or service procedure. So when we created a series of test tapes, we approached them as integral components, with both tape and housing engineered as precisely as your test instruments.

You'd expect that from the makers of TDK SA, the high bias reference standard for many manufacturers' cassette decks.

TDK test cassettes don't jam and they're dropout-free. They're built to last under unceasing use. If you're a store service manager, assembly line quality control inspector, or highly discerning audiophile, you need that kind of precision and reliability. To make absolutely sure you get it,

we custom quality-control each and every one.

No matter what data you need, TDK has a test cassette to help you find it out: bias/EQ alignment; playback level calibration; Dolby calibration; head azimuth alignment; wow and flutter and tape speed and 11, five and three-point frequency characteristics checks.

Check out the complete line of TDK test cassettes by writing, or calling (516) 746-0880. When you do, find out about our bulk duplication cassettes, bulk duplication pancake tape, audio visual, leaderless, data and endless cassettes, too.

You'll find that the same TDK quality and reliability that goes into our test tapes applies all the way down the line.

TDK

World leader in recording tape technology.

WHY YOU SHOULD MAKE A CORPORATE CONTRIBUTION TO THE AD COUNCIL

The Advertising Council is the biggest advertiser in the world. Last year, with the cooperation of all media, the Council placed almost six hundred million dollars of public service advertising. Yet its total operating expense budget was only \$1,147,000 which makes its advertising programs one of America's greatest bargains... for every \$1 cash outlay the Council is generating over \$600 of advertising.

U.S. business and associated groups contributed the dollars the Ad Council needs to create and manage this remarkable program. Advertisers, advertising agencies, and the media contributed the space and time.

Your company can play a role. If you believe in supporting public service efforts to help meet the challenges which face our nation today, then your company can do as many hundreds of others—large and small—have done. You can make a tax-deductible contribution to the Advertising Council.

At the very least you can, quite easily, find out more about how the Council works and what it does. Simply write to: Robert P. Keim, President, The Advertising Council, Inc., 825 Third Avenue, New York, New York 10022.

 A Public Service of This Magazine & The Advertising Council.

The cost of preparation of this advertisement was paid for by the American Business Press, the association of specialized business publications. This space was donated by this magazine.

U.S. STUDIOS/SCHOOLS OFFERING RECORDING COURSES

The following is a list of studios and schools that offer courses or workshops in the recording arts. The list is based on recommendations of US studios listed elsewhere in this directory.

ALABAMA

Broadway Sound Studio/Unlv. North Alabama, 1307 Broadway St., Sheffield 35660. Tel: (205) 381-1833.
Recording Institute of America at Solid Rock Sound, 23 20 Ave. NW, Birmingham 35215. Tel: (205) 854-4160. Contact: Barbara Barksdale.
Samford Univ., 800 Lakeshore Dr., Birmingham 37209. Tel: (205) 870-2011. Contact: Bob Burroughs.
Studio Four, PO Box 6572, Dothan 36302. Tel: (205) 794-9067. Contact: Jerry Wise.
University of North Alabama, Commercial Music Dept., Wesleyan Ave., Florence 35630. Tel: (205) 766-4100. Contact: Dr. James Sempson, Kevin Lamb.
Woodrich Rec'g Studios, George Wallace Park Dr., Lexington 35648. Tel: (205) 229-5470, 247-3983. Contact: Woody Richardson.

ARIZONA

Recording Institute of America at Lee Furr's Recording Studio Inc., 25 E. Glenn, Tucson 85705. Tel: (602) 792-3470.

CALIFORNIA

Accusound Rec'g Studio, 4274 1/2 El Cajon Blvd., San Diego 92105. Tel: (714) 281-6693. Contact: John Hildebrand.
Ayre Studios, 458A Reynolds Circle, San Jose 95112. Tel: (408) 279-2973. Contact: Richard Nebel.
Cal State Northridge, Nordhoff, Northridge 91325. Tel: (213) 885-3700.
College For Recording Arts, 665 Harrison St., San Francisco 94107. Tel: (415) 781-6306. Contact: Leo de Gar Kulka.
Electronic Sounds, PO Box 1251, Reseda 91335. Tel: (213) 726-8050 x 626. Contact: James Roberson.
Goldenwest College, School of the Rec'g Arts, 15744 Goldenwest St., Huntington Beach 92647. Tel: (714) 892-7711. Contact: Evan Williams.
Gramophone Studios, 13889 Meyer Rd., Whittier 90604. Tel: (213) 941-6640. Contact: Dave Paton.
Dick Grove Music Workshops, 12754 Ventura Blvd., Studio City 91604. Tel: (213) 985-0905. Contact: William Wolfe.
Heavenly Rec'g Studios Rec'g Technique Seminars, 1020 35th Ave., Sacramento 95822. Tel: (916) 428-5888. Contact: Steven G. Somers.
Hollywood School of Rec'g Arts, 1207 N. Western, Los Angeles 90029. Tel: (213) 462-5775. Contact: Doc Siegel.
Kendun Rec'rs, 619 S. Glenwood Pl., Burbank 91506. Tel: (213) 843-8096. Contact: Leah Bernstein.
Los Angeles Valley College, 5400 Fulton Ave., North Hollywood. Contact: Dr. M. Timmons.
Media Masters Inc., 3015 Ocean Park Blvd., Santa Monica 90405. Tel: (213) 450-2288. Contact: Melody Shepherd.
Mix-Master Rec'g, 6881 Oakdale Rd., Winton 95388. Tel: (209) 358-5744. Contact: Jim Schriber.
Moorpark College, Moorpark 93021. Tel: (805) 529-2321. Contact: Al Miller.
Orange Coast College, 2701 Fairview Rd., Costa Mesa 92626. Tel: (714) 556-5523/5629. Contact: Howard M. Judkins.
Recording Institute of America, 1519 S. Grand, Santa Ana 92705. Tel: (714) 547-5466. Contact: Hank Quinn.
Recording Institute of America at Natural Sound Rec'g Studio, 9851 Prospect Ave., Santee 92071. Tel: (714) 448-6000. Contact: Lou Mattazaro.
San Francisco Conservatory of Music, 1201 Ortega St., San Francisco 94122. Tel: (415) 564-8086.
San Francisco State Univ., 1600 Holloway, San Francisco 94132. Tel: (415) 469-2141.
Sherwood Oaks Experimental College, 6353 Hollywood Blvd., Hollywood 90028. Tel: (213) 462-0669. Contact: Diane Hanville.
Sound Image Studios Inc., 1041 N. Orange Dr., Hollywood 90038. Tel: (213) 464-9179. Contact: George Fledge, Michael Paradiso.
Sound Master Rec'g Eng. Schools/Institute of Audio Eng'g., 4605 Lankershim Blvd. Suite 203, North Hollywood

91607. Tel: (213) 650-8000. Contact: Barbara Ingoldsbey.
Soundtrax Art of Rec'g School, 8170-U Ronson Rd., San Diego 92111. Tel: (714) 560-8449.
Studio One, 22920 Bay Ave., Edgemont 92508. Tel: (714) 653-2042. Contact: Jack Jackson.
Sun-Dwyer Rec'rs, 1424 N. Waterman Ave., San Bernardino 92404. Tel: (714) 889-9040. Contact: Steve Sun, Terry Dwyer.
Track Record Demo Workshop, 5249 Melrose Ave., Los Angeles 90038. Tel: (213) 467-9432.
Tres Virgos Studios, 1219 W. California Ave., Mill Valley 94941. Tel: (415) 388-7799. Contact: Robin Yeager.
University of California Arts Extension/UCLA, 10995 Le Conte Ave., Los Angeles 90029. Tel: (213) 825-7321. Note: Classes conducted at Hope St. Studio, 607 N. Ave. 64, Los Angeles 90042.
University of Sound Arts, 6671 Sunset Blvd., Suite 1508, Hollywood 90028. Tel: (213) 467-5256. Contact: Karen Armstrong.
University of Southern California, Los Angeles 90007. Tel: (213) 741-2388.

COLORADO

Colorado Audio Institute, 680 Indiana St., Golden 80401. Tel: (303) 279-2500. Contact: David Van Soest.
University of Colorado at Denver, School of Music, 1100 14 St., Denver. 80202. Tel: (303) 629-2727. Contact: Dr. Franz L. Roehmann.

CONNECTICUT

Business Academy of Music, PO Box 4026, Woodbridge 06525. Tel: (203) 735-5883. Contact: Martin G. Kugell.
R B Y Rec'g Studio, RD 1, Main St., Southbury 06488. Tel: (203) 264-3666. Contact: Marjorie Jones.
Recording Institute of America at Trod Nessel Rec'g, Box 57, 10 George St., Wallingford 06492. Tel: (203) 269-4465. Contact: Richard Robinson.
University of Bridgeport, 285 Park Ave., Bridgeport 06602. Tel: (203) 576-4016.
University of Hartford, 200 Bloomfield Ave., Hartford 06117. Tel: (203) 243-4595.

DISTRICT OF COLUMBIA

Catholic Univ., 620 Michigan Ave. NE, Washington 20064. Tel: (202) 635-5000.

FLORIDA

Florida State Univ., 600 W. College Ave., Tallahassee 32306. Tel: (904) 644-2525.
Recording Institute of America at Cypress Rec'g Studio Inc., 120 N. Fifth St., Jacksonville Beach 32250. Tel: (904) 246-8222. Contact: David T. Plummer.

WHAT TO TELL YOUR BROTHER-IN-LAW WHO INSISTS THE MONEY YOU GIVE TO UNITEDWAY NEVER GETS TO THE PEOPLE WHO NEED IT.

So that an amazing 89¢ of every dollar you give goes to agencies that help people in need.

Like those kids you help at the Boys' Club, 40% of whom come from single parent homes.

Like the Salvation Army's day care centers and homes for abused children.

Like those families who, because of inflation, can barely afford food but who can, because of you, send their kids to the YMCA and camp and have a place to turn if family troubles become too much to handle.

So the next time your brother-in-law or the guy at the office water cooler tells you why *he* doesn't give to United Way, tell him why *you* do.

Thanks to you, it works for all of us. United Way

Ad Council A Public Service of This Magazine & The Advertising Council

INTERNATIONAL

Only those studios available for custom recording or mastering are listed. It is assumed that most recording studios offer mix, dub, edit and tape master services. Abbreviations used include: Lib.—library, SFX—sound effects, VTR—videotape capability.

"Having expanded, we now have a recording facility
comparable with any studio, anywhere. The setting
here is incredible; I mean you can come and work
without any of the hassles. Our staff are the most
pleasant and helpful I've ever worked with. What else
can I say, it's got it all."

RICH LEE, General Manager

Behind these People
 is one of Toronto's finest recording environments

The Master's Workshop
 we know how important good service is to you

So you might say we've put our best feet forward
 Behind our staff are two complete 24/16 trk. recording facilities featuring Neve & Lyrec equipment, a "live" echo chamber and our rate card is realistically 25% below our competitors!

The Master's Workshop Corporation
 306 Rexdale Blvd., Unit 6 & 7, Rexdale M9W 1R6 (416) 741-1312
 located 10 minutes from Toronto International Airport

The studio your imagination's been waiting for...

... is here at Eastern Sound.
Our staff and the studio design and equipment in both
of our 24 track rooms have been selected with one aim
... to get your ideas on tape the way you imagined

them. That's our function ... and we think both our
staff and hardware will extend the range of concepts
you can get on tape. This is a challenge we meet every
day. We'd like to meet yours ... and you.

Studio 1

Studio 2

VIDEO

At your disposal too are our video and film sync facilities. These sophisticated systems can handle overdubs to video-tape, film scoring and complete variety show recording/tapings.

Bill Cosby tells
why Red Cross needs
your type of blood.

A Public Service of This Magazine
& The Advertising Council 

"Every day of the week, there's somebody who needs *your* type of blood.

"But the thing about blood is: it doesn't keep very long. Which means we've got to keep the supply coming constantly. Donors are needed every day.

"Sorry to say, there are never *enough* donors.

"In fact, five people out of every 100 are doing the whole

job. That's right, five percent of the people give 100 percent of the blood that's donated.

"If you're between 17 and 66, and generally healthy, you can help change all that. And your one blood donation can help up to *five* people to live.

"Call your Red Cross Blood Center and make a donor appointment soon. It's one way you can help keep Red Cross ready... to help others."

Keep Red Cross ready.

AEG-TELEFUNKEN

Studio-Compander telcom c4
for live and production

When every sound matters!

THE NEW CHANCE FOR TOP SOUND-QUALITY – 30dB OF DYNAMIC GAIN!

Improving the dynamic range of sound-recording – Records can be produced with dynamic of direct cuts. Improving the dynamic range for optical sound recording and with analog or digital time delay or echo units. Noise suppression on audio-transmission lines.

STUDIO-COMPANDER-SYSTEM telcom c4

- Gain in dynamic range up to 30 dB
- No "breathing" tape noise
- No level adjustments
- No sound overshooting in ensuing systems
- Total harmonic distortion $\leq 0,2\%$ at low frequencies
- Integrated system-identification

Studio-technique by

 LOS ANGELES, CA 90069**

The new multitrack recorder is now internationally recognized as an eligible standard for modern multitrack recording. It incorporates state-of-the-art technologies to make it the most functional machine in the market.

The sophisticated approach is represented by the outstanding transport response and stability backed up by the latest electronics. The PLL dc-servo for pinch-roller-free direct drive capstan plus dc-servo spooling motors. Full-fledged remote and gapless/noise-free punches. SMPTE interface access for any audio-video and audio-audio synchronization.

The MTR-90 is available in 16, 16 prewired for 24 and 24 track formats. For details, please contact your nearest Otari distributor.

OTARI

The acclaimed approach to sophisticated multitrack recording.

The new 64:1 system is a pacesetter for high-speed duplicating. It's designed with the most sophisticated electronics and dependable transport mechanisms.

The pacesetting features include an 8MHz quartz bias oscillator in each slave, slanted loop-bin with an adjustable capacity and new transport design for improved tape path, built-in variable-frequency cue tone generator, all TTL control logic and plug-in electronics.

Behind the DP-7000 stand technology and reliability proven through a wide range of our professional sound equipment up to the 24-track recorder. For details, please contact your nearest Otari distributor.

OTARI

Introducing the second-generation 64:1 duplicating system.

SONY PCM 1600 UNIT PCM-1600

PCM-1600

Professional 2-Channel Digital Audio Processor

The Digital Recording Revolution. From Reel to Real.

You've heard about the genius of digital recording. Now it's time to compare real with reel.

Digital recording represents a profound technological leap in sound reproduction that is affecting the entire audio industry. And Sony's PCM-1600 is available now.

Witness the acclaim we earned at the AES and NAB shows.

What's all the noise about? No noise at all.

Sound quality is virtually indistinguishable from the original audio pickup. The best conventional studio equipment can't even come close.

Dynamic range exceeds 90dB. Harmonic distortion is less than 0.05% over the entire audio frequency spectrum. Wow and flutter aren't even in our vocabulary. There's not a hint of tape hiss. Print-through is through. And this remarkable technology is here now.

PCM stands for Pulse Code Modulation. Digital circuits measure the amplitude and frequency of sound waves by sampling them more than 44,000 times each

second and by quantizing them into more than 65,000 levels. These measurements are then converted into a digital code. The digital code is recorded. Once recorded, the digital code can be processed, edited, and duplicated again and again with absolutely no degradation in signal quality.

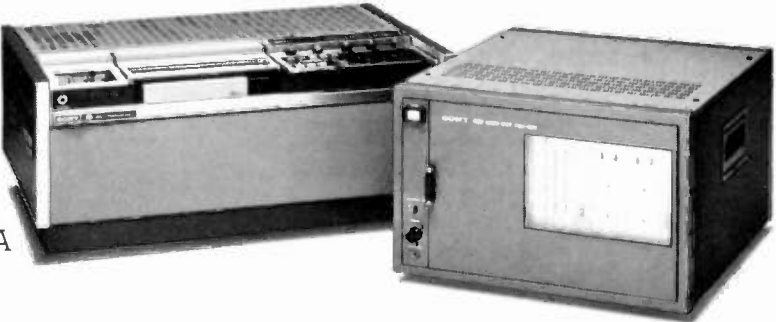

There is even dropout error correction so that not even one itty bit of the computer code is lost.

To store the digital information, our PCM-1600 system uses a standard BVU-200A U-matic videotape recorder. And a Sony BVE-500A video editing console lets you edit electronically in a fraction of the usual time.

Our system is perfect for recording studios, disc manufacturing companies and FM broadcasting stations.

But a word of warning. Once producers and artists hear the difference, conventional systems just don't sound good enough.

Start a sound revolution in your studio. Digital recording is for real.

BVU-200A

PCM-1600

Product: Recording & Monitoring—AMPEX tape recorders (24-1-tr.); Special Electronic—AMPEX measuring & testing equip., EECO synchronizing equip. (time code based); Video—AMPEX video tape recorders (2" quadruplex, 1" "C" format), broadcast cameras, vision mixers; Studio Designers & Builders; Other—AMPEX video editing systems, audio & video outside broadcast vehicles.

Amplification & Recording (Cambridge) Ltd., French's Mill, French's Rd., Cambridge, Cambs. Tel: (0223) 354-507. Mng. Dir., Sales & Mktg. Mgr.: John Dawson.

Product: Recording & Monitoring—A&R CAMBRIDGE amplifiers—monitor, phono cartridges, styli—pickup; Special Electronic—A&R CAMBRIDGE LED peak program/VU meter systems; equip. consultation & design.

Ampli-Hire, Wraybury Hall, Ferry Ln., Mythe End., Staines, Middx. Tel: (078-481) 2055.

Product: Recording & Monitoring—microphones (condenser), microphone booms & stands, amplifiers—monitor, speakers—monitor.

Ampro, see Lee.

Amstrad Electronics, 89 Ridley Rd., Dalston, London E8. Tel: (01) 249-5237.

Product: Recording & Monitoring—amplifiers—monitor.

Armstrong Audio Ltd., Warlters Rd., London N7 ORZ. Tel: (01) 607-3213. Telex: 25209. Mktg. Mgr.: B.A. Hope.

Product: Recording & Monitoring—amplifiers—monitor, speakers—monitor, tuners.

Arnold Electronics, 40c Queen St., Hitchin, Herts. Tel: Hitchin 3387.

Ashly, see Atlantex.

Atlantex Music Ltd., 34 Bancroft, Hitchin SG5 1LA. Tel: (0462) 31511. Telex: B26967. Mng. Dir.: Robert Wilson; Sales Mgr.: David Scott.

Product: Special Electronic—ASHLY compressors, limiters, MXR delay systems, equalizers, noise reducers, echo chambers (electronic); SESCOM attenuators, compressors, filters, limiters, noise reducers, oscillators; Other—"DI" boxes, splitters, cables, in-line transformers, pitch transposers, crossovers, interfacing pre-amps.

Audio Ltd., 26 Wendell Rd., London W12 9RT. Tel: (01) 743-1518. Sales Mgr.: C.S. Sonthall.

Product: Recording & Monitoring—microphones (radio), transmitters, receivers.

Audicord, see Lee.

Audio & Design (Rec'g) Ltd., B4 Oxford Rd., Reading, Berks. RG1 7LJ. Telex: B47605. Tel: (0734) 53411. Telex: B47605. Chm.: Michael J. Beville; Mktg. Dir.: Len Lewis.

Int'l branch: USA

Product: Special Electronic—AUDIO & DESIGN compressors (Complex-Limiter), limiters, vocal stressers, selective band processors; SCAMP delay systems, equalizers (sweep, parametric), filters (dynamic), noise reducers, panners, echo chambers (electronic).

Audio Developments, Hall Ln., Walsall Wood, W. Midlands WS9 9AU. Tel: (05433) 5351. Dir.: A. Levesley; Sales Mgr.: R. Tromans.

Product: Recording & Monitoring—consoles (30 input, 8 output), amplifiers—monitor, mixers—portable; Special Electronic—compressors, equalizers, limiters, oscillators, measuring & testing equip.

Audioidisc, see EMI Tape, Jacques Levy & MSR.

Audio Dynamics Corp., Powke Ln., Cradley Heath, Warley, West Midlands B64 5QH. Tel: (0384) 65191.

Audio Eng'g Ltd., 33 Endell St., London WC2H 9BA. Tel: (01) 836-9373.

Audio Kinetics (UK) Ltd., Kinetic House, Verulam Rd., St. Albans, Herts. Tel: (0727) 32191. Telex: 299951. Dir.: I.M. Southern.

Product: Recording & Monitoring—QUAD-EIGHT consoles; Special Electronic—QUAD-EIGHT compressors; delay systems, echo chambers (electronic); AUDIO KINETICS synchronizing equip. (autolocators); Studio Designers & Builders; Other—SONAPANEL acoustic screens; SONAPANEL acoustic wall panels.

Audiomaster, Bridge Path, Watford, Herts, WD2 4BZ. Tel: (0923) 33010.

Audiopak, see Lee.

Audio Pro (Hi-Fi), Brook House, Crewe Rd., Wheelock, Sandbach, Cheshire, Tel: (09367) 7520.

Audio Servs. Ltd., B2 E. Barnet Rd., New Barnet, Herts. Tel: (01) 449-6605.

Audio Technica, see Shiro.

Audix Ltd., Station Rd., Wenden, Saffron Walden, Essex. Tel: (0799) 40888. Mng. Dir.: C.J. Biliett; Dir.: J.A. Bliett.

Product: Recording & Monitoring—consoles (36 input, 8 output), amplifiers—monitor, mixers—portable; Special Electronic—compressors, equalizers, filters, limiters, oscillators (variable frequency).

Auraton, see Scenic Sounds.

Avcom Systems Ltd., Stanlake Mews, London W12 7HS. Tel: (01) 749-2201. Cable: CINEPRO. Telex: 896691. Mng. Dir.: Eric R. Bastin; Sales Mgr.: Nick Gillieron; Mktg. Mgr.: Linda Breen.

Product: Recording & Monitoring—TELEX tape recorders (4-2-tr.), headphones; Professional Film—35mm—BUHL multi-port telecine (optical); Tape—WEIRCLIFFE bulk erasers; TELEX high speed tape & cassette duplicators, NAB cartridge recorders & reproducers.

Average Electronics, PO Box 6, Ruislip, Middx. HA4 8AT. Product: Recording & Monitoring—amplifiers—monitor, speakers—monitor, tuners.

Avitel, see Philip Drake.

B & K Labs Ltd., Cross Lances Rd., Hounslow TW3 2AE. Tel: (01) 570-7774.

B S R Ltd., Powke Ln., Cradley Heath, Warley, West Midlands B64 5QH. Tel: (0384) 65191. Telex: 337482. Pres.: John N. Ferguson; Sales & Mktg. Dir.: Roger E. Allen; Export Sales Mgr.: David Sedgley; UK Sales Mgr.: Richard Ward-Jones; Pub. Mgr.: Marie Livesey.

Product: Recording & Monitoring—ADC turntables, tonearms, phono cartridges, styli—pickup; BSR—McDONALD turntables; BSR phono cartridges, styli—pickup; Special Electronic—ADC equalizers.

B S R-McDonald, see BSR.

B & W Loudspeakers Ltd., Meadow Rd., Worthing BN11 2RX. Tel: (0903) 205-611. Dir.: J.G.F. Bowers.

Product: Recording & Monitoring—speakers—monitor.

Baker Loudspeakers Ltd., Bensham Manor Rd., Passage, Thornton Heath, Surrey. Tel: (01) 684-1665.

Product: Recording & Monitoring—amplifiers—monitor, speakers—monitor.

Bang & Olufsen (UK) Ltd., Eastbrook Rd., Gloucester GL4 7DE. Tel: (0452) 21591. Cable: BEE0. Telex: 43215.

Product: Recording & Monitoring—amplifiers—monitor, cassette recorders.

F. W. O. Bauch Ltd., 49 Theobald St., Boreham Wood, Herts, WD6 4RZ. Tel: (01) 953-0091. Telex: 27502. Pres.: John Bauch; Sales Dir.: Michael Bauch.

Product: Recording & Monitoring—NEUMANN consoles, microphones (condenser), lathes—disk cutting (stereo), cutting systems, styli—disk recording; STUDER consoles, tape recorders, amplifiers—monitor, mixers—portable; REVUX tape recorders, headphones; DANNER microphone booms & stands; KLEIN & HUMMEL, UREI speakers—monitor; transco disks—blank, EMT turntables, tonearms, phono cartridges; Special Electronic—DANNER, SEYDEL attenuators, EMT compressors, limiters, noise reducers, echo chambers (electronic, plate), measuring & testing equip.; IVE measuring & testing equip.; UREI compressors, equalizers, filters, limiters, measuring & testing equip.; LEXICON delay systems, pitch changers; KLEIN & HUMMEL equalizers; KEPEX noise reducers; STUDER synchronizing equip. (SMPT code system); Professional Film—35mm—ALBRECHT dubbers & recorders, projectors; Tape—STUDER head demagnetizers; MRL test tapes; Other: ITC nab cartridge recorders/reproducers.

Belden, see Leonard Wadsworth.

B. Benkert Ltd., 351 Oxford St., London W1R 2NA. Tel: (01) 493-8866.

Beyer Dynamic (GB) Ltd., 1 Clair Rd., Hingwads Heath, Sussex RH16 3DP. Tel: (0444) 51003. Mng. Dir.: S.B. Duer.

Product: Recording & Monitoring—microphones (condenser, dynamic, ribbon), microphone booms & stands, headphones, infra-red & loop sound distribution systems.

Bib Hi-Fi Accessories Ltd., Kelsey House, Wood Lane End, Hemel Hempstead, Herts. HP2 4RQ. Tel: (0442) 61291. Telex: B26437. Chm. & Mng. Dir.: Brian Arbib; Sales Dir.: R.C. Everett; Adv. Mgr.: John Dixon.

Product: Tape—head demagnetizers, splicing & editing equip. (tape splicers for 1/4" & 3/8" tape), head maintenance equip.

Binatone Int'l Ltd., Binatone House, Beresford Ave., Wembley, Middx. HA0 1YX. Tel: (01) 903-5211. Cable: BINATONE. Telex: 923810. Chief Exec.: P.T.

Lalvani; Sales Mgr.: J. Lock; PR Officer: J. Hilderley.
Product: Recording & Monitoring—tape recorders, microphones, headphones, turntables.
Robert Bosch Ltd., PO Box 166, Rhodes Way, Watford, Herts. WD2 4LB. Tel: (0923) 44233. Mng. Dir.: Peter Herz; Prod. Group Mgr.: Colin Mitchell.
Product: Video—video tape recorders, closed circuit cameras, studio & portable broadcast cameras, telecine.
Bose (UK) Ltd., Milton Regis, Sittingbourne, Kent. Tel: Sittingbourne 75341.
Bradmatic Ltd., 33B Aldridge Rd., Streety, Sutton Coldfield B74 2DT. Tel: (021) 353-3171. Telex: 338024. Dirs.: Leslie, Frank & Norman Bradley.
Product: Tape—bulk erasers.

HIGHLAND RECORDING STUDIOS

29 Track recording with computer assisted mixdown, pleasure display and spectra view facilities.

Situated on an estate in the beautiful Highlands of Scotland, it is one of Europe's most sophisticated and up-to-date studios.

Highland Studios offer producers and artists the opportunity to record and relax in surroundings that are free of pressures normally found in city studios. Centrally heated accommodations and cutting facilities are offered free to clients and the studio can arrange some of the finest fishing, saling, shooting, golfing and sightseeing to be found anywhere in the world.

A Public Service of This Magazine & The Advertising Council

Why magazines are

The tangible values of magazine advertising don't change from year to year. But times change. And whenever they do, the values take on a sense of importance that no advertiser can ignore.

Price

Magazines aren't impulse items. The average magazine costs more than a dollar per copy.

Readership

Magazines aren't easily ignored. Starch INRA Hooper finds that the increase in advertising pages has had no effect on the level of advertising readership. It's as high as ever.

Recall

Magazines aren't easily forgotten. Gallup Robinson finds that magazine advertising recall is on the increase.

Response

Magazines aren't passive. Opinion Research Corporation finds that the prime prospects for most products are more likely to respond to a magazine ad than to a television commercial.

Depth

Magazines aren't limited by a stopwatch. A magazine ad can deliver its selling points, in depth, in as many words as it takes.

Believability

Magazines aren't easily dismissed. In a recent Opinion Research Corporation study, no less than 60 percent of those surveyed rated magazine advertising believable. And less than 40 percent rated television advertising believable.

Usefulness

Magazines aren't trivial. They satisfy the need to know—in depth. And they cater to special personal interests like no other medium.

Tangibility

Magazines don't disappear before your eyes. A magazine ad can put a message, a coupon, an offer, a recipe right in a prospect's hands to be reread, saved, clipped, mailed, acted on.

Long-Term

Magazines aren't short-lived. Direct-response advertisers have proved that a magazine ad can produce results six months, and even a year, after publication.

Short-Term

Magazines don't work slowly. For instance, one of the most immediate and effective media weapons in a sluggish sales climate is a multi-page magazine effort that coincides with specific promotion dates.

Magazines. The

tough to put down.

Efficiency

Magazines don't cost the earth. They've held their advertising rates below the Cost of Living Index and the Wholesale Price Index. And in the past five years, their CPMs have increased at about half the rate of television's.

Selectivity

Magazines don't reach for the world. And when it comes to zeroing in on prime prospects who are in the market for specific products, they're the number-one medium.

Compatibility

Magazines don't have to fight for attention in a constantly changing environment. They create environments of their own. As a result, the advertiser purchases a frame of mind as well as a frame of reference for his ads.

Portability

Magazines aren't stationary. They're take-alongs that fit into briefcases and tote bags for the beach, the boat, the train, the plane.

Accessibility

Magazines aren't relegated to easily missed time slots. They wait for their readers to turn to them in their own good time.

Segmentation

Magazines aren't inflexible. Almost one out of every five magazine ads runs in either a regional or demographic edition.

Relevance

Magazines aren't passing whims. They're considered purchases. And the relevance of every issue must pass the supreme test: repeat sales.

And magazines have nothing to hide. That's why the MPA invites you to re-evaluate the balance of power between television and magazines in your media planning. And that's why we offer you an IMS-computer run based on the Media Imperatives® and your prospects, your data, your dollars.

Xavier University

THEY BECAME LEADERS BECAUSE YOU HELPED THEM FOLLOW A DREAM.

For a long time there were far too few educated blacks in prominent positions for blacks to look up to. Maybe, it was because for most blacks a college education was only a dream. But fortunately, your contributions to the United Negro College Fund have enabled many blacks to follow that dream. And to go on to become

the kinds of leaders everyone can look up to.

When you give to the United Negro College Fund, you help support 41 private, predominantly black, four-year colleges and universities. Colleges that produce thousands of black graduates each year, who go on to become doctors, lawyers, teachers, ac-

countants, engineers, scientists. People whose footsteps we can all follow in.

So support black education because today's student may be tomorrow's leader. Send your check to the United Negro College Fund, Box L, 500 East 62nd St., New York, N.Y. 10021. We're not asking for a handout, just a hand.

GIVE TO THE UNITED NEGRO COLLEGE FUND.

A mind is a terrible thing to waste.

One reason Jim King sells 75% of his cassette tape loaders overseas is because it's profitable.

Another is because we showed him how.

James L. King, President, King Instrument Corporation, Westboro, Mass. (40 Employees)

Can we do the same for you?
