This is the most exciting time in Nashville music history to be part of this community. Every major record label is less interested in 'playing it safe' and the competitive spirit has never been higher. CBS Records is racing with a new intensity to develop the best talent available, while taking our super stars to even greater heights. In the process, everyone wins...artists, songwriters, radio and ultimately the public who are clearly responding to a distinctive new season of artistry from Nashville's number one music company.

# Ricky Skaggs Comin' Home To Stay

"Quite frankly, I'd rather see Ricky Skaggs perform than anyone else in country music. He's really a class act."—Bill Bell (New York Daily News)

"The man's simply a musical genius."—Jack Hurst (Chicago Tribune)

"Ricky Skaggs was a new traditionalist in country music before the term even existed. He's just a real pro."—Susan Shockley (The Nashville Network)

"As a musician, performer and person the first adjective that comes to mind is 'superb.' He's very much in a class by himself as a performer and his style is nothing short of unique. And I think Ricky Skaggs truly cares, not only about his music but about the people he's playing it for."—Lee Arnold (host of nationally syndicated radio show "A Country Road")

"A brilliant set all around, Skaggs' performance topped off a day that was, for this country fan, a near-perfect experience."—Bob Claypool (Houston Post)

"What the crowd saw was a virtuoso instrumentalist leading a group of virtuoso instrumentalists. Through it all, Skaggs and the group were technically perfect, meshing like gears in a machine never missing a lick, never dropping a note. One wouldn't have expected less from what is probably the most adept group working in country music today."—John Wooley (Tulsa World)

# Give Us Your Best Song.

*Please*

John Stewart did. Now Rosanne Cash and John Hiatt have joined the club.

If you're also a world-class singer/songwriter (with worldwide compassion), ENTERTAINERS AGAINST HUNGER wants the publisher's share of one of your songs. EAH will use the continuing income from the song to help feed the people who need it most. Some details:

**Professional Administration.** The song will be administered internationally by Bug Music. **No Cut — No Keep.** If your song isn't recorded and released within two years — or if EAH should go out of business — the share instantly reverts to you. That's contractually assured.

**Open Books.** EAH was chartered in 1985 in Nashville, Tennessee, as a charitable organization. Where the money goes is a matter of public record.

**No Waste.** EAH uses efficient and established food-providing organizations to channel its funds through. There is no second-level of bureaucracy to sap the income.

**Good Advice.** A five-person advisory board — made up of representatives from the entertainment industry, the press, medicine and education — decides where EAH funds are most needed.
