"The Coin Machines Merry-Go-Round"

By Bill Gersh

YOU'RE INVITED TO ATTEND THE "WARTIME CONFERENCE" OPENING AT THE WALDORF-ASTORIA HOTEL, MONDAY, AUGUST 16, 1943 AT 10:30 A.M. BE SURE TO BE PRESENT!!

BRING ALL INTERESTED COINMEN WITH YOU!! THIS MEETING IS VITALLY IMPORTANT TO YOU!

THE TIME AT LAST ARRIVES WHEN THE NECESSITY FOR A "WARTIME CONFERENCE" OF THE MEMBERS OF THIS INDUSTRY OVERSHADOWS ALL OTHER BUSINESS CONSIDERATIONS. WE AT "THE CASH BOX" HAVE GIVEN MUCH OF OUR TIME, EFFORT AND ENERGY TO BE AT THIS FIRST "WARTIME CONFERENCE" IN THE HISTORY OF THE COIN MACHINES INDUSTRY. WE ASK BUT FOR TWO DAYS OF YOUR TIME (MONDAY, AUGUST 16th FROM 10:30 A.M. TO 3:00 P.M. AND TUESDAY, AUGUST 17th FROM 10:30 A.M. TO 5:00 P.M.). REMEMBER - THIS FIRST "WARTIME CONFERENCE" WILL BE CALLED TO ORDER AT 10:30 A.M., MONDAY, AUGUST 16, 1943 AT THE WALDORF-ASTORIA HOTEL, PARK AVENUE AT 50th STREET IN NEW YORK CITY. YOU WILL FIND THE CONFERENCE ROOM LISTED ON THE HOTEL INFORMATION BOARD UNDER THE NAME OF THE "NATIONAL COIN MACHINES BOARD OF TRADE" MEETING. AT THIS CONFERENCE YOU WILL BE GIVEN A MOST COMPLETE STORY OF THE POSSIBILITIES TO SUCCESSFULLY AMEND THE OFFICE OF PRICE ADMINISTRATION'S NEW MAXIMUM PRICE REGULATION 429, WHICH BECOMES LAW ON SEPTEMBER 1, 1943. AT THIS CONFERENCE A COMMITTEE WILL BE CHOSEN TO GO ON TO WASHINGTON, D. C. THIS VERY SAME WEEK AND MEET WITH OPA TO BRING ABOUT THE NECESSARY AMENDMENT IN FAVOR OF YOU AND YOUR BUSINESS. THIS IS EXTREMELY IMPORTANT TO YOU. IT IS THE ONE TIME WHEN YOU CAN BE PRESENT TO MEET WITH THE MANY LEADERS YOU KNOW IN THIS INDUSTRY, TO ONCE AGAIN DISCUSS YOUR PROBLEMS, TO ONCE AGAIN HAVE A VOICE IN AN OPEN HEARING REGARDING YOUR BUSINESS FUTURE. "THE CASH BOX" WILL BE HAPPY TO MAKE RESERVATIONS FOR YOU, WIRE NOW. TELL US HOW MANY.

WARTIME CONFERENCE

The proposal for a Wartime Conference to be held in New York City from among which group will be chosen a committee to represent this industry in regards to OPA Maximum Price Regulation 429 seems to have met with a tremendous amount of favor from the leaders of this business. It is the hope and the will of each one of these men to immediately obtain the proper interpretation of MPR-429 so that they will not be obligated to price ceilings under a regulation which is most definitely not for this industry. It is also the general belief that the one and best time to get an interpretation to favor this industry is now - prior to September 1, 1943, when MPR-429 becomes law. Only by such a committee acting immediately in cooperation with the proper OPA authorities in Washington and intelligently explaining the peculiarities of this business and how much it differs from the "used consumer's durable goods" industries (which regulation 429 thoroly covers) can the possibility of success be assured.

Operators will suffer most from this regulation. Their equity, their capital in their businesses (and as is well known most operators have only the valuation of their property on which to gauge their capital) will be cut down in many instances as much as 66 2/3%. This means that an operator who valued his equipment at \$100,000.00 will find that it is now valued at only \$33,000.00 due to MPR-429 which could place these "used" machines into Class II as "used goods in poor condition". The operator who knows what the market price of his equipment is today will suddenly find that this market price has disappeared. Instead he has to accept the OPA "market price" for his machines. And this new "market price" is far less than what his equipment would be worth if MPR-429 were correctly interpreted, as it should be.

We must remember (and intensely and doggedly stick to this point) that this regulation was written to protect the "consumer" which, in the minds of the men engaged in this industry, is the public. The public is the actual and basic consumer of the services which the machines in this industry render. Therefore, since the public is not paying any more for the services rendered by coin operated equipment than they did in March, 1942, they are not being overcharged. This is the prime purpose for the

"The Coin Machines Merry-Go-Round"

creation of OPA, to see to it that prices to the public for services and commodities (GMPR) remain the same as of March '42. With the public (the true, basic consumer of the services of this industry) protected as to any inflationary price increase, we in this business feel that all other matters such as price ceilings are out of line and thereby seriously injurious to one and all from financier to manufacturer to distributor to jobber to operator in this industry.

These are among the many points which the committee will have to intelligently present to OPA. They will have to explain that coin machines are not "hatchets" or "shovels" or "wheelbarrows" or "portable table lamps" or other such durable consumer goods as contained in MPR-429. The operator will be the greatest sufferer for in this regulation the "wholesaler is excepted". The operator's property valuation would fall from 33 1/3 % to 75% overnight and this would create tremendous losses of every conceivable kind.

The committee therefore faces a great and good task. It will be the first coin machines committee to meet with OPA. Its job will therefore hold the attention of this entire industry. Its efforts will be long remembered and commemorated by all engaged in this industry. It is therefore of tremendous importance that the leading men in this business step forward -- with complete and courageous resolve to help bring about the proper interpretation.

A SPADE'S STILL A SPADE

The Cash Box daily receives a great many letters of commendation for its courageous stand in regard to those matters which are of vital importance to this industry. We believe in calling a spade a spade. We feel that by openly presenting the true picture of conditions that we can best effect a cure. Regardless of the fact that there exists the possibility a few may feel hurt at our frank and open and honest presentation of the facts.

This past week we received a great many telegrams and letters in answer to our call for a Wartime Conference. At the same time we were visited by certain persons who suggested that we attempt to capture all the glory (?) by doing the job ourselves and not bringing it into the open for all in this industry to participate. (Before we go any further - our answer to these people, whom we prefer to have remain anonymous, is this article telling the facts.)

We realize that it is practically impossible to get each and every coinman to attend such a meet. It is therefore (and will always be) the duty of a very few, especially in the beginning, to do the work of the majority. And by so doing realize that these few are philanthropists, in a certain sense of the word, yet outstanding pioneers in a great cause which, once showing success, will win the support of all others.

LIBERALITY

For some time now, as all coinmen realize, there has been a greater feeling of liberality toward coin operated equipment on part of officials and the public due to the fact that with the country at war coin machines have proven themselves extremely capable of giving pleasing relaxation and entertainment economically and have thereby helped to maintain and bolster morale.

A few weeks ago, Common Pleas Judge Flannagan in the City of Newark, N. J. (which went down on all amusement games many months ago) decided that a baseball machine was not a gambling machine. The police arrested the proprietor and brought him before the Court on a gambling charge - the same charge that had been used to clear the city of pinballs. A restraint order was obtained and the trial came up before Judge Flannagan.

The Newark Evening News reports, "The court agreed that the machine could be used for gambling by two players who cared to wager over the outcome, but he also pointed out that the two persons could bet on the number of peanuts that would come out of a vending machine, but that this would not make it a gambling device."

This fine decision on the part of Judge Flannagan has the coinmen in Newark wondering whether, since it upsets the former pinball ruling, they can once again operate pins on a strict amusement basis. Whether they will be able to or not is not the point of this item. What is most important is the fact that a greater liberality has arisen in regards to coin operated equipment and is even making itself felt in the courts.

This better understanding of coin operated equipment can be carefully nurtured by the men engaged in this industry if they will continue to conduct themselves as they should. What this industry always needed was a better understanding of its equipment and business methods. The public as well as the officials should be made to realize just what coin operated equipment is and means to all retail business as well as to

"The Coin Machines Merry-Go-Round"

the public generally and to the revenue of local communities, counties, states and the federal government.

It is and always has been the belief of The Cash Box that a great many of the hardships which coinmen have to endure is due to the lack of proper understanding which the public and officials have regarding this business and its equipment. We realize that it is a gigantic task to bring about this better understanding. But gradually, day by day and week by week, a better understanding of this industry is coming about.

The movie industry for years fought for better understanding. After a great many hardships, which will surprise the reader who goes back into the history of this now generally accepted and acclaimed worldwide industry, they came to the front. It is the belief of The Cash Box that as equipment is developed that meets with the approval of the public and its officials that the coin machines industry, too, will eventually come out of the sea of misunderstanding to reach its true proportions.

ALLIANCES

Our leading editorial item in a past issue about alliance between the operator and his location as his future assurance for retaining his location, created quite a bit of comment. We were advised by one noted manufacturer that from a legal standpoint no contract ever made between the operator and the location owner could stand up. We also received a letter from one noted distributor advising why, in his opinion, this would never work out, and telling about the methods used by operators in the territory he covers to actually combat each other for locations and thereby destroy any possibility of strong alliance between the operator and the location. We have since been in receipt of a great many letters, the majority commenting favorably upon the item and urging us to continue to point the way to the trade for such an alliance.

The only time we have found that alliances will not work between the location owners and the operators is when the operators themselves don't want them to work. Only because of this, because of suspicion, lack of faith and confidence in each other, have alliances failed.

One distributor, who is a keen observer of the coin machines picture, believes that to make alliances work the operators must be forced into a large financial risk. In short, every operator in the territory must be made to deposit a large amount of cash into one central organization which would make even the grabbing of the best location in the territory too expensive. By such action, wherein this central organization would take this money from him for such infraction, the operator would be forced to stick to all agreements.

When an industry begins to believe that only by such financial force can it be made to observe the rules of decent business conduct, then it is surely in a sad condition. Suffice it to say that the majority of the men engaged in this industry are upstanding and honorable business men. By their actions they gradually bring about better business methods. This will continue. The manufacturer who has won the confidence of the trade because of his fine business ethics forces all other manufacturers to also adopt such methods. The same is true in the case of all others engaged in this business.

No amount of money will ever be able to cure the type of person who believes that by underhand methods he can best prosper. He will be cured of his own wilfulness by the losses he will bring his own interests. Regardless of how much money such men may seem to have, they eventually find themselves desolated of friends and besmirched of reputation. Instead of cooperation they receive competition at every turn. Instead of good will they create disdain. Instead of winning over locations they find that they are only tolerated by the location owner.

Eventually they all reach that stage where they want to adopt a mantle of righteousness and when that time arrives they find, to their dismay, that there is no such mantle for adoption. When all their mean and selfish tactics are completely cleansed and they can enter into this world of men - as a man - will they find, that long ago, without their knowledge, such a mantle has been covering them.

539 BOARDWALK

ATLANTIC CITY, N. J.

A MERICAN FIGHTERS . . . men of the free, fun-loving breed for whom Bally games were created . . . are now blasting the enemy out of the sky and sea with the aid of war-products manufactured by the Bally organization. Today Bally's only task is to help the Army and Navy fight for America's "life and liberty." But when America turns again to "the pursuit of happiness," bank on Bally Games and Venders to be in the forefront of post-war prosperity.

ASK FOR POST-WAR FLASH No. 1

Operators and distributors who want early information on Bally's post-war equipment . . . games that will bring back the boom days of Ballyhoo and Bumper . . . vending machines that will open vast new opportunities . . . are urged to place their name on a special mailing list now being compiled for Bally's Post-War Flash No. 1. IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

- 1—Means price went up.
- 2—Means price went down.
- 3—Means this machine just added to list.
- 4—Means prices went up and down same week.
- 5—Means prices remained same as in past week's issue.
- 6—Means no prices quoted for this machine this week.
- 7—Means no prices quoted for this machine for past two weeks.
- 8—Means no prices quoted for this machine for past three weeks.
- 9—Means no prices quoted for this machine for past four weeks or longer.
