"The Coin Machines Merry-Go-Round"

By Bill Gersh

THE POST-WAR PUBLIC

The post-war planning period is on top of all industry. As the armed forces find their basic needs becoming completely supplied, many manufacturers will have to begin to act on post-war peacetime production. As reported here two weeks ago, Ward M. Canaday, president of Willys-Overland Motors, Inc., stated, "It would be completely unjust if the nation's manufacturers were not allowed to prepare for a gradual return to domestic production so that no great period of unemployment would come about when the war ended." And as Jesse Jones, Secretary of Commerce, stated, "This war may end suddenly." Post-war plans should be prepared as far in advance as possible. And in keeping with proper post-war planning, it is also well to learn just what the general public is thinking of doing the moment the war is won.

From some interesting surveys just completed by large, national organizations, these facts present themselves rather clearly and most interestingly. There is at this time approximately \$84,000,000,000.00 in savings accumulated by the public. This figure is based on the estimate of the U. S. Department of Commerce as of December, 1943. The greater part of this money, it is believed, will be spent by the public when it can once again buy freely.

First place in every survey for what people will want most after the war is over, is a new automobile. The auto takes first preference for instant purchase by a very great percentage. This means that with new cars, and the auto has been extending every city's boundaries for many past years, the public will become more greatly nationalized. State barriers will disappear. This also means that with a larger traveling public, arcades, amusements of every type, merchandisers and service equipment are sure to profit more greatly than ever before. The coin machines industry can base many of its plans on this transient public which the new cars will bring about. And as is well known in this trade, transient play is most profitable for all types of equipment. Therefore thought must be given to the types of locations which will prove most profitable when this war is over and advantage can be taken of the traveling which the new autos will bring about.

Second place in demand in spending this \$84,000,000,000.00 goes to homes and property. This naturally includes house furnishings. It is the belief of some real estate leaders that over 4,700,000 homes will be needed after the war is over and that the construction industry will build at least 1,000,000 homes the first year after the war. This, too, is extremely interesting to the cointrade. Demand for the new homes has been created by people in large cities who want to get out into the suburbs where they can have more room and sunshine. This means that deserted lots flanking many cities now may suddenly boom into prosperous suburbs thereby opening thousands of new locations for the equipment of this industry. The average coinman can be sure of new locations going up all around him and probably better locations than he has formerly enjoyed, for these new spots will be opened to a better income trade.

Third place in these surveys goes to the purchase of clothing. It is guessed that far over \$150,000,000.00 will be spent for new clothing of all types when the war is over. This includes men's and women's suits, fur coats, etc. It is interesting to note that most of the new clothing will be purchased by people in the higher income groups whereas the lower income groups are much more interested in purchasing electrical refrigerators, washing machines, and electrical appliances of all types. Yet this, too, means something to the trade. It will keep the public coming to the large urban centers and that means that the present "downtown" locations will remain profitable.

There is also an unusually great demand for radios and radio-phono combinations from the public. This interests the music machines division. By bringing more music into the homes of the nation, the play on machines in locations grows greater. Years ago a certain few in the industry believed that phono play action would go down to a minimum if the public bought the popular recordings for their own homes. Instead, and as is well known today, with more and more records being purchased by the general public and in greater quantity than ever before in the history of the record industry,

"The Coin Machines Merry-Go-Round"

the play on the music machines has grown tremendously greater. This knowledge and understanding of music gained in the home, leads to a demand for music when on the outside. Therefore, the preference may be established for certain new types of music after the war, the music machines industry can depend upon continued leadership.

It is also interesting to note that there is a demand for airplanes, boats, etc., from the public. This means that resort spots will continue active. According to all the surveys so far made more and more people will take advantage of vacation spots. This will please resort men for it means continued profit from their locations.

Interesting to distributors is the fact that a great percentage of those questioned in these public surveys for the post-war era have expressed a desire to get into a business of their own. As was predicted here many months ago, sales to new blood will be extensive and this industry, within two years after the war is over, will not all be recognizable to what it was even at its greatest pre-war size. This industry is in for its biggest boom. New blood with new ideas and new thoughts, and in most cases young blood like that of returned service men, will open new paths and make many new demands of this industry. The old timer with his hush-hush system may find himself tremendously surprised by how different this new blood will act and what it will demand from this industry.

In keeping with the growing scarcities and the fact that the present war effort is already having its predicted hardship effects on the nation is the fact that more than half the people in a survey just made by Fortune magazine report that they are worse off this year than they were last year. This year only 30.9% claimed that they were better off than last year. This "worse-off" figure is expected to grow greater. Yet, when people state that they are "worse-off" this year than last, this does not mean worse off than they ever were before. It simply means that they are not getting the products they want this year as they did last year.

Once again The Cash Box strongly urges its many subscribers to prepare themselves for this coming post-war era. The time is growing shorter each day. This is the time to cut down to 30% commission to locations. This is the time to plan ahead for whatever division of the field you may want to identify yourself with when the war is over. This is the time to put your finances in liquid condition so that you can act quickly. This is the time to think about the type of showrooms, offices, warehouses, repair departments, etc., you intend to build. This is the time to also arrange for peacetime route expansion. This is also the time to make any tie-ups which you believe will prove to your advantage when the war is won. And this is the time to make yourself better known to all the trade by using the larger space which will "sell" your firm to this industry in The Cash Box.

CREDIT BUREAU

For sometime now The Cash Box has been proposing that a "National Coin Machines Credit Bureau" be formed for the purpose of helping the members of this industry to greater recognition. The credit bureaus which exists in almost all industries have proven their value time and time again. These credit bureaus have tremendously simplified a great many financial problems for the members of their trades. They have arranged for a most complete and better understanding among their own industries. They have also been instrumental in bringing better finance to their trades.

A few weeks ago the larger bankers of the nation, taking cognizance of the fact that much new finance will prove necessary to small business ventures announced the creation of a \$500,000,000.00 credit pool. This pool would be available to all industry ventures. It would allow the smaller business man to reconvert his business to peacetime needs. With the fact that the war in Europe is progressing at such a rapid pace, these bankers believe that they had best now set the stage for the post-war era. The fact that domestic manufacture may soon come about is one very big reason for this gigantic finance pool. Because of this the smaller business firms will have somewhere to turn in their efforts to obtain the needed monies for reconversion back to domestic materials.

A "National Coin Machines Credit Bureau" therefore becomes more and more important to the members of this industry. Such a bureau would help a great many of the firms, in the post-war era especially, to realize greater profits than they have ever previously enjoyed. Certainly this would gain for them the credit standing they need for continued and progressive effort. Those men who have continued to maintain a dignified and honorable financial position and who have met their obligations in such fashion as to win them the praise and credit of the trade, should most definitely receive the sort of recognition this effort deserves. Only a credit bureau in this industry would be in a position to completely and instantly bring attention to such men. All honorable men in this industry deserve recognition, finances and credit for their continued success in this field.

TRAILER TOWNS (Make it "Official" Mention "The Cash Box" when answering ads.)

The 900 manufacturer and dealer members of the auto trailer industry have come together and underwritten the construction of 300 auto trailer parks. There are at present

"The Coin Machines Merry-Go-Round"

600,000 auto trailer residents in the country. This is a post-war project and will provide employment for many thousands of returning servicemen, these men claim. These parks, they report, will accommodate anywhere from 50 to 200 trailers. They will be located near peacetime industrial areas and noted vacation spots. Carl J. Wagner, who is the chairman of this 900 member committee, reports that this will lead into one of the greatest post-war expansions for the auto trailer industry.

As far as the coin machines industry is concerned, these trailer parks are going to prove ideal locations for all types of equipment. Merchandisers of every kind can be located here. Amusement machines, phonos, and a myriad of other equipment should find its way into these camps and provide many necessities as well as economical entertainment and a great many automatic services for these trailer residents. Such projects should have the complete support of the members of this industry. It would probably prove to someone's advantage at this time to arrange for a national operating deal in these trailer parks when completed.

RECORDS

Complaints continue to come in daily from music operators all over the nation that they are not getting the number of records they need. WPB has announced that the record manufacturers, during the first 3 months of '44, will get 50% of the amount of shellac they used for the same period in '41. This increase in shellac to the record makers should mean that many of the music coinmen will find their record quotas increased.

It is hard to believe that the record manufacturers haven't improved the distribution of their product to the coin machines music industry. This industry has been extremely instrumental in putting the record business back on its feet. It wasn't so many years ago when the record manufacturers began to fold their businesses up one after the other. The coin operated phono not only put them back on their feet, but by its power of entertainment and the popularity which it won thruout the country, acted as a terrific network for popularizing records and thereby created great demand.

It is generally believed that the average record manufacturer is interested in seeing that his music customers are well provided for and the general claim is that this industry gets its full share of the records now being manufactured. This is openly disputed by the music machines men. They claim, in turn, that the retailers thruout the nation, and retailing of records has tremendously increased in the past few years, are better taken care of even tho they are practically new buyers of records in large quantity. The music ops are plenty hot about the situation. Most of them report that they are actually buying records at retail stores to assure themselves obtaining some quantity to meet their demand. This is most entirely unfair, they state, and want the record manufacturers to arrange for some cure so that they can continue to go ahead and give the record manufacturers their finest promotional efforts. It is generally hoped that the record manufacturers will arrange for some sort of better distribution plan, now that WPB has allowed a larger amount of shellac to be used.

HONORABLE MENTION

To M. D. Close of M.D.Close Distributing Company, Provo, Utah, for his donations of games to the armed forces of the nation. He is always ready and willing to help the service men with games of every type.

To James E. Broyles of The Rudolph Wurlitzer Company for his many great deeds in behalf of all the trade.

To Charles Aronson and Wm. J. Alberg of Brooklyn Amusement Machine Company, Brooklyn, N.Y., for instantly coming to the fore to help obtain records and music for the Newspaper Guild's Canteen for service men.

TRADE ACTIVITY

Much more activity was apparent in the trade this past week. Leaders reported sales and purchases from many points. Routes have been cut down in many sections and this brought more equipment to market. Music, as per usual, led the parade. Later model phonos are still difficult to obtain. But more of these now beginning to show up. Pin games were active, as were slots, consoles and arcade equipment. Cigarette machines seem to have gone begging due to the decrease in cigarette quotas. Some claim that shortage of cigarettes has greatly hurt their routes. Candy bar vendor business also took a tumble. Merchandise for these is also more difficult to obtain. Bulk merchandisers are at low ebb and will remain so, it is feared, for sometime to come.

Most active of all the amusement machines field. Consoles, Slots, Pins, One-Falls, saw renewed activity this past week. Later models becoming harder to obtain. Such equipment as Three and Four Bells, Gold and Original Chromes, late model pins and one-balls are beginning to show up, not in large quantities, but sufficient to supply the needs of many. Appearance of certain good equipment attributed to fact that many are cutting down routes and cashing in on unusually high market prices. Many arcades have changed hands. Arcade machines are surprisingly becoming much easier to obtain. Some of the best of this type equipment has been offered these past few weeks, tho prices remain comparatively high.

Odd Coins

By Joe Orleck

A (1944) Copyrighted Feature of "The Cash Box", 381 Fourth Ave., New York

In the past few weeks more of the better equipment in consoles, music and slots has been offered for sale, but the prices in most cases still remain in the higher brackets. A great deal of other equipment, slightly older, is being offered, which is also helping out greatly, as it can be used in many locations thruout the country.

A wonderful opportunity to cooperate in the sale of War Bonds during the Fourth Loan Drive is offered all coimmen. Every machine in the country should have a card, poster or sticker prominently displayed during the drive (and after). These cards, stickers and posters can be secured from the War Finance Committee, 1270 Sixth Avenue, Room 1913, New York City.

E. GEORGE BENNETT, M.A. Pollard & Co., San Francisco, Calif. selling music and plastic cement, and wants pins, slots, consoles, and music.....O. J. Will She Be Free?

Today, safe in America, far from the fury of war, she is prisoner only of the love that seeks to guard her from harm.

Will she grow into the freedom which is the birthright of every American child? Only if American fighters win crushing victory over the dark forces which threaten the future of every free child in the world.

And American fighters can win victory—decisive, durable victory—only if we who remain at home—safe in America, far from the fury of war—are willing to sacrifice.

Buy War Bonds. Buy the Bonds you can easily afford as a sound investment. Then dig down again and buy Bonds as a sacrifice—in memory of an unknown lad who died to safeguard the future of a little girl close to you.

TAILGUNNER

OUTSTANDING GUN SENSATION OF '44

JUST CHECK THESE AMAZING FEATURES

★ **OUTSTANDING** post-war attractiveness. Designed to pull the players right to it for bigger, better, steadier, more profitable play action.

★ **OUTSTANDING** player appeal. Captures and holds the players hour after hour. Play appeal features never before shown on any gun ever built.

★ **OUTSTANDING** in mechanical perfection. Trouble-free operation. Sturdy construction. And featuring a complete mechanical check at all times.

★ **OUTSTANDING** because it's lowest in price and yet biggest in moneymaking power. Brings in the coin faster than any gun ever placed on the market.

★ **OUTSTANDING** colorful back glass that pulls the eyes of the players right to the gun and brings them over to try their skill every time, anywhere.

★ **OUTSTANDING** because it's an operator's dream of the kind of gun that he has always wanted. It's the greatest gun of all time.

★ **OUTSTANDING**, patriotic, red, white and blue colors with entirely different score lighting effect. The gun of tomorrow — today. **RUSH YOUR ORDER NOW!!**

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY

ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVE., NEW YORK 16, N.Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN
SAME WEEK.
5. MEANS PRICES REMAINED SAME AS IN
PAST WEEK'S ISSUE.
6. MEANS NO PRICES QUOTED FOR
PAST TWO WEEKS.
7. MEANS NO PRICES QUOTED FOR
PAST THREE WEEKS.
8. MEANS NO PRICES QUOTED FOR
PAST FOUR WEEKS OR LONGER.

IMPORTANT

Machines underlined mean these were most active
in trading this past week.

NOTICE! March, 1942, Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
