INDIANA G.O.P. CONVENTION NOMINATES CAPEHART U.S. SENATE

Some of the Hoosier State's leading coinmen wired The Cash Box (Friday, June 2) that Homer E. Capehart, Packard Manufacturing Corp., Indianapolis, Ind. had just been nominated for United States Senator (long term) by the Republican convention in that state. The news has since been carried over the air and in the press.

Aside from President Franklin D. Roosevelt, who was formerly on the board of directors of Camco (Consolidated Automatic Merchandising Corp., New York) when he was Governor of New York, Homer E. Capehart will be the only other man connected with the coin machines industry who will be a member of the nation's executive body, if elected.

It is believed by these Indiana coinmen, who are close to the situation, that Capehart will be elected and that this will not only honor their state but will greatly honor the coin machines industry of the country.

FRONT PAGE PUBLICITY IN COLUMBUS ON SLOTS

The Columbus Evening Dispatch (Wed., May 31) carried a front page, big headline story that the War Production Board office in Cleveland reported that "illicit slot machines" were being manufactured in Columbus of scarce war materials in violation of WPB's order M-126, which prohibits delivery, acceptance or use of materials in the manufacture of gambling devices.

Were a similar type violation to happen in any other industry - it might, possibly, obtain two or three lines of closely packed, small type, buried away somewhere in the business news section of this same paper. But the very fact that "slot machines" were mentioned by WPB's office in the press release of this item, it was blasted wide open on the front page of the Columbus Evening Dispatch which also calls itself, "Ohio's Greatest Home Daily".

Here again is noted the need for public relations effort on the part of this industry so that matters of such localized nature may be held down to their deserving point.

I.C.C. URGED TO SUSPEND MOTOR FREIGHT RESTRICTIONS

The Transportation Board of Investigation and Research recommended to the President and the Congress (Fri., June 2) that the Interstate Commerce Commission be directed to suspend for the war's duration restrictions which this agency claims hampers the efficiency of motor freight carriers.

By removing such harsh restrictions as are now in effect, this will react to the benefit of all in this industry. As is well known, coinmen have been finding it ever more difficult to arrange for interstate motor freight.

The trade will watch the results of this recommendation to the President and the Congress in the hope that it will meet with their approval.

WPB TO INSTITUTE TIGHTER LUMBER CONTROL

WPB has just announced that a drastically revised lumber limitation order which will include specific directions to mills heretofore unaffected by controls will be issued very shortly. The revisions, which are being made as a result of the information secured under operation of the present L-335 order, were outlined in Washington (Fri., June 2) by WFB officials to the wholesale lumber distribution industry advisory committee.

In addition to placing lumber consumption ceilings on various end uses, the order will also specify that no lumber may be shipped by any mill directly to users except on certified orders. While uncertified orders may be taken by mills from distributors the latter will also be required to sell their stocks to certified users only.

The great need for lumber in this industry is well known. Crating for shipping as well as lumber for cabinets to replace damage as well as cabinets for revamping are among the lumber needs. It will therefore be to the interest of coinmen requiring lumber for the balance of the year to check with their present source of supply.

"The Coin Machines Merry-Go-Round"

By Bill Gersh

DIRECT SALES K.O. COINMEN

Reports are coming thru in ever growing numbers of more and still more direct sales being made which are pushing coinmen out of good locations. This is more or less due to the high prices being paid by retailers, who are today in a position to pay higher prices for income producing coin operated equipment. Rather than just obtain a percentage, many retailers are taking advantage of coinmen who introduced and educated them to this business, by now purchasing machines directly. In many cases they obtain these machines at no more than regular trade prices.

Many noted coinmen thruout the country report that this practise now seems to be increasing instead of diminishing, which would seem the logical result due to the fact that equipment is becoming more and more scarce each day. It certainly isn't logical for any coinman to expect his business to remain solid if he allows himself to be captured by the glamour of a few extra dollars by the direct sale of one machine. This may not hurt him immediately, nor directly, but he just can't believe that some other coinman will remain quiet, especially if distressed by such a direct sale to a location he has spent many years developing. This other man, too, must eventually find a way of getting rid of equipment which becomes useless to him if his location is gone because of a direct sale. And, it should be remembered, that he, too, in his anger, may sell direct. This is how the vicious circle starts.

Direct to locations sales burns the candle at both ends for the sellers. There is always that fringe of the unscrupulous in any industry who will take advantage of a situation for a quick profit grab. This does not help them in the least. Eventually they are discovered and scorned by the trade.

The men in this trade who are foolish enough to believe that by selling a location they are simply getting rid of a machine at a good price, will have a long row to hoe before they can convince the men in this business who have made this industry the means for earning their livelihood of this.

Whatever short term advantage accrues to such men is lost over a period of time. They not only find that the customers they enjoyed become lost to them, for they have helped to throw these same customers out of locations and therefore these men do not need to purchase any equipment from them, but at the same time, they have most definitely hurt all the industry, for they have lessened its location possibilities and its eventual earning power and growth.

There is no doubt that those merchants, or at least the greater majority of them, who purchase equipment directly, lose out especially when repairs and services are required for the equipment they purchased. But in the meantime the coinmen who lose these locations find themselves in a real predicament. And once the retailer learns costs and methods and means of purchase - he is hard to control on any sort of a decent percentage basis. It takes years to get such locations back to the trade.

The Cash Box has many times been tempted to bring the names of such sellers to the fore. Yet the very fact that these men are only a small minority, actually on the outer fringe of this industry, causes even this recognition of their damaging efforts to be too good for them.

The trade must make up its mind that it cannot, and certainly should not, tolerate such men. It must educate them so as to eliminate this practise or continue to suffer hurt after hurt.

Whatever profits the man who hurts his fellow men? There certainly is no repeat business in selling directly to locations. There is certainly no real, long term, profitable customer here. There is nothing but a fast, one time sale, which benefits no one in the long run, and just brings enmity as well as a reputation to such sellers that stinks to high heaven - in very short order.

"The Coin Machines Merry-Go-Round"

The trade has gone too high up the ladder to allow such action. If coirmen will demand, as they did in the jobber and distributor survey conducted by The Cash Box a few short months ago, that no seller of merchandise be allowed to operate and therefore to compete with the men he is selling except under certain conditions, surely then, these men don't want an outer, irresponsible fringe of sellers, selling directly to their locations.

Many times a seller, because someone far away from his territory wants his equipment and sends a check in full along with the order, and even tho he realizes from the name on the check, or the letterhead, or even the order itself, that this is a location and not a bonafide coin machines man, yet he goes ahead with the sale in the altruistic belief that he is not harming anyone in "his" territory by such sale.

This trade has before it the greatest opportunity it has ever faced, especially in the coming post-war period. It can, with close cooperation, build itself to its greatest prominence as the leading division in the entertainment industry. It plays a close second today to the leader in this field - the moving pictures industry.

But if that small, irresponsible, outer fringe of hangers on to this industry cannot be subdued and pushed aside so that this business can go on ahead to greater recognition, greater respect and prestige, than this business has failed of itself to clean its own house.

This must be done. The rising number of complaints most definitely indicate that a certain unscrupulous few in this industry have found this a most opportune moment to take advantage of this business by direct selling to locations. This sort of selling, whether to retailers, P.X.'s, or to any other direct location, hurts all in this industry.

Such sales simply burn the candle at both ends for the sellers themselves, who many times, try to sell the very same men whom they are knifing in the back, by selling direct to the locations of these men. The very fact that this practise continues on at this late date shows a lamentable lack of proper organization within this industry itself. This should be immediately cured.

SCHOOL FOR MECHANICS

As proposed in the May 30, 1944 issue of The Cash Box, a school for coin machines mechanics becomes a most important, and now due to the hundreds of answers received from the trade, a very popular necessity.

Everyone in the trade agrees that such a school would prove invaluable, not only for today, but especially for the post-war era when large numbers of mechanics will prove more than ever necessary.

This industry, as far as its mechanical workings are concerned, has become highly complex. In days gone by the average mechanic could handle a slot machine, phono, pingame, cigarette machine, digger scale, merchandiser, console and whatever was presented to him for his skilled touch. There are very, very few such men left these days for machines are becoming ever more intricate. The intricacies of the new mechanisms require specialists.

At the same time it takes many months to train a good mechanic in each division of the field. The average operator, jobber, distributor or even manufacturer has little time for such a task.

With the ending of the war, and a return to domestic production, the hectic hysteria that will result will most certainly push aside every thought but obtaining, selling and placing equipment of all types. Few, if any, will think of developing mechanics to help keep these new machines functioning perfectly. Few, if any, have any ideas as to just what intricate mechanisms may suddenly appear in the new machines as new materials and new ideas are presented.

Therefore now, while the entire industry is in a position to give more proper thought to this problem, can a school for coin machines mechanics be organized and such a school should be made an immediate possibility.

In such a school men can be taught every detail concerning certain types of new equipment by experienced instructors. Here returned soldiers, high-school youths just out of technical schools, war workers, many, many others, can be given complete surety that they will, on graduating from such a school, find lucrative positions awaiting them in this business.

Remember, the pin game of old is a thing of the past. Electronics have come to this field as they have come to other fields. The intricate electrical mechanisms of guns, phonos, etc., will look like a child's toy compared to some of the machines being contemplated for manufacture - tomorrow.

"The Coin Machines Merry-Go-Round"

This new equipment will really and truly present a unique and puzzling problem to many of the men in this industry. Electronics will most definitely be taken advantage of by the manufacturers in this business. Other advanced developments in mechanical and electrical construction are also certain to appear as a result of the lessons learned in war work manufacture. The music machines field is expected to become an entirely separate and highly skilled mechanical problem because of the many lessons these manufacturers have learned about tone quality and reproduction generally during this war period.

The men now engaged in this industry, that tight, small, highly concentrated nucleus, upon which the entire hopes and the future growth of all this industry rests, are capable of taking the necessary time to help teach mechanics. They, themselves, cannot do it at present. With the lack of sufficient help. Harried by so many extraneous details. Snowed under by so much extra work. The men now in this business are in no position to give careful, precise instructions to educate mechanical minds for this business. And even if the men in this industry did have the time at present to develop mechanics, would they know just what the mechanical intricacies of the new equipment which will be presented in the post-war era will be like?

Only a school for coin machines mechanics makes possible a correct and logical answer. Men already engaged in mechanical repair work will find post-graduate courses introduced so that they, too, will better understand the new equipment as it is presented. There is no earthly doubt that to assure himself better results as well as the trade a better knowledge of the mechanical and electrical intricacies of his new products, the manufacturer will arrange with the inventor and his own engineers to give a course of instruction in such a school.

In fact, when it comes right down to brass tacks, such a school would prove of tremendous value to the manufacturers, as well as to all others in this industry. It assures the manufacturers that the trade can be made to better know and better understand their equipment, especially the new equipment they intend to produce. It will save them thousands of dollars in unnecessary returns for repairs. It will help them gain greater favor in the eyes of the buyers by assuring the buyers that the equipment will continue to work on location because of the mechanical understanding of the equipment by the graduates of such a school who have been given a course in their types of machines.

Now, then, is the time for a school for coin machines mechanics to be started. The trade, by its many answers to The Cash Box request in its May 30, 1944 issue has proven it is tremendously in favor of such a school and is more than willing to support it wholeheartedly. Who will be the first to start the ball rolling?

ON OPENING TERRITORY

Of great importance, and much in discussion these days, is whether or not the larger metropolitan centers will again be opened to many types of amusement machines, after the war. As is well known, with such cities as New York, Chicago, Cleveland and Detroit legally closed to free play pinball games and other types of amusement machines there is a tremendous market lost to the industry.

Many in these cities are already beginning to plan on how these can be opened. Discussions are rife at this time among coinmen suggesting one method after another. The extremely favorable decision obtained in the state of Pennsylvania for free play pinball games, is being studied by many of these men. This is a model decision. Pennsylvania's coinmen are proceeding cautiously and carefully so that nothing will upset this decision.

In New York City many gather about on "Coinrow" (Tenth Avenue) and the leading topic of discussion always reverts to how this huge metropolitan center, which can use over 20,000 free play pinball machines could again be opened to these games. This city alone, as can easily be understood, is a tremendous market in itself for this industry. Its opening would mean greater prestige for all the trade. It would also mean that over 300 coinmen would again become buyers.

And this is true of Chicago, Detroit, Cleveland and other smaller centers, too. In these markets another great number of machines could be placed into operation. They would tremendously add to the prospective business which this industry looks forward to when domestic production again gets under way.

As coinmen in these metropolitan centers seek for a means, there may be among the readers of The Cash Box some men with daring ideas which could prove of great benefit to opening these centers. (If you have any ideas in this direction send them in to The Cash Box now.)

NEXT WEEK'S ISSUE WILL BE THE SECOND ANNIVERSARY ISSUE OF THE CASH BOX.

"Talking Out Loud"

5th WAR LOAN DRIVE

Opportunity For Industry To Gain National Recognition By Pooling Efforts

Once again the coin operated machines industry is being given an opportunity to gain greater national recognition, great respect and prestige. This is made possible by the forthcoming 5th War Loan Drive which starts on June 12th and continues on thru July 8th.

The members of this industry have always gloriously responded to the War Loan Drives—as individuals. This is what many now hope will change. A great many leaders are of the opinion that like all other industries, the coin machines business should be able to report, if called upon to do so when the need arises, exactly what this industry as a whole invested in the War Loan Drives.

To do this would require individual reports of investments in War Bonds being sent to a central point where the total amount could be computed and saved for the time when this might prove of great value to the industry. There is no doubt that if the men of this trade could point to the fact that this business, as a unit, invested many millions of dollars in War Bonds, that this, in itself, would help win tremendous prestige and respect for all concerned.

The other day one coinman, who like many others is one of the War Bond Drive leaders, wrote The Cash Box asking whether he couldn't help make some arrangement possible to gain this industry a separate quota and greater honor by visiting headquarters of the Treasury Department in Washington.

It is certainly the hope of The Cash Box that the trade will voluntarily agree to divulge the necessary information which would make possible a most complete computation of the amount of monies the members of this business will have invested in War Bonds during this 5th War Loan Drive.

The Cash Box most strongly urges that each and every man engaged in this industry buy—even beyond his capacity—of War Bonds in this forthcoming 5th War Loan Drive. And even tho the average man in this business may be backward about telling the amount of his purchases to the trade itself, so that a complete figure can be ascertained, at least he should let his own community know that the War Bonds purchased were by a coin machines man.

It is the fond hope of The Cash Box that coinmen will get together in every city, town and village to help make possible the obtaining of great prestige and respect for their industry, by pooling their purchases so that the amount strikes home to the communities where they are located in the fact that the men of this industry invested to the very limit in this 5th War Loan Drive.

Remember—the drive starts on June 12th. Once again The Cash Box urges, as it continually has in the past, that each and every coinman work with his locations to help get every single person who patronizes his spots to buy and buy and then buy some more War Bonds.

Call at the nearest 5th War Loan Drive headquarters for display cards, stickers, streamers, etc., and bring these into your spots and have your men hang them up. Help this 5th War Loan Drive to help you get the war over faster.

BILL RABKIN HONORED

Victory Lodge of B'nai B'rith, composed of New York coinmen, is honoring their former president, Wm. (Bill) Rabkin of International Mutoscope Corp., with a "Bill Rabkin Day". Entertainment will be by the U. S. Navy in thanks for the splendid donations of games and organs given to them by this lodge.

The affair will be held at the Grand Street Boy's Club House, 106 West 55th St., New York, on June 5th at 8:15 P.M.

A scroll will be presented to Bill signed by all the members of this lodge. Attendance is limited to 400. Bill will be elected "permanent president" of the lodge at this affair.

A dinner prior to this affair will also be held at the Grand Street Boy's Club House and it is expected that the quota set for the dinner will be filled far in advance.

LAST CALL FOR SECOND ANNIVERSARY ISSUE

The last closing minute for the Second Anniversary Issue of The Cash Box will be Thursday, June 8, 1944 at 5 P.M. The moment you receive this issue of The Cash Box be sure to rush your ad in by airmail. Wire, or phone if you feel that the mail may not reach us in time.

MACHINE DONATIONS NEEDED NOW

Returning Wounded Need Old Machines For Speedier Recovery

The Cash Box, as its readers know, has many times gone all out in drives to obtain machines of every type for the armed services. Its Second Wartime Conference held last November at the Hotel Morrison in Chicago was based on this effort. These donations are more needed now than ever before.

As the wounded are returned from the battlefronts, their many cheerless hours, their pain and suffering, their sleepless nights, can be tremendously and pleasantly allayed by a juke box or a pin game or a ray gun or some other old machine that's been laying around and that someone just doesn't seem to have the time to put into shape.

There's no doubt that there are literally hundreds of machines in backrooms, basements and warehouses that will never again be placed on locations. Some are old 10 record phonos sadly in need of repairs. Some are old pin games with wire bumpers and old ray guns that have lost much market value.

We realize that it takes a little time and also a few dollars worth of parts to make the necessary repairs so that such machines will work once again. But if the average man in this industry will pause just a moment and think what great joy and pleasure and relaxation some old 10 record juke box, or some ten year old pin game will bring to a group of convalescent soldiers in some nearby base hospital, he'll surely not hesitate to work one night thru to repair an old machine or two.

Even old records help. And so do cigarettes and candies, etc. Some of the base hospitals already have juke boxes. Phone and learn whether they can use some old records. If they do need them—send them over—don't throw them away. Anything and everything can prove of good value to these boys who went out there and have come back maimed and sick.

MEMORIAL WEEK-END UPS ARCADE DEMAND

The result of this long weekend holiday was to up the demand for arcade equipment to new heights.

It is believed that many arcade owners held back from buying equipment to first note the reaction of the public to their spots because of the fact that so many of the soldiers and sailors are now away. They have now taken heart and look forward with confidence to one of the best seasons in years.

Arcade owners returning from shore and mountain spots report that the play was among the greatest they had ever enjoyed. They are all smiles over the fact that the public are jamming the resorts. They believe that this will be one of the biggest and best vacation seasons in history.

Distributors and jobbers report that arcade machines jumped in demand the moment the weekend finished. Many arcade owners rushed to nearby cities to purchase equipment. Some are reported seeking additional locations.

According to all present reports the Summer season of '44 is expected to even exceed that of history-making '43.

LETTER FROM ITALY

S/Sgt. Milt Cohen of Ohio Specialty Co., Cincinnati, Writes of War

"Dear Bill:

"Well, it has been some time since I last wrote to you. I hope that you are in good health. It is now 7 o'clock over here in Italy and yet you are just going to lunch in New York, Bill.

"Over here one is always thinking of home and what the folks back home are doing at the same time of day. I read an article sometime back that went something like this.

"An old man stopped a young man who was in the service and asked, 'What time is it?' The service man replied, 'It's 5 o'clock.' The old man answered, 'You must be slow, as it was 5 o'clock when I started out.' And the service man said, 'Well you see when I entered the service my Pop gave this watch to remind me of home. I live out West, and when it's 5 o'clock by my watch I know that Pop is just getting home. When it's ten, the family is going to bed. You see, I can find out the time wherever I am, what I like to know is what time it is—at home.'

"Yes, Bill, it's the same with me and all the others over here. Thinking of home and all the folks is what makes the boys in the fox holes, and the boys that are over the enemy in planes, the boys that are dying this very minute, want to fight on and on—only because of the folks back home.

"If all the folks back home could only realize just what the boys over here are going thru, they would forget all about the little things they make so big of. If the folks at home would live in one of these countries only for just a day, they would better appreciate the little things in life. But I guess that is why we are over here, so that the folks back home won't ever realize the hardships of life.

"Bill, to realize just what is going on you would really have to be over here. When I was in the states I worried about the office and how we could get more locations and more machines. Yes, Bill, being over here makes those the little things in life that you just don't give a damn about.

"When you see the boys dying and the people in this country going without food, and where a cigarette is a tremendous luxury, one begins to think what would happen if the states were like that. But I guess that's enough of that.

"I have been over here about 3 months now and am with a swell outfit. We have a day room with a bar where only wine is sold. One day I was able to go to town. I wanted to buy something to send home. I walked and walked and what do you think I bought? Not a damn thing. Most of the stores were closed because of the war. And the ones that were open had 5c and 10c store merchandise that they were asking \$2.00 and \$3.00 for. One thing I saw was a pair of shoes that sell for about \$1.98 in the states and they were \$18.00 here.

"How's the coin machines industry doing, and what are the plans for after the war? I would like for you to write me all the news.

"AMASKO"

THE NEW LIQUID RUBBER THAT ELIMINATES "SHORTS"

DID YOU EVER HAVE A "SHORT" ON YOUR FOUR BELLS OR THREE BELLS OR ANY OTHER CONSOLE OR PIN GAME?

DID A NICKEL EVER FALL OUT AND LAND ON TWO WIRES AND CAUSE A TUBE TO GO EMPTY, OR GIVE FREE PLAYS, OR BLOW A FUSE?

IF THIS HAS NEVER HAPPENED TO YOU --- BOY, YOU'RE REALLY LUCKY!!! IF IT DID, AND YOU KNOW WHAT A HEADACHE THIS WAS - GET A CAN OF "AMASKO" TODAY!!!

AMASKO is a liquid that you apply with a brush to all soldered connections...it hardens in a few minutes...and GOOD BYE "SHORTS"...if you want to remove it at any time...just pull it off with your fingers...it pulls off like thin rubber...IT IS RUBBER...PRE-WAR, TOO...it's transparent and you can use it for a hundred other things...a single can of "AMASKO" will short-proof 50 to 100 consoles, or what have you. SEND \$5.00 FOR A COMPLETE CAN TODAY...money back if dissatisfied in any way whatsoever.....SAVE TIME.....SAVE SERVICE CALLS.....SAVE MONEY.....ORDER NOW.....

ABOVE LIST EFFECTIVE UNTIL JUNE 10 — WRITE FOR OUR TWICE MONTHLY TUBE INVENTORY RELEASE
IMPORTANT INSTRUCTIONS

1. Send no deposit with your order—shipment will go forward express C.O.D. for full amount.
2. Minimum order filled is for 25 tubes, each type within rationed limits shown above.
3. Do not phone or wire for tubes—shipment cannot go forward until receipt of Supplier's Certificate.
4. Tear out, sign and attach to your order the Supplier's Certificate at bottom of this advertisement.
5. If you personally cannot use the minimum shipment of 25 tubes, contact another operator and place a single order including your friend's needs.

FEATURES OF OUR SERVICE

All tubes are in individual cartons. Shipment goes forward within 48 hours after receipt of your order. An Airmail copy of Invoice reaches you at least 24 hours ahead of shipment. We never substitute types, but will forward G's or GT's for the Metals you order. We've operated 17 years, and know your machine problems. Our list of tubes is revised every 15 days and we are filling over 95% of orders completely which are placed in compliance with current lists.

I hereby certify that I am entitled to purchase the items specified above under the provisions of Limitation Order L-265, with the terms of which I am familiar.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period: Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR PAST EIGHT WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading these past two weeks.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

WURLITZER

Survives 8 Battles
aboard CRUISER
-and still plays..

SHORTLY after Pearl Harbor, one of our cruisers returned to Frisco for repairs. The ships service fund bought a second hand Wurlitzer. In a recent issue of Billboard, a member of the crew wrote,

"Since that time we've been in the Coral Sea Battle, Midway, Invasion of the Solomons, First Defense of Guadalcanal, Night Battle of Lurga Point, Attack on Wake, Invasion of the Gilberts and Attack on the Marshalls. We've been strafed, peppered with shrapnel and torpedoed. That Wurlitzer has gone through everything imaginable on board—but it still plays!

"You can't imagine the satisfaction the crew got out of that old baby. If there is anyone in your plant who has been in the Navy, they'll appreciate the fact that this Wurlitzer has played continuously for over two years and has paid for itself a million fold in satisfaction to these fighting men!" The Rudolph Wurlitzer Co., North Tonawanda, N. Y.

2ND ANNIVERSARY ISSUE

JUST TWO SHORT YEARS AGO there came into being a most unique publication in this coin operated machines industry. . . . Devoted to a sincere belief that this industry desired a true, honest and fearless medium it could exclusively call its own. . . . Conceived with the purpose of meeting the problems of this industry during this tragic war period to help make strong and solid a nucleus of men to act as a base for greater growth and future development in the post-war era. . . . Dedicated to bringing to the fore constructive ideas and better business methods and generally aiding, thru intelligent effort, the greater growth of this business. Those two past years have been truly eventful. The trade knows today of the great acceptance and phenomenal growth of The Cash Box. This is solely attributed to the hearty and intelligent support which the subscribers to this medium have put forth to solidly establish a publication which would work for this business — and this business exclusively — quietly, confidentially and fearlessly.
