"More patrons, more phonograph play, more sales of everything we have to sell,"

says Gill Staulcup, of Gill Dove Airways, Martin, Tenn.

➤ All over the United States, Wurlitzer location owners are praising the effectiveness of Wurlitzer's national consumer advertising.

Proprietor Gill Staulcup of Gill Dove Airways, Martin, Tennessee, says, "Wurlitzer's national advertising program is certainly producing results for us. Since we started to display Wurlitzer's *Sign of the Musical Note*, our business has reflected the pulling power of Wurlitzer advertising. More patrons. More phonograph play. More sales of everything we have to sell. No question about it. Wurlitzer leadership has scored again."

Thank you, Mr. Staulcup. Your experience is being echoed all over America as Wurlitzer extends its leadership. The Rudolph Wurlitzer Company, North Tonawanda, N. Y.

Gill Staulcup, Owner of Gill Dove Airways, Martin, Tenn., displays Wurlitzer's Sign of the Musical Note.

Gill Dove Airways patrons find Wurlitzer Music Tuneful Fun for Everyone

“I Feel Better with 40 Selections!”

“I don’t know if the designers of the AMI Phonograph had the bartender in mind when they figured out how to get 40 selections from 20 records, but just the same they did me a real service. My musical life is monotonous no more; same songs don’t seem to come bouncing back on me every few minutes. Variety is the spice of life and my life is now spicier than I ever thought it could be, thanks to

AMI

Tax Problems Start Again

By Bill Gersh

"COINTEONS"

Once again excessive, inequitable and ever-increasing taxation on coin operated machines of all types has started — and this time the tax makers are intent on obtaining every possible cent of revenue they can.

In the past four or five issues of *The Cash Box* there has appeared items from many cities thruout the nation wherein new taxation is being aimed at coinmen. Not only are these taxes being applied to amusement equipment, but also to merchandise machines and, especially, to juke boxes — now that the juke box industry has reached such outstanding prominence.

This, added to the cry of the nation's leading economists over national network radio programs and via the press, that the public should be more greatly taxed to siphon off the extra dollars now being earned, is leading many city officials to the viewpoint that taxation of certain businesses is the one way in which they can gain the favorable comment of the people and also the revenue they seek.

These politicians are shrewd enough to realize that taxing the average individual (the voter) will not sit well in their communities. Therefore, they turn to those businesses where they believe taxation can be imposed, and wherein, they feel, the public will agree with them.

This has happened time and time again, in the past, as far as the coin machine industry is concerned. Furthermore, only a few (a very, very few) in this field have ever really stood up on their hind legs at city council meetings when taxes are being imposed — and hollered for a fair and square deal. It seems, for some unknown reason, that the average coinman believes in the adage: "leave well enough alone" — and carries this attitude even to the point where it hurts him in his pocketbook.

For all the years of its existence — *The Cash Box* has proposed that a "National Tax Council" be created. It believes that only such a council — wherein the persons employed will, eventually, become expert in all tax matters relative to this industry — will be of help to all this trade.

The average coinman does not know what the taxes are in any community but his own. And, even in his own community, he is lax regarding just what should be done to bring about a more equitable adjustment of the tax problem.

For example, one of the most irritating problems now vexing many coinmen thruout the nation is the fact that even tho they pay Uncle Sam \$100 per year on certain of their equipment — these records are open to the press and the public and, at regular intervals, are pub-

lished in their local newspapers, creating a situation that is anything but favorable to their locations. A "National Tax Council" should be placed to work on this immediately and, there is no doubt after a period of time, would be able to bring about a cure.

But, what is most outstanding at this time, is the fact that many city, town and state officials (as meetings of their councils, senates and houses reconvene) will be ready with many new revenue seeking measures — and, among these, will be coin operated machines — with no one in the industry set up to guide and protect the coinman who will suddenly be faced by such situations.

There is little time to lose. The average coinman knows how impossible it is to operate when he is taxed so heavily that his machines won't bring any return — in addition to the tremendously increased overhead he now endures — plus the higher price for machines — and all the other surrounding factors which are tough enough in themselves to make his operation a profitable one.

This is the time for the trade to get into immediate action. Create a "National Tax Council" — immediately!

“MUST GO TO 10¢ TO CASH IN ON PEAK HOUR PLAY” JUKE OPS CLAIM

NEW YORK — In answer to the questionnaire, which appeared on Page 6 of the August 26 issue of *The Cash Box*, “Is This A Nickel Business?” a great many letters have been received from juke box operators all over the country.

Almost everyone, without fail, mentioned that the juke box was no longer a “nickel play machine.”

Many stated, “Just as beer, candy, subway rides, and other items have gone up in price — our music must go up in price to meet the higher prices and overhead with which we are faced.”

One operator wrote, “The average juke box operator doesn’t realize that he is faced with a very great problem. Frankly, we are trying to figure out how we are going to be able to earn any money with the new machines. In the first place equipment is high priced and, in the second place, with overhead what it is today and with prices of supplies and labor going still higher — it will take more than three years for the operator (even with a good average) to just pay off his machines.

Furthermore,” this op says, “we don’t believe that if we continue on 5c per record play that we can even pay the average machine off in three years. The play must go to 10c — and here’s the reason why. The average tavern has about a three to a three and a half hour peak play period. This is usually from around 10 P.M. to about 1:30 A.M. Even if our juke boxes are going constantly during this period — we can’t at 5c per play — get enough take to pay for the machine. We must go to 10c to capture this peak period play so that we can pay off faster — and still give the location owner the same amount he got before, even tho we cut our commission down to 25% or 30% to him.”

Another music operator is of the same opinion. He writes, “Today,

the taverns have taken second place to the busy little lunch rooms and confectioneries in my territory. We are operating individual music boxes in these spots and, where people are coming and going all of the time, the take is better than in our juke boxes in the tavern locations. Simply because there isn’t enough play in the average tavern to get us the take we need because the peak hours are so short.”

One New Jersey operator who has just swung his music over to 10c reports, “Our first week showed better than \$306 net to us more in our collections on 10c play than we ever took in on 5c. At first, we had a few location owners who complained. But, they are not complaining anymore. In the first place they are getting just as much — and, in some cases, even more, than they got before on 5c play where we paid them 50-50 and we are now only paying 20% and 25% to them and still they earn more money. In my estimation there is no juke box operator in the country who can prove to me he can earn enough money on 5c play to cover the cost of any installation, even in a three year period. I say go to 10c play and everyone is going to be happy — manufacturer, distributor, jobber and operator.”

One very well known Western music operator stated, “Of course we are no longer a nickel play business. We’ve got to take a great many things into consideration now, while we can, which definitely proves that we must change our entire operating set-up if we want to continue in the automatic music business on a profitable basis. And, before I even go any further, I want to state here and now (and I hope that you will publish this for all to read) that I believe, and all of the juke box men whom I know believe the same — that *The Cash Box* is the one and only magazine that has ever gone out of its

way and that is doing a real, honest-to-God job for the operators and everyone else in this industry.

“Now, we can continue to operate our present old equipment on 5c play, but, where will this get us? We want new machines because we know that with new machines we are simply forestalling any competition coming into our territory to push us around. But, we can’t make out with the new machines unless we get more money. Even if we adopt your suggestion (and it’s the best) of going to a 70%-30% basis we can’t make money and amortize our equipment in time on 5c play.

“We must go to 10c and we must pay no more than 30% commission to the location. That’s the answer and everybody in the automatic music machine business knows it. What’s the use of kidding ourselves. The juke box operators should get together and make this a national commission basis so that there will be no conflict between locations and we will be benefitting everyone connected with this industry by being able to buy more new machines just like we did before the war.”

A Boston, Mass. operator states, “One of the reasons that we are forming an organization here is to put into actual practice the very things which you at *The Cash Box* have proposed. Every juke box operator here agrees with you. Not only are you absolutely right when you say we must change to a better commission basis to assure us remaining in business, but, we agree that we must change to 10c play, 2 for 15c and 3 or 4 for 25c — or else get us some type of slug for which we can charge about 7c so that we can at least pay off our new equipment. My answer is that we are no more a ‘nickel business’ because we simply can’t afford to be. We must change to 10c if we want to remain in the juke box industry.”

GOOD NEWS

AVERAGES COMING BACK TO NORMAL

NEW YORK—Best news to reach the trade this past week was from many leading coinmen thruout the nation who reported that their collection averages were beginning to return to normal.

One noted eastern operator stated, "Our collections this past week were only a few dollars off our normal collections. We think that this proves that the upswing has once again started and that we will be collecting just as much as we ever did before."

The Cash Box immediately placed long distance phone calls to strategic centers in the industry to hear from other outstanding operators in other parts of the nation as to their experiences with collections in the

past week or so.

The general statement was to the effect that averages are returning to normal and that, in almost every case, the ops expect they will once again be hitting their high marks from now on.

One op reported, "Collections started to come back here just a few weeks ago. Our last week's collection showed that we were just about at average. We believe that this week, even with the Labor Day holiday, we are going to hit our normal average and that we will start riding in for the balance of the year."

This is probably the most heartening news to yet reach the trade since

the start of the seasonal summer slump which was greatly aggravated by the lack of beer and whiskey.

With many taverns only open a few days a week, in certain parts of the country, the ops in those territories were hard hit on all types of machines. Even merchandise machine men complained of the bad slump this past summer season.

Now, with the majority of the coinmen with whom *The Cash Box* spoke, reporting that their collections are returning to normal — there is no doubt the new Fall season will get under way with more zest than what was expected by many in the trade.

DIRECT SELLING WAVE STARTS

NEW YORK—It's come at last. The fears which many operators had that direct selling would start the moment that they stopped buying in quantity — is now fact in many areas thruout the country.

One of the letters received by *The Cash Box* in the past few weeks, reads, "Every operator of every type of coin operated machines who attends the coming 1947 convention should resolve that a meeting be called wherein we can bring up on an open floor the many charges we have in mind.

"First of all," this letter continues, "we want to state right here and now that we have lost over 14 locations in a very short period of time because these spots were sold machines direct. We have learned from these 14 men that 6 of them saw the machines advertised in one of the publications in this business that sells for 25c on any newsstand. Many times you have written that our business should be as well protected as any other service field. There is no need for our locations to know what our machines cost us, How are we going to be able to continue buying machines from the same people who turn right around and sell these very same machines direct to our locations?"

"What's more," this op writes, "there is no earthly reason why this magazine should ever take coin machine ads if it is going to tell every cop, politician, mayor and every storekeeper what these machines cost us and thereby knock us right out of business and yet, at the same time, ask us for subscriptions and, what is more, actually have the gall to write and ask us for advertisements, too.

"It has been proved for years that once a storekeeper buys his own machine that no one gets in there for years to come. He'll hold onto that one machine even after five years and even if it's just bringing him 50c a week. We waited for over three years to come. He'll hold onto that here in our city and if the war hadn't come and stopped him from getting parts and service help we probably never would have got into the spot. Now, once again, we've lost that spot for he simply wrote to one of the advertisers in this magazine, enclosed a check and the machine was shipped to him. The same firm that shipped him that machine not only knows us but sells us plenty of equipment."

This letter continues on mentioning names and dates, but, what is most important, is the fact that it is only one of a large pile of letters which have been received and all

complaining of the same fact — that machines are once again being sold direct to locations.

There are only a very, very few, if any, coin machine men who know what their druggist pays for their favorite toothpaste. There is no earthly reason why this druggist should know what they pay for the machines they place in his store.

In the first place — everyone in the trade agrees that an entirely new and better commission basis is necessary. If such a commission basis is to be arranged without raising the ire of the location owner — it must be done with sufficient ingenuity and with enough secrecy about the inner workings and the price of equipment to offset whatever anger may develop on the part of the location owner. But, if the retailer knows what the machines cost and what parts are worth, etc., etc., etc., down the line, then the operator simply cannot get his commission changed.

The same is true if new machines are brought into any location. If the storekeeper knows the price of the new equipment — it is almost impossible for the operator to get the sort of commission deal he needs to amortize his machine in the fastest possible time and to earn a decent profit on his investment.

RECORD REVIEWS

By *Ralph Emmett*
OF
"THE CASH BOX"

"I Can't Give You Anything But Love" "You Call It Madness"

Louis Prima and His Orchestra
(Majestic 7200)

● Louis (The Man Who Plays Pretty For The People) Prima and I have yet to meet, but when we do I want to shake his hand and thank him for giving this version of "I Can't Give You Anything But Love" to the music ops who make most of their nickels thru music that's hot and solid. 'Cause this is square; this is great Prima; this is his horn and his foghorn in good, worthy action, and where they go for the hot Prima they'll wear this platter out — but fast. As for the backing, the verdict is quite different. It's another side we'd rather say we'd never heard — at least, not after what he does on the top deck.

"Smoke Gets In Your Eyes" "My Reverie"

Larry Clinton and Orchestra
(Cosmo 705)

● Here's Larry Clinton on a pair of well known standards to which he adds little other than a good instrumental interpretation. Nonetheless, and we repeat what we have said again, Clinton does answer a demand, a demand that exists in locations where they ask for melody performed for dancing and for wired music installations. Clinton's efforts fit those requirements, and if this condition prevails in any of your locations, you can profitably use both sides of this platter, "Smoke Gets In Your Eyes" and "My Reverie."

"Deep Purple" "I'm In The Mood For Love"

Larry Clinton and Orchestra
(Cosmo 706)

● Here's a pair of standards done without benefit of vocal which should fit just right with the requirements of wired music ops. Larry Clinton waves a very smooth baton over "Deep Purple" and "I'm In The Mood For Love," and the result is good — particularly good for locations where dancing is permitted.

"The Way That The Wind Blows" "You Keep Coming Back Like A Song"

Dinah Shore
(Columbia 37072)

● Sultry voiced Dinah Shore handles a pair of tunes tailor made to her singing style, and if the tunes were as good as her performances all would be well. Nonetheless, one must find vehicles to do other than "The Gypsy," and Dinah's efforts on this pair really gives them a needed lift. Both "The Way That The Wind Blows" and "You Keep Coming Back Like A Song" are romantic ballads cut from a not unfamiliar pattern, and should find good reception in locations where the hand-holders gather.

DISK O' THE WEEK

"Gotta Get Me Somebody To Love"

Bing Crosby
(Decca 23661)

● For a long time we've been seeking a platter to put into this position that would ring the bell particularly to ops with locations where Western-type melody is in demand. This looks like it. First because it's a sound piece of music, and second because Bing Crosby performs it. "Gotta Get Me Somebody To Love" is a Western done in a romantic mood, and still, it remains good Bing Crosby. The combination should draw heavy attention from the fans. Supporting Bing on his ride thru the melody is the Les Paul Trio; they really back him all the way. Particularly hot is the guitar, and there's enough of it to ride with all else as a featured attraction. If you have the locations, this side should prove a heavy money-maker. Flipped, Bing and the Trio perform "Pretending." As a guy who really likes der Bingle, I choose to pretend I never heard it.

"On The Wrong Side Of You" "Ole Buttermilk Sky"

Kay Kyser Orchestra
(Columbia 37073)

● Here's a platter on which Kay Kyser proves he can do more than ask questions on the radio. He does it with this rendition of "On The Wrong Side of You," one of the less startling melodies to be heard around. Nonetheless, Kay and his crew really work up a couple of minutes worth of pleasant entertainment from it, what with the crew giving it careful handling in a blue, subdued mood and Lucyann holding down the vocal chore with grace. On the backing they do "Ole Buttermilk Sky," from the current motion picture "Canyon Passage," and with this side their performance is really worthy of attention. Utilizing Mitchell Douglas and the Campus Kids for the lyrics, their interpretation is really worthy for the boxes. Give it a listening.

"Careless"

"To Each His Own"

Eddy Howard Orchestra
(Majestic 1070)

● Some weeks ago on these pages we reviewed Eddy Howard's "To Each His Own" and gave it notice as the "Disk O' The Week." The fact was then, and still is, that his version is just about the best to be heard on wax. The interpretation on this platter is the same one we reviewed, and it has been reissued with "Careless," said to be Eddy Howard's theme song. Well, "Careless" only emphasizes that Eddy has a top bracket voice, and this platter will answer the demand of many who have become devoted to his music and voice thru his success with "To Each His Own." But "Careless" is a familiar standard, and if you believe it will fit your locations, it's a good bet. Personally, we wish he had done something new at this stage of his budding career.

"Fat Boogie Woogie" "Loved And Lost"

Ollie Jackson and His Band
(Juke Box 508)

● Chalk one up for Ollie Jackson as a lad with a top talent, and, as a virtuoso of the piano, he's right up there among the top. If you don't believe that, grab a listening to this disk as he tickles the keys on "Fat Boogie Woogie." It's a "race" record with jive as solid as Gibraltar, and if your location's customers call for something to make the place jump, this'll make 'em skyrocket. "Fat" is Ollie's side all the way, instrumentally and vocally, tho his crew do help out with a few tricks of their own. Flipped the same combo offer "Loved and Lost," which is oh-so-blue. Best feature of the side is when the seven pieces of the band take their solo rides. There are some good instruments in the group, but otherwise it's strictly for the wee hours or where they just like 'em weepy.

"The Man I Love"

"Hurricane Blues"

Earl Bostic and Orchestra
(Majestic 1055)

● Something went wrong with this version of "The Man I Love." It opens as a slow beat, rhythm blues and, as such, it's tops. But that prevails for just half the run of the disk. Then comes the error. Earl takes his crew from one of the neatest, bluest interpretations of a top standard into versions of the melody ever offered, and the change is too much for the customers. Earl's crew has versatility, but this wasn't the platter on which to show it; too bad, too, his sax is really worth anybody's attention. Flipped, they do "Hurricane Blues," which is blues without hurricane, and to which Earl does a mediocre vocal. Ops of "race" locations might find something in it, however.

EXCLUSIVE TO "THE CASH BOX"

RECORD REVIEWS

By
DAVE QUIRK

RECORD REVIEW EDITOR

OF

"THE CASH BOX"

**"That Little Dream Got Nowhere"
"Hangover Square"****Ray McKinley and his Orchestra..
(Majestic 7201)**

● A romantic ballad is given good treatment by the McKinley crew in "That Little Dream Got Nowhere." Teddy Norman handles the vocal with loving care and the band joins in with enough sentimental swing to maintain the mood and still keep it from being syrupy. There's some good instrumental work here including a brief piano insert. "Hangover Square" is a neat rhythmic interlude and it's all instrumental. A strong bass beat backs up liberal solos and before the nickel is gone the whole outfit really gets in some solid stomp. The biggest play will come from the younger crowd.

**"Gay's Blues"
"My Heart"****Gay Crosse and his Orchestra
(Queen 4132)**

● Gay Crosse and his boys dig way down deep for their version of "Gay's Blues." Mr. Crosse gives out with the vocal lament about how his love treats him so unkind. The background is heavy with string bass and piano and it's just right for this type of song. "My Heart" opens with a sax solo and then Gay Crosse glides right in with the vocal refrain. This disk is especially suited to the race spots but would probably get a good reception any place where the customer's like their music deep blue.

**"The Look In Her Eye"
"Those Precious Love Letters"****Riley Shepard
(King 547)**

● Here's some genuine hillbilly music as far as both the vocal and the accompaniment are concerned. "The Look In Her Eye" offers Riley Shepard just like his fans want to hear him. Here's plenty of pathos complete to the sob in his voice and to the heavy twang of the guitar. "Those Precious Love Letters" is even more plaintive. You can almost see the tears making the ink run as Riley Shepard tells us the sad details. Both are typical western torch tunes but there's a market for 'em and that's where they should be

**"Baby Got To Have It"
"You'll Miss Me When I'm Gone"****Ollie Jackson and his Band
(Juke Box 509)**

● If you like jump that's practically electric we'd recommend "Baby Got To Have It." Ollie Jackson tears into the vocal with gusto and is backed all the way by a good jazz crew. "You'll Miss Me When I'm Gone" is played at a much slower pace and Ollie again takes the vocal. There's a lot of smooth piano and mellow sax work in evidence. Should get a good play any place except where the tea and crumpet crowd gathers.

**SLEEPER
OF THE WEEK****"Changing My Tune"
Vaughn Monroe
and his Orchestra
(Victor 20-1946)**

● At the top of the heap this week we find Vaughn Monroe and his fine musical aggregation swinging out on "Changing My Tune." Vaughn picks up the first chorus and sings it straight in his unmistakable style. The band then joins in and whirls into a speedier pace. From then on it's Betty Norton who handles the lyrics which come out as first class bounceroo. The tempo is perfect for a little session on the dance floor and it's just as palatable to the listening audience. The flipover turns out to be another zingy tune featuring the same vocalists plus a few more instrumental offerings. This disk will go over in any location.

**"How Cute Can You Be"
"You and I"****John Conte
(Teentimer 2)**

● John Conte does a neat job on this version of "How Cute Can You Be." It's a catchy tune and he handles it with a minimum of vocal tricks. The orchestra directed by Jerry Jerome certainly deserves a bouquet or two for the musical backdrop. The arrangement is good and their musicianship is excellent. They make good use of the string section and add a few smooth brass breaks. The reverse is just as smooth on the familiar "You and I." It's nice dreamy music well managed by singer and orchestra alike. It's sure of an adequate play most anywhere.

**"Thursday Evening Blues"
"Disgusted"****Jo-Jo Adams with Maxwell Davis
and his Band
(Aladdin 142)**

● Two tunes that will be coin snatchers in the race spots are "Thursday Evening Blues" and "Disgusted." Jo-Jo Adams works on the lyrics and when he gets through with them they're really a deep shade of magenta. Besides all around good musical manipulation on the instru-

ments by the Davis crowd, there's a slick sax solo in "Thursday" and a masterful muted trumpet in "Disgusted." Plant it right and the harvest of coins will be bountiful.

**"I Need A Girl Like You"
"Evening Blues"****Monte Easter and his Orchestra
(Sterling 107)**

● Monte Easter has a good opportunity to exhibit his talents on both sides of this platter and it'll probably result in a lot of coin in the cash boxes. "I Need A Girl Like You" features a cooperative vocal and Monte Easter comes in for a chorus or two of his own. The beat is strong throughout and is mainly an accompaniment for the lyrics. "Evening Blues" offers an authentic growl trumpet solo and then blends into another blue vocal by Mr. Easter. It's hot jazz done in a drag tempo. The right locations will enthusiastically support it.

**"You Keep Coming Back Like
A Song"****"Remember When You Sang
'Oh Promise Me'"****Dennis Day
(Victor 20-1947)**

● It's pretty generally known that Jack Benny's favorite stooge, Dennis Day, can handle a love song as well as anybody, and he gets a chance to prove it in "You Keep Coming Back Like A Song." It's an Irving Berlin tune and that usually speaks for itself. Dennis has a subdued but sincere style and it's just right for this ballad. The Russ Case Orchestra provide a pleasing musical background. "Remember" is full of sentiment and Dennis is at his best with the lyrics and the pretty melody. It's for the ears only, but there's room in nearly every juke box for platters such as this.

"30 Miles An Hour"**"'Please' and 'Say It Isn't So'"****Hal McIntyre and his Orchestra
(Cosmo 499)**

● Hal McIntyre is a man who can dish it out both sweet and hot and here we see him do both. They'll need a traffic cop to keep order around the juke when the fans hear "30 Miles An Hour." It's all instrumental and strictly solid. There are generous dashes of hot trumpet, mellow sax, and bright piano in between the full band breaks. Flipped we hear two oldies "Please" and "Say It Isn't So." Hal McIntyre grabs the solo honors with his sweet alto sax work but the band should get some credit too for the smooth, steady musical support. Here's a sure thing for any locality.

"IF IT'S GOOD — WE HAVE IT"

Frank B. Walker, MGM Records chieftain, will announce the members of the label's national distributing network sometime this week. With all activities running according to schedule, the distribs (all indies) should be out scurrying for the music op trade sometime 'round the first of 1947 . . . Musicraft prexy Peter Hilton says he is "watching with interest" the test now being conducted by the Musicraft Corp. of N. Y., the local distributing firm. In an effort to spread the label onto the boxes, Musicraft has named Charlie Leichtman of N. Y. Distributing Co., cointrade jobbers, to vend the Musicraft label to New York music ops.

* * *

With the entire first shipment of Jimmy Durante's "Gwan Home, Your Mudder's Callin'" sold right out within a few hectic days, thus permitting few copies of the platter to reach the boxes, Colen-Gruhn, Majestic's New York distrib arranged for local music ops to get priority on the purchase of all later deliveries of the disk. A good move in an intelligent direction . . . National Records is expected to come forth with some interesting sides featuring a combo of Lilyann Carol, formerly Louis Prima's songstress and Charlie Ventura's new ork . . . Tito Guizar is a new Mercury Records artist. His "Guadalajara" should prove top nickel bait.

* * *

In a deal recently consummated, the Birwell Corp. of Hollywood and Goody Distributing Corp. of New York have swapped disk lines in their respective territories. Birwell, makers of the Pan American label have given their line on an exclusive basis for N. Y. State and Connecticut and in return, are sole jobbers for Sam Goody's Gotham Records label in California. Gotham boasts the sax-ation Earl Bostic, while Pan American are specialists in south-of-the-border melody . . . "Five Minutes More" is being pushed as the "Hit of the Month" by the Cleveland Phonograph Merchants Association.

* * *

Columbia Records will hold a star-studded sales convention at Cincinnati on Sept. 23 and 24. Company officials, executive and sales personnel from the 47 Columbia distribs and scores of Columbia artists will attend. Among the top topics to be covered during the two-day conclave are the relations between Columbia and the cointrade, so any music op who has a gripe he'd like to have heard might drop a note to Edward Wallerstein, Columbia prexy, or to Paul Southard, vice prexy and chief of sales and advertising. Just address it to 'em at Bridgeport, Conn., before they take off for the fete.

C.M.I. BLUE BOOK

FOREWORD Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depends on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD The C.M.I. Blue Book should be read as follows: First price listed is lowest price for the week; Second price listed is highest price. Where only one price appears this should be considered lowest price.

IMPORTANT Machines underlined mean these were most active in trading the past week.

CODE Check this code carefully. Become acquainted with each one of the code numbers and what they signify. These code numbers appear in front of the name of each machine.

1

MEANS PRICE
WENT UP.

2

MEANS PRICE
WENT DOWN.

3

MEANS MACHINE JUST ADDED
TO LIST.

4

MEANS PRICES WENT UP AND DOWN
DURING THE PAST WEEK.

5

MEANS PRICES REMAINED SAME AS
IN LAST PRICE LIST.

6

MEANS NO PRICES QUOTED FOR PAST
TWO WEEKS.

7

MEANS NO PRICES QUOTED FOR PAST
THREE WEEKS.

XX

MEANS NO PRICES QUOTED FOR
MANY WEEKS — PRICE SHOWN IS
LAST KNOWN QUOTATION.

IMPORTANT NOTICE

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange — posting the prices as they are quoted for the past week, regardless of how much they may seem to be out of line. Some prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration.

THE C.M.I. BLUE BOOK REPORTS EACH QUOTATION EXACTLY AS IT IS MADE AND DEPENDS ON THE SUBSCRIBER TO MAKE AVERAGE PRICE ADJUSTMENT TO FIT THE CONDITIONS IN HIS OWN TERRITORY.

A Pioneer Passes

EARL E. REYNOLDS

DALLAS, TEXAS — Earl E. Reynolds, pioneer Texas coin machine man, passed away this past Monday (Labor Day) September 2, 1946.

This obituary could be written simply and quickly — with just the statement that a great many attended his funeral this past Wednesday at 2 P.M. in the grand city of Dallas — and among these were well known coin machine men as well as a great many business leaders of this community.

But — to the coin machine industry — there passed away much, much more.

Earl E. Reynolds was one of the pioneer coin machine men. He was president of the Texas Coin Machine Association, so appointed because every Texas coinman knew that Reynolds would fight for every right and would continue on fighting thru thick and thin to win for him the right to continue on in this business.

Not only that — but in his many, many years in this industry — Earl E. Reynolds was responsible for the entrance of a great many coin machine leaders to this field. It was Reynolds who sold these men their first equipment and taught them how to make this a profitable business. It was Reynolds who nursed them along and who called them together to each great meeting and to every national convention to help make Texas one of the most outstanding coin machine states.

Earl E. Reynolds will not be forgotten by any coin machine man in Texas — nor any of the old-timers of the industry — thruout the world.

His smiling nature — his keen judgment — his good will — his everlasting fight to help make this a greater and ever greater industry — have engraved his name on the minds and in the hearts

of a vast number of men.

With the passing of this pioneer — there leaves this industry a great big chunk of heart — the kind of heart which made this industry possible from its early and troublesome days. There passes from the coin machine picture the sort of man whom all admired and whom all wished well and whom all were willing to follow — for they knew he would never guide them wrong.

There goes a pioneer — like the pioneers who made his state so great. Like those early pioneers who built this nation. There goes a pioneer — who helped to build a new industry.

To his widow — to his family — to his many, many friends, big and little, thruout the world — there is grief — but, to the coin machine industry — there is a great loss. For it was this sort of fighting, pioneer spirit — which helped this industry to its present position on the American industrial scene — and it would have been this sort of pioneering spirit — which would have helped this industry to grow ever greater.

A pioneer passes — all the industry should grieve — and all the industry should remember — that Earl E. Reynolds was among its few men — its pioneers — who helped bring this field to its present stage of importance — in music — in merchandising — in amusement — in all its various branches.

So long, old timer — we know your great fighting spirit will live on — will carry on — will make many of us continue to try as hard as you did — to help your people to enjoy the best. So long.

Pullman Porters Meet Louis Jordan

ST. LOUIS, MO. — Members of the Pullman Porters Club Inc. of this city, were honored at their Saturday night session, this past week, by the presence of Louis Jordan, that man who has been burning up the jukes with "Stone Cold Dead In The Market" and "That Chick's Too Young To Fry."

Louis' eyes are reported to have fairly popped when he viewed the new AMI phono installed in this club by Andy McCall, veteran St. Louis operator and incidentally, first operator to handle this machine in this

city. Andy purchased his machine from Frank J. Murphy, AMI distributor for this area.

Louis stopped in to see the Pullman boys between floor shows at the Plantation Club, where he is currently featured.

Al Mason, representative for Andy McCall, and Pullman Club officers are shown in the above picture listening to one of Louis' many records while Louis stands by with the coins.

"It is impossible to keep enough of Louis' recordings on a machine to satisfy demands," says Al Mason, but Jordan promised to help him from now on, "Even if I have to deliver them in person to every juke box operator," he stated.

Solotone

MAKES A ROUTE OUT OF EVERY LOCATION

5c

10c

Solotone

Think this one over!

The revolutionary Solotone Individual Music System can double — even treble your profits* because:

In each location, Solotone boxes are installed in the booths and along the counter. Each box costs 5c to play 6 minutes of low volume music. It can only be heard in its immediate vicinity — within the booth or in front of the box at the counter.

This means more take for you as all boxes can be playing at once — with each one earning its own revenue. Figure it another way. One Solotone box can take the place of an automatic phonograph. From then on, you multiply your profits with the *additional* Solotone boxes in each booth and along the counter. In other words, Solotone makes a top-take route out of each one of your locations.

Solotone is new — it's different — it multiplies profits. Get the full story today. Phone or wire us NOW for details.

OPS TELL WHY THEY WANT 10c PLAY

NEW YORK—In the August 26 issue *The Cash Box* asked the trade, "IS THIS A 'NICKEL BUSINESS'?" and inserted on that same page a coupon for the coinmen to give his own answer by asking him directly "What Do You Think?"

A great many answers have since been received by *The Cash Box* and many more are arriving each day.

Of importance to the industry is the fact that almost everyone of these answers suggests that play go to 10c, 2 for 15c, 3 or 4 for 25c. Operators from almost every section of the country have entered into answering this question.

It is interesting to note that the music operator wants the chutes on all machines now being manufactured changed to 10c play by the factory. Not only are operators of this opinion, but also leading jobbers and distributors.

What's more, they ask that the music machine business be disassociated from any other division of the industry to the extent that where an operator has a music machine route he consider this an entirely separate business from his amusement or merchandising machine routes so that all will change to 10c play and, at the same time, also change to the 70%-30% commission basis.

The following letters will prove of great interest to all members of the industry for they open a new path for the future.

Wants 10c Music Play Plus Front Money and 6 Balls for 5c on Pinball Games

LAUREL, MISS.—"I believe that all music equipment should be operated on one play for a dime, 2 for 15c or 3 for 25c basis.

"I prefer 'front money' of \$5 to \$10, depending on the type of machine.

"Pinballs should be operated on the basis of 6 balls for 10c."

Redd Music Company

Wants Music Mfrs. to Produce New Machines With 10c Coin Chutes

PORTSMOUTH, VA.—"Here's what I think," writes J. A. Woodward of this city, "that if the manufacturers would make all juke boxes with a 10c, 3 for 25c coin chute on the new machines it would show the public that the operator or the location was not trying to raise the price.

"I have a lot of spots," Woodward writes, "where this would work, but not when the operator himself changes the coin chutes.

"I only wish that some manufacturer would try it," he concludes.

Noted St. Louis Distrib Reports 10c Play Already Started in His Area

ST. LOUIS, MO. — Carl Trippe of Ideal Novelty Co., this city, well known distrib in this area, not only asks that 10c coin chutes be placed on much of the new type of equipment, but also reports that coinmen in and around St. Louis and in the rural areas are already adopting 10c play action.

Trippe writes, "We think that the business is changing all around. Some of the better arcade machines should be set at 10c play, like a mechanical horse we have here and the metal typers.

"Phonographs," he continues, "especially where there's dancing — should most definitely be set to play at 10c. More than one couple dances at one time, it must be remembered, and therefore the phono should be 10c play and 3 for 25c.

"In fact," he writes, "that's the very system everybody is starting around St. Louis and in rural Missouri."

Wants 10c Play. Claims Mixed Routes Big Problem. Says Old Time Bumper Games Earn Good Profits at 5c Play

DOUGLAS, WYOMING — Bryan E. Edwards of Electric Sales & Service, this city, answers more than the questions of where this is a nickel business by telling about the problem of the mixed routes and also the fact that he is using old time bumper pin games at 5c and that they are getting good action. This latter is of real interest to many pin game manufacturers today.

Edwards writes, "Make all phonographs 10c play, 2 for 15c, if this is mechanically practical. Two larger problems, however, enter into the picture at this time.

"The first," he writes, "is the operating-distributor, who either operates direct or keeps those operators with whom he deals working so far in debt so as to be the real owner and manager of the route.

"With his distributor's discount," he claims, "he is interested primarily in keeping the operator broke, and this means encouraging the operator to give big commissions. At the same time the distributor wants turnover of operators, as he gets big profits on each new man, caring little or nothing for the present operator or his location, but really interested in the complete control of the territory.

"Then there is the type of opera-

tor," Edwards writes, "who gives whatever is necessary in commissions on phonographs for the purpose of keeping his other amusement machines working, figuring that a loss on phonos is his best protection.

"All machines must pay for themselves," Edwards claims.

He also writes, "On pinball we have found that the machines we get a play on are not the complicated ones but usually the simple ones that we have dug up from the past, many of them wire bumpers. It is not the wire bumper that gets the play, but the simpler, easy-to-understand play action.

"Our very biggest play," he reports, "is on a wire bumper game we changed over to plastic bumpers. The game is easier to understand than the newer ones and the new type bumpers work better. 5c play is plenty per game on these, but, on the new pinballs the prices are entirely out of line. Simpler and less expensive pin games are absolutely needed."

Noted Texas Music Op Urges 10c Play and Eliminating 50% Commish

AUSTIN, TEX.—Eddie Schatz of the Austin Phonograph Co., this city, one of the best known music machine ops in this state, writes that the music operator simply must get to 10c play and, at the same time, eliminate the 50% commission basis.

Schatz writes, "The prices of the new machines, the cost of records and labor and the other general operating costs, as well as all other operating expenses have to come out of the operator's share of the collection.

"He cannot remain in business and pay 50% commission," Schatz claims, "and," he writes, "it would be a God-send if all chutes were 10c instead of 5c."

To this he adds, "The operator would then be in a position where he could buy and not be put out of business with new model machines coming up every 6 months, just like it was before the war. There will be so many new machines on the market soon that all machines over one year old will be considered 'an old model.'

"We need 10c coin chutes," he claims, "and then maybe all the operators will stick to 10c play. Furthermore," he writes, "the operators must simply get off the 50% commission basis. They just won't do that here — but, unless they do so very soon, there will be plenty of operators who just won't have any money to buy new equipment."

**Runyon Sales Name
Mac Perlman Sales Rep**

NEW YORK—Jack Mitnick of Runyon Sales Company, this city, announced the appointment of Mac Perlman, old timer in the coin machine industry here, as sales representative for the firm for the state of Connecticut.

Mitnick stated, "Mac is well known to all the conmen thruout the state of Connecticut. He will travel thruout the state and, in the near future, will open offices for us in important centers."

Mitnick also said, "Mac Pelman is well liked by every eastern coinman. He has been in the coin machine business for over 15 years. At one time, prior to the war, Mac was considered one of the leading New York distributors. He knows the operators' problems and he knows how to help them. He has proved this time and again in the past.

"We feel sure," Mitnick continued, "that everyone in the state of Connecticut will be happy to greet Mac Perlman once again on his return to the coin machine industry as our representative in this state. Mac will handle all of our business there and will be in constant touch with our headquarters in this city."

Jersey Music Servicemen Learn About 75% - 25%

LeRoy Stein of MGA Conducts Orientation Program for Employees of Jersey Music Ops. Tells Why 75%-25% Commish Basis Necessary.

Next Meet Sept. 12 to Tell About Operating Methods to Achieve This Commish Basis.

NEWARK, N. J.—A highly successful meeting to assist route managers, collectors, location adjusters and solicitors in carrying thru the declared policy of the Music Guild of America, New Jersey music ops association, to institute the 75%-25% commission arrangement was held at Guild headquarters here on Thursday of this past week.

With immediate plans calling for the establishment of the new rate in Essex County first, eighteen of the twenty member firms operating there sent a total of sixty employees to the conclave for orientation on their part in carrying thru the new rate in this area.

LeRoy Stein, executive secretary of the association, opened the meeting with a talk in which he called for a "change in thinking" on the part of those present. He asked that those present look upon their operations as the truly legitimate business it is. "And for a legitimate business," he emphasized, "we have every right to ask and to earn a legitimate profit."

The relationship between the location owner and the music merchant was a partnership, he emphasized, and the monies paid to the location owner was not a commission but a share of earned profits. And, he continued, under past conditions, the location owner was receiving more of the profits from the operation than any like partner could rightfully demand.

In the round table discussion that followed, representatives of every firm were called upon to air their views and opinions as to the best method toward achieving the 75-25 per cent goal.

The concensus among those present revealed that whereas it was difficult to sell the more profitable locations with the idea of a straight change in commission agreements, it was found to be quite simple to place a service charge or front money arrangement with the location and, in this way, bring up the music merchant's share to a figure approaching

the commission goal.

Heavily praised for their assistance in paving the way for the arrangement of the new rates with the locations was the propaganda disseminated to locations by the Music Guild of America, and it was felt by all concerned that this policy would help to drive increasingly deeper the wedges toward opening a better commission for the cointrade thruout the country.

The meeting was adjourned at

11:15 pm, at which time all who attended gathered again at a nearby restaurant where refreshments were provided by the Guild and more discussions between members followed.

So successful was the meeting held last week that another will be called on September 24th,

On September 12, a meeting of music operator-members of the Guild will be held to discuss operating methods in achieving better commission rates,

TAXES!

Reports From East and West Show Trend to Hit Cointrade

NEW YORK — Reports from every area of the nation which arrived at the offices of *The Cash Box* here indicate an increasing trend to slam the cointrade. Here are two of them, one from the easternmost section of the country and one from the Western territory; they are vivid examples of what is happening and will continue to happen until an adequate National Tax Council is set up by this industry to counteract such action.

* * *

WEST ORANGE, N. J.—With the greater portion of coin equipment currently affected by tax and license fees, operators in this city were notified recently that still more tax legislation is in the making to cover any and all equipment now being operated without payment of fees to the municipal government.

This past week Town Attorney Gerald T. Foley informed the local press that he had drawn up an ordinance which he believed would cover and regulate the use of "coin-operated amusement devices not now covered by the bagatelle ordinance."

The move, it was agreed, is in an effort to cover by taxation every type of machine that is permitted to be operated here. A prior ordinance was shelved when it was discovered that it failed to cover "everything," the new measure, drawn up by the Town Attorney, is expected to "correct" any equipment which had been overlooked.

According to the ordinance that currently awaits passage into law, every coin operated amusement machine (including juke boxes) will not be permitted to operate without license and without the annual payment of a \$50 fee. In addition, the ordinance provides that no more than five machines can be operated in one location and that no one under the age of 16 may be permitted to play the equipment (including juke boxes).

According to information released by the local newspaper, the ordinance is expected to pass in substantially the same form as it was submitted, "but perhaps with other devices included, if Foley (the Town Attorney) finds some not now covered."

* * *

GIG HARBOR, WASH. — A truly unique tax measure went into effect here on Sept. 1, against operators of pin games.

The new ordinance provides that all pin ball machines within the city limits will be taxed \$10 per month per machine or ten per cent of the "take," whichever amount is the greatest.

Local Post Office Asks City Council Oust Stamp Venders

COMPTON, CALIF.—A test case to determine the right of private citizens to operate stamp venders appeared in the offing here this past week as the result of a request made by the local postmaster to the city council that the twenty four machines be banned from Compton.

The postmaster, Clark Wallace, in a letter to the City Council asked that the venders which, he claims, sell \$50,000 worth of postage stamps yearly, be ousted from the city on the grounds that they are harmful to the development of the Compton Post Office, and, in turn, are harmful to the development of the city itself.

Reason for this unusual and disturbing request appears to be the result of the methods by which the U. S. Post Office Department measures the activity and requirements of local post offices.

Postmaster Wallace claimed that the Compton Post Office gets no credit for the "\$50,000" in stamp sales and yet his office must bear the expense of handling the mail on which these stamps are placed.

Who Counted' Em?

NEW YORK—According to the "International Musician," a music makers trade paper, four a half billion nickels were fed into juke boxes during 1945.

Gasoline Vender Draws Big Interest

NEW YORK — Reports from areas thruout the nation indicate a tremendous interest on the part of the public in the new coin operated gasoline vender invented by Philip Schneckenburger of Buffalo (N. Y.).

Many newspapers commented editorially on the unit and hailed it as a "great boon" for the American tourist, and as an answer to a long standing need.

Cointrade leaders who have expressed interest in the new unit are currently wondering whether the device will offer opportunities for independent operations or whether its use will be confined to the established channels thru which gasoline is now being sold.

"You Saw It in The Cash Box"

GI's Bid On Bells

FRESNO, CALIF.—Troops who were awaiting discharge from the service at nearby Camp Pinedale recently were afforded an excellent opportunity to enter the cointrade as operators of bell machines.

Back of the opportunity was the auction of nine such units from the officers' club of the base, with the camp's own personnel given first priority in making the bids.

N. Y. Music Op's Union Co-Operates With Musicians' Union

NEW YORK—Closing up all channels of music to the struck hotels, James C. Petrillo and Local 802 of the American Federation of Musicians requested that Muzak and juke box operators refrain from installing and running music during the period of the strike.

Muzak agreed to cut service to the hotels and restaurants using their service, and Local 3 of the Electrical Workers assured the Musicians Union that it would not install any juke boxes in hotels on the union's unfair list.

Mr. Petrillo, in adding further pressure, declared that any recording companies whose records may be used to supply music would be placed on the union's unfair list.

Hotels without music, in many instances, were forced to close up their eating and dancing spots hours ahead of their usual closing time.

Florida Music Op Supplies Free Music For Municipal Dance

BUSHNELL, FLA.—A good move in the direction of better public relations was made here when a local juke box operator donated the use of a phono used for a free "juke box" dance held here in the community hall of the Municipal tourist camp. The operator tripped the coin chute, providing all night music for the dancers.

OKLAHOMA CITY SHOWS RAPID EXPANSION

OKLAHOMA CITY, OKLA. — Of interest to Southwestern coinmen are reports of a survey indicating that this city is heading for a great expansion in all phases of its business advancement.

New business firms are opening at a rate of nearly seven a month, and established firms are expanding at the rate of five per month. Most of the firms are small enterprises, employing from one person to larger operations, hiring over 200 persons.

This territory formerly was known as an agricultural and oil center, but the new industrial outlook is reflected in the many new businesses and increase in population. A group of Oklahoma City business men have organized the Oklahoma Industries, Inc., a \$500,000 corporation, which is ready and able to buy an option, purchase land, and finance the construction of buildings either for sale or rent to any firm seeking a location.

During the first six months of 1946 there were 67 new business firms opened here and in the immediate vicinity, including 17 manufacturing companies and 17 distributing firms. One of the firms is manufacturing amusement devices, in addition to many other wood items; and another is distributing both juke boxes and English motorcycles.

Looking ahead, operators here can expect several air fields; a major-sized firm to open for the manufacture of insulation, employing approximately 700 persons; firms engaged in the textile business to open branch factories here; and many others.

The outlook for expanded business and increased population in this city is great as those companies already established here expect to continue ahead even tho the many new firms will be opening.

Asks Wider Use Of Venders

BOSTON, MASS.—Malcolm P. McNair, professor of marketing at the Harvard Business School, in an article in "The Herald," leading newspaper here, called upon big business management to reexamine the possibility of extending more widely the use of automatic vending machines to handle actual sales transactions.

Admitting that there are limitations in the use of the equipment, Professor McNair, nonetheless, declared that "it is perhaps significant that the self-service, self-selection principle in chain food markets has apparently made a hit with the customers and the use of automatic vending machines is only an extension of the same principle."

He asked that sales management acquaint itself with the difference between those goods and services which require the personal touch and those which can best be handled thru automatic venders.

New Amusement Game Tested in Florida

ST. PETERSBURG, FLA. — After experimenting and testing for over 21 years, Ole Johnson, a radio and stage comedian, finally has announced the introduction of a new amusement machine called "Ballette."

"Ballette" is an alley type game played with six balls. The back-board is laid out like a baseball diamond with electric scoring. A baseball bat is at the extreme end of the alley and players try to hit the bat with each ball.

Johnson hasn't as yet announced any manufacturing or sales plans, except that it will be made in St. Petersburg.

1865 Juke Box Still Plays

HOLLYWOOD, CALIF.—Every now and again along comes a member of the coin trade to claim kinship with the oldest juke box in existence, and this past week, true to tradition, along came somebody else.

Enterprise Productions is currently telling one and all that they will feature a music machine—the granddaddy of all juke boxes—in a saloon scene for their forthcoming Veronica Lake-Joel McRea vehicle, "Ramrod."

It appears, from what the publicity man said, that there was a hit parade

in those days and their aged machine will play them still. The three toppers for the location it originally was operated in are: "I Traded My Honor For A Bag of Gold;" "This Is How Brother Died, Mother Dear;" and "It Was The Last Move George Potter Ever Made."

According to Enterprise Productions the machine was being operated in a Mariposa (Calif.) tavern until a few years ago when W. Parker Lyons, a collector of old Western objects discovered it and bought it.

Cloudburst Hits St. Louis Coinmen

ST. LOUIS, MO. — A cloudburst which struck this city during the afternoon of September 1st, played havoc with many pieces of coin equipment in locations in the hardest hit areas.

A rainfall measured at better than 3.2 inches completely destroyed several phonographs in South St. Louis Taverns and caused many dozens more of both phonos and pin games to be shorted out.

The Winnahs

CHICAGO—Yes, sir, the Chicago boys took the pennant on the "Quiz of Two Cities" program September 1, in which four Chicago juke box experts competed with four New York juke box experts. The Chicago team from left to right: DeWitt (Doc) Eaton, Vice-President & General Sales Manager, AMI Incorporated; Holland Engle, announcer and emcee for the quiz program; L. C. Force, Asst. Sales Manager, AMI Incorporated; Raymond Cunliffe, president, Illinois Operators' Assn.; and Otto O. Mallegg, AMI exporter, 400 W. Madison St., Chicago. The score was 70-125 in favor of the Chicago boys. The New Yorkers were captained by Jack Mitnick, Runyon Sales of New York, who had help from Barney Sugerman, Runyon Sales of New York; Al Denver, president of New York Operators' Association, and Manny Daddis, Runyon Sales service man.

It's Du Grenier, Inc. Now-For Simplicity

HAVERHILL, MASS. — Burnhardt "Bip" Glassgold, Vice-President and Director of Sales, announced the change of name of Arthur H. Du-Grenier, Inc., to DuGrenier, Inc.

"This change" Glassgold informed us over the telephone "is for convenience only. Merchandise machine operators were calling us DuGrenier anyway for years, and the simplification only makes it official. There are no changes in our policy, which has been to manufacture the best in merchandise machines, and to cooperate with operators at all times. Neither is there any changes in our personnel."

H & L Distributors Open New Building In Birmingham

BIRMINGHAM, ALA.—Morris Hankin and Jack Lovelady, Jr. of H. & L. Distributors, Inc. have announced their first showing of the AMI "Model A" phonograph, and products of International Mutoscope and J. H. Keeney at their new building here on September 13 and 14.

Both Hankin and Lovelady will be on hand to greet all their operator friends. Refreshments will be on hand for all. "We expect a gala turnout" enthused Hankin and Lovelady "and we know the Alabama coinmen will be thrilled with the products of these three manufacturers."

MISSOURI VETS ASK FOR LEGAL BELLS TO RAISE STATE BONUS FUND

JEFFERSON, CITY, MO.—The legalization and taxation of bell machines in order to finance bonuses for Missouri veterans of World War II has been brought to the attention of law makers in this state.

The suggestion came from veterans.

With a legislative committee now at work here at the State Capitol studying ways and means of financing bonuses for the ex-soldiers, a number of vets contacted Rep. Emmett Bartran of Nodaway County, chairman of the committee, recommending the tax on the equipment. He, in turn, has placed it before the law makers.

The war vets themselves, having had legal access to all types of amusement games during their army experience, appear to be evidencing genuine interest in the proposal, and in many instances are reported giving their active support to the recommendations.

Send Your Congrats to—

September appears to be an important month for the birth of coin-trade leaders.

Among those who are becoming one year older during this period are Herman Paster, Mayflower Novelty Co., Minneapolis (Sept. 10), and Jack Kaufman, K.C. Novelty, Philadelphia (Sept. 8).

Hospital Becomes Bell Location—For 16 Hours

SAN FRANCISCO, CALIF.—For sixteen hours a bell machine enjoyed a location in the Franklin Hospital sickroom of Miss Binkie Plunkett, a local citizen with a fractured hip.

And, from the way the young doctors and nurses gathered 'round Binkie's room to invest their dimes, it was a pretty good location at that. But it didn't last very long. Just sixteen hours. At the end of that time

Frank Schmidt, head of Franklin, stepped in — and not with a handful of dimes. He was very polite when he ordered the machine removed, Miss Plunkett said.

"He just explained that if there was a slot machine in one room the hospital would have to permit them in all the rooms. I can see his logic," Binkie admitted.

Bridgeport Looms As Big Cointrade City

BRIDGEPORT, CONN.—Of interest to coinmen in this and surrounding areas is a report recently released by the leading daily newspaper of business, "The Journal of Commerce."

According to the report, released this past week for the information of industrial leaders, production and employment in Bridgeport are at all-time high peace levels.

Industrial and civic leaders, expecting the experience of the days following World War I to repeat itself, expected that there would be a huge exodus of wartime workers with the cessation of hostilities. But for a good many reasons they didn't leave.

First off, Bridgeport, termed the "Industrial Capitol of Connecticut," was ready for immediate reconversion to peacetime production. This was so thanks to the fact that the far-seeing Chamber of Commerce called the leaders of local industry together and called for the planning and blue-printing of peace time action.

It worked. In many cases it was just a matter of days for some plants to change from a 100 per cent war program to a 100 per cent peace time arrangement. And, in addition, weekly payrolls have dropped little from peak wartime days to that which holds at present.

DOUBLE YOUR MONEY BACK!

The most daring offer ever made in the industry. Order anything from this list. Compare it with any similar used game you purchased elsewhere! (1) NOTE THE EXPERTLY REFINISHED, LIKE-NEW APPEARANCE OF OUR EQUIPMENT. (2) CHECK ITS SMOOTH PERFORMANCE AGAINST THAT OF THE OTHER GAME. If you do not agree that our machine is superior, both in looks and mechanical perfection,

SEND IT BACK TO US WITHIN 5 DAYS OF RECEIPT AND GET DOUBLE YOUR MONEY BACK!

MUNVES MAKES NEW CONVERSION

JOE MUNVES

CHICAGO — Joe Munves, Munves Manufacturing Corp., this city, announced the manufacture of a new conversion called "Soft-Ball Queens."

Munves claims the game features high scores and fast action. It is converted from any of 12, previous hit pin games. "'Soft-Ball Queens' has been thoroughly tested on location" informs Joe "and the conversion work is being done by the finest factory-trained mechanics."

The new Munves plant at 158 E. Grand Ave., into which the firm just

Play At Your Own Risk!

BOSTON, MASS. — Insurance companies would probably prefer that bell machines be made of rubber from now on in, at least, if they were it would probably save them quite a hunk of change thru payment of accident claims.

That's the thought that can be concluded from an article prepared by Henry Kelly, a feature writer for "The Post," a leading newspaper here.

According to the claim records of the Aetna Life Affiliated Companies, this city, a Boston citizen hit the jackpot on a bell machine not too long ago. "Lights flashed and coins cascaded out," Kelly reported. "One fifty-cent piece rolled under the cabinet. In his anxiety to retrieve the coin, the man lifted the cabinet, reached under and had his hand badly crushed when the cabinet slipped.

"A Minnesota women, who also hit the jackpot, became so excited that she tipped the whole machine over, fracturing her sister's big toe."

moved, is humming with activity and games are being shipped out as rapidly as they come off the line, it was said.

Jafco Introduces New "Roll-A-Ball"

JOHN A. FITZGIBBONS

NEW YORK — Jack Fitzgibbons, Jafco, Inc., this city, this week announced that the new "Roll-A-Ball" Barrel Roll is now being delivered

The game has been improved and redesigned. The major improvement is the inclusion of a new mechanical ball release, which works perfectly and eliminates service calls for balls getting caught in the runway. Other changes are the streamlined cabinet, the legs in particular; the adding of one-half foot to the alley, making it of ten-foot length; and the ball receptacle is now located in the front

"This new model" claims Jack Fitzgibbons and his associate Al Schlesinger, "immediately met with the approval of operators, and it seems that many of them are setting up batteries of 10 to 20 machines in a location. Other operators who are able to place individual machines on location are enthusiastic over the improved model, particularly the new ball release, as their service calls are now practically nil."

FOR BETTER PUBLIC RELATIONS

Ops Urged To Aid Youth Canteens

NEW YORK—One of the most effective means for music operators, both individually and thru their trade groups, to achieve strong public favor and thus help attain better public relations for the entire coin machine industry appears to be in the nation-wide activity known as the juke box or teen-age canteen.

The fact that the interest is nation wide and of vital concern in communities in every section of the country becomes strikingly apparent thru the heavy publicity being devoted to the projects by newspapers, magazines and radio.

And now that the summer season is over, the interest in combatting juvenile delinquency and keeping teen-agers off the streets is growing ever stronger.

In this striking situation coin machine leaders see a golden opportunity for ops to make a strong move to capture the appreciation and favor of their own communities.

These "canteens" need music. They need it as desperately as did the groups which were set up locally for the welfare of visiting servicemen during the war years.

As a result, musicians are being urged wherever possible to lend the use of a juke box to these youth centers. It need be but one night a week, the "dance night," but it would bring before the community leaders the fact that members of this industry are vitally concerned in the welfare of the young people, just as they were interested in the welfare of the soldier.

With the press exhibiting the interest they are in the movement, coin machine leaders are urging that those who donate the use of their equipment do not refrain from accepting any credit for the move that is bestowed upon them. In fact, they advise that a suitable placard be attached to the machine mentioning the donor, and thus, his connection with this industry.

With the battle toward gaining better public relations for this industry gathering in stride and in momentum, it is pointed out that here is an opportunity for the trade to be displayed in a strong, true light, and the opportunity should not be overlooked.

Pipe Music to Groceries

NEW YORK—Something new in locations for wired music was given nation-wide publicity this week when "Collier's" magazine, in the column "Keeping Up With The People," told of a new method of advertising food products to grocery store patrons thru the insertion of "commercials" in a day-long wired music program.

According to "Collier's," the program, transmitted from a central studio over telephone wires to loud speakers in the stores, is currently being used in three cities and reach some 550 outlets.

The Quality That Never Fails

By JAMES T. MANGAN
(Mangan & Eckland, Chicago)

When you're full of enthusiasm, you're full of magic. It's the one human quality that never fails.

The Greeks who invented the word saw the miracle of it, for enthusiasm means "God in us!" Enthusiasm is a quality at once animal and divine, and that's why it can't fail. We see the emotion of common feeling joined with the ecstasy of spirit and we must respond.

If anything at all is worth your doing, it is certainly worth your enthusiasm. If you're not sold on the thing yourself, you shouldn't be connected with it at all! If you're not enthusiastic, your work will be dull, fruitless, insignificant.

Be enthusiastic! Warm up. Don't be like a cold, clammy fish, put some spirit and emotion into the thing. Don't say: "I can't be enthusiastic about something that doesn't deserve enthusiasm!" Just get enthusiastic about even a meaningless thing and instantly the thing takes on a rich meaning. Immediately in the wake of enthusiasm follows sincerity. In the physical vibration of your body and the spiritual vibration of your mind, fear vanishes in a wisp of smoke. And there enters your heart an amazing flow of new strength, power to surmount obstacles, to sway other people, to accomplish your ends.

Emerson said, "Nothing great was ever achieved without enthusiasm!" In that one remark he showed that GREAT THINGS ARE HARD TO ACHIEVE, and enthusiasm is God's gift for man's accomplishment of DIFFICULT THINGS.

Enthusiasm—the quality that never fails. Try it—see if it's possible for you to make a failure when you're enthusiastic. With the first glow of your personal excitement, the world will be drawn to you. Even though they fail to understand you with their minds, people will understand you with their hearts. They will admit that anything that can stir a brother man in this fashion is worthy of their own acceptance.

Warm up! Believe in yourself! Get excited! Feel the full spiritual force of your cause, of your aspirations—let the world see your pride, your faith, the fire in your blood, the full heavenly courage of your convictions. Enthuse and the world enthuses with you. Enthuse and the power of the gods is yours!

SAY YOU SAW IT IN "THE CASH BOX"

RECORD PRICES GO UP

20% Increase Announced On 50c Label By Majority Of Larger Disk Mfrs.

Record prices are up!

As this issue of The Cash Box goes to press, the majority of the larger record manufacturers had revealed that they had added or were planning to add a twenty per cent increase to the price of their series which up to now has been selling at a 50-cent list.

Of the larger manufacturers who have been making a 50-cent (retail) record only Columbia and Decca announced that they would continue to adhere to the original price line. In their announcements it was added, however, that they would maintain this policy "until further notice."

In reply to the survey by The Cash Box, RCA-Victor and Majestic Records disclosed that their new increased prices were already in effect.

Capitol Records declared that they would wait until September 16th before putting the rise in effect on their label.

A high placed spokesman for Musi-craft Records announced that he would seek to institute the price increase as soon as possible.

Sonora Records and Mercury Records could not be reached for comment.

In announcing that Columbia Records would not move for a price rise at this time, Edward Wallerstein, president of the firm, declared in a specially prepared statement that instead of raising the price line, his company would seek to minimize effects of increased labor and material costs thru larger volume.

Decca Records, who also announced they would maintain the fifty-cent label, claimed thru Leonard Schneider, vice president, that no price rise was contemplated "at the present time." However, competitors point to the fact that Decca's more popular artists are to be found, in increasing instances on a "Personality Series," or higher priced label.

It is generally agreed by those close to the record industry that costs have increased tremendously during the past few years, and for many firms it is next to impossible to produce a record to retail for a fifty-cent price line.

E. A. Tracy, president of Majestic Radio and Television Corp., spoke for most of the record manufacturers involved when he told The Cash Box that it was a move reluctantly made. "Nevertheless," he added, it was "impossible to take any other course" in view of the increased costs with which the record makers must contend.

In the meanwhile, cointrade leaders hearing of the price increase moves taking place in the record industry were quick to react.

"We are not condemning the record manufacturers who are raising the price line," declared one noted eastern operator, "even tho a 20% rise will mean just so much more that we must figure in computing our annual overhead. And, when it's considered that we buy in volume that rise approaches a tremendous total for our industry to absorb.

"Indeed," he continued, "if we're to condemn anybody, we must condemn our own short-sightedness in continuing to operate under present commission arrangements.

"The record makers," he concluded, "found themselves against the wall and added a 20 per cent increase to one of their lines. We, too, are against the wall. When are we going to add another twenty per cent to our commission and thus face the situation as it is?"

CORRECTION!

DUE TO A PRINTER'S ERROR, THE PRICE ON WILLIAMS DYNAMITE AS IT APPEARED IN THE AD OF M. S. WOLF DIST. CO. IN THE ISSUE OF SEPT. 2 WAS INCORRECT.

Record Demand For CMI Exhibit Space

Applications For 50% of Available Space Already Received

JAS. A. GILMORE

CHICAGO—At the close of business Thursday, September 5th, applications for 114 exhibit booths out of 208 available had been received by Coin Machine Industries, Inc. and only about one-third of their members had been heard from. Members only received the floor plan and exhibit contracts in their mail Tuesday morning, September 3rd so this announcement is almost unbelievable but it is nevertheless true.

We have been serving operators of Bulk equipment for 17 years — New Machines — charms and operators supplies available now — WRITE FOR DETAILS.

This confirms the prediction of Jas. A. Gilmore, Secretary-Manager, that all exhibit space in their 1947 Coin Machine Show would be sold to members only and none was likely to be available to exhibitors in their prewar shows or to non-member prospects.

Mr. Gilmore says he realizes this is to be a great disappointment to new manufacturers especially who have been invited to join and have not yet made up their minds about

exhibiting.

Exhibit space in Hotel Sherman cannot be expanded or increased but some members may be prevailed upon to surrender some of the space they have applied for so he hopes that all new prospective members who are going to be in production by February 1, 1947 will send in their applications for membership and he assures them space will be provided for them if it is humanly possible.

AOLAC HOLDS BIGGEST MEET OF YEAR

Elect New Directors; Hit Direct Sales; Better Commissions Asked

SAMUEL (CURLEY) ROBINSON

LOS ANGELES—The Associated Operators of Los Angeles County held their biggest meeting of the year this past Thursday, September 5.

With 275 coinmen gathering for the occasion at the famed Rodger Young Auditorium in this city, the conclave was all the more impressive, for the topics raised for discussion were among the most timely and significant to be aired before the group in many months. In addition, a new board of directors was elected to office for the coming year.

At the conclusion of the election, which named Fred C. Reilly, Vern Moore and Tom Catana to directorships, Samuel (Curley) Robinson,

managing director of AOLAC spoke out upon the issues which were of paramount importance to all members of the cointrade today.

In a speech etched with grim seriousness, Robinson vigorously condemned the outcropping of direct selling to locations, which he characterized as one of the major threats to the livelihood of every operator-member of the trade.

Continuing his talk in this mood, Robinson pointed to the ever increasing number of reasons why the operator must improve his commission basis to match skyrocketing overhead. To fail to act, Robinson warned, would almost certainly lead to the business failure of many members of the industry.

Reviewing the old ills of the business, Curley called upon all ops to vigorously condemn and act against permitting minors to play games, pointing out how detrimental and adverse it was to the industry as a whole.

Another speaker before the group was Ray Adams, president of the Southern California Tavern Owners Association, who joined with Curley in emphasizing to all members of the trade to operate within the bounds set down by law. Both pointed out that other practice was short-sighted because additional profits they could otherwise gather would be short-

lived.

A generous buffet supper was offered at the conclusion of business.

Active Amusement Moves

IRV MORRIS

NEWARK, N. J.—Active Amusement Machines Co., this city, under the management of the popular Irv Morris, announce that they have moved to 1060 Broad St.

“Due to the increased volume of business, and larger shipments from our factories, we need added space,” states Irv. “With this added space and improved facilities we shall be able to serve our customers better than ever” continued Morris “and at the same time it leaves us in a favorable position to take care of the future, which is starting to gain in momentum right now.”

Morris invites all his friends to visit him at the new headquarters.

Herrmann In Action

ALBANY, N. Y.—Art Hermann, Art Hermann Co., this city, is seen at his desk very seldom these days. Art, a human dynamo, is on the road most of the time visiting with music ops acclaiming the virtues of the Aireon phono.

Herrmann takes a great delight in his beautiful and sumptuous offices and showrooms, and claims that if Morris Hankin and Jack Lovelady of Atlanta, Ga. have more gorgeous offices than he — it must be out of the world. In any event, he won't believe it until he sees it.

THRU THE COIN CHUTE

CHICAGO CHATTER

Funny about the things a guy remembers over the years. Take for instance the time Ray Moloney had a bunch of the boys in the old pre-war Bally "Wigwam" — listening to the radio — and talking about this and that, but mostly, about the fact that it looked like Uncle Sam was going to get into the war any day now — and then listening some more to the radio, between lulls in the conversation, and the radio playing that soft and dreamy music — and suddenly — CLICK. The radio went dead. An impressive, important-sounding voice announced: "Ladies and gentlemen this program has been halted for an extremely important announcement. We've just received word over the news wires here in our studio that Hitler was just shot dead." The radio music started up again. The boys in the wigwam were stunned into silence — for a moment or two. Then they rushed for telephones to call their offices and friends and neighbors to excitedly tell them about this tremendous, earth-shaking announcement. (Were they mad when they discovered that someone at Bally had a "mike" hooked into that radio.)

Chicago is coming back to normal after the Labor Day holiday and the coinmen are preparing themselves for one of the greatest selling seasons of all time as the ops come in from the resort country with their equipment. The demand for new machines continues greater than ever and the manufacturers are at their wit's end trying to do everything that they possibly can to help the distributors get the new games to the ops . . . DeWitt (Doc) Eaton, vice-president and general sales manager of AMI one of the busiest guys in this man's town. Doc is constantly on the long distance phone with his distributors all over the nation. He advises that the AMI boys will be coming to town for a sales meet sometime in October . . . Joe Beck's display of the Telequiz machine is attracting ever more attention and the payout model has the men all thrilled. It seems that many never knew there was such a thing where questions and answers were concerned — but if you'll recall all those pay-off radio programs for the correct answers — then you'll get the idea . . . Quite some doings here around the town now that Jim Gilmore, secretary-manager of CMI, has sent those charts of the exhibition floor out to all the CMI members. Everywhere we went we saw the men carefully looking them over and arguing with each other regarding the space that they would like to have. Seems to me like Jim is going to have his hands full trying to meet all demands.

Plenty of ops here are all thrilled over that story which appeared in the press that Chicago's aldermen Hartnett and Bowler have taken under advisement a proposal to legalize non-payoff type pinballs and other mechanical entertainment devices in an effort to raise more revenue for this city. The aldermen estimate that such a license would bring in from \$300,000 to \$400,000 to this city annually — and, brother, that ain't hay. And juke box ops were happy to hear that the aldermen had decided to lower the \$50 license fee which was held confiscatory by the Supreme Court to \$25 with David H. Feldman, attorney for the Illinois Automatic Music Ops claiming that the ops of the 6,000 juke boxes here would be willing to pay \$15 per year.

There were plenty hi-jinks over at Bally this past week when many of their distributors came in to see their newest five-ball pin game, "Big League." The game is priced to suit the trade, execs here stated, and from advance orders already placed, believe that this will be one of their biggest hits. George

Jenkins, Herb Jones, Bud Breitenstein, Dan Moloney, and all the rest of the boys here like this game so well that they have been going at it day after day in a little contest of their own. They tell me that they expect Ray Moloney to enter into it and score the most runs any day now . . . Mystery man of the coinbiz right now is Harry Salat of Bell Products Co. who has just returned from a month's vacation to the West Coast and just simply isn't talking. Harry really enjoyed himself, tho, and liked the sunny California sunshine. He reports that he will soon write a complete book about what he saw and heard while driving his brand new car west . . . By the way, that reminds me, Al Sebring had his car disappear the other evening and learned, after reporting it as stolen to the local police dept., that one of his friends had loaned it — by mistake. But Al sure was happy to get it back once again — visualizing that long street car ride from the north side to his offices . . . Jack Breidt of New York in town and staying over at the Stevens while visiting with Bally. Breidt came right over to the Bally offices from the airport and dragged his grip along with him . . . Dave Yaras of American Amusement Co. is back from Tucson, Ariz. and looks in the best of the best of health. Dave likes the rugged western country and enjoys that speedy drive he makes up and back from Arizona to visit with his two sons and the Mrs. . . . Barney (Shugy) Sugerman of Runyon Sales Co., New York and Newark, N. J., in town for a few days . . . Les Huyett of H & R Sales Co., Rock Island, Ill. was seen in town this past week and over at the Jennings plant to do some nice buying there . . . Art Puetz, W. K. White, Willard Kredel of Garfield Novelty Co., Columbus, in town this past week and doing some buying here and there . . . Some of the manufacturers enjoyed some nice business from the Loyal Order of Moose convention which went on here last week.

A new type of game shown at the Morrison Hotel, to be manufactured in Texas, had lots of people here plenty excited. Vends a ticket and pays up to 500 bucks on a winner . . . John Chrest of Exhibit Supply Co. still out of town but expected back in a few days . . . Gil Kitt and his Empire Coin boys plenty busy this week, it being such a short week, and so many, many things to do . . . Harry Brown of American Amusement also one of the hardest to catch still for a moment

THRU THE COIN CHUTE

EASTERN FLASHES

How many recall the time when Hirsh de LaViez (Hirsh Coin Machine Co., Washington, D. C.) decided to avenge a practical joke with another practical joke at one of the pre-war conventions in the Sherman Hotel? Hirsh phoned downstairs one evening and, in a loud, authoritative and angry voice, demanded that the furniture (every little stick of it) be removed from "his" room (giving the room number of one of his Baltimore friends, instead) for he was going to hold a "sales meeting" there in a few hours. Insead of his furniture, he told the hotel management, he wanted a room full of chairs and a large table. This was done — and on the double. The result being that this Baltimore coinman — when he staggered into his room about 4 in the dawn — almost crippled himself falling over chairs trying to find his way to his bed. And when he awoke to what had happened — *was he mad?*

With summer only a memory and the fall season here, coinmen are once again in an optimistic mood. The action is becoming more pronounced and everyone is feeling that the coming months will be the beginning of the greatest era ever seen . . . One coinman operating music in New Jersey tells us that he is now running on a 10c play. Collections fell off the first two weeks, but each succeeding week showed an increase over the previous period at 5c play. The last week's collections was way ahead of anything he ever experienced. "That's the only answer" he claims.

Mack Perlman's many friends were happy to hear that he joined up with Runyon Sales Co. to cover the Connecticut territory . . . Jack Mitnick, of Runyon Sales having plenty of headaches trying to parcel out the new AMI phonos amongst the local ops. Jack claims if his mind wasn't on this problem, the New York City team would have beaten the Chicago team on the "Quiz of Two Cities" program on WOR, featuring Juke Box questions . . . Jack Semel is on his way to the West Coast. Having sold all his coin machine interests here, and completely recovered from an attack of the flu, Jack wants to look into those stories he's been hearing about California prosperity.

We don't know the reason — but Jersey's coinmen flock to the Chanticler in Milburn, N. J. for their week-end dinners. Seen at this Jersey eaterie last Sunday eve, were: Mr. and Mrs. Barney Sugerman; Mr. and Mrs. Abe Green; Mr. and Mrs. Dave Stern; Mr. and Mrs. George Ponser; Mr. and Mrs. B. Russoff; and Mr. and Mrs. Bill Gersh . . . Nat Cohn, Modern Music Sales Corp., in Detroit once again. Earl Winters, the other half, thinks they should buy stock in the airplane company . . . Mr. and Mrs. J. A. Distel, manager of Tri-State Music Co., Portsmouth, O., in town on a vacation. Distel and the Mrs. take in about four or five shows in their short stay.

Buddy Eisen of Joe Eisen & Sons, reports local ops flooding their offices to place orders for "Red Ball," Hirsh Coin Machine Co.'s game which was licensed here last week . . . Saul Morris, Sit Rock

Music Co., Bridgeport, Conn. in town . . . Hy Singer and Murry Farber, Runyon Sales Co. of Buffalo, N. Y., showing the new AMI phono on Sept. 9 and 10 . . . Fred C. Collins, Sonora Radio & Television Co., seeking the music ops here . . . Charlie Bernoff, Regal Music Co., away on a vacation to Totem Lodge, N. Y. Ben Linn runs the biz, having just returned from a vacation himself . . . Joe Nizi, Noonan Amusement Co., away in Florida on biz, keeps his eye on conditions here, as he might have to return in a hurry to welcome a new addition any minute.

Coinmen offering condolences to Max Weiss, well known op, whose mother passed away this week . . . Mac Colin and Joe Friedman, Silver Lining Distributing Co., seen on coinrow . . . Al Bloom, Speedway Products Co., rushes thru a lunch so that he can get back to his shop, where piles of music machines are being put thru a renovation treatment . . . Jack Fitzgibbons spending considerable time with carpenters, painters, et al, getting his 47th St. offices ready for a big future . . . Jules Meyers, Seacoast Distributors (Rock-Ola distribs) making a big hit with operators . . . Max Iskowitz, Maxwell Music Co., back from a vacation in the Catskill Mountains, and rarin' to go . . . Harold Kravitz, in the office of Al Denver's Lincoln Music Co., celebrating the arrival of a new daughter . . . Ivan Ballin, Twentieth Century Record Co., Philadelphia, in city at least twice a week . . . You'll be getting an invitation from Mike Munves any day now to visit his completely renovated offices.

We hear that Charlie Lichtman is the newly appointed distributor for Musicraft records . . . Dave Rosen of Philadelphia would like to hear from us. Everything is OK Dave. Just a little busy . . . We understand everything is now OK with Bill Alberg and Charley Aronson of Brooklyn Amusement Machine Co., Brooklyn, N. Y., their little inconvenience with the express company now over . . . Bob Hazelton, Harlem music op, considered an expert in selecting the money-making records . . . Dave Lowy's dad looks younger and healthier than Dave. He's an operator from the old days.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

From all indications it looks as though most of the ops and all of the distribs are planning to attend the coming convention in Chicago come next February. Perhaps a word to the wise might be in order at this time, and that is to arrange hotel accommodations plenty early. 'Tis said sleeping in a Chicago park in February is not too comfortable.

Bill Wolf is wearing that happy carefree look again, business is improving daily and above all he is expecting a very large shipment of new A.M.I. phonos by air. Bill has just purchased a very large and attractive home in the very exclusive Hancock Park and is very busy shopping for furniture and getting the place ready for occupancy. Al Sliberman has just purchased a new home in Santa Monica and is also furniture hunting.

Jack Gutshall went off on a three-day fishing trip over Labor Day and was due back the following Tuesday, but his office has yet to hear from him. It's hard to get back to work after a holiday. Jack Allison is keeping things going until Gutshall returns . . . Paul and Mrs. Laymon recently celebrated their 29th wedding anniversary with a big party, to which a huge basket of flowers arrived from Bill Gersh from New York. Paul says that he is ready to start making deliveries of the new Bally "Draw Bell" console shortly and asks ops to get their orders in early for early delivery.

Len Micon of the Pacific Coast Distributors has been receiving small but steady shipments of the new H. C. Evans 1946 "Bangtails." Len is quite a golfer and will join in a match play this week with Bill Wolf and Aubrey Stemler . . . Bill Happel of Badger Sales tells us that he expects to be able to move into his new building within the next six weeks barring unforeseen delays. Bills has just employed Walter Holcroft, formerly with Wurlitzer, who will be in Bill's phono department. Happel has just received a sample of the new 3 way Keeney and has it on display in his showrooms. Bill claims he could sell a million if he had them.

Art Sternall of La Mesa in town and looking around . . . Mr. and Mrs. Charles Bonney of Flagstaff, Arizona, in town for Labor Day . . . R. G. Bowser of Casa Grande, Arizona, enjoying the sights along coin row . . . Ivan Wilcox of Visalia and Leo Vaughn of Barstow shopping along coin row . . . Nick Carter of Nickabob Sales has taken a real vacation. He left town a week before Labor Day and is due back a week after, Nick is avoiding the holiday crowds.

Fred C. Reilly, well known coin op and a member of the board of directors of the Associated Operators of Los Angeles County is the owner and builder of the new building now being erected at 2844 W. Pico to house the Gold Coast Coin Machine Exchange and the new location of the A.O.L.A.C. Fred has had a lot of bad luck with lack of materials and according to all reports the place should be finished within the next thirty days.

Bill Leuenhagen distributing the Rhapsody line in Los Angeles tells us that the operators are really going for this platter in a big way and that he has to keep on the jump to keep up with the demand . . . Nels Nelson has been taking many orders for

the new Automatic Bowling game "Strikes and Spares." Ed. Johnson of Grow Gear, whose firm is manufacturing the game, has just completed arrangements for its mass production on the west coast and promises immediate delivery on any orders taken. Ed tells us that reports from test locations indicate terrific returns from this game.

Ray Powers of E. T. Mape Music Company is off on his vacation and is not due back for another two weeks. The firm opened their new offices and showrooms in Stockton . . . Bud Parr of Solotone plans another trip around the country shortly to call on the many distribs he has appointed for the firm's music boxes. Bud reports a terrific demand for these boxes from all over the country which is keeping their plant going night and day . . . Elky Ray of the Gold Coast Machine Exchange is beaming with pride having just become a new poppa. It's a girl. Ray has been busily passing out cigars

Ben Ellison of Hollywood International Records has been in production on a number of new recordings which, according to Ben, are terrific and which he plans on releasing to the trade very soon. Ben has some big plans in the offing and will make a series of announcements soon . . . Fred Myers of K & M Distributors, now managing the firm's offices in Dallas, writes that the demand for their platters in the State of Texas is nothing short of phenomenal. Fred plans on returning to Los Angeles soon, at which time Len Kelly will take to the open road. The boys expect to open offices in Omaha soon.

Dan Jackson and Sam Donin of Automatic Games are all set to do business in their new show rooms and offices. The boys had quite a time getting their place finished with one delay after another but are all set to go now. The firm is distributing the new Pace bells and many other new and used games and consoles . . . Aubrey Stemler and Skeets Gallagher, just back after a short vacation over Labor Day, are displaying the new Bally "Draw Bell" console and are taking many orders for early delivery. Aubrey says he expects a number of the new machines in his showrooms very shortly.

Lou Chudd and Max Frietag of the Holiday Distributing Company are examples of two boys with plenty of intestinal fortitude and go. The pair started their own record and distributing firm handling Latin American and folk dance platters under the label of Discos Imperiales and Gold Seal records. Their capital was small but their ambition was big. This was not too long ago, and today they bid fair to becoming one of the leading record manufacturers in this city.

Dick Elwell of Bel-Tone records is in the eastern part of the country calling on distribs and plugging the firm's new line of children's albums . . . Howard Krause of Enterprise Records is taking a long trip around the country appointing distributors for the line. Krause plans on being out about two months . . . Otis Rene of Excelsior Records has just completed recording a number of new hit tunes and should be ready to send them out to the trade shortly . . . Lyle Griffin of Atomic Records is due back this week after three months out of the city

THRU THE COIN CHUTE

MINNEAPOLIS

Lloyd Carlon of Sioux Falls (S. D.), who sold out his route when he entered the Army three and a half years ago, is home again and back operating once more . . . Dave Meyers, also of Sioux Falls, took enough time off recently to make a trip to the Twin Cities and spend a pair of days visiting with the distribs . . . Home from the wars is Paul Iverson, formerly with LaBeau Novelty Co. He's back on the job again, after a short sojourn of fishing and relaxing up in the north country.

Bob McCardle has sold out his entire route to G. L. Olson, this city. Free of cointrade cares, Bob has taken his family to Los Angeles, where he intends to make his home . . . In again out again is Lou Granite. Lou operated at Chippewa Falls (Wis.), then sold out to open a route at Rocky Ford (Colo.). Well, Lou is back after trying for a year and half to find living quarters for his family there. He hasn't definitely made up his mind yet, but it looks as if he's going to operate again.

Spending a pleasant time at fishing is recently returned marine veteran Bob Addington. Bob is spending a few weeks at Lake Mille Lacs before returning home to Bismark (N. D.) . . . Eddie Claven, who owned the Corner Tavern at Alexandria, sold the bistro, and is devoting his full time and attention to his route . . . Martin Kallsen, Worthington (Minn.) op, in town with a new '46 station wagon . . . Herman Paster is having priority trouble in completing his new building . . . Home again is Ted Bush, Bush Distributing Co., after a business-pleasure trek to New York . . . More travel notes: Hy Greenstein, Hy-G Amusement Co., is off for Chicago on business.

Wisconsin visitors are Harold Lieberman of the Acme Novelty Co., who is visiting with the ops and Ray Selma, ace man at LaBeau's. Ray is making a routine check on behalf of Rock-Ola equipment . . . Allen Greenstein is trekking thru North Dakota for Hy-G. Martin Hagness, well known op in Grand Forks (N. D.), and, incidentally, one of the largest growers of potatoes in that part of the country, is having potato trouble. No further explanation than that. Just "potato trouble." . . . Walter Witt, Minneapolis, joined the horde of coinmen who passed the Labor Day holidays at fishing in the north country.

I. F. LaFleur, Jr., of Devil's Lake (N. D.) is reported doing a swell job while I. F., Sr., and Mrs. LaFleur are vacationing . . . Mr. and Mrs. F. E. Donaldson of Tauton (Minn.) were in town for a few days visiting and buying equipment . . . Johnny Zalinko was seen here buying a Three Suns album for his girl friend . . . Ernie Klicker of Park Rapids, in town for a few days, sent out an invite to all his friends to come up and fish with him . . . E. & B. Corp., Minneapolis distribs and disc cutters for the Atomic Records label in the Northwest, have entered the operating biz and are reported doing well with phonos and pin tables.

ST. LOUIS

An unexpected setback came the way of the coin machine trade last week when a cloudburst hit St. Louis at 4 o'clock Sunday afternoon. Hurricane winds and better than 3.2 inches of water damaged many phonograph locations, completely ruining three phonographs in South St. Louis taverns, and shorting out dozens of pin games and phonos here and there. Mechanics enjoying a peaceful Labor Day were hustled into coveralls to repair the equipment. Half of the city was without electrical current for four hours.

Ops seen shopping over the week were Joe Nissbaum and his son, Joe Jr., who is breaking in on the routes in St. Louis . . . Joe Morris of J. S. Morris Novelty Company likewise training one of his sons in the art of successful operation . . . Ferry Elder from Christopher, Illinois, dropped into several distributor showrooms . . . Renewing old acquaintanceships was Blackie Williams of Enfield, Illinois, who latched on to several machines during the week.

Andy Anderson enjoyed a Labor Day trip visiting

relatives down South. Less fortunate was Bill Anderson (no relation) who cracked up a brand new automobile when a wooden bridge collapsed down on the Arkansas border . . . New phonographs went out this week to C. E. Votter of Moberly, Mo., and to Bob Fisher, of St. Charles, Mo., Elmer Rainey of St. Louis, who runs the Ace Novelty Company and to Victory Amusement Company of Collinsville, Illinois. Brad Huttig got the first.

More condolences are going the way of Hudson — Houser Music Company, in Centralia, Illinois, following the tragic electrocution of C. E. Hudson, head of the firm during the torrential thunderstorms two weeks ago. The coin machine industry has lost an important cog in Mr. Hudson, who was gathering the largest central Illinois phonograph string by leaps and bounds.

W. B. Novelty Company has announced a special repair and maintenance school on Seeburg phonographs and products, open to all mechanics and operators. Coming closely on the heels of the Packard School staged by Ben Axelrod over at Olive Novelty Company, this gives St. Louis ops and their shopmen plenty of education opportunities during the autumn season. The Olive school, incidentally, went over so well that the company was taxed to make room for its students.

Ed Randolph, major domo at Ideal Novelty, is sporting his new Studebaker four door sedan. It took some sleight of hand and much "other" artistry to make the deal, Ed reports. Anyhow, he says the car is big enough to live in, which is something in these days of crowded housing . . . Business is picking up in every branch of the business, state various operators—no doubt due to the closing of ball parks and amusement parks which has diverted thousands of bottles of beer back into taverns. Almost every op reported a better take as September begins, while distributors are once again fighting off eager customers.

PITTSBURGH

Sam Strahl, American Coin-A-Matic must be breaking records in their quick turnover of new machines. They are handling new merchandise in rapid quantity transactions . . . Joe McGlenn of McGlenn Dist. Co., hasn't forsaken the coin machine biz. But when last seen, Joe was deeply engrossed in a jumping horse schedule. Joe's Champion Jumper, "Stormy Weather Lass," has not shown her prowess since 1942, when she cleaned up hereabouts, and Joe has been having her readied for coming events the past four weeks . . . Ben Long, Mulligan Dist. Co., says he is getting new Aireons in for ops who are bubbling over with anxiety . . . B. D. Lazar, B. D. Lazar Co. (Rock-Ola distribs) is having his building's face lifted, which sort of bears out B. D.'s statements that Biz has been on the upgrade, since the last wintry winds blew up and down coin row.

Harry Rosenthal of Banner Specialty Co. reports that the Packard Hideaway will be on the floor and a school will be conducted Sept. 10 and 11, for ops and interested others. In conjunction with the instruction periods, there will be a complete display of Packard Pla-Mor Hideaway accessories and auxiliary equipment. Plus a full dress showing of adaptors for all makes of phonographs . . . Jack Beaver, Tri-State Autocoin Co., is back after a week spent scouring the hills in Penna. Jack wasn't looking for merchandise either. He reports a brisk pick-up in repairs and servicing, which he interprets as a forerunner of better things to come.

Howdy Levine, manager at Mechanics Service, reports a business pickup, which he says reflects that the dull corner has been turned . . . Lou Popkins of Pittsburgh Coin Machine Exchange is back after a trip to Chicago; he has purchased a host of new games. Lou is another who believes that things have taken a turn in the direction of the ops and the coming fall will turn out to be their best season in years . . . Eddie Steele changed locations a few days ago. We now find him at Coin Machine Dist. Co., and, when contacted, jovial Eddie was greeting old and new customers. He is the General Manager. Coinrow wishes Eddie happy days with Coin Machine Distributing Co.

What's the first thing every customer sees here?

ATTRACTION

IS A BIG SOLOTONE ASSET

5c

10c

THE SOLOTONE Individual Music System is the *soudest* merchandising plan in automatic music. That's why it multiplies profits for operators. The reason for Solotone's greatly increased earning power is because Solotone boxes create the *urge to buy* among customers.

There's a Solotone box in every booth and along the counter. Every customer sees Solotone — it's the **BIG ATTRACTION** wherever the customer may sit. This is sound merchandising that pays off in greater take. It's exactly the same kind of merchandising that has made the 5-and-10 so successful.

Solotone has real eye-catching beauty that customers cannot help but see — and *buy*. The little die cast case has a brilliant chrome finish, set off by contrasting colors in the speaker grille and box panels. Solotone boxes invite more use and the tone quality brings 'em back for more. Phone or write now for the complete Solotone story.
