Taking The Crunch Out Of Christmas

Looks like there will be glad tidings for the record industry this holiday season. Ironically, while sales and profits are at an all-time high, it appears the only problem may be that business will be so good, demand will again outdistance supply.

Fortunately, indications are that the industry has learned from the mistakes of 1977 which resulted in a near-critical year-end record pressing crunch. Instead of waiting until the last minute, manufacturers wisely have been pressing catalog product, along with periodic new releases, during the traditionally slow summer months in an attempt to prevent another crunch this season.

Dealers, too, are taking a more studied approach

as the labels introduce their fall incentive programs. As one label's sales rep put it, "We have started our discount program, but the orders we are getting are very realistic. People aren't going overboard like they did last year."

It is probably safe to say extenuating circumstances like those which contributed heavily to last year's LP shortage (the deaths of Elvis Presley, Bing Crosby and members of Lynyrd Skynyrd, for instance) will most likely not be repeated this year. Still, it is reassuring to see that the industry, by examining its own recent past, is better prepared to take advantage of what is shaping up to be the most profitable holiday season ever.

THERE'S A HOT ALBUM IN THE CITY

It's called "City Nights." And it's got the song that made the summer sizzle, "Hot Child in the City." Plus more. Lots more. Nick Gilder has taken the hard driving, hard living, hard-core stories of the city and turned them into the kind of music you're going to remember. Good times, energetic, night-out-on-the-town music. "City Nights." It's a night you won't forget.

Nick Gilder begins his nationwide fall tour on September 3 in Indianapolis.

by Peter Hartz

LOS ANGELES — "I found a life for myself," says Mel Posner, vice chairman of Elektra/Asylum Records, describing his accidental and modest beginnings in the music business 20 years ago working for

Jac Holzman and the embryonic Elektra label. In addition to finding a life, Posner found a company. Today, at 42, Posner is a quintessential record man, who oversees the day-to-day functions of a sophisticated multi-million dollar company which prides

Steckler, Arden Found New Mgmt. Concern

NEW YORK — Richard Steckler has formed a new management company with Don Arden, president of Jet Records, called British-American Management Company. The firm currently represents Heatwave and Les McCann and is negotiating with several Jet acts about switching their management affiliation to the new company from Jet.

Steckler will be the president of British-American, while Arden assumes the position of chairman of the board. The company will have a staff of five when it is officially launched.

"Because of our relationship with Don, we'll not only have offices in Los Angeles, but in London and New York as well," Steckler said. "Using Heatwave as an example of a predominantly American group that lives in England, it's a great advantage for a company such as ours to be able to operate out of both countries. Our setup will enable us to service our artists wherever they're at."

He said that, should the company sign any Jet artists, "we certainly won't commission the income they derive from their record royalties."

The firm will be located at 2049 Century Park East, Los Angeles, California 90067, telephone (213) 553-6801.

Posner recently took the time to reflect upon his years in the business and the developments he has witnessed.

"I receive scores of letters each week from people who want to get into the music business. I tell them about dues paying and the sacrifice it takes to learn your craft."

Necessity Turns To Love

For Posner, the necessity of a job turned into a love of the music business. Beginning in 1958 as a jack-of-all-trades earning \$55 a week, Posner has worked in many facets of the business from artist development to

Pickwick Shooting For \$1 Billion By 1983; Retail Store Openings Will Be Accelerated

by Ken Terry

GREAT GORGE, NEW JERSEY — Pickwick International expects to have sales in excess of \$500 million this year and is aiming for annual volume of \$1 billion by 1983. These estimates were announced by Pickwick International President C. Charles Smith before approximately 1,200 company employees and guests at Pickwick's annual convention at the Playboy Resort and Country Club here last week.

The four-day conference, which took place Aug. 27-31, was the first Pickwick convention at which all six of the company's divisions were represented under one roof. At last year's separate conventions for the retailing division and the rack sales division, personnel from other parts of the company were present as observers. This year, however, Pickwick Records, Keel Manufacturing and Disc Printing, the Distribution Division and Pickwick Great Britain all participated in the convention.

Explaining this new arrangement, Smith said, "We were convinced that there was a great deal to be gained if all divisions of the company joined together to feel the oneness that could flow from such a joint meeting."

Conversations with convention delegates indicated that the spirit of the convention, symbolized by the slogan "Charge Together," was indeed one of unity. There was apparently no feeling of rivalry between the rack jobbers and the retail store managers. And, while some jousting was in evidence between managers of Discount Records outlets and those from Musicland stores, several participants remarked that the dissension had declined considerably since last year.

In contrast to the situation at the 1977 retailing conference, all store managers wore name tags that merely identified them as Pickwick Retailing Division employees, rather than as Discount Records or

Labels Step Into Christmas With Fall Discount Programs

by Randy Lewis

LOS ANGELES — Several manufacturers have initiated fall/Christmas sales programs involving discounts and extended dating to their accounts, thus signalling the beginning of the year-end holiday season.

Those labels which have already started their restocking plans include Polygram, RCA, Capitol, A&M, ABC, Chrysalis and Arista. Most of the programs involve discounts of anywhere from five to 10 percent (given either in discounts from invoice of free goods) and extended or split dating under which payments can be made as much as 120 days after orders are placed.

CBS, WEA, MCA, Motown and Fantasy have not announced any year-end programs yet, although executives at some labels said they plan to but hadn't worked out their programs yet.

Most manufacturers have placed no restrictions on ordering procedure, with the exception of Polygram Inc. Polygram's program requires that a dealer purchase a lump quantity from each Polygram-distributed label equivalent to 15 percent of the amount billed to the account during the first six months of the year.

In other words, if an account had billed \$1 million in RSO product during the first six months of 1978, an RSO order of \$150,000 would be necessary for the account to take advantage of Polygram's discount and dating. Accounts were also required to

place a first order by Aug. 31 to qualify for a second order in October.

Once the prerequisites are met, Polygram offers a discount of 10 percent and gives dating of 60 days after the order is placed. This applies to the first order as well as those placed in October. The program features the entire Polygram catalog.

RCA's "Superstar Sellathon" fall restocking program offers discounts on 300 albums described as "the cream of the catalog." These 300 albums and their tape counterparts are subject to an eight percent discount granted in the form of eight free albums for each 100 ordered.

The ordering period began Sept. 5 and runs through the end of the month. Accounts are given an additional 60 days on top of the label's usual 60 days billing. Salsoul albums will also be available in the fall restocking program. The discount for Salsoul is offered as "buy 11 — pay for 10." Titles include "Samba Soul," "Disco Boogie," "Double Exposure," "Salsoul's Greatest Hits" and "Rockets."

Because RCA offered special prices on the Elvis Presley catalog in August, Presley product is not included in this program.

Capitol Records' program, which began Aug. 28 and runs through Sept. 29, involves split dating, in which half the payment is due in mid-December, the other half in January. Capitol gives a five percent discount which is taken off invoice.

The "ABC Fall Catalog Program" began

Musicland personnel. On the other hand, representatives of the recently-absorbed Sam Goody chain were identified as Goody employees.

Biggest Record Company

Smith noted that the Goody acquisition would bring in about \$40 million of added volume to Pickwick by the end of 1978. With this help, he said, Pickwick would "probably" hit the \$500 million mark this year, two years ahead of schedule. Smith added that, if his projection comes true, "You will have become the first record company to have achieved a half billion dollars of volume in the United States. In the process, you have charged past both CBS and Warner to become the largest com-

pany in this country in record sales.

"That is not to say that size in itself is the outstanding criterion for success, but size is unquestionably a consequence of a successful operation, and your size is an indicator to the world that you are the best in our business."

Smith predicted that the retailing division, which presently encompasses approximately 370 stores, would double in size by 1983 to somewhere between 700 and 900 units. At last year's retailing convention, in contrast, the company announced that it planned to own 600 stores by 1982. In order to accomplish Pickwick's new goals, Smith said, the pace of retail

Labels, Plants Gearing For Year-End Pressing Crunch

by Jeff Crossan

LOS ANGELES — To avoid the logjam which last year overloaded pressing plants during the year-end holidays, record labels are attempting to get a head start on production this year in preparation for the peak sales season.

A survey of label production executives and pressing plant officials has revealed that the recording industry is anticipating a pressing crunch similar to last year's, despite the fact that the deaths of Elvis Presley and Bing Crosby, which glutted plants with orders for catalog pressings, were cited as the primary reasons for the shortage of LPs during the fourth quarter last year.

Some production execs believe that if there is an LP shortage during the upcoming holiday season it will be because the growth of new pressing facilities has not kept pace with ever-increasing record sales. Within the past year, RCA shut down two major pressing plants and Capitol closed another.

Busy Summer

The majority of pressing plants surveyed report that the traditionally slow summer months were busy this year as most labels attempted to press ahead on their catalog items. During last year's logjam, many labels had to curtail production of catalog items to press new releases when the CBS record pressing division was forced to allocate pressing capacity on a percentage-of-previous business basis.

Plant executives also report many facilities are working six days a week, instead of the usual five, at extended hours.

And a number of labels report they are currently employing more pressing plants than they did during the holiday season last year.

At Elektra/Asylum Records, Mel Posner, vice chairman, said the label has doubled the number of plants it is using, from three last year to six this year.

"Hopefully the extra plants will take us through the fall," says Posner. "We pressed ahead on our catalog more this year than we ever have in the past. The record industry is getting into multi-

Com. Act Rewrite Roundly Criticized At L.A. Hearings

LOS ANGELES — The proposed rewrite of the Communications Act of 1934 was roundly denounced by almost all of the more than 30 witnesses testifying Aug. 25 at a seven-hour hearing at the UCLA Law Center. Representative Henry Waxman, a member of the House subcommittee on communications, attended the hearing and added his voice to those condemning the proposed rewrite for repealing the public interest standard.

Waxman's criticism of the bill, HR 13015, was mild compared to most of the witnesses. Chester Migden, national executive secretary of the Screen Actors Guild, called it "The Communications Abdication Act of 1978." None of the witnesses wholeheartedly endorsed the bill and the general consensus of the hearing was that the bill should be returned to the drawing board.

Among the most frequently repeated themes of the rewrite's critics were that the deregulation of the broadcast industry was not in the public interest and that with the elimination of stations' requirement to ascertain community needs the number of public interest programs would seriously decline. The bill calls for station licenses to be issued in perpetuity and limits the basis for challenging and revoking licenses.

platinum now and that takes up a lot of the pressing capacity."

Jean Schutz, production manager at Kaiser-Century's K-Disc pressing plant in Saugus, Ca., echoes Posner's sentiments.

"'Grease' and 'Saturday Night Fever' sold so many more records than normal that the industry is ordering earlier this year," he says. "While they were releasing their big records in late September last year, they are releasing them in early September this year to pick up the extra volume."

K-Disc is currently pressing six days a week and is three weeks ahead of last year, Schutz says.

May Hit Harder

At the Monarch Records plant in Los Angeles, Bob Barone, vice president and general manager, says he's expecting to have to keep the machinery running around the clock, seven days a week this year despite the fact that the company will soon be opening a second facility. The crunch might even hit harder this year, Barone believes.

"We extended hours last year," he says, "and I think we'll have to do that again this year. At the moment I see no indication that it's going to be any different. As a matter of fact, it might even be worse. I think a lot of people are planning on even bigger releases this year."

Monarch pressed at capacity during June, July and August, which in previous years were the slowest months for the plant, according to Barone, who says he expects to keep the pace up through September

Richard Perry's Planet Label Pacts With E/A For Distrib.

LOS ANGELES — Producer Richard Perry has signed with Elektra/Asylum for the distribution of his newly-formed label, Planet Records. Planet is the first custom label to affiliate with Elektra/Asylum.

"Planet is going to be the Tiffany of labels," said Perry at the signing. "I have always dreamed of building a creative family within the framework of my own label, which would reflect my taste and energy, and create optimum conditions for the artist. I am very proud to be associated with Elektra/Asylum, which has always stood for the very highest artistic quality."

Elektra/Asylum chairman Joe Smith was also enthusiastic about the signing.

Witnesses Testify In Odyssey Probe

LOS ANGELES — A federal grand jury in San Francisco will begin interviewing witnesses this week as part of its investigation of the 31-store Odyssey Records chain.

An estimated 15 to 20 witnesses will be called before the Grand Jury and offer testimony on a variety of charges stemming from a six-month probe of Odyssey by the FBI.

The proceedings come less than a month after a search of Odyssey's Capitola warehouse by the FBI investigators and Santa Cruz police in which numerous company files were confiscated.

Testimony will continue to be heard through September and into October, after which the Grand Jury will determine whether the evidence presented warrants the issuing of indictments.

Daryl Hall and John Oates have paralleled the growth of music from the emerging early age of rock and roll, to the point where now, they are among the innovators and leaders in a genre that continually strives for change and growth. To lead such a race is at the same time frantic and exciting, not to mention, precarious.

Daryl Hall and John Oates are today's people. In the last two years, they have earned two gold singles for "Rich Girl," and "Sara Smile," and four gold albums. Their three RCA Records, "Daryl Hall & John Oates," "Bigger Than Both Of Us," and "Beauty On A Back Street" are RIAA gold, gold and gold respectively. The breadth of their success has even reached back into their past and made one of their early albums, "Abandoned Luchonette," a gold record too.

Daryl & John were also named Best New Group on the Rocky Awards Show.

The duo's new album "Along The Red Ledge" recently was released by RCA and is currently number 138 bullet on the **Cash Box** Top 100 albums chart. The new single "It's A Laugh" has debuted at number 61 bullet on the Top 100 singles chart.

New Faces To Watch

Lynda Carter

"I see no conflict in combining music and acting careers," said Lynda Carter, whose angelic alto voice is featured on "Portrait," her Epic Records debut. "Years ago, Ginger Rogers sang, acted, and danced. Doris Day did that too. And look at John Travolta! He's the perfect example of a contemporary performer that's doing it all — albums, movies and a television series. Now it's time for a contemporary woman to do the same."

Carter, who plays the title role in the television series "Wonder Woman," is already branching out into other areas of show business. At age 25, the former Miss World U.S.A. wants it all — to excel as an actress, a recording star, a nightclub performer and a songwriter. She took her first step in that direction during July when she made her Las Vegas nightclub debut at Caesars Palace.

"'Wonder Woman' has been really good to me," she explained as she prepared to tape an episode of the program's fall series. "Because of the visibility the show has given me, I'm able to sing as honestly as I can without having to worry about impressing someone. As restricted as the character or the show might seem, it's really given me the opportunity to get into something I love dearly."

Carter began singing professionally at age 15, when she worked weekends at a pizza hangout in Tempe, Arizona. After high school, she sang and toured the country with two different groups for three years. "It was a lot of hard work," she recalled. "Six days a week, four sets a night. It was just paying dues. I liked it for a while, but then I stopped liking it and tabled music. I just didn't want to make my living singing in bars anymore."

That was in 1970. Two years later, away from music, Carter won the Miss U.S.A. contest; she later went on to become Miss World U.S.A. While in England for the latter contest, she cut three singles for EMI, one of which was called "It Might As Well Stay Monday." "The response was good, and it was a positive experience, but I didn't really care for the country," she said.

Carter came back to the States to make the pilot for "Wonder Woman," then the series. Now she has come back to music, encouraged by her husband and manager, Ron Samuels.

"Ron is the one who got me back into singing," she admitted. "He heard a tape of my voice and thought I was crazy for not doing it. But I'm sure glad I did, because I had forgotten what a turn-on singing is and how incredible it can make you feel."

Around the time they got married, Samuels arranged for Carter to co-host five segments of "The Mike Douglas Show" so that she could present herself as a singer. "Ron's creative instincts are really something. Both the Caesars Palace booking and the record deal blossomed on account of those appearances.

"The album gave me the chance to sing as straightforwardly and as honestly as I can," Carter said. "I discovered a lot about myself during the sessions. It was such a personal and fulfilling experience that all my troubles seemed to dissipate as soon as I started singing."

Bob McGilpin

"The last few weeks have been a total learning experience," says Bob McGilpin whose debut album, "Superstar," is receiving a concerted push from Butterfly Records. "I never realized how the system worked."

McGilpin is learning fast. He moved to L.A. two years ago from Lincoln, Nebraska with a band called Straight. Typical of many young musicians' fortunes, the band ran aground after wide-eyed expectations.

"I guess we were all a little naive coming from Lincoln," says McGilpin. "I had been working in a grocery store during the day and playing with the band at night. We came to L.A. to make it but then after several months of being low on money, we had no choice but to break up. Everybody else pretty much drifted back to Lincoln but my wife and I stayed in L.A. because if you want to be in the music business, this is the place to be."

As a result of the work with Straight, McGilpin met independent producer Norman Ratner who encouraged him to continue writing songs. While he worked at the Broadway Wilshire department store as an assistant stock manager, McGilpin worked steadily to perfect his craft, writing many of the vibrant, rock/disco songs which appear on the new album. When he showed Ratner the material, Ratner offered to finance demo production. During the initial run around town with the tape, Motown expressed interest and held the tape for six months. But the break did not come.

"It was a big disappointment when Motown passed," says McGilpin. "My wife Janie and I felt a big letdown. But Norman refused to give up and got our mood back up."

McGilpin went back into the studio and cut several more songs with the encouragement of Ratner who counseled "write a smash this weekend and we'll record it on Friday."

With the resulting tape, Ratner approached Butterfly and received an immediate strong response. After McGilpin met with A.J. Cervantes, label president, and the bond was strengthened, McGilpin signed for a million dollar, multi-album deal. The "Superstar" album, produced by Ratner, has received a concentrated Butterfly campaign, kicked off by special promotional packages which included a cassette, album and selected comments by McGilpin about each cut. After a massive mailing, McGilpin toured 16 cities to visit key radio and retail people.

"Some people thought the name of the album was pretentious but it created curiosity and was an effective way to get people to remember my name," says McGilpin. "Because of the support from Butterfly, I had some credibility instead of being Bob who?"

A mime artist was also hired for promotional visits, acting out three songs from the album. Preparing his stage act, McGilpin is currently studying with a magician to learn how to pull a rabbit from his hat, levitate his guitar and learn how to disappear. Not from the music scene though.

"Now I have the opportunity to go out and either stand tall or fall flat. I feel that I'm ready."

Producers Series:

Galuten/Richardson Aim For Records That Communicate

by Charles Palkert

NEW YORK — It's been their year. The production team of Alby Galuten and Karl Richardson have amassed, so far, a total of seven number one singles and over 30 weeks of chart domination during 1978. The record industry hasn't seen anything like it since George Martin scored a string of four Beatle hits in six months in 1964.

Galuten and Richardson's rash of number one singles includes "Grease" by Frankie Valli, "Shadow Dancing" by Andy Gibb, "How Deep Is Your Love" by the Bee Gees; "Love Is Thicker Than Water" by Andy Gibb, "Emotion" by Samantha Sang, and "Stayin' Alive" and "Night Fever" by the Bee Gees.

The co-producers reached their present renown by very different paths. Galuten grew up in Westchester County outside of New York City, and developed an affection for R&B music, which he listened to constantly on New York radio stations. Pursuing his R&B heroes, and hoping to make some money as a session musician, he went down to Memphis before he turned 20, where he played piano and organ for several of Stax sessions. He then spent a year and a half at the Berkeley College of Music in Boston before returning to Memphis.

R&B Exodus

From Memphis, Galuten followed the R&B exodus to Miami and picked up work as a sideman on sessions with Aretha Franklin and Eric Clapton. He also struck up friendships with noted producers Jerry Wexler and Tommy Dowd, which led to a job at Criteria Studios and an association with Karl Richardson.

Richardson, a native of Miami, was always an electronics hobbyist. A ham radio operator as a child, he began studying for an engineering degree at Miami's Dade College, and then became a disc jockey for radio station WEDR. He also began doing P.A. mixes for local clubs, which, he said, "naturally led to the studio." And the studio happened to be Criteria.

While on the engineering staff at Criteria, Richardson worked closely with Arif Mardin, who produced the Bee Gees' "Main Course" album. Richardson engineered the album, and the Bee Gees were so impressed that they asked him to engineer their next LP, "Children of the World." Although the Bee Gees had planned to produce themselves, Richardson related, "we got through one week of recording and

I felt there was an objective ear missing. As artists, sometimes, the Bee Gees weren't looking at the music as objectively as they knew they should be. Alby was in England producing a record, so I called him up and got him back to Miami on the next flight to cut a couple of tracks. The album turned out to be the first album that Alby and I co-produced.

Expertise And Intuition

The two men blend electronic expertise and a sensitive intuition for today's popular music. Galuten has maintained that "engineering is something I have to put up with." His real interest has always been, he said, "trying to be involved with the song from the time it's the germ of an idea to the final mastering on the tape. In other words, the whole concept, and the ability to com-

Allman Bros. Band Re-forms At Picnic

MACON, Ga. — Capricorn's 7th annual picnic and birthday party concluded on a nostalgic, historic note with the surprise reunion of the legendary Allman Brothers Band. Capricorn president Phil Walden introduced "the Allman Brothers Band and friends" to close the afternoon of music and celebration, which had included Delbert McClinton, Stillwater, and MC Martin Mull.

The "jam" session was not completely a surprise as the rumor mill had been grinding out hourly progress reports but, according to one Capricorn spokesman, "nothing was sure until they took the stage." Gregg Allman, Dickey Betts, Jaimoe and Butch Trucks, all original band members, treated the Capricorn family and guests to an emotion-packed hour of ABB classics.

Back To Studio

"This is the first step toward getting the original members back in the studio for a recording session sometime in October," Walden announced. The long hoped for reunion was first discussed at a recent Dickey Betts concert in New York and the Capricorn picnic on August 24 was selected as the site of their first public performance in over four years.

The band's breakup resulted from a dispute between its members over Allman's testimony at the drug trial of a former band employee. However, no animosity appeared to be present onstage, and the rift between the musicians seemed to be bridged by the musical camaraderie.

HAPPY TOGETHER — Dick Kline has been named executive vice president of Polydor Incorporated. Harry Anger has also been promoted to senior president of marketing for the label (Cash Box, September 3). Commenting on the appointment of Kline and the promotion of Anger, Fred Haayen, president of Polydor, said that "These two men guarantee Polydor with the strongest possible management team. I welcome Dick Kline, who is one of the most knowledgeable and respected executives in the industry, and look forward to working with both he and Harry Anger, who has already contributed so much to this company." Bass Promoted At Chrysalis Label

LOS ANGELES — Now taking on added responsibility at Chrysalis Records, Billy Bass has recently been promoted to the post of vice president of promotion and creative services for the label. In his new position, Bass will oversee corporate and artist graphic direction for Chrysalis, including album cover art, trade and consumer advertising layout and press kit packages. Bass will retain his position as vice president of promotion.

"We are extremely pleased that Billy Bass has taken on this additional responsibility," said Sal Licata, senior vice president of Chrysalis. "With Chrysalis expanding its output, it is absolutely necessary to maintain a consistent image in regard to everything we release. Billy Bass is very in tune with what we are trying to achieve graphically, and has been instrumental in directing the graphics we produce for almost a year."

'Sesame Street Fever' Catching On In NYC

NEW YORK — "Sesame Street Fever," a children's record, is apparently garnering the kind of sales that are usually associated with a pop hit. Sesame Street Records, which released the LP, claims to have shipped in excess of a quarter of a million units. A **Cash Box** survey of New York-based retailers indicates that the record is selling well in this area of the country.

Jay Sonin, president of The Record Hunter in New York, described the album as "the top-selling children's record we have." He added that "we have displayed it prominently in our children's department on a step-up, and it's moving nicely."

George Levy, president of Sam Goody, said, "For a children's record, it's selling well. Even for a non-children's record, it's selling well." He added that the record was being displayed in both the children's section and in the pop section and that the record was in the top 100 of sales for the chain.

Steve Stoff, the manager of Disc-O-Mat's midtown store, has maximized the album's sales potential still further. "We're displaying it right next to 'Saturday Night Fever.'" It's a real eye-catching striking album, and we're keeping it up there on the shelves, where it belongs. Display is important for this album. While certain customers come in asking for it, not that many do. But if they see it, they buy it. At this point the album is outselling "Saturday Night Fever."

'Bat' Wings Platinum

NEW YORK — Epic/Cleveland International recording artist Meat Loaf's "Bat Out Of Hell" LP has been certified platinum by the RIAA.

Zappa Signs P/M Artist, Prod. Pact

LOS ANGELES — Frank Zappa has recently signed artist and production contracts with Phonogram, Inc., and it is anticipated that the first records under each respective agreement will be released in early 1979. The artist agreement, which is for the United States and Canada, will have Zappa albums appearing on the Zappa label marketed and distributed by Phonogram.

The production deal with Zappa Records calls for the firm to produce new artists for worldwide distribution through Phonogram. In the U.S. and Canada, these artists would appear on the Zappa label; for international distribution the artists would appear on the Mercury/Zappa label.

Zappa, who is currently on tour in Europe, will begin an American tour on September 15, which is expected to extend through November.

Orleans, Davis Appointed VPs At ABC Records

LOS ANGELES — Arnie Orleans and Gary Davis have recently been named to vice presidential posts at ABC Records. Orleans joins the label as vice president of sales and merchandising, while Davis has assumed the title of vice president of promotion and artist development. Both will report directly to Steve Diener, ABC Records president.

New Duties

Orleans, formerly vice president of marketing for 20th Century-Fox Records, is now responsible for sales advertising and merchandising at ABC. Prior to his 20th Century post, he served as national sales director of A&M Records, where he was involved in working with independent distribution.

In his new vice president position, Davis will be responsible for pop promotion, special markets promotion, publicity, public relations, artist development and artist relations. He will be involved in the career development of all ABC artists. This will entail contact and coordination with talent management and the ABC A&R department.

Increased Presence

In discussing the appointments of Orleans and Davis, Diener stated that this move is a continuation of the label's intention to increase its presence in the marketplace. "Over the past year," he said, "ABC Records has taken a needed posture of consolidation. The results to date have proven this move to be timely and effective. The change to a more aggressive organizational structure has come more quickly than planned because of the progress the label has shown. Gary Davis has been instrumental in accomplishing this progress. Now the combined talents of Davis and Orleans will enable us to move forward more quickly in their respective areas of responsibility."

Live Tull Album Tops Chrysalis Sept. Release

LOS ANGELES — "Bursting Out," Jethro Tull's first live album, headlines Chrysalis Records' mid-September releases. The new album will be issued prior to an American tour for the band. Also scheduled to be released are "At First Light" by Richard and Linda Thompson, and "Trevor Rabin."

EAST COASTINGS — IS BREAKING UP HARD TO DO? — Easier for some than for others, apparently. Take **Be-Bop Deluxe**, for example. The Capitol recording artists are no longer a unit, but some of its members have formed a new group, tentatively called the **Bill Nelson Band**, which will also record for Capitol. After loads of critical praise but disappointing sales figures, the move was described by one observer close to the affair as "a long time coming" . . . Then there's **Roxy Music**, who are not breaking up, but, it seems, reforming. **Bryan Ferry** and friends **Andy Mackay**, **Phil Manzanera** and **Phil Thompson** are rehearsing and writing together outside London, according to reliable sources. However, no recording or touring plans have been set . . . And, referring back to **Nell Sedaka's** old song, **The Babys** also have apparently gone the way of the \$5.98 album. **Mike Corby** has definitely left

the group due to a "difference of musical opinion."
NAMES IN THE NEWS — Watch for **Andy Gibb** to join the stampede of recording stars into the movies. **Robert Stigwood** is now courting young Andy as the lead for his sequel to "Grease" . . . **Rory Gallagher**, the Irish guitarist, is once again being wooed by **The Rolling Stones**. The Stones, working on a studio album in Los Angeles, are said to be seeking Rory's raw and urgent sound for some tracks . . . **Kansas** members are reported to be seeking houses in Atlanta, indicating an obvious shift of the group's base. Also in Atlanta, Kansas is currently pouring over miles of tape at Axis studios, trying to decide which concert selections over the past two years to include in their upcoming live album . . . Some tunes from **Gato Barbieri's** "Tropico" have been selected by NBC Sports for background music . . . **Steve Baker**, erstwhile Epic publicist, is set to be named assistant to **Jerry Wexler** at Warner Bros. in an A&R staff capacity . . . It's not everyday that **Clive Davis** produces a single, but check out **Michael Stanley's** "Why Should Love Be This Way" . . . **Charlie Carp** was about to depart on the **Dirty Angel's** debut tour when his appendix burst and he had to be rushed to the hospital. The tour has been postponed . . . **Larry Coryell**, produced by **Michael Cuscuna**, finishing up his next Arista album . . . **Alice Cooper's** latest crusade takes him to Dover, Delaware, where he is campaigning for the right of a four-year-old child to keep his eight-foot pet boa constrictor, in defiance of the town's law against "exotic pets." . . . And **Randy Goodrum**, noted songwriter who recently scored with **Michael Johnson's** "Bluer Than Blue," is trying his hand at a singing career with his debut single, "This Feeling Inside."

GARDEN DATES — Upcoming at Madison Square Garden: **ELO** — Sept. 14 and 15; **Nell Young and Crazy Horse** — Sept. 28; **Bob Dylan** — Sept. 29 and 30; **Commodores and The O'Jays** — Oct. 1, 2 and 3; **Jethro Tull and Uriah Heep** — Oct. 8 and 9; and at the Felt Forum on Sept. 23 — **B.B. King, Bobby Bland and Betty Wright** . . . **Paul Winter** will be accompanied by a wolf onstage at the composer's Sept. 9 Carnegie Hall date . . . Promotion of the year — WAAF in Worcester, Mass. gave away 3.3 acres of land for their **Todd Rundgren** "Hermit Of Mink Hollow" contest . . . And down in Miami Beach, **Dan Engel's** disco tune, "Dancin' On The New Miami Beach," has been named the official song of that fair town.

ROCK FLEAS — Those of you recovering from the Beatfest out in Los Angeles, get ready for the East Coast swing of the rolling **Ringo, John, Paul and George** revue in Atlanta's Peachtree Plaza Oct. 28 and 29 . . . In other rock flea market news, "The Original Rock 'N Roll Flea Market, Record Meet and Film Festival" will take place on the weekend of Sept. 16 and 17 at the New York Statler Hilton Hotel.

SAYER SOUNDS OFF — **Leo Sayer** has some interesting projects lined up in England following his recent tour here. Sayer, whose "Leo Sayer" is currently on the charts, will host a series of BBS specials, and has **Roger Daltrey, Dudley Moore, The Four Tops** and **Andrew Gold** lined up as guests. Sayer is also contemplating putting together a live album in England.

WHAT'S YOUR FAVORITE WALTER WAGER STORY? — **Walter Wager** the brilliant author and publicist has left his post as director of public relations for ASCAP as of Sept. 1, but will continue to serve the organization as a consultant. Wager, who wrote the books for such popular movies as "Twilight's Last Gleaming," is well known in the music business for his outrageous stories.

POINTS WEST — **ALLMAN BAND JUST PEACHY** — The reports that several members of the reunited **Allman Brothers Band** walked offstage at the Capricorn Records Picnic when **Gregg Allman** came on apparently are not true. One who was there reports their picnic performance appeared harmonious. The confusion seems to have come from Allman, who walked offstage himself at one point in the set, but only because the organ he was playing was not functioning properly. Roughly 600 people gathered in Macon this year, decidedly more intimate than last year's 2,000 . . . **John Prine**, who has been in L.A. recently to sing overdubs on **Tanya Tucker's** recording of his song "Angel From Montgomery," has been asked by Chicago-based director **Jack Bender** to write the dialogue for a play based on characters of Prine's songs. The only guideline given Prine "is that the play end with Sam Stone, Donald and Lydia and the people from 'Hello In There' all having Thanksgiving dinner together." He was quoted in a lengthy interview in Songwriter magazine. Also, Prine has started work on his next album in Muscle Shoals, Ala.

GIBB GIGS GONE — RSO's **Andy Gibb** had to cancel the final three dates of his current tour because he is suffering from a severe case of laryngitis. Gibb said he was upset at having to cancel the shows and made an effort to finish the tour despite the throat ailment. First, he cut down from two to one show per night, then cut the time of the shows down to 35 minutes at the Detroit show August 25. Finally he decided to eliminate the performances at the Civic Center in St. Paul, Minn., the state fair in DuQuion, Ill., and the Omni in Atlanta, Ga. He has been on tour of the U.S. for almost three months and has now embarked on a period

Pictured at the signing are (l-r): seated **Bruce Lundvall**, president, CBS Records division; **Don Kirshner**, president, Kirshner Records; **Dash**; **Walter Yetnikoff**, president, CBS/Records group; standing **Vernon Slaughter**, director, jazz/progressive marketing, CBS Records; **Don Eason**, director, national promotion, Epic/Portrait/Associated Labels, black music marketing; **Tony Martell**, vice president and general manager, CBS Associated Labels and **Don Dempsey**, senior vice president and general manager, E/P/A Labels.

AYERS TALKS UP NEW ALBUM — **Polydor** recording artist **Roy Ayers** was in New York recently to promote his latest album "You Send Me." Ayers discussed the album and his future plans with **Charles Paikert**, reporter for **Cash Box**, at Polydor's offices on Seventh Avenue. Pictured (l-r) are: Ayers and Paikert.

TWO MORE BOTTLES OF WINE — After the first show of her recent sold-out, four-night engagement at the Roxy, Emmylou Harris was joined backstage by a pair of Warner Bros. Records fans. venue in San Francisco and is sponsoring the tour to increase exposure for several of the club's most popular acts, including **The Weldos**, **Lella and the Snakes**, **The Dils** and **Crime**, among others.

STARLIGHT SHOWS TARNISHED — The Starlight Amphitheatre has joined the list of Los Angeles area venues offering top-flight summer concerts, including **Bob Marley**, **Jean-Luc Ponty** and the **Marshall Tucker Band** already this season. Unfortunately, **CB** staffer **Joey Berlin** reports, the 3,000-seat (6,000 capacity including ground seating) outdoor arena has not yet developed an orderly system of getting people in, often causing waits of an hour or more to get inside. What makes the Starlight's problems really bad is the way they take away from the enjoyment of the fine shows that are put on there. Atlantic's jazz-fusion violinist, **Jean-Luc Ponty**, was one artist whose stirring performance August 13 suffered from the audience's difficulty in getting in to see him. Along with **Ralphie Armstrong's** fiery bass, Ponty soared through an exciting program of material mostly from his new "Cosmic Messenger" album. Capricorn's **Marshall Tucker Band** had the same trouble August 25. But the six-man rock-country-western band put on a fine show anyway, coming back for three encores. But those who arrived early enough found opening act **Jay Boy Adams** and his group to be excellent players in the MTB mold, and their set was enthusiastically received. With all the fine musicians playing the Starlight this season it's a real shame these traffic flow problems continue to hinder the quality of the shows.

SHORT TAKES — The title of the new **Jethro Tull** album is "Bursting Out" . . . **John Denver** has been cited in the congressional record by Sen. John Durkin of New Hampshire in recognition of his TV special "John Denver's Alaska: The American Child," which aired last Sunday on ABC-TV . . . **Charles Fox** will compose the original score for the NBC-TV film "Rainbow," the screen biography of **Judy Garland**, which will be shown this fall. Fox also is musical director of the film . . . The **Amazing Rhythm Aces** go back into the studio in Muscle Shoals Oct. 15 following a tour of the Northwest U.S. . . **Billy Graham** and **Glen Castleberry**, who have backed **Don Bowman** as opening act on the **Willie Nelson** tour, are performing in Saugus, Ca., at the Drifters Clubs on several weekends . . . A tornado touched down last week on **Elvis Presley Blvd.** in Memphis injuring dozens of persons, damaging buildings and overturning cars. The site of the damage was half a mile south of Graceland, the Presley mansion . . . The **Hudson Brothers** new album "The Truth About Us" will be released in time to coincide with the duo's new TV show "Bonkers," debuting in most syndicated markets Sept. 22 . . . **Steve Martin's** new album "Wild And Crazy Guy" is due in September. It will contain "King Tut" . . . E/A Movers: **Warren Zevon** is moving to Santa Barbara, while **Linda Ronstadt** is said to be looking for a place in New York . . . **Bob Welch**, in town last week for concerts at the Universal Amphitheatre, is working on his new album due in January . . . **Elvin Bishop** is at the Automatt in San Francisco working on "Hog Heaven" for Capricorn, scheduled for October release . . . **Steve Goodman** is going on tour with **Steve Martin**.

BENEFITS — On her concert return to Japan, **Olivia Newton-John** will donate the proceeds from the sale of program books to the Japan Marine Science & Technology Center which is developing ways to prevent dolphins from being slaughtered by tuna fishing fleets. Olivia had cancelled the tour in March in protest, but following assurances from the Japanese government that steps were being taken to rectify the situation, she consented to reschedule the tour of 11 cities . . . **Journey** recently played a benefit at Burrell Junior High School in San Mateo, Ca., to help the school raise \$6,000 for new band uniforms. They played this date after completing 178 shows in seven months . . . Guest publishers who visited the ASCAP Songwriters Workshop included **Evan Pace**, general professional manager of Arista Music Publishing Group/Careers Music, and **Irwin Pincus** of April/Blackwood Music, CBS' publishing arm. The publishers not only offered advice to budding composers, but showed interest in publishing several of the songs they heard . . . Atlantic held a midnight reception at Le Dome for **Jay Boy Adams** following his recent appearance at the Starlight Amphitheatre. The 40 people in attendance also helped **Paul Cooper**, Atlantic's national publicity director, celebrate his birthday. The oversized strawberry cake presented to him was as big a surprise to Cooper as anyone else . . . Congratulations out to **Linda Ekstrom** and **Ron Moss**, who were married Aug. 27 in Sherman Oaks, and **Terry Lynne** and **Cubby O'Brien**, the former Mouseketeer who is currently drummer for **the Carpenters**, who made it official Aug. 28 in Calabasas. **randy lewis**

Cleveland Int'l Issues Boyzz LP

LOS ANGELES — Cleveland International Records has recently released the first album by the Boyzz, "Too Wild To Tame," which is the label's second rock album release through its distribution arrangement with CBS Records. The Boyzz' album follows last year's release of "Bat Out Of Hell" by Meat Loaf.

Marketing Strategy

Stan Snyder, vice president of marketing for Cleveland International, discussed his label's marketing approach in breaking acts, and how it applies to its campaign in support of the Boyzz album. "We feel the release of the Boyzz' first album is significant in light of our approach to introducing new music to the marketplace." He added that Cleveland's approach "is to make a personal commitment not only to the people who create the music, but to CBS, to radio, and to the accounts who distribute, play and sell the records. Each one deserves our personal support to the records we deliver to them."

"Musically, we feel that the Boyzz has provided the only appropriate album we could release in keeping with our commitments. We try to make records for radio, and the group has made a great, straight-ahead rock 'n' roll record."

Screen Gems-EMI Scores With Big Hits

NEW YORK — Screen Gems-EMI Music Inc. is enjoying its hottest period since joining EMI two years ago. Their string of chart hits include "Miss You" by the Rolling Stones (Atlantic), "Hot Child In The City" by Nick Gilder (Chrysalis), "You" by Rita Coolidge (A&M), "Reminiscing" by the Little River Band (Capitol), "Don't Look Back" by Boston (Epic), "Surrender" by Cheap Trick (Epic), "Raise A Little Hell" by Trooper (MCA), "New Orleans Ladies" by Louisiana Le Roux (Capitol), "Took The Last Train" by David Gates (Elektra), "Lights" by Journey (Columbia), "I Can't Ask For Anymore" by Richard Tarrant (Capitol), and "Will You Still Love Me Tomorrow?" by Dave Mason (Columbia).

Flower To Priv. Stock

LOS ANGELES — Flower, a solo recording artist, has recently signed a contract with Private Stock Records. A former model, Flower is going into the studio this month to record her debut album for the label. Flower's first single is "Give The Little Girl A Chance," produced by Stuart Alan Love and David Chackler.

San Diego Stations Sued By Ad Firm

SAN DIEGO — Noble Multimedia Communications, the advertising firm for Mexican radio stations XETRA-AM and FM, has charged in a federal court suit that 17 San Diego radio and television outlets have formed an alliance to prevent San Diego advertisers from contracting with the Mexican stations.

Defendants in the action were radio stations KSON-AM-FM, KGB-AM-FM, KPRI-FM, KIFM-FM, KYXY-FM, KFMB-AM-FM, KOZN-FM, KOGO-AM, KCBQ-AM, KNJC-AM, KEZL-FM and KGDO-AM.

"It sounds like a blanket lawsuit to me," says KCBQ general manager Mike Stafford. "They sued everyone broadcasting in the area. But I find it difficult to believe that there's some sort of alliance against the Mexican stations. Broadcasters here have discussed the competition, but no one I know has taken any sort of action."

Another area general manager, Jim Price of KGB, says he can't comment on the legal action because he hasn't been served with any papers yet.

"Anybody can sue anybody about anything," commented Price, "but I don't know of any alliance being formed."

The Mexican stations are planning a major FM expansion and a change of format aimed at the 12-34 age group.

In a separate action against the defendants, Noble is asking for at least \$1 million in punitive damages for alleged defamatory statements made about the firm.

The firm is located at 308 East 51 St., New York, N.Y., 10022, telephone (212) 759-9658.

Big Sound Has Four New U.S. Distributors

NEW YORK — Big Sound Records has added the following distributors: Pickwick in Texas; Piks Corporation in Michigan; Western Distributors in Denver; and Sunshine Distributors in New York.

LIVE AND MORE — Donna Summer — Casablanca NBLP 7119 — Producers: Giorgio Moroder and Peter Bellottee — List: 12.98

Mostly recorded live during her recent engagement at the Universal Amphitheatre in Hollywood, this two-record set is a well designed package which serves both as a fine greatest hits collection and as an entertaining document of Summer's onstage presentation. Highlighted by such hits as "I Feel Love," "Last Dance" and "Love To Love You Baby," this LP also includes the 17-minute "MacArthur Park Suite," which was recorded in the studio, from which the single "MacArthur Park" is taken.

LYNYRD SKYNYRD'S FIRST AND . . . LAST — MCA-3047 — Producers: Jimmy R. Johnson and Tim Smith — List: 7.98

Originally scheduled to be released last year before the group's "Street Survivors" album, this recording consists of tapes that the group recorded in the early '70s. "First And . . . Last" is a first-rate collection which serves both as an historically important work and also as a high-powered southern rock workout. Boosted by tasteful double-pocket packaging, this LP includes such dynamic tracks as "Down South Jukin'" and "Lend A Helpin' Hand." For heavy AOR and pop action.

FROZEN IN THE NIGHT — Dan Hill — 20th Century-Fox T-558 — Producers: Matthew McCauley and Fred Mollin — List: 7.98

On the heels of his success with the single "Sometimes When We Touch" and now bolstered by the bulleting 45 "All I See Is Your Face," Dan Hill is set to achieve further success with this album. "Frozen In The Night" is an appealing, pop/MOR effort which contains several hit single possibilities. Hill possesses a resonant voice as witnessed by such cuts as the title track and "When The Hurt Comes," and the LP also features attractively designed arrangements.

THE SOUTH'S GREATEST HITS VOLUME II — Various Artists — Capricorn CPN 0209 — Producers: Various — List: 7.98

Due to the strong success of "The South's Greatest Hits, Vol. I," Capricorn has issued "Volume II," which features several top selling Capricorn acts such as Marshall Tucker and Sea Level as well as other top southern groups (the Outlaws, Atlanta Rhythm Section, Wet Willie and the Charlie Daniels Band). Accompanied by colorful artwork and interesting liner notes by critic Robert Palmer, this album is a must for southern rock 'n' roll fans.

CRAIG FULLER/ERIC KAZ — Columbia JC 35324 — Producer: Val Garay — List: 7.98

Formerly members of American Flyer, this twosome has teamed up to produce an accessible collection of moderate rock numbers. Both Craig Fuller and Eric Kaz exhibit smooth, passionate vocals here, as do the album's several guest background singers, including Leo Sayer, Michael McDonald and Leah Kunkel. The duo is also supported by some of L.A.'s top session cats, but Kaz and Fuller's insightful lyrics and pleasant melodies are clearly the focus of this effort. For AOR and pop airplay.

UNLOCK YOUR MIND — The Staples — Warner Bros. BSK 3192 — Producers: Jerry Wexler and Barry Beckett — List: 7.98

With their latest album, the Staples continue to exhibit striking R&B songs which are shaded by the group's gospel background. Legendary producer Jerry Wexler impeccably selected all of the songs for this album, and the result is an effort which offers both strong material and of course, soulful singing led by Mavis Staple. The classic "Mystery Train" and Jeff Lynne's "Showdown" are two of the many winning tracks on this LP.

A FUNKY SITUATION — Wilson Pickett — Big Tree BT 76011 — Producers: Rick Hall & Don Daily — List: 7.98

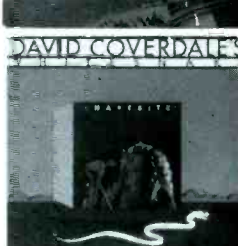

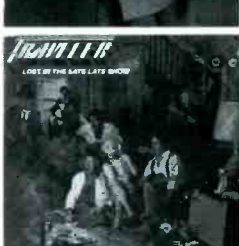

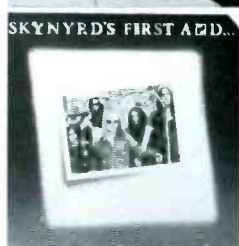

Wilson Pickett is already a legendary R&B singer, but on his new LP, "A Funky Situation," he shows he's not just content to rest on his laurels. The "Wicked Pickett" put his new album together in Muscle Shoals with that city's famed horn and rhythm sections and the combination is danceable dynamite. The disco-funk of "She's So Tight" and "Hold On To Your Honey" are well-suited to Pickett's gritty, get-down vocals.

LOST IN THE LATE LATE SHOW — Traveler — ABC AA-1101 — Producers: Craig D. Hillis & Traveler — List: 7.98

A rocking quartet, Traveler on its debut ABC album delivers a capable assortment of tunes which feature solid lead vocals and harmonies, self-penned compositions plus stinging guitar riffs from Bill Browder. The songs on this LP range from several guitar-laden rockers to more moderate acoustic tunes, all of which display Traveler's southern rock influence and its flair for creating infectious melodies. For AOR and possibly pop airplay.

MOLLY HATCHET — Epic JE 35347 — Producer: Tom Werman — List: 7.98

Molly Hatchet is a refinement of that brand of southern rock pioneered by Capricorn's stable of artists and other assorted ass-kickin' free birds. Three guitars at breakneck speed, great vocal trade-offs and a Tom Werman heavy-duty production job make this sextet from "Gator Country" (Side I, Track 2) quite a hot AOR commodity. American punch-out rock music played good 'n' loud 'n' snotty.

BISH — Stephen Bishop — ABC Records AA 1082 — Producer: Stephen Bishop — List: 7.98

Having already achieved major success with two hit singles ("Save It For A Rainy Day" and "On And On") and a top selling first album, Stephen Bishop with "Bish" is set to further solidify his reputation as a richly imaginative, pop-rock singer/songwriter. Numerous performers such as Natalie Cole, Chaka Khan, Art Garfunkel and Mike McDonald make cameo appearances here, but this LP is clearly a showcase for Bishop's distinctive, lushly-produced works.

ROBERTA FLACK — Atlantic SD 19186 — Producer: Joe Brooks — List: 7.98

On the heels of her success with "The Closer I Get To You," her single collaboration with Donny Hathaway, Roberta Flack has issued this tender, sensual album which should assure her of continued pop acclaim. This songstress here sings a variety of tunes, highlighted by a cover of the Stylistics' "You Are Everything" and Joe Brooks' "If Ever I See You Again." Arranged and produced by Brooks, this LP is suitable for pop, MOR and R&B formats.

THE WIZARD OF OZ — Meco — Millennium MMLP 8009 — Producers: Meco Monardo, Tony Bongiovi and Harold Wheeler — List: 7.98

Are you ready for a disco "Wizard of Oz?" Well hold on to your ruby slippers, because Meco Monardo has recorded just that, as part of his continuing effort to expand the frontiers of disco music. A large cast plays on the LP, which features the music from the classic 1939 film, capable vocals and the ever-present disco beat. Meco has enjoyed success with his adaptations of space movie hits and there's every reason to believe this one will click, too.

ATLANTIC STARR — A & M SP-4711 — Producer: Bobby Eli — List: 7.98

On its debut A&M album, Atlantic Starr creates an exciting R&B/pop recording which is highlighted by the bulleting R&B single, "Stand Up." A 10-member group, Atlantic Starr boasts solid vocals by Sharon A. Bryant and several male lead singers, a crisp horn section, and most importantly, a potent rhythm section. Other standout cuts on this effort include "Visions," "Gimme Your Lovin'" and "Where There's Smoke There's Fire."

SNAKEBITE — David Coverdale's Whitesnake — United Artists UA-LA915-H — Producers: Martin Birch and Roger Glover — List: 7.98

"Snakebite" is a compilation of two LPs of Coverdale's which were previously only available as imports. This is a great package of hot tracks not unlike the Sweet's "Desolation Blvd." in regards to the "best of" feeling generated. Initial AOR response is very favorable toward this "solo" offering by the last (but not the least) of Deep Purple's lead singers. The self-penned excitement of "Come On," "Steal Away," and "Breakdown" make Coverdale and band strong AOR and live concert contenders.

MOTHER FACTOR — Mother's Finest — Epic JE 35546 — Producer: Skip Scarborough — List: 7.98

With its third album, Mother's Finest continues to develop into an exciting, funky R&B configuration. Led by the lead and background vocals of Joyce Kennedy and Glenn Murdock, the group also boasts a strutting rhythm section and impressive guitar work. "Can't Find The Feeling" and "Don't Wanna Come Back" are two of the standout tracks on this collection of mostly upbeat numbers. For R&B, disco and pop formats.

MEANWHILE . . . BACK IN THE STATES — Willie Alexander and The Boom Boom Band — MCA-3052 — Producer: Craig Leon — List: 7.98

Regardless of Tom Scholz and the Cars, Boston (the city) can also boast about one Willie Alexander and his Boom Boom Band, whose second LP is now out. Alexander has a sense of lyrical and melodic flair the likes of which happen quite rarely of late. Rock with brains, if you will. New wave, of course, but of the kind closer to Springsteen than minimal sonic assaults. For AOR with a taste for something refreshingly familiar in its uniqueness.

JORGE SANTANA — Tomato TOM-7020 — Producers: Tony Bongiovi, Lance Quinn and Bob Clearmountain — List: 7.98

Led by the former leader of Malo (which enjoyed pop success with the single "Suavecito"), George Santana, this sextet on its first Tomato LP has concocted a delightful assortment of danceable, polished numbers. The album fuses latin, jazz, pop and rock elements into a mainstream formula which is highly effective, as witnessed by such cuts as "We Were There" and "Sandy." Worthy of pop and AOR airplay.

JET LAG — Chavin — C.P. Records JL-777 — Producer: Don Ortolano — List: 7.98

Two years ago, Chavin called himself Chinga Chavin and released an album titled "Country Porn." Having discarded his first name, Chavin has now issued "Jet Lag," a fun-filled collection which generally foregoes his country influences for an electric, streamlined rock approach. Backed by a three-piece band, Chavin delivers an invigorating guitar-laden punch on such numbers as "Mechanical Man" and "Forty-Nine Dollar Divorce." For AOR and pop formats.

THE ROLLING STONES (Rolling Stones/Atlantic RS 19309)

Beast Of Burden (3:20) (Colgems-EMI Music — ASCAP) (M. Jagger/K. Richards)

"Some Girls" is being hailed as the Stones best work since the "Exile On Main St." album. The first single "Miss You" found the top spot and this follow-up single, a slow but perky ballad, may carry the boys up the mountain again. LEO SAYER (Warner Bros. 8682)

Raining In My Heart (3:16) (House of Bryant Publ. — BMI) (B. Bryant/F. Bryant)

Leo Sayer and producer Richard Perry tried something new on the new "Leo Sayer" album. This first single about the pain of love has a gentle beat, sweeping strings, acoustic and pedal steel guitars and harmonica. The silky results are suited to Top 40 and country playlists.

ATLANTA RHYTHM SECTION (Polydor 14504)

Champagne Jam (4:32) (Low-Sal — BMI) (Buie/Nix/Cobb)

DRAMATICS (ABC 12400)

Do What You Want To Do (3:56) (Unichappell Music/Hot-Cha Music — BMI) (D. Hall/J. Oates)

Taken from the album of the same name, The Dramatics deliver a powerful performance on this Hall & Oates song. A firm but easy beat is backed by ever-present strings. The singing by the Dramatics is emotionally taut and the interplay of voices is effective. Suited to R&B and pop lists.

GLORIA GAYNOR (Polydor 14508)

Substitute (3:28) (Touch Of Gold Music — BMI) (W.H. Wilson)

This is a popular song. South African group Clout is already charted with its version; nevertheless, Polydor has matched the sizeable talents of Gaynor and Freddie Perren to come up with this commanding version. Horns, strings, driving rhythm and fine singing. Fine Top 40 add.

GABRIEL (Epic 8-50594)

RANDY GOODRUM (Arista 0350)

This Feeling Inside (3:44) (Chappell/Sailmaker Music — ASCAP) (R. Goodrum)

Goodrum is a very talented songwriter with current credits including "Bluer Than Blue" and "You Needed Me." This first Arista single for Goodrum has a gentle intro of strings and sparkling piano which opens to a towering chorus. Excellent accompanying vocals. Top 40 candidate.

ZWOL (EMI America P-8005)

New York City (3:24) (Mother Tongue Music — ASCAP) (W. Zwol)

The chord progressions and instrumentation and singing style of this first single from Zwol's album are strongly reminiscent of Elton John. Pulsing piano, solid guitar work and NYC patriotic lyric make this a good Top 40 add.

DONNY MOST (Venture 101)

Here's Some Love (3:57) (Screen Gems/EMI Music — BMI) (R. Mainegra/J. Roberts)

They are the listeners of Radio Free Europe. The woman responsible for the music programming on the Bulgarian station, **Gilda Karoll**, visited the **Cash Box** Hollywood office last week and explained the operation of Radio Free Europe.

"Music is a very important part of our programming, as is news about music," reports Gilda, a charming 27-year veteran of Radio Free Europe who speaks seven languages. "There's no information at all about rock and jazz and Western music available in Eastern Europe, so the cultural information behind the music is vital. As a result, of our programming, our young people know more about American music than a lot of Americans."

Gilda says that she uses the **Cash Box** Top FM Rotation chart along with other trades to select her music, which is 90 percent American. Her Bulgarian station airs American Hit Parade, American Album Hit Parade, World Hit Parade, and special programs on jazz, country, and R&B as well as interviews and special events. Gilda says her station was the only one outside the U.S. to immediately broadcast the recent White House Jazz Festival.

Radio Free Europe (and Radio Liberty) are funded by Congress and administered by the Board for International Broadcasting. The governments of most of the receiving countries try to jam their signals, but both short and medium (AM) waves are used and something is always open. A number of transmitters are scattered around Europe at the most opportune places for broadcasting into the Communist countries.

Survey Differences Explained By Six Rating Co. Spokesmen

by Joey Berlin

CHICAGO — Fledgling and established rating services shared the spotlight at the recent NAB Radio Programming Conference here during a session on "Ratings . . . What's New With The Numbers." Spokesmen from six survey companies, including Arbitron, Burke, TRAC 7, Media Statistics, RAM Research and Professional Research Services, explained their services' unique qualities, methodology and market coverage.

Arbitron is clearly the largest of the rating services, covering almost every county in the country, but each of the services can point to qualities in their surveying that set them apart from the others. The six companies gather their information differently, present it differently and serve different markets.

Bill Engle, Arbitron's vice president of radio sales, noted that radio has moved into "an age of data applications," and added that Arbitron is now involved in much more than determining average quarter hour and cume figures.

"About 80 percent of the information we put out is in other areas," Engle said. Among the other areas Engle referred to are audience turnover, success in reaching target audiences, audience composition analysis and reach and frequency figures.

Loyola Radio Conference Scheduled For Nov. 3-5

CHICAGO — The ninth annual Loyola National Radio Conference will be held at the Marriot Hotel and the Lewis Towers Campus of Chicago's Loyola University November 3-5. The nation's oldest and largest college-sponsored radio event draws radio people from coast to coast as well as representatives of record companies and hardware and software companies.

The keynote speaker will be Gary Deeb, nationally syndicated TV-Radio critic for the Chicago Tribune. Other attractions include sessions dealing with radio management, programming, advertising and engineering and suites featuring technical exhibits and record label presentations.

McLendon Sells KNUS

LOS ANGELES — KNUS/Dallas, the final outpost remaining in McLendon Corporation's once-extensive radio empire, has been sold to SJR (San Juan Racing) Communications, pending FCC approval. The station reportedly cost SJR \$3.75 million. SJR already owns stations in New York, Washington, D.C., Cleveland, Philadelphia and Atlanta.

NATURALLY HIGH AT K100 — Motown's the Commodores have been busy visiting radio stations along the way during their current national tour in support of their new album, "Natural High." Pictured standing above during a visit to K100/Los Angeles are (l-r): Larry Tollin, Motown's western pop promotion manager; Carl Goldman, K100; and Commodores Walter Orange, Lionel Ritchie and Thomas McClary. Shown seated are (l-r): K100's Don Chandler and Jay Coffee.

Engle also spoke about Arbitron's new research technique, the Expanded Sample Frame, designed to reach unlisted telephone residences and increase minority response ratios. The ESF will be used in eight markets this fall and is expected to be used in all ARB markets by 1981. There are currently 201 markets regularly surveyed by Arbitron through a variety of techniques.

New Rating Services

On the heels of recent announcements that ABC Radio will be purchasing the TRAC 7 and Burke surveys and NBC Radio will be buying TRAC 7, the presentations by the new rating services drew a lot of people to the session. TRAC 7 was represented by vice president Avery Gibson; Burke sent vice president Lew Alpert.

Gibson explained that TRAC 7 will be surveying the top 20 markets in 1979, adding the next 20 in 1980 and reaching a final total of 50 in 1981. TRAC 7 will start with New York, Chicago, Los Angeles, San Francisco and Washington, D.C. this fall.

Sillerman-Morrow Purchases WALL

NEW YORK — Bruce (Cousin Brucie) Morrow and his partner Bob Sillerman have followed through on Morrow's prediction at the recent NAB Programming Conference in Chicago and purchased WALL-AM-FM in Middleton, New York, subject to FCC approval. Middleton is about 75 miles north of New York City.

Morrow and Sillerman have formed Sillerman-Morrow Broadcasting Company to buy the stations, which currently program a contemporary format on the AM and beautiful music on the FM. The company also plans to get into radio and television syndication and have lined up NBC meteorologist Dr. Frank Field for an unspecified program.

Morrow will handle programming and operations responsibilities for the new company, while Sillerman will manage the business and sales operations. Sillerman's father, Mickey, is a well-known veteran of broadcasting and syndication.

Sillerman-Morrow has not announced what formats they will use at the stations, indicating that they will go into the community and ascertain what is needed.

"We want to give radio back to the audience," says Morrow. "People are so concerned with market statistics and computer print-outs that they've forgotten what radio was invented for — and that's the audience."

Twin Sons of Different Mothers

This album constitutes a collaboration, experimental in nature, between Tim and myself. It is an attempt for both of us to move outside our own recognizable boundaries and try new directions—new forms of music which we rarely get to explore on our own. It is a chance to stretch, an opportunity to grow, and a hell of a lot of fun.

distribution, earning the respect of his peers and developing an instinctive sense of how to work a record.

"One of the main lessons I learned from Jac Holzman," says Posner, "is that no one gives you something, you have to go after it. That is what Elektra does best. This business is in many ways a big crap game. You cannot be afraid to take risks. When you believe in what you have, go for it."

Throughout its history, Posner says, the Elektra label has demonstrated an aggressive approach to growth and innovation. Beginning as a high-priced, speciality label for folk artists, Elektra has been in the vanguard of significant changes in the music industry.

In 1958, Elektra was one of the first companies to become involved in the experimental, technological breakthrough of stereo. In 1964, the development of Nonesuch Records paved the way for budget line classical records. Posner played a key role in developing the merchandising campaign and licensing of material from Europe which registered the following year as 50 percent of Elektra's volume. According to Posner, the Elektra/Nonesuch venture into classical budget records became a model which 22 companies emulated in the subsequent years.

'New Music'

1967 was a "transitional year" in which Elektra signed its first pop/rock act, Love. The back-up band for Love at an L.A. appearance was a little known group called The Doors. Sensing the "new music" offered by The Doors, Elektra signed the group and released the first album which sold two million units.

"The Doors was a major turning point in music," says Posner. "It was a time of change and you had to be on the street to really sense what was happening. Suddenly instead of orders of 2,000 records, distributors wanted 20,000. There was a panic to find production facilities."

Pioneering Developments

Elektra also pioneered other developments such as use of the Sherwood Press album cover which subsequently swept the industry at the 1968 NARM convention. In the same year, Elektra debuted a "Hootenanny Series" which reflected another burgeoning development in music — the marriage of folk, country and rock 'n' roll. To handle these and other developments, Elektra, under Posner's direction, attempted "unorthodox moves in distribution."

"There was a distributor in New York called 'New Deal' whose organization was a departure from then contemporary distribution patterns," says Posner. "Because we were handling volume our indie distributor in N.Y. could not financially manage, I went direct and sold to Korvettes and Sam Goody."

"I ended up with two distributors in one market which in some ways was the beginn-

PICKWICK HOLDS LARGEST CONVENTION — Pickwick International celebrated its 25th anniversary recently with the largest annual convention in the company's history. More than 1,200 employees from the company's six divisions attended the four-day convention which carried a theme of "Charge Together" at the Playboy Resort and Country Club in McAfee, New Jersey. Pictured (l-r) at the convention are: Eric Paulson, national

manager, Pickwick rack sales; C. Charles Smith, President, Pickwick International and Scott Young, Pickwick's retailing vice president; and Bill Woodside, president of American Can; Smith and Lionel Sterling, senior vice president of American Can; and an overall view of the convention exhibit area. A highlight of the convention was the annual awards banquet.

Pickwick Shooting For \$1 Billion by 1983; Retail Store Openings Will Be Accelerated

(continued from page 7)

store openings would have to be accelerated. This means that the company will open more units in 1979 than the 50 they launched this year. Smith noted that, by 1983, Pickwick retailing "will have a significant penetration into every major U.S. market."

Commenting on Pickwick's plans for its distribution division, Smith said, "Pickwick will be the most significant force in a network of distribution locations positioned nationally to bring to market effectively the product of the medium and modest-sized labels who do not choose to be part of the distribution systems of major manufacturers. Pickwick is committed to the maintenance of independent distribution for these labels and will be recognized by imaginative and aggressive producers as the reasonable alternative to joining major manufacturers' distribution organizations."

Smith also saw room for expansion in the budget records field. Within five years, he said, Pickwick Records will be "more than twice its present size with a much larger than present market share, as budget product becomes more of a bargain compared with the escalating prices of original release product and as the quality and spread of Pickwick's offering becomes accepted as an integral contribution to every consumer's record library."

U.K. Sales

One of the most notable features of this year's convention was the presence of a contingent from Pickwick Great Britain, headed by Monty Lewis. Although he regularly attends the annual NARM conference, Lewis said this was the first time he or any of his people had attended a Pickwick International convention.

Founded 16 years ago, Pickwick GB is a major supplier of budget records in the United Kingdom. According to Lewis, Pickwick's economy lines account for 66% of the total budget product sold in the U.K. Last year, he said, they shipped more than 15 million units.

The biggest customers of Pickwick GB are supermarkets and department stores like Woolworth's and W.H. Smith. Two-thirds of the company's 90 salesmen sell to accounts directly from vans. Thus, in effect, Pickwick GB performs a rack function for their own records.

Three years ago, Pickwick GB set up a full-line rack jobber called Pickwick Record Distributors. Today this subsidiary supplies records from all labels to between 850 and 900 retailers. Smith estimated annual volume of this new division at five to six million dollars.

Meanwhile, Pickwick GB has been exporting its budget lines to other European countries for the past 10 years. This operation has been particularly successful since

Britain joined the Common Market.

Lewis did not rule out the possibility that Pickwick GB might acquire or open retail stores in the U.K. "With the support of American Can Co. (parent of Pickwick)," said Lewis, "we are investigating every area, whether it is manufacturing, retailing, or distribution."

In his speech, Smith stressed the fact that Pickwick GB works closely with the company's top management. "Not only does Monty coordinate his planning, budgeting and execution with the corporate team," he noted, "but on such basic programs as joint licensing of product from major labels and bulk exporting of Pickwick product to the European Common Market, Pickwick GB works very closely with the rest of the company to maximize the utilization of all of the company resources."

Smith envisioned closer ties between the domestic rack sales division and Pickwick Record Distributors in Britain over the long run. By 1983, he predicted, Pickwick's rack operation "will not only continue to be the largest in the U.S. and by that time in the U.K., but will also be a prominent supplier to every major chain retailer of prerecorded music in these countries."

Looking beyond the U.S. and Great Britain, Smith added, "Pickwick will have a major presence in a number of foreign markets where we now have a modest or insignificant share. These markets will probably include the European Common Market, Japan, Australia and Canada, at the very least."

Rack Division Gains Accounts

While Pickwick's Rack Sales Division is still secure in its position as the largest rack jobber in America, competition for racked accounts has intensified over the past year, according to Eric Paulson, national manager of the Rack Sales Division. This has been mainly due, he said, to the "strengthening of Lieberman Enterprises through their acquisition of ABC Records and Tapes."

At the same time, he noted, some of ABC's former customers have sought new suppliers, including United Records and Tapes, Bee Gee Distributing and Pickwick. As a direct result of the changeover, he stated, Pickwick was able to add the Sav-on stores in California as a new racked account. In addition, his division recently began racking the Gem chain in Hawaii and the Berkshire stores in Texas.

"We're not done yet," Paulson added. "We're taking a very aggressive posture in our rack division." Paulson attributed this new attitude to the arrival of "different people in positions of responsibility at the company." Since these managers are not only good businessmen, but professional record people. "We can't stand still," he said. "We can only go forward."

Paulson pointed out that, in the Rack Sales Division, expansion has less priority than maximizing the profitability of racked record departments. This can only be done, he noted, by giving each customer the proper product mix. Currently, Pickwick uses a sophisticated computer ticket replacement system to help ensure that such a mix will be achieved for each account. And, with the help of American Can, it is presently in the process of refining its management information systems. Smith said that this streamlining process would

Hall Of Fame Nominees Announced

NASHVILLE — Johnny Cash, Vernon Dalhart, Grandpa Jones, Hank Snow and The Sons of the Pioneers have been nominated this year to the Country Music Hall of Fame by the Hall of Fame Nominating Committee. This year's inductee will be chosen by an anonymous panel of more than 200 electors.

Each elector, who must have participated actively in country music for at least 10 years, will vote by secret ballot. This year's winner will be announced on the 12th annual Country Music Assc. Awards Show to be televised Oct. 9 on CBS-TV.

Columbia's Cash first appeared in the middle 50's on KWKH's Louisiana Hayride and recorded on the Sun Label. A member of The Grand Ole Opry, Cash has received six CMA and six Grammy Awards. He has performed before a United States President and hosted a network television show for three years.

Born Marion T. Slaughter, Dalhart is credited as being the first country recording artist. Under various names, he recorded many songs in the 20's and 30's

on Victor, Bluebird, Columbia, Velvetone, Crown and Perfect Labels. Dalhart's biggest hits were "Prisoner's Song" and "Wreck of the Old '97."

A singer, humorist, banjoist and regular member of The Grand Ole Opry, Grandpa Jones began in radio in 1929 and worked the WLS Barn Dance in Chicago, Ill. beginning in 1935. He joined the Opry in 1946 and today is a regular member of the nationally syndicated tv series, "Hee Haw."

Canadian Snow has recorded for RCA since 1936 with over 80 albums to his credit. An Opry regular, his greatest hits are "I'm Moving On," "Fool Such As I" and "Hello Love."

The Sons of the Pioneers formed in 1933 and recorded for several labels. The group changed members several times, and among the most famous to play with the Pioneers were Roy Rogers, Tim Spencer and Ken Curtis (Festus on "Gunsmoke"). Original group member Bob Nolan authored many of the Pioneer's original songs including the classic "Cool Water" and "Tumbling Tumbleweeds."

SONNY THROCKMORTON (Mercury 55039)

I Wish You Could Have Turned My Head (And Left My Heart Alone) (3:17) (Tree Pub. — BMI) (Sonny Throckmorton)

The song title on Sonny's first Mercury release is put to music very well and repeated enough throughout the song to be embedded in any director's mind after one listen. Produced by Buddy Killen and arranged by Bill Justis, the reggae-sound adds a new dimension to country.

MARY K. MILLER (Inergi 1-310)

Handcuffed To A Heartache (2:47) (Mandy Music — ASCAP) (Jim Rushing/Bobby David)

Mary K. can no longer be called simply a Texas-based female talent. Each release has brought her more into the national picture and this new upbeat material should take her higher than ever on the national charts.

CHARLY McCLAIN (Epic 8-50598)

That's What You Do To Me (2:15) (Music City Music — ASCAP) (B. Morrison/J. MacRae)

Almost nostalgic, this upbeat offering from Charly has strong over tones of Buddy Holly. This single is sure to do well on the country charts and Charly ranks high in the Epic Records career development program.

BILL PHILLIPS (Soundwaves SW- 4575)

I Love My Neighbor (2:40) (Tree Pub. — BMI) (Bobby Braddock/Rafe Van Hoy)

Bill's recent single, "Divorce Suit," saw national chart activity however it has been some years since he has had a good hit. This cut produced by Sonny Throckmorton and Jerry Shook should put an end to the dry spell.

DON DRUMM (Churchill CR-7717)

Something To Believe In (2:32) (Ironside Music — ASCAP) (Bob Milsap)

Just off a very strong chart record in "Bedroom Eyes," this small record label out of Des Plaines, Ill. has planned Don's follow-up carefully. His deep, yet sincere vocal style comes through again.

Singles To Watch

ANN J. MORTON (Praire Dust Records PD 7627)

Share Your Love Tonight (2:23) (April Music — ASCAP) (Jerry Foster/Bill Rice)

FREDDY FENDER ON "SOUNDSTAGE"

— ABC recording artist Freddy Fender was in Chicago recently to tape the PBS music show "Soundstage" at WTTW. Fender also appeared on "AM Chicago," sang the national anthem at Wrigley Field before a Cubs game, and stopped by to visit with WJJD personnel. Fender is pictured above with WJJD air personality Mark Edwards.

All-American Is Now Cin/Kay Dist.

NASHVILLE — All-American Distributing Co. has recently changed its name to Cin/Kay Distributing. Cin/Kay distributes and promotes records for independent labels.

Simplifies Bookkeeping

Hal Freeman, operating manager of Cin/Kay Records and Cin/Kay Distributing, said the name change will simplify their bookkeeping procedures and will be a more identifiable name with the trades, radio stations and distributors throughout the country.

Cin/Kay Distributing will promote and distribute all records on the Cin/Kay label and will offer this service to other independent record labels on a selected basis.

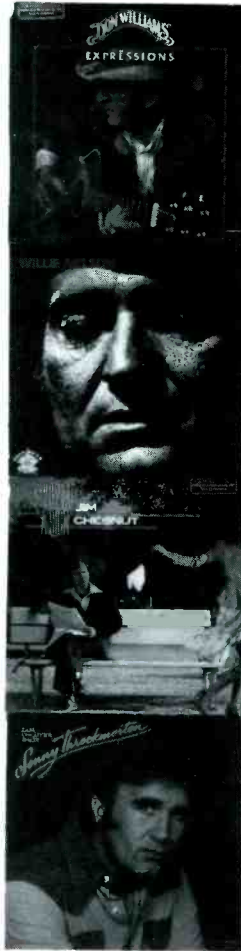

Cin/Kay's first release is Linda Cassidy's "Lonely Side Of The Bed," which rides the #77 spot on this week's **Cash Box** Country Singles Chart.

Tillis Promotes CB Club

NASHVILLE — MCA's Mel Tillis has signed to promote the national CB Club FACT (Federation of Allied CB Talkers). Tillis, whose CB handle is "flutterin' lips," emphasized that the club is family-oriented with its primary goal geared towards eradicating bad language from the airways.

FACT memberships include accidental death insurance, the FACT Newsmagazine, full-color embroidered patch, a 76-page Atlas/handbook, registered membership card and certificate and legal referral service for CB and related legal problems.

A major national jamboree is set for May, 1979 at the Indiana State Fairgrounds with Tillis and The Statesiders engaged for four performances.

EXPRESSION — Don Williams — ABC-AY- 1069 — Producer: Don Williams and Garth Fundis — List: 6.98

This new Don Williams album exemplifies the positive effect generated when a generous budget is allocated and spent creatively on a record product. First of all, the tasteful cover art and graphics will compete with any LP on the market today. Second, the music reflects the work of an artist who has been allowed time to perfect his craft. Take your pick here. This may be Don's best album.

FACE OF A FIGHTER — Willie Nelson — Lone Star — L-4602 — Producer: Unlisted — List: 6.98

These tracks recorded in 1961 reflect the early singer and songwriter, not the sophisticated entertainer Willie Nelson is today. But even from the vantage point of 1978, it is clear Willie's brilliant vocal phrasing and turn of a lyric was ahead of its time. These re-mixed cuts are dated in some respects, but this is pure country music, and Willie Nelson fans will want to add this album to their collection.

SHOW ME A SIGN — Jimmy Chesnut — Hickory — HB-44012 — Producer: Ray Baker — List: 6.98

Jim Chestnut's first album homogenizes country into a MOR sound. Produced by Ray Baker, this LP offers a balanced mixture of uptempo and ballad material. Chesnut also wrote four of the songs, including the title cut. Best songs include "Glass Houses," "The Wrong Side Of The Rainbow" and "Show Me A Sign."

LAST CHEATER'S WALTZ — Sonny Throckmorton — Mercury — SRM-1-3736 — Producer: Buddy Killen — List: 6.98

Sonny Throckmorton has written more hit songs than any Nashville songwriter over the past couple years, and he finally gets a chance to interpret his own material. His first outing is a fine blend of uptempo tunes, ballads and even a touch of R&B. Production is completely supportive of Sonny's honest, sensitive vocals. Each cut is good, but "If We're Not Back In Love By Monday" is outstanding for its creativity.

OK Fest Draws Under 5,000

OKLAHOMA, CITY, OKLA. — OK Fest I, which was held here recently in the Oklahoma City Fairgrounds Grandstand, was labeled a success by promoter Frank Spencer although the concert drew less than 5,000 persons.

The first concert promoted under Nash-Pac Productions, OK Fest I starred Willie Nelson, Jerry Lee Lewis, John Prine, Tom T. Hall, Hank Williams, Jr., Dr. Hook, Joe Ely and Joel Sonnier. Conducted in 105-degree heat, Spencer considered the concert successful because all artists and associated people were paid in full, and the concert ran smoothly.

"We are extremely proud of Nashville for backing us the way it did, and we are thankful for the way the agents stood behind us and for the commendable job the artists did," Spencer said. "Even though we lost money on the concert, everyone direc-

tly involved with the show believes it was basically successful because of the smooth way it was handled and no crowd incidents."

Reasons For Turnout

According to Mary Gustin of International Talent Services, who coordinated the show, "there were several reasons for the small turnout. Two other concerts were in Oklahoma City that weekend, the hot weather, the lack of time for sufficient promotion, the end of summer vacations and school systems being between semesters or just getting ready to start back were just a few of the factors affecting our ticket sales."

Nash-Pac, Inc. is already working on promoting another outdoor concert for next spring as well as several indoor shows which will include both rock and country artists.

EDDIE RABBITT DAY IN HOUSTON — After Elektra/Asylum's Eddie Rabbitt's recent appearance at The Fools Gold Club in Houston, Tx., City Councilman Louis Macey proclaimed "Eddie Rabbitt Day" and presented Rabbitt the key to the city. Shown backstage from (l-r) are: Norm Osborne, E/A national country promotion director, Nashville; Bob Destocki, artist relation for the midwest, E/A; John Hughes, E/A local promotion; Rabbitt; Club owner Bob Mousa; and Danny O'Brian, E/A local promotion man, Dallas, Tx.

The Country Column

If anyone out of Nashville is getting more press coverage these days than Warner Bros.' **Carlene Carter**, it would be interesting to know who it is. Carlene, in the short space of a month or two, has graced the pages of *People* magazine, *Rolling Stone*, *Time*, *Newsweek*, *Country Music Magazine* and assorted other music publications. People are making a big fuss because she is a country girl out of music city who has recorded a pop album. Fact is, this is happening more and more around here. Carlene is on the road most of the time now, but she was seen last week working on some demos at Combine's "Rathole" studio.

It had to happen sometime. In the mail this week comes a printout of *Playboy's* October cover with **Dolly Parton** on the front dressed in a modified bunny outfit. The October issue will feature a full-length, no-holds barred interview with RCA's country lass.

Carlene Carter Epic's **Johnny Paycheck** has been touring the west coast lately, pickin' in such places as San Francisco's Boarding House and Los Angeles' The Roxy. Following "Me And The I.R.S.," straight-talking Paycheck told his audience, "Hell, you can take what they spend studying the sex habits of the South American swamp rats and keep us all in beer for the next 100 years." Paycheck is also finishing work on his new album due out now at any time.

Also playing in California recently was Mercury's **Jacky Ward**, making his debut at the Palomino in North Hollywood. The energetic Texas charmer won the crowd over with songs off his album, "A Lover's Question," as well as medleys of '50s hits and country classics and even imitations of John Wayne and Walter Brennan. Ward's performance, which preceded some outstanding pickin' and strummin' from the **New Riders of the Purple Sage**, was broadcast live over KGBS-FM/Los Angeles.

ABC's **Narvel Felts** and **John Wesley Ryles** have been working on new albums under the production work of **Johnny Morris**.

Showcase Talent, Inc. is in a period of expansion and offices have been moved to 704 18th Ave. So. Epic's **Louise Mandrell** is the newest artist added to the roster of Showcase.

Pam Tillis, daughter of **Mel Tillis**, has recently signed a writer's agreement with Broadcast Music Inc.

In early September, Epic's **Jody Miller** will release "Kiss Away" as her new single. Produced by **Glenn Sutton**, the tune will be included in her new album due this fall. Jody is busy this month working fair dates.

Woodland Studios is having a productive month. **Jerry Fuller** is working on an LP there with **Ron Chancey** producing for ABC, and rock legend **Little Richard** has been in the studio mixing down a gospel album for World Records. ABC's **Tommy Overstreet** has also been working on a special, personalized radio station record called "Fadin' In And Fadin' Out."

RCA Artist **Tom T. Hall** will donate his services as headliner of the fourth annual **Truck Drivers Country Music Awards Show** Sept. 9 in Kansas City, Mo. Proceeds for the awards show will benefit the **American Truckers Benevolent Assoc.**

RCA's **Ronnie Milsap** reportedly played before 40,000 folks at the Ohio State Fair this month.

Jack Greene and **Jeannie Seely** helped out their friend metro Sheriff Fate Thomas last week with a fund-raising appearance at War Memorial Auditorium to help Thomas pay off some of his recent campaign debts.

Lone Star's "**Cooder Browne**" played the Texas Summer National Boat Races at Lake Liberty, Tex. August 19 at what was to have been an outdoor dance. A drenching thunderstorm popped up about two hours before the concert, and all concerned thought festivities were over. However, the storm cleared before concert time, and a bunch of rowdy Texans danced and played in the thick mud.

Johnny Carver appeared at a five-state pest control convention held here recently at the Opryland Hotel, and he told guests the only job he had ever had — other than performing — was for a pest control company. His former employer, who was in the audience, assured folks Carver was a much better singer than he was an employee.

Mercury's **Sonny Throckmorton** is another writer/artist who has caught the golfing bug. And recently, he flew to Houston, Tx. to play in a benefit golf tournament organized by former University of Texas football coach **Darrell Royal**, who is a good friend to many folks in the country-music business. Sonny's brand-new debut album for Mercury is titled "Last Cheater's Waltz."

Another addition to the roster of Mercury artists is **Billy Larkin**, whose first release is a **Bob Morrison** song called "My Side Of Town."

Dobie Gray, who has been reportedly signed to Ron Alexenburg's new label, recently showcased his act at the *Exit/In*. Quite a few entertainers showed up including Columbia's **Bobby Bare** and **Johnny Rodriguez** (newly-signed to CBS), Epic's **Charlie Daniels** and **Dave Loggins**, **Troy Seals** and **Lenny LeBlanc** of the LeBlanc Car Band. Producers **Billy Sherrill**, **Buddy Killen** and **Glen Sutton** also attended.

A special promotional copy of **Willie Nelson's** "Stardust" album on Columbia has been auctioned in Monroe, Mi. for \$110 by journalist **Dave Atkins** of "Country In The City" Magazine. The record features a special vinylized color photo of Willie as he appears on the back of the "Stardust" album jacket.

Aubrey Hornsby, director of Concerts for People, formed the Nashville World Hunger Day Committee which supported World Hunger Day Sept. 1 here by welcoming and assisting **Harry Chapin** in his Vanderbilt concert appearance that day.

RCA's **Gary Stewart** was the subject of a two-hour special broadcast over KLOH in Pipestone, Minn. recently. **D.J. Milon Ray** interviewed Stewart by phone for an hour, talked with friends of Stewart, and played many of Gary's songs, including the old Coral label recordings which are now collector's items. Stewart's single, "Single Again," sits this week at #61 on the **Cash Box** Country Singles Chart.

Columbia's **Johnny Cash** has been working on a new LP at Jack Clement Studios. **Larry Butler** is producing Cash these days.

Last Tuesday, **Elvis** fans around the country had the opportunity to view the King of rock 'n' roll in peak form, in an encore showing of "Elvis TV Special," on NBC. Produced by **Steve Binder** in the fall of 1968, the special signalled the rocking, strutting comeback of Elvis after several years of starring in lackluster films. Also shown was his 1973 TV special which was filmed in Hawaii and broadcast to almost 500 million Elvis fans internationally.

WVOK/Birmingham Bought For \$1.1 Million By Sanders

BIRMINGHAM, ALA. — Nashville broadcasting executive Mack Sanders, owner of WJRB/Nashville, announced last week his purchase of WVOK-AM here, his second radio property acquired in the past year. Sanders bought the 50,000-watt station for \$1.1 million, subject to approval by the Federal Communications Commission (FCC).

Sanders purchased WVOK from Voice of Dixie Inc., which had owned the station for 31 years. Voice of Dixie was created by the families of Cyril M. Brennan, Sr., and William E. Bennis. The Brennan family also owns WBAM in Montgomery, Alabama. The sale amounted to Sanders purchasing the Bennis interest in WVOK, with the Brennan family assuming total control of WVOK-FM, K-99.

WVOK is the second station to be purchased by Sanders since moving to Nashville over two years ago. Last October Sanders bought WENO, now WJRB, after he began to sell the radio outlets in his Midwestern radio chain.

LeDoux To Write Two Rogers Songs

NASHVILLE — Chris LeDoux, professional rodeo rider, songwriter and artist with several albums to his credit, has been commissioned by the Will Rogers Centennial Committee to write and record two songs to help commemorate the Will Rogers Centennial Celebration set officially to get underway on Nov. 4, Rogers' birthdate.

The commission will utilize the two LeDoux songs in its promotions across the United States, as well as several foreign countries. The 29-year-old LeDoux, who records for his own Lucky Man Music Co., is the same age as was Rogers when he entered show business in 1905.

"We feel like we picked the perfect person to write these songs," said Evan Arthur, coordinator for the Centennial Celebration. "It just seemed natural for the singing bronc rider to pen some songs about a man with whom he had so much in common. If Will were alive today, he would want to help Chris as much as he did Joel McCrea when he was a young man just getting started in the movies."

At a press conference here August 28, WVOK general manager Dan Brennan announced the sale with mixed emotions, but said he was confident that Sanders would continue the same format and programming ideals. Sanders reaffirmed Brennan's words when he said, "Our plans are to carry on — to continue with country music. I don't know anything else."

Sanders also told the press gathering that he and his wife, country music entertainer Sherry Bryce, would be actively involved in the day-to-day operation of WVOK. "Country music has come a long way and we're very proud to be involved... I'm going to be involved in Birmingham just like I am in Nashville."

Other aspects of the sale discussed at the press conference included Sanders' plans to relocate WVOK in new quarters, with construction of a new building to begin at a future date. Sanders also mentioned a possible call-letter change, but gave no specifics.

After signing the contract to relinquish control of the station, Dan Brennan said that he and his family will still remain active in broadcasting. Brennan said, "We will concentrate on the ownership and operation of FM K-99 which is an album-oriented station with programming designed for young adults."

Public Survey

The next process in completion of the sale will include a survey of the public in the Birmingham area, by Sanders, to determine if the station is meeting the listeners' programming needs. Such a survey is required by the FCC prior to approval of the sale of any radio station. Sanders says he hopes to begin the survey sometime this month. Assuming the FCC approves the sale, Sanders should be in control of WVOK sometime before the first of the year.

In a related story, Sanders told **Cash Box** he is currently working on an application to the FCC which would allow him to make WJRB/Nashville one of the first AM stereo experimental stations in the country. Sanders said, "AM stereo will be here soon... there's no doubt about that, and if the FCC approves of what we want to do, we'll have the very first country formatted AM stereo

DUGG COLLINS MOVES TO NASHVILLE — After more than 10 years at KDJW in Amarillo, **Dugg Collins** has resigned his position to move to Nashville as national promotion director for MRC Records. On August 12, in this column, it was reported that Collins had resigned as PD/MD because of a bad ARB. At the time Collins said, "It was a political thing . . . We lost numbers . . . but it was our first bad book in some time." Collins has stayed on at KDJW since then as the afternoon drive jock. Collins will be leaving Amarillo September 5. He'll be moving to Nashville to start with MRC on September 11. Collins can be reached after September 11 in the Nationwide Sound offices at (615) 385-2704.

GENERAL MANAGER PROFILE — **Bob Jackson** is general manager and program director at KRAM/Las Vegas, with more than 28 years of radio experience behind him. Jackson is from Seiling, Oklahoma, and started his radio career in Ardmore, Oklahoma. After working in various small markets, Jackson was hired as a jock at KBOX/Dallas before it went country. In 1964, Jackson went to WMEX/Boston and KCBQ/San Diego. Jackson got into country radio in 1967, when **Bill Ward** hired him to announce at KBBQ/Burbank. Jackson has also worked at WIL/St. Louis, KLAC/Los Angeles, and KNEW/Oakland. Jackson's 28 years experience has helped KRAM become the number one station in Las Vegas for adults 18 plus, and for the past three ARB's, KRAM has been number one in adults 25-49.

WDAF HOSTS TRUCK WEEK '78 — WDAF/Kansas City and Open Road Magazine will present Truck Week '78 in Kansas City Sept. 9. WDAF all-night jock **Phil Young**, along with WWL/New Orleans personality **Charlie Douglas** will MC the Truckers Award Show during the event. Performers for the event will include **Tom T. Hall** and **Charly McClain**, and all proceeds go to the Trucker's Benevolence Fund.

KSSS/Colorado Springs air personalities **Larry Montgomery** and **Bob May** finally got to work for a real station recently . . . a real gas station that is. The two pumped gas for two hours as part of a station promotion. KSSS sold gas to its listeners for 7.4 cents per gallon . . . KSSS is 740 on the dial. The station ended-up selling more than 1,600 gallons of gas during the promotion.

It's a very interesting thing to see established radio stations change formats to country. It may have started with WDAF/Kansas City a little over a year ago. They had been a sleeping MOR giant before changing to a country format and gaining more listeners than they had ever had before. Earlier this year WMPS/Memphis and KLZ/Denver changed to country from contemporary formats. KIRL/St. Louis changed from top 40 to country in March. Most recently WWSW/Pittsburgh and WSAI/Cincinnati have gone from contemporary to country formats also. While some PD's and managers are still fretting over lost numbers in the past ARB, others are actively trying to get new listeners by going to country music. In the months to come, look for this interesting trend to continue. It's plain to see that country radio is going to have one of its best years in 1978.

Let us know what we can do for you!!! Send your station's playlist along with your news and pictures to **Country Mike** . . . Cash Box . . . 21 Music Circle East . . . Nashville, Tennessee . . . 37203.

For over a year, the CMA has been negotiating with Kraft Foods, J. Walter Thompson and the network in order to make this simulcast possible. Stations wishing to carry the show must notify the CMA in writing by Sept. 15, 1978. Stations will be required to run the show intact and to insert special radio spots over the Kraft tv spots.

radio station in the nation."
New Building

Sanders said he's almost certain the FCC will approve his request — so certain in fact — that Sanders has built a new building on Music Row to house the station with all new stereo equipment. Sander explained that the idea of a country stereo AM station in Nashville is great because most country records are produced in Nashville. "It's the natural place to begin to experiment with country AM stereo."

Besides the fact that Sanders has invested a great deal of money into WJRB — with the new building and equipment, he is also applying to the FCC to increase WJRB's tower height by 420 feet. Sanders said increasing the height of the tower by that much would be almost like doubling the station's listening coverage. WJRB is a full-time station with 5,000 watts.

With the purchase of WVOK, Sanders has not closed the door to future radio purchases in the south. In fact, Sanders had a stipulation written into the WVOK purchase contract that if the Brennan family ever wants to divest itself of WVOK-FM, they must give Sanders the first opportunity to buy it.

In the past 20 years, Sanders has owned or shared ownership in various stations around the country. At this time, however, Sanders is in the process of, or has already relinquished his ownership in several stations in the north, including KOOO AM-FM in Omaha; KBIL/Kansas City; KTOW-KGOW/Tulsa; and KFRM in Salina, Kansas.

Sanders noted his vast experience in radio ownership will enable him to have great success with both WVOK and WJRB. Sanders indicated he would announce the opening of his new building, with an open house sometime this month.

The **Stan Kenton** Orchestra has disbanded indefinitely and the veteran bandleader has reportedly returned to Los Angeles for a long rest. Kenton, 66, suffered a fall in May, 1977, and subsequently underwent extensive brain surgery.

The band, which was reorganized last January, played its last date Aug. 20 in Costa Mesa, Calif. All bookings have been cancelled for the rest of the year, including a date at the Monterey Jazz Festival. A spokesman for the bandleader said he hopes to re-form the band in 1979.

Guitar great **Grant Green** is in Harlem Hospital recovering from a bout of pneumonia. He should be released shortly. Grant's latest album is "Easy" on Versatile.

Bee Hive Records, a new label out of Chicago, debuts with two LPs: "Baritone Madness" by the **Nick Brignola** Sextet featuring **Pepper Adams** and "Manhattan Project" by **Dizzy Reece** with **Clifford Jordan** and **Roy Haynes**. The label is named for the famous Chicago nightclub of the 1950s, which featured giants such as **Gene Ammons**, **Dexter Gordon**, **Charlie Parker** and **Lester Young**.

Norman Schwartz has announced plans for the formation of Grypho Records Ltd. Gryphon was formerly distributed by RCA, and its artists have recorded some direct-

to-disc albums on the West Coast since the dissolution of the RCA deal. First product includes LPs by **Buddy Rich**, **Phil Woods**, **Barry Miles** and **Mel Torme**. **Bob Brookmeyer** recorded a live date for the label, due in October, and **Michel Legrand** has recorded a date which includes **Gerry Mulligan**, **Phil Woods**, **Jon Faddis** and **Ron Carter**.

Eddie Vinson tore up The Village Vanguard last week in the company of the **Ray Bryant** Trio. The Vanguard was once the local spot for the "free jazz" crowd, but since the return of **Dexter Gordon**, it has billed more beboppers.

Clubs are gearing up for the fall season: **Ronnie Matthews**, **Steve Kuhn** and **Ted Curson** will be at Beefsteak Charlie's during September. **John Handy**, **Dexter Gordon**, **Johnny Griffin** and **Arnett Cobb** will be at Keystone Korner in San Francisco at the same time. Singer **Al Hibbler** has a week at Storytowne.

Chuck Nessa getting **Von Freeman** and **Lucky Thompson** ready for fall release on his Nessa label.

Ray Charles, **Ray Barretto** and **Roberta Flack** will be in the next Atlantic release.

Trumpet monster **Jon Faddis** to Versatile Records. His album is being written and produced by **Leo Pendarvis**. **bob porter**

JAZZ ALBUM PICKS

MAHAL — **Eddie Henderson** — Capitol SW-11846 — Producer: **Skip Drinkwater** — List: 7.98

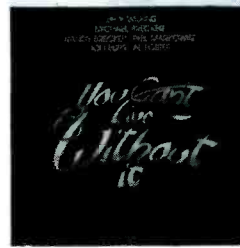

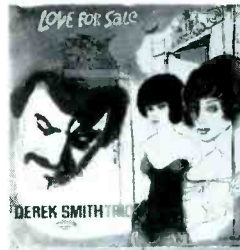

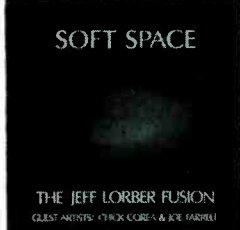

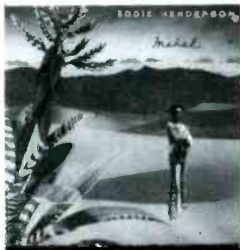

Doctor-turned-musician **Eddie Henderson** has enlisted an all-star lineup to help him on his latest Capitol release and the end result is one of the tastiest jazz LPs to hit the streets in some time. Guest artists include **Hubert Laws**, **Benny Maupin**, **Mtume** and the man who gave Henderson his first musical break, **Herbie Hancock**. The first track, "Butterfly," is a beautiful and gentle song that soars smoothly with the help of Hancock's stellar keyboards and the six other tunes are also restrained gems.

SOFT SPACE — **The Jeff Lorber Fusion** — Inner City 1056 — Producers: **Jeff Lorber & Marlon McClain** — List: 7.98

The anxiously awaited second album by **The Jeff Lorber Fusion** represents a mature development from the band's critically acclaimed debut. With able assistance from guest artists **Chick Corea** and **Joe Farrell**, Lorber carefully synthesizes a number of different musical styles to arrive at a free-flowing, natural sound. Lorber's "Katherine" and "The Samba" are superb tunes that demonstrate this band's limitless potential. Could be the sleeper of the year.

LEE KONITZ NONET — Chiaroscuro 186 — Producer: **Hank O'Neal** — List: 7.98

Konitz' nine-piece group is similar in instrumentation to the classic **Miles Davis** band of 1949, but the musical thrust is certainly 1978. **Burt Collins**, **Jimmy Knepper** and **Ronnie Cuber** assist in the solo department and the charts by **Sy Johnson** and **Konitz** are well done. Best is **Charlie Parker's** "Chi-Chi," but as a whole the album is superb from start to finish.

LOVE FOR SALE — **Derek Smith** — Progressive 7002 — Producer: **Gus Statiras** — List: 7.98

This is a piano trio album by a musician whose playing has impressed everyone recently. **Smith** has a touch of **Peterson** in his playing, but throughout the six standards and two originals he swings hard and impresses as a thoroughly inventive player. Strong, straight-ahead piano!

UPTOWN DANCE — **Stephane Grappelli** — Columbia JC 35415 — Producer: **Ettore Stratta** — List: 7.98

Stephane Grappelli is a 70-year-old violin master, but he's still playing as exquisitely as when he first got into jazz after hearing **Louis Armstrong** in 1922. The title track, one of five featuring the famed "Rhythm Section," is a joyous number displaying **Grappelli** in a very contemporary setting, although the LP ingeniously mixes old and new songs into an outstanding package. But it's **Grappelli's** elegant violin that ties it all together — and remains in the listener's head long after the record has played through.

YOU CAN'T LIVE WITHOUT IT — **Jack Wilkins** — Chiaroscuro 185 — Producer: **Fred Miller** — List: 7.98

Wilkins is a young guitarist with plenty of chops and imagination. His second date for **Chiaroscuro** features the **Brecker Brothers** and rhythm in four stretched-out performances. There is plenty of blowing here and the album should be investigated by anyone with an interest in current players playing timeless music.

Opera Record Sales Benefit From Regional Productions

by Charles Palkert

Last year, an estimated 9.2 million people attended at least one opera in the U.S., and 68 major companies spent \$79.7 million on their opera productions.

Two weeks ago, **Cash Box** examined the increasing popularity of opera outside the established cultural centers of the nation. This week, in the second installment of a three-part series, **Cash Box** examines the impact of regional opera companies on local retail opera sales.

NEW YORK — Major classical labels have long considered New York, Boston, San Francisco and a few other major urban cultural centers as the primary, if not the only, markets for retail opera sales.

Yet, several cities boasting regional companies have, according to a **Cash Box** survey, experienced a dramatic opera sales surge. Rita Hubert, buyer for the Music Street/Wide World of Music chain in Seattle, noted that the presence of the Seattle Opera has "increased sales tremendously." Especially significant, Hubert said, was the effect of the Pacific Northwest Opera Festival. The Festival traditionally performs Wagner's "Ring" cycle, and the sales follow-through, Hubert reported, "continues all year, even though the Ring is just a summer festival. It's quite amazing."

Another sign of the regional company's continuing influence has been their participation in local in-store promotions. Hubert said that such promotions have boosted sales in Seattle, particularly appearances by well-known visiting opera stars like Joan Sutherland. In addition, Hubert said, TV appearances by opera personalities like Luciano Pavarotti have led to "appreciable sales rise" afterwards.

The 10-store Swallows chain in Cincinnati has also experienced an upsurge of sales in opera records. Jerry Petite, the chain's buyer, estimated that opera now accounts for slightly less than half of the chain's total classical volume of 7% annually. Petite noted a sales swing in the direction of younger buyers. "There seems to be an upsurge among younger people between the ages of 20 and 24," Petite said, "and it's been surprising to me that there was such a strong interest. But apparently

the Cincinnati Opera has really helped to increase local interest."

A prime example of a secondary market contributing to the opera sales boom has been Syracuse, New York. Caroline West, classical sales supervisor for the Discount Records store there, estimated that opera accounts for over 35% of "a very substantial" classical business.

She also cited the Syracuse Opera Company as an essential catalyst in the opera sales surge. "Customers are very much influenced by what the local company plays," West said, "and we do our best to maximize the effect by running a sale on whatever particular opera happens to be in town."

CLASSICS IN CONCERT

AVERY FISHER HALL, NYC — A recent performance of Bach's monumental Mass in B Minor was a mixed success, with the Musica Sacra Chorus under Richard Westenburg's direction outclassing any of the individual soloists.

Founded in 1973, Musica Sacra is becoming increasingly well known around New York. During the coming season, the choral group will offer performances at Avery Fisher of Verdi's "Requiem," Handel's "Messiah," an all-Vivaldi program, an all-Mozart program with soprano Elly Ameling as soloist, and Bach's "St. Matthew's Passion."

In the B minor mass, the choral work was very sonorous, well-timed and highly polished. Although Westenburg's pace in many of the choruses, particularly the opening Kyrie, was somewhat on the slow side, the broad, gracious tempo often opened new vistas of vocal beauty and revealed many subtle details in the score. One notable exception was the "Et incarnatus Est" and "Crucifixus" sequence in the Credo, which was so static that there was no sense of forward motion at all. However, the ascending, interlocking phrases of "Gratias Agimus" in the Gloria blossomed into a breathtaking climax, and the concluding "Dona Nobis Pacem" was a reverential sunrise of sound.

The best of the soloists was soprano Susan Davenny-Wyner, who has made a

CLASSICAL ALBUM REVIEWS

SATURDAY NACHT FEVER: 'Disco' Sounds Of 1830. Turabout TV 34741. List: \$3.98.

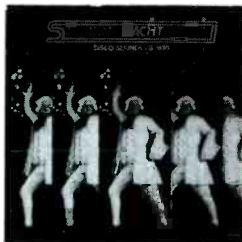

With its pop-oriented title and attractive cover graphics, this budget-priced album is designed to appeal to an untapped market of impulse buyers who would normally never think of purchasing a classical record. The name of the orchestra that performs the ten light classical selections here is purposely omitted from the jacket and liner notes; instead, the LP's presentation concentrates on the music itself, which includes Mozart's "Eine Kleine Nachtmusik," the Scherzo from Mendelssohn's "Midsummer Night's Dream" and several works by the Strausses.

PAVAROTTI: Hits From Lincoln Center. London OS 26577. List: \$7.98

The title of this one is a bit misleading: Although the LP does feature the selections which Pavarotti sang at his televised recital from the Met, the versions of those arias on this album were not recorded at the recital. In fact, seven of the 14 tracks here were culled from previous discs. Nevertheless, Pavarotti's singing never fails to delight.

CHOPIN: Concerto No. 2 In F minor: Trois Nouvelles Etudes: Scherzo No. 2 In B-flat minor. Emmanuel Ax, pianist; Philadelphia Orchestra, Eugene Ormandy, conductor. RCA ARL 1-2868. List: \$7.98.

This is the first recording Ax has made as a concerto soloist; but, to judge by its high quality, it will not be the last. Moreover, Ax displays a real affinity for Chopin's music. His playing is elegant and finely controlled, with plenty of strength and individuality. Most importantly, the pianist shows a sense of musical proportion that brings out the best in every passage.

CLASSICS IN CONCERT

specialty of singing with symphony orchestras. Although her liturgical experience has been limited, she delivered a consistently pure, lovely vocal sound, especially in her duet with tenor Seth McCoy. Her major difficulty with this kind of music, as revealed in the "Laudamus Te," is that her voice is not agile enough to handle the fioriture. In addition, she was hampered in a couple of numbers where she sang with inadequate altos. The featured soloist, Elaine Bonazzi, was unable to attend the performance, and several of Musica Sacra's altos took turns handling the solo parts. Three of these singers were vocally unspectacular and evidently unfamiliar with the music. The fourth, Lorna Meyers, was a bit flat in her rendition of the tragic "Agnus Dei," but, compared to the others, she was in a class by herself with her rich, vibrant tone and expressive delivery.

Bass John Cheek had the wrong kind of voice for "Quoniam Tu Solus Sanctus," which seemed to call for a more mature, deeper timbre. This suspicion was borne out when he did a fine job with "Et In Spiritum Sanctum," which is a more pastoral melody in a higher tessitura. Seth McCoy was at his best in the aforementioned duet with Davenny-Wyner, where he seemed to adjust his voice to suit hers. Elsewhere, despite his limited range and powers of projection, McCoy gave a satisfying account of himself.

The Mostly Mozart Orchestra was excellent throughout the performance. Special kudos to the woodwinds, who accompanied the soloists in many of the more intimate passages, and to the trumpeter and French horn player, who came through magnificently. It is always a pleasure to hear such a professional performance.

Black Music Assn. To Meet This Month

NEW YORK — The Black Music Association will hold its corporate government meetings at La Costa in Carlsbad, California, September 10-13. The distribution of by-laws, the ratification of existing officers, and the election of new officers will be conducted at the meetings. In addition, a general question and answer period for the industry trade publications will be held at noon on September 13.

KC HITS PLATINUM — At a recent party in Miami, Harry W. (KC) Casey and Rick Finch of KC and the Sunshine Band were presented with three platinum records for their "Part 3" album, the new "Who Do Ya (Love)" LP and for the single, "Keep It Comin' Love." Pictured (l-r) are: Jim Morey, vice president of the management firm of Katz-Gallin; Finch; Henry Stone; president of TK Records; and Casey.

ALLMANS REUNITE IN MACON — A surprise reunion performance by the Allman Brothers Band highlighted the Seventh Annual Capricorn Records Barbecue and Summer Games, which was recently held in Macon, Georgia. Relaxation and old fashioned southern hospitality were the other keynotes of the day as an international gathering of 2,000 guests enjoyed the festivities. In addition, an assortment of recreational activities were made available, including water skiing, volleyball, paddle boats and a pinball arcade. Pictured (l-r) are: Jaimoe, Gregg Allman, Dicky Betts and Butch Trucks. Not pictured is Chuck Leavell and Lamar Williams, who also participated in the Allman Bros. Band reunion. The band performed such classics as "Elizabeth Reed" and "One Way Out."

ing of rack jobbing in the midstream of the business."

During this period, Posner advanced within the Elektra family, moving from sales manager to general manager and then executive vice president. In 1973, after Holzman had left the company, Posner became president with David Geffen serving as chairman, bringing with him the Asylum label. Elektra had been acquired by Warner Communications which decided to form its own distribution arm combining Warner Bros., E/A and Atlantic. Together with the late Joel Friedman, then of WB and David Glew of Atlantic, Posner traveled across the country and built the landmark WEA distribution network.

WEA Founder

"It was a question of controlling our destiny," says Posner. "David and Joel and myself analyzed the sales patterns, manufacturing centers and geographical regions and devised a system of centralized distribution points. It took seven months of our lives to put it together."

While many within the industry felt that it could not be done, Posner traveled the country arranging warehousing space, office operations and the myriad of other components necessary to efficiently operate a farflung distribution system. Because of the revolutionary nature of the concept, Posner met more than expected resistance. However, the efforts of Posner, Friedman and Glew established the concept of "Superdistributors."

Also in 1973, Posner and Geffen, sensing the shifting winds of the music business, moved the Elektra/Asylum label to the west coast. In 1975, Joe Smith became the new chairman. Under Holzman, Geffen and Smith, Elektra was a prime contributor to another development in the music business — the growth of FM radio.

"We were in on the ground floor of FM because we sensed its importance for the album market," says Posner. "George Duncan at WNEW-FM was trying to reach a whole new audience and was meeting with mixed results. We supported him with advertising dollars because we had faith. With the advent of FM radio, the singles market began deteriorating. We went with the change."

Posner noted that whereas five or six years ago a solitary hit single created a smash album, two or three singles are needed to have that breakthrough for an album today. The last five years has also seen the growth of many different marketing, merchandising and promotional aspects of the business.

Changing Nature Of The Business

"The business has changed greatly," says Posner. "In some ways, I know aspects of the business that no longer exist because I had to wear different hats. Today, many jobs are compartmentalized and you cannot get the overview that working from the

street up helps you develop."

In his long tenure at the label, Posner has helped Elektra/Asylum branch out from an elite singer/songwriter roster image. In 1978, Elektra/Asylum's jazz fusion division under the leadership of Don Mizell has released 15 albums and taking an aggressive approach to the burgeoning genre. In addition, Posner reports that Elektra/Asylum is establishing a strong representation in the country music field.

"We are going into country with both feet, the legs and the whole body," says Posner, who adds that E/A will be announcing several major signings in the next several months. "Three years from now, we hope to do about \$40 million with country music." Although acknowledging that E/A has

KYNN Fest Celebrates Station's Anniversary

OMAHA, NB. — KYNN radio celebrated its first anniversary as a country music station on August 28. To commemorate the event the station promoted its first "KYNN 1st Anniversary Party" at a local amusement park.

The schedule of activities at Peony Park began with the Great Omaha Opry and bluegrass jamboree. In addition to game and contests like the old time fiddling contest and the balloon race, country entertainers T.G. Sheppard and Ann J. Morto headlined two shows at the KYNN celebration. The station broadcast the second show live, to its listeners who couldn't make it to the show in person.

Other attractions featured during the day long event included a haystack hunt, frisbee contest, a pie-eating contest and an egg-throwing contest. Various performances by local artists and groups rounded out the successful KYNN promotion.

Latin Picks

LOUIE RAMIREZ — Cottique JMCS 1096 — Producer: Louie Ramirez

Louie Ramirez is no new name on the scene. He has played with the very best in the Latin field and has been the producer for Fania Records for years. He has had success with other albums of his own, but here he outdoes himself cut after cut, demonstrating his versatility on different instruments. All arrangements are good, with top caliber musicians backing him in this album which features a tight rhythm section. The song "Something" has definite crossover potential.

OUT OF THIS WORLD — Tipica Ideal — Coco-CLPX 142X — Producer: Luis Ortiz

Coco always seems to come out with winners. In this album Tipica Ideal demonstrates they belong among the Charanga Families. The arrangements are fantastic and there are numerous solos that are truly excellent. The only change of pace in the album is a bolero called "LLuvia," sung by Victor Velazquez. Each cut is a gem in its own right. With good promotion it should go high on the charts.

MY OWN IMAGE — Luis Perico Ortiz — Turnstyle T-439 — Producer: Luis Ortiz

Luis "Perico" Ortiz has been around a few years, and finally he gets to debut his first album for Turnstyle. Perico has played with such greats as Tito Puente, Fania All-Stars and Mongo Santamaria. Latin, funk, jazz no matter what your bag is, you'll find the music Perico has assembled for this album is something everyone can dig. This is music for all people, featuring a dazzling array of all-stars on this session. All cuts are fine examples of first rate Latin jazz.

GOLDEN PAYOUT — The men and women who work on the assembly line at the huge Lowen-Automaten factory complex in West Germany paused for just a moment to be photographed with the firm's 500,000th payout machine, as it came off the assembly line. Although the factory produces a diversified lineup of amusement equipment for the international market and is a prominent overseas distributor of American made product, it is noted in the U.S. for its popular NSM phonograph models, which will be on display at the AMOA '78 convention.

Williams Swings Into Full Production Of New 'Disco Fever' Four-Player Pin

CHICAGO — With the accent on innovative design and technology, Williams Electronics, Inc. introduced its latest solid state four-player pinball machine, "Disco Fever," which is equipped with curved flippers, an industry first according to the factory, and the Williams two-way sounds system. The new model is currently in full production at the Chicago factory.

The machine's specially designed flippers provide new challenges for the player and the curved surface of these flippers allows the player to put "English" on the ball, which is another "pinball first."

Elaborating further on this feature, Williams' marketing manager Ron Crouse noted, "The unique flippers and contemporary theme of Disco Fever in both sight and sound will spark steady play and high profits. The ability to put 'English' on the ball with the new flippers and the increased repertoire of flipper shots will be a new test of the player's skill."

Sound System

The two-way sounds system, introduced by Williams on such earlier models as "World Cup" and "Contact," is also employed on Disco Fever. Every action area on the machine's dance-floor-themed playfield has an electronic synthesized sound which can be reproduced either in sounds similar to those heard on disco records or futuristic, science fiction-type tones. Operators can choose the selection by the simple flip of one switch.

"The sounds system, we feel, is yet another key attraction to Disco Fever," Crouse said. "The 'boogie' or science fiction sounds produced by the action on the playfield add further excitement to the total pinball experience. Based on our initial test reports, Disco Fever will be another 'hot one' from Williams."

'Disco Fever'

Among other features of the new model is the carry-over memory for the A-B and DISCO scoring options which enables the player to accumulate increased target values, bonus and multiple bonus opportunities.

The dazzling cosmetics of the machine, and particularly the backglass graphics, depict the popular disco craze, to further enhance the appeal of the new game. "We believe all of these features will make Disco Fever the newest rage on location," Crouse concluded.

Chicago Trade School Now Offering Course For Coin Machine Mechanics

CHICAGO — Through the combined efforts of area operators and distributors, working in cooperation with the Illinois Coin Machine Operators Assn., a comprehensive training course for coin machine mechanics has been instituted at Washburn Trade School, located at 3100 S. Kedzie in Chicago. Classes are scheduled to begin in early October.

The 47-week course, consisting of about five-and-a-half hours of daily classwork, is open exclusively to Chicago residents (since the school is funded by the city's Board of Education) and is part of the regular curriculum at Washburn, complete with a fully qualified instructor on staff to conduct the sessions.

Study will focus on all phases of repair and service, covering all types of equipment from coin-operated jukeboxes to the various amusement games, and the Chicago manufacturers have agreed to provide the equipment needed for classroom work. To assist in informing the local trade about the availability of the course, distributors have been issuing mailings and posting promotional material in their showrooms. All levels of the local trade are cooperating fully in the project, with the purpose in mind of ultimately providing enough trained mechanics to fill the needs of everyone.

On-The-Job Training

The classes are structured to allow students sufficient study time with a few hours to spare for on-the-job training, according to ICMOA president Kem Thom, a member of the group that laid the groundwork for the program. An operator can enroll a student and also allow that student the advantage of putting the training to practice, Thom explained. "We feel confident," he

said, "that when a student completes the course and is awarded a certificate, that individual will be qualified to go right to work."

William Lloyd is in charge of recruitment for this particular course and, for the benefit of interested parties in the Chicago area, he can be reached at 641-4862.

Vending Industry Profits Up 50% In '77, NAMA Says

CHICAGO — Average net profits of vending and food service management firms increased 50 percent last year compared with 1976, according to the annual Operating Ratio Report compiled from data submitted by member firms of the National Automatic Merchandising Association (NAMA).

Net profits before income taxes averaged 5.7 percent of gross sales in 1977, compared with 3.8 percent in 1976, said G. Richard Schreiber, NAMA president.

"All segments of the vending industry are in a healthy uptrend and 1977 shipments of vending machine manufacturers also achieved a new record in dollar volume, reaching \$289,596,000," Schreiber said.

Schreiber said preliminary reports so far in 1978 continue to reflect this upward trend.

The 184 companies which furnished data for the 1977 NAMA Operating Ratio Report represent a vended sales volume of \$1.45 billion, which is 14 percent of the estimated 1977 industry sales volume of \$10,686,000,000.

Dealers Unconcerned About Record Shack's Move To L.A.

by Cookie Amerson

LOS ANGELES — Record Shack, one of the nation's largest one stops, with offices in New York, Atlanta, Cleveland, Dallas and Paris, opened a Los Angeles outlet Aug. 28. Amid speculation that the move may signal a major shake-up in area wholesaling, **Cash Box** contacted president Ed Portnoy, who declined to comment on the company's plans. However, discussion with area dealers and an examination of a flyer that Record Shack mailed out to accounts gave some indication of the possible direction the company may take.

Sources familiar with the firm's operation in other cities noted that the usual policy is to employ several phone sales people who blanket the area with calls introducing new

product, discussing sales and generally urging the customer to try new product. One source, commenting on Record Shack's pricing structure, explained, "They offer approximately 25 titles that list for \$7.98 at the special price of \$4.19 per week, with about 10 of those titles being in the top 20 of the trade charts. They also offer two to three titles per week at the same list price for \$3.98, which is a considerable savings since in most instances the manufacturer's price is \$4."

While noting that Record Shack had set up offices in Compton, away from the hub of wholesale activity in downtown Los Angeles, sources indicated that local black dealers would be hardest hit by the move.

KINSMAN-DAZZ JOINS 20TH — A welcoming reception was recently hosted by 20th Century-Fox Records in honor of Kinsman-Dazz, a nine-member band from Cleveland, Ohio, to celebrate their signing with the label. Pictured (l-r) are: band members Les Thaler; Ike Wiley; Mike Jackson; Mike Calhoun; Bill Donnelly, executive vice president, 20th Century-Fox Records. In the front row (l-r) are: Ed Myers, of the band; Pat Glasser, director of A&R administration and Sonny Jones, manager of Kinsman-Dazz.

THE RHYTHM SECTION

KAREEM AND ALL THAT JAZZ — L.A. Lakers center Kareem Abdul-Jabbar and Love and Happiness Productions will present the first West Coast Jazz Festival, Sept. 8-10 at the Ahmanson Theatre in Los Angeles, and Los Angeles Mayor Tom Bradley has proclaimed Kareem Abdul-Jabbar/West Coast Jazz Festival weekend in honor of the event. **Rod McGrew**, president of Love and Happiness Productions told **Cash Box**, "In presenting this show we are attempting to add credibility to jazz as an art form, we want to take jazz out of the smoke-filled dim clubs it has so long been associated with, and allow people to recognize it for what it is, a classical art form." McGrew also explained "many people don't realize that jazz touches their everyday lives, it's theme music for cartoons, soap operas and several television shows, and we want to bring this fact to the forefront." The event will annually benefit an appropriate charitable organization, with this year's proceeds going to the Sickle Cell Anemia Foundation. The show will feature such well-known artists as **George Duke**, **Marlena Shaw**, **Freddie Hubbard**, **Chick Corea**, **Dee Dee Bridgewater**, **Stanley Clarke** and many more.

WHAT EVER HAPPENED TO... For those who have been wondering what is happening with Wendell Bates, MCA's national marketing director called to say he has been on a medical leave of absence from MCA since August 17. Bates will be going into the hospital for several operations in about a week, and is expected to be out of circulation for approximately four to five months. Mike Abbott, formerly with H&L records, has taken over Bates' position at MCA.

RADIO ROTATION — **Kelth Adams**, formerly PD at KDIA in San Francisco, stepped into his new position as national PD for Broadcast Enterprises Network, Sept. 5. Adams enthusiastically explained to **Cash Box**, "We will be doing some station upgrading where needed, as we have acquired some additional stations to our family. I don't foresee any major personnel changes, or shake-ups within our chain, we just plan to do very good radio." **Jerry Boulding** replaces Adams as PD at KDIA in San Francisco. Boulding was most recently at WVON in Chicago. **James Jack** is the new PD at WKND in Hartford. Jack was most recently on the air at OK100 in Washington D.C.

A HELPING HAND — **Jimmy Bee**, Bay area independent promotion man, recently took six bus loads of underprivileged children to an amusement park in Santa Cruz. With the co-operation and support of several of the record labels Bee works with, Bee was able to treat these children to free rides, lunches, and a great deal of fun. With the help of such labels as Casablanca, RCA, A&M, Arista and Warners, Bee is known for organizing several outings for underprivileged children and his turkey giveaways at holiday times.

BOUNCE BACK SOON — **Bootsy Collins** was hospitalized in restrictive confinement last Thursday in his hometown of Cincinnati, Ohio. Collins is suffering from a nervous reaction, and doctors have advised him to remain in complete seclusion.

Posner, E/A Vice Chairman, Typifies Model Record Exec

(continued from page 41)

shied away from R&B, Posner stated that "we will evolve into R&B and disco when we have the right vehicle and staff." With approximately 45 acts signed to the label, E/A is expanding yet remaining true to the concept of selective growth and maximum concentration on breaking artists.

'Biggest Kick'

"The biggest kick I get out of the business is breaking a new record," says Posner. "We spent substantial money on Warren Zevon and it is more of a thrill for me to break him than it is to sell another million of a hit act."

"Elektra is also interested in careers not just hit records. We look to the long run. My goal is to help map out a long and satisfying career for the artists on our roster."

Noting that this year has witnessed several comebacks by major artists of previous years, Posner is very excited about the new chapter in the career of veteran rocker, Joe Cocker.

"We believe in Cocker," says Posner, "and he delivered an incredible album. We shipped 350,000 units of the album ('Luxury You Can Afford') and we have high expectations that Cocker is back in a big way."

In addition to his vice-chairman responsibilities of the day-to-day operations of E/A, Posner also oversees the label's international division. Immediate plans call for a three-week tour of Hong Kong, Tokyo, Manila and New Zealand. With WEA operating 14 companies across the world, Posner feels that within three years the contribution of international is expected to equal domestic results.

After 20 years with Elektra, Posner continues to find his job challenging. "Some people reach a plateau and grow stagnant, but for me each day brings a new learning experience" he says. "The thrill of working with talented artists keeps me going. I have had a lot of offers but there is a certain magic at Elektra that keeps me coming back."

ESTHER IN NEW YORK — Esther Phillips recently appeared at the *Other End*, where she performed songs from her latest Mercury album, "All About Esther Phillips." Pictured backstage after the show (l-r) are: Jack Hooks, Phillips' manager; Sheryl Feuerstein, Mercury's national publicity director; Earleen Fisher, the label's northeast regional R&B promotion director; Steve Greenberg, New York local promotion manager; and Phillips.

Record Shack Opens In Compton

(continued from page 47)

But discussions with area wholesalers, such as John Johnson, owner of John's Music, a one-stop in Compton, revealed a "wait and see attitude" toward Record Shack.

"I've been in this area for 12 years," Johnson said, "and I am not concerned about a new operation coming in. I have heard rumors about them, including the fact that last year when they moved to Dallas one of the larger black dealers had to close up, but I don't see how they can affect my business that much because my customers have been coming to me for years and we have seen several operations come and go."

Another wholesaler offered the following observation: "I don't really feel there is a market for another big one-stop in this area. They are in an area that is 90 percent black dealers, but at the same time, they have situated themselves away from the crux of where wholesaling is prevalent. We don't really know that much about their operation and, frankly, we haven't given them much thought."

Perry's Planet Label Pacts With Elektra/Asylum

(continued from page 8)

1967. After leaving Warners in 1970, Perry's first project as an independent producer was Barbra Streisand's "Stoney End," widely regarded as a turning point in her career. Among the many other artists he has produced are Carly Simon, Ringo Starr, Harry Nilsson, Leo Sayer, Art Garfunkel, Burton Cummings, Diana Ross, Tiny Tim and Ella Fitzgerald.

Planet Records will debut with a late September release by the Pointer Sisters, "Energy." Perry says no more than five albums will be released during the company's first year. The label's temporary headquarters is at 9120 Sunset Blvd., Los Angeles.

A number of positions at the new label have already been filled. David Urso, former national promotion director of Warner Bros. Records, has been named vice president of Planet. Kathleen Carey has been tapped as director of artist development and publishing, and Robin Rinehart will be Perry's executive assistant.

TAVARES HONORED IN L.A. — Capitol recording group Tavares recently received an award from Los Angeles Mayor Tom Bradley for its contribution to youth groups around the country and also for its work with the McCobb Home for Boys in southern California. Pictured (l-r) are: Pooch, Chubby and Butch Tavares; Bradley; Ralph and Tiny Tavares.

Pickwick Steps Up Its Retail Openings, Shoots For \$1 Bil.

(continued from page 30)

cost Pickwick several million dollars over the next two or three years.

Meanwhile, the Rack Sales Division is testing the potential of in-store video promotion. Accounts will be given video playback units with brief concert footage of various artists whose records will be positioned beneath video monitors in record departments. Asked whether the rack division will eventually supply accounts with video units for sale to consumers, Paulson replied, "If we're requested by any racked departments to give them products that make sense for them and for us, we would certainly investigate it."

Smith expanded on this statement when he noted that, by 1983, "we will have established a history of continued evaluation and implementation of programs to position most effectively such new products as electronic software, video tapes and discs, electronic games, home computers and the dozens of other technological developments which will be presented to us in the next five years."

AmCan Presence

Hovering over all the seminars, meetings, speeches and informal discussions that took place during the convention was the knowledge that Pickwick is being strongly supported by its parent company, American Can. This fact was underlined by American Can president William Woodside in his speech to the convention. Woodside pointed out that AmCan's stock is "skirting a new high for the year," and that "our 1977

earnings got a big boost from you at Pickwick... Pickwick performance has exceeded our most optimistic expectations, with a 1977 profit contribution that matched the goals we had set with your management for 1981. Of course, as I assured our shareholders at the annual meeting, we have since raised our 1981 targets substantially."

'Major Impact'

Lionel S. Sterling, senior vice president of American Can, was no less optimistic in his statement to the convention delegates: "In this year you have made a major impact on American Can's profits and strategic objectives," he said. "Likewise, during 1978, American Can has supported your growth ideas with dollars, management resources, acquisition capital, and very enthusiastic backing... Additionally, the Goody team is on board, and Pickwick U.K. is standing on the doorstep of burgeoning world markets. American Can has confidence in your industry's future, its size, breadth, challenge and profit potential..."

Seymour "Cy" Leslie, who founded Pickwick 25 years ago, was also present at the convention. Reflecting on the changes that have overtaken the company, he said, "There's a feeling of pride that one can't convey in seeing a company grow from \$100,000 in its first year to over \$500 million in a growth pattern that was consistently on the rise. To see it continue that way is an exhilarating feeling. I've always had a love affair with Pickwick, and somehow it can never really be extinguished."

SHAKE BABY SHAKE — Columbia recording artist Hubert Laws is joined by his fellow CBS jazz associates following his concert at the Hollywood Bowl with classical flutist Jean-Pierre Rampal. Pictured (l-r) backstage are: Epic keyboardist George Duke; Laws; Dr. George Butler, vice president, jazz/progressive, A&R, Columbia; and Columbia trumpeter Freddie Hubbard.

T A L E N T

Electric Light Orchestra

ANAHEIM STADIUM — It was billed as "The Big Night," and the combination of the Electric Light Orchestra, three other hard rock acts and one of the year's most spectacular special effects exhibitions more than lived up to that billing. With the help of a six-figure party thrown by Jet Records and the enthusiastic response of about 50,000 fans, "The Big Night" was one of the most enjoyable stadium concerts in recent memory.

Complementary side-shows are now common at stadium concerts around the country, but for ELO the side-show was closer to a circus. There were skydivers, trapeze artists, tightrope walkers and fireworks for starters, but the center ring featured Tony Curtis enacting a "Star Wars" shoot-out with stunt men perched atop the speaker system, while a flying saucer, just like the one on "Out of the Blue," hovered overhead (suspended from an unlit helicopter).

But despite the stunning theatrics, the highlight of "The Big Night" was when the spaceship on stage launched its top half in the air, revealing Jeff Lynne and company. ELO, perhaps inspired by the spectacular warm-up, came through with an excellent 90-minute show featuring most of the group's biggest hits, including "Turn To Stone," "Strange Magic," "Sweet Talkin' Woman," "Evil Woman" and "Do Ya."

The complementary effects continued during ELO's show, with lasers and a rear-stage movie screen offering closeups of the band members that enabled the huge audience to see the performers in action. But the music was still the main attraction. ELO's vocal harmonies, powerful yet melodic guitar riffs and outstanding string players add up to top-flight rock 'n' roll. By the time the group did its encores "Livin' Thing" and "Roll Over Beethoven" — it had performed the nearly impossible feat of outshining the spectacular effects that preceded them.

Also preceding ELO were three heavy-metal bands, Trickster, Kingfish and Journey. All three did good jobs of entertaining the crowd that came primarily for the ELO show, especially Journey, which has become one of the best festival bands around.

Joey Berlin

Ray Charles

LONG BEACH TERRACE THEATER, CA — About a third of the way through Ray Charles' first concert here in years, he stopped the show for a few moments when someone shouted out a request, telling the fan, "I can't play a request for Mary unless I do it for John and Bill and Charlie, too."

But after his 90-minute set, there probably wasn't a John or Mary or anyone else in the audience who went away without hearing their favorite songs or style of music.

Charles is one of the handful in the business who is truly worthy of the title "musical genius" because he has such a keen understanding of virtually all its forms. With the exception of classical, he demonstrated them all.

Backed by his 17-piece Ray Charles jazz band, "brother Ray" spent most of his time with R&B, jazz and the blues, but also ventured into pop, rock and, in what was one of the evening's bigger surprises, a solo electric piano version of Merle Travis' "Steel

Guitar Rag." A surprise to many perhaps, but then it was Charles' country albums that turned millions of ears on to Nashville that might never have listened otherwise.

Vocally, Ray has never been in better shape. Even though his classic "Born To Lose" is more than a dozen years old, his performance of it was soul-wrenching, bringing out every ounce of pain in the song. And there may not be anyone who could more effectively project the almost hopeless resignation of "I Can't Stop Loving You."

It is reassuring in a time when five years is considered a long time for an artist to be productive, that someone with the talent of Ray Charles, after almost 30 years, can still be as creative and compelling as Ray definitely is.

Doc Severinsen

SANDS HOTEL, LAS VEGAS — Opening with the soaring "Star Wars Theme" which segued into the disco-flavored "Manhattan Skyline" (from "Saturday Night Fever"), Doc Severinsen and his band performed an engaging, entertaining set which showcased the diverse musical talents of this co-star of the Tonight Show. Both as a trumpeter and surprisingly capable vocalist, Severinsen during his concert covered extensive territory within the contemporary music field, ranging from disco to jazz to rock and even country and bluegrass.

On such numbers as the rocking "Kansas City" and the country/pop-styled "Stop And Smell The Roses" (which was composed by Severinsen and Mac Davis), Severinsen comfortably handled his vocal duties, providing an enjoyable change of pace away from the many trumpet-led instrumental numbers which dominated the show. Nonetheless, it was the horn man's virtuosity and dexterity on his trumpet which clearly highlighted the evening. On "Flight Of The Bumblebee," Severinsen displayed both his ability to hit an array of squealing, high-pitched notes and demonstrate his extremely rapid-fire trumpet approach, while on the ballad "Evergreen" the band leader exhibited his expertise on playing more controlled, romantic figures.

Toward the end of the set, Severinsen introduced the country-western side of his musical interests, performing "Your Cheatin' Heart" before launching into "Dueling Banjos" and "Orange Blossom Special," which spotlighted an innovative series of exchanges between Severinsen's trumpet, a banjo picker and a fiddler.

Opening the show at the Copa Room was pop singer Jack Jones.

Fandango

THE WHISKY, L.A. — Fandango! The name evokes fervent dancing, torrid romance and balmy nights in Madrid. Fandango is, however, non-stop rock 'n' roll from seven gorgeous rockers at the Whisky on Sunset.

With audience and band concentrating primarily on the serious business of rocking-out, Fandango's set opened with "Sure Got The Power," a straight-forward number illustrating exactly what the title implied. "Sherie" a moody song of unrequited love, followed and spotlighted center-stage vocalist and guitarist Joe Lynn Turner. Dancing in the streets of New Orleans was the subject of "La Rue," a lively song featuring an electric grand piano solo. Vocal solos

from Bobby Daniels on bass and Rich Blakemore on guitar made "I Keep Going On/Hard Bargain" a testimony to the depth of vocal talent in this band. The exuberant encore was "Give It All Up For Love."

The blend of guitar and vocal harmonies with double keyboards (Larry Dawson and Danny LaRue) and drums plus percussion (Lou Mondelli and Santos) gives Fandango a great full sound, thanks also to sound man Ken Newman. All other things said, though, Fandango is a fun band that makes you feel like dancing and that's what it's all about.

Geisha made their Whisky debut as the support act and did more than hold up their end of things. A high energy trio plus sax, Geisha has a distinctive sound with great original material, as well as being visually intriguing.

"Shadow Boxing," a sleazy rocker, "Mambo Colombo," a raunchy "Do You Love Me?" and "Don't Believe What They Say" were the most memorable numbers. Band members are Jeff Gibson on guitar, Gabriel Robles on sax, Rich Webb on bass and Rob O'Reilly on drums. Hurry and see this band in a local club because they're soon destined for larger venues.

The Cars

ROXY, L.A. — With The Cars' debut album, produced by Roy Thomas Baker, making a heady drive to the top of the album chart, the recent Roxy performance confirmed a growing rumor: Cars is the finest new rock 'n' roll band of the year.

"Top down music in a hard-top world" is one description of the vigorous and intriguing brand of rock played by this Boston-based quintet; but, adjectives aside, what makes Cars an important new band is the quality of the writing and the band's ability to deliver in concert the triumphs of the album.

With lead vocals being shared by Ric Ocasek on rhythm guitar and Benjamin Orr on bass, Cars played all the material on the debut LP. Unlike many bands whose material tends to merge and ultimately sound indistinguishable, Cars' songs have striking contrasts.

"I'm In Touch With Your World" has a strict staccato guitar and drum beat which bears the influence of Bowie and Eno. "My Best Friend's Girl" has a smoother "American rock pop" feel reminiscent of Buddy Holly. Throughout Cars' material, the guitar lines are clear and concise and delivered with maximum punch. The vocals are unusual and emotionally impressive. David Robinson on drums provided much of the varied rhythmic inspiration. Elliot Easton came forward and seized the audience's attention with his lead guitar work while Greg Hawkes provided strong synthesizer colorations. In many ways, Cars is the first band to commercially and creatively combine the best elements of power pop, Euro-rock and good old American rock 'n' roll.

Local rockers, The Pop, opened the show with a crunchingly loud set which included some promising material.

Murray The K's Brooklyn Fox Reunion

THE PALLADIUM, NYC — Murray Kaufman's assembly of talent for his first annual Brooklyn Fox reunion brought together

some of the most popular musical sounds to have emerged in rock and roll, soul music, rhythm and blues, and street corner harmony in the past 20 years. And, though the usual nostalgic cliches abounded throughout the performance, Kaufman (better known as the "fifth Beatle") could not have arranged for a better historical sampler on a hot summer night.

For the Ronettes, producer Phil Spector forged a sound commanding enough to make "little boys feel like men and grown men feel like little boys," according to Kaufman, and the trio's brief set did just that. Slithering across the stage in a simulated tigerskin body suit, Ronnie Spector led her cousins Nedra and Estelle through versions of "Baby I Love You," "Walking In The Rain" and "Be My Baby" — the classic Phillies records that broke so many male hearts. Though one yearned for the "wall of sound" instrumentation that characterized their hits, Ronnie's spirit more than compensated for the house band's lack of conviction.

Jan and Dean's first New York appearance in eight years (excluding their first reunion performances following Jan's near-fatal auto accident in 1966) drew repeated ovations from the crowd. With help from their own back-up band, the duo sang their best known L.A. hits, including "Surf City," "The Little Old Lady (From Pasadena)" and "Barbra Ann." In spite of his accident, Jan proved that he could still hit the high notes.

Resurrecting "the sound of young America," the Four Tops also brought their own rhythm section along for a medley of their many gold Motown greats, like "Reach Out I'll Be There," "Standing In The Shadows Of Love," "Baby I Need Your Loving," "Bernadette" and "Walk Away Renee," wherein Levi Stubbs' glorious vocal delivery helped the group relive its hits with a soul-stirring fury.

John McLaughlin

DR. PEPPER FESTIVAL, CENTRAL PARK, NYC — John McLaughlin, celebrating his return to the electric guitar, unveiled his new electric ensemble, The One Truth Band. to his fellow New Yorkers, and also proved that his mastery of the guitar is unmatched within the realm of contemporary European-American music.

By opening with his classic "Meeting of the Spirits," McLaughlin invited comparisons with his former electric aggregation, The Mahavishnu Orchestra, and, unfortunately, The One Truth Band does not meet that group's Olympian standards. However, the violin playing of L. Shankar was absolutely sensational, and supporting members Stu Goldberg on keyboards, T.N. Stevens on bass, and Sunshine on drums all displayed remarkable skill. One day they may jell as a cohesive working unit.

McLaughlin himself has re-embraced the electric guitar with a vengeance, evidenced by his current Columbia album, "Johnny McLaughlin, Electric Guitarist." His notes were laid out in incredibly rapid succession, and he seemed to display a more pronounced John Coltrane influence than in the past as he alternated screaming linear melodies with gentle, spacious harmonies.

The concert's highlight, a raga-modeled duet between McLaughlin and Shankar, was also a reminder of McLaughlin's previous group, Shakti. Both the guitarist and the violinist utilized the Indian harmonic mode to its absolute limit, and then shifted into high gear, leaving an enthusiastic Central Park audience breathless.

telephone interviews combining one and seven-day responses. One person is randomly selected from each surveyed household and responses are entered directly into the computer, whose constant error-control mechanism increases TRAC 7's accuracy, according to Gibson. TRAC 7 also employs bilingual interviewers.

Gibson said that his service will operate 48 weeks a year, issuing trend reports seven days after responses are taken.

Burke

Burke's Alpert stressed the unique categories of data his service will make available to its clients. These include listener income, occupation and education as well as shopping habits from department stores to newspapers. Alpert also pointed out that Burke, with 33 telephone centers planned around the country, will be the largest commercial user of telephone lines in the U.S.

"We will be doing 48 weeks of measurement in the top 50 markets by the end of 1979, with quarterly and monthly reports having time lags from calls to reports of about two or three weeks," Alpert said. "But we'll be starting off with offices in New York, L.A. and Chicago and surveys of the top 20 markets."

The Burke research methodology uses a "+1" technique for covering listed and unlisted telephone numbers. This technique involves adding one digit to the final number of a telephone listing, and Alpert says it has delivered a remarkably high percentage of unlisted households in test surveys. Burke will measure "yesterday listening" of its respondents.

RAM Research

RAM Research president Jack McCoy made his company's pitch. RAM installs computer terminals in the offices of all its clients and makes 60 to 80 computer programs available for the stations to utilize the data RAM collects. Through this method of data utilization, daily, weekly and yearly information is always at the decision maker's fingertips.

"It took us 14 months of sample surveys before we began making our data available to ad agencies and stations," reported McCoy. "We originally wanted to do telephone research, but we had to switch to diaries for accuracy."

Media Statistics

"There are three things that should never be seen while they're being made: laws, sausages and audience research," joked Jim Seiler, president of Media Statistics,

during his explanation of MediaStat's methodology. Before founding MediaStat in 1965, Seiler was one of Arbitron's founders in 1949.

MediaStat measures same-day and previous-evening listening via telephone surveying in 16 markets monthly and 225 markets less frequently.

Also on the panel was Dale Bennett, president of Professional Research Services, who noted, "We are without doubt the smallest company on the panel, but we are also the least expensive. PRS is affordable for small market broadcasters, markets with 50,000-75,000 people."

"Every station should have a survey done at least once a year to see where they're at in the market," insisted Bennett. "We design surveys around what the station wants to know that are written up in easy to understand language."

PRS uses a random telephone survey method of retrieving listening information, with both coincidental ("What are you listening to now?") and recall ("What did you listen to earlier?") measurement. PRS also includes copies of its call sheets in all its reports.

ASCAP And Radio Operators Agree On Licensing Contract

(continued from page 8)

1.725%, there will be a new 15% standard deduction available to all stations, regardless of size, in lieu of itemized deductions. (The prior blanket agreement permitted a 5% optional standard deduction that was not available to large stations.)

The agreement contains a number of important new features. These include a new definition of a program and a base fee equal to four times the station's highest one-minute rate card. This fee will authorize all incidental performances, including those that are used as background to announcements, and will replace the former 2% fee. The second part of the fee is for programs that contain feature performances of music in the ASCAP repertory and is three times the blanket fee in place of the former rate of 8%. A station will not have to report feature performances that include compositions in the ASCAP repertory if it advises ASCAP in advance that the program includes performances of ASCAP works.

These agreements were reached in principle last week, and lawyers for both sides are currently drafting contracts that will be submitted to the Southern District Court of New York for approval. The negotiations were led by ASCAP president Stanley Adams and Abiah A. Church of Storer Broadcasting Co., chairman of the All-

communicate it."

Galuten also has very definite ideas on the way a song is heard by the public, and the way a record should communicate to its audience. He calls it "the ability to communicate with the 50th percentile in an ambient environment," meaning that the music can be relatable to the average person on a noisy street.

Richardson, the technician of the duo, discussed the production of the Bee Gees. "What we gave them," he said, "was sonic expression. In other words, lots of bass, bass drum, and rhythm. As a result, the engineering is tricky, because the vibrato is thick. And Barry's falsetto is delicate too, because he gets way above the middle range of most modern electric instruments."

And both producers stressed the importance of "psychological honesty" in the studio. As Galuten summed up, "if you don't establish it, you might as well go Cash Box/September 9, 1978

Blackbyrds Establish New Scholarship Fund

NEW YORK — Fantasy recording artists The Blackbyrds recently held a reception at the Hyatt Regency in their hometown of Washington, D.C. to announce the inauguration of the Blackbyrd Scholarship Fund, as well as the opening of Gus Productions, headed by Blackbyrd drummer Keith Killgo.

The Blackbyrd Scholarship Fund was founded by the group to promote academic excellence among the students of Howard University's Duke Ellington School for the Arts, and to assist a graduating senior to continue his or her educational career in the arts. Ellington graduate Renee McDonald was the first recipient of the \$1,000 award, which will be presented annually based on an election by the graduating senior class. The five Blackbyrds form the fund's board of trustees.

Gus Productions was formed to aid in the preservation of black art and the creation of black business in the Washington metropolitan area, and will organize workshops for students in various schools.

MCA To Launch Large Campaign For 'The Wiz' LP

LOS ANGELES — In support of its forthcoming soundtrack album release of "The Wiz," MCA Records is launching an extensive marketing and promotional campaign. The two-record set, which carries a list price of \$14.98 and will be shipped platinum by MCA September 11, will be boosted by widespread radio, television and print advertising, an array of merchandising display materials, promotional appearances by the movie's four leading characters, and the film's several premieres across the country.

Bob Siner, vice president of marketing for MCA, stated that "The Wiz" campaign has been in the works at the label since early this year. "We've been working on 'The Wiz' campaign for about six months now, planning each facet of the campaign, seeing clips of the movie and getting a feeling for the project," said Siner. "It's a massive, mass appeal project. The album definitely stands on its own as a purely musical work, and we're looking for a great amount of sales even prior to the film's opening in late October."

Promotional materials for the album include 4 X 4 posters, mobiles, dump boxes which hold about 50 albums, die-cut stand-ups of the four characters, banners, "The Wiz" stick pins, an 18-month calendar which includes picture shots from the movie, and video footage for in-store use which features some of the film's production numbers.

For advertising purposes, MCA is purchasing a large variety of radio spots that will cover all contemporary formats with the exception of country music. In addition, the label will advertise extensively in both trade and consumer publications.

A series of promotional appearances by the film's four characters has been planned, including several "Wiz Days" ceremonies at shopping malls throughout the country. Also, there will be a float in the Macy's Day Parade on Thanksgiving Day which will showcase "The Wiz" and its characters.

Tweedle's Opens Knoxville Stores

ATLANTA, GA. — Tweedle's, a new store concept for retail records and tapes, is set to open Sept. 22 in two Knoxville, Tenn. locations.

According to Phillip Tweedle co-founder of Tweedle's, the store's fantasy type atmosphere will be matched with some of the lowest prices in the market. Tweedle's everyday prices on \$7.98 list albums will be \$4.89. Sunday and Monday album specials will send prices down to \$4.59. "Centerstage" album specials will be featured on a weekly basis for \$4.39. Tweedle's will also be running weekly label catalog sales at \$4.44 per disc.

Tweedle's will be located in the Western Plaza Shopping Center with 14,500 square feet of floor space. The U. of Tennessee campus location will house 6,000 square feet, evenly divided over two floors. A third store in the Knoxville area will be readied by Thanksgiving, with 11 additional outlets within the year opened in Nashville, Chattanooga, Birmingham, Ala., and Louisville and Lexington, Ky.

Tweedle's opening record and tape inventory in Knoxville will run close to 900,000 units valued at \$3.4 million. Tweedle's will be open seven days a week with extended business hours.

Tweedle is also bringing back the concept of the listening room. "We feel our customers ought to be able to listen to a record or tape before they buy it, so we are bringing back listening rooms. The Western Plaza Store will have three and the campus location will have two," Tweedle said.

"Tweedle's is a return to everything a record store used to be, plus a lot more," Tweedle added. In line with this policy, Tweedle's will institute an "out-on-a-limb" rule in which any customer dissatisfied for any reason with his purchase may return it for a full cash refund.

In addition, Tweedle's will be sponsoring a concert series, kicking off with Jimmy Buffett and the Amazing Rhythm Aces in the Knoxville Coliseum Sept. 30. Tweedle's plans to bring Heart, Linda Ronstadt, Foghat, Meat Loaf, Dolly Parton, Barry Manilow and Karla Bonoff to the Knoxville area in the future.

Indie Labels Try To Get Product Into Tower Chain

NEW YORK — Independent record companies distributed by Pickwick in southern California are continuing their attempts to accommodate the Tower Records chain which is boycotting Pickwick (**Cash Box**, Sept. 2).

All three major labels that are solely distributed by Pickwick in California, Arista, London, and Chrysalis, are reported to be nearing an alternative agreement which will enable them to get their product to Tower. Other arrangements have already been worked out by Butterfly, Mushroom and 20th Century-Fox, whose dual distribution system allowed them to supply Tower through their northern California distributor while retaining Pickwick for the rest of their accounts.

Russ Solomon, president of the Tower Records chain, told **Cash Box**, "Chrysalis and Arista will be taken care of by an independent distributor who has no affiliations as a rack jobber or retailer. There is no answer from London at this particular date, although we expect something momentarily. I don't want to reveal the firm's name at this time, because we have not yet begun to do business, but we will begin as of next week. This has been taken care of with the blessings of all the labels involved."

A spokesman for a major California distributor also asserted, "There are some conversations going on right now, and I'm sure we will wind up with London. Chrysalis and Arista are possibilities as well."

Elliott Goldman, executive vice president of Arista, could not confirm his company's position. "I know that Lenny Scheer (Arista's vice president of sales and distribution) has been talking with Pickwick and Tower, but I don't think that anything definitive has been reached yet."

Spokesmen for London and Chrysalis were not available for comment.

Sept. 1 and continues into October with a second order period. The entire catalog, including the latest ABC releases, is part of the program for which ABC is giving accounts an eight percent discount off invoice. Product released after the program begins will be part of a separate "new release" program. Dealers are given 30 days additional dating on their orders.

A&M Records' plan includes about 40 titles on which a six percent off invoice discount is applied. A&M's dating is 90 days for payment.

Chrysalis Records' program, administered through its independent distributors, gives accounts two months to place orders, from Aug. 28 through Oct. 25. Dealers can receive a six percent deal, in the form of free goods, on the entire Chrysalis catalog. New releases are excluded from the program.

Arista will include in its program new releases by Al Stewart, Eric Carmen, Lou Reed, the Grateful Dead and possibly a Barry Manilow greatest hits package in addition to "hot" catalog items.

It also includes R&B product, to which a 10 percent discount is applied, in addition to pop product, which is subject to a six percent deal. The program runs from Aug. 25 to Oct. 25 and dating is split into thirds, with the first third due in December the second third in January and the final third in February. Vancouver Is Major Center For Canadian Music Scene

by Kirk LaPointe

VANCOUVER, BRITISH COLUMBIA — "Although Toronto and Montreal seem to get all the attention when one discusses the Canadian music scene, there's no doubt that Vancouver is musically the most important city in the country at the moment."

Those are words of Bill Henderson, co-founder and leader of the Vancouver-based Mushroom recording act Chilliwack, a veteran of the music business for over a decade. While there are many in the eastern part of the country in disagreement with Henderson's opinion, few can deny that Vancouver has come of age as a haven for rising rock talent this year.

At present, five Vancouver-based artists — Trooper, Nick Gilder, Chilliwack, Stonebolt and Prism — have singles charted on the **Cash Box** Top 100. Four of those acts — Trooper, Prism, Chilliwack and Stonebolt — have albums charted in the Top 200.

Apart from the obvious musical reasons for the latent success of these recording artists, those surveyed feel that there are other important factors affecting the rapid progress of the "Vancouver scene" this past year.

Good Facilities

Ray McGuire, lead singer for MCA artists Trooper, says that the environment for recording in Vancouver has greatly influenced the area's recent successes. "There are some excellent recording facilities in the area, like Can-Base and Little Mountain studios, which have attracted excellent engineers to the area. But the most important thing out here," he adds, "is the attitude. We are heavily influenced by our proximity to Los Angeles, and the professional attitudes there have rubbed off on the bands in the area (of Vancouver)."

Mushroom recording artist Jerry Doucette, whose debut disc achieved platinum status in this country, while being charted in the Top 200 earlier this year, concurs with McGuire's assessment of the situation. "I think that the acts in Vancouver worry more about breaking into the Los Angeles area than they do about breaking into the Toronto or Montreal market. A lot of that has to do with the east's reluctance to accept our acts with open arms. That isn't meant to sound bitter, but I think that if an act can find more interest in, say, Atlanta or

Chicago, they should go out and get it, and I think that that is what the Vancouver bands have done."

Touring U.S.

Rocket Norton, drummer with Ariola America (GRT in Canada) artists Prism, says that touring in the United States matures a band much more rapidly, as well. "It's strange, but after we recorded our first album, we hadn't even played together as a group in Vancouver. All of a sudden, we were out touring in the U.S. with Styx. Now, I'd say that that one long stretch of touring has toughened us up, made us into a well-oiled machine. The best thing about the Vancouver groups is that they aren't afraid to go out and take a stab at the American market."

Bill Henderson of Chilliwack agrees, adding that the "Vancouver approach" differs greatly from that of bands from eastern Canada. "There appears to be so much pressure for bands from Toronto or Montreal to be absolutely perfect before they take their act south of the border. Consequently, a lot of bands appear to be burning themselves out playing bars in those cities, when they should be out on the road playing. Crowds aren't that different in Albany, New York than they are in Hamilton, Ontario."

Motown Inks Astor Deal

LOS ANGELES — Motown Records has signed a licensing agreement with Astor Records of Australia. The long term distribution deal goes into effect October 1 of this year.

Announcing the agreement, Motown president Barney Ales stated that he had been most impressed with Astor's aggressive distribution and marketing techniques in Australia and anticipates a long and profitable relationship for both companies. Rex Barry, general manager of Astor Records, was in Los Angeles for the signing and commented "We are delighted to be representing such a major independent as Motown in Australia and we are looking forward to establishing Motown and their artists as a major force in our fast growing record market."

In late September, Motown's International Director Lee Armstrong will travel to Melbourne and Sydney to introduce Motown's new release and catalog product at a series of retailer and radio personnel meetings.

GREASERS — Brian O'Donoghue, managing director of R.S.O.(UK) and dj Alan Freeman recently hosted a special screening of the film production, "Grease." Among those invited to the screening were industry promotion executives who were requested to appear in 50's style clothes. A competition was held for the best "50's Look" and the top prize was awarded to Judd Lander of CBS. Pictured (l-r) are: Kathy Collins, dancer; Alexander Sinclair, head of publishing, RSO Records; Ashley Newton, RSO executive; Tony Dilson, dancer; Joan Davis, dancer; Judd Lander, CBS promotion executive; Jackie Baron, dancer; O'Donoghue; Freeman; and Maurice Gallagher, Polydor executive.

Velona Named VP WEA International

FLORENCE, ITALY — Giuseppe (Pino) Velona has been elected to the post of vice president, WEA International, according to Neshui Ertegun, president of the company. The announcement was made at the 1978 Sales Conference of WEA Italy. Velona has been serving as managing director of WEA Italy, based in Milan, and will continue those duties concurrent with his new position.

Giuseppe Velona

In making the announcement, Ertegun said, "Pino's contributions to the growth of WEA International are immeasurable. In a few short years, he has organized and staffed a new record company and developed it into a major factor in the national market. Reflecting this growth, WEA Italy has expanded and relocated to its own buildings in Milan, with its own exclusive warehousing and distribution operations.

"Under Pino's supervision, WEA Italy is not only scoring big successes in the marketing of international product but his company is also building a most impressive roster of Italian artists."

A&M Initiates Extensive Promo Push For Styx

TORONTO — A & M has initiated an extensive marketing and promotion program to coincide with the Canadian concert dates and new album release by Styx, called "Pieces Of Eight."

The "Styx Programme" took effect August 15, and applies to the entire Styx catalogue on A&M. It gives retailers a percentage discount on all selections, both albums and tapes. Each account will be allowed one order only, and in support of the program, extra place-of-purchase material is being made available.

Concurrently, A&M of Canada Ltd. is issuing a "special gold vinyl" series on the entire Styx catalogue, with specially-marked limited edition jackets.

A&M's national sales manager for Canada, Bill Ott, reports that advance orders on the new album and the gold series have been "tremendous" adding that "Styx has always been very strong in this country."

The band has been a long-time favorite in Canada, achieving star status in both Toronto and Montreal before duplicating their successes south of the border. Their last three albums on A&M have achieved multi-platinum status, and their recent CNE Grandstand show was the first show to sell out, ahead of other performers like Foreigner, Heart, Shaun Cassidy and Dolly Parton.

NEW YORK — RCA Records has launched an extensive campaign to promote the release of "Rockollection," an international best-selling record by Lournat Voulzy.

LONDON — Rumours are circulating around London this week that Private Stock is about to fold its UK independent operations to join EMI with a label deal.

Currently on show at the London ICA Gallery is an exhibition of Who paraphernalia put together by fans as a tribute to the band's 15-year existence. The show includes press-cuttings, slides, equipment, clothes, films etc. Coinciding with the exhibition is the release of the long-awaited Who album, "Who Are You."

Launched at two major Hi-Fi exhibitions this month in Dusseldorf, Germany and Harrogate, England, is the "Microniser" by Metrosound. The Microniser is a hand-held cleaner containing approximately one million very fine carbon fibers which are a by-product of atomic research. Use of this device effectively reduces static charges from the surface of records and enables harmful deposits to be brushed away at the same time.

Robert Palmer is set to make his British debut as a solo performer, playing London's Hammersmith Odeon on September 12 and 13.

WEA has increased the cost of albums and singles due to overall cost increases in every facet of the company. The increase is effective from August 29. Singles rise from 80p to 90p; full price albums from 3pounds 79p to 4pounds 39p; De Luxe albums from 4pounds 49p to 4pounds 99p; double albums from 5pounds 99p to 6pounds 99p; De Luxe albums from 6pounds 49p to 7pounds 49p; three-album packs rise from 7pounds 99p to 8pounds 99p. Tape margins are now adjusted to a dealer margin of 30 percent while records remain at 33 percent.

Virgin Records this week followed WEA's action of last week by announcing price increases, effective Sept. 1. According to the Virgin Press-office, main reasons are rising costs and, "an overwhelming desire to copy our competitors."

Following on the heels of EMI, WEA and Virgin, CBS, PYE, DJM, and Chrysalis have raised product prices. . . . **The Crusaders** set to make a 9-date English tour next month. The quartet's last highly-acclaimed appearance here in July 1976.

Joan Baez performed here at Wembley (Aug. 20) in what was her only major U.K. appearance this year. Singing before a capacity audience, she began her set with what can be best described as her political songs, which included her singing an Arabic and an Israeli song. She finished the first half with a moving version of "Swing Low Sweet Chariot," sung a cappella. The second act brought old favorites and some new songs.

Quinteto Violado, one of the most important local folk groups released a new LP (phonogram) and also at this moment is producing a live show at the Theater Clara Nunes. This album "... State Music Inks Publishing Deals For Globe Rep.

LONDON — State Music has concluded several international sub-publishing deals aimed at strengthening the company's representation around the world.

Expired Deals

According to Brian Oliver, deputy managing director, "All of our State Music international sub-publishing deals have expired. We have taken our time deciding whether to renew or go to someone else in each territory. Ideally, we have tried to ally ourselves with small, aggressive independent publishers — with similar ideas as ourselves. We have been purposely signing and developing writers with international potential. Consequently we have gone with the sub-publishers whom we feel can offer our writers plenty of activity in each territory."

Agreements

State has concluded sub-publishing agreements with; Editions Claude Pascaï (France); Attic Music (Canada); Air Music (Scandinavia); New Dayglow Music (Holland); Hans Kusters Music (Belgium); Intro Music (Germany — Austria — Switzerland) and Yackamo Music (South Africa).

State is still seeking representation in the U.S.A., Australia, South America, Latin America and Israel. State Music is hoping to conclude deals shortly.

there will be a Music Fair in Buenos Aires, covering musical instruments, records, sound equipment and related industries. Up to now it has been impossible to organize a record exhibition due to prices of the two available places for such events. However, the book industry has been staging them successfully every year, in spite of its smaller volume of sales . . .

Microfon is planning the release of a new album of its "Los Exitos del Amor" series. It would be the fifth one, and its appearance has been delayed by the continued sales of the fourth volume, which reached figures in excess of 60,000 in spite of the weak state of the market . . .

The CBS execs that attended the Los Angeles convention have returned to Buenos Aires and report excellent results for their work. Labels, Plants Gearing For Year-End Pressing Crunch

(continued from page 8)

and into the holidays. Most of the LPs pressed this summer were catalog items, Barone says, which he has just begun to ship to warehouses for sale in the fall.

Richard Wagner, United Artists production manager, says although the label has less LPs scheduled for release during the upcoming holiday season than it did last year, production is far ahead of 1977.

"We're three months up front now," Wagner says. "Normally we'd be worrying about something that is going to be sold in December in the middle of November. But this year, right after the fourth of July we were already into October, November and December."

At MCA's pressing division, which handled a substantial percentage of the Presley and Crosby catalog pressing last year, Dave Westbrook, vice president of manufacturing says, "We geared up the whole factory earlier this year than we have ever done before."

"We were really caught up in the crunch last year," Westbrook says, "so we geared ourselves up early to maximize our force of

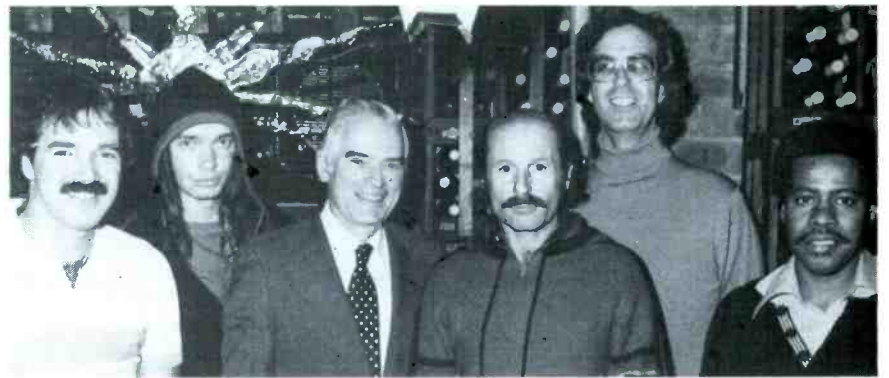

people and working shifts."

Tom Van Gessell, vice president of Columbia Record Productions, which operates three pressing plants in New Jersey, Indiana and California says, "It looks like it will be relatively the same this year as last. We're anticipating it and we've tried to make most of our clients aware of it. We've advised them to get their catalog orders out of the way because there will be a crunch again and there will be shortfill."

"It's only common sense," says Mike Coolidge, Columbia Record Productions western regional manager. "It's like a squirrel storing nuts. If you have the nuts there, you're alright. But if you don't get them in the summer, you won't have them in the winter."
