THE BIGGEST TOUR
OF THE SUMMER!

PREMIER PICKS

RAGE AGAINST THE MACHINE
"NO SHELTER," EPIC

Rage is back! Well, not completely, but there is a new track from the band for fans to sink their teeth into. "No Shelter" is both different from anything Rage Against The Machine's done before yet instantly familiar. Taken from the soundtrack to the summer smash *Godzilla*, the song's propulsive beat and wah-wah guitar is powerful enough to make you want to trash a few cities yourself. Bonus points for Zach De La Rocha's lyrics, in which he exclaims "Godzilla, pure filler, get your eyes on the real killer!" We have a feeling that this tune will be around even after the movie's faded from theaters. Once you play it, they will be no shelter from the phones ringing themselves off the hook. 17 stations (WAAF, WYSP, WRCX) have already sought "Shelter."

JOHN FOGERTY
PREMONITION, REPRISE

The marketing concept here is nearly identical to the one that recently reconnected Fleetwood Mac and The Eagles with millions of their fans. John Fogerty and band rolled off the road and onto a sound stage last December to cut 18 songs spanning his entire career, from "Born On The Bayou" and "Susie Q." to "Centerfield" and "Hot Rod Heart." The result: an incen-

EVE 6
"INSIDE OUT," RCA

Signed to a recording contract while they were still in high school, the L.A. trio Eve 6 is unquestionably mature beyond their years. Refreshing honesty and poeticism as well as raw power and musical sophistication are abundant on their self-titled debut, starting with this ultra-catchy Pop/Rock track that grabs you well before the chorus checks-in. Getting its start in the Modern Rock ranks, "Inside Out" has already caught the attention of Rockers like DC101, KDKB, WRCQ, WQWK, WKLK, KBBZ, and WWUC.

JEFFREY GAINES
"RIGHT MY WRONG," RYKODISC

It's been a few years since we last heard from singer/songwriter Jeffrey Gaines, and from the sounds of his new single "Right My Wrong," he hasn't been sitting idly by, watching the Rock world pass him by. With a slight hint of Memphis Soul fused into his typically strong hooks and poignant lyrics, "Right My Wrong" is just the ticket for Gaines to re-establish himself in the Rock Radio arena. Tracks like "Hero In Me" and "I Like You" were what put Gaines on the map several years back, and "Right My Wrong" should keep him on the map for quite some time. From his Rykodisc debut, *Galore*.

TOMMY SHAW
"OCEAN," CMC INTERNATIONAL

While Tommy Shaw waits for his other two bands, Styx and Damn Yankees, to

DEPTH TRAX

JIMMY PAGE & ROBERT PLANT
"SHINING IN THE LIGHT," ATLANTIC/AG

Almost immediately upon the album's release, this was the track Rock Radio gravitated to, so there's not much convincing needed here as 82 *fmqbs* (WIYY, WMMR, WFBQ, WCMF, DC101, KLOS) have already committed, with "Shining In The Light" soaring 37-31* Hot Trax this report. Phones are also reacting at four (KMOD, WZNX).

MEGADETH
"A SECRET PLACE," CAPITOL

One year after *Cryptic Writings* came out, it's developed into Megadeth's strongest radio album yet, as the Top 20 Hot Trax successes of "Trust," "Almost Honest," and "Use The Man" demonstrate. They've been on tour since last year, and will be one of the bands headlining this year's *Ozzfest* tour. "A Secret Place" is a melodic, yet more uptempo song that belongs on any station that's cranked their last three songs over the last year or so.

SPACEHOG
"CARRY ON," SIRE/WARNER BROS.

These musical descendants of *Ziggy Stardust And The Spiders From Mars* will not be denied. As Spacehog takes its multi-faceted music directly to the people, the second single from their under-rated *Chinese Album* is ready for your airplay. Like "In The Meantime" and "Mungo City," "Carry On" proves The Langdon Brothers are all about BIG pop hooks.

SISTER HAZEL
"CONCEDE," UNIVERSAL /UMG

Sister Hazel have had quite a run with their platinum release ...*somewhere more familiar*, with "All For You" and "Happy" firmly entrenched in recurrent on many stations. "Concede" starts off with an acoustic flavor and builds into a middle-of-the-road Pop/Rock anthem. The CD Pro offers a couple different versions for you to choose from on top of the album version. Already conceding: WYNF, KDKB and KEZO.

CHRIS STILLS
"LAST STOP," ATLANTIC/AG

His debut single, "Razorblades," proved Chris Stills has an identity and sound all his own. He hammers that point home further on the follow-up, "Last Stop," which is four minutes of bleary-eyed balladry sure to generate tons of curiosity calls from the upper demos.

JIMMIE'S CHICKEN SHACK
"BLOOD," ROCKET/ISLAND

First you got high with Jimmie's Chicken Shack, then you dropped anchor. Now they're out for "Blood!" The Maryland band has sold over 200,000 copies of their debut album, ...*Pushing The Salmanilla Envelope* and has been seen on the top-rated *Jerry Springer* show (no, they didn't get beat up!). This quirky, bass-driven tune should get Active and Modern's blood pumping, and it is already on KUFO.

#1 Buzzband! Getting a jumpstart at *fmqb* reporters like KLBj, WDHA, WWCT, KRZZ, and KTWS, "Born Without You" snaps-up a #3 Most Added 22 official first week spinners, including KQRS, WFBQ, WCKW, WEGR, KEYJ, WNCD, WAPL, KEZO, and KCMQ. "A good song and a great band!" - Marty Bender/WFBQ.

**LITTLE FEAT****"LOCO MOTIVES," CMC INTERNATIONAL**

Taken from their forthcoming album, *Under The Radar*, Little Feat's "Loco Motives" blasts from the starting gate with 21 instant believers (#4 Most Added - KLOS, KLPX, WIZN, WRKI, KDDX, KRKX, WQMF, KCMQ, KKEZ, WKIT). Southern-fried Dixie boogie has arrived just in time to spruce up your playlist for summer.

**THE ROLLING STONES****"OUT OF CONTROL," VIRGIN**

Entering the Hot Trax chart at 79*, "Out Of Control" also grabs a #5 Most Added 15 new (WPYX, WXKE, KFMF, WKLT, KZOQ, WAOR, WZZR) for a revised cume of 30. The Stones' biggest PPW increases came from WKIT (+17), KXGE (+16), KCMQ (+15), WKLC (+13), KMOD (+11), WHJY (+11), and WYXZ (+10).

**VAN ZANT****"THAT WAS YESTERDAY," CMC INTERNATIONAL**

Gaining support at WFBQ, WIZN, WKLT, WNCD, WZNX, WZZR, and five more, "That Was Yesterday"s cume has stretched to 40 (WNCX, WROQ, WQMF, KSQY, KCMQ). A Top 5 phone ringer at KXGE and WROQ, it also advances 79-61* Hot Trax. The week's biggest PPW increasers included WAPL (+14) and KJKJ (+12).

**THE HUNGER****"FREE," UNIVERSAL/UMG**

"Free" flies 92-77* Hot Trax thanks in-part to new commitments from WJRR, WZXL, WGBF, KSEZ, WKIT, WTUE, WZZQ, KDEZ, and WWGZ. The developing cume of 35 also includes rotation increasers KHOP (+11), KQDS (+8), WIYY (+8), KKEG (+7), and WRIF (+7). KNCN and KUPD are logging Top 5 calls.

DRAIN S.T.H. "CRACK THE LIAR'S SMILE," ENCLAVE/MERCURY

Impacting the Hot Trax chart at 75*, "Crack The Liar's Smile" welcomes newcomers WAAF, KQDS, KFMW, KMBY, WZZQ, WBZX, KRZR, and WWGZ to a cume that's quickly swelled to 41. KRAD added +15 spins, followed by KHOP with +11, while KSJO, WJRR and WTOS each added +8 spins.

BUDDY GUY (FEATURING JONNY LANG) "MIDNIGHT TRAIN," SILVERTONE

Making an appearance in *fmqb's* Buzzbands for its second week in-a-row, "Midnight Train" gains 8 new signals (WIXV, KLPX, WCKW, WXRK, KSEZ) for a revised tally of 29. WKIT goes +17 spins, WTBK +15, KEYJ +14, and KJKJ adds +10 spins. Phones are the story at KJKJ, WQMF, WKIT, and KDDX.

GLORITONE "HALFWAY," RCA

Already gaining increased spins at early believers like WKLQ (+6), KAZR (+5), KDKB (+5), and WLZR (+5), "Halfway" adds eight more to its cume this week, including KIBZ, KQDS, KTUX, WQLZ, WWWV, and WKZQ. "Active Rock would do well to jump on it!" - Keith Hastings/WLZR.

ANTHRAX "INSIDE OUT," IGNITION

Forget everything you may have thought about Anthrax. Hey, they don't hide their past, they're a hard rockin' band. But "Inside Out" is a perfect song for Active Rockers, and it's got one of the catchiest chorus' the band's ever written. Just out and already on WLZR, KEGL, WKLQ, KRAR, WRIF, WRCX, KXXR, and WJXQ.

RAMMSTEIN "DU HAST," ISLAND

In any language, "Du Hast's" stats are becoming more impressive with each passing week. Racing 65-57* Hot Trax, Rammstein picks up another seven supporters (WIYY, KISW, WRIF, KRAD, KNCN, KEYJ) for a revised cume of 51 (WMMS, KIOZ, WXTB, WLZR, WYSP). The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. **Grade:** An index based upon combined MRI, Burn and Unfamiliar Scores. **Music Response Index (MRI):** Appeal of each song within the indicated sample group on a 0 to 110 scale. **Burn:** Percent of the indicated sample that claims to be "tired of the song." **Unfamiliarity:** Percent of the indicated sample reporting "don't know it." Jacor And CBS Swap Stations As FCC Approves CBS/ARS Deal

The FCC approved CBS' \$2.6 billion purchase of American Radio Systems, creating the wealthiest radio group in the country with estimated 1997 revenues of \$1.5 billion, according to BIA Research. But first, CBS had to comply with a DOJ agreement requiring them to divest stations in Boston, Baltimore and St. Louis. The FCC also required CBS to unload one ARS station in the San Jose market.

CBS has begun to spin-off some of those signals, announcing an 11-station, 5-market swap with Jacor (*fmqb* 5/29). Under terms of the swap, Jacor receives from CBS: WOCT-FM and WCAO-AM in Baltimore, a new broadcast area for Jacor

with the pending acquisition of these two stations and WPOC-FM from Nationwide; KSD-FM and KLOU-FM/St. Louis, bringing Jacor's station count in the market to six; and KUFX-FM and KOME-FM/San Jose. Jacor already has a definitive agreement to purchase KSJO-FM from ARS.

In turn, CBS will receive from Jacor: KMJZ-FM and KSGS-AM/Minneapolis, adding to its holdings of WCCO-AM and WLTE in Arbitron market No. 14, and WHOK-FM, WLVQ-FM and WAZU-FM in Columbus, a new CBS market. Jacor also dished-off another Columbus station, WZAZ, to Blue Chip Broadcasting for \$10.1 million. The swap,

and sale of WZAZ, moves Jacor closer to finalizing its pending \$620 million acquisition of Nationwide.

CBS still has to divest Boston area stations WRKO-AM, WEEI-AM, WEGQ-FM and WAAF-FM to comply with the aforementioned DOJ agreement before closing on the ARS deal.

Meanwhile, Jacor has appointed Tom Thom Market Manager for their remaining Columbus area stations — WFII-AM, WTVN-AM, WCOL-FM, WKFX-FM and WNCI-FM, some of which are being acquired as part of the Nationwide deal.

Jacobson Appointed GM Of Revolution/Giant

Larry Jacobson

Revolution/Giant Head of Business and Legal Affairs Larry Jacobson has been promoted to the position of GM of the label. In his new position, Jacobson will oversee the company's day-to-day operations as well as help coordinate and implement its long term goals.

"I'm thrilled that Larry has agreed to be our GM," Revolution/Giant founder and owner Irving Azoff commented. "Not only is he just crazy enough to take the job, but he's got that rare blend of intuition, inspiration, obsession and attention to detail that's essential to making a record company successful. Working with Larry has always been an exercise in the unpredictable, usually with spectacular results."

Jacobson has been a key executive at the label virtually from its inception. He also served in an A&R capacity, bringing the double platinum soundtrack *Dazed And Confused* to Giant and founding the Revolution/Giant development label Unsound Records. He joined the label in 1992 where he integrated an A&R role into his continuing responsibilities in legal and business affairs.

WBOS Appoints George Taylor Morris PD

Greater Media's WBOS/Boston has hired George Taylor Morris as its new PD, as originally speculated in *fmqb* (5/15). He replaces Jim Herron who exited last month.

Peter Smyth, Senior VP/GM of Greater Boston Radio Group, said of Morris, "His understanding of, and appreciation for the Boston Adult Rock listener and the local Adult Rock scene is invaluable. We are confident his exciting ideas will take WBOS on to new and greater achievements."

Morris is excited about being back in radio and feels that Boston radio could be more interesting. "I want to make this the radio station in Boston that everyone can relate to," he stated. "All these wonderful new artists that are making exciting new music today need to be complemented by music and artists that influenced them in the first place. You can pull together a tremendous, diverse audience, and Boston is one of the country's unique cities, with a lot of

An Obituary For KOME

"The New Live 105" (*fmqb* May 29). KOME will soon shed its heritage call letters and Modern Rock format. Plans were underway at presstime to place the 27-year-old station in a trust on June 4, a precursor to its eventual docking with new owners Jacor. In its waning days under CBS, KOME was reduced to just board ops seging music and sweepers.

It's likely that the KOME spot — the dial will eventually be a new haven for Classic Rock. Sources tell *fmqb* that after the trust period ends, Jacor will simulcast KUFX's Classic Rock format on KOME's 98.5 frequency for a time, before making 98.5 The Fox's new permanent address, and launching a new product at KUFX's inferior 104.9 signal. The KOME call letters, synonymous with Rock in the South Bay since 1971, will be retained by CBS, sources say, perhaps eventually replacing the KITS calls at Live 105.

Market insiders say Live 105 — still jockless apart from Howard Stern in morning drive — is sounding tighter and more like KOME than ever before. Flashback artists such as The Cure, Depeche Mode, and New Order are being broomed out in favor of higher repetition on '90s staples such as STP, Nirvana, Foo Fighters and Sublime. Spice tracks from Propellerheads, Dimitri From Paris, The Crystal Method and others are being reduced. Also shelved, at least for now, is the station's wide array of inclusive specialty shows, which show-

Capstar/SFX Deal Closes

Capstar Broadcasting Corporation finally completed its August 1997 announced acquisition of SFX Broadcasting, Inc. on May 29 for an aggregated consideration of \$2.2 billion, including equity and the assumption of SFX senior debt, senior subordinated notes and pay-in-kind preferred stock. Capstar also announced the completion of its first initial public offering of 31 million shares of Class A Common stock at an IPO price of \$19 per share.

Department of Justice approval of the deal hinged on Capstar divesting 11 stations, while FCC ownership limits required the sale of an additional five stations. All of the stations were either sold or placed in a trust before the May 29 closing.

Commenting on the closing, Capstar President/CEO **R. Steven Hicks** told *fmqb*, "We are excited to complete this historic transaction on the heels of our successful initial public offering. By combining Capstar and SFX's outstanding radio properties and management teams, we have strengthened our ability to increase revenue and audience share across our markets nationwide. Through

Capstar's innovative operating strategies, which combine a low-cost operating structure and the highest quality managers, programming and systems, we are exceptionally well-positioned to generate revenue and cash flow growth rates in excess of historical growth rates in our markets.

"In essence," Hicks continued, "our two companies have come full circle. Having worked with most of SFX's operators since co-founding the company in 1992, I am enthusiastic about being reunited with this proven and talented team. Our shareholders, employees and listeners will all benefit from this seamless combination."

With this deal now closed, Capstar has assembled a portfolio of 299 radio stations serving 75 markets nationwide. Indicators point toward Capstar forming another "Star" region, overseen by **John King**, GM of the company's Nashville properties. King previously supervised an entire region for SFX.

KOME continued from page 11

cased everything from Reggae, Punk and Electronica to indie music and Gay issues.

The new KITS airstaff is expected to include **Ally Storm** in middays and **The DJ With No Name** in nights (both from KOME). Live 105 has retained **Big Rick Stuart**, presumably for afternoon drive, and has announced plans to pick-up **Loveline** from KOME.

Not all KOME staffers were invited to make the move north. PM driver **Shark**, late nighter **Jason Hurst**, Production Director **Don West** (currently KOME's Acting PD), weekender **Jay Cruise** and others are staying behind, holding down the fort through the trust period, which could last for two or more weeks. Overseeing KOME during this period (and perhaps beyond) is KSJO/KUFX GM **John Sutherland**.

The changes mark the end of an era in Bay Area Rock Radio that began on February 1, 1971 when KOME debuted as a free-form rocker with "Beginnings" from Chicago Transit Authority. Housed in the bottom floor of a two story victorian (with the air studio located in the master bedroom), the early KOME played everything from John Mayall, Keith Hartley and The Allman Brothers to Issac Hayes, Al Green and Tower Of Power. A fledgling Infinity Broadcasting bought the station for less than half-a-million dollars in 1973. An early format structure appeared in the summer of '74, R&B music was eliminated in '75. KOME was soon dominating San Jose ratings with eight shares, challenging legendary Rock pioneer KSAN in San Francisco. Under former KMET/Los Angeles PD **Mikel Hunter**, KOME embraced outrageous promotions and personalities like **Dennis Erectus** in the late '70s. "Don't touch that dial, there's KOME on it" was one of the station's slogans. Under PD **Pat Evans** and consultant **Jeff Pollack**, KOME became a mainstream AOR in '83. **Ron Nenni** replaced Evans as PD in '85, leading the station through the '80s and into the '90s, and overseeing its flip to Modern Rock in May of '94.

ALL THE DIRT

THAT FITS

RADIO STOCKS SLIP Despite the Radio Advertising Bureau reporting a 13% increase in ad revenues for April, marking the 68th consecutive monthly gain, and year-to-date revenues running 10% ahead of last year's numbers, radio stocks are taking a tumble. *Variety* noted on 6/3 that stocks such as Chancellor Media, Emmis Broadcasting, Jacor Communications and CBS Corp., which, with the addition of American Radio Systems, will gain a major portion of its revenues from radio, have tumbled 20%-25% in the last several weeks. As a matter of fact, Capstar Broadcasting, who just last week closed on its acquisition of SFX and went public (see *Dirt Alert*) at \$19 a share on May 27, has already seen its stock spiral down to \$17.13 at Tuesday's (6/2) close, a 10% decline. RAB President **Gary Fries** told *Variety*, "There's nothing on the horizon of any cause for concern. The revenue side continues strong, and, because the expense side is basically flat, that's the only side that could affect things." *Variety* also noted that Wall Street analysts feel that the price weakness is in the wake of several huge stock offerings, which may have created an oversupply of radio stock.

LATIN MUSIC PAYOLA PROBE

Around 18 wholesale record distributors and 20 radio stations are scheduled to receive subpoenas in a wide-ranging probe of corruption in the Latin music business. According to *Los Angeles Times* writer **Chuck Phillips**, the feds' seven month payola investigation focuses on Fonovisa, which accounts for 16% of the nearly \$500 million spent on Latin music in the U.S. Fonovisa is a subsidiary of Grupo Televisa, the largest Hispanic

media company. The company has acknowledged that it "made certain promotional payments in apparent violation of applicable laws." The *Times* says Fonovisa "wrote a series of checks last year to an independent promoter who in turn dispersed cash to couriers on the Fonovisa payroll." Those cash payments, sometimes as large as \$10,000 a month, were delivered to PDs in exchange for airplay. What's more, some of the payments may have been financed by illegal sales of promotional items. Information gathered from subpoenaed documents in this investigation could trigger a larger probe of other Latin music labels or perhaps the entire U.S. music industry.

FTC MAY LOOK INTO SEAGRAM/POLYGRAM DEAL

There is talk that the proposed merger between Seagram and PolyGram will get a close look from the Federal Trade Commission who blocked a similar deal involving PolyGram and Warner Communications in the mid-'80s, according to a report in *Variety*. The FTC objected that the Warner/PolyGram deal would have given the merged company 26% of the market. The Seagram/PolyGram deal would give Seagram 25%. It would also reduce the number of major record companies from six to five. Wall Street speculators who specialize in mergers are now focusing on the potential antitrust hurdles and are now concerned that the deal may not close. PolyGram's stock has dropped over \$2.00 to \$54.50 as more and more traders became aware of the FTC's history in blocking the Warner/PolyGram deal. BIA: Gulf Between Radio "Haves" and "Have-Nots" Widening

It's no secret that radio consolidators gobbled up stations with a Godzilla-like appetite last year. But the extent and impact of radio's shrinking ownership landscape comes into clear focus in BIA's new "State of the Industry '98" report released this week. Among its mind-numbing factoids:

- 723 owners left the radio landscape in the past two years.
- 2,250 radio stations (over 20%) changed owners last year, for a total of \$18 billion, surpassing '96's record sales volume of 2,157 sales.
- Station prices continued to escalate, with the average station going for \$8 million last year, up from \$6.6 million in '96. Compare that to only \$1.2 mil. in '92, the last year largely unaffected by deregulation.
- Radio revenues were up 9.3% last year, from \$11.2 billion in '96 to \$12.3 billion in '97.
- Nearly half of all 5,829 Arbitron-rated stations are part of a "duopoly-plus configuration," compared to 43.8% in '96.
- An average of 4.6 owners per market in the Top 100 markets account for 86.2% of local listening and 93.8% of market revenues.

All that consolidation is helping radio grow its share of the media revenue pie, one of the promises of Telecom reform. After being stuck at 7% for the past decade, radio's share of the \$187 billion advertising market "appears to be growing," BIA concludes. Revenues were up an average of nearly 8% a year over the past five years, and have been growing faster than other media over the past few years. BIA is bullish on continued growth, forecasting that total radio spending will increase around 7% in Arbitron-rated markets from 1997 to 2001. "The advantages of consolidation may be leading to better inventory management and rate integrity," BIA says, "allowing total radio spending to eclipse its competitors." But don't bank on radio's chunk of the ad market grow-

ing significantly, they warn, as inventory limits and pricing pressure will slow its goal of hitting double digit revenue shares.

Consolidation has allowed companies to become more efficient, causing profit margins to soar. Many publicly traded companies are reporting operating profits north of 35%, says BIA, which has been tracking and appraising radio for broadcasters and lenders since '83. "Housing more stations under one roof is allowing the multi-signal operators to spread more of their fixed costs over a greater number of properties, leading to even more efficient operations."

BIA also concludes that "consolidated operations appear to be attracting disproportionate shares of both revenues and ratings, and the gap between consolidated operations and standalones is widening." Consider that duopolied stations, which represent just over half the stations in the top 50 markets, accounted for 76% of the listening in those markets in '97, up from 68% in '96. The disparity in dollars is even wider. Average revenues for non-duopolied stations in the Top 50 markets were \$1.2 million last year, compared to \$4.5 million for duopolied stations.

Do duopolied stations outperform their competitors because of the benefits of consolidation or simply because the strongest competitors have been combined? Last year, BIA concluded that duopoly was "more glamorous than effective." This year they came to a different conclusion: "The economic advantages afforded by consolidation appear to be extending to revenues. In particular, an artfully constructed cluster of radio stations, with a significant foothold in the market, should be able to target and attract larger target audiences, better manage inventory, and efficiently deliver their bigger audiences to advertisers at higher rates. That at least is one of the promises of consolidation and there is some anecdotal evidence that indeed, revenue synergies are becoming a reality."

BIA sees four trends shaping the post-

Telecom radio landscape:

1. **A slowing in market consolidation trend.** The extent of concentration in radio's largest markets appears to be close to maxed out. The big constraint is the DOJ's de facto 40% market revenue threshold.

2. **A trend towards television-like market competition.** Three or four significant operations are dominating ratings and revenue in the largest markets, and two operators are controlling the smaller markets. The radio industry is now configured like television Designated Market Areas (DMAs), with only a few outlets controlling the lion's share of revenues.

3. **A trend towards cable-like national ownership.** With the 10 largest public group owners grabbing 37.3% of all radio dollars, we now have an ownership structure akin to that of cable TV, where a significant concentration of revenue resides in the hands of a few giant multiple signal operators (MSOs).

4. **A trend towards retail-like chains.** The best stations in the biggest markets are in the hands of a few large, well-capitalized publicly-owned companies. That leads BIA to speculate that the radio industry is beginning to mirror the all or nothing trend at retail: a few super stores, like Best Buy, Home Depot and The Sports Authority supplanting the heritage Main Street storefronts, and dominating the retail landscape. At radio, it's "the big consolidators eclipsing the stand-alone broadcasters by aggregating outlets, concentrating more resources and employing new operating strategies."

to a recent financial analysis. PolyGram's film library alone is worth \$650 million, based on its annual cash flow estimated at between \$60 million and \$70 million, while unreleased and newly released movies are likely worth \$250 million. Other assets include the company's interest in the Sundance Channel and two TV production businesses, collectively worth \$150 million. Potential buyers, including Canal Plus, have tried to get the purchase price down to \$500 million. Finally, Universal Music Group Chairman **Doug Morris** continues to be the front runner to head Seagram's new global music operations. The company's entire new management team is expected to be announced before the end of the month.

CHANCELLOR TAKES OVER DC101 KLOL/Houston PD **Michael Hughes** will oversee new Chancellor sister DC101/Washington, *fmqb* has learned. Chancellor closed its \$72 million purchase of WWDC-AM & FM on June 2, naming **Rick Mack** Acting GM from co-owned WWRC-AM/WGAY-FM (*fmqb* May 29). Mack replaces **Goff Lebhar**, the colorful, outspoken, cigar-smoking, veteran GM who hired **Howard Stern** in the early '80s and replaced him with **The Greaseman** when Stern split for New York.

FORMER A&M CO-CHIEFS SUE PolyGram has been sued for \$5.6 million by the former chiefs of A&M

Records. **Jerry Moss** and **Herb Alpert** filed suit in Los Angeles Superior Court, claiming that the record company failed to share all of the A&M profits required under the terms of their 1989 sale of the label, according to the *LA Times*. The suit alleges that the two are owed \$3.6 million from 1994 profits under the future-profits provision of the purchase agreement. PolyGram paid \$460 million up front for A&M.

KSD GOES CLASSIC The St. Louis Heritage Rocker has made the shift back to Classic Rock, effective immediately. Using the on-air moniker "The Home Of Classic Rock And Roll," the station has shed all of its currents. "I think that inevitably we will wind up with some of the major artists as part of the fold," PD **Steve Brill** told *fmqb*. "But for now we are keeping a tight list and staying very focused."

KDRE RETURNS TO MODERN After stunting with ten different formats in ten days, KDRE/Little Rock has returned to playing Modern Rock. KDRE was an original affiliate of the now defunct 'DRE Modern Rock Network, before abandoning the format in April '96. **Corey Dietz**, currently hosting morning drive, will assume the PD role.

KROQ/Los Angeles, during which time he hosted the *Loveline* call-in show, Jim "Poorman" Trenton is scheduled to hit the airwaves once again on June 8 with his "Anti-Radio" show on KPLS(830AM). The Orange County station is actually leasing time to Trenton for the 3p.m.-5:30p.m time slot weekdays for a 12-week run that will cost him between \$1,750 to \$2,000 per week. According to the *L.A. Times*, Trenton is lining up sponsors to offset the cost of the show, a show he says will feature all forms of music interspersed with his and the listeners opinions on the music. Trenton told the *Times*, "I have no idea what's going to happen. Maybe nobody will listen. Maybe everybody will listen. But I'm sure there will be hit artists and songs discovered on my show."

DAVE RICHARDS RESPONDS TO ROLLING STONE

The WRCX/Chicago Station Manager/PD begged to differ with the magazine over its "Corporate Radio Still Sucks" article that appeared in April. "The elitist point of view of your piece was humorous, but not realistic," Richards writes in the *Correspondence, Love Letters & Advice* section of RS 789. "Overall listening has dropped not because of shrinking radio playlists but because of new competitors in other media, including cable, satellite, home-video rental, video games and the Internet. One former radio guy's jaded point of view doesn't reflect that of an entire industry. Plenty of radio stations out there "don't suck" but do have signals larger than five watts." Other published reactions empathized with Eric Boehlert's inflammatory article, including former J. Geils Band frontman and ex-WBCN/Boston deejay Peter Wolf and ex-KBER/Salt Lake City MD Chris Haggin.

IDLIS, TAYLOR MAKE MOVES

After twelve years of service with Mercury Records, Michael Idlis has resigned from his position as Sr. Director/Modern Rock. His last day with the company will be June 19. He can be reached at (212)245-6292 after that. Meanwhile, former WLIR/Long Island PD Ted Taylor heads into Trauma Records for Alternative Radio Promotion.

KRAMER DIR. OF GROUP MARKETING

WRIF/Detroit Promotion/Marketing Director Heidi Kramer has been promoted to Marketing Director of the Greater Detroit Radio Group. In addition to overseeing the

marketing of WRIF, Kramer will continue her oversight duties of WXDG promotion and marketing efforts. In her new position, Kramer will focus on creating new business programs that encompass WRIF, WXDG and WCSX.

COX CLOSES ON LONG ISLAND

Cox Radio, Inc. had quite a busy week. First, they completed their acquisition of WBAB-FM, WBLI-FM, WHFM-AM and WGBB-AM/Nassau-Suffolk from SFX/Capstar for \$48 million. The acquisition marks the company's expansion into Long Island. Also, the company announced that it privately placed \$200 million in aggregate principal amount of senior notes consisting of \$100 million 6 1/4% notes due 2003 and \$100 million 6 3/8% notes due 2005.

SINCLAIR PURCHASES CLEARED

The DOJ has approved Sinclair's purchase of Heritage Media's WBYU-AM, WEZB-FM and WRNO-FM as well as Sinclair's purchase of Phase II Broadcasting's WLTS-FM and WTKL-FM, all in New Orleans. However, Sinclair must sell three of its New Orleans stations, WBYU-FM, KMEZ-FM, and WRNO-FM, to Centennial Broadcasting. Sinclair has also closed on a new \$1.75 billion credit facility. Sinclair obtained the facility on similar terms as its previous \$951 million facility. The proceeds of the new credit facility will be used to finance existing bank debt outstanding, to provide funding for future acquisitions, including Sullivan Broadcast Holdings and Max Media Properties, and to provide funds for general corporate purposes.

PORTER DOES DAYTON

Jacor Communications, Inc. has named Rick Porter the VP/Market Manager of its six Dayton, OH stations. Porter was most recently VP/GM of the Salt Lake City broadcast area. Porter, who began his radio career in Cincinnati over 20 years ago comments, "The Dayton stations are filled with great talent and quality programming. Having spent most of my career in Cincinnati at 700 WLW, it feels like coming home for me and my family. I can't wait to get started." The stations Porter will be overseeing are WONE-AM, WBTT-FM, WLQT-FM, WXEG-FM, WTUE-FM and WMMX-FM.

JONES PURCHASES MEDIA AMERICA

Jones International Networks, parent company of Jones Radio Network, has entered into an

agreement to purchase its advertising sales representation firm, Media America. With Media America, the largest independent marketer of national radio programs in the U.S., added to its operations, Jones Radio is now the largest independent radio network in the country. Founding partners of Media America, Gary Schonfeld and Ron Hartenbaum, will assume executive positions within Jones International, based in New York City.

NEW MADISON MAN Central Star Communications, a subsidiary of Capstar, has appointed Jeffrey Tyler GM of its Madison Radio Group stations, including WIBA/AM-FM, WMAD, WMLI, WTSO, and WZEE. Tyler was Station Manager for the group for the past two years and has been with the company for eighteen years.

Q95's GOT THE BREAST BILLBOARDS...: "Celebrating 20 Big Ones," read *WFBQ/Indianapolis*' latest billboard, which shows 10 girls with 20 "big ones" in honor of the station's 20th anniversary. The billboard was ripe for controversy even before listeners began making modifications. A few weeks later, an overzealous listener gave the ladies some nipples. Then another one stopped by and painted two of them pink, making them appear naked. In the above picture, morning jock Chick McKee appears dwarfed by the mammaries as he checks out the situation first-hand. After some complaints, the station took action and censored the billboard, resulting in the picture below. Also, it never fails to crack us up to see the "Smilin' Babe Produce" sign in back of the billboard!

ON THE AIR

WPYX BRINGS NEW CD TO LIFE, HELPS TORNADO VICTIMS: Not only did WPYX/Albany release a new morning show compilation CD, they also came to the rescue to help area victims of the recent tornadoes. *Bring This To Life* is the name of the new morning show compilation CD from the *Wakin' Up With the Wolf* morning team. Featuring the comedic talents of host Bob Wolf, sidekick Chris Rush and producer Rocky Kowalski, the CD features popular bits and song parodies from the shows, including the "G.E. Layoff Song." Set to the music of "Candle In The Wind," the song was written and recorded by an anonymous General Electric employee following the company's announcement of future layoffs at their Schenectady plant. The song has since become a 'PYX listener favorite. Bob Wolf also helped out the community by raising money for tornado victims after Sunday's (5/31) tornadoes. The following day, Wolf vowed to stay on the air until \$20,000 was raised. The goal was raised by 10:00 a.m., so Wolf remained for another four hours, finally raising over \$52,000 to benefit the American Red Cross of Northeastern New York.

QUESTION OF THE WEEK

If I wasn't in radio, I'd be _____ ?

**TOM O.,
WTOS/AUGUSTA:**

... a professional beer taster.

**ROBIN LEE,
WZZO/ALLENTOWN:**

An aerobics instructor, plus I'd have another baby and write a novel.

**ADDISON WAKEFORD,
WRK/PANAMA CITY BEACH:**

Carrying Greg Norman's golf bag.

**PAUL OSLUND,
KAZR/DES MOINES:**

Calling the shots in World Championship Wrestling.

**MIKE RAPPAPORT,
WKLC/CHARLESTON:**

I have two answers to that question. #1 - I have a pipedream of me being the middle of a Shania sandwich. #2 - A bum lying naked on your lawn begging for money.

**DANA JANG,
KSJO/SAN JOSE:**

A gossip columnist for *Hits* magazine.

**JOHN ALLEN,
WZBH/OCEAN CITY:**

... a manager of a golf course.

**STEVEN STRICK,
WBCN/BOSTON:**

A veterinarian or the owner of a restaurant.

**DOC WEST,
WXKE/FORT WAYNE:**

... rich.

**PAUL MARSHALL,
WMFS/MEMPHIS:**

A lumberjack, like my dad.

**PAUL KELLY,
KJKJ/GRAND FORKS:**

In jail is where I'd probably be.

**BUDDY RIZER,
DC101/WASHINGTON:**

Forty pounds lighter, more hair, and bored out of my mind.

**JACK LAWSON,
WKQZ/SAGINAW:**

... rich.

**TIM PARKER,
WNOR/NORFOLK:**

I would probably be playing in a Blues band.

**HALEY,
KAEP/SPOKANE:**

Unemployed.

**JAVE PATTERSON,
KFMW/WATERLOO:**

Doing TV, producing the news. Or I'd be a Rock star.

**MARTY BENDER,
WFBQ/INDIANAPOLIS:**

I'd be at the *R&R* convention.

**SCOTT HAMILTON,
WXFX/MONTGOMERY:**

... a DJ at a strip club!

**TERRIE CARR,
WDHA/NORTH JERSEY:**

... a veterinarian.

**KEVIN CONRAD,
WJXQ/LANSING:**

I'd probably be turning in food stamps somewhere.

**PAT LYNCH,
WJRR/ORLANDO:**

Homeless.

**RAY BAUER,
WSUE/SAULT STE. MARIE:**

Unemployable! I have no other skills. I tended bar while I was in college, so I could do that.

**DORSIE FYFFE,
WOXY/OXFORD:**

... I'd be lost without my true friends in the record biz, because we know everyone is into each other for who they are, and not what they can do for each other.

**GARRETT HART,
WDVE/PITTSBURGH:**

Teaching U.S. history at a small Pennsylvania college where the ratio of female to male students is 7 to 1.

**AL JONES,
KLAQ/EL PASO:**

I'd probably be heading up my own show on the Food Channel, being as I have many years of experience as a chef.

**MIKE KAROLYI,
WCCC/HARTFORD:**

In Major League Baseball playing second base for the New York Yankees.

**GREGG STEELE,
WZTA/MIAMI:**

A rocket scientist or a brain surgeon.

**SHANE COX,
WNFZ/KNOXVILLE:**

I'd be a respectable, upstanding person in the world, as opposed to what I am now.

**GUY DARK,
KQWB/FARGO:**

... miserable.

**DONNA RODGER,
WRCN/LONG ISLAND:**

... committed.

**GREG STEVENS,
KEGL/DALLAS:**

... independently wealthy.

**FRANK LARIO,
WDOX/ATLANTIC CITY:**

Rich, in jail and in the porno industry. I'd have more time to do more things.

**JEFF JAGGER,
WEGW/WHEELING:**

In the pornography industry.

**KEVIN SMITH,
KDOT/RENO:**

The diplomatic consulate to the island of Borneo.

**JAKE DANIELS,
KATT/OKLAHOMA CITY:**

Unemployed. I'd have no life, I wouldn't be able to pick up chicks. Or maybe, I'd be in school or a stockbroker. All of the above.

**DAVE NUMME,
KUFO/PORTLAND:**

Walking dogs in Manhattan.

**ROB HECKMAN,
WIYY/BALTIMORE:**

... working for Arbitron. Instead of trying to solve the problem, I'd become part of the problem.

**BRIAN ILLES,
WRXL/RICHMOND:**

Really embarrassed by all the really ridiculous references to Neal Mirsky in the *Question Of The Week*.

**HELEN POWERS,
KBER/SALT LAKE CITY:**

The first woman NASCAR driver to win the Indy 500.

**BRIAN KELLY,
WPXC/CAPE COD:**

Dead! I'd be selling pencils on the street corner and making roughly what I do now.

QUESTION OF THE WEEK *continued...*

**KEITH HASTINGS,
WLZR/MILWAUKEE:**

I'd be one lost sorry sonofabitch. It's all I ever wanted to do.

**CHRIS JAMES,
WTPA/HARRISBURG:**

... happier on Tuesdays. I'd be a TV sportscaster (look out **John Madden**).

**CHILI WALKER,
WBN/FLINT:**

Starting left-fielder for the Boston Red Sox.

**TODD THOMAS,
WXVO/KNOXVILLE:**

... happy!

**DAVE CLAPPER,
WKLT/TRVERSE CITY:**

Dead! Because radio is my life.

**PRESTON ELLIOT,
WPLY/PHILADELPHIA:**

I'd be performing in The Armada Room with Murph and the Magic Tones.

**RECKLESS ERIC,
WKZQ/MYRTLE BEACH:**

A geography teacher... or a goat farmer.

**SUSAN STONE,
WRXK/FT. MYERS:**

That's easy, I'd be a veterinarian. It's actually what I decided to go to college for until I discovered the college campus radio station freshmen year.

**DAVE KANE,
WCMF/ROCHESTER:**

Looking to get in.

**MIKE SAVAGE,
Y107/LOS ANGELES:**

Sane.

**STEVE RAYMOND,
WZXL/ATLANTIC CITY:**

Devoting more time to my non-profit organization, D.A.M.M. (Drunks Against Mad Mothers). Contributions to date have been low. I wish I had more time to spend with it.

**TOM BASS,
WRKI/DANBURY:**

Doing marketing for some tangible product like the George Foreman Sandwich Maker machine.

**TROY HANSON,
KAZR/DES MOINES:**

Farming in northern Minnesota.

**BILL JONES,
KXXR/MINNEAPOLIS:**

A porn star or a golf pro. Either way you're going for the hole.

**ZACK TYLER,

ROCK REPORT

Two days after performing at WXRK/New York's *Revenge Of The Dysfunctional Family Picnic* show (5/30), **Stone Temple Pilots** singer **Scott Weiland** was arrested Monday afternoon (6/1) in New York on charges of criminal possession of a controlled substance and criminal trespass. The police reportedly found ten bags of heroin, worth approximately \$100, in the waistband liner of Weiland's pants when they stopped him in a Manhattan housing development. Weiland was released without bail just before midnight on Monday, on his own recognizance, and given a court date of July 31. His gig at New York's Irving Plaza that night was canceled, as was the remainder of his U.S. tour in support of his solo debut, *12 Bar Blues*. More on this situation as it develops.

Internet Entertainment Group, the company that brought the **Tommy Lee** and **Pamela Anderson** sex tape to the public, is claiming it has a signed release enabling them to release a home sex tape of **Jane's Addiction** singer **Perry Farrell**. As we told you a couple of weeks back (see *Rock Report* 5/22), Farrell's lawyers (the same attorneys who recently prevented IEG from distributing a home sex tape featuring **Bret Michaels** and **Pamela Anderson**), obtained an injunction against the company **Spy7.com**, preventing them from marketing, distributing or selling a video featuring Farrell, or from putting it on their Web site. **Spy7.com** - a company run by a private investigator who was once briefly employed by Farrell - claims the tape it has features Farrell in a sex and drugs romp with two women. It remains unclear as to whether the IEG and **Spy7.com** tapes are the same. The authenticity of the signature on the signed release IEG claims it has is also unclear, though the company says it's "pretty confident" after submitting the release to handwriting analysts.

Stabbing Westward will employ two drummers to fill in for the injured **Andy Kubiszewski**, as they make up tour dates they were forced to postpone after Kubiszewski fractured his collarbone rollerblading before a May 21 show in Madison, Wisconsin. Drummer/producer **Chris Vrenna** (late of **Nine Inch Nails** and a very early incarnation of **Stabbing Westward**), will supply drums for the first three dates of the tour, with **Killing Joke** and acclaimed session drummer **Geoff Dugmore** filling in for the remainder of the tour. Dates are as follows: 6/7, Kansas City; 6/12, Los Angeles; 6/13, Sacramento; 6/20, Palo Alto; 6/21, San Francisco; 6/23, Los Angeles; 6/24, Las Vegas; 6/25, Tempe; 6/27, Dallas; 6/28, Oklahoma City; 6/30, Milwaukee; 7/1, Chicago; 7/2, Louisville; 7/4, Greensboro; 7/5, Miami; 7/7, Tampa; 7/8, Orlando; 7/9, Atlanta; 7/11, Washington, D.C.; 7/12, Syracuse; 7/14, Charlotte; 7/15, N. Myrtle Beach; 7/17, Norfolk.

The title of the forthcoming album from the **DLR Band** will simply be *DLR Band*, not *It Couldn't Have Happened But It Did*, as was previously reported. Look for summer tour dates soon.

As they gear up for their summer shed tour with fellow Modern Rock pioneers the **B-52's**, word comes that **The Pretenders** are currently working on a new studio album slated for a fall release. **Chrissie Hynde** and company have been holed up in upstate New York's Bearsville Sound studios working on the new album, tentatively titled *Viva El Amor!!* with producers Stephen Hague and Steve Street, who was also on board for session in London. Among those collaborating with Hynde on the album include former **London Suede** guitarist **Bernard Butler** who co-wrote a few tracks, **Jeff Beck**, **UB40's Ally Campbell**, and **David Johansen**. The record is being mixed by studio vet Bob Clearmountain, and features one of the last photographs ever taken by **Linda McCartney**.

Following a series of line-up changes, (which saw the departure of guitarist **Marc Ford** and bassist **Johnny Colt**, and the addition of new bassist **Sven Pippien**), **The Black Crowes** have regrouped and plan to showcase material for their forthcoming album, tentatively titled *By Your Side* (their debut for Columbia, due in September) on the Sho' Nuff Tour, a six-week jaunt beginning on June 19 in New Haven, CT. Look for the band to unveil such new cuts as "By Your Side," "Kicking My Heart Around" and "Horsehead" along with a hefty dose of Crowe standards like "Hard To Handle," "Remedy," "She Talks To Angels," "Jealous Again" and "Hotel Illness." Other dates include 6/20, Portland; 6/21, Lowell; 6/23, Hampton Beach; 6/24, Northampton Beach; 6/25, Hyannis; 6/27, Warren; 6/28, Sea Bright; 6/30, Winston-Salem; 7/1, Athens; 7/3, Orlando; 7/4, Tampa; 7/5, Sunrise; 7/7, New Orleans; 7/8, Shreveport; 7/10, Dallas; 7/11, Austin; 7/12, San Antonio; 7/15, Jacksonville; 7/17, Ft. Myers; 7/20, Cleveland; 7/21, Columbus; 7/23, Detroit; 7/24, Cincinnati; 7/25, Ft. Wayne; 7/26, Pittsburgh; 7/28, Philadelphia; 7/30, Baltimore; 7/31, Washington; and 8/1 & 8/2, Aspen.

With their arena tour opening for **Aerosmith** abruptly canceled thanks to **Steven Tyler's** bum knee, and their new single, "Carry On" set to impact at radio, **Spacehog** return to the road in support of their sophomore release, *The Chinese Album*. Dates on July 7, 8 and 10 are in support of Pearl Jam. Catch the lads from Leeds in the following cities: 6/17, Charlottesville; 6/18, Myrtle Beach; 6/19, Greenville; 6/20, Charlotte; 6/21, Birmingham; 6/23, Knoxville; 6/24, Nashville; 6/25, St. Louis; 6/26, Chicago; 6/29, Cincinnati; 6/30, Columbus; 7/2, Grand Rapids; 7/3, Kalamazoo; 7/4, St. Paul; 7/5, Milwaukee; 7/7, Albuquerque; 7/8, Phoenix; 7/10, San Diego; 7/12, Vernon; 7/14, Poughkeepsie; 7/16, New York; 7/17, Boston; 7/18, Philadelphia; 7/20, Pittsburgh; 7/21, Washington, D.C.

EDDIE V. LIGHTS UP THE SKY: Here's a shot of Eddie Van Halen displaying his six-string mastery during Van Halen's recent stop at Philadelphia's Spectrum.

Even though they're on singer number three (former **Extreme** frontman **Gary Cherone**), the latest incarnation of **Van Halen** proved they still had firepower to spare when they brought their brief U.S. tour into Philadelphia's Spectrum recently. With Cherone working the stage in a frenzied manner, **Alex Van Halen** and **Michael Anthony** anchoring the bottom, and **Eddie Van Halen** spitting out his trademark riffs and solos, **Van Halen** treated the near-capacity crowd to a nearly two-hour show packed with many VH gems they hadn't heard in years. Among the VH classics finding their way into the set were "Mean Street," "Unchained," "Dance The Night Away," and "Somebody Get Me A Doctor" which featured Michael Anthony supplying lead vocals. **Sammy Hagar**-era hits like "Right Now" and "Why Can't This Be Love" sounded right at home with material from the band's latest, *III*, like "Without You," "Fire In The Hole" and "Josephina." Catch the band when they return to the U.S. tour trail later this summer.

Things are heating up in the **KISS** camp with news that the masked marauders have finally finished their long-awaited reunion album, *Psycho Circus*. Slated for release on September 15, the record was produced by **Bruce Fairbairn** (**Aerosmith** / **Bon Jovi**), and is said to be a welcome return to the band's mid-'70s heyday, drawing together elements of their concept album, *Destroyer*, and the raucous and rowdy *Rock And Roll Over*. The band plans to kick off their new tour — said to incorporate pioneering 3-D cutting edge technology — on Halloween at L.A.'s Dodger Stadium with a world tour to begin on November 22. Plans are in the works for the Halloween show to be televised perhaps as a pay-per-view event. Lastly, in conjunction with Brilliant Digital Entertainment and Intel, the band has just

ROCK REPORT *continued...*

announced plans for a revolutionary interactive music video fusing three-dimensional animated stories and previously unreleased music. Says **Gene Simmons**: "What a way for the band who defined a generation of Rock to lead a new generation into the millennium. KISS has always believed in pushing the limits and being on the cutting edge but especially giving the fans more — this will blow you away."

Master Pop craftsman **Marshall Crenshaw** has been a consistent creative force in music — albeit with minor commercial success. *The 9 Volt Years: Battery Powered Home Demos And Curios* (Razor Tie), a dazzling collection of Crenshaw demos is slated to hit streets on August 4. A small four-track recording deck with no mixer, a cheap \$30 microphone and loads of talent and ambition are the result of this rough but delightful batch of home demos. Included in the collection, spanning the years 1979 to present, are skeletal renderings of Crenshaw standards like "Someday Someway" (the artist's only hit), "Rockin' Around NYC," "Just A Vague Memory," "Something's Gonna Happen," and "You're My Favorite Waste Of Time," (a track covered successfully by the likes of **Freedy Johnston** and **Bette Midler**). Also included is an early rendition of "Blues Is King" culled from Crenshaw's underrated LP *Downtown* — the song is titled "Bruce Is King" and is a track paying homage to The Boss. Previously unreleased cuts include "I'm Sorry," "The Thrill Of The Fight," "Run Back To You," "Bad Luck," "Stay Fabulous," "Everyone's In Love With You," "First Love" and the **Sam Cooke** cover, "That's It, I Quit."

To mark the release of the forthcoming *Jimi Hendrix Experience BBC Sessions* collection, MCA Records, Experience Hendrix and Liquid Audio are making the classic Hendrix track "Love Or Confusion" available for free download at MCA's Web site. The track, featured on the *BBC Sessions*, will be available on the Internet for a limited time, and marks the first time a Hendrix song has been made available digitally. Fans can also preview other *BBC Sessions* tracks while visiting the Web site. Log on at www.mcarecords.com.

A Huntsville, Alabama student who planned to sing **Fleetwood Mac's** "Landslide" at her high school's baccalaureate service in church was prevented from doing so after the minister said the group was Satanic. Class vocalist Emily McDowell was told she couldn't sing the Fleetwood Mac classic moments before the service was to begin. "The music minister said the leader of **Fleetwood Mac** is a witch and a Satan worshipper," said McDowell. "I was in shock. So I pointed out the fact that I was a Christian and I wasn't singing the song to go against God." McDowell was permitted to sing "Landslide" at Huntsville High School's graduation ceremonies last Friday (5/29).

Rock Report congratulates former **Cars** singer/guitarist and producer **Ric Ocasek**, and his wife, actress/model **Paulina Porizkova**, on the birth of their second child, **Oliver Orion Ocasek**. **Oliver Ocasek** was born on May 23 after two-and-a-half hours of labor. Both mom and dad are doing well.

NEWS
FROM
London

Rumours were circulating at press time about a new album of rarities and live cuts by U2. Said to be due for U.S. release in September and titled *Rather Go Blind*, the set reportedly contains live material and outtakes from the *Pop* sessions.

Del Amitri, whose "Don't Come Home Too Soon" is out this week as the official Scotland soccer song for the World Cup, will follow it on July 6 with their *Singles 89.98* compilation. It contains all 14 of their Top 40 hits plus the new single and another new track, "Cry To Be Found," which is due to be their next single.

Deep Purple, these days featuring 80% of their classic line-up with Steve Morse replacing Ritchie Blackmore on guitar, had their new studio album, *Abandon*, released in the U.K. by EMI on May 25. In the U.S., the band are signed to CMC International. They've announced a major European tour for the autumn, featuring four U.K. arena dates.

Spiritualized, back in the charts with the *Abbey Road EP*, have a busy summer of live work in Europe, including U.K. festivals such as Glastonbury, Meltdown, T In The Park, Phoenix and Reading. They're also playing, among others, the Roskilde Festival in Denmark (June 26), the Benicassim in Spain (August 8) and Route de la Rock in France on August 16 with PJ Harvey. The EP contains re-recordings of "Come Together" and "Broken Heart" plus an instrumental version of the latter.

Four-girl Dublin quartet B*Witched came from nowhere to sell 150,000 copies of their first single, "C'Est La Vie," and debut at #1 in the U.K. chart this week. Brandy & Monica's U.S. chart-topper "The Boy Is Mine" made an instant impression here, entering at two, and German producer Mousse T's Dance smash "Horny" came in at three. Embrace's "Come Back To What You Know" arrived at six, "Ice Hockey Hair" by Super Furry Animals at 12, and Public Enemy's "He Got Game" at 16. Also new in the Top 20 were Gloria Estefan's "Heaven's What I Feel" at 17, "Boom Boom" by N-Tyce at 18 and "Wishing I Was There" by Natalie Imbruglia at 19. It was double top for Ireland this week as Boyzone's *Where I Belong* gave them their third straight album chart #1. They thus become only the fourth act to reach the top with their first three long players, the others being the Beatles, Oasis and, bizarrely, erstwhile TV entertainers the Black and White Minstrels. *How To Operate With A Blown Mind* by Lo-Fidelity All Stars debuted at 15 and *Comin' Atcha!* by teen stars Cleopatra at 20.

LIVE TO PLAY TIBETAN CONCERT, EAST COAST SHOWS: Since they're already taking a break from work on their fourth album to play the Tibetan Freedom Concert June 13 at RFK Stadium in Washington, D.C., Live has also made plans for a brief East Coast club tour. The June 13 concert (where they are on the bill with R.E.M., Radiohead, Patti Smith, Tracy Chapman, Beck, Dave Matthews, Herbie Hancock, and KRS One among others), will be Live's second concert for Tibet Awareness this year. They performed at the 10th Annual Tibet House New York Benefit in March. There they were joined by Sheryl Crow and Natalie Merchant on one new song, "Overcome." Live's Ed Kowalczyk says that Tibet is an important cause to him personally, being a student of philosophy and religion. "The tragedies in Tibet are more than a travesty of justice because of the unseen damage it is doing to the psyche of the world," he says. "The great realizers of spiritual truth keep the world in balance against the flood of ignorance and tyranny that goes along with 'progress.'"

TIBETAN CONCERT PRESENTS A DILEMMA FOR BANDS WITH NEW CDs: R.E.M. and the Beastie Boys may risk having their new music on the Internet before their next records are released — if they preview them at the Tibetan Freedom Concerts in Washington, D.C. on June 13 and 14. R.E.M. remains undecided, but the Beastie Boys plan to do some of their new album which won't be out until July. Last January, after Billy Corgan did some songs from the Smashing Pumpkins' new album at the Viper Room in Los Angeles, they ended up on the Internet. Their manager told the *Los Angeles Times* that the amount of control artists and managers have over their work is "decreasing by the day" because of the net. "Something you do innocently, just for fun, winds up biting your ass," he said.

METALLICA: Metallica and Days Of The New kick off their 30-city summer tour together June 24 in West Palm Beach, Florida. Days Of The New plan to spend the three-week tour break in August in the studio.

COMMERCIALS FOR CDs TO OPEN SOME HOME VIDEOS: Expect to start seeing commercials for records when you rent some movies. This month Warner Bros. will begin having spots for Madonna, Eric Clapton, Alan Davis, Page & Plant, LSG and Matchbox 20 at the beginning of eight films. The two-minute Inside Tracks is being tested through September in response to a recent survey which revealed that 60% of record buyers do not always know when their favorite artists release a recording. Consumers can return a coupon in the rental and get a CD sampler of the music for the cost of postage and handling. Eventually the plan is to tailor the music to the film. So a movie with a Jazz soundtrack would have a Jazz sampler while a Rock soundtrack would have Rock artists.

REPORT CLAIMS ROD WILL GET \$1 MILLION TO OPEN N.Y. CLUB: Rod Stewart, who is playing two clubs and played a record store parking lot on the Sunset Strip in Hollywood this

past week to celebrate the release of his new album, will reportedly earn about \$1 million for a club appearance in New York in September. According to the *New York Daily News*, Stewart will kick-off a monthly series of shows in the ballroom of a new hotel being opened by famed restaurateur Harry Cipriani. The ballroom will offer season tickets, where people will pay \$100,000 for a table for ten for a year. Diana Ross, Tony Bennett, Natalie Cole, Billy Joel and Aretha Franklin are expected to follow Stewart into the exclusive club. Cipriani claims the only act he hasn't been able to get so far is The Rolling Stones who wanted \$3 million for a performance. Before Stewart plays the hotel ballroom, he'll do the first leg of a North American tour which will reach 35 cities after it kicks-off July 14 in Hartford, Connecticut.

THE INSIDE TRACK

Did someone say festivals? Headlining WZTA/Miami's *Zeta Fest 3* are **The Black Crowes, Stabbing Westward, Candlebox, Seven Mary Three, Semisonic, Black Lab, Addict, Samiam**, and more acts to be announced. All told, more than 15 bands will populate three stages, July 5 at Markham Park in Sunrise, FL, not far from Ft. Lauderdale. Tickets are \$13. Two days earlier **WJRR/Orlando** will celebrate the birth of our nation with the *WJRR Dependence Day* concert, sporting a similar lineup: **The Black Crowes, Semisonic, The Honeyrods, Samiam, Addict, and Darling**. The outdoor show will be held smack-dab-in-the-middle of downtown Orlando and will also feature food, refreshments and a sea of vendor tents. Once again, 'JRR will give listeners a chance to chat with the bands on the day of the show via their web site, and post backstage photos throughout the day. **KEGL/Dallas** is also playing the patriotism card. Think of the Eagle's *All American Red White & Boom Blast* as a Texas-sized '80s nostalgia show/fireworks combo platter. While the audience retrorocks

to **Dokken, Warrant, Slaughter, Quiet Riot and LA Guns** July 4th at the Starplex Amphitheater, they'll be able to watch fireworks lighting up the sky from the adjacent Cotton Bowl. Tickets are \$13.50. The 80's themed show is tied in with **KEGL's** Sunday night "Unmodern Rock Show"... **DC101/Washington** estimates more than 40,000 attended its annual *Chili Cookoff* May 30th, raising over \$500,000 for the National Kidney Foundation, a new station record... **KBPI/Denver** and sister station **KTCL** will have two stages set up near Coors Field, site of the 1998 MLB All Star Game. The stations are currently in need of bands to perform. Contact Sabrina Saunders at (303)892-4726... This past Thursday (6/4), **Everclear** visited the *Howard Stern Show* to do the hang and play a couple of tunes for the King Of All Media. They performed plugged-in versions of "Santa Monica (Watch The World Die)" and "Everything To Everyone," and, of course, endured and enjoyed the usual Stern shenanigans... **WRCX/Chicago's Mancow Muller** had 12 minutes of his show simulcast on Fox News Channel's *Fox X-Press* morning show on Wednesday (6/3). "I'll be in your face and your ears, from coast to coast," the Cow told the *Chicago Sun-Times*.

THE RAT ROCKS: WRAT/Monmouth-Ocean have had quite a lot of things going on recently and the proof is in the photos.

TOP PERFORMERS

METALLICA "Fuel"
Obviously a mo-fo. No need for further explanation.

CREED "Torn"
Our number one testing record, just huge.

JERRY CANTRELL "Cut You In"
It was a slow one to start but when it popped it really popped.

STABBING WESTWARD "Save Yourself"
Sounds great on the air.

UP N' COMERS

CREED "What's This Life For"
This will be the next one to go to Power. Instant phones, strong third single.

MONSTER MAGNET "Space Lord"
Some early interest calls from listeners. I think it's one of those songs that takes a couple listens. It might be a slow builder but once it hits it's gonna be huge.

AEROSMITH "I Don't Want To Miss A Thing"
Another knock 'em down, drag 'em out power ballad. Typical Aerosmith, everyone seems to like it.

RAMMSTEIN "Du Hast"
The first time we played it the phones went nuclear for a half an hour.

TOP PERFORMERS

DLR BAND "Slam Dunk"
A slam dunk of a tune. It gives the classic VH fan what they want to hear.

SMASHING PUMPKINS "Ava Adore"
The biggest phone record we got right now. People adore this record.

FUEL "Shimmer"
Sparkling like a diamond. A good phone record.

MARCY PLAYGROUND "Sex & Candy"
Just like Sex & Candy, you've got to have a little of both. Still big phones for us.

CREED "Torn"
People are just learning the title of the track. A good spice record for our core audience.

UP N' COMERS

ADDICT "Monsterside"
Monster hook! It shows promise with phone action.

RAMMSTEIN "Du Hast"
Top 5 phones after only three plays.

CAMEL "Lucy"
It's a long-term record. It might take a while but it hopefully will build.

DAYS OF THE NEW "The Down Town"
An up tempo song from the record. That was my second pick for success. The audience is already requesting it.

CREED "What's This Life For"
This is going to eclipse the success of "My Own Prison" and "Torn." It has the recognizable, sing-along chorus that the other two tracks didn't have.

PROGRESSIVE ADULT RADIO PICKS

ON THE RIGHT TRACK?

BLUES TRAVELER "YOURS," A&M

Give this swelling anthem a couple of listens. You'll hear strings before you hear the trademark harmonica. "Yours" builds beautifully, as Blues Traveler has. Popper's vocals are unmistakable, but the texture of this song will take listeners by delighted surprise. Of course, this is one of the hardest touring bands in Rock and Roll, and your listeners will be looking forward to seeing them!

AGENTS OF GOOD ROOTS "UPSPIN," RCA

Agents Of Good Roots' RCA debut has already spawned the infectious Progressive hit "Smiling Up The Frown." The second track from *One By One*, "Upspin," is already getting significant Adult Radio air-time (WXPB, KINK, KXST, CIDR, and WCBR to name a few). Look for the trend to continue, as "Upspin" is the song that will break Agents Of Good Roots wide open!

EVA TROUT "DRIVETIME RADIO," TRAUMA

Eva Trout's self-titled album is an addictive collection of straight-forward, no-frills Pop/Rock songs highlighting the attractive vocals of Bek-Jean Stewart. Their latest single, "Drivetime Radio" should effortlessly perform for both the Progressive and Modern Rock formats in, regardless of the title, all dayparts. Sounds like a summer smash to us, don't miss out!

MARC COHN "LOST YOU IN THE CANYON," ATLANTIC/AG

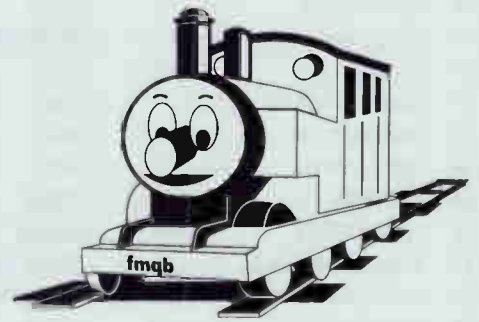

The next emphasis track from Marc Cohn's third album, *Burning The Daze*, "Lost You In The Canyon," has already found a home on several savvy Progressive outlets. Cohn's prose is very nearly perfect and the musicianship on this track is flawless. Check him out on NBC's *Today Show* on June 19, and performing at the Newport Folk Festival with John Hiatt and Nancy Griffith.

CHRIS STILLS "LAST STOP," ATLANTIC/AG

Winning hearts and making friends from sea to shining sea on his radio promo tour, Chris Stills has been proving that he has what it takes to make his mark on the music business on his own merits. "Last Stop" is the second track from *100 Year Thing*, Stills' debut on Atlantic. He'll be joining the *H.O.R.D.E. Tour* this summer. If you haven't seen him live, your chance is near.

SINGLES/EPS

BARENAKED LADIES "ONE WEEK," REPRISE

After hearing this one from that quirky band from north of the border, Barenaked Ladies, we have no question in our little minds as to why the song was most added this week! As we've come to expect from the band, the content is very clever and hysterically funny while dealing with one of life's little truths, in this case a lover's quarrel. The texture of "One Week" is Poppy and just perfect for the ice cream season. We can't wait for the rest of *Stunt!*

THE WHY STORE "WHEN YOU'RE HIGH," WAY COOL MUSIC/MCA

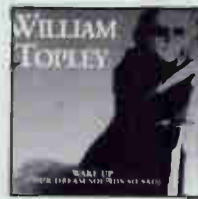

Who, in Progressive Adult Radio, hasn't been waiting for a new album from The Why Store?!? From the forthcoming album *Two Beasts*, "When You're High" demonstrates the band's extraordinary musical growth in the two years since their label debut. Produced by Mike Wanchic (John Mellencamp), band-member Chris Shaffer describes "When You're High" by stating "it's about feeling good. And whatever it takes to get you to feel good." No doubt, this is their biggest song to date.

JEFFREY GAINES "RIGHT MY WRONGS," RYKODISC

It would be easy, if somewhat cynical, to assume that comments regarding Jeffrey Gaines latest as his best work ever, are just hype. Let us take this opportunity to assure you that hype has nothing to do with it. Gaines' first single from the forthcoming album, *Galore*, "Right My Wrongs," is a finely-crafted and hooky mid-tempo tune that features an impressive line-up of players and a thoughtful lyric that wiggles under your psychic skin and stays there. Play it early and often.

WILLIAM TOPLEY "WAKE UP (YOUR DREAM SOUNDS SO SAD)," MERCURY NASHVILLE

We're huge fans of William Topley's last Mercury Nashville outing, *Black River*, so you could imagine that we were quite excited to hear his latest full-length, titled *Mixed Blessing*. For lack of a better word... WOW. Fans of Topley are going to be floored by his growth, and new fans are sure to come on-board by the truckload. "Wake Up (Your Dream Sounds So Sad)" is the lead single, but count on playing cuts from the record for the remainder of 1998.

SINGLES/EPs

BILLY BRAGG & WILCO "CALIFORNIA STARS," ELEKTRA/EEG

Featuring never before released lyrics by Woody Guthrie, this first-ever recording of "California Stars" can be found on the forthcoming album *Mermaid Avenue*, a full-length collaboration between Britain's Billy Bragg and American Roots-Rockers Wilco. Bragg approached Wilco after seeing them perform live, and together they wrote songs surrounding newly discovered lyrics found by Guthrie's daughter, Nora. Look for Bragg and Wilco to perform several shows together this month.

STEVE RILEY AND THE MAMOU PLAYBOYS "LET ME KNOW," ROUNDER

Fans of Louisiana music will take great delight in *Bayou Ruler*, the sixth Rounder Records release from Steve Riley And The Mamou Playboys. Described as "bulls in the Cajun china closet," Riley & the Playboys have mixed up what could be their greatest musical gumbo to date! Simply put, this band is about having a good time and re-introducing your feet to quick movement. Trust us, if you sit still while "Let Me Know" is blaring out of the speakers, you must be dead.

ALBUMS

FROM GOOD HOMES FROM GOOD HOMES RCA

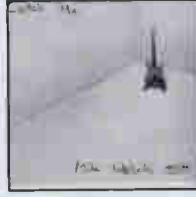

Set for release on June 16, From Good Homes' latest, self-titled album is their first full-length release since 1995's *Open Up The Sky*. The New Jersey band has been performing together since high school and has amassed a huge following based on their spirited live performances and huge repertoire of solid songs. The first single from the album, "Kick It On," has gotten high praise in the Adult Radio ranks, and we expect "Wake," "Bang That Drum," "Ride All Night," "Goin' Out," and "The Giving Tree" to perform exceptionally as well. For up-to-date info, give the band's hotline number a ring at (973) 442-4382.

JEFF BLACK BIRMINGHAM ROAD ARISTA AUSTIN

On his rock-solid Arista Austin debut, titled *Birmingham Road*, singer-songwriter Jeff Black enlisted the peerless production talents of Susan Rogers (David Byrne, Geggy Tah). Recorded over a two week period at the legendary Pedernales Studio in Austin, Texas, *Birmingham Road* features those ever-busy Wilco members Ken Coomer, John Stirrat and Jay Bennett as Black's backing band. The result is a mix of Roots and Country that has scored high here at *fmqb*. "That's Just About Right" is the first single. We also dig "A Long Way To Go," "What Do I Want," the title cut, "Union Town," and "Street."

MIKE WELCH CATCH ME TONE-COOL/ROUNDER

Lawdy Miss Clawdy! Monster Mike Welch is back with a vengeance, and he has grown-up some since last year's *Axe To Grind*. There's much more versatility on this album, and it's a veritable goldmine of tracks for the discriminating programmer. *Catch Me* has more of a Pop feel to many of the songs than Welch's previous efforts which were straight-ahead Blues. Fear not Blues fans! Welch still does a mean version of "Worried Life Blues" and he's got as much Blues influence in his music as ever. The incredible talent of this young artist will certainly keep him on the air for a long time to come. Pick any tracks!

PIERCE PETTIS EVERYTHING MATTERS COMPASS

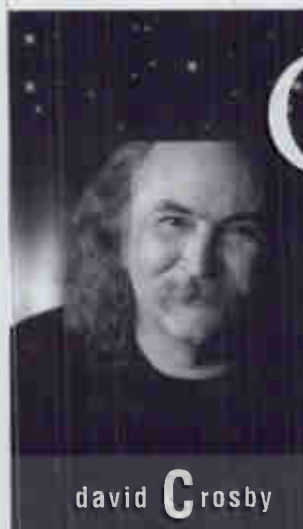

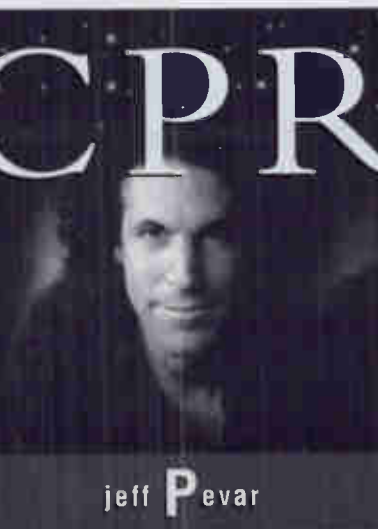

Pierce Pettis has been writing songs and performing for over 20 years so it's no surprise that his new album is a well-crafted blend of subtle guitar playing, heartfelt vocals and evocative songwriting. The light sound of this album brings to mind lazy daydreams about the natural splendor of our country, making it a perfect summer album. The songs on *Everything Matters* are a perfect foil to high-energy songs and will balance your playlist perfectly. Standout tracks include: "Tip of My Tongue," "Neutral Ground," "Kingdom Come," and "Words Said in the Dark."

SUGAR RAY SWEET & SWINGIN' BULLSEYE/ROUNDER

Sugar Ray's new solo album is out and he's preparing to hit the road in support of it with a swinging five-piece band. After leading Roomful of Blues for six years, he's finally found the time to record a solo album of his favorite songs. *Sweet & Swingin'* ranges from straight Blues to wild, cool Swing (helped out by the famous Jordanaires no less!). The only difficulty you'll have with this album is trying to pick out a track to add, they're all fantastic! Favorites include: "Need My Baby," "Love, Life and Money," Pee Wee Crayton's "You Better Change Your Way of Loving," and Hank Williams' "My Sweet Love Ain't Around."

A Problem Solving Forum for Progressive Programmers

Managing Your Production and Imaging Inventory

by Pat Welsh

Most PDs are intimately familiar with the number of spins they're giving to the songs they have in power, but do you know how many spins per week your music-imaging promos, contest promos or morning show recyclers are getting?

Programmers put a lot of time and energy into making sure that music is properly rotated, but not nearly as much time into ensuring that they're getting proper frequency and rotation of liners, sweepers and promos. Many still haphazardly throw a bunch of different recorded elements onto the same cart. In fact, it's rare to find a station that uses software to schedule production elements the way they do with music.

But why shouldn't the rotation of image production be as sophisticated as that of music rotations? After all, we've heard since we started in this business that our best marketing vehicle is our own airwaves.

If you want to start getting organized, divide your imaging production into meaningful categories such as those below:

- **Music-Imaging.** Quick sweepers or

longer promos that include song clips, and whatever sells the basic product of the station.

- **Audience-Recycling.** Promos or sweepers that sell a specific daypart or personality. In most cases, these are used to promote the morning show, but they can also be used to promote other dayparts, weekend special programming or benchmark features of the station.

- **Contest Promos.** For teasing upcoming promotions, explaining the details of a current contest or congratulating the winner(s).

- **Image Sweepers.** Used to sell an overall image or attitude (e.g. humor) that's important for the station. Simply sell an image of the station.

- **Quick IDs.** The short IDs used to fill-in where you once did segues.

Be strategic about what you're trying to accomplish and manage your inventory accordingly. Fill in the most important elements first, then give whatever space is left to minor things. If your format is new, or you've made significant changes in your music, then music promos take priority. If your morning show is just hitting its stride and you're convinced that now is the time to promote it heavily, put the other audience-recycling promos on the back burner and concentrate on the elements that you feel will give you the

highest return. But don't let the local music show dominate your promotional time; it's a nice image to have, but it's not that important in the overall scheme of things.

It's also important to carefully consider where you place each element within the hour. Or, more precisely, consider moving the elements around within the hour, from day to day or week to week. If you run one type of recorded element at the same time in each hour every day (say, always running your contest promo at :15), there may be some people who listen at the same time each day who never hear any of the morning promos or music imagers.

Finally, remember that this is programming inventory, your best chance to tell your story to your listeners. Do what you can to protect it from sales people who promise promos to clients as value-added garbage. It clutters the station and cuts into the amount of time you have to sell station images. And we promise that no one will be calling on Tuesday to take your report on how many spins you gave your morning show promos last week.

TRANSMISSIONS

KINK/Portland releases the first of their long-awaited live CD's, *Kink Live*, featuring a host of on-air musical highlights courtesy of artists dropping by the station. Culling a wide-array of Progressive standouts - **Cowboy Junkies**, **Jonatha Brooke**, **Little Feat**, and **Randy Newman** among them - performing in the intimate settings of the KINK studios, *Kink Live* is a must. Other

artists caught in the KINK studios include **Leo Kottke**, **Jeb Loy Nichols**, **David Poe**, and **Bruce Cockburn**. Following in the footsteps on KINK's six *Lights Out* instrumental compilations, proceeds from *Kink Live* benefit Portland Public Schools Foundation's music education programs.

Greater Media's WBOS/Boston has hired **George Taylor Morris** as the station's new PD, as originally speculated in the *fmqb* (5/15). Morris was most recently APD/midday announcer

at cross-town Classic Rocker WZLX. His background also includes stints at Global Satellite Network, Westwood One Radio, NBC's *The Source*, WPIX/New York, and WCOZ/Boston.

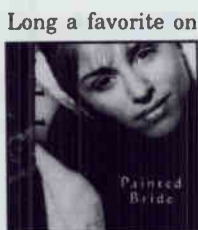

CIDR/Detroit MD **Ann Delisi** will leave the Progressive outlet for Modern WPLT this Friday, June 5, for similar duties. CIDR PD **Wendy Duff**, recently returned from maternity leave, has moved midday personality **Thom Kikot** to afternoons, and **Lori Bizer** from nights to middays to

cover **Delisi's** departure on-air. CIDR will begin a search for an MD immediately.

Public Progressive outlet KPFT/Houston is in need of an afternoon host. T&R to OM **Edmundo Resendez**, 419 Lovett Blvd, Houston, TX, 77006.

Check out the following guests on upcoming editions of *Acoustic Cafe*: Week of 6/8: **Cheri Knight**; Week of 6/15: **Jules Shear**; Week of 6/22: **Jeffrey Gaines**; Week of 6/29: TBA.

PROGRESSIONS

Long a favorite on the Philadelphia music scene, singer/songwriter **Lauren Hart** shows her rich vocal ability and her knack for crafty songwriting on her new CD, *Painted Bride* (Gypsy Girl). Daughter of legendary Philadelphia Flyers announcer **Gene Hart**, Lauren Hart has graced the stages of some of Philadelphia's most renowned venues - Mann Music Center and the TLA - bringing her introspective, yet witty muse to the masses in the process. Tracks like the buoyant "Fine Romance," "Complicated" and "All I Remember" are sure to keep the momentum rolling for Hart, who also had her cover of **Fleetwood Mac's** "Go Your Own Way" featured in the movie *Disturbing The Peace*, which debuted at the Cannes Film Festival. For more info on Hart, contact **Allen Newman**: Talent at (215) 732-9518.

Day" for further proof of Haskins' songwriting expertise.

Out Tuesday (6/9) from Green Linnet is another link in the tradition of Celtic music, **Anam**, and their new album *Riptide*. Taking their name from the Irish Gaelic meaning of "soul," **Anam** craft a rich tapestry of traditional and modern Celtic sounds, featuring the breathtaking harmonies of **Brian O'Headra** and **Aimee Leonard** on tracks like "This Time" and "Kjeelit's Song," both no-brainers for the format. On the instrumental front, tracks like "Riptide" and "An Blew Tregys" are sure to make you want to tip a pint o' Guinness and search for a pot of gold.

After a two-year respite, **Shahin & Sepher** return with the album *World Cafe*, and another dose of their intoxicating blend of exotic rhythms and acoustic guitars. Rooted heavily in World-beat sounds, *World Cafe* is rich with the duo's fretboard mastery, especially on tracks like "Florian's Cafe," "Letters From Vienna" and their cover of **Cat Stevens'** "Wild World." Adding to **Shahin & Sepher's** worldly musical scope on *World Cafe* are Ethiopian bassist **Munib (Moon) Jewad** and American guitarist **Michael Baird**.

The truth is out there - there's all sorts of freaky stuff for our little format to dig its teeth into from **X-Files: The Album**, the soundtrack to the movie version of the popular show. With tracks ranging from normal to the paranormal, *X-Files: The Album* has a little something for everyone. Our faves include **Foo Fighters'** "Walking After You," **The Cardigans'** "Deuce" (not a **KISS** cover), the always-cool **Soul Couching** and their "16 Horses" and **Better Than Ezra's** "One More Murder."

Look for *The Genesis Archives Volume 1: 1967-1975*, in stores from Atlantic on June 16. The four-CD set was to be released in 1996, but was held up by legal problems. Comprising *The Genesis Archives* is unreleased live material (including a live performance of *The Lamb Lies Down On Broadway* album in its entirety), singles, demos, rough mixes, and previously unreleased BBC recordings. Among the rarities is an unreleased song from *The Lamb* sessions.

Out now is the debut full-length from **Parlor James**, entitled *Old Dreams* (Sire). Comprised of former **Lone Justice** founder **Ryan Hedgecock**, and **Amy Allison** (daughter of Jazz legend **Mose Allison**), **Parlor James'** new release carries on the Countrytinged Folk Rock vein that made the band's 1996 EP, *Dreadful Sorry* a success with critics and fans alike. The band bring a slight electronic touch to their first full-length, with produc-

er **Malcolm Burn** adding keyboard touches, and **Tricky** drummer **Gloria McElrath** contributing on some tracks. Look for the band on residency tours in the northeast and on the west coast this summer. They also appear on **Vin Scelsa's** *Idiot's Delight* radio show on July 19.

Koch's Amy Rigby has just wrapped-up recording her second album with former **Cars** guitarist **Elliot Easton** handling production chores. Songs include "Invisible," "20th Anniversary" and "The Summer Of My Wasted Youth," all of which have been featured in **Rigby's** recent live shows. The as-yet-untitled album will be out in early September, with tour dates to begin in mid-August.

Larry Jacobson, Revolution/Giant Records Head of Business and Legal Affairs has been named GM of the label. In his new position, Jacobson will oversee the company's day-to-day operations as well as help coordinate and implement its long term goals. "I'm thrilled that Larry has agreed to be our GM," Revolution/Giant founder and owner **Irving Azoff** commented. "Not only is he just crazy enough to take the job, but he's got that rare blend of intuition, inspiration, obsession and attention to detail that's essential to making a record company successful. Working with Larry has always been an exercise in the unpredictable, usually with spectacular results."

New digs for the ram, take note: Capricorn Records, 83 Walton Street, Atlanta, GA, 30303. Phone: (404) 954-6600. New Fax for **Jeff Cook**: (404) 954-6681.

Growing up in a family of musicians has certainly given New York-based singer/songwriter **Django Haskins** time to hone his craft. It's clearly been time well spent, as his new CD *Folding Stars* (Alyosha) resonates with the spark of a gifted singer and lyricist delivering songs from the heart. Imagine a hybrid between **Elvis Costello** and **Tom Petty** and you've got a pretty good idea of what Haskins is all about. Check out the tracks "Hand To Mouth," "Geronimo" and "Longest

METAL MONSTERS

GRAVITY KILLS PERVERSION,TVT

It's been almost a month since you got "Falling," the first single from **GRAVITY KILLS'** second album, *Perversion*. Last we checked, eight of you (WSOU, WWSP, KFMX, WKSM, WTPA, WVBR, WVUD) were spinning it before the add date, but there were probably a lot more of you than that. Now that you've got the whole album in your hands, you've got nine other songs to play with, and you won't be disappointed. The band took the Metal and Industrial world by storm with their first album, which built on the blueprint of Industrial rage and aggressive guitar riffs and rhythms made popular by bands like **NINE INCH NAILS** and **MINISTRY**. *Perversion* isn't drastically different from their first album, which is great news if you liked it the first time around. "Falling" is just the beginning of this album, which we suspect will be dominating at more formats than just ours. Other songs we dig include "If," "Alive," "Wanted," and "One."

REO SPEEDEALER, ROYALTY

REO SPEEDEALER, the Texas Rock-a-bully quartet, deserves a nod as well as some spins based on the sheer creativity and double-entendre inherent in their name. The band deals a hefty, super-speedy bag of Southern Fried Punk Metal. Song titles akin to *South Park* vocabulary like "Double Clutchin' Finger Fuckin'," "Cocaine Dave," "Pussy," and "Pig Fucker," are manufactured for rockin' out in your eight foot double-wide trailer. "Gottterdammerung" has a

singalong chorus no doubt designed to rev up shirtless, toothless race car rockers all over the globe. File this one under White Trash Core and have a good time doing it. Of course, you'll want to carefully screen this album for profanity, because as you might have guessed, there's more than enough of it to go around, but this ballsy album is so infectious you and your listeners will be jumping on the REO bandwagon.

DARK FUNERAL VOBISCUM SATANAS, METAL BLADE RECORDS

Hearken all ye Blackmetalheads. There is no shortage in supply of Swedish Black Metal thanks to Metal Blade. So bust out the black capes, anoint thyself with white face powder and red lipstick and stay out of the light with **DARK FUNERAL**. We know you know what to expect, doomy guitar tooling set against a plethora of theatrical vocals of the screamed and growled kind, so stop reading

this and drop the album down on your audience. Then, hop a flight to Sweden, burn a church, and start your own Black Metal band before rotting in hell.

PULKAS GREED, EARACHE

It was three months ago that all *fmqb* reporters were introduced to **PULKAS** via the song "Loaded" that was included on our Spring 1998 Metal Detector CD Sampler. WMDE, Music Choice and KEYJ were among the reporters that jumped on it early, and now its your turn! A band with Emo, Hardcore and straight-up Metal influences, Pulkas was signed to Earache after playing only nine shows. In the year since they've been signed, the

band's been touring constantly, and have built up a reputation as an amazing live band. If your station's played any **DEFTONES**, **MACHINE HEAD** or **KoRn**, you owe it to your listeners (and yourself) to expose them to this cool new band. *Greed* was produced by **Colin Richardson** (Machine Head/**NAPALM DEATH**), and trust us, this doesn't sound like either a bunch of Londoners or a first album. Check out "Loaded," "Control," and "Rubber Room" as your entry into this album.

MURDER 1 "BREAK THESE CHAINS," NMG RECORDS

MURDER 1 features **Job** (the alias of a prominent record exec who we won't name, but you probably already know who it is anyway), **Boy Toy**, **G-Money**, and **Cakeboy** and no, we didn't cull this lineup from the credits of a porno! However, the illustrious porn industry and the act of getting off are the keys to the joy of life for the members of Murder 1. In fact, if you've ever caught a Murder 1 show, we're sure you'll remember seeing these

nymphomaniacal New Jerseyites playing with their genitalia and destroying their equipment in the grand Metal tradition. However, "Break These Chains" is a distorted guitar-driven ditty about escaping the filth of the NJ-NY area for the arguably safer haven of Beverly Hills. Murder 1 laugh at themselves and don't take themselves too seriously, a refreshing and welcome change of pace in today's Metal scene. Also, check out the hysterically perverted interview the band did at a diner with WSOU's **Kolleen Meeker**.

STUFF YOU SHOULD KNOW...

* **THE MISFITS'** most recent vocalist, **Michale Graves**, has left the band. Graves, who sang on the band's current album, *American Psycho*, quit. Following his departure, the band once again asked original frontman **Glenn Danzig** to rejoin the band, an offer that he declined. The band's new vocalist, who will begin with the band's upcoming European tour, is **Myke Hideous**. Myke was formerly in the band **EMPIRE HIDEOUS**. In other Misfits news, look for *Evil Live II* to be released soon.

* According to MTV News, **KISS** plan on kicking off their tour for their new album, *Psycho Circus*, with a Halloween concert at Dodger Stadium in Los

Angeles. In other **KISS** news, the band's looking at producing a \$50,000 two-seater sports car. Six copies of the car will be unveiled in September, the month *Psycho Circus* is released, to appear with the band in publicity shots. They're also working with an interactive entertainment company to create a computer game.

* Here's the track listing for **VISION OF DISORDER**'s new album: "What You Are," "Twelve Steps To Nothing," "Landslide," "By The River"(featuring **PANTERA**'s **Philip Anselmo**) "Imprint," "Colorblind," "Rebirth Of Tragedy," "Locust Of The Dead Earth," "Up In You," "Clone," and "Bloom." The album hits stores on July 14th, with radio getting it at the end of June. We were able to score an advance copy of the disc, and it's way heavier than their first album!

* We also heard some of the new **Kid Rock** over the phone as well. If something kicks ass over the phone being played through a mono speaker, you can pretty much bet that it's gonna completely shred on a real stereo! Watch for that in August, and if you're expecting half-assed white-boy Rap, you'll be pleasantly surprised...

* **MACHINE HEAD** has announced their new guitar player. **Ahrue Luster**, a Bay Area musician, replaces **Logan**, who left the band to join **SOULFLY**. Luster

STUFF YOU SHOULD KNOW *continued...*

will be in the studio with the band for their next album, which they hope to begin work on by September.

* From our "Go White Boy, Go White Boy, Go" dept.: **Vanilla Ice**, the "rapper" now being touted as **Rob Van Winkle**, is back and in da studio with notorious producer **Ross Robinson**, who has worked with **KoRn**, **LIMP BIZKIT**, and **SEPULTURA** to name a few. The tag team's effort will feature all new material, and has been tagged as "Hardcore Hip-hop." The record is slated for release this fall on Republic/Universal. Let's see if Van Winkle will take us *To The Extreme* once again.

* While **Tommy Lee** is holed up in the slammer, his bandmates in **MÖTLEY CRÜE** continue working their butts off. In addition to the greatest hits album and the new tracks, bassist **NIKKI SIXX** is working on a film score for a movie called "The Empty Space" as well as an album for a side project called **1958**, where Sixx plays guitar and sings in addition to basswork. **1958** also features **David Darling** from **THE BOXING GHANDIS**.

* Don't miss your chance to cyberchat with **SAVATAGE**. On Sunday, July 19 at 5:00 p.m., the

band's co-founder/singer/keyboardist **Jon Oliva** will be conducting an online internet chat, hosted by Rock Online. Early registration is encouraged, so go to <http://www.rockonline.com/events>

* Internet Metal mainstay **HardRadio** (www.hardradio.com) announced that in the last twelve months, the monthly traffic visitor levels have increased threefold.

* On the **QUEENSRYCHE** front, the band has plans for a big tour after they release their new album. As for which label it will be released on, the band has had many offers and have also considered starting their own. Four working song titles "When the Rain Comes," "One," "Break Down," and "Right Side."

* Due to the surprising retail success of **CRADLE OF FILTH'S** recently released blasphemously eerie *Cruelty and the Beast*, the band is set to complete their current European Tour with a performance at London's Astoria Theater. The show is going to be filmed and included in the band's first home video, set for release later this year.

* **Steve Kruecher** is leaving McGathy Edge. Look for him to show up in another industry position before long

* **Slipdisc** is looking for someone in the Chicago area to help with Metal Radio and some commercial specialty shows. Fax your resume to Rob Gill at 973-378-2549.

* **Frank Black** is back as the Metal Host at WTFX/Louisville! The "Attitude Network" is now in effect, and you can reach Frank at 501-560-1069.

* **Donny McVicker** has graduated, so the new Music Director of WSTB/Streetsboro is **Chris Evans**. You can reach him on Mondays 3-5 and Wednesdays from 3-6.

* This week, we gain **WECS/Willimantic** and **KRZR/Fresno** as reporters. **Dan Sandshaw** is your contact at WECS, and you can reach him at 860-465-5354. Over at KRZR, **Cari Holder** is your contact, you can give her a call at 209-243-4300 x 179. Her fax number is 209-243-4301, and her show is on Thursdays from 9-10p.m.

MCGATHY BASH 13!!!!

Last week, for the thirteenth year in-a-row, music industry types from all over the country descended upon New York City for the annual McGathy party. In true McGathy tradition, the Yankees lost again, many bat bites were drunk, cool music was heard, and lots of gooly pictures were taken. Here's the first batch:

The two McGathy guys took some time for a Metal moment with One Of Us. (L-R): Jason Rudolph; John Bambino; Bram Teitelman.

If you look between backgammon tables, you can see the pyramid of Jagermeister ornaments that (L-R) WCLH's Kevin and Erin, WQSU Metal Director Brian Renehan, WQSU MD Bob Brown and One Of Us built at the Milkbar.

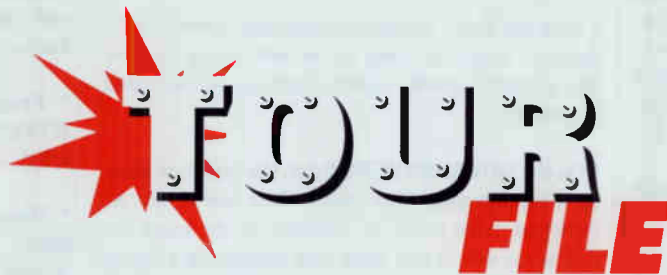

Outside CBGB, Ex-WKNC/Raleigh PD Andy Cooke, WSUP/Platteville Jason McGraw, and Hollywood's Will Knapp sang and danced for change. Inside CBGB, Monster Magnet rocked the house!

Some of the WSOU crew says "hi." Actually, they appear to be saying "fuck off." (L-R): ex-MD A.J. Teserio; ex-PD Robby Barra; PD Anthony Delia; Kolleen Meeker.

Hey, any bands stop by your station lately? How about that picture of you, the chicken and the vat of jello from the last convention you went to? Whatever you've got, we wanna run! That's right, we're looking for pictures of you and your station so we can embarrass you and give your station some press in the industry's leading trade, *fmqb*! Send them to *fmqb*, 1930 E. Marlton Pike, Suite F-36, Cherry Hill, NJ 08003, attn: Bram Teitelman.

KISW, SEATTLE MD-CATHY FAULKNER:

Once again, an incredible McGathy weekend. **Bill, Rose & gang**, you are da sh*t. Great food, great music, great people. The memories are many and will definitely last.

KRZZ, WICHITA PD-LESTER ST. JAMES:

Back and REFRESHED!!! Loads of fun in the Big Apple over the weekend! Biggest and best major rush was roller blading thru the city from Central Park to The Village and back! Throw in 3 trips thru Central Park, 2 rides on the "D" train, a Yankees loss, and a bunch of bands, that was the trip in a nutshell!...Utah & Da Bulls. Is this Stockton, Malone & Hornacek's year? And, will Detroit go for back-to-back titles against The Capitals?? My gut says yes, though Ollie The Goalie will give them fits!...The busiest month is now upon us!! The station is sold-out almost the entire month!! Plus, loads of other happenings, like a couple [of] busses to **Page/Plant** in K.C., Newton Blues Fest, morning guy live in a tent for 36 hours with "Pennies For Wishes," Conservation Day at the zoo, and a remote, all just this Saturday!!...The 12th annual **Bill Rusch Memorial** is this Thursday at Willowbend Golf Club! Time = noon (tee-off @ 1). Look forward to seeing many of you!! Hotel = Marriott (call 1-800-350-2950, ask for **Ron**, and the **Bill Rusch Memorial** discount rate). Other mindless **Lester** ramblings: We're a month-and-half away from Conclave 23 (July 16-19) in downtown Minneapolis. The Marriott and Radisson are SOLD-OUT!! And, we anticipate one of the largest turn-outs in our attendance history. So, what are you and your label going to do to get noticed? We have a few sponsorship events available! Need more info?? Call Conclave headquarters...612-927-4487! Peace, love and a big party THURSDAY!!

WAMX, HUNTINGTON, WV PD/MD-DEBBIE WYLDE:

HOWDY!!! WHAT AN INCREDIBLE WEEK-END! I had such a blast at my first McGathy party! Things I'll never forget: My flight being canceled out of Huntington. Katz's Deli and a wonderful corned beef sandwich. **Addict**, **The Din Pedals**, and **Jimmie's Chicken Shack** at Tramps. **Virgil's BarBQ** (thanks **Warren** and **Michelle**). Seeing "The Soup Nazi" in action on the **Kramer-Seinfeld Reality Bus Tour**. Meeting **Rob Zombie** and hearing his awesome new stuff. Trying to get a cab in the rain and trying to find the **Elektra/Hollywood** dinner in Little Italy with **Mike Vogel**. **Finger Eleven** and **Fuel** at CBGB's. (Notice I'm not mentioning **Monster Magnet** and **Samiam** since I was so busy socializing!)

Shopping in So-Ho and the World Trade Center (thanks **Michelle** and **Victor**). Kick-ass mashed potatoes at the **Red Eye Grill** (thanks **Wind-Up**). **Big Wreck**, **Creed**, **Spacelog**, **Candlebox**, and "Bat Bites" at **Le Bar Bat**. And, most importantly, all those lovely cab rides! A big thanks to all the folks that made my trip possible. Most importantly, thanks to everyone at McGathy for a totally cool bash. Rock on!...This week in Huntington: Wednesday night it's **Southern Culture On The Skids** at the **Stoned Monkey**. I plan to indulge 'em with **Little Debbie Snack Cakes**! Friday night it's the 'encore' performance from our One Year Anniversary Party for **Luxx** at **The Drop Shop**. **Katrina** is joining our morning show and the whole gang will be in the studio that afternoon for a live performance. Then, on June 17th, it's **Jerry Cantrell** at **The Drop Shop**! We ROCK! A huge howdy to **Linda Wilson**, from **Trauma**, thanks for stopping by last week. **WAMX** has a new "Screamer Of The Week." Beating out **The Dave Matthews Band**, it's **DLR Band** with "Slam Dunk." We ROCK! **WAMX** continues to "Rock Around The World." We gave away a trip for **Metallica's** kick-off in West Palm Beach, Florida...Next up: **The Ozzfest** and **Warped Tours** in Minneapolis. We ROCK! As I've mentioned before, **WAMX** will be holding **X-Fest** on September 26th. Last year, **Jimmie's Chicken Shack**, **The Hazies**, **Days Of The New**, **Vibrolush**, and more rocked the tri-state. LET'S START PLANNING AHEAD!!!!...Kicking ass on the phones: **Dave Matthews Band**, **DLR Band**, **Goo Goo Dolls**, **Monster Magnet**, and **Rammstein**. We ROCK!!!

KTOZ, SPRINGFIELD, MO PD-MELODY LEE:

I'm busy gearing up for the **R&R Convention**, so please forgive the briefness of this note. Oh, and speaking of the convention, since I am leaving town on Wednesday morning, I will not be taking calls on Wednesday...295.5 **The Edge** held its First Annual Fiesta Blood Drive this week for the **Community Blood Center** of the **Ozarks**, and on our **FIRST** day alone, managed to collect 93 pints of blood for the center. We lured our listeners to donate with a chance at becoming a qualifier for our **Get A Life** promotion, as well as tickets and seats on our **Edge/Pearl Jam Short Bus** to the **Pearl Jam** show in **Kansas City**. The response was overwhelming...So far, we've managed to secure some awesome prizes for **Get A Life**, including: A **Jeep Wrangler**, a pair of **WaveRunners**, a custom built **Pentium computer**, a mountain

bike, a wardrobe from **Old Navy**, free skydives, **IMAX** passes, dinners at a bunch of local restaurants, tickets to all **Edge** concerts for a year, a **CD** a week for a year, and free beef for a year. Hey, this is the midwest, you know. Our listeners are going completely nuts over this promotion. I have to give big snaps to our sales team, who did just an awesome job collecting our prizes...Top five phones this week go to: 1) **Smashing Pumpkins**, 2) **Eve 6**, 3) **Harvey Danger**, 4) **Semisonic**, and 5) **Urge**. See you in L.A.!

KTWS, BEND, OR PD-RON ALVAREZ/MD-JEFF WILSON:

David Lee Roth joined **The Twins' KC & Ron Mornings** last week for a phone interview. As informative as it was, the out-takes were hilarious. **Diamond Dave** is the only person who has succeeded in making **KC** blush, or maybe she was just hot at the thought of those butt-less leather pants of his...Speaking of **DLR Band**, **ROCK 98.3**, **The TWINS**, will give listeners a chance to win it before you can buy it with **DLR's** debut **CD** the first week in June...Also, on June 1, **The TWINS** does the same with **Deep Purple's** latest, "Abandon." Thanks to **Mark Roper**, at **CMC**, for that and thanks also to **Mike Rittberg** at **Warner Brothers**, for his help with the same thing for **Rod Stewart's** latest...June 5 **Widespread Panic** and **Gov't Mule** hit **Eugene**, and that evening the guys from **WP** join **The TWINS' Jeff Wilson** for a free-ranging interview before the show.

WKZQ, MYRTLE BEACH, SC MD-SUMMER:

Queen Voice Of The World here...**Myrtle Beach** really rocked this past week; **Brother Cane** Thursday night, proving that they are not just the southern genre of music but a straight-up hard-hitting **Rock** band. Friday night (**Gary Gratza**, **Virgin**) brought the **Shreveport** boys back. The **Kenny Wayne Shepherd Band** packing the house. Young and old can't deny these guys will be around for quite a while (**Dave Derkowski**, **Reprise**.) Trouble is, that much mature talent just celebrating his twenty-first birthday. Happy B'day, **Kenny**. Somehow, somewhere, someway the third release won't be the last hit from this **CD**. Keep 'em spinning!!! Super nice guys, and the drummer hails from this area (**KWS**.) **Better Than Ezra** WAS good Saturday at the **House Of Blues**, and even came out for the **Volleyball Tourney**...Senior Week already smokin'! If you are cruising through, come check us out. I'm practicing my "waves" for the season kick-off [for the] **Sun Fun Parade**. Should I go with the "queen wave," the "windshield wiper," or perhaps even the "I really care" wave, mmmmmmmmm??? I REALLY DIG PARADES.

JIM DEL BALZO
COLUMBIA (212-833-7029):

This has been one of the busiest time periods I've ever experienced. Let's start with *Armageddon*. The advance word on this movie is that it could be one of the biggest films of the year. The soundtrack is [a] killer. Aerosmith's first single, "I Don't Want To Miss A Thing," is the #1 most requested song in the nation. Once a year a power ballad comes along and just kicks ass. This song has already found its way into your listeners' hearts. We're already Top 5 requests at Active Rockers like KSJO, KEGL, WRIF, KTUX, WXVO, among others...On June 10th, you'll receive a great new song from Journey featuring Steve Augeri (formerly of Tall Stories) on lead vocals. This song is absolute killer Journey. If you're a Mainstream Rock station, you should add this track on June 16. It's also part of the *Armageddon* project...Jerry Cantrell's "My Song" collected another 20 adds this week and is shaping-up to be another major hit from Jerry. He'll be on tour with Metallica beginning June 24...Our Lady Peace continues to grow nicely with 6 more adds this week, including KTXQ and KLBK. A great, but not so surprising, thing is happening. When "4 AM" goes on the radio there is immediate response. This is a meaningful song that touches people. It has all the elements of a hit record. Give it a chance...*Stabbing Westward* is basically a no-brainer at this point. Sales are up and the research is enormous. If you haven't opened-up the day part on this you're really behind the curve. The band will be on tour all summer...Clutch is also shaping up to be one of the premier heavy Active Rock tracks. Clutch was added this week at WRXN and WLZR, among others. If you rock hard, especially at night, this band is for you. It's a very active song...Please listen to the Bernard Butler record. He is a very special artist. This could be a very strong upper-demo Rock record.

JOANNE GRAND
WINDUP ENTERTAINMENT
(212-251-9665, EXT. 236):

How great was this past weekend?? Could the lineup (including Creed and Finger Eleven) be any better? Congratulations and a big, hearty thank you to Bill, Rose and company for another phenomenal weekend. Now, down to business...Creed's shows and singles prove to all just why they are the most successful Rock band right now. "What's This Life For" — #1 most added at Rock Radio, as "Torn" is still the #1 song at *fmqb*. We really do appreciate your support. More great things to come...finger eleven. How inspiring it is when programmers see their set, then ask how soon they can get the CD!! Looking forward to seeing all of you again next week. As always, call me if you need anything.

JOEY SCOLERI
HOLLYWOOD (818-560-5395):

e.mail.joey_scoleri@studio.disney.com The Pistoleros "The Hardest Part" is a guitar-driven, melodic, rock song that Rock Radio can have a field day with. First week adds include KLOS - Los Angeles, KQDS - Duluth, KFRQ - McAllen, WGLO and WWCT in Peoria. "The Hardest Part" combines the hooks of The Gin Blossoms with the rock sensibilities of Tom Petty. Have a listen to the remix on your desk, it's a perfect spring/summer up-tempo, positive, hook-laden rock song. KDKB - Phoenix has been on "The Hardest Part" for weeks and it continues to receive significant airplay and sell records in Phoenix. Fastball's "The Way" is #1 35 - 44 in Kelly Research, so much for too "Alternative". The *All The Pain Money Can Buy* CD sold 41,607 discs this week and moves to #29 on the national sales chart. "The Way" has no burn at Rock and continues to garner huge airplay on the biggest of Rock stations. Going

to R&R? Then you're invited to a free, private party at Disneyland on Saturday June 13 from Midnight to 2. Buses leave the Century Plaza beginning at 10pm, or so. No lines, no cover, courtesy of your friends at Hollywood.

HILAIRE BROSIO
ELEKTRA ENTERTAINMENT (310-288-3842):

Big kudos to Rose and Bill on this year's McGathy Bash. So many bands, so many people...it was fantabulous. *The X-Files* soundtrack lands at retail this week and Filter's "One" is blazing a path with new believers this week at KXXR, WRQC, KRAT, WSTZ and WTFX. The film opens on June 19th so be prepared, or the Syndicate will be destroyed and the timetable for colonization may be stepped up (...if you have no idea what I'm talking about look for the hidden Chris Carter monologue that follows the end of the 14th track). The Scott Thomas Band currently has 89 stations on their debut "Black Valentine". Early call-out at WFBQ looks solid and their album *California* just hit the stores last week. Feeder's "High" is smokin' up the airwaves with new adds at WMMS, KMBY, KRRO and KSQY. Look for their showcase at the R&R Convention on June 11th, because to see this band is to believe this band. Have you heard "Touched" by Vast? Vast stands for Video Audio Sensory Theater and is spearheaded by 21 year old Jon Crosby. Cue it up and discover why Lars Ulrich describes the release as "One of the best debut albums I've heard in a long, long time. It hits you on so many levels. It's been a record I've been listening to over and over." 'nuff said.

MIKE LYONS
LEE ARNOLD MARKETING (414-351-9088):

There were so many great bands, people and cameras at the McGathy blowout in New York that I expected Minnie Driver to show up at any minute. WLVQ, WRNR, KPIG, KFXJ, and a dozen other PAR stations showed up for Roy Rogers this week. This terrific Blues-slide guitarist is a rising talent. Use "Down Here In The Real Big Empty" or "You Can't Stop Now," his killer duet with Sammy Hagar. WZEW, WCLZ, WCBE, and KBAC led a crew of 22 stations onto Jupiter Coyote's "Ship In The Bottle" this week. Check out this great story-song from a band that's due. Sonia Dada keeps racking 'em up as another dozen stations came in this week, including WTTS. "Zachary" is the lead track from the new album, *My Secret Life*, in stores tomorrow. Dave Hamilton and Alex Chesley cannot wait as KQRS and WZEW added the new Why Store single two weeks early. "When You're High" is a seasonal, uptempo smash that dismisses any talk of a sophomore slump. Add date is 6/15. And, for those of us who've been waiting for the new Bruce Hornsby since last year's Boulder Summit, the CD will finally hit your desk in the last week of July. Last, but not least, as a man who spent 15 years in Orlando radio and 10 years in Miami radio, best wishes to Ann Delisi at her new Detroit home at WPLT. Can't let Ben Edmonds and Doug Podell be the only ones that know that town's musical history inside and out.

Marketing.com How's everybody's hangover? It was really cool to meet everybody at the Metal lunch last Friday in N.Y.C. Some new faces and some old, too. I know your brain still hurts from Saturday's bash. Don't bullshit 'cuz we know what's up. Anyway, we will have another drinkfest at CMJ. Adding this week is the REO Speedwagon and the new Murder 1 single "Break These Chains." Both kick ass and rule, so add them both. Kilgore is #1 and we want to keep it there. Monster Magnet is right behind them, plus the full album goes for adds on June 15. Motorhead is in Europe and will be headlining the second stage at Ozzfest. Rorschach Test, Nihil, and The Clay People are 3 kick-ass albums. All three are doing interviews, plus Rorschach is on the road with Kilgore until Ozzfest. We have tickets, so you can ask us. Helshock is real heavy, and the band is available for shows in the midwest. Kris and Tex are also around for interviews. Bad Religion is on the Warped Tour this summer and we have tickets. You gotta love that, so let us know. Savatage started their tour last week, so don't miss them live. One Minute Silence is doing phoners, so if you're into it, call us ASAP to be put on the list. Adding on June 15 is the new ZAO. And, coming on the 22nd is new Monster Voodoo Machine. Venom. Need we say anything else? Play everything mad heavy 'cuz you love it. C'ya.

JOEY SEVERANCE
METAL BLADE (401-831-2960):

Going for adds this week is the new blood-freezing opus from Sweden's Dark Funeral. The CD is called *Vobiscum Satanas*, and the emphasis track is track #1 called "Ravenna Strigoi Mortii." Please add and chart this record high on your charts. This is a top priority record for us. If you did not receive this CD and would like a copy for your station, let me know!! Also, a priority is the new Mercyful Fate CD *Dead Again*. You should be spinning and charting the hell out of this. There will be a Mercyful Fate tour starting in July. Cannibal Corpse is still holding high on the charts, as they should be. Definitely keep up the action on this record. I should have the guys on the phone doing interviews sometime next week. Their tour will also start in July. Still tracking on *Blackened Volume 3 - Enthroned - Beseech*. The 13th Annual Dynamo Open Air Festival was total Metal heaven. Both Six Feet Under and Fates Warning totally gave the crazy Europeans exactly what they came for. You will see pictures soon. Metal Blade bands playing this year's Milwaukee Metal Fest: Six Feet Under, Cannibal Corpse, Immolation, Mercyful Fate (headliner.) If you need anything from me, get in touch!!

SMITTY
NG (212-505-5414):

Question Of The Week: If five days-a-week my body is a temple, then the other two it's an amusement park, right? I'd like to thank the McGathy clan for proving this particular one wrong, and providing, yet again, another couple of days of inebriation. Now for your amusement. The Phoids: a great N.Y. homecoming the night prior to McGathy. Sold-out, 600 people. The band, complete with horn section and Gospel singers, belted out their new album in its entirety. Free drinks and a great time [was] had by all. Now charting at CMJ, and on at almost a dozen PAR stations — a smash in the making! Get on it! Orange 9mm is setting up for some dates on the road in support of "Godzilla Vs. Astroman." You should do the same. Les Stitches just opened for Rancid for a surprise show in N.Y. If you play one, you should play the other. Call for a copy of "Stripped," if you don't already have it. The next new station to call me will get a copy of KoRn's newest tune with Fred, from Limp Bizkit, on it. C'ya!

Modern picks

Rage Against The Machine

"No Shelter," (Epic/Sony Music Soundtrax)

This furious track from the *Godzilla* soundtrack is a Rage song that was previously titled "American Eyes" and produced by **Brendan O'Brien**. It's their first new studio recording of an original song since their 1996 album, *Evil Empire*. It's Rage at the top of their game, and finds them in a really relaxed frame of mind "I really love doing soundtrack songs because there's not the responsibility and pressure and heaviness of doing a whole album," guitarist **Tom Morello** recently told MTV News. "We wrote it in about three days and recorded it in a day and a half. So, it's really quick and rather than having to wait two years to document where the band is, you're able to just kind of get in there that week and blow it out and that's very exciting." The raw energy and unrestrained enthusiasm Rage offers the format is something to take very seriously. This one should be a no-brainer. Rage Against The Machine is now writing and rehearsing songs for its next album, but has not set a date yet to start recording (so play this excellent track to tide over your listeners!). Already on at **KXTE, KEDJ, WBCN, KDGE, KNDD, WMRQ, WXRK, XHRM, WHFS, KROQ, and WEDG.**

Agents Of Good Roots

"Smiling Up The Frown," (RCA)

The story on Agents Of Good Roots is that they are an uncommonly talented and determined collective, full of fresh sounds and diverse musical backgrounds. Their music reflects that, especially in this gorgeous, sax-powered single that every Modern Rocker should be playing. This is a track that holds appeal for a multitude of listeners. It's gripping, subtle build will reel you in right away and stay in your head for hours. Drummer/lead vocalist **Brian Jones** and guitarist/lead vocalist **Andrew Winn** are budding superstars, amply supported and enhanced by the equally electrifying **J.C. Kuhl** (sax), and **Stewart Myers** (bass). This is a band to pay attention to. Smiling Up The Spins: **KENZ, WPLT, WKDF, KAEP, WXEG, and Radio One.**

Crystal Method

"Comin' Back," (Outpost)

The Crystal Method's **Ken Jordan** and **Scott Kirkland**'s brand of "Electronica" has always been rich in superior production, stinging grooves and exceptional "song" structure. Their latest is another brilliant example of their talents, lush in sultry vocals and creativity, and compatible with both the airwaves and the dance floor. It oozes energy and originality - perfect for the Modern Rock airwaves. Don't miss out on this track, it's as fresh and invigorating as they come. Originally from the critically hailed album, *Vegas*.

Indigo Girls

"Shed Your Skin," (Epic)

Tom Morello of Rage Against The Machine recently completed this powerful new remix of "Shed Your Skin," originally taken from the duo's gold album, *Shaming Of The Sun*. This version is a stirring and refreshing change of pace for the duo, utilizing a strong dose of Hip-Hop swagger and searing Morello guitar licks that inflect an already masterful track. The album version by itself is also a Hip Hop-tinged hit that many of you will want to spin immediately. It doesn't stray far from what **Amy Ray** and **Emily Saliers** do best, it captures them in all their acoustic, hook-laden, story-telling glory. **Ulali**, a Native American vocal ensemble, enlivens the track as well. Try both versions, they're both incredible (there is also a live version of this track available on the CD Pro). Indigo Girls will also be among the featured artists on this summer's *Lilith Fair* tour, beginning June 20.

Spacehog

"Carry On," (Sire/Warner Bros.)

On the present outing, the Hogs mix the perfect amount of British "Glam" and New York "Grunge" to create a unique and exciting sound. "A lot was made about the '70s influences on the last album," remarks guitarist **Antony Langdon**. "This time around we kept a foot in that camp while trying out a variety of new and different flavors." The result is phenomenal, and should be recognized as such. This is an excellent, melodic track that is anything but a run-of-the-mill Pop song. Spacehog is a class act all the way, and their music offers music lovers and passive listeners the best of both worlds: music that is quite catchy and wildly creative & original. Play this track, it's very worthy of monstrous airplay. Also, look for Spacehog to open a few dates on the upcoming Pearl Jam summer tour. Early airplay at **KTBZ** and **WBCN.**

Sister Hazel

"Concede," (Universal/UMG)

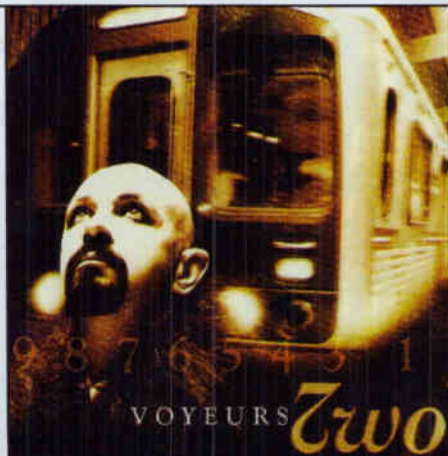

Look for a strong, enduring run with this song. Reflective, relatable and powerful lyricism, tight-as-a-drum execution, and deliciously melodic harmonies should make this track an easy choice in your music meeting. It's a sound and a band with a great reputation and tremendous staying power. Sister Hazel should catapult to the multi-platinum level with this song, making them one of the most accessible, demo-transcending acts in the country. Strongly consider this track, especially if you've had success with "All For You" and "Happy." From the platinum album, *...Somewhere More Familiar*.

ON TOUR NOW - APPEARING ON WARPED TOUR IN JULY

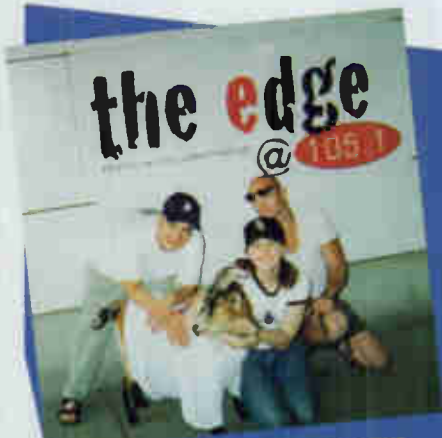

-Files... WPLY/Philadelphia got us out of office duty on Friday (5.29) with the second annual **Y100 Fez-tival**. Held at the E-Center in Camden, NJ, the **Fez-tival** was a smashing success as the 25,000+ venue was sold-out. Highlights included **Fastball**, **Fuel**, **Everclear**, **The Mighty Mighty Bosstones**, and (once again) **Green Day**. Green Day are quickly becoming this year's hottest subject at the water cooler following any of their festival performances. Congratulations to **Jim McGuinn** and the Y100 staff on

another fez-wearing event... Two days before the **Fez-tival**, Green Day played a show in Detroit for **WXDG** that saw the band in their smallest venue on this tour. The 7th House in Pontiac, which holds roughly 400 people, was the sight of **WXDG's Extreme Edge Session** and the only way to get tickets to the show was through The Edge. The event turned into one of those once-in-a-lifetime concerts that will have all that were in attendance talking about for the rest of their lives. A couple songs into their set, **Billie Joe** noticed a fan with a posterboard that said "Green Day Set List," which he subsequently grabbed and the band played off of that set list for the entire evening. The band also took requests, which included Cheap Trick's "Surrender" and a parody of Sugar Ray's "Fly." At their festival performances Green Day has been grabbing a person from the audience to play guitar on a song, which they did on this night, but also grabbed three other people, put them on stage as a fictional band called The Assholes, and had them play The Ramones' "Blitzkreig Bop." A little over two hours later, with Billie Joe stripped to a tiger-skin g-string, the band called it a night and **WXDG's** inaugural **Extreme Edge Session** came to a

close. Kudos go out to **Amy Doyle**, **Spike**, and **The Edge** gang on a well-planned and triumphant event... On Saturday (5.30), we hit **WXRK/New York City's** *Revenge Of The Dysfunctional Family Picnic* at Jones Beach. This star-studded event was highlighted by **Soul Asylum**, **Ben Folds Five**, **The Offspring**, **Scott Weiland**, and DIY pyro-pros, **Green Day**. During **Tre Cool's** now trademark torching of his drum kit, his foot accidentally caught fire (not that he noticed), and the Jones Beach staff nearly lost their minds over his lighter fluid handywork, which resulted in the biggest drum fire of the tour so far! Also on hand was the **King Of All Media** himself, **Howard Stern**, who walked out on stage to introduce **Scott Weiland** and, to no one's surprise, drew the biggest reaction from the crowd all day long. Both **Stuttering John's** and **Fred Norris'** bands also added to the excitement of the event. Now for the plugs: Look for **King Norris** playing out live regularly. **Stuttering John Band's** new CD is due out soon on **Razor & Tie**. And - Oh yeaaaahh!!! - **Jackie Martling's** new CD on **Oglio** should be available very soon!...

MODERN DIRT:

The shake-up of **KOME/San Jose** and **KITS/San Francisco** continues to become a clearer picture. Be sure to check **Dirt Alert!** for details... Former **WQBK/Albany** APD **Ryan Patrick** becomes APD at **CKEY/Niagara Falls**... **Ann Delisi** exits **CIDR/Detroit** for the MD role at **WPLT/Detroit**... **John Lenac** exits his PD slot at **KNRX/Kansas City** for **TVT Records** where he will handle southeast regional promotional duties... **Mark Alghini** segues from **Netzwerk Records** to head up the radio promotion department for **Astralwerks Records**... **Ted Taylor** heads into **Trauma Records** for **Alternative Radio Promotion**... In compliance with the Department of Justice, **Jacor** has spun-off **WZAZ/Columbus** to **Blue Chip Broadcasting**... **WOXY/Oxford** PD **Keri Valmassei** is in place and will take music calls on Tuesday from 10a.m. - 5p.m.... **WXRA/Greensboro** has a new fax #: 336.777.3929...

WHAT WOULD YOU DO FOR GREEN DAY TIX? WXDG Detroit listeners were asked to do a variety of things for tickets to The Edge exclusive Green Day live show, which these listeners just so happened to do. Featured (l-r) are WXDG night jock **Greene**, the guest **Sara** from *The Morning Edge*, and the sitting **Donna**.

HITCHIN' A PHOTO - Celebrating after WXDG's highly successful *Extreme Edge Session* with Green Day are WXDG Promo **Tim Krolkowski**, **Sara**, Promo Director **Mark Lidrych**, **Billie Joe**, PD **Amy Doyle**, DJ's **Kody Walker** and **Greene**, MD **Spike**, and **Mike Dist**.

CBS' style is to buy properties that are already successful and then hire an army of sales people?

Frank: We can't speak for CBS or Mel Karmazin. Where there's no market conflict, CBS is a client, because we're so strong in Smooth Jazz. We work with their three Smooth Jazz stations. Mel and his organization use research selectively where they feel it can help. Chancellor has always been very bullish dating back to the days when Evergreen purchased Pyramid. It was part of the acquisition that Broadcast Architecture be included because we had helped in some of the turn-arounds. Chancellor recognizes that there's great value in turning around properties. They also believe in maximizing them, which may mean taking a good station and making it great and being certain that there is a minimum amount of cannibalization of audience, maximizing audience and revenue share.

Once a company owns eight stations in one market, is there a temptation to do less research or are they more likely to attach greater importance to research because so much is at stake?

Brian: If you look at the cluster that Chancellor owns in San Francisco, it's somewhere in the neighborhood of 25%-26% of the market revenues. You can look at how close the radio stations are from a product perspective. People like David Lebow and [Nova Marketing President] Mark Ramsey, on the intelligence gathering side, and Steve Rivers and Guy Zapoleon on the product side, inserted Kiss [KISQ] in between KMEL and Wild 107 [KYLD], and those two radio stations were already very similar. Looking at that cluster alone we can see similarities to L.A. and to Philadelphia. More research is a necessity because these are very tightly positioned radio stations that have come into the ownership profile of their company by way of acquisition. These stations don't need any dramatic adjustments, they are very healthy. So, you need peaceful co-existence. Peaceful co-existence in the military means you have damn good intelligence. That is one of the reasons BA complements the company as well as it does. We are an

on-line, accessible service for Chancellor to maintain a high level of intelligence gathering...we're the eyes and ears.

Frank: The accuracy of that game plan is reflected in the ratings with Kiss debuting at No. 1 25-54. When you consider what a tight market that is, hats off to all of the partners who were involved in that project.

Do you think that it's advisable for groups to test music for more than one station at a time?

Brian: We frequently do test multiple stations within a given market. The economy of scale and auditorium testing venues, locations, hook production, moderation, equipment — all of those things accrue to how we're going to cycle through these markets; especially if it involves travel of incoming executives and consultants from satellite locations. In our case, we do plan our testing cycles that way. Over the course of a number of days we can accomplish two, sometimes three data collection events.

Frank: These are usually discrete tests for each individual station. We would not conduct them together. One exception might be a format study. For example, if we're examining potential for a new format or [Chancellor COO] Jimmy DeCastro calls and says, "We are going to acquire station X in this market, and we're going to need a new format." We don't want it to step on the positions of the other stations there, so it's quite possible we would do a test which would involve recruiting partisans from several different stations so that we're able to see exactly what the impact of the new concept might be.

Tell us about your MIX-MASTER™ research product and how it tests more than just music.

Frank: It's much more than a music test. Michael Hughes from KLOL/Houston works with a number of the Rock stations in the Chancellor group and he said, "It's hard to call it just a music test. MIX-MASTER™ actually shows you TSL plus music flow and personality appeal. You can make competitive comparisons between your own station's music flow and clocks and your competitor's. It's extremely efficient and very fast. You can collect the information and have the results that night when you finish the test. The purity of the actionable data combined with the interpretation of the BA team who have seen so many of these tests, creates a clear roadmap for successfully moving forward, whether it's a turnaround or maintaining the course of a successful radio station." He also said he would point to the flexibility to do so much cross tabulation of the data, so that you can do music presentation with surgeon-like precision. It's also given us the ability to test the flow of the radio station, test the clocks and a huge advantage is the ability to test a prototype of changes you might want to make on the radio station, off-line. In the past, we would do a music test, tinker with the clocks then put it on-the-air and wait for the next Arbitrend to come out. The team at Arbitron will tell you not to look at the Arbitrends, don't

During our visit we were treated to a demonstration of MIX-MASTER™ and the multitude of applications it has in the auditorium-test setting. It's a deceptively simple gadget, just a small black dial on a slightly larger rectangular box. The dial settings are adjustable from 1-100. Each respondent's dial is read by the receiver/computer once per-second. The device enables survey participants to respond emotionally, and immediately, with a twist of their dial, a reaction that is very similar to either turning up, or turning down, a radio volume knob. Since the respondents aren't asked to assimilate a lot of information, such as the number of the hook, or which little circle to black-out with a pencil, fatigue is less of an issue. The ease with which the survey can be conducted is nearly surpassed by the simplicity of the EKG read-out that results from the test and is available to the programming staff almost immediately. Understanding how your P1s, P2s, and P3s feel about your music, clocks, stationality, personalities, marketing, and anything else you'd like to know, can be broken down and examined from all directions.

program off of them, the sample's too small, look at an entire book, or a three-month rolling average. Programmers, general managers, product managers, can test their ideas about the station's direction. You can create a prototype, test it, and not have to change your product. It may not be as good as what you have going. The MIX-MASTER™ enables you to test stationality, announcers, the morning show, jingles, production, logos, marketing material, television spots — all at the same time that you're testing the music. That way you can correlate how your P1s, P2s and your entire audience feel about all of the aspects of the radio station.

What is BA's QuickSort software all about?

Brian: It's a sorting mechanism that allows the program directors to set various thresholds for a piece of product. So you are able to create a very flexible and very deep spreadsheet based on partisanship, demographics and music preference. And, in a very short period of time, with today's processors, completely categorize and rank with these various sorts, what your music categories are going to look like on the following day. There are many ways you can sort music. Some people use spreadsheets, other companies have their own sorting software. QuickSort allows programmers to do it faster and more efficiently, and rank it quicker, look at it directly ahead, backwards, and sideways.

Frank: It's the secret weapon in building coalition. Programming is about building a coalition of listeners. People that will come together to agree that a product is superior.

We haven't touched on the fact that you could actually download this information directly into Selector or MusicMaster, have we?

Frank: That's another advantage, it speeds the process.

Give us your assessment of some of the newer research techniques such as Living Room Music Test™ and music research conducted via the Internet.

Brian: Although we have explored other options, we're still doing auditorium testing. We have consulted Gallup, headquartered here at Princeton, and explored Interactive Voice Response data collection. What concerns us in music testing or other research events, is the security issue. People should be under someone's control in research settings. It concerns us that some companies hire data collection agencies, which in many cases do the recruiting, which leads us to worry: Who came? How did they get in? How often did they take breaks or were they all even there? You really lose security in in-home events. One of the other technologies being advanced is the telephone. We have difficulty with anything that requires the in-pup device being moved around. Everybody uses a touchpad to make a phone call, but 600 phone calls over the course of a couple of hours is a lot of buttons to push.

Frank: We did some R&D with Gallup on phone research. But, there's no control, and a good scientific experiment involves a controlled setting. You want to eliminate the variables as much as possible. Secondly, we all know from callout that it's very difficult to keep people on the phone. Because of the prevalence of telemarketing, the incidence and cooperation have dropped. You can only hold people on the phone for a few minutes. Gallup also noted that most phones have the keypad in the handset. You hold the phone up to your ear and to respond you have to remove it from your ear and push a button. People complain tremendously about the physical fatigue of listening and then putting in their vote. And the vote can only be one through nine, whereas with MIX-MASTER™, it's zero to 100 points of information collected every second. You

want to be as close to radio listening as possible. We firmly believe that that was part of the breakthrough of MIX-MASTER™. It approximates radio listening closer than anything else. At this point we have the digital technology and the application for an auditorium environment. We know it works; our stations know it works; and that's where we'll stay.

Brian: It's interactive and happens in real time, and we can monitor it second-by-second. We know that people are engaged, we see the respondents and control the environment. If it weren't effective, I don't think we'd have this incredible track record with clients. We have some great partnerships with some very successful radio stations. If it were flawed we'd be aware of it. We've explored the Internet as a possibility. But it's a biased

sample because the person has to have a computer. They also have to subscribe to a service that gets them on the Internet. There's a very small percentage of Internet users that have audio capability. The universe of people available is very small, and a skewed sample. Is it possible? Maybe down the road; I don't rule it out. It shows great promise.

A "passion score" is a very high score in the 80s and 90s from a station's P1s, P2s and P3s and shows up as a high and solid line on the EKG. How important are passion scores for P1 driven formats like Active Rock, Alternative and Triple A?

Brian: It's everything. In certain demos in these formats, it's beyond 50% of a station's quarter hour listenership.

Frank: Passion is everything. It's what drives people to remember an artist. Careers for recording artists are built upon songs. Songs have to strike a chord in someone's heart. When they do make that passionate connection, it is reflected in research. Radio stations are only able to keep people listening by being compelling. You have to be able to reward people with something that touches them passionately, consistently. We're very bullish about observing passions, especially with P1s. And there's information available from Arbitron. You can study the specific percentage of quarter hours contributed by a ten-year span. It's a tremendous amount, especially in current music formats.

Brian: One of our principal sorts is finding out where the 80 to 100 scores are on the MIX-MASTER™ dial, where that top quintile came from, and who drove them. That formula has been proven by a number of methodologies and studies. There's a small percentage of people driving 70% to 80% of the TSL, and your P1s are in that group.

Are passion scores for new music declining?

Frank: That has not been our observation.

Brian: The only issue on new music is familiarity. You can't expect there to be high buy-in to a new cut when people are still unfamiliar with it. That's no different than what you would see in

If you are not committed to it, don't bother."

call-out research. There's almost always a new music component in any of the formats that we test. We can isolate those songs and analyze the different quintiles of the score of that song and apply a variable to find out the passion level. In many cases it is an issue of familiarity.

Frank: We have a product that's part of MIX-MASTER™ which is called Distribution Analysis. This allows us to see the specific quintile voting of various breakouts of the participants, to see how many people in a quintile give the high score or low score. It's through that analysis that we can see that you have to judge every piece of music on a radio station, whether it's old, new, recurrent or gold, song-by-song. We'll see new material that takes off very quickly because it strikes a chord. This is one reason that we strongly encourage radio stations to avoid the concept of light adds. If you are not committed to it, don't bother. We abhor the concept of a paper add or a light add to get the record company promo people off your back. Hopefully, every song that a radio station plays is an investment. You're making an investment in the song that you will be playing a year from now, and that investment goes very deep. It goes to the format as well as your radio station; it goes to the career of the artist. If you're going to play something — play it! Give it enough spins so that it's noticed. Then, if through music testing you see that you made a bad bet, you can pull off of it. The easiest thing to do is to use Reach and Frequency and really figure out exactly how often your P1s are hearing this record. Selector's new program is fantastic. It's a great tool for programmers. It's the same principal that is used to get advertisers to use frequency.

Some programmers think that bi-annual music tests are sufficient. Why do you think that they should be more often?

Frank: The answer is a simple one. Arbitron surveys quarterly, and we have tracked stations that test more frequently, three and four times a year, and it stabilizes the ratings. Listeners can feel the refreshing that occurs on a radio station after a music test, when new music is added and you've brought back music that's been rested. When music that's growing stale is shelved. When the categories are shifted around so that the emphasis changes on different songs. They can't always put their finger on why the station sounds better, but they'll tell you (and we've done many, one-on-one interviews with people) that they notice how a station is refreshed after a music test. With so much at stake, and with Arbitron in a quarterly pattern, it's crazy to not try to emulate that. I don't think all formats need it. I don't know that Oldies needs to test four times a year. It also depends on the size of the market.

The larger the market, the more competition, the more proactive you're going to want to be.

Frank: You can quote us on that. What you just said.

How much budget should a station or group allocate for music research?

Brian: It depends on who your supplier is. If you

want to go on the cheap, you can do music testing in the teens. We're not sure that that's what we would recommend. Most companies are priced up where we are: mid to high-twenties or low thirties. It's about \$120,000, \$125,000 on an annualized basis.

Frank: This wouldn't include call-out.

Brian: And this wouldn't account for perceptual or market studies.

I've heard some consultants say that testing more than 200-300 titles at a time is problematic. What is the optimum number of songs to test at one time, and why?

Frank: There are variables involved format to format. The hook of an Oldie can be much shorter than a Smooth Jazz track. With some genres it takes a longer hook for people to be able to identify the essence of the song. The hooks could be anywhere from 8 - 15-seconds on more unfamiliar genres like Smooth Jazz. It's very important, no matter what the format, that the hook represent the essence of the song. We have a big advantage with MIX-MASTER™ in that we do not need to announce a number before each hook. A hook fades up, establishes, and then fades down, and then the next hook begins. That buys us a lot of time, so we frequently test 500-600. But, we rarely go over 600. It's a question of the length of the entire test. You can't run much longer than the length of a major motion picture. Otherwise, people's attention spans start to drift. We also incorporate breaks. This also provides us with an advantage for position bias. If we're doing two different sessions we can change the order of the songs so that they all have an equal opportunity.

What mix of participants is ideal for auditorium testing?

Brian: Depending upon the format, we love to get at least half the room represented by first preference listeners. But, it depends on the maturity of the station, the format, and whether or not there's a vertical competitor that provides a direct P2 pool from their P1s to your station. Possibly there's a station on the fringe that will provide P3 potential conversion. MIX-MASTER™ can see where the P2s and P3s agree with your P1s, or where they polarize, to show us where we've reached too far. It depends on the format as to whether the mix includes people that are potentially *others* that could aggregate through a cluster, liking a texture, a style, a particular genre, but be unaligned and potential cumers.

How long should your P1s spend listening to your station to qualify as a P1?

Frank: It varies from format to format, but I've never seen less than one-hour per day. It can range from anywhere from seven-eight hours a week up to 10-12 hours a week. These tests are very goal-oriented, so when we are designing the specifications for the test, we examine the amount of time P1s are spending on the radio station and try to match the station's reality and its potential, relative to the format. What's your P1 TSL? What's your TSL at the radio station? And what's standard TSL for this format? You want genuine P1s.

How do you deal with problematic response rates?

Brian: It is endemic throughout the industry. Response rates are dropping. On the front-end, response is low due to problems finding these people. You get much higher response rates in adult formats than on youth-driven, high-energy formats, be they male or female. Urban is continually a problem on response rates. It depends very much on the formats and on demographic targets. If you raise the ante and are willing to pay respondents, it gets a little easier. In some cases we'll bring them back for a second night and that premium can be as high as \$100. Recruiters are requiring higher per-show rates. So we're literally writing out checks for \$10,000, \$12,000, \$15,000 before we turn on the lights, just to get people in.

Frank: Initially we'd pay out \$25 - \$35 and that seemed expensive at the time. Now there are markets where we paid \$50 - \$60 for one test, one evening.

Is there any kind of moral issue involved in paying respondents?

Frank: No. You'd skew the sample if the only respondents you got wanted to be there. You'd get music freaks or professional fans of radio or music only. We really have to be able to replicate the audience, and potential audience of the radio station, and that takes a lot of hunting. Telemarketing has caused cooperation rates to tumble because people don't like to be bothered with phone calls at home. It's taking more money to find these people and we have to pay them higher incentive fees to get them to show.

Brian: We are going to have to develop market-wide databases on our own. We can no longer rely on professional database builders and maintenance people to find respondents. We'll have to find them through marketing, call-out, and telephone perceptuals. That's where it's all going to go. Otherwise, we'll not only pay an extremely high premium to find these people but eventually we'll run out of good people.

What formats need to test music more often and why?

Frank: Current-based formats, because so much is changing. We were able to have a breakthrough for Smooth Jazz by getting all the major markets to test four times a year. So much of that music is relatively unfamiliar compared to everything else on the dial.

Which format has the best response rate?

Frank: Country, NAC, and Oldies. Adults make appointments and show up, and have fewer distractions than younger folks.

Brian: The worst response rates are Pop Rhythm, younger women, Urban, CHR. We've had to over recruit by 160%. We're recruiting 160 people to get 100 to show.

How is research tailored differently, other than demo, for the different Rock formats?

Brian: Our protocol is consistent across most formats when we're applying MIX-MASTER™ methodology. It's consistent in the basics.

Frank: It's driven by the goal of the project as often as it is by the specifics of the format. Different formats will lean one way or the other in terms of gender. Rock stations often have very high profile personality teams that they'd like to analyze. We are more likely to analyze content flow, or personality testing, for Rock and Alternative than we are in Smooth Jazz or even AC. A lot of the Rock stations are more active promotionally, or from a marketing perspective. We are often called upon to pre-test TV commercials or promotional concepts for stations before they launch a seven-figure TV campaign.

Guy Zapoleon said in a recent interview with *fmqb* that the Pop Alternative music cycle will soon swing over to a Rhythmic Pop cycle and that Alternative stations will reclaim their turf from Modern ACs. Do you agree?

Brian: Where does Guy have this musical crystal ball? Frank and I have had the pleasure of working with Guy in markets like New York, with Z100, and most recently on a project in Philadelphia with 'IOQ. Guy is onto something. Just look at cuts by Will Smith, Janet Jackson, and the Backstreet Boys. In many cases the cyclical nature of Pop music is driven by the fact that a genre has become somewhat saturated. There has been tremendous saturation by new female bands and artists and the new Alternative Pop songs to the point where there just wasn't anything new or fresh anymore. People are looking for more energy and innovation. It's just natural that tastes fluctuate.

What are your thoughts on Arbitron's purchase of Tapscan?

Brian: Good call. We've all used it for so many years for not only sales but product-related reasons. The driver for Tapscan is the intelligence gathering process presented by Arbitron. Perfect acquisition, and a perfect fit. It shows forward thinking.

What's on the horizon for audience research?

Brian: We talked about audience analysis earlier. It is really opinion research, and opinion research is everything from polling on a national basis to finding trends in politics, or trends in consumption of consumer items. I don't know that it's on the immediate horizon. In looking at where we are, not much has changed. We're still principally in an auditorium environment, although Internet testing and television-driven testing, seem around the corner. Between cable or fiber optics, audio or CD ROM or some combination of keyboard or input device attached to television, more people could be brought in in a real-time fashion on a regular basis. [WXRK/New York PD] **Steve Kingston** suggested that he'd like to test music every month. His challenge at Z100 was to know sooner than quarterly what patterns were changing, marketwise. So perhaps more often may be where we go.

Frank: On the horizon? A consolidation of resources. When you're placing a call into a home and you can't use the person contacted for Project A, then you put them into Project B or C or save them for future marketing or some other form of call-out research.

Cover Story

Broadcast Architecture is located in the beautiful, small, eastern city more known for its ivory towers and lofty intellectual pursuits than radio research and consulting firms. We traveled north to Princeton, New Jersey, to talk with CEO Frank Cody and COO Brian Stone about the work they do for radio companies and their remarkable, trademarked research tool, MIX-MASTER™. The proximity of Princeton's various brain-trusts is a useful tool for a company that looks to other agencies, like Gallup, Opinion Research, and Educational Testing Service, for research and development regarding the most efficient and effective ways to poll the public and help stations remain on top of tastes and trends.

Frank Cody's track record in the industry spans a thirty-year period, and includes time spent as an executive at both NBC and ABC Radio as well as several major Rock stations, including KLOS/Los Angeles and KBPI/Denver. Cody has been justifiably credited with the explosive success of Smooth Jazz, due to his far-sighted work with the creation of the Wave format. He was Director of Programming for "The Source," and helped develop Dr. Ruth's "Sexually Speaking," "Live From The Hard Rock Cafe" and "The Jazz Show With David Sanborn." Cody formed Broadcast Architecture in 1988 with former partner Owen Looch.

Brian Stone is a former COO and General Partner of Pyramid Broadcasting who managed operations of their seven markets. Stone also spent time in independent and network television and was instrumental in The Boston Globe's broadcast acquisition plan during his seven-year tenure with the company. In 1990, Stone built Broadcast Architecture's work-out division, Broadcast Services (BSI), providing consultation to operators and lending institutions. Two years later he made BA a fulltime occupation as the firm's new COO, bringing two decades worth of experience in various aspects of the business of radio, including management, research, and finance.

Broadcast Architecture have worked with a wide range of clients in the radio, television, and entertainment industries in North America, Japan and Europe, including MTV Networks, ABC, NBC, and CBS.

Broadcast Architecture: More than music testing.

An Up Close! Interview With Frank Cody and Brian Stone

by Sybil McGuire

Brian Stone (L) and Frank Cody (R).

How has consolidation changed the way radio groups conduct research?

Brian Stone: In a market the size of New York, groups conduct research for their stations to suspend cannibalization as much as possible. In this age of consolidation, whether it's CBS, Jacor or Chancellor, stations in one group often have overlapping audiences. If you don't determine how broad that overlap is, you can damage both properties. If you weren't conducting format analysis on a broad basis or looking at your morning show composite, you wouldn't know how much potential overlap your stations had. Research is more important than ever before.

Frank Cody: The impetus has changed from simply clobbering the competition to maximizing the total value of all the properties in the cluster and enhancing the listener's ability to differentiate between the stations. For Broadcast Architecture it's meant a lot more business and a greater depth of research.

Because the larger groups can afford to budget more for research?

Frank: They can't afford not to. With the value of these properties, and with what they contribute to the bottom line, especially in the major markets, these stations have to be on target.

Brian: For example, New York is a 550-some million-dollar radio market. A cluster brings 20% of that out of the market, one hundred million dollars in radio revenue. If you adjust that to cash flow and assume that 40% of that drops down to the bottom line, these radio stations are each worth 80 - 100 million dollars on a conservative multiple of twelve. Why wouldn't you, as a corporate officer, chose to do as much intelligence gathering as possible? A few hundred thousand dollars was an enormous amount of money to spend on research in prior times; today we find it's only normal.

BA is owned by Chancellor, Jacor owns Critical Mass Media and Nova Marketing. Consultants like David Lebow and Jack Taddeo have closed shop and joined the big companies. Do you expect this trend to continue?

Frank: Yes. In fact, we pushed very hard to see David Lebow join Chancellor. We've been a fan of David's for some time. We're really pleased that Jack Taddeo is in his new position. As a practical matter, it's tough to not have an alliance with some major group of broadcasters and remain successful. There's plenty to be done within these organizations to keep entire, small organizations very busy.

Brian: We're in a real shakeout period because a lot of these deals have been closed within the last six months. The impact is surfacing already on some of the unaligned suppliers. The Research Group recently made trade headlines for the reduction of their workforce. They've reported that their core of business has fallen off. The analogy I use is: If you're hiring an outside consultant and you're paying out more than you're paying an employee, it's silly not to bring them inside. Why not have inside counsel? We'll see more of this in the near term. Perhaps it won't be long before the Coleman Group or the Burns Group align themselves with a large broadcast entity. There's still a bunch of radio stations and groups in the middle that are large enough to be able to support research companies internally.

Chancellor is known for conducting a great deal of market research while CBS is seen as conducting less research. Is it because Chancellor is big on turnarounds (where research is a prerequisite) and
