PREMIER PICKS

CRACKER, "THE GOOD LIFE," VIRGIN

From the opening snare shot, through tremolo-soaked guitar, to surreal lyrics about "feverish daydreams" and "a lesbian James Dean," Cracker drives one out of the park on their latest. "The Good Life" sounds like Tom Petty on a good night. (In fact, Heartbreakers keyboardist Benmont Tench and guitarist Mike Campbell show up on the album.) The arrangement is stripped down to the point where every note and beat count... your mind fills in the remaining musical spaces. Loud, quiet, haunting, strange... this has it all. David Lowery and his high desert cowboys amp up the energy at every pass, making "The Good Life" livable at any format that counts the word "Rock" in its acronym. Oh, and we don't mind saying this is the best Cracker since "Low."

MARILYN MANSON, "THE DOPE SHOW," nothing/INTERSCOPE

Judging from Marilyn Manson's recent output, the band have changed '70s idols, switching from Alice Cooper to David Bowie. First, Mr. Manson proclaimed he would never wear black again, and has been seen sporting pastels lately. Then, the band covered Bowie's "Golden Years" for the *Dead Man On Campus* soundtrack. Now, to complete their transition from black pythons to feather boas, the band gives us "The Dope Show." The first single from *Mechanical Animals* finds them reaching into the '70s Glam grab bag and concocting a song that wouldn't have sounded out of place coming from Bowie's Ziggy Stardust period. This is the song that will take Manson to the masses. Gone is the anger and much of the edge that marked Manson's work in the past. "The Dope Show" is the record that will finally get Manson into all dayparts. Don't be a dope, add it. CILQ is first.

HOOTIE & THE BLOWFISH, "I WILL WAIT," ATLANTIC/AG

Having survived the hype of their mega-successful *Cracked Rear View* debut unscathed, Hootie & The Blowfish's second album, *Fairweather Johnson*, showed the South Carolina quartet lacked no shortage of more great songs that found a home at a variety of radio formats. The first single from their third album, *Musical Chairs*, "I Will Wait," sounds like another surefire radio smash that should be spinning everywhere shortly. The band's lazy jangle resonates smoothly from start to finish, and a distinctly Mellencampy heartland vibe comes across loud and clear. You know this is going to be one of the biggest records to finish the year with, so don't let your Modern, Progressive or CHR neighbor beat you to the punch on this one.

FEAR FACTORY, "RESURRECTION," ROADRUNNER

Wondering what the future of music sounds like? Listen to "Resurrection" from Los Angeles' Fear Factory. The band's futuristic sound takes elements of Metal and melds them with an orchestra, electronics and theatrical vocals. The band's third album, *Obsolete*, is currently atop the *fmqb* Metal charts, and they have an *Ozzfest* (last year's) under their belts. The new album is a concept album about the struggle of man against machine, and man and machine come together to stunning effect on "Resurrection." WKQZ's Jack Lawson compares the band to a "90s version of Rush with the theatrical bombast of Meatloaf." Judge for yourself; WWGZ and KQWB already have.

ICOS, "AT THE SPEED OF LIFE," SLIPDISC/MERCURY

For their sophomore effort, Chicago-based ICOS travelled to London's legendary Abbey Road Studios to record what would become *At The Speed Of Life*. "Every song on this album has a contextual meaning on its own and with the song next to it," vocalist/guitarist Danny McGuinness explains. "It was written, recorded and meant to be heard as a long-playing album, quite a challenge in this era of CDs." With that being said let us focus on the album's first single, which happens to be the title track. "I can't get the hook out of my head," KAZR's Paul Oslund says. "Rocks really well," adds WKQZ's Jack Lawson. ICOS might not be a household name right now, but that's all about to change.

SUNCATCHER, "TROUBLE," RESTLESS

When a record company holds your release back because they want to make sure they have *their* act together, you know they see promise. That's exactly the case with Restless Records (who were merging with New Regency and securing distribution with BMG at the time) and Suncatcher's debut album, which is a flowery, yet muscular marriage of '60s psychedelia and sweet Brit-Poppy melodies. The lead track, "Trouble," is wistful and bittersweet, with a memorable hook courtesy of chief songwriter and reluctant group leader, Doug Hammond. Punchy guitars make this track meaty enough for Rock signals like WTBK, who get on board early.

MARY CUTRUFELLO, "SHE CAN'T LET GO," MERCURY

Six years ago 27-year-old Yale graduate Mary Cutrufello packed up her belongings, including her beloved Telecaster, threw them in a pick-up and drove to Houston for a future date with destiny, her debut album, *When The Night Is Through*. Her core studio band for this album reads like a who's who of Rock. There's Kenny Aronoff (John Mellencamp, John Fogerty), Bob Glaub (John Fogerty, Jackson Browne) and Wallflower member Rami Jaffe, with additional help from Jim Keltner (John Lennon, Elvis Costello), Benmont Tench (Tom Petty & The Heartbreakers), Was (Not Was)'s Sweetpea Atkinson and Harry Bowens, as well as her own bandmates Roland Denny and Dana Myzer. If you think that passion in Rock is a faded memory, your faith will be renewed with "She Can't Let Go."

INDIGENOUS, "NOW THAT YOU'RE GONE," PACHYDERM

This Rock/Blues powerhouse is a family affair, made up by three brothers and their sister. Having played together as long as they can remember, this quartet, ranging in age from 19-24, play well beyond their years. Members of the Nakota Nation, they grew up on the Yankton Indian Reservation in South Dakota and were home schooled with music playing a huge role in their academic life. Their fan base includes Bonnie Raitt, Big Head Todd, Jackson Browne, Chris Duarte, The Indigo Girls, and now, us. If you play any of the aforementioned bands or Stevie Ray Vaughan, Indigenous is a natural fit.

DEPTH TRAX

ROD STEWART "ROCKS," WARNER BROS.

When "Cigarettes and Alcohol" arrived at Rock radio a while back, programmers were thrown a curve ball: nobody expected a rocker like that. Well, guess what? Rockin' Rod's ready to hit another homerun with "Rocks," whose title says it all. Hear it early on 13 (WDVE, KLOS, WEGR, WQCM, KMOD).

BLUE OYSTER CULT "LIVE FOR ME" CMC INTERNATIONAL

"Live For Me" is the third single from Blue Oyster Cult's *Heaven Forbid* release. A mid-paced, well-rounded rocker that finds the band in classic form. If you had any success with "See You In Black" or "Harvest Moon" or play any Classic BOC on your station, this one shouldn't be a hard decision to make.

STEVE POLTZ, "GOOD MORNING (WAKING UP WITH YOU)" MERCURY

Steve Poltz charmed American audiences for more than a decade as a member of the Rugburns. Then he co-wrote Jewel's "You Were Meant For Me" and things changed. This year he released *One Left Shoe*, a solo album with songwriting that's equal parts Dylan and Replacements. Anyone with a Progressive/Triple A bent should cozy up to "Good Morning."

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. Grade: An index based upon combined MRI, Burn and Unfamiliar Scores. Music Response Index (MRI): Appeal of each song within the indicated sample group on a 0 to 110 scale. Burn: Percent of the indicated sample that claims to be "tired of the song." Unfamiliarity: Percent of the indicated sample reporting "don't know it." This information is excerpted from The Tracking Report and is reprinted with the permission of Kelly Music Research, Inc. Jacor Closes \$620 Million Nationwide Deal

It took ten months of intense regulatory scrutiny and numerous swaps and spinoffs to accomplish, but Jacor Communications CEO **Randy Michaels** finally closed his \$620 million acquisition of Nationwide Communications last Monday (August 10), a company he's said for years would be "an ideal fit" with Jacor.

Within days of wrestling Department of Justice approval, Jacor, on August 10, completed a series of swaps with CBS that greased the closing wheels: It received WOCT-FM/Baltimore, KLDZ-FM (formerly KUFX)/San Diego, and KSD-FM and KLOU-FM in St. Louis from CBS, while simultaneously dealing Columbus properties WLQV-FM, WAZU-FM and WHOK-

FM to CBS. And once CBS gets a "one-to-a-market" waiver from the

Jacor

The noise you can't ignore.

FCC, Jacor plans to finish the rest of that swap, handing over KSGS-AM and KMJZ-FM/Minneapolis to CBS, in exchange for WCAO-AM/Baltimore and KUFX-FM (formerly

KOME) in San Jose.

Jacor also announced it would assign its agreement to purchase WKKJ-FM/Chillicothe, Ohio to Secret Communications. Other related spins had already closed or were being finalized: WKNR-AM/Cleveland traded to Capstar for WTAE-AM/Pittsburgh; WZAZ-FM/Columbus sold to Blue Chip for \$10.1 million; and KJQY-FM and KKLQ-FM in San Diego sold to Heftel for \$65.15 million.

The Nationwide closing spawned a series of PD shuffles and new market manager appointments (see separate stories), along with a pair of format changes. In Columbus, WZAZ's

Chancellor Scoops Up Six In Cleveland

Chancellor Media has entered into definitive agreements to acquire six stations in Cleveland for a total of \$275 million. Chancellor picks up Urban WZAK, Dance WZJM and R&B Oldies WJMO from Zapis Communications. Soft AC WDOK and Standards WRMR from Independent Group Limited Partnership, and Hot AC WQAL from ML Media. This marks Chancellor's entry into the Cleveland market.

"These transactions are consistent with our bedrock philosophy of making acquisitions that are strategic, fairly priced and accretive," Chancellor Media President/CEO **Jeffrey Marcus** commented. "A key part of our strategy to become one of the premiere media companies in the world is to continue to emphasize the company's core competency in successfully operating superdupoly clusters of radio stations. With this acquisition we have assembled a station group that, in one unique transaction, positions Chancellor as a leading operator in Cleveland, a market previously unserved by Chancellor's radio division. In addition to providing Chancellor with an excellent foundation from which to grow in Cleveland, the acquisition is, upon closing, immediately accretive to our 1999 after-tax cash flow and free cash flow. It is priced fairly based upon the quality of the assets, the market size and the opportunity we see for growth and improvement. We believe there is potential for Chancellor to further enhance its presence in Cleveland deriving additional BCF by including these stations in the Company's AMFM Radio Networks and through representation by Chancellor's Katz Media group of the three previously unrepresented stations."

Neumann PD At DC101

Bob Neumann

As hinted by *fmqb* last week (8/7), WMMS/Cleveland PD **Bob Neumann** made tracks for the vacant PD chair at Chancellor's Active Rocker WWDC (DC101)/Washington D.C., mere moments after the Jacor-Nationwide deal was officially closed last Monday (8/10). Look for Neumann to be in place on August 17.

DC101 VP/GM **Rick Mack** told *Dirt Alert*, "After an extensive search, I am thrilled to have Bob join the team. DC101 is a radio station deep in heritage and Bob has the skills and talent to take us to the next level. While in Cleveland he had

Closing Sparks New Market Manager Appointments

Following the purchase of Nationwide Communications, Jacor has reorganized some key broadcast areas.

Jacor-Louisville VP/Market Manager **Tom Schurr** heads to Houston for similar duties. Schurr will be responsible for the development of KHMV (The Mix) and KTBZ (The Buzz).

Former GM of Nationwide's KDMX/Dallas, **J.D. Freeman**, has been named Jacor-Dallas VP/Market Manager. In addition to KDMX, Freeman will now oversee KEGL (The Eagle).

Dave Pugh, ex-GM of Nationwide's KZZP/Phoenix, has been named Jacor-Phoenix VP/Market Manager, overseeing KZZP and KGLQ.

Jacor-St. Louis GM **Lee Clear** adds oversight duties at newly acquired KSD-FM and KLOU as Jacor-St. Louis VP/Market Manager.

In Baltimore, WPOC GM **Jim Dolan** adds former CBS properties WCAO-AM and WOCT-FM to his station management duties.

Jacor-Cleveland VP/GM **Jim Meltzer** will now also oversee former Nationwide properties WGAR, WMMS and WMJI; WGAR GM **John Blassingame** adds VP/GM duties at WMJI, while Meltzer assumes day-to-day responsibilities for WMMS.

Unrelated to the Nationwide acquisition, Jacor promoted **Tom Sly** to VP/Market Manager in Salt Lake City. Sly had been VP/GM of KZHT/KKAT/KKUR and now adds KODJ/KNRS-AM/KALL-AM to his responsibilities. Also in Salt Lake City, **Lee Douglas** has joined as Station Manager. Douglas comes from a lengthy programming career, including stipes at WCKG/Chicago, KYCY/San Francisco and WOFX/Cincinnati. In his new position, he will oversee the programming, operations, marketing and promotion of all six Salt Lake City properties. Finally, **KZHT/KURR** GSM **Mary Lee Robinson** has been named Director of Sales for Jacor's four FM's in Salt Lake City.

Meanwhile, Jacor has named **Gabe Hobbs** to the position of Jacor Director of News/Talk. Hobbs has been with Jacor for over 14 years most recently as Director of Programming for selected Jacor stations in Tampa, Sarasota and Atlanta as well as Director of the Tampa Bay Devil Rays Radio Network. Hobbs' new role with Jacor will be based in Atlanta where he will also oversee operations for News/Talk WGST-AM.

JACOR *continued from page 11*

Modern Rock format migrated from 98.9 FM to 105.7, displacing WKFX's Classic Hits format. And in San Diego, Jacor moved KJQY's Soft AC "K-Joy" format to KXGL's 94.1 signal, the best stick in town.

Jacor's national programmers will stretch their oversight to include new markets opened by the Nationwide deal: Regional VP/Programming-East **Marc Chase** will oversee Baltimore, in addition to the company's expanded presence in Cleveland and its realigned Columbus assembly, Regional VP/Programming-West **Jack Evans** will supervise Phoenix, along with Jacor's altered San Diego cluster. And Sr. VP Programming **Tom Owens** will personally work with the former Nationwide stations in Dallas and Houston. (Owens talks about the programming ramifications of the deal, and other topics, in an exclusive *fmqb* Cover Story next week.)

The mammoth ten-month deal ultimately puts Jacor in four new broadcast areas that Michaels has called "fabulous high growth markets." Dallas, Houston, Phoenix, and Baltimore. Chancellor's just-announced \$275 million, six-station Cleveland deal notwithstanding, it also makes Jacor the top dog in Cleveland and, despite government-mandated spinoffs, strengthens its presence in Columbus and San Diego. Jacor will end up with 39% of radio revenues in Cleveland, 38% in Columbus, and 36% in San Diego, according to Justice Department estimates.

the opportunity to program with and against **Howard Stern** and brings this experience to a very competitive marketplace."

Neumann added, "I'm very excited to be taking over the reigns of DC101. The opportunity to work with Rick and **Michael Hughes** [KLOL/Houston Director of Operations] is awesome. Plus, to be a part of Chancellor's success story in D.C. makes this one of the best jobs in radio. Let's rock!"

Prior to programming WMMS, Neumann also guided WNCX-WENZ/Cleveland, WLVQ/Columbus, and WRXL/Richmond.

Cleveland Rocks With Ausham

One of the many changes that have occurred with the Jacor-Nationwide closing is the appointment of Jacor-Columbus Director of Programming **Greg Ausham** to the position of Program Director at WMMS. Ausham was previously based at WLVQ/WAZU/WZAZ in Columbus, stations that are being swapped to CBS.

"Ausham, whose name is Latin for 'suitcase', has made a career of stepping in and stepping up and his newly acquired duties at WMMS should provide no exception," a Jacor press release joked. "He understands heritage, he understand Rock and he understands English. We're just not sure if he understands he will be scraping ice off of his windshield with a credit card later this month."

ALL THE DIRT THAT FITS

ROSENBLUM REPLACES BROWN AT ARISTA

After nearly three years in the position, **Paul Brown** exited his VP Rock Promotion post at Arista Wednesday (8/12). His replacement is Elektra National Director of Alternative Promotion **Pete Rosenblum**, who will take over Arista's Alternative and Rock Promotion efforts on August 31. Rosenblum's last day at Elektra is August 26. Arista National Director of Alternative Promotion **Tom Gates** will remain in his current position. Brown, a Rock promo vet of Elektra, Virgin, and Atco, can be reached at spotzell@aol.com or at (212) 987-7485.

WAQZ, KPOI DROP MODERN

Following the arrival of new managing partners, Caribou Broadcasting announced the format flip of Modern Rocker KPOI/Honolulu back to Active Rock, the format it left behind in 1993. The station's library has undergone a total facelift, bringing in titles by Led Zeppelin, Rush, AC/DC, and Dio (yes, Dio). The station added 14 currents to its rotation, cementing its commitment to moving back into a Rock direction. GM **Bernie Armstrong** has exited the company, but no other staff changes have been announced, and the station will retain its on air slogan, "The Rock You Live On." Meanwhile, in what some say is a direct response from Jacor to the legal battle with crosstown CHR WKRQ/Cincinnati GM **Jim Bryant** (see related story), WAQZ/Cincinnati flipped to CHR Monday (8/10), positioning Channel Z to go head-to-head with its new-found rival. WAQZ PD **Matthew Harris** will stay with the station. No staff changes have been announced.

STARSYSTEM GETS RATINGS

Capstar has announced its initial ratings analysis of the StarSystem digital automation programming division, based on the Spring '98 Arbitron ratings. Capstar's Gulf-Star division uses StarSystem at 39 of its 85 radio stations. The reporting StarSystem stations delivered an average of 19% increase in the 25-54 persons demo. Stations with the largest percentage of StarSystem usage posted the highest gains. Those stations whose programming was principally StarSystem posted an amazing 301% gain.

FCC FINES WXTB

Amid all the other Jacor news this week comes word that the company's WXTB/Tampa has been fined \$4,000 by the FCC for two **Bubba The Love Sponge** broadcasts dating back to June '97, which allegedly contained indecent content. You may recall that Jacor paid a fine of \$4,000 last fall for comments made by Bubba and simulcast over WEBN/Cincinnati. Jacor has yet to state whether they will or will not pay the Tampa fine.

JACOR EXPOSES ALLEGED FRAUD

We're still not done with the Jacor camp this week. According to papers filed in Hamilton County, Ohio, Jacor is suing Cincinnati rival CBS Market Manager and WKRQ GM **Jim Bryant**, whom Jacor CEO **Randy Michaels** refers to as a "rogue GM," for alleged unfair competition. Jacor claims that Bryant sent a letter to its advertisers under the name of "Margaret Flanagan" who suggested her organization had a problem with content on several Jacor stations and subsequently threatened to publish, in the

Here's Why
Phoenix Stations
Are Stepping Up
to Scarborough

KDKB Nails New Digital Cellular Account

When a promotional buy for Sprint's new digital mobile service was on the line, KDKB-FM account executive Keith Woods looked to Scarborough to help him answer the call.

Using Scarborough, Woods profiled Metro Phoenix mobile phone users and found they are frequently college grads and/or sales professionals between the ages of 25 and 49. By comparing this data to his station's listener profiles, Woods illustrated that his station delivered the professional target that Sprint wanted to reach: "With Scarborough we demonstrated that our listeners used mobile phones and that they had the money to pay the bill."

Combined with cross-promotion ideas and the catchy slogan "When our listeners aren't rockin', they're talkin'," Woods landed the buy. "I think our success with Sprint was based on how vividly we described our audience and marketplace using Scarborough."

through a \$1.7 billion purchase of Universal Outdoor Holdings Inc. and, earlier this month, the company acquired London-based More Group PLC for \$760 million, giving it an additional 90,000 billboards and bus shelter display surfaces in 22 countries. All these acquisitions have made Clear Channel the Number One international outdoor advertising company, though Outdoor Systems Inc. still has a small edge in the United States, where Clear Channel has only 90,000 displays.

AMRC HIRES BRANDING EXPERT

American Mobile Radio Corporation has hired New York-based Lee Hunt Associates to position and brand the company's new satellite radio network. Emmy and Clio-award winner Lee Hunt Associates will create a new brand name and logo for AMRC, as well as working to develop corporate branding and positioning strategies for the nationwide satellite direct radio service. Lee Hunt Associates is best known for launching, positioning, designing, and promoting networks, including the Disney Channel, Discovery Channel, PBS, MSNBC, Lifetime, CNBC, and many more. AMRC plans to have their portable satellite radio service, featuring 100 channels of programming, available nationally by the year 2000.

INTERNET RADIO LISTENING STUDY

Arbitron and Edison Media Research will conduct a study of Arbitron diarykeepers and Internet users to evaluate the impact that Web-surfing and other Internet use

is having on radio listening habits. Arbitron has established a special e-mail address to collect ideas and input from broadcasters, agencies and advertisers. The study will consist of two separate surveys: a national telephone survey of 1200 diarykeepers to determine the current role of the Internet in the lives of radio listeners and the Internet's potential to affect radio listening; A Web-based survey of 400 current users of Internet radio and audio programming. Suggestions can be sent to: netstudy@arbitron.com. The findings of the study will be presented in October at the 1998 NAB Radio Show in Seattle.

STERN TORONTO TV DEBUT DELAYED

Toronto's CITY-TV won't be debuting *Howard Stern's* new weekly CBS TV show on its August 22 premiere date. Instead, the CHUM Ltd.-owned outlet will hold back on televising *The Howard Stern Radio Show* until it can "screen several episodes." CHUM head Jay Switzer has said the show will begin on Aug. 29, with both the premiere and second episodes. The Saturday night Eyemark Entertainment-distributed show is expected to premier in other Canadian markets, like Calgary, Alberta, and Halifax without delays.

Wall Street Journal. "We think this tape reflects the accuracy of the statements you make about our company," a terse note that accompanied the videocassette read. "You should learn the facts before you make them up!" The note referred to statements Sillerman made to investors during a roadshow to pitch a new SFX stock offering. **Barry Diller**, Chairman/CEO of Ticketmaster parent USA Networks, says Sillerman incorrectly told investors that Ticketmaster had agreed to a sizable increase in the rebates it pays SFX for selling its tickets at SFX-operated venues, an increase that would add \$20 million in annual cash flow to SFX. USA says Sillerman also grossly exaggerated to investors the number of tickets Ticketmaster sells at SFX facilities. Sillerman says Ticketmaster is denigrating him to preclude a client exodus, should SFX launch its own ticketing service. In a separate story, the *Journal* reports that Ticketmaster will merge with CitySearch, which provides city entertainment guides on the Web. The deal, valued at \$260 million, would give USA Networks entry into the fast-growing on-line commerce arena.

SFX BUYS TWO MORE SFX Entertainment has entered into an agreement to acquire Magicworks Entertainment for approximately \$100 million. Magicworks is engaged in the management, production, presentation, and merchandising of theatrical shows, concerts and other forms of live entertainment. The company also provides personal representation and sports marketing services to professional athletes. Meanwhile, SFX has reached an agreement to acquire The Cellar Door Companies, a leading promoter of concerts in the Southeast and Midwest, for over \$100 million in cash, stock and other consideration. Cellar Door owns and/or operates venues from Virginia to Florida, promoting major concerts in this region. It also operates venues and promotes concerts in Michigan, Wisconsin and Ohio.

UNIVERSAL TO BUILD PORTLAND AMPHITHEATER Universal Concerts and Aegean Development Corporation have teamed up to bring Portland an outdoor amphitheater. While full details have yet to be disclosed, the new venue will be located within the Portland metropolitan

region. Universal Concerts is one of the largest-grossing promoter of concert events in North America, while Aegean is Oregon's largest venue operator.

WHEREHOUSE BRINGS HOME BLOCKBUSTER MUSIC Record-store chain Wherehouse Entertainment has purchased rival chain Blockbuster Music from Viacom for \$115 million. Viacom had owned Blockbuster since 1994 when they acquired the Blockbuster Entertainment Group. Wherehouse gets to add 378 stores to the 220 they're currently operating. Although Blockbuster Music is unprofitable, the sale comes as the retail climate is beginning to improve.

QUESTION OF THE WEEK

With the White House sex scandal being top of mind, what is the wackiest thing a station intern has ever done?

DON JANTZEN, KILO/COLORADO SPRINGS:

I can't answer that. The names have been changed to protect the innocent.

ROBIN LEE, WZZO/ALLENTOWN:

We don't have interns, the work ethic of today's youth is terrible.

RAY BAUER, WSUE/SAULT STE. MARIE:

We once had an intern who would dye her hair a different color, like once a week. And it wouldn't be blond, brunette, or red...it would be something like green, purple, or pink. We used to play a game on the air called, "Guess What Color Sally's Hair Is."

JIM FREE, WKGB/BINGHAMTON:

We're trying to encourage one of them to be more like Monica Lewinsky.

TOM O., WTOS/AUGUSTA:

Speaking of the White house, George Bush's nephew, Billy Bush, interned for my station. I guess it's just wacky that his uncle let him!!

KEVIN CONRAD, WJXQ/LANSING:

We had this kid that was probably 6'8" and 250 lbs. who wore a dog collar and pantyhose on his arms with holes at the bottom for his fingers to come out. He was a real nice kid. With the collar on, he would bark occasionally too.

DAN BOZYK, WBUZ/TOLEDO:

I had my own intern sex scandal that I just can't get into right now.

KEVIN VARGAS, KISS, SAN ANTONIO:

Our interns are not "wacky." They're good, wholesome, non-drinking, God-fearing Christians who even-out the karma scale for the airstaff.

JEFF JAGGER, WEGW/WHEELING:

I remember one time an intern cussed on the radio and we told him to get the hell outta here, that's about it. He thought he was too cool... he wasn't that cool, to where he was gonna be still involved with us.

ROBYN LANE, WRAT/POINT PLEASANT:

Someone climbed under the console once... Oh, no, that's the answer to last week's Question Of The Week! I once had an intern who followed me around 24/7 to learn everything she could at WBAB. She finally got a full-time job.

CHILI WALKER, WWBN/FLINT:

Nothing overly wacky, I guess we're drawing from the wrong intern pool. We oughtta start importing them from D.C.

GREG PATRICK, WRCQ/FAYETTEVILLE:

We had a male intern dress in a bikini and stand on the busiest corner in town holding a sign advertising our morning show for four hours straight in the rain.

RAYDOG, KMYZ/TULSA:

I can't go into that, but I'm pretty sure I was inhaling at the time.

TIM PARKER, WNOR/NORFOLK:

We don't have any interns, but I am engaged to a former part-timer I worked with in Texas.

KATHY CORO, WZL/ATLANTIC CITY:

Interns? What are they?

JOHN ROZZ, WRXK/FT. MYERS:

Let's just say a drunken intern caused me an hour of dead air.

VANCE SHEPHERD, WQBZ/MACON:

I had an intern that was always insisting that something under the board needed to be worked on. NO, I'm kidding! I don't wanna ruin my great reputation.

MARGOT SMITH, WGRD/GRAND RAPIDS:

We had a really portly intern, and he participated in a bikini contest and had scars all over his body. It was gross. He proceeded to run around the bar and chant "GRD!! GRD!!"

CHRIS JAMES, WTPA/HARRISBURG:

We once had an underage intern who got into a bar saying she worked for us. We found out because she told us.

KELLI CLUQUE, KNCR/CORPUS CHRISTI:

When I was at The Flash, an intern joined us at all our appearances. We were at a Chris Isaak show and I told her not to drink while driving the station van, which had an equipment rack on top of it. She proceeded to get drunk and drove the van out of an underground garage that had a low ceiling and peeled back the top of the van. She got fired and wondered why.

SUMMER, WKZQ/MYRTLE BEACH:

Tried to seduce me to move up! They didn't understand the way it works.

STEVE RAYMOND, WZL/ATLANTIC CITY:

I've got so much hair on my back that no intern will go near me, nevermind do wacky things to me.

J.J. JEFFRIES, KUPD/PHOENIX:

A woman was flashing her chest at our Mardi Gras promotion this spring. One of our promotion interns convinced her to give him a hand job for beads. And I think he gave up all his beads.

DUG, WXSX/TALLAHASSEE:

He dressed up in a ballerina tutu and combat boots with all of his tattoos showing, and hitchhiked.

PAUL KELLY, WEZX/SCRANTON-WILKES BARRE:

Been dependable.

RADIOBOY, WKQQ/LEXINGTON:

The wackiest thing I ever did as an intern happened at my first station I worked at, 94.1 KRNA Iowa City/Cedar Rapids. It was Cinco De Mayo, the morning team outfitted me with a 17-pocket fishing vest filled to the brim with candy, they mounted me on a crane, as young hispanic children were blindfolded and took cracks at me with long foam batons. Whenever they made contact, I sprinkled them with candy. Needless to say, some of the blows would have been better received had I been equipped with the proper protective gear worn by athletes, and I'm not referring to helmets and shoulder pads.

WOOFY, WKSX/FT. WALTON BEACH:

She once took a bath.

RICH ROBINSON, WHTG/ASBURY PARK:

None of the interns here have ever done anything remotely wacky or humorous.

PAUL KRIEGLER, KOZN/KANSAS CITY:

Strip-honking on a billboard.

DEBBIE WYLDE, WAMX/HUNTINGTON:

Morning man Quinn... 4 books, 4 interns, 3 lawsuits.

BRIAN KELLY, WPXC/CAPE COD:

Valentines' Day we had an intern dress up in a leotard with a "heart" on his chest, and play the role of stupid cupid, delivering love messages from door to door. We'd warn people, "Don't open that door, he's got a heart on!!"

DORSIE FYFFE, WOXY/OXFORD:

Gotten a splinter from our wooden Elvis statue...

SHELLIE HART, KEDJ/PHOENIX:

I don't even want to know.

ROXANNE MCVAY, WBYR/FT. WAYNE:

Wore a dress with a stain on it... what a coincidence! I see a conspiracy...

MARK THE SHARK, WTKX/PENSACOLA:

When we interviewed Rob Halford from Two, we had an intern come out on the air, even though he wasn't really gay.

LENNY DIANA, WXDX/PITTSBURGH:

They threw up outside the beer closet.

ZACK TYLER, WTPT/GREENSVILLE-SPARTANBURG:

Sometimes the interns are more normal than the staff.

HELEN POWERS, KBER/SALT LAKE CITY:

We had an ex-gang member as an intern once. He went into a t-shirt store and picked up KBER shirts for every member of the staff and said they were a gift from him. We found out later that he charged the entire shirt order to the station account. He no longer works here.

TERRIE CARR, WDHA/NORTH JERSEY:

We once had a female intern who dated every male on the sales staff.

SUSAN GROVES, WARQ/COLUMBIA:

I don't know how wacky this is, but I had an intern mow my lawn once...

DAVE SPARKS, KHOP/MODESTO:

We had a board-op who would call 900-numbers on the studio line and talk for hours, and apparently get off on the phone with the operators. And then the bill came...and he was history. Buh-bye!

PAT LYNCH, WJRR/ORLANDO:

I was at another station at the time and we had an intern running the board during a remote broadcast. He was communicating to the talent through the talk back button but didn't realize that it was in program. The intern proceeded to let out a slew of obscenities which went out over the air. The next morning there was a group of people camped out in front of the station with tapes in hand ready to complain. Needless to say, he's no longer in radio.

CARL CRAFT, WRAT/POINT PLEASANT:

When I was an intern I walked in on Gerry Martire at WBAB and totally messed up his break. My excuse was the bulb was out in the "On-Air" light.

TODD THOMAS, WXVO/KNOXVILLE:

One time an intern got loaded and was driving the station van and crashed into five parked cars. He then left the scene of the accident(s). I called him the following morning and he was still drunk and confessed that he thought he might have clipped a mail box the night before.

GREG STEVENS, KEGL/DALLAS:

This didn't happen at The Eagle. An intern who knew where the station vehicle keys were kept took them against station policy, and drove the vehicle out of town. Before the police could locate it, he brought it back and said he used it to help a friend move. It was his last day as an intern.

JOHN MICHAEL, WRXQ/MEMPHIS:

He jumped on the hood of my car thinking it would be funny, and did \$750 damage. Needless to say, he's no longer my intern.

NEXT WEEK'S QUESTION OF THE WEEK

What album would we find in your car CD/cassette player right now?
(Suggested by WKZZ's Jack Lawson.)

ROCK REPORT

R.E.M. have set a release date of October 27 for their upcoming eleventh studio set, *Up*, their first without original drummer **Bill Berry**. They will shoot the album's first video, "Daysleeper," next weekend in Los Angeles, though the band hasn't chosen a director yet. With a tour to support *Up* definitely in the cards, it's likely that **Beck** skinsman **Joey Waronker** will be manning the drumkit for the band when they hit the road. We'll keep you posted.

Early word is that the video for **Marilyn Manson's** new single, "Dope Show" (shooting this weekend in L.A.), just might be the most bizarre thing we've seen to date we've seen from Mr. M. MTV reports that there's a variety of segments; one with a truly androgynous red-haired Manson in an acid-trippy scene, one with him in a hospital bed with tubes in his body and a yellowish liquid or gas coming from his nose and eyes, a scene with Manson in a limo, and one of him on stage in front of a crowd that includes a host of beautiful women.

Pearl Jam has added a September 19

show at Washington, D.C.'s Constitution Hall to benefit the **Gloria Steinem**-founded pro-choice organization, Voters For Choice. The organization is a political action committee that provides pro-choice candidates with funding, training and endorsements. Pearl Jam and Steinem have teamed up previously for two 1995 D.C. benefit shows marking the 22nd anniversary of Roe v. Wade. Steinem also joined the band on their *Monkeywrench Radio* show earlier this year, discussing pro-choice issues with **Eddie Vedder** and company over the airwaves.

According to an Internet post from **Motley Crue** bassist **Nikki Sixx**, the band's forthcoming album will be titled *Motley Crue's Greatest Hits*, not *Bitter Pills*, as was previously announced. The album will be released through the band's Motley Records imprint, which is part of the Beyond Records umbrella, a group of labels that recently inked a distribution pact with BMG. Along with the Crue classics, the album - due October 27 - will also feature two new tracks, skedded to be mixed by **Bob Rock**. The Crue members have plenty to keep themselves occupied with in the meantime. Singer **Vince Neil** (whose IEG video with Vivid girl **Janine**, *Hardcore & Uncensored* gets two BIG thumbs up!) and guitarist **Mick Mars** have signed on for an upcoming **Alice Cooper** tribute album, due around Halloween. The Crue members will team with **Mr. Big** bassist **Billy Sheehan**, veteran drum-

mer **Simon Phillips** and project producer **Bob Kulick** for a cover of the Alice classic "Cold Ethyl." As for drummer **Tommy Lee**, Reuters reports that he has struck a tentative deal with prosecutors in Phoenix to plead guilty to an assault charge and receive an \$800 fine and a 30-day sentence to run concurrently with his time served in California. The Phoenix charges are from an altercation with concert security at a show last December. **Nikki Sixx** was also involved, but is not part of these proceedings. Lee is presently serving a six month sentence for spousal abuse against his estranged wife, **Pamela Anderson Lee**. On a recent Internet post, Sixx intimated that Lee was having a rough time in jail.

Congrats to **Metallica** drummer **Lars Ulrich** and wife **Skyilar**, who became the proud parents of a baby boy, **Myles**, last Thursday (6) in New York City. Myles entered the world at 4:15 A.M., tipping the scales at seven pounds, eight ounces, measuring 20 inches. Ulrich is not the only Metallica member to enter fatherhood, as singer/guitarist **James Hetfield** and wife **Francesca** welcomed a baby girl, **Cali Tee** on June 11.

Bryan Adams releases his tenth album, *On A Day Like Today*, on October 20. The first single is the title track, which will hit radio on September 23. *On A Day Like Today* was the first album Adams recorded at his new studio, The Warehouse, which he built in the oldest brick building in Vancouver that once housed a Klondike supply company during the gold rush of the 1800's.

Though nothing's definite yet, rumor has it that both **Jimmy Page & Robert Plant** and **Sting** will be performing sets at L.A.'s infamous Whisky A Go-Go next January, to help celebrate the club's 35th anniversary. More on this as it develops.

Already out in Australia and available here as an import, Columbia gives **Midnight Oil's** new album *Redneck Wonderland* a proper U.S. release on November 3.

MTV has tapped **Ben Stiller** to host the 15th annual *MTV Video Music Awards*, going down Thursday, September 10 at L.A.'s Universal Amphitheater.

Celebrating **Lynyrd Skynyrd's** 25 years as the face of Southern Rock, MCA releases the double-CD collection, *Essential Lynyrd Skynyrd* on August 25. Culling 25 of the band's best tracks, *Essential Lynyrd Skynyrd* was produced and compiled by **Ron O'Brien**, who also penned the liner notes/essay, *Lynyrd Skynyrd: The New Sound Of The South*. Much more than a by-the-numbers "best of" package, the two-CD set features the hits, but delves deeper to include live cuts, key album tracks, live and studio versions of "Free Bird," and a previously unreleased version of "Comin' Home," featuring **Ronnie Van Zant's** original vocals. Other Skynyrd classics included are "I Ain't The One," "That Smell," "Call Me The Breeze," "Sweet Home Alabama," and "Tuesday's Gone."

With their live set, *Across A Wire*, currently holding fans over, **Counting Crows** are back in an L.A. studio working on their third studio LP. Working with the very tentative album title of *Havin' A Twist Party With The Counting Crows*, the band have brought in both **Cracker's David Lowery** and **Throwing Muses** producer **Dennis Herring** to co-produce. The band are currently working on some 15 tracks for the album, which is expected sometime early next year.

The wait is over! **Elvis Costello's** much publicized collaboration with songwriting legend **Burt Bacharach** will be unveiled on September 29 on Mercury. Their initial work, the magnificent "God Give Me Strength" (featured in the film *Grace Of My Heart*), bore major plaudits for its seamless merging of Bacharach's classic orchestral style and Costello's trademark composing skills. The record is slated to include 12 Bacharach/Costello collaborations including "God Give Me Strength." Recorded at Ocean Way Studios in Hollywood, the record showcases orchestrations written and conducted by Bacharach. **Ex-Attractions's** keyboardist **Steve Nieve**, legendary drummer **Jim Keltner** and L.A. session vet guitarist **Dean Parks** are among the luminaries contributing. Tracks include "This House Is Empty Now," "The Sweetest Punch," "In The Darkest Place," "Toledo," "I Still Have That Other Girl," "Tears At The Birthday Party," "Such Unlikely Lovers," "My Thief," "The Long Division," "Painted From Her

THE REBEL YELLER ENJOYS SOME JAVA: As in his new record label, founded by producer extraordinaire, **Glen Ballard**. Here's a shot of the duo in the studio, where they were working on *Idol's Java Records* debut (produced by Ballard), which is set for release early next year. (L-R): *Idol*; Ballard.

Memory" and "What's Her Name Today?"

Dazed And Confused is the name of a new book on **Led Zeppelin** that provides stories and anecdotes behind every Led Zep song. Written by noted U.K. scribe **Chris Welch**, the book (Thunder's Mouth Press / \$22.95) is a treasure trove on info on everything about the mighty Led Zeppelin. Promising to lift the lid behind the band's legacy of mysticism and magic, the book includes reams of illuminating details behind the recordings and composition of every Zeppelin song. From "Ramble On" to "All My Love," it's all here, in splendid detail. Learn the real story behind what inspired the song "Black Dog," discover how "Stairway To Heaven" was written, and uncover the meaning of "D'Yer Maker." Richly illustrated with scores of previously unseen color and black and white photographs, the book contains a wealth of first-hand commentary from **Jimmy Page, Robert Plant, John Paul Jones and John Bonham**. A complete chronology and discography plus an overview of the post-Zeppelin days is also featured. Whether you

want to know about the band's debut album or their most recent *BBC Sessions* CD, it's all here in this engrossing and informative look at one of Rock's most legendary groups.

With *Rolling Stone* magazine's recent "hot" issue citing **Brian Wilson** as the hottest musical influence, and acts like **Barenaked Ladies** and **Sonic Youth** among others exclaiming their love of Wilson and the group, interest in the **Beach Boys** has increased dramatically. *Surf's Up* once again for Beach Boys' fans with the VH1 airing of a spectacular new documentary, *Endless Harmony*, slated to run on August 23 at 9:00 p.m. Expertly directed by **Alan Boyd**, the two-hour special, divided into two parts (*All Summer Long (1961-1966)* and *Heroes And Villains (1966-1997)*) offers a frank and often revelatory look at the band's glorious and sometimes troubled sunshine legacy. Buttressed by recent interview footage with the group — **Brian Wilson, Mike Love, the late Carl Wilson, Alan Jardine, David Marks and Bruce Johnston** — the special makes its case for "America's band" via fascinating and rare performances

(both live and lip-synched), vintage in-studio footage, home movies, promo videos, previously unseen photographs, and much more. Lending the group kudos in the documentary include the likes of **Elvis Costello, the Eagles' Glenn Frey, Jackson Browne, Maurice Gibb of the Bee Gees, and Sean Lennon**. Also queried are Beach Boys' session players **Hal Blaine, Glen Campbell and Carol Kaye** (who ably demonstrates her bass work on various B-Boys songs), plus producer **Terry Melcher** and songwriting collaborators **Tony Asher and Van Dyke Parks**. Numerous highlights abound and include captivating and exuberant 1964 era live renditions of "In My Room" and "Little Deuce Coupe," terrific promo videos for "Sloop John B," "Do It Again," and "I Just Wasn't Made For These Times," and rare live performance footage of such lesser known but equally seminal tunes as "Long Promised Road," "Cool Cool Water," and "Cottonfields." No whitewash of their often turbulent career, the documentary examines the Wilson's abusive relationship with father/manager **Murray**, Wilson's blossoming and ultimate collapse as a

creative artist due to drugs and the pressures of stardom, the band's flirtation with the **Maharishi Mahesh Yogi** (footage of Mike Love and the Beatles in India is included), their mid-'70s commercial renaissance, **Brian Wilson's** much publicized relationship with shrink **Eugene Landy**, the tragic deaths of **Carl and Dennis Wilson** and more. Also quite interesting are the clips of **Brian Wilson** in 1998 at the studio console working with original Beach Boys multi-tracks and demonstrating the intricacies and nuances of such gems as "Wouldn't It Be Nice" and "Kiss Me Baby." *Endless Harmony* is a superb and compelling document that is a must see for any music fan.

R.E.M. guitarist **Peter Buck** is one of many musicians taking part in a tribute album to original **Jefferson Airplane/Moby Grape** drummer **Skip Spence**. Spence was a noted acid casualty of San Francisco's 1968 Summer Of Love scene who checked himself in New York's Bellevue that year. After six months in Bellevue, Spence headed to Nashville where he recorded the album *Oar* - regarded in

Swedish Pop confectioners **The Cardigans** are set to return with a

NEWS

There's great activity among former **Queen** personnel at the moment with releases by two of the band's three surviving members. **Brian May** returns to his *Another World* album for the new U.K. single, "Why Don't We Try Again," on August 24, while internationally the title track is released on September 14. **Roger Taylor**, meanwhile, has completed a new solo album to be titled

Electric Fire and released in Britain on September 21, preceded by the single "Surrender."

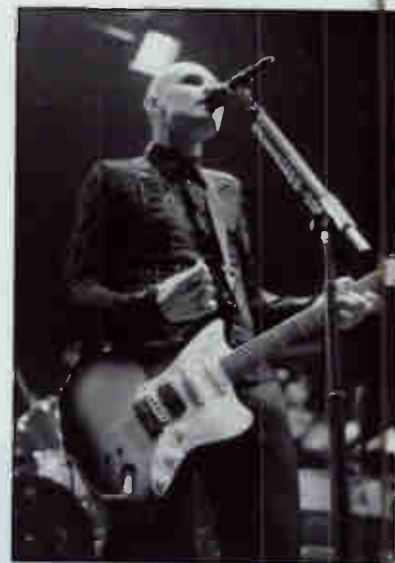

Former **Eurythmic** **Dave Stewart**, who recently signed a multi-media deal with **N2K Records**, will release a new album under the new contract called *Sly Fi*, initially only via the Internet, on September 15, with an in-store release to follow some weeks later. The album will tie in with an online television show of the same name, incorporating elements of art, music and film and utilizing Stewart's renowned grasp of music visuals as well as his production skills. The first single from the album will be "Happy To Be Here," with a video shot on location in his house. The *Sly Fi* series may include "fly on the wall" material shot by Stewart during a **Bob**

Dylan concert in which Stewart played guitar, plus an interview with actress **Isabella Rosselini**.

The **Style Council's** "lost" album, *Modernism: A Lost Decade*, will finally be available (nine years late) as part of Polydor's five-CD boxed set, *The Complete Adventures Of The Style Council*, out on August 31. It was the label's refusal to release the album that prompted the group's demise and led to **Paul Weller's** hugely successful solo career.

London music fans who remember the live music club **The Venue**, which was owned by **Richard Branson's** **Virgin** and operated opposite the entrance to Victoria tube station (District & Circle line branch, to be precise), will find an echo in the recent announcement of Branson's latest project. He's applied to Westminster Council for planning permission to open a club in the annexe of the **Regent Palace Hotel** in Soho. The mogul plans to call it **The Venue** and operate the facility as a club, restaurant and live music location, and if the plans go ahead it could be open before the end of next year.

Boyzone's "No Matter What" sold a huge 277,000 copies last week, the second highest first-week sale of the year, to enter the singles chart at #1. "Mysterious Times" by **Sash!** featuring **Tina Cousins** debuted in the **DJ's** familiar runner-up spot, with "Pure Morning" by **Placebo** at four (the same peak achieved by their 1997 debut hit "Nancy Boy") and "Needin' U" by **David Morales** presents **The**

Face at eight. Also new in the **Top 20** were **English Soulster** **Hinda Hicks** with "I Wanna Be Your Lady" at 14, "Love Unlimited" by **Fun Lovin' Criminals** at 18 and **Solid Harmonie's** "I Wanna Love You" at 20. In another slow album chart, the **Corrs' Talk On Corners** returned to #1 even though it sold only 24,000 copies. The TV-advertised *The Ultimate Collection* by **Santana** was the week's top arrival at 23.

News From London is written by **Paul Sexton**, presenter/producer of the syndicated *Modern Rock* radio show *Rock Over London*. For more information, call **Don Eberle** at **Radio Ventures** (516 358 2250).

SARAH TAKES HOME ANOTHER AWARD: This time, it's the **Elizabeth Cady Stanton Visionary Award**, presented to **McLachlan** by **New York Governor George Pataki**. The award marked the 150th anniversary of the first women's rights convention in **Seneca Falls, NY**. The Governor's Commission Honoring The Achievements Of Women felt that **McLachlan's** creation of the **Lilith Fair** was a visionary venture that promoted other female artists, making her worthy of the prestigious award. Flanking **McLachlan** at the ceremony was: (L), **Arista President Clive Davis**, (R), **New York Governor George Pataki**.

Terry Marshall's DAILY INSIDER

SUBLIME: Sublime now has the longest running album on *Billboard's* Top 200, with their self-titled disc notching 104 weeks, two solid years. The album, which has sold three million copies, moved up from No. 104 to No. 101 last week.

GARBAGE TO BEGIN U.S. TOUR AFTER MTV VIDEO MUSIC AWARDS: Garbage was just ending a week's vacation when their manager telephoned them in England to tell them about the MTV Video Music Awards nominations. "He left a message on my answering machine," recalls Shirley Manson. "He told us we had seven nominations. Then he called back a minute later and said that it was a mistake. We had eight."... Garbage is now off to England where they will film a video for "Special" and headline the Reading Festival on August 29. They'll return to the U.S. in time for the MTV Awards in Los Angeles on September 10 and begin their U.S. tour on September 21. They won't perform at the awards. "We're looking for any excuse to wear anything other than our touring clothes," says Manson. "We've been working so hard for as long as I can remember, we're up for going to a party where we're not playing." Only Madonna's "Ray Of Light" earned more nominations than Garbage's "Push It."

BRIAN SETZER ORCHESTRA: Swing has now gotten so big, a compilation album was recently released. The Brian Setzer Orchestra, Cherry Poppin' Daddies, Big Bad Voodoo Daddy and the Royal Crown Revue are among the bands featured on a compilation disc called *Swing This Baby*. The Royal Crown Revue are also releasing their second album, *The Contender*, this month on Warner Bros.

ROD STEWART: Rod Stewart has set a new record at the Hollywood Bowl. Top ticket price for his September 25 show is \$150, \$25 more than the previous Rock record holder for the venue, Fleetwood Mac. But even the high ticket price didn't prevent all of the highest-priced tickets from being sold within minutes of going on sale.

PATTY SMYTH: Patty Smyth's song from *Armageddon*, "Wish You Were You," is one of two new tracks which will be included on a 16-song *Greatest Hits* collection being released next month (22) by Sony Legacy. It also includes her hits with Scandal and her 1992 duet with Don Henley, "Sometimes Love Just Ain't Enough." Smyth recorded "Wish I Were You" and the other new track, "Carnival Lights," with Matchbox 20 producer Matt Serletic.

MEN AT WORK: Men At Work are releasing a live album this month on Legacy. *Brazil* was recorded on their 1996 reunion tour and features the two leaders Colin Hay and Greg Ham.

MTV RUSSIA DEBUTS NEXT MONTH: The Russians, or at least those who live in Moscow and St. Petersburg, will get their MTV next month. Starting September 25, the music channel will split the programming 50-50 between videos by local artists and others by U2, Madonna, Bjork, The Spice Girls and other international stars for 24 hours a day. The programming will be determined in Moscow, but the schedule will also include *MTV Unplugged*, *The Video Music Awards* and the *MTV Europe Music Awards*. The channel will feature Russian VJs and reach an estimated 10 million homes.

ROCK 18-34

THE INSIDE TRACK

WAAF/Boston was joined by **Eddie Van Halen** and **Gary Cherone** of **Van Halen** this past Wednesday (8/12) at Boston's Hard Rock Cafe. Eddie and Gary acted as guest DJs, answering questions from the live audience assembled at the Hard Rock Cafe. During the broadcast 'AAF' gave away a pair of front row tickets to see VH at Great Woods the following night. The event was free to the public, however 'AAF' gave away a limited number of "guaranteed admission" tickets to loyal listeners. The shindig served as a homecoming for Cherone who is from Boston and, of course, rose to fame there with **Extreme...** **WTPT (The Planet)/Greenville-Spartanburg** is gearing up for their *2nd Birthday Blowout* which will be held Friday August 21 at the Greenville County Fairgrounds. The *Blowout* will feature **Creed**, **finger eleven** and **Fuel**. Over 3000 tickets have

already been sold to date... **CFOX/Vancouver** have been giving four listeners "free rent" since this past Monday (8/10). Well kinda... Four listeners have been living in a 1998 Chevy Malibu trying to win it for themselves. The car will be given away during the third quarter of the American Bowl game this Saturday (8/15). So far all four qualifiers have remained in the car around the clock except for their allotted 15 minute breaks. Fox afternoon jock **Bill Courage** even provided extra incentive for the contestants to leave the car by bringing by a couple of dancers from a local strip club to try and tempt them out of the vehicle. No one budged. If more than one contestant remains in the car by Saturday's game time, morning men **Larry & Willy** will be eliminating contestants in a fashion similar to what all great decision makers have used in the past. It's a tried and tested solution to any situation..Rock, Paper, Scissors!! When all is said and done one winner will drive off the field of the American Bowl with a brand new 1998 Chevy Malibu.

PROGRESSIVE PRO-FORMERS

Chris Isaak, "Please" (Reprise)

It was no surprise to us (and to Adult Radio, we assume) that Chris Isaak is our **Pro-Former Of The Week** and **#1 Most Added**. "Please," the debut track from his highly anticipated album *Speak Of The Devil*, is new at 42 stations this report, including KGSR, KFOG, KINK, WXRV, KTHX, WXRT, KMTT, KPIG, WDET, KKZN, KFXJ, KXL, KTCZ, KXST, WBOS, WHPT, WMMM, WRLT, and WXLE. Already getting 134 spins before-the-box, look for Isaak to debut in a huge way next week!

Eagle-Eye Cherry, "Save Tonight" (WORK)

Eagle-Eye Cherry's Progressive Radio invasion marches forward for yet another impressive week. WVRV and WRNX add "Save Tonight" this week, joining a head-shaking cume of 63 Adult signals! In addition, Cherry jumps from 12 to 8* this report, gaining 167 spins (**#1 Most Increased**), and soaring from 13 to 10* on the *Public Breakout* chart! "Save Tonight," the first cut from his WORK debut *Desireless*, is just one of many, many songs your station will be playing from this blossoming artist.

Keb' Mo', "I Was Wrong" (550 Music/Epic)

Keb' Mo's "I Was Wrong," the first track from his forthcoming album, *Slow Down*, debuts as predicted this report at 39*, 259 spins. **#2 Most Increased** (+119), Mo' is also **#5 Most Added**, picking up new spinnage from 9 stations (including WEBX, CIDR, KTCZ, KRCC, WCBE, and KXST). Already on-the-air at 35 Adult stations (KGSR, KFOG, KINK, WMWV, WNCS, KPIG, KMTT, WBOS, and KFXJ to name a few!), count on Keb' Mo's chart position to continue inflating over the next few weeks!

Susan Tedeschi, "It Hurt So Bad" (Tone-Cool/Rounder)

#4 Most Added with 11 new adds (including WCBE, WXRV, KTAO, KGSR, and KTCZ), Susan Tedeschi's "It Hurt So Bad" remains a major shaker in the Adult Radio empire. From the album *Just Won't Burn*, "It Hurt So Bad" boosts Tedeschi from 45 to 31* on the Top 50 this week, increasing her spins by 99 (**#4 Most Increased**), and finding the young artist already getting airplay on some of

the best stations in the format, including WFUV, WEBX, KMTT, WCLZ, KFLX, WBOS, WIVI, WRNX, and KINK.

PROGRESSIVE ADULT RADIO PICKS

ON THE RIGHT TRACK?

EBBA FORSBERG, "HOLD ME," MAVERICK/WARNER BROS.

Maverick/Warner Bros. easily had about six tracks to choose from as the second single from Ebba Forsberg's

brilliant debut album, *Been There*. Their choice, "Hold Me," is a soulful ballad filled with formula hooks and flawless production that has the capability of performing not only at Progressive, but at Top 40 and Modern AC as well. Forsberg is a stunning talent, and "Hold Me" is sure to confirm her position as one of this year's best new artists.

REBEKAH, "HEY GENIUS," ELEKTRA/EEG

While there seems to be a never-ending supply of decent female singer-songwriters lately, few really stand out with a sound that

is unique only to them. That's why we genuinely recommend paying attention to 25-year-old Cleveland native, Rebekah. *Remember To Breathe*, her Elektra debut, was produced by Matthew Wilder (No Doubt) and is a striking collection of rich Pop songs that stand out of the pack like a Hawaiian shirt at a funeral. It doesn't take a genius to hear this is a hit.

LITTLE FEAT, "A DISTANT THUNDER," CMC INTERNATIONAL

Here's the next track from Little Feat's *Under The Radar*. Lead vocals on "A Distant Thunder" are handled

brilliantly by relatively new Feat addition Shaun Murphy. Murphy's been singing with the band for the last three albums, and her vocals soar in a manner reminiscent of Etta James. Her great Blues vocals have inspired her bandmates to return to their roots while forging ahead. Layered instruments, including the melodic jangle of the mandolin, make this unmistakably a Feat tune.

SINGLES/EPs

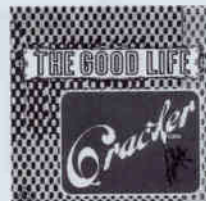

SHAWN MULLINS, "LULLABY," COLUMBIA/CRG

Do your listeners a favor and RUN this song

directly into the air studio! Shawn Mullins' "Lullaby," the first track from his forthcoming album *Soul's Core*, is the kind of song that Progressive Radio has been longing for. Simply put, "Lullaby" is a flawless display of singer-songwriting that, despite all the hype you may have been receiving, truly stands on its own as one of the best songs of 1998. A multi-format triumph! Destined for Number One status, or we'll retire.

September. Look for the band on *Letterman* and *Rosie*.

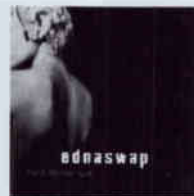

CRACKER, "THE GOOD LIFE," VIRGIN

Cracker is the only band in Rock history to play support for

BOTH the Grateful Dead and the Ramones, for a reason. Their diversity has always allowed them to appeal to a wide audience, and even in their formative years as Camper Van Beethoven, they were a favorite of numerous formats. Tracks like "Low" and "I Hate My Generation" have allowed Cracker to cross many musical boundaries and "The Good Life," the opening track to their latest full length *Gentleman's Blues*, is no exception.

ous, and is 100% appropriate for any Progressive who ever spun Björk, Massive Attack, or Garbage.

EDNASWAP, "BACK ON THE SUN," ISLAND

Now that they have achieved worldwide notoriety by writing

the Natalie Imbruglia smash, "Torn," Ednaswap deliver the goods themselves in the form of "Back On The Sun," the debut single from their third full-length release, *Wonderland Park*. It's a brilliant, bittersweet, revealing track that explores the simultaneous and cyclical nature of love and pain. We think it's destined for plenty of airplay in several formats.

those afraid to Rock, look elsewhere.

LEAH ANDREONE, "SUNNY DAY," RCA

Fans of Leah Andreone's debut album,

Veiled, should be excited to hear "Sunny Day," the first track from her second RCA album, titled *Alchemy*. Showing growth in both her vocals and songwriting, Andreone rocks a little more on "Sunny Day" than on anything she's released previously. Guitarist John Lowery (DLR Band/Two/Marilyn Manson), a new addition to her songwriting camp, is a breath of fresh air and "Sunny Day" is a great track to have for the last few weeks of summer.

HOOTIE & THE BLOWFISH, "I WILL WAIT," ATLANTIC/AG

Massive wall-of-sound production, a hooky

anthemic chorus, accessible lyrics, and an instantly familiar sound can all be found right here, in less than four minutes (O.K., 4:07 if you play the album version). It's just the first radio track of many from the new Hootie & The Blowfish album, *Musical Chairs*, due in-stores 9/15. The band will tour to support the album into the new year, starting with a fifteen-city smaller-venue tour beginning the second week of

P.J. HARVEY, "A PERFECT DAY ELISE," ISLAND

"A Perfect Day Elise" is the first single from

P.J. Harvey's eagerly anticipated album *Is This Desire*. Produced by Harvey, along with Flood (U2, Smashing Pumpkins) and Head, the album is sure to be a huge priority for the Modern Rock masses, but this does not mean that Adult Radio should overlook it. "A Perfect Day Elise" is both melodic and mysteri-

COWBOY MOUTH, "WATCHA GONNA DO?," MCA

From the next Cowboy Mouth

album, *Mercyland*, "Whatcha Gonna Do?" is a straight-ahead, roll-down-the-windows and crank the radio up to eleven, Rock and Roll tune. Stations with a history of playing this exciting, phenomenally-gifted live combo will naturally gravitate toward the first single. If your programming is based squarely in the Rock arena (pun intended) than this track from Cowboy Mouth is for you. For

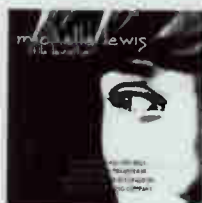

CHOCOLATE GENIUS, "HALF A MAN," V2

The Village Voice calls Marc Anthony

Thompson, the brainchild behind Chocolate Genius, "the missing link between Tom Waits and Tricky." We're inclined to agree. His forthcoming full-length, entitled *Black Music*, features the first single, "Half A Man," and boasts quite a list of guest musicians, including Medeski, Martin & Wood, producer Craig Street (k.d. lang), and Melvin Gibbs (Rollins Band).

ALBUMS

MICHELLE LEWIS, LITTLE LEVIATHAN, GIANT/WARNER BROS.

Michelle Lewis' debut album, entitled *Little Leviathan*, was produced by Steve Fisk (Joan Osborne,

Geraldine Fibbers), and exhibits her knack for writing great Pop tunes (she's written songs for Amy Grant and Eternal, to name a few).

Growing up in musical family (her father played sax for Tony Bennett and Frank Sinatra, and her mother was a session singer), it's no wonder Lewis has such a gift for melody. Check out "Nowhere And Everywhere," "Loaded," "January's Child," "Mr. Marigold," "Homesick," and "Storytellers."

BOB MOULD, THE LAST DOG AND PONY SHOW, GRANARY/RYKODISC

Set for release on August 25, Bob Mould's *The Last Dog And Pony Show* is the forth solo album from this

former member of both Hüsker Dü and Sugar. A striking collection of twelve new songs, the album more than certifies why Mould has been a major influence on so many of today's finest songwriters. It is also important to note that Mould's fall tour will be his last with a full electric band. At the end of the dates, he intends on playing acoustically and solo for the duration of his career. So Rock while you can to "Who Was Around?," "Vaporub," "Along The Way," "Classifieds," "First Drag...," "New #1," and "Taking..."

JAMES McMURTRY, WALK BETWEEN THE RAINDROPS, SUGAR HILL

Progressive Adult Radio favorite James McMurtry has returned with his second album on the Durham,

North Carolina-based label, Sugar Hill. Titled *Walk Between The Raindrops*, McMurtry's latest features eleven new tracks, as well as a cover of Townes Van Zandt's "Rex's Blues." One listen to this CD proves why James is such a great talent; his songwriting and vocals continually develop and more than half the tracks on the album are among the best he's ever written. Make time for "Every Little Bit..." the title track, the hysterical "Airline Agent," "Soda And Salt," "Fast As..." "Comfortable," and "Racing To The..."

PROGRESSIVE SOLUTIONS

A Problem Solving Forum for Progressive Programmers

Is It Time To Reinvent The Music Testing Wheel?

by Chris Porter

In the June 19 edition of *fmqb*, I wrote about the pros and cons of the various music testing methodologies. Due to space constraints, I was not able to present my view on what I consider the superior method.

Since June, the flow of ink on this subject has certainly not abated. Every trade publication has printed articles on the merits and demerits of Auditorium (AMT) testing vs. Personal (PMT) vs. Interactive Internet (IMT) methodologies. The question posed over and over is whether it's time to reinvent the music testing wheel.

Looking back at the pros and cons presented in my original column, it is clear to me that in all aspects but one, the traditional, paper-and-pencil auditorium music test is still superior to all other methodologies.

But having said that, it's also clear that there is a common thread in the PROS sections for the other methods, which is their ability to control exactly the filling of a study's various age, gender and station quota cells. This is the AMT's greatest weakness. Especially in those markets with historically low show-rates, an AMT sample can either fall short of the total number of respondents required, or the sample can fall short in a particular cell, or both.

Critics of AMTs point to other inherent faults, but outside of AMT's show rate problem, these other faults are groundless, as noted below:

Environment. The controlled environment inherent in the supervised auditorium is clearly superior to IMTs or PMTs. Critics label the auditorium as unnatural. Does that mean rating hooks by phone in an IMT is natural? Does wearing headphones validate PMTs?

Fatigue & Hook Order Bias. Are PMTs and IMTs better because respondents can stop and start at will? The issues related to AMT fatigue were solved many years ago with the advent of professional hook producers. Our own and others' statistical tests have shown that fatigue is not an issue at an AMT until the number of hooks per session approaches 500. The notion that hooks heard toward the end of an AMT session will test dif-

ferently than those heard earlier was also dispelled years ago. This issue has been re-visited recently, to ensure that this tape order bias is still a statistical non-issue. Our findings, and those of other companies that offer AMTs, have shown no change.

Geography. The Interactive (IMT) method allows for sampling to occur in all corners of the metro, which its proponents cite as an advantage. If so, the suggestion is that a client's P1 from Suburb A is psychographically different than a client's P1 from Suburb B. Over the years, we've done many AMTs which were split in half or in thirds to accommodate a market's geography, be it Dallas/Ft. Worth, Miami/Ft. Lauderdale, or San Francisco/South Bay/East Bay. Invariably, these experiments fail to turn up any statistically significant differences based on the single variable of geography.

Referrals / Friends / Professionals. It's hard to bump into friends at an IMT or PMT, but referrals are not allowed at an AMT any sooner than they would be in any other methodology. AMT respondents who know one another are typically a by-product of database recruitment. If a station were to recruit a roomful of partisans from its own database, there'd be some people who know one another in the room.

Professional test-takers are screened out of AMTs, just as in other methods. Since I can't speak for other research firms' policies, I'll speak for our own. Paragon's past-participation rule is just one-step removed from requiring research virgins. Respondents who've done more than one non-radio market research project in the past year are systematically excluded, along with those who've done anything radio-related. PMTs and IMTs may or may not insist on this same stringency.

Non-Qualified Respondents. It's rare to do an AMT anywhere and not have at least a couple of respondents who answered the screening questions differently on the night of the test compared to what they said originally with the field service. Sometimes, enough time has elapsed from the original recruitment that peoples' stations of choice have changed. Other times, someone slips through the cracks and was probably not qualified from day one. It is a natural by-product of the process, and it can happen in all music testing methodologies.

Spotting unqualified respondents in an AMT is probably easier and quicker than in any other methodology. After each paper and

pencil AMT, all score sheets are examined to search for non-qualified respondents. It is easy to spot those who do not come or prefer the key stations. Similarly, it is easy to see test scores that exhibit a high degree of unfamiliarity or dislike for the music. If there is someone in the sample who should not have been there, he or she is removed before data processing begins.

Show Rates. This is where the comparison of AMTs to all other methods suffers. Other methods, by design, are not complete until the last person needed is added to the sample. With any AMT, however many folks show up on the night of the test is what we have to work with. So how do we combat this inherent weakness? Fortunately, 95% of the time we don't have low show rates. But when we do, there are ways to combat the problem.

Simplistically, the best thing to do in these tough markets is to over-recruit by an even greater margin than usual. Eventually, there's enough of a track record established to know what sort of minimums to place on the next recruiting project. Sometimes, a more compelling incentive can have a noticeable impact on AMT show rates. Another solution is to conduct AMTs over several days. This could increase the number of qualified respondents who would be able to attend, since they're able to choose a date that suits them, rather than just the one date that suited us. A hybrid scenario involves the marriage of AMTs with personal music tests (PMT). For those qualified respondents who can't make the AMT on Wednesday night at 7:00, they're asked to come to the field service office at their convenience and take the music test in that fashion.

So despite all the trade press ink, rumors of the death of the AMT seem greatly exaggerated. I can't blame others for looking for a "unique selling proposition" to launch a new firm, but since I'm not, and since the AMT isn't broken, I'm sticking with the tried and true.

PROGRESSION

Kate Rusby is not just a singer-songwriter. She owns her own record label, Pure Records (distributed by Compass). She built a solid musical

reputation as a member of the all female Folk group, *The Poozies* and is the most sought after traditional Folk phenomenon in England. After listening to *Hourglass*, it's not hard to understand why. While Rusby does have original songs on this album they have such an "old world" sound to them it's very hard to tell the difference between the originals and the traditional songs. The real beauty and haunting melodies of the traditional songs are what Rusby interprets best. Our favorites include: "Jolly Ploughboys," and "Bold Riley." If you're looking for more contemporary tunes try "Stananyv" and "I Am Stretched On Your Grave."

Occasionally an album comes along that is beyond description, one that's so strange to the American ear it cannot be understood, an album

that is a richly woven tapestry of acoustic delights. This is NOT one of those albums. Drawing upon his experience as a musician, special education teacher, journalist, and wrestling manager Reverend Billy C. Wirtz has produced his sixth album for Hightone, *Unchained Maladies*. Wirtz's goal is to combine authentic Roots piano styles with more contemporary, and quite honestly, goofy themes. His success is easily recognized, especially on "Conspiracy Boogie." Rev. Billy follows in the footsteps of the great Frank Zappa's credo of "taking stupid music seriously." While the clever, and at times unbelievable, lyrics are very funny, the music isn't just good, it's great. From the

Bluesy-Jazz on "Everybody's Lips But Mine" to the Country feel on "A Man's Gotta Do (What A Woman's Gotta Do)" Wirtz' musical skill cannot be denied. Well, let's just face it, anybody that covers **Tom Lehrer** ("Masochism Tango," "Poisoning Pigeons in the Park") has to be terrific.

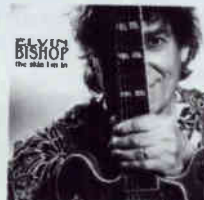

Long considered one of America's real Pop geniuses, **Marshall Crenshaw** puts his early demos on display, warts and all, on his new retrospective *The 9 Volt Years-Battery Powered Demos & Curios (1979-1982)* (Razor & Tie). At the request of his loyal fanbase, Crenshaw put this collection together, culling faves, B-sides and alternate takes, recorded on the most simple of 9-volt powered gear, hence the album's title. Not lost in the low-fi translation is the magic touch Crenshaw has with words, melodies and song structure. Included is his signature track, "Someday Someway," "You're My Favorite Waste Of Time," "Bad Luck," and "First Love."

There's practically no stone in American music unturned on **Mollie O'Brien's** new album, *Big Red Sun* (Sugar Hill). Tackling rustic Roots Rock, downhome Country and Gospel sounds, and the rumbling of traditional Blues and Folk, O'Brien has cooked up a dizzying amalgam of sounds and styles on *Big Red Sun*. Her choice of songs is impeccable, ranging from the Blues of **Memphis Minnie**, **Chuck Berry** and **Willie Dixon**, to her own arrangements of sacred traditionals, to the works of her contemporaries like **John Hiatt**, **Lucinda Williams** and

Randy Newman. Highlighting the set are "In My Girlish Days," "Little Baby" and "Love Like Blood."

For over 30 years, **Elvin Bishop** has done nearly everything that there is to do in music. He's been a part of a highly-influential outfit: **The Paul Butterfield Blues Band**; played alongside some of the legends of Rock and Blues: **Hendrix**, **Clapton** and **B.B. King**; and scored a big time Pop hit- 1977's "Fooled Around And Fell In Love." He's also won fans around the world with his own distinctive blend of Blues guitar work, and the laid-back drawl of his vocals. He delves head-first into his Blues roots on his new Alligator release, *The Skin I'm In*, emerging with his most vital work to date. From shuffles like "Right Now Is The Hour" to roadhouse romps like "I'm Gone," Bishop shows that his voice, guitar chops and writing skills are in top form, and could easily go another 30 years. We should only be so lucky.

One of the Blues' best-kept secrets, **Guitar Shorty**, may be a secret no more judging from the Rock-solid grooves of his new collection, *Roll Over, Baby* (Black Top). Touring and recording with the likes of **Ray Charles**, **Sam Cooke**, **B.B. King**, and **Guitar Slim** over the years, Shorty has certainly picked up a trick or two in his travels, and damn-near rolls out every single one of them on his new LP. Fusing thick R&B grooves, fiery Blues guitar work and his passionate voice, Shorty waxes eloquent about women who have both done him, and done him wrong, speaking glowingly about both. Highlights include "I

Want To Report A Crime," his splendid take on "Hey Joe" and the roaring title cut.

A long time member of the esteemed Bay Area blues circuit, **Joe Louis Walker's** expert guitar touch has made him one of that scene's most prized commodities. On his forthcoming album, *Preacher And The President* (Verve - due August 25), he shows that not only is his guitar playing white-hot, his songwriting ability is equally superb. Walker took a trip to the storied Muscle Shoals Sound to track *Preacher*, enlisting the services of **Steve Cropper** to co-produce, and the Muscle Shoals Rhythm Section to back him. The results are nothing short of amazing, as the album's ten tracks (nine of which Walker penned), crackle with life and howl the way great Blues is supposed to. Standouts include the sultry fretwork of "Yveline," "Y&T" and the title track.

The **Lonesome River Band's** new album, *Finding The Way* (Sugar Hill), is yet more sonic proof of their masterful Bluegrass touch. Recorded as a tornado raged through the Nashville neighborhood where they were working, the band weave a downhome blend of pickin' and singin'. Already one of the most renowned names in the Bluegrass arena, their stock is sure to rise with *Finding The Way*. Our faves include "Am I A Fool," "Let It Go," "Baby Come Home," and "Sweet Sally Brown."

Rykodisc, along with Ryko Distribution Partners and Rykomusic (the company's publishing arm), has merged with Palm Pictures, an entertainment venture started

by Island Records founder **Chris Blackwell** earlier this year. Terms of the deal were not disclosed. "I am very excited about this opportunity to re-enter the record business with such a quality independent company," Blackwell commented. "I truly believe that an independent such as Ryko can offer a viable alternative to the majors for any artist." Blackwell left Island Records and Island Pictures last year. He sold both companies to PolyGram NV in 1989 and 1994, respectively. Palm Pictures falls under Blackwell's Islandlife umbrella, which also includes several hotels and resorts. Ryko will continue to be operated by co-founders **Don Rose** and **Arthur Mann**. Staff is expected to be added in Palm's offices in New York, Los Angeles, Miami, and London.

Pearl Jam has added a September 19 show at Washington, D.C.'s Constitution Hall to raise funds and awareness for the pro-choice organization, **Voters For Choice**. The organization, founded by **Gloria Steinem** in 1979, is a political action committee that provides pro-choice candidates with funding as well as training and endorsements. Pearl Jam and Steinem have teamed up previously for two 1995 D.C. benefit shows, which marked the 22nd anniversary of *Roe v. Wade*. Steinem also popped up on the band's *Monkeywrench Radio* show earlier this year

to discuss pro-choice issue over the airwaves.

The nominees have been announced for the 1998 International Bluegrass Music Awards, set to take place on October 22 in Louisville. Acts receiving multiple nominations include the **Lonesome River Band**, **Rick Skaggs & Kentucky Thunder**, **The Del McCoury Band**, **IIIrd Tyme Out**, and **Blue Highway**. Skaggs and his band managed to rack up 11 nominations, thanks to their latest effort, *Bluegrass Rules!* (Rounder). The members of the Lonesome River Band also managed to rack up a host of individual nominations, including Male Vocalist (**Ronnie Bowman**), Banjo Player and Instrumental Album (**Sammy Shelor**), Gospel Recorded Event (**Don Rigsby**), and Guitar Player (**Kenny Smith**). The Del McCoury Band also nabbed an impressive nine nominations.

Save those pennies, Beatles' fans, because a couple of items are going to be up for grabs over the next couple of months that you're sure to covet. Sotheby's will be auctioning off a spiral-bound notebook containing first-draft lyrics for "Hey Jude" and "Sergeant Pepper's Lonely Hearts Club Band," along with doodles by **John Lennon**, at a Rock memorabilia sale at London's Hard Rock

Cafe September 15. The notebook, dating from an 18-month period between 1966-1968 and filled with scribbles, is expected to go for anywhere between 90,000 and 120,000 pounds (\$147,000 and \$196,000 for those scoring at home). Also available soon will be the actual copy of *Double Fantasy* that **John Lennon** autographed for **Mark David Chapman** just hours before Chapman gunned him down. The album will be officially made available soon by New York-based memorabilia company Moments In Time. Anyone interested in placing a bid or receiving more info can call Moments In Time President **Gary Zimet** at (914) 496-1991.

Fans who caught **Phish** at Wisconsin's Alpine Valley Music Theater two Saturdays back (8/1), were treated to more of a surprise than they're used to from "Vermont's Finest." The band sandwiched two sets of faves - including "Mike's Song," "Esther" and "Tweezer" - with covers of **Led Zeppelin's** "Ramble On" (the set opener), and **Jane's Addiction's** "Been Caught Stealing" (the encore). The band wrap up their summer tour this weekend with the two-day Lemonwheel event (15 and 16) in Limestone, Me. The band has also announced a fall tour that kicks-off October 29 in Los Angeles, and includes a two-night

Halloween stand in Las Vegas, and a three-nighter in Chicago, November 7-9. We know of three people that went to all the summer shows. Indiana's Hanover College gave a \$6000 grant to three students to follow the band's summer tour. The three won't actually get credits for the Dead-like trek, but each student will study and present findings on particular aspects of their adventure. **Rebecca Smith** will compare Phish groupies with people living in communes, **Alea Gold** will report on the mysticism present at Phish concerts, and **Christi Scoccola** will explore the band's cult-like undertones. The three put together a formal grant proposal (the process took four months) that landed them the grant after Gold wondered how the three could meet the band. Only in America.

Progressive Picks are written by **Kevin Boyce** and **Sybil McGuire**. **Progressions** and **Transmissions** are written by **Sybil McGuire**, **Theresa Meire**, **Pat Berkery**, and **Kevin Boyce**. **Pro-Formers** are written by **Kevin Boyce**. All sections are edited by **Sybil McGuire** and **Kevin Boyce**.

IS HE OLD ENOUGH TO BE IN THIS CLUB?

Sorry, Josh. We couldn't resist. After a gig at CBGB's Gallery, Rykodisc's **Josh Rouse** mugs for the camera with (L) WFUV's **Rita Houston** and (R) WNEW's **Andrea Karr**.

THESE LIPS ARE JUDY'S

Sorry, really awful pun on **Olu Dara's** "Your Lips," to go with a nice picture of **Dara** and **WDET's Judy Adams**.

THE METAL MONSTERS

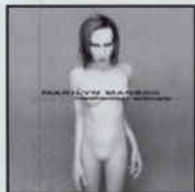

KoRn
FOLLOW THE LEADER, IMMORTAL/EPIC

Their 1994 debut set the Metal world on it's ear and redefined the genre. Their sophomore album, *Life Is Peachy*, established them as more than a one-album wonder. So how does KoRn follow all the hype? With their third album, *Follow The Leader*, they've taken a right turn and changed their sound, jettisoning producer Ross Robinson in favor of Steve Thompson and Toby Wright

(ALICE IN CHAINS). The first two singles ("All In The Family" and "Got The Life"), had a slick, Hip-Hop vibe, but they're not really representative of the rest of the album. We'd classify the band's sound as Hardcore-Hop, as it takes their signature low and heavy sound and infuses Hip-Hop into it. The best example of this sound would be "Children Of The Korn," featuring Ice Cube and "All In The Family," which you've already heard. There's songs on here that will catapult the band up to the top of the Pure Spins chart and keep them there for at least the rest of the year. Plus, the upcoming *Family Values* tour won't hurt their profile any, either. Are you ready?! We are, and songs you should go to first include "It's On," "Children Of The Korn," "Justin," "My Gift To You" (slow and grindy, the most un-KoRn-like song on the album), and the hidden bonus track, a cover of Cheech And Chong's "Earache My Eye" featuring vocals from Cheech himself!

MARILYN MANSON
"THE DOPE SHOW," NOTHING/INTERSCOPE

Judging from MARILYN MANSON's recent output, the band have changed '70s idols, switching from Alice Cooper to David Bowie. First, Mr. Manson proclaimed he would never wear black again, and has been seen sporting pastels lately. Then, the band covered Bowie's "Golden Years" for the *Dead Man On Campus* soundtrack. Now, to complete their transition from black pythons to

feather boas, the band gives us "The Dope Show." The first single from record number three finds them reaching into the '70s Glam grab bag and have concocted a song that wouldn't have sounded out of place coming from Bowie's Ziggy Stardust period (Twiggy Stardust, if you will!). While the rest of their forthcoming album, *Mechanical Animals*, will probably have a completely different sound, if there's one thing Manson have taught us with their first two albums, it's to expect the unexpected. The new album will be out on September 15, but meanwhile, don't be a dope, let your listeners feast on this!

16 VOLT SUPERCOOLNOTHING, SLIPDISC/MERCURY

While L.A.'s 16 VOLT may be newcomers to the Metal side of things, *Supercoolnothing* is actually their fourth release, following three records on indie Reconstruction. Slipdisc have served as musical ambassadors of sorts, bringing Industrial/Metal acts like 16 Volt and THE CLAY PEOPLE to their largest audiences yet. In the end though, it's less about underground press and

indie reputation and more about music, which is where 16 Volt delivers. Heavy but melodic, the band sounds like equal parts nine inch nails, MINISTRY and FILTER, with heavy guitar tones cutting through the Industrial soundscapes the band lays down. At times they even sound like an electronic version of KoRn. Slipdisc have a great

long-term track record with Industrial/Metal crossover acts on our chart (**RORSCHACH TEST** and **N17** come to mind), so look for this one to have some staying power. Go for "I Fail Truth," "Keep Sleeping," "Everyday Everything" and "Machine Kit."

PITBULL DAYCARE SIX SIX SEX, M.I.A. RECORDS

Remember **RIOT**? **PITBULL DAYCARE**'s **Donnie Van Stavern** does, he was in the '80s band until they broke up in 1993. So what to expect from his new band? A rehash of Riot's former glory? Not even close!! Van Stavern moved from New York back to Texas after Riot broke up and hooked up with **T.C. Connally** to form the nucleus of the Pitbull Daycare, and quickly jetti-

soned the traditional Metal sound in favor of dirty, sleazy guitar-laced Electronica, just like you would expect from a band whose album title suggests Satan and screwing. Their bio suggests the band's sound as "cyberpunk," and **Billy Idol** references aside, is a good summation of their sound. Check out "Held Down," "Voices... In My Head," "Salvation For Sale" and "My Own Man."

STUFF YOU SHOULD KNOW...

* **VOIVOD** suffered a van accident last week while touring Europe. On August 4, near Mannheim, Germany, the back tire of their van blew out, causing the van to roll six times into a field. **Eric** was thrown out of the van, breaking bones in his lower spine, and receiving internal injuries and some broken ribs. He underwent surgery and has had some metal plates attached to his spine. The rest of the band received minor injuries. Find out more via the band's Web site, <http://www.shmooze.net/voivod>.

* There's a few cool horror flicks coming out with equally cool soundtracks that we thought we'd let you know about. First of all, **Dee Snider's Strangeland** will be hitting movie screens in early October, and will be preceded by the soundtrack for the flick on TVT Soundtrax. The movie is about Captain Howdy, a schizophrenic madman who lures his victims through the Internet. The soundtrack will be spearheaded by the first all-new Twisted Sister track in over 12 years, "Heroes Are Hard To Find." The TS similarities don't end there, though. A pair of TS covers originally on *Stay Hungry* pop up on the soundtrack, with **CRISIS** covering "Captain Howdy" and **dayinthelife** doing justice to "Street Justice." Also, **SEVENDUST** production team and TS members **Jay Jay French** and **Mark Mendoza** are represented in the form of Sevendust's "Breathe," a previously-unreleased song that some of you may remember from the "School's Out" single. Other previously unreleased tunes include **SNOT**'s "Absent," and **COAL CHAMBER**'s "Not Living." Other artists on the album include **MARILYN MANSON**, **MEGADETH**, **ANTHRAX**, **NASHVILLE PUSSY**, **SOULFLY**, **hed (pe)**, and **KID ROCK**. Hitting your desk in late September will be the CMC International soundtrack to *Child's Play 4 - The Bride Of Chucky*. The soundtrack will feature music from **WHITE ZOMBIE**, **MONSTER MAGNET**, **STABBING WESTWARD**, **TYPE O NEGATIVE**, **BRUCE DICKINSON**, **JUDAS PRIEST**, **ROB ZOMBIE**, **STATIC X**, **ULTRASPANK** and others.

* Another excellent release in the CMC pipeline is *ECW's Extreme Music*, the label's first compilation. Wrestling fans and Metal fans alike will cream their shorts over this one! The album features covers of ECW wrestlers' theme songs by well-known bands, and we've got a partial track listing for 'ya: **MOTORHEAD** covering "Enter Sandman," **KILGORE** taking on "Walk," **TRES DIABLOS** (which is **PANTERA** minus **Phil Anselmo**) doing "Heard It On the X," **ANTHRAX**'s interpretation of "Phantom Lord," **GRINSPHOON**'s take of "Snap Your Fingers, Snap Your Neck," **Bruce Dickinson** covering "The Zoo," **MONSTER MAGNET** doing "Kick Out The Jams," and **MUSCADINE** doing "Big Balls."

* In next month's issue of *GQ*, amid the Calvin Klein ads and fall fashion tips will be none other than **MONSTER MAGNET**!! The pride of Red Bank, New Jersey was deemed to represent Metal in an article on the genre. Space Lord, fashion model?

* From our *TWO Take II Dept.*: *MTV* reports that **Rob Halford** is writing and recording a new album. The good news is that according to his Web site, the new album will have a "stronger vocal and guitar sound." His new project will include neither **Dave Ogilvie**, who produced the last album, or **John Lowery**, who played guitar on the record and has since played with **David Lee Roth** and been rumored to be joining **MARILYN MANSON**. Look for the new Two in spring of next year.

STUFF YOU SHOULD KNOW *continued...*

* From our *Strange Bedfellows* dept.: **BLACK SABBATH's Tony Iommi** is planning a solo album, and he has no lack of guests who want to contribute. "I'm going to do a couple of tracks with **Billy Corgan**, and the **FOO FIGHTERS** guy wants to do a track," Iommi told the BBC. Other names being thrown around include **Ice T**, **Phil Anselmo** and **Henry Rollins**. Iommi hopes to have the solo project out by next year.

* Speaking of **Black Sabbath**, **McFarlane Toys**, who created all the *Spawn* action figures as well as the **KISS** ones, will be unveiling a line of **Black Sabbath** figures later this year. Can't wait to see what they look like, especially the **Bill Ward** one!!

* Don't hold your breath waiting for an **IRON MAIDEN** reunion just yet, but **Bruce Dickinson** had this to say to *muzic.com*: "I really think the whole deal with all of this boils down to me and **Steve**... We sit and talk about this in the pub. People always ask, and I say 'Look, you want me to get up there tomorrow and sing a Maiden set? Hang on, let me go find my boots.' I could walk on stage with them and we could do a concert tomorrow night, and it would be absolutely fucking mega! As for records, I'm not really sure how that would happen, because let's just say the way I make records now is very, very different to the way I made them in the past. I'm not sure how we would close the gap between the way I work and the way Steve works now. I'm per-

fectly happy with what I'm doing at the moment musically. I made a great record, and really that's where my life is right now. This record is my future."

* **KISS** will be heading to cyberspace to launch their own Internet Service Provider. Soon you'll be able to attach "@kiss.net" to your user name.

* Usually dialogue in pornos has us reaching for the fast forward button, but look for a hilarious cameo in *Backstage Sluts 2* featuring **Fred** and **Wes** from **LIMP BIZKIT**.

* **ANTHRAX** have released a Japanese EP featuring singles from *Volume 8 - The Threat Is Real* as well as a remix and the aforementioned cover of **Metallica's** "Phantom Lord," **RADIOHEAD's** "The Bends" and **D.R.I.'s** "Snap -I'd Rather Be Sleeping."

* **HOLLOW** (New York) are holed up in the studio recording a three-song EP.

* **MACHINE HEAD's** new album will be produced by **Ross Robinson** (**KoRn/LIMP BIZKIT/Vanilla Ice**). The band's got eight new songs, titles of which include "Devil With The King's Card," "Nothing Left," "Exhale The Vile" and "I Defy." If you're in San Francisco on September 11, you can catch them at the Maritime Hall.

* If you're going to be in the New York area in a few weeks, make plans to attend the **First Annual Alive And Well Festival**, a two-day Hardcore extravaganza

on August 29 and 30. Taking place in Asbury Park at the Convention Hall and the Stone Pony, the event will feature bands including **MISFITS**, **SICK OF IT ALL**, **H2O**, **7 SECONDS**, **MURPHY'S LAW**, **MADBALL**, **ORANGE 9MM**, **EARTH CRISIS**, **FURY OF FIVE**, **BETTER THAN 1000**, **DROPKICK MURPHYS**, **FAHRENHEIT 451**, **SKARHEAD**, **INDECISION**, **BURN**, **FLOORPUNCH**, **BATTERY**, **OS101**, **VISION**, **MAXIMUM PENALTY**, and more. Want more info? E-mail awfestival@aol.com.

* Kan't get enough of **KoRn**? Check out these Web sites: <http://www.infectious.com/korn/> is their official Web site. If you visit <http://www.korntv.com>, you can find the band's *After School Specials*, and if you're reading this before 7:30 EST, you can tune in today (14) to see them play live. WKLC, CHARLESTON, WV

PD-MIKE RAPPAPORT:

So, it's the dog days of summer, time for me to say a belated "thanks" to those who helped make it rock! **Tim Hurst**: thanks for everything with **Kenny Wayne Shepherd**. **Kenny & the boys** rocked Summersville Lake (and about six thousand people). Most excellent! Also, thanks to **Lou Rizzo**. Sitting front row for **Jimmy Page & Robert Plant** ruled!! And, a big thanks to **Craig Diabale** for all the **Rod Stewart** tix. Sorry I missed catching up with you in Columbus! **Phin** and the entire **McGathy** clan, it was great seeing all of you! I'm still offering beaucoup bucks for that **David Wells** ticket stub! I MUST make an October pilgrimage to the stadium. And finally, a HUGE thanks to the WKLC on-air staff! We're up P 12+ to a 10.9 (a 2-share gain) and tied for the top P 18-49 (with a 17). WE RULE!!! Thanks to **Rob Kimball, Steve Animal, Dave Murdock and Gregg Smith**, we're rockin' the Mountain State! "It is high...it is far...it is GONE!!!" GO YANKEES!!

WKZQ, MYRTLE BEACH, SC

MD-SUMMER:

Wow! We had an awesome triple bill last week at The House Of Blues. **Third Eye Blind** (**John McFadden** of Elektra), **Our Lady Peace** (**Brian Cullinan** of Columbia...we have some serious OLP fans here), **Eve 6** (**Angela Borchetta/RCA**), and the next night **Megadeth**; **Dave M.** came in for an interview. Now our midday guy's in love — or a **Megadethette** or whatever they call their longtime worshippers. **Drain S.T.H.** also came by, thanks **Bebop**. Those girls rock musically, and everything — very cool to hang out with. None of my guys have come down yet. (Maybe **Viagra** would have been a good name for this group, as well.) Check them out and play them, we have been for a year on my show "Women Rule/Chix Rock," and if those shows weren't enough, the master of theatrics, **Alice Cooper**, took the stage the next night and left the crowd on their "Evil Clown Knees." (You'll have to see the show to comprehend.) OK. OK. OK. My creativity is floundering. It's the humidity. In some cases after extended Xposure brain "plebotical?" separation occurs, but then the ocean is sooo beautiful

that you forget just how "blond" you are, gather your last thoughts, and get back to "Queen Voice" music business like **Women Rule Hotties**; this week **Anouk, Joydrop** (again) and **Garbage**. And, looking forward to this week's shows: **Gravity Kills, Pitchshifter, Cold, and The Violent Femmes**. I will be going back on the VH/KWS "bus" again. It's just great guitar Rock and more, if you will, & I need it sometimes. Catch the show if you can. I don't recommend every show because, well, I'm not nice, but I do this one. Thanks for watching.

KRZZ, WICHITA

PD-LESTER ST. JAMES:

CHIEFS! CHIEFS! CHIEFS! I know it's only pre-season, but the Chiefs' first unit has looked pretty good in the 2 games they've played, so far. And, Saturday night's finale with Tampa Bay fumbling an interception into the end zone only to have the Chiefs fall on it, was incredible. Even the official looked dumbfounded making the touchdown signal!! This will be a crazy week for me, doing the board op and local cut-ins for **Bob & Tom** show, plus my regular shift, **KRZZ night @ NBC World Series** on Wednesday night. **Mark** and I get back into the **KRZZ Cadillac Cruiser Car** on Thursday night, also that night we have **KRZZ Rockfest '98** with **BOC, April Wine and Nazareth**, and a 10-midnite bar remote! Throw in a jock on vacation, another taking Friday off, and **Debbi** currently on the sidelines with a neck problem, and we're starting to feel the pain of consolidation!!...Other thoughts, observations & recollections: Just wondering??? Have any other women saved clothing that had a love stain on it?? If so, please call and share the story! I doubt any guys have such an item!! Here's a fun one: only 18 more reporting Mondays left in 1998!! Are you ready for the holidays?? I know that wrestling is staged, but come on, **Jay Leno** putting **Hulk Hogan** in an arm bar twist? How much bad acting and script writing can **WCW & WWF** come up with???...**Ed**, thanks for lunch, give **Pratt** a wet one for us!! **CONCLAVE 23** is July 22-25, 1999. **PLAN NOW!**...Peace, love and 3 days off next weekend!!

PD/MD-PAUL D. ERICSON:

What a great summer for Rock Radio! Killer new product, history-making concerts throughout the midwest, and great radio conventions. Great new tuneage spending time in our CD player include: **Local H, Bruce Dickinson, The Call, Cracker**, and of course, **Second Coming**. I have spent quality time with new full length CDs from **Candlebox** and **Dishwalla** and, without a doubt, these acts deserve quality time in any Rock programmers' player. Based on the first track I have heard from the upcoming **Cracker** release, my CD player and ears are eagerly awaiting the complete release. And finally, I am really eager to hear the **Brian May** release that is coming soon. **Brian** is truly one of the great guitarists of our format and we are jacked for the new CD.

WSOU, SOUTH ORANGE, NJ

PD-JENNIFER KAJZER/MD-ANTHONY DELIA:

Pitchshifter stopped by this week for an interview. **Soulfly** stormed the Metropolitan area this week with two impeccable performances in N.Y. and N.J. You can't appreciate the **Soulfly** record until you see them live, it really brings them to life. Guest appearances by **Joey Z.**,

from LOA, on guitar. We especially loved the drum solo which included Brandon from Incubus, Lyn and Mikey from Snot, and a few others. It was so Soulfly and Max, you had to have been there to witness this unique display of percussion. Their tour sent their phones through the roof. Incubus continues to get bigger and bigger and still impresses with a solid live show. We've helped them graduate from Coney Island High to The Roseland Ballroom, and we must say they have not lost a step on the way. It feels great to be a component of their success. Commercial programmers should get with it and pick these guys up

before it's too late. It was nice to see over 300 people at the System Of A Down show in N.J., and EVERYONE knew the words. Darin, from System, coined the phrase at the show on stage when he said, "We welcome the children of 'SOU.'" Now that puts a smile on your face. This week's reception of the new KoRn CD resulted in them going to #1, stealing the spot from Fear Factory and System Of A Down, who have been fighting for the spot every week. If the new records we have received in 1998 are an indication of the direction of Heavy music...Sugar!

HYBRID (212-868-6367):

promoboy@aol.com Greetings from high above Madison Square Garden. On your desk now is a copy of the first single from Martin's Dam called "Fear Of Flying," going for adds now. This is a great Philly band, fronted by brothers Brian and Scott Bricklin, who have been gigging in the area for years and are now primed for your listeners. Their album, *Sky Above*, was produced by Kevin Killen and mastered by Bob Ludwig, and features a guest performance from Francis Dunnery. For those of you coming to Boulder, check out the song at Scott Bricklin's late night showcase. Also in your sweaty hands is the new Guster single, "Demons," going for adds next week. The follow-up to "Airport Song" is sure to be a smash with your audience. Check out Guster on their headlining tour this fall. Early dates announced: Boulder (9/9), Ft. Collins (9/10), Providence (9/23), and Burlington (9/24). Also catch them on the west coast H.O.R.D.E. dates beginning August 28. Early next year, you'll be getting the debut Hybrid release from Mike Errico. Some of you may have already seen this guy live and will attest to the fact that he has the goods. Keep your ears ready. Lastly, Sherri Jackson goes back into the studio this fall for a new album, due next summer. That's all from here. See you in Colorado. I'll be in the Marriott, come track me down.

HILAIRE BROSIO

ELEKTRA (310-288-3842):

Third Eye Blind has delivered what looks to be their biggest single of the year with "Jumper." Early supporters at Rock include DC101, WRUF, and WHEB. Meanwhile "Jumper" is exploding at Modern Rock, moving to #12 at Virtually Alternative. Alongside yet another sold-out tour, which is currently in progress, and sales of over 2 million copies of their debut release, I'd say that this is about as close to a sure thing as you're going to find, so wake up and cue it up! "Touched," by VAST had a huge week with WXTB, KCAL, WKLQ, KILO, and KNJY joining KRXQ, KLOS, WZTA, WAAF, KDKB, and WRCX in support of what is one of the most unique tracks of the year to hit Rock Radio this year. Vast is currently touring the country with a state-of-the-art audio-visual system that is certain to blow your gray matter, so be on the lookout. I have seen the future and it is VAST. Feeder's "High" is a Top 5 requester at KLBj, WMMS, KRAD and KEYJ. Metallica will be returning to the road late this month and "Better Than You" is better than the rest. Speaking of 'Better,' how about that Better Than Ezra track, "One More Murder." Big gains at Rock this week with WCKW, WRCQ, WZMT, WZXL, and KTUX coming to the party. Their forthcoming release, *How Does Your Garden Grow?*, hits stores on August 25. 'Nuff said.

joey_scoleri@studio.disney.com **Fastball** "Fire Escape" is blowing up at Rock and Active. Debuting this week at #36 *R&R Rock* and #43 *R&R Active*. After just 4 weeks, "Fire Escape" is #8 at KRXQ, #10 at WMMR, #11 at WJRR, #11 at KLBj, and #13 at KTXQ, all major markets reaping big success! New this week are KISS, WROQ, WTPT, WBZX, WRXL, KKEG, WTKX, and KRZR. This is a smash song Rock Radio can run with!...**Sprung Money** "Get 'Em Outta Here" adds WXRK/New York, a primary 18-34-year-old male station. Rock stations playing "Get 'Em Outta Here" include: KBPI/Denver, KRXQ/Sacramento, KIOZ/San Diego, WZTA/Miami, and KRAB/Bakersfield is at 38 spins #6. It's a hit, don't miss it!...**Brian May's** "Business" is on your desk this week. This is a complete kick-ass Rock exclusive. WRCX, WRIF, and WCMF are already in for August 24. Make it your "Business" to add **Brian May** and spin this record that will satisfy your male listeners!

JOANNE GRAND

WINDUP ENTERTAINMENT (212-251-966) EXT. 236:

WOWEEEEEE!!! Twenty-seven new adds in finger eleven's second week, including: WRIF, WLZR, KRZR, WJRR, WXTM, WCCC, WSTZ, KQRC and a host of others, putting it as a #5 Most Added in Active Rock, and #2 Most Added at Rock!!! Second week — how grateful are we here?? Lots!!!! Anyway, please spend time with "Quicksand," it's obviously worth it. Touring with **Creed** who, incidentally, have reached one of their biggest sales weeks — it's scanned over 50,000 units this week, thanks to radio's support. As always, call us if you need anything. Have a great week!!!

MIKE LYONS

LEE ARNOLD MARKETING (414-351-9088):

I'm not sick, but I'm well. Been having **Buffalo Springfield** attacks while listening to the new **Cracker** album *Gentleman's Blues*. The first track is "The Good Life." Going for adds today. Love **David Lowery**. CD hits stores August 25. Also going for PAR adds today is "Back On The Sun," from **Ednaswap**, our "Who's-That-Play-It-Again" record of the week here. Look for another smart female POV from **Susan Werner** whose new album is on your desk now. Start with "Like Bonsai." Going for adds on August 24. That talked-about solo record from **The BoDeans' Sammy Illanas** is with his band **Absinthe**. The title track of *A Good Day To Die* will go for adds on August 31 now. No, **The Deans** are still together. Listen to this record and you'll know instantly why **Sammy** had to put it out. Finally, our **Moment Of Zen: Women** now earn more educational degrees than men, more women vote than men, women outnumber and live longer than men in this country, women make 75% of all consumer decisions, and in less than

15 years white males will be a minority in the U.S.A. for the first time since the eighteenth century. Evolution. See ya in Boulder.

SMITTY

NG RECORDS (212-505-5414):

Why do we put suits in a garment bag and garments in a suitcase? As I pack up to go to the Gavin A3 Summit in Boulder, I want to take the time to thank everyone who has been such big supporters of the Ng cause. We're building a label here, and sometimes it takes time and some early believers to step out and take a chance on some new music from a smaller organization. But, we nurture our bands and continue to develop what we release. **The Phoids** have done very well on PAR with limited support, still hanging tough with no drops some 13 weeks after its initial add date. The 25+ stations who added us have had success and, with a September 14 add date at Alternative and a string of dates to follow, we're looking up. **Les Stitches** is back in N.Y. working on some music for [the] next Spike Lee movie, and **Orange 9MM** is working on music for the **Beowolf** movie, too, so everyone is busy nowadays. Enjoy your Labor Day...C'ya!!!

Modern Picks

Cracker, "The Good Life," (Virgin)

This first single from *Gentleman's Blues* (Cracker's first LP since the excellent *Golden Age* set of '96), is everything you've come to know and love from David Lowery and company - dreamy, surf-tinged guitars, raspy vocals, intelligent songwriting -and then some. "The Good Life" is as cool and breezy as an April afternoon, and deserves a slot in your library, right next to "Low" and "Teen Angst." Expect big things from this record, many observers feel that it will launch Cracker right back into Modern Rock limelight.

Hootie & The Blowfish, "I Will Wait," (Atlantic/AG)

Having survived the hype of their mega-successful *Cracked Rear View* debut unscathed, Hootie & The Blowfish's second album, *Fairweather Johnson*, showed the South Carolina quartet lacked no shortage of more great songs that found a home at a variety of radio formats. The first single from their third album, *Musical Chairs*, "I Will Wait," sounds like another surefire radio smash that should be spinning everywhere shortly. The band's lazy jangle resonates smoothly from start to finish, and a distinct heartland vibe comes across loud and clear. You know this is going to be one of the biggest records to finish the year with, so don't let your neighbor beat you to the punch on this one.

Semisonic, "Singing In My Sleep," (MCA)

After the enormous success of "Closing Time," Minneapolis' Semisonic release what should be the song of their career. "Singing In My Sleep" is one of the numerous highlights on their certified gold album, *Feeling Strangely Fine*, and it doesn't take a fortune teller (or ears of gold) to hear that it's another multi-format smash. Our suggestion? Get this on-the-air today. Already on at KNDD, WLIR, WHFS, WBTZ, Live 105, KNRK, KROQ, Q101, and WXSJ.

P J Harvey, "A Perfect Day Elise," (Island)

Polly Jean Harvey's fifth album, *Is This Desire?*, will hit the streets on September 29. Word around the Modern Rock campfire has been exceptional, and many programming types are very anxious to put this track on the air. PJ Harvey's place in the format's elite should be filled quite nicely if all of you show the love that you showed **Tori Amos**' "Spark." PJ is certainly an artist that deserves the same amount of widespread airplay. "A Perfect Day Elise" is not only an exquisitely beautiful track, it's a track that displays quite a bit of tempo and edge. Embrace this song immediately. Produced by Polly Jean Harvey, **Flood** and **Head**.

Phantom Planet, "So I Fall Again," (Geffen)

Phantom Planet makes their recording debut with *Phantom Planet Is Missing*, an album that has been described as the sonic equivalent of a punch to the chest and a kiss on the cheek. We guarantee that you be knocked out by this tune. It's irresistibly clever and brilliantly melodic. There is no excuse to not play this track. No room? Make room. That's how strongly we believe in this band. This highly engaging debut album from the five-piece, L.A.-based band displays a unique freshness blessed with youthful vigor. With the right radio support, they could be unstoppable.

The Urge, "Closer," (Immortal/Epic)

St. Louis Ska masters, The Urge, after experiencing phenomenal success with "Jump Right In," take it to the next level with what we would say is the best Rock/Ska hybridization yet. On the turn of a dime, The Urge goes from a free-and-easy verse, to a heavy chorus that will make the hairs on the back on your neck stand-up. The Urge, put simply, rocks. They are the real deal and should garner even more airplay and praise in the coming weeks. See for yourself. New at **KNRX** and **WEDG**.

Getaway Cruiser, "I'm Fine (I Find)," (Sony/550 Music)

The songs on *Getaway Cruiser* reflect their wide-ranging musical tastes and their ear for well-crafted Pop, fusing breakbeats and propulsive live drumming, with aggressive guitars, accordion, other assorted musical elements and the expressive vocals of singer **Dina Harrison**. But *Getaway Cruiser* is careful not to let its diverse elements overwhelm the needs of the material. "We will never lose focus on the song," pledges guitarist **Drew Peters**. Fellow guitarist and brother **Chris Peters** chimes in, "All the instrumentation is in service of a good melody." One need look no further for proof of these claims when listening to this dazzling debut single.

Motorbaby, "Keep On," (Mercury)

Formed by **Sharon Middendorf** (vocals/guitar) in New York's Lower East Side in '94, with bassist **Ron Mancuso** and drummer **Lez Warner**, the trio plays a heavy mix of grinding laconic Pop, spiked with a dreamy ambient churn and dark underwater grooves. "Keep On" is both inviting and haunted, balanced-out perfectly with Middendorf's star-quality vocals. Do not let this one get by you. It stands a strong chance of being successful on a variety of Modern stations.

Steve Poltz, "Good Morning (Waking Up With You)," (Mercury)

The second single from singer-songwriter Steve Poltz's debut album, *One Left Shoe*, is another engaging look into this singer-songwriter's astounding talents. If your station had success with his first single, "Silver Lining," or Jewel's "You Were Meant For Me" (which Poltz co-wrote), then you should have no problem working this track into your current playlist. Poltz is now out on the road with **Lisa Loeb** and **Rufus Wainwright**.

Propellerheads, "Velvet Pants," (DreamWorks)

The electronic duo from Bath, England serve up another healthy dose of powerful and intriguing Electronica from their acclaimed album, *SEXANDRUMSANDROCKANDROLL*. This track is just plain exciting. It moves through you like a freight train and demands your attention. If you've had even a hint of success with this sound in the past, consider this track very closely.

Royal Crown Revue, "Zip Gun Bop (Reloaded)," (Warner Bros.)

Get ready for *The Contender*, the newest release from one of Swing's finest acts. This song will undoubtedly be huge. Even if you only reserve a minimal amount of slots in your playlist for Swing tracks, "Zip Gun Bop" is a track that warrants your undivided attention. It's extremely danceable, witty, smooth and full of style. Expect a tidal wave of requests and strong sales if you play this track.

LinEr notes

Goodwill money was reportedly exchanged between Courtney Love and the Indie band, **Celebrity Skin**, over the use of the name of Hole's new album, *Celebrity Skin*. According to the band, they're plotting to exact even more revenge on Love, after being told that Hole was using the band name for their own album. Triple-X Records are re-releasing the band's 1991 opus, *Good Clean Fun*, and the band members have decided to rechristen it *Hole*. A source close to the band told us "It's a joke until somebody gets mad."

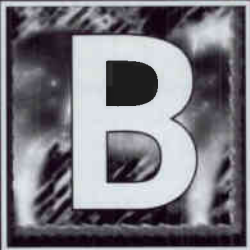

In other Hole news, the band included a dedication to the the Czech Republic in the liner notes to their new CD. Courtney Love feels she owes Czech president **Vaclav Havel** a huge debt. He was the one who raved about her to his friend **Milos Forman**, who directed *The People Vs Larry Flynt*, in which Love had a starring and critically acclaimed role. As for the Courtney Love-Billy Corgan war of words over Corgan's involvement with the new Hole album, Corgan had this to say to **Howard Stern** when interviewed on his show recently (prefacing with the revelation that it was Billy's idea to collaborate with Love on the third Hole record) "[Love] was telling everyone that she was going to make another album, but I've known her a long time [and] she wasn't going to make another album," said Corgan, who later told Stern that Love is embarrassed to admit she needed his help and that there was "no way in hell" the album would have made it this far without his contributions. "[Courtney Love's] embarrassed that she needed someone to help her." When Stern asked Corgan if he had written a "majority" of the songs on *Celebrity Skin*, the Pumpkins leader, who is given a co-music writing credit on five songs on the album, said he was brought in to help the band sort through material, which he described as having a "ton of potential." [Ed. Note: We've heard all of it, and it's brilliant.]

Corgan also made a recent appearance on **Charlie Rose's** PBS television talk show. During the interview, Corgan opened up considerably about his band, his new album, and the state of the music industry. Corgan said that he felt there was a fan "backlash" against bands such as his. "I think it's our stance that Rock music has kind-of reached a finite point," said Corgan. The Pumpkins singer told Rose that he felt it was time to reassess what he termed the "anti-

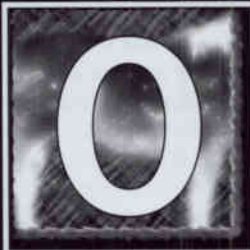

Rock" movement of early '90s music. Since the success of bands such as his own, Nirvana, Soundgarden and Alice in Chains, he said, the industry has gone too commercial. "So it's time for us to push the plunger and blow it all up again," he said. "I think there's been kind-of a knee-jerk reaction to *Adore*, not only because we're attempting to change, but because people are sad that the era has come to a conclusion. So, I think we're kind-of being punished for that."

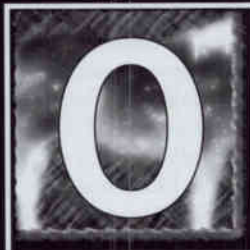

Marilyn Manson is shooting a video for "The Dope Show" in Los Angeles this weekend (8/15-8/16) with famed urban director **Paul Hunter**. Hunter's past credits include efforts like Janet Jackson's "I Get Lonely," Notorious B.I.G.'s "Hypnotize," Boyz II Men's "Four Seasons Of Loneliness," Mariah Carey's "Honey," and Erykah Badu's "On and On," as well as Everclear's "Father of Mine." A casting call went out early in the week for characters including a black family, beautiful women and assorted Manson fanatics. The plot wasn't immediately clear, but a tentative story board listed scenes including an acid trip-like segment with a red-haired Manson, described as the perfect "man/woman," in a field; one with him in a hospital bed with tubes in his body and a yellowish liquid or gas coming from his nose and eyes; a scene with Manson in a limo; and one of the rocker on a stage in a fashion-oriented setting in front of an audience of obsessed fans and surrounded by beautiful women. The new album, *Mechanical Animals*, is due in stores Sept. 15.

The Afghan Whigs have set an October 13 release date for its new album, *1965*, its first album on Columbia since parting ways with Elektra Records, which promoted the band's other two albums. The band recorded the bulk of *1965*, the follow-up to 1996's *Black Love*, during sessions held in New Orleans and Seattle. I was produced by Whigs frontman **Greg Dulli**. The album also features an appearance by **Alex Chilton**, former leader of the Box Tops and Power Pop outfit Big Star, who lends vocals to a track entitled "Crazy." The first single from the new album is "Something Hot," a song that Dulli described to *fmqb* as "fiscally responsible," not to mention downright sexy. It's a great Funkified Rock tune that should re-launch the band to even greater heights than 1993's hit album and single, *Gentlemen*.

Files... 99X/Atlanta's *Big Day Out* on September 12 got bigger last week with the addition of the Goo Goo Dolls and Big Bad Voodoo Daddy to the show's main stage line-up. The line-up also includes Semisonic, Fastball, Better Than Ezra, K's Choice, Fuel, Athenaeum, Everything, The Urge, Addict, and The Amazing Royal Crowns. In other 99X news, the station recently played back the entire 2 1/2 hour August 4 Smashing Pumpkins show on its airwaves, commercial free. The Pumpkins have been allowing selected stations to playback their shows after they pass through town. The concert in Atlanta raised \$127,000 for REACH (Rehabilitation and Education for Adults and Children, Inc.). 99X also announced that on October 17 & 18, it will present *99X Cyberfest*, a two-day multi-media event that showcases the latest developments in interactive technology at The Gwinnett Civic and Cultural Center. *99X Cyberfest* will also feature computer gaming areas, home office displays, and information on high tech education and recruitment. In addition, the event will also give participants a unique look "behind the curtain" of the 99X studios with on-site production and broadcast facilities... **KEDJ/Phoenix** is making the most of the White House sex scandal with its "Guess That Blue Dress Mess" promotion in which the station is taking dresses with four or five different stains all over Arizona and asking people to guess what the stains are. When a contestant guesses right, they win tickets to *KEDJ's That Damn Show*. The Edge also held a "Nasty Critter" contest at a local Pet Smart store. Tickets were given away to the Beastie Boys show in Phoenix to the winners of such delicious events as the cockroach races (a listener actually made a track in the shape of the Edge logo for the event), and various weight competitions. Make sure you point your Web browsers to www.kedj.com, and listen to the station in stereo over the Web. Following in the footsteps of stations such as 99X, The Edge will soon be installing a Web camera in the air studio... **WGRD/Grand Rapids** recently held its "Gas Station Olympics" a.k.a. "The Pearl Jam Fill-up," where listeners competed for Pearl Jam tickets (and a tank of gas) in various gas pumping and windshield wiping events. Why a gas station? Eddie used to be a gas station attendant (eliminating the possibility of him ever having to hold a job like that in the future)... **WRXQ/Memphis** has put a unique spin on the rash of VW Bug giveaways by stations throughout the format by giving away an old VW bug, completely refurbished. The promotion was nicely tied-in with a local convenience store chain and Pepsi... **KLZR/Lawrence's**

"Beastie Bus" promotion saw the station giveaway a bus ride to Kansas City for a recent Beastie Boys show. 20 pairs of tickets on a luxury bus were given away, providing the winners with a nice little party on wheels. On hand hosting the ride was **KLZR's Jeff Petterson and Chuck Taylor**. Doubling their pleasure that evening (courtesy of Elektra Records), the winners were dropped off at the Bottleneck in Lawrence to see the VAST show...

MODERN DIRT

Following the arrival of new managing partners, New Wave Broadcasting, Caribou Broadcasting announced the format flip of Modern Rocker **KPOI/Honolulu** back to Active Rock, the format it left behind in 1993. The station's library has undergone a total facelift, bringing in titles by Led Zeppelin, Rush, AC/DC, and Dio (yes, Dio). The station added 14 records to its rotation, cementing its commitment to moving back into a Rock direction. **GM Bernie Armstrong** has exited the company, but no other staff changes have been announced at this time, and the station will retain its on air slogan, "The Rock You Live On."... In what some say is a direct response from Jacor to the legal battle with crosstown **CHR WKRQ/Cincinnati** **GM Jim Bryant**, **WAQZ/Cincinnati** flipped format to **CHR Monday**, positioning Channel Z to go head-to-head with its newfound rival. Jacor recently threatened to sue Bryant exclusively, on grounds of unfair competition, accusing him of "being a rogue GM working outside the scope of his authority," and spearheading a smear campaign against Jacor's Cincinnati outlets with local advertisers. As for **WAQZ's** format flip, **PD Matthew Harris** will stay with the station, and no staff changes have been announced... As reported in the *Chicago Sun-Times*, the **Mancow** morning mass exodus has begun. Quoting Strategic Media Research's week-by-week *AccuTrack* survey, **Q101/Chicago's** morning audience share moved up from 3.6 to 8.1, while **Mancow's** former station, **WRCX**, dropped from 3.7 to 1.5... **WZAZ**, **WAZU** and **WLWQ/Columbus** **PD Greg Ausham** exits, and replaces **Bob Neumann** as PD of Active Rocker **WMMS/Cleveland**. **WZAZ** Promotions Director **Ben Williams** has been upped to APD... In other **WZAZ** news, the Jacor Modern Rock outlet switches frequencies, going from 98.5 to 105.7, and will be spun off to Blue Chip Broadcasting for a reported \$10+ million... **KORB/Quad-Cities, IA** has tweaked their programming, leaning in a more adult and female direction, while sticking closely to current Modern Rock hits and incorporating a lot more of music of the '80s into their library... **WOXY/Oxford** Promotion Director **Julie Mawell** exits the station and is replaced by part-timer **Bryan Miller**... **KTEG/Albuquerque MD** **Julie Forman** has new call times, Wednesdays, 9a-Noon... **WRXQ/Memphis** morning man **Rob Harder** heads to Clear Channel Modern AC outlet, **WSSR/Tampa** Modern to take on the MD positions and middays.

Talk Of The Revolution

You've heard the expression, "If you want a letter mailed, mail it yourself." Master Power-Pop craftsmen **Sloan** took those words to heart, releasing their latest masterpiece, *Navy Blues*, on their own **MurdereRecords** imprint (with U.S. distribution from **Never Records Group/Proper Distribution**), producing the record themselves as well. Their *One Chord To Another* LP on the ill-fated **Enclave** label was the best record you didn't hear last year, so don't miss the boat on this one. Power Pop denizen **Chris Carter** at **Y107/Los Angeles** turned us onto this record and it's barely left our CD player since. Highlights include the arena-ready groove of "She Says What She Means," the effortless bliss of "C'Mon C'Mon (We're Gonna Get It Started)" and "Money City Maniacs." To get a copy, call **Never Records Group** at (212) 675-5008. Whatta ya mean sports and Rock don't go together, doesn't anyone remember "The Super Bowl Shuffle?" **Alexi Lalas** is easily American soccer's most recognizable mug with his bright-red hair and goatee, product endorsements and appearances on *Late Night With Conan O'Brien*. Now the **NY/NJ MetroStars** defender is trying his hand at Rock, which he's actually been doing longer than soccer. **Ginger (CMC)** is Lalas' debut effort and is free of any gimmicky shtick you might expect from an athlete-cum-musician. It's not the kind of stuff that re-invents the wheel, but it certainly fits neatly into this little niche we call *The New Music Show Revolution*. Give "Goodnight Moon," "Pop School" and "Vacancy" a whirl... With its members having logged time in such trippy aggregates as **Stereohab**, **My Bloody Valentine** and **Rollerskate Skinny**,

it's no wonder how **Snowpony** achieve their sonic nirvana with what sounds like relative ease. Truth is, a lot of self-destructive things are at the root of what you hear on the trio's debut album, *The Slow-Motion World Of Snowpony (radioactive)* and a lot of sonic treats - loops, sharp guitars, keyboards, samples from **Sonic Youth**, **Nick Cave** and **The Sonics** - go into their heady wall of sound. Though dark and brooding at times, **Katharine Gifford's** (ex-**Stereohab**) voice is still very inviting, serving as the catalyst through much of the musical journey. Start with the stinging "Bad Sister" and "Easy Way Down," then call "Fat" Pete and let him know what you think... **The Aluminum Group** specialize in a soothing kind of sound that's equally at home as the soundtrack to a lazy spring afternoon in the country, or as the last thing you hear before you get a shot of novocaine and the menacing sound of a drill nears your mouth. Fronted by the brothers **Navin - John and Frank** - **The Aluminum Group's** lounge-Pop stylings are anything but self-conscious, and will probably tell you everything you don't want to hear by the time you finished with their new album, *Plano (Minty Fresh)*. Don't let that deter you from enjoying a peaceful, easy collection of songs that tunesmiths ranging from **Edwyn Collins** to **Sly Stone** would kill to have penned. Already spinning at **WHTG** and **KHLR**.

 I have two words for you: **Baz Luhrman!** Who, what, where is what you are saying and my reply is watch the phones. Sent to me about a month back by Electronic maestro **Kevin Duran**, the tune "Everybody's Free (to Wear Sunscreen)" has been igniting the phones faster than a bush fire. It's from a collection called *Something For Everybody*, which is a collection of all the stuff **Baz** has used in his flicks. This particular track was produced by **Nellee Hooper** (former **Massive Attack** boy) and remixed by **Joah Abrahams**. We've even been spiking a rough edit during regular rotation with some surprising results. Call **Capitol** and tell them to sort it out (tell them Steve sent you). Who knows, this could be the **Engima**-type track 1998 has been craving.

***We bid a fond farewell to **KORB/Quad Cities' Lunar Rotation**, which is no more.

Why a brand new network, and why now?

David: There are two reasons: One was Chancellor Media, which, through its acquisitions, had developed a critical mass to become a player with a national platform. Secondly, most of their stations were unaffiliated. Since they dominate certain formats and have a strong involvement in the others, it made sense for them to participate in the national programming arena of those formats.

AMFM debuted in a very unconventional way without any programming to offer. What was the thought process surrounding that?

David: The thought process was that we had all these stations and over 90% of them were unaffiliated with any

radio network in the country. If you were an advertiser who was using network radio, you were never getting these stations as part of your buy. By launching the network ourselves as a wholly owned subsidiary, and in partnership with Capstar, it allowed the revenue to return back to the source of the inventory, which was the radio stations.

In other words, there was no one out there who was doing for the Chancellor and Capstar group what they wanted?

David: If you look at stations like Z100 [WHTZ/New York], The Beat [KKBT/Los Angeles], 'GCI in Chicago, 'JLB in Detroit— I'm just using stations that are top-ranked in each of their markets as examples— they were unaffiliated with the RADAR* Network.

Now everybody is under one umbrella.

David: Everybody's under one umbrella, and it clearly has given us some strength. Compared to other networks, our strength is based in the fact that we're predominantly on the FM side, and our audiences tend to be younger. And we have more

women, who were really missing from network radio, because a lot of the affiliates of the other RADAR Networks are AM stations, which tend to have older, more male-skewing audiences. We also offer extremely strong top 25 market coverage.

AMFM has acquired established national brands, such as American Top 40 and Rockline. Now you're building new products with Chancellor personalities like Hollywood Hamilton and RuPaul. What's the next step?

David: We have a two-fold strategy. It involves moving into a format with one of the strongest brands or shows within the format. For CHR-AC it's AT40, with AOR it's Rockline. We pick up the dominant show, make it stronger through our ability to affiliate both our own and other stations bet-

ter than the people who have had the shows previously. Then we launch new shows within that format, using the strength of our affiliate line-up from the initial top syndicated show base to be able to get an affiliate for the new show.

Is it a problem getting AMFM programming cleared on stations owned by companies that, like Chancellor, are also in the network business?

David: The four major players in the network arena— CBS, ABC, Jacor and us— all own radio stations. We realize that we can't program everything for everybody, and that some of our stations are going to use other people's programming, and our programming is going to be on other people's stations too. Our programming is on a lot of other people's stations. The only place you really have a conflict is when you have a head-to-head product; take Rick Dees and Casey Kasem. Clearly, our stations are going to clear predominantly Casey and I would presume ABC stations would clear predominantly Rick. Although there may still be cases where our stations do clear Rick Dees.

What about when Rockline is already running on a non-Chancellor or non-Capstar station and the Chancellor of Capstar station wants to run that show because it's successful. Once the agreement is up, will the Chancellor or Capstar station get the first shot at that show?

David: That would depend on how our relationship with the affiliate was. Our goal is to honor our affiliation whenever possible with whoever is our affiliate for the longterm. Clearly, though, in certain cases, sometimes the affiliate doesn't want to commit to the longterm, and in that case if the Chancellor or Capstar station wanted the show and was willing to make a longterm commitment, that would be a good business decision for us.

Are the Chancellor and Capstar stations required to air syndicated programming?

David: No, they are not. That is an individual station decision.

The Guitar Show with Kevin Bacon debuts Labor Day weekend. Tell me about that show and the Rock formats you're targeting.

David: The Guitar Show with Kevin Bacon is being produced by Ben Manilla Productions, who, as you are probably aware, does House of Blues. The show will be hosted by Kevin and will essentially cover great guitarists and great guitar music, both current and historical. The target list of stations are probably Heritage AORs and Classic Rock stations, and less so the Active Rockers. It's going to have a lot of great features. One of them is "Six Degrees of Separation" from Kevin [see sidebar], which would be how you could connect Kevin to his guest that week, which is a funny little bit. He hasn't had to go all six degrees yet. Another one would be the "History of a Great Riff." He will take what is perceived in Rock as a great riff, and show where its background is... often it will come from an old Blues song or something else, and he'll show how that was modified by the Rock artist. Then he'll do the interview and music.

So it's going to be a mix of things... not one particular person's music.

David: It will primarily be one particular musician. If you had **Eddie Van Halen**, there would probably be a lot of Van Halen, but he would also probably talk to Eddie about who his influences were, what he thought were great guitar licks, etc.

Let's talk about *Rockline*, which has been a Rock Radio staple since the early '80s. With that extensive back catalogue, do you plan to exploit the archives and create new programming for Classic Rock stations?

Gary: In the case of the programming acquired from **Global Satellite Networks**, you're looking at a facility and staff that has been producing probably the most heritage show in Rock radio. They've got *Modern Rock Live* going out on Sunday nights, and *Rockline* on Monday nights, so there's a lot of room to grow there and, of course, the library of almost every major artist for the past two decades is in the vault. It's hardly been tapped yet, so we're looking at really maximizing that.

You mentioned *Modern Rock Live*. What other syndicated programming do you offer to Modern Rock stations and Rock stations?

Gary: We mentioned *Rockline* and *Modern Rock Live*. There is also *Reelin' In The Years*...

David: Which would be more Classic bending.

For Top 40 you have *American Top 40 with Casey Kasem*, which everybody knows.

Gary: And out of WKTU, we're launching *RuPaul Radio*, two hours of RuPaul having a great time with party music... Dance music, a very positive presentation, and Ru just doing his thing.

What about *Hollywood Hamilton's Rhythm Countdown*? Is that going to be specifically targeted for Dance, or is it going to be more Rhythmic?

Gary: It's going to be targeting Rhythmic CHR stations.

David: What we see with *Hollywood* is there's definitely

room for a younger-skewing countdown show. Both the *Rick Dees* show and *Casey Kasem* shows clearly have a lot of Hot ACs and more mainstream CHRs as their affiliates. Nobody is really servicing the countdown area for the younger end, the Dance end.

In addition to owning huge platforms of radio stations, CBS, Jacor, and now Chancellor own their own networks. Many network personalities are owned by large radio groups. How is this changing the radio network business and the radio network model?

David: I think you'll see that your big [network] players are going to also be your big radio station groups, which is essentially what has happened. But that doesn't mean somebody with a good idea and good talent won't develop something independently. That will always happen. But clearly it makes it attractive for a talent to be attracted now to one of these companies, because if they work locally or potentially in multi markets, they now have an inside platform to make it a network show, whereas in the past they usually had to go somewhere else to become a network show.

You mentioned the independent syndicators. How will this new network model impact them?

Gary: The great thing about this business is that, as David said, anybody can come up with the next great idea. A good idea will get on the radio. That's always been the case. The upside for us is that AMFM is in a strong position to compete for programming with content partners that are of value to radio, whether it's music-based or live event programming. It's the idea that wins the product.

David: You'll see network radio become much more like Hollywood is with the studios. You have your major distributors in the studios. But, the independent producers work under those umbrellas, much like our deal with **Ben Manilla**. The show was his show. It made sense for us to get involved with him because we thought it was a great show that worked with us, and it ended up being his show and our show,

not just ours. This is very much like what you see being done in the movie business. We hope that when these independent producers have a great idea, they will come to us, and say, "Hey, let's do it together."

That sounds like the situation with the *Bob & Tom Show*. It's actually owned by Capstar, but AMFM represents the show and sells it.

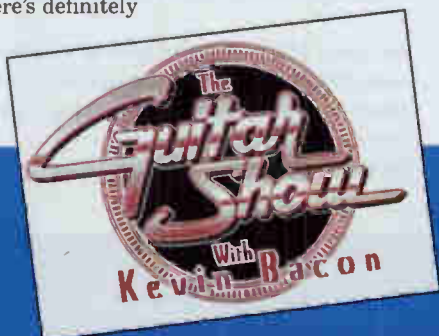

David: Exactly. Bob and Tom do a tremendous show. It's on 50 plus stations already, and delivering great results. However, Capstar was doing it pretty much in-house. The difficulty they had was that they were not set up with the infra-structure of a network. So we work with them on affiliate marketing and ad sales, but they still produce the show. We have so much contact with Rock stations and advertisers on a daily basis that it made sense to use our marketing strengths, and turn this into a win/win situation for both Capstar and AMFM.

The show has historically been perceived as one that works best at Classic-leaning Rock stations in medium and small markets, primarily in the Midwest. Will it translate to top markets like Chicago? And are you close to clearing it in additional large markets?

David: We're working on several large markets, and we expect that eventually Bob and Tom will be everywhere. The show has worked beyond the Midwest. That was the start of their base, but if you look now, they've branched out. They have some successful affiliates all the way out West, and they have successful affiliates on multiple formats, not just Classic Rock. They're on Mainstream Rock, Active Rock, Alternative Rock and I believe they're even on a Country station somewhere. That's not the goal. The goal would be to get them on Heritage or Classic Rock stations as much as possible, or Active Rock or Alternative stations... somewhere within the AOR arena.

Stations typically use networks to provide news, audio, even the show prep services. Will AMFM provide these services soon?

Gary: We're looking at everything in those segments. AMFM wants to enter any business where we

— David Kantor*

can provide the best quality and value to radio. This is really the beginnings of the programming era of the AMFM Network, so right now anything's possible.

David: I would really love to play on the AM dial. Primarily, we've been focused on programming for the FM dial. Longterm, we plan to be involved with programming for the AM dial. Just as *Casey* is the cornerstone of our CHR/AC programming, and *Rockline* is the cornerstone of our AOR programming, the cornerstone to AM programming is a news brand.

Are you looking to build one, or are you going to buy one?

David: The marketplace, in radio, already has quite a few news brands: ABC, CBS, NBC, Mutual, CNN, not to mention Fox, which wants to get into it. Our goal would be to partner up with a major brand at some point, and work with them to develop that major brand using both our distribution and others to make it the best news product out there.

David, at ABC, you improved a poor performing daypart for Urban AC stations with the Tom Joyner show. Do you have a similar strategy to create niche-targeted programming in specific dayparts for other formats?

David: I won't mention specifics because it would give tips to my competitors, but there are still some formats where mornings still under perform the rest of the day, much like the pattern was on Urban ACs. They did great after 9:00 a.m., but they had no morning show. When Tom Joyner came in, those numbers went up, and then the whole station went up. There are still some formats out there, particularly when

it's a niching of a broad format, where there still are no great morning shows. This will provide us the opportunity to get in there.

How hard is it to get stations to commit to a syndicated morning show?

David: The arguments that

you hear from the stations are always the same. How does it fit? How do I tailor it to make it sound like they're here in my studio? Do they care about my individual market? Bob & Tom are actually much easier. They already have over 50 affiliates, many of which are #1 in their marketplaces already. For Tom Joyner, we had to start from scratch. Essentially, the philosophy is the same. In Urban, the philosophy was always that there would be one great local morning show in a market, and Tom would be an alternative to that local morning show by being a great national show that did things that the local show couldn't do. I think you will see the same thing happen in AOR. There will be one great local AOR show, and then the other AORs in the market will be looking for something that differentiates them, and we think that will be Bob & Tom.

How do you plan to grow the network at the individual format level?

David: Our strategy features a combination of tactics. We'll continue to do acquisitions where we can, especially if it gets us that cornerstone for a format, because we'd like to eventually move through every format. Right now, we're in Smooth Jazz, CHR and Rock. That leaves Country,

Urban and News/Talk still to be developed. We'll do it two-fold. We hope to acquire or sign the major talent or show within the product, and then develop additional product after that.

How are AMFM's affiliate relations going to differ from those of the typical networks?

David: We're more customer service-focused. We have fewer affiliates. For our initial launch, we had 242 affiliates. If you look at the other three major networks, they have thousands of affiliates each because they have so much product. ABC has 2900 and Westwood One has 7600. Our goal is to have better

product... product that pulls in the big stations. We want to be able to work with our affiliates to give them what they want in syndicated programming, and to make sure our advertisers get what they're buying on the RADAR Network.

What do you intend to offer advertisers that they're not already getting from other networks?

David: Higher rated product on the syndicated side, and better rated stations on the RADAR side. Our stations were very highly rated in their first RADAR, despite having about a tenth of the affiliates of some of the others. That means that we have much bigger stations in terms of individual audience. That is appealing to advertisers. We have true metro stations. Instead of Philadelphia being covered by an Allentown station, we're covering Philadelphia with Philadelphia stations.

Do your plans call for AMFM to attract non-traditional radio advertisers, and therefore help grow radio's share of the media advertising pie?

David: Absolutely. We'd love for all of our

money to eventually come from new advertisers to the radio business. Clearly there are three levels of advertising, and radio needs to make strides in all three to expand its share. One is local, the other is regional and national spot, and the third is network. You see it starting to happen already. Proctor & Gamble, who traditionally has had very few brands on the radio, has almost 20 for the year ahead.

You have two separate networks: youth and adult.

David: Yes, and we'll give you a scoop: We're actually going to be shifting their names to the **Diamond Network** and the **Emerald Network**. The Diamond is adult and Emerald is youth. When RADAR came out, our adult network skewed a little younger than we thought it would, and our youth/adult skewed a little older than we thought it would. We ended up deciding that they really shouldn't be just called youth and adult, because they span much wider demos. So we went along with everybody else in network radio, and came up with some clever names for them.

Gary, will you help develop programs and service at AMFM that are similar to those that you developed at MJI? How do you envision growing those on the network level?

Gary: At MJI, we developed new ideas by listening to radio, going out to radio, hearing what they needed to compete effectively locally, and giving it to them. Most of my personal time was spent at radio stations, and that hasn't changed. We've got a great brand in Rock, CHR, AC and Smooth Jazz, and we're going to enter into all segments of the business, as well as any format in the business that is going to make sense. So the formula really hasn't changed, but the canvas has.

David: The nice thing is that we have a built-in focus group. We talk to our stations every day, and if we have an idea, we say, "What do you think of this? What do you really need that you can't afford to do yourself that other stations would need too?" A lot of ideas come from them. What we really want to do is ultimately put out the best product. That is our primary goal. We don't want to put out 200 shows or 200 off-line services. We want to put out what's needed in the marketplace, and what a lot of stations will use.

Gary: And I also wanted to stress David's point that because this network is an extension of a radio group, it's my feeling that any programming that comes out has to be a cut above. It's got to grab your attention like everything else that this company has been able to do. I've got a very high standard of excellence when it comes to the programming, specifically the new programming coming out.

David: Gary is very lucky. Most networks have one or two or a half dozen programming geniuses within the company. Gary gets to tap into hundreds of them.

Is there a chance that syndication could be combined with "virtual radio" technologies, allowing you to customize your syndicated offerings for individual stations?

David: Right now we have no plans to do that. But, given the quickly changing environment in technology, and the digital production capabilities of a lot of stations, you never know what will happen down the line.

When does AMFM Network kick into high gear?

Gary: All of our new programming will launch on Labor Day weekend: *RuPaul, Hollywood* and the *Guitar Show*.

"What do you really need that you can't afford to do yourself that other stations would need too?" A lot of ideas come from asking radio that."

— David Kantor

David: And if you want to give your jocks a day off, run all three... just joking.

KANTOR & KRANTZ KICKSTART

amfm:

INTERVIEW
BY CHARLIE MAXX

ACCORDING TO WEBSTERS, A NETWORK IS "A CHAIN OF INTERCONNECTED BROADCASTING STATIONS SHARING A LARGE PROPORTION OF THEIR PROGRAMS." APPARENTLY WEBSTER NEVER HEARD OF **AMFM RADIO NETWORKS**. WHEN IT SIGNED ON JANUARY 5, 1998, AMFM HAD NO PROGRAMMING. A DIVISION OF **CHANCELLOR MEDIA**, AMFM REACHES ABOUT 61 MILLION LISTENERS WEEKLY WITH SYNDICATED PROGRAMMING AND AN AFFILIATE BASE OF THE CHANCELLOR AND **CAPSTAR** STATIONS. THESE NUMBERS ARE IMPRESSIVE... IN FACT, *STAGGERING* WHEN YOU CONSIDER THAT THE NETWORK DEBUTED WITHOUT A SINGLE PROGRAM. SINCE THEIR JANUARY DEBUT, AMFM HAS ACQUIRED *AMERICAN TOP 40 WITH CASEY KASEM* AND *THE DAVE KOZ RADIO SHOW*, ALONG WITH **GLOBAL SATELLITE NETWORK**, WHICH BOOSTED ITS STABLE OF SYNDICATED SHOWS TO SIX. GLOBAL'S *ROCKLINE*, *MODERN ROCK LIVE*, *REELIN' IN THE YEARS*, AND *LIVE FROM THE PIT* ALL NOW FLY UNDER THE AMFM BANNER. THE NEW NET STUCK ITS TOE IN THE MORNING SHOW SYNDICATION WATERS WHEN THEY SIGNED A MARKETING AGREEMENT WITH *THE BOB & TOM SHOW*. AMFM PLANS TO INTRODUCE SEVERAL MORE SYNDICATED PROGRAMS FOR ROCK, TOP 40 AND AC FORMATS ON LABOR DAY WEEKEND.

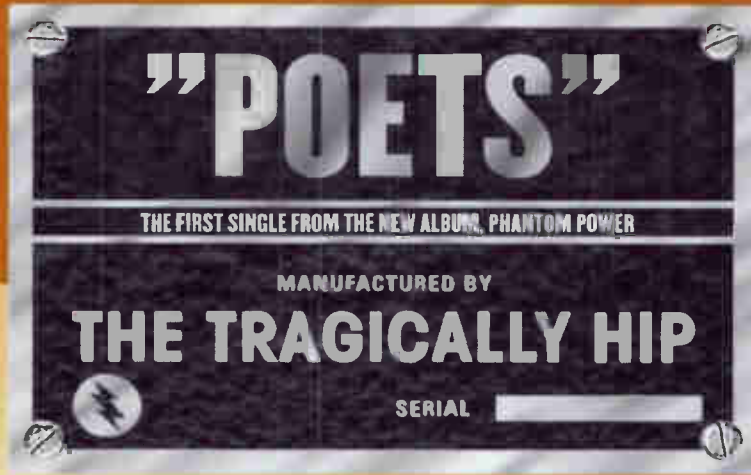

APART FROM AN UNORTHODOX LAUNCH, WHAT SETS AMFM APART FROM THE PACK ARE ITS AFFILIATES: MOST ARE FMs. MANY TARGET FEMALES. AND MOST IMPORTANT, THEY INCLUDE THE TOP 22 MARKETS AND SOME OF THE TOP-RATED STATIONS IN THOSE MARKETS.

WHEN **SCOTT GINSBURG** ANNOUNCED THAT LONGTIME ABC RADIO NETWORKS PRESIDENT **DAVID KANTOR** WOULD SPEARHEAD CHANCELLOR'S FORAY INTO THE \$500 MILLION A YEAR NETWORK BUSINESS, THE FORMER CHANCELLOR PRESIDENT/CEO SAID, "WE PLAN TO LEVERAGE OUR EXISTING SYNDICATED PROGRAMMING, BROAD STATION BASE, PERSONALITIES AND ADVERTISING INVENTORY TO GARNER MEANINGFUL MARKET SHARE AND PROVIDE A STRONG PLATFORM FOR NETWORK ADVERTISERS. BY STRUCTURING OUR NETWORK OFFERINGS TO APPEAL TO DISTINCT DEMOGRAPHIC PROFILES, WE CAN DELIVER LARGE AND TARGETED AUDIENCES TO OUR ADVERTISING CLIENTS." IN THE SAME BREATH, GINSBURG ANNOUNCED CHANCELLOR STATIONS WOULD BE ADDING ONE MINUTE OF INVENTORY FOR THE NEW NETWORK, WHICH WAS EXPECTED TO GENERATE AN ADDITIONAL \$40 MILLION IN CASH FLOW FOR THE COMPANY IN JUST TWO YEARS.

fmqb SAT WITH KANTOR AND AMFM'S **GARY KRANTZ** TO FIND OUT WHERE THE NETWORK IS HEADING, WHAT OTHER SYNDICATION IS IN THE WORKS, AND HOW THEY PLAN TO CEMENT AMFM AS "A NEW NETWORK FOR A NEW MILLENNIUM." KANTOR IS CHANCELLOR'S SENIOR VP/NETWORK OPERATIONS, WHILE KRANTZ— A NAME LONG SYNONYMOUS WITH **MJI BROADCASTING**— CARRIES THE TITLE VICE PRESIDENT, PROGRAMMING, MUSIC AND ENTERTAINMENT, AMFM RADIO NETWORKS.
