## COVER STORY

64

What do a white trash couple, Aerosmith tickets, trips around the world, dinner at Lenny Kravitz's house, a phone line that asks you to confess your sins, and about 270 million Volkswagen Beetles have in common? They're all ingredients in successful station promotions you can plug into and make your own. *fmqb's* Bram Teitelman provides the blow-by-blow in this week's Cover Story.

## PROGRESSIVE SOLUTIONS

30

Faced with competition from new media with superior audience measurement, consultant Dave Lange says it's time for a radio ratings revolution.

## JONNY LANG

### GOO GOO DOLLS "SLIDE," WARNER BROS.

"Slide," the first single from the Goo Goo Dolls' sixth studio album, *Dizzy Up the Girl*, is the long-awaited follow-up to '95's multi-platinum *A Boy Named Sue*. Sure, "Name" and every recently "iris" got these guys on the globe playing field, but English fans have always appreciated the heart and soul these three talented musicians exude not only in a recording studio, but with their whole-hearted approach to performing live. And we don't even need to talk about what "un-rock stars" these genuine guys are, do we? From the top of the charts, expect to hear nothing but a big ol' Buffalo "thank-you" from Johnny, Robby and Michael. Oh, by the way, "Slide" was #1 Most Added this week (52 new) with a debut at #27 Hot 100. Loads more to come.

### JONNY LANG "STILL RAININ'," A&M

Blues guitar prodigy Jonny Lang has done more birthdays (his 18th birthday than most people do in an entire lifetime), but he still wasn't satisfied. For his sophomore release, *Wander Fair World* (due October 6), Lang wanted to expand - both musically and songwriting-wise - adding in touches of R&B, Hard Rock and ballads. The set's lead track, "Still Raining" howls like a rainstorm with its ferocious guitar work and hip-pocket groove, laying the perfect foundation for Lang's six-string tricks and the sultry female backing vocals. It's hard to believe that Lang still can't drink legally, but can bring to mind just about every guitar master of the last 50 years with his fretwork. Quite a lot is expected from Lang this time out, and judging from "Still Raining," he's going to deliver big time. Already on at WDHA, KQRS, KLOS, and KJRH.

### JACKYL "WE'RE AN AMERICAN BAND," GEFLEN

It makes perfect sense that Jackyl cover the Grand Funk Railroad chestnut. The Georgia band was raised on Rock radio, and influenced by bands like Grand Funk. The liner notes lie their Greatest Hits album, *Choice Cuts*, show that Jackyl knows what side their bread is buttered on. Chances are if you're a programmer that's supported Jackyl throughout their career, you're thanked on the album. No chintz here, just Jackyl's brand of quality meat and potatoes Rock and Roll that's kept them on the map thus far in their career. 25 stations (WRGX, WYSI) earn the song #5 Most Added honors this week.

### CAKE "NEVER THERE," CAPRICORN/MERCURY

Rock's quietest band stars The Cars return with the follow-up to "The Distance," the song that took this retro-sleazebag Sacramento band to Platinum pastures. Like that massive Modern hit, "Never There" is rife with vocal harmonies, bawzy in a very humor and fueled by the band's signature sound: guitars, trumpets and lean grooves. And it's already blown it Modern Rock, which made it their 10th Most Added entry this week, thanks in part to the gate support at WHFS, KITS, 91X, WXDX, KROQ, WLSR, KNRK, WFNX, KWOD, WKQX and 14 more.

### PUSHMONKEY "HANDSLIDE," ARISTA

You want songs that cut through, songs that are distinctive, songs with guitars and hooks, hooks, hooks. Pushmonkey's debut single (and album for that matter) have all of the above. Two years ago, the Texas band gave KLOS one of its top performing songs and drew the

attention of ZZ Top manager Bill Ham. This summer they made their out of a roundful of programming at The Conclave, no easy feat at 9:00 in the morning. "I love it!" proclaims WAMX's Debbie Wyde. "I want to add them as soon as I have room." WRGX, WLZR and KRXQ have done exactly that, along with numerous Texas stations like KJAM and KBAT. "Handslide" sounds like a reaction record," concludes KRPV's Willie B.

### SOAK "DO IT," SIRE

Those who remember Soak from their album on Interscope and the single "Me Compassionate" know the kind of grinding, aural assault the quartet are capable of. Now with Sire, the band are back with a new album, *Fluents*, and the sharp-as-nails single, "Do It." Frenetic percussion, crunching guitars and mind-numbing vocals lend the charge to "Do It," giving way to an easy-to-remember chorus: "do it, do it, do it!" File Soak right alongside heaven-sent first-lit Kishi, Rob Zombie and Limp Bizkit, and watch the results. KLOS have already done it.

### ONE MINUTE SILENCE "A WASTE OF THINGS TO COME," V2

England's One Minute Silence blends loud Rock riffs and Hip Hop grooves designed for maximum danceability. The first helping from their debut record, *Available In All Colours*, shows off the strengths of the band. The first half of the song finds the band scolding not unlike Rage Against The Machine, featuring rapped vocals, some pretty cool turntable work, and a catchy chorus. Towards the end of the song, the band shows their metalic leanings by shifting into a driving groove that will convert you if you haven't been already. It would be a waste if you didn't consider some night spins at your Active or Modern station for this genre-defying tune. WJRR comes first.

### SAVATAGE "TURNS TO ME," LAVA/AG

*The Wake Of Magellan* marks the the fourteenth album for Savatage, a group that was originally known as Avatar and took roots in Florida in 1981 by co-founding brothers Jon and Chris Oliva. Always on the cutting edge with their sound and concepts, Savatage's new album remains firmly anchored in the symphonic/progressive sound they've been known for. *The Wake Of Magellan* also continues Savatage's creative partnership with composer/producer Paul O'Neill, the man behind Trans-Siberian Orchestra. After spinning "Turns To Me" a few times, see if you don't agree with Germany's *Hammer* magazine who compared Savatage to "Queen at their creative high."

### ALEXI LALAS "GOODNIGHT MOON," CMC INTERNATIONAL

Initially, it sounds gimmicky that soccer star Alexi Lalas is following in the footsteps of other athlete-turned-musicians like Shaquille O'Neal and releasing his own album. However, all skepticism will go away once you hear his debut album, *Ginger*. Actually, the New York MetroStars player has been strumming a guitar since before he started kicking a ball around. This shows in songs like "Goodnight Moon," the first single of his album. Lalas has genuine PopRock sensibility that would stand on its own with or without his superstar status. A Tom Petty-esque rocker, "Goodnight Moon" demonstrates that after his last career kick, this soccer rocker has another goal to pursue. KLUQ, KZZK, WHDQ, WTRK, WJJK and KCMQ throw in early.

## DEPTH TRAX

### BLUE OYSTER CULT "LIVE FOR ME" CMC INTERNATIONAL

"Live For Me" is the third single from Blue Oyster Cult's *Hunger For Memory* release. A rock-rolled, well-rounded rocker that finds the band in classic form. If you had any success with "See You In Black" or "Harvest Moon" or play any Classic BOC on your station, this one shouldn't be a hard decision to make.

### STEVE POLTZ, "GOOD MORNING (WAKING UP WITH YOU)" MERCURY

Steve Poltz charmed American audiences for more than a decade as a member of the Baglains. Then he re-emerged Jewel's "You Were Meant For Me" and things changed. This year he released *One Left Slide*, a solo album with songwriting that's equal parts Dylan and Replacementists. Anyone with a Progressive/Triples A bent should enjoy up to "Good Morning."

## “TURNS TO ME”

8

INTERNATIONAL

NOVA SCOTIA, CANADA On May 24th of this year the Taiwanese freighter, the Maersk Dubai, manned by an international crew, pulled into the port of Halifax, Canada, laden with the heavy weight of an evil concealed. This evil was revealed through the courageous action of a Filipino deckhand, Rodolfo Miguel, at considerable jeopardy to his own life and welfare.

The freighter carried cargo to numerous countries as it constantly circled the globe. During a recent Atlantic crossing, two stowaways were found on board, a not uncommon event on ships of this type. The time honored tradition of the sea is that such individuals would be put to work scrubbing dishes until the ship docked, at which point, they would be turned over to the local authorities. This is a custom as old as sailing itself.

However, the Captain of the Maersk Dubai was not to do what was expected. Instead, he reacted with a stunningly cold swiftness, and ordered the men thrown overboard. The two youths were hardly able to believe what was happening to them. In a last desperate attempt to avoid their fate, they had clung to the legs of the officers who were pushing them into the

ocean, all the while, begging for their lives. But the officers ignored their pleas, even as the boys pulled out pictures of their families, spilling them across the deck in a final futile gesture. Miguel and several other sailors had tried to intervene, but were viciously reprimanded and threatened by the Captain.

With nothing as close to God on earth as a Captain at sea, the deckhands dared not confront the officers further. Within minutes, they witnessed the condemned men struggling in the water as the ship pulled away.

Later on in the voyage, a third stowaway was discovered by the officers and suffered the same fate. The morning after this third killing, Miguel was horrified to encounter a fourth stowaway trying to surrender to him. Grabbing the youth, he tried to pull him towards a hiding spot in the engine room, but the man, not understanding, struggled against him, repeating over and over in broken English that he wanted to surrender. Finally, Miguel pointed to the Captain through a porthole and gave the universal sign of a finger across the throat. Suddenly, comprehending the danger, the man followed his benefactor towards a hiding place in the hold.

There he would remain until their arrival in Canada, where Miguel managed to deliver him safely to the authorities. He also made a complete report on all that had occurred.

Presently, Miguel's hopes for swift justice and a return to a normal life are not to be as the entire case has turned into a diplomatic nightmare. The shipping company has hired an army of lawyers who have gotten the accused officers released on bail while they work on having the case dismissed on international legal technicalities. The company continues to pay all the officers' expenses, including full salaries and travel expenses for their wives to Canada.

Meanwhile, Rodolfo Miguel has fared less well. He languishes in a small hotel room awaiting the outcome of the case. Despite the fact that his family is being harassed in his homeland the Canadian Government will not allow him to bring them into the country. He has not been able to find work and has had to defend himself from ridiculous counter charges that the defense team has fabricated in an effort to diffuse the truth. Hopefully, as public awareness of this case grows, there will still be a chance for justice.

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. Grade: An index based upon combined MRI, Burn and Unfamiliar Scores. Music Response Index (MRI): Appeal of each song within the indicated sample group on a 0 to 110 scale. Burn: Percent of the indicated sample that claims to be "tired of the song." Unfamiliarity: Percent of the indicated sample reporting "don't know it." This information is excerpted from The Tracking Report and is reprinted with the permission of Kelly Music Research, Inc. ## Steal Jacor-Dallas Director/Programming & Operations

Hot AC KDMX/Dallas PD Jimmy Steal has been promoted to Director/Programming & Operations for Jacor-Dallas. In his new role, Steal will oversee the programming and day-to-day operations of KDMX and Active Rock sister station KEGL.

In making the announcement, Jacor-Dallas VP/Market Manager J.D. Freeman remarked, "I expect him to bring the same passion and performance to KEGL."

Jacor Sr. VP/Programming Tom Owens added, "We came to appreciate Jimmy's impressive programming skills as competitors in Cincinnati and have been trying to

get him on our side of the field ever since. There is no question he'll do an outstanding job overseeing the con-

tinuing development of our Dallas products."

Steal enthused, "I'm excited about the opportunity to work more closely with J.D. Freeman, KEGL PD Greg Stevens, Tom Owens, and Jacor's entire braintrust. Our brand of fun and exciting radio will continue to accelerate both KDMX and KEGL in ratings and revenue."

Prior to joining KDMX a little over a year ago, Steal spent five years programming WKRQ/Cincinnati. He has also held APD/MD positions at KEGL and WHLY (now WXXL)/Orlando.

## Jacor: Sale Signals?

Jacor has set up "golden parachute" agreements with its top executives that would take effect in the event of a sale, raising speculation that the company is preparing to be acquired, according to the *Cincinnati Business Courier*. Company officials have reportedly responded that the timing of the agreements proves just the opposite, but analysts who cover Jacor are calling the timing "too coincidental."

The agreements, which took effect June 12, were revealed recently as part of the company's quarterly financial statement filed with the Securities and Exchange Commission.

"The new agreements do not necessarily mean a sale will come soon, but there's some movement afoot," says Mark Longenecker, a Cincinnati attorney who has been involved in drawing up similar agreements. "Either the executives or the controlling shareholder [Sam Zell] want to get the agreements in place before a transaction takes place. If they wait until after a sale, directors could be subject to a claim of breach of fiduciary duty."

Under the agreements, Jacor CEO Randy Michaels and 14 other top executives would receive lump-sum payments equal to three years' worth of salary and bonuses, should a new owner dismiss them or require them to relocate to another city. They would also become immediately vested in all stock options, which would then be cashed out in a single payment, the *Business Courier* reports.

Michaels' personal payoff would be at least \$45 million, which includes his interest in Jacor's Critical Mass Media. Total payouts for the five highest paid Jacor executives would be close to \$100 million.

"Putting those agreements in their [quarterly financial report] is a big sign," said a securities analyst who follows Jacor, speaking under condition of anonymity. "It's consis-

## As The Formats Turn

It was an action-packed episode of *As The Formats Turn* this week. WPUP/Athens flipped to Active Rock last Friday (9/4) at midnight. The station, which had been a Classic Rock-New Rock hybrid since Southern Broadcasting Companies purchased it in March 1997, is now consulted by Bill Jacobs of Jacobs Media.

"I think we were on-target when we went Rock last year, but the ability to focus a little bit younger and Rock a little bit harder will make the station much more high-energy and enjoyable to listen to," commented OM/PD Benji Kurtz, who oversaw the flip with Jacobs. Artists comprising 'PUP's new library include Stone Temple Pilots, Guns N' Roses, ZZ Top, Aerosmith, Def Leppard, Nirvana, and Ozzy Osbourne.

Concurrent with the flip, part-timer Kris Harris has been upped to APD/MD and has joined the Erin And Kris morning show, while continuing to host the Friday night Hard Rock show *30 Minutes Of Rock*.

As hinted here last week, WEFX/Norwalk flipped from Classic Rock to Mainstream Rock on Saturday (9/5). "Our new Mainstream format is going to do well in the market," comments new PD Ralph Tortora. "It was desperately needed. I'm very happy to finally be

## Stern Invades Denver Radio Market But Loses Another TV Affiliate

Howard Stern

Howard Stern is finally getting his hands on the elusive Denver radio market. Tribune's Classic Hits KKHK (The Hawk) has signed Stern for mornings, effective September 14, *fmqb* has learned. Meanwhile Stern's TV show lost its third affiliate in as many weeks.

The predictable avalanche of media hoopla that accompanies a new Stern sign-on is well underway in Denver: "He's gross. He's disgusting. He's yucky. And he's about to be ours," *The Denver Post* warns.

Stern came close to landing a Denver radio partner in the past but Jacor ultimately decided against putting his syndicated show on KBCO, to protect Lewis & Floorwax at Classic Rock sister KRFX. Now they'll compete with Stern, whose show will air live on The Hawk from 4 A.M. until 6 A.M., followed by a complete, two-hour tape-delayed version commencing at 6 A.M.

With just one rocker competing against Jacor's four Rock stations, Tribune Denver Radio VP/GM David Juris figured he needed to drop the big one. Research uncovered "a significant void for an entertaining morning show," he says. Promising "fairly significant movement," Juris claims 20% to 25% dissatisfaction levels among morning show audiences at Denver Rock and Talk stations that Stern would likely siphon listeners from.

Unlike his early syndication years, when he was heard on mostly Classic Rock outlets, Stern has lately focused on Alternative and Active Rock affiliations. How will he fare married to Classic Hits? "The perception is that he [appeals only to] males 18-34 but, in fact, he has extremely strong appeal 35-49," Juris contends. "It's really an adult show."

KKHK is Tribune's first Stern encounter. The station currently has no PD, following Lois Todd's recent resignation over "philosophical differences."

Stern is also adding WPXC/Cape Cod to his radio empire, but things aren't looking as rosy on the TV front. *The Howard Stern Radio Show* has lost three

**STERN** *continued from page 11*

stations in three weeks. The latest cancellation comes from KUSI-TV, an independent station in San Diego, where Stern's radio program airs on KIOZ. The Fox affiliate in Lubbock and the ABC affiliate in Phoenix were first to dump the CBS-TV show due to its raunchy content.

Stern's ratings continued to decline in his third week on network TV. The September 5 installment of *Radio Show* posted a 2.9 rating in the 30 metered markets where Nielsen measures overnight ratings, down from a 3.8 in week No. 2 and a 4.9 in its debut week.

The King may soon get his day in court to settle a protracted lawsuit he lodged against **Evergreen Media** after they dumped his syndicated radio show from WLUP-AM/Chicago in '93, after only 10 months on the air. Evergreen — a precursor to Chancellor Media — said then that the show's FCC woes made it too hot for them to handle. Stern sued for breach of contract and fraud. The original \$45 million claim has since been reduced to \$25 million, and could come to trial in New York in the next few weeks, according to the *Chicago Sun-Times*.

tent with speculation in the marketplace Jacor will be sold."

"One of the bones of contention that has impeded a deal to sell Jacor in the past is the future of Randy and his team," said another anonymous analyst. "[Jacor Chairman] Sam Zell has a certain amount of allegiance — he likes Randy's team."

First Union analyst **Bishop Cheen** commented, "Jacor's been a hunter and a hare. It's positioned itself to do a lot of things — selling is one of them."

Calls to Jacor officials were not returned by *fmqb's* presstime.

working with [Atlantic Star's] **Harve Alan**. He and I worked together years ago at WBAB and often talked about doing something together."

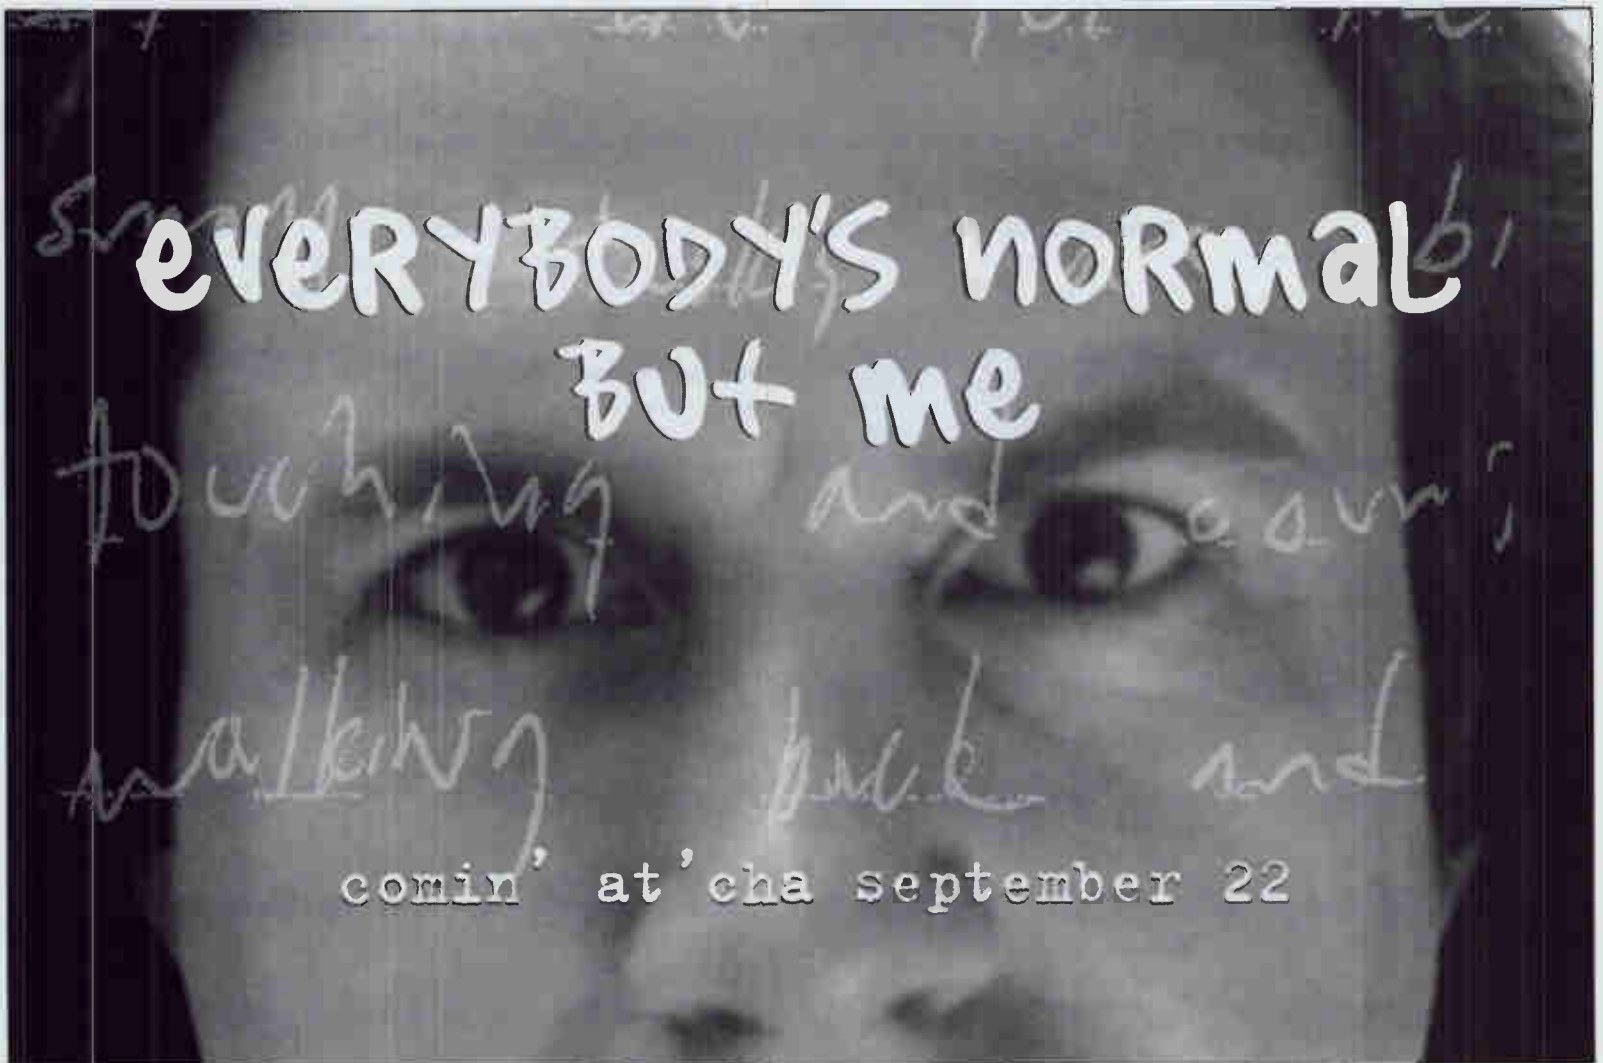

Meanwhile, on the other side of the continent, Jacor has grounded its Phoenix "Eagle." Operating just one Rock product in a market the size of Phoenix isn't Jacor's M.O., especially when it's not a big ratings winner. Such was the case with Classic Hits KGLQ, one of two Sun City stations to fall into Jacor's hands via the Nationwide deal. Rather than continue to slug it out with Sandusky's three-headed Rock cluster, The Eagle flipped to Hot AC Friday afternoon (9/4), to complement CHR-leaning Modern AC KZZP and join Jacor's growing national "Mix" network. 'ZZP PD **Dan Persigehl**, who now programs both stations, says "The New Mix 96.9" is 60% '80s, 25% '70s and 15% '90s. The Eagle airstaff is out in favor of a jockless rollout. The new call letters are KMXF.

WDRK/Panama City also flipped last Friday, from Active Rock to what PD **Mark Murphy** calls "Lite Rock." The station, now calling itself Lite 107.9, began spinning 10,000 songs in a row at 5:30 P.M., which Murphy expects should go on for about a month-and-a-half. Now jockless, 'DRK is not currently searching for an airstaff.

In Knoxville, Modern Rock WNFZ became the latest station to adopt the "Extreme Radio" moniker. Along with the new positioner, 'NFZ is now airing what PD/MD **Shane Cox** describes as a heavier Alternative format, focusing on Metallica, Tool, Rage Against The Machine, KoRn, The Flys and other edgy artists. Knoxville's Extreme has replaced roughly 30%-40% of its music library.

And Modern Rocker KHTY/Santa Barbara was set to change formats around 3 P.M. Sept. 10, though the new format wasn't certain at presstime. PD/MD **Deanne Saffren** said she heard rumblings that Classic Rock could be a possibility.

# ALL THE DIRT

THAT FITS

## HERALD PULLS ADDS OFF

**WBCN** In a move precipitated by questions posed to him during a recent interview on WBCN/Boston by afternoon personality **Nik Carter**, *Boston Herald* publisher **Pat Purcell** has pulled what the *Boston Globe* reports (9/3) as "about \$200,000 in advertising off of WBCN's airwaves." The action stems from an August 24 live interview on Carter's show where Purcell allegedly thought he was to be queried about his paper's redesign. Instead, Carter "lit into Purcell in what one observer described as a 'tirade' against the tabloid, questioning its handling of issues of race and homosexuality," the *Globe* reports. In a statement released to the *Globe*, Purcell said, "In the course of the interview at 'BCN, there were charges and accusations made that were not only totally unfounded, but lacking in fairness and decency as well. Because of this unprofessionalism, the decision was made not to advertise with the station at this time." A spokesperson for Purcell, **George Regan**, also told the *Globe*, "It might not be a bad idea for Nik Carter and others at the station to attend a sensitivity course." As for where 'BCN stands on the issue, **GM Tony Berardini** simply told the *Globe*, "I don't want to get involved in commenting about it." The paper also says it asked Berardini for a tape of the interview to which Berardini replied there wasn't one.

## CHANCELLOR REGIONAL VP RESIGNS

Based in Denver, **Skip Weller** oversaw Chancellor's radio properties in Phoenix and Sacramento, in addition to the Mile High City. He resigned that post this week, electing to pursue other interests, like spending more time with his family. No replacement has been named. Meanwhile, Chancellor has yet to replace **Gary Schoenwetter** in the PD chair at KXPK. Denver's Peak has been bleeding audience since early '97 and Chancellor Executive VP of Operations **Kenny O'Keefe** says they'd like to generate higher performance at the station, but haven't determined an exact strategy for the station and the market.

## SFX EXPECTS NO ANTITRUST PROBE

In a report in last Friday's (9/4) *Los Angeles Times*, a spokesman for **SFX Entertainment** denied that the Justice Department is looking into antitrust implications of SFX's pending \$105 million acquisition of **Cellar Door**. SFX Head Of Investor Relations **Tim Klahs** told the *Times* that the company hasn't even filed documents with the Justice Department in regards to the Cellar Door purchase, which was announced in August.

## BAKER LEAVES WARNER BROS.

The former WB Records president had been with the label for 20 years.

**Steven Baker** became label president in '95, but hadn't been running the company since the label group restructured in March. That's when he stepped down as president and took over A&R functions. Now he's decided to leave WB altogether,

## AMRC HIRES EX-SONY EXEC

according to *The Hollywood Reporter*. Both WB Records Inc. CEO **Russ Thyret** and President **Phil Quartararo** praised Baker, with Thyret saying, "Steven's contributions to this company have been very substantial. He is a friend and I'll miss working with him."

## GEFFEN GETS GROSSMAN

**Damon Grossman** will be heading Triple A Promotion for Geffen. He replaces **Jeff Stacey**, who becomes a local promotional rep, based in Detroit. Previously, Grossman was handling national promotion for **Silvertone**.

## VOLK EXITS MAMMOTH

Sr. VP/Promotion **Ted Volk** has resigned from Mammoth Records to pursue other opportunities. Volk joined Mammoth late last year from Geffen Records. Announcement on his new endeavor is expected shortly.

## ANDERSON RED ANT SR.

Industry veteran **Ray Anderson** has returned to the promotion ranks at Red Ant Entertainment in the role of Sr. VP/Promotion.

Consumer Electronics, managing a \$300 million audio/video sales budget and Sony's diverse distribution channels. Earlier in his career at Sony he launched the My-First-Sony™ product line, and Discman™ CD players. As national sales manager, he helped Sony achieve #1 market share in portable audio, developed the company's national forecast system and multi-channel sales strategy. **Jack Wormington** also joins AMRC as Senior VP/Engineering, Technology and Operations. Wormington joins from **Hughes Space & Communications Co.**, where he led the program management and North American sales team responsible for the Hughes' HS-702 satellite. He also worked on high-tech projects for the U.S. Air Force, the Department of Defense, and NASA.

## JACOR'S "ONE-SECOND" ADS

Jacor's Cincinnati TV station, WKRC-TV, has begun airing one-second spots at the top and bottom of every hour for the company's eight Cincy radio stations. In exchange, the TV station receives five-second ads each hour on all eight radio stations. According to *Radio Business Report*

**MCLACHLAN SURFACES AT KNRQ:** It was a one-woman **Lilith Fair** recently as the festival's founder, **Sarah McLachlan**, visited 95.3 the Q in Eugene. (L-R) Q producer **Paul Anthony**; PD **Stu Allen**; **Sarah McLachlan**; MD **Cia**.

(9/7), as part of a larger deal between the two, the radio stations also get traditional 30-second spots on TV. Jacor/Cincinnati Operations Director **Jim Richards** (recently named Jacor San Jose Director/Programming & Operations) told *RBR*, "Does it work? I have no idea. Does it hurt? Absolutely not. It depends on where the juice needs to go. We look at which station is in need of a little extra marketing."

**KQDS GOES TO CHURCH** Rick Church has rejoined KQDS as PD. Church had previously been at the station from 1982-1992, rising from intern to PD/morning show host during his decade there. Interim PD Bill Jones has been named APD/MD/morning man at the Duluth station.

**JACKSON LIKES BOISE** Jacent Jackson is exiting his position as WWDX/Lansing for the PD post at KQXR/Boise, replacing **Tim Johnstone**, who will stay on and do middays. Jackson will also handle the afternoon drive airshift at KQXR. At WWDX, **Jesse Addy** rises to APD/mornings to fill the hole left by Jackson's departure.

**A BOX OF DAHL** Can't get enough of **Steve Dahl** in afternoons on CBS FM Talker WCKG in Chicago? Set aside \$60 for *20 Years In The Can*, a limited edition four-CD set chronicling the best of Dahl's colorful, controversial career. A November release is planned.

**CINCINNATI GETS KISSED** After a Labor Day weekend of teasing that **Rick Dees** would be its new morning man, Jacor CHR WAQZ/Cincinnati 'fessed up with a Clintonesque "apology" delivered by Dees on September 8. "I will not be the morning guy at

the new Kiss 107FM and comments made by me were inappropriate," Dees said. "In fact, they were wrong. They constitute a critical lapse in judgement and a personal failure on my part for which I am solely and completely responsible. As reported first in *Today's Breaking News* on [www.fmqb.com](http://www.fmqb.com), the newly jockless 'AQZ is known as Kiss-FM. New calls WKSF are pending. The Cincinnati Kiss will import some production, audio workparts and artist drops from Jacor sister KIIS in Los Angeles. Look for the new Kiss to start adding jocks from other Jacor markets (via the Prophet system) in another week or two.

**ROCHESTER RADIO ZAPPED** Early on Monday, September 7, following a major thunderstorm, several Rochester radio stations found themselves off the air, including CBS outlets WPXY, WCMF, WRMM, and WZNE, among others. By Tuesday morning WPXY was running the transmitter on generators, but the offices remained closed due to the lack of power. Electric service was restored by Wednesday morning.

**O'TOOLE TOOLS TO SAN FRAN** While former WAXQ/New York personality **Darian O'Toole** was to have started her new morning shift at KSAN last Monday (9/8), the show will now debut this Monday (9/14). "I still have a lot of boxes to pack and a lot of hair to dry," explained the self-proclaimed "Rebel Redhead." Joining her for her 5 A.M.-9 A.M. airshift is **Judd Winick**, a nationally syndicated cartoonist best known for his stint on MTV's *Real World*. This marks O'Toole's return to the Bay Area, following her stint at the now-defunct KBGG.

**ARBITRON ADDS MARKETS** Arbitron will be adding several markets to their survey, including Columbus, MS (#243), Cookeville, TN (#258), Bluefield, WA (#262), and Brunswick, GA (#267). There is also a possibility that Rochester, MN will be added in the near future. *M Street Daily* chalks it up to ownership consolidation: small markets showing growth potential, which are important to groups like Clear Channel and Cumulus, will need to be measured for these companies to prove their stations value to advertisers.

**DUST BROTHERS FORM NEW LABEL** Michael Simpson and John King, better known as production team **The Dust Brothers** (Beck, Beastie Boys, Howard Stern), along with their partner **Mitchell Frank**, have entered into a joint venture with Mammoth Records called Ideal Records. The label will be 50% owned by The Dust Brothers and Frank, and 50% owned by Mammoth. Ideal will be a freestanding label that has the option of using Mammoth's marketing resources for select releases. The brothers Dust and Frank are keeping their Nickelbag label, publishing, film and merchandising businesses separate from this new venture. Sounds like Simpson is taking the Jacor approach to press releases: "After several consultations with a

prominent industry psychic, we were advised that our joint venture with Mammoth should have a new name."

**STARTRACKER 5.0 LABEL-READY** To help record label marketing and promotions departments, Dormont Technologies, Ltd. has announced the roll-out of its new StarTracker® SQL Version 5.0 marketing software and data service. StarTracker SQL Version 5.0 is a Microsoft® Windows-based application that provides instant access to more than 172,000 music related marketing contacts with search and query functions rounding out the system. For instance, users can send a news release and sound byte via e-mail to all the radio station music directors belonging to several trade publications' reporting panels, and physically see where they are in relation to retailers on a U.S. map in less than a minute. Dormont President/CEO **Tom Cossie** tells *fmqb*, "StarTracker SQL Version 5.0 is an efficiency tool that takes all the marketing functions that are typically scattered across departments and ties them all together. So, if a label's marketing departments change in any way or need to be streamlined, those departments can not only operate more efficiently, they can operate in perfect sync."

## SHORT TAKES

Industry veteran and former KMCG/San Diego PD **Judy McNutt** has been named PD at R&B Oldies WXXY-WYXX/Chicago. McNutt replaces **Liz Janik**, who recently returned to her Toronto-based consultancy business... WIIS/Key West afternoon driver **Scott Strange** adds MD duties... Night guy **Reverend** adds APD stripes at KFRR/Fresno... **Jason Ginty** exits his nights/Imaging Director role at KKND/New Orleans... **WLR T/Chicago** (recently acquired by Big City Radio Inc.), has changed calls to

WBRO, continuing to simulcast the Modern format of Big City's L.A. stations along with WCBR. A new format is expected October 15... WAXV/Westerville, Oh. bows in the Columbus market playing Classic Hits and using the moniker Eagle 103.9... SW Networks COO **Todd Sloan** exits... Universal ups Sr. Director of Marketing, **Thomas F. Derr**, to VP of Artist Development... RCA A&R Manager **Pete Robinson** is elevated to Sr. VP of A&R.

**FOAM RIZERS TO THE TOP:** It was all smiles recently as Foam's Scott and Jason took a few minutes to hang out with DC101 APD/MD Buddy Rizer. (L-R): Scott; Rizer; Jason.

## ODDS N' SODS

*fmqb* congratulates KTEG Albuquerque PD **Skip Isley** and his wife **Dana** on the birth of their son, **Jake**. The newest Isley tipped the scales at 7 lbs. 12 oz.

# QUESTION OF THE WEEK

How long does your average music meeting last?  
What was your longest? Your shortest?

(Suggested by WTKX's Scott Gentle)

**MIKE RAPPAPORT,  
WKLC/CHARLESTON:**

The average music meeting usually lasts about 1/2 hour. The longest was one of those four-hour sessions that left me dazed and confused. The shortest was five minutes. It was a no add week.

**ROBIN LEE,  
WZZO/ALLENTOWN:**

Anywhere from three days to three days (really!).

**DON JANTZEN,  
KILO/COLORADO SPRINGS:**

Average is about four days. Longest was six... shortest was about three. We're ALWAYS in a music meeting here.

**GREGG STEELE,  
WZTA/MIAMI:**

It's not the length of the meeting that matters, it's how big your stack is.

**TIM PARKER,  
WNOR/NORFOLK:**

How long does it take to roll some dice?

**BRIAN KELLY,  
WPXC/CAPE COD:**

About an hour. Longest was three hours... shortest was about 10 minutes.

**GUY DARK,  
KQWB/FARGO:**

I have music meetings with the consultants that last about 15 minutes to a 1/2 hour. Sometimes longer if we are discussing non-music issues. I don't have an MD. I am PD and MD.

**BRIAN ILLES,  
WRXL/RICHMOND:**

Anywhere from five to 45 minutes depending on the number of slots to fill.

**JACK LAWSON,  
WKQZ/SAGINAW:**

Realistically, we listen to about two hours of music a week. Our music meeting usually goes about a half an hour. They average out. We always get way more music than we care to.

**BUDDY RIZER,  
DC101/WASHINGTON:**

Our average meeting lasts 30 minutes; we've gone as short as 15 minutes and as long as 45.

**RICH ROBINSON,  
WHTG/ASBURY PARK:**

Way too fucking long. Considering I just figure out what I'm doing myself, not that long. I'm just schizophrenic enough to have arguments with myself and answer.

**ZACK TYLER,  
WTPT/GREENSVILLE-SPARTANBURG:**

I don't know Mike (Boyle), how long do we usually talk? (If Mike wouldn't bother me with this damn question every week, the meeting would last longer.)

**AL JONES,  
KLAQ/EL PASO:**

Music meeting... What music meeting?????

**STEVE RAYMOND,  
WZXL/ATLANTIC CITY:**

What are those? My MD and me pass each other in the hall during a shift change.

**DAVE CLAPPER,  
WMFS/MEMPHIS:**

Our music meetings usually never end. We've constantly got a CD in. Our shortest would be non-existent, because we're always listening to new stuff.

**CHRIS JAMES,  
WTPA/HARRISBURG:**

Average: Two hours. Longest: Three hours. Shortest: About two minutes when we know we're freezing.

**RADIOBOY,  
WKQQ/LEXINGTON:**

First, I have to say that we have two separate music meetings; one meeting solely for Heavy Lenny's records, the other for everyone else. That being said, our longest meeting was six days while we field-tested the new Spice Girls record; ultimately, it wasn't for us. Our shortest meeting was five minutes, considering a local band, Art Geko (they're gonna be the next big thing). Our average music meeting is one to two hours.

**ROB HECKMAN,  
WIYY/BALTIMORE:**

Average: 1.5 hours. Longest: two days. Shortest: we didn't have one.

**DEBBIE WYLDE,  
WAMX/HUNTINGTON:**

That's an ancient Chinese secret.

**DORSIE FYFFE,  
WOXY/OXFORD:**

I usually don't concern myself with the time. An hour maybe? The fall's the busiest time for us.

**VANCE SHEPHERD,  
WQBZ/MACON:**

Yawn.....

**TERRIE CARR,  
WDHA/NORTH JERSEY:**

They average about 45 minutes to an hour. Shortest was a minute and-a-half. Longest was five days.

**MARCUS KING,  
WKLT/TRVERSE CITY:**

Usually about an hour. The longest was probably two hours and the shortest was probably a half-hour.

**JEFF JAGGER,  
WEGW/WHEELING:**

The average is probably 20 minutes to a 1/2 hour. The longest was about one hour. The shortest about five minutes.

**MICHAEL LEE,  
WTFX-WQMF/LOUISVILLE:**

Weeks!

**JOHN ALLEN,  
WZBH/OCEAN CITY:**

Five or 10 minutes. The longest music meeting was 3 1/2 weeks, and the shortest was two minutes and 47 seconds...

**SUMMER,  
WKZQ/MYRTLE BEACH:**

Average one is about 15 minutes. The longest was the three days of the hurricane. We didn't have anything to talk about but music. The shortest was when the CD player broke.

**PAT MARTIN,  
KRXQ/SACRAMENTO:**

Our meetings usually last two and a half hours but that doesn't include all the time we spend throughout the week working on music. The shortest meeting we've had was 15 minutes; the longest was six hours over two days.

## NEXT WEEK'S QUESTION OF THE WEEK

Do you tape band/artist  
interviews or do you do  
them live on-the-air?  
(If you tape them, why?)

(Suggested by Robin Lee/WZZO)

## ROCK REPORT

After serving 16 weeks of his six-month sentence for spousal abuse, **Motley Crue** drummer **Tommy Lee** was released from L.A. County lockup last weekend. According to an Internet post from Crue bassist **Nikki Sixx**, Lee plans to soak up some sun for a couple of weeks, before the band begin rehearsals for the tour in support of their forthcoming *Greatest Hits* package, due October 27. The tour is expected to begin that same day in Boston, with the first leg running through January. Before the band work on another studio album, they are expected to concentrate on solo projects. Sixx is currently in the studio with the first act signed to his Americoma imprint, **Laidlaw**.

With **Rob Zombie's** solo debut, *Hellbilly Deluxe*, the fastest-selling Zombie-related project to date (it moved over 120,000 copies in its first week), the **White Zombie** frontman takes to the road for his first-ever solo tour, with special guests **Monster Magnet** and **Fear Factory**. Catch the hellacious triple-bill in the following cities: 10/6, Albuquerque; 10/8, Austin; 10/9, Houston; 10/10, Corpus Christi; 10/11, San Antonio; 10/13, Dallas; 10/15, Atlanta; 10/17, Dayton; 10/18, Peoria; 10/19, St. Louis; 10/21, Milwaukee; 10/22, Davenport; 10/24, Chicago; 10/25, Akron; 10/26, Philadelphia; 10/28, New York; 10/29, Utica; 10/30, Poughkeepsie; 10/31, Lewiston; 11/1, Worcester; 11/3, Mississauga; 11/4, Detroit; 11/6, Madison; 11/7, St. Paul; 11/8, Fargo; 11/10, Fargo; 11/12, Denver; 11/16, Vancouver; 11/18, Salem; 11/24, Las Vegas; 11/27, Mesa.

As the **Goo Goo Dolls** prepare to drop their new album, *Dizzy Up The Girl*, the band has announced a North American tour, kicking off

October 22 in Santa Ana. Augmenting the Buffalo-based trio on the trek are keyboardist **David Schultz** and R.E.M.'s touring guitarist **Nathan December**. The remaining dates are as follows: 10/23, Las Vegas; 10/27, Austin; 10/29, Biloxi; 10/31, Orlando; 11/1, West Palm Beach; 11/5, Washington, D.C.; 11/6, Philadelphia; 11/9, Erie; 11/10, Toronto; 11/13, New York; 11/14, Boston; 11/16, Detroit; 11/17, Marquette; 11/18, Oshkosh; 11/21, Chicago.

Even though their last studio effort, *Pop*, failed to live up to commercial expectations, **U2** will still be cashing in to the tune of \$50 million for three best-of packages. The first collection, *The Best Of U2 Volume One 1980-1990*, is due out from Island on November 2, just in time for the holiday retail rush. Complementing the set will be a separate B-sides release, which may also be packaged with *1980-1990* in a limited edition double release. The second best-of collection (1990-on), could hit stores by Christmas 1999.

Hooks and harmonies in tow, **dada** return with their new self-titled album and tour. Catch the band in these fine cities: 9/12, Chicago; 9/14, Madison; 9/15-16, Minneapolis; 9/17, St. Louis; 9/19, Denver; 9/21, Lincoln; 9/22, Kansas City; 9/25, Cleveland; 9/26, Dayton; 9/27, Cincinnati; 9/29, Ann Arbor; 9/30, Columbus; 10/2, Atlanta; 10/14, Washington, D.C.; 10/15, Philadelphia.

**Pearl Jam**, **R.E.M.** and former **Soundgarden** frontman **Chris Cornell**, in conjunction with the Washington Wilderness Coalition (WWC), have formally requested a meeting with Vice President **Al Gore** to voice their concerns over the state of the nation's forests and wildlands. The groups and the WWC hope to bring attention to the destruction caused by forest clearcutting and the construction of logging roads in once pristine areas. "This is an issue that hits really close to home for me and the guys," said Pearl Jam bassist **Jeff Ament**. "These forests are being irresponsibly mowed down in our

own backyard and we feel a need to help stop and to let people know what's going on." The WWC is hoping the meeting will take place sometime this fall.

**Duncan Sheik's** sophomore album, *Humming* (due October 6), will feature a tribute to his late friend and fellow singer/songwriter, **Jeff Buckley** on the track "A Body Goes Down." Drumming on the song - and many of the other songs on *Humming* - is **Matt Johnson of The The**, who lent drums to Buckley's debut, *Grace*.

We've got more news about the **John Lennon** box set mentioned in last week's *Rock Report*. Many years in the works, *The John Lennon Anthology*, a massive John Lennon box set is slated for release on November 3 via Capitol Records. Comprised of 100 unsued Lennon recordings — demos, alternate takes, outtakes, television appearances — the four-CD set supervised by Lennon's widow **Yoko Ono**, son **Sean** and **Rob Stevens**, will cull together many of the tracks originally aired on *The Lost Lennon* radio series. The four CDs are each titled after a different stage in Lennon's life and span the years 1969-1980. Disc one is *Ascot*, named after his huge white palatial English estate shown in the classic "Imagine" video and film. *New York City* spotlighting

Lennon's creative and political rebirth in The Big Apple. *The Lost Weekend*, a confused and decidedly unhappy 18-month period spent in L.A. Separated from Ono, John worked and partied with the likes of **Keith Moon**, **Harry Nilsson**, **Ringo Starr** and **Phil Spector**. Finally, the last installment, *Dakota*, charts Lennon's home demos, many recorded on a boom box during his house husband days. Demos of "Watching The Wheels," "Dear Yoko," "Whatever Gets You Through The Night," "Mind Games" along with unreleased tracks like the **Bob Dylan** parody "Serve Yourself," "Sally & Billy" and "Dear John," the last song Lennon ever wrote, are likely inclusions. A sumptuous 60-page booklet including rare photographs, liners, commentary and Lennon artwork will house the collection.

**Elvis Costello** is a true musical chameleon. From his days as a New Wave pioneer to his forays into Classical music, Country and Western, Stax/Volt and Motown, and impressionist Pop, he has always been a brave artist, less concerned with commerciality and more with developing his artistry. Costello's new CD, *Painted From Memory* (Mercury), a collaboration with famed composer **Burt Bacharach**, is a wonderful and magical listening experience that

**2 SKINNEE J'S MAKE A HOLLYWOOD FRIEND:** While touring in support of their Capricorn debut effort, *Supermercado!*, 2 Skinnee J's rolled into L.A.'s Key Club where they found a fan in actor **Corey Feldman**. Pictured (L-R): 2SJ's **Special J**; **Feldman**; 2SJ's **AJ Stumpy Johnson** and **J. Guevera**.

further elevates Costello's hal-  
lowed reputation. Slated for  
release the last week of September,  
*Painted From Memory* is a sophis-  
ticated and challenging record,  
expertly mining Bacharach's clas-  
sic songwriting abilities with  
Costello's incisive lyrical and musi-  
cal edge. The result? A marvelous  
uplifting record resplendent with  
surprising and often eclectic musi-  
cal vistas. "This House Is Empty

How surprised do you think we  
were to find a great Pop tunesmith

Wave installment. A massive and  
scholarly undertaking, the tomes  
— each devoted to a particular era  
or genre — provide exhaustively  
detailed entries on thousands of  
artists and groups. Every entry  
includes a concise bio, complete  
discography, and up-to-date album  
ratings. Also included are incisive  
historical and subjective context of  
how each act/group's contributions  
should be assessed and evaluated.  
Unlike other Rock reference books  
of its type, these tomes go the extra  
yard, yielding copious and previ-  
ously unknown information. From  
the obscure (Philadelphia's late  
'70s/early '80s New Wave combo  
The A's to name one) to the most  
familiar, it's all here. These refer-  
ence books are wholly indispens-  
able for both the music fan and  
radio station.

Punk Rock didn't start with the  
**Sex Pistols**, **Clash** and  
**Ramones**, but back in the mid-  
'60s with an endless array of strug-  
gling groups, most honing their  
craft in garages, all primed to cap-  
ture some of the magic and raw  
power of such bands as **The**

**Rolling Stones**, the **Yardbirds**  
and the **Kinks**. *Nuggets: Original  
Artyfacts From The First  
Psychedelic Era 1965-1968* (Rhino  
Records) is a terrific four-CD col-  
lection that shines the spotlight on  
many of these worthy, yet often  
obscure groups. A continuation of  
1972's critically acclaimed *Nuggets*  
collection compiled by future **Patti  
Smith** guitarist **Lenny Kaye** (a  
record included here in its entire-  
ty), this generous bounty of musi-  
cal riches is a raw and defiantly  
sweaty celebration of the joy of  
knowing three guitar chords  
pumped up by wide-eyed ambition,  
innocence and heart. Included are  
such well-known jewels as "Lies"  
by the **Knickerbockers**, the  
**Standells** with "Dirty Water,"  
"Psychotic Reaction" by **Count  
Five**, "Incense And Peppermints"  
by **Strawberry Alarm Clock** (a  
band that featured **Ed King**,  
future lead guitarist in **Lynyrd  
Skynyrd**), "Pushin' Too Hard" by  
**The Seeds**, the Frat-Rock splen-  
dor of "Wooly Bully" by **Sam The  
Sham & The Pharaohs**, **Ted  
Nugent's** band the **Amboy Dukes**  
with "Journey To The Center Of  
The Mind," and the timeless  
"Louie, Louie" by the **Kingsmen**.  
These well-known tracks are but-  
tressed by a dazzling assortment of  
equally vital and supercharged  
Garage Rock glory. One listen to  
the glorious **Byrdsian** jangle of the  
**Choir's** "It's Cold Outside," "Open  
My Eyes" by **Nazz**, **Todd  
Rundgren's** '60s troupe, "Live" by  
the **Merry-Go-Round** (a song cov-  
ered by the **Bangles**), the bruising  
tough sound of the **Remains** with  
"Why Do I Cry," and "The Witch" by  
the **Sonics**, among others, provide  
more than enough amped up  
morsels to satiate the appetite of  
the serious Rock fan. A spectacul-  
ar booklet packed with rare photos

and featuring commentary by  
**Lenny Kaye** and noted Rock  
scribes **Greg Shaw**, **Alec Palao**  
and **Mike Stax** round out this  
definitive look at Garage Rock.

Highly cool collective **UNKLE** fol-  
low the top five appearance of their  
*Psycence Fiction* album by releas-  
ing a limited edition single from it,  
"Rabbit In Your Headlights," on

October 12. It features vocals by  
**Thom Yorke** of **Radiohead**, and  
mixes by **3D** of **Massive Attack**,  
**David Axlerod** and **The  
Underdog**.

**Pulp's** *Live At Glastonbury*  
album, a seven-track, 40-minute  
recording of part of their set on  
the closing night of this year's festi-  
val, is released on September 14.  
The album won't be available sepa-  
rately, but as a bonus CD with  
their current *This Is Hardcore*  
album, for £1 more than the regu-  
lar album. But for **Pulp** fans who

already have the studio set and  
have previously responded to those  
pesky little inlay database cards,  
there'll be the chance to buy the  
live record by post for £5, plus £1  
p&p. **Pulp's** winter U.K. tour will  
start on November 17 in Hereford.

**Marillion**, now signed to **Raw  
Power/Castle** and still boasting a  
big fan base, release the new  
album, *Radiation*, on September  
21, with the single "These Chains"  
out on the 14th. The new set, pro-  
duced by the band with engineer  
**Stewart Emery**, follows last

year's Top 30 album, *Strange  
Engine*.

Fresh from the stack of great  
reviews for recent live appearances  
at **Paul Weller's** Victoria Park  
show and at the Guildford Festival,  
**Ian Dury and the Blockheads**  
have announced their first U.K.  
tour since 1982. Mixing new songs  
from their acclaimed *Mr. Love  
Pants* album with old favourites,  
they'll start at the Olympia in  
Dublin on October 9, with a  
London date at the Forum on the  
18th and a closing show at

Portsmouth Guildhall two days later.

Much-loved, quintessentially '70s combo **Mott The Hoople** have their career celebrated with a three-CD boxed set, *All The Young Dudes: The Anthology*, released by Columbia on September 14. The 62-track set includes 37 previously unreleased tracks, including a rare lead vocal by **David Bowie** of his title track song that became Mott's biggest and best-known hit. But the most exciting and surprising news for Mott devotees is that four of the original members, **Ian Hunter**, **Mick Ralphs**, **Dale Griffin** and **Verden Allen**, will reunite to play an informal in-store set at the Virgin Megastore on the 16th to support the release, which since the band split rather acrimoniously at the end of 1974 is, we reckon, the first time they will have appeared together in 24 years.

Polygram TV's next compilation project is a *Greatest Hits* collection by the **Steve Miller Band**. Marking the 30th anniversary of their first album, the collection includes all their best-known songs and hits the shops on September 28.

**Asian Dub Foundation**, who've just been supporting the **Beastie Boys** on some West Coast dates in the U.S. (at the Beasties' personal request), have the limited edition EP *Naxalite* out on September 14. The Mercury Music Prize-nominated ADF are restricting the EP to 5,000 CD copies and 2,500 on 12-inch vinyl. Liverpoolian singer-writer **Ian McNabb** has completed a new "stripped down" album, *A Party*

*Political Broadcast On Behalf Of The Emotional Party*. He's releasing it on his own Fairfield Records label on October 12 and supporting it with a huge U.K. tour that begins on October 10 and stretches right through to December 13. The album features contributions from ex-**Waterboys** **Mike Scott** and **Anthony Thistlethwaite** and bassist **Danny Thompson**.

**All Saints** sold 116,000 copies of "Bootie Call" last week to achieve their third consecutive U.K. #1 single, ahead of **Five's** "Everybody Get Up" which came in at two, with "Crush" by **Jennifer Paige** at four. **Sheryl Crow's** "My Favorite Mistake" opened at nine, **Aaliyah's** "Are You That Somebody" at 11 and **Aerosmith's** U.S. chart-topper "I Don't Want To Miss A Thing" at 12, a new U.K. career best for the veteran rockers. "Sunmachine" by **Dario G** entered at 17, "Celebrity Skin" by **Hole** at 19 and **Tin Tin Out's** "Sometimes," with vocals by **Shelley Nelson**, at 20. Everything's still rosy for **Boyzone** on the album chart: *Where We Belong* stays at #1 with just shy of a further 50,000 copies sold last week. **Mike Oldfield's** *Tubular Bells III* entered at four, the **Divine Comedy's** *Fin de Siecle* at nine and **James Horner's** *Back To Titanic* at 10.

## DAILY INSIDER

**LADIES TIRED OF NOVELTY CHARGE:** Although the song was written by his partner, Ed Robertson, **Barenaked Ladies'** Steve Page doesn't mince words when it comes to defending "One Week" against critics who call it a novelty record. "It's driving me nuts," he complained to the *Los Angeles Times*. "People are so mean sometimes. I see the way it makes other guys in the band mad and some of those guys don't even write the songs. I sometimes think those barbs are aimed directly at me." Page knows he's got to "stop thinking about it that way." "They are just people who don't like it and that's fine," he said. "I wish those people weren't Rock critics." ... In other band news, **Barenaked Ladies** follow their H.O.R.D.E. Festival tour with their own headlining tour beginning October 1 in Pittsburgh. The H.O.R.D.E. Fest wrapped up last weekend in Portland. John Popper of **Blues Traveler** jammed with them on some of the H.O.R.D.E. dates. The Ladies said H.O.R.D.E. presents the right kind of festival atmosphere. They also believe they won over a lot of new fans, particularly younger ones. "It's All Been Done" is being readied as the follow-up to "One Week." Jason Priestly is reportedly also planning to make a documentary about the band while they're on the road.

**VIRGIN, KoRn TAKE MANHATTAN:** New York police had their hands full with Rock fans recently. **Marilyn Manson**, **N Sync**, **Lauryn Hill**, **Juliana Hatfield**, and **Petula Clark** joined **Richard Branson** for

the opening of the 15th Virgin megastore in North America and the second in Manhattan at the corner of 14th Street & Broadway. On the same day, August 28, more than 5,000 fans were left waiting outside the Sam Goody store in Greenwich Village when police shutdown an in-store appearance by **KoRn**. The band signed about 1,500 autographs in two hours before they were given a police escort back to the airport in New Jersey where their private jet was waiting. One police sergeant described it as "the biggest in-store we've ever seen in New York City and even crazier than when the **Spice Girls** were here."

**MATCHBOX 20:** Matchbox 20 fans are being asked to bring jackets, socks, tennis shoes and sleeping bags to shows to donate to **Children Of The Night**, the non-profit group which shelters runaways and homeless children between the ages of 11 and 17.

**CREED:** On the first anniversary of its release last month, **Creed's** *My Own Prison* had its biggest week yet, selling 50,567 copies. **Creed** are currently on tour with label mates **Finger Eleven**. Both bands are giving Interactive CD singles to the first 200 fans at each show.

**FARM AID FISH FRY:** **Hootie And The Blowfish**, **Phish** and **Martina McBride** are joining **Neil Young**, **Willie Nelson** and **John Mellencamp** at the 11th Farm Aid Concert on October 3. The benefit, also featuring **Steve Earle** and

**ZOMBIE EATS "CROW," FED UP WITH STUDIO SYSTEM:**

With *Hellbilly Deluxe* debuting at number five on the charts, Rob Zombie is enjoying more success as a musician than he is as a filmmaker. A year ago, he announced that he would be writing and directing *The Crow III*, naively unaware of how major studios work. Zombie was paid for the 18 months he worked on the script, then was told they wanted to take *The Crow* franchise in a completely different direction. "They wanted to take out all the references to the crow in my script and turn it into a new movie," says Zombie. "I think my script was just too out there." Zombie tried to rewrite it but he got fed up with the process. He had already put two years into it and he had barely accomplished anything. "I was sick of sitting around having meetings," he explained, "so I decided to go make a record." He doesn't know how many millions of dollars were sunk into *Crow III*,

but he does know "none of it is ever going to go on the screen." Zombie, whose work has obviously been heavily influenced by film, hasn't given up his goal of making films but he has given up on the Hollywood studio system at least for now. "For the money that was spent developing a movie that never got made, we could have made ten movies," says Zombie. "To spend two years on something and have basically nothing to show for it really drains the life out of you. You work forever and then someone goes, 'Changed their minds.'" Zombie has friends who are special effects artists and will work on \$1 million projects only to have the director say, "I changed my mind." One good thing did come out of the experience though. He met a lot of people in the indie world who are willing to finance projects. "I don't want to make a \$30 million movie," says Zombie, "I'd rather get a million bucks and go make something crazy."

**VAN HALEN:** As part of the 20th anniversary celebration of Van

Halen's debut album, DCC Compact Classics will release the self-titled album in 24-karat gold and 180+ virgin vinyl on October 13.

**MICHAELS HOPES FANS SEE FILM, NOT SEX TAPES:**

President Clinton probably feels "pissed off" about his private life going public if he's anything like a Rock star. Bret Michaels is juggling the release of his new film and album, *A Letter From Death Row*, with giving depositions of his own in the case of his sex tapes with Pamela Anderson Lee. He's scheduled to give his next one in mid-September, just days before his first show in a year at the Roxy in Los Angeles on September 26. The album comes out October 6 and the movie will have a limited theatrical release starting November 17. Although he's had little luck keeping the sex tapes off the Internet, Michaels was relieved when he got an injunction preventing 200,000 copies from hitting Tower Records. "I'm not saying what he did was right," Michaels says of Clinton, "but this should be

something that he and his wife, daughter, Monica Lewinsky and their lawyers sit in a room and resolve. It's not for the whole world to debate. Having your privacy invaded is probably one of the worst things that can happen to a person because it takes away any sense of having anything hidden." Michaels is confident he'll have his day in court — and that scares him. He explains: "The scariest part is who did it. Is it one of her best friends or one of mine? Who around me that could still be in my life did it? They have to divulge every bit of information in court. It could be one of my best friends who says, 'Okay it was me, sorry, I needed the money,' and I could have been out with him the night before." Michaels believes Lee also wants to keep the tapes private. He hopes he's not the butt of the joke, a case of "Whoops, it slipped out and we'll act mad but we're really not."

**MARCY PLAYGROUND TO RELEASE SONG ABOUT SONGWRITER:**

Marcy Playground follow their H.O.R.D.E.

**HONEY PLEASE, SAY CHEESE:** Capitol Modern Rockers Sonichrome played to a packed house recently at L.A.'s Dragonfly, in anticipation of their label debut, *Breathe The Daylight*. Following the show, the band mugged for the camera with label staffers. The lead track, "Honey Please," is at radio now. Pictured (L-R): Sr. VP/GM, Lou Mann; VP/Video Production, Kate Miller; Sr. VP/A&R, Perry Watts-Russell; EMD Executive VP/Sales & Marketing, Gene Rumsey; Executive VP, Liz Heller; Sonichrome's Chris Karn; President, Roy Lott; Sonichrome's Craig Randolph and Rodney Mollura; Sr. VP/Sales, Joe McFadden; Associate Director/A&R, Marshall Altman; Steve Stewart Management's Michael Goldberg; Sr. VP/Promotion & Marketing, Phil Costello; Steve Stewart Management's Steve Stewart.

Festival shows with their own club and theater tour this fall. Pete Droge and Garrison Starr will support on most dates on the first leg, which begins September 19 in Brunswick, Maine. They are releasing "Sherry Fraser" as the follow-up to "Sex And Candy" and "Saint Joe On The Schoolbus." Kevin Kerlake has already directed a video for the song, which is about a songwriter who collaborated with the band's John Wozniak on one song of their platinum, self-titled debut album. He wanted the song to be released after "Sex And Candy" and describes it as one of the few love songs he has written. "She was my songwriting companion for about nine years and we were madly in love," he says. "I went off to live the rest of my life alone and so did she, but we're still the best of friends." Wozniak has since married and has a two-year-old son. One reason he is pleased that the song is coming out is that it will put additional money in Fraser's pocket so perhaps she can make a record of her own. He describes her as "a bit of an introvert and not very business minded." "It's probably to her credit," he says, "because I don't think it would suit her very well since she is so focused on music and her life. The negative side of that is she also tends to forget there is potential to have a life where you can make a living from music. She needs people to help her out in that regard, but she hasn't had anyone offer yet except me." Wozniak predicts that once the world discovers Fraser, "I'm sure she'll be huge."

**SISTER OF ALLMAN BROS. MEMBER FENCES OFF HIS GRAVE:** Candace Oakley, the sister of the late Allman Brothers member, Berry Oakley, has angered city officials in Macon, Georgia by erecting an eight-foot chain link fence topped with razor wire to keep people away from her brother's grave. The gravestones of Oakley and Duane Allman have been vandalized by thousands of visitors since the early '70s when both musicians were killed in motorcycle accidents just one year apart. Candace Oakley says she has asked the city for help for years with no success, and she

plans to leave the fence up. She called the grave sites "a freak show with a carnival atmosphere."

**EX-GARCIA EMPLOYEE SCREAMS FOR ICE CREAM FEE:** A former employee of Jerry Garcia has sued his estate for half the \$400,000 it receives annually from Ben And Jerry's Cherry Garcia ice cream. Suzanne Stephens started working for Garcia and the Grateful Dead in 1974. She claims she was terminated in July, nine days after she showed her employers a copy of a severance agreement she and Garcia drew up in 1993 guaranteeing her the income for life if she ever stopped working for him. Stephens' job ended when Garcia died but she continued as Chief Financial Officer and Director of one of his companies, Consensus Reality, until July 29. Executors of Garcia's estate say the claim should have been presented earlier and is now barred under the law.

**ELTON CRITICAL OF "COMMERCIALIZING" DIANA:** Elton John says some of the things that have been done in Princess Diana's name have been "extremely tacky and extremely thoughtless" toward her two sons. In a wide ranging interview with the *Sunday Telegraph* in Britain, John said he wished the princess had been buried at Westminster Abbey instead of an island on the family estate, where people have to pay to see her. Elton said he didn't think making it a "commercial enterprise" was the way to honor Diana and placing her in the Abbey would have made it easier for everyone — including her sons — to visit her and say a prayer. He also took a few shots at himself for "Candle In The Wind 1997." "There was a joke going around Italy that if people saw me, they'd cross themselves and cross the road," said Elton, "and I did begin to see myself as a messenger of death."

**KING'S X:** Texas trio King's X launch a national tour October 8 at Tramps in New York in support of their latest album, *Tape Head*, due October 20 on Metal Blade Records.

**JOHN MELLENCAMP:** The man who once sang about "Little Pink Houses" is now suing the company which built one for him. John Mellencamp is suing the Eldredge Group which he claims used cheap materials, submitted fake invoices and kept proceeds of discounts that he should have received when they built a house for him on Lake Monroe near Bloomington, Indiana. Mellencamp's suit claims the work was so shoddy, part of the house had to be torn down and rebuilt.

**JEWEL:** Jewel did a lot of recording last year but never had a chance to release anything because her first album, *Pieces Of You*, was still selling so well. Now she has been in the studio again but with a different producer. She has been working with Patrick Leonard, known for his work with Madonna. Jewel could have a new record out by the end of the year.

**THE KNACK:** This was bound to happen. Since Dr. Jack Kevorkian's lawyer is Geoffrey Fieger, brother of Doug Fieger from the Knack, the suicide doctor attended a show in Detroit recently. He left after one song saying he prefers Big Band music.

**MCCARTNEY EXPANDS HOLLY FEST TO CYBER SPACE:** Paul McCartney is expanding his annual Buddy Holly Celebration into cyberspace this year. The Website tribute to Holly features a comprehensive biography of the artist including a full timeline of significant events, photos, songbooks with ordering information, audio clips of 11 songs and links to other Holly-oriented sites including Decca Records and the Buddy Holly Music Festival in Lubbock, Texas. The tribute also includes a personal salute section with quote from McCartney, Maria Elena, Holly's widow, and some of his biggest fans. Visit it at [www.mplcommunications.com](http://www.mplcommunications.com).

**GO-GO'S TO PUBLISH MEMOIRS:** First it was the title of their reunion album, now *Return To The Valley Of The Go-Go's* sounds like it could be a good title for a new tell-all book they're planning to publish. The Go-Go's dug through their personal photo

**DON'T FEAR THE CAMERA:** While touring in support of their new CMC effort, *Heaven Forbid*, Blue Oyster Cult rolled into the label's backyard (Raleigh, NC), for a sold-out WRDU show at The Triangle. Pictured on stage mid-set is BOC singer/guitarist Buck Dharma. (Photo Credit: David Rogers).

archives for pictures for the package of their 1994 reunion album, but they said at the time there were far more compromising Polaroids that they didn't dare show. Now Belinda Carlisle, Charlotte Caffey and Jane Wiedlin are collaborating with *Request* magazine writer Pleasant Gehman on their memoirs. Included in the memorabilia are snapshots of male appendages, all clearly labeled, sort of a Go-Go's version of the notorious Plaster Casters of the '60s.

**FOUR-DISC RANDY NEWMAN BOX WILL CONTAIN RARITIES:** A Randy Newman box set will include a rarity produced by Pat Boone when it is released November 3. The four disc *Guilty: 30 Years Of Randy Newman* contains songs from his regular studio albums and film scores as well as unreleased material. In 1968, Boone co-produced a song called "Golden Gridiron Boy" for Newman before he signed with Warner Bros. Records, where his biggest Pop hit was "Short People." Newman is currently recording a new album with Mitchell Froom who produced Bonnie Raitt's last album.

## THE INSIDE TRACK

WYSP/Philadelphia wants to put you on their payroll! Don't go tidying up your resume just yet though, it's just a contest the station's running to encourage at-work listening. Listeners sending their vital statistics to 'YSP through mail, fax or e-mail are registered in the "94WYSP Puts You On The Payroll" contest. Here's how it works: Once an hour each weekday from 8am 'till 6pm, a name is called and that

person has nine minutes and forty seconds to contact the station. If they do so within the allotted time, they're put "on the payroll" at \$100.00 an hour. The catch is that next hour, someone else's name is called. The only way a listener can stay "on the payroll" is if subsequent listeners whose names are called fail to respond within the allotted time. Good work if you can get it... You didn't have to be a St. Louis station to reflect the hysteria and history of Mark McGwire becoming baseball's new homerun king. Leading up to McGwire's 62d homer, DC101/Washington aired a "Big Mac's Big Fly" contest. Listeners went to the station's web site, clicked on the Mark McGwire icon, and told the station when they thought Big Mac would hit #62. The grand prize: A trip to '98 World Series game. The morning after baseball history was made, Sacramentans could make the home run call live on KRXQ (98 Rock), complete with crowd sound effects, the crack of the bat, and the crowd reacting. Just

for playing sportscaster, 98 Rock rewarded participants with tickets to their Joe Morgan Celebrity Golf Classic... Two girls, a guy and a VW. Nope, that's not the name of a new ABC fall sitcom, it's yet another "live in it to win it" Volkswagen Beetle contest! WRQC/Minneapolis had three listeners live in a car for the duration of the Minnesota State Fair. Fair attendees were able to gawk at the trio as each staked their claim on the car. There were initially four contestants, but one dropped out. Since the remaining three stayed in the contest, tiebreaker rules were followed: each contestant was allowed a 15-minute break outside of the car every three hours. The person with the shortest break time was declared the winner... Just added to WRCX's Rockstock '98 concert: Brian May! It's the former Queen guitarist's only scheduled U.S. appearance this year... At least two stations we know of are ending summer with a bang. Perhaps because Lollapalooza didn't rear it's pierced and tattooed head this summer, WAAF/Boston is presenting "Locobazooka," an all day show featuring 20 bands that will benefit the Green Hill Park Zoo and some inner city youth programs. Some of the bands featured include Brother Cane, Candlebox, Gloritone, Kid Rock and Godsmack. Meanwhile, WZTA/Miami will be celebrating their first annual "Paul & Ron's Kamanawanalei's Luau" (say "kamanawanalei" out loud!). The show, which will benefit Red Cross, will feature Dishwalla, a bikini contest, and comedians. Red Cross will be on hand to accept blood donations. The station will also give away an all-expense paid trip to a Jamaican resort.

### TOP PERFORMERS

#### ROB ZOMBIE "Dragula"

As Dark and Heavy as Rock is supposed to be. Rob is showing the world that radio is ready for his madness. "Rob...Please come to Memphis!"

#### JERRY CANTRELL "My Song"

Die-hard Alice In Chains fans still gravitating to Jerry and his solo album. As solid and poetic as any Chains record.

#### KENNY WAYNE SHEPHERD "Somehow, Somewhere, Someway"

Rock 'n' Roll and the Blues have never sounded so good together. Potential core artist for any Rock station.

#### KISS "Psycho Circus"

The response is enormous. Top five phones before we added it and has not let up yet. A ton of life in this one.

#### LOCAL H "All The Kids Are Right"

Does it get any better? The hook is addictive and the melody mesmerizing. Building each week to one of the most requested songs on 'MFS.

### UP N' COMERS

#### GODSMACK "Whatever"

Look out Tool!!! This band is on the way to being one of the biggest Hard Rock acts anywhere. Thank you, Boston...Feedback already HUGE in Memphis.

#### SECOND COMING "Soft"

And, to think that people assume that the music scene in Seattle is dead! Yeah, right! One of the best riffs of the year, exploding already. Can't wait till Oct. 1st when they arrive with Candlebox. "I'm ready for Second Coming." Are you?

#### SCREAMIN' CHEETAH WHEELIES "Boogie King"

I'm still eating s\*\*t about this one. Surprised me in a big way. I can't help but think that I have become "The Boogie Woogie King on the mountain top." Phones are steady and building.

#### FUEL "Bittersweet"

Although "Shimmer" has been huge for this band, "Bittersweet" will make them more viable for Active Rock.

#### FINGER ELEVEN "Quicksand"

Where in the hell did Wind-Up come from, and how do I get a job there? Proving that Creed was no fluke, Wind-Up helps us in a big way with this one. Tough to top the Creed success, but this has all the ingredients for a smash.

# PROGRESSIVE ADULT RADIO PICKS

## ON THE RIGHT TRACK?

### DAVE MATTHEWS BAND "CRUSH," RCA

Yay! An edit of a Progressive favorite from the first. From the Dave Matthews third (seems like a lot of thirds out right now, huh?) *Before These Crowded Streets*,

"Crush" features the unique instrumentation that we've come to expect from Matthews and cohorts. We know there are those of you that played the full version, you crazy music lovers you, now let the morning guy have some fun.

### LENNY KRAVITZ "THINKING OF YOU," VIRGIN

"Thinking Of You" has been one of our favorite tracks on the latest from Lenny Kravitz, 5, since it hit our desks. Kravitz' tribute to his mother is beautiful and heartfelt.

The track has a lovely soulful and mellow groove that is enhanced by the arrangement, soaring background vocals and a warm wrap-around vibe. For stations that found "Fly" too heavy, jump on this one.

### CONNELLS "SOUL REACTOR," TVT

This song won the award for the laugh-out-loud line of the week. From the Connells latest, and best to date, *Still Life*, "Soul Reactor" is a Rock tune with touches of

Psychedelia that are more than a nod to Brit-Pop influences, without ever loosing the song's textural impact. If you have a history with the band, play it. If you don't, start with here.

## SINGLES/EPS

### STEVIE NICKS "IF YOU EVER DID BELIEVE," REPRISE

Stevie Nicks' "If You Ever Did Believe" was produced by Sheryl Crow (who admitted to having to pinch herself every so often during the process in our interview in last

week's *fmqb*) for the movie *Practical Magic*. The layered harmonies (with Crow) make the vocals swelling and nearly massive and Nicks' trademark sound will be as comfortable as bunny slippers to your audience. "If You Ever Did Believe" should be an easy add for the format.

### GOMEZ "78 STONE WOBBLE," VIRGIN

We loved this advance album so much that we reviewed it last week! We just couldn't wait to share our excitement about Gomez. The album is full of unique sounding

tracks that are inovative and hook-laden. "78 Stone Wobble" is one of those trippy records that comes along all too rarely and helps define our little format. That is, until everyone else discovers our bands. This is one of those times when we should lead, not follow. Jump on this with both feet.

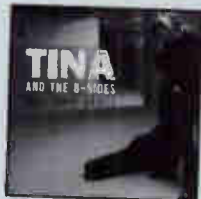

### THE MYSTERIES OF LIFE "DOWNHILL," RCA

We predict that this band won't have much of an uphill struggle with this record. From *The Mysteries Of Life's Come Clean*, "Downhill" is a

hooky, twangy, Roots-Rocker that this format can embrace with enthusiasm. But, hey, don't take our word for it. Give the song a listen and decide for yourself. We're betting on a very bright future for The Mysteries Of Life. Maybe they can coast on the strength of this one. Sorry.

### TINA AND THE B-SIDES "FALL FROM GRACE," SIRE

What a delightful surprise Tina And The B-Side has in store for your ears! "Fall From Grace" has an initial elegance that builds to a solid Rock song, then throws you yet another curve with a combo of Bluesy slide guitar and Techno beats. What will really hook you and your listeners is the smooth, Alison Moyet-like, vocal that Tina maintains

throughout this track. Don't cheat yourself, give a listen to the album version. This, we should own.

### CAKE "NEVER THERE," CAPRICORN

From Cake's next album, *Prolonging The Magic*, "Never There" is destined for greatness at Modern, and forward-thinking Progressive outlets. Cake effortlessly combines styles and odd musical elements in such a way that you're drawn in and mesmerized by what the band has goin' on, despite any other distractions. The only thing that

we found to complain about with this song is that it's too short.

### HOOTIE & THE BLOWFISH,

# ALBUMS

**MUSICAL CHAIRS**  
ATLANTIC/AG

The title of the new album from Hootie & The Blowfish refers to the band's method of recording tunes for this, their third for Atlantic. The band collaborated more heavily on the songs found on *Musical Chairs*, produced by Don Gehman (John Mellencamp, R.E.M., Tracy Chapman), than they had in the past, experimenting with different instrumentation and sharing musical tasks. The songs are a cohesive collection, reflecting a purity of stylistic influences that make for great radio-friendly Rock tracks. Here's our list: "I Will...", "Wishing," "Las Vegas...", "Only Lonely," "Home...", "What's...", and more.

**dada**  
dada, MCA

Well, the Prozac must be working. After spending days listening to new music, you can get a little jaded and cynical. This week's music, including this truly fat album from dada, is just so damn good. This CD was a special pleasure since we've liked dada for years. If you can't find bunches to play from this one, maybe you should take an accounting class. The Beatles influence is fairly obvious, and we know that the band's saluting some more of their favorites on *dada*. Try the sample-heavy "California...", "Information...", "Playboy...", "This Thing...", "Sweet...", "Goodbye," "Beautiful...", "The Ballad...", and more.

**LOVE DOGS**  
HEAVY PETTING, TONE COOL/ROUNDER

We're dancing as fast as we can! The Love Dogs were founded by singer/frontman Ed Duato Scheer in 1994 and they combine the elements of Swing and New Orleans R&B with a sense of humor and musical inventiveness that is often lacking in other retro-Swing bands. The Love Dogs have polished their chops on the road and are destined for legendary status for live performance. It shines through on: "Lock You Up," "Hot Weather Blues," "Too Old To Die Young," "You Don't Care," "Forget About It," "Who Got You, Mama?," "Roll...", and "That's The Stuff You Gotta Watch." KMTT is already playing "Oh Babe!"

**HEATHER MYLES**  
HIGHWAYS & HONKY TONKS, ROUNDER

Heather Myles grew up on a ranch in Riverside, California, where her musical influences included George Jones, Buck Owens and Loretta Lynn. Her family raised thoroughbred horses, and Myles spent days galloping racehorses until the lure of honky-tonks proved stronger than horseflesh. Americana stations will doubtlessly find plenty to play from Myles debut for Rounder, *Highways & Honky Tonks*, including her cover of Charlie Pride's "Kiss An Angel Good Morning" and her duet with Merle Haggard, "No One...", The album is chock-full of radio singles, including: "Love...", "Rock...", "Mr...", and "Playin'."

**EVERYTHING**

# PROGRESSIVE SOLUTIONS

A Problem Solving Forum for Progressive Programmers

## Radio Needs A NEW Generation of Ratings

By Dave Lange

Radio faces a bold new reality that goes way beyond our obsession with consolidation. We've all heard the goals of getting to 10 or 11 percent of the advertising dollar from our current 7-8% levels.

Right now the solutions being explored are various organizations of sales departments, increasing the spot load, and seeking "non-traditional" revenue.

While those are areas we can develop, Radio also faces considerable competition with the new kid on the block chasing advertising dollars — the Web. Look at the huge debut of most Internet stocks. Services like Amazon.com and many others have opened on the stock markets with huge prices — soaring 300 and 400 percent in the opening days. These IPOs have little if any profit to go on and their services are free to anyone with a browser and a modem.

They plan on generating revenue by selling advertising. Their media (the WWW) doesn't even reach 40% of the population and the messages are just now becoming the equivalent of crude billboards — which we wait, and wait, and wait to download. Yet the potential of this media taking large chunks of advertising dollars is real. The key lies in the accurate measurement of the audience, the ability to interact with that audience (click here to order), and the data available from the users.

Data and accurate audience measurement is becoming far more important than mass reach in today's marketing world. Firms want more than speculation that their message may have reached a target buyer. With the Internet you know the "hits" and potentially who these people are with Java scripts and other little Internet tricks. Plus, you know all the audience, not just a random sample that gave you limited data.

Look at the audience research in the average grocery, drug, or retail store today.

Using their membership discount cards and careful analysis of the check-out computers nationwide, they know exactly what's happened every day (even every hour) in sales and who the customers are. They know exactly who's buying now and who's likely to check-out with that new Oreo-Os cereal.

Turning to radio, we live on an audience data collection method that's over 30 years old in its design, and based on pre-computer technology. Only 35-40% of the sample returns the diaries, and with much weighting and balancing for geographic, demos, and ethnic groups, we have estimates. The method of collection relies on the sample writing down and recalling their listening throughout the day, or the week, and nearly volunteering to take on the burden (unless you consider \$1 payment for everything). The data is collected over a three-month period from one to four times a year and is already three-four months old when it's finally published. How many books have you thrown out due to format, marketing, or morning show changes months ago?

There have been advances in qualitative data by integrating with other services (Claritas and Scarborough) and correlating their data with Arbitron's own Retail Direct surveys in some markets. Sample sizes have improved for extra charges. We've also seen lots of computer breakouts of the data with the MaxiMizer programs to the point of estimating where our P2 and P3 audience is at all times of the day. In the end, the data is useful to programmers, but is it useful to firms interested in buying commercials?

Compared to the data available from other media, radio is way behind the times. We could have a service that tracks actual listening (with a credit card or wrist watch meter) from a larger sample with much more background and more qualitative data. The Diary method is not accurate and we all know it. It's a top of mind impression game and often has no bearing on real listening. Even though many of us have learned to live and play

successfully in this lie, it's time to work with the truth — however painful it may be. The others seeking the advertising dollar now have accurate data, radio better follow or lose.

The data needs to be delivered with adequate samples at least monthly in the top 130 markets. Not just trends — but a full report for the month, along with a year-long rolling average. The data also needs to be simplified to Average Audience, Total Audience, Share, and Rank in the various demos, dayparts, etc. — explaining Cume and AQH to new buyers every six months only makes it more confusing. Let's also work with three standard demos (12 Plus - 25-54 - 18-49 or 18-34) and let the rest of the custom demo buys come from MaxiMizer style software.

Who's going to make this — or some similar revolution happen? We have to. Reality is that Arbitron is a very profitable monopoly and most of our efforts now seemed aimed at keeping the large prices paid for these services under control. There's been lot of talk, but action seems far off right now. Either some form of competition is needed that challenges Arbitron to innovate its data collection and delivery, or perhaps Arbitron will see the need and respond. It won't be easy or cheap.

We've all seen how hard change can be in the consolidation side of our industry. Changing the audience measurement rules and methods will also be challenging. The time to act is overdue. Teams are on the advertising field with the promise of faster running backs, stronger passing attacks, and new coaching techniques. Radio's new ownership is betting big bucks with big payouts expected from increased advertising dollar share. It would be a tragedy to lose because of an antiquated measurement system.

## TRANSMISSIONS

Congratulations to the staff of **WFPK/Louisville**. The station held its most successful fund-raiser to date, raising in excess of \$300,000 for the station's capital fund, which will go towards building their new facilities on 4th Street in Louisville. PD **Dan Reed** did comment that they'd be willing to name their new live performance studio after a significantly contributing record company.

Industry veteran and former

**KMCG/San Diego PD Judy McNutt** has been named PD at R&B Oldies **WXXY-WYXX/Chicago**. McNutt replaces **Liz Janik**, who recently returned to her Toronto-based consultancy business.

Modern Rock **WNFZ/Knoxville** is the latest station to adopt the "Extreme Radio" moniker. Along with the new positioner, 'NFZ is now airing what PD/MD **Shane Cox** describes as a heavier Alternative format, focusing

on **Metallica, Tool, Rage Against The Machine, KoRn, The Flys** and other edgy artists. Knoxville's Extreme has replaced roughly 30%-40% of its music library.

Operating just one Rock product in a market the size of Phoenix isn't Jacor's M.O., especially when it's not a big ratings winner. Such was the case with Classic Hits **KGLQ**, one of two Sun City stations to fall into Jacor's hands via the Nationwide

deal. Rather than continue to slug it out with Sandusky's three-headed Rock cluster, "The Eagle" flipped to Hot AC Friday afternoon (9/4), to complement CHR-leaning Modern AC **KZZP** and join Jacor's growing national "Mix" network. "ZZP PD **Dan Persigehl**, who now programs both stations, says "The New Mix 96.9" is 60% '80s, 25% '70s and 15% '90s. The Eagle airstaff is out in favor of a jockless rollout. The new call letters are **KMXP**.

## PROGRESSIONS

Gary, Indiana's **Kinsey Report** have been treating us to their brand of funky street-smart Blues for almost

fifteen years, and have produced four critically-acclaimed albums (two for Pointblank and two for Alligator) and logged endless road miles promoting their soulful and powerful tunes. The band's latest on Alligator, *Smoke And Steel* has already found favor with **WXRT/Chicago**, who added the first track on the album, the scorching "Time Is Running Out." There's plenty for Blues lovers on this release including the band's versions of **Bob Seger's** "Fire Down Below" and **John Fogerty's** "Rattlesnake Highway." We also think that you'll find these have merit: "This Old City," "Can't See The Hook," "Must Be Love," "Down In The Dungeon," and "One Step Back."

Capitol Records will be releasing a 4-CD boxed set collection, *The John Lennon Anthology*, in early November that will contain 100 previously unreleased solo tracks by Lennon, including live tracks by Lennon, home recordings, studio outtakes and television appearances. Each disc will be individually titled: Ascot, The Lost Weekend, New York City, and Dakota. The music and artwork will relate to the geographical location and time period relevant to the era of Lennon's solo career, spanning material from his first solo recordings in 1969 to his last recordings in 1980. Just when you thought it couldn't get any more mouthwatering, the set will also include a sixty-

page booklet of Lennon's artwork, exclusive personal photographs and selections from Lennon's writings, as well as detailed notes and commentary. Yo! Nick Bedding, can we wash your car for you?

Also scheduled for early November release is *Wide Prairie*, the first solo album from **Linda McCartney**. The 16-track CD is described as a 20-years-in-the-making project, with songs recorded and written (with the exception of three covers) by Linda. **Paul** and their son, **James McCartney**, also play on selected tracks on the CD.

Whew, we're not done. **Paul McCartney** returns to the trenches (and we should know) with his next release, *Rushes*, described as an "incognito ambient dance album" by *Billboard Online*. The album will be released using the nom de record, **The Firemen**, which was McCartney's aka for 1993's *Strawberries Oceans Ships Forest*.

After meeting with the President and First Lady during their visit to The Emerald Isle, **U2** signed a \$50 million deal with PolyGram for three best-of albums, the first of which will be released in early November, right in time for the holidays. The disc will be called, rather unimaginatively, *The Best Of U2, Volume One, 1980-1990*. A set of U2 B-sides from the eighties will also be available (oooo!). The two may be combined into a limited edition double release. The post-1990 *Best Of* will probably be released in the fourth quarter of 1999. To date, U2 has sold over 87 million records worldwide.

Front-woman for the San Francisco-based **Jefferson Airplane** (then Starship), **Grace Slick**, shared some interesting thoughts about her upcoming autobiography with the *San Francisco Chronicle* recently. "Charles Manson has almost the same birth sign as me. He has about five signs in Scorpio and I have about four. So I'm real close to being Charles." The more things change... Find out more about Slick's life (according to Grace) when *Somebody To Love* is released later this month. The book was written with the help of **Andrea Cagan** and may or may not include a little dirt about the personality conflicts that marred the band's career.

While **John Mellencamp** has had a good couple of weeks at Rock radio, things are rocky on the home front. No, it's not marital. His lake house was apparently so shoddily built that parts of it had to be torn down and done over, the singer has contended in a lawsuit against the builder. He alleges that the builder, **Timothy Eldredge** and the **Eldredge Group**, fraudulently used cheap materials, submitted fake invoices and kept proceeds of discounts that should have gone to Mellencamp and his wife, according to the lawsuit filed September 1. The home's wood flooring and structure are water-damaged because of construction defects, and the suit seeks unspecified triple damages against Eldredge, who was contracted to build the house on Lake Monroe two years ago.

Despite previous reports to the contrary, no one's digging up **Jim (Morrison)** any time soon. "It's visit-

ed by so many people that it never will be transferred," reports Vincent de Langlade, an expert on the Pere Lachaise cemetery.

In a report in Friday's (9/4) *Los Angeles Times*, a spokesman for SFX Entertainment denied that the Justice Department is looking into antitrust implications of SFX's pending acquisition of Cellar Door. SFX Head Of Investor Relations **Tim Klahs** told the *Times* that the company hasn't even filed documents with the Justice Department in regards to the Cellar Door purchase.

**Ideal Records** will be 50% owned by **Michael Simpson** and **John King** (aka The Dust Brothers) along with their partner **Mitchell Frank**, and 50% owned by Mammoth Records. It's a freestanding label that has the option of using Mammoth's marketing resources for select releases. The brothers Dust and Frank are keeping their Nickelbag label, publishing, film and merchandising businesses separate from this new venture. Sounds like Simpson is taking the Jacor approach to press releases: "After several consultations with a prominent industry psychic, we were advised that our joint venture with Mammoth should have a new name."

**Progressive Picks** are written by **Sybil McGuire**. **Progressions** and **Transmissions** are written by **Sybil McGuire**. **Pro-Formers** are written by **Kevin Boyce**. All sections are edited by **Sybil McGuire** and **Mike Boyle**.

**BRUCE DICKINSON  
THE CHEMICAL WEDDING,  
CMC INTERNATIONAL**

As you've heard from "King In Crimson" and "Killing Floor,"

**Bruce Dickinson** is back with a vengeance! Not content to rest on his laurels as the former frontman of **IRON MAIDEN**, Bruce has challenged himself with his solo output, and the result is *The Chemical Wedding*, his best solo album yet. Using the poetry of **William Blake** and the science of alchemy as a basis for the album, *Wedding* is both lyrically and musically linked together. With both ex-Maiden axeman **Adrian Smith** and downset, producer **Roy Z.** on guitars and producing, Bruce has never sounded so heavy or up to date. Other songs on this deep album include "The Tower," "Trumpets Of Jericho," "Machine Men" and the epic "Book Of Thel." You don't have to be a Maiden fan to appreciate this record, and if you think you've got Bruce pegged, think again!

**PSYCORE  
YOUR PROBLEM, V2**

"If **PSYCORE** is like a film, it's like *Blade Runner*," says the band's frontman **Markus Jaan**. So strap yourself in for one hell of a ride with the London band's debut, *Your Problem*. The band, originally from Sweden, combines elements of Hardcore and Hip-Hop, with an emphasis on hard-driving grooves. Psycore is sometimes reminiscent of **HELMET**, but with a more futuristic sense of technology. The band's only a four-piece, but with the busy rhythms they lay down, and the experimentation with effects and ambience makes them sound bigger than they actually are. The band wants to do as much for themselves as they can, including shooting their own videos and creating their own Web site. Well, after a listen or two to *Your*

# METAL MONSTERS

*Problem*, they should have no problems impacting the Metal charts. Listen to "I Go Solo," "Againandagain," "Fullblood Freak" and "Driven."

**SPINESHANK  
STRICTLY DIESEL, ROADRUNNER**

The following is a true story: This morning while listening to the debut from Roadrunner's **SPINESHANK**, One of Us received a call from a next door neighbor asking if we could kindly turn

down the music. While I'll admit that 200 watts of loud, bass-heavy tuneage at 9:00a.m. isn't exactly everyone's idea of bliss, the end result is the same. *Strictly Diesel* is a reaction record that will have your listeners calling up for more while their neighbors look for new homes. Hailing from Los Angeles, this four-some falls somewhere on the musical map between **KoRn** and **PRO-PAIN**. One minute laying down a funky groove ("Intake"), the next ripping into a fit of rage ("Where We Fall"). These guys do it all! And just when you think you know what Spineshank is all about, they toss a major curve with an intense cover of **THE BEATLES'S** "While My Guitar Gently Weeps." These guys are the real deal! Add it now or start looking for a new format to work in next week.

**SAVATAGE  
"TURNS TO ME," ATLANTIC/AG**

There are only a few bands in the 90's that can be considered "musicians musicians." Bands who still believe that music is more than three chords and distortion. **QUEEN-**

**SRYPHE** and **DREAM THEATER** come to mind, but **SAVATAGE** are also part of this exclusive club. After having enjoyed success with the single "Paragons Of Innocence," which has received extensive play at both Metal and Active Rock, it's time to

look to the future and add their next hit "Turns To Me." This one's a no brainer. Even *Playboy* knows the deal, having recently proclaimed "If you're looking for that Queensryche meets **OZZY** Hard Rock sound, Savatage delivers the goods." We don't know about you, anything good enough for *Playboy* is good enough for us.

**MARILYN MANSON  
MECHANICAL ANIMALS, nothing/INTERSCOPE**

By now, you've all heard the new **MARILYN MANSON** tune, "The Dope Show." Judging from the jump on this week's chart to 15\*, you like it. Well, we're not gonna lie and say we've heard the rest of *Mechanical Animals* yet,

'cause the Manson clan is keeping the wraps on it until Tuesday (9/15). However, if there's one thing we've learned from the band with their first two albums, it's to expect the unexpected. This is the first album without **Trent Reznor's** production touch, with **Micheal Biernhorn (Ozzy, SOUNDGARDEN)** stepping in to turn knobs. With a tour starting in October and millions of little Manson-ites running around, you can be sure that the latest foray into Manson's twisted mind will be reflected on your chart and request lines for the rest of the year, at least. For more info on Manson and the conspiracy surrounding the numbers 1 and 5, see *Stuff You Should Know*.

THE NEW ALBUM, PRODUCED BY ROY Z  
IN STORES SEPTEMBER 15

\* How about that **Rob Zombie**? Not only did his first solo album, *Hellbilly Deluxe*, make a huge 111-point jump on our **Pure Spins** chart, it debuted nationally on *Billboard's* sales chart at #5, with over 120,000 albums sold its first week out!!!

\* **MÖTLEY CRÛE** skin-basher (no pun intended) **Tommy Lee** was released from a L.A. County jail after serving 16 weeks of a six-month sentence for spousal abuse. According to bandmate **Nikki Sixx**, he will be taking a few weeks off (as if 16 weeks wasn't enough rest) before the group embarks on its upcoming tour in support of the new **Mötley Crüe Greatest Hits** release. No word from Lee on if there are any Internet-only, prison sex tapes floating around, but keep your ears peeled for "Bitter Pill," the first single from the new album.

\* Having just returned from a series of shows in Europe and Japan, **THE DEFTONES** will be doing three left coast dates with the **RED HOT CHILI PEPPERS** before embarking on the latest leg of their never-ending world tour. Go to *Tourfile* for details. Also, be sure to check out the Deftones' cover of "To Have And To Hold" on the **DEPECHE MODE** tribute album.

\* **MEGADETH's** **Dave Mustaine** recently got hit by a baseball thrown by a fan while at an Arizona Diamondbacks' game. The fan throwing the ball was no ordinary fan, though. It was none other than Diamondbacks' outfielder **David Dellucci** who plays Megadeth's "Symphony Of Destruction" before each at bat. Before stepping up to the plate, Dellucci saw Mustaine sitting behind the dugout and decided to toss him a ball as a souvenir. Unfortunately, Mustaine wasn't paying attention and the ball hit him, knocking his glasses off and spilling his drink. Dellucci apologized

# STUFF YOU SHOULD KNOW...

and Mustaine took it in stride saying, "It was exciting that he chose Megadeth for his at-bat music and it was great to see him play. Hopefully we will get some time to do something in the off-season." Like practice catching, maybe?

\* 'Tis Almost The Season: The follow-up to the **TRANS-SIBERIAN ORCHESTRA's** *Christmas Eve And Other Stories* is called *The Christmas Attic* and will be released in mid-October. The band is expected to embark on a ten city tour in December and play **Letterman** or **Leno** along the way.

\* From our *The Numbers Of The Beast* dept.: Everyone's favorite Satanist, **Marilyn Manson**, has apparently taken a liking to the numbers 1 and 5. Here are just a few examples: his new album, *Mechanical Animals*, hits stores on September 15; the new Marilyn Manson Web site debuts on 9/15 at 15:00 PST; and, to top things off, his name on the album cover is spelled "Marilyn Man5on." While all of that was planned by Mr. Manson, something eerie happened this week on our charts that he had no control over. His single, "Dope Show," moved up to #15 with 155 spins! What does it all mean? Nothing at all, unless you're concerned about the forthcoming apocalypse and the end of the world as we know it.

\* And now for one of our favorite four letter words...F-

R-E-E: In order to celebrate the release of the new **HELLOWEEN** album *Better Than Raw*, **Vel Vel Records** has created a special Helloween screen saver that can be downloaded for free until October 6 by going to <http://www.helloween.com>.

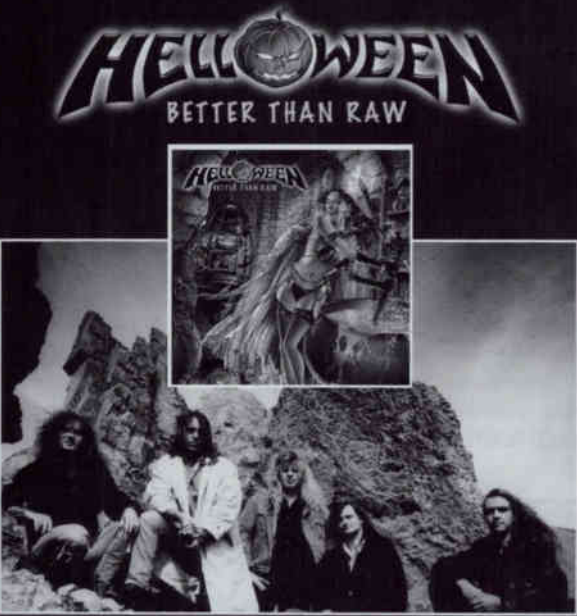

\* From Our *Honor Thy Lemmy Dept.*: **Victory Records** plans to release a **MOTORHEAD** tribute album in March 1999. Artists confirmed for the project so far include: **ELECTRIC FRANKENSTEIN, LESS THAN JAKE, L.E.S. STITCHES, ZEKU, BLOOD FOR BLOOD, INTEGRITY, HATE-BREED, and BLOODLET. RANCID, MISFITS, and NASHVILLE PUSSY** may also contribute tracks as well. If you know of any artists interested in contributing, get in touch with **Victory**.

\* **WYSP/Philadelphia Rockers** co-host/night jock **Huggy** has returned to the airwaves. He had been out for the last few weeks due to health reasons, and we'd like to wish him a safe and healthy return! Oh wait, he's already back - never mind...

\* **WZBC/Boston's** Metal show goes away for at least the semester, and maybe for good. More info as we get it.

You need no introduction to **FEAR FACTORY**. Their third full-length album, *Obsolete*, has been ruling the Pure Spins chart since it came out, claiming the top spot for the sixth straight week. The band's futuristic blend of technology and brutality is the perfect music for the end of the millennium. In addition to perching atop our chart, the album debuted at 77\* on *Billboard's* national sales chart it's first week out, and has sold over 55,000 units so far with mainly Metal airplay. We caught up with guitarist **Dino Cazares** recently.

Let's talk about *Obsolete*. Give us a Cliff Notes version of the theme of the album.

The theme of the record is basically that man is becoming obsolete. In this new chapter, technology has taken over. Man has created these machines to make his life easier, and it's taken a different turn where man has created machines much more intellectual than humans... created machines that were able to create themselves. Machines that were able to evolve on their own without men. Technology is the most useful thing in the world, but in some ways it's something that can really destroy us. Whoever thought that we'd clone each other? We clone sheep. It hasn't happened yet, that we know about. Even if they haven't done it yet, you know they're trying it right now.

Does *Obsolete* have a theme like your last two albums have? When the band formed, did you know that each album would have a continuing concept?

Genetic manipulation is basically what it is. All these records are basically different parts of our story.

Did you know that each record would have a continuing concept when the band formed?

Definitely. We always knew there was going to

# DOWN N' DIRTY

with **FEAR FACTORY'S**  
**Dino Cazares**

be some formal theme about what we were about. "Fear Factory" is a concept within itself. Just the title alone means something. It's anything that causes or excites or makes fear... living in Los Angeles, organized religions, the government, certain world leaders, LAPD. All those are one big giant fear factory. A lot of people think it's just technology, but no, it's us ourselves. It all started back in *Soul Of A New Machine*. Look at every title. Every title's got a meaning behind it: *Soul Of A New Machine*, *Fear Is The Mindkiller*, *Demanufacture*, *Remanufacture*, and now *Obsolete*.

Yes, it shows an evolution of your theme and concept.

Evolution, exactly. *Obsolete*. Is that going to be the end of the concept? We don't know.

Playing the main stage on last year's *Ozzfest* opened the band up to a much larger audience than they've had before. With that in mind, did you do anything on the new album to reach the typical Ozzy fan?

What is a typical Ozzy fan? I really can't answer that question because I don't know what a typical Ozzy fan was like.

I'm thinking the old-school Metal fan, mullet, acid-washed jeans, that whole trip...

When I was making the record I was not think-

ing of the Ozzy fan, I'll tell you that.

Fair enough. How did you hook up with Gary Numan?

For me, Gary Numan has a really big connection with Fear Factory. First of all, when I was a kid I was really into Gary Numan. I was a fuckin' Gary Numan freak. To me Gary Numan's been one of the guys who pioneered the electronic Pop. **Kraftwerk**, of course, was one of the bands too, but Gary Numan was Pop. He's always had these futuristic concepts about his record,

he had a song called "Replica." His concepts are what inspired me today, believe it or not. We met him in England in 1996. We were doing a tour there and we were doing his song, "Cars," live. A girl was doing our lights dated a guy who did Gary Numan's lights, so we made the connection there. He said he'd never heard the band before, so we sent him a bunch of CDs. He really particularly liked *Remanufacture*. He was way into that one. So when the album came about, we wanted to do "Cars." We spoke to him, and we told him we'd like him to come out. He said he'd do it for free. When we picked him up at the airport we had our video camera ready. The minute he stepped off that plane I had my camera on. I was surprised by how down-to-earth he was. So he did the intro to the track "Obsolete" and he and **Burton**, our singer, did a duet together on the song "Cars."

So you have that taped for a B-side?

Right now we're going through a lot of problems. Gary Numan doesn't own the whole song; he only owns a percentage of it. The other percentage goes to Beggars Banquet. Beggars Banquet is making a big deal about it saying we can't release it with Gary on. Basically, it was his biggest hit and they're really trying to protect the song. So we're still negotiating, but we can't do anything with it yet. It came out really good. Hopefully you'll get to hear it soon.

DOWN N' DIRTY *continued...*

How was working with the Vancouver Chamber Ensemble?

That was really cool! That was our producer, Rhys Fulber's idea. He had a band called Delirium, kind of like Enya but more on the electronic side. He experimented with having orchestras come in and play on his albums. He thought that it would be a great idea for songs like "Resurrection" and "Timelessness." It was really kind of cool having this conductor come in and work out the song with us. He's sitting there with his violin, and we're playing stuff on keyboard and I'm playing stuff on guitar and working the song out with this conductor. He was a total geek who didn't really know anything about our kind of music, and ended up liking it. He thought it was really cool.

It's a great way to wind down the record.

That's one thing about Fear Factory, since *Demanufacture* we've always put thought into how the whole record is structured. That's how we like to do it, we like to structure the album.

It literally just kind of winds down.

Yes it does. The last song, "Timelessness," is the most dramatic and passionate song we've ever written. I had to sit down one day with all these record executives and play them the album. We were listening to it, and when it got to the last song and started getting really mellow, there was one person who actually fell asleep!

It's cool the way the "Resurrection" initiates the orchestra into it, but it's still heavy.

We put a lot of thought into this record, how it would be structured.

Any plans for an *Obsolete* remix album yet?

If we did release it, we'd probably call it *Music For Video Games*. We already have this idea. I don't think it will happen. A lot of people like it. The video game world really likes it. Our music is going to be in about ten games coming

out. One game in particular that is going to be really big is "Messiah." The characters are looking more and more human. They've been working on this game for the last two years. It's like Tomb Raider meets Quake. It's this role playing game, different stages, stuff like that. There's actually sections of the game where you've got to go to this computer (this big screen computer) and you've got to punch in certain codes to get information, like where to go and ask what to do. But sometimes when you punch in the code, Fear Factory will appear on the screen. It'll have 12 songs from Fear Factory. Four songs from *Demanufacture*, four songs from *Remanufacture* and two new tracks. One song will exclusively be written for the game, called "Messiah." We're coming out in a million soundtracks for video games. If we do any remixes it'll probably be just for that.

"Resurrection" is your first Rock radio single. What do you think about that?

It's good. It was kind of hard for us at first because of that artistic integrity that we have. Plus you have to edit the song down, so it was kinda of hard to accept it. But the label talked us into it and we're like, okay, this is on your shoulders. If it fails it's your fault and I ain't paying for it. We have

our fan base, but, of course, Fear Factory would like to break into new markets. But when they've got to chop your song in half, that's .... Like I said, artistic integrity. So we decided if it works, go for it.

So between the Ozzfest and playing for Ozzy's birthday party, the Sabbath thing, what's it like meeting and playing with your bands that influenced you and you grew up listening to?

At first, you're extremely excited like, Oh fuck, Ozzy, Oh shit — we get to meet Ozzy, all that. But then after a while when you get to the guys they're just like everybody else, no big deal.

You're still psyched about Slayer, right?

Of course. But, I've known those guys for a long time, even before I had Fear Factory, I knew Tom Araya. We did shows with him before in Europe, festivals. We've done a couple of shows with him in England, just us and Slayer, but we've never done a whole tour with them. After Slayer we'll do Rob Zombie. We were going to do a tour with Rammstein, but they dropped off to do the Family Values tour.

Rob Zombie will be cool, though.

Yes. I just thought it would have

been cool to play with Rammstein because of the technology.

What have you been listening to recently?

I really like the new Beastie Boys. I really like the System of a Down record. I've really been trying to discover new bands here in L.A.

Are you doing A&R?

Yes I am, but on a low key level. I've gotten Coal Chamber, this new band called Spineshank. I'm also trying to get another band called Professional Murder Music. An L.A. band, P.M.M. They're like a more extreme Filter.

Heard any good porn stories lately?

I have a friend who makes porn movies for a living. His name is Matt Zane, and it's called Zane Productions. He calls me once in a while and says "why don't you come down, we're shooting a scene." Basically to see one guy and one girl f\*\*k, it's kinda boring.

So you need to see like eight girls, eight guys.

I told him to call me when he got something more interesting. "Dino, I've got one for you, come down, bring your camera, you can film. Come down!" So I get down and it's a 30-girl lesbian gang bang. It was really cool. I brought my camera, a digital video camera, the exact same one that they use to make the movies. So I'm they're putting make-up on, etc. etc. etc.. So I'm filming this. These girls don't care, they're open, right. There was one girl who was really cool, her name was Allison Chains.

Are any of them Fear Factory fans?

A couple. These girls thought I was part of the filming crew so they act for me. It was really cool. I've got it all on video.

### MD-SUMMER:

HOLY MOLY! Labor Day weekend passed!!! For us, this is a big deal. No, I mean a HUGE DEAL. School is in, it's the official ending (WIPE my tears) of the summer of 1998. Of course, we've felt the rush, the surge of spontaneity where even if you're dead tired, you must stay up and out every night, because all too soon the leaves will turn and everything will DIE!!! We seasonal towns freak out at, well, the end of the season. Anyway, Edwin McCain and Jump Little Children did an excellent show last week. Thanks, JLP, for coming in the studio. We really enjoyed the acoustic. (Johnny, what happened? I guess EM got lost, huh???)...Sister Hazel came to top off [the] weekend Sunday. Crystal Method Tuesday night wicked and wild as expected. Hey, the good news about the Fall/Autumn thing — the ONLY good thing - is great outer wear, you know. (I personally prefer a bikini at work, buy hey!) and, lots of great music. It seems everyone is in the studio looking forward to lots of wonderful product. (We're out.) Hint. Hint. And, good gosh, kids, send me more female artists to play on my show, "Women Rule, Chicks Rock" (all formats) and I, Queen Voice Of The World, will grant them airplay... Ooohhh! We are considering a winter DJ exchange program, so if you want to take a "talk walk" on the wild side working here at KZQ and use one of my guys at your place, call us. It could become quite a trendy little "Jock Jetaway Getaway" from your own station and format weekend. Please note: we do not go to cold places. Thanks to TJ (Wind-Up), the Creed pics were awesome. Bring the guys back soon. Also, Finger Eleven were quite loved here, as well. P.S.: Columbia, please bring Aerosmith to our House Of Blues and let KWS open for them. (See you next week, Dave.)

Another killer week at Rock Radio in the tri-state area! The KISS record is exploding everywhere on phones with an enormous age bracket. Candlebox continues to be a favorite in the region, and speaking of Candlebox, thanks to Bob Hathaway for the tickets to see them at PointFest 10. Also, a tip of the Grizzly hat to Mark Abramson, at TVT, for the great phoner from Gravity Kills' frontman Jeff, and a major thanks to Jon Nardachone over at Atlantic for the Matchbox 20 platinum record. Rock Radio is at a time when there is an incredible amount of wonderful tunage available to us exclusively...Brian May, Blue Oyster Cult, Pushmonkey, Rob Zombie, Candlebox, Second Coming and VAST are just a few acts that make our format so hot at the moment. Rock Radio has always been a leader in exposing new and innovative music, and right now is the best it has been in a long time. **HILAIRE BROSIO  
ELEKTRA (310-288-3842):**

VAST is the future, and the future is now

with "Touched" picking up WNOR, KFRQ, KLJB, and KIBZ! Other supporters include: KRXQ, WZTA, KCAL, WAAF, WIIL, and KLOS leading up to our 44\*-42\* jump on the *fmqb* 18-24 chart and 42\*-30\* move on the *R&R* Active Rock chart. **VAST's** tour is currently taking them into Phoenix, Seattle, San Francisco, and Los Angeles, so come and experience first hand why this is the audio/visual event of the year. **Feeder's** "Descend" is already heating up with early commitments at KUPD, WRQC, and KLFX as we lead into our 9/14 launch date. These boys have been touring the States since February and are currently ripping it up with **Seven Mary Three**. The **Metallica** tour comes rolling to a close this week as we wrap it up with dates in Phoenix, Las Vegas, and San Diego. Big kudos to KUFO and KISW for running squeaky clean operations in Portland and out at The Gorge (awesome venue). Have you heard the new **Phish** track, "Birds Of A Feather?" If you're nice, maybe your Elektra rep will share it with you...but only if you're really, really nice. 'Nuff said.

Ok, here is what's up: On your desk is the

full **Bruce Dickinson**; add it this week. Also adding is the **Psycore** and new **Savatage** single, "Turns To Me." If you don't have them call us ASAP. Now, all these bands are on the road and need you to show them much love. We have tickets and interviews for everybody, so let us know what's up. **Kilgore, Pitbull Daycare, Oppressor, 16 Volt, Sacrifice Isaac and Kid Rock**. We have everything you need, so get them top 10 and heavy spins and we will hook you up. **Monster Voodoo Machine** is out with **Sepultura** this October. Talking about **Sepultura**, the new album, titled *Against*, goes for adds on 9/22. **Drown** is doing phoners and liners until they get on the road later this fall. **Judas Priest** and **Bruce Dickinson** are both classic bands that can work for most of you. We have interviews for those who are supporting them. **Bad Religion, Punisher** and **Simon Barr Sinister** are awesome for you, so check them out. Keep your eyes open for new **Nothingface, Stuttering John, Elephant Ear** and **Venom**. Till next week, c'ya.

## Gomez, "78 Stone Wobble," (Virgin)

"We try to be as adventurous as possible," laughs vocalist/guitarist **Ben Ottewell**, "and stop just short of taking it too far and turning it into a real mess. There's danger in the approach, but we kind of like that." So do we, quite frankly. And the funny thing is, we think you'll like this track and Gomez's sound, too. "78 Stone Wobble" is catchy, creative and adventurous and may very well catch fire with your listeners. Remember when Beck hit the scene as a fresh, new and unique talent? He's living proof that ingenuity and left-of-center Pop ideals can hit the mark. We get a similar feeling when listening to the Gomez debut, *Bring It On*.

## Pushmonkey, "Handslide," (Arista)

You'll have to excuse the members of Pushmonkey if they seem stuck in the '70s; they just have a certain affinity for a period in Rock when albums were a religious experience to be debated and pored over, not just a launching pad for one single and to be forgotten soon thereafter. With a grass-roots story that's the kind of stuff Rock dreams are made of, this Texas quintet pack a powerful rocking punch on their self-titled Arista debut, most notably on the grinding "Handslide," which culls sonic images of acts from Rock's past and present, maintaining an identity all its own.

## Tripping Daisy, "Sonic Bloom," (Island)

This is a great, feel-good love song written and performed in a way that is not only adventurous and masterful, but very Poppy as well. If you play this record it *will* work. The chorus jumps out at you from the onset, and builds into a blissful anthem that stays with you for hours. This song could be huge. Pay serious attention to it and give it the chance it deserves. From the multi-textured and thoroughly enjoyable album, *Jesus Hits Like The Atom Bomb*.

## Agents Of Good Roots, "Upspin," (RCA)

Agents Of Good Roots' RCA debut has already spawned the infectious track "Smiling Up The Frown." The second track from *One By One*, "Upspin," is equally as infectious and uplifting. Many observers feel that "Upspin" is the song that will break Agents Of Good Roots wide open! Their concert following is already massive, so look for major phone support when you play this record.

## Feeder, "Descend," (Elektra/EEG)

The U.K. trio's mastery of the whisper-to-a-scream technique will send chills up your spine with this track. Following-up the success of "High," Feeder ascends to greater heights with this latest release from *Polythene*. "Descend" rides a wave of crashing guitars, utilizing an ebb-and-flow that is usually reserved for such masters as Pearl Jam and the Smashing Pumpkins. All-in-all it's a great song that we guarantee will sound superb on the air.

## Alexi Lalas, "Goodnight Moon," (CMC International)

Soccer's most recognizable face is making his big debut on the Rock scene, and ya know what? The guy's pretty good. In fact, he's been a musician longer than he's been a pro athlete. "Goodnight Moon" is the first single from his debut, *Ginger*. It's a short, sweet, and tasty Pop record that won't sound out of place on your station at all. Lalas plays all the guitar parts, provides all the vocals and wrote and produced the entire album. No gimmick, no shtick, no novelty angle, just hooky Pop/Rock worthy of some attention.

## Godsmack, "Whatever," (Universal/UMG)

Coming off like a cross between Helmet and an angrier Filter, Boston's Godsmack deliver the goods with their first single, "Keep Away." While the record's been out in their native Northeast for close to a year, their sound is

more in line with the Pacific Northwest, namely Seattle (the band take their name from an Alice In Chains track). Don't let that make you think these guys are robbing the AICs of the world blind. They have a sound all their own that's just fine, thank you.

## Marcy Playground, "Sherry Fraser," (Capitol)

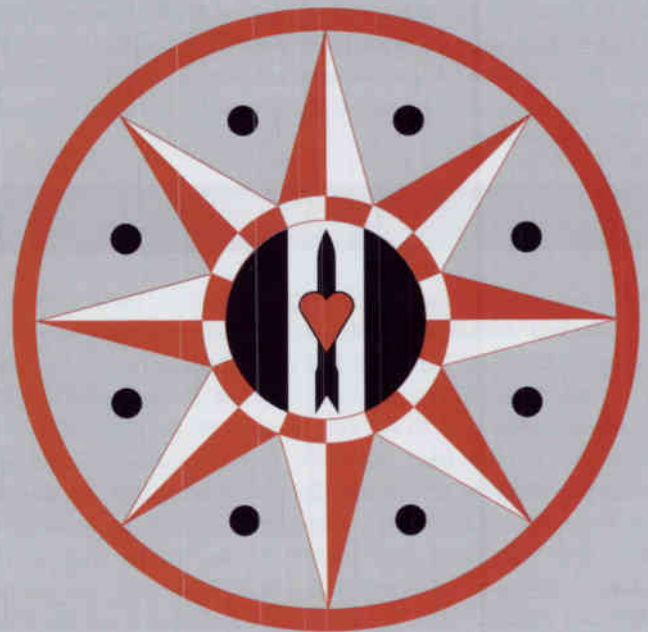

Marcy Playground looks to extend their success at Modern Rock radio with this, the third single from their self-titled debut. Lead singer **John Wozniak's** delicate vocals glide over a soothing mid-tempo backdrop, telling a story that pulls you in immediately. Don't hesitate to jump on this track right away. One look at the airplay and sales this outfit has generated over the past year is all the proof you'll need to realize that they have established themselves as a viable, sought-after act with your listeners.

## Republica, "Ready To Go," (RCA)

Republica is ready to go again with this insatiably catchy jam. The song has been prominently featured in the new Mitsubishi car commercial, and consequently, radio stations have been demanding a re-service of the record due to a high volume of requests and increased sales. Give the people what they want, put this song back into rotation and watch the rebirth of "Ready To Go" take hold. Republica will have a new album in stores in January.

**-Files...** Our ninth issue of *Modern Quarterback (MQB)* will hit your desk on September 18. Inside you will find articles examining Modern Rock's morning show progress, including a look at casting a morning show, recycling **Howard Stern's** audience, and an interview with Q101/Chicago's **Mancow**. *MQB* also takes an inside look at the format's night personalities and examines the growing trend of exclusive artist performances in an intimate setting. With the recent announcement that **Tom Calderone** would be leaving Jacobs Media for a role with MTV as Senior VP Music Programming and Talent, passing the JM Alternative torch to **Dave Beasing** and **Tim Davis** in the process, *MQB* catches up with the trio for some reflection and projection of Jacobs Media and its Alternative footing. This interview is an *MQB* exclusive that you definitely will not see elsewhere. The content keeps rolling as *MQB* catches up with **The Afghan Whigs' Greg Dulli** and **Creed's Scott Stapp**. Q101 GM **Chuck Hillier**, WEDG/Buffalo GM **Bill Saurer**, and WPBZ/West Palm Beach GM **Patty Larschan** lend their opinions on the state of Alternative radio to *MQB*. Also lending their thoughts, by sitting at the fourth installment of the *MQB Roundtable*, are Epic VP/Promotion **Stu Bergen**, 550 Music VP/Promotion **Joel Klaiman**, KNDD/Seattle PD **Phil Manning**, and KROQ/Los Angeles MD **Lisa Worden**. The four sit down for a discussion on using music research and crossing music over to other formats. We introduce *MQB Pulse* in this issue by highlighting some of the better promotions of the past few months, one of the coolest features in existence, and give a nod to a station celebrating fifteen years of Alternative programming. As if this wasn't enough, contributions from Pollack Media's **Pat Welsh** and Coleman Research's **Chris Ackerman** can also be found in this action packed issue of *MQB*. The magazine comes free-of-charge with your weekly issue of *fmqb*, but feel free to call **Michael Parrish**, **Mike Bacon**, or your favorite *fmqb* staff member to reserve your copy today. Your regularly scheduled *Modern Rock Crossroads* column returns with next week's issue...

**MODERN DIRT**

WNFZ/Knoxville makes the switch to *Extreme Radio*, check **Dirt Alert!** for details... **Jacant Jackson** is exiting his position at WWDX/Lansing for the PD post at KQXR/Boise, replacing **Tim Johnstone**, who will stay on and do middays. Jackson will also handle the afternoon drive airshift at KQXR. At WWDX, **Jesse Addy** rises to APD/mornings to fill the hole left by Jackson's departure. Again, see **Dirt Alert!** for details... **Jason Ginty** exits his nights/Imaging Director role at KKND/New Orleans, look for an announcement on his replacement shortly... Radio One Networks promotes **Bill Holm** to AMD. New music call times for Radio One will be from 2-4 P.M. on Thursday... Speaking of music call times, new ones are in effect at WGRD/Grand Rapids. 11 A.M. to 1 P.M. on Wednesday and from noon to 1 P.M. on Thursday are the new call times. The changes come as MD **Tim Bronson** and AMD **Micahel Grey** move their team show to afternoon drive from nights, displacing **Tim Hartley** to the nightshift... Former **WDRE/Long Island** multi-faceted man and Q104/New York City morning man **Steve Morrison** was guesting on the WPLY/Philly morning show with **Preston Elliot** and **Marilyn Russell** this week. Is he just trying out or staying on for the long haul?...

## Talk Of The Revolution

Before you start belly-aching that the last thing the world needs right now is another Swing act, sit down and listen to the self-titled debut offering from **Alien Fashion Show** (Surfdog/Hollywood). Tom and Amy then will you realize that they're not your average retro-Swing group. Kicking off with the juke-joint blast that is "Slim And Sally," Alien Fashion Show keep the energy level turned up high throughout the proceedings, mixing in subtle hints of Surf, Lounge and Rockabilly for diversity's sake — "Rocket '90" is a perfect example of the band's artistic breadth. AFS also show their penchant for fun with a spacey cover of **The Police's** "Roxanne," and their frantic re-working of **KISS** "Detroit Rock City" dubbed "Detroit Swing City." A record that manages to stand head, shoulders and wing-tips above much of the current crop of Swingsters... Throughout their tenure on Cargo Records, **16 Volt** were one of the best-kept secrets in the Industrial movement, consistently garnering praise in influential publications like *Rolling Stone* and *Alternative Press*, while developing a sort of secret society of very loyal fans. Now with **Silphide**, 16 Volt return with a record that shows ambition, while sacrificing none of the teeth-rattling histrionics that put the band on the map to begin with. *Signer Cool Nothing* Co-produced by Bill Kennedy (Nine Inch Nails, Marilyn Manson) and Joseph Bishara (Danzig, Drown), *Signer Cool Nothing* packs a rather-worldly punch with its marriage of spine-crushing guitars, pulsating samples and rhythms and gritty vocals. Check out "Don't Pray," "Mouthwater" and "I Fail Truth" and hear for yourself... Though comparisons to **Pavement** abound in the press (sorry, we don't get that one), **Grandaddy's** blend of fragile vocals, dreamy keyboards and hushed melodies has an identity all its own. The best way to describe the band's **V2** debut, *Under The Western Eyeliner*, is that it sounds like mid-70s Rock (ELO, perhaps) trapped in the hair bus (sorry again, vinyl) of a late-'90s lo-fi act. "AM 180" best encapsulates what the band do with its carnival keyboard line and clanging tempo. Other gems include the Pixies-ish "Summer Here Kids" (already spinning at **KNBE/Portland**), the dreamy "Laughing Stock" and "Go Progress Charming."

-Pat Berbery

**P.J. Finn**, **WABN/Tri-Cities**, *What's The Alternative?*  
**Kacy Crowley's** **Lilith Fair** performance really knocked me out, and her album *Anywhere* is one I listen to at home. "Rebellious" is a song most of us can identify with, trying things at least once, maybe more. And **The Urge** have a fun time in "Closer." It rocks, bounces and grooves.

**Stephen Bottomley**, **WEQX/Manchester**, *Download*:  
**Juifore** *Autour De Lucio!* Tom band proves being from France does not mean you have to sound like **Serge Gainsbourg** or find a **U2** riff and put a thunderous beat behind it as in **Daft Punk**. Something a little different to throw in your show, but with a hook that is familiar enough that you won't have listeners thinking they tuned into the radio world service.

Hey **NMS Revolution** members! Don't forget to include comments about new music you're into, show news, shows you've seen recently etc., when you fax or e-mail your playlists each week. Be heard! AND be sure to remember to get your lists in by 6:00 P.M. Eastern, Tuesdays. Early lists ALWAYS welcome, especially on Monday!

and the Fiji Islands?

Each trip giveaway takes two to three months, which of course drives on-air listening. Listeners register either via an 800 number, through the mail or via e-mail. The station does a database mailing and extensive on-air promotion in the beginning of each promotion to let people know that it's happening. The trips are given away on Thursdays, and the winner gets an hour to call up and claim their prize.

## CURRENT EVENTS

New York City cab strikes. Presidential sex scandals. A new home-run king. Ripped straight from the daily headlines, top news stories are always great promo fodder. Not only do stations show that they're up to date with what's going on, they make listeners feel the same way.

When President Clinton made a moral transgression in his personal life, not only did he change history by becoming the first president to admit infidelity while in office, he also gave Leno, Letterman, Conan, Kilborn and countless morning shows enough material for the rest of the year. It didn't take long for promotions departments to get in on the action. When it came out in the news that onetime White House intern Monica Lewinsky had turned in a dress stained with the First DNA, KEDJ/Phoenix unveiled the "Guess That Blue Dress Mess" promotion. The station took dresses with four or five different stains on them all over Arizona, asking people to guess what the stains were. Correct guesses won tickets to KEDJ's *That Damn Show*. WTKW/Syracuse morning team Gomez & Dave gave away a tie recently, but not just any tie. The duo asked listeners to draft a letter stating "why my bubba deserves the tie," and one lucky winner won a Zegna tie, the same Italian designer that Lewinsky gave Clinton.

Presidential hijinx aren't the only way to capitalize on current events. Some promotions actually help out their communities while doing so. During the brief cab drivers strike in New York City back in May, K-Rock (WXRK) offered the 92.3 *K-Rock Kabs*, giving free

rides to listeners. "Whether on the beaches in the summer handing out sunblock and sunglasses, or in the city giving free rides during a taxi strike, the K-Rock street team is always around to give listeners what they want most," PD Steve Kingston says.

TSR Wireless

Radio consolidators are increasingly turning to programming and promotion departments to help raise non-traditional revenue. (*fmqb* Cover Story July 17, 1998). If you're bringing in revenue and getting listeners excited about your station, that's a true sign of a good promotion department. WMMR/Philadelphia recently did both with their "Page To Win" contest.

The event was actually set up through 'MMR's owner, Greater Media, in conjunction with TSR Wireless, the nation's largest paging retailer. Anyone going to a TSR Wireless location that bought a pager was automatically registered to win tickets to see Aerosmith when they hit Philly, or a CD from one of WMMR's core artists. While it wasn't necessary to buy a pager to win, the only place entry forms were available was at one of the 12 area TSR locations. 'MMR provided Greater Media with the concert tickets and some CDs of 'MMR artists, and contest winners' names were randomly selected. Once a winner's name was selected, they were paged on their new pagers (or contacted by phone). Those notified by pager had nine minutes and thirty-three seconds to call back and redeem their prize.

"(TSR Wireless) needed a program created for them to generate

excitement," Greater Media Marketing events coordinator Kelly Wallace commented. "They wanted a special promotion. So we brainstormed a way that we could get that done." More importantly, both parties mutually benefitted from the promotion: TSR got their name on the air and people in their stores to buy pagers and register for the contest; 'MMR tapped a new NTR source and added a cool hook to an otherwise standard ticket/CD giveaway. "This was not based on a traditional spot buy," Wallace adds. "It's something that could have been done traditionally, but wasn't. It wouldn't have been spent on a spot buy if we didn't create this promotion for them."

PBR, A DOUBLE-WIDE,  
& REVEREND LUMPY:  
A WHITE TRASH WEDDING

The father of the bride gives her away at WLVO's White Trash Wedding

Many stations have gotten involved with weddings, often helping couples get hitched on Valentine's Day or even orchestrating large group weddings. WLVO/Columbus took a twist on the familiar with their "White Trash Wedding," an event that both made fun of and celebrated the "low end" of their listenership.

"I think it was (then-PD) Greg Ausham's idea, explains WLVO Promotions Director Dave Redelberger. "The basic concept was there, doing a white trash wedding. We probably stole the

idea from somebody and then drank a few beers one night and came up with a couple more parts of it and just let the rest happen on

(Top) The Groom, Reverend Lumpy, and WLVO's Daddy Wags. Notice the groom's classy T-shirt...

air." Morningmen Wags and Elliot solicited couples on the air that were about to get married and considered themselves "white trash." Initially unsure what the response would be, the station was quickly flooded with calls. They eventually decided to award the wedding to the couple with the best story.

"The couple that happened to be lucky enough to win that morning were both 17, and she already had a baby," continues Redelberger. "So we went through arrangements on the air and got somebody to loan us their double-wide trailer and moved on from there. Since Valentine's Day fell on a Saturday, we did the event the day before, Friday the 13th, which worked out pretty well."

The entire event was broadcast live on the air. With the double-wide trailer opened up and decorated with \$1.50 worth of streamers and some station banners stapled to the wall, the fun was about to begin. "We had two cases of Pabst Blue Ribbon in the sink with a bag of ice," Redelberger says. "Believe it or not, that was gone by about 8A.M."

Not only did the couple play the role to a "T," so did the preacher that married them. Somehow the station got a hold of Reverend Lumpy, an actual ordained minister, who had Reverend Horton Heat permanently tattooed on his

arm and a huge beard. Lumpy made a beeline for the Pabst when he got there and continued drinking all day.

"As people started coming in, they were dressed up for the White Trash Wedding," Redelberger remembers. "It was great, the father of the groom was wearing camouflage and everyone was getting into the spirit. After being there for about an hour, we realized that they didn't dress up special for the day, that's just what they were wearing! Leather jackets with fringe, feathered hair, it was unbelievable."

In addition to springing for beer, the station set up a lavish spread featuring a cheese ball and a sleeve of Ritz crackers and a wedding cake that read "Happy Birthday" with "Birth" crossed out and "Wedding" written over it in icing. The lucky couple also received a pair of tickets to see Judas Priest, and the morning team was able to procure an interview with one of the band members during the event.

WLVQ did their whole morning show live from the double-wide. "We had the ceremony on the air, which was great, because the couple's baby cried through the entire ceremony," Redelberger continues. "He was just wailing, which made for great radio. We almost had a fistfight break out between the bride's family and the groom's family. It was a Springer episode waiting to happen."

KEGL/Dallas is also waking up and smelling the pork rinds. Later this month, morning man Russ Martin will be having his first annual "White Trash Party." Teaming up with a local mobile home distributor, the Eagle is getting them to set up a double-wide trailer in front of a bowling alley to serve as the VIP area. They'll also bring in a Southern Rock cover band to play some Skynyrd tunes, and they plan on having Pabst Blue Ribbon, Schlitz and other exotic brews for sale.

Both of these promotions are not only funny, but tied into the station's attitude and positioning.

### MEET THE BEETLES

With all of the hype, hoopla and hysteria that surfaced earlier this year when Volkswagen reintroduced the Beetle, you'd almost have thought it was the Fab Four

invading America back in '64. However, it was a German invasion, not a British one, and all of the new VW Beetles are "the cute one." While Boomers wanted a newly re-designed Beetle because it might have reminded them of their first car, nearly everyone else

The staff of Y100 takes five while filming the Beetle commercial. (L-R): Bret Hamilton, LeAnn Curtis, Matt Cord, Marilyn Russell, Preston Elliot.

...and ACTION!

wanted one because it was a cool, sleek and fun car. Sensing the demand for Fahvregnugen, stations snapped the cars up like they were going out of style. As you can see from the accompanying pictures, just about every station wanted to get their hands on at least one of the cars to offer their

listeners.

Philadelphia's Y100 (WPLY) may as well just change their name to VW100: The station is in the process of giving away their 7th Beetle. A promotion that came at exactly the right time, the station was able to tie in both a TV campaign and introduce their new morning team around the new car. Unable to officially tie their giveaway in with Volkswagen, Y100 paid cash for all their cars. The only tie-in VW did in the Philly market was with non-profit WXPB, so Y100 bought eight cars total, two for themselves and six to give away. The station qualified listeners by doing "Beetle Drive-Bys." When listeners heard the car "drive by" on the air, they had to be the 13th caller. If they were, they won \$100. At the end of the week the station drew a winner.

Y100 was able to pick up interest and listeners via a clever TV campaign. "The commercial came about from us talking about our Spring campaign," Y100 Promotions Director Kelly Gross recalls. "We knew we were going to go on TV, and we had a new morning show to introduce. We also knew we were going to give away these Beetles. Local jocks rarely appear in TV commercials, and ours are really fun, so we decided to do it." The entire idea, from concept to filming, turned around in

two weeks, and the actual commercial was filmed in one day. With some help from Philly ad agency Reimel Carter, they came up with a twist on the "Da Da Da" Volkswagen commercial. Instead of two men picking up a chair, though, new morning team Marilyn Russell and Preston

Elliot drove around picking up various Y100 jocks. "It was a great promotion, and it was such an exciting thing because of what the car is and what it means to so many people," Gross says, adding that now that the cars are more commonplace, she thinks they look "naked" when she sees one without a Y100 logo on it.

Y100 is currently giving away their seventh Beetle, this one in conjunction with Coors. "They wanted a silver Beetle (as opposed to a silver bullet), and as we were giving ours away, they came up with their own idea, and we were the perfect vehicle for their vehicle giveaway," Gross comments. So the station registered people for the car all summer long, while Coors drove it to appearances at local clubs, giving the station additional exposure.

What would you do for \$1,000? Would you admit to your deepest, darkest sin? Would you then confess to the person you sinned against? WXTB/Tampa is finding out just how far people will go for a grand with their month-long "Sin To Win" contest.

The station has opened up a dedicated phone line where people can call up and confess what they did and if the station thinks theirs is the best confession, they'll be chosen to win \$1000. The catch is that they'll then have to confess to the person they sinned against. "Say a guy calls and said he had sex with his secretary and one of them is married," 98 Rock Promotions Director Mike Olivieri hypothesizes. "Then we'll select him, but he has to be able to back it up by either telling his secretary's husband or his wife. We've gotten a lot of people cheating on their spouses and stealing money from the I.R.S., not claiming taxes," he adds. "We've had a couple of calls from girls that said when they were supposed to be at their friend's houses, they were really out with their boyfriends. We've gotten some interesting responses so far."

## plug into these attention-getting station promotions

By Bram Teitelman

THE PROMOTIONS DEPARTMENT OF YOUR RADIO STATION IS ARGUABLY THE MOST IMPORTANT ASSET OF YOUR STATION. IT'S NOT ENOUGH TO HAVE GREAT JOCKS AND THE RIGHT MIX OF MUSIC FOR YOUR TARGET DEMOGRAPHIC, AND HANDING OUT BUMPER STICKERS AND KEYCHAINS AT THE LOCAL SAV-A-LOT WILL ONLY GET YOU SO FAR. ALL SUCCESSFUL STATIONS HAVE AN ACTIVE PROMOTIONAL TEAM WORKING BEHIND THE SCENES CREATING COMPELLING AND TSL-BUILDING EVENTS THAT TIE IN WITH THE STATION'S DEMOGRAPHIC. WHILE THE FOLLOWING PROMOTIONS MAY HAVE BEEN DONE BEFORE AND WILL LIKELY BE DONE AGAIN, EACH STATION HAS TAKEN A TWIST ON SOMETHING FAMILIAR AND EITHER MADE IT THEIR OWN OR BROUGHT IT TO THE NEXT LEVEL.

### LISTEN WHILE YOU WORK AND WE'LL GET YOU OFF

Lots of people listen to their radios while working, leaving the same station on for a TSL nirvana of eight hours a day. Last year's Arbitron at-work listening study demonstrated the ratings opportunity the workplace represents for a myriad of formats, not just Soft ACs. KEGL/Dallas has zeroed in on that opportunity with their "Turn Us On, We'll Get You Off" promotion. In saying they'll get you off, the Eagle means that they'll send contest winners on a trip, but the station makes the boss happy, too.

The contest is rather straightforward. Listeners register by writing, faxing, phoning or

e-mailing the station. While registering, participants state when they listen at work. The station announces a different name once during each of the four principal dayparts, at the set times of 9A.M., 2P.M., 5P.M. and 8P.M. If the person whose name was announced calls the station within an hour, not only do they win \$250, their boss gets a prize like Six Flags Over Texas passes or concert tickets. All of the winners for a given period of time are put into a drawing for a trip.

Since the contest began in January, one of the most recent places the station has gotten winners off to was New York City to see Lenny Kravitz's final dress rehearsal before his tour. In addition, the next night, the contest winners had dinner at his house. Other prizes have included a trip to Germany to see those kooky pyromaniacs Rammstein on their home turf. Their current giveaway is being done in conjunction with

the new soft drink, Surge. Winners will win the Surge jet, and be able to go anywhere they want for five hours of flying time. Promotion Director Loren Condron calls "Turn Us On, We'll Get You Off" a great database builder "because you're getting a lot of great info about people plus good letters to read on the air."

### TRIP LIKE I DO

Branding is a key component

of any successful radio station. If listeners can identify with your station's attitude and positioning, they'll relate to and use your station more. Successful branding involves, among other things, promotions that reflect, support and amplify your brand. Most Active Rock stations aren't giving out copies of *Titanic*, and you'd be hard-pressed to find any Modern ACs running a Wrestlemania promotion.

KBCO/Boulder has found a promotion that ties in with the typically upscale Progressive demographic that incorporates their station positioner. The station has been running an ongoing promotion called "World Class Adventures," something PD Dave Benson terms "a logical extension" of their "World Class Rock" positioner. "We send people to exotic locations," Benson explains. How exotic? How about such far-away destinations as the Arctic Circle, the Great Wall of China,
