

THE GAVIN REPORT #1099  
WEEKLY SUMMARY  
 (Associate Editor, Gary Taylor)

Smash of the Week: LOVE HANGOVER-Diana Ross (Motown) The lady of myriad talents adds another hit to her crown.

Sleeper of the Week: LET HER IN-John Travolta (Mid'l. Int'l.) 13Q-Pittsburgh reports jumps of 50 to 15 in sales, 19 to 1 in requests - the 1st week! Bill Tanner reports huge phone response at Y100-Miami.

High-Energy: LOVE IS ALIVE-Gary Wright (Warner Bros.) 102 stations reporting - 68 charting, 14 show top 10.

Top Tip: TAKE THE MONEY AND RUN-Steve Miller (Capitol) Starting quickly in Manchester, Miami, Bismarck, Everett, Tallahassee, Stockton, etc.

Records to Watch: THE BOYS ARE BACK IN TOWN-Thin Lizzy (Mercury) Impressive adds. Requests reported and some early charts.

TURN THE BEAT AROUND-Vickie Sue Robinson (RCA) First brought to our attention last month by Clay Gish, KRBE-Houston. Now charting at WRKO (14), and WIFI (23).

Phenomenon: I.O.U.-Jimmy Dean (Casino) While the majority of top 40 stations seem to be turning their backs on this ultra-sentimental tribute to motherhood, airplay on country and A-C stations has sparked enormous sales and phone requests. The question is: Will these stations be able to drop it after Mother's Day, as many have indicated?

To Our Subscribers

We were swamped this week with an unprecedented number of reports that The Gavin Report of April 30 had arrived one, two and even three days late, with several callers telling us on Thursday that it still had not appeared in their mail boxes. It appears from the pattern of deliveries that it was entirely the fault of our San Francisco Post Office. The mailings were delivered at the San Francisco post office (Rincon Annex) at 4:30PM Friday. Only a handful of them went out on time Friday night; the rest were delayed, for reasons unknown. I have written a strong letter of complaint to our local postmaster, with a copy to our Congressman Burton. If these delays persist, those who are finding them most inconvenient might try writing directly to Mr. Lim P. Lee, Postmaster, San Francisco, Calif. I can think of no other effective way of calling post office attention to the seriousness of their inefficiency.

Any correspondents who have been adversely affected by delays in receiving The Gavin Report may, if future mailings fail to arrive on time, phone our office and request a replacement mailing, which will be rushed from here via special delivery.

Inside Progressive Radio  
by George Meier, Editor of "Walrus"

Essay: Defining Progressive Music

You ask what music we are talking about when we use the phrase progressive music? We offer this answer-definition for your thought.

First, you must drop the misleading idea that the word progressive is an adverb. It cannot be used to mean music which is always progressing. That puts an unbearable burden on artists and fans alike. Rather the word should be thought of as an adjective. It simply modifies the noun music.

With that out of the way, please consider that progressive music is really folk music, by which we mean music-of-the-folks. They might be black folks or white folks. They may be country folks or city folks.

Note that the difference between rhythm & blues and country blues is urban and rural, just as the difference between rock & roll and what is commonly called folk music is urban and rural. Further, it was the cross-fertilization of black and white rural musics which burst out of the fifties as rock and roll. Elvis Presley and Chuck Berry being the best examples of that interaction.

All of this history serves the point that progressive music is, in fact, music of the folks, regardless of genre. It is not simply rock or jazz or country or black or folk. It is all of them.

Drawing the line between progressive music and pop music is easier with this background. When the sound gets too far from the artist by virtue of some manipulative outside consideration like over-production and/or over-commercialization things get sticky. To be sure, everyone has their own point on the progressive to pop continuum beyond which they will not accept the music as valid. That point is the essence of the eternal progressive dilemma.

Eau Claire Radio Meeting

Where: Holiday Inn, 1202 West Claremont Ave., Eau Claire, Wis.

When: Saturday, May 22 next from 10AM to 5PM.

What: Informal "rap" session among Wisconsin radio broadcasters.

Who: Radio people only, including sales and management as well as programming. All stations are invited to send representatives, whether or not they are subscribers to The Gavin Report.

Registration: No registration fee. You are Bill Gavin's guests for lunch.

Important: Be sure to notify the Gavin office in San Francisco, either by phone or letter, of your intention to attend.

Suggestion: Several radio sales people attended our Austin meeting and were enthusiastic about the new insights they gained into what radio programming is all about. Managers and sales people will be most welcome.

Why Eau Claire? As noted here last week, 5/20-21 marks the 50th anniversary reunion of my graduating class from Eau Claire State Normal School. So I'll combine a sentimental journey with some professional discussion.

Agenda: Strictly informal. No speeches or panels. I'm inviting Steve Dickoff, PD of WEAQ-Eau Claire, to moderate the forenoon session, and Jim Schuh, manager of WSPT-Steve Point to look after the afternoon meeting.

Country Club....cont'd. from p. 6

Dave Johnson, CFGM-Toronto tells us that the station will present a series of live country shows in Minkler Auditorium at Seneca College. First one is scheduled for May 16. The hour between 8-9PM will be broadcast live on CFGM.

WQQT-Savannah is having a "One piece at a time" giveaway. Smaller winners qualify for the drawing for the grand prize - a '67 Caddy, spray painted in various colors.

WJJD-Chicago reports "phenomenal" response to the spring Honda giveaway. Each jock solicited postcards for a call-in qualifying the listener for the final drawing - one Honda per jock.

KEEN-San Jose will hold its annual Family Fun Day May 15. Donna Fargo will be on hand to sign autographs, and Dorsey Burnette will be the featured performer at the show.

"Album Time" a new feature at KTIB-Thibodaux. Between 6 and 7PM daily John Raynor will spotlight several cuts from selected albums. Program will debut week of May 9.

WIRK/FM-W. Palm Beach holding a postcard and random drawing contest for dinner with the artists and admittance to a forthcoming contest featuring Joe Brock, Moe Bandy and Kathy Barnes May 12.

Mother's Day special: KHEY-El Paso clipped "mother" from 5 records. First 6 listeners to identify the artist correctly wins a bright red rose bush.

Attention Ric Libby, KENR-Houston. We're told Mike Burnett can be found at KMAK-Fresno.

Thank you all for your patience with last week's monumental postal mixup. We are especially grateful to those who managed to get reports in to us for use in this week's issue in spite of it. Apparently a few "Gavin's" got out in a random fashion but the bulk of the mailing sat around somewhere unprocessed. As of Wed. last some were still reported missing. The Report is always mailed on Friday afternoon. If your report is consistently late we suggest you take it up with your local P.O., but in this instance the fault lay here in S.F. We'll probably never get an explanation. Bill comments on it elsewhere in this edition.

Guidelines  
from our publications of May, 1966

The best one minute ad lib is the one that is carefully thought out beforehand, so that it can be delivered in fifteen seconds.

No program director should expect his disc jockeys to supply all the creative ideas, but something is wrong if they don't supply any.

The disc jockey who offers nothing much new or different today from what he said yesterday will probably be repeating the same tired cliches tomorrow to a lot fewer listeners.

The new listeners attracted by an intensive and expensive promotion campaign will be quickly lost if the station continues to offer the same old programming that failed to attract them in the first place.

An important story coming up in the next newscast can be effectively billboarded by the jock on duty - a fact that all too few PD's seem to recognize.

When you tell your listeners to "stay tuned", aren't you suggesting that they might not? A big hit record may last as long as three months, but some stations keep repeating the same old jingles for a year or more.

The record promoters who complain about the billion dollar product of the record business being placed at the mercy of an occasional untrained and underpaid music director should spend a few days listening to the oceans of junk by unmusical singers and unqualified producers that are submitted daily for radio stations to audition.

It's not so much a question of what kind of a format your station uses as how well it's handled.

Some managers place profit above public responsibility and service. A profit without honor? Contests and promos can be a fun part of the program content, but too often they sound like a blatant appeal to the listener's greed for something for nothing.

Albums

Albums of the Week: (reviewed by Ron Fell) "Flat Out"-Stoneground (Flat Out) Talented Jo Baker fronts this San Francisco based rock band. Her forceful vocal efforts on WAY BACK, and BREAKIN' DOWN THE WALLS OF HEARTACHE and her tender reading of IF YOU SHOULD WANT ME are the cuts likely to receive the most airplay. IF YOU CAN BEAT ME ROCKIN' YOU CAN HAVE MY CHAIR and DADDY LOOK MY WAY top off an album sure to be warming turntables in many formats.

"Let Your Love Flow"-Bellamy Bros. (WB) Following their success with the title tune as their first single, the brothers should enhance their appeal with a bright effort on SATIN SHEETS and easy going cuts like HIGHWAY 2-18, I'M THE ONLY SANE MAN and the flip of their hit: INSIDE MY GUITAR. Although this is primarily a soft, acoustic rock album, country programmers will find it worthy of their attention.

Also recommended from the following albums:

- "Harvest For The World"-Isley Bros. (T-Neck) HARVEST FOR THE WORLD
- "Just For The Record"-Ray Stevens (WB) OM/ONCE IN A WHILE/ONE & ONLY YOU
- "Fly Like An Eagle"-Steve Miller Band (Capitol) ROCK 'N ME/THE WINDOW
- "Faithful"-Todd Rundgren (Bearsville) GOOD VIBRATIONS/STRAWBERRY FIELDS FOREVER
- "Rose of Cimarron"-Poco (ABC) STARIN' AT THE SKY
- "Tales of Mystery and Imagination/Edgar Allan Poe"-Alan Parsons Project (20th) THE RAVEN/ TO ONE IN PARADISE
- "Welcome Back"-John Sebastian (WB) WARM BABY/SHE'S FUNNY/DIDN'T WANNA HAVE TO DO IT
- "Those Southern Knights"-Crusaders (ABC) KEEP THAT SAME OLD FEELING

Bill Gavin's Personal Picks

- - - I especially like:

MAMA MIA-Abba (Atlantic) Bouncy, light-hearted, summer flavored entry achieves colorful contrasts by occasional passages in which all rhythm instruments are tacet and only a marimba accompanies the voices.

RAINBOW IN YOUR EYES-Leon & Mary Russell (Paradise) Ear-catching a cappella intro is followed by a sparkling rhythmic duo on a song that sounds like a winner. If it is, the gold record goes to our Ron Fell who was first to pick up on it from the album.

BORN TO BE WITH YOU-Dion (Big Tree) This stretched out arrangement of the old Don Robertson composition gets a brilliant performance from the singer as well as from sax soloist Nino Tempo. The Phil Spector "Wall of Sound" orchestra recalls many previous hits from this famous producer.

Gary Taylor's Personal Pick

GOOD VIBRATIONS ("Faithful"-LP cut)-Todd Rundgren (Bearsville) This is an exceptional version of the Beach Boys hit. The artist compliments that group with his rendition. We have no knowledge of what the single will be, however this particular cut is currently being aired at BLOO-San Diego.

The news department of WKY-Oklahoma City rated several awards for excellence recently: 5 out of 8 top awards from Oklahoma's Associated Press Broadcasters, 2 out of 5 awards from Oklahoma United Press B'casters, all three radio awards from Sigma Delta Chi Society of Professional Journalists. Congrats to News Editor Geoff Scott and his staff.

In Kansas, KFH-Wichita won 3 of the six awards presented by the Kansas Association of Broadcasters. Bureau of Missing Persons: Anyone knowing the whereabouts of one Tom Gatas (air name Bill Walker) ask him to contact Dan Spears at KFYE-Fresno - 209-486-5295.

Last week's "Music Marathon" at WNCI-Columbus, Ohio, pulled a phenomenal 30,000+ pieces of mail from people trying to guess the total number of records played in the 48 hours. Answer was 844 and there were 500 correct guesses. That's an average of 18.8 records per hour, which just goes to show what you can accomplish when there are no commercials or newscasts.

The Guinness Book of Records will soon post a new world's record for car cramming. Rockledge High School, Cocoa Beach, Fla. last week sponsored a "Kar Kram" contest among various community groups, to see which group could stuff the most people into a 1965 Lincoln Sedan. A crowd of about 1200 watched the CK101 sponsored event, as the Rockledge students squeezed a total of 48 people into the car. Previous car cram record was 32.

The KIOA High Hoopers completed their 6th season last Saturday night with a banquet in Des Moines, having traveled 8,125 miles, posting a 63 won & 2 lost record, and raising \$48,000 for local community projects. Their six year record is 291 wins to 46 losses, 51,000 miles and \$248,000 raised.

Congratulations to Barbara and Tom Evans (he's at WCHV-Charlottesville, Va.) on the birth April 17 last, of their first child, Karen Barbara, 7 lbs. 4 oz.

Correction: Because of a clerical error last week, we headlined that WIFC-Wausau was one of the stations charting the Rhythm Heritage single. Not so. We regret the error.

KNGS-Hanford, Calif., will welcome a new FM affiliate to the airwaves on June 12. New FM'er will feature a pop rock format - record service needed fast from all sources.

WPRO-AM and WPRO-FM are two separate operations, with separate and distinct record libraries. They request that record service now going to the AM station be duplicated for the FM'er.

Lineup at KANE-New Iberia, La: Bill Dee, Charlie Young, new PD Jerry Loustau, Rene Roberts. Best time for music calls to Jerry: Mon. or Tues., either 10:30 to noon or 6:30 to 7:30PM, Central Time.

At WBOW-Terre Haute, PD Jim McKnight and music director Larry Joseph are available for record promo calls on Mondays from 10AM to noon and Tuesdays from 3 to 6 PM.

Wednesday, May 5 was the 46th birthday anniversary of WHHY-Montgomery. There was a giant birthday cake, which was cut and served with free ice cream to all listeners who stopped by the studio.

Special mention: As everybody knows, I.O.U. by Jimmy Dean made a tremendous sales and request impact during the two weeks before Mother's Day.

Since then, the action in many markets is dropping as fast as it first started. Even though many of our stations have now stopped airing it, our correspondents' chart action, reflecting the previous week's sales and requests, would have placed it high up on this week's top 30 chart. However, since the record seems no longer a factor in current programming, it is held out of our regular chart listings. It will probably become a Mother's Day perennial.

Airplay: Merle Haggard; Freddy Fender; Tom T. Hall; Sonny James; Porter & Dolly; Mel Tillis (MCA); Gary Stewart; Joni Lee; La Costa; Del & Billie Jo; Bobby Goldsboro; Carmol Taylor; Randy Cornor; Margo Smith; T.G. Sheppard; Ray Griff; Sue Richards; Hank Snow; Don Gibson.

Inside Progressive Radio  
by George Meier, Editor of "Walrus"

Established Progressive Airplay:

(In Order)

- Led Zeppelin
- Doobie Brothers
- Rolling Stones
- Wings
- Santana
- Nils Lofgren
- Boz Scaggs

Notes: Beyond this list play drops off significantly. The Stones' album is getting extraordinary play on virtually all tracks. Meanwhile, The Pousette-Dart Band which does not appear on this list, is doing very well in the Northeast.

New Progressive Airplay:

(In Order)

- Stephen Stills
- The Tubes
- Camel
- Todd Rundgren
- Steely Dan
- Joe Cocker
- Bob Marley/Wailers
- Firefall
- Charlie Daniels Band
- Elton John

Notes: Marley who showed initially in the North-east now gains in the South and West. Significantly Elton's live LP is not the leader it would have been had it contained new material. Also two Yes spinoffs, Patrick Moraz and Alan White, showed up. Though further down the list they demonstrate the power of that classical-rock sound even when done by obscure names.

Retail Information:

The Hits

- Led Zeppelin
- Peter Frampton
- Rolling Stones
- Wings
- Eagles
- Fleetwood Mac
- Marvin Gaye
- Queen

Notes: Bootsy's Rubber Band, a hot R&B band, is doing business in the Middle Atlantic States which is out of all proportion.

New Things: Alan Parsons Project is getting bites in the Northeast and the Midwest. Patrick Moraz gains attention in the Northeast and John Miles finds a place in the Northeast and the South.

Albums

Albums of the Week:(reviewed by Ron Fell) "Turnstiles"-Billy Joel (Columbia) An artist of immense talent in transit. A few new directions from the "Piano Man" with a little reggae on ALL YOU WANNA DO IS DANCE and a little Elton Johnish production on MIAMI 2017. His clever writing and superb piano work are showcased on the mighty PRELUDE-ANGRY YOUNG MAN. (Joel can get electricity from a piano without plugging it in.) JAMES. SAY GOODBYE TO HOLLYWOOD and the short SUMMER HIGHLAND FALLS should provide "fare" listening.

"Right Back Where We Started From"-Maxine Nightingale (U.A.) With the title tune establishing a name for her, this album now gives Ms. Nightingale an opportunity to display more mature material like John Lennon's BLESS YOU and Tim Moore's LOVE ENOUGH to her new fans. GOTTA BE THE ONE sounds like a second hit from the album. IN LOVE WE GROW and ONE LAST RIDE offer further musical refreshment.

Also recommended from the following albums:

- "Stingray"-Joe Cocker (A&M) JEALOUS KIND/YOU CAME ALONG/SONG FOR YOU
- "Natalie"-Natalie Cole (Capitol) TOUCH ME/GOOD MORNING HEARTACHE/MR. MELODY

Bill Gavin's Personal Picks

- - - I especially like:

- YOU'RE MY BEST FRIEND-Queen (Elektra) Producer capitalizes on the well known device in which a lead singer of inferior vocal quality can be made to sound much better surrounded by skillfully arranged vocal harmonies.
- C'MON MARIANNE-Donny Osmond (Polydor) Light, bright, brief (2:21), tuneful, cheerful - just right for summer programming.
- HEAVEN MUST BE MISSING AN ANGEL-Tavares (Capitol) Has been out a few weeks - sorry to have overlooked it. Side offers some very commercial sounds, both for radio and disco.

Gary Taylor's Personal Picks

- SILVER STAR-The Four Seasons (Warner Bros.) This Bob Gaudio fully orchestrated production is musically exciting from start to finish. The Seasons have never sounded better - without question the record of the week!
- I'D REALLY LOVE TO SEE YOU TONIGHT-England Dan and John Ford Coley (Big Tree) The lead and the lyric are the strong suit in this sonoric summer song.

Also Possible

- |  |   |
|--|---|
| FLAMING YOUTH-Kiss (Casablanca)            | DON'T LET ME BE WRONG-The Dodgers (Island)              |
| FREIGHT TRAIN-Eugene Smith (Big Tree)      | CASTLES IN THE AIR-Ramez (Mo-Sheng)                     |
| SEA DREAM-Bill Justis Orchestra (Monument) | I HATE THE MUSIC-John Paul Young (Ariola)               |
| A LITTLE BIT MORE-Dr. Hook (Capitol)       | HAPPY IN HOLLYWOOD-David Batteau (A&M)                  |
| ENGANGLED-Genesis (Atco)                   | YOU MADE ME EVERYTHING I AM TODAY-Dean Andre (Big Tree) |

Gavin's Gab

Drake-Chenault is introducing a new syndicated program series with an album rock format. There's a good job opening at D-C for the right man. Operations managers at stations carrying this format are invited to apply. Address: Lee Bailey, Drake-Chenault, 8399 Topanga Canyon Road, Canoga Park, Calif. 91304. No phones, please.

In Biloxi, Miss., WVMJ/WQID are sponsoring a Celebrity Golf Tournament, to be held July 13-15, just prior to the Gulf Coast State Fair. Applications should be made through Lance Carson. Phone: 601-388-2323.

Air staff at WFOM-Marietta: Peter Price (music), Paul Sebastian (P.D.), Alan Harrison, John Gatlin, Gene Lovin' (from WIRK-W.Palm Beach). Greg McClure.

In St. Louis, on May 12, one Holland McClelland entered a KSLQ "prize package" contest and won prize package #45. This turned out to be a classic Rolls Royce.

In Huntsville, Ala., the WVOV "Pick Your Prize" contest brought a huge listener participation. Callers could choose which of several prerecorded "packages" they wanted and would then cry "Stop", winning whatever the next item was named on the tape. New contest is "Call Girl". Listeners send in cards and the "Call Girl" phones them at random. She asks what station they are listening to and the dial position. "Right" answers win cash.

Now that Joe Greene has graduated from Western Kentucky University, he's leaving WBGW-Bowling Green and going back to Texas.

Gerry Peterson tells us that KCBQ-San Diego is looking for a new morning man - not a format type, but a highly original, zany character. (Don Imus, where are you?). See "Jobs" section for contact address.

At WQXI-Atlanta, phase 2 of the Cave of Seven Treasures contest finally found a winner for the \$5,000 worth of prizes, one of which was a round trip to London for two.

R. Scott Gilmore, from WSAM-Saginaw, has taken over at WCRM-Clare, Mich. where he's changing to a top 40 rock format. He has submitted an application for a call letter change to WRNN. He desperately needs record service. Mail to Box 73, 11170 N. Mission Road, Clare, Mich. 48617.

Jim Nelly has left KORL-Honolulu and has taken over KUJ-Walla Walla, Wn. (Box 513-Zip 99362). Urgently requests record service for his rock format.

Bill Callaway can take music calls at KROC-Rochester only on Tues., Wed. & Thurs. between 2 and 3:30PM.

Johnny Thompson can take music calls only on Wed. & Thurs. between 10AM and noon at KERP-El Paso.

In Missoula, Montana, the KYLT March of Dimes Walkathon raised over \$16,000, with 742 people walking 20 miles.

Bill Young and Steve Lundy were among the many alumni of KDOK-Tyler, Texas who phoned their congratulations on the station's 20th birthday on Tuesday, May 11.

In LaCrosse, Wis., WLCX had unexpected success with this promo: How many words can you make out of the letters in this phrase: "WLCX, the pulse of LaCrosse". No proper names. The 14-year-old winner came up with 2,483 words, and five others had over 1,500. Instructions were printed on the back of the station's music charts, distributed among record outlets. Charts were completely gone after only two days.

It Seems To Me

That top 40 stations making two-record sweeps across the quarter- and three-quarter hour marks could very profitably solve the problem of the too long single or LP cut by substituting the one for both records in the sweep.

That radio's sales people would do a more effective job of selling time if they understood more about the product that their stations are selling to the listeners - namely, the programming - not just what it is, but how it is put together.

That the jock who says, "I'll be back right after the news", is in effect bad mouthing the news, as well as over exposing his own ego.

That the jock who says, "Ladies and gentlemen", has lost the meaning of one-to-one communication.

That a station that charts a record it isn't playing, just as a "favor", is doing no favor for itself.

That some Eastern jocks have knocked the "L" out of the "W" in their call letters, so that it comes out "dub-buh-you".

Program Notes

It isn't enough any more just to play the "right" music. It makes a difference when you play what, how often you repeat a record and in what order you play them. Day parting, rotation control and sequence are newer devices being used in more sophisticated programming.

Painstaking research, some of it of the call out variety, provides programmers with a depth of information about their audience that was impossible to obtain ten years ago. Who listens to what? - when? - how long? - age groups? - sex? - preferred oldies? And so on. The programmer combines this information with his quantitative data on retail sales, phone response, juke box plays and whatever other systems he uses to determine music popularity trends in his community. He may use regional data from other areas to guide his selection of new adds. So he makes out his playlist, and there's the music for the coming week.

But it isn't. At least, it shouldn't be. At that point, the programmer is like a photographer who has taken a series of pictures with the finest camera, film, lighting, tripod, filters and other equipment that are available. He can take his roll of film to a drug store counter and receive the prints back in a few days - average prints, some pretty good, some too contrasty, some underexposed. But, if he has sufficient skill to be independent of the drug store, he can develop his own negatives and print them so as to make them pictures rather than just photos - lightening some areas, darkening others, masking out harsh edges, and so on. At this point the photographer has taken the science and techniques of his craft and applied them to create something of lasting value that wasn't there before. (If my simile is unclear, I recommend that the reader examine some prints by great artists such as Ansel Adams or Edward Weston).

What has this to do with programming a radio station? Just this. The frequency with which each record is played is related to each listener's acceptance - or tolerance, or rejection - of it. The programmer must determine which records on his playlist have the highest tolerance factor for the widest possible demographic range, and must require that these ten records - or 7, or 9, or 20 - be rotated most frequently in all time periods. He must decide which records have a special appeal for his morning, or daytime, or evening audience and set these records for heavier play in their appropriate time slot than elsewhere. He must decide which are the most effective records to "take us out of news", which should be "swept" across the quarter and three-quarter hour marks for better quarter hour maintenance. He must know which records on his list should receive minimum exposure because of their length, their oldness or newness, or their high tuneout potential for any particular demographic fragment.

In other words, the manner in which the playlist is balanced for airplay makes the critical difference in the total impact of the station's music. A photographer can take bad pictures with the best equipment; a programmer can build inferior shows with the proper records. "Tuning the station" (an expression borrowed from Bill Young) is a constant challenge, and is also a constant necessity to bring out the best effect possible from the available material.

Inside Progressive Radio

by George Meier, Editor of "Walrus"

Some Distinctions

Progressive radio people have, from the very beginning, sought to separate themselves from the rest of the media world. At the outset the distinction was a fairly easy one to make. The progressives were all wrapped up in the hippy rebellion and defined themselves in very outwardly ways - long hair and uncivilized dress.

Just as in music, what is today's avant-garde often becomes tomorrow's standard. The physical lines of demarcation soon disappeared. Likewise, the musical lines faded. With fewer and fewer differences between pop and progressive radio, distinguishing them has become more of a challenge than in the old days. But they are still different, both functionally and philosophically.

Functionally, progressive radio relies mostly on albums as its primary musical source. The pace of even the most pop of the progressives, therefore, must be less intense than a format which relies on quick rotation of a few singles.

Philosophically, there is a more important distinction. All pop radio formats are, by definition, playing the music people want to hear. They do considerable amount of research to establish just what that music is. Progressive radio, on the other hand, has an extra responsibility. A good progressive radio station establishes a ratio between music its audience demands and music its audience must hear. That extra element provides the dynamism and titillation which help to make the progressive radio format a force in the lives of many people. It is the element which insures the growth of music.

Finally, it is true that very often progressive radio people are as much music people as they are radio people. That changes their perspective when the mic is open.

Albums

Album of the Week: (reviewed by Ron Fell) "Slippin' Away"-Chris Hillman (Asylum) Distinguishing himself as a solo artist with this album, Hillman, the former Burrito/Byrd, steps forward with a fluid, 10-cut offering. STEP ON OUT, the country-rocker TAKE ME IN YOUR LIFEBOAT and the disarming LOVE IS THE SWEETEST AMNESTY highlight the album. Hillman also dusts off the old Burrito tune DOWN IN THE CHURCHYARD and Stephen Stills' WITCHING HOUR for obvious AOR airplay.

Bill Gavin's Personal Picks

- - - I especially like:

IF YOU LIKE THE MUSIC (SUICIDE & VINE)-Stark & McBrien (RCA) "Better to be a has been than a man who never was"... "If you like the music, then let the player know"... "He's on the road to nowhere, with nowhere else to go". The lyrics have a special meaning to one who made a living playing piano and singing in theaters and night clubs, as I once did. (I think that anyone who has ever been in show business always applauds the mediocre acts just a little harder and longer, because we know how much it means.) Well, whatever - I enjoyed the record, maybe others will, too.

THINK SUMMER-Roy Clark (Dot) Bright 3/4 bouncer is about as summery as it can get, but the real hook is Roy's impersonation of the carnival barker, attracting the crowd to see the "What-is-it?" - "only one thin dime, folks". Lots of fun.

Gary Taylor's Personal Picks

IT KEEPS YOU RUNNIN'-Carly Simon and the Doobie Bros. (Elektra) The sheer combination of superlative talent should initiate A-C and Rock airplay.

ROCKY MOUNTAIN MUSIC-Eddie Rabbitt (Elektra) Significant country airplay has sparked interest in this fine side. The feel is that of HICKORY HOLLARS TRAMP and ODE TO BILLY JOE. The artist presents a mass appeal approach worthy of your attention.

Also Possible

FOLLOW YOUR RESTLESS DREAMS-Denny Brooks (MCA) SHELLA-The Wes Lee Band (Playboy)  
OLD TENNESSEE-Dan Fogelberg (Full Moon/Epic) LIVIN' ON LOVE STREET-Shylo (Columbia)  
DAYDREAM-The Lovin' Spoonful (Kama Sutra) GOT TO GET YOU INTO MY LIFE-Beatles (Capitol)  
(APPLES WON'T GROW IN) COLORADO SNOW-Jim Weatherly (ABC)

Most correspondents will find in this week's mailing an extra Action Report form. Please save it against the time when our mail delivery is delayed and you need the report form to mail back to us.

"Superstar Weekend" at KNOW-Austin gave listeners the opportunity to vote for their all time favorite recording stars. Top 5 were Elvis Presley, Elton John, the Beatles, John Denver, and Chicago - in that order. So the new contest is "Count On Us" - prize going to the entry that comes closest to stating the total number of Elvis records played during the week.

There's a big open field outside the studios of WAPE-Jacksonville, so John Long cooked-up a "First Annual Fun In The Sun Expo". Live bands entertained the crowd of over 5,000 who attended, while station advertisers who dealt with summer recreation items all had booths and displays on the grounds.

A new FM rocker goes on the air in a few days in Hanford, Calif. - KKYS, an affiliate of country station KNKS. KKYS will be a subscriber to The Gavin Report and will be on our waiting list to be a reporting station. They'll appreciate record service from all sources. Address their record mailings to KKYS Radio, P.O. Box 49, Hanford, Calif. 93230.

We received this week a copy of a memo from A&M's David Ezzell to his promotion people. It states in part: "LIGHT UP is not a drug related song.....conceived by Dennis while standing in the wings...refers to the audience lighting matches and holding them aloft. The line 'one hit to get me by' refers to LADY, their hit single..." In fairness, I must report that even though the lyrics seem to me to make obvious reference to the smoking of marijuana, I've checked with two programmers who were playing the record and they report absolutely no listener complaints so far.

Gary Owens will be the featured personality in the "Jock Tips" column; appearing in the May 31 issue of "Fruitbowl". Free copies available from publisher-editor Jay Trachman, Box 382, Fair Oaks, Ca. 95628.

For those stations that rejected Jimmy Dean's recording of I.O.U. because of its excessive length, the producer has re-recorded it into a 4 minute version. Programmers who want a copy should write to Tom McEntee, GRT Records, 1226 16th Ave.South, Nashville, Tenn. 37212, or phone 615-383-0800.

The March-April Mediastat for Pine Bluff, Arkansas, shows KOTN with a 44.7% share in cumes from 6AM to 7PM and a 21.1% from 7 to midnight, showing also a #1 spot in men, women and teens. Eleven signals feed into the market, four of them from Little Rock. Old pro Buddy Dean - owner-manager and morning jock - pulls a 53.3% share of cumes in his 6-10AM slot. Buddy was one of our charter correspondents back in 1959 when he was #1 in Baltimore radio.

Milwaukee police are investigating some serious vandalism that occurred early Monday morning at the WEMP studios. All five studios were damaged and there was a small fire in the news room. Station will have to replace all cart machines, VU meters and five plate glass windows. The key switch to the transmitter was also smashed. PD Roger St. John reports that they originated Monday's programs from the transmitter.

In Great Falls, Montana, the KEIN sponsored Walkathon attracted 650 walkers who hiked 20 miles to raise \$23,000 in pledges for charity.

Revised lineup at KFRC-San Francisco shows Don Rose, John St. John, Rick Shaw, John Mack Flanagan, "Marvelous Mark", Shana and Mucho Morales.

Afternoon jock Elliot, from WCBM-Baltimore spent the first weekend in May perched on top of a local car dealer's sign, just to help raise money for the Baltimore Guild for Infant Survival. He got rained on pretty hard Saturday, but stayed on until after his Sunday show and came down with \$25,736 in listener pledges.

Historical note: The change of call letters affecting KEWB to KNEW did not actually take place until September of 1966. Our news item in May of that year was based on a premature press release. The event has special significance for all of us in The Gavin office, since at the time of that call letter change our Gary Taylor was PD at KNEW/KJRB, while Ron Fell was in the news department at KEWB/KNEW.

Betty's Black Talk

In Seattle, KYAC'S winner of a "Trip to Hollywood as Bloodstone's Guest" was thrilled to learn that she will be their guest on a tour of Hollywood - including Universal City Studios, where they filmed their movie, a recording session, and a dinner with the group and Groucho Marx!

New contest at KYAC will be the "Howard Hughes Will Contest". Listeners write their own version of a phoney will and prizes will be given for them with the grand prize being an all-expense paid trip (on "Hughes" Air West) to Las Vegas - staying at the "Hughes" Corp. owned "Dunes" Hotel. Winner will be kept there "in seclusion", says Robert L. Scott.

WAOK-Atlanta is saluting the "Classes of '76", reports Frank Barrow. Graduating seniors send the station a graduation invitation, from which one winner each week receives a check for \$100. Big prize winner on June 4th will receive \$250.

At WWRL-New York, they've done their own edit of a combination Diana Ross/5th Dimension version of LOVE HANGOVER, running over 9 minutes and getting good listener response.

KNOK-Ft. Worth/Dallas had a winner this week on their "Could It Be Magic" weekend. Winner got a night on the town.

Nat "Finger" Hemphill tells us that WORL-Orlando is running a "Black Explosion" contest. When the listener hears JJ from "Good Times" say "DY-NO-MITE!" on the air, they call in - 3rd caller wins an LP. If they hear him say it twice, they win 2 LP's. They're also giving away tickets to the O'Jays and Commodores show this week-end.

KSOL/FM-San Francisco has a winner in their "Feel The Spirit" contest - that winner going to Disney World in Orlando, Florida - reports Billy King, P.D.

KKDA-Dallas needs a newsman or newswoman. Send tapes to Chuck Smith at P.O. Box 707, Grand Prairie, Texas, 75051. (No calls, please.)

Country Club.....cont'd. from p. 6

Service: WVMI-Biloxi needs the T. G. Sheppard sgl.  
 KWYZ-Everett needs the Connie Smith, T.G. Sheppard, Gene Watson and Margo Smith singles  
 - also the Joe Stampley(Epic), Johnny Cash, Steve Young and Barbara Mandrell LP's.  
 WNAT-Natchez needs the T.G. Sheppard sgl.  
 KZEE-Weatherford needs sgls and LP service from UA.  
 WLBB-Carrollton needs the Mac Davis sgl and the Willie Nelson LP from Columbia and LP  
 service - all sources.

KZYM-Cape Girardeau needs oldies, both op 2nd country, from all sources. If companies  
 can't send copies of their oldies series, then please send a catalogue and station will try  
 to order what they can within the programming budget, says Bud Van Arsdale.

WJOR-Muscle Shoals is now playing LP cuts. Lp product is needed - all sources.  
 No one station could possibly add all the new releases listed under "Recommended" and "Also Pos-  
 sible" on p. 5 this week, but they all seemed worthy of a listen for consideration if they  
 happen to suit whatever individual variation of country music format a station is programming.  
 There is no such thing as an "automatic" artist anymore; the product keeps improving and  
 there's a lot more of it; most playlist are much tighter than a few years back and consensus  
 play is harder to obtain. One correspondent periodically comes up with the plaintive sug-  
 gestion that if all companies would just declare a brief moratorium on new product music dir-  
 ectors could go back in their stacks and get at the possible hits that get buried or lost in  
 the weekly onslaught of new material. At the March radio seminar those of us who review rec-  
 ords agreed that we were averaging 50 new singles a week. Then there are the LP's. We'd wel-  
 come your thoughts on this. J.

WBAM-Montgomery plans to work with the Alabama prison system in bringing in some entertainment to  
 the inmates. Diane Brennan West would appreciate it if anyone interested in offering their  
 time would contact her at 205-288-0150.

"Bucks" Braun the new music director at WINN-Louisville. He will be available for promo calls  
 after 9:00 AM Eastern time. The numbers are ready on Tuesdays. Moon Mullins continues as PD.  
 Jim Bailey promoted at WVMI-Biloxi to music director, effective immediately. Lance Carson moves  
 to WWUN-Jackson June 21 as PD. He'll also handle the music.

Derek Curtis-KLOG, Kelso, now doing AM drive and news at KRKT-Albany, Ore.

J.J. Ramey, who has been doing weekends at WHN-New York in addition to his other duties there,  
 is now doing full time PM drive at WNJR-Newark (R & B) and still doing weekends at country WHN.  
 Mr. Ramey is black and - obviously - versatile.

Congratulations and best wishes to Bill and Judy Hart (WJJD-Chicago) on the safe arrival of  
 first born William Franklin, 8# 13½ Oz., May 21.

Also congratulations to Don Tiegiser, WNAT-Natchez for the completion of his work at Co-Lin Jr.  
 College while maintaining his radio duties.

KDXX-Provo will go 24 hours May 31. Call letters will change to KFTM.

WHN-New York running a "Say Happy Birthday'Day" contest starting this weekend. For each written  
 submission chosen to be used on the air the author receives a U.S. savings bond.

KREN-San Jose running a contest around what "It" is in the Roy Clark THINK SUMMER, starting Tues.  
 6/1. Contestants submit in drawing or writing their ideas of what "It" is. Can't tell you  
 the prize - we don't know what it is either. That's part of the game.

WIRE-Indianapolis, in co-operation with Opryland and Indiana Beach (a park) is again sponsoring  
 a talent search for country bands in central Indiana. Bands must have 3 or more members  
 who live in Indiana to qualify. Winner of the finals will appear at Opryland in August. This  
 is the second search of this nature for WIRE. Last year's finalist, Duane Murray, won the  
 national competetion.

Ben Peyton, KAYO-Seattle tells us that he and Robin Sherwood helped build the world's biggest  
 taco at the Seattle Center Food Circus Court Fri. 5/21. Claims a new Guinness world record.

KVET-Austin is promoting "KVET Kicker" stickers with \$2 bills. Giving \$2 bills to listeners  
 with station's stickers on their cars or pickups.

KBOX-Dallas doing an Elvis weekend. Listeners who correctly identify Elvis selections - played  
 hourly - receive LP's and their names go into a Memorial Day drawing for tickets to his sold  
 out concert June 3. Some 35,000 turned out for last Sunday's (May 23) appreciation day at the  
 Cotton Bowl - even the weather turned obliging.

KFOX-Long Beach just finished up a "One Piece At A Time" promo. They listed 60 highly recog-  
 nizable car parts from a dune buggy which actually had been built from different cars. Each  
 part was assigned a number and the completed list was required to build the "Foxmobile". Each  
 jock announced 2 clues a show for parts not called up to that time. Listeners could mail in  
 guesses of the completed list to the station before the entire list was announced. David  
 Gentry of Carson, Ca won the Foxmobile.

Playboy artists Mickey Gilley, Bobby Borchers and Chuck Price will play in the Crippled Childrens  
 Foundation Celebrity Golf Tournament in Biloxi July 13-14.

Albums

Album of the Week: (reviewed by Ron Fell) "Sky High"-Tavares (Capitol) The Brothers Tavares have put together an album of consistently strong cuts. The instrumental arrangements, although rhythmic and danceable, don't overpower the excellent vocal performances. (This is notable in a time when some drummers carry the melody.) THE MIGHTY POWER OF LOVE, BEIN' WITH YOU, DON'T TAKE AWAY THE MUSIC (at 6:18) and TO THE OTHER MAN probably are strongest, but there are no weak cuts in the album.

Also recommended from the following albums:

- "Angelo"-Angelo (Fantasy) THE DAYS OF YOU AND ME/GOODBYE BLUESOME LADY

New Releases

B.G. comment: Neither Gary Taylor nor I could find anything new this week that we could recommend as a "personal pick". Listed below are some that might do well.

Possibles

CARRY OUT FEELINGS-Nazareth (A&M)	ROOTS, ROCK, REGGAE-Bob Marley & the Wailers (Is)
WHAM BAM SHANG-A-LANG-Silver (Arista)	IN MY FATHER'S FOOTSTEPS-Terry Jacks (Private St.)
ALL THAT YOU DREAM-Little Feat (Warner Bros.)	I NEED TO BE IN LOVE-Carpenters (A&M)
EVERYTIME I SING A LOVE SONG-John Davidson (20th)	ANY DAY IT RAINS-Ray Materick (Asylum)

Edited album cut coming as a single? A BETTER PLACE TO BE-Harry Chapin (Elektra) We've been told that Mr. Chapin himself produced the edit from this 9:17 selection. Like all of his songs, this one tells a story - a dramatic story about three lonely people. If the edit can retain the emotional impact of the original, it could turn out to be a very large hit.

Inside Progressive Radio

(by George Meier, editor of "Walrus")

Established Progressive Airplay

- (In Order)
- Rolling Stones
  - Doobie Brothers
  - Firefall
  - Led Zeppelin
  - Wings
  - Stephen Stills
  - Wailers
  - Santana
  - Thin Lizzy

Notes: The Stones are by far the airplay leaders this week. Following with significant impact, is the new name Firefall which does best in the Midwest and West for now. The rest of the list is as expected with the obvious growth of Thin Lizzy's rock and roll. Off The List: The Tubes is very strong in the Northeast, but doing a little less well generally. Charlie Daniels Band is getting extraordinary play on at least 5 tracks, that kind of play foretells things for the future. Finally, America is doing moderately well but not what they have done in the past. (No political pun intended.)

New Progressive Airplay

- (In Order)
- Steve Miller Band
  - Jethro Tull
  - Steely Dan
  - Atlanta Rhythm Section
  - Aerosmith
  - Todd Rundgren
  - Billy Joel

Notes: Steve Miller and Atlanta Rhythm Section are the big news this week. Steve's new LP is getting blanket airplay. Atlanta Rhythm, which had developed a spotty following to now, generalizes its appeal showing a bright future. Elton's new LP is getting a cool-for-Elton response because it is old material. Sons of Champlin shows strength in the West.

Retail Information

Beyond the established airplay records which are all selling, there are a few notables. George Benson, almost unnoticed, shows strong sales. Bright futures are seen for Ramsey Lewis and Renaissance in the Northeast. While Gentle Giant starts early in the Southwest, Rainbow also gains quickly in the South.

Imports:

Three imported records seem to have a life of their own. The Wailers, who are breaking with the domestic Rastaman Vibration are also leading import sales with a live album. Likewise, Santana, doing well with a new domestic album, has a hot three record live import set. Electric Light Orchestra also has a live import which is getting attention.

Gavin's Gab

Michael Spears (KFRC-San Francisco) observes that with all the new artists finding places in the top 30 list of singles hits, 1976 may very well be known as "the year of the music director". The increased importance of the music director in today's radio is illustrated by radio's growing need for someone who can respond to the changing value judgements of radio listeners - someone whose music judgements aren't frozen in the early sounds of rock and roll but who can understand and evaluate new talent and new musical concepts. Paul Drew voiced somewhat the same thought when he called this "the year of the new artists".

Art Morris, music director of KTTN-Trenton, Mo., (near Kansas City) deplores the musical monotony that arises from the ultra tight playlists of the rockers, but applauds the variety of musical alternatives to be found on the adult contemporary stations. He writes: "Where are the top 40 stations that are courageous, like the old WLS, KAAV, KXOK, KLIF, etc." (Editor's note: The old emphasis on "courage" is being replaced by unremitting devotion to the bottom line).

Donny Burns, CKGM-Montreal, and Don Cannon, WIBG-Philadelphia had a big bet on the outcome of the recently concluded Stanley Cup hockey matches. The Canadiens beat the Flyers four straight, so Don sat in a parade car wearing a dog collar, with Donny holding the leash. Don also had to do Donny's afternoon show on CKGM - did it well, we hear.

The staff of WQXI-Atlanta are happy and proud about their shiny new studios and equipment. Note the new address: Suite 240, 3340 Peachtree Rd., N.W., Atlanta, Ga. 30326.

Dino Barbis has resigned his regional merchandising position with Warner/Reprise and will soon announce the start of his new record company. We wish him well.

Chris Tyler has resigned as PD of WVOV-Huntsville, Ala. He and his wife will be doing summer work in Guatemala with Operation Serve, co-ordinated by Youth For Christ/Campus Life. They'll be working to help rebuild after the massive earthquake damage. Doug Shane, from KIRL-St. Louis, will replace Chris at WVOV.

Al Adams, WKGN-Knoxville can now accept record promotion calls from 3 to 4PM, Tuesday through Thursday.

Bob McKay writes: "Have been a personality for 9 years (WIXY, WCUE, WDAE, WFTL, WKY, KRKE), got tired of the never ending, nomadic excursions across the country...gonna settle for awhile and be one of the best contemporary newsmen in the country!" So Bob has taken a position as news director for KQEO-Albuquerque.

Jay Trachman's "Fruitbowl", which features fun material for jocks, last week (5/24) offered some "gag rules" - types of gags that aren't funny. Here are some:

"In-house jokes. Criterion: Could a listener who just joined, for the first time ever, enjoy this? (People couldn't care less about your engineer)".

"90% of all ethnic jokes. Criterion: Could a thin-skinned person of this minority enjoy this gag as much as I? (Thin-skinned, as opposed to "some of my best friends" - every bigot seems to have a minority friend or two who supposedly think that his worst racist jokes are hilarious!)"

"Most put-downs. Criterion: Can I present it in such a way that even the most casual listener realizes intuitively that the put-downee is someone I like and respect? (Note the pains Rickles goes to in order to establish his credibility on this score.)"

(Copyright: Cree Radio Services, Box 382, Fair Oaks, Ca. 95628.)

Bob Baron, of WAAY-Huntsville, Ala., sends us his station's promotion effort that somewhat resembles the controversial campaign conducted by KCBQ-San Diego. It's called "The Great American WAAY, American Revolutionary Bicentennial Booklet", which was copyrighted Feb. 18, 1976. On advice of attorneys, however, this bulk-mailed booklet was delayed until after the spring rating period. Bob writes: "It does point out the commendably aggressive and competitive stance of KCBQ and Bartell; living with the multitude of federal restrictions, but getting the job done. Promotions, excitement, getting to the competition is what makes this business what it is and why guys will give up security and many times forego more lucrative careers for the thrill of battle. I salute Gerry Peterson; he did it, I didn't."

Tom McCarthy, of WGY-Schenectady, adds to our recent "It Seems To Me", column this: "that rock and roll air people still don't realize that people just don't talk like that...Granted, the format is such that an up-tempo atmosphere must be alive...but one can go off the deep end... and too many do".

KUGN-Eugene, the "official Bike-A-Thon station" collected over 3,400 bikers in a 77 mile ride for the American Cancer Society - raised \$45,000 in pledges last Saturday.

Wedding bells May 15 for John Summers, of KCIL/FM-Houma, La. Bride's name is Amy. (No last name reported, but now, of course, it's Summers.)

Steve Denson, new music director at WBGW-Bowling Green, can take record promo calls Mondays and Tuesdays, from 2 to 4PM CDT. Call: 502-842-1638.

Chet Sargent, of WRUM-Rumford, Maine, can take his promo calls Tuesday through Friday between 11AM and 12:30PM.

Airmen at WRFC-Athens are: George Monteil, Chris Connors, John Brock, Reggie Blackwell, Reid Lundy and Glen Robinson. Gary Kirk and Jeff Michaels help out on weekends.

Herb Harding, Pres. & Gen'l. Mgr. of KRZI-Waco wrote a nice letter about our radio meeting in Austin, to which he brought a PD and two sales people. Selected quotes: "...it was satisfying to learn that my own sales people who attended gained a much higher respect for the role of those in programming...Perhaps a short session with sales participation would benefit some of the programmers...There is a very obvious attitude of concern and enthusiasm going on, both inside our station and over the air. The month of May should be the highest (sales) month in our history...I feel a share of the credit goes to you for your efforts and sincere interest in good radio".

WLLH-Lowell pulled off a successful beard growing promotion, which started with the manager's threat to fire Bob Raymond unless he shaved off his beard and wound up with a beard growing contest for the whole staff, with the public to judge which one has the "worse" beard.

The Eau Claire Meeting

On Saturday, May 22, I had the pleasure of meeting with a group of Wisconsin radio people for an informal exchange of ideas. Stations represented were WEAQ-Eau Claire, WISM-Madison, WSPT-Stevens Point, WIFC-Wausau, WSAU-Wausau, WKAU-Kaukana, and WBSD-Burlington. Our special invited guest was Peter McLane, from KIOA-Des Moines. Although it was a comparatively small group of 18, the discussions were both animated and informative. We were especially glad to welcome the manager of WSPT, Jim Schuh, the sales manager of WISM, Chris Lytle, and WISM's top billing salesman, Charlie Simon.

I asked members of the group to write me their impressions of the meeting. Two have come in so far. The first is from Scott Christenson, music director of WEAQ-Eau Claire. He writes these five impressions:

1. There seems to be a healthy understanding of the need to direct programming to the needs of the community. As basic as this may seem, it has not always been done as well as it seems it could. WISM in Madison impressed me with the discussion of their localized promotions. Peter McLane of KIOA was, at one point, discussing the sound of KDWB and astutely observed that those programming principles which KDWB was successfully utilizing would not necessarily work in his market. These examples offer a change from recent tendencies in small and medium markets to simply immitate large market station programming. I believe area stations are responding more directly to the specific markets they serve if these discussions were indicative of what other stations are doing.
2. There continues to be an increasing awareness in both programming and sales of the advantage of cohesive effort. The increasing communication between the two departments was apparent at our meeting as programming people made knowledgable statements about sales and vice-versa. Continued effort to improve relations within all departments of a station must be made.
3. The point seemed to emerge from the discussions that there is more than one way to be successful. The discussion about WISM's 18 commercial minutes versus KIOA's 12 minute maximum was stimulating, but the case for both stations was best represented by the fact that both enjoy success in their particular marketplace.
4. There was one disappointing aspect to our seminar and that was the small number of stations in our area who saw fit to send representatives. Before this meeting, the only bond tying Wisconsin stations together was geographical. As a result of our discussions, those stations represented have found new reasons for cooperation, exchange of information and joint pursual of worthwhile objectives. What we who were represented at the seminar gained from this meeting, was what those who were not represented at the meeting lost.
5. My final observation ties in with the small turnout and that is the fact that you gave of yourself to make this meeting a success just as if there had been 500 people present. Although our group was small, our appreciation of your efforts to make the meeting a success was very great and we all thank you!

Pat Martin, PD of WSPT-Stevens Point, briefly summarizes the high points of the topics discussed. (Comments in parentheses are mine. BG)

1. Discussion on audio quality of pressings and audio processing of music and commercials. (Increased surface noise creates problems in putting the music on carts. Using album cuts sometimes solves the problem.)
2. Discussion on coordinating sales and programming departments. (Salesmen seem to do a better job when they can sell the program content instead of just the time.)
3. Discussion on commercial placement in clusters vs. short spot sets. (Preference seemed to be for live spots first in clusters. Holding some prime time open for small local advertisers is a form of public service.)
4. Station Promotions: Money giveaways vs. community involvement promotions. Unique promotion ideas. (One station arranged to have wearers of its T-shirts admitted free to a rock concert.)
5. Gary Bond's discussion on call out research. (Wording and timing of questions is important. First question should be asked without waiting to ask if listener is willing to talk.)
6. Song lyrics and management's responsibility to license and audience. (One salesman felt that protests from a small minority should not compel the station to delete a record whose absence might lose some listeners. One broadcaster thought that programmers should look at lyrics from the standpoint of parents.)

Once more, as in previous regional meetings in Minneapolis and Austin, the value of smaller, face-to-face meetings was illustrated by the degree and intensity of participation. The size of a man's market had no relationship to the significance of his input.

Future regional meetings? There have been suggestions for the following, radio-only regional meetings:

- Pacific Northwest (including Montana & Idaho) for Spokane in October.
- Central Area (Indiana, Ohio, Michigan, Kentucky, & Tennessee) for either Columbus or Indianapolis, also in October.
- Florida and South Georgia, for Cocoa Beach, in November.
- Northern California and Nevada, for Monterey - possibly July.

Plans are already underway for a New England meeting to be held in Framingham, Mass., Sept. 10 & 11. This will be a radio-record meeting, similar to the one in Minneapolis. It is being planned and sponsored by a local committee, who have invited me to take part. Which I will.

Radio people in any of the above mentioned areas (excepting New England and Florida, which are already pretty well set) who would like to take part in planning and presenting such a regional meeting, please get in touch with me.
