Inside Progressive Radio
by George Meier, Editor of "Walrus"

Regionality Specified

Our last essay introduced the concept of regionality which we would like to expand upon here. As long as these regional, musical personality traits are understood to be generalizations we can proceed.

The midwest tends to be as conservative in music as it is in other social areas. Artists come on the charts later and stay longer than in other parts of the country. Also, a tendency toward less subtle, harder rock forms pervades. There are several local superstars who, as yet, have not spread much beyond certain city limits. Bob Seger is Detroit's own, while Head East tears up St. Louis and Kansas City.

In the South a whole brand of loosely flowing rock has evolved behind the success of the Allman Brothers. Several of those artists - Lynyrd Skynyrd, Charlie Daniels, and Marshall Tucker - have spread their sounds beyond that region. But, the South is still home base for bands like Hydra & Grinderswitch which seem locked into the area.

Likewise, fusion music, the hybrid which combines rock and R&B rhythm feels with jazz times, seems indigenous to the Northeast with only the superstars of the field gaining any real foothold outside the area. Often that happens only because the radio people giving them exposure outside the N.E. are immigrants from the N.E. part of the country.

Finally, the West coast has developed a mellow, often funky approach which seems married to its life style. The Dead, and a singer-song-writer like Kenny Rankin, on one hand, and the R&B essences of San Francisco - Sly and Tower of Power and Herbie Hancock - all fit together.

Another fascination associated with regionality is the movement, from one area to another, of artists and whole sounds. Springsteen was an East Coast phenomenon who spread South and West while Rankin was exclusively an L.A. artist who now seems to be spreading East. Bowie's core of support originally came from places like Cleveland, Memphis, and Philadelphia. As he became old news - not a has-been - in those places and as he got funkier, he began to find fresh support in the West. He leads a trend of English music moving westward.

While the hit albums tend to get play and support universally, it is these regional artists who add local color to the musical spectrum.

Indianapolis Meeting
October 16-17

Don Nelson, manager of WIRE-Indianapolis, will moderate our opening session Saturday forenoon, and Bryan McIntyre, operations mgr. of WCOL-Columbus, will head up the Saturday afternoon session. Opening our meeting with a welcome to Indianapolis and an introduction of Don Nelson, will be our old friend, Jim Hilliard, manager of WIBC-Indianapolis. We urge all who plan to attend this radio-only meeting to notify us this week. There are no registration forms to fill out - just a letter or a phone call will do. Ten dollar fee should accompany the registration letter, but the fee can be paid later at the hotel. Spouses are welcome at any of the meetings, the Saturday lunch and cocktail party - regular registration fee required. Sales and engineering personnel will also be welcome.

Spokane Meeting
October 30-31

Among those who will attend are Michael Spears, PD of KFRC-San Francisco, and his chief engineer, Bob Kanner. Michael was unable to make our Monterey meeting, so he wants to get in on this one. Bob delighted our Monterey group with his easily understood exposition on audio processing. He also has some helpful hints on improving the co-operation between program and engineering departments. Out of town registrations for Spokane must be received before September 30 from all who wish accommodations at the Sheraton-Spokane Hotel.

Albums of the Week
(reviewed by Ron Fell)

"Somewhere I've Never Traveled"-Ambrosia (20th Century) This group of accomplished musicians is beautifully showcased by producer Alan Parsons, and receives spectacular orchestral arrangements from Andrew Powell. Go directly to DANSE WITH ME GEORGE for a representative taste of Ambrosia. RUNNING AWAY, CAN'T LET A WOMAN and WE NEED YOU TOO are all high quality cuts with clear and strong vocals enhanced by full and creative instrumental arrangements. What must have been a very expensive album to produce will surely provide a feast for millions of music lovers.

"Troubadour"-J.J. Cale (Shelter) In sharp contrast with the Ambrosia album, Cale's latest was recorded in barns, log cabins and studios in Tennessee. Cale's "Troubadour" was probably recorded and packaged for about as much money as Ambrosia spent on their album artwork, but the net result is equally pleasing. HEY BABY, I'M A GYPSY MAN, and YOU GOT SOMEBODY should attract attention. His relaxed vocals and his distinctive guitar work on HOLD ON and WOMAN THAT GOT AWAY give the album many good reasons to enjoy.

Also recommended from the following LP's:

- "Southwest"-Herb Pederson (Epic) PAPERBACK WRITER/THE HEY BOYS
- "This Is..."-El Chicano (Shadybrook) QUE SERA/PARA TI

Bill Gavin's Personal Picks

- - - I especially like:

- MR. MELODY-Natalie Cole (Capitol) Happy song jumps abruptly out of a deceptively calm celeste arpeggio, giving the vocalist plenty of room for a chorus or so of scat singing. The side's musical merit more than compensates for the light weight lyric.
- SALTY TEARS-Thelma Jones (Columbia) Her rich voice and intimate style bring a special warmth to this Teddy Randazzo ballad. Singer's debut performance for the label gives promise of a bright musical career.

Gary Taylor's Personal Picks

- FLIGHT OF THE MOORGLADE-Jon Anderson (Atlantic) A taste of the Yes influence perhaps, yet that shouldn't detract from the obvious talent on display here - especially in the overall arrangement. If the album is as strong there should be a good deal of airplay at the progressive level.
- JUST CAN'T BE THAT WAY (RUTH'S SONG)-Weapons of Peace (Playboy) Certainly different from anything else that's on the market, In fact, it's reminiscent of Blue Swede.
- CAN'T YOU SEE-Waylon Jennings (RCA) Currently charted #6 on Janet's country chart. Mentioned here because this could be played on other formats with ease. It's a very good record.

Gavin's Gab

Steve West, PD of KJR-Seattle, recently announced that the Tuesday sessions for record promotion were being terminated. The move was interpreted by some record people as a virtual "closed door" policy against record promoters. "Not so", says Steve. He told me that he would still accept phone calls from promo people and would, if it seemed important, make appointments to see them in person. Steve notes that he is cutting back somewhat on his playlist, and that as a result is playing few, if any, new and untested records. He also announces that he is naming 6-10PM jock Tracy Mitchell his music and research co-ordinator.

Dick Smith tells us that those attending the Northeast Programmers' Conference in Framingham (Mass.) on Sept. 10-11, may bring a spouse or friend to the Saturday evening dinner. There will be a \$10 charge for each additional guest. Please notify one of the committee members in advance. (I'll see you at my cocktail reception Friday evening at 6:30. All registrants and their spouses are invited. No charge.)

Congratulations to Sharon and Dick Baze (PD of KCRS-Midland, Tx.), who welcomed the arrival of Angela Michelle Aug. 18. Nine lbs. of joy.

KQDI-Great Falls switches to a rock format Sept. 15th - needs current singles and LP's, also old hits. Address record mailings to Don Nordine, PD, KQDI-Radio, 1026 Central Ave., Great Falls, Mont. 59401.

KWSL-Sioux City, Ia., started a 24-hour schedule on August 30 - only top 40 operation in the area running 24 hours a day.

In Jacksonville, Fla., WIVY (AM) changes call letters to WEXI. The FM affiliate, recently sold, will still be WIVY/FM. Don Waterman is mgr., while Pat Hayes is still GM at WEXI.

In Winston-Salem, WAIR (AM) will simulcast with FM affiliate, WSEZ, from 6PM to midnight. The WSEZ format offers religion in the forenoon, A-C in the afternoon and oldies and LP cuts from midnight to 5AM.

In Waterloo, Iowa, music man John Arthur has a new phone number for promo calls - 319-291-1219.

Harley Drew writes from WBBQ-Augusta, enclosing excerpts from his Arbitron. He comments: "We had resigned ourselves to increased audience fractionalization and a decreasing ratings curve, because everything we read by the experts indicated that the good old days of high ratings and broad demographics were gone for good. This was especially true of a rocker...We think we do poorly, and we do. We applied that in reverse. We were convinced that we could again do well, and we did! It is possible to still operate a mass appeal radio station, and we are the living proof...careful, wide appeal programming...dayparting helps...carefully examine every facet of our programming...fine tune it where we had some loose screws."

Harley has every right to be proud of the results - not only #1 in adults and teens in every day part but also by wide margins in most cases. While WBBQ's degree of success isn't duplicated by a top 40 station in any major market, it's worth noting that stations like WLS, KILT, KFRC and KHJ enjoy substantial adult shares in their audience composition. Mass appeal is still possible, as Harley says. It's just harder to achieve than it used to be.

Hours for music promo phone calls to:

- Peter McLane, KIOA-Des Moines, Wednesdays, 9AM to noon. Local calls.
- Charlie Fox, KRIZ-Phoenix, Mondays & Fridays, 1 to 5PM.

Jim Wood knows of two Midwest rockers looking for tapes from morning personalities and night time cooks. Apply through Jim at 3809 Washington Ave., Evansville, Ind.

Radio Audience Surveys

As most of our readers know, the Radio Advertising Bureau has set up a special "task force", with Plough's Harold Krelstein as its head, to evaluate the various radio audience surveys, particularly with reference to the discrepancies which have been charged against some of them.

The July 12 issue of Advertising Age carried an article which pointed out that the increasing popularity of ARB with ad agencies was placing the Pulse operation in a serious financial bind. There has been some speculation that Pulse might be forced to fold, although there are no positive indicators in this direction.

Eric Norberg, PD of KEX-Portland, wrote me recently some of his thoughts on the subjects. He believes that the loss of the Pulse survey would be a severe blow to radio. He writes:

"...Although the greater accuracy of Pulse has resulted in considerable gains in acceptance for programming purposes of its service, national ad agencies have switched gradually almost entirely to ARB. The reason for the switch has been: Interlocking TV/radio data (ARB surveys TV and Pulse does not), speedier delivery (Pulse validates at least 10% of all data, ARB just prints whatever they get and gets it out fast), and superb PR - especially at the ad agency level...

"...ARB's dominance has led it to cater mainly to the ad agencies now, with the results that costs of the survey to radio stations (who pay the freight - ad agencies get the data at nominal cost) have been climbing sharply; and increasingly ARB is shaping radio data to fit TV market definitions, including the ADI. This innovation is not to help radio compete with TV, as ARB says, but because many agency people would like to buy radio like they buy TV. This hurts radio, which is essentially a local medium, by encouraging it to be bought like TV (which is NOT a local medium) - making radio psychologically a stepchild of TV. Furthermore, ARB's market definitions often make great sense for TV but are stupid for radio...

"...ARB's arrogance toward radio stations is compounded, however, by the fact that their surveying method is full of statistical holes. The nomograph in the back shows the error factor for a statistically valid sampling system, but does not reflect the actual error factor since the built-in biases of their surveying method prevent it being statistically reliable as a survey sample.

"I would list these biases, but I don't have to, because ARB lists most of them in the back of each book as "39.Limitations." It's a chilling list; Pulse has no similar list because their surveying method circumvents virtually all of these problems, and their method yields statistically reliable results. Incidentally, the ARB sample is not selected by Artitron, but is selected for them by a direct mail firm, Metro Mail, Inc. The strange and predictable "windshield wiper effect" so often visible in ARB trend charts, in which stations with no programming changes tend to go up and down in alternate books, leads me to believe that Metro Mail has a system of preparing these samples which introduces calculated geographical skews in two basic sample frames, which they alternate in an effort to guarantee that each sample is drawn differently from the last. Just a suspicion, but something systematic is clearly going on."

It is not the intention of The Gavin Report to attack the credibility of any survey. We believe, however, that responsible opinions of broadcasters deserve the attention of our readers. We will welcome other views on this subject.

Retrospect

Browsing through our old files of ten years ago, we came across these items.

August 5, 1966. Bobby Paine, student at the Univ. of Texas, stepped to a nearby phone at the outbreak of the sniper shooting in Austin, and phoned an eye witness description to KLIF, Dallas, where it was broadcast live, accompanied by the actual sound of guns.

KLRN-TV set up its mobile unit under fire in Austin and made its films available to TV stations in Austin and San Antonio, with the sound track played on KBAT-S.A.

Mike Hunter, from KRIZ-Phoenix, is the new PD at KLIV-San Jose.

The June-July Hooper for Denver shows KIMN far ahead of all competitors. Joe Finan's KTLN is holding well, with a #4 position in the forenoons and a #2 in the afternoon.

On The Record (8/5/1966)

The current furore over reports that John Lennon equates the Beatles popularity with Christianity has shaken up a good many broadcasters. In several smaller markets, stations have announced a Beatles ban. (One such - KSPO-Spokane, Wn. - is a C&W station.) Some of the bans are sincerely motivated; others are obvious grabs for publicity.

Most of the major people that we've talked with are taking no immediate action. One station is telling complaining listeners that, as a Federally licensed operation, for it to ban the Beatles would constitute interference with constitutional guarantees of religious freedom. A couple of group execs are taking the matter seriously as a possible source of listener complaints to the FCC.

In many cities the newspapers have given considerable front page space to the story. Public indignation varies in intensity from one area to another, and the printed media are anything but reluctant to fan the flames. Most radio stations are avoiding public statments, taking the complaints as they come. One exception is KDKA-Pittsburgh, where DJ Clark Race taped a trans-Atlantic phone interview with Maureen Cleave, the reporter who held the interview with John Lennon almost a year ago. Miss Cleave mentioned that the recent published quotes, taken out of context from a 3,000 word interview, greatly distorted the original meaning. The Clark Race tape was broadcast on KDKA and has been made available to a few other stations.

In our opinion, a performer's right to be heard on a record should be determined by the quality and content of the recorded performance, and not by his personal opinions. While radio has a responsibility to its community, it doesn't seem likely that the morals or religious beliefs of any listeners would be corrupted by playing any record whose content is limited exclusively to entertainment. Radio Programmers have enough problems in evaluating the lyric content of many records. Let's not complicate things by having to inquire into the private lives and personal opinions of the people who make the records. Something tells us that such a course might seriously curtail our playlists.

Bulletin (8/5/1966)

On Saturday, Aug. 6, at 8 AM, PDT, Alan W. Livingston, President of Capitol Records, will hold a telephone conversation with John Lennon, in an attempt to clarify the confusion about his published quotes. Dubs of the recorded interview will be rushed to any stations that want them.

It is reported, unofficially, that the Ku Klux Klan will hold an anti-Beatle rally in Birmingham. We are also told that the Knights of Columbus in Baltimore are taking active interest.

August 12, 1966. Capitol President Alan W. Livingston cancelled plans to record a Transatlantic phone interview with John Lennon in favor of a face-to-face meeting with the U.S. press scheduled for Chicago on Thurs., 8/11. Change of plans was requested by both Lennon and Brian Epstein. The Chicago confrontation has been reported by the wire services and was recorded by WLS and others.

Latest word on "ban the Beatles": Several stations that banned 'em have reversed their stand. Only a small handful of pop stations are still restricting Beatles airplay. Greatest public pressures have been felt in medium and smaller markets. Most stations putting the question to a listener vote report overwhelming listener support for the Beatles. Exceptions was KOTN - 75% anti-Beatle.

Note to correspondents:

In fairness to the many subscriber station now on our waiting lists (top 40 and A-C) to qualify as reporting stations, we must ask that all correspondents on our lists report regularly. Occasional failures to report are understandable, but lapses of several weeks could eliminate a station as a correspondent. We are entirely dependent on complete and regular reports from all.

THE GAVIN REPORT #1117
WEEKLY SUMMARY
(Associate Editor, Gary Taylor)

Smash of the Week: STILL THE ONE-Orleans (Asylum) Radio acceptance has been strong from the beginning and justifiably so.

Sleeper of the Week: (DON'T FEAR) THE REAPER-Blue Oyster Cult (Columbia) Chart gains have been slow but steady. Chalk up one for quality musicianship.

Hot: THAT'LL BE THE DAY-Linda Ronstadt (Asylum) After only four weeks 112 correspondents are playing this classic, and 79 show chart gains.

Top Tip: BETH-Kiss (Casablanca) The group's untypical side is pulling phones and making sales gains, especially east of the Mississippi.

Record to Watch: I GOT TO KNOW-Starbuck (Private Stock) Impressive airplay - strong at the request level.

Inside Progressive Radio
by George Meier, Editor of "Walrus"

Established Radio Airplay

- (In Order)
- Jefferson Starship
 - Linda Ronstadt
 - Steve Miller Band
 - Rod Stewart
 - Orleans
 - Jeff Beck
 - Go
 - American Flyer
 - Average White Band
 - James Taylor

Notes: While the plateaus indicate differences in power play, taken as a whole these LP's control the air. Some interesting regional differences show Steely Dan in 6th position in the N.E., while they are in 22nd position nationally. Not quite as dramatic is Gino Vannelli's 6th position in the South as compared to his 14th position nationally. The Midwest favors Crosby/Nash in 5th position, while they are in 11th position nationally. Both new names, Go & American Flyer, were predictable, based on initial reaction.

New Progressive Airplay

- (In Order)
- Mike Greene Band
 - Hall & Oates
 - Boston
 - Flo & Eddie
 - Stanley Clarke
 - Judy Collins
 - Herbie Hancock
 - Automatic Man
 - Ambrosia
 - Tower of Power

Notes: This list, and the plateaus indicated, pretty much tell the story about which new records are getting initial radio interest. Some new names appear. Mike Greene's second album promises to begin his career. Boston, a new hard rocker, attempts to perfect every punk move ever invented. England's Automatic Man introduce themselves admirably. Hummingbird appears in the South's 6th position without showing any strength anywhere else.

Miscellaneous

- A) Michael Dinner in the Northeast and John Klemmer in the West are getting initial sales response out of proportion to the rest of the country. The hottest new artist is Wild Cherry, which is threatening the top 10 in sales after one month.
- B) Selling imports include some new entries. Brand X, Soft Machine, The Wailers, Santana Live LP's, and Kevin Ayers do well.
- C) New singles gaining progressive attention are the Strawbs and ZZ Top.

The following LP tracks are filling the air:

- | | |
|--|---|
| Artful Dodger-HONOR AMONG THIEVES | Flo & Eddie-KEEP IT WARM/ELEANOR |
| Mike Greene Band-JONI | The Rowans-OOH MY LOVE |
| Daryl Hall & John Oates-DO WHAT YOU WANT/
RICH GIRL/CRAZY EYES/KERRY | Herbie Hancock-GENTLE THOUGHTS |
| Albert King-I'M READY/AIN'T NOTHIN' YOU
CAN DO | Freddie Hubbard-WINDJAMMER |
| Azar Lawrence-KICKING BACK | Mother's Finest-FIRE |
| Linda Ronstadt-THAT'LL BE THE DAY/LOSE
AGAIN/THE TATTLER/SOMEONE TO LAY DOWN/
GIVE ONE HEART | Orleans-STILL THE ONE/REACH/WAKING &
DREAMING/WHAT I NEED/SPRING FEVER |
| | John Reid-NOW & THEN |
| | Paris-PALE HORSE, PALE RIDER/BLUE ROBIN |
| | Ruby Starr-MAYBE I'M AMAZED |

Country Club....cont'd. from p. 6

WJJD-Chicago going into their annual promotion to help raise funds for Lamb's Farm (a sheltered workshop serving the Chicago area). Last year drew 30,000 in attendance and resulted in a healthy net for the project. This year is expected to be equal or better. Artists (who donate their services) confirmed so far are T.G. Sheppard, Mel Street and Dickey Lee.

KFEQ-St. Joseph, Mo. ran a "Swinging Western Weekend" featuring Gene Autrey (including a recent interview), Bob Wills, etc. Poster and LP giveaways for listeners with "super response" reported.

WIRK/FM, West Palm Beach, has collected so many interesting recipes in its recipe contest that they are now contemplating publishing a cookbook.

Guest DJ's this past week at WHN-New York were Tammy Wynette on Lee Arnold's show and Marty Robbins during Bob Wayne's slot. Each artist did an hour.

The DJ crew at KEEN-San Jose is competing in a calf tying contest 9/11 at the Santa Clara County Fair. Total previous experience in this rather tricky art consists of a tutoring session with Larry Mahan. We wish them well.

Al Kostors from KOTY-Tri Cities to KUEN-Wenatchee as PD.

New at WITL/FM-Lansing is Junior Blackwood - all night.

KWMT-Ft. Dodge is holding its annual Nashville tour this weekend (9/10-11). Three bus loads (138 listeners) with Shannon Reed and Tom Torrance as hosts.

KEED-Eugene is running a "joke" contest. Listeners jokes are taped between 7 - 9 AM on a call in basis. Bob Wise says they are accumulating some gems. Incidentally, Eugene, a 12 station market of about a quarter million population, now has 2 country stations and, it is rumored, may shortly have a third.

KENR-Houston in the midst of a contest in which the grand prize will be a 1977 Pontiac Grand Prix. Final drawing will be early in Nov. Other prizes along the way.

WMC-Memphis running a "Meet the Star" contest in connection with the Mid-South Fair and Rodeo, Sept. 24-Oct. 2. Designated caller names the last 3 songs played for belt buckle or LP. Grand prize winners will be guests at the Fair and Rodeo and get to meet the stars. Tanya and Tom T. will be playing the Rodeo - Tammy, Ronnie Milsap and the Statlers are headliners at the Fair.

More in the recipe department - Peck and Penny at KBOX-Dallas are holding a chile recipe contest. Two winners will be drawn from listener submitted recipes.

Gavin's Gab

At WIBR-Baton Rouge, they raised \$8,000 for the Muscular Dystrophy fund in a novel way. They invited listeners to help build a "silver van". They covered a van with double faced tape and listeners stuck silver coins to it. (Let's see - \$8,000 would mean 32,000 silver quarters - or 80,000 dimes - Shades of William Jennings Bryan!)

KSKG-Salina, Kansas, ran a 21 hour Radio-thon-line from Marymount College - raised \$17,000 in pledges for the MD fund - more than doubling last year's pledges.

KMKF-Manhattan, Kansas, conducted the world's first Honk-a-thon. As a back to school welcome for Kansas State Univ. students, they asked cars to fill up in the streets by a large shopping area. After they had collected two blocks of bumper-to-bumper cars, the station gave the signal - "Now!" - and everyone honked for about 3 minutes. People almost two miles away phoned police to inquire about the noise.

WHEB/FM-Portsmouth, N.H., now has clearance on a power increase up to 31,000 watts, which they expect will put a class A signal from Boston's North Shore to Portland, Me.

After 15 months as an all news station, KRDX-Phoenix will revert to a rock format Sept. 27. Richard Ruiz (pronounced "Reese") will be PD. Needs air talent! Needs record service. Address: 7401 W. Camelback, Phoenix, Ariz. 85033.

Since the demise of KISN-Portland, KGW has mounted a massive promotion campaign, including spots on TV - their own and others - using only #1 hits in their gold file - stickers for cars and windows, etc.

KHAS-Hastings, Nebr. wants a chief engineer who can also double in some other field - announcing, sales, sports. Phone 402-462-5101.

John M. Calloway now handling the music at KNND-Cottage Grove, Oregon. Phone 503-942-2468.

Vicky Larson is the new music director at KUGN-Eugene.

Dennis Beck, KDON-Salinas, can now take music calls Mon. thru Fri., between 3:30 and 5:30PM.

Broadcasters seeking information about the NRBA Convention slated for San Francisco's Regency Hyatt House Sept. 19-23, should make their inquiries of the NRBA office in New York. Phone 212-869-8873. The hotel is now completely sold out, we're told.

At WPRO/FM-Providence, music calls after 5PM to 401-433-4207.

Jack Hayes has resigned as PD at KOIN-Portland. He's available. Phone 503-223-7825.

Dan Loftus, morning man at WMOH-Hamilton married Becky Simes - cutting his honeymoon short to attend our regional meeting in Indianapolis.

Albums of The Week
(reviewed by Ron Fell)

"Children of the World"-Bee Gees (RSO) The Brothers Gibb continue, in the most part, to produce medium tempo falsetto ballads with lush vocal overlays and heavy orchestral arrangements. Their recent single YOU SHOULD BE DANCING sticks out as the only "driving" cut on the album. Besides the just released single LOVE SO RIGHT, I would recommend LOVERS and CHILDREN OF THE WORLD. (Bill grumbles "whatever happened to baritones?")

"The End of The Beginning"-Richie Havens (A&M) Havens' unique vocal style and selection of material have always been major reasons for his popularity. The addition of David Kershenbaum as a producer, the musical backing from Booker T, Duck Dunn and Steve Cropper, and some congruent arrangements from "Smitty" Smith make this Havens' most musical album to date. Reworks of the Doobies' LONG TRAIN RUNNIN', Dylan's IF NOT FOR YOU and LOCC's I'M NOT IN LOVE are worthy recitals, and I WAS EDUCATED BY MYSELF is a strong self-penned entry.

Also recommended from the following LP's:

*"Here's Some Love"-Tanya Tucker (MCA) COME HOME ALONE (3:38)/GOSPEL SINGER/YOU LOVED THE LEAVING OUT OF ME/TAKE ME TO HEAVEN
 "Motion"-KGB (MCA) WOMAN STOP WHATCHA DOIN'/MY SERENE COLEEN
 "Funky Kings"-Funky Kings (Arista) SLOW DANCING/HELP TO GUIDE ME
 "Message in the Music"-O'Jays (Philadelphia Int'l.) PARADISE/MAKE A JOYFUL NOISE/LET LIFE FLOW
 "Yancey"-Yancey (GRT) SOUTHERN LADY
 "Caliente"-Gato Barbieri (A&M) EUROPA
 "Music Music"-Lloyd Price (LPG) STREET LOVE
 "Success & Failure"-Dalton & Dubarri (ABC) DADDYS NEVER KNOW
 "Very Together"-Deodato (MCA) PETER GUNN
 "Manhattan Millionaire"-Disco Tex (Chelsea) HEY THERE LITTLE FIREFLY (Inst.)
 "Donny Gerrard"-Donny Gerrard (Greedy) STAND UP/LONG & WINDING ROAD/YOU MUST BELIEVE ME
 "Nightman"-Dirty Tricks (Polydor) TOO MUCH WINE
 "Free For All"-Ted Nugent (Epic) DOG EAT DOG/TURN IT UP/TOGETHER
 "Men From Earth"-Ozark Mt. Daredevils (A&M) FLY AWAY HOME/IT'S HOW YOU THINK
 "How Late'll Ya Play 'Til"-David Bromberg Band (Fantasy)
 "Sanford Townsend Band"-Sanford Townsend Band (Warner Bros.) SHAKE IT TO THE RIGHT
 "I Heard That"-Quincy Jones (A&M) WHAT GOOD IS A SONG/YOU HAVE TO DO IT YOURSELF
 "Love and Touch"-Tyrone Davis (Columbia) CLOSE TO YOU
 "Theme from S.W.A.T."-Ray Conniff (Columbia) POLICE STORY/LOVE IS ALL AROUND

*Note: Record jacket and label show incorrect time for the COME HOME cut. Should be 3:38.

Bill Gavin's Personal Picks

- - - I especially like:

MUSKRAT LOVE-Captain & Tennille (A&M) As practically everyone knows, this is one of those rare recordings that are stamped as a hit long before the single version was available. Has an interesting history: Composer Willis Allan Ramsey originally titled it "Muskrat Candlelight", then recorded by Lani Hall (Mrs. Herb Alpert) as "Sundown Lady", followed up by an America version, called "Muskrat Love". The obvious impact of the present version demonstrates - again - the Captain's genius in adapting material to the public taste. The interpolation of the muskrat voices was sheer inspiration!

THE FEZ-Steely Dan (ABC) The few lyrics are strictly incidental to a brilliantly contrived production and performance. (Sounds like a theme looking for a movie.)

JEANS ON-David Dundas (Chrysalis) Millions of listeners will identify with this contemporary offering.

Musical Retrospect

Quoting from my "Personal Picks" of Feb. 1, 1974:

Main Theme From "The Young And The Restless"-The Ventures (U.A.) Originally titled "Cotton's Dream" as used in the soundtrack of "Bless The Beasts And Children", then picked up as the theme for the TV soap opera.

Then on June 21, 1974, I wrote:

The Young And The Restless-Sounds of Sunshine (P.I.P.) Exquisite vocal treatment of this theme from the TV production, previously offered by the Ventures and by Floyd Cramer.

And back here now in 1976 we see that the P.I.P. label has re-released their Sounds of Sunshine version. While the DeVorzon-Botkin NADIA'S THEME has an enormous jump toward Hitsburg, I still prefer the Sounds of Sunshine treatment of this fine material.

Gary Taylor's Personal Pick

LOVE AND AFFECTION-Joan Armatrading (A&M) This is an exceptional record. The overall unique approach, however, may mean the musically more adventurous stations will have to be the ones to detect any reaction.

Also Possible

| LOVE NEVER LASTS FOREVER-Buckacre (MCA) | DREAM LOVER-Jan & Jill (20th) |

| THE SUN AIN'T GONNA SHINE (ANYMORE)-Crackers (WB) | SAVED BY THE GRACE OF YOUR LOVE-Mike Finnigan (WB) |

Regional Meeting News & Notes

Paul Ehlis, KBOZ-Bozeman, Montana, expressed the hope that one or two of the Spokane radio stations could hold an "open house" for the visiting radio people from smaller markets, in conjunction with our meeting there. We asked KJRB and KHQ if this would be possible, and it looks as if they'll arrange to welcome visitors Friday evening, October 29, for guided tours of the operations. We'll publish details later.

If the idea of such an arrangement appeals to any of the Indianapolis or Cocoa Beach stations please let us know. Techniques of keeping logs, filing records, labeling cartridges and so on would be of considerable interest to radio visitors.

John Randolph, PD of WAKY-Louisville has agreed to act as moderator for our Sunday session in Indianapolis. Saturday's moderators will be Don Nelson (WIRE) and Bryan McIntyre (WCOL), with an opening welcome from Jim Hilliard (WIBC).

In Spokane, our Saturday moderators will be Gary Giorgi (KHQ) and Steve West (KJR). Registrations are coming in from Montana, British Columbia, Alberta, Idaho and Oregon.

Don't delay! Get those registrations to us right away - phone or letter - enclose check if possible to save time at registration desk.

Inside Progressive Radio
by George Meier, Editor of "Walrus"

Producer-Legends

Variety's September 1st issue contained an article by Frank Meyer which recalled a point made in Walrus last March. Meyer wrote about what a record producer does and made the analogy of record producer to film director in a way similar to ours. Here is the Walrus editorial reprinted.

"In previous essays, we have made the analogy between a movie director and a record producer. It is our conviction that recordings are a producer's medium just as film has been called a director's medium. A point that we have not made in support of that thesis is that the dynamics of both jobs are the same. The film director and the record producer each has the option to be more or less autocratic in approach. Some encourage input from everyone connected to the project, while others gauge the situation and react accordingly. The artist or actor who requires more guidance gets it while the one who requires less is supported. Then there is the dictator. The dictator works only one way, imposing his or her will upon the production almost as a condition of participation in it.

"The interesting hook in this story is that either method or combination of methods can result in an artistically successful project. But, the directors and record producers who are autocratic tend to become legends in their own time while the more democratic people require much more time to get recognition. That stands to reason since the democrat's influence on a project is less obvious.

"We can probably date the advent of the record producer/star to Phil Spector. Since then it has been the nature of our business to look for producer/stars in each generation. Today we have the Richard Perry's, the Gamble-Huff's, and the Todd Rundgren's tending to overshadow the artists they are recording.

"In a business where it is assumed that the product, a record, is supposed to capture the essence of the artist, there may be something suspect about the producer who instills his own essence in the artist, therefore recording himself. At least, it is a shame that we cannot manage to name the more democratic, but less obvious producers who fit themselves into each situation as it comes and who deliver the artist's essence."

Regional Meetings

It was a special pleasure for me to shake hands with so many of our correspondents who were attending the Northeast Radio meeting last weekend in Framingham, Mass. While I had no opportunity to attend any of the business sessions, those who did so tell me that they were interesting and instructive and smoothly conducted.

I took off Saturday morning in a rented Toyota and spent the next four days sightseeing in New Hampshire and along the Maine Coast. I sampled the fresh air on top of Wildcat Mt. (White Mt. was cloud covered), drove down through Jackson (where I found a restaurant that offers homemade bread!) and long lanes of trees whose leaves had just begun to change to brilliant color. Then down through Portland (where I got lost) and south to Kennebunkport, where I spent the next two nights. Highlight of the scenery was Perkins Cove, where I sampled the steamed clams and took a boat trip out to the York lighthouse. All the New Englanders I met were most friendly and courteous, except for one truck driver, whom I inadvertently cut in on looking for the route to Boston's Logan airport. Now to see how my pictures turn out. Getting back to the Framingham meeting, Dick Smith points out that its success was due to the joint efforts of the committee: Bob Savage, Jeff Gerber, Jeff Ryder, Mark Laurence, Kevin Keough, Tony Muscolo and Dick Smith. Radio person from farthest away was Jack Armstrong, from WIFE-Indianapolis.

All those planning to attend our Indianapolis meeting please rush your room reservation cards to the Hilton. The hotel informs us that these cards have been very slow in coming in and they'll hold our block of rooms only until October 2nd. We're pleased to note that among those who'll be driving in will be Bob Osborne and Jack Carney, from KMOX-St. Louis, Walt Turner, from WIL-St. Louis and Marge Bush, former music director of WIXY (new WMGC)-Cleveland. Engineering consultant Paul Loupas will also be on hand to answer questions in that field.

Registrations for the Spokane meeting have been rolling in at a surprising pace. Looks as if it might rival the Austin meeting for total turnout. Chief engineer Bob Kanner and PD Michael Spears will be coming in from KFRC, and Eric Norberg will also be on hand to defend his ideas about Pulse and ARB. On Friday evening, Oct. 29, KJRB will offer coffee and doughnuts and a guided tour for visiting radio folks, from 8 to 9PM. KHQ will also open its doors to radio visitors sometime between 6 and 9PM on that same evening, as will KXLY. Radio visitors may not be able to visit all three stations, but I'm sure they all appreciate the friendly hospitality of Spokane radio.

For our Cocoa Beach meeting, November 13 & 14, we now have room reservation cards for Frank Wolfe's Beach Side Motel, which we'll forward to all who register for that meeting. Room rates are most reasonable: \$15 single and \$18 double. All major credit cards accepted, as well as personal checks, but no billing, please. Ben Hill, of CK101, invites visitors to visit his station while they're in the area.

For all stations sending representatives to any of our regional meetings, let me emphasize again that they provide excellent opportunities for engineering and sales personnel to gain new insights into programming, laying foundations for more effective teamwork at the stations.

For 1977, we're open to suggestions on locations for further regional radio meetings. Let us know so we can plan for your convenience.

WERG-Lynchburg would appreciate receiving phone calls from country artists to be recorded and used as promos for Country Music Month. Phone 804-846-1066.
 Change address for record mailings! Andy Witt, WTSO-Radio, Box 8030, Madison, Wisconsin, 53708.
 WWOK-Miami will kick off Country Music Month with a Barn Dance Oct. 4th at the Daytona Beach Fair Grounds. The WWOK cruise last week was such a big success, the cruise line has booked two more, featuring Hank Jr., Billy Jo Spears, Nat Stuckey and many others.
 The WHN-New York Memorial Awards, voted by listeners, honored the memories of Patsy Cline, Johnny Horton, Jim Reeves, Tex Ritter and Hank Williams.
 WYFE/AM-Rockford, Illinois, switched from a rock simulcast format to Live Country last August 23rd. Going great, reports music director Ken Rink.
 WKCQ-Saginaw, Michigan, running a "Q Cruise" bumper strip promotion, with daily prizes and a grand prize. Just completed an eleven day remote from Saginaw Fair.
 Walt Turner tested "Dropkick Me Jesus" at WLL-St. Louis, result: 60 yes 6 no.
 Message from Bob Mitchell to Bob Pittman: "Just saw a WMA bumper sticker on a car driving down a Southern California freeway."
 KMO's Russ Riley, John Harmon and Paul Counts will broadcast from a special glass booth at the Western Washington Fair, Sept. 17-26.
 P.J. Winn, KXEL-Waterloo, Iowa, can now take music calls between 11am and 2pm on Tuesdays only.
Special Attention: Every year since 1960, the Country Music Association has mailed questionnaires to every radio station in the U.S. and Canada, regardless of format. The resulting information is compiled and distributed free to all CMA Members, record companies, media buyers at ad agencies, and to other interested parties. Last year over 2000 copies were distributed, listing 1,100 full time country stations and 1,300 others who program country part time. Lists give call letters, mailing addresses and names of music directors. Deadline for returning the questionnaires, originally set for August 30, has now been extended to October 1st. Stations that have not yet returned their questionnaires should do so without further delay. It's important to your station and the whole field of country music.
 KARM-Fresno will drop its all news format Oct. 4th and go full time country. All record sources are urged to rush the station country singles and LPs, both current and gold.

Albums

Album of the Week: (reviewed by Ron Fell) "Hard Rain"-Bob Dylan (Columbia) There are at least three reasons why "Hard Rain" should be called to your attention: 1. It's Bob Dylan, 2. It's Live, and 3. (most unusual) Dylan really rocks on MAGGIE'S FARM and SHELTER FROM THE STORM, plus rendering an almost unrecognizable LAY LADY LAY. Dylan's recent albums have suffered from limited airplay despite adequate sales. Both airplay and sales of "Hard Rain" should benefit considerably from Dylan's curiously refreshing TV special broadcast September 14th.

Bill Gavin's Personal Picks

- - - I especially like:

- YOU'RE THE ONE-Blood, Sweat & Tears (Columbia) As Ron Fell noted when he reviewed the album, the contributions made by producer-arranger Bob James provide a special polish for this talented group.
- NEW YORK STATE OF MIND-Mark-Almond (ABC) Quality music from a richly talented source deserves a wide hearing.
- STAND TALL-Burton Cummings (Portrait) New label's first single release presents a highly competent singer in a colorful Richard Perry production.
- WHENEVER I'M AWAY FROM YOU-John Travolta (Midland Int'l.) A great singer he isn't, but the song itself is well above average. Chief merit in the side, however, is that the listener can understand every word.

Gary Taylor's Personal Picks

- BLUE MONDAY-Delbert McClinton (ABC) This is the first version of the Fats Domino million seller to do justice to the original. Short (2:01), good (opinion), and rock 'n roll (fact).
- SO SAD THE SONG-Gladys Knight & the Pips (Buddah) Her last release had to be over a year ago, yet the wait was worth it because her feeling for the tune and lyric is ever so tasteful.

Also Possible

- CALIFORNIA DAY-Starland Vocal Band (Windsong) CLASSICA'S LOVE SONG (Pt.1)-Current (Playboy)
- LONELY PEOPLE-Joe Miller (Polydor) LOVE IS JUST A SONG-Michael Rabon (Zodiac)
- LOVE LINES-Lyons & Clark (Shelter) BOOMERANG-Frankie Valli (Private Stock)
- GETTIN' IT IN THE STREET-David Cassidy (RCA) SWEET DELIGHT-Dark Star (Lifesong)
- GREY RAINY DAYS-Lonnie Jordan (U.A.) WHAT I DID FOR LOVE-The Three Degrees (Epic)

Gavin's Gab

In Twin Falls, Idaho, members of the media were invited to take part in the "fun" at the opening of the County Fair and Rodeo. They were to ride small, harmless donkeys. However, the "donkeys" turned out to be biting, bucking wild mules who refused to be ridden. Result: 4 men of KEEP's air staff were injured - dislocated shoulder, torn ligaments, smashed hand, and, for Dan Carty, only a concussion. He warns: "Guys, watch out for hazardous promotions."

Lee Gordon, KPNW-Eugene, emphasizes that he is looking for a mature, seasoned air personality who can relate to an adult female audience. He has been getting some good tapes but mostly from immature sounding applicants.

Jerry Lousteau reports that KANE-New Iberia, La., has come up with a 4:45 edit of Peter Frampton's DO YOU FEEL from the LP. Morning man Ted Andrews produced the edit. Dubs available to any who send blank tapes and return postage.

Golden West Broadcasters have at long last made the plunge into FM radio by the acquisition of KETO-Seattle. It'll be known as KVI/FM when the new contemporary format hits the air some time around mid-October. Operations manager will be Frank Colbourne, from KDON-Salinas, and formerly PD at KMBY-Monterey. Applicants for air staff openings should apply to Don Hofmann, c/o KVI-Radio - Tower Bldg., Seattle, Wn. 98101.

KRKO-Everett, Washington (known locally as 14RKO) turns the tables on record promoters by inviting them to a "promotion party" next Thursday.

New call letters, as WIXY-Cleveland becomes WMGC.

New mailing address for KEZR-San Jose is Box 167. Zip 95103.

New hours for music calls:

- Kelly West, WXIL-Parkersburg: after 2 PM, Mon. thru Fri.
- Joel Cole, KTIK-Pendleton, Ore., 9AM-1:30PM, Wed. thru Friday
- Terry Breen, KOZE-Lewiston, 3-5PM, Mon. or Tues.
- Steve O'Neil, KEZR-San Jose, 1-5PM, Mon. thru Fri.
- Michael Ray, WAZY-Lafayette, Ind., 4-6PM Thurs. or Fri.

In Manchester, N.H., WKBR put on a live broadcast from McDonald's on Labor Day, raised \$3,700 for the Muscular Dystrophy Fund.

In Bend, Oregon, KGRL Celebrated the Labor Day Weekend as a "Graffiti Weekend" in which the station provided a Saturday midnight movie for only 94¢ admission (940kc their frequency). Sold out two movie houses.

In Washington, D.C., classics station WGMS presented a 67 hour Radio-thon over the Labor Day Weekend - raised \$115,000 for the National Symphony Fund, which provides financial aid to municipal orchestras all over the U.S.

WRKT-Cocoa Beach observed Labor Day by hosting the East Coast's largest surfing festival at Cape Canaveral Pier - attended by 7-8,000 people. Station's Skate-A-Thon raised \$5,000 for Muscular Dystrophy Fund.

Coming up Sept. 25, in Manhattan, Kansas, the KMKF 200 member all transistor band will be one of 80 bands in a parade. The KMKF band members will each carry a transistor radio tuned to that station.

Audience shares. WSGW-Saginaw leading in adults, 18+, metro "We credit a brighter, more consistent music policy", writes operations director Rick Belcher.

Bob Baron, WAAY-Huntsville, is proud of his station's number one position in teens, 18 to 49, and total audience. Big improvement over last year.

Late Flash! Job opening for air talent at WMOH-Hamilton, Ohio. Call Joe London - 513-863-6800.

Inside Progressive Radio
by George Meier, Editor of "Walrus"

Established Progressive Airplay

(In Order)
Jefferson Starship
Linda Ronstadt
Steve Miller Band
Orleans
Rod Stewart
Hall & Oates

Notes: These six records stand out of the pile as dominant, and they divide themselves into three neat groups. The LP's which follow closely behind this list do so partially because of regional strength. The N.E. supports Boston, the new group from you know where. Gino Vannelli seems to have developed a consistent following in the South. American Flyer is strongest in the West. The largest discrepancy is James Taylor's 6th position in the Midwest airplay. He is in the middle of the pack nationally, around 14th.

New Progressive Airplay

(In Order)
Lynyrd Skynyrd
Richie Havens
J.J. Cale
Jesse Winchester
Arlo Guthrie
Montrose
Bryan Ferry
Ambrosia
Tommy Bolin
David Bromberg

Notes: The top three on this list of ten show impressive strength at the radio acceptance level. Richie Havens amounts to quite a surprise as he seems to be rebounding from a deadend career. A few regional items of interest: David Bromberg's strength is coming from the N.E., while Stanley Clarke's new album, not listed here, is well in the top 10 of new play in the Midwest.

Miscellaneous Information

Retail noises are being made by a few new groups. Boston leads all new retail sellers - known or unknown. Also Automatic Man shows up well. The only regional variations of note are in the West where both Tower of Power and Kiss are getting acceptance way beyond their national acceptance.

Three progressive singles distinguish themselves. Leading is the new ZZ Top single followed closely by Stills-Young and the Strawbs.

The import LP's of note are Brand X, Bob Marley & The Wailers, Santana, and Soft Machine. Notice that import movement is pretty stable.

Country Club (cont'd. from pg. 6)

WPOC/FM-Baltimore running a public service campaign called "Don't Vote - Don't Complain". Consists of 44 one minute historical vignettes selected from previous political campaigns. They'll run six times a day through November 1.

During Janet's absence from the office, Bob Kingsley is riding herd on the country music section. Bob was formerly with KLAC and then KFI in Los Angeles, and currently he is programming and voicing the "Great American Country" syndicated series for Drake-Chenault. We'll also have a different "Picker-of-the-Week" each week, starting out with Bob Mitchell, of KCKC-San Bernardino, where he is manager, PD, music director and an air personality. Next week's "Picker" will be Don Rhea, music director of KCKN-Kansas City. We are sincerely grateful to these radio friends for their readiness to help.

Bill Gavin's Personal Picks

- - - I especially like:

NIGHTS ARE FOREVER WITHOUT YOU-England Dan & John Ford Coley (Atlantic) Not because they are coming off a big hit but because the superbly blended vocal and instrumental harmonies nobly enhance this fine song.

IMPROVISO-Reverberi (Pausa) Chopin's "Fantasy Impromptu" gets a brisk disco ride, with a closing bow to the old, old hit, "I'm Always Chasing Rainbows", which was also a part of this popular Chopin piano composition.

STOP IN NEVADA-Marie Cain (Columbia) Singer makes a strong debut for the label - quality voice, believable style, imaginative arrangement.

SHE NEVER KNEW ME-Don Williams (Dot) Country artist is so richly effective on this ballad that it deserves a wider hearing than just country. (Production suggestion: Close it with sound effect of a door closing, followed by a phone ringing and fade.)

Gary Taylor's Personal Pick

THE RAVEN-Alan Parsons Project (20th) Many programmers have expressed a preference for this cut for some time. Bill Hennes shows it top 10 at WNDE-Indianapolis, others have been rotating the album cut as they await the single.

Also Possible

I DON'T WANNA LOSE YOUR LOVE-The Emotions (Col.) LET ME DOWN EASY-American Flyer (United Artists)
DISCONCERTO-Philharmonic 2000 (Mercury) HELLO OLD FRIENDS-Eric Clapton (RSO)
I THINK I CAN MAKE IT-Cyndi Grecco (Private St.) EUROPA (EARTH'S CRY HEAVEN'S SMILE)-Santana (Col)
KEEP SMILIN'-Gabor Szabo (Mercury) LOVING ON THE LOSING SIDE-Tommy Hunt (Private St)
DON'T FIGHT THE HANDS-Hamilton, Joe Frank & Dennison (Playboy)

Gavin's Gab

Yesterday - Thursday - Janet was moved out of the intensive care unit at the hospital, and has also been removed from the pacemaker, the oxygen and the intravenous drip. Her recovery is making steady progress, thanks to a team of dedicated doctors and nurses at Kaiser Hospital, and to the prayers and good wishes of her many friends. She entered the hospital last Thursday with a severe heart attack and will remain there for another two or three weeks. She wants me to express her gratitude - and mine - for the great outpouring of affection that has come from such a multitude of people from all over the nation. It will be some time before she returns to our office, and then only on a limited schedule at first. But she'll be back! Send cards - not flowers - to her at Room 407, Kaiser Hospital, 99 Montecillo Road, San Rafael, California 94903.
