Inside Progressive Radio
by George Meier, Editor of "Walrus"

Established Progressive Airplay

(In Order)

Electric Light Orchestra
Stevie Wonder

Boston
Al Stewart
Elton John
Eric Clapton

Robert Palmer
Led Zeppelin
Phoebe Snow
Thin Lizzy
Rod Stewart
Kansas
Dave Mason
Bob Seger

Notes: We have given you a long list to contemplate this time. That is because the third tier is so bunched together that a cutoff was impossible any sooner. Suffice it to say the two groupings at the top dominate the established airplay at present. Nothing much in the way of regional variation to report. Phoebe Snow seems enhanced by strength in the West just as Thin Lizzy gets more attention in the Northeast. Kansas' power base is the Midwest.

New Progressive Airplay

(In Order)

Jackson Browne

Joni Mitchell
Allman Brothers
George Harrison

Jean-Luc Ponty
Charlie Daniels Band
Frank Zappa
Wishbone Ash
Nazareth

Notes: The story here is that the Allman Bros. LIVE album, at least initially, has overcome the negative politics surrounding Gregg and the law. We'll watch that situation as it either develops or dissolves. An interesting new name for you - Jean-Luc Ponty - for sometime he has been part of the esoterica of the jazz world. The French violinist breaks out of that box with this nicely organized fusion band.

Miscellaneous Information

1. The soundtrack to the film Car Wash seems to be a real comer on a retail level as does the soundtrack to All This & World War II. It is almost humorous to watch Patti Smith surround the slow-on-the-uptake Midwest.
2. On the Import side, Steve Hillage, mentioned last time, continues to attract attention but is out distanced by Tangerine Dream. Following closely behind those two are Barclay James Harvest and 801, a group led by the mysterious Phil Manzanera and Brian Eno.
3. New George Harrison and Queen singles leap ahead of all others in that department.

The following tracks fill the air:

Jackson Browne-THE PRETENDER	The Fuse-...THOSE TEARS AGAIN
Charlie Daniels Band-HIGH LONESOME/ TENNESSEE BLUES	Foghat-DRIVIN' WHEEL/NIGHT SHIFT
Dave Mason-ALL ALONG THE WATCHTOWER	Kinky Friedman-MEN'S ROOM, L.A./SOLD AMERICAN
Graham Parker-HEAT TREATMENT	Melanie-CYCLONE
Leo Sayer-REFLECTIONS/DANCING	Jean-Luc Ponty-NEW COUNTRY/GARDENS OF BABYLON
Frank Zappa-DISCO BOY/FIND HER FINER/ ZOOT ALLURES	Various Artists-"All That & World War II"- GET BACK (Rod Stewart)/MAGICAL MYSTERY (Ambrosia)

Country Club (cont'd. from page 6)

- Changes: Pat Zollman returns (11/25) to KKYX-San Antonio. Air talent.
 Merle Fristad promoted at KKAAB-Aberdeen, replaces Keith Tucker as music director.
 Don Dempsey promoted at WSLR-Akron, replacing Bob Fuller as music director.
- For the Second Annual Fall Festival sponsored by KXEL-Waterloo, Iowa, night man P.J. Winn and wife conducted a tour of 140 listeners to Nashville the weekend of November 18.
- Red Shipley, WPIK-Washington, D.C., won the WMAL-TV male beauty contest over a field of 26 of D.C.'s foxiest males. "Talent" contest consisted of goat milking.
- KHEY-El Paso presents its third year of "Secret Santa". They select letters from barrio children and listeners are invited to volunteer to play Santa and deliver gift packages in person.
- WGMA-Ft. Lauderdale presented Dave & Sugar at their monthly Bandshell Shows. "Old timers and kids all standing and clapping and singing together - look out for their new sound in country music," they write.
- WMC-Memphis, in co-operation with the Tennessee Dept. of Human Relations, is "adopting" 700 foster children - giving them new shoes for Christmas - soliciting listener contributions.
- WWOK-Miami last week was the "official" country station at the Annual Broward Country Youth Fair, where they presented Ronnie Milsap (11/23) and Donna Fargo (11/24).
- An enthusiastic report from Bob Mitchell, G.M. of KCKC-San Bernardino, tells us of the powerful and sustained listener response to station's airing of the new Tom Jones single, "SAY YOU'LL STAY UNTIL TOMORROW". Bob thinks it's strong enough even to sell a million copies.
- WOHS/FM-Shelby, N.C., thanks everyone for the help provided in celebrating the station's first full year of country music.
- At WJVA-South Bend the staff has written and produced a 24 part Christmas drama series of 3 minute episodes. Very effective, they report.
- CFGM-Toronto invites listeners to light up a Christmas light on the station's huge tree, set up in a local shopping mall.
- At WIOD-Miami, Bob Cole (formerly at WWOK) will be doing a nightly country music show, running from midnight to 5:30 A.M., starts December 6. He invites country record service from all sources.
- KERE-Denver is already making plans for its 4th Annual Country Fair, to be held March 2-5, 1977. They'd like to present top artists from each label - will furnish all transportation and hotel costs. Artists or managers wishing more information should phone R.T. Simpson between 9 AM and 1 PM. Mountain Time.
- KIMM-Rapid City reports a happy April-May Arbitron rating, which shows them #1 in Avg. 1/4 hrs. for men 18+ and #2 for women - especially pleasing for a daytime operation.
- At KSO-Des Moines, John France has been promoted to music director, replacing Curtis King, who moves on to a PD spot in Rockford, Ill. John Prigge also promoted - asst. P.D. and production director. Perry St. John promoted to station manager. Air lineup: John Leslie, John France, Perry St. John, Ray Mathews, Rick Wilson. Perry tells us that the owner's corporate headquarters (Stoner Broadcasting) will soon be moving into the station building, which is undergoing a 3000 sq. ft. expansion.
- In Toronto, CFGM's Hockey team, the Lange Bullshooters, has raised over \$2,500 for charity in five games so far this season.

We're indebted to Bob Mitchell, manager of KCKC-San Bernardino, for making available to us some of the statements of various artists in interviews on Bob's "Who's Calling" feature. We'll shortly present quotes from CMA Hall of Fame members Roy Acuff, Pee Wee King, Kitty Wells and Minnie Pearl. Today's statement was made July 16 by Waylon Jennings:

"One of the things that I said that I believe is that country music is too predictable. It's set into a pattern: verse, chorus, verse, chorus, out, turn around, and the fiddle takes this and the guitar takes that. I don't see why we're locked into all this stuff. That's been one of my main gripes and one of the main things that I've had a little trouble with of the old school, you know. And when you change that, when they automatically say, 'that ain't country that's pop', which is a bunch of bull - if you'll excuse the expression. I believe that we have just as much right to different arrangements. I don't think we should be locked into any certain instrument and as far as keeping it pure and keeping it country, I don't know how they can identify that anyway because if you want to keep it pure and keep it country with what started out, you got to go back to the jug and the old accoustical guitar, the dobro and the fiddle, accoustical bass and leave out the piano and that to me is pure. But don't put shackles on us where we can't break out and do music! Just do what you feel. That's what our music's all about anyway."

Next week's Country Music section will once again carry the heading, "Associate Editor, Janet Gavin". Janet plans on being back in the office Tuesdays and Wednesdays only for a few weeks, and she'll be more than happy to take her correspondents' phone calls on those days. Calls should be made between 10 AM and 4 PM, Pacific Time, on those days.

We're indebted to Bob Kingsley for his great help with the Country Section during Janet's absence. He has been a cheerful addition to our office, and the necessity of a weekly commute between Los Angeles and San Francisco has caused him no problems. He says he'll be ready to help us any time that Janet might be away for a CMA Board meeting. Thanks, Bob.

Bill Gavin's Personal Picks

- - - I especially like:

- SAY YOU'LL STAY UNTIL TOMORROW-Tom Jones [Epic] His first effort for his new label comes off strongly with a virile sound that should have special appeal to women listeners. (KCKC-San Bernardino already reports #1 female demographics in phone requests.)
- A SPACEMAN CAME TRAVELING-Chris DeBurgh [A&M-Canada] A marvelously sensitive performance of a science fiction tale about the first Christmas.
- COREY'S COMING-Harry Chapin [Elektra] One of our country's most original and creative composers mixes fantasy with fact in a way that invites the listener to complete the story. It may be too cerebral to be a hit, but it offers preferred listening for those who care about originality of lyrics.
- PLEASE DON'T TELL ME GOODNIGHT-Bittersweet [Big Tree] An old fashioned waltz tempo supports some modern and highly skilled vocal harmonizing. Should have a fair shot at some chart action.

Gary Taylor is not making any picks this week.

Also Possible

- NEEDING YOU-Barbi Benton [Playboy]
- MESA-Sailing Ships [Ariola]
- SWAN SONG-Birds of A Feather [WAM]
- SAY YOU LOVE ME-Patti Austin [CTI]

Gavin's Gab

Congratulations to Stan Kaplan for his comments on Arbitron, as published in this week's R&R. Stan has long been critical of ARB's methodology, and recent developments have provided new evidence that substantiates his views on the subject. He suggests that radio broadcasters develop their own audience measurement system, or at least come up with realistic specifications for measurement procedures that could be put up for bids. Maybe Harold Krelstein's RAB task force could come up with its own blue print for an acceptable system.

One of Stan's stations, WAPE-Jacksonville, observed the post-Thanksgiving period by presenting a "Leftover Turkey Weekend" - giving away the biggest "turkey" records along with top LP's. KJMO/FM-Jefferson City, Mo., will switch to a live rock format (from automation) at 6PM on Christmas Day. Mike Schaefer will be PD and will handle the music. He urgently needs record service from everybody. Mail records to him at 3103 So. Ten Mile Drive, Jefferson City, Mo. 65101

WSAU-Wausau, Wis., will devote the week of Jan. 30, 1977 to an observance of its 40th year on the air. PD Jack Davison invites any and all jocks who have ever worked there either to send their taped greetings or to let Jack know how to reach them by phone. Others, anywhere in radio, are also invited to voice their good wishes.

In Rapid City, S.D., KGGG (FM affil. of KIMM) will be hitting the air at 100.3 mhz with 100kw of power. Format will be contemporary. They request service of both singles & albums from all sources. (Jim Shaw thanks the record folks for continued excellent service of country product for the AM side.)

Bernie Armstrong, PD of KGU-Honolulu, was pleased with the results of our recent announcement that his station would feature a weekly segment of jazz. Record shipments arrived immediately from Harold Childs (A&M) and Rick Neigher (Shady Brook), along with encouraging personal notes. Promotion minded WBT-Charlotte presented an "1110 Day" on November 10. Gasoline was 11¢ a gallon at a local gas station (limit 10 gallons). At 11:10 AM, Admission price to two different movies dropped to 11¢. A local restaurant served 11¢ cokes. Lucky winner of a portable TV got to buy the set for 11¢ and, for those who hadn't noticed 1110 Day was held on the date 11/10.

Larry Weatherford tells us how WDXR-Paducah ran a "You Don't Have To Be A Star To Be In Our Show" weekend. Winning listeners could phone in, give time, temp, weather, or introduce the next record

WRKT-Cocoa Beach ran a Disco Car Wash for charity. Various participating high schools received a portion of the revenue for their school organizations. First 25 cars through received a "Car Wash" LP.

Music Calls: Don Nordine - KQDI-Great Falls, 9 to 10AM & 2-4PM, Mon.-Thurs.
 PD Dan Spears - KFYE-Fresno, After 10AM, Mon. thru Fri.
 David Kraham - KJOY-Stockton, 1 to 4PM, Mon., Tues., Thurs., Fri.

Album Section
(reviewed by Ron Fell)

Albums of the Week: "Hotel California"-Eagles (Asylum) Finally some new material from the premiere acoustic-rock group. The Eagles have many imitators but they, the Eagles, continue to out-do themselves. The album contains their great new single THE NEW KID IN TOWN and two other outstanding cuts in HOTEL CALIFORNIA and THE LAST RESORT (which has the same "bite" as the notorious LYIN' EYES). VICTIM OF LOVE and the Joe Walsh showcase, PRETTY MAIDS ALL IN A ROW, should also get good airplay.

"Wings Over America"-Wings (Capitol) This "Best of the Tour" LP presents the highlights of the spring and summer spectacular which Paul McCartney and Wings conducted last year. This imposing collection of tunes like MAYBE I'M AMAZED, LADY MADONNA, BLUEBIRD, BAND ON THE RUN, VENUS & MARS MEDLEY, and HI HI HI make for a fine "Live" album, but even more impressive was the excitement of the crowd during LIVE AND LET DIE, and their rising as one to hail the opening chords of YESTERDAY. That must be the reason they do live albums.

Also recommended from the following LP's:

- "Be Happy For Me"-Lorraine Frisaura (Pye) ALL I'VE BEEN LOOKING FOR/I DON'T WANNA GO/NEXT TIME
- "Charlene"-Charlene Duncan (Prodigal) IT AIN'T EASY COMIN' DOWN/I'VE NEVER BEEN TO ME
- "Love Is All Around"-War featuring Eric Burdon (ABC) TOBACCO ROAD/MAGIC MOUNTAIN
- "Bandolier"-Budgie (MCA) WHO DO YOU WANT FOR YOUR LOVE?
- "I"-Steve Hillage (Atlantic) IT'S ALL TOO MUCH
- "Bill Purcell"-Bill Purcell and the Nashville Sweat Band (Alston) WALK RIGHT IN

Bill Gavin's Personal Picks

- - - I especially like:

NEW KID IN TOWN-Eagles (Elektra) Seldom has a single ever been pulled from an album with greater certainty of success. This side is another shining milestone marking the continuing progress and development of contemporary music. Radio should be proud of having such quality entertainment to bring its listeners.

FEELINGS-Shirley Bassey (United Artists) While it isn't likely that this gorgeous Morris Albert song can be a hit so soon after the composer's original version, Ms. Bassey's performance is fully worthy of the song and deserves to be heard.

Gary Taylor's Personal Picks

CAN'T SMILE WITHOUT YOU-Gino Cunico (Arista) A familiar tune that I'm inclined to say was released once before. All that aside, this is one of those mass appeal productions that usually gets a great deal of airplay - or none at all.

KEEP IT WARM-Flo & Eddie (Columbia) A clever lyric in the form of a mild protest and a brief taste of a musical pastiche add up to a good record.

THERE'S ALWAYS A GOOD-BYE-Randy Richards (Little Angel) The quality of this record is equal to a major artist/label release.

Also Possible

YOU NEED A MAN-Jack Jones (RCA)
GIMME SOME TIME-Paul Harrison (RSO)
BACK IN '57-American Flyer (U.A.)

MOODY BLUE-Elvis Presley (RCA)
CHANSON D'AMOUR-Manhattan Transfer (Atlantic)
DADDY COOL-Boney M (Atco)

Inside Progressive Radio
by George Meier, Editor of "Walrus"

The Commercialization of Hip Radio

Pardon me while I reminisce. In the old days of progressive radio, for an all too brief moment, the medium had a refreshing attitude toward commercialization. Not that it was non-commercial, but that it was selectively commercial. Stations actually refused business.

The incredible aspect of the story is that spots were refused by stations which were on the financial ropes. At a time when they normally should have been greediest, taking money from anyone willing to give it, they turned down business on both moral and esthetic bases.

That was a time when the programming people were running the stations. It was before the sales people got the management jobs.

Here it should be interjected that it is our belief, with certain exceptions, that creative people should run any medium, be it radio, television, film or publishing. But, that's an extreme position calculated to make some enemies.

Anyhow, in the good old days blatantly sexist and/or erroneous appeals by advertisers were disallowed. Some broadcasters banned all jingles on the basis that they were stupid on the surface and tended to degrade the audience by underestimating its mentality. On the other hand, commercials which imparted information and which made no outrageous claims were accepted.

Sadly progressive radio has all but abandoned those principles. As the stations became more prosperous the pressure to commercialize became stronger, just the reverse of what you might think. It is a pattern which may reflect as much on human nature as on progressive radio.

Memo To Our Friends

I wish it were possible to thank you all individually for your many kindnesses during my recent illness - the cards and letters, the flowers, the books and, most especially, the prayers. I hope you will accept this blanket expression of gratitude for your good wishes in lieu of a more personal one.

Most sincerely,
Janet

Correspondents' Please Note: Advance copies of our Top Hits of 1976 will be available for mailing December 15th to those who request them. Our regular printing of the top hits in all four formats will be, as usual, a part of our Yearly Summary, which mails from San Francisco December 22, replacing our regular Friday mailing of the Weekly Summary. The Gavin office will be closed December 23 and will open January 3.

THE GAVIN REPORT #1131

 (Associate Editor, Gary Taylor)

Smash of the Week: BLINDED BY THE LIGHT-Manfred Mann (Warner Bros.) His last top 20 hit was in 1964 (DO WAH DIDDY). Welcome back.

Hot: NEW KID IN TOWN-Eagles (Asylum) Once again they are in a class by themselves when it comes to audience response.

Top Tip: NIGHT MOVES-Bob Seger (Capitol) Big airplay this week with 81 correspondents reporting. 25 have it charted.

Record to Watch: HAIL! HAIL! ROCK & ROLL-Starland Vocal Band (Windsong) Starting in Little Rock, Nashville, Bozeman and a few other spots. Good side.

Inside Progressive Radio
by George Meier, Editor of "Walrus"

Established Progressive Airplay

(In Order)

- Jackson Browne
- Stevie Wonder
- Electric Light Orchestra
- Al Stewart
- Boston
- Bob Seger
- Elton John
- Dave Mason
- Kansas
- Eric Clapton

Notes: As usual the plateaus tell the story about relative strength. Yet, in the contest of a chart which has a downward thrust a few artists move significantly forward. Jackson Browne leaps in front after getting excellent initial response and Bob Seger, whose power still comes mostly from the Midwest, takes a giant step. His appeal is generalizing as the result of a sound shift. Also interesting is the fact that Foghat is a top 5 radio act in the South while they seem to be on the decline nationally.

New Progressive Airplay

(In Order)

- Joni Mitchell
- George Harrison
- Wings
- Eagles
- Allman Brothers
- Seals & Crofts

Notes: Joni Mitchell totally dominates the category as her record continues to get around. She, George Harrison, and the Allman Bros. repeat in the New Airplay column for that reason. Whisbone Ash and David LaFlamme, not shown here, do especially well in the South and West respectively.

Miscellaneous

(1) While the Queen single runs away with its progressive airplay leadership, it is followed respectfully by Bob Dylan's single - the "B" side of which is on no album. They are followed by the Harrison, The Band, the Manfred Mann, the Bread, the ZZ Top, the Stevie Wonder and the Al Stewart singles.

(2) Steve Hillage, now released domestically, leads the imports, followed by Tangerine Dream, 801, Barclay James Havest, Marscape, and Santana.

The following tracks are filling the airwaves...

Incidentally, Dianne's father, Cyril Brennan, won Billboard's award of country PD of the year for markets under a million.

At WIRK/FM-West Palm Beach, the Artist Spotlight on Christmas weekend will be on Tammy Wynette. The Christmas "Country K" Sleigh will dash through the streets giving away country albums - thanks to participating labels.

Bob Moke, of WEMP-Milwaukee, alerts us to a local record that's causing a notable stir in his area. It's NOW THAT SANDY'S GONE, sung by Denny Denton, on the Door Knob label. Good phone response at his station.

Jerry Green, KVET-Austin, tells us a "discovery" - IF THE SHOE FITS, WEAR IT- Leda Ray (Allied Artists). May be a hit, he writes.

WBAP-Ft. Worth has been (is) compiling a list of the top 200 all time hits, based on listeners' votes. They'll start playing them at 6 PM New Year's Eve, winding up with number one on New Year's night.

Dub Murray, KEES-Gladewater/Longview, Tx., would like to know, for future reference, the Christmas music policies of leading country stations. When they start? how much? type? -etc.

Ray Hammons, WLBB-Carrollton, Ga., "wishes everyone a Merry Christmas and an even better New Year."

George Parker, WBHP-Huntsville, "hopes everybody has a Merry Christmas and a country music New Year."

So say we all.

Quotes From Country Stars

Four members of the CMA Hall of Fame were guests - via phone - on Bob Mitchell's "Who's Calling" feature on KCKC-San Bernardino. From Monday through Thursday (11/22-25) each one was asked this question: What do you think of the progress and sound today of country music? Here are their answers:

Roy Acuff - "There's been a lot of changes in it, but it's been for the better! Now there's some of it that's called country music, that really is not country music, but that's not what I was speaking of. I'm speaking of music that is country music written, performed by country artists in a good country way. We still have a lot of it around and it still carries great respect."

Kitty Wells- "All in all country music has just gotten better. The artists are singing better, and the musicians, the songs, it's the combination of all, it's really gotten to be a better sound. Like everything else, you've got to progress. I'm glad to see country music come along as it has. I think there'll always be real down to earth country music, but some of this what you call progressive, I like it."

Pee Wee King- "I like what I hear, and today I admire the newer groups, the Nitty Gritty Dirt Band, I especially love the Side of the Road Gang and Asleep At The Wheel. These people to me are doing what we did 15 or 20 years ago and I love it because the general public thinks it's new. The new people are sincere, I don't care whether they wear beards, leather jackets or head bands like Willie does, they're sincere and if they can give our country music that kind of a boost, I'm proud of em."

Minnie Pearl- "I don't think anything will hurt country music. There will be times, and I think this is one of them, when people are more or less reaching out. Those of us who are of the old regime, might have some trepidation and fear about where we're going, but there's nothing that can really hurt country music. I think we'll always have a certain number of listeners who want it to stay like it is and a certain number of listeners who want it to change, it will all come under the name of country music and we'll go right straight on!"

Thanks to Bob Mitchell for his help in having these comments transcribed for our use, and for his gracious permission to print them. It's good to know that these pioneer veterans of country music welcome its changing sounds.

Gavin's Gab

Whatever happened to "The Grinch Who Stole Christmas"? Well, the folks at WLOF are looking for him in Orlando. They've already found the gifts that he dumped over the cliff. On Saturday (12/18) they're assembling outside Rosie O'Grady's place and running a "Grinch-off", in which the winner will be the one who gives the most realistic impression of the Grinch. It's sort of a warmup to the Tangerine Bowl game between Brigham Young University and Oklahoma State. Gifts will go to the Russell Home for Atypical Children and to the Harry Anna Crippled Childrens' Home.

Philip Black, manager of FM station KAWY-Casper, Wyoming, wants our readers to know that his historic pioneer city is now the largest city in his state and one of the fastest growing areas in the nation. Industrial weekly earnings average \$282.67 and unemployment runs at only 2.3%. His 25kw transmitter will go on the air Feb. 1, 1977, 24 hrs. a day, target audience 18-49, progressive and contemporary format, a mixture of country, folk, jazz, blues and rock. He earnestly requests singles and albums from all sources. Mail to P.O. Box 2006, Zip 82601. His station is now on our waiting list, to start reporting as soon as there's an opening.

Paul Cooper wants radio stations to know that Little David records will happily service them with comedy product by such artists as George Carlin. Just let him know - 8921 Sunset Blvd., Los Angeles, Ca. 90069, or phone 213-659-3870, collect.

New Address: KEZR-Radio, P.O. Box 167, San Jose, Ca. 95103.

Dick Lawrence writes from KWKW-Rochester, Minn., that on December 26 sixteen year old Pat O'Neil will present a 6 hour Beatles special that he has been working on for two months. (Good luck, Pat, you're off to a fine start.)

New lineup at KYSN-Colorado Springs: Don McCau (WHK), PD Mark McDonald (KLEO-Wichita), MD Randy Jay (KTLK) and Bill Case, with Kurt Grow on weekends.

Music Calls:

Len Jarvela, KATA-Arcata, Mon. thru Fri. 9:30-10AM, M.W.Th. 3-4PM.

Steve Johnson, WBTR/FM-Carrollton, Ga., Mon. thru Fri. 2 to 4 PM.

Open letter to all Gavin correspondents from Ed Klimek, KMKF-Manhattan, Kansas: "We all work in the finest business in the country. We are all together, even though we do not know each other. As a small market music director and programmer, let me wish all those in our business a very Merry Christmas. May we some day meet each other".

Late flash from Greg MacArthur, PD of WXIL-Parkersburg, W. Va.: "I am currently looking for a jock who really knows his stuff, but doesn't claim to know it all. In other words...someone stuck in a small market that is looking for a move up...must be really sharp - no beginners". Address: P.O. Box 1228 (26101). Phone: 304-485-7425. (Note: Broadcasters in that area report that WXIL is a highly professional operation.)

Mike Butts, formerly with KDWB, KCBQ and KLIF is still looking for the right spot as air talent. He can be reached at 2821 Bell Ave., Denton, Texas, 76201. Phone: 817-382-5789.

THE GAVIN REPORT #1132
Yearly Summary

Looking Back

Our radio year, now nearing completion, might conceivably be called the year of the computer. Not that computers are strangers to accounting and traffic departments, but these electronic marvels are now making themselves felt in the programming field as well. Computer analysis of audience research data reveals tune-in "hot spots" - concentrated audience peaks that enable the programmer to select the most effective impact for such maximum tune in. Computers digest research data and tell the programmer which of his audience are "available but not listening" at various times of day. Computers, used in a variety of ways, provide the programmer with a valuable insight into the listening patterns and preferences of the radio audience. In the cases of many automated stations, the computer exercises fantastic controls. It is doubtful, however, if any electronic wizardry will ever replace the showmanship and value judgements of the human programmer.

The expanding use of computers also reflects the growing programmer awareness of research. There has been a steady increase in the number of stations using call out research to tap the music preferences of the "passive" listeners - those who don't buy records or phone the stations. Random interviews bring new insights into listener attitudes. Psychographic research utilizes equipment that records people's reflex physical responses to various audio stimuli. As singles sales continue to decline in volume, radio has become increasingly dependent on other sources for guidelines to listeners' needs, attitudes and favorite music.

This broadened research base has enabled many programmers to give regular rotation frequency to certain album selections that have registered strongly in listener response. Top 40 radio, traditionally hostile to LP programming, is now opening its doors to the use of selected LP cuts. Because of the growing album sales volume, many programmers use LP sales as a yardstick for measuring the impact of any singles on their playlist that are also to be found in albums.

Advanced technology and techniques on the program side have been matched by new and more sophisticated engineering equipment. Complacent AM broadcasters have been shaken up to realize that they were losing listeners to other stations that had improved the quality of their sound. FM stereo has given the public a new musical dimension in audio reproduction - a new standard of comparison. AM engineers have found new ways to add depth and sparkle to their music. When new studios are built, great care is taken in design and construction in order to provide proper sound isolation and acoustic control. As in other facets of our free enterprise system, the people generally get what they want, and in radio they want - and are getting - better sound quality.

In line with improving audio standards, FM radio continues to improve its overall audience shares. In major markets the FM spectrum offers as great a variety of program formats as AM - and in some cases greater. In addition to the four standard formats - rock, R&B, Country, A-C - FM offers Schulke, Bonnevillie, "magic", progressive, old gold, classical and numberless variants. In general, FM offers fewer commercials, less talk and more music than the AM. Perhaps as a spinoff result, AM radio - particularly top 40 - is encouraging its airmen to talk a little more - to get away from time & temp anonymity - to become an individual rather than just a voice. Not "personality" radio, perhaps, but certainly "personal" radio.

No review of radio '76 would be complete without calling attention to the growth of syndicated programming. An increasing number of stations subscribe to syndication services, which have been multiplying steadily and supplying a wide variety of formats. Low overhead, combined with smoothly functioning technical equipment, enable station owners to operate profitably even with minimal commercial content.

Two trends became apparent this year: the growing number of women in radio and on the air, the growing AM emphasis on upgrading the quality of newscasts. In some places these two trends are combined, as women are showing, in both radio and television, that they can establish excellent credibility in their newscasts. Not too many years ago there was a strong masculine bias against female voices on the radio, inspired by the belief that the high register voice was a tuneout. Currently, however, so many successful vocal groups feature a high falsetto lead singer that broadcasters have stopped insisting that their air staff be composed entirely of deep voiced bass-baritones. It appears also that news directors are becoming more skilled in fitting the news content and its manner of presentation into overall station sound and to the preferences of its audience.

1976 has been an excellent year for radio from the standpoint of business and profits. Aside from a few scattered splashes of red ink, radio generally has been producing the most cheerful bottom lines to be seen in many years. Even with the ever increasing intensity of competition, there seem to be enough potential advertisers to please everyone. As radio's standards of professionalism continue to improve, it is proving ever more effective as both a sales and entertainment medium.

Reminder To Correspondents: The Gavin office will be closed December 21 through Jan. 2. Please plan to make your Action Reports during the week beginning Jan. 3 for our next regular publication date, Jan. 7.

Inside Progressive Radio
(by George Meier, Editor of "Walrus")

Year's End

A review of the music produced in 1976 yields many mixed feelings. For those who like a steady course, this year must be viewed as a screaming success. However, for those of us who prefer titillation the sameness, at times, got to be a screaming bore.

Woven into the vast, record breaking output - no pun intended - were some fine albums. However, they are not representative of the thrust of the music industry. The past year continued a recent trend which has attempted to limit failure through rather conservative A&R policies. Few unusual sounds have been signed. What has been issued is a stream of singer/songwriters produced by big name producers, in big name studios using big name studio musicians. They all sound the same. Ninety-five percent of the music falls into one of four categories; singer/songwriter, fuzz-rock, Sly-derived disco or the Philly Sound. Rarely does something stand out of the pack. Infrequently does someone take a chance.

This conservativeness remains as a last vestige of the vinyl shortage/recession of 1973-74. The record industry moved to survival policies in the face of that danger. They were right in doing so. Industry output dropped 12% in 1974 and signings were safer. Yet, in a recovering economy which is yielding record sales, the A&R policy hasn't changed. That has produced a year of staggering output and, simultaneously, a year of adequate music.

I've argued above that this year has seen a vast amount of music with few highs or lows. It has all been a fairly bland affair.

For example, the two new groups of the year are Boston and Heart. Rarely if ever has anyone clicked as quickly as Boston. But, rarely has a group so completely integrated the hit sounds of the day so well. It is an ingeniously structured amalgam of ideas and arranging ploys which manages to push every response button ever pushed in the rock audience. And they do it all at once. They are to hard rock what a one-stop is to a small retailer.

Heart also harkens to ears past. They are most often compared to earlier Jefferson Airplane. Unlike Boston, they had to struggle for every ounce of their gold in a heroic display of tenacity. They conquered the country, one town at a time.

What is the common denominator? The answer is their presold sounds. Both bands were fresh versions of things with which everyone was already comfortable.

Another musical story this year is the new respectability of the live album. While Peter Frampton rewrote the old cliché that live albums don't count on the domestic scene, Bob Marley & The Wailers did the same thing at the import level. Their record probably out-sold any import in the history of importing.

Finally, this year of vast LP output and conservative A&R policy has to be viewed in the context of the ever tightening progressive radio scene. As the months go by the old line free form stations of the 1960's look more like an endangered species than the vital new wave they were once. The synthesis of professional programming technique and progressive, with a small "p", music is completing itself slowly, but surely.

Looking Ahead

As we wind down from the occasional frenzies of our Bicentennial Year, we face the uncertainties of a new presidential administration, a mixed economy that shows softness in several areas, continuing tensions in Southern Africa and the Near East, worldwide problems in the fields of energy and monetary stability, plus localized problems like housing, taxes, inflation, conservation and atomic power. Looking at the many difficulties that may lie ahead always has a depressing effect, until we reflect that seldom has any year ever begun that was sweetly free from uncertain threats and dangers. We have somehow survived them all and will most likely continue to do so for a long time to come.

Radio moves into a new year on a solid basis of growth and prosperity. It is not entirely an unpleasant task when a manager has to decide how much he is going to raise his rate card. One of the trends likely to continue throughout 1977 is the growing concentration of ownership. Group operations, in most cases, seem to be more efficient than individual ownership. The pooling of experience and talent gives the group ownership a flexibility and depth of resources that are not, as a rule, available to the single station licensee. If, as some say, the continuing need to expand research requires the hiring of trained research specialists, as some day it must, then the group operators will be able to centralize their research departments, using their findings to the competitive advantage of each of the group members.

A probable and welcome development in 1977 should occur in the field of audience measurement. Growing outcries against obvious flaws in present measurement systems make it seem inevitable that improvements must be made. Today, radio is paying the lion's share of the Arbitron costs, for example, while the ad agencies go along for a negligible charge. Pressure has been building up for radio to finance its own measurement system, or for a federal government agency to operate a system similar to Canada's Board of Broadcast Measurement. Solutions of this kind are not apt to occur within the upcoming calendar year, but progress in that direction seems indicated.

Looking closer to home, our immediate future is filled with anticipation of enjoyment with families and friends during the Christmas holidays. Janet and I are grateful for the support and confidence of our ever growing family of subscribers that have made it possible to make this the nineteenth consecutive December in which this publication has wished its readers a happy holiday season. This year, as we look ahead to 1977, the happiest prospect is that Janet is back with us in the office and will continue her regular assignment as associate editor in charge of our country music section, as our whole office staff continues trying to serve our readers with dependable and useful information. We wish you good health, good fortune and the warm comforts of family and friends this Christmas time.
