Inside Progressive Radio
(by George Meier, Editor of Walrus)

Still More About The Process

We have written about our wholistic view of the process by which an artist reaches the public in the past. Here we plan to do it again. This time we'll advance a more specific theory.

The wholistic view becomes necessary, we believe, because in a world of album artists and album formats the impact of radio is reduced. In the case of singles and short playlists repetition increases the radio medium's persuasive powers. Whereas the tightest LP format will rotate possibly 50 to 60 current tracks in the context of hundreds of classics.

All of this means that in the case of albums the process which lets the audience discover an artist is markedly different from the process as stimulated by singles. With albums and album buyers many more factors come into play beyond radio.

There is very little science in this area, but that doesn't frighten us away from postulating a few of our own notions.

As regards album artists reaching a public a general rule is that the percentage of influence will flow in the following guesstimated pattern.

- Commercial Album Radio.....50%
- Concert Appearances.....20%
(including the College Circuit)
- Point of Sale Impulses.....10%
(position & in-store play & price)
- Word of Mouth.....15%
(a function of all other influences)
- All Press & All College Radio..... 5%

Obviously, when and if an artist gets a hit single, the impact on the process is potentially enormous. Also some artists get very little airplay relative to their sales. A group like Kiss sells mostly because of concert appearances. They, and others like them, throw the chart out of whack.

This approximate pattern is important to keep in mind, as a generalization, when considering album tracks for airplay.

Gavin's Gab

Radiothon at WIP-Philadelphia last weekend raised over \$67,000 in pledges. Among the participating music stars were Helen Reddy, Mike Douglas, Stephen Bishop, Parker McGee, Chad Everett and Tony Orlando. Tony, currently playing the Valley Forge Music Fair, took collections from his show audiences and brought over to the radiothon a sackful of money - \$3,200. Later he sent over an additional \$1,600 and made a substantial personal contribution.

Tom and Loretta Stevens (he's Tom Steele, music director at WRKT-Cocoa Beach) welcomed new daughter Andrea Marie, born at five minutes past noon March 2nd, weight 5 lbs., 5 oz.

Wedding bells Feb. 21st for Eric Chase, PD of K100-Los Angeles, and Karen Nelson, who not too long ago was music director of KFRC-San Francisco.

Steve Goddard promoted to music director at KMJC (formerly KDEO)-San Diego. He can take record calls Monday thru Friday between 10AM and noon. In-person calls by appointment.

Mike Lucas is pleased at the way his KRZI button promo has caught on in Waco. 25,000 buttons were out in thirty locations when the promo started last Friday (25th) and on Wednesday (2nd) Mike had to order 10,000 more. They're pin-on type buttons, reading "\$1,000 KRZI Button". Each day a button spotter gives away cash - or movie tickets - or lunch - or dinner - to lucky button wearers. Some of the give aways are recorded and edited into new promo spots. Hook is that each distributing point is a shop that, in order to qualify and receive the buttons, contracts for a spot schedule on KRZI. The bigger the shop the heavier the schedule. The promo has already paid for itself many times over, says Mike. (34,000 buttons in a city of only 100,000 shows KRZI with a very large cume, I'd say.)

WACI-Freeport has a request line - also a sales line, used for record promo calls. So when Jim Douglas gets record requests on the sales line he's pretty sure it's a record man calling and not a listener. Caller says, "please play the record - I just bought it at the store." "What store?" "Well, I don't remember." Checking all the stores in town revealed zero copies sold. Jim reports that the record being hyped is RIGHT FROM WRONG-Matt Pimperel - on the Grand Trine label out of Chicago.

Lloyd Williams, PD of KOOS-Coos Bay, writes that they were down to the very last of the water in their reservoir when winter finally brought the rains. (Now if they'd only come to this Bay Area!) Lloyd says he enjoyed reading about Marvin Rhodes and his record collection. Turns out that it was Lloyd who sent Marvin those mint condition copies of the original Capt. & Tennille recording on the Joyce label. (And it was also a "Personal Pick" of our Gary Taylor - and hardly anybody else.) When Lloyd visited his old station, KNND in Cottage Grove, he found that months ago Larry Hamby and Windsong Records had sent him a gold record for AFTERNOON DELIGHT. First he knew of it and that's why he hadn't said thanks 'til now.

Albums of the Week: (reviewed by Ron Fell) "Ruby"-Ruby (PBR International) An album of immense proportions. Randy Oda, who writes much of the music and plays most of the dominating instruments, gets the nod as the most valuable player on this album. Oda's guitar work on cuts like BART (a five minute instrumental) is exceptional, while his support of other group members, Tom Fogerty, once with Creedence Clearwater Revival, Bobby Cochran and Anthony Davis, rounds out a hot rock quartet. LIFE IS BUT A DREAM, RUNNING BACK TO ME, TAKE ME BACK TO LONDON and CAN YOU REALLY SAY, are other cuts of distinction.

"From A Radio Engine To A Photon Wing"-Michael Nesmith (Pacific Arts/Island) The original cosmic cowboy takes another space sortie through his own universe attacking mundane melody and common lyric with his eversharp compositions. MORE THAN WE IMAGINE, RIO, WE ARE AWAKE, and NAVAJO TRAIL (with its beautifully layered harmonies) should provide suitable re-entry material for Nesmith's return to radio.

"Foreigner"-Foreigner (Atlantic) This musical assembly of 3 American and 3 English rockers has produced one very strong album. The band, with its polished production and particularly its vocal tracks, suggests an impact similar to that shown by the Boston album last year. FEELS LIKE THE FIRST TIME, LONG WAY FROM HOME, AS COLD AS ICE, STAR RIDER and WOMAN OH WOMAN should pull considerable airplay.

Also recommended from the following LP's:

"Love Rustler"-Delbert McClinton (ABC) LOVE RUSTLER/UNDER SUSPICION/AS LONG AS I GOT YOU/TURN ON YOUR LOVE LIGHT

"Lost Feeling"-B.W. Stevenson (W.B.) JACK-A-DIAMONDS/ONE ON ONE

"Mathis Is..."-Johnny Mathis (Columbia) LOVING YOU LOSING YOU/WORLD OF LAUGHTER/SWEET LOVE OF MINE

"No Goodbyes"-Hall & Oates (Atlantic) IT'S UNCANNY/I WANT TO KNOW YOU/LOVE YOU LIKE A BROTHER

Bill Gavin's Personal Picks

-- I especially like:

- HEARD IT IN A LOVE SONG-Marshall Tucker Band (Capricorn) Easy going rural rocker portrays a restless, wandering spirit. Tasteful flute adds character to the intro, bridge, and ending.
- TEACH ME TONIGHT-Phoebe Snow (Columbia) Old Sammy Cahn evergreen has blossomed in many different versions, but this David Rubinson production provides an imaginative setting that just suits the singer's intimate, provocative style.
- LONELY BOY-Andrew Gold (Asylum) When our Ron Fell reviewed Gold's album, "What's Wrong With This Picture", last Jan. 7, he selected this song as the top track. It tells of a boy who was an "only boy" until the birth of a sister, and then he became a "lonely boy". There are many other worth while songs in the album.
- CINDERELLA-Firefall (Atco) The colorful sound of the instrumental intro alone qualifies the side for a careful hearing. Lyric is a semi-fantasy about indifference, rejection and regret.

Gary Taylor's Personal Picks

- BLACK BETTY-Ram Jam (Epic) This is rock and roll. Strong, clean and cooking from start to finish.
- CALLING OCCUPANTS-Klaater (Capitol) The feel of I AM THE WALRUS sets the mood for one of the more unique and interesting productions offered this year. Even the vocals are reminiscent of the Beatles. If you are going to sound like someone, why not sound like the best.

Also Possible

- SLOWDOWN-John Miles (London) OOH CHILD-Valerie Carter (Columbia)
- YOUR LOVE-Marilyn McCoo & Billy Davis, Jr. (ABC) CROSSFIRE-Bellamy Bros. (Warner Bros.)
- LOVE'S DISGUISE-Gabriel (ABC) BARELY WHITE (THAT'LL GET IT BABY)-Rick Dees (RSO)
- RAIN ON-Gene Cotton (ABC) SANG HER LOVE SONGS-Winters Bros. Band (Atco)

Managers, sales people, engineers - all are welcome. At last year's meetings, there was much meaningful discussion of various problem areas of interdepartmental communication. Needless to say, our meetings are not aimed at making a profit. We hope that they will prove to be a genuine service to radio and all the people who believe in it.

Inside Progressive Radio
(by George Meier, Editor of Walrus)

Established Progressive Airplay
(In Order)

Eagles
Pink Floyd

Genesis
Atlanta Rhythm Section
Kinks
Bob Seger

Gary Wright
David Bowie
ZZ Top
Jackson Browne
Emmylou Harris
Jimmy Buffett

Santana
Queen

Notes: Lots of powerful bands are vying for time on-the-air. As a result, the Eagles, who are hanging on to their king of the mountain position, are doing it with far less intensity. They have given up 1/3 of their play to the onslaught. Pink Floyd is the new powerhouse. Regional action shows Jimmy Buffett as exceptionally strong in the South & West. ZZ Top seems strongest in the West, while Jackson Browne is most potent in the South.

New Progressive Airplay
(In Order)

Jethro Tull
Fleetwood Mac

Marshall Tucker Band
Peter Gabriel
Utopia
Sea Level
Henry Gross
Pablo Cruise
Pousette-Dart Band

Notes: Other bands pale into relative insignificance next to Jethro Tull and Fleetwood Mac. They dominate the new bin. Pousette-Dart gains its strength from the Northeast for the only regional note of interest.

Miscellaneous Information

- (1) Imports: Three leading imports, led by 801, continue without much change to stimulate interest. The Hollies LIVE album and Santana fall in behind the leader.
- (2) Singles: Far ahead is 10cc. This is followed by Bob Dylan and Fleetwood Mac, the "B" side of which is not on the LP.

(Please see bottom of page 13 for George Meier's LP cuts.....)

We report with sadness the death of Frank Boardman, for over six years news director of KENR-Houston. Frank had formerly been with KTHT (now KULF) and KTRH, both in Houston, and was responsible for the training of many of the fine newsmen in that city. Death came at 7:30 A.M. Monday (7th). He was 52.

"Opry North", which is originated in Toronto by CFGM, is now being carried coast to coast in Canada on 25 radio stations.

The Merle Haggard show in Kansas City sold out in two days after WDAF started publicizing it. In Denver, The Colorado Rockies Hockey Team presented Waylon Jennings in concert preceding a recent NHL game - no extra charge. Attracted around 14,000 people. KLAQ's Jim Teeson MC'd the concert.

Also in Denver, R.T. Simpson (KERE) tells us that Charley Pride made a surprise appearance at a shopping center show - attracted over 8,000 people.

New lineup at WFMS-Indianapolis: Herb Allen (music), Jerry Mason, "Dan The Music Man" (PD), Bill Thomas, Suzanne Benson, Vern Robinson.

Rick Lewis tells us that in his part of South Louisiana April, May and June make up the Fair Season. Proceeds from the fairs are used to support the many volunteer fire stations in the area. KTIB-Thibodaux airs live broadcasts from the fairs - about 15 fairs with a total of around 60 hours remote programming. They need all kinds of things for prizes - albums, singles, posters, T-shirts, whatever. Send 'em to Rick at KTIB, 108 Green St., Thibodaux, La. 70301.

Albums

Album of the Week: (reviewed by Ron Fell) "Islands"-The Band (Capitol) Unless there's more already "in the can", we're hearing the last studio album from one of the most adept rock congregations of the last decade. The Band's "last waltz" in the studio will be remembered as one of their better ones. With Jaime Robbie Robertson's affecting lyric on CHRISTMAS MUST BE TONIGHT, LIVING IN A DREAM, and THE SAGA OF PEPOTE ROUGE combined with the group's performance on two additional cuts ISLANDS, and AIN'T THAT A LOT OF LOVE make this a fitting epilogue for five guys with probably the most appropriate name - THE BAND.

Bill Gavin's Personal Picks

- - - I especially like:

- CAN'T STOP DANCIN'-Captain & Tennille (A&M) When better music is made it will be made by better musicians, and there are few musicians around who are better than "Captain" Dragon. In view of the many sparkling and original highlights in the arrangement, it's hard to understand why the producer clings to the tired, trite, shopworm cliché of ending the song with an extended and meaningless repetition of the title phrase.
- MARGARITAVILLE-Jimmy Buffett (ABC) He doesn't recall where or how he got that tattoo on his chest. "Some people claim there's a woman to blame, and I know it's my own damned fault". It's Jimmy Buffett at his best - and that's very good.
- HELLO STRANGER-Yvonne Elliman (RSO) The delicate - almost plaintive - style is nicely suited to the material, effectively punctuated here and there with some well chosen "sh-bops".
- TO ONE IN PARADISE-Alan Parsons Project (20th Century) Fairly reeks with class and top quality musical imagination. Ron Fell reminds us that this is the third single released from the Edgar Allen Poe album - could be the one.

Gary Taylor's Personal Pick

LET ME SHOW YOU THE WAY-The Jacksons (Epic) This cut has been played so often in our office by Ron Fell that it is a recurrent. Excellent record.

Also Possible

- LONG LOST LOVE AFFAIR-Fresh (MCA)
- WHODUNIT-Tavares (Capitol)
- CHERRY BABY-Starz (Capitol)
- SLEEPWALKER-The Kinks (Arista)
- LET YOUR LOVE COME EASY-Kim Carnes (A&M)
- (LOVE) COMPARED WITH YOU-Steve Harley (EMI)
- ROCK & ROLL STAR-Barclay James Harvest (MCA)
- SLOW DANCIN' DON'T TURN ME ON-Addrisi Bros.(Buddah)

Gavin's Gab

Latest contest-promo designed to build quarter hour maintenance comes out of KNOW-Austin. It's the "Cash Conversion Contest", where dollars are exchanged for years. Listeners enter via post cards; cards are drawn at random, one per hour; if person called can correctly identify the last 4 records played he (she) wins one dollar for every year of age. In five weeks they're given away \$500.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

The Esoteric Music Flame Burns On

Through the blurring effect created by progressive radio's emergence as a mass media contender, the original audience has been lost. The mistaken impression is that it doesn't exist any longer. The early days of the format were sustained by a ragged cliché of esoterics who were emotionally and culturally tied to an alternative. The music was not symptomatic of or contributing to this cultural unity; it was an integral part of it.

The players were living the same kind of lives as those played to. In every age, even in popular music's mini-ages, there are the esoterics, those people whose cultural radar is so acute that they act as an early warning system on ideas and trends to come. These people exist today. They can be found buying imported European records in those special record stores peopled by counterjockeys of a like persuasion.

The avid import buyer of today has the same personality profile as the progressive radio fan of the late '60's. They are the same sort of people - the kind who were making import history last year through their massive purchases of the Wailers' LP and they are the same folks supporting Brian Eno's 801 album currently.

Finally, the ultimate esoteric of today is consumed by the music coming out of Germany. English music is so much interfaced with American music that for the true esoteric, British stuff is mundane. For them, the electronic space rock of Tangerine Dream and the serious electronic music of Klaus Schulz are the new bearers of the eternal flame of musical esoterica.

What are the prophets telling us this time?

Bill Gavin's Personal Picks

- - - I especially like:

THIS IS THE WAY THAT I FEEL-Marie Osmond(Polydor) A quality song, sweetly interpreted by this talented young singer.

LUCILLE-Kenny Rogers (UA) It's already #1 on many country charts and crossing pop in Houston. Now that it is being re-serviced at the top 40 level it deserves consideration for airplay by all the rockers.

Gary Taylor's Personal Pick

FEELS LIKE THE FIRST TIME-Foreigner (Atlantic) Listeners hearing this on the air will know that they are tuned in to a rock station. Such a sampling also implies a fine album - and it is.

Also Possible

DAISY STAR-David Dundas(Chrysalis)	SOME DAY SOON-Shirley Eikhard(Epic)
EASILY-Frankie Valli(Private Stock)	ALL THE KIDS ON THE STREET-Hollywood Stars
SOMEWHERE THERE'S A STAR-Keith Herman(Midsong)	SO HIGH-Dave Mason(Columbia) /Arista)

Regional Meetings

Our meeting last weekend in Jackson, Miss., more than lived up to the standards set by our 1976 series. Radio people came in from Louisiana, Tennessee, Alabama and, it seemed, from all four corners of Mississippi. We heard stimulating and informative discussions of a programmer's relationships with other radio divisions - management, engineering, sales and news.

To sum up much of the discussion, the dedicated PD is totally involved with what he hears on his station - music quality, jock personality, production crispness, smooth stop sets. He's especially proud of the jocks who have developed skills under his instruction. Finding talented airmen is often a matter of a latent potential in an inexperienced but ambitious young person.

We have seldom received so many enthusiastic comments from the people who have attended our regional meetings as have been coming in from our Jackson contingent. Sorry it was too long a drive for our correspondents in Southwestern Louisiana. Some of them have already invited us down to "Cajun Country" for next year, and it sounds like a great idea.

We're indebted to Marshall McGee, manager of WJDX, who welcomed the group to Jackson, and to our moderators, John Long, Bob Burton, and Larry Stevens. We were especially fortunate to have Bill Tanner with us from Y100 in Miami. He contributed many useful ideas, and his enthusiasm for radio was contagious.

After the meeting, Don Tiegiser guided me to Prospect Hill, an old plantation home near Natchez, at one time a 5,000 acre spread, but now the old house is sagging with age. Next day I visited several of the beautiful Natchez mansions that are so internationally famous for their design and furnishings. Then I drove to Vicksburg, where I explored the great battlefield and many historic spots in the city. (All told I shot six rolls of 35mm film). Everywhere I went in Mississippi I found the people kind and helpful. It's a grand place to visit, and when I come back again I'm going to bring Janet with me.

Late Flash! Charlie Van Dyke has resigned his position as Program Director and morning jock at KHJ-Los Angeles. He has given 60 days notice for his air job, but asks to be replaced as P.D. as soon as possible. Following is a statement from Paul Drew, RKO-Radio's V.P. for programming.

"I know of no one who is a more dedicated and hard working broadcaster than Charlie. His contributions to the many successes at RKO Radio over the past eight years are many, and he will be missed. Charlie and I have discussed some other projects since he made his decision, and I'm hoping that he will be available to work with me on them".

- Fleetwood Mac-----
- Pink Floyd-----
- The Kinks-----
- Jethro Tull-----
- Eagles-----
- Marshall Tucker Band-----
- Sea Level-----
- Atlanta Rhythm Section
- Bob Seger
- Genesis

Notes: Fleetwood Mac is the dominant leader in airplay, but Pink Floyd and The Kinks are second level power-houses of their own. Eagles fade some in relationship to the fresher sounds. And of regional significance is the generalizing of Southern bands. Marshall Tucker Band, Atlanta Rhythm Section, and the Allman Brothers fallout, Sea Level, all find a comfortable place in this top 10.

New Progressive Airplay

(In Order)

- Nils Lofgren-----
- Peter Gabriel-----
- Justin Hayward-----
- America-----
- Pousette-Dart Band
- Bad Company
- Procol Harum
- Bachman-Turner Overdrive
- Richard Torrance

Notes: It should be noted that this listing is never as reliable as the established airplay list because the initial airplay period is often a testing, tentative time. Still, the immediate strength of Lofgren is a sure sign. Both Gabriel and Hayward, coming from important groups have a leg up too. It was our critical feeling that the America LP was somewhat stale. Initial programming reaction would tend to confirm that, but we'll have to see. Our uneasiness about predictions is amplified by the instinctive feeling that both Bad Company and Procol Harum will be big LP's and yet, they follow America on this list.

Miscellaneous Information

Imports: Months later 801 remains the powerful import it has been. The Hollies LIVE LP continues to do well also, but it is out-distanced by the Streetwalkers album.

Singles: The new 10cc single is a progressive runaway. It is followed, not too closely, by Fleetwood Mac and Starz.

The following tracks are filling the air:

- America-GOD OF THE SUN/SLOWDOWN
- Joe Beck-STAND UP AND BE SOMEBODY
- Flame-BEG ME
- Foreigner-FEELS LIKE THE FIRST TIME
- The Gap Band-OUT OF THE BLUE
- Justin Hayward-SONGWRITER/TIGHTROPE
- Garland Jeffreys-WILD IN THE STREETS
- Nils Lofgren-I CAME TO DANCE

- Bachman-Turner Overdrive-MY WHEELS WON'T TURN
- Jimmy Buffett-MARGARITAVILLE/CHANGES IN ATTITUDES../TAMPICO TRAUMA/BANANA REPUBLICS
- Peter Gabriel-SOLSBURY HILL/SLOWBURN/...DOLCE VITA/HERE COMES THE FLOOD
- Hydra-ROCK THE WORLD
- Albert King-I'LL PLAY THE BLUES FOR YOU
- Elliott Murphy-DRIVE ALL NIGHT/ROCK BALLAD
- Lenny White-BIG CITY

With registration in the neighborhood of 340, the 8th Annual Country Radio Seminar, March 18 and 19, in Nashville was the usual resounding success. This year the two most emphasized ideas were (1) a synergistic approach with engineering joining sales and programming as partners in producing the best product possible and (2) new ways of researching audience preferences beyond the traditional check of store sales - call outs, mail outs, etc. Ways of integrating the Public Affairs requirements into programming also were explored.

Demonstrations of on the air contests, off the air promotions, video presentations were highlighted. Sales department objectives and the problems, pleasures, pressures and payoffs (e.g. an operating profit) of management received equal time in various panels. Keynote speaker was George Duncan, Metromedia, while Darrell Royal, Athletic Director of University of Texas, closed the sessions. The conference ended with the banquet and "New Faces" show. Both the agenda and arrangements committees are to be congratulated on one more smoothly organized and productive seminar.

Albums of the Week
(reviewed by Ron Fell)

"Still Together"-Gladys Knight & the Pips (Buddah) Sophisticated, graceful supper club soul. The quartet seemed to turn a corner a few years back with their discovery of Jim Weatherly songs and, despite a couple of mediocre film soundtrack LP's, they have now given us nearly 20 years of quality entertainment. HOME IS WHERE THE HEART IS, LITTLE BIT OF LOVE and I LOVE TO FEEL THAT FEELING (sounds like a hit) set the album's tempo, while the ballads WALK SOFTLY and TO MAKE A LONG STORY SHORT find our lady and her Pips at their mellow best.

"Works"-Emerson, Lake & Palmer (Atlantic) A two record set with one side from each musician and one side with the lads united. The use of full orchestral arrangements on Keith Emerson's Piano Concerto, Carl Palmer's "drum/percussion" pieces and Greg Lake's acoustic set gives a wholeness of sound to all four sides. Despite the beauty of the Emerson Concerto, the Lake side, with LEND YOUR LOVE TO ME TONIGHT, C'EST LA VIE and CLOSER TO BELIEVING should lead the way in airplay, and Palmer's FOOD FOR YOUR SOUL could surface wherever good progressive jazz is heard.

"Toucan Do It Two"-Amazing Rhythm Aces (ABC) Consistently unpredictable probably best describes this group. At times "rockin'", at times "country", the Aces surprise at every turn. NEVER BEEN TO THE ISLANDS, LAST LETTER HOME will lay you back, while LIVIN' IN A WORLD UNKNOWN will prop you right back up again. I'M SETTING YOU FREE and TWO CAN DO IT TOO also play well.

Bill Gavin's Personal Picks

- - - I especially like:

THE WHISTLER-Jethro Tull (Chrysalis) Alternates a baroque, almost Gregorian, melody with a brisk 6/8 quickstep for the "whistler". Instrumental backing of the slower sections shows considerable imagination in creating a unique sound. Production makes skillful use of stereo separation.

DEEP IS THE LIGHT-Starcastle (Epic) Snobbish critics who look with scorn on "pop" or "rock" music would have a hard time maintaining their stand after hearing this brilliant performance. The percussion work is superb, the harmonic progressions sparkle, while the precision vocal harmonizing could hardly be improved.

ARIEL-Dean Friedman (Lifesong) Boy meets girl, love at first sight, a date, a kiss - it has all been sung about many times, but the musical structuring of this particular story somehow makes it special.

YOU'RE THE HANGNAIL IN MY LIFE-Hoyt Axton (MCA) Will likely make its first impact from country airplay, but should not be overlooked as a pop contender as well.

Gary Taylor's Personal Picks

SOLSBURY HILL-Peter Gabriel (Atco) The complexity of the arrangement sounds impressive at first hearing, yet basic simplicity is the key to a repetitive theme which adds a dimension of depth to this fine release.

LOVE'S GROWN DEEP-Kenny Nolan (20th Century) Lyrics of love are historic in music and usually find broad based appeal with an audience if the ingredients are right. This time they are.

Also Possible

I BELIEVE IN MIRACLES-Engelbert Humperdinck (Epic) LOVING YOU - LOSING YOU-Phyllis Hyman (Buddah)
DO YOU WANNA MAKE LOVE-Peter McCann (20th Century) HOOKED ON YOU-Bread (Elektra)
DANCE-Paul Jabara (Casablanca) ALL NIGHT LONG-Volunteers (Arista)
WILL YOU BE A PART OF ME?-Small Wonder (Columbia) TIME IS MOVIN'-Blackbyrds (Fantasy)

Gavin's Gab

Jim Maddox, currently PD of KDAY-Los Angeles, soon moves to Houston, where he'll take over as vice president and general manager of the Joseph C. Amature Group's KLYX (FM). Station has been all news, but the demise of NBC's NIS brings about a switch to a progressive black music format. New call letters will be KMJQ, and it will be publicized as "Black Magic In Stereo". Changeover is slated for April 4. Jim's appointment as manager is a well deserved recognition.

Charlie Lake, PD of KSLQ-St. Louis, has been named national PD for the Bartell group of stations. Charlie will continue to work out of St. Louis for the next 3 months or so before moving on to Bartell's national headquarters in New York.

There's a good job for a good man at a good FM station. That's 50kw WXIL-Parkersburg, W. Va., located 2 hours from Pittsburgh and one hour from Columbus. Good bread! Tape and resume to Box 1228, Zip 26101. No calls, please.

In Manchester, N.H., WFEA sent a man into the downtown business district with a bag full of money, which he proceeded to give away to various passers by. Station had to tip off the police to keep him from jail. Story made the front page of the local newspapers and - best of all - was carried as a news story by the competition station. After that, the WFEA news identified the money giver as their very own weekend jock. It's been done in other cities, but this was a first in Manchester.

In Lewiston, Idaho, KRLC fills the 10PM to 4AM hours with LP cuts, and cuts from older albums from between 1966 and 1972. Steve McKelvie tells us that since there is no FM signal in the market, he has a lock on his target audience. Also, he says he needs better album service - progressive type.

Don Costa writes from KPTL-Carson City that his station hasn't been country since November, and would we ask the record folks please to stop sending him all those country records and send the A-C type material instead.

We previously related how Mike Lucas's Button Campaign built up his cumes. Now he's after quarter hour maintenance with the "Button Bonus Record". Jock says: "Next time we play this record there's a \$50 cash prize for the first person to phone us". (Mike says he borrowed the idea of the button promo from a similar one run by KTSA-San Antonio while he was at KONO.)

Mark Blinoff, PD of KMPC-Los Angeles, will be teaching a course in Radio Program Management for the UCLA Extension Division. Classes will be offered every Thursday, 7 to 10PM, from March 31 to June 16.

Chuck Cooper, former mgr. of WJDX-Jackson, is presently owner-manager of WKOR-Starkville, situated in Mississippi's Golden Triangle: Starkville, home of Miss. State Univ.; Columbus, site of the Miss. State Univ. for Women; and West Point, county seat of Clay County. His station is on our top 40 correspondent waiting list, and he'd appreciate better pop record service - all sources.

Chuck Bolland, well known sports commentator in the Pacific Northwest, is now syndicating a daily 60 to 90 second sports editorial. It's called "That's The Way The Ball Bounces". Contact Chuck at KTAC-Radio, 2000 Tacoma Mall Office Bldg., Tacoma, Wn. 98411, and request a sample.

KAAY-Little Rock is sponsoring The Little Leopards football team - boys 8 to 10 years old, co-champions of the YMCA's six-man tackle football program, with a 7-0 won lost record in their third season. Station presented the team with new uniforms. All the boys are students at the Arkansas school for the Deaf.

Karen and Kevin Manna (he's at KKIQ-Livermore) are proud parents of their second child, Kyle Adam, born March 22.

Up in Medford, Sharon and Jerry Allen (KYJC) welcomed daughter Wendi Suzanne at 4:25AM on March 18, who weighed in at an even 7 lbs.

Music calls to Red Mountain, KCBN-Reno, Mondays only, 1 to 5PM.

WGAR-Cleveland is one of a growing number of stations (KILT-Houston is another) carrying on a broadcast training program for local school students. The WGAR program is limited to high school seniors and college freshmen, and it is built around a series of weekly afternoon seminars and workshops which cover all phases of radio operations.

KCRA-Sacramento, for the second successive year, is working with local law enforcement agencies in the annual Commercial Crime Alert. It's a campaign to show business people how they can more effectively protect their establishments against burglaries, and in general telling listeners more about how and why to combat crime.
