

THE GAVIN REPORT #1205  
WEEKLY SUMMARY  
(Editor, Gary Taylor)

Smash of the Week: YOU BELONG TO ME-Carly Simon (Elektra) She has co-written a classic song which only increases her stature as a musician.

Hot: DANCE WITH ME-Peter Brown (Drive) Initially the artist's unfamiliarity made this an unlikely candidate for airplay, but now it has captured a respectable degree of acceptance.

Top Tip: BECAUSE THE NIGHT-Patti Smith Group (Arista) Many have been reluctant to acknowledge its hit potential, but key indicators are surfacing at several stations.

Record to Watch: LAST DANCE-Donna Summer (Casablanca) The disco concept is far from over as early charts show at: WORC (11), WLOF (18), WGCL (19), WSGA (20), WQXI (22), KJRB (25), KSTP (25), WNOE (26), KRTH/FM (28), 96X (28), and KQDI (28).

Sleeper of the Week: MY ANGEL BABY-Toby Beau (RCA) To quote a major programmer, "It sounds great on the radio". Currently in the thirties in both our chart and airplay statistics.

Top New Add: CAN WE STILL BE FRIENDS-Todd Rundgren (Bearsville) Not only adds but chart moves at several stations.

Most Active: YOU GOT IT-Diana Ross (Motown) Despite its lethargic profile on the front page and page 4 of our report, it's doing well at stations like KMBZ, WBOW, WIOD, WBEN, WCCO/FM, KSL, WMT, KSFO & WTMJ.

Worth Watching: SONGBIRD-Barbra Streisand (Columbia) Rarely does a record get 33 adds in one research week at the A/C level.

Black Radio  
(Associate Editor, Betty Hollars)

Hot Line: FEEL THE FIRE-Peabo Bryson (Capitol) Lots of chart jumps for this slow and easy ballad, which is a nice change from all the "dance" and "disco" things saturating the page.

Looking Good: HOLLYWOOD SQUARES-Bootsy's Rubber Band (Warner Bros.) Bootsy and the band do it again in this single that had previously received a lot of airplay as an album cut.

Inside Progressive Airplay  
(by George Meier, Editor of Walrus)

Established Progressive Airplay

Jefferson Starship  
Wings  
-----  
Genesis  
The Band  
-----  
Atlanta Rhythm Section  
Warren Zevon  
FM/Soundtrack  
Gerry Rafferty  
-----  
Elvis Costello  
Todd Rundgren  
Jethro Tull  
Carly Simon

Notes: This list is composed largely of names from the last time we reported. However, it has now turned, like sour wine, into a sluggish list. Only one of the top eleven records is moving up - the Gerry Rafferty. All of the others are either dropping or have leveled off. The substantial drop in the intensity of airplay changes the emphasis from these established records to the newer ones. Regional preferences are affecting things. For example, both Starship and Wings are bouyed by strong Southern support. Genesis is relatively weak in the West as The Band is in the Midwest. And so it goes.

New Progressive Airplay:

Bob Seger  
Kinks  
Joe Walsh  
Tom Petty  
Hall & Oates  
Le Roux

Notes: Here is where the excited radio action resides. The first four positions are especially hot starting. Bob Seger does well across the regional board. That is significant because he had historically been trapped in the Midwest with nowhere to go. In the next three positions the starting numbers also show a remarkably even spread. Only the last two show the signs of weakness, Hall & Oates in the Midwest and Le Roux in the West. The Hall & Oates being a live LP based in old material may not have a long airplay life; while Le Roux indicates its Southern regional bias very early, a pattern we expect to stay with their first LP.

Singles & Imports

Singles: Top progressive singles include Rolling Stones way out in front of Pablo Cruise, Bob Seger, Elton John, Steve Martin and Bonnie Tyler.

Imports: A bunch of imported albums do well in relatively equal proportions. The list includes Steve Hillage, Bill Bruford, Greg Kihn, Tangerine Dream and Soft Machine. Elvis Costello's new LP is still selling as an import although it has been released domestically. Also, Television and Ian Hunter show up.

The following tracks are filling the air:

Heart-HEARTLESS/MAGAZINE	Steely Dan-FM (Soundtrack)
Joe Walsh-LIFE'S BEEN GOOD TO ME (FM s'track)	Roy Buchanan-TURN TO STONE/DOWN BY THE RIVER
Spyro Gyra-SHAKER SONG	Dixie Dregs-TAKE IT OFF THE TOP
Passport-SKY BLUE/LOCOMOTIVE	John McLaughlin-A TEAR FROM EVERY EYE.../N.Y. ON MY MIND/FRIENDSHIP
Snail-THE JOKER	Alvin Lee-AIN'T NOTHIN' SHAKIN'/ROCKET FUEL
Auger/Tippetts-DON'T LET ME BE MISUNDERSTOOD/ ROPE LADDER TO THE MOON	Tom Petty & the Heartbreakers-I NEED TO KNOW
Cheap Trick-SURRENDER	Nantucket-HEARTBREAKER

Midwest Conclave

The third annual Upper Midwest Communications Conclave held in Minneapolis May 19-20 drew radio people from eight states. The record industry was represented at all levels. An innovation this year that helped the meeting run more smoothly was Brown Institute's participation in the gathering. Students from Brown, a broadcasting school in Minneapolis, took care of mailings prior to the meeting, taped all the sessions and set up equipment for speakers. Tapes of any or all the panels can be obtained by sending blank cassettes to Doug Lee, Box 26306, Minneapolis, 55426. The panel on Air Personalities was the liveliest session according to Doug, but the Research and Engineering panels, the keynote speech by Mike Phillips of WMNE/WMFm-Eau Claire and the Programming Workshop were also highlighted by many questions and quick answers. Since many people in radio hope to own and manage their own station some day, Mike Phillips' speech was encouraging. He said he was able to buy WMNE/WMFm by directing all of his energies to that end. By Napier of WCCO, one of four panelists in the Program Director's Workshop, drew many questions from the Midwestern programmers because WCCO reaches forty percent of a five state region and is a common competitor of many of the programmers present. Gary Taylor, who moderated the panel on Research, said Don Smith's (WEAQ Sales Manager) presentation of a detailed market analysis of Eau Claire as well as an animated, if brief, talk by Richard Lamb of Arbitron, sparked discussion in that session. Bill Gavin and Bob Wilson were presented plaques at luncheons on Friday and Saturday honoring their contributions to the industries. Doug said plans for Conclave IV are already being made. Students at Brown Institute will again participate and an even higher attendance and offering of panel subjects can be expected.

Gavin's GabStations Up for Memorial Day

Musical versions of the Indianapolis 500 brought that traditional highlight of the holiday home to many listeners last weekend, minus the hysteria and crowds of the Speedway. Many stations featured the top 500 all time hits and involved their listeners in the promotions. WNOE-New Orleans ran a full page ad in the Sunday paper listing 500 past hits. Listeners were asked to choose their favorite 100 and return the entries for a drawing on Memorial Day. The prize was an antique jukebox and 1060 records. The top 500 records were played all weekend but Marc Sommers said it was the 2000 returned entries that made the "New Orleans 500" an important event for the station.

WICC-Bridgeport played a countdown of the top 600 songs chosen by its listeners. People were asked to send in their top three choices of both songs and artists. (Greg Loehr said the winning three songs were STAIRWAY TO HEAVEN, AMERICAN PIE and HEY JUDE, and the artists, Elvis, The Beatles and the Beach Boys.) Ten of the songs were played every hour for 60 hours and Greg said the response was "huge".

The "Dakota Land 500" at KSDN-Aberdeen featured the top 500 hits from over the last 20 years. Gary Dixon said the station chose between three and 20 hits in any given year to compile the list.

Other stations planned completely different promotions around the holiday. WIGY-Bath produced a seven-hour Memorial Day Parade complete with "bands," floats, crowds and a contest. Listeners were asked to name the 21 towns the parade traveled through for a prize. WCUE-Akron gave away picnic baskets full of food, picnic supplies, tickets and albums. KOKK-Huron's "Picnic Patrol" drove around all weekend with packages of food and supplies for picnickers. WISM-Madison held a free outdoor music festival in a local park for 10,000 people. WFBC's 45th anniversary celebration in Greenville, S.C., culminated over the weekend with a big cash giveaway, plus records and baked goods. Southern Bell was so distressed over the tied up phone lines, WFBC is installing a new system the better to accommodate the calls. The Multimedia outlet has been Top 40 since 1957.

And back in Indianapolis, WIFE broadcast the Indy 500 direct from the Speedway.

He's No Dud

Recently, the Eugene, Oregon, "Register-Guard" ran a full page story entitled "The Dud Stumps 'em All," a story about KASH's Bill Dudley. It seems that Bill has an uncanny ability to recall the artist's name, label and year instantaneously when a listener gives him the title of any hit made since 1962. This is a game Bill plays with his audience every morning, and for the past five years nobody has come up with a title that "Stumped the Dud."

Bill has a 12,000 record library..."every major hit from 1955 to present" and says he never purposely memorizes record trivia, "it just happens."

The article quotes Bill: "'It's basically a useless art...I'm prone to miss a label more than anything else,' adding that he was nearly stumped recently on the label of Mocedades, ERES TU, but guessed it by recalling its color."

"Nobody has ever stumped me," Bill says (matter-of-factly). "I'm sure it could be done, but it will be tough...But I've just realized in the last few weeks that 'Stump the Dud' is something that nobody can rip off of me."

"Flag A Snag"

Every year, floating logs damage hundreds of boats in Northwest waters, so KVI-Seattle is distributing bright orange "deadhead warning flags" to mark such hazards in Lake Washington and Puget Sound. Boaters carry the 30 inch flags, emblazoned with the station's call letters and frequency, and attach them to any snags they see while boating. The Coast Guard and Corps of Engineers follow up by removing the logs and returning the flags for redistribution. KVI has distributed the flags for the past six years through sponsor locations in Seattle and Tacoma.

Underwriting the Mailer

In the past, Eric Norberg, P.D. of KEX-Portland, has been forced to exclude people from the mailing list for the KEX playlist due to heavy printing and mailing costs. He now reports he's found a way to supply the list to everyone who wants it. Anyone interested in receiving the "KEX Playlist Adds" weekly for a year, can send \$20 to Eric at KEX, 2130 S.W. 5th Ave., Portland, 97201, just to cover mailing costs. He says, "Since this is a courtesy rather than a business, we obviously are not going to get into billing people."

Album of the Week  
(reviewed by Ron Fell)

"Darkness On The Edge Of Town"-Bruce Springsteen (Columbia) The drought is finally over. Springsteen was the reluctant cover boy of Time and Newsweek back in '75 and he has been embroiled in legal hassles ever since. Now he's cut free like a young lion in the streets of old Rome. Jon Landau and Bruce have produced an album which makes no concessions to the current trends of slickness and synthesizers and makes no apologies for its starkness and sensitivity in lyric. BADLANDS, CANDY'S ROOM, THE PROMISED LAND, PROVE IT ALL NIGHT, ADAM RAISED A CAIN, and SOMETHING IN THE NIGHT are cool.

Also recommended from the following LP's:

- "Sleeper Catcher"-Little River Band (Harvest) REMINISCING/RED-HEADED WILD FLOWER/FALL FROM PARADISE/SO MANY PATHS
- "Stay The Night"-Jane Olivor (Columbia) STAY THE NIGHT/HONESTY/HE'S SO FINE/CAN'T WE MAKE IT RIGHT
- "Life Is A Song Worth Singing"-Teddy Pendergrass (Philadelphia International) LIFE IS A SONG WORTH SINGING/COLD, COLD WORLD/GET UP, GET DOWN, GET FUNKY, GET LOOSE
- "Power In The Darkness"-Tom Robinson Band (Harvest) GREY CORTINA/TOO GOOD TO BE TRUE
- "If I Weren't So Romantic, I'd Shoot You"-Derringer (Blue Sky) MIDNIGHT ROAD/LAWYERS, GUNS AND MONEY/POWER OF LOVE
- "What Have You Done For Love?"-Hodges, James & Smith (London) WHAT HAVE YOU DONE FOR LOVE?/ YOU CAN'T HIDE LOVE/HIDE-A-WAY
- "Phantom Of The Opera"-Walter Murphy (Private Stock) A NIGHT AT THE OPERA/GENTLE EXPLOSION

Buddy Holly

Kent Zimmerman of The Gavin Report was in Lubbock, Texas, for "The Buddy Holly Story" premiere. Here's his story:

Presently, government officials are pondering whether or not to commemorate Elvis Presley on a "one inch by one inch" postage stamp. Yet in the city of Lubbock they've taken it upon themselves to honor one of their own rock and roll legends, Buddy Holly, on thirty acres of newly dedicated park and recreation space.

KSEL Program Dir. Bill DeMore and Music Dir. Paul Blair both called the preview and park dedication of "The Buddy Holly Recreation Area" KSEL's most successful community projects. The 30 acre spread will eventually be developed into a recreation area for mentally and physically handicapped people.

The audience response to the screening was hauntingly emotional because of the presence of Mr. and Mrs. L.O. Holley, Buddy's parents.

It was especially moving to have witnessed a park being dedicated to a true rock and roll innovator. It is an honor usually bestowed upon the likes of military generals and nuclear physicists. However, this time it was for the music - a hey, a hey, a hey hey.

Gary Taylor's Personal Picks

I NEED TO KNOW-Tom Petty & The Heartbreakers (Shelter) This record is short and direct. It delivers in two minutes what most records barely hint at in four.

YOU'RE A PART OF ME-Gene Cotton with Kim Carnes (Ariola) Whoever was responsible for putting Ms. Carnes on this release rates our nod of approval. Her vocal adds just the right touch to project the emotional feeling of the song.

NEVER LET HER SLIP AWAY-Andrew Gold (Asylum) The most direct and obvious sounding "hit" record received this week - already top ten with our staff, which includes all demos.

Also Possible

LOVE WON'T BE DENIED-Len Boone (Chrysalis) ARMS OF MARY-Chilliwack (Mushroom)  
 FLYING OVER AMERICA-Fresh Aire (Atlantic) SO IT GOES-Nick Lowe (Columbia)

Regional Meetings

Houston - June 24 & 25 at the Marriott Hotel.

Guest: Jack McCoy. Moderators: Bill Young, Rish Wood, Clay Gish.

Registration: Radio: \$30. Four or more from one station: \$25 each. Records: \$25.

Registration desk opens at 8:30AM Sat. June 24. Record people are invited for cocktails Saturday evening and the combined session beginning at 10AM on Sunday.

The current crisis in the audience rating field precipitated by the demise of Pulse makes Jack McCoy's appearance as our special guest particularly appropriate. Jack is challenging Arbitron's current dominance in the field with his RAM system of audience measurement and evaluation. He will gladly answer audience questions regarding his own and other systems.

These regional meetings are radio meetings. They emphasize no particular format. Managers, engineers and sales people are urged to attend, in order to explore their relationship to the total programming function.

Advance hotel reservation cards are supplied by the Gavin office to all who pre-register.

Coming Up: Atlanta, July 8 & 9 at the Royal Coach Inn. Guests: Bill Engle of Arbitron and Bill Lowery of Lowery Music. Moderators: Don Benson (94Q) and Jim Davenport.

Boston, July 21 & 22 at the Hyatt Cambridge. Guests and moderators to be announced.

Here are a few comments about our Regional Meeting in Monterey (May 13-14):

Eric Rhoads, P.D. at K104-Fresno, says "By taking one of my jocks (who is totally new to the industry), his understanding of radio has increased incredibly. It's like talking to an 'ole pro instead of a novice...his output at work and his air sound has increased (in quality). I feel as though you should encourage all young broadcasters (as well as old) to attend these conferences."

Richard Painter, P.D. at KWRM-Corona, Ca., enjoyed every minute of it and learned "so much" from the subjects covered in each program. He felt the entire event broadened his view of programming.

Barbara M. Richardson writes from KVOC-Casper, Wyo.: "The knowledge I gained was limitless. It was a very good conference with everyone being so open and free with their ideas."

And finally, Don Hofmann at KSFO-San Francisco writes: "As in the case of all regional meetings that I've attended, I found the discussions provocative, interesting and open. I was very happy to see the California people "open up" as they do in the Northwest." He adds, "Although the record people appeared to show a definite interest in what radio was doing at the Seattle meeting a couple of months ago, the Sunday meeting at Monterey bogged down with the usual 'why don't you play my records?' comment by one or two people."

Correspondents please note: Those who have been mailing their Record Action Reports via Special Delivery are now confronted by the preposterous postal service increase to \$2.00 for each such mailing. We earnestly recommend that you discontinue this type of mailing and switch to regular first class postage. At our office, specials hardly ever receive early delivery; they usually come in with the regular first class mail.

Subscribers who previously have been paying the extra charge for special delivery of The Gavin Report may wish to reconsider this arrangement, in view of the excessive cost increase. Please let us know.

THE GAVIN REPORT #1207  
WEEKLY SUMMARY  
(Editor, Gary Taylor)

Smash of the Week: USE TA BE MY GIRL-O'Jays (Philadelphia International) Since mid-April, correspondents' reports have indicated this would be a mass appeal hit; the climb up the Black Radio, Adult-Contemporary and Rock charts has been almost simultaneous.

Hot: MISS YOU-The Rolling Stones (Rolling Stones) Our research shows a jump of 24 to 19 in chart averages, 12 to 8 in airplay; it would be nice if all "personal picks" did this well.

Top Tip: LOVE WILL FIND A WAY-Pablo Cruise (A&M) The move from Top Prospect to Top Tip in one week clearly indicates the record's strength.

Record To Watch: LIFE'S BEEN GOOD-Joe Walsh (Asylum) Charts include: KIIS/FM (15), WGCL (16), WNBC (19), WZUU (24), WFOM (25), KSTP (25), KRTH/FM (26), KRSP (27), 13Q (29), 94Q (30), WIFE (30), B100 (30), KFI (30) and KIMN (30). Not bad for starters.

Sleeper of the Week: MACHO MAN-The Village People (Casablanca) The success in New York is no fluke. Top five requests in Daytona Beach (WMFJ), charting in New York (99X-10), Boise (KWZ-14), Hartford (WORC-20), Los Angeles (KRTH/FM-25), Wilmington (WGNI-26), and added in San Francisco (KFRC).

Top New Adds: THREE TIMES A LADY-Commodores (Motown) I'VE HAD ENOUGH-Wings (Capitol)

Hot Line: YOU & I-Rick James (Gordy) Strong gains at KYAC-Seattle, KUOP/FM-Stockton, WABQ-Cleveland, KDIA-San Francisco, WNAT-Natchez and WVKO-Columbus, with requests at WBBM-Miami show good support for this side.

Looking Good: BOOGIE OOGIE OOGIE-Taste of Honey (Capitol) The unusual title of this single does not seem to be holding it back - its biggest moves coming in from major markets (New York, Chicago, Seattle, St. Louis and Cleveland).

## Country Club

Our good friend Don Rhea, one of the charter correspondents of this country music section, for many years a top personality at KCKN-Kansas City, has decided to turn over his duties as music director there to Chris Collier. Don will continue his regular air shift while he looks around for an opening at another station. He'll return from vacation June 26. Call him after that date at 816-357-2466 or at KCKN (913-321-3200). Country music has no more devoted or knowledgeable a champion than Don Rhea.

Inside Progressive Radio  
(by George Meier, Editor of Walrus)

Established Progressive Airplay:

- Bob Seger
- Joe Walsh
- 
- The Kinks
- Jefferson Starship
- Gerry Rafferty
- 
- Wings
- Tom Petty
- Genesis
- FM/Soundtrack
- Atlanta Rhythm Section
- Todd Rundgren

Notes: That Bob Seger and Joe Walsh are the leading airplay artists at this time is not a little bit significant. They are both synonymous with the midwest, and yet they have been able to generalize their appeal. For Seger especially, it has been a long struggle. The last time we analyzed the airplay we noted that everything seemed to be moving down. That trend became a collapse as the former leaders, Starship, Wings and Genesis all dropped significantly. The wave of new releases began to take hold. The top three positions are all relatively new entries, not to mention Tom Petty. A point begs to be mentioned here: in album radio there is not the endless building process in the making of a hit. Usually it happens within weeks of the release, or it doesn't happen. Incidentally, Tom Petty would have been higher in the chart had he gotten a stronger midwestern response. They are hard out there.

New Progressive Airplay:

- 
- Bruce Springsteen
- 
- Little River Band
- John Prine
- Graham Parker
- Pablo Cruise
- Pousette-Dart Band
- Carole King

Notes: The double line says what has to be said. Bruce dominates all new airplay to the point where he is getting airplay intensity equivalent to the sixth position in the established list. Among the others listed, it is a surprise that John Prine did so well, given a sagging career, and that Carole King is greeted so coolly. John did equally well in all regions but the West, while Carole was helped greatly by uncommon strength in the South.

Singles: By far the most important single in progressive radio is the Rolling Stones "Miss You". After it comes a trail of notable also-rans like Steve Martin, Dave Mason, Pablo Cruise and Bruce Springsteen, Bonnie Tyler and Plastic Bertrand.

Imports: In a rather unexciting import record atmosphere we find some response to European albums by Television, Elvis Costello, Steve Hillage and Gong...which has nothing to do with the show of the same name.

The following new tracks are filling the air:

- |   |  |

| Bob Seger-HOLLYWOOD NITES/STILL THE SAME/FEEL LIKE A NUMBER/'TILL IT SHINES | Bonnie Tyler-IT'S A HEARTACHE  |

Gavin's Gab

Great Big Beautiful Dolls

Beauty contest promos began to surface this week. WBT-Charlotte held a Cheryl Tiegs Look-A-Like Contest. The competition drew hundreds of businessmen to a downtown plaza during lunch hour. The cash prize went to a college student who most resembled the top fashion model. WLEE-Richmond held a King Tut Look-A-Like Contest at the city's June Jubilee festival. Pre-registered contestants had to wear costumes and answer the question, "How'd you get so funky?" They also had to dance, King Tut style, on stage. The winner received a complimentary dinner and tickets to a Steve Martin show. Bill Dudley at KASH-Eugene said he was conned into running a beauty contest for men. Bill asked his women listeners to nominate their husbands, lovers and/or friends. Contestants were judged by ten women, aged 15 to 52. During a lunch hour, the judges chose a 19 year old man who resembled Shaun Cassidy. He won a trip to the coast and \$50 worth of sporting goods.

"Grease"

"Grease" premiered nationwide last week. Massive amounts of fifties memorabilia were given away. Stars from the movie were interviewed on the air. Jocks emcee'd in costume. WANS-Anderson, S.C., gave away "Grease Packs" consisting of tickets, soundtracks, greasy hair tonic, a grease job for the car, ice cream and milk shakes. The first 50 people who arrived at the theater in costume were admitted free. All others, up to 500, were charged the frequency, \$1.28. A 30 minute special on Lynyrd Skynyrd was shown prior to the main attraction. KLWN/FM-Lawrence, Ks., sponsored the premieres of both "Jaws II" and "Grease" the same night at two theaters, directly across the street from each other. KLWN gave away tickets, T-shirts and soundtracks, and the station's hot air balloon flew over the theaters carrying a 20 x 30 foot banner. Bruce Vidal at KOIL-Omaha interviewed Jeff Conaway during the "Super Oldies Hour" of his mid-day show. (Jeff plays "Kenickee" in the film.) KSTN-Stockton followed up the "Grease" premiere on Friday with a fifties dance on Saturday. The winning dance couple received a cash prize. KASH-Eugene held a sockhop at a local high school after the movie.

Where the Livin' is Easy

Tough life at WDLP-Panama City...the station broadcasts direct from the beach, six days a week, five hours a day in its air conditioned remote studio. The WDLP beach van cruises up and down the strip, giving away prizes. The talent is also involved in less sedentary activities. Jim King set a Guinness World Record on Memorial Day for the most rides down a beach chute. He slid down the chutes on plastic mats, landing in a shallow pool at the bottom of the hill. (A fountain at the top sends a steady stream of water down the cement paths, accelerating the ride.) He made 400 runs in 15 hours, and said he was immobile for three days afterwards. The station plans to establish another, "even more dangerous," record later this summer. Meanwhile, the WDLP jocks are watching the bikinis and staying tan. ...continued on page 12...

Country Club (cont'd. from pg. 6)

KENR's Bruce Nelson calls attention to an irritating practice among record producers - a practice that has consistently been deplored by other correspondents. They object to the inaccurate timings printed on the record label. The necessity for timing intros and overall length is just that much more work for radio's production people and/or music directors.

WFSR-Harlan, Ky., is sponsoring a motorcycle team this summer. The riders sporting WFSR jerseys are none other than General Manager Jim Dove, and Program Director Rob Baxter. The two will compete in five Enduro-100 mile dirt bike races. The first cross-country event was held last weekend at the Alpine Mountain Avalanche.

KIKX-Tucson invited its listeners to "program the station" from 5 PM Friday to 9 PM Sunday, June 9-11. The All Request Weekend drew a surprisingly balanced mix of oldies, currents and recurrents, Tim Tyler reported. It sounded like a normally formatted weekend. Nice numbers-- 54 percent of calls came from males and females 18-24, and 46 percent from males and females 25-50. Once an hour, KIKX picked a caller and gave them a copy of their requested records.

WIRK/FM-West Palm Beach ran a promotion called "Give Pop a Top" for Father's Day. Only those registered in WIRK/FM's "Country Club" were eligible for the drawing on June 16th. The winner received a Truck Topper, valued at \$250. (The canvas Toppers cover the back of a pick-up truck.)

KHEY-El Paso was invited by a local television station to participate in the Arthritis Foundation's telethon, June 18th. Jacky Ward and Charlie Russell co-emcee'd the six hour drive, and KHEY jocks guest-anchored. Ray Potter said the telethon raised \$20,000 last year.

Water Races

Jocks from forty stations in the Carolinas met at Carowinds Amusement Park in North Carolina for the fourth annual "Jock Regatta" June 18th. Each station built its own raft, and the jock teams wore costumes for the half mile run around the Lagoon. Cash prizes were given to the winning stations' favorite charities. WZOO-Asheboro, WISE-Asheville and WANS-Anderson sent raft teams, entire staffs and many listeners to this well-known event.

14ZYQ-Frederick's third annual bath tub race on the lake of a local park drew an excellent crowd of 10,000 people. Contestants produced their own floatable tubs, and trophies were awarded to the winners of the 100 yard race.

Transitions

Paul Cassidy, vice-president and general manager of TENQ and KGBS-Los Angeles, has been relieved of his duties. Neil Rockoff, Ed Salamon and Dale Pon are assisting the two Storer-owned stations until a replacement for Paul is found. Neil, vice-president of the radio division, Ed, national program director, and Dale, creative services director, said more changes would be announced over the next few weeks.

Congratulations to Bob Denver, Don Nordine and their new wives, Pat and Judi respectively. Bob and Pat were married over the Memorial Day weekend in Fargo, where Bob is P.D. of KQWB/FM. Don (P.D. of KQDI-Great Falls) and Judi, were married on June 16th.

Gary Taylor's Personal Picks

MR. BLUE SKY-Electric Light Orchestra (Jet) Flashes of Beatle ingenuity are immediately apparent as the group once again dares to be different. They are unique in standing alone with a sound like no other.

TWO TICKETS TO PARADISE-Eddie Money (Columbia) This version is completely different from the album version. It was re-recorded with a superior vocal track, new harmonic lead guitar lines, and a much more compact, programmable length. Eddie Money is rich in talent.

Mailbag

Mike Shannon, Program Director at WRAW-Reading, Pa., writes in part:

"I noticed the comments made by Kent Burkhardt in Columbus. Kent is 100% correct about "passive research". Basically, "actives" are the people most likely to tune out or in, while passives, as Kent says, will be led to follow the trends that the actives set. "I'm sure you are well aware the "passive research" phrase is more often than not a cop-out for programmers. 'I can't play the record because it doesn't show up in my passive research.' I just wrote this letter to concur with Mr. Burkhardt."

Reply

Chuck Thagard, a Columbia Records executive, has written us his comments on our last week's "On The Record", which dealt with adverse reaction to the lyrics of Billy Joel's ONLY THE GOOD DIE YOUNG. Chuck writes, in part:

"Although no finger of guilt is being pointed (except perhaps at the artist/writer), the article implies that anyone associated with this song is helping to encourage religious bigotry and/or the further lowering of adolescent morals. I don't feel this was the intent of Billy Joel, Columbia Records, or the many radio stations who have played this record. The artist, through this music, is reflecting, not necessarily endorsing, something he has apparently observed. His intent may even have been to sarcastically poke fun at this attitude among teenagers, a la Randy Newman's SHORT PEOPLE.

"Only he can tell us that...The purpose here is to remind you that this song was released as a single because of very heavy airplay (as an LP cut), even though another single was out at the time.

"As you say, one's religious convictions are very personal, and each is entitled to his own beliefs. The same goes for one's opinion and evaluation of lyrics to songs. Prior to this sudden minor uproar, most of the people involved with this particular one found it to be a positive, entertaining piece of music."

Open Letter

Dear Chuck,

The intent in writing, releasing or broadcasting this particular record is not in question. Its impact is. Undoubtedly, the offensive potential of the lyrics was overlooked by the producers. Undoubtedly also, a large majority of radio listeners find the record highly acceptable.

If I have spoken out for anyone besides myself, it is for the often silent minority, whose resentment is directed, not necessarily at your company or your artist, but more probably against the radio station putting the record on the air.

Sincerely,  
Bill Gavin

THE GAVIN REPORT #1206  
WEEKLY SUMMARY  
(Editor, Gary Taylor)

Smash of the Week: STILL THE SAME-Bob Seger (Capitol) The constant upward movement is further evidence that he has another top five record. Of the 190 reports, 186 have it charted.

Hot: EVEN NOW-Barry Manilow (Arista) Both airplay and chart statistics show it top twenty (see page 8).

Top Tip: RUNAWAY-Jefferson Starship (Grunt) This is the cut that many wanted from the album in the first place; there are still some great ears in the business.

Records to Watch: WONDERFUL TONIGHT-Eric Clapton (RSO) FM-Steely Dan (MCA)  
CAN WE STILL BE FRIENDS-Todd Rundgren (Bearsville)  
All doing well, but the Steely Dan faces continued resistance among AM programmers.

Sleeper of the Week: THREE TIMES A LADY-Commodores (Motown-LP cut) Early chart action shows that radio is not waiting for the single: KAYC (14), WFLB (15), WHBQ (22), WPGC (24), WBBF (27), WJDX (28), Y100 (28), KRTH/FM (28), etc.

Top New Add: I'M NOT GONNA LET IT BOTHER ME TONIGHT-Atlanta Rhythm Section (Polydor)  
Added by nearly one-fourth of our correspondents.

Most Active: YOU'RE THE LOVE-Seals & Crofts (Warner Bros.) This Gary Taylor Personal Pick back on March 31st has been confirmed by adult oriented radio.

Worth Watching: SHAKER SONG-Spyro Gyra (Amherst) One of the real sleepers so far this year. Some stations in the midwest and upstate New York heard its potential months ago and their faith may be validated by A/C's around the country in the weeks to come.

## Country Club

KIKX-Tucson and several other stations in the area were on hand to help kick off the Grand Summer Months of "Old Tucson" at the movie lot's "Hoe Down Show Down," last weekend. Old Tucson, where films and TV serials such as "Little House on the Prairie" are shot, attracts thousands of tourists every year. Lots of fiddles and blue grass music raise the dust in the authentic old Western town every weekend through the summer.

## Gavin's Gab

Big Moves for Dan Halyburton and Michael Spears

The two talented young programmers have taken on exciting new challenges.

Dan Halyburton has been appointed Program Director of 50 kw. WGBS-Miami. Dan was the P.D. of WDGY-Minneapolis this past year, where the station's new country format debuted with a 4.7 share (12+) in the Oct./Nov. 1977 Arbitron. Dan says he's pleased to be returning to Miami, his home town, and especially glad that radio management is starting to "look at program directors regardless of the format they program. If I can do country, I can do A/C equally well."

Michael Spears, Bill Bungeroth and Paul Bilzerian announce the formation of a new group, International Broadcasters, Inc. The three partners have filed for ownership of WFSO/AM-Tampa. Bill Bungeroth is a former sales manager of KFRC-San Francisco. Paul Bilzerian was previously a treasury associate with Crown Zellerbach Corp. of San Francisco. Michael is well known for his programming of KNUS-Dallas, KFRC-San Francisco and KHJ-Los Angeles.

WFSO is one of five full-time stations in a 16-17 station market. The Tampa/St. Petersburg area is ranked third in "Money" magazine's (May 1978) list of the ten "job meccas" in the country.

Dan switches from P.D. of a major market country station to P.D. of a major A/C at the age of 26. Michael realizes the dream of many broadcasters--becoming a station owner--at the age of 30.

Big Apple Tastes Good

Bobby Rich tells us that he has taken his first bite of the Big Apple and likes the taste. Bobby, who recently went from B100-San Diego to the P.D. spot at 99X-New York, happily phones that the new Arbitron shows his station with its highest cume ever. New slogan is "America's most listened to FM radio station." His audience shares are also up, he says, as are those of WNEW, WABC and WNBC and a few others.

Inside Progressive Radio  
(by George Meier, Editor of Walrus)

There are always a few hot new albums which rise above the great mass of releases. Two of those which are included here are the Bob Seger and the Mink DeVille. These rockers come out of the streets and have lost none of their grit in spite of the limousines and press parties. Their link is a direct connection with all rock and roll hearts. A few mighty tunes in each album provide the medium through which that connection is made and maintained. There is also a solo album by Joe Walsh, the man whose ripsaw guitar gave the Eagles its extra kick last time around. That guitar does its job again in a bed of decent but not overwhelming songs.

When you talk about songwriting, however, one name to remember is Ray Davies, of the Kinks. Last album the Kinks showed a new discipline and a firmer rock grip. The change brought them back into airplay prominence. This album continues the new direction. With or without the new direction, Ray has been a particularly gifted writer who has lots to say and who is able to frame his thoughts into the song format with seeming ease.

Then there are the ladies. Carole King shows us a view of her organic lifestyle, while Wendy Waldman tightens up her act and moves toward the rock mainstream where she meets Bonnie Tyler. That lady can sing! She moves immediately to the top end of the rock singer list, up near Rod Stewart, whom she sounds like.

Another new name in the rock band is the Tarney-Spencer Band. They brandish a bright playing style and high caliber songs.

Finally, the art for this week is contributed by Paul Winter. His album called Common Ground provides many wonderful sounds from different musics, tribal to jazz, in a real original stew which cooks pretty good.

Sidelights

A surprisingly large number of our readers have told me of their enjoyment in following the accounts of my various travels. So, for those who may find it of interest, here follow my impressions of my recent trip to Minnesota and Wisconsin.

Enjoyed visiting with Steve Dickoff and Doug Lee on way from Mpls. airport to hotel. Next day after lunch, Beth and Orval Nelson (sister-in-law and her husband) drove me on to Eau Claire. Lots of telegrams and messages of congratulations on arrival in Eau Claire. Nice messages from Earl & Ellie McDaniel, John Rook, Biggie Nevins, Bud O'Shea, Dean Tyler and a number of surprise greetings from old friends and students from the early days.

Following the next day's commencement exercises, I was privileged to visit one of my former teachers, Hildabelle Oxby. In accepting my award the previous evening, I had referred to her as "the best teacher I ever had". And so she was. Fifty years ago I never would have dreamed that one day I would put my arm around her frail shoulders and kiss her on the cheek - but I did. Her wide eyes looked at me with approval, but they didn't see me. She is going blind.

Then back to Minneapolis for dinner with Mesa Kincaid, Dan Brannan, Peter McLane and Gary Bond. Met with the Conclave Advisory Committee next morning, evaluating the sessions and laying plans for the 1979 meeting. That afternoon, Mesa Kincaid took me on a guided tour of some of the lakes around Minneapolis. Walking around the foot paths by the lakes recalled my boyhood days in Chetek. Result: took off my shoes and walked barefoot in the grass, then went to Baskin-Robbins for ice cream cones.

Spend two restful days with Beth & Orval up at Crosslake, Minnesota. Then back home to Mill Valley.

P.S. As some of our readers know, I had planned to build a new house in Oregon and to make my home near my two older daughters and their families. I've finally decided, however, that after having lived 32 years in Mill Valley, that's where my roots are. So I'm going to do some extensive remodeling and landscaping of my old house, and that'll still be my home, with the Gavin Report office and staff just across the Golden Gate.

Country Club (cont'd. from page 6)

Jon Lawrence and Rick Jackson of KERE-Denver donned goggles and scarves and braved a stunt flight in the open cockpit of a bi-plane last week. A flying circus troupe in town for the weekend arranged the flight around Denver. P.D. Jon and Morningman Rick recorded the whole experience for their listeners, even though Jon said all they had to do was "hold on and avoid screaming." WHOO-Orlando is encouraging its listeners to patronize Circus World, a new amusement park, by simulating a ride on the park's roller coaster, "The Hurricane." The coaster reaches a speed of 58 m.p.h. on a 45 degree angle, with a 92 foot drop. Mike Burger said that listeners are asked to call in when they hear the hurricane sounder. Prizes are tickets to the park and Hurricane T-shirts. WHOO listeners can win another fast-moving ride in the station's promotion for the Daytona "Firecracker 400" stock car race coming up July 4th. Grand prize in the drawing is the Pace Car of the race--a 1978 model sports car.

WHK-Cleveland played popular music of the fifties for an entire weekend (June 9-11) in honor of 1978 graduates and their parents. Tickets to "The Buddy Holly Story" and "American Graffiti" were given to numbered callers, as well as a grand prize of movie camera, projector and screen. Country music, apple pie and picnics on the Fourth of July...KSON-San Diego is giving away 20 holiday picnic parties to numbered callers on Ed Chandler's morning show. Each picnic will provide 50 people with chicken, rolls, salads, drinks, invitations and accessories. That's one thousand San Diegans picnicking on KSON this Fourth of July.

The KNIX-Phoenix D.J.'s won a trophy for the "Dogie Dressing" event at the Phoenix Jaycee's Rodeo of Rodeo's last month. The KNIX team has won the trophy three out of the four years the rodeo has been running. Len Roberts, John Buchanan and Tom Bell dressed a calf in clothes "from the inside out" in 24 seconds. Larry Daniels, operations manager, said that one year they did the job in 18 seconds.

Several jocks at WNRS-Ann Arbor participated in Soupy Sales' annual Telethon for the mentally retarded June 3-4 at a Detroit TV station. Mid-day man, Randy Carr, helped man the phones an entire day. Mark Thomas said WNRS was the only Ann Arbor station invited to participate.

Gavin's Gab (cont'd. from page 8)

Album Play Emphasized

Tim Patterson reports from Salem, Ore., that KBZY is placing more emphasis on album play, while still maintaining a top 40 base. Like a growing number of today's programmers, he wants his station to offer an alternative to traditional top 40, which, he feels, "is getting more and more redundant."

Hot Fun In the Summertime

Stations are moving it outdoors, and whether it's tennis, golf, softball or hop-sotch, these organized competitive sports events are pleasing the people. KKXL/KDQ-Grand Forks will host its annual Charity Pro-Am Golf Tournament June 16-18. The event will draw amateurs and professionals from five states and will raise an estimated \$10,000 for a mental health center in Grand Forks. The tournament offers up to \$6000 in prize money to celebrities plus valuable prizes to amateurs.

KFXD-Boise hosted an "All Comers Tennis Classic" on all the courts in the city. Listeners were invited to "play tennis with the celebrities" for prizes such as tennis wear and equipment. The event drew "hundreds" last year, Charlie Fox said.

KBOZ-Bozeman broadcast live from the Riverside Country Club last Saturday as its Golf Classic got underway. The tournament was open to anyone for \$154. The fee covered costs including dinner at the club Saturday night. Prizes and a cash jackpot were awarded. Dennis Nichols said instate pros and a large number of amateurs participated.

The WJDX-Jackson "J's" have lined up 20 softball matches for the summer. Dave Kimbro said the J's eased by the Pearl Jaycee's last weekend, 20-19, in their first game of the season. They have been drawing an average of 200 listeners per game.

KENO-Las Vegas, along with many other local media organizations, played softball for charity against a team of celebrity sluggers May 28. The stars beat the press, 24-8, raising \$16,000 for Special Olympics. Steve Martin, Wolfman Jack, Pat & Debby Boone and Alice Cooper were among those playing for the winning team.

Albums of the Week  
(reviewed by Ron Fell)

"Love Me Again"-Rita Coolidge (A&M) The lady has always been able to sing, and, were it not for a feeble selection of songs on albums early in her career, she could now well be one of the most successful female singers around. Her string of successes didn't really start until the "Any-time Anywhere" album released last year with its three top notch singles. "Love Me Again" is the kind of LP which should please the millions who've recently discovered her. YOU, SWEET INSPIRATION, IT JUST KEEPS YOU DANCIN', BYE BYE LOVE, THE JEALOUS KIND, and the title track LOVE ME AGAIN are as beautiful as the lady who sings them.

"Some Girls"-The Rolling Stones (Rolling Stones Records) Get your Ya Ya's out again, the Glimmer Twins have put new energy into their studio sessions once again. Much of this energy is coming from some hot competition between old standby Keith Richard and newcomer Ron Wood on guitars. Spirited performances on cuts like MISS YOU (the single), WHEN THE WHIP COMES DOWN, JUST MY IMAGINATION, RESPECTABLE, and BEAST OF BURDEN indicate heavy airplay in the months to come.

"David Gilmour"-David Gilmour (Columbia) Gilmour's been the guitarist for Pink Floyd for more than a decade, and his influence on the group's sound has never been so clearly illustrated as it is here on his first solo album. The group's low publicity profile makes Gilmour something less than a household name, but his dynamic sense of musicianship could well overcome his lack of notoriety. SHORT & SWEET sounds like the Tour de Force, yet MIHALIS, CRY FOR THE STREET, & IT'S DEAFINITELY are equally authoritative. Fills the Floyd void.

Also recommended from the following LP's:

"When I Dream"-Crystal Gayle (U.A.) WHY HAVE YOU LEFT THE ONE YOU LEFT ME FOR/HELLO I LOVE YOU/TALKING IN YOUR SLEEP/CRY ME A RIVER

"Mariposa de Oro"-Dave Mason (Columbia) DON'T IT.../ALL GOTTA/WILL YOU...TOMORROW/SHARE YOUR LOVE

Regional Meeting - Columbus (June 3 & 4)

In Columbus, as previously in Monterey and St. Louis, only a minority of our radio guests reported that they are using callouts. Many smaller market programmers pointed out that callout costs were too high for their stations to handle. Our Columbus meeting emphasized the diversity of callout techniques now being tried. There was general agreement on these points:

1. Callouts are most reliable in spotting burnouts;
2. Callouts are also good for evaluating old hits;
3. Callouts comparative evaluations of current records help in determining rotation frequencies;
4. Preliminary questioning of each person called should determine his or her qualifications as a member of the station's target audience.
5. Only those persons belonging to the station's target audience should be quizzed on the station's music;
6. Callout research is seldom used in evaluating new product;
7. Accuracy of responses to quizzing on listener attitudes is strongly influenced by the wording of the questions and the manner in which they are presented.

Dave Bishop, PD of WCOL, moderated this opening session, which then went on from callouts to other forms of research. Many stations still rely on retail store reports of singles sales, supplemented by voluntary listener phone-ins. New adds are selected on the basis of (1) action in similar markets, (2) airplay on major stations, (3) prominent trade listings, (4) significant regional gains in "The Gavin", and/or (5) the programmer's own judgement.

In spite of AM radio's struggle - and frequent slipping - against the FM challenge, AM revenues continue to hold up very well. Local advertisers are seldom influenced by audience measurement percentages and tend to continue placing their spot schedules where they have been productive in the past.

Kent Burkhart, speaking at the Saturday afternoon session, offered what may have been the most thought provoking statement of the entire meeting. "Passives", he said, "want to be led." In other words, the vast "silent majority" of radio listeners - those who never buy records and never telephone the stations - want somebody to tell them what's new, what's good, what's coming up. They may be "passive", but they're still interested. Kent made the point that, whereas passive (callout) research tends to tighten and slow the playlist turnover, thereby raising station audience shares temporarily, the end effect tends to be counter-productive in its failure to lead its passive listeners.

Kent also made reference to the current craze for dancing, sparked largely by discos and especially by the fantastic impact of "Saturday Night Fever". He predicted that this summer will be one of "dancing in the streets" and urged programmers to avail themselves of the opportunities thus provided.

He urged all radio people to be aware of the Congressional moves to write a new Communications Act. Lionel Van Deerlin (from San Diego, Calif.), chairman of the House Subcommittee on Communications, favors drafting a bill freeing radio from many of the FCC regulations with which it is now encumbered, but also requiring payment of a license fee, whose amount would be tied in to the stations' gross revenues. Specific language of the bill has not yet been agreed upon, but the NAB opposes the fee item.

We were joined on Sunday by the record people, who came in from Cleveland, Cincinnati, New York, Detroit and L.A. Discussions centered around topics such as (1) correlation of airplay with local retail stock availabilities, (2) retail sales vs. callout data, (3) album programming, and (4) record service to smaller market stations. Bob Goode, Op. Mgr. of WROK-Rockford, Ill., was our moderator. The record contingent expressed its appreciation for the opportunity to share with the radio people a learning experience in the area of radio programming.

There has been no room in this brief summary for reference to the many insights into Arbitron vs. Trac 7 vs. RAM audience measurement, the "disco mentality", AM stereo and other fascinating subjects. The Gavin staff (Elma, Gary, Ron & Bill) sincerely appreciated the high level of professionalism brought to the discussions and the friendly hospitality provided by our Columbus friends.

On The Record

We have recently received correspondents' reports of listener complaints about Billy Joel's ONLY THE GOOD DIE YOUNG. Initial complaints have come from those of the Roman Catholic faith. It would not be greatly surprising if a growing wave of listener protests started coming from those non-Catholics who also take their various religious beliefs seriously. It seems unlikely that the record's implied slurs on certain elements of the Catholic faith will in any way bring harm to that Church or embarrassment to its members. The record can, however - and probably will - arouse listener resentment against such seeming ridicule of a religion, as well as against the station broadcasting it. Whether one's religious convictions are Mennonite, Jewish, Baptist, Muslim or Hindu, they are sincere, personal convictions, and they deserve respect as such. The fact that a song lyric obviously addresses itself to an adolescent audience that has not yet learned to value principle above pleasure in no way decreases its bad taste. The fact that the fundamentalist view of extra-marital sexual intercourse as a sin has now been widely abandoned, in no way limits fundamentalists' rights to this view.

Our street vocabulary has long since deleted such racial and ethnic terms as Jap, wop, nigger. Chink and darkey as being offensive and unacceptable in our society. It is to be hoped that radio will not, through the broadcasting of this record, compound the international disgrace of bigotry, religious or otherwise.

(Associate Editor, Ron Fell)

Most Active: STILL THE SAME-Bob Seger (Capitol) A few A/C's still feel it's too hard, but high rotation is now the rule on most correspondent's playlists.

Worth Watching: DANCING IN THE DARK-Renee Armand (Windsong) The most added new A/C record this week. She's just off a successful tour with John Denver during which she won over many new fans.

## Country Club

## Changes at TENQ/KGBS-FM

Storer-owned TENQ and KGBS/FM-Los Angeles will exchange formats this fall, according to Ed Salamon, national program director.

He tells us: Although number one in teens, TENQ doesn't attract enough young adults. This prompted the format change.

TENQ will become mass appeal country. The new call letters will be KXAM, pending FCC approval.

KGBS, the automated country outlet, will become mass appeal rock. Its new calls, KHTZ, billed as K-HITS, are also pending.

Programming on the AM will closely resemble that of WHN-New York. Ed will be working temporarily in Los Angeles to establish a research team and to supervise the format changeover.

The staffs of both stations have been asked to remain. Jack Armstrong was recently hired to do mornings on TENQ. John Driscoll has moved to mid-days. Gary Caulker has resigned. Paul Cassidy, formerly General Manager and Vice-President, left last week. Ed said they were hoping for minimal staff changes.

Gavin's GabDisco Dither

Disco dancing has become regular radio fare. Here's a sampling of recent disco activities. WVOV-Huntsville, Al., and WFBG-Altoona, Pa., hosted "School's Out" disco parties. WVOV entertained 4000 people at a combination swim-dance. Listeners were invited to swim in an indoor Olympic size pool, and later, to dance in the parking lot outside. WFBG's party at a local park featured performances by professional disco dancers. The event attracted 6000 people. Both stations offered free food, albums and other prizes to guests. WCIL/FM-Carbondale, Ill., is running a contest that will award a free disco dance to one of the small towns in its area. The town with the most signatures on petitions wins. The petitions are being distributed by teens. KYA/FM recently ended a series of four disco benefits for Muscular Dystrophy. The 12-hour marathon dances raised a total of \$12,000. They were staged at area schools and public auditoriums. Gary and Gloria Poole, national disco champions, appeared, along with belly dancers and the KYA crew. KBDF-Eugene hosted a dance for participants in the NCAA Track Meet held at the University of Oregon in early June.

For Your Interest

KSDN-Aberdeen has designed a summer promotion that will help the station determine the relative popularity on its current records. To participate in "Music and Six-Packs for the Summer," listeners send in their five favorite songs on the current playlist, plus one they detest. They include their names, addresses and ages. Names are announced, listeners are given nine minutes to respond and the caller's request is played. Albums and six-packs are also awarded.

WEAQ-Eau Claire held a "Cars Under the Stars" promotion at a local drive-in and had to turn away 500 cars. Listeners were invited to watch "Let the Good Times Roll," "Let It Be" and "Mad House" for the cost of the station's frequency, 79¢.

KCRS-Midland, Tx., proclaimed June 9 "Earth Day." The station gave away an "official" piece of KCRS Earth and featured Jefferson Starship's "Earth" that evening. A local record store discounted the price of the album for those that didn't win. The cost of the promotion was dirt cheap, Dave Howard reports.

KROK's "Battle of Shreveport" drew 8000 calls in 50 hours. Most popular song was Lynyrd Skynyrd's FREEBIRD. Other favored songs were RADAR LOVE, TAKE IT TO THE LIMIT and NIGHTS ON BROADWAY.

Requests

KFMD-Dubuque will celebrate its third anniversary July 13th, and requests calls from artists and ex-jocks for on-air tributes. The station plans to rent a paddle wheel boat and take 200 listeners for a three hour cruise down the Mississippi River. After the cruise, another 350 listeners will preview "Thank God It's Friday," at a special midnight showing in Dubuque. Contact Steve Sesterhenn at 319-588-5700.

Please note the music information number for WLAV-AM/FM-Grand Rapids has been changed to 616-456-5272. The playlist is taped weekly on that number.

Inside Progressive Radio  
(by George Meier, Editor of Walrus)

One of the most famous quotations in modern rock music is Jon Landau's incantation, "I have seen the future of rock 'n roll and he is Bruce Springsteen." That Bruce has become a star makes Jon's remark remarkable enough, but Springsteen is also the direct predecessor of all the street rockers who constitute the so called new wave. He was and is, indeed, the future of rock 'n roll. His new album proves it again. He is so much better than almost everybody else.

Bruce's superiority comes, not just because he can perform or because his music is powerful (he does those things as well or better than anyone else) but it comes because what he says in a song crystallizes the thinking of a whole generation of rock kids. He is not trying to throb with them, he is them.

"The dogs on main street Howl, 'cause they understand,  
If I could take one moment into my hands  
Mister, I ain't a boy, no, I'm a man,  
And I believe in the promised land."

Still this album isn't a great one, because it tends to sublimate the raw edged saxophone of Clarence Clemmons. Some things simply shouldn't change.

This seems like a good place to mention the tenor tones of John Klemmer's saxophone. His album again demonstrates the man's ability to generate truly inspired melodies. His new album has some moments which penetrate deeply into inner essence.

Two important concept albums have been released at about the same time. One is a study in eloquence, while the other is a study in opulence. WHITE MANSIONS, which features Waylon Jennings, is an album of enormous taste. Each Glyn Johns' production decision seems to have been the right one, and the accompanying booklet punctuates the presentation perfectly. Has there ever been a film, the basis of which was a single record album?

Then there is ULYSSES-THE GREEK SUITE. It is good but not nearly as tasty. It seems that because the concept was big the producer felt that every production decision had to reflect bigness. Lavish orchestrations billow in a two record set which should have been one. One record containing just the best material would have been thirty percent better. There are noteworthy songs inside the record however.

Finally, there is the bent wit of Martin Mull.

Johnny West of WIAS-Jacksonville, N.C., a new country correspondent, participated in a benefit "Hollerin' Contest" last weekend (6/24). The annual event, held in nearby Spivey's Corner, draws an average of 11,000 people yearly, and is hosted by the State Commissioner of Agriculture. This year, the BBC covered it. Comedian Jerry Clower appeared. (Johnny said Jerry tutored him in the art of hollerin'.) Winners of the contest will be guests on the "Tonight Show" and the "Mike Douglas Show" later in the year. The event raises money for the volunteer fire department of Spivey's Corner.

WIRK/FM-West Palm Beach was chosen one of the hallmark stations participating in a national fried chicken outlet's Songwriting Contest. WIRK/FM is collecting songs written by amateurs in the Southeast. The songs will be judged by a panel of professional songwriters and music critics. Winner receives a stereo and a chance at the national competition. The best song chosen from that contest will be recorded by Barbara Mandrell. The winning song last year, "Brandy Alexander," was recorded by Mel Tillis.

Ken Martin, P.D. of WCOS-Columbia, came out the winner in two categories at the annual Carowinds Jock Regatta last weekend. Jocks from forty stations in North and South Carolina participated in the race. Ken, in a space suit, won first prize for the "most zany costume." He came in third in the race. The regatta was held at Carowinds Amusement Park in North Carolina.

KRMD-Shreveport celebrated its 51st birthday on June 20 with a free party in a local park. Entertainment included free rides, food and performances by local bands. Invitations were printed on one side of a large brown paper bag.

Albums of the Week  
(reviewed by Ron Fell)

"Double Vision"-Foreigner (Atlantic) "Double Vision" or maybe "Deja Vu". Like the first album, Lou Gramm's vocals are clearly intelligible and strong. Like the first album, side one sets a solid pace with the larger hunk of airplay sure to come from it. The inclusion of Keith Olsen as a co-producer/engineer compounds the technical excellence and with cuts like HOT BLOODED (the first single), BLUE MORNING BLUE DAY, YOU'RE ALL I AM, BACK WHERE YOU BELONG, and the title track DOUBLE VISION, Foreigner stays in focus.

"Live And Dangerous"-Thin Lizzy (Warner Bros.) The album's slick Kiss-style packaging is quickly overcome by the band's unimpeachable performances recorded live in Toronto and London. Live albums tend to burn out faster than pop singles, but when dynamic rock & roll is recorded it has to be heard. JAILBREAK, SOUTHBOUND, ROSALIE/COWGIRL'S SONG, STILL IN LOVE WITH YOU, DANCING IN THE MOONLIGHT, COWBOY'S SONG, and THE BOYS ARE BACK IN TOWN lock down a set of seventeen solid songs.

Also recommended from the following LP's:

- "Street Legal"-Bob Dylan (Columbia) CHANGING OF THE GUARDS/BABY STOP CRYING/IS YOUR LOVE IN VAIN?
- "Single"-Bill Champlin (Epic) WHAT GOOD IS LOVE/I DON'T WANT YOU ANYMORE/LOVE IS FOREVER
- "The Michael Johnson Album" (EMI America) FOOLISH/BLUER THAN BLUE/25 WORDS OR LESS/SAILING...SAIL
- "In Fashion"-The Stylistics (Mercury) THERE'LL NEVER BE ANOTHER YOU/FIRST IMPRESSIONS/I JUST CAN'T STOP LOVING YOU/SMOOTH
- "Signs Of Life"-Lost Gonzo Band (Capitol) BEACON IN THE NIGHT/RIDING/GETAWAY/SANTA CRUZ
- "Down In The Bunker"-Steve Gibbons Band (Polydor) NO SPITTING ON THE BUS/CHELITA/ANY ROAD UP
- "Keeps Rockin'-Jerry Lee Lewis (Mercury) BLUE SUEDE SHOES/PEE WEE'S PLACE/ARKANSAS SEESAW/I'LL FIND IT WHERE I CAN
- "Love Me With All Your Heart"-Johnny Rodriguez (Mercury) I NEED IT NOW/BABY, YOU'RE SOMETHING/MAKE BELIEVE IT'S YOUR FIRST TIME/IT'S HARD TO KEEP A GOOD LIE DOWN
- "Step II"-Sylvester (Fantasy) WAS IT SOMETHING THAT I SAID/YOU MAKE ME FEEL (MIGHTY REAL)
- "Stonebolt"-Stonebolt (Parachute) WAS IT YOU/ONE MAN'S HEARTACHE/DO IT RIGHT (DO IT AGAIN)
- "Jesse Barish"-Jesse Barish (RCA) COUNT ON ME/YOU/WINDS AWAY
- "Randy Meisner"-Randy Meisner (Asylum) BAD MAN/LONESOME COWGIRL/HEARTSONG
- "Ulysses, The Greek Suite"-Various Artists (20th) FREE THEM/YOUR MIND IS A DOOR/NEVER HAD A WOMAN.
- "Honky Tonk Heroes"-Conway Twitty & Loretta Lynn (MCA) I'VE ALREADY LOVED YOU IN MY MIND/YOU'RE THE REASON OUR KIDS ARE UGLY/WE'VE MADE IT LEGAL
- "White Mansions"-Various Artists (A&M) DIXIE, HOLD ON/WHITE TRASH
- "Last Kiss"-Fandango (RCA) LAST KISS/MEXICO
- "Get It Out'cha System"-Millie Jackson (Spring) HERE YOU COME AGAIN/PUT SOMETHING DOWN ON IT/GO OUT AND GET SOME (GET IT OUT'CHA SYSTEM)
- "It Don't Mean A Thing"-Eddie Drennon (Casablanca) IT DON'T MEAN A THING/DANCING ALL NIGHT
- "I'm Always On A Mountain When I Fall"-Merle Haggard (MCA) LIFE OF A RODEO COWBOY/IT'S BEEN..GREAT

Gary Taylor's Personal Picks

YOU-Rita Coolidge (A&M) Producers David Anderle and Booker T. Jones skillfully wrap this talented singer in a harmonious musical package. Jay Graydon's double cutaway guitar work flawlessly darts in and out embellishing the arrangement. The best record of the week. FOOL (IF YOU THINK IT'S OVER)-Chris Rea (United Artists) Airplay has already started. Powerful lyric's central idea is that life begins with each new day. Rea is also the writer, which adds conviction and sincerity to the song's impact.

LAWYERS, GUNS AND MONEY-Warren Zevon (Asylum) IT'S REALLY YOU-The Tarney/Spencer Band (A&M)

Comment

In view of Arbitron's unprecedented dominance these days in the area of radio audience measurement, Bill Engle should have some fascinating comments about his views concerning potential challenges from other research operations, and his appraisal of steps which Arbitron has taken to correct certain anomalies and discrepancies that have shown up in the past.

Our Saturday morning moderator, Don Benson, 94Q, recently took on the added responsibility of programming WQXI-AM. He is considered to be one of the bright, young programmers in radio today.

Our Sunday moderator, Jim Davenport, former owner-manager of WFOM-Marietta, is now probably the best known and best liked independent promotion man in the Southeast. Jim's sparkling wit assures our Sunday session a very special appeal.

Special guest Bill Lowery, one of the pioneers in developing Atlanta's great musical resources, began his professional career in small town radio, and he has many fascinating recollections of his early experiences. For many years, Bill has also been a prime mover in the National Academy of Recording Arts & Sciences, and has served faithfully in the Board of Directors of the Country Music Association.

Advance Notice - Boston - July 22-23

Our Boston Regional meeting is shaping up as a major event for radio broadcasters in the Northeast. One of our special guests will be Lee Abrams, innovative program consultant partner in Burkhardt-Abrams of Atlanta. Al Brady, PD of WHDH-Boston, will moderate our opening session on Saturday, July 26, at the Regency Hyatt Hotel in Cambridge. At our Sunday session, FM Radio gets into the act as the PD of WPRO/FM-Providence, Gary Berkowitz takes over as our discussion leader in a gathering that will include both radio and record people. (Radio only at Saturday's session, as usual, with record registrants welcome at Saturday cocktails and at the Sunday discussion session.) See information on Atlanta meeting for details of registration.

Hotel Reservations: Those who pre-register for this meeting will be mailed hotel room reservation cards, to be filled out and returned directly to the Royal Coach Inn. This will assure all out-of-town registrants of room reservations in our reserved block of rooms.

As always, we urge early registration. Mail checks to the Gavin office, giving names of all persons to be registered. Please note station group rate.

Mailbag

Our Columbus meeting on June 3rd & 4th drew thoughts from Shane Randall, P.D. of WCIR-Beckley, W.Va. He writes in part:

"Once again, I find myself writing to offer my congratulations! Your recent gathering in Columbus was one of the most exciting exchanges of information I've ever experienced. The Gavin Report, and your affiliated endeavors, lend credibility and responsibility to the radio industry few others offer. In my opinion you are unparalleled!"

Adult Contemporary Programming  
(Associate Editor, Ron Fell)

Most Active: GREASE-Frankie Valli (RSO) The release of the movie just accelerated the song's climb towards the top.

Worth Watching: FOOL-Chris Rea (U.A.) As is usually the case with a totally unknown artist, most of the early adds are from the secondaries rather than the major markets, but the volume is impressive none the less.

Note: The Gavin Report will be closed Tuesday July 4th. We ask that our correspondents file their reports with us as early as possible on Monday and Wednesday.

Gavin's Gab

Fourth of July

Station vans will be out in force July 4, remoting the nation's birthday celebrations from beaches, lakes, parks and town squares. Bob McLain reports WTMA-Charleston will broadcast live from festivities at "Charlestown Landing," a historical landmark. The mayor will present a 1978 "All American City" award to the people of Charleston. Other highlights will include a \$20,000 fireworks display and the building of the world's largest sundae using 5000 pounds of ice cream. Greenville, Ms.'s, week-long "Mainstream Festival" will conclude on the Fourth with picnics and fireworks on the Mississippi River Levy. Mark Jones of WDDT said the events will include a \$2000 treasure hunt, a twist contest with Chubby Checker, performances by the Amazing Rhythm Aces and local bands, and WDDT giveaways. The WISE Guys of Asheville will present a "Blast on the Lake" with the County Parks and Recreation Department. Ray Williams said that there will be canoe and raft races, contests in watermelon seed spitting, greased pole climbing and frizzbee throwing, and performances by bluegrass bands. WBBF-Rochester will participate in the Fourth Annual Raft Race on the Genesee River. Tom Nast said there will be fireworks and a free concert by Duke Jupiter. KJCK-Junction City, Ks., will cover the "Sundown Salute" at Milford Lake after a parade and all day picnic. The jocks of WPRO/FM Providence will ride a station float in the Bristol, R.I., parade. WNAM-Neenah will also participate in an old-fashioned Fourth of July parade and picnic.

The KEWI-Topeka "Super Sluggers" kick off the holiday events by competing in a marathon softball tournament, June 30-July 2. The event involves a total of 284 area teams and 8000 players competing nonstop for 49 hours. On the Fourth, an all day party at Lake Shaunee will include contests, a magic show, skydiving, hot air balloons, local bands and fireworks.

Every year on the Fourth, the jocks of WNCI-Columbus fill pickup trucks with prizes and drive around giving the items to people with "WNCI" signs. The people of the city are so accustomed to the trucks, Steve Edwards said, whole park-fulls of them stand up with signs made on paper plates and other materials when the trucks drive by.

KASH-Eugene and WYRE-Annapolis will stage contests through the weekend and holiday. KASH will give "America" albums, apple pies, circus and baseball tickets to those who can answer American history questions. WYRE will broadcast information about local summer events June 26-30, then test its listeners on the facts.

Other stations are running a variety of documentaries and music specials. KRKE-Albuquerque is airing the "Hall of Fame Countdown." KKOA-Minot will run the 64 hour "Evolution of Rock." WSGQ-Savannah presents the "History of Rock and Roll." WTSN-Dover will broadcast the "Sea Coast 500," the top 100 hits of each of the past five years.

Ratings

Ratings increases have made a number of stations very happy. Bill Tanner (Y100) and Joel Denver (96X) both report good increases in Miami. Y100 actually beat WQBA for the first time. Bob Goode of WROK-Rockford, Ill., reports his station pulled a 25.1 share even though the market is blanketed by Chicago radio. Mike Davis of KYTE-Portland is dancing in the streets. The station increased to an 8.8. On the air for two books, they are continuing to pursue KGW, which also enjoyed another good book. Congratulations to WXXK-Pittsburgh for winning the rock format battle and to WTAE for coming up number one in 18-34 demos.

Inside Progressive Radio  
(by George Meier, Editor of Walrus)

Established Progressive Airplay

- Bruce Springsteen
- Bob Seger
- Joe Walsh
- The Kinks
- Gerry Rafferty
- Pablo Cruise
- Tom Petty
- Jefferson Starship
- Todd Rundgren
- The Band
- FM/Soundtrack
- Wings
- Little River Band

Notes: In a class by himself, Bruce jettisons to the top of the airplay heap. His dynamism has helped to change the intensity of airplay in the entire medium. For example, he is getting 20% more emphasis play in the number one position than Bob Seger got in the first position the last time we reported. Now even Seger has improved. With the new Stones album also powering its way onto the air, as noted below, the summer looks like it is heating up. That is not a weather prediction. Other points of interest in this list include the great leap of Pablo Cruise, which would have been more noticable had they not been overshadowed by the Asbury Flash. Finally, it is remarkable that Tom Petty would not even make it into the midwestern top 40 although he is obviously doing quite well everywhere else.

New Progressive Airplay:

- Rolling Stones
- 
- Dave Mason
- Alan Parsons
- David Gilmour
- The Moody Blues

Notes: The Rolling Stones are back with their strongest album in years and when they are hot - look out. They start off with play equivalent to the second position in the established list. Look for a battle for supremacy with Springsteen next time. Beyond the Stones story, there are no surprises. The unknown name, David Gilmour, is a member of Pink Floyd, so even he has a valid passport. Still, he gets some heavy scrutiny in the conservative South and Midwest.

Singles: Four singles lead a rather unenthusiastic roster of 45's. In order they are Foreigner, Steve Martin, the Frenchman named Plastic Bertrand, and Bonnie Tyler.

Imports: Again nothing is getting excited response, but in order the import list includes Steve Hillage, Pirates, Tangerine Dream, Camel, and Elvis Costello.

The following list shows the hottest new tracks being added on progressive radio stations:

Bruce Springsteen-BADLANDS/PROVE IT ALL NIGHT/ PROMISED LAND/DARKNESS ON THE EDGE OF TOWN/ RACING IN THE STREETS/CANDY'S ROOM/ADAM RAISED A CAIN	Derringer-LAWYERS, GUNS & MONEY/IT AIN'T FUNNY Rita Coolidge-YOU/SLOW DANCER/BYE BYE LOVE/ SONGBIRD Little River Band-REMINISCING/SHUT DOWN, TURN OFF/ LIGHT OF DAY/RED HEADED WILD FLOWER/SO MANY PATHS
Tom Robinson Band-2-4-6-8 MOTORWAY/UP AGAINST THE WALL /POWER IN THE DARKNESS	Michael Stanley-BABY, IF YOU WANNA DANCE
AC/DC-R&R DAMNATION/RIFF RAFF/SIN CITY	John Klemmer-PARADISE/ARABESQUE

Country Club

Don Rhea, morning man and music director of KCKN-Kansas City for many years, has moved to KFIX/AM-Kansas City to perform the same duties. Joe Abernathy, president and general manager of KFIX/AM-FM reports this week the AM will change to a country format from Adult Contemporary, July 17. The lineup at KFIX/AM will look like this: Don Rhea (6-10 AM); John Duncan (10-2 PM); Ed Brown (2-6 PM); and Tim Wallace (weekends). Mike Shanin, recently appointed Station Manager, will do news with Dave Morton.

WDAF-Kansas City had the opportunity to participate in three concerts in one night. Crystal Gayle, doing two performances at "World's of Fun," attracted 6000 people to each of her shows. WDAF broadcast the second show live. The WDAF jocks were also at Johnny Paycheck's concert at the Ozark Inn in Excelsior Springs. They emcee'd a performance by local artists at the Country Hayride Opry. All the shows were sold out.

KRAM-Las Vegas will broadcast solid gold for four days through July 4. The station expanded its gold library for the occasion. Johnny Steele said the "Nevada Gold Weekend" will culminate on July 4 with a special two hour "Twenty Five Years of Gold" documentary. The show combines the top songs of each year from 1950 -1975, with music facts and news highlights from each year.

Larry James of WBT-Charlotte reports he came in third in the truck driving competition of the 37th annual "North Carolina State Truck Rodeo." This was his first experience behind the wheel of a big rig. Competitors had to maneuver the 59 foot rigs through an obstacle course that included backing up and turning between markers. Larry said it costs \$6000 to repair stripped gears on such trucks. He voted himself "least likely to become a trucker."

KEED-Eugene jocks will drive the station's new van in the Springfield Parade on July 4. Bob Wise will act as judge in a second holiday parade, the Empire Roundup Rodeo Parade.

WHN-New York will broadcast live from the Garden State Art Center in Holmdel, N.J., when Kenny Rogers and Dottie West perform on July 5. Master of Ceremonies will be Lee Arnold.

Diane Brennan of WBAM-Montgomery sends along a note "Concerning 'Passive Research,' a method I'm very much against...I read some lines in the latest 'Reader's Digest' that said...'the most researched car in history was the ill-fated Edsel.' This is a point to ponder."

#### Notes on the Texas Regional Radio Meeting - June 24-25

Opening session, Saturday forenoon - Bill Young, moderator. Commercial spot loads - influence on programming...One station's research showed higher listener shares Wednesday thru Friday, lower Monday and Tuesday. Found that lighter spot loads on Monday & Tuesday raised rotation frequency of playlist - caused faster listener tuneout...Some stations sell spots on a seven day schedule. One manager said he holds commercial maximums to 8 minutes per hour until all availabilities are sold - then raises maximum to 9 - and then ten minutes per hour...Wendell Mays, Jr., recommends setting rate cards high enough so that sales department can't quite sell all the avails...Jim Taber reports that in El Paso low TV rates tend to hold down radio rate cards - KINT morning drive rates higher than TV. Others commented on problems of selling against competitors who cut their own rate cards - down to "a dollar a holler" - cheapens their stations - reduces their sales effectiveness.

Will AM stereo be a factor? Technically it can reduce a station's effective area coverage...If AM stereo catches on, the improved quality of new radio receivers would benefit sound of all AM radio. Current trends show automation providing good cost efficiency. Station can show consistent profits with three tape machines and sharp music programming.

Arbitron changed radio drastically...Some automated services today are directed toward influencing the rating service results rather than toward an entire audience. In the past, single stations have set new directions for other programmers - stations like KFWB, KLIF, WLS, KHJ, etc. But now Arbitron can make rating leaders out of stations that are programming to the computers, rather than to the people. Does a zip code service boost ratings through opportunities for off-the-air promotion, unrelated to program content? Would Federal Trade Commission rule adversely on direct attempts to influence diary holders?

Telephone research...balanced sample base critical to success of research. Scott Christenson at KTSA reports hundreds of man hours spent in developing its sample base. Not random calls, but a pre-selected group used repeatedly... "If you don't do it right, don't do it" seems to be the best rule.

Saturday afternoon, Jack McCoy took us inside his newly developed audience research system... Major industries have been using sophisticated marketing research for many years - developing profiles of consumer markets for various products...Radio is far behind in its ability to reflect the specific profiles of its listeners in terms of hobbies, jobs, families, economic status, etc. Radio has traditionally been unable to furnish the target profiles that advertisers expect - and get - from other media.

Jack's R.A.M. Research is now operational in 65 markets, with a total diary input larger than any other research system. He uses a one day diary, as opposed to one week, basing the daily diary on the assumption that it is more likely to be accurate and complete than one that is kept for a week. Questionnaires accompanying diaries offer computer input to provide demographic, psychographic (and econographic?) profiles of a station's audience at any time of day. Information collated for various types of advertisers - updated periodically. Each subscriber station can take daily readouts of audience fluctuations, as they come off the computer terminals.

Jack spent over two hours answering a vast range of questions about his rating service. While he wasn't trying to sell it to anybody, he quite naturally showed his belief that it is the best available. He made clear, too, that in response to an FCC ruling, his company's services in the music consultant field will no longer be offered on an exclusive basis in any market.

The Sunday session, moderated by Clay Gish, explored the development and impact of album programming...use of listener response (active listeners) to identify top album cuts. Importance of building station's image for album programming. 18-24 males are most fickle group in switching to new album station. Some FM's - like KRBE - have shown fine rating gains in the 12+ area by working top LP cuts into a pop hit format.

The matter of record advertising on radio was explored. Question: "Would you program a produced 55 second selection from a single, as a commercial spot with a tag, if it was a record that you would not otherwise play on your air?" Consensus answer: "Yes, unless it was flagrantly opposed to station policy". Record companies making wider use of radio to break singles and albums.

#### Special Appreciation

In our 1976 meeting in Austin, we presented a plaque to Texas Radio Broadcasters in recognition of their achievement in having produced more outstanding broadcasters, personalities and executives, than any other state. In Houston, Bill Young made a presentation to Bill Gavin, calling him "the best friend radio ever had". The award was a section of a corner post from the famous King Ranch, topped by a replica of a Texas Longhorn, with a brass plate in the shape of Texas, inscribed:

Presented To  
 BILL GAVIN

With Love and Affection  
 Texas Radio Broadcasters

Note from Bill: Sincere thanks to Bill Young and all his radio colleagues in Texas for this great honor and warm personal tribute. It will always be kept among my most treasured possessions.
