TELLER NEW MCA PRESIDENT

It was announced this week that Al Teller has been named President and Chief Operating Officer of MCA Records, and Vice President of MCA Inc. Teller will be

overseeing worldwide MCA Records operations. In accepting the appointment Teller said, "I'm truly excited by this new opportunity and look forward to working with Irving (Azoff) and the entire MCA Records family."

Teller was most recently President of CBS Records where he enjoyed seeing that company achieve the highest revenue and profits in its history. He was instrumental in the recording careers of Barbra Streisand, Earth, Wind and Fire, Billy Joel and other household names.

A twenty year industry veteran, Teller has worked at Playboy Enterprises and United Artists Records (where he signed such artists as ELO, Kenny Rogers and The Grateful Dead). His appointment at MCA is effective immediately.

In a related move, Myron Roth was appointed Senior Vice President of the MCA Music Entertainment Group.

**TAKE ME OUT TO
THE BALLGAME**

On August 12 The Gavin Report and Arista Records threw a baseball party for 150 music industry friends at the Oakland Coliseum Stadium. A pre-game Bar-be-que was hosted by Atlantic Records and revelers were treated to a set by Atlantic's Beatnik Beach. Friends came in from as far away as New York Yankee-land. Eddie Money sang the national anthem and the A's put on a great show, shutting out the California Angels 4-0! Party pictures on pages 26&27.

RE-ISSUES OF BLUE NOTE & CTI

A&M MAKES OLD NEW

On October 4, A&M will release ten CDs on its' newly activated Heritage label.

Hitting stations first will be a sampler entitled Jazz Heritage, closely followed by vintage gems by such jazz virtuosos as Quincy Jones (Walking in Space), Dave Brubeck (25th Anniversary Reunion), and Ornette Coleman (Dancin' In Your Head). "We'll initially service the sampler," said A&M VP/Promotion Al Cafaro, "Then after people get to appreciate that we'll service the full line of titles."

SATELLITE PRESS CONFERENCE BON JOVI DEBUTS NEW ALBUM

Members of Superstar Mercury/PolyGram Band Bon Jovi premiered their new album *New Jersey* at a nationwide press conference on Thursday, August 18. The event was beamed live via satellite from the Roseland Ballroom in New York to eleven cities across the United States. After playing the album, the band fielded questions from members of the press representing countries all over the world.

As with their last album, *Slippery When Wet* (which has sold 13 million to date), Bon Jovi invited fans into the studio to hear the finished product before its' release. This time they even played it at a "kids' camp." "A couple of songs that I wouldn't have put on the album...they picked...", said Jon Bon Jovi. Turns out that their fans have good ears. *Born to Be My Baby* and *Bad Medicine* (the first single) kept coming back as favorites.

New Jersey, which was produced by Bruce Fairbairn, will be in the stores on September 19. A Bon Jovi world tour begins on Halloween Night in Dublin, Ireland. After roaring across Europe through December 19, the band will play the new Tokyo Dome. First U.S. Date will be at Hawaii's Aloha Stadium in early 1989.

Bon Jovi vows to carry the spirit of New Jersey (the state) with them. Says John: "The attitude's from the heart. It's a New Jersey Vibe. That's where we came from, that's where we're probably going to die...we want to share it with the world."

As of this writing, there are no new signings to Heritage, but Cafaro indicated that there will be in the near future. Heritage product will be promoted through the existing A&M promotion staff.

MUSIC INDUSTRY GLASNOST

Songwriter/Singer Jimmy Webb hosted a press conference on Tuesday, August 23 to disclose details of the first US/USSR Songwriter's Summit.

It was announced that twenty writers, including Gregory Abbott, Michael Bolton and Webb will go to Helsinki, Estonia and the Soviet Union this fall to spend three weeks collaborating with 20 Russian, Polish, Czech and Hungarian songwriters. Future plans include an album, a live televised concert and videos. American artists participating in the program have pledged 25% of their profits to American Field Service Cultural Exchange, a host family-exchange student organization that services more than 70 countries. Soviet agencies involved have pledged 25% of their proceeds to AFS Exchanges within Soviet Bloc nations.

JESSICA DOES RADIO

On Monday, August 29, Jessica Hahn moves from the Playboy Mansion in Hollywood to Y95 in Phoenix. Miss Hahn, who says, "I have long been interested in pursuing a career in radio," will join Glenn Beck, Tim Hattrick, Pat Powers and Commander Bill Anderson on the Y-Morning Zoo. She appeared on the show earlier this month, gathering favorable response from both audience and staff, leading to a permanent position as part of the team.

Prior to this, Miss Hahn was a Playboy model and a church secretary.

FISHER TO WKTI

Todd Fisher has resigned his post as Assistant PD at KZZP-Phoenix to step into the PD chair at WKTI in Milwaukee. Fisher assumes the PD post vacated by Tim Fox.

Prior to KZZP, he was PD at KFIV-Modesto.

INSIDE TOP 40 by Dave Sholin

Well the bad news is that Top 40 radio for the most part, is unadventurous and boring. The good news...that's the opinion of Los Angeles Times music critic Robert Hilburn. His recent diatribe against Top 40 music programming entitled, "How To Put Rock Back Into Top 40" was reprinted in the San Francisco Chronicle last week. The lead sentence asks, "Has Top 40 radio ever been worse?" Hilburn answers with a definitive no, pointing to safe passive music as turning off "serious pop-rock fans." He goes on to list ten songs he feels should be exposed on Top 40 radio, including GUNS 'N ROSES (which someone should tell him is firmly entrenched in the top ten right now). While Mr. Hilburn is entitled to his musical tastes, he really misses the boat when he argues that Top 40 features "an increasing number of records and artists with virtually no individual personality or even a pretense of an original point of view." No other format can claim as many varied styles and balance as Top 40. Why is it that Hilburn, and many of his colleagues around the nation, detests anything that smacks of commerciality? Reading articles like this makes you wonder how a responsible journalist can be so out of touch. The comment to top 'em all was the following line: "The punk revolution of the late '70's was, in part, a reaction to the tendency of pop/rock programmers to shy away from challenging or provocative music in favor of bland, conservative sounds aimed at attracting the widest possible listenership." THE WIDEST POSSIBLE LISTENERSHIP! Just why does this supposedly knowledgeable observer of the music scene figure Top 40 attracts all of those listeners? Could it be because it's giving people what they want? And it's because Top 40 delivers such a huge and diverse audience that virtually every rock artist wants that elusive hit single. But it's important we all remain vigilant, for when critics like Robert Hilburn begin praising Top 40 and the music it plays, it's likely there's trouble's ahead.

Logging a 9% HIT FACTOR a lineup of healthy stats puts EUROPE on the Top 40 once again. Eric Hoffman, Music Director at FM104 Modesto moves it 26-18 and reports that it researches well with teens and males up to 35. Other gains at Y95 Dallas 22-19, KGWY Gillette 23-15, KIXY San Angelo 37-29, K104 Erie 20-17, Z104 Madison 23-20, WLLI Joliet 17-12, KKRC Sioux Falls 23-19, 95XXX Burlington 26-21,

WROQ Charlotte 25-18, etc.

Following two weeks in the MOST ADDED category, GLENN FREY is capturing instant acceptance with loads of hot top thirty debuts including KIMN/FM #25, KC101 #30, B94 #29, WKOR #28, WYAV #23, KZEV #25, KRQK #25, KVXO #25, KHSS #27, KUBE #28, WWFX #25, WQGN #28, WKPE #27, KPHR #30, WLZ #30, WLBC #25, Z95 #30, KIXR #26, KPXI #29, and KXFM #26.

Not a week goes by when ESCAPE CLUB gets any less than 40 adds, and this week is no exception. Danny Wayne at 106RTB Vincennes, IN. says it's generating terrific 25-34 female response with top five requests. Danny says they don't know the group yet but ask for "the wild, wild west song."

Cinderella

Several early debuts point to big things in the next few weeks for CINDERELLA. Buzz Bennett debuts it #28 at Y95 Dallas along with FM104 #26, WLLI #27, Q104 #22, KBAU #24, WROQ #25, WWUF #27, and WNVZ Norfolk #30 where Asst. PD M.J. Kelli says "it's a nighttime monster, with a fierce battle going on between it and DEF LEPPARD for most requested honors." Added at KCIL, WSPK, WYAV, WAGQ, Y97, KOZE, POWER 014, 93Q, 99KG, Y94, KKXL, KZO103, etc.

At ISLE 95 Virgin Islands Bob O'Neil charts AL B. SURE! 12-7 and reports a tight race between it and D.J. JAZZY JEFF for the number one request title. Kevin Carter at KMGX Fresno takes it 4-3 mentioning "it's testing well with both white and Hispanic listeners." New believers include KUBE, KIIS, Y018, KEYJ, WMJQ, WPST, PRO/FM and 95XXX.

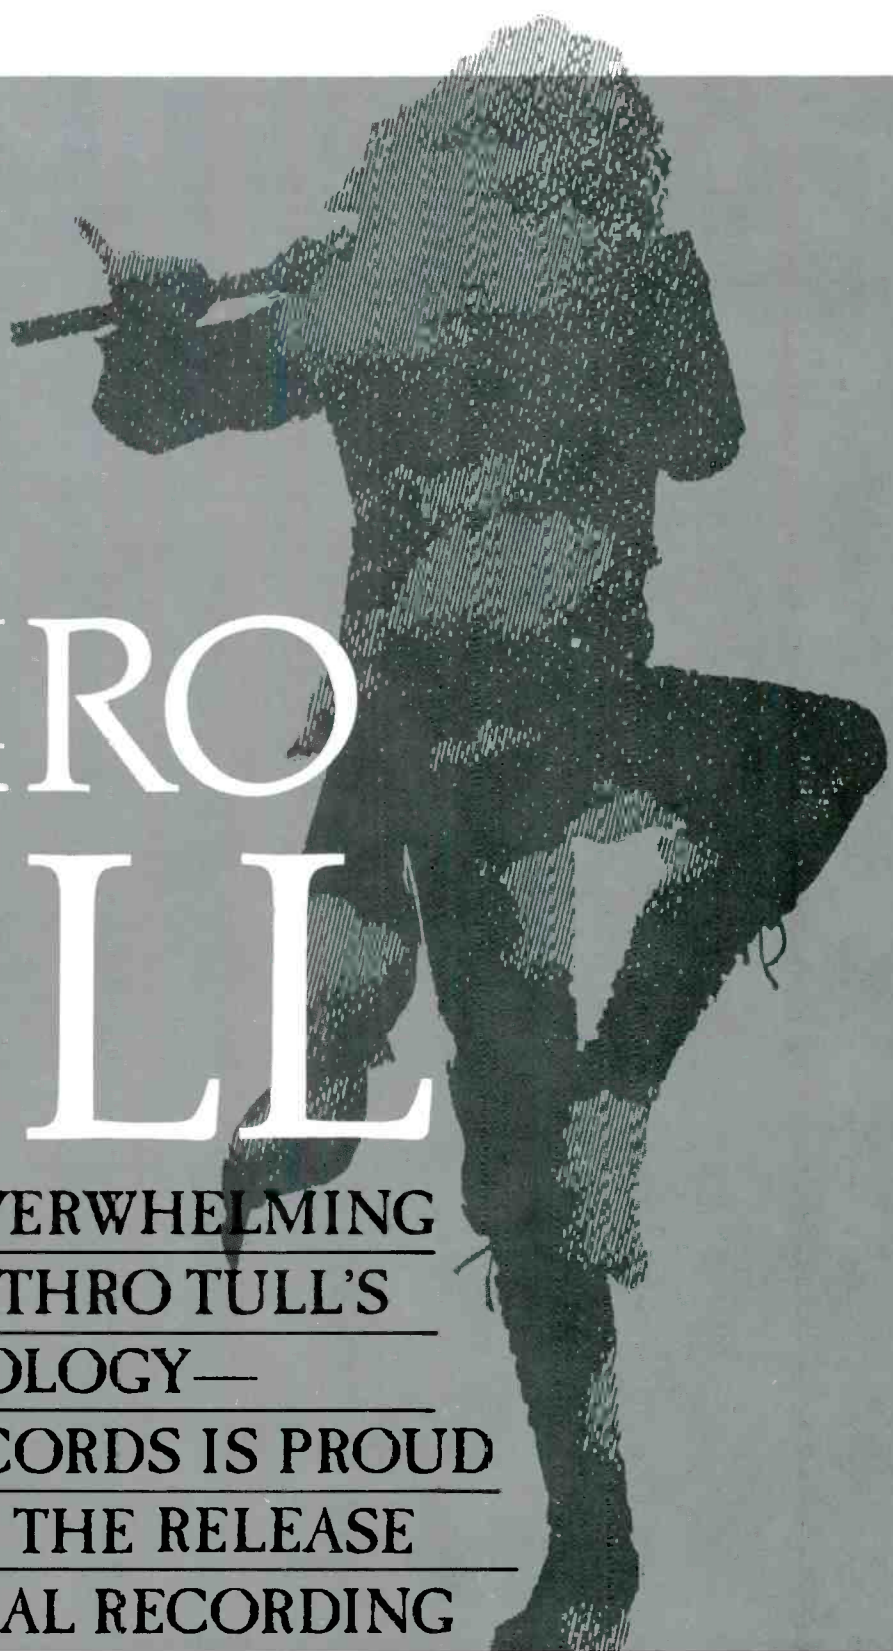

Top twenty numbers for BLUE ZONE U.K. at KREO 22-18, KSND 20-18, KSJQ 18-14 and KKQV 14-13. Gary Cummings at KZFN Moscow gives it a big 30-22 move, putting it number eight in overall requests. Excellent adult calls also reported by Z104 and KVFM. Adds include KPLZ, KWSS, K106, KLYV, PR/FM, WMME, HOT 105, WLVI, WILI, WAZI, etc.

Rick Gillette and Mark Jackson move BOBBY BROWN into the top five at WHYT Detroit. More Top Five action at POWER 104, KITY and KMEL. Number one at B95, FM102, and KMGX. John Raymond at KIXY San Angelo calls it a "hit waiting to happen" and notes strong female response. Number one requests at KKFR Phoenix with 31 adds including KUBE, KOY, KKXX, KWSS, Q106, Z93, WNYZ, WRCK, WPXR, KBEQ, KBQ, Y108, KS104, WHKW, and Y100.

Rockers BRITNY FOX are stirring things up in several spots. Shay St. Claire at WMMY Melbourne FL. says after one play as a challenger on the nightly battle it received "more call than anything we've played since 'Dear Mr. Jesus' with 64 calls, double the amount a song usually receives." John Travis at OK95 Tri Cities WA. confirms by saying it's his third most requested record and "believe it or not, upper demo females asking for it too." New on KOZE, KKXL, WVKZ, Q96/76, KKRC, KWTX, POWER 104 and WKSP.

Triple the total reports for BOY MEETS GIRL which charts for KATD, WLLI, KOZE and WVAQ. Added at WXKS, WYYS, WWUF, Q014, KYYY, Z100 Portland, KKOS, Y95, KKYS, KWKR, KJLS, WKTI, WDEK, KWXX, KITI, KQHU, WOVO, KGRS, WQGN, WLKI, etc.

INSIDE URBAN

Lots of movement in this week's top numbers beginning with MICHAEL moving into the top position, replacing (brother?) Freddie. JAMES BROWN goes top five, as does JEFFREY OSBORNE, who takes a ten-point jump to get there. Other big ten-point or better jumps go to D.J. JAZZY JEFF & FRESH PRINCE, KARYN WHITE, SADE, JOHNNY KEMP, GEORGE BENSON, BOBBY BROWN, and HOWARD HUNTSBERRY. When you clean house we clean house, too, causing major moves. Gavin charts are notorious for staying ahead of the game. KIARA goes to #32, with praise coming from Patrice Cary, KNON-Dallas, who says, "It has a nice jazzy flavor to it that our listeners like." Look for our Top Tip, READY FOR THE WORLD, to make further inroads next week. The adds will flow right in with the requests. Frank Barrow, KRIZ-Seattle, says he's getting top requests for both MIDNIGHT STAR and READY FOR THE WORLD. P.C. Wiley, WGSW-Greenwood, puts in his comments about RFTW: "We've been waiting long enough for this group to return - and they did, rough and ready with a smash worth waiting for."

MIDNIGHT STAR got plenty of lip service,

too: Robert L. Scott, KKKFX-Seattle, says "This 'Don't Rock The Boat' is misnamed - the boat will be rockin' and rollin' all night." Jimmy Smith, KKDA-Dallas, had to get into the boat act too: "Don't rock your ratings - get on these two great records right away", referring to both the MIDNIGHT STAR and RFTW. Rocky Valentine, WHYZ-Greenville, has been waiting for MIDNIGHT STAR, says "Glad to see them back on the scene with something that's already getting major requests." Hozie Mack, WFXC-Durham, called this the long waited-for release, and he's happy with the "blend of funk, rap, lyric lines with a moralistic approach, totally satisfying." Andrew Bailey, WYNN-Florence, gets calls for BETTY WRIGHT's follow-up to "No Pain, No Gain" called "After The Pain" He describes it as "a great finish to the story." Tim Outland, WZND-Normal, likes GOOD QUESTION. He calls it a "very upbeat dance tune that will climb here quickly." Kimberley Kaye, WFKX-Jackson, agrees with our Record To Watch: "If you like to dance, buy it." Speaking of dancing, Steve Crumbley says: "At WOWI-Norfolk, we're getting calls for PAULA ABDUL's new single, and I love her." Steve reports for

WPZZ-Indianapolis, too, and he mentioned that the TYRONE DAVIS is doing well there, saying, "This is an instant 29-45 demo-grabber. Don't be afraid to play good ol' soul." Speaking of good soul, the great baritone, ISAAC HAYES, is back with something Alton Palmore, WQIC/FM-Meridian, spoke about: "What can you say about him? This is smooth!" Roscoe Miller, WXVI-Montgomery, describes ISAAC HAYES' "Showdown" as true Isaac:

BOOTS is back, too, (what is this, old home week?) and Randy Sterling, KGBC-Galveston, is looking at the funkster to get great requests there... Kevin Brown, K94-Norfolk, raves about the CHAPTER 8: "What a great sounding ballad - appropriate for all day parts." Can't get a better recommendation than that, can you?

Ciao for now, Betty

NEW RELEASES by Betty Hollars and John Martinucci

DENIECE WILLIAMS - I Can't Wait (Columbia)

Nice surprise! George Duke and Neicy collaborate and turn out an uptempo cooker!

TERENCE TRENT D'ARBY - Dance Little Sister (Columbia)

Before you drop the needle on this one, get out of your chair and get ready to dance (with your grandmother?) When TTD lets loose, as he does with this song live, it's destined for stardom. The sax kicks in and out with an abandonment in a way that only compliments the vocals.

PAULA ABDUL - (It's Just) The Way That You Love Me (Virgin)

Here's one of the finer follow-ups to her dance crossover hit, "Knocked Out." It's not surprising to see a talent such as Paula follow up her choreographic success with such a techno-dance hit sound.

WHITNEY HOUSTON - One Moment In Time (Arista)

Her first new recording in over a year, from the 1988 Summer Olympics Album (no, you didn't miss them - they start in September in Seoul, South Korea). Whitney lends drama and intensity to everything she touches, and the production skills of Narada Michael Walden solidifies its hit status.

PATTI AUSTIN - Smoke Gets In Your Eyes (Qwest/Warner Bros.)

From Patti's "The Real Me" album, a splendid version of The Platters' hit 1959 hit. This song will work well on any playlist, especially the Quiet Storm.

GWEN GUTHRIE - Rockin' Chair (Warner Bros.)

Everybody Limbo (in your Rockin' Chair?!). Gwen collaborates with Sly Dunbar for this hot hot hot Calypso cut that's bound to set the airwaves on fire!

REVIEWS

WHITNEY HOUSTON

One Moment In Time (Arista)

One of the most spectacular pieces of music in this or any year. The power and grace of both the song and Whitney's performance set this production apart from the common hit records.

AL STEWART

King Of Portugal (Enigma)

A man who's pop singles career is still defined by two records - "Year Of The Cat" and "Time Passages", Al Stewart sang himself into an intellectual corner during the past decade. But "King Of Portugal" is a coming out. As with his previous hits, "King Of Portugal" has a simple melody, thus permitting poetic license.

DENIECE WILLIAMS

I Can't Wait (Columbia)

With a rhythm track reminiscent of Miami Sound Machine's "Bad Boy," Neicy and producer George Duke have made an instantly infectious pop standard.

STEVE MILLER

Ya Ya (Capitol)

The old Lee Dorsey hit from 1961 gets a lite jazz treatment from the former space cowboy and producer Ben Sidran. Gavin A/C's and Adult Alternatives should lead the way on this one.

INSIDE A/C

In just seven weeks since its release, PETER CETERA's "One Good Woman" has reached number one. Only BRUCE HORNSBY's "Valley Road" and WHITNEY's "Where Do Broken Hearts Go" have made it to the top in less time this year.

PETER's 12 to 7 to 1 chart moves over the past two weeks overshadows the spectacular two-week (10 to 4 to 2) move by HUEY LEWIS & THE NEWS. HUEY trails in total stations by 13 and yet only by three stations in HEAVY rotation reports.

Once again a MOST ADDED, BOBBY McFERRIN's "Don't Worry, Be Happy" goes top twenty and nearly 83% of the stations playing it more than one week are HIT FACTORing it. New this week for WMYX, KAAK, WWDE, WTIC, WROK, KWAV, 3WM and KYJC etc.

LIVINGSTON TAYLOR has moved 32 to 21 on the chart over the past two weeks and his HIT FACTOR has climbed from 47% to 70% in that time. Trivia note: Liv and brother James have 345 A/C reports. When was the last time two brothers had two records in the Top 30 of a national chart?

GLENN FREY has 168 A/C stations in three weeks, one half are already rotating it with solid frequency. New this week at WEZC, K103, WIOU, KXLK, KBOL, WKLI, WMVQ, KWLO etc. and already in HEAVY rotation at KBOI, WEBE, KEZR, WQHQ/FM, WKIO/FM etc. FREY also wins this week's PLUS FACTOR with a 30% increase in HIT FACTOR.

GLENN's label-mate OLIVIA NEWTON-JOHN leaps from 34 to 26 on the chart and scores 25 more adds from the likes of KLSS, WKMI, WJML, KMWX, WGAD and KXLK.

STEVE WINWOOD's "Don't You Know What The Night Can Do?" is this week's second MOST ADDED and debuts in the top thirty as 70% of his two-week players are HIT FACTORing.

SADE debuts high on the chart at 32 after taking on 72 A/C's in the past two weeks of research. Adds this week at 94Q, KWAV/FM, WMTR, KWEB, KQIP, KKOR, etc.

MICHAEL BOLTON's "Walk Away" may prove to be his biggest A/C hit from the album. It's already HIT FACTORed by 50% of his A/C players including KOST, WWMJ, WJON, WMYX, KYJC, WSKI, WTUN, WTWR, KLDI, WBLU and KLZS.

The Four Tops may have their biggest A/C hit of the decade with "Indestructible." Eighty-one A/C's are playing it already and 37% of them are in MEDIUM rotation.

Last week's RECORD TO WATCH, "Whiter Shade Of Pale" by DAVID LANZ should chart at thirtysomething next week. Adds this week include KYJC, WSKY, KLSS, KGY, KLOO, WTUN and KBLQ while quality rotations are coming from KLZS, KFYR, KBMG and WLKX/FM.

This week's RECORD TO WATCH, "Dream Out Loud" by SCARLETT & BLACK has 48 A/C's already, including WMT/FM, WEBE/FM, WAEB, WAHR, KTYL, WSKI, WJON, WAFL, KLDI and WHAI.

NOTE: Here comes another Monday holiday, September 5th. For those of you who'll have your playlist ready on Friday, September 2nd, we'll be here from 8 AM to 2 PM. We will also take A/C reports all day Tuesday 8 AM to 5 PM. Be prepared for busy signals on our phone lines that Tuesday. Remember, FAX 415-788-3517.

HIT FACTOR

He's the first artist to sell more than 6,000,000 copies of three consecutive albums - *Off The Wall*, *Thriller* and *Bad*.

•**BRUCE HORNSBY & THE RANGE**

The video for *LOOK OUT ANY WINDOW* was filmed live at this summer's Milwaukee Fest.

•**RECKLESS SLEEPERS**

Leader Jules Shear named his new band after a painting by George Magritte.

•**ANNE MURRAY**

Her hometown of Spring Hill, Nova Scotia is home of the new Anne Murray Centre, a building of nearly 4,000 square feet which displays memorabilia from her nearly 20 year career as an entertainer. She nixed the idea of calling it a museum, fearing she'd soon "end up stuffed in the lobby."

•**DIRTY DANCING**

The two soundtrack albums for the film have now been certified by the RIAA for combined sales in excess of 11,000,000 copies.

•**CHICAGO**

Six years ago this week the band went to number one in *The Gavin Report* with *HARD TO SAY I'M SORRY*.

•**EVERLY BROTHERS**

One of the tracks on their forthcoming LP will feature additional harmonies from The Beach Boys.

•**BRIAN WILSON**

He currently weighs about 180 pounds, which is considerably less than his couch potato high of 310 pounds a few years back.

•**THE ROBERT CRAY BAND**

Robert formed the band fourteen years ago to back blues legend Albert Collins for a series of dates in the Northwest.

•**AMNESTY INTERNATIONAL**

The folks at Reebok have underwritten the pending international tour to the tune of \$12 million. Reebok has asked, not insisted, that headliners wear Reebok shoes while performing. Mr. Springsteen, Mr. Gabriel and Sting have not yet said what they'll wear.

•**LITTLE RIVER BAND**

When the band was first put together in 1974 they were known as Mississippi.

•**JOHN ANDERSON**

In his former career as a roofer, John was part of the crew which constructed the roof for the current Grand Ole Opry building.

•**BOB MARLEY**

Island Records Chairman Chris Blackwell has paid \$7.2 million to the estate of the late Bob Marley to secure rights to the singer's publishing, and the title to The Bob Marley Museum and recording studio in Kingston, Jamaica.

After seventeen years in the band, drummer Alan Gratzer has retired from the group. His replacement is Graham Lear, who for the past twelve years has drummed with Santana.

P.D. NOTEBOOK

PINPOINTING THE PROBLEM

At the end of July I drove from Portland, Oregon to Newport Beach, California to attend the second "Adult Radio Conference." En route I heard much radio, some of it very good and some of it pretty mediocre. I was particularly interested to get a cross-section of what A/C stations are doing, since the latest figures indicate that close to 1/4 of all radio stations call themselves Adult Contemporary, and, as usual, there was a great diversity of approaches to the format.

I did hear some A/C stations that are probably in more trouble than they think. A/C is hard enough for us in the business to define; for the listener it's even harder. The industry ▶

has a tendency to define music by what it doesn't play, and it's practically impossible to define a station that way to the listener. Consequently we see the labels such as "lite," which are intended to convey the impression of what the station doesn't play, but say it in a positive way.

The impulse to tune in the station is usually based on the expectation of hearing more of the programming heard in previous times. If the station has a musically inconsistent image to the listener there is less likelihood of future tune-ins (and less positive reinforcement to keep a listener listening longer when he or she is tuned in). There may also be a problem with the previous image of the station conflicting with the image you are now trying to establish!

Reflecting on all this led me to devise a questionnaire to help programmers and managers determine on whether their station has this sort of problem. This quiz would work with any format, but should be particularly useful in "grading" an A/C station. Here are the questions. If you want to evaluate your own station, fill out your answers on a separate piece of paper. Be honest--this is for your own information, or for devising a management plan.

(1) What do people expect of your station, based on its tradition in the marketplace?

(2) What are you actually providing the listener, and how are you positioning it?

(3) If someone turns on the radio, why should they switch it on to your station?

(4) If someone is listening to your competition, why should they tune over to your station? (Think in the listeners' terms!)

(5) What stations penetrating your market lead in the major programming niches:

___ Top 40/CHR

___ AOR

___ A/C

___ News/Talk

___ Country

___ Urban

___ Oldies

___ Classic Rock

___ (Other)

(6) If your station is AM, how are you taking advantage of FM's weaknesses? How are you responding to audience expectations of AM music stations? (Note: The audience doesn't expect AM to be a "talk" medium unless it's taught to.)

"Grading" this little test should be pretty obvious. The idea is to establish weaknesses and strengths, both in your station and in the competition.

However, if you like, you can send your tests to me and I'll go over them. Results will be kept confidential.

I hope you'll feel free to give me feedback, both on the quiz and what you may have gotten from it! Are there any questions you think should be included or deleted? Let me know if you're willing to have me print your reactions here in the column.

Next week, some of the useful information from the Adult Radio Conference itself.

know how much we hate all sports other than hoops. We've done columns about how much we detest football, revile baseball, can't stomach boxing, sleep through golf, avoid bowling and drive away from car racing. All of this leads to the point of this venom spewing. On August 10, 1988 the L.A. Times featured front page coverage of the sport that is the biggest joke of them all.

Wayne Gretsky, known to hockey aficionados as "The Great One," was traded from one mayhem outfit (The Edmonton Oilers) to another (The Los Angeles Kings). Canada wisely unloaded the hotshot mugger and dumped him right here in Hollywood.

Sports sections of L.A. papers have traditionally placed their hockey stories somewhere below lacrosse and greco-roman wrestling. But now they're making a big deal over this Gretsky clown coming to town. They

ON MANAGEMENT

by Oren Harari

DUMB ORGANIZATIONS

"Organizations are stupid. People who work in them are smart."

Does that comment make any sense to you? Read it again, because I think it is an accurate observation of many business firms today. Have you ever asked yourself why the firm you work for (assuming you're not part of the senior management team) does so many things that seem to make no sense and are clearly, well, stupid? And if you are part of the senior management team (or any team, for that matter), have you ever asked why it takes so long to get your ideas or directives accomplished, if at all? In fact, have you ever asked why it takes so long to get anything done?

There are no villains in this story. The answer to these questions is simple: Despite the brainpower of people, organizations themselves are not very bright. They are slow. They are ponderous. They take ages to make changes. They don't "get" the value of good ideas quickly. These statements refer to 10 million dollar outfits as well as 10 billion dollar ones, though I suppose a case could be made that there's a direct correlation with size and stupidity.

What makes organizations dumb? Well, think about the firm that's encumbered with layers of bureaucracy, masses of regulations, rules steadily piled up one on top of another over the years (many of which are long out of date) and organizational cultures that reward backstabbing politics and no-action "cover your ass" decision-making.

How can such a firm be nimble and alert, even with smart people in it? How can such a firm not confuse people? It can't. Sure, it may even declare a "profit" annually, but think about the cost-inefficiencies and lost opportunities as the firm lurches along drunkenly in the marketplace. Some firms simply fail, as well they should. Others are failing and don't even know it. Observed a colleague of mine, referring to some big, inefficient firms that are a presence in the marketplace only because they accumulated huge assets in the past:

"I understand that some of the dinosaurs had such slow brains and nervous systems that even after they died their bodies would twitch for weeks because the bodies didn't know they were dead. I think it's the same with a lot of big firms that still think they're successful."

After business maverick Ross Perot became part of the General Motors Board of Directors, he frequently complained about the giant firm's ineptness and slowness in the face of today's explosive "future shock" age. One time he noted with exasperation that:

"At EDS (Perot's prior business) if any of us would see a snake, we'd kill it. At GM, a committee would be set up to study snakes. Consultants would be called in and maybe a year later you'd get some sort of decision about what to do about the snake."

Not long ago I saw a poster above a clerk's desk, which I think offers another example of how organizations can create "stupid" cultures for otherwise bright people. The poster read:

6 PHASES OF A PROJECT

1. Enthusiasm
2. Disillusionment
3. Panic
4. Search for the Guilty
5. Punishment of the Innocent
6. Praise and Honors for the Non-Participants

Speaking of stupid cultures, I think a recent cartoon also expressed it well. A manager is addressing his subordinate: "You do have a good idea, Smith, but around here we don't use ideas just because they happen to be good ones."

So, let's go back to the original point. Most people are pretty smart. Most people have some sense of creativity. Most people would rather do a good job than a crummy one. But imagine that these people are trapped within a slow, overweight, ponderous entity we'll call an "organization," which stumbles along a path we'll call the "marketplace." How can we get this entity to be faster, brighter and more attuned to the capacities of its "people-parts?" That's our discussion next time. ●

even had the nerve to use the headline "MORE MAGIC IN L.A. NEXT YEAR!," implying that this puck dude brings the same sort of athleticism, charisma and finesse to Tinseltown as the great Magic Johnson. Sure we love basketball and may be prejudiced, but we submit that the biggest star in the toothless, stitched sport called hockey couldn't carry the jock of a man on the L.A. CLIPPERS!

One thing is for certain: If we see Jack Nicholson sitting "iceside" at the Forum now that this Gretsky character is here, we'll have watched our last re-run of "Easy Rider."

You've all heard Rodney Dangerfield's line about being at a boxing match when a hockey game broke out? Rodney was right. Hockey is a validation of legal indoor riots. I know at least three people who've done eight years of hard time for the same offense that draws a two minute penalty in the NHL! I also know

that the 8,000 cretins in this town who call themselves fans are the same 8,000 who attend each and every "match." Hockey is on a level with ladies wrestling and roller derby. It's a mockery of a travesty of a sham and should be outlawed because it's an affront to respectable civilization. So there!

Now we do have one slight problem with all of this. Hockey is big in Canada and Canada is one of our more civilized civilizations. Our wife is Canadian and she's as civilized as you get. Pierre Trudeau, Corey Hart, Dan Aykroyd and most of the cast of the old Saturday Night Live are all Canadian--so that makes it a great country. Our theory is that there's another group of 8,000 in Canada who give out the image that hockey's a big deal while the rest of the country is as grossed out as we are.

Now if you're a PD or MD or hockey fan working in an area that we phone in our

capacity of promo-guy--well, hey, we're only kidding. We've purchased our Gretsky commemorative first-aid kit and plan to attend every farce-off in the upcoming season, eh!

HOCKEY POSTSCRIPT: They're saying that Gretsky allowed himself to be traded so he can be near his movie star wife, one Janet Jones! **MOVIE STAR WIFE???** How many of you have said to your main squeeze on a recent Saturday night, "Let's go down to the Bijou, the new Janet Jones movie just opened?" Janet must be a pal of Bronson Pinchot, the guy who says he can't walk on a public street because of fan madness whenever he surfaces. Jones could be on the list of Dukakis "celebrity" supporters we published here recently. (You may recall that Herman Gingfingdinkler was the biggest name on the little guy's list--and he's only a guy Gary Owens made up!) ●

HEAR & THERE by Sheila Rene

Capitol Records will release the John Lennon soundtrack "Imagine: The Movie," a double record set, on October 4th. It features two previously unreleased songs: "Real Love," taken from a demo cassette, and a rehearsal version of "Imagine" with John singing and playing the song on an upright piano. The album is part of a John Lennon multimedia event centering around the Warner Bros. film directed by Andrew Solt and co-produced by David Wolper and Solt which will open on October 7th...MacMillan is publishing a lavish book, written and edited by Solt. It will contain over 250 photographs and will be in the stores October 9th, which would have been Lennon's 48th birthday...

Movie Time: This fall Tom Waits releases his first concert film "Big Time," directed by Chris Blum. Both the film and the album of the same name are sure to turn some heads. *Rattle And Hum* is the U2 double album and film expected early this fall. The double album--available as a single CD and cassette--features live recordings from last year's tour as well as previously unreleased studio recordings. Bono continues his collaboration with Roy Orbison for an album set to be released on Island in January.

Tangerine Dream kicked off their tour on August 25th at Poplar Creek in Chicago. It comes on the heels of their latest Private Music release, *Optical Race*. Although the band has seldom played live in the States, they have scheduled a 24-city tour co-sponsored by Atari, whose equipment the band uses on tour.

Breaking up is hard to do...Krokus, who first surfaced in the U.S. on Arista Records in 1980, have released their singer Marc Storace. The band, whose last album got tremendous support from their label, but no support from radio or press, have bought out their contract with MCA.

The band will play their last scheduled date August 26&27 at the Lemone Open Air Festival in Luzgano, Switzerland, with Vengeance, China & Nazareth rounding out the bill. Several record companies have already submitted potential deals to Krokus, so perhaps they will regroup with a new vocalist. Guitarist Craig Goldie and Ronnie James Dio have parted ways with "musical differences" being quoted as the reason...a new guitarist is being sought. Vinnie Vincent's bass player Dana Strum will leave the band at the end of the current leg of the tour.

August 26, 1988/the GAVIN REPORT

Kenny Rogers' debut Reprise single "When You Put Your Heart In It" is the official theme song for the 1988 U.S. Olympic Gymnastic Team. All proceeds from the single will be donated to the U.S. Gymnastic Team.

MCA Records/Nashville is set to release *Country & Eastern*, an eight-song compilation album featuring Lyle Lovett, Nanci Griffith, Steve Earle and The Desert Rose Band. The four artists will each provide two songs each.

Now Hear This: The legendary John Mayall has recorded his first studio album in eight years with the Bluesbreakers. Island Records is due to release *Chicago Line* on October 4th.

Buckwheat Zydeco has released his second hot and spicy vinyl from his hometown of Lafayette, LA. for Island Records. The album, *Taking it Home*, comes on the heels of the Republican Convention in New Orleans where he played for several delegation parties, and features Eric Clapton as a guest guitarist. Buckwheat will return the favor by opening Clapton's mega tour kicking off on September 1st at the Starplex in Dallas, TX. The long awaited release by Etta James will be available on Island Records October 4. Kix will release their fourth album on Atlantic Records titled *Blow My Fuse* on September 6.

Studio Stuff: New York rockers Warrior Soul are recording their debut album for Geffen Records with Andy Wallace (Slayer, The Cult) producing. Average White Band is recording again with John Robey producing. The Ohio Players are helping with the writing on this one. The Royal Crescent Mob has been signed to Sire Records, moving over from Celluloid. Bill Laswell, who we just reported as in the studio with P.I.L., has walked out of the project at Sorcerer Studios in New York after only five days on the job.

Piggy, the guitarist for the Noise/CBS group VoiVod, had his routine physical before setting sail for the U.S. and a tour with Testament and Violence. The doctors discovered a tumor on his thyroid gland so the tour had to be postponed temporarily. Terrible timing, since VoiVod's latest album is their most accessible. Currently Piggy is resting in a Montreal hospital, hoping to avoid an operation.

Celtic Frost has a revamped line-up with lead vocalist/rhythm guitarist Tom G. Warrior being the only holdover. The band is recording their new album *Cold Lake!* in Berlin with producer Tony Platt for an October 31st release date. Helloween warmed-up the Castle Donnington Festival show with new material from their forthcoming Noise/RCA release, *Keeper Of The 7 Keys - Part 2*, out in September in the States. ●

PATTI SMITH

THE POWER OF HOPE AND VISION

BY KENT ZIMMERMAN

When Patti Smith was a young New York poet, she revolutionized the concept of rock n roll by blending the influences of Arthur Rimbaud and Keith Richards. Her performances were part poetry readings, part post-punk hysteria. During the mid seventies, she and her band (comprised of writer/guitarist/producer Lenny Kaye, Richard Sohl and Jay Dee Daugherty) staged what became the harbinger of literary rock n roll happenings. You never knew what to expect. The results were either exhilarating or chaotic. Her experimental spirit was especially inspiring, particularly as she began to enter the mainstream, first by writing with an up-and-coming Bruce Springsteen and later by leaving behind the small clubs in favor of playing respectable-sized auditoriums.

By 1978, Patti was neither a stranger to Album Radio nor to Top Forty. When the constant recording and touring schedules bit into the spontaneity of the Patti Smith Group concept, she, like the poet Rimbaud, walked away even though she was at the pinnacle of her creative apex. After marrying Fred Smith (veteran guitarist of the MC5), Patti settled in Detroit to raise a family. For almost nine years we heard nary a peep. It was hard to read the silence. Yet in this interview Patti Smith revealed that, indeed, those years on the sidelines were fruitful.

Her latest album, *Dream Of Life*, arrived under wraps. Like her previous albums, photographer Robert Mapplethorpe presented the first photo image while Patti and Fred Smith took new control over the musical direction. The album is an eclectic combination of different temperaments and moods. Dispensing with the usual career trivia (after one minute I threw my questions away), we talked about inspiration and faith in the new world.

PHOTO BY ROBERT MAPPLETHORPE

KZ: I recall seeing the Patti Smith Group perform during in the early days of the first album, HORSES. That was 1976. What was it that the original group was trying to communicate to a jaded punk audience?

PS: The first time I came to San Francisco, it was just Lenny (Kaye), Richard (Sohl) and me. Though we were just developing our work, we were trying to get radio unified. We wanted to open radio up and keep it as a communication ground for what people called "the new culture," which was a counter-culture. We were trying to take the best ideals of the sixties and keep them going. We wanted to keep radio as one of our personal networks. There's a danger when someone does something good. If you don't keep it going it becomes a fad of the times. That was one of our concerns then. It's so hard to remember. That was so long ago.

KZ: Radio has since changed. There is fragmentation because stations now specialize according to format and target audience. Also, over the last nine years, market research has become tremendously important.

Reaching your target demographic has become almost an exact science. PS: I still believe that you can reach people by pooling your energies. I'm still concerned about radio even though I can't go out and actively fight for the cause. I remember the band going to hundreds of radio stations and talking to people. I think we spent more time talking to radio people trying to convince them of their powers and their responsibilities than we did performing. These days someone else will have to take up the cause.

KZ: Which brings us to your song "People Have The Power." Even though we are now in the information age, with computers at our fingertips, don't you think people feel more powerless than ever?

PS: I suppose that's true, but that's when people most need to be reminded and inspired. I love that song because all through the years that was the song I always wanted to write. I feel like I've worked on that song in various stages for many, many years. Finally Fred (Smith) and I concentrated and wrote THE song. "People Have The Power" is an optimistic song. We live in such pessimistic times where things are so heartbreaking. People can feel, like you said, helpless. What can you do? On this channel, you're hearing about AIDS. On another, you're hearing about the Israeli/Palestinian conflict. On still another, there's Northern Ireland. Everywhere you look there's no relief. But that's the time to remind people they can still mobilize and do something. That's what the first verse addresses—"in the form of shining valleys." The idea is that the dreamer sees the planet as it could be. That is to remind us that we have the power to retain that vision. I know the environment is getting pretty screwed up. On the East Coast, hospital waste is being washed up on the shore. It's terrible. I always judge the sea by how many jellyfish there are.

KZ: Really?

PS: I was raised by the ocean in South Jersey. When I was a kid, there were a million jellyfish I'd be scared of. Now there aren't any. And there aren't that many seagulls either. When I was young, you could smell the salt. The seagulls were overhead screaming and the jellyfish would be biting. That was the sea. Now there is silence, weirdness and no sense of salt. While it depresses and worries me, I don't think we can give up. I'm not an organized activist type. I just feel things. During the Viet Nam crisis, I was not a Sixties protester. I was deeply disturbed about it. My protest was to stop painting. I felt to sit around painting and drawing was an indulgence. Even though there are many people skilled in organizing, I'm an art activist—not a political activist. I could never organize anything like Greenpeace. All we can do is try to inspire each other to do what we can do best. I'm so glad when I see environmentalists working. I feel like they're working for me and my kids. I'm so happy when I see anybody activated and doing things. I watched Jesse Jackson's speeches. I loved what he said to a group of

high school students. He was asking, "Children, why are you not marching? They are ruining your land. They are polluting your environment. This is your earth. March! Say something! Do something!" There are a lot of people out there trying to re-inspire. Somehow people stopped the war in Viet Nam. It really happened! I believe that if the Russian populace marched, they could stop the war in Afghanistan. I believe that people have power if they unify. I know I've been criticized as being a pipe dreamer, but I don't think it's pipe dreaming. It's hope.

KZ: But don't you feel that problems have intensified during the information age as opposed to twenty, ten or even five years ago?

PS: Fifteen years ago people expressed themselves in what might be called socially weird ways, but generally we weren't out to hurt each other. It was more a self-expressive time. We've already been through self-indulgent times. Now we seem to be going through self-destructive times. People seem to have very little regard for their lives. When I was a youngster, you thought of the people who experimented with their lives as being artists. You read about Baudelaire taking hashish. It was a romantic, secretive thing. It wasn't anything that kids on the streets were doing in droves. The idea was that it was an isolated experience. Self-destruction went hand-in-hand with the artistic experience. But it wasn't a social experience. I find that disturbing. But again, the album that we did is optimistic. It's too easy to just write protest songs telling people how bad things are. That's obvious. You can watch CNN all day and feel like taking opium, but once you have children, you have to be optimistic. If you bring children into the world, it's a reconsecration or a reaffirmation of all the best ideas. You don't bring children into the world thinking they're gonna use crack or get cancer from the pollution. You bring children into the world because you believe they're going to have new ideas, new banners and new experiences.

KZ: Bringing children into the world is now a big concern of our generation. I confess to having grave doubts.

PS: It's one thing to see the seas polluted when you're walking on the beach. But imagine a three year-old picking up an AIDS-tainted syringe. The horror is magnified. The other thing I now feel as a mother is empathy. You get empathy attacks. I can remember as a little girl, my mother still hadn't gotten over the Lindbergh baby kidnapping. It was part of her firm. She would talk about it with tears in her eyes. I couldn't relate. When a child would fall down, she'd go through tremendous pain. I never understood that until I had my own children. Now I don't feel that honor intellectually, I feel it physically.

KZ: So have you come to the age where you write music physically rather than intellectually?

NEW RELEASES by Lisa Smith & Cyndi Hoelzle

k.d. lang - *Lock, Stock And Teardrops* (Sire)
k.d. and producer Owen Bradley purposely chose songs for her Shadowland lp that ran the gamut of the kinds of songs Owen has produced during his career, from straight-traditional Country to a more bluesy, jazzy sound. This Roger Miller tune is definitely on the straight-traditional Country end of the scale. Miller wrote and recorded it back in 1963, and Ms. lang's incredible vocals more than do the song justice.

KIX BROOKS - *I'm On To You* (Capitol)
Kix is the latest in a line of songwriters who have stepped out in front of the microphone. Kix hails from Shreveport, Louisiana, and has written songs for the Oak Ridge Boys, Crystal Gayle, John Conlee, The Nitty Gritty Dirt Band and Holly Dunn among others. This debut single is a driving rocker, much in the style of Foster & Lloyd.

MICHAEL MARTIN MURPHEY - *Pilgrims On The Way* (Matthew's Song) (Warner Bros.)
Michael puts his pop experience to work here. The song opens like a John Mellencamp tune, and like JCM, the lyrics paint a picture of everyday life in middle America. This one is definitely on the contemporary side, with a alto sax running throughout.

RICKY VAN SHELTON - *I'll Leave This World Loving You* (Columbia)
Now that you've played his Wild-Eyed Dream album more times than you can count, our hot new star has come along with the debut single from his upcoming Loving Proof lp. If this single is any indication, there'll be no sophomore jinx haunting Ricky. His smooth voice just glides through this ballad, and his loyalty to his departing lover will further endear him to his many female fans.

INSIDE COUNTRY

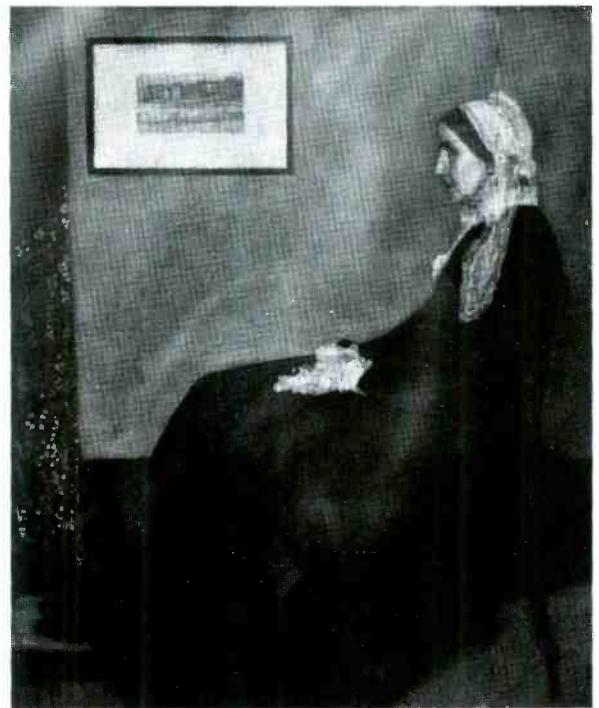

TRIVIA, TRIVIA, TRIVIA. Well, we thought we had you all fooled with last week's trivia question, but no way! We have some real Country Trivia champs out there. This week's winners are RCA's Ted Wagner and WLLX-Lawrenceburg's Dan Hollander, who were the first to correctly guess that the words "Thank You" were written on the back of Ernest Tubb's guitar. Audience applause was usually so loud they could not hear him say it, so he used to just turn his guitar over and hold it up. This week's Trivia question is:

What Country Music artist began hosting a network television game show in 1976?

The answer - and the name's of more trivia champs - in next week's Inside Country.

CHANGES, CHANGES, CHANGES. Lots of changes underway at WFGN-Gaffney. OM C.J. Jackson is moving to WSFA-Spartanburg to work as an engineer. Morning man Kenneth Wright has also departed and is going back to college to become a teacher. News Director Jeff Herndon is departing and is currently available. He can be reached at 803-578-8738. All those interested in working at WFGN should submit tapes and resumes to Pam Sutherland, P.O. Box 1388, Gaffney, SC 29342...Jeff Allen at WQSB-Albertville is now devoting all his time to sales. Morning drive personality Ed Davis will now be taking over the music duties...Our buddy Greg Hanson is moving from KYKR-Pt. Arthur to become PD at WTAW/KTSR-Bryan...Preston Hampton has been promoted to MD at WKOM/FM-Columbia... Some new folks have joined the staff at KXSA-Dermott. Charlie Culverhouse is doing afternoon drive, Bo Higginbotham takes over the evening shift, Ann Morrison is now doing weekends and Patty Reeves is their new sales rep.

PROMOTIONS

by Lisa Smith & Betty Hollars

NOT SO CHEAP TRICK ▶

Thousands of people in downtown Albany showed up at a promotion staged by WGFM to announce their new morning personality. The promotion began with ads being placed on billboards bearing one of three messages: "Meet Me At Center City Wednesday at noon - I'll Make It Worth Your While" and the ad ran again on Thursday and Friday. Each advertised day, a "mystery man" showed up in a white stretch limo and started giving away \$2 bills. The third day, the streets were so flooded with people that by the time the limo showed up, the "mystery man" couldn't open the doors to hand out the money. Rumors about the "mystery man's" identity ranged from a crazed rich man to a political candidate, but a press conference the following Monday revealed it was WGFM's new deejay - Marc Mitchell.

CFAX LIGHTS UP CEREMONY ▶

CFAX-Victoria's Rebecca Reeves gets prepared to pass out candles to 8,000 spectators attending the Opening Ceremonies of the B.C. Summer Games. A team of 40 CFAX representatives joined Rebecca in handing out the bright yellow candles to everyone in the crowd, and as the

B.C. Games Torch was carried into the University of Victoria stadium the candles were lit and held high. CFAX PD Terry Spence reports, "It was a huge job, but seeing those 8,000 people going home with a souvenir that carried our call letters was our reward."

JAZZ NEW RELEASES

THE SPICE OF LIFE TOO-KAZUMI WATANABE (GAIA)

When it came to selecting a rhythm section for his new album, **Kazumi Watanabe** didn't mess around. He went straight for the best. Grabbing **Bill Bruford**, **Jeff Berlin** and keyboardist **Peter Vettese**, Kazumi zoomed off to London to record *Spice Of Life Too* with care. Kazumi knows how to balance out the melody lead lines with raging electric licks. Vettese then erects a supple backdrop of synth textures, while Watanabe takes occasional trips to Venus and beyond. "We The Planet" and the concluding "Men And Angels" combine acoustic and electric playing with pleasing but progressive results. "Fu Bu Ki" funks things up a bit in a transcendental way.

SPEED OF LIGHT-PETE BARDENS (CINEMA/CAPITOL)

Pete Bardens extends his vision beyond last year's debut. Though he experiments with subtle vocals, on track like "This Could Be Paradise," Bardens's instrumental priorities are seldom sacrificed. I would venture a guess that the last album may have been ahead of its time from a radio standpoint. *Speed Of Light* seems a little more on target. With pop radio now flirting with "Gold," I see Adult Alternative ears checking out "Paradise," the opening "Westward Ho!" and "Columbine" with its low key vocal. Nice stuff.

101 NORTH (CAPITOL)

Produced by **George Duke**, *101 North* (a highway I cruise quite frequently) mixes Jazz and Urban almost at the halfway mark. On "Lady Of The Night," originally written by Duke for **Miles Davis**, *101 North* faithfully retains its modern Miles flavor faithfully. The band plays with a few international ideas on "Africa" and "Sashimi." "So Easy" and "Pillow Talk" are almost self-explanatory. Duke and the band take special care not to overfill the track with synthesized ideas. I feel the holes left in the sound are important. *101 North's* music is uncluttered and groove oriented. Note: Wayne Shorter's name is misspelled on the inner sleeve notes.

BACK OF MY MIND-CHRISTOPHER CROSS (REPRISE)

Christopher Cross is back with sidekick/producer **Michael Omartian**. With almost a latter day **Beach Boys'** flavor, Cross stacks his vocals (especially on side two) with enough synthesized instrumentation that it may find its way onto Adult Alternative airwaves. If you find that vocals are a necessary daytime ingredient, why not try a

familiar voice? "She Told Me So" and "Never Stop Believing" are up and jumping. "Just One Look" Alibi" are the two album's softer moments.

CRUISIN' THE 'BIRD-BOBBY HUTCHERSON (LANDMARK)

I confess to spending last New Year's Eve watching **Bobby Hutcherson** play with a special group of Jazz All Stars that included **Harold Land** and **Cedar Walton**. For having such a delicate sound, I was amazed at how hard Hutcherson seemed to hit the vibes. The inner dictionary of riffs he carries in his head must be massive. After twenty-five years on the trail, Hutcherson is still youthful and plays with fury and attitude. Some of the fast runs on "All Or Nothing At All" are absolutely death defying. I also enjoyed the edge and intensity of "Imminent Treasures." In case you were wondering about the "Bird" image, this time it's a reference to Hutcherson's prized 1964 T-Bird, though I'm sure that when he's cruising, the other "Bird" may occasionally sneak into the picture.

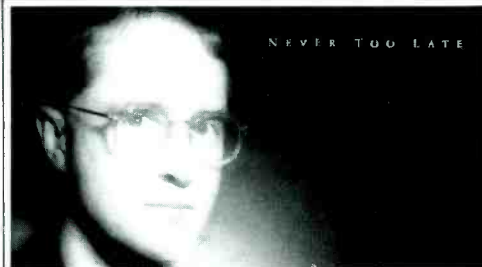

YARDBIRD SUITE - FRANK MORGAN (CONTEMPORARY)

Bebop lives! Hot on the heels of his collaboration with **McCoy Tyner**, **Frank Morgan** releases a six track tribute to the original Yardbird himself, **Charlie Parker**. Morgan, also an alto player, was an actual acquaintance of Parker, and like original Contemporary saxman **Art Pepper**, also spent some time in the San Quentin bighouse. The rhythm section here--**Ron Carter** and **Al Foster**--are Miles alumni. Pianist **Mulgrew Miller** even sneaks in a few chords from *Milestones'* "Miles" halfway through "Scrapple From The Apple." The entire session happened direct to digital in two days last January. More proof that Jazz continues to celebrate its roots.

TRILLIUM - ROB PRESTER (ANTILLES/ISLAND)

This fusion flavored set was co-produced by pianist **Prester** and drummer **Roland Vazquez**, who has spent his fair share of time on the Jazz/AA charts lately. "Cyborg," the album's opener, is a light fusion romp with the main theme juggled by guitar and sax. All in all, *Trillium* will soar only within the confines of its straight-into-the-board sonics and the tracks that work best are those with an extra dab of percussion. Also check out "Trillium" and "La Cumbre Pass."

NEVER TOO LATE - JAY AZZOLINA (ANTILLES/ISLAND)

There are many AA followers out there who swear that the guitar is the main emphasis instrument of this format. If you agree, **Azzolina's** album is worth your while. Just a tad rougher than **Rob Prester's** *Trillium*, this set was produced by **Teo Macero**--the man who sat behind the dials with Miles. Don't want to sound lazy, but each side-opener, "Three Finger Slice" and "Jilly's Bounce," shows the most dexterity and imagination.

UNIVERSAL LANGUAGE - BILLY JOE WALKER, JR. (MCA MASTER SERIES)

Billy Joe Walker, Jr. is this week's AA Most Added. Plucking with **Waylon**, **Kenny Rogers** and **Hank Jr.** can sure pay the bills, but *Universal Language* is BJW on a much higher level of the Nashville skyline. And UL represents total guitar versatility. The first track, "I Can Fly," is a electric ditty slightly reminiscent of **Mahavishnu's** *Birds Of Fire* era. It's followed by the acoustic "Quiet In The Night," and then "Roberto," a tune painted in amplified acoustic guitar pigments. You get the picture. Highly recommended Nashville/AA tone poems.

IT'S ABOUT TIME - HARVIE SWARTZ (GAIA)

KICK 'N OFF - SCOTT KREITZER (CEXTON)

Harvie Swartz plays one of those chopped-up upright basses, similar to the one that **Sting** popularized in his later Police gigs. But he admits that playing bass is secondary in his mind to being a composer and a bandleader. Here we have two projects--one being **Harvey's** latest LP, *It's About Time*, and the other with **Swartz** as sideman for **Kick 'N Off**, an album by 23 year old **Scott Kreitzer** who has previously played sax with **Chuck Mangione**, **Ira Sullivan** and **Blood Sweat and Tears**. Compositionally, *It's About Time* dabbles within a tight studio framework. The notes are crisp, immaculate and well-placed. The title track, "RV" and "Stang" pay closer attention to ensemble playing and restricts hambone solos to a thoughtful minimum. With *Kick 'N Off*, **Swartz** throws off the sheep's clothing and gets classic to the tune of **Kreitzer's** tenor phrasings. Via "Not Just Another Blue" **Kreitzer** is all over the road stylistically. **Dave Samuels'** vibes on "Marlis" woo **Marc Cohen's** samba piano and **Joyce Chang's** string arrangements. "Alone Together" is an interesting blend of classic acoustic sound with syntho backing.

NEW RELEASE

WOLF-HUGH CORNWELL (VIRGIN)

"I write all the time," confesses the prolific **Hugh Cornwell**. The result is his first solo effort. Though I wouldn't necessarily call him an elder, **Hugh Cornwell** has a 10 year track record of successful innovation with the **Stranglers**. Cornwell's solo work will remind a lot of Stranglers fans of the smoldering *Feline* album. It hard to imagine that the final versions of these songs strayed far from the original seed demos. As if constructed around simple drum programs, trax like "Cherry Rare" and "Another Kind Of Love" benefit from spare production and a minimalist approach.

King of Emotion

"KING OF EMOTION"-BIG COUNTRY (REPRISE)

"King Of Emotion" is lead singer **Stuart Adamson** stylistically recalling earlier days, when his rock n roll had more of an R&B flavor. **Big Country**, due for a major departure, takes a different path from the thunder-struck drums, leaning towards a tighter group sound. The music, from an album entitled *Peace In Our Time*, remains poignant and aggressive.

FOLKWAYS: A VISION SHARED-TRIBUTE TO WOODY GUTHRIE AND LEADBELLY (COLUMBIA)

I can remember checking **Folkways** records out of the library. In fact, never in my life have I heard a Folkways record that didn't pop and crackle, scarred by Lord knows what kind of torture machines people played those records on. Still, the music was always alive. Featured on this tribute to the Folkways legacy are contemporary artists like **Bob Dylan** (who recorded on Folkways under the name of **Blind Boy Grunt**), **U2**, **Bruce Springsteen**, **John Mellencamp** and a rave-up between **Little Richard** and **Fishbone**. As for the tributees, a case can be built that **Woody Guthrie** first forged the rambling radical rock n roll attitude. Before there was Michelob, folk and rock n roll were thought of as the forces which helped music counteract the realities of war, racism and other eager principles. The songs, as evidenced by these special editions, show that both **Guthrie** and **Leadbelly** addressed issues that are relevant today, especially the rights of the worker and the plight of the homeless.

TAKING IT HOME-BUCKWHEAT ZYDECO (ISLAND)

This time around **Buckwheat** seems more comfortable straddling the rock n roll and zydeco connections. Most of the alterations and adjustments have been in the addition of more production edge. But don't worry. The charm of the last LP hasn't been tampered with. While **Eric Clapton** puts in a powerful guest solo shot on his "Why Does Love Got To Be So Sad," the remaining back-up support comes from Buckwheat's own *Is Sont Partis Band*. Buckwheat holds up his end of the show as well, cranking out ten hot ones creole-style.

"SMALL WORLD (PART I AND II)"-HUEY LEWIS AND THE NEWS (CHRYSALIS)

Huey Lewis takes the gem song off his new album, combining both parts into an extended seven minute extravaganza. I'd rate this as one of the News' very best. The **Stan Getz** sax solo is simply fantastic. Here's a good opportunity for Album Radio to give their listeners something extra special.

EVERY DOG HAS HIS DAY-LET'S ACTIVE (IRS/MCA)

Robert Plant's admiration for **Mitch Easter's Let's Active** may have rubbed off on the band's sound. As **Robert** pursues pop properties, **Let's Active** has developed more and more of an edge to their sound. Though I wouldn't quite call them a new **Led Zep**, **Mitch** and producer **John Leckie** pushes the band into an airy, huge rock mix. Trax like the "Every Dog Has His Day," "Horizon" and "Too Bad" could give this band a larger profile on rock radio. Recording at **Rockfield** and **Abbey Road** may have given this group of songs an enlarged ambience.

"I HAVE FAITH"-DREAM SYNDICATE (ENIGMA)

This marks the rebirth of a band. **Dream Syndicate** comes out of a creative tailspin and back on course under the hand of producer **Elliot Mazer**. It was he who drummed the basics back into the band's execution. While "I Have Faith" is the album's shining airplay moment, wait until you hear the mood spread on the entire album.

GRACE POOL (REPRISE)

Let it be known that there is no **Grace Pool** in this band. **Ely Brown** is the lead vocalist of this quality quintet. "Awake With The Rain" is awash with water images. There's also an upbeat cover of **Blue Nile's** "Stay." Producer **Steve Nye** accomplishes quite a lot with this band, uniting their efforts with a punchy but breezy sound. Alternative stations (as well as adult listeners) may find this one a cool, refreshing shift.

"EDGE OF A BROKEN HEART"-VIXEN (EMI-MANHATTAN)

Controlled hard rock like this has been airplay friendly--especially on the Top Forty airwaves. **Richard Marx** debuts as an outside producer, glossing up the audio portion of the show. Needless to say, this female foursome is quite visual. All that blonde hair, leather and lingerie hits below the belt, making a strong pop statement. But it's the strong chorus that will win radio approval.

INSIDE ALBUM

by Kent Zimmerman

WELCOME TO THE MACHINE. In the everchanging world of radio, we are the recipients of three more correspondents. First up is KXUS-Springfield, MO. PD Mike Schmidt reports that since KXUS began skewing towards an Album Radio audience, they've planted themselves firmly in the #2 and #3 slots in all age groups. I might add that they're doing all this with a hip blend of music. For instance, this week's adds were

Bad Company, Buckwheat Zydeco and John Kilzer. Contact KXUS at 2920 East Pythian, Springfield, MO, 65802. Phone number is 417-831-9700. Paul Cannell serves as the KXUS MD. Welcome aboard guys.

MORE WELCOMES. Switching over and just firing up a new Album Radio format is WCIZ. PD Ted Bilodeau reports that rock n roll is shaking up Watertown, New York in a big way. WCIZ-Watertown joins up this week. Working alongside Ted is Music Director Kathy Mott. Address is RD #2 Gifford Rd., Watertown, NY, 13601. Give them a jingle at 315-782-6540. Again, welcome.

AND ONE MORE WELCOME. The Gavin Album section has secured one more interesting voice from Canada. Celebrating the departure of Wayne, KIK /FM decided to join the Gavin roster and we're glad they did. KIK/FM- Calgary and MD Allison Brock and PD Wes Erickson contribute stats this week. Address is 500 1324 17th Avenue Southwest, Calgary, Alberta,

T2T5S8. Yes, all those numbers in the address are correct. Here's a few more numbers if you want to reach Allison by phone: 403-244-4422.

MICHELLE SHOCKED. Just a note to let you know that the photo snapped for the cover of Michelle's new album is indeed authentic. Taken from the files of the San Francisco Examiner, the photo was taken during the 1984 Democratic Convention during a Punks Against Reagan demonstration. That's the ole SFPD just doing their job. Heck, they're usually quite the mellow bunch. Not pictured, not arrested, but in the crowd that day was our own Peter Standish.

THE TIMES THEY ARE A-CHANGIN'. When the news reached me about the changes at KVRE-Santa Rosa, CA, I couldn't

help but feel sad. As a neighbor, I'll always remember the \$1.01 concerts with T Bone Burnett, Bruce Cockburn, Los Lobos, NRBQ and the Thunderbirds. There was never a shortage of soul and innovation. I learned a lot. But actually, every cloud does have a silver lining. As the new KVRE ownership ushers in consultants and a new mainstream format, PD Bill Bowker and MD Scott Murray will move over to KPLS to experiment with a progressive renegade country format. So, though we'll miss KVRE's unique blend of rock n roll, jazz and

even country artists like Rosanne Cash and Rodney Crowell, we will be watching Bill and Scott's work across town. Both are excited as well they should be. Music has always been the bottom line for these two and for the last few years, Country music has been riding high on a renaissance wave. Trivia note. As a youngun', KPLS was the rock n roll station that first played me Pink Floyd's "See Emily Play." Long live the AM revolution. I know it changed my life. Stay well. Yer pal, KZ.

INSIDE ALTERNATIVE RADIO by Peter Standish

INSIDE ALTERNATIVE analysis

The Primitives hang on in a gale force wind caused by a weather system to the south known as **Big Audio Dynamite**. BAD trails by only about 4% chart points. **Hunters & Collectors** continue to surge on the chart and on the playlists for Marcia Woytaszek-WUSM, Ann Delisi-WDET, Mike Thomas-WMDK, Heidi Fridlund-KUCI, Brad Thiel-KRCK and Patrick Ferrise-WWVU. Another record on the move is **Michelle Shocked**, who is reeling from the airplay of Kevin Byrne-WCDB ("Lots of positive staff feedback"), Mark Beaty-WRFL, Maggie McCabe-KCMU ("Boomed to #2 in two weeks") and Mark Miller-KABL. The **Screaming Tribesmen** is our Top Tip as our highest debut, and **Transvision Vamp**, behind the strength of a full album, is our Record To Watch. **Eddie Brickell's** airplay has finally connected and sent shock waves through to Jamey Karr-KACV ("#1 phones") and Damen Stewart-KJET. The **Psychedelic Furs** were not only #1 Most Added, but they also debuted the same week-an achievement rarely seen. **PLEASE NOTE:** We will be closed next Monday, Labor Day, Sept. 5th. Those of you who normally call on Mondays please call this Friday, Sept. 2, from 9 AM to PM pacific time. Thanks.

NEW RELEASES

Nothing's Shocking - JANE'S ADDICTION (Warner Bros.)

I've got to admit that after all the hoopla that surrounded this band's signing (write up in *Rolling Stone*, etc.), I was a bit skeptical. After listening to the music, I've got to give in and recognize that their IS something important taking place. They're almost heavy metal...no.. they have a hard-core edge...no...they have a 70's **Led Zep** rock feel (especially with the guitar effects and chords). However you describe them, the point is that some of the music licks might remind you of other things but **Jane's Addiction** is bigger than the sum of their musical parts. There's an attitude here

that grabs you and casts an emotional spell. You can try to intellectualize it, but it won't do any good because we're dealing with emotions, and radio staff members and their listeners are responding emotionally. I have a hunch that this is going to be a generation gap log-splitter dividing fans and adversaries demographically, with the under 25'ers going for it in a big way. Close all the doors and windows, and turn up "Mountain Song," "Had A Dad," "Ocean Size," "Ted, Just A Minute," and the anthem "Jane Says." If you're concerned about FCC no-no words, screen carefully before airing.

Nothing Wrong - RED LORRY, YELLOW LORRY (Beggars Banquet/RCA)

If R.L.Y.L. were a business in a gentrified neighborhood, they'd be the long-standing shop owners who rebuke the in-coming, high-financed, power-brokers who want to buy them out. On **Nothing Wrong**, they stay true to their colors and continue to create an obscure sound that shines rhythmically in the light and melodically in the harsh shadows. I admire anyone who trusts their own intuition and sticks by their guns. Many of these songs were released on the UK album, but there are three new tracks "The Rise" (my fav), "Open Up" and "Only Dreaming" (a new version). Give "Nothing Wrong," "Big Stick," "Never Know," and "She Said" a shot.

FROM OUR HOUSE TO YOURS... RELATIVITY

PS: I think it all has to do with age. Each generation eventually has to take over the planet. You're a kid for so long, then you realize that people running for political office are the same age as you. Or else you're twice as old as the baseball players. (laughs) You must realize that the planet will soon be in our hands. I'm not saying that we have to grow up, that the fun's over, but we do have to realign ourselves and reassess and take responsibility. It's our duty. Times are legitimately getting tougher and tougher. As you said, we are not only suffering from all the different things, but we have an overlay of media that tends to de-sensitize us while we're experiencing these hard times. We're bombarded. It used to be a tremendous shock to see someone shot on television. These days it's a lot like watching the world soap opera. But contrary to all of that, it's a great planet and I'm happy to be on it.

KZ: I notice that you try to reflect that optimism in your music.

PS: Even though I feel a lot of sorrows and concerns, I'm extremely happy; I have really great kids; I'm re-seeing the world through their eyes; I'm happy with the work that Fred and I are doing.

KZ: This is a very quiet album for Patti Smith.

PS: I think it reflects a certain period. It wasn't intentionally so. After Fred and I wrote many many songs, and just as we were about to record, I found out that I was pregnant again. So I did the album in various stages. Intensity is relative. People have noticed the slow and quieter aspects, but if you look through our past albums, it wasn't unusual for us to play all kinds of music. I love all kinds of music, always have. Hence, I don't feel ANYTHING is particularly odd or uncharacteristic. For instance, "The Jackson Song" is a very slow song—a lullabye. It was a very difficult song to do. It took a lot of physical concentration. Physically, it was a difficult song because of the emotion and the key it is in. Doing "The Jackson Song" was as intense an experience as cutting any other song on the record. "Up There Down There" was fun. A lot of people say that that is my most intense song, but "Up There Down There" was only a few moments of abandon. I love that song. We cut it very quickly. So when I think of intensity, "The Jackson Song" was the more intense experience. We worked hard on the whole record. It was done with a lot of care. I feel good about it from beginning to end. There isn't a moment or song on the record where we just filled up an empty slot. It was pieced together thoughtfully. Still it's just one piece of work. Fred can write any kind of song. In another year, we might do something different. Three years ago we may have approached this record differently.

KZ: So the lay-off has been quite productive.

PS: Yes, very much so. Fred and I had some very interesting travels before we had the kids. We went to French Guiana and Surinam and studied that area extensively. We wrote a lot and took a lot of photographs. I've written several different pieces. During this creative period, I spent most of my time developing my craft as a writer. I spent most of my time extending my knowledge as a prose writer. Almost everything I've written in the last eight or nine years has been prose. Actually, I finished my first novel.

KZ: Just looking at the sleeve, every spare inch is crammed with poetry and verse, not

counting the lyrics.

PS: I used to struggle for weeks to write one piece. Now I've learned to articulate myself faster and with much more satisfaction. It's been wonderful. I love to study. I've studied whole areas of art history—things I've wanted to study for years. Plus, I've been trying to develop musically in areas of social awareness. It's been a very heightened time for me. I think it's funny to hear people say that I retired. I don't believe artists retire. Did Gauguin retire? That's a funny concept. Unless you completely give up art, it doesn't matter what your lifestyle is. Certainly the healthier your lifestyle is, the longer you produce. But I had to relearn a lot of things. My lifestyle has changed drastically. I have a lot of responsibility. Children are very time consuming. You're on-call twenty-four hours. So I had to rethink my processes and it's been great. Fred and I spend many hours discussing and delving, exchanging ideas.

KZ: Over the years I've often wondered what and how you were doing. Now we know you're alive and kicking.

PS: We are happy and healthy. We haven't been insular

here. We've been concerned with what's been happening. A lot of the album reflects that. The ideas on this album aren't just advocating an idealistic dreamworld. We want people to know that we feel the same reality and the same reflection of hope. Work is important. You work to create space for yourself and for other people. It seems that people work for two reasons. First is the basic need; you have a creative urge and it becomes essential. But you also work to communicate with others. I don't think there's anything wrong with communicating a little hope and vision. People get enough of everything else. The individual still has power. Even though we can feel overwhelmed by all the different factions, the one that can't be permeated is the will. The will represents the ability and the vision of the individual. ●

PATTI SMITH'S BOOK SHELF

A FEW STRAY LITERARY RECOMMENDATIONS

All through her career, Patti Smith has always drawn inspiration from a rich source of poets and prose writers. We asked her to spontaneously submit a list of those writers she considers essential and to comment on each.

ARTHUR RIMBAUD

"If you're looking for French poetry, one can't go wrong with any Wallace Fowle translations. Many times you can look at the translator and get a good piece of work. All through the years I would recommend Arthur Rimbaud's Illuminations. They are intelligent and filled with clarity and vision. For younger people, Season In Hell is still fantastic. Rimbaud addresses a lot of high adolescent concerns."

RILKE AND RUMI

"For people who are older, entering a different plane, I recommend Rilke. He writes beautiful German poetry. Choose any of his work. Another one of my favorite poets is Rumi, a Persian poet. The best translator of

Rumi is Arberry. These are all paperbacks. Look for them in the poetry section. If you look for the spiritual poems of Rumi, you'll find almost one hundred works. They're like prose pieces."

THE OLD AND NEW TESTAMENT

"I still prefer what one could probably call "spiritually stoned" works. I have found that you can read a lot of the Old and New Testament and be satisfied with the poetry in the book Revelations, for instance. That's filled with poetry. I found a book of interviews with (filmmaker Pier Paolo) Pasolini to be very beneficial. He said some very interesting things. In fact, I revamped a lot of my ideas about the New Testament and Christ because Pasolini viewed the whole era as a very revolutionary time. Pasolini viewed Christ as a very intelligent man who had a fantastic grip on the future and was able to bind many people together."

WILLIAM BURROUGHS

"There is a newly released piece by William Burroughs called The Western Land. It's very beautiful."

DIEGO RIVERA

"Actually I've been reading pretty obscure works these days. While writing the music for this album, especially "People Have The Power," I got a lot of inspiration from the writings of Diego Rivera. He was a Mexican muralist whose works are pretty well known. We did a little music video and his paintings are all through it. He was quite revolutionary and wrote some beautifully articulate works. Read his biography, which is very interesting. Also his manifestos are very timely in terms of unity."

MUSIC AND LITERATURE

"I'm really a creature of habit. I find myself still loving the same books I loved twenty years ago. Ask me my favorite rock n roll and I'll tell you I still like Jimi Hendrix. That's typical of the way I am. I'm always delving into new things, but in terms of old favorites, I still like the old guys. When it comes to poetry, I'm still a sucker for anything French and anything from the turn of the century."

PERSONAL PICKS

SINGLES by Dave Sholin

VIXEN - *Edge Of A Broken Heart* (EMI-Manhattan)

Rock's resurrection on Top 40 is in full bloom and this effort by a new all female contingent arrives at just the right time. Produced and co-written by super talent Richard Marx and former Tube Fee Waybill, who've concocted another potent and catchy hook that reinforces the song title.

TRANSVISION VAMP - *Tell That Girl To Shut Up* (UNI)

When they recall the warm touching love lyrics of the 1980's, "tell that girl to shut up,

you better tell that girl I'm gonna beat her up." probably won't be at the top of the list. But it's precisely the novel approach taken by this song that makes it special. It's a modern day "My Boyfriends Back", the 1963 summer smash for the Angels.

DEPECHE MODE - *Strangelove* (Sire/Warner Bros.)

If at first you don't succeed, remix, edit and try again. A mesmerizing pop/synth track that tested exceptionally well in a handful of markets when it first hit the street a year ago. Off to a terrific start this time around, getting added at POWER 99 Atlanta, WXKS Boston, POWER 104 and 93Q Houston and FM102 Sacramento.

GRAYSON HUGH - *Tears Of Love* (RCA)
Explosive debut release from an artist who holds nothing back in the vocal department. Alternative editor Peter Standish aptly described this as a cross between Steve Winwood and Terence Trent D'Arby, which doesn't diminish the originality of the song or the performance.

WHITNEY HOUSTON - *One Moment In Time* (Arista)

Through all the grandeur and universal scope of the Olympics, it is the individual experience that we identify with most. Whitney sings with conviction and sincerity, capturing the spirit of that rare human, the Olympic athlete. Music written for events such as this sometimes tend to be corny or overly dramatic but not so on this heartfelt Narada Michael Walden production. Look for this, her first new recording in a year and a half, to become a standard, and elevate her to even greater stature

WILL TO POWER - *Baby I Love Your Way/Freebird Medley* (Free Baby) (Epic)

Is this the beginning of a 70's revival? Peter Frampton's "Baby" and Lynyrd Skynyrd's "Bird" were anthems during that decade and Miami dance masters Will To Power rejuvenate them both with a fresh approach. Should have widespread appeal.

FOLKWAYS: A VISION SHARED - A TRIBUTE TO WOODY GUTHRIE AND LEADBELLY (COLUMBIA)

Talk about your homeless...Where does something this special get played on late eighties radio? Under the guidance of Moses Asch, Folkways Records captured the musical spirit of a rural and ghetto America, telling human stories which became the roots music of rhythm & blues and popular folk music. Woody Guthrie and Leadbelly (Huddie Ledbetter) chronicled the crushing of the grapes of wrath, the blighting of the natural harvest of human potential, and the gardens of stone, often in the disguise of almost frivolous pickin' and grinnin'. It was this kind of music which first reached and raised the consciousness of those wealthy enough to own a phonograph. This package of Guthrie

and Leadbelly songs is made special by the faithful performances of superstars who've all demonstrated, even prior to this project, a fondness for Americana and its musical heritage. Highlights for me include ROCK ISLAND LINE by Fishbone and Little Richard, PRETTY BOY FLOYD by Bob Dylan, VIGILANTE MAN by Bruce Springsteen, HOBOS LULLABY by Emmylou Harris and PHILADELPHIA LAWYER by Willie Nelson. This set was lovingly recorded and compiled to benefit the Folkways Collection of Washington D.C's Smithsonian Institution. The need to preserve America's musical heritage needs to begin with the rare and precious generation of music from the likes of Mr. Guthrie and Mr. Ledbetter. It's a worthy start deserving the patronage of American radio which owes an unpayable debt to those who inspired the music that began it all.
