NEW AIRPLAY ANALYSIS

Bon Jovi, "Livin' On A Prayer", Mercury....

This week's Most Added is dominated by album depth tracks, and the one Ron Diaz feels is "The strongest one on this album" rules the roost. He's got 38 adds (6 heavy) and the longest Hard Hundred advance, 79-38. Increases include KQRS, WAQX, WEBN, WYNF, WDHA, WTKX, and KDJQ, with top 5 phones at KQRS, KUPD, WNEW, WPLR, WXRC, and KGGO. Legit adult appeal? WEGR's Kelly Cruise says, "Some of our older listeners are surprised that a rocker like Jon has come up with a song like this". WSHE's Michael Dalfonzo is also pleasantly surprised, saying "From a guy who was real hesitant to play 'You Give Love', consider me a converted fan".

Eddie Money, "I Wanna Go Back",

Columbia.... 29 12" adds bring Eddie's latest aboard at #60. He's got heavy play at KQDS, KRNA WHCN WIOQ and WKQQ, where Rob Ellis comments, "I really feel Eddie puts out some of the best music for album radio. Good straight ahead tunes, no BS, yet with some of that all important upper demo appeal".

Til Tuesday, "Coming Up Close", Epic....

The 90-61 jump is second only to Bon Jovi, a function of 24 adds, 3 increases, five heavies and 52 current reports. We couldn't agree more with WSHE's Michael Dalfonzo, who feels it "Ought to cement the

band's superstar status"... Ditto Ralph Tortora's feeling that the warm personal sound is perfect for the holidays.

KBC, "America", Arista.... Although 21 adds came in, 15 ongoing heavy reports suggests this one's already half way home. WYNF, WIZN, KFMG, KSQY, KAZY show increases, with TOP 5 phones at KFMF, KOZZ, and WEGR. As noted by WIYY's Chris Emry, "You can blast those BMW cruising yuppies back to the Fillmore West. This is as close as you'll get to that good old Airplane rock and roll activism of the 60's".

The Kinks, "Working At The Factory", MCA....

The track that'll soon dominate Lp play points up 86-59, thanks to 19 adds and increases at WMMR and WRCN. KQRS, KRQR and KORX now list heavy, with 32 more mediums, and a total of 43 to date. It's definitely a track your rank and file listeners can relate to, and the best album's best example of what Ron Diaz calls "the kind of Kinks we've known and loved all these years"..

Journey, "I'll Be Alright Without You",

Columbia.... 41 current reports (and 18 adds this week) give the new single an 82-58 advance, bringing the album back on the chart at #47. WIMZ, WNGZ and WRUF up play, with heavy action now at WPLR, WWCT, WMGM, WIMZ, KRNA, KRIX and WDVE reporting heavy rotation.

FROM THE “GOLDEN CHILD” SOUNDTRACK DUE DEC. 19th

Timbuk 3, "Life is Hard", IRS.... WRXK's Greg Mull tells us "I like 'Life Is Hard' better than the first single, and based on current top 40 play on 'Future' we ought to be all over this track". Yowzah. The follow-up moves 60-50, pulling the album up 36-32. It's new on 17, now on 66, with KMET, KILO, WDHA, KSQY and WKWQ upping and heavy play on 9, including WONE, WQFM, WNDY, WMAD, and CILQ.

Eric Clapton, "August", WB.... The single rebounds 16-9, thanks to 20 increases, 25 powers, and 67 heavies. It's also #8 most requested with 16 top 5 mentions... "Tearing Us Apart" takes a nifty 40-27 hike, with 16 adds, 7 (WEBN, WOUR, WRCN, WTPA, KLOS) increases and 21 heavies. "Miss You" is also on the move, 76-62. The above action moves the Lp 6-5, all in all his strongest album start since the 70's.

Bruce Hornsby, "On The Western Skyline", RCA.... Now that "The Way It Is" is #1 in Billboard, time to power up on the new one. 14 adds and 10 increases move it 20-13, with KLOS, KZEW, WLUP, KBCO AND WHJY leading the increases. He's got heavy spins at 32 and power play on 7 more. The top 5 phone count now includes WCCC, WPYX, KGB, WIOT, and WQBK.

Huey Lewis, "Jacob's Ladder", Chrysalis.... The button's obviously been pushed here, too--as per the 47-34 track advance. "Ladder" lands 13 adds, including heavy play at KSJO, WCCC, WPDH, WKLC AND KRNA, for 59 to date and ups from WIXV, WOUR and WQBK. It's already heavy on 27.

Iggy Pop, "Real Wild Child", A&M.... The Igman picks up a cool 93-71, with new air on 11--led by KOME, KYYS, WHCN, WKFM, WOUR, and WRCN. KROQ, KRQU, WHTG, KMOD and WTOS list heaviest early play, with 45 now on board. KQWB's Ty Banks comments, "The first single did well, with top 10 sales at one store and better than average calls. That's surprising in this market, so 'Wild Child' is in". WLNZ's Cathy Down adds, "Iggy is also starting nicely on the phones. I love that song, probably one of my favorites on the air right now". Or, as Bob Bittens explains, "We made an early commitment to Iggy with an out of the box add on 'Cry', so it's only fair that we continue our support by adding 'Real Wild Child'".

Ann Wilson, "Best Man In The World", Capitol.... Ann has collected 99 adds in just three weeks, and we're expecting closeout play momentarily. WHJY, KLPX, WOUR, KLOS and KMBY pace this week's 9 increases. Currently heavy on 17, power on 7, and underlined 27-18. KGON's Inessa York offers, "Isn't Ann Wilson's song positively the 'Goldfinger' of '86! Great melody modulation, Ann." From WKDF's David Hall, "Ann is getting top 5 phones and they're so well deserved for such a great song". If for some reason you're still skeptical, take it from WIZN's Steve Cormier, "The song doesn't knock me over but I'm not a fool. It's gonna be big thanks greatly to Heart's last lp."

Jason and the Scorchers, "Golden Ball and Chain", EMI.... This record cannot be contained. It blasts 33-26 for its sixth consecutive underline, courtesy of 9 more adds, 104 to date, and 11 play increases--with KYYS, KGB, KBCO, KOME, and WOUR. Currently #9 Most Requested, with KQRS into their fourth week of top 5 action, and equally hot

phones at KBAT, KWQB, WQFM, KOMP, KMJX, WKLS, WPYX, WWTR and WKDF. WWCT's Phil Manicki feels "Jason has the rawness that keeps radio fun", and from KICT's Phil Thompson, "It seems that style of music is doing very well right now and they've been through town a couple of times".

The Outlaws, "One Last Ride", Epic.... You've read the "Best track on the album" comments--and now the stats confirm that interest. It's now on 32--including WYNF, WOUR, WBAB, KBCO, WSHE, WRXK, WONE, WMAD, WIOQ, WDHA, KZEL, KNCN and KLPX--debuting at #80 on the Hard Hundred. WMAD's David Anderson nails the sound and image, "The winner of this months' 'I-used-to-read-Rolling Stone-but-now-I-read-Esquire' Award--to the Outlaws, for continuing musical maturity without losing the raw edge of their youth".

Peter Gabriel, "Big Time", Geffen.... Top 10 here he comes, fueled by 20 increases, 9 adds, 100 stations now playing, 36 heavies and 10 powers. Underlined 32-19.

Steve Miller, "Nobody But You Baby", Capitol.... The single's still on top of the world at #1, so album depth play would seem a natural at this point. As WIYY's Chris Emry sez, "Here comes another cut from the comeback player of the year, also known as the 'Bruce Buster'". Curt Gary agrees, "I knew it was a good album when it first came out, but now audience reaction is proving beyond a shadow of a doubt that Stevie 'Guitar' Miller is back". "Nobody" notches up 9 adds, with KZEW, KRQR, KRIX, KLBK, KQRS, WAPL, KWHL and WXRC already into heavy.

Billy Idol, "Don't Need A Gun", Chrysalis.... Big phones lurk around the corner, as does top 10 play. "Gun" gets a 31-22 underline, with 8 adds, 105 to date, and 36 heavy reports. The increase inventory offers KYYS, KOME, KUPD, KTYD, WWCT, KFMX, and WUVA.

World Party, "Ship of Fools", Chrysalis.... This record's already on fire--but wait til you feel the ripple effect from this week's MTV "Hip Clip" rotation. That accelerated schedule will deliver a minimum of 8 exposures per day; between 49 and 57 a week. Meanwhile, back at the radio ranch, "Ship" shores up 8 more adds, for 72 to date, moving to #52. WAPL's Rick Panneck feels "'Ship of Fools' is a great cut that adds a little spice to the playlist." From Phil Thompson at KICT, "World Party took a while but now it's really there". Look for this and Europe to score highest in the Holiday Breakout sweepstakes.

Love and Rockets, "All In My Mind", Bigtime/RCA... The Bay area is the hot spot, with new adds at KSJO and KRQR as well as early adds at KOME and KFOG. KSJO's Dave Numme says, "We went with it because it was stunning and so emotional. It's gonna get great reaction. There really hasn't been any music like this out lately". Robin Mathieu agrees, "I hope that over the holidays Love and Rockets builds the way the Cult should have last year. Open your ears to "All In My Mind". It's a one listen song". This Cindy Bailen pick to click gets added at KZEW, KILO, KLAQ, WTPA, KZOQ, WZZP, WUVA and more. The lp's in at #49, with a solid projection count for next week.

ATLANTALK...

Georgia Satellites, "Keep Your Hands To Yourself", Elektra.... "Hands' holds on at #1 Most Requested, with half again as many top 5 mentions as #2, 69 to 46. Increases at 18, coupled with 76 heavy reports and 31 powers roll this sucker up to #2 overall airplay—and it's gonna be a dogfight for #1 next week. Notice it did take the top slot on the Core Chart, gaining 7-2 in the Adult rankings. Better start warming up "Battleship Chains", a track you'll definitely be using by year's end.

Pretenders, "My Baby", WB.... "Mirrors" picks up 6 adds and four increases, but thick traffic held it steady at #44. The current count builds to 69, 15 of which have it heavy. "My Baby" is this report's premier performer, with 16 increases, 60 in heavy and 8 in power. Can't argue with the move into the top 10, either. The album holds tight at #3.

Robert Cray, "Smoking Gun", Polygram.... If Mr. C's show in town tonight is half as cool as his charts, watch out!! KICT's Phil Thompson is also stoked about the upcoming show, reporting #1 phones in Wichita..WKFM's Steve Becker just caught the act, and he predicts "This man could be a big as Thorogood"..The most talked about "new" act to crack album radio's ranks rolls up a 29-20 advance, 13 deep in play-ups and 25 strong in heavy reports. Currently top five requested at KGGO, WBRU, WEGR, and KLUW. With 123 now on board, consider it closed.

Bob Geldof, "This Is The World Calling", Atlantic... KZEL's Jim Trapp was one of several programmers raving about "Love Like a Rocket" from the album, a track we hope you'll spend about 4:50 with—because that's about all the time it will take to make you a believer. Meanwhile, the single had another solid showing, with 5 adds, ups at KBCO, WHJY, WRXL, WHFS, KTYD and three more, and heavy action at 23. It powers 28-24, lining the Lp totals 27-25.

Smithereens, "Behind the Wall of Sleep", Enigma.... WBLM's Robin Mathieu is talking results, "Behind the Wall.." has been on for two weeks now and has pushed the album to #12 sales. Pretty amazing!!". KLBK's Jeff Carrol is also a fan, calling it "A good followup to the leadoff track. It's a nice offset to the usual corporate rock". Adds include KZEW, WRXL, WBAB and KLBK, with WONE, WZEW and KOZZ top five phoners and increases from KTYD, KLAQ, KROQ, and WRUF. They're underlined at #41 on the Hard Hundred.

Europe, "The Final Countdown", Epic You've got to respect those acts that blast past biases—be they "too teen", "Video sensation", or "Don't Like the Cover". Here's a prime example of a track that's proven it works across the board. As noted by KNCN's Bonnie Stacy, "The sales made me add it to begin with. The misconception is that they're a metal band, which they're not. It's more like ELP pop rock". From J.D. Stone at WTKX, "Europe has that AOR hook. I catch myself whistling it every time I hear it. It's like peanut butter for the mind". Send that man a big jar of Skippy!! It's now on 53, with WPLR, WAQX, KRNA, WBYR, WDHA, WPLC AND WOUR upping, and top 5 calls at WPLR, KFMX, KRNA, WCMF, WOUR, WPYX and WTKX.

Joan Jett, "Roadrunner", Epic.... Every week we see more, so keep an eye on this one. The torrid WAAF phones continue, with WXXP also now listing top five phones, and KROQ, KWHL and WKWQ increase. New on 6, now on 30, with KORX, KRIX, WAAF, WLIR and WXXP heavy. New at #92. Kevin Vargas comments, "'Roadrunner' moves out of light into medium, proving to be what Heavy Lenny predicted would be a 'strong reaction record'".

Beastie Boys, "Fight For the Right to Party", Columbia.... Here's the perfect counterpoint to predictability. WBCN's Carter Alan comments, "They've had a smash from the first moment it hit the air. 'Fight For The Right' is a natural in this college town, but everyone parties sometime, so it's gonna be a natural". Already on KISS, WBAB, WNEW, KRQR, KTCL, WDHA, WMGM, WPLR, WRCN and more, for 12 total. Get it while it's hot.

Tesla, "Modern Day Cowboy", Geffen... We were impressed from day one—but this from Carter Alan—whoa! " Tesla has crafted a hard rock gem. The album recalls other landmarks in rock history such as Bad Company's first and Def Leppard's 'Pyromania'". WYV's Lex Staley is pretty well freaked, too, saying "The Tesla is the best metal record I've had in the last two years. The production is excellent and the musicianship is there." "Cowboy" climbs aboard at #93, with 27 now playing including KISS, KLAQ, WYV, KGB, WBAB, KZAP, KILO and WYV.

LOGAN'S RUN

Rumor du jour: Consultant Dave Logan leaving Burkhart-Abrams to return to KFOG/San Francisco, possibly as OM. This would explain the firm's listing for a consultant last week. This has been rumor control. Out.

GATEWAY GONESKI

The memo to staff at KSHE/St. Louis read like this:
"We regret to inform you that JC Corcoran elected not to accept the latest offer made to him by KSHE radio the for 1987 contract year. In other words, we have been unable to come to terms. As in past years, both sides have worked very hard and long to come to an agreement that is beneficial to both sides. Because we have been unable to agree, JC will be leaving the KSHE Morning Zoo effective immediately. You may, however, see him around the station until December 31, when his current contract expires. Rich Dalton will be headlining the Zoo, at least until we've found a replacement for JC. From what we've heard, JC has had some very lucrative offers at radio stations located in much larger markets than St. Louis. Please join us in wishing JC the best of luck, where ever he goes. It's been a hell of a time--good luck, JC."

[signed]
John Beck
Rick Balis

With that, the morning host and KSHE parted company, ending a two-and-a-half year run.

And how about that "offers from radio stations in larger markets" part? Sure, the road goes on forever, but Interstate 55 goes from St. Louis to Lake Michigan. NOISE has heard rumors the next off-ramp is in Chicago at WCKG.

Reached in Chicago, VP/GM Marc Morgan said, "No comment." Marc also said he had "talked to a ton of people" about WCKG's PD opening and has "narrowed it down to a few."

STILL UP FOR GRABS

The WLVQ/Columbus morning team of Pat Still and Wags could well be on its way to Detroit for mornings at WRIF. WLVQ is a 12+ knuckle crusher that gets diaries from any living organism in its TSA. (It's got a 16.3, #1 in all cells 18+.) Next year, the audience will declare itself its own nation. To add to the blow at QFM 96, Still is also the PD.

WRIF has been looking for a morning show since losing JJ and the Morning Crew to WLLZ several months ago.

The inside traders say Still might stand Pat, and not leave Buckeye Village. WLVQ wants them as badly as WRIF.

"I don't know," said Pat. "Whoever gives us the stretch limo is in."

SEBASTIAN PROGRAMS KDKB

Call veteran programmer and consultant John Sebastian's phone machine lately? "Or you can reach me at KDKB..." is the last part of the message.

"We were looking for someone who had strong programming capability and great knowledge to give the format the help it needs," said Sandusky VP/Programming Jeff Sattler. He also noted that Sebastian was a Phoenix resident, knew the market from his tenure as KUPD PD, and that "what's really critical down there is execution. We believe that John can create on-air excitement and spontaneity in our Classic Rock format."

(Remember Tampa Bay Coach John Robinson's legendary line? When sportswriters asked about his team's execution, he said he thought "It would be a pretty good idea.")

"Our immediate goal is to execute properly and maximize the potential of KDKB," said John. "The resources of this radio station make me very confident this will be a major success story."

ADVENTURE IN MOVING

Paul Harris has resigned his morning gig at WIOQ/Phila. and goes to WCXR/DC. The former WYNY and WIOQ morning man will do wakeup at the Washington classic rocker, which took a hit in a recent ARB.

"They know that music isn't everything," said Paul. "I'm happy to be going someplace that will let me do my act."

Allison Sax of WGLU/Johnstown to nites at WIZN/Burlington.

Kliff Kahuna exits WHMD/Hammond in a most amazing fashion. He'll be doing weekends at WQUE/New Orleans.

Replacing him as MD is Catfish. We don't know if this one can throw a baseball or not.

John Grappone, formerly WAPP/NYC and WRCN/Long Island, is now doing weekends at WYSP/Phila.

Dan Cook, PD of KZEP/San Antonio (which went Gold last week) lands on his feet at KZRQ/Reno. Sort of a homecoming, as he was at KOZZ/Reno before San Antonio.

Jo Myers joins the KAZY/Denver air staff. A slot will be found for her in the next two weeks. And there's still a vacancy or two to be filled...

Congrats to Wally Walker of KQRS/Minneapolis on his promotion to Programming Advisor. John Lasam is the new MD.

8 1/2 year WSHE/Miami midday fixture Nancy G. has resigned.

KOMP/Las Vegas Adult AOR in the sunbelt is looking for on air personalities with good production skills. Send an air check, resume, and a completely retouched photo to: Sherman Cohen/PD, KOMP, PO Box 26629, Las Vegas, Nev. 89126. No phone calls, please. EOE. M/F/V/H.

Is this a Rock & Roll Rabbinical student or noted AOR PD? Can y'all identify this guy? Answer next week.

PLEN'S PLAN

Michael Plen has resigned at IRS Records. He was VP/Promotion and was with the label for 6 1/2 years.

Actually, he's hoping to get the WNEW-FM job. Whatever. The Kreskin in us says this man has naive nubles in his future.

...And while we're on the subject of that WNEW job, let's talk with sister station PD and Double Digiteer, Ted Utz...

TEDDY BARES ALL

The Ted Utz Interview
Bill and Steveski talk with the PD of America's Premier AOR

Noise: Have you been offered the WNEW-FM job?

Ted: The first thing I want to say about New York is the Giants are going all the way. I don't give a shit what anybody says, they're great.

Noise: Back to the real world...

Ted: The answer is no. From what I can tell, there is no rush to fill that spot.

Noise: We heard you'd been offered it as much as a month ago.

Ted: No. I talk to (GM Mike) Kakoyiannis all the time, just as members of the same group, and there's never been an offer.

Noise: How tough do you think it would be to fill Charlie's shoes?

Ted: Mike said that Charlie was the "only true PD WNEW ever had." Without taking away anything from Scott Muni or Richard Neer, Charlie went in there, with his vast experience, and brought WNEW into the 80's. He made them competitive; he approached the station from a business standpoint.

Noise: Do you want to do New York? Under what conditions would you?

Ted: I think deep-down inside, New York is the town I grew up in, and WNEW is the radio station that got me into this business. I remember everything: Muni starting WOR-FM one year before WNEW-FM, WABC-FM,

WNEW as all-female, the closing of the Fillmore, all the magic moments of New York radio. I think that being a part of that heritage, obviously, has a great deal of appeal. But I don't think that any job in this business could be better than the one I have right now.

Noise: Given Howard Stern's huge numbers in NYC, do you think it's a no-win situation at WNEW?

Ted: No. I think WNEW could have a 5 share. Even with Howard Stern across the street.

Noise: Why?

Ted: I think K-Rock is one of the most boring stations I've ever heard. They sound way too clinical. Anybody who doesn't understand the gains that K-Rock has made in the last year is out of touch. It's ALL Howard Stern. I wouldn't listen to that station for music. It sounds like all the radio stations I haven't wanted mine to sound like.

Noise: Have you seen any Pollack people lurking around the WMMR halls of late?

Ted: No. We already use four different consultants. I think that's enough.

Noise: How would (WMMR GM) Mike Craven feel about losing you? You two are like...well, a horse and carriage. David & David. Gumby & Pokey.

Noise: I would work for Mike for the rest of my life. And from what he tells me, I don't think he would mind that. Because of him, it's very easy to get things done. That's a huge part of the success here: The attitude. The difference between WMMR and WNEW is that it's very easy to get things done at WMMR. And we have so many IDEAS. We use one-tenth of the ideas that come up in this radio station. There's not enough room to implement them all, or time to get them rolling. We can pick and choose ideas; we just use the best ones. And we have the people who are able to make them happen.

Noise: So anyone can give input?

Ted: EVERYBODY gives input. We have community input for the morning show, group input for music and promotions. All ideas are weighed. The Morning Zoo is a good example of group input. John (DeBella) makes it all happen, but he'll talk to everyone: Producers, interns and people in the hallway. He bounces things off people around him for reaction and/or improvement. I think (Promo Dir.) Jack Quigley, Mike Craven, and I do the same thing. Nobody here rules with an iron fist. With so many creative people here, we would be doing ourselves a disservice to program the radio station from behind closed doors.

Noise: You mentioned DeBella. Talk about him vis a vis Howard Stern. (Howard is simulcast on competitor WYSP).

Ted: In the latest Arbitrend, DeBella had a 13.3 12+, Howard has a 3.8. A18-34, we have a 30.6 [NoiseNote: that's not a typo], WYSP has 7.9.

Noise: You even blow Bryant and Jane off the dial.

Ted: Absolutely.

continued

Noise: Why do you think Howard is having trouble taking hold in Philadelphia? Is it his "hillbilly" references on the air? The obscenity issue? Lack of music?

Ted: It's a combination of things. Philly is decidedly different than New York. They've had more complaints about Howard Stern here in three months they have had in years in NYC.

Noise: Do you think that show would work if Howard were in Philly?

Ted: Whether he's here or not, it doesn't diminish the strength of WMMR and the Morning Zoo.

Noise: How much do you think the lack of real localization hurts Stern? That's really what killed Steve Dahl's broadcasts from Chicago to Detroit. Ex-W4 staffers say that he treated Detroiters like second-class citizens, and the karma kickback was nuclear.

Ted: I don't think that's the main problem. And I'd rather not outline the things that are wrong with WYSP. Let's just say that they have made what looks to me like a succession of less than brilliant decisions over the past several years. They could write a book on mistakes.

Noise: Does your research show Classic Rock burning?

Ted: No, I don't think it's burning. I just don't think there's a need in the market for it. We play lots of classic rock & roll. We were the first to do it, and when the time comes, we'll be the first off it.

Noise: Do you deserve the title of America's Toughest Add? The Duke of Drops? (Laughter.) Why do you wait on things like David & David and Hornsby?

Ted: We have a very specific sound in mind. We have a good feel for the way this station should be. We have a music team here that is very much aware what WMMR is to Philadelphia.

Noise: And the hits aren't hits until you make them?

Ted: Without a doubt. And I say that because everyone tells me "if you don't play my tune, I can write off the whole town." When the time is right to play Bruce Hornsby or David and David, that's when we add the record.

Noise: So your timetable is pretty much your own...

Ted: Not really our own. More in tune with the marketplace. What the record companies are facing is a wealth of product from superstar artists. That a Hornsby can make it to Power in the wake of Peter Gabriels, Pretenders, Bruces, Kinks, and Claptons says a lot for the quality of his music. I can name at least fifteen major heritage artists which our audience demands before we expose unfamiliar artists.

Noise: So if rock & roll is what WMMR says it is, when it says it is, if it says it is, could you guys take a polka and make it a hit?

Ted: Most likely, we could. But we want to be true to the radio station's image. When people push the first button on their radio, which is WMMR, we've got to be what our audience expects us to be.

Noise: What's the greatest promotional vehicle for an AOR in 1986?

Ted: No one area in particular. The key is to use every arena to your advantage. Promote what you are and what you want to be, and do it with flair.

Noise: Describe your success in getting your DJs on local TV. Some might argue they're on too much...

Ted: Every one of our jocks are on TV at least once a month, if not ten times a day.

Noise: How do you do it?

Ted: Long term relationships in the market.

Noise: If you could do anything to WMMR tomorrow, no limits, what would you do?

Ted: I would make it 500,000 watts.

Noise: You've got quite a legacy: WAER, WRNW, WAQX, WPYX, WHJY, KTXQ, and WMMR. Name one thing you learned at these stations that helped you become the PD of America's Premier AOR.

Ted: At WAQX, I learned how to deal with the FCC, lawyers, bankers, guys who sell copy machines, telephones, engineers. I even glued the soundproofing to the walls. At WRNW, back in the early days, I worked with Howard Stern for a couple of years. It was our first job out of college. I learned how to have fun in NYC in the radio business.... At WPYX, I changed the station from Beautiful Music to AOR. I hired the staff top to bottom. It was the first time I worked with a consultant--Jon Sinton. It was the first time I had double digits--0 to 13.4 in two and a half years.... WHJY was a big stick in a heavily populated part of the country, and was one of the worst sounding radio stations I'd ever heard. I learned how to deal with futility.... Dallas was the Bigtime. There I learned how to sit in traffic jams, listen to five radio stations at once, while taking notes and not crashing into the car in front of me. I don't really consider Dallas to be my biggest win. I look back most fondly on Albany because that was my creation but, Dallas did more for my reputation. I was determined not to be intimidated. I wanted to be intimidating.

Noise: What's on your mind right now?

Ted: Keeping WMMR on top. We understand the way this business works. We know how the ratings work. We have to keep this station fresh. That's the biggest challenge. This place has been on the air eighteen and half years, so freshness is essential. Dealing with the strongest personalities (on and off the air) ever assembled at an AOR station is really something. I am not hurting for challenges by staying at WMMR.

PICK

FIGURES "THE GATEWAY" (TWIN TONE)

A portrait of the band who escape trite comparisons.... One listen will spark curiosity for a second and third when finally, stunning chord progressions and Jeff Waryan's distinct, throaty vocals take hold in "Dear Lee" and "Five Days...". Here's a collection of tracks cradled in a pure guitar layers, with an honest edge. In this third release, the Figures have mastered a style you've not heard before and deliver on key--don't miss the acoustic kick of "Easy To Slip".

Quick Picks

We could have called this category "Parallel Picks" as the music may overlap, but this week sees some quality independent releases of the psychedelic persuasion on the listening front.... **MOOD SIX "A MATTER OF!" (JEM/PVC)** Single out "What Have You Done Lately" and you'll want to dig deeper on an Lp that's as versatile as one recent Jazz Butcher. Contains strong acoustic flashbacks, but memorable chorus breaks that score points for hip-pop release of the week.... **DREAMS SO REAL "FATHER'S HOUSE" (COYOTE)** Members of R.E.M. have been busy in the last year with side projects, and Peter Buck stops here to lend an impressive hand at the board. "Birds Of A Feather" could be renamed "Byrds Of A Feather", and those psychedelic overtones deserve a blue ribbon.... On another note altogether, lend an ear to **CAMPER VAN BEETHOVEN (ROUGH TRADE)** an interesting combo of players who flirt with the pop approach--but witty, offbeat songs are what you can count on. They deliver the goods with the help of a fine fiddle on "Joe Stalin's Cadillac", and for a killer seg, cue up "We Saw Jerry's Daughter" and wait for "Surprise Truck". After all, rock is all in fun, so book 'em for your next stadium gig....

Single File

RED LORRY YELLOW LORRY "CUT DOWN" (HOMESTEAD) Those who skip out will never know just how good the Lorries sound on the air.... Pure power on plastic is the story and it continues with another black beat-monster. Make room. There's more than one Reed.

CHARTSTARS

JULIAN COPE "WORLD SHUT YOUR MOUTH" (ISLAND) What can you say to the biggest move on our 'young' chart so far? I say it's time for the rest to make a move with the 20 early stations early on this power pop giant, including WXRT, WHTG, WLIR, WXXP, CFNY, KABL, KEYX, KFMH, WDHA, WFNX, KRIX and WHFS. Requests have surfaced at KORX and more are in this forecast. Impressive.

KATE BUSH "THE WHOLE STORY" (EMI) Pardon me if I'm quick to quote, but I'm sure the raves helped fuel the 47-26* airplay move! **Bruce McDonald** is juggling the phones at WFNX: "'Experiment IV' is the most requested song this week by an overwhelming margin. If you care at all about music, it's a MUST for your station." Now at 28 stations highlighted by new adds at WDHA, WIZN, WPLR, WQBK, KROQ, KSTM, WRAS, KEYX, KABL and WMOD.

SHRIEKBACK "BIG NIGHT MUSIC" (ISLAND) It's attained heavyweight status on the chart, reaching newer heights at 3* and the stats sound good as well. We're seeing play on various tracks, mainly "Black Light Trap", "Running On The Rocks" and the soon to be 12", "Gunning For The Buddha". Ask KTCL, WHFS, WHTG, WRAS, WXXP, WLIR, WXRT, CFNY, WFNX, KABL if it will cross! Then consider once more... Still in spin at the above, with a tour to boot. Let the "Music" play...

LOVE & ROCKETS "EXPRESS" (BIGTIME) Let's applaud the format for catching them early. The focus on "All In My Mind" brings new and growing reponse to gain an debut on the Hard Album Chart (D50*) with a surge back up to 5* New/Alternative. **Alison Stewart**, WBRU is "crossing everything I've got for this band. continued

No doubt that Album Radio has uncovered a sssolid masterpiece in this one. "Ship Of Fools" is now at 72 reporting stations with requests at KEYX, KLBJ, KNCN, KORX, KRNA, WKWQ, KLUB, WRXK.

MOVERS

ROBYN HITCHCOCK "ELEMENT OF LIGHT" (RELATIVITY) Each week, the trend improves for an album and artist true to his art form--and you can't ask for much more. DAVID + DAVID "BOOMTOWN" (A&M) Leveling off on this is nothing that a tour won't cure, so get out and see them... "Swallowed" is now at 120 stations, (43% in Power and Heavy) and play won't let up. With a new 12" on the way, this one's going through '87 and the roof...

UNTIL DECEMBER "UNTIL DECEMBER" (415/COLUMBIA) You know it's real when a jock at your station beats you to it right before your shift...just ask Art Boerke, WKWQ. It's in at WLIR, WXXP, KORX, KTCL, WFNX, WHFS, WTOS and KEYX. Phones are active at KABL with Heavy mentions on the Lp at 5 stations.

MUSIC NEWS

MUSIC NEWS compiled by Mike Cooper/Music Now!, P.O. Box 4111, Atlanta, GA 30302-4111 (COOPER.M-US on IMC)

HOLLY JOHNSON seems to be hinting of internal dissent in Frankie Goes To Hollywood. In answering a questionnaire for the British music paper, "Sounds", Johnson's answer for the worst news of 1986 was simply "Frankie Goes To Hollywood." His New Year's resolution was "to make a solo album and get rid of all the unnecessarily aggressive people around me." His favorite record of the year? "Paranoimia" by the Art Of Noise, who notably left ZTT Records, Frankie's current record label. There have been rumors in

England that Pete Dinklage has been lined up to replace Johnson if he leaves the band, but a ZTT spokesman denies knowledge of any changes in the band's lineup or Johnson's plans to do a solo album.

SHIRAZI & THE BANSHEES, who just finished its longest ever North American tour, is now going to South America. Concerts are scheduled in Rio de Janeiro, Santos and Sao Paulo, Brazil, and Buenos Aires, Argentina. They'll be the first British band to play in Argentina since the Falkland Islands dispute. The band's Steve Severin says the group doesn't have any apprehension about the Argentine visit.

"We'd play anywhere except South Africa," he says. "We'd even find the idea of entertaining the troops in the Falklands quite bizarre, but we probably would." The band will have a new album out in February.

QUEEN will soon release a live album of a concert broadcast on British radio a few months ago. "Queen: Live Magic" includes 14 songs.

An exhibition promoting the best of British pop music is setting off on a world tour. The British Council will take two identical exhibitions around 35 countries over the next five years. It's called "Pop: British Music in the 80's". The exhibition includes compilations of promotional music videos, books and sheet music. There will also be some special compact disc listening booths.

Britain's most successful heavy metal group, **IRON MAIDEN**, has handed over the entire income from one of its live performances to charity. The National Society for the Prevention of Cruelty to Children is now richer by over \$40,000 thanks to the group.

Former Japan bass player **MICK KARN** will release his first Lp in over three years next February. The album is tentatively called "Dreams Of Reason Produce Monsters", and is produced by former Japan colleague **STEVE JANSEN**. One of the tracks on the Lp, "Buoy", features Japan's **DAVID SYLVIAN** on vocals.

DURAN DURAN has announced plans for its biggest-ever concert tour. It starts rehearsals in a few weeks, and its first gig will be in Australia on February 27.

GRACE JONES, **SHEENA EASTON** and **FACE TO FACE** are among the performers scheduled to appear at a Boston Against AIDS program at the Metro Club in Boston. Proceeds from the \$50 show will benefit the Boston AIDS Action Committee.

The **STYLE COUNCIL** will appear live again in February with "new songs and haircuts." The band has been working on a new album, and has also made a half-hour film that should be out in March. The group is said to have been "getting out of the album/tour/album routine."

ZODIAC MINDWARP AND THE LOVE REACTION pulled out of Alice Cooper's British tour after Mindwarp was blinded by an eye infection. Just before the tour with Cooper was to start, Mindwarp complained of eye problems and doctors told him to rest for at least two weeks.

A **BEASTIE BOYS** cover version of the Beatles' "I'm Down" won't appear on the band's new album. Michael Jackson, who owns the copyright to the tune, objected to their cover, calling it an "obscenity on the Beatles."

THE CURE's "Killing An Arab" will reportedly be deleted from future U.S. pressings of the band's "Standing On A Beach" compilation, following complaints by the American-Arab Anti-Discrimination Committee. "The title opens the door for Arab-bashing by disc jockeys," contends ADC spokesman Faris Bouhafa. "Unfortunately, Arab-bashing has become a popular sport in this country. When you put out a song like this you invite disc jockeys to go on the air and say, 'Here's a song about killing A-

Arabs.'" The Cure's record label, Elektra, had sent a letter to the ADC saying the song "far from encouraging the killing of Arabs or any other people, expresses the view that killing is insane and useless." But the label agreed to pull the 1980 song from the album, saying the ADC "had a legitimate grievance."

JASON NEWSTED is the new bass player for **METALLICA**, replacing Cliff Burton who was killed in a bus accident in Sweden in October. "I am the happiest kid in the world," says Newsted, who was previously with California band Flotsam And Jetsam. "This is a dream come true." Newsted played a few dates with Metallica in Japan before the band's current U.S. tour.

DOCTOR & THE MEDICS will perform "Spirit In The Sky" in the film "Maid To Order", which will be out next summer. The film co-stars Ally Sheedy, Beverly D'Angelo, Tom Skerritt and Valerie Perrine.

STEVIE NICKS has checked into the Betty Ford Clinic near Palm Springs. Nicks recently announced that she would tour with Fleetwood Mac when it finishes recording its new album.

In an interview on the "Today" show, **IGGY POP** admits to using Soupy Sales as an inspiration for his songwriting. Sales used to encourage kids to keep their letters shorter than 25 words. "You can count the words in all my songs. They are no longer than 25 words," Pop says.

DAVID JOHANSEN narrates an 11-minute documentary highlighting tourist attractions on Staten island, which will be shown at the Staten Island Ferry terminal.

The **BOOMTOWN RATS** has delayed plans to do any touring this year, citing recording commitments. "We are all very upset to think we can't play England this year as planned," Richard Butler says. "The whole group were really looking forward to it." The band has scheduled some concert dates for Britain in February. The group's "Midnight To Midnight" album will be out early next year.

There are rumors in Britain of a new **BAND AID** single, which would be released at Christmas, featuring Stevie Wonder, and called "Brothers And Sisters". "Bob (Geldof) certainly won't be involved in organizing it," says a record label spokesman. "He's up to his eyes in work at the moment."

DAMNED guitarist **ROMAN JUGG** suffered cuts and bruises during the filming of a promotional video for "Anything". He was injured when thrown from the top of a spinning table that features prominently in the clip. "The filmmakers wanted to use stuntmen," says a spokesman, "but the band thought it would be a laugh to do it themselves."

A spokesman for **SIMPLE MINDS** says the group has been invited to appear with **UB40** at concerts in the Soviet Union next summer. The **EURHYTHMICS** and **U2** are said to also have been asked to play dates next year, following the success of UB40's October tour of the USSR. A live album recorded by UB40 during the concerts in Leningrad, Minsk and Moscow will be released early next year in the U.S. and Russia. Also being released is a video documentary of the tour directed by saxophonist Brian Travers. continue

WIRE TRAIN has been in a London studio recording its third album with producer Tim Palmer.

The **MOODY BLUES** won three awards at the Billboard Music Video Awards, while John Cougar Mellencamp, Rolling Stones, Kenny Loggins, Mick Jagger and the Hooters each won two awards. More next week on panel discussions at the conference, which seemed more concerned with the profitability of music videos than with their promotional value.

ERIC CLAPTON went into a Boston hospital for just under a day before he began his U.S. tour, suffering "severe back pain." The New England Medical Center says Clapton's pain was due to a kidney stone. Clapton invited 20 doctors and nurses from the medical center to attend the show at the 1,500-capacity Metro. Clapton had been hospitalized in Minnesota five years ago because of ulcers. One of the songs Clapton performed at the opening date was "Holy Mother", dedicated to Richard Manuel, pianist for the Band, who committed suicide last year.

BILLY JOEL has donated royalties from his anti-suicide song, "You're Only Human", to the National Committee on youth Suicide Prevention. The amount of the donation has not been disclosed because Joel "likes to keep his charitable contributions private," according to a spokeswoman for Joel. A press release from the National Committee quotes Joel as saying that he has "come very close to the edge" himself when growing up, and that he understands "the turmoil experienced in youth." He says he hopes his donation will help the committee "to prevent more young lives from being lost."

LONE JUSTICE opened its U.S. tour in Atlanta, but lead singer Maria McKee had to do the show without having had a bath in two days. She missed a plane in Dublin, Ireland, and had to stay in a hostel for two days while she was stranded there.

ROLO MC GINTY, who describes himself as "a benevolent dictator" of the British band the Woodentops, says he didn't expect the group to last past 1985. "When we started," McGinty says, "I said I couldn't see the thing going on any longer than two years. Now we're on pretty well three, and it looks as though we've got a few more left." McGinty, who admits the band's style is "very English," never expected the band to do well in America. "We were kind of taken aback when we found out we do reach people over here," he says. "Most of the time, we have the nerve to believe that we're original. We figure that we're making a combination of pop songs and experimentation, and we feel our music is lively and intelligent. At the same time, we figure that we're very hard when it comes to rhythms and songs." He says the band is sometimes going in a lot of different directions, but he contends that "variety means, if anything, direction in itself. You show you're not closed-minded toward your art."

STEVIE RAY VAUGHAN is back on the road after taking some time off in Georgia. After having played 219 concerts this year, he began spitting blood during a tour of Europe, and 14 of his 30 dates there were cancelled. He'd also fallen off a stage ramp in London, causing leg lacerations and shock, and his doctors ordered him to rest. In addition, Vaughan had to deal with the recent death of his father. Vaughan has a new live Lp, "Live Alive", just out,

which includes a version of Stevie Wonder's "Superstition". The album was mixed at Wonder's Wonderlove Studio in California.

OMD has sampled some unlikely sounds to create effects for its records. "The Pacific Age" is no exception. It includes sampling of Japanese television commercials. "We were in Japan two years ago for interviews," says Paul Humphreys. "Between interviews, we switched on the television and were blown away by the commercials. We recorded two hours of them, and took one- and two-second pieces and fed them into the Fairlight. There were commercials for Corn Flakes, Seiko watches, things like that. When you don't know the language, the sounds are all quite mysterious." Some other sounds, never used on the band's albums, have been stockpiled for future use," Humphreys adds. "We're constantly writing bits and pieces. We keep a big back catalogue of tapes, and we'll sift through the older ideas and make them into something else."

CHEAP TRICK, X, and a number of local bands participated in a 12-hour "Rock Show For The Homeless" in Boston recently. Estimates of the crowd attending the show at the Bayside Expo Center ranged from 3,000 to 10,000. The show raised money for shelters for the city's homeless. One of the participating local bands, The Movie, is releasing a benefit record in January.

BRUCE HORNSBY will tour the U.S. after his current set of dates opening for Huey Lewis & The News in Europe. He's likely to tour the West Coast first.

Tina Weymouth says the **TOM TOM CLUB** will have a new album out in the spring. The group began work on the Lp last summer.

While Pink Floyd's status remains slightly cloudy, **ROGER WATERS** has some new music just coming out on the soundtrack to the film "When The Wind Blows". A David Bowie track has already been released as a single, and tracks from Paul Hardcastle, Squeeze, and the Stranglers' Hugh Cornwell are also included. Waters composed the original score for the film, which appears on the Lp. The film doesn't open in Britain until January.

ON THE CHARTS AROUND THE WORLD

In Australia: **GLASS TIGER**'s "Don't Forget Me" has hit the top 20.

In Britain: **BERLIN** is spending a 4th week in a row at the top of the singles chart. **KIM WILDE**'s "You Keep Me Hangin' On" has slipped from #2 to #3, while **BON JOVI**'s "Livin' On A Prayer" climbs from #7 to #6. Two of the biggest chart movers are **ERASURE**'s "Sometimes", which goes from #16 to #7 and **DEBBIE HARRY**'s "French Kissin' In The USA" which climbs from #27 to #9. **SPANDAU BALLET**, after only three weeks in the chart, slips from #8 to #11 with "Through The Barricades".

In Canada: **THE PARACHUTE CLUB**'s "Love Is Fire" is at #38. The single comes from its new album, "Small Victory". **BRUCE SPRINGSTEEN**'s 5-Lp chart entered the Canadian charts at #1.

And now, the latest music news LIVE FROM LONDON, courtesy of CFNY and our exclusive reporter, LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on Live From London aired Wednesday evenings.

You can tell fans of The Smiths that JOHNNY MARR is now fully recovered after crashing his car last week (see last week's HR). The Smiths has also rescheduled its concert, an anti-apartheid benefit, although it is now at a south London club rather than the prestigious Royal Albert Hall (as in how many holes does it take to fill). Johnny Marr still has to wear a neck brace for the time being, but the worrying and mysterious shooting pains he was experiencing in his guitar-playing arm have disappeared.

BOB GELDOP's new Lp, "Deep In The Heart Of Nowhere", an Lp which I have not heard yet myself, has been unanimously junked by the British music press in a rare show of solidarity amongst the diverse and fiercely competitive pop weeklies. It received nothing short of awful reviews in "Melody Maker", "The New Musical Express", "Record Mirror", "Number One", "Sounds" and "Music Week". Nevertheless it should be remembered that "This Is The World Calling", while being one of the hottest adds in recent months on North American radio, was only a minor hit here. Certainly there's a galaxy of people helping out - Annie Lennox, Jools Holland, The Mint Juleps, the current Eurythmics and ex-Blondie drummer Clem Burke, Brian Setzer, Eric Clapton, Midge Ure, Alison Moyet and Dave Stewart.

Speaking of JOOLS HOLLAND, he's probably known more these days in Britain as the witty presenter of the weekly Channel Four television programme "The Tube" than he is for his membership of Squeeze. "The Tube" has just won two gold awards at the International Film and Television Festival in New York. One award was for a hilarious film on Elton John in Nice, the other for a devastatingly powerful film of Dire Straits in concert in Jerusalem.

Boy George's brother, KEVIN O'DOWD has had his trial delayed for a further two weeks. He was originally to be tried for one charge of supplying heroin to George - now two more charges have been added: another for supplying heroin and the second for supplying cocaine, also to his brother.

VIRGINIA ASTLEY may not be a name that's familiar to you, but two years ago she was the toast of the independent charts with the haunting and lovely "Love's A Lonely Place To Be" (Rough Trade) and an Lp "In Gardens Where We Feel Secure". Virginia's style comes from an initial training as a classical pianist, utilizing a more left-field approach to what is still essentially a classical style, with a rather fey, pretty singing voice to match. At the time she was compared to an early Kate Bush. It was still very, very lightweight stuff, but there are several reasons why I think the time may now be right for Virginia Astley. Firstly, the era of more new age sounds like The Cocteau Twins. Secondly, she's teamed up with Riuchi Sakamoto and one track, also to be the first single, is a duet with David Sylvian

entitled "Some Small Hope". Virginia is now also signed to WEA as opposed to Rough Trade. However, I suspect this will solely appeal to ALT stations, or others with slots specializing in new age. The forthcoming Lp by Virginia Astley is entitled "Hope In A Darkened Room". On the subject of ROUGH TRADE, the flagship Indie, it seems to be in some trouble this week. The detailed story is somewhat complicated, but in a nutshell, a dispute has broken out in the company about the alleged misuse of some local government grant money, causing some key members of Rough Trade's staff to walk out. It is unclear at this time how serious this has affected the company that houses The Smiths and The Woodentops, amongst others, but one report claimed that Rough Trade was "fighting for their very survival."

It was rumoured a few weeks ago that dastardly MALCOLM MC LAREN was teaming up with, of all people, JEFF BECK for his next project. This has now been confirmed. Malcolm has just signed a new deal with CBS who revealed this week that the pair is recording what has been described as "Malcolm ripping off English music hall songs and giving them a hip-hop treatment." Sounds ghastly.

Sources close to the CULT would have us believe that band member Les Warner saved a girl from drowning this week. As the gossip columns have been only too eager to point out, this is probably not the whole story. Les went to a lavish bash at The Manor studios, got a bit wrecked and wound up outside by the lake, clambering into a boat with two young ladies. The boat capsized and Les was luckily not so out of it that he couldn't fish out one of the young ladies who couldn't swim. But what was the purpose of his clambering into boats in the dead of night in the first place one wonders??

MARTIN DEGVILLE is fast establishing himself as the rudest man in rock. The Ziggy Ziggy one managed to insult many people at one party. He turned savagely on Roland Gift of The Fine Young Cannibals, demanding to know why he made a "hideous" remake of Elvis Presley's "Suspicious Minds". He told Sting he was extremely ugly and, still not content, asked a group of B.A.D. fans why they wear ludicrous baseball caps with B.A.D. written on them. Martin is no great beauty, makes music that sounds like Jiffy Pop gone wrong and as for what his fans wear - well!! A case of the pot calling the kettle black methinks.

The music paper "SOUNDS" claims with certainty that HOLLY JOHNSON is quitting Frankie Goes To Hollywood, but then it produces the most flimsy of evidence: several sarcastic remarks Holly made in a questionnaire it gave him. I talked to PAUL RUTHERFORD this week and he was a bit cagey when it came to this subject. He said that if Holly was leaving he hadn't told him. He indicated that the future of Frankie hinged on the success of "Liverpool" which has become massive in mainland Europe with "Rage Hard" going straight to number one in West Germany. He said, "I know we're not exactly flavour of the month or the darling of the British media this time around." He seemed very cheered when I informed him that I had spotted several adds for "Rage" in "The Hard Report". "Yeah, it seems as if we're getting off the ground

there. The initial reports we'd heard was that the new stuff had done nothing over there, but then I heard first from Montreal that we'd suddenly skyrocketed." Paul also took great pains to point out that the group had become bored and listless as a tax exile in Ireland and Spain. "We've come home now and we're a lot happier." "Warriors Of The Wasteland", FGTH's second U.K. single, is doing much better and the group managed to pull off a fab performance on "Top of the Pops" which should push it further.

ZODIAC MINDWARP AND THE LOVE REACTION, an outfit in a similar psychedelic vein to Dr. And The Medics, had to unexpectedly cancel a date when Zodiac himself was blinded by an eye infection. At the sound check for a concert at The Camden Palace, Zodiac was in agony and had to be rushed to hospital where he was made to wear an eye patch and instructed to stay at home for two weeks. But the mysterious infection has still not been properly identified.

Brave as always, SIOUXSIE AND THE BANSHEES is setting off to tour some previously unexplored places in South America, having now wrapped up its North American tour. It'll be playing dates in Rio, Santos, Sau Paulo and Buenos Aires - which because of the Falklands War and the British Government's continuous ridiculous stance toward Alfonsin's Argentina, is considered a bit of a no-go area for British artists. But Steve Severin retorts that the band felt much more apprehension playing Brussels after the Heysel Stadium disaster. New Banshees material is expected out in late January.

The winners of the "STAG"/"HOT PRESS" awards will be announced at a special ceremony in Dublin on 12th December. These Irish music awards were premiered in 1980 with previous winners including the likes of U2, Light A Big Fire, Bob Geldof and Clannad. These awards have been fairly low budget until this year: for the first time there will be proper stage performances and videos and it will be broadcast live on the Irish TV network - RTE. I'll bring you the results. Also, ballots are starting to go in for the British Phonographic Industry awards, the U.K. equivalent of The Grammys, which will be held in February.

The American-owned and operated pirate radio station LASER is set to go back on the air this weekend. Laser, which broadcast a slick mixture of Top 40 hits and oldies, became a genuine ratings threat to rather staid local commercial stations like Capital Radio, but a year ago its ship was impounded by the British government after literally being starved out by a nearby government ship, preventing the illegal supplies to Laser from mainland Britain. (Its fellow pirate, the veteran Radio Caroline, suffered no such problems. Being smarter, it is supplied from places like Spain which the U.K. government cannot prevent.) Ironically, Laser is still using its original ship, The MV Communicator, which was bought secretly by the company from the government and breezed out of the docks in Harwich, England, under the Panamanian flag only to return to its original mooring 17 miles off the Essex coast. Laser will circumvent the tough British anti-pirate laws by selling advertising time through a Dallas company called Radio Waves Inc. Five American deejays are waiting in the continent to join the ship and one Englishman, a former BBC newsreader. The dear old government, who has had the wool truly pulled over its eyes, is reluctant to comment.

Pirates of a different and more sinister kind came to a sticky end this week. Three audio cassette pirates operating out of Brighton received prison sentences of twelve, nine and six months. The prosecutions followed a tip off from the BPI (the industry watchdog) and police raids on factories capable of churning out 2000 cassettes a week. As we all know, there is nothing even faintly heroic about these sorts of pirates who rip off the artist and the customer with their shoddy quality tapes.

BERSERKLEY RECORDS, the west coast-based label, is about to reopen a U.K. branch after an absence of eight years. When it did operate here, it brought artists like Jonathan Richman to the public here with feverish response. Berserkley plans to kick things off with several "best of" sets.

The radio series that is causing a sensation here at the moment is "YOU'LL NEVER BE SIXTEEN AGAIN", BBC Radio One's seven-parter on the history of the British teenager, spanning 1945 to the present day. Peter Everett, the mastermind and producer of the series, says he was amazed to discover that nobody had attempted a show like it before. Everett uses a mixture of music, people today remembering what it was like and a huge wealth of archive interviews with teenagers then and clips from so-called teenage shows of the time. Most entertaining of all, of course, are the clips of moral majority types throwing up their hands in horror. "I see no appeal in animals bellowing down microphones with self-gyrating pelvises" shouts one late fifties interviewee. Everett told me that he's less confident about the current youth of Britain. "Nobody's interested in teenagers, because they don't make up large numbers, and in a Britain of high unemployment they don't have any money. The people who are buying the Bruce Springsteen boxed sets are around thirty. So they're economically unimportant and all the big battles have been fought for them by previous generations. They can't shock anymore even if they wanted to. you can't be more shocking than the punk look, which is now commonplace - I mean, how many colours can you dye your hair? They could all walk around naked, but the hippies already did that. So there's nowhere for them to go."

EVERETT's series, which is bound to be an award-winner, could not cross easily to your side of the pond. Seven straight non-commercial hours are simply too much to have appeal beyond these shores (how many Americans know much about Teddy Boys or mods or TV shows like "The Six-Five Special" and "Ready Steady Go"?) but an hour special out of the whole series might be an idea. Or who's going to be the first to raid the archive vaults of an American radio network and come up with a similar show for the States is perhaps more to the point. Peter Everett has also published a fact-packed book called also "You'll Never Be Sixteen Again" which is published by BBC Publications and in this country costs \$7.18.

IN BRIEF

THE STRANGLERS is about to release a limited edition "Big Mac" shaped picture disc for its new single "Big In America" taken from the Lp "Dreamtime".... Only one artist in the known universe

continued

would give away a calendar with her next single. Yup, SAMANTHA FOX, the lady who has shamelessly redefined the word mammary, has set the women's movement back to - ooh - at least the suffragettes and puts out records with about as much whizz as The Partridge Family. The 12" also contains a "Christmas message" from our Sammy. And what's the latest title? "I'm All You Need". Oh, yes, indeed... We won't hear new material from THE STYLE COUNCIL until at least next February, but it'll be previewing some of its new material on a U.K. tour in January. It's also working on a film which is said to have a proper plot with the duo acting!... ELVIS COSTELLO is currently doing the same sort of thing he was doing on your side of the pond: he's playing a whole week at The Variety Theatre here in London and plays another whole week at The Royal Albert Hall in late January. What a chap!... MICK KARN, the former bassist for Japan is coming out with his first Lp in three years called "Dreams Of Reasons Produce Monsters" (Pretentious non?) and a taster single comes out in January called "Buoy"... HALF MAN HALF BISCUIT, THE SHOP ASSISTANTS, THE SOUP DRAGONS and STUMP are all featured on a new collection of Indie artists called "C86" which comes out this week on Rough Trade.

NEW SINGLES

My single of the week is without doubt the newie by THE HOUSEMARTINS called "The Caravan Of Love" not found on the Lp "London 0 Hull 4". It's an old Isley Brothers number sung entirely in acapella and is sure to be a big Christmas hit. It reveals yet another side of the talented outfit who can do those blasting sixties-style numbers so prevalent on the Lp, the remixed "Think For A Minute" which is slow and sweet, Communards style, and now this which displays their surprising vocal ranges and their evident soul influences.... Another excellent single by TALK TALK is "I Don't Believe In You". Slightly harder to get into as some of the other obvious winners, but TT adorns this record in real painful sincerity - a bit like Elvis Costello did on "I Want You". A real grower that is bound to touch somebody somewhere.

CHARTS

Entering the Independent label Lps at number one is "The Moon And The Melodies" by THE COCTEAU TWINS WITH HAROLD BUDD (4AD). CFNY's music director Ivar Hamilton has really jumped on this, so don't necessarily go by my own reservations last week. Certainly the army of Cocteau fans is a force to be reckoned with.... Jumping from #20 to #4 in the indie singles "Kiss" by AGE OF CHANCE (FON). A tough, gritty remake of the Prince record which rocks and grinds as much as the purple one funkied. Recommended.... Deposing The Smiths off the top of the indie singles is "Sometimes" by ERASURE (Mute). A glorious throwback to the days of Yaz with Vince Clarke's latest outfit and should please those on the dance floor.

TOP 40 LPS

"The Final Countdown" by EUROPE makes an impressive new entry at #37. Absolutely perfect rock

for U.S. AOR stations, which makes the band name slightly ironic.... New at #31 "Rockbird" by DEBBIE HARRY. Radio One just played a two-parter of "The Debbie Harry Story" which worked very well, particularly her amusing accounts of the early pre-Blondie days. Saturation press coverage here, too, people are real interested.... New at #15 "Disco" by the PET SHOP BOYS. Expect every band in the world to now remix its singles and call it an album. Who are we to question - they're the market, we're the suppliers. Better get it.... New at #14 the excellent new Lp by THE THE called "Infected" - minus now the original controversial sleeve.... The highest new entry at #7 is SPANDAU BALLETS's "Through The Barricades". Proving perhaps its strength is in being a solid albums band as the single only peaked at 6.... "The Whole Story" by KATE BUSH, her singles compilation, climbs one place to #2 with "HITS 5" by various CBS/WEA and RCA artists at #1 for the second week.

TOP 40 SINGLES

NEW ENTRIES: "Candy" by CAMEO, #39. "The Miracle Of Love" by The EURYTHMICS at #38. "War" by BRUCE SPRINGSTEEN at #27. "So Cold The Night" by THE COMMUNARDS at #26. More of the same. "The Rain" some inspired funk by ORAN "JUICE" JONES is the highest new entry at #25.

CLIMBERS: "All Fall Down" a highly original single by ULTRAVOX with the Irish pipes and drums supplied by THE CHIEFTANS climbs 10 to #30. "Land Of Confusion" by GENESIS climbs 8 to #21. "Warriors Of The Wasteland" by FRANKIE climbs 6 to #19. Up 3 to #9 "French Kissing" by DEBBIE HARRY. Up 4 to #8 "Each Time You Break My Heart" the Madonna composed and produced record for WEA stablemate, hunky NICK KAMEN. The highest climber goes from 16 to #7. "Sometimes" by ERASURE (see Indie charts). "The Final Countdown" by EUROPE gets threatening at number 2, but "You Take My Breath Away" by BERLIN continues for the fifth week at number one.

Finally, I'm sure across the width and breadth of your great continent there are as many Syd-heads as here. I speak, of course, of crazy Syd Barret, the founder member of Pink Floyd whose whereabouts and activities since have fascinated thousands. Producer Alan Duffy has been compiling an Lp called "Beyond The Wildwood" featuring 14 new bands covering Barret classics. Duffy says that the idea is to get some much needed royalties for Syd who's apparently living on his own in Cambridge and is in a pretty bad way. The Syd Barret legend looks set to continue into '87 too as EMI plans to release an Lp of previously unreleased material.... Until next week then, shine on you crazy diamonds - cheerio.

Dave Hamilton, KQRS, Minneapolis

I'm pleased to announce two promotions within the programming department at KQRS. Wally Walker, PM drive personality, has been elevated to Programming Advisor/co-Asst P.D. This move will broaden Wally's input regarding the overall direction and strategy planning at KQRS. In addition to Wally's new non-music responsibilities, he will remain a voting member of the weekly KQRS new music meeting. Wally is an eight-year vet of KQRS and now the leading FM PM drive personality in the market. He's the cleanup hitter on the KQ team.... John Lasman has been elevated to MD at KQRS. John has been a Programming Asst. at KQ for the last year. I've always felt that John has great ears. He discovered **Bon Jovi** among thousands of basement tapes in 1982. Last time I checked Bon Jovi's LP was #12 in America. I'm thrilled to have inherited both top notch broadcasters and I'm happy to see their careers take off at KQRS. John will be available 10 til noon Mon thru Fri.... **FROM JOHN:** Being named MD at the Mt. McKinley of radio, is like reaching the top of the Grand Tetons. Growing up in Minnesota, KQ has always been a big part of my life and I'm grateful for the opportunity. Thanks Dave and Wally for the shot.

Ace Paladino, KRIX, Brownsville

So you think no one cares about **Robin Trower**? I beg to differ. "No Time" is the essence of Trower. Give it a spin and you will agree. Top Ten phones don't lie.... **Black And Blue** has always done well here and "I'll Be There For You" is no exception. Their most accessible track since "Miss Mystery".... And much must be said for **Bon Jovi's** "Wanted Dead Or Alive". It's #1 most requested and shows no signs of cooling off.

Cindy Bailen, KZEW, Dallas

Things have opened up enough for Rob and I to add two personal favorites this week -- the **Smithereens** and **Love And Rockets**. As I keep telling everyone, I'll get to everything before the end of the year.... The **Bon Jovi** phenomena won't go away any time soon and "Livin' On A Prayer" is your logical next step.... We had a terrific visit from **Steve Miller** last week when he returned to the Dallas/Ft. Worth area for the Thanksgiving holiday. Steve is an articulate and talented speaker. Top 40 radio is really missing the boat on "World". Not only did Steve chat for an hour in afternoon drive, he came back a few days later to spin some of his favorite blues records on our late evening show. Thanx to Steve Miller and also to Frank Palumbi of Capitol.... Did everyone see Steve Feinstein's column in last weeks R&R on alternative music shows? Read about the Zew's own Asst MD George Gmarc and listen to his aircheck of the R&R Alternative show.... By the way, if you've read the article about radio formats in the current issue of Musician magazine, what did you think about it?

Russ Mottla, WAAF, Worcester

1, 2, 3, 4, 5, 6, Roadrunner Yeah!.... If you look up the definition of fun in the dictionary, it says, see **Housemartins!!!!** Merry Christmas.

Rick Panneck, WAPL, Appleton

I would like to thank **Honeymoon Suite** for stopping by the WAPL studios for an interview before their show in Oshkosh. Canadian rock rules in this market as proven by the 2000+ sell out at Albee Hall.... We can party this week -- **World Party**, that is. "Ship Of Fools" is a great cut that adds a little

spice to the playlist. How can a hit song hurt you?.... The new mix of **Journey's** "I'll Be Alright" fits right in with what we're doing. It's getting to be that time of the year where record companies start sending out their holiday gifts -- candy dispensers, briefcases, edible underwear, and perfumed foot powder. Send something we can use...C.D.'s! Oh, yeah, one thing -- the Bears are not going to make it to the Super Bowl this year.

Robin Mathieu, WBLM, Lewiston/Portland

Bon Jovi's "Livin' On A Prayer" is an instant add. We've had calls for it since it was released and there's no doubt it's what the Bon Jovi fans want as a follow up.... "Behind The Wall Of Sleep" by the **Smithereens** has been on for weeks now and has pushed the album to #12 sales -- pretty amazing!... I hope over the holidays, **Love & Rockets** builds the way **The Cult** should have last year. We're not playing it yet, either, but open your ears to "All In My Mind". It's a one-listen song, destined for AOR and the rest of the album shows lots of potential. I've been listening for weeks and hope it kicks in!

Ellen McKinnon, WEQX, Manchester

Can't wait for the **Rave-Ups** Lp. "These Wishes" has sounded so good for so long!... **Shriekback**, **New Order**, **The Lucy Show** and **Love & Rockets** moved up due to the fact that they all sound so great. Playing them sets us apart from stations who play **Boston** and **Survivor** every ten minutes.... **Robert Cray**, **General Public**, **Stevie Ray Vaughan**, **Georgia Satellites**, and **The Kinks** are among our hottest.

Bruce McDonald, WFNX, Boston

"Experiment IV" from **Kate Bush** is the most requested song this week at FNX by an overwhelming margin. If you care at all about music, "Experiment IV" is a MUST for your station.... Last Saturday night, WFNX packed the Channel Club for a special show with Australia's **Hunters & Collectors**. These guys are an impressive live act with unlimited potential, and I'm certain that they will be the next group to break out of Australia in a major way. Keep your eyes and ears open. Thanks to Paul Brown and Michael Rosenberg of IRS.... The phones are still active for the **Chameleons UK**. People were very disappointed when the tour was postponed.... New interest has developed for the **Golden Palominos!**

Chris Emry, WIYY, Baltimore

The season for giving is upon us so in the true spirit of the holidays we're giving our listeners a whole mess of great new music. Let's start with "Battleship" from my favorite new group of '86, the **Georgia Satellites**. The whole Lp is custom made for drinking beer and driving fast. Here comes another cut from the comeback player of the year, **Steve Miller**, also known as the "Bruce Buster". You can blast those BMW cruisin' Yuppies back to the Fillmore West with KBC's "America". It's as close as you'll get to that good old **Airplane** rock and roll activism of the 60's. Great lyrics. You want a great guitar pack: **Robert Cray** together with **Stevie Ray** and **Clapton** -- now there's a pack that will send your computer into the meltdown mode. Here comes more **Pretenders**, **Kinks**, **John Fogerty**, **Eddie Money**, and **Van Halen**. I'm sure glad I don't have to wrap all that stuff.

Harve Alan, WCCC, Hartford

A few really fine shows just passed through Hartford. Last night comedian Sam Kinison was great on stage and in our studio. This past weekend we had a great performance by the **Charlie Watts Orchestra**. From what I heard, it was a spectacular big band show. Also, on Friday I got a chance to see **Zebra** for the first time in a couple of years. If they come to your city, check them out. Zebra's three pieces of solid rock and roll. Getting a few requests for the record.... It's nice for a change not to have oodles of music to talk about. Let the holidays begin!!

Ty Banks, KQWB, Fargo

We love the **Jason**. We had started off adding "Shotgun Blues" because it was closer to "White Lies", which was huge here from the last album. Due to national pressure, we converted to "Golden Ball And Chain". Greg Steel from the station saw the tour with the **Satellites** in Minneapolis two nights ago and said it was a phenomenal show.... We like the **Hornsby** very much. The first two tracks were top five phones here and we've been waiting on this one so as not to burn it out.... **Iggy Pop's** first single did well with top 10 sales at one store and better than average calls. That's surprising for Iggy Pop; so "Real Wild Child" is in.... It's nice to hear **Robert Cray's** blues rock sound on the air here. This market didn't play **Stevie Ray Vaughan's** first or second albums, so Cray is a rather different sound for the area. Now the Texas Blues rock sound is being really well received, and I expect "Smoking Gun" to do well. We're already getting inquiry calls.

Rad Messick, WDIZ, Orlando

Top 5 calls: **Steve Miller** continues to dominate the phones, and it's nice to have that extended "World" mix.... After Steve, it's interesting to note that rougher textured songs seem to be getting the most response; i.e. **Stevie Ray's** "Superstition", **Georgia Satellites** and **Eric Clapton**. #5 calls is **Ben Orr**.... Adds: **KBC's** "America". Nice to have another politically topical song.... **Bon Jovi**, as we push onto five million.... And **Timbuk 3's** "Life Is Hard", my New/Alternative add of the week, with **Love And Rockets** also looking good for next week.... Increases: **David And David** goes to heavy, getting good phones. "Swallowed" could be a second "Boomtown", and with serious CHR interest, why not do it first?.... **Ben Orr** goes to power, and the **Sats** go to heavy. Also considering **Tesla**, for that rockin' edge into the holidays, and **Europe**.

Patty Martin, KMBY, Monterey

I think the new **Bon Jovi** track is the strongest track so far, with a good punchy hook -- and a much better feel in general than the first track. Meanwhile, "Wanted" is still #1 requested.... I love the **Pretenders** "Room Full Of Mirrors", which is getting moderate calls so far.... Added the **Outlaws** "One Last Ride", which I think is a better song than "Soldiers Of Fortune".... Play increases include **Europe** light to medium. It's starting to pick up after two weeks in light.... Also upped **Stevie Ray** to heavy -- phenomenal calls!... **Ric Ocasek's** "True To You" goes to power, probably working better for us than the first single did. That's because it sounds more like **The Cars**, with more punch.... **Hornsby's** "Western Skyline" goes to medium. That song is also working better for us than anything else on the album. I like the Lp a lot and it really hasn't worked for us yet.... **Ann Wilson** also moves up based on great air sound and interesting phones.

Greg Mull, WRXK, Ft. Myers

Bon Jovi is still my #1 phone item with "Wanted Dead Or Alive", so I'm not in any hurry to pick up on the next track. The song has never been played in my market and we're having great success with it. The rest of the top five: **Henley**, **Steve Miller**, **Boston** and **World Party** (with MTV play on the "Private Revolution" video also generating calls).... The **Smithereens** move light to medium this week, with "Blood And Roses" still doing well.... We also upped the **Robert Cray**. This station had some roots in jazz and played him before, so the market is aware of him. The fact that we're playing him now gives us a bit more continuity in the market.... We expect the **Outlaws'** "Last Ride" to do well. It just needs more exposure.... I like "Life Is Hard" better than the first single, and based on current top 40 play on "Future" we ought to be all over this track.

Cathy Down, WLNZ, Lansing

We're onto our third **Eddie Money** track with "I Want To Go Back". The Lp is still holding its own in the top 20.... **Bon Jovi's** "Living On A Prayer" will be another huge smash for him. He's still got top 10 album sales.... We also added **Dokken's** "Sun", since Lansing has always been a big Dokken town. I'm sure it will go over really well....Increases: **Paul Young** goes light to medium. It's proven itself and is picking up. Same with **Price-Sulton**. They're both testing really well.... The **Georgia Satellites** keep getting hotter and hotter as well. Huge phones at this point, actually getting close to Bruce.... We've been on **Europe** for a while and it's finally taking off. Mostly male calls at this point.... And one song that's really taking off now is my favorite from the album, the **Pretenders'** "My Baby".... **Iggy** is also starting nicely on the phones. I love that song, probably one of my favorites on the air right now.

Kelly Cruise, WEGR, Memphis

What's wanted here is **Bon Jovi**. There are a lot of calls and some of our older listeners are surprised that a rocker like Jon has come up with a song like this.... We played **John Eddie's** "Pretty Little Rebel" on our new music hour and the initial response was great. It's a hot little record, and what a band!... **Journey** came through town over the weekend and did a fantastic 20-song set for a sold-out crowd (there was no opening act).... Coming up on the tenth the **Eagle** is co-sponsoring **Til Tuesday** at a local club.... **KBC's** "America" gets the week's only increase.... We're getting lots of calls for **Europe**, **Clapton** is close to top 5 Most Requested, and we're considering **John Eddie**, and possibly **John Parr**.

Bob Bittens, WHCN, Hartford

It's the end of the year wind down time. I, for one, am looking forward to a break from the radio record game and an opportunity to clean up my office. I know there is a desk in here somewhere and I intend to find it. Meanwhile, we'll take care of a few loose ends.... We made an early commitment to **Iggy Pop** with an add out of the box on "Cry", so it's only fair that we continue our support by adding "Real Wild Child".... The **Kinks** have also found their way to the WHCN airwaves this week, but I'm going to have to trust my ears and go with "Lost And Found", my choice for best track on the album.... I'm also gonna go along with the majority and add the **Ann Wilson** record. I don't hear it, but then I predicted that the last Heart album would be a stiff. So what do I know?

Art Boerke, WKWQ, Columbia

I can't believe all the people raving about the new Clapton album. Granted, "God" has been around since about day 3 rock and roll time and he has had his share of moments, but he really hasn't done anything THAT great in 15 years. Sure it's gonna sell, sure, we'll play it, and sure we'll get calls for it, but a great a Lp? Give me Jason, Broken Homes, World Party, Smitherens, Hitchcock, Satellites, or any of the hundereds of bands hungry for that success. I agree with Tom Scheppeke for the most part, but at least Lionel writes most of his songs. By the way, great smoking jacket, Eric.... Now where was I? Oh yeah, smoking. It's great to see my favorite Stooze, Iggy Pop with such a great and excepted comeback album. Ex-Pistol Steve Jones and the Ig make a great songwriting team. When I first saw "Repo Man" I new they had something. Check out "Winners And Losers" if you're not afraid of long songs with teeth. I think it's cool that MCA decided to lead with a Kinks tune penned by Dave Davies instead of brother Ray. Definitely not for the AC crowd, but who says 30+ year olds are all wimps? Hell, it's not like it's Megadeth or anything. Although personally I like them too KBC "America" moves to heavy. God, the song makes my arms hairs stand at attention. Too bad there aren't more similar Kantner/Bowan messages contained on the debut. We finally got the Robert Cray album (Jump up and down with glee). I had to trade Pat Cox with the WUSC (the university station) a pair of Ratt tickets for it, but we have it! In closing for this week, I'd like to add that I'm not usually this irate, it's just that Tommy Keene's in town tonight and I have to miss it and I'm sure Mike Scott, the jock on before me will play Until December's "Heaven" (my favorite current), just before I get on the air. He likes to dance around the studio to it. He looks pretty ridiculous too.

Kevin Vargas, KWHL, Anchorage

Timbuk 3 did well with a funky-tonk song about things that are so bright, extra polarization is needed. Now IRS follows up with T3's more obvious perception of the darker side of emotion. Timbuk 3's debut is one of 86's most promising. Pat MacDonald and Barbara K conceive catchy, thought provoking lyrics. And they're complemented by arrangements that fit the mood and flow of the songs.... We've added Europe's music with a message, "Final Countdown" in light -- we'll see how it develops (probably better than Kodachrome, since this is a rock & roll town).... Joan Jett's "Road Runner" moves out of light into medium, proving to be what Heavy Lenny called "a strong reaction record." The reaction is going to be even stronger now that Joan and Kenny Laguna have presented us with a customized Alaskan version. This is undoubtedly the most unique version they've done. But that's because our area is one of America's most unique. Stop by when you're in the neighborhood.

The Rave Ups' "These Wishes" / "Big Wide River" 12" jumps to 45* on this week's New/Alternative chart, the only 12" on the chart! This record continues to build at AOR with 38 stations. The Rave Ups deliver some of the BEST new guitar based music in America today, WORTHY of your consideration! New on: WGLU, KLWD, WVVV, WMDK (Both sides) and more on the way.... This band is getting bigger every day! Fun Stuff records has moved and the new address is: 3960 Laurel Canyon Boulevard #429, Studio City CA 91604

Richard Pachter, Promotion In Motion

Had a great time in Ft. Myers visiting old and new friends. Welcome to WKDF Judy McNutt! Congrats to Catfish at WHMD for getting the MD gig. Isn't the Julian Cope record fantastic?! Watch out for the CS Angels album and a new band called Wednesday Week produced by Don Dixon. If you're into C.D.'s pick up the Japanese import of "Cry Of Love" by Jimi Hendrix. YOW!!

Bob Allen, KFMQ, LINCOLN

I'd like to thank Jay Hart of Elektra for the visit, and Ron Geslin of EMI for the help in putting together the Georgia Satellites/Jason concert package. Nice work, Ron and Jay.... On the strength of their continued top 5 phone action, the Satellites move into a power rotation this week.... Also thanks to Roger Mayer from Chrysalis for the visit. Roger exposed me to one of that label's developing young talents at a live concert here in Lincoln. The band is called The Fountainhead. Live performances are usually a good barometer of a recording act's potential, and based on what I saw and heard last week, The Fountainhead should have a bright future. Dig out their record and give it a listen. You might be suprised.

Doug Clifton, KBCO, Boulder

Thanks to the **Georgia Satellites** and **Jason And The Scorchers** for making our first live broadcast a huge success. Both bands performed in front of an SRO crowd at Boulder's Coast on Thanksgiving eve. We broadcast about 30 minutes of each band's set. Especially hot was the Georgia Satellites' version of "Keep Your Hands...". We're looking forward to more live broadcasts on KBCO as we enter our tenth year as Colorado's adult album rock leader.... A few records that you may want to go back and give a second listen to: **Kate Bush's** "Experiment IV", the **Woodentops'** "Give It Time", **Broken Homes'** "In Another Land", **Don Dixon's** "Praying Mantis" and **Robin Trower's** "No Time".

David Hall, WKDF, Nashville

The **Georgia Satellites** are the hottest thing on our airwaves. They've got #1 requests with strong support from both sexes and all demos. Whenever "Keep Your Hands..." is played, I hear the same comment over and over, "I just LOVE that song!!".... **Benjamin Orr** has a smash with "Stay The Night" but what really impresses me is the depth of his album. "Too Hot To Stop" is the most infectious song I've heard in a long time, and "Circles" and "Spinning" are both good, too.... **Bob Seger** plays here in less than two weeks, and tickets sold out in less than half a day. We auctioned off two front row seats to benefit our "Rock For Toys" fund, and get this--the winning bid was \$1,500! Seger excitement is high and "Miami" is moving too hot to capitalize on it.... **Ann Wilson** is getting top five phones and they're so well deserved for such a great song.... **Robin Trower's** "No Time" gets immediate phone reaction from older males, a classy bluesy tune that sounds great on the air.

Michael Davis, KFMG, Albuquerque

First, a plug for one of the hottest new bands I've seen in a long time, PolyGram's **Cinderella**. We look forward to their return on the 1987 **Bon Jovi** tour.... Speaking of Mr. Heartthrob, his "Living On A Prayer" will be very big, so now is the time.... Another **Rock 108 Concert Celebration** in the works features **Ratt**, **Cheap Trick**, and **Poison**.... We like the sound of **Cheap Trick's** "It's Only Love". It starts in medium this week.... **Rock 108** switches tracks on **The Kinks** to "Working At The Factory".... Other projects working quite well include the **Stabilizers**, **Steve Miller**, **Zebra** and **Europe**.... Hot phones continue on **Bon Jovi** and **Steve Miller**.

Ralph Tortora, WBAB, Long Island

The trick to hearing the new **Til Tuesday 12"** is to listen to the beautiful **HOOK**. It's kind of the title tune and it's perfect for the holidays, too. So add it, even though it's kind of sad. This Lp was recorded digitally (nice going, Caplan) and was produced by **Rhett Davies**. The reason I'm getting so excited is the record came out when I was on vacation and I never got around to really hearing it til Wednesday...of last week. Another reason I'm excited is that we did a concert with them. It was an excellent crowd, a great show, and they were a great interview, too. My personal favorite is "On Sunday". It's aces. This record will not go away and should not go away. You hear that Epic? This is a hit album. Do not take "Bruce!!" for an answer.... The **Outlaws** did a show Thanksgiving Friday on the Island, and they look and sound great. If you haven't checked out "One Last Ride", it's really pretty and sounds great on CD.

Ron Diaz, WYNF, Tampa

Stuff I've been digging lately includes "Take A Chance" from **Clapton's** "August" album, with the **Brecker Brothers And Slowhand** teaming up with **Fabulous Phil**. It's an all fuckin' star cast.... **Bon Jovi's** "Living On A Prayer" has been on the air here for quite a while, and as I stated when "Slippery" first came out, 'tis the strongest track on this record. Great phones and call outs and obviously selling through the roof.... In the follow-up smashes department, "Western Skyline" from the new **Bruce** and "America" from the real **Airplane** and the powerpop of **Julian Cope** sounds good; easy to get hooked on and lots of fun.... My fave tracks on the new **Kinks** are "Working At The Factory" and "Lost And Found". That's the kind of **Kinks** we've known and loved all these years.

Michael Dalfonzo, WSHE, Miami

The **KBC** sound has definite **Jefferson Airplane** overtones with 80's updating. The first single is still in heavy as we add this great follow-up.... Coming on the heels of "What About Love", **Til Tuesday's** "Coming Up Close" ought to cement the band's superstar status. Listening to it again when I was coding it into the computer, it sounded even better to me than it did a few hours earlier in the music meeting at noon.... Also added the **Bon Jovi** power ballad. From a guy who was real hesitant to play "You Give Love...", consider me a converted fan.... **Paul Simon's** "Graceland" was the only play increase this week, from medium to heavy. Monster sales continue.

Beth Kepple, WKLS, Atlanta

The word of the week is **Bon Jovi**. This is about the third week in a row he's had at least two songs in our top 5 requests. Besides that, he's cute.... 'Tis the season to be jolly, so check out **Springsteen's** "Merry Christmas Baby" on the flip side of "War", and the **Fabulous Thunderbirds** "Merry Christmas Darling".... It's just that I've overdosed on turkey, I'm stuck on gobble gobble and I'll gab funny next week.

Phil Thompson, KICT, Wichita

Things are slowing down record release wise, so hopefully that will give us here at **KICT 95** a chance to make room for some of the tunes we've been considering for so long. There has been a lot of great stuff, but to dilute the rotation wouldn't do us any good -- so be patient. The **Georgia Satellites** are still doing extremely well, and in addition to "Railroad Steel" we are now on "Battleship Chains".... We're looking forward to the **Robert Cray** show on December 14th. He's #1 phones this week.... Another show we're looking forward to is the **Rainmakers** on December 27th. What a great way to end this year, with my favorite band of '86 live -- with a lot of close seconds.... Once again, thanks to all reps who are sending in those CDs. They sound so much better on the air, so please keep them coming.... Increased play on **Jason's** "Golden Ball". It seems that style of music is doing very well right now, and they have been through town a couple of times.... **World Party** took a while, but now it's doing really well. It took me a while to hear it, but now there's no denying it.... **Timbuk 3's** "Life Is Hard" shows the group's musical diversity.... And the **Smithereens** are starting to do really well. It took the listeners a little longer to come around on this one, too. I think they're one of the better new bands this year.

Pam Brooks, WPDH, Poughkeepsie

Three cheers for some of the best "from the heart" music that I've heard in a long while, namely two of my current favorites, **Til Tuesday** and **Lone Justice**. If you're looking for solid female demos, these two albums are not to be passed over. Speaking as a woman who can turn to mush and do some heavy soul searching with just the turn of a great musical phrase, I'm here to say the songs on the above vinyl are killers.... "Coming Up Close" is a simple beauty and that's what makes it tops in my book.... Lone Justice's second effort is a deep and exciting musical romp through lots of emotions and I love it. Watch out for "Wheels", my pick for the next track. This track takes you for one hell of a ride, and Maria's voice reaches right off the record to grab you. "Wheels" is one of the best "Wish I Could Find That Love Again" songs that I've ever heard.... The **Georgia Satellites** continue to titillate the WPDH listeners with phones so strong that "Keep Your Hands" bounds up to #1 on our top 12 at 12. Methinks the boys have got a real winner on their hands.... Thanks to **Eddie Money** for pulling through with flying colors and making lots of folks up here real happy with him as he helped to re-open The Chance.... Many thanks to Peter Napoliello and Peter Gabriel for a splendid night of wonderment that took over all of my senses. What a show!

Curt Gary, WEBN, Cincinnati

I knew it was a good album when it first came out, but now audience reaction is proving beyond a shadow of a doubt that **Stevie "Guitar" Miller** is back. The first single moves to power, and we added "Nobody But You Baby", which puts us two tracks deep.... After my ranting and raving last week, I understand PolyGram has made the move to "Living On A Prayer". They'll find no complaints here.... When **Eddie Money's** Westwood One show comes to your town, don't miss it. I can attest that it was #1.... Also caught **BB King** last week -- unbelievable!! His bowing ritual is one of the greatest moments in show business.... Considering: We're giving **Robin Trower** a look (actually a re-add, now that other folks are coming to the dance), and getting deeper on **KBC**.

Al Branca, WMGM, Atlantic City

Peter Gabriel put on a dynamite show at the Spectrum this week. It had some slow moments, but for the most part it was a thrill for any Peter Gabriel fan. I'm just sorry I didn't go Sunday when he played "Solsbury Hill". Thanks to Peter Napoliello of Geffen.... If you haven't given the new **Robert Hazard** Lp "Darling" a spin yet, check it out. Some great stuff here.... Adds: **Bruce** "Because The Night". The Lp is open, but requests are leading towards this track. Time for some emphasis play.... **Journey** "I'll Be Alright Without You". This one was my pick for follow-up to "Girl Can't Help It"; an obvious top 10 smash.... **Bon Jovi** "Living On A Prayer". Another great rocker from our #2 retail Lp.... **Eric Clapton** "Tearing Us Apart". Here's another reason to hear **Tina Turner** on AOR radio.... **Genesis** "Tonight, Tonight, Tonight". Michelob's done it again. Since the TV spot's been airing, the requests have been constantly heavy for this one. A track that we've only touched on briefly in the past.... **Til Tuesday** "Coming Up Close". I don't think anything could match the impact of their first single and video, but this one's a worthy effort.... Also on **Timbuk 3's** "Life Is Hard".

Jessie Brice, KZRR, Albuquerque

I'm not really thrilled with the whole **Kinks** album, but "Working At The Factory" is my favorite.... We added **Peter Gabriel's** "Big Time". At first we thought it might be too danceable, but after a few more listens it was obvious what a great punchy tune it is, and it sounds wonderful on the radio.... And what a wonderfully quirky tune in **Don Dixon's** "Praying Mantis". It might burn quickly, but it's a fun tune nonetheless.... If you haven't explored the possibilities on the **Ben Orr**, go back to it. We think it's a much more well rounded record than the **Ric Ocasek**.... Top 5 calls for **Springsteen**, **Eddie Money**, **Boston's** "We're Ready", **Stevie Ray**, **Bon Jovi's** "Wanted" and **Lone Justice's** "Shelter".... Considering: **World Party** and the **Smithereens**.

Greg Gillispie, WDVE, Pittsburgh

Thanks to the **Rainmakers** for coming in last Friday and playing live on the radio, and especially for doing a customized version of "Downstream".... **David Sanborn** played an excellent show Sunday night and reaffirmed the fact that Pittsburgh is absolutely his favorite place to play. For those of you who carry his jazz show, keep an ear out for a very special treat, coming to you directly from Pittsburgh.... Hot on the phones: **Georgia Satellites**, **Stevie Ray Vaughan**, this new **Bon Jovi** track "Living On A Prayer" (which should be as big, maybe bigger, than "You Give Love A Bad Name"), also **Robert Cray**, and **Boston** "Cool The Engines".

Steve Becker, WKFM, Syracuse

Just want to pass on a few more promotions that we've been doing, such as **David And David** in Rochester. It was a good show, even though the mike mix was a little muddy. Thanks to **Sue DeBenedette** of **A&M Records** for everything, including the little radio get together ahead of time.... Also thanks to **Jay Miggins** of **Columbia** for all his help in the **Eddie Money** promotion, as we had a listener double his money by meeting Eddie in person and getting a thousand dollars on top of that.... Musically, **Robert Cray** just played here and this man could be as big as **George Thorogood**.... We also increasead play on the **Clapton** single.... Top 5 calls: **Springsteen**, **Bon Jovi's** "Dead Or Alive", **Georgia Satellites**, **Stevie Ray Vaughan** and **Boston's** "We're Ready".

Carter Alan, WBCN, Boston

I'm very excited about the debut album from **Tesla**. Geffen has a tiger by the tail in this hard rock band from Sacramento. In a genre where countless guitarists can all play from the **Eddie Van Halen** songbook, and songwriting runs a constant treadmill, **Tesla** has crafted a hard rock gem. The album recalls other landmarks in rock history such as **Bad Company's** first and **Def Leppard's** "Pyromania". This one's gonna be big. Start with side 2 and check out the first three tunes. "Modern Day Cowboy" is the 12", "Changes" is next. It's got a beautiful acoustic approach, balanced with huge electric guitar chords and "Little Susie" is a future rock radio giant. The whole record is stunning and a certain pick to click.... **Beastie Boys** have also been a smash from the first moment it hit the air. "Fight For The Right" is a natural in this college town, but everyone parties sometime so it's gonna be a natural. Nonstop phones on this one.... We're psyched about the upcoming live broadcast with **Lone Justice** from the **Paradise Theater** on December 17th. **WBCN** and **Lone Justice** have enjoyed a long and prosperous relationship since the first tour in '85.

Glenn Stewart, WHJY, Providence

Pardon my french, but the new songs from Journey and Bon Jovi are both "panty melters". I was in a real cranky mood when I first heard the "August" album, so now that I've got that behind me, I can firmly say its one of my personal favorites right now.... Don Dixon's "Praying Mantis" is catchy as hell and we all know that is the time of year when everyone can give it a shot.... Increases this week include: Robert Cray. Basically sounds great on the radio.... Georgia Satellites now in power rotation with top 10 market sales.

Dave Numme, KSJO, San Jose

The Love & Rockets is a great reactionary song. We went with it because it was just so stunning and so emotional. It's gonna get great reaction. We'll use the acoustic version, which is so cool. There hasn't really been any music like this out at all lately.... The Paul Young is really a nice, slick pop rock record, and really more rock than he's been before. No image problem here. quality music is quality music.... Stryper's "Call On You" has been one of my little projects here. You can't ignore top 5 sales and phones. Stryper is doing really well, and yes, this is a 25+ record. The band does transcend trends. It's a good rock song with nice harmonies. and they're singing around a positive message, as positive as hard rock can be.... Play increases: Zebra goes to medium. People are buying the record, people who have it like it, and it sounds good on the radio. We're getting phones for "You'll Never Know".... Kansas "All I Wanted" goes to Power. One of those records you put into the A's because you know it's an across the board smash.... Gabriel's "Big Time" medium to heavy. A cool hook and the guy's coming to town.... Robert Cray also goes up. "Smoke" 'em all, man. He is really terrific. That goes into Dave's real music file.... Europe's "Final Countdown" is getting strong reaction from males 18-24. It's the guitar solo and the hook with the horns that generates response, and that makes this a good record.... Considering: Smithereens, "Wall of Sleep".

I Wanna Go Back. But first I wanna go to KRQR and hang out with PD Chris Miller and MD John McCrae.

Zak Phillips, KAZY, Denver

I think the entire Clapton Lp is a pleasant surprise. There's a lot of good rock & roll there that we'll be able to use for a long time.... I feel very positive about the changes we've made. We'll have 95% of what we want to do in place by the end of the year. I'm very pleased with my new people.

Don Berns, CFNY, Toronto

While I was spending Thanksgiving in Houston with my family, seeing NASA and a real Texas rodeo, I apparently missed out on what everybody says was the concert of the year. Peter Gabriel came, saw and conquered Toronto in two sold-out shows. Oh well, family must take precedence, but it was the busiest concert weekend of the year with New Order, The Lucy Show, Rainmakers and Robert Cray all playing in town as well.... Is this the year the old warhorses prove they still make great music, or what? I mean, we have the Moody Blues, Paul Simon, Steve Miller and now, The Kinks. "Think Visual" is a welcome return to the airwaves for one of the the most consistently creative bands in music history. Our top picks are "Lost and Found", "Repetition", and "The Video Shop", all of which are lifted out of their depressing lyrical content by smart production and uplifting music.... Like WLIR, we have been playing the Import of Julian Cope's "World Shut Your Mouth" for some time now, and highly recommend it to any station looking for a good ol' anthem type rock and roll record. I dare you to listen to this tune and not crank the speaker up full blast.... Out-of-the-box into hot rotation here is "Infected", the fab new Lp by The The. One week on the album and already it's a top 5 requested item! In addition to the title track, check out "Heartland". To these ears it's the best single of the year.... Many thanks to the Rainmakers, Lucy Show and especially New Order (who hardly ever do these things) for stopping by for live mike interviews this week. I understand the Rainmakers blew Berlin right off the stage too. Good for them, as Bill's headline said this week-- Seeing is believing and here's one band really worth seeing!

Bob Welsh, WQBK, Albany

Kate Bush with "Experiment IV" gets the nod this week. She's a core artist for the Albany audience.... Also, we're gonna give Crowded House a chance. "Don't Dream It's Over" could be an end of the year crossover smash.... This past weekend, QBK FM 104 became the first Albany station to do an All-CD Weekend! We now have obviously, two CD players and if we're not being serviced with your product on CD then it probably won't be heard.... And finally, thanks to everyone for your phone calls, I heard you missed me so I'm back.

Skip Isley, WWTR, Ocean City

Yes friends, on again it is the season to be jolly and to spread good will. The annual 96 ROCK Toys For Tots Charity Auction is only two weeks away. We raised over \$3,000 last year and hope to exceed that this year. We can with your help. We would appreciate any promotional items you have--anything. What is junk to you may be toys for some needy kids. T Shirts, Key Chains, Posters, whatever you have left over from promotion this year, we would love to have it. We can also use any and all cassettes and albums. Please rush anything you can spare to us as soon as you read this. 96 ROCK, The Marines Corps, and most of all our areas needy children will appreciate your efforts. Quick, grab a pen, the address is coming.... I never thought I'd comment on a Til Tuesday record, but "Coming Up Close" is a masterpiece of texture. You could play this once an hour and it still wouldn't burn. Now the address: P O Box 717, Ocean City MD, 21842. Thank you.

Duane Sherman, WTOS, Skowhegen

After two weeks with a cold, I can finally say I've kicked it and I'm back to my normal obnoxious self. The record releases are starting to thin out drastically as the year winds down and we all find a little space to breathe. The Kinks continue to gain momentum on a daily basis. The phones are ringing for those Davies brothers... And of course, the ever-popular **Beastie Boys**, who I love to drool over from time to time, continue to amaze both myself and the listeners. Lend an ear to the track "Time To Get Ill". This is a true piece of rock and roll art, using snips of the Green Acres theme as well as Mr. Ed mixed to a beat of CCR and Led Zeppelin is enough to blow anybody's mind. This track is a must for modern day rock and roll!... **New Order** also is generating some great phone response these days. "Bizarre Love Triangle" is now #5 on the requests list and that's great for a band that really hates response.... New releases this week that spark an interest: **The Wallets**. The Song "Take It" is different, I have to sit down to listen to it. I know I like it but I don't know why I like it! Also the band **They Might Be Giants**. Picture in your mind, the Violent Femmes jamming on stage with Weird Al Yankovik and you get the picture of this band. Fun music for fun people.... I would say my choice of the week is **Julian Cope** "World Shut Your Mouth". This WILL be an important record, so shut your mouth and play it.

Ron Sorenson, KBLE, Des Moines

A good week to start catching up on some left fielders. Now that the big guns are mostly out of the way.... Found a few too! **Tret Fure** like label-mate **Chris Williamson** has the talent and ability to cross from "Women's Music" into the AC/Adult rock mainstream.... Thanks for the tip on **Dave Adams'** "Tears". Although we played "Dancing In My Sleep", somehow we missed "Tears" in the shuffle. That **Roxy** comparison sucked me right in! A really good song. Dead heads should check out **Robert Hunter's** "Rock Columbia" the latest from the longtime band lyricist. It's relatively recent from Relix.

Dru Dawson, KBAT, Odessa

I think this must be the year for women rockers to redo Hendrix songs. ("Room Full of Mirrors" from the Pretenders.."You Got Me Floating" by Jett..). It's Closet Classics from **Jimi Year!**

Ron Garrett, KDJQ, Sacramento

Johnny Winter's latest album "Third Degree" is Johnny at his rip-roaring best. His long fingers be flying all over the fret board. Believe it or not, this record appeals to 18-24 males and female.... I sat at Tower Records this weekend while they played "Third Degree" in the store. Unbelievable the amount of **Madonna** want-to-be's and **Edge**-heads that came up to the counter and wanted to find out "who dat was." Incidentally, they walked out with the Lp in hand.... Obviously, **Johnny Winter** scores big with 25+ plus men. If you did well with the **T Birds**, **Stevie Ray Vaughan**, or **Robert Cray**, give this Alligator record a spin. **Johnny Winter** is alive and well in our hot rotation.

Jonathan Rosen, KEYX, Phoenix

Our "Presents" went very well for **Shriekback** and our next, coming up December 9th, will be **Gene Loves Jezebel**.... Busy week for live interviews in the Key Studio, starting off with **Barry Andrews** of **Shriekback** on November 24th. Two live phoners

Thanksgiving night, **Seth** from **Dumptruck** and **Mike** from **Love Tractor**. Seth's fave Thanksgiving dish is a "frozen dessert thing" prepared by his mom in Connecticut.... Sunday, the 30th, **Rodney** from **Dead Milkmen** was live on **Virgin Vinyl** with yours truly. He spoke about **Holly Near's** dyke rock, and once again referred to the **Hooters** as being Philadelphia's most known gay band.... Last night, I spoke to **Pleasant** from **Screamin' Sirens** from Los Angeles for the umpteenth time. The conversation ranged from Mr. T to skate rock.... This Thursday night will be **Joanna Stingray**, the creator of the "Red Wave" compilation of Russian underground bands!... The worst records I've heard in '86 are **Adrian Belew's** latest and the **Kinks**.... My personal faves this week are: **Falco** "Emotional" and **Camper Van Beethoven's** "Pitch A Tent" Lp.... I'm really miffed about a recent article in a national music trade tabloid in a piece dealing with new release and alternative music shows. It FAILED to mention the **ONE AND ONLY VIRGIN VINYL SHOW** which began on March 4th, 1982 on **KLPX**, Tuscon, Arizona and continues in Phoenix on **KEYX!!** Ask ANY Indie label that has dealt with me and **THEY'LL** tell you it's the **TRUE** alternative **Virgin Vinyl**.... Always has been, always will be.

Brew Michaels, KEZE, Spokane

If you've ever felt the corporate forces of doom trying to squeeze the last breath of fun out of your rock and roll, you'll relate instantly to "Working At The Factory" by the **Kinks**. **Ray Davies'** eye is as sharp as ever, his heart's in the right place, and his band has aged more gracefully than any from that first British Invasion 20 some years back. As **Ray** says, "Take the money and make the music pay.".... The **Satellites** were so popular here, that in 7 weeks other stations in the area were pounding it in two and a half hour intervals. We're considering another track, possibly "Battleship Chains".

What happy people. No brown M&Ms in this dressing room. **WLLZ's** midday jock **The ROZ** and Asst. PD **Jim Kelly** meet **Van Halen**.

Loris Lane, KFMX, Lubbock

Bon Jovi's "Prayer" will be a monster, so if you haven't already, jump on this one quick.... Glad we finally got the **Smithereens** in. (I've been pushing that one for weeks.).... I'm crossing my fingers for **World Party** next week.... Looking forward to a rock & roll Xmas. Have you heard the **T-Birds** new holiday song? Nice. We are building a sizeable stack of rockin' Xmas vinyl.... Thanx to **Charlie Strobel** of **Epic** for **Boston's** first two stages on CD; it's a great giveaway for our breakfast flakes.

Erin Riley, WMMR, Philadelphia

As much as I love short weeks, they're almost more trouble than they're worth. Everything happens while I'm away and twice as much work is waiting when I get back.... A couple of big thank you's are in order. First to Peter Napoliello and Marko Babineau for all their help with the Peter Gabriel concert at the Spectrum where we were treated to the only version of "Solsbury Hill" on the tour so far. Peter took Philly in the palm of his hand and it was mesmerizing.... Thank yous go to all the folks at Epic in NY, Biff Kennedy, Randall and Tom for a very successful broadcast with Til Tuesday. The club was packed, the band was great and the fans were ecstatic, waiting for Aimee Mann at the bus after the show.... Good luck to Charlie Kendall on upcoming ventures, and happy birthday to D.B.

Tom Starr, WOUR, Utica

For all of us who have cracked the wrap on a replacement copy of an old Stones LP, just to find those 3 guys from the Rice Krispies commercial somehow got into the sessions, the concept of Hot Rocks on CD will make your day. No shortage of here today, gone today LP projects this year. The roller coaster effect claimed a number of debuts, attempted comebacks, and even a couple of former format mainstays. Interesting, and much more gratifying, are the long termers, many of them new artists who have enjoyed a gradual, sustained build in acceptance, airplay, and success. Congrats to all those behind the development of 86's best new artist. It goes to show once again that the tougher acts often end up being the most worthwhile, and that the longer it takes to "hear" a song, the longer it takes that song to burn. You remember if you were there and early with The Cars, Police, U2, Dire, Hooters and even Bruce. Your listeners remember, too. So next week, when some shmuck on CHR says "Here's something brand new from Bruce Hornsby, Timbuk 3, David & David, or any of the other artists that AOR blazed the trail for in '86, you've earned the right to be smug and arrogant in knowing that any of your listeners who might have strayed across that station, just pushed the button that sez "No Sale".

Andi Turco, WPYX, Albany

I want to thank Sue DeBenedette and Al Cafaro for giving me the opportunity to see David and David. They're definitely a group to be watched in the future.... I want to wish Bob Welch the best of luck in his new position.

J.D. Stone, WTKX, Pensacola

Eric's "Behind" is awesome. Clapton had been drifting, but this LP is a monster.... Stabilizers move up to heavy. We stayed with it and it paid off.... Europe has that AOR hook. I catch myself whistling it every time I hear it. It's like peanut butter for the mind.

Phil Manicki, WWCT, Peoria

Thanks to Roger Mayer and Greg Thompson at Chrysalis for the Billy Idol CD.... Jason And The Scorchers' "Golden Ball And Chain" has the rawness that keeps radio fun.... Phil's fave of the week is "Tearing Us Apart". It's everything you'd expect from Eric Clapton and then some!

Bird, WXXP, Pittsburgh

Tonight marks the first ever appearance of New Order in Pittsburgh. I'm excited, to say the least! I'd like to thank Dave Bouchard of Epic for taking me to see Til Tuesday. Dave, you're a beautiful man! Thanks also to Mike of Til Tuesday for making a night out on the town an enjoyable experience.... By the way, add any track from the Love & Rockets LP. Your listeners will thank you.

Paul Rappaport, Columbia 212-975-8616

Yes, you CAN! and you MUST play the Beastie Boys!!! Hey, you put it on after 6 o'clock and capitalize on all the rockers who are telling you they want to hear it! How are they telling you? How about a gold record in 6 weeks!!! CHECK YOUR SALES--this is a phenomena, a hoola hoop! Everyone wants one because it's fun. Don't philosophize, don't fantasize, don't criticize, just capitalize, capitalize, capitalize! It's an intellectual thing-- Don't hook it. Paleeze, No call out RESEARCH--It's a--happening and it's HAPPENNING HUGE NOW. No, it won't hurt you, just the opposite, check out NUMBER ONE phones at KROCK in New York. That space in this city is normally reserved for you know who. There are more than twenty on board right now and we're talking majors! How about KROCK, WNEW, WBAB, WDHA, WBCN, KRQR, KDJQ, KISS, KKDJ just to name a few. It's a monster, be vital, not to place something like this that happens once in a blue moon is simply not paying attention. Listen to it, you'll dig it-- if you have to categorize it, call it AC/Beastie!... And you can, and you must play the new John Eddie. This song is in the pocket and was album radio's favorite from the beginning! Remember, the reason we record is FOREVER. This project is not over and John has 110% commitment to break from this label. THE ARTIST IS THE GOODS. No need to be said. Remember the Outfield who broke through during the Christmas season.... Hope everybody is enjoying their Stones on C.D. package. Special thanks to Greg Gillispie and Bill for help in researching the most played Stones tracks on album radio.

Jack Emerson, KGGO, Des Moines

If you want to have fun, and if you want to have cases and cases of Michelob, play Genesis "Tonight", Phil Collins "In The Air" and Daltrey's "Move Better In The Night". If Augie Busch doesn't send you a truckload of beer, you're a disgrace to the business.... If you want a Mercury, play Rod Stewart.

Inessa York, KGON, Portland

Have I told you lately how much I appreciate CDs? I love them. Thank you for sending them.... We moved onto the Pretenders "Room", but we are also staying with "My Baby". It's a more palatable track on the ol' mass appeal level.... Isn't Ann Wilson's song positively "Goldfinger" of '86? Great melody modulation, Ann.... "Tearing Us Apart" from Eric Clapton is Top 5 phones.

Dave Stone, KJOT, Boise

The new Bon Jovi "Prayer" looks like another smash.... Anybody not playing the Meatloaf Lp is a wimp. "Execution Day" and "Blind Before You Stop" are killer.

Jeff Carrol, KLBJ, Austin

David & David get great phones and sales in Austin and we were an early believer.... Smithereens is a good follow-up to the lead track. It's a nice off-set to the usual corporate rock.

Jack Green, KLPX, Tucson

This week was a consolidation week, going deeper into Lps.... This new Tesla sounds very interesting.... The Eddie Money Lp is going to do real well for him, and the new one fits right in.

Rich Flamingo, KLUB, Concord

Happy Thanksgiving to everyone.... I saw Shriekback in San Francisco Saturday night and they were god-like.... We're expecting Kim Light from Celloid to stop by today and we will be rolling out the red carpet for her.... PS: Who do I have to kill to get the Bruce C.D.?

David Allen Ross, KMJX, Little Rock

Congrats to Eric McDonald who finally got caught. The Wild Man tied the knot!... I see that several others like The Kinks "Repetition". That's the track that we went with because we think it has more of a Kinks sound than "Rock And Roll Cities", and it's a very good album.... The new Hornsby is his best yet and if you want to add a reaction record just listen to the Beastie Boy's "Fight".... Still looking for artist drops that use Magic 105. Anything will be greatly appreciated. Please be creative!!!

Lee Roberts, KMYZ, Tulsa

We're proud to say that the new Clapton is #2 most requested and the Georgia Satellites are the #1 most requested here.... Also, we've been giving away copies of the new Clapton book during middays and afternoon drive. If you have a chance, pick up a copy.... Billy Idol, Stevie Ray and Steve Miller are all generating monstrous phones and interest.... With the holidays upon us, we would like a few artist ID's and drunk driving PSA's. The script should read "Hi, I'm....wishing you a very Merry Christmas and Happy New Year with Z104".... Personal regards to Bill McGathy, Heavy Lenny, and Beth Rosengard.

Bonnie Stacy, KNCN, Corpus Christi

Oh by gosh, by golly, it's time for the annual industry slow down and personally, it's none too soon. I'm sure the feeling is shared by many a programmer, especially in this year of more new releases than any one format could possibly contain. As I struggle to fill in the blanks on all the best of '86 music polls, and cart away hundreds of dollars of unused records, here's hoping that '87 is the year of quality, not quantity.... The latest Eurythmics track, "Thorn In My Side" is really racking up some phone trades and I mention it because it's the first Eurythmics song to do so.... The Van Halen Live 12" is another phone winner and I agree this should be available on hard vinyl for retail. I'll bet a cassette copy that a good percentage of the folks it appeals to don't even own a VCR, nor could they afford to buy one in the near future.... Anyway, a quick thanks to MCA's Bubba Oz for lunch (it turned out to be my Thanksgiving dinner) and to Scott and Megadeth for being real. We saw a flurry of sales in the beginning, and a move to heavy is timely at this point to bring more attention to the track.... Europe's sales made me add it to begin with. The misconception is that they're a metal band, which they're not. It's more like ELP, pop rock.... I love the Price-Sulton and I couldn't say anything more about it at this point. A good edit could really push that to Top 40. What a hook!

Paul Cannell, KORX, Springfield

No more holding off on "Western Skyline". The add puts us five cuts deep. This could go on for months!.... The Georgia Satellites "Nights Of Mystery" is getting at least 3 times the calls as "Hands" got! CD's? My God, I'd be thrilled to get ALBUMS at the same time as the rest of the world. But on the other hand, to those who go out of their way for us, be expecting my personal thanks real soon.... The masses have spoken. Due to great audience response, Shriekback and Julian Cope both make the big move. Now I'm off the see the Scorchers.

Harry Reynolds, KOZZ, Reno

Look out for the hardest working band in show business... Joan Jett & The Blackhearts. Joan and Kenny Laguna are working very hard for this "Road Runner" record. They even cut us a northern Nevada version of the song mentioning local landmarks that sounds like they live here. Thanks to the Blackhearts and their manager.

REPORTING DEADLINES**MONDAY AND TUESDAY****10:00 AM TO 7:00 PM**

Steve Cormier, WIZN, Burlington

Just when you think The Kinks are down and out, they surprise you. What's this, comeback number three. "Think Visual" is by far the best work the Kinks have put forth in several years. We're on "Lost And Found", but "Factory" and "Cities" are doing well... Bob Geldof deserves a few tips of the hat. In spite of all his good will work with Live-Aid and Ethiopia, he's put together a quality Lp. "World Calling" is drawing top 5 phones at WIZN.... KBC's "America" is truly the musical art form at its best. It's this generation's anthem.... The Ann Wilson song doesn't knock me over, but I'm not a fool to realize it's gonna be big - thanks greatly to Heart's last Lp. In the Don't-Get-Me-Wrong Dept: I love Eric Clapton's music, but I hope that on his next Lp he goes back to his basics, not Phil Collins.... Welcome aboard to a new member, Allison Sax. She's from WGLU in Johnstown, and she'll be doing nights.

Greg Mull, WRXK, Ft. Myers
Memo

To: Rick Winward and the Indies
From: Greg Mull
RE: Don Dixon

Initially I was concerned that these south Florida people would not know how to handle another left fielder from North Carolina, but what the hell, everybody can deal with a hit.

Seasons greetings to all except Lenny.
To You, heavy holidays.

Lex Staley, WFYV, Jacksonville

The Tesla is the best metal record I've heard in the last two years. The production is excellent, the musicianship is there; it sounds like early Rush, like the "Working Man" era. It's metal, but it's not a tune-out.

Jim Steel, WIOT, Toledo

All I can say is Robert Cray kicked ass on the David Letterman show.

Rob Ellis, WKQQ, Lexington

I really feel that Eddie Money puts out some of the best music for album radio. Good, straight ahead tunes yet with some of that all important upper demo appeal. His new cut "I Wanna Go Back" is another perfect example. Don't hesitate on this, it's a smash.... Instant phones on "Battleship Chains" from the Satellites and we already have "Railroad Steel" on deck.... The tune from Kansas has done more than I ever expected.... It's great to hear bands that got me through high school like Kansas and Boston still putting out solid material.

John Malinowski, WUVA, Charlottesville

Granted, we're a college station. But by the same token, we're commercial which is the way we are seen in the public eye. CD's are the future of radio music broadcasting. I get the continued excuse, "We don't service college stations." But I've been getting around that excuse through some wheeling and dealing. However, it's been painstaking! We have a small but growing collection and would love to have more label support on this matter. Thanks to those who responded early. And to those who are hesitant: we play your records, so why can't we play your CD's, too? PS: CD's grab listener attention, so please send them! Thanks.

Jim Trapp, KZEL, Eugene

Bob Geldof may be great press and a very sympathetic soul, but until I found "Love Like A Rocket", I was prepared to write off the new album as vastly undisciplined and flacid. Clapton's guitar work is tight and powerful and Bob seems impelled to pull out a vocal that resonates strength where the rest of the album just sort of moans.... Another very uplifting song is "Love Train" from the Woodentops. It's very modern but somehow reminiscent of the standup bassline boogie of bands like the Burnett Brothers. As a result, it works for both ends of the demo. It may be the happiest sounding song that I've heard in the last six months.... And finally Robin Trower has two great songs on Passlon. "No Time" is a sure fire lead off hit for Trower fans, while "Caroline" can cross over to an entirely new audience -- maybe even a new format, CHR -- for this talent player.

Larry "Duck" Dunn, WLIR, Long Island

I'm infected. Can't get enough of this new The The single. All through the superstar product crunch, we've been pounding The The as an import. I love it. It's a refreshing alternative to the boxed-in BOSS.... My record list is set for 1987. The Lps to watch for: A Psychedelic Furs and a China Crisis. If the singles are any indication, this will be a big year for both bands.... I cannot wait to hear the new U2 Lp.... We were set to co-promote a benefit concert with New Order this Friday night at 1018, formerly the Roxy. The show is for the estate of Ruth Polsky. She was an important influence to new music and the NY club scene before her untimely death. She will be missed by all. My thanx to Debbie Harry and Bob Geldof for live phone-ins.... Screamer of the Week: B-52's "Girl".

Lee Randall, WLVQ, Columbus

Boston & Tina this week -- more depth on salable records. The depth we need to bury our comp. Just another shovel full of manure in the face of other radio stations.... Looking real hard at Kinks. It's really close to being on the radio.

David Anderson, WMAD, Madison

The Sept/Oct Birch Report shows that 92-FM continues to be the fastest growing station in Madison. Our 12+ share is up to a 6.4. Nights were up 4.7-8.5 and on weekends we're #1 in men 18-34 and men 25-54.... The winner of this month's I-Used-To-Read-Rolling Stone-But-Now-I-Read-Esquire Award: The Outlaws --for continuing musical maturity, without losing the raw edges of their youth.... Do you want your audience to hear another recycling of "Jungle Love" and Steve Miller's other mid-70s hits? Then play "Nobody But You" because it sounds like a top 40 record. However, if you listen to your heart (which is what your listeners do) then you'll play the rolling, finger-popping "I Want To Be Loved". By far, the superior song.

Keith Taylor, WQMF, Louisville

Boy! I'm still trying to work off all that turkey fat. And the thing that has been burning up my cassette deck at home, in the office and in the car, is that lil' ol' cassette from those British Invaders: The Kinks. All I can say is "Think Visual". "Lost And Found" is the favorite track. What else is new!... Dixon- oo ee bud! I feel like the "Praying Mantis" that ate Cincinnati. And always remember, there are three sides to every argument. Your side, my side, and the truth. Aloha!
