Deep Purple, "The House of Blue Light", Polygram.... The 12" rolls up a quick 70 adds and #28 debut—but it's interesting to note the list includes only 6 heavies and one power. That's because the real meat is on the album. We guarantee you'll find at least two tracks you like better, starting with "Call Of The Wild" and "Hard Rockin' Woman". We expect a few new moves the next time around, but for now, "Blue Light" is a safe and solid step forward on the upper tier of the comeback trail.

Los Lobos, "Shakin' Shakin' Shakes" Slash/WB.... They practically started the Rootsrock resurgence, and "Shakin'" should break 'em even bigger. Add totals aside, it's the most favorably received new piece of music this week. It's got flavor, funk—and it rocks. New on 45, with 6 heavies, 46 medium and a #48 Hard Hundred debut. Look for at least that many adds next week.

Dave Edmunds, "The Wanderer", Col.... We may still be waiting for Dave's genius to gain the universal regard he continues to enjoy at the radio level—but we're also waiting for him to make a bad song. And here's another distinctive, rocking cover of a track just ripe for the re-do. The man has few equals live and we actually feel "The Wanderer" could be a legit hit.

Pseudo Echo, "Living In A Dream", RCA.... They're already a certified monster down under, what with a current #1 single there and a track record to match. This action packed number leads the way on the first U.S. release, featuring sparkling remixes on five of their top 10 Australian hits. It's out of the box on KTXQ, WDHA, KZEL and half a dozen more. Watch it cross AOR, pop and dance.

Concrete Blonde, "True", IRS.... The Chrissie Hynde comparisons abound, and rightly so. The vocals and attitude are similar, but this band is the furthest thing from a studled clone. They offer cool, cutting guitars and excellent songwriting in addition to Johnette's gritty, plaintive vocals—and with the likes of Redbeard, Carter Alan, Beth Kepple and Skid Roadle already raving, we're expecting fast and furious first quarter breakout status here. One listen.

Brighton Rock, "We Came to Rock", Atco.... Here also you'll find several surprisingly airworthy depth cuts considering their baby band status. They may be new to you, but Brighton Rock have paid their dues up north, with a successful Ep last year and plenty of touring. Anthem rock is always the most direct line to those actives—and based on our sampler tape feedback this one's a winner in the core rock countdown.

The Stranglers, "Always The Sun", Epic.... About the only thing this tune has going against it is the group's name. It's an unfortunate holdover from the first Punk Invasion, because the texture of the tune is as civilized and subtle as anything out there. I hear Simple Minds with Mark Knopfler on vocals. I know it's a long shot, but live with this track and that slow build and beautifully layered chorus will close your eardrums—but not your windpipe.

Spoons, "Bridges Over Borders", Polygram.... Hate to double up on the Simple Minds comparison, but that's also the sound here—though with measurably more flash and bite. We really like the contemporary production and arrangement and the riveting build is not to be denied—but it is bit unusual so listen more than once. Our Canadian stations have already done well with this number and we're predicting an equally enthusiastic reception on this side of the line.

Colin James Hay, "Hold Me", Col.... The Intro suggests Mr. Hay has been spending time with Paul Simon's latest, but once the song develops it's clear this man's working his own groove. This cool blend of the tropics and the outback is refreshing and different, and should be just the vehicle needed to drive him home up and down the dial. Just a taste of a surprisingly well developed album.

QUICK PICKS

Iron Maiden, "Stranger In A Strange Land", Capitol.... It's as automatic a core rocker as they get, sure, but in this case we feel there's quality to go beyond. "Stranger" maintains their trademark minor key ambience with the band's most mass appeal break and chorus ever. The production rivals that of just about rock outfit out there and with platinum plus sales thus far, the tour and MTV exposure, it's time to think about them in a whole new light.

Lone Justice, "I Found Love", Geffen.... I'm a fan of even Maria's most twangy work, but totally agree with the band's recent swing to a more rock/less country approach. But it's definitely not an either/or situation. Here's the track that best reflects the new configuration's ability to kick ass without losing her unique earthy appeal. Catch it on Saturday Night Live?

Vinnie Vincent, "No Substitute", Chrysalis.... Vinnie's solo continues to turn heads in the Chrysalis sales department. By metal standards the new 12" is practically a ballad, so check it out if you thought the whole Lp was off limits. We're talking lush harmony overdubs with minimal crunch—and all those flashy guitar pyrotechnics you know his fans crave. Surprisingly radio relatable.

Hipsway, "The Honeythief" Columbia.... I considered this the sleeper on our sampler, and was pleasantly surprised at the number of programmer positives—including Beth Kepple at WKLS. This Scottish blue eyed soul band has the best shot at a four way (AOR/CHR/Urban/New Alternative) crossover I've heard since INXS hit the scene. Hooky and believable.

Genesis, "Tonight Tonight Tonight", Atlantic.... Watch a Bowl game, have a Mick, see the spot..take a drive hear the spot. One of the most relentless schedules in recent memory will bring this baby home in record time. It fueled 12 adds this week, 4 increases, and a healthy #68 debut.

World Party, "Ship Of Fools", Chrysalis.... You've gotta believe in the power of the play increase—and this Party picked up 29 big ones—right there with the superstars. It's now heavy at 32, power at 2 more, with 5 adds taking the count to 115. "Ship of Fools" moves to #14, pulling the album 28-16.

Ann Wilson, "Best Man in the World", Capitol.... Here's the big winner in the increase department with 42. Of 114 now on board, 22 list it power with 61 now heavy. That's heavy to power play at over 70% of those playing. Also top 5 requested at 11. Note the 12-4 Hard Hundred advance.

Huey Lewis, "Jacob's Ladder", Chrysalis.... The extended live version is just what the doctor ordered to cut down on wear and tear. Cross format play helps push the Lp and single back into top 10 territory, courtesy of 32 play jumps, 14 powers, and and 68 heavies.

Stevie Ray Vaughan, "Willie The Wimp", Epic.... Now for something completely new. They've heard the Wondercover so give 'em the album's best unreleased track. It's got 11 adds and 23 total, including WOUR, KLPX, KBCO, WKLS, WDHA, KZEW, KRQR and WDHA. Should chart next week.

KBC, "America", Arista.... 29 play ups since our last sheet is the increase total to beat. Track Two boasts five powers and 49 heavies, with current play 109 deep. The album reflects 17-13, behind a 27-13 Hard Hundred move.

Billy Idol, "Sweet Sixteen", Chrysalis.... By now we all know "Gun" is your basic gone gator, so here's a quick mention for the album's best ballad. "16" hits the list at #97, with WWCK, WHCN, KWHL, KRQR, CFOX and KISW among the 17 already in. The album's a strong #8.

Smithereens, "Behind the Wall of Sleep", Enigma... Wake up and smell the glove—it's unhip to miss this one. 18 holiday (won't it be great to get back to "this week/last week"?) increases and 2 adds improve the overall song ranking 30-22, while moving the Lp numbers 26-22. It's a top fiver at WIZN, WXRC, WZEW, KOZZ, WAPL, and WQBK, with 91 adds to date.

Til Tuesday, "Coming up Close", Epic.... You couldn't dream up a better female/adult item in terms of melody and power. It's got a 50-33 increase, with adds at WKFM, WQBK and WRCN and ups from WKFM, WQBK, and WKLC. 21 of 79 now playing list heavy play, moving the Lp 31-24. Nice words from WPDH's Pam Brooks, "This beautiful Lp not only works well for upper women but guys, too. The men love Almee and this is a wonderful second effort."

Pretenders, "My Baby", WB.... Our pick from day one picks up a whopping 7 position gain to take the top slot. Lock up 24 powers and 71 heavies and that's what you get. If you've got it medium or lighter, you're late out of the gate. Anybody ready to get serious about "Hymn To Her"?

Bon Jovi, "Living On A Prayer", Mercury.... Here's the biggest overall point gainer since our report, as evidenced by Jon's 19-2 progress. You know a five or six position move inside the top 20 spells moxie plus, and that pretty much says it all regarding this high jump. Now power at 25, heavy at 64 and #1 Most Requested. Give that man a new pair of jeans.

Robert Cray, "Smokin' Gun", Polygram.... For coming out of nowhere (at least format wise) just a couple of months ago, Mr. Cray now boasts a strong 47 heavy report count and 8 powers. The "on" column is 127 deep, 31 of which show increased air time over the break. "Gun" grabs an 18-7 liner, and with smokin' stats like that you've better think take two. We recommend "Guess I Showed Her".

Jason and the Scorchers, "Golden Ball and Chain", EMI.... No slowdown at all here. When last we checked, "Ball" was at #25, and our all new stats for 87 have it markedly more muscular at #16. And whoda thunk it three months ago? The rotation situation finds 5 powers, 28 heavies and 22 overall increases. With that kind of power portfolio, time to think about two minutes of fun with "Shotgun Blues".

Tesla, "Modern Day Cowboy", Geffen.... We continue to see solid growth. "Cowboy" climbs 89-72 behind five more adds, 39 to date and recent play-ups from KISS, KRIX, WAQX, KDJQ, WDIZ, WDHA, and WAPL. Healthy top five calls, too, with KILO, KNAC, KRIX, KDJQ, WRCN, and KWHL leading the way. Also note the #50 Lp debut.

John Eddie, "Pretty Little Rebel", Columbia... I don't have a ton of call letters or overwhelming stats to throw at you other than John's 100-89 Underline. But I will say that based on WMMR's oning play this track is a hit if you'll just give it the room. Put it on the radio and see for yourself.

BUILDING SUCCESS FROM THE SOUND UP

The Alan Parsons Project, "Standing On Higher Ground", Arista.... Hey, a new Parsons album!! It must be January! The Maestro of moodrock's latest pulls in 45 out of the box adds, good for a #47 Hard Hundred debut. WFYV powers, with KRNA, KSJO and WTPA listing heavy rotation. WRCN's Wayne Summers comments, "Good to hear something fresh from Alan Parsons. I suspect "Higher Ground" will be one of the first monsters of '87." From KDJQ's Ron Garrett, "Reminds me of his "I Robot" days. The songs have conviction and a great beat". But are they easy to dance to?

Bruce Hornsby, "Mandolin Rain", RCA.... The third cut rings up a quick 28 stations for #4 Most Added, with Instaheavy play at KOME, WCCC, WLAV, WWCT, and four more, good for a #66 Hard Hundred debut. It's now on 35, including KLOL, KAZY, KFOG, KSJO, WHCN, WHJY, WKLS, and WLLZ. Why would anyone hesitate with his white hot track record? When it comes to any new Hornsby single, if it ain't broke—break it!

Georgia Satellites, Elektra.... And while we're on the subject of immovable objects, don't try and drive around this outfit. They've got you covered coming and going with two, count'em, two active new tracks. "Battleship Chains" leads the charge with 23 more adds, 51 now on board, and a nifty #49 debut. WMRY, WAPL, and WTOS increase, with 9 already listing heavy play. Meanwhile, "Railroad Steel" sticks it to 9 more stations to go 26 deep—with WDIZ, KICT, KZEW, WBAB, WEGR and WDVE leading the way. The Lp holds at #9.

David and David, "Ain't So Easy", A&M.... 12 increases and 21 adds power up a whopping 88-34 gain since our December 12th Issue. It's currently on 73, with 13 powers and 62 mediums. You'd have to work to find an easier or more deserving follow up track.

Steve Miller, "Nobody But You Baby", Capitol.... Another big winner since our last Issue, "Nobody" bags 19 increases and pumps the heavy count to 32, with four powers. We're looking at a 56-20 track gain, with 21 more adds and 88 to date.

Boston, "Can't Cha Say", MCA... The song we most like to abbreviate cha cha's in with 16 new recruits, five play-ups (WDVE, KICT, WTPA, WWCT, WZEW) and a Boss 59-39 Hard Hundred move. 50 current mentions on this track alone help put the album back in the driver's seat, 2-1.

Rob Jungklas, "Make It Mean Something", Manhattan.... After back to back Most Added showings, Rob's fine new push track collects yet another 16 reports. He's got so far, with increases at WIXV, KRFQU, WWCT and WWTR, all good for a #53 song debut. The Lp reflects at #43. WKLS Beth Kepple comments, "This song is so honest it hurts". WOUR's Tom Starr calls it "a track that we're eager to play. This will be the one to put him over the top".

Julian Cope, "World Shut Your Mouth", Island.... For where it is, from where it started, you've to consider the Cope one of the best medium term promo jobs out there. We go to print with 58 now playing, 17 adds, 12 increases since we last printed, and a convincing #55 debut. It looks

good, sounds better and has clearly earned an across the board shot. Key calls to date: WDVE, WCCC, KRQR, WXRT, WCMF, KMET, and WLUP. Best drek rock antidote on the street.

Robin Trower, "No Time", Crescendo.... His small club tour is packing them in and blowing 'em out as is the airplay build. Robin's resurgence continues at full steam with 12 new, 11 up, and 60 now playing. We've got top 5 calls at KMJX, WHCN, WRXK, WIXV, and KDJQ, with six stations listing heavy play. Great for 18-24 males of all ages.

Crowded House, "Don't Dream It's Over", Capitol.... After our late November Frontrunner shot, we're loving the ongoing momentum here. CroHo hits the Hundred at #84, courtesy of 35 now playing, a WLUP increase to power (along with ups at WHTG, WOUR, WKWQ, and KEYX). WAAF's Russ Mottla told us, "I feel like I'm in love with the album all over again. Got a lot of time to listen over the holidays"... Hear it on WDHA, KMOD, KMET, WLLZ, WCMF and WCCC to name a few majors.

Don Dixon, "Praying Mantis", Enigma... Yet another in-house fave finds a new home on 9. That and 10 play-ups pushes the track 94-60, one of the healthiest holiday up-turns out there. WQBK's Bob Welch comments, "Don's 'Praying Mantis' moves into heavy this week due to great phone action and a great fun sound. Enigma has a winner with this one".

Love and Rockets, "All In My Mind", Big Time/RCA.... We get back to print with 12 reporters showing increases, 58 listing current rotation and top 5 calls at WXXP, KBAT and WTKX. Just added at 8, including WBAB, WRCN, WKFM, WKLC and WRUF. The overall Hard Hundred position improves 82-63, with the Lp following 44-36. WHMD's Catfish told us "Sorry we held out so long. It's great"... WQMF's Keith Taylor, muses, "Could this be the next Pink Floyd?"...and from WRCN's Wayne Summers, "This is the stuff that hits are made of"...

TAKE TWO

Ben Orr, "Too Hot To Stop", Elektra.... Well, that's definitely the name of the tune in terms of this album's latest emphasis track. Ben's got 16 adds, recent increases at KISS, KZEL, KRQU, WNGZ, KBAT AND WMRY, and a total of 42 now playing. New at #65.

Kansas, "Power", MCA... That's the rotation status at WEGR and WWCT, with 12 more heavies. Obviously a second track destined for serious play. It's #12 Most Added with 15 and currently active on 59. Ups include WEGR, WWCT, KRQU, KMBY and 3WV, all of which cranks up a 66-37 advance.

Kinks, "Working At The Factory", MCA.... Our pick since Jumpstreet calls in a healthy 39-21 move, thanks to 13 adds, and impressive 18 station increase count, and 26 already listing heavy play. Do keep an eye on "Lost And Found", too, which starts the chart charge at #84. It's on at 18, led by KDJQ, KEZO, WBAB, WCCC, WKQQ, WMAD, and WYNF.

As predicted three weeks ago in NOISE (and absolutely nowhere else), WDVE PD Greg Gillispie will join Burkhart/Abrams/Douglas/Elliott as an associate. Starting Feb. 1, Greg says that "he will be dealing primarily with AOR and doing liaison work with record companies."

"Greg did an excellent job in closing us," notes Dwight Douglas, B/A/D/E President and a man with two first names. He also said they were going to reorganize the entire firm in terms of radio stations--according to corporate desires, personalities, and regional flight plans.

What will be the thrust of Superstars in Palm Springs next week?

"No great '80-20' type revelations. I think there'll be some very unique research concepts unveiled both from our company and others," says Dwight, "seminars on motivation, and how to manage success."

Douglas also hinted that the future of the company involves a "big picture" (station ownership) concept.

B/A/D/E is still looking for one more road warrior. WDVE VP/GM Bob Schutt continues the search for Gillispie's successor.

KZEW

Changes were immediate as new owner Anchor took delivery on Dallas' heritage AOR. Gone are PD Rob Barnett, MD Cindy Bailen, a traffic reporter and a sports reporter. Jon Sinton is signed to consult, KRQX (the ZOO's AM sister) PD Dennis Anderson assumes programming duties at KZEW. Morning driver Tempie Lindsey is now acting MD.

"The 'Pure Rock' flag is raised high at the Zoo," said Barnett. "Before taking over Jan. 1, the new owners decided to control music and programming with help of Jon Sinton and the AM PD. I wish them all well.

I feel tons of good about the last two years, and although we suffered a recent setback in the morning show, we were able to bring the Zoo to its highest numbers since 1982. I'm inspired with creative energy and juice for what lies ahead."

"We'll have great success in Dallas for three reasons," said Sinton. "1) KZEW is the heritage radio station in the marketplace, 2) Dennis Anderson

has a terrific understanding of programming in general and the Dallas market in specific and 3) Anchor Media doesn't know how to do it anyway but right."

MTV

Speaking of Jon Sinton, our spies at MTV have spotted him and partner John Parikhal in the building on Broadway way too many times. Look for these two to sign the channel to their Joint Communications firm (if they haven't already).

PRESSING SUITS

As ex-WLVQers Pat & Wags arrived at WRIF/Detroit 12/18 to start mornings, the legal machinery was kick started. Baabyy.

"We have filed against Silver Star, which is the parent corporation of WRIF, for 'contractual interference,'" WLWQ VP/GM Tom Thom told NOISE. "They knew Pat & Wags were under contract and continued to go after them. We warned them. We told them 'hands off' and they ignored us."

"It's great," said Pat from one of those Holiday Inns all of us have come to know so well. "Here in Wolverine country, Wags can put his Ohio State diploma on the windshield, and we can park in the handicapped spaces."

Meanwhile, back at the Buckeye Billing Banger, MD Lee Randall put his hands on the wheel as acting PD. "He is running the show," said Thom. "I feel he will ultimately be named PD."

"I'm just gonna make it clean and mean," said Randall. Wendy Steele moves into the MD slot. The station continues its search for a morning show. Stay tuned.

EPA

EPA has confirmed Don Grierson as the new SR VP/A&R, replacing Lennie Petze. Word on the street is that Lennie has a P&D deal with Epic. EPA VP/Marketing Ron McCarrell goes to Capitol.

SEATTLE

Seattle got its new AOR Monday (1/5). Fresh from a talent raid on KISW's morning and afternoon shows, KTKQ changed its calls to KXRK. Seattle radio vet Larry Snider has been named music director and will do the midday show.

KPOI/WKDF

Larry Bruce, who also has two first names, has bagged WKDF/Nashville and KPOI/Honolulu.

"I am not a consultant," said Bruce. "I provide programming and promotional support services. As a word, 'consultant' has evolved to the level of used car and insurance salesman. The word been misused and distorted."

AS THE DIAL TURNS

Jeffrey Scott, late of KBPI mornings, and (according to a high White House official) the odds-on favorite to do mornings at KOME, is about to get married. Let's face it--in a business where people get unmarried more than the other way around, that by itself is big news.

But wait!! There's more!!

While at KBPI, he and MD/PM driver Lynn Wells fell in love. And it seems that being one time zone, three states, and seven area codes away from each other was just too much for either. Quite a story.

"If I wasn't so happy for her, I'd be ill," says KBPI PD Tom Hunter. "She's able to do so many things

COMING SOON

CHINA CRISIS "ARIZONA SKY"

on so many different levels. She has great tact and political skill. Anybody In America who can convince her to come to work for them is an idiot if they don't."

And with the MD job at KOME open, we don't want to jump to any tasty conclusions, but...

SECOND CITY

Jesus just left Chicago, but Tim Kelly just came back. After opening up the world's shortest consultancy, he split his PD post at KLQS/LA for the PD gig at WCKG/Chicago.

Why leave LA?

Well, the rumor mill says Tim really rang the bell. He may have set the alltime AOR PD salary high with this move.

That same rumor mill has B/A/D/E out and Fred Jacobs In at WCKG.

ADVENTURE IN MOVING

PD Bobby Christian is out at KTCZ/Minneapolis. We understand there may have been legal difficulties. Hope not. Brian Turner is acting PD while GM Mike Bowen scouts the field.

MD Candi Chamberlain exits KOME San Jose.

MD Art Boerke leaves WKWQ/Columbia. PD Jack Anthony is handling the music now. Congrats to morning man Mike Scott who survived a trash fire in his car. He was taking the station trash to the dump when...vroom!...spontaneous combustion. Just like the drummer in Spinal Tap.

Sean and Dana Coakley had a baby boy Dec. 28. Though they missed the Christmas release deadline, we think this product can go big. It's got legs. Welcome, Emmett Oliver Coakley.

JD Stone (WTKX/Penscola) and wife proudly announce the arrival of 6 lb. 14oz. Elizabeth Barrett on Jan. 4.

Dana Brown has resigned his MD gig at WQFM/Milwaukee to become PD at gold KZEP/San Antonio. WQFM PD Greg Ausham will now do the music.

Chuck Browning exits WIOQ/Phila. PD duties are split between Helen Leicht and David Dye, who have a combined total of 17 years at the station...and they're looking for a morning show. T&R to them at: WIOQ, 2 Bala Plaza, B. C., Pa. 19004. EOE, no calls.

Brent Alberts rejoins Shamrock Comm. and is named PD at KMYZ/Tulsa. He comes from WIQB/Ann Arbor, and is a former WQFM/Mil. and WYFE/Rockford PD. The station continues its slant to fullblown Classic Rock, which is "what we intended all along," according to consultant Jon Sinton.

New MD at WRUF/Gainesville is Jack Degnan.

New KOMP/Las Vegas midday man is Richard Reed. By the way, they're looking for an overniter. T&R to: S. Cohen/PD, KOMP, 4660 Decatur Bl., Las Vegas, Nv., 98103. EOE. No calls.

Congrats to everyone at WHCN/Hartford. The promotions flew like shrapnel. Daniel Hayden moves from PD to Dir. of Prog. WHCN/WSNE MD Bob Bittens is elevated from MD to PD. Afternoon driver Kim Alexander is the new MD. Did we say they need an overniter? T&R to: Bob Bittens/PD, WHCN, 1039 Asylum Av., Hartford, Ct. 06105. EOE, no calls.

Suzy Roeser is promoted to Research Dir./WIYY.

WCCC/Hartford is in search of an irreverent, comical, humorous, topical morning show. T&R to: Harve Alan/PD, WCCC, 243 S. Whitney St., Hartford, Ct. 06105. EOE. Call and you die.

Greg Solk has been promoted from PD to OM/WLUP.

Brock and Debbie Whaley and whale of a baby. Richard Russell, 9 lb. 9 oz!

Rob Barnett, PD KZEW and WAAF, scheming at 214-821-9541.

Rich Flamingo, KLUB PD/MD and production whiz can be contacted at 415-935-6132. The ride's not over. Just changing vehicles.

You don't need a weatherman to know which way the wind blows. l to r: Len Belzer/The Comedy Hour, Mark McEwen/Host of The Comedy Hour and weather anchor, CBS Morning Show, Josh Feigenbaum/MJI Broadcasting, and Steve Wright.

Iowa's premier primetime rocker is now accepting applications for future openings. T&R to: Mark Vos, KRNA, 21-05 Act Circle, Iowa City, IA. 52240. EOE.

Richard Remsberg splits WWTR/Ocean City for MD at KOMP. Skip Isley replaces Richard at PD.

KRIX/Brownsville signs with B/A.

New address for WGRX/Baltimore:

540 E. Belvedere Av., Balt. 21212 301-435-9487.

Former KZEP/SA MD Dick Sheetz rejoins his last boss, Daniel Cook at KRZQ/Reno.

We welcome brand new AOR WMFX/Columbia, SC. The legendary Chuck Dunaway, who was once #1 in NYC at 22 years old while on WABC, is GM. PD is Al Brock. MD is Ron McCartney. They need service from all labels. Their new digs: 17 Diamond Ln., Columbia, SC, 29210. 803-772-4980.

The new OM kinda guy at WZYC/Beaufort is Jim Heath from KSPN/Aspen. Frank Erickson is still PD.

New MD at KKFN/Colo. Springs is Mark Stevens.

New MD at KBXR/Borger-Amarillo is Max Barrow.

Lauren Powell, late of KAZY/Denver, goes to KCFX/KC for midday.

All of us wish you the best for '87...the kind of numbers that make GMs Santa Clauses; the kind that trigger bonus clauses. See you in Palm Springs.

PICKS

VIGIL "I AM WAITING" (CHRYSALIS)

Here's a one-listen grabber from the line up who caught early attention with the '86 indie single "Whistle In The Dark" (on the forthcoming Lp). Who can resist rock steady rhythms, laced with atmospheric guitar breaks? And Bauhaus fans will appreciate Jo Conner's dramatic vocal work. It's a warm Intro to an impressive album debut, as further evidenced by the haunting "I Love You Equinox" on the flip.... A quickstarter for '87.

ALSO NEW...

MINUTEFLAG (SST) What probably originated as a side project will turn out to be a hard-to-find collector's item, and when news of this line up hits, it will fly out of alternative retail bins. Members of the Minutemen and Black Flag have another good thing in common with "Fetch The Water"—a charming, funny tune that sparks fond memories of two American bands that set the stage for today's progressive movement. True value rock.

SINGLE FILE

LOS LOBOS "SHAKIN' SHAKIN' SHAKES" (SLASH/WB) It's the #3 Most Added track with a #35* Alternative debut. 58 new adds beckon those playlists too packed to play it this week, and witness the radio raves in the Comments section this week. Early action is highlighted by heavy airplay at KKBR, KNCN, KZEL, WBAB, WFNX, and WTOS.

Worth waiting for.... Here's a few new releases to watch for in the next few weeks, to do away with the theory of a slow release schedule after the holidays. **C.S. ANGELS (ISLAND)** Upper demos watch out! Produced by Robert Palmer, who pays a surprise vocal visit. **HUSKER DU (WB)** On their way to greater radio reality, but hanging on to a perfect edge. **MISSION U.K. (POLYGRAM)** They rock without Mercy for album radio appeal, and are rising up from underground status. **BATFISH BOYS (TWIGHLIGHT)** Ex-March Violet Simon, brings his unique style of metal meets mainstream back to record. Put it in your listen-to pile. **HIPSWAY "THE HONEYTHIEF" (COLUMBIA)** Anyone, (I mean everyone) who played the Simple Minds won't think twice on this.... **CHINA CRISIS (A&M)** "Arizona Sky" is the leadoff track and Don Berns at CFNY has begun the story on import.... Look for the new **BILLY BRAGG 12**, "Greetings To The New Brunette" (**ELEKTRA**). Dirk DeVault, WGTU observes, "He's the most socially relevant artist right now! Still at #1 here.".... Looks and sounds like '87 is off to a progressive start, thanks to a stellar rock radio finish in '86....

AIRPLAY ANALYSIS

The Top 50 Alternative Chart is based on album airplay from combined tracks and open mentions from alternative stations listed in our Regional Reports section. In our first 9 issues, the artist and album were listed on the chart. In order to show emphasis cuts without phasing out album play, the emphasis track(s) for each chart entry will now be listed in place of the Lp title. This system will show which tracks are most directly responsible for album chart positioning each week.

CONCRETE BLONDE

STARTS SOLID...

Carter Alan, WBCN: *Concrete Blonde is not another one of those throwaway wave bands that you figure college radio will take care of. Johnette's vocals are distinctive, the lyrics are provocative and the instrumentation inventive. Concrete Blonde is a band that is aspiring to be great, and on this debut album they sound like they have succeeded.*

Redbeard, KTXQ, Dallas: *It takes the street smart swagger of early Chrissie Hynde and matches it with the breathy coquettish sound of Suzanne Vega and that's the sound of Concrete Blonde. Plus, check out the lyrics to the song "True". They are, indeed.*

Beth Kepple, WKLS, Atlanta: *"I think she's got the best voice in rock and roll since Chrissie Hynde. It's really wonderful. They're up at the top of the best new bands.*

The "True" Story:
Peroxide Bottle Meets Cement Mixer
Result: pre-stressed rock.
Skid Roadie, music forman, KYYS

Rick Panneck, WAPL: *"Concrete Blonde shines through with an album that has all the ingredients that made the first Pretenders LP a success."*

IGGY POP "BLAH, BLAH, BLAH" (A&M)

RAVE UPS "BIG WIDE RIVER" (FUNSTUFF)

"I got a call from a local record store clerk who said a guy was in his store threatening him for the name of 'that band' because he had to have the record!"—Duane Sherman, WTOS.... Now that's a fan. And it's a good thing the store had a copy left. 40-28* this week.

XTC "SKYLARKING" (Geffen)

MUSIC NEWS

And now, the latest music news LIVE FROM LONDON, courtesy of CFNY and our exclusive reporter, LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on Live From London aired Wednesday evenings.

THE CULT return this month. The group caused a sensation on both sides of the pond, with a hard-edged blend of music that has seemed to cross the normally impenetrable divide between "new music" and metal, with songs like "She Sells Sanctuary". Now The Cult have a new Lp and a world tour planned.

The album, as yet untitled, comes out in February. It was recorded initially in the English town of Oxford with extra mixing in New York by Def Jam's Rick Rubin, whose previous successes have included funk sounds like The Beastie Boys. Just about to be released here is the tastier single, "Love Removal Machine". Then in March, The Cult begin their world tour, starting with a fifteen-date trek around Great Britain. Details of North American dates will be known within the next few weeks.

BOB GELDOF will also be touring the British Isles in the Spring, despite the fact that his records have not enjoyed the same enthusiastic response as they have in the States. Geldof's British record

label, Phonogram, claim they will not be making a penny out of Bob's American success (and of course they waived everything for the Band Aid record, too) so they must be getting desperate to sell him here. Geldof's second single release here will be "Love Like A Rocket" in a few days. He has also announced plans to become a television host, claiming that he wants to do on TV for third world issues what David Attenborough (distinguished animal lover) has done for nature.

Geldof is not the only person to do well in The States without denting the charts here in 1986. Other examples include Paul Young, The Outfield, John Parr, Boys Don't Cry, Wang Chung, Julian Lennon, Pete Townshend, The Moody Blues and Andy Taylor.

SHOXSIEE AND THE BANSHEES release a brand new single on 9th January in the U.K. called "Wheels Of Fire". The lyrics are penned by Bob Dylan (?!) Their next Lp comes out in February. The 12" will have two extra tracks - "Shooting The Sun" and "Sleepwalking On A High Wire".

CRAIG GANNON, a recently recruited guitarist for The Smiths, has left the group after only having joined them last May. Gannon was previously a session musician for Aztec Camera, The Bluebells and The Colourfield and says that when he joined

continued

The Smiths he did not think he would be merely in the background again, and "always playing second fiddle to Johnny Marr." Gannon says that he has greater ambitions, but stresses that he still gets on "very well" with the group.

I reported before Christmas that three members of the recently defunct **MADNESS** would be forming a new outfit called **THE WASP FACTORY**. However, Carl, Suggs and Chris Foreman have discovered another London group with the same name - so they will have to think of another.

THE FALL have been certainly causing heads to stir with their new production at the Riverside Studios in the London area of Hammersmith with "Hey Luciana", the story of Pope John Paul I who in 1978 reigned for only days in the Vatican and died in his sleep. Mark E. Smith has been quick to point out that he is not offering any conspiracy theories; indeed London reviewers seem to have been trying to work out precisely what the play is offering. It has received the most schizophrenic reviews I've ever seen for anything! In addition to the play and promoting their excellent single of the same name, The Fall found time to play a free concert in their native Manchester over the Christmas period; supported by A Certain Ratio, Britain's young jazz genius Courtney Pine, The Jazz Defectors and Selectors singer Pauline Black.

As in their native U.S. **THE DEAD KENNEDYS** have run into censorship problems with their new Lp "Bedtime For Democracy". The U.K. has no equivalent to the Washington Wives or The Moral Majority, but occasionally large bodies like the BBC or retailers refuse to handle product. It's with the national retail chain HMV that the Dead Kennedys' record label, Alternative Tentacles, is having a censorship row. In early December, the record company discovered that HMV were removing a 12-page newspaper, which came as part of the album, before selling it over the counter. When the record company complained, HMV merely withdrew the Lp altogether. The retail chain claim that their decision is pending the result of their committee's findings, as to whether "Bedtime For Democracy" contravenes the British "Obscene Publications Act". The group have recently been involved in a court case in the U.S. over alleged obscenity in their last Lp "Frankenchrst".

The **STYLE COUNCIL** return this month with new material. A new single is called "It Didn't Matter" and their next Lp is "The Cost Of Loving". Judging by recent performances from the band, their sound is becoming flavoured with a lot more soft soul, as opposed to the jazz-influenced sound the outfit have championed thus far.

Representing the intelligent end of teeny mags, Britain's most popular music paper is "Smash Hits". With a readership of over 500,000, it outsells its nearest rival by four to one, with their magic formula of well written features, gossip, colour pin-ups, songwords, trivia and puzzles. (Their daughter publication is America's "Star Hits"). They have just published their readers' poll, which will no doubt be read in every record company boardroom in the U.K., as the indisputed, most accurate insight into the opinions of the young teenager. Best group was a-ha, with the worst voted as **SIGUE SIGUE SPUTNIK**. Most Promising New Act was **THE**

HOUSEMARTINS. Best Male Singer, **MORTEN HARKET**; Best Female Singer was **MADONNA** who also picks up best Lp with "True Blue". Best single was **DURAN DURAN**'s "Notorious" while the worst was voted as "The Chicken Song" by **SPITTING IMAGE**. Best video, "Sledgehammer" by **PETER GABRIEL**. The worst? **MADONNA**'s "True Blue"! The Very Most Horrible Thing is **GEORGE MICHAEL**, according to SH readers and The Most Completely Useless Person was voted as **MARGARET THATCHER**, with **SAMMY FOX** coming in a hot second!

Speaking of **MORTEN HARKET**, give Mr. Bulge-in-the-Trousers a medal! Sitting in London, the singer read of a 13-year-old girl in his native Norway by the name of Monica who has a crippling birth defect. Because of this, she couldn't risk going to an a-ha concert even though, like many girls of her age, Morten is Monica's dreamboy. The a-ha singer arranged for the young Norwegian to fly to London and spend the day with him. She was picked up at the airport by Harket's limo, stayed the night at a top London hotel, taken next day to The Hard Rock Cafe where she met up with Morten and the two tucked into hamburgers, while fans battled outside. After a visit to the giant HMV shop to buy some of her favourite records, she spent the rest of the afternoon with the entire trio at Pal and Mags' shared apartment. It does not seem to be that much of a mere publicity stunt either. Only one British magazine, Number One, uncovered these events. Well, what a chap!

NEW MODEL ARMY, who were once barred from The United States for having "no artistic merit," may today wish that the ban had not been recently revoked. On their recent tour of North America, they broke down between Montreal and Toronto, in sub-zero temperatures, with a broken heater! They put out a call on CB Radio and were rescued by - of all people - Metallica, who happened to be nearby.

Congrats to **MIKE PETERS** of The Alarm, who has just announced his engagement after a four-month romance. His bride to be deflates the myth that rock stars must marry leggy models in Haiti - she's a 19-year-old Welsh speaking college student, Julie Jones, who met Mike at his local pub in his hometown of Bangor, Wales.

DEAD OR ALIVE, whose novelty seems to be flagging somewhat over here, try their luck with a new single this month, "Something in My House". One version of the single comes with a pop-up sleeve. Gosh! The next DOA Lp comes out in the U.K. on 2nd February, "Mad Bad And Dangerous To Know".

A name to watch out for are **THE THRASHING DOVES**, a new A&M signing, who impressed critics and music lovers alike with their single "Matchstick Flotilla" (about the boat people). They have a new single in early January called "Beautiful Imbalance", with their debut Lp to follow soon. Vocally they sound not unlike Lloyd Cole, but musically they are a lot heavier - conscious rock at its best.

The Advance 12-inch From The Album

Looking For Jack

The U.S. office of Virgin Records have just signed a three-year distribution deal with Atlantic Records. The legendary American label will shift Virgin's product, while Virgin's own staff will continue to manage the marketing and promotion side. The first release from the Virgin-Atlantic partnership will be the soundtrack to the blockbuster British movie "The Mission". The stateside office have also just signed Steve Winwood and Warren Zevon.

CHARTS

The top-selling reggae single is Maxi Priest's "CRAZY LOVE" (Ten). It's an instantly enjoyable, soft, reggaefied version of the Van Morrison classic, originally to be found on "MOONDANCE". The number one Independent Label single is "THE CARAVAN OF LOVE" by The Housemartins (Go! Discs). The top Indie Lp is "BEDTIME FOR DEMOCRACY" by The Dead Kennedys (Alternative Tentacles). Kate Bush's "THE WHOLE STORY" continues to be blocked from the top spot in the national Lp charts by two singles compilation albums, "HITS 5" at 2 and "NOW THAT'S WHAT I CALL MUSIC" 8 at Number One. But she continues to have the best selling CD, and the biggest selling rock home video. Confusion lies elsewhere in the Lp charts, with obvious best-sellers and MOR Christmas Lps making a sudden surge but little else.

THE UK TOP 40 SINGLES

New Entries: New at 33 "THE BOY IN THE BUBBLE" by Paul Simon. Interesting to look at all the music critics' year-end choices. Whether they were biased towards metal, or punk or soul, "Graceland" made every list. New at 27 "HYMN TO HER" by The Pretenders. Politely ignoring the groanworthy title, this is one of the very sweetest, most haunting cuts off "GET CLOSE" and a real grower.

Climbers: Up 3 to 25 "THE MIRACLE OF LOVE" by The Eurythmics. A painfully slow climber for Annie and Dave in the heat of the intense Christmas market. It's interesting to note that those who have become recent tax exiles of the U.K. have had less success, with their subsequent lower profile. Howard Jones' follow up to a moderate top twenty hit, "YOU KNOW I LOVE YOU" didn't even get into the top 50! And "HEARTBREAK BEAT" by The Psychedelic Furs hardly got a look into the Top 100! Up 12 to 22 "SANTA CLAUS IS ON THE DOLE" by Spitting Image - "the dole" being slang for welfare cheques - the token seasonal jokey record. Climbing from 38 to 18 "NO MORE THE FOOL" by Elkie Brooks. She may have been a rock and roller once in her Vinegar Joe days, but today she's strictly MOR. Up 17 to 15 "DREAMIN" by Status Quo. Their almost two-decade formula of goodtime boogie music has surprisingly never caught on in the States. (It was they who opened "Live Aid" with "ROCKING ALL OVER THE WORLD"). AOR stations should dip their toe in and give it a try - I think it would go down really well. Up 6 to 15, the infectious soul sounds of Jaki Graham with "STEP RIGHT UP", and in a similar vein, The Gap Band's "BIG FUN" jumps 18 to 12. Leaping 16 to 8, "IS THIS LOVE?" by Alison Moyet. Still probably the U.K.'s best contemporary female vocalist, locked here in a songwriting formula that doesn't seem to be doing her any harm. Up 9 to 7 "CRY WOLF" by a-ha.

The perfect teen band in every way, not least from a great string of songs like this and considerable musical talent. Last week Europe's "THE FINAL COUNTDOWN" was bumped from number one by "THE CARAVAN OF LOVE" by The Housemartins - but a late dark horse for the Christmas number one sidled up effortlessly to number 2, the re-released "Reet Petite" by the late Jackie Wilson. This week it is the official Christmas number one, with The Housemartins bumped to 2.

Last week's rise of "CARAVAN" to number one made it the second ever purely vocal record to reach the pole position. The first was coincidentally exactly two years ago when The Flying Pickets hit the top spot with an a capella cover of Yaz's "ONLY YOU". The record that befuddled the bookmakers at the last minute, "REET PETITE", was originally a hit in 1957. No other record has returned to the charts after such a long intervening period.

Finally, single sales were down by 5 percent this year in the U.K. and very few new acts emerged in the charts in 1986 - with the glorious exception of The Housemartins. In an article in "Record Mirror" with the headline "Why Is The Top 40 So Awful?" blame is squared on a shift of age groups from 16-20 to 20-30, which also moves the emphasis on albums and established acts (Ferry, Police, Bush, etc.). There is also, in this much more multi-media age, less success to be salvaged from simply having an impressive single. Record companies have to spend tons of moola grooming acts to be good actors for videos, etc. It's not rock and roll anymore - or is it? The article points to the meteoric success of The Housemartins: "They are the very antithesis of the eighties. They're not pretty, they play loads of live gigs, they don't wear loafers, make-up or silly hats. What they do is mix an intelligent appropriation of the tools of promotion. What The Housemartins have done is bring chart pop down to its human size again." Where there is life like this, there is hope - as the likes of Bruce Hornsby has proven on your side of the pond.

Good records, good radio - it's still there. Happy New Year.

MUSIC NEWS compiled by MIKE COOPER/MUSIC NOW!, P.O. Box 4111, Atlanta, GA 30302-4111

ELTON JOHN has cancelled all of his concerts scheduled for 1987, including the rest of an Australian tour and 32 dates planned for the U.S. He is said to be resting comfortably after throat surgery at a hospital in Sydney, Australia. He won't be able to speak for several days after the operation. John's publicist, Patti Mostyn, says John had recently become increasingly worried about his throat. "It's something on the vocal chords," Mostyn says. "He just feels enormously relieved that he's finally been recommended to a specialist who has said something positive for him." John had cancelled one concert recently and collapsed at another, but he says he's not worried about the operation. There is speculation that John's problem is nodules on his vocal chords, something Paul Young suffered from a couple of years ago. John chose to stay in Sydney for the treatment so that he could stay away from the cold British winter and so that he could follow the progress of Britain's cricket team.

BEN ORR says **THE CARS** are still scheduled to go into the studio in February to record their next album, and a world tour will follow.

SLY and **ROBBIE** have completed the follow-up to their "Language Barrier" album. The new Lp is again produced by Bill Laswell.

After three years without a record contract, the dB's have signed with IRS Records. "We finally got around to signing a contract at the end of November," says Peter Holsapple. "It's a good, long contract and it gives us something that we are not used to — knowing where our next record is coming from." The band's third album, "Like This", was released on Bearsville Records, just before the label folded. The band remained under contract to the label's president, Albert Grossman, but he agreed to release the band from its contract. However, he died before the papers were signed. The dB's members have been pursuing individual efforts in the meantime. Drummer Will Rigby formed his own band, Wipe Me Mommy, and has recorded songs for a second solo album. Guitarist Gene Holder has worked with a group called the Wygals, and Holsapple has done some shows with Syd Straw.

About 32,000 people attended a massive International Year of Peace concert with **PETER GABRIEL**, **JACKSON BROWNE**, **HOWARD JONES**, **NONA HENDRYX** and **LOU REED** in Japan just before Christmas. World television rights to the concert have already been sold. The proceeds will go to a communications center for the Ghandi Center of the University of Peace in Costa Rica, which was established by the United Nations four years ago.

BANANARAMA's KAREN WOODWARD and solo singer **ELKIE BROOKS** both became mothers last week. They both gave birth to bouncing baby boys.

ALISON MOYET is in Los Angeles finishing her new album, "Chasing Rain". Remixing of the Lp has taken longer than anticipated, causing Moyet to cancel her plans for a spring tour.

BOB GELDOF has announced plans for his first solo tour. It will start in Glasgow, Scotland on February 28. While his "This Is The World Calling" single hit the top 20 in England, his "Deep In The Heart Of Nowhere" album has failed to make the top 75.

On the first anniversary of his death, a **PHIL LYNOTT** single is being reissued in England. "King's Call" was written in 1980 to commemorate the death of Elvis Presley, and it features Dire Straits' Mark Knopfler on guitar and backing vocals. Midge Ure has remixed the single, noting that Lynott helped him a lot when the band toured the U.S. with Thin Lizzy.

LENE LOVICH and **NINA HAGEN**, who are in the middle of a world tour together, are planning further collaborations. They'll work on an opera and two film projects. The two have also just released a single in Britain called "Don't Kill The Animals". The track, which they say is "the ultimate

in vegetarian dance tracks," comes from an upcoming compilation album featuring Howard Jones, Slouxsie & The Banshees and The Smiths, with proceeds going to People For The Ethical Treatment of Animals.

JACKSON BROWNE spent his own money funding the video for "Lives In The Balance", the title cut to the album he released early last year. The clip is based on footage from documentaries that Browne has seen "over the last four or five years. I wanted America to see these people's faces, who it is we're killing down there." The clip includes footage of Nicaragua, El Salvador, Vietnam and Watergate. He sent a letter out to radio programmers asking them to support the song and the video, by making the song available to "high school and college kids to encourage them to think about what's happening in Central America and examine closely what they are being told by our government and by the major news media." Browne says, "People are now much more aware of what some of the song says than they ever have been. It's not your responsibility in a democracy to blindly trust what is told to you by your leaders. You have to take it upon yourself to find out and make it your business." The clip is being released even though "Lives In The Balance" is not being issued as a single, and it was in the works before the current Iran arms deal surfaced. "I don't want to exploit the revelations or what's happening to Reagan to sell albums, but if I was trying to make a point before, it's an even stronger point now."

A 1983 documentary about **SID VICIOUS**, called "D.O.A.", is being reissued because of the success of the "Sid And Nancy" film. "We were more than a little surprised when 'Sid And Nancy' did so well," says John Taylor, co-producer of "D.O.A." "When our movie came out, critics were appalled by the nihilism of the punk movement. It was too new. It seemed to make them afraid. Now that punk has been analyzed to death, these same critics are calling the relationship between Sid and Nancy a decadent 'Romeo and Juliet'."

DAVID BOWIE's next album should be out in March, and he plans a tour shortly afterwards. The Lp was co-produced with Dave Richards, who also co-produced Iggy Pop's "Blah, Blah, Blah" album with Bowie.

TINA TURNER, who is now on vacation in Italy, plans to begin a European tour in March, and a tour of the U.S. in July.

R.E.M. have recorded a song for the upcoming film, "Made In Heaven". The film is being produced by Alan Rudolph and stars Timothy Hutton and Kelly McGillis.

T. LAVITZ (ex-Dregs) and **PAUL BARRERE** (ex-Little Feat) contribute to the new album by the Atlanta-based Hampton Grease Band called "Music To Eat".

GENESIS haven't had to cancel any dates on their current Australian tour, even though Phil Collins has been limping after landing awkwardly on one foot during an onstage jump.

STEVE MILLER is working on an album of jazz standards. Says Miller, "Ben Sidran is producing, and we've cut 14 tracks already. I'll be doing some jazz standards...but it'll be a lot different than the kind of thing that Ronstadt did. This will be a jazz combo thing with a lot of rhythm and blues along with the jazz." Miller says he hopes to film a cable TV special in Chicago that would allow him to introduce the jazz material. "The people who I'm trying to sell records to are not 15-year-old kids who want to boogie 'til they puke," Miller says in explaining the new direction. "The people I'm trying to reach are the people who stopped buying records when they were 25 years old and don't go into record stores now because they're afraid that their taste in music will be questioned or laughed at."

JIMMY PAGE has announced that he's leaving The Firm, and that he plans to work on a solo album early next year. Former Free member Andy Fraser has reportedly been writing songs with Firm vocalist Paul Rodgers, suggesting Fraser might replace Page.

U2 plan to play their first concert since the Amnesty International show in April. That's when the band's new album is expected to be released.

TINA TURNER will take a 7-piece band with her on her 65-date "Break Every Rule" tour of Europe in the spring, as well as her regular band which includes former members of Squeeze and Talking Heads. Some British newspapers have reported that this may be her final tour before she concentrates more seriously on her acting career.

PET SHOP BOY NEIL TENNANT is recording a duet with **DUSTY SPRINGFIELD**, his favorite female singer. Tennant has written a song for the two to record together, which should be released early in the year.

A van carrying **NEW MODEL ARMY** on their North American tour broke down last month while on the road, 95 miles from Toronto. Temperatures were around zero degrees and the van's heater didn't work, so band members put out a call on their CB radio. Lucky for them, the British heavy metal band Metallica was in the vicinity, and rescued their fellow countrymen from the frozen wastes. A spokesman for the New Model Army says the band had to be treated for shock.

Producer **DON DIXON** joined **MARTI JONES** onstage when she played in Washington, D.C., recently. Their impromptu set included "Your Cheatin' Heart" and Dixon's "Crusher".

BEN E. KING, currently on the charts with "Stand By Me", is completing a new album produced by John Paul Jones of Led Zeppelin. "People are surprised that (Jones) is producing it, but this is a guy who really understands what Ben E. King is about," King says. "What we've done so far is very exciting — the best of then and now." The LP will be King's first album of new material since 1982.

Syncro Sound, the Boston recording studio owned by the **CARS**, has closed. While the Cars recorded "Shake It Up" there five years ago, later albums have been recorded elsewhere. A spokesman for

the group's management also says it was difficult keeping the studio equipped with state-of-the-art technology. While Ric Ocasek recorded his debut solo album at Syncro, Ben Orr recorded his solo LP in England. Peter Wolf will apparently be the last artist to use the facilities. He's just finished recording his second solo album there.

MICHAEL MANN, lead guitarist for the Blasters, has died of an apparent heart attack. Mann had joined the band to replace David Alvin. He had played with Muddy Waters and was known to fans as Hollywood Fats.

TED NUGENT is just beginning another tour, after taking a few months off to spend time with his family. "I always stop working in September, because as a father I want to be more than a visitor," Nugent says. He spent four days hunting with his 10-year-old son just before Christmas. He says he and his children cut their own Christmas tree, and their Christmas turkey was bagged by Nugent.

The nation's tailors have listed **BRUCE SPRINGSTEEN** among the "best dressed" men of 1986. He led the entertainment category in the annual survey of tailors and designers by the Fashion Foundation of America.

LYNVAL GOLDING, formerly of the Fun Boy Three, is helping a new band called After Tonite that includes his cousin, Brian Clarke. The funk band has been rehearsing for the last two years and made its live debut in London in mid-November. "A young band needs someone to guide them along the way," Golding explains. The group's debut single in England is "Time For A Change".

STEVIE RAY VAUGHAN says he checked himself into a rehabilitation program at an Atlanta hospital this fall because he finally recognized his drug and alcohol addictions. "You end up dead or in jail or you get help. There are no other solutions," he says. He says his use of cocaine, alcohol and other drugs began "when I was a little kid...it got worse and worse as we were becoming famous or whatever and our schedule got really ridiculous. We were being pushed so hard we needed extra energy and we thought that was the way to get it." Vaughan wasn't the only member of his band to go through the rehabilitation program. Double Trouble bass player Tommy Shannon did the same. "I was dying," Shannon says. "Both of us were, really." Shannon says he and Vaughan were able to help each other out during the 30-day program.

THE DEAD KENNEDYS are having trouble with one British record chain over their new album, "Bedtime For Democracy". The HMV chain has been removing copies of a 12-page newspaper from the album before putting them on sale. The newspaper includes details of the band's censorship problems in the United States. The band has withdrawn copies of the album from the British chain's stores, hoping to make it clear that the LP has been "temporarily withdrawn, not banned."

GENERAL PUBLIC's Ranking Roger is recording a solo album at Martin Rushent's Genetic Studios in England.

Redbeard, KTXQ, Dallas

I just want to commend the people at the Hard Report for putting together their sampler tape over the holidays with so much great new unreleased music. I also want to compliment the farsightedness of the record companies who supplied it. Everybody knows that I have been a passionate proponent for getting the music to us programmers in advance as often as possible. That way when the record comes out we're familiar with it. Then we can give you that add out of the box that you're really looking for. There is just no substitute for getting the music early and the proof in the pudding. I think I added almost half a dozen songs off the Hard Report sampler over the past two weeks, which has got to be some kind of record. I added the Edmunds, the Psuedo Echo, the Spoons, Los Lobos, and sooner or later I'm going to add the Concrete Blonde.

Bob Welch, WQBK, Albany

Don Dixon's "Praying Mantis" moves into heavy this week due to great phone action and a great fun sound. Enigma has a winner with this one.... Getting lots of calls about the Eric Clapton/Tina Turner duet. People can't understand why it's not on the Tina Turner album, it seems.... Robert Cray's "Smokin' Gun" is also another big request.... And we're backing up the airplay on "Keep Your Hands To Yourself" from Georgia Satellites with "Battleship Chains" which is starting to pull in impressive phone calls.... And the song that's becoming a staff favorite is Crowded House's "Don't Dream It's Over".... Robin Trower's "No Time" grows on you everytime you hear it. Thanks to Paul Yeskel for the CD.

Cathy Down, WLNZ, Lansing

Take out the party hats, noisemakers and your favorite abused copy of "Auld Lang Syne" cause 1987 is finally here. After the superstar overload of 1986, '87 has to be a refresher with new artists coming to the pedestal's surface. That's why Don Dixon, Julian Cope and Dave Adams kicked off the Lazer's New Year with style. But can't say the superstars are left far behind like Father Time 'cause the Alan Parsons Project and Los Lobos are '87 toppers to boot. With a title like "Shakin Shakin Shakes", it kind of brings the old jitterbug dance out all over again. So with over 350 days to go, WLNZ is ready to take on '87 with full force.

Harry Reynolds, KOZZ, Reno

Dave Edmunds is projected for next week. When I do mobile DJ work, the audience has been asking for it.... I would like to compliment The Hard Report for the sampler tape. It proved to be a very valuable tool for helping us look into some things and mainly get things together so they're all in one place at one time. I hope to see one every week.

Ace Paladino, KRIX, Brownsville

Hello and welcome to 1987. As we welcome Burkhart/Abrams and our new GM Don Wolfe to KRIX, it promises to be an incredible year, one month from now I hope to be sitting in a new office down the hall from our new state of the art studios. When my mom asked me what I got for Christmas, I told her some kick ass new owners and a brand new radio station. Yes, Virginia, there is a Santa Claus. More as it develops.

Catfish, WHMD, Hammond

I've heard of a song which launched an ad campaign ("I'd Like To Teach The World To Sing") but a beer spot exposing a Genesis album cut? The phones speak: "Tonight, Tonight, Tonight"!!.... Number one requests for Bon Jovi.... Others showing significant action: Don Dixon and Robin Trower has good response from adult males.... The new Rob Jungklas CD is great; love the sitar intro. It's our third Jungklas add.... Looking forward to the Thompson Twins, Alan Parsons, and speedy release of the Beatles CD's.... I like the Crowded House a lot. It's the perfect relief. Where's it been hiding?.... I'm sorry I held out so long on Love and Rockets, but it's great.... Considering: The Spoons, Lucy Show.

Phil Thompson, KICT, Wichita

What a way to bring in the New Year. Some strange happenings in Kansas City. They were highlighted by the Rainmakers New Year's Eve Homecoming show. This year it was at the Uptown Theater. These guys are great fun live and soon will be heading into the studio to work on their second album. Thanks to Bill Rusch from Polygram for the excellent seats. By the way, sorry we missed the party later, but like I said, strange happenings in KC.... After that and a lazy couple of weeks, I've recuperated and am ready to get back into music. My favorite tracks so far in '87 are Deep Purple and the new Los Lobos.... Also sounding good to me is that new live Dave Edmunds. If this is any indication of the rest of the year, it could be another great one for AOR radio.... Finally, my New Year's resolution: To try and return all my music calls.

Bonnie Stacy, KNCN, Corpus Christi

Can't think of a better way to start to '87 than with new Deep Purple. Call me a dinosaur if you want but it's already burning up the phones and I love it and I can't wait for the album. And besides I am a dinosaur.... I'm ecstatic to see such great strides were made on Jason & The Scorchers' "Golden Ball And Chain" over the holidays. This band deserves it and your listeners deserve them. Try "Shotgun Blues" for a real southern scorch.... Berlin's "Pink And Velvet" is just huge on the phones. The combination of Terry Nunn's voice and David Gilmore's guitar is almost more joy than one can handle.... And finally, congrats to Stryper and Enigma on reaching that golden plateau.... Happy rockin' 1987 to all!

Russ Mottla, WAAF, Worcester

Adds: Deep Purple "Bad Attitude". It continues the successful re-emergence of a core AOR audience.... I feel like I'm in love with the Crowded House album again. Over the holidays I got a lot of time to listen to the album. My favorite track on the album is "Now We're Getting Somewhere". Killer song.... Kinks "Factory" goes in.... Found a song I'm crazy about on the World Party Album (which took me a long time to get into) "Private Revolution". I think it will do real well.... We readded two Steve Winwood tracks which is a strange way to start the year, but that Lp has just not settled down as far as the audience is concerned. "High Life" and "Finer Things" are two tracks that deserve exposure.

Kevin Vargas, KWHL, Anchorage

When the trade magazines close down, the record industry took a logical and deserved break. However, just because the trade mags close down, radio did not. Over the last 3 weeks, we made a good amount of changes. Keeping our sound fresh, and giving a shot to many records we've had to put off. Working above and beyond the call of duty, were Geoffry Schulmann of Arista, and Michelle Meissner of Elektra who took advantage of our not closing down and still called in to talk music. I don't know if you'd call this over dedication or lack of anything better to do but I hope their bosses realize that they took advantage of opportunity. Looking forward to lots of new rock and roll and have I've already been appeased by the new **Deep Purple** and the **Alan Parsons Project**. These singles are exactly what you'd expect from these bands. Now just get us the albums as soon as possible.

Ty Banks, KQWB, Fargo

Just would like to say thanx to all companies for the outstanding record service with a few exceptions... Have not received the **LOS LOBOS** yet, so we're adding it off the cassette; would like service as soon as possible. Don't get me wrong, service is generally wonderful, but this time for some reason we've been overlooked. Looking forward to a great year in '87 and wishing the best to all at the Hard Report.

Kim Alexander, WHCN, Hartford

What a pleasure to be here. This is what I've wanted to do ever since I was an intern back in Philly. Hey—I had lots of good teachers— especially Steve Feinstein and Bob Bittens. Did you start the year with a "Bad Attitude"? Sure you did. Good response on the new **Deep Purple** already. In goes **LOS LOBOS** this week, "Shakin" is a great tune on the radio. This is going to be a great month of music and I'm looking forward to a great year, make that great years, here.

Chris James, WTPA, Harrisburg

Bon Jovi played Central Pennsylvania January 2nd and fantastic would be an understatement. Thanks to Bobbi Silver of EMI, Syd Payne of Electric Factory, and Richie Bozette and every one else affiliated with **Bon Jovi**. Every thing went off without a hitch. "Slippery When Wet" continues to pull #1 sales with **Bruce Hornsby** closing in. **Joan Jett** also just played in the area. It was great to see her back rocking. Thanks you's to Julie Raider and Biff Kennedy. Couldn't have done it without you. Looking forward to the **Jason and the Scorchers** show on Monday. 1987 is only 2 weeks old and already there are some sleepers of '87.. Keep an eye on **Pseudo Echo** and **Brighton Rock**. They're smashes just waiting to happen.

Lee Roberts, KMYZ, Tulsa

Starting off the new year with a new program director at Z104. Brent Alberts is now the Program Director for KMYZ. Bill Bruun can be reached at 918-836-9506. With a new PD comes some changes. More of a classic rock format here with less emphasis on currents. I will be able to answer all questions and calls during my regular music call hours Monday and Tuesday 9-12 noon.

Inessa York, KGON, Portland

That was a great mini Hard Report and attached cassette, one that was very very useful. I wouldn't mind seeing something like this periodically. It makes my job much easier. A couple of things have emerged out of the year end hash... the **Stranglers** and the **Spoons**... Sometimes I feel that if there was never another piece of vinyl pressed there would still be plenty of music to uncover. That's certainly true for the **Stranglers**. They have had several albums out that have received only minimal airplay. "Always the Sun" is a step towards more mass appeal. The **Spoons** may be the bridge over the border for another Canadian artist. They seem to have that right balance of techno pop and rock along the lines of **INXS**. Finally, our 13th Birthday is coming up and we're looking for artists' I.D.'s. Studio or phone is fine. If you are reading this and are in the right place at the right time to cut I.D.'S for us, this is what we need. "Thirteenth Birthday Message to 92 point 3 K-G-O-N".

David Anderson, WMAD, Madison

Great to be back from the holidays...I spent 2 weeks on the "Mosquito Coast" with Harrison Ford and the one song we heard all over the radio down there was **KBC's "America"**. And it made us want to come back home. We start the new year at WMAD with a great Fall Birch report. Men 18-34 are up 8.1 to 14.2. Men 24-49 are up 7.4 to 9.8. 1987 promises to be even bigger.. Thanks to all the record people who helped us get our new format going.

Larry "The Duck" Dunn, WLIR, Long Island

Happy New Year to all. While our poor Jets had a yard sale, the Giants roll on to Pasadena. This makes all those cold Sunday afternoons in Yankee stadium worthwhile. It's days like these I wish I renewed by my Giants season tickets when they moved to the Meadowlands. Go Giants! Speaking of the Superbowl, stay tune next for the results of the Screamer of the Year competition. This Thursday marks the day the listenership of WLIR decides on the best new song of 1986. The Best of all the Screamers of the Week of 1986. On to 1987. It's great that one year after we started playing the import of Hipsway, "The Honeythief" that it's finally

released in America. Besides being Screamer of the Week back in March the song has a cross over appeal that will ultimately go Urban and CHR. I kid you not..the clubs had a field day with "The Honeythief" and so did we. I love the new Pseudo Echo single..1986 was a great year for Australian bands. Lets hope '87 keeps the ball rolling for the bands from down under. I Have to admit the record sales on the Ben Orr album are staggering during the period of the boxed in Bruce. "Too Hot to Stop" may be simply that. Finally all the best to Michael, Phil, and everybody at Virgin America. It's great to see bands like Heaven 17 and Killing Joke work in this country. Screamer of the week: Love and Rockets,"All in My Mind".

Lorraine Rapp, WAQX, Syracuse

Welcome back . Happy New Year! We wrapped up 1986 with a record breaking food drive on behalf of the Salvation Army. The food collected was distributed to thousands of needy families, bring all of us a bit closer to the true meaning of the holiday season. After four weeks of listener registration (at the sound of Jack Lord's "Book'em , Dano") a grand prize winner was selected at our 95X Hawaiian luau ot enjoy ten days in Hawaii. While the lucky winners wew soaking up the rays, 95X kicked off 1987 by sending a bus load of listeners on tour, first to Buffalo to see Ratt. The following night we took a busload of 95X winners to the sold out Bon Jovi/Cinderella show in Utica where we presented Jon and the band with over 25,000 signatures gathered during our petition drive to bring the Bon Jovi tour to Syracuse. Jon accepted the invitation live on the air the following afternoon. Thanks to all concerned for their help with both trips. Last call for Rock Auc 87! We need any and all large ticket items that can be donated for this very special weekend. All money collected will go the the Central New York Food Bank. Please get in touch with us immediatly.. it is less than two weeks away.

Erin Riley, WMMR, Philadelphia

Hope you all had a nice holiday. It was all so calm and peaceful until the new Deep Purple single arrived. And then all hell broke loose. Instant phone reaction but then what did you expect? Get ready, we've got another Philly artist coming your way. Very soon, you'll be hearing about Tommmy Conwell and the Young Rumlbers and not just from me. He's on a label called Antennae records... the same label the Hooters started out on and you can expect the same quality music. Tommy is a world class guitar player and a great song writer. We've been working with him for the last couple of years, and now he's ready for you.

Lorraine Meier, KKCY, San Francisco

Thanx to Columbia Records and our listeners, KKCY/The City raised \$1,931 for the SF Food Bank for Christmas. We auctioned off sampler Lps from the Bruce box set and "Born In the USA"; the B side Ep that was released to radio stations in 1984.... Since the City went on the air in June of '85, we've raised well over \$30,000 for the SF Food Bank.

Wayne Summers, WRCN, Long Island

The years are ticking off too rapidly to suit me. Hope all is well with you. 1986 was a great year. 1987 will be a greater year.... We're off to a good start with hot adds this week like "World Shut" by Julian Cope. Brian Setzer meets Ray Davies? He's hot and will generate phones.... Also, how about that Love & Rockets? The stuff that hits are made of.... Los Lobos gets a nod for "Shakin". Everybody is coming to the party says Val Goodman.... Finally, it's good to hear something fresh from Alan Parsons. I suspect "Higher Ground" will be among the first monsters of '87.... "Bad Attitude" is the best in a while for Glover and the guys.

Carter Allen, WBCN, Boston

Welcome back from the sea of champagne and your Christmas jollies.... Deep Purple provided an abrupt awakening to the New Year with a fantastic rocker, which is as subtle as a flying mallet. "Bad Attitude" should have no problem duplicating previous Purple success.... Also bitten by the new Robert Hazard record on RHA. This is the best music Robert has written since his very first "Escalator" Ep. "Be My Girl" and "Hollywood" are focal tracks. This Lp provides the fire missing from his RCA Lp of a couple of years back.

Alex Miller and Michael Prince, Atco

Atco kicks into '87 with the Canadian quintet Brighton Rock whose upcoming Lp "Young, Wild and Free" was produced by Michael Wagner. Their first 12" "We Came To Rock" sets the tone of the Brighton Rock sound. Key cuts are "The Majestic", "Can't Wait For The Night", "Jack Is Back" and "Nobody's Hero" (inspired by the Graham Green book that is the band's namesake, Brighton Rock). "We Came To Rock" has gathered critical praise the first week out and if you haven't listened you're missing out on what may be 1987's most promising new band.... Julian Cope's "World" was the most exciting track we heard at the end of '86. (It was part of Julian's 5 cut Ep.) Some very impressive stations know a great song when they hear one—and didn't have to say, "We'll wait and see". They heard and went for it. Now you have Cope's 12" "World Shut Your Mouth", the only Ep track to be included on the upcoming Lp. If you haven't seen the video, it's a must.... Since you did, thanks for reading.

Pam Brooks, WPDH, Poughkeepsie

Tie me down with "Battleship Chains". I love it. After giving us "Paradise By The Dashboard Light" '86, the Georgia Satellites provide a moving love song for '87. Here's a spirited corker you'd be silly not to serve to your listeners.... The new year is shapin', I mean shakin' up nicely with the return of LOS LOBOS and "Shakin, Shakin, Shakes". A little rockabilly goes a long way and adds a lot of punch to the air waves. And I'm sure this one will be tearing up the turntables.... Deep Purple is cranking with "Attitude". This way to the Church of Rock & Roll, little lady. Pick your pew and get into that "Bad Attitude". The phones have already started and I'm looking forward to hearing what else "The House of Blue Lights" has to offer. Amen.... Til Tuesday continues with one of my faves, "Coming Up Close". "Welcome Home" is a beautiful Lp that not only works well for upper women but guys, too. The men love Aimee, and this is a wonderful second effort.... And finally, one of my all time favorite projects is back for '87. APP with "Standing On Higher Ground". Alan Parsons and Co. always give us music that is ripe for the true connoisseur of melody and harmony. I will forever remain true to them because, like a fine wine, they serve no music before its time. Always beautifully done with a flair all their own, get on it now.

Virgil Thompson, WIXV, Savannah

A new year and new shows. Attention all labels: We now have a New Music Show plus a Metal Shop. Please send all your new stuff from purple hairdo music to Wendy O. chainsaw toons.

Jim Trapp, KZEL, Eugene

This garage band from the A&M mailroom, the Rave-Ups, deserve a good listen. They can help keep the station both hard and adult. The great guitar sound makes this a wonderful night time rocker.... The new Rainmakers track, "The One That Got Away" is yet another validation of the importance of this new American band. Now that listeners have assimilated the sound, this is the kind of track that can send them over the top.... Best of luck in the Book to everyone who isn't in my market.

Big Marty, KOMP, Las Vegas

I don't want to say anything incriminating. I'm starting the year clean.

Wendy Steele, WLVQ, Columbus

It was a great holiday season—I got what I wanted. I'm now the new MD here at QFM 96 and Lee Randall is the new PD. I'll be taking music calls Wed-Fri. 2:30-5:30... and I'm Into it!!!.... We're awaiting the best releases of '87 while relying on Clapton, Pretenders, Steve Miller, Bruce Hornsby, Georgia Sats, Boston and Genesis to carry us thru.... Like the Alan Parsons. They continue to make great music that is not of this world—wow, how cosmic.... Just added KBC's "America". Curious to see how it works here.... Please watch over Lee Randall next week in Palm Springs. He usually drinks with his new dachshund Frank, and he'll be lonely.

Tom Scheppe, KISS, San Antonio

Thanx to all the groovy guys and all the groovy gals that sent us glad tidings for the holidays. Looking forward to rocking with you in '87.

Richard Pachter, Promotion In Motion, 305-482-6629

Happy new year and all that. Hope everyone had a chance to rest and reflect. Me, I've been listening to some good music like Julian Cope's "World Shut Your Mouth". It's a great, crankin' tune!.... I'm also still into the Smithereens heavily. That album continues to be one of my favorites.... Have you heard the Pseudo Echo record on RCA? It's clean modern music with irresistible hooks. KTXQ's Redbeard recommends it highly.... I also like the Shriekback album. Check out "Gunning For The Buddha". Remember, with a name like Shriekback, it's got to be good.

Jonathan Rosen, KEYX, Phoenix

Things That I'd Like To See in 1987: 1) Radio to play GOOD music regardless of the size of the company it came from. 2) More creative music director leaders than followers. 3) Rodney from the Dead Milkmen host a syndicated radio series. 4) The Hard Report to remain the freshest and most informative trade for and about music. 5) The Stranglers, XTC, and Psychedelic Furs to have major AOR and CHR hits. 6) Joanna Stingray to do a Volume 2 compilation of Russian rock. 7) College radio to quit snivelling about commercial radio and to do the best to improve what they already have. 8) Commercial to loosen up in attitude toward college programming and maybe take a cue in certain areas—especially music, before it's too late.

Andi Turco, WPYX, Albany

Now that the holidays are over with it's back to business as usual and we're anticipating great rock and roll for 1987. To get our new year started, we're going on Julian Cope, Rob Jungklas, David + David and the new Deep Purple which sounds REALLY good. For all of those of you who are out in Palm Springs this week, I hope you have a good time and I wish I were there too.

KWHL/Anchorage MD Kevin Vargas receives Holy Communion from Kenny Ryback and Quiet Rlot.

Curt Gary, WEBN, Cincinnati

Welcome to the house of blue lights. Open the door and you'll find WEBN rockin' with "Bad Attitude". If the initial Deep Purple release of '87 is any indication, this year will be rock and roll heaven!

John Edwards, KRQU, Laramie

Thanks to Joan Jett, Kenny Laguna and Jeff Patton for the custom version of "Roadrunner".

Steve Becker, WKFM, Syracuse

Gearing up for '87 with a pair of tix for every show in Syracuse this year for not one, but TWO winners.... Musically, I'm glad there's a lull in the action because it gives Don Dixon and Julian Cope a chance to get a good rotation.... World Party and Europe are two acts that the record companies stayed with and now we can give 'em a shot.... A real sleeper is Til Tuesday "Coming Up Close". The tune doesn't grab you at first. It grows on you. They're breaking new ground on this tune.

Jennifer Gipe, WKLC, Charleston

We'd like to welcome our new morning team to FM 105. Captain Kevin Walsh comes from KQIZ in Amarillo and Chris Wilson who comes from Alaska.

Jack Anthony, WKWQ, Columbia

If you're looking for a followup on "Shut Your Mouth", Julian Copes's "Levitation" is it!.... Georgia Satellites just won't stop. We're 4 cuts deep right now.... Broken Homes moves to heavy with big phones.... I don't see why Rob Jungklas isn't doing better sales and airplay wise. It's great.... Trower is back full force. It's one of the big favorites around here right now.... Almost a disaster the other day when we nearly lost the Lp! Two more REM cuts: "Cuyahoga" and "Begin".

Phil Manicki, WWCT, Peoria

Lots of adds over the holidays. Phil's faves are Steve Miller, David + David, Rob Jungklas and Alan Parsons.... Thanks to all those who made the holidays a little happier. It's nice to get neat stuff from those you enjoy working with.... I hope Michael Davis at KFMG survived the nasty bash in Chicago. Good meeting you. Keep up the good work.... I hope '87 brings everyone what they want.

Duane Sherman, WTOS, Skowhegan

Welcome back, Kotter. A new year complete with a new attitude—a more progressive attitude. WTOS never has, and never will be TOLD what to play. If a record representative wants to make a suggestion on adding a record, that's fine because it's his or her job. But if I refuse to add a record, please don't question me as to why. I have a brain and it does work. I can think for myself, thank you.... **Music, Music, Music!** Maine's own band, the Kopterz, have just released their first full-length Lp on Broken Records. The album is called "Dancin' Disorder". Maine can be proud of this music and of the effort put behind it. WTOS is proud to play it.... IRS Records wins the add race this week with a total of three. The R.E.M. 12" of "I Believe" has already been a focus track here for months as well as a personal favorite. This track NEEDS maximum volume. I was also pleased to see that they put R.E.M.'s version of "Toys In The Attic" on the flipside of the 12".... Concrete Blonde. Sure I like the single "True" but "Haunted

Head" seems to work better for us. More power, more persuasion.... And the Beat Rodeo 12" is also an ear pleaser.... The new song from LOS Lobos goes out of the box and into heavy, as well as Dave Edmunds' new release. Both are receiving tremendous phone response!

Dave Stone, KJOT, Boise

We premiered the Outlaws Lp and people went nuts. Not just kids but thirty year olds, too. We're gonna go deep on it.... Same for Kansas.... The Iron Maiden freaks will go for "Stranger" and I find it to be a pleasant surprise. I saw the video and said "Wait a minute, we need to be playing this.".... Robin Trower gets great phones. There's a lot of good music on that Lp. Funny how a lot of young people don't know who he is!

Rad Messick, WDIZ, Orlando

Good Birch, good Arbitrend. I'm ready to go to Palm Springs.... I think this is the tune that will break LOS Lobos wide open. How wrong can you be when you have Miller Beer behind you?

Chris Emry, WIYY, Baltimore

Three of my favorite Lps of '86 came from new artists: Bruce Hornsby, Georgia Satellites, and David & David. We're starting '87 with our third helping from the Dave Duo, "Ain't So Easy". Contrary to the title, it was really easy.... Hopefully the new year will finally bring LOS Lobos the recognition and, more importantly, the airplay they deserve. Give these East LA homeboys a shot and don't miss them when they come to your town.... Just when the wax in your ears was getting thick, Deep Purple is back to blow it out for you. Once again, Purp shows all the pretenders what power rock is all about. Attention Mothers of America: Warning! The return of Deep Purple means someone will soon unlock Don Bernstein's cage! Lock up your daughters, small pets, and kitchen appliances.... We're celebrating our 10th Anniversary this March. All artist B-day ID's are welcome. Call me or Madelyn at 301-889-0098 for more info.

Tom Starr, WOUR, Utica

Welcome to the new year, which is already in progress. We knew our first concert of the year would be hot when it went clean in less than two days. But when nearly a thousand ticket holders endured temps in the teens for hours to get prime spots, even I was amazed. Bon Jovi and Cinderella paid them back in spades. Thanx to both bands for being great to work with before, during and after the show. Thanx to Polygram's Pat Rascona for coming thru as usual.... If at first, second and third you don't succeed try, try and try and try again. Someone finally managed to find a track on this Rob Jungklas we're eager to play. "Make It Mean Something" is the one that will put him over the top.... "Battleship" is a natural followup for the Georgia Sats. Phones on this remind me of my Xmas tree.... Great reception for Deep Purple.... Other records ringing Ma Bell include Robert Cray, Beasties, World Party, EC and Smithereens. Stabilizers, too.... If the format as a whole could have a New Year's resolution, it would be to give time and support to developing artists. It's an investment in the future.

Glenn Stewart, WHJY, Providence

I'm starting off the New Year with a plea to the record companies still behind the 8 ball: Please get geared up for supplying radio stations with compact discs of all your upcoming product. It's now 1987 and the CD boom will mushroom in the next 12 months. Companies that continue to resist giving radio stations CD product will probably get increasing flack as stations play higher and higher percentages of laser discs. For everyone CD's are not an option anymore but a necessity. A big thank you to the companies who do supply; you know who you are and so do we.

Steve Kosbau, KRNA, Iowa City

Our new music is exciting!! I'd love to have a mega performer shipped to me every day! "Don't Dream It's Over" has corralled Top 5 phones for three weeks running. The Kinks' "Natural Gift" has bested my highest expectations. The track sounds as fine as any I've heard in several weeks.... There is a track we're playing that has often been mistaken for new Kinks (no small compliment) but is by Julian Cope. "World Shut Your Mouth" has probably made more unhip neighbors call the

Andy Preston, KPOI, Honolulu

We had a birth on January 4th. Our morning guy Brock Whaley and his wife Debbie celebrate the birth of their first child, Richard Russell Whaley, born January 4th, weighing in at 9 pounds 9 ounces.

Bruce McDonald, WFNX, Boston

We're really excited about the new Los Lobos song. "Shakin' Shakin' Shakes" is Los Lobos at their best. An extremely infectious track from America's greatest band.

Jay Hart, Elektra, 312-595-6000

We're off and running in the New Year. Elektra's strong finish in '86 makes new tracks from the Georgia Satellites, Ben Orr and Howard Jones heavy favorites for album radio in 1987!.... "Batteship Chains" is the Satellites' follow-up to their rock and roll anthem, "Keep Your Hands To Yourself". They're currently on the road and receiving tremendous response on the Bob Seger tour.... Ben Orr is "Too Hot To Stop" as is his second single so appropriately titled. Follow up that mass appeal monster, "Stay The Night" with a great rocker for the New Year.... Howard Jones isn't wasting any time in the New Year with his latest, "All I Want". Howard's AOR base remains solid and demographically, he scores big in every category.... Records to watch, showing strong potential for big success in '87 include Dave Adams "Tears"—a great sounding radio record. Can I get a witness Dave Lange and Bruce McGregor?.... Artist development is what it's all about here at Elektra Records and two of our favorites on that list are the Housemartins and Billy Bragg. A good story developing out of Boston (Thanks Karen Durkot) with the Housemartins and a new song from Billy Bragg guaranteed to stir interest is "Greetings To The New Brunette" scheduled at radio January 14th. That's it. All the best in the New Year.... See you in Palm Springs at the Abrams convention. I'll be getting back in the swing of things so to speak. See you on the first tee at the PGA West, or catch me at the 19th hole.

Ron Diaz, WYNF, Tampa

"Bad Attitude" from Deep Purple could be described as Adult Hard rock. It's got a good kick to it without being overbearing. It should do well.... I'm pleased to report that calls are developing from upper demo males for "America" from the KBC Band. It seems inevitable after I presell the fact that this is new music from the KBC Band, somebody will call and ask, "What was that? Who does it?" The name of the band may not become a household word but their music is original and passionate. And "America" is a great song.... Alan Parsons can always be counted on to put out quality AOR music. Some are hits, some aren't but the majority of the Alan Parsons Project's music sounds good on the air. "Standing On Higher Ground" is a nicely textured track.... Additional tracks we're using from artists that are hot right now: The third track from Eddie Money's latest album. "I Wanna Go Back" has big hooks, big horns and he did a big show here the other night.... Also on the third track from Bruce Hornsby's album. "Every Little Kiss" is another tasty piece.

Michael Davis, KFMT, Albuquerque

ROCK 108 pre sold it as "one of the greatest rock bands of all time" has a brand new one. Deep Purple's "Bad Attitude". Super response so far. The great southwest loves to rock and roll with Deep Purple.... Here's a quick good word for the new APP and Los Lobos. Enough said.... Under the heading "you never know who you'll meet at the Drake Hotel in downtown Chicago", rock and roll hello's to WWCT Music Director Phil Manicki. You missed our late night, early morning jog down Lakeshore Drive

Don Berns, CFNY, Toronto

Happy New Year all. Here's what CFNY's listeners voted the Top Lp's of 1986: 1) Peter Gabriel 2) The Smiths 3) New Order 4) R.E.M. 5) Depeche Mode 6) Paul Simon 7) OMD 8) The Cure 9) Steve Winwood 10) Love & Rockets.... If you've gotten this far, you might be interested to know that we ran open ballots twice per week in the Toronto Sun, so there's a real good cross section of votes involved in this Top 10. As we head into the new year, The Stranglers sounds better and better each time it gets played. There are so many stand out tracks on this album, it will be hard not to go three or four cuts deep.... Hottest import out of the (RED) BOX is "For America", which is a worthy import for you to get a hold of, especially if you played "Lean On Me" in '85.... Nice to see Crowded House coming on strong the second time around. (Congrats to Capitol for not letting it go): "Don't Dream It's Over" really stands out on the radio as a great track and is beginning to pull requests as well.... Hot add of the week is in fact, a readd as it becomes obvious that the Housemartins will become a major hit act this year (or next) and perhaps their 1986 album "London O Hull 4" deserves more exposure, especially with the incredible reaction we're getting on "Caravan Of Love" — an amazing a cappella version of the Isley Brothers tune. It's a perfect time of year to introduce new acts: The Housemartins are guaranteed to be one that draws the best response.

Keith Taylor, WQMF, Louisville

Welcome to 1987! Gee, we're getting ready for some big bangs here, too.... Gee whiz, that new Rob Jungklas is hot, hot, hot!.... Really digging the sounds of the Kinks Lp.... Deep Purple is great and everybody should be on this sucker.... Give a listen to Love And Rockets' "All In My Mind". Could this be the next Pink Floyd?.... Here's a joke: Why did the squirrel fall out of the tree? Because it died. Bye.

Dave Kane, WCMF, Rochester

Hats off to the people at The Hard Report for their timely beginning of the year Sampler Cassette. The tape allowed me to catch up on some songs that I missed as well as some up and comers. I find these tapes to be extremely valuable as well as enjoyable so keep 'em coming!

Steve Cormier, WIZN, Burlington

It's a ball game, WIZN just received it's Fall Birch and kicked some butt. Men 18+, 18-34 and 18-49, WIZN moved from 5th to 2nd. 25-49 and 25-54 Men, WIZN went from 6th to 1st. On the weekend, WIZN is now #1 18-34 Men moving up from 5th. Women 18-34, WIZN moved from 6th to 3rd and 18-49 women 7th to 3rd. Adults 18+, WIZN moved from 6th to 2nd and 4th to 2nd 18-34 adults. Thank you to all the record reps who have supported WIZN and have stuck with the Wizard through the tough times. The rest of you (and you know who you are) the boat's about to sail so get on quick.

Kelly Cruise, WEGR, Memphis

Happy New Year! We're ready to rock and roll again!.... The new Deep Purple was a nice Christmas present but I'd like to hear more.... The Alan Parsons' 12" "Standing On Higher Ground" is a clean, high tech tune good for those older demos.... Are you playing the new Benjamin Orr? Watch for phones asking for "It's About Time" instead of "Too Hot To Stop".... I think the Lone Justice cut "Reflected" follows nicely after "Shelter" so we added that track.... Congratulations to Rob Jungklas for keeping Memphis music alive.... Alice Cooper just "hissed" through town on January 3rd. I hope he didn't leave that 19 foot boa constrictor behind.

Greg Mull, WRXK, Ft. Myers

Happy New Year! And I'm real excited because I just got a late Christmas present. Robert Cray is going to be opening for Huey Lewis on the current leg of the tour. Cray is already #2 Most Requested here at K-Rock so maybe some of his fans will have the opportunity to see this blues man play live.... I look forward to seeing all your smiling faces in Palm Springs.

Alan White, KILO, Colorado Springs

Hope everyone had a great holiday. And we're back to work.... I really think that the Beastie Boys' "Fight For The Right" is hitsville. At first, the 33 year old in me said "Who are they kidding?" But then the 18 year old in me said "Move over old man". Hard guitars and rebellious lyrics make it a winner for rock radio.

Beth Kepple, WKLS, Atlanta

Happy Nude Year! Atlanta started celebrating with Eddie Money at the Omni and finished with a live simulcast of Stevie Ray Vaughan rockin' the Fox Theater. The man plays the guitar as effortlessly as most of us breathe. And the show sounded incredible on the air.... Good cover versions of Hendrix songs are rare but "Roomful Of Mirrors" by the Pretenders is as rare as you can get. Make sure the radar detector is on if you're listening to this in your mobile.... More goodies keep surfacing from Rob Jungklas' debut. "Make It Mean Something" is so honest it hurts and if you ever get a chance to have dinner with the man, get ready for a great time. He's a gem of a human being and terribly sexy.

Al Branca, WMGM, Atlantic City

First of all I hope everyone's holidays were safe and happy. 1986 is going to be a tough act to follow musically. Our year end countdown reminded me of the major acts of '86's releases I had almost forgotten about. And with all these majors now in recurrent, I think '87, or at least the start of it, will be the year of the new act. With a lot of up and coming bands debuting, I've already heard some impressive newcomers; Pseudo Echo and Brighton Rock just to name a few.... Adds: Boston "Hollyann". I want to milk this Lp til it's dry. It may be another eight years until we hear more.... Deep Purple "Bad Attitude". The perfect song for all demos. The metal edged vocals are there for the young headbangers while their name is as old as the moon.... Robert Hazard "Be My Girl". He's no rookie to rock and roll. Robert's been packing clubs around here since I can remember. We're getting behind it 100% to make sure this Lp happens.... Alan Parsons "Standing On Higher Ground". Without a doubt, their best since "Eye In The Sky".... Bruce Hornsby "Mandolin Rain". With the right edit, another big Top 40 crossover.... Also on David & David's "Ain't So Easy".... Top 5 phones: #1, Bon Jovi "Livin' On A Prayer"; #2, Boston "Cool The Engines"; #3, Deep Purple "Bad Attitude"; #4, Kansas "Power"; and #5, Peter Gabriel "Big Time".

Rick Panneck, WAPL, Appleton

Now that we're into the new year, it should be noted that 1987 marks the 20th anniversary of a couple of major musical events. The Beatles' "Sergeant Pepper's Lonely Hearts Club Band" was released on June 1st in 1967. The Monterey Pop Festival took place on June 16th, 1967. And the "Summer Of Love" movement out of San Francisco also took place in '67. Imagine the station promotions you could do revolving around these historical dates. It would definitely give new meaning to the psychedelic weekend.... With the lack of superstar product out now, some quality new music has begun to surface. Julian Cope has got a hit on his bands. It's nice to hear refreshing pop hooks.... And Concrete Blonde shines through with an album that has all the ingredients that made the first Pretenders Lp a success.
