Def Leppard, "Hysteria", Mercury.... After all this time, you knew it had to be a dog or a delight—right? Well, we've only had the tape for about ten hours, but there's no hesitation here. PolyGram once again cinches the Big Winner award—with what we think will easily wind up with this year's biggest Mainstream Monster numbers—both in terms of radio play and retail success. "Women" has been on for two weeks now—and that's already pumped the advance orders up past the 800,000 mark. And those potential retail targets are definitely hearing it plenty—as evidenced by this week's top ranked 29 play increases and the 16-12 Hard Hundred advance. And calls? Try Top 5 status on 57—with max play now on 72. With MTV primed to pound the video starting this week and CHR getting the single simultaneously, time to power up more of the album's best: "Animal" (easy #1), "Gods Of War", "Pour Some Sugar On Me", and "Don't Shoot Shotgun".

John Cougar Mellencamp, "Paper In Fire", Mercury.... It's nice to hear a big star like John have the balls to take the whole roots scene a step or two further. There's a lot more to getting back to basics than Stetsons, boots, jeans, a Marlboro backdrop—and leaving out the synths. This particular song doesn't really offer a huge departure from his standard verse/chorus approach—but we applaud the liberal application of dobros, harmonica, fiddles and a more acoustic feel in general. As Robert Palmer so aptly put it, some people can do what they want—and thank God John has the desire to get back to the country.

RECORD OF THE WEEK

John Kay & Steppenwolf, "Hold On", Quil.... Hey, here's one we missed—but only 'cause we were holding out for an Lp track we like better. Obviously radio realizes the current to classic appeal of this artist—as per 43 first week adds and a nifty 67 debut. As Rick Van Gil says, "It deserves airplay simply because this band has played before more men than Joan Collins".... From WHCN's Kim Alexander, "'Hold On' has a killer hook and John's signature growl. Our audience is gonna love it".... From WYNY's Charlie Logan, "Following the success of the Dead, Robin Trower and Gregg Allman, John and the boys have also revitalized their careers. Since we play more library cuts of Steppenwolf than the aforementioned artists, this is a natural".... Hey, with that in mind, could two-track depth on the comeback album be far behind? Stay tuned!

ALSO NEW THIS WEEK

The Fabulous Thunderbirds, "How do You Spell Love", CBS Associated.... You've heard thirty dirty versions—but none better than this one! The tune that racks up big points for tonality and topicality grabs adds at 8, including WPLR, WKDF, and KPEZ, with KLOL, WRXK, WLAV, WKLS, KILO, KICT, WHCN, KFOG and KAZY already in. Anybody out there who doesn't think this one tops the first track? Underlined 78-69*.

Pete Wylie, "Sinful", Virgin.... Since this tune took so long to finally get officially released, we might as well pick it a couple of times, right? I admit one might think Pete's the 80's equivalent of Hugo and Luigi (an act everyone at Virgin is too young to remember), but we guarantee that cascading hook will get the job done—especially with females. Easiest sing-along on the radio.

Marillion, "Sugar Mice", Capitol.... As a huge "Kaleigh" fan, I've long felt the ultra-lush sweeping melodic approach was Marillion's forte, and can't wait to see how "Sugar Mice" performs. In fact, in terms of lyrics and singing, I'm ready to call this the group's best work to date—and certainly their best shot at a cross format hit. Keep in mind that it's their first single from this album—and nicely timed with the headline US tour starting at month's end.

Autograph, "She Never Looked That Good To Me", RCA.... The track that we singled out from day one looks like it may in fact be the record's big single—as a very successful test at KEGD Dallas demonstrated this past week. For humor, hooks and their trademark guitar pyrotechnics, this one's the goods. It ain't over til it's over, so please go back.

HARD HITS TO BE...

The Silencers, "Painted Moon", RCA.... The Nipper's fastest starting baby band this year hits the 101 station mark—with new air on killer calls WMMR, WLLZ, KLOL, WEGR, and WLAV—and heavy hitters KBPI, KFOG, KGB, KOME, WEBN, WKDF, WQFM, WAAF, WCCC, WIOQ, and WIOT just some of the noteworthy. Jim Steel at WIOT says, "After just one week of light play we've got definite phone response. could be the next Jon Astley".... From KFMU's Dave Ross "The Silencers move into heavy this week, and I think they'll go top 5 soon".... Up 46-35*.

The Brandos, "Gettysburg", Relativity.... Well, hell, no wonder no one's playing this record!! It's not out yet!! I'd sure play a cassingle that was this good—as are WNEW, DC101, and WBCN. WEGR's Kelly Cruise comments, "That Brandos cassingle hasn't left my car tape deck. You watch — 'Gettysburg' is going to be an incredible smash here in de south. Hurry up with the vinyl"....

The Replacements, "Alex Chilton", Sire/WB.... Why will this primo New/Alternative to Mainstream cross ultimately work so well? WAPL's Garrett Hart knows, "It not only sounds great on the air, but it segues great with Zeppelin and the Doors—just like an AOR track should".... Christina at WPLR updates, "It's doing great. Top 15 sales and building".... New on KYYS, WHJY, WAPL and WNEW. How's that for a killer add week? Top 5 requested at WHTG, KQWB and WLZR, with WYNY, KGB, WMAD, WBCN, KILO, WHCN and WLIR. 88-80* on the Hard Hundred.

Cock Robin, "Just Around The Corner", Columbia.... Just decide it fits the format and you've got a upper demo smash on your hands—not to mention huge top 40 success acceptance to be. Take it from WQFM's Chip Hobart, "I think this record is a hit, and people should get over their preconceived notions about any past Cock Robin product. DO not ignore this record. I mean, Cock Robin is a racy name and everything, but they sing good, goddammit!!"....

See Heart now on major U.S. tour!

Insiders, "Ghost On The Beach", Epic.... Great music and a great ad campaign equals mega-add action, as the Insiders crank out 62 OTB stations and tons of rave reviews: Kim Alexander, WHCN, "The Insiders have given us the best power pop of the 80's".... Joe Skare, KFMQ, "This is a great summer rocker that I expect to see a lot of phones on".... Alison Stewart, WBRU, "The Insiders spark interest. I love the marriage between raw rock and slick production".... Anthony Alfonsi, WDVE, "This is one of those records that grabs you on the first listen".... Rick Van Gil, WLNZ, "I'm so taken by this tune that I recorded it over and over on my 8 track tape recorder. Even with the thinking of the channel change this tune sounds great".... Charlie Logan, WYNF, "Singing about the surf and beach is a natural for YNF and the Sun Coast. Plus the label brings back the ghost of Epic past. Great drum sound. I'm sold, I'm hooked, it's on".... It's also on the Hard Hundred, with this week's highest #54 debut.

Richard Marx, "Should Have Known Better", Manhattan/EMI.... So what's not to like about this follow up from 87's most successful new face to date? Richard swings in with 46 adds and this week's second longest 74-36* underline. Already heavy at WLLZ, DC101, WYNF, WWCT and KRQU, with 80 stations to date.

Mason Ruffner, "Dancin' On Top Of The World", CBS Associated.... The double shot deals out a 49-44 move this week, courtesy of 71 stations now playing--and adds at WDIZ, WNPQ, KBAT AND WPLR. KFOG, WHCN, WPLR and WRKI have it heavy, and heavies WQFM, WMMR, WSHE, WLLZ, WNEW, WBCN, KRXQ, KGB, KISW and KDKB list it. And how about those comments? 'HCN's Kim Alexander, "The whole album is so good it's a pleasure to go deeper with 'World'".... KJOT's Dave Stone, "We think it appeals to the silent majority of listeners that don't call in but love that nitty gritty sound".... And 'PLR's Christina, "Great song, Great video"....

Pete Bardens, "In Dreams", Capitol.... WLAV, KICT and WIOQ now report top 5 phones--with IOQ's David Anderson telling us, "I played it again this Sunday and got calls for an hour, and I got three immediately. Just a song that upper demos are going crazy for".... It's new on 17, now on 56, including WRCN, WBCN, KRQR, WWCK, WMMR, WMAD, WLVQ, WLLZ, WLAV, WKLS, WIYY, WIOQ, KZAP, KSJO, KYYS, KZAP, KRXQ, KGB, KBCO AND KFOG. And interesting and different item that's definitely getting on-air results. It's also this week's third longest mover, 77-62*.

Urgent, "I Can't Take It No More", Manhattan.... The solid, even spread continues--with new air on WYNF, KLPX, KFMQ, WSHE, WNEW, KSHE, KLAQ and 6 more, with 50 total stations (including WLLZ, WDHA, KRXQ, KGB, WPYX, KISS and KBPI) moving the tune 80-68*. You've only got to hear it twice.

The Cult, "Wild Flower", WB.... Personal testimony here from Lex Staley at WFYV, "'Wild Flower' was an obvious choice for us. Since 'Electric' hit the Jacksonville airwaves, retail is moving this record out in droves. And why not? How can you beat a lead singer who sounds like Bon Scott meets Billy Idol and a record the competition won't touch?".... New on 13, including KISS, KQRS, WKDF, KMOD, KROQ, KRXQ, and WAQX, with KLOL and WEQX the first with top 5 calls. New at #98*.

Pretenders, "Where Has Every Body Gone", WB.... A big week for this unusual yet distinctive soundtrack offering. WGLU's Brian Wolfe comments, "Don't dismiss it just because it's movie music. This opens up a whole new avenue for them".... WWCT's Paul Nelson says, "What a classic combination!! It even has that classic James Bond feel to it".... Dave Kane comments, "Chrissie's singing has more bite than a pit bull and you gotta love the brass. Hell, I'd go to the movie just to hear the song in a big room".... From Harvey Kojan at KLOL, "As good or better than anything on their last album. This picks up where 'Peter Gunn' left off. It's an atmospheric wonder".... #2 Most added with 49, new at #60, with early heavy play on KAZY, KFOG, KILO, KTAO, WEQX, WHJY, and WTOS.

Beat Farmers, "Dark Light", Curb/MCA.... Don't hear it yet? Maybe you need a few more road tests--as did WEGR's Kelly Cruise, who calls it "definitely not a one listen record".... New on 23, now on 132, with KFOG, WTOS, WWVU and WXRC increasing play. KTYD and KOME are the first with top 5 calls, too. Now heaviest at KAZY, KFOG, KGB, KISW, KQWB, WTOS, WWVU, WWZU and WXRC. This week's 4th longest mover, 43-29.

Paul Kelly and the Messengers, "Darling It Hurts", A&M.... The major growth continues--with 17 more adds and an 87 station count cranking up more solid chart gains: "Darling" dishes out a 53-40* move, with the album building 47-42*. KLAQ's Nat Lamp sez, "Love the Kelly. Listener response is starting to pick up every day we play it. The late 60's meet the late 80's".... KDKB's Steve Trella says it "Came up from down under and bit me! Australian rock is really happening. Getting good response".... Come on now, mates--climb on board or we'll put you on the barbie!

Stevie Ray Vaughan and Dick Dale, "Pipeline", Columbia.... It's the coolest remake I've come across lately--in terms of both song and performers. And how about 19 first week adds for an instrumental--including WRIF, KILO, WBCN, and WRCN. WQBK's Bob Welch says, "Stevie Ray's got a solid audience in this market and what a classic combination".... WBCN's Carter Alan adds, "SRV and Dick Dale's version of 'Pipeline' is on a high tide roll here".... Chip Hobart calls it "The best remake I've heard in a long time" and "Scary" is how KOME's Stephen Page sums up this new dynamic duo. Watch for those upper demo calls--cause this one ought to get 'em.

Glen Burtnick, "Follow You", A&M.... A strong follow up track builds on Glen's already healthy radio awareness--and the new project starts with 34 reports, including KBPI, KRQR, WLLZ, WMMR, WNEW, KGB, KDKB, WCCC, WYNF and KDJK. Charlie Logan comments, "Can't you just see people jamming to this on the drive home? An uplifting pop masterpiece. Your audience will be drumming the steering wheel and singing the hook almost immediately. A certified winner".... From WGLU's Brian Wolfe, "Great to heave more new artists on the radio and to try to expand a little more. I'm not into adding six new artists every week but think Burtnick fits in well".... New at #81*, with over 30 actively considering for the coming week.

Roger Daltrey, "Hearts Of Fire", Atlantic.... The record's best radio track builds the quality call roster with new air on WIOQ, WBCN, KBPI, KATT, WQMF AND WAQX--to go with ongoing action at WNEW, KFOG, KSHE, WDVE, WEBN, WLLZ, and a dozen more. 96-89*.

JON BUTCHER

"Wishes"

42-39* HARD HUNDRED

Another airplay performance testimonial!

Harvey Kojan, KLOL "Sure, the other three tracks had all done very well for us, but 'Wishes' is the one that gets instant reaction. That was never more apparent than at Butcher's return engagement at Stage One last week when the band was visibly moved by the crowd's overwhelming response to 'Wishes'. Jon actually backed away from the mike and listened in disbelief as the packed house sang at the top of their lungs."

CROWDED HOUSE

"World Where You Live"

54-45* Hard Hundred

Just out at CHR radio and already a Most Added record!

Guns N' Roses, "Welcome To The Jungle", Geffen.... The cover controversy aside, this is indeed music that will generate reaction—as noted by WRUF's Jason Tyler, "It makes the bad boys of Motley Crue look like ABBA".... KLAQ's Nat Lamp agrees, "Guns N' Roses is right in your face. I think they're gonna be a big band".... Already on KNAC, KATP, KISS, KJOT, KKDJ, KNCN, KRXQ, WBNY, KFMH, KLAQ, and WNPQ.

TAKE TWO

David Bowie, "Never Let Me Down", EMI/Manhattan.... With the tour touchin' down everywhere, and "Never" touted as the next single, it's no wonder the action was fast and furious this week with 33 adds and 4 increases in play as "Never" breaks onto the Hundred with the week's second highest debut at 57*. New on KFOG, KYYS, WDIZ, WHCN, WLLZ, WNEW, WRIF with upped play at KOME, WGIR and WQBK. KFMU's Dave Ross says it all, "The album has worked so well here that we can't let this one slide by"....

Jon Butcher, "Wishes", Capitol.... If you've been doubting the sincerity of Jon's fans out there, you've got to check out what happened in Houston last week at a KLOL show. Harvey Kojan: "Ever since we began playing 'Wishes' a few weeks back, we knew we had a real winner; it was always the one to get instant reaction. That was never more apparent than at Jon's return engagement last week when the band was visibly moved by the crowd's overwhelming response. Jon actually backed away from the mike and listened in disbelief as the packed house sang at the top of their lungs! They knew all the words!"....

We believe it, Dr. K! You can't help but love this song after just a few listens, and it looks like 6 more reporters agree with adds this week, moving the total convinced to 80. There's phone reaction to back it up too with Top 5's coming in at 8 stations. Another solid week on the charts too, as the cut makes a sturdy 42-39* HH move.

Europe, "Carrie", Epic.... Phone response is the big story here, tying with Dio with 10 Top 5 reports on the Most Requested. And programmer reaction? PLR's Christina, "I never thought we'd be playing a ballad, but this is getting top five phones".... KFMQ's Joe Skare, "Your basic power ballad is a Top 5 request item this week".... And KJOT's Dave Stone, "We were forced to move it into medium because of phone response".... 10 adds and 5 increases help in the respectable 41-33* move on the HH...

Grateful Dead, "Hell In A Bucket", Arista.... In case you haven't noticed, Tie-died T's are back in style, and the Grateful Dead are back on top! "Touch Of Grey" holds on to the #1 most requested slot for the 5th week in a row, while receiving maximum play everywhere. Meanwhile, "Hell In A Bucket" picks up a hefty head of steam with 14 adds and 4 increases, action significant enough to warrant the much coveted "1-1 with a bullet" standing on the Album chart. And how about those retail and request stats? KBCO's Doug Clifton is one of many reporting "#1 sales and still Top 5 phones".... And CMF's Dave Kane enlists the help of D. A. (Deadheads Anonymous) after discovering... "My Mom wants tickets for the Dead! Is this a sign of the times or what?".... On the Hundred, "Touch" holds on to the #1 spot, with "Hell" moving 23-19*.

Joe Walsh, "In My Car", Full Moon/W.B.... The programmer pick kicks in with 17 adds this week (KSJO, KGON, KTYD, WIOT, WSHE, KLOS) and 8 increases as the cut scurries 9 positions on the Hundred with a 35-26* gain. But enough stats! If you're looking for the track that spotlight's Joe at his guitar best, get into this track and cruise....

Suzanne Vega, "Solitude Standing", A&M.... Reporters are finding it easy to make the switch to the next cut on this project. 16 sign on, with WDIZ, WIOT, WPLR, WMGM and WZTA all in this week, with 7 increases helping to push the total on to 64. WLNZ's Rick Van Gil checked in and let us know how he really felt: "Vega...the name strikes fear in my heart. I owned a '75 brown Vega. The doors held water like a camel and it had the pick up of a boulder. That's why I want to change Suzanne Vega's name to Rolls Royce. This record is smooth and 'Solitude' is picking up right where 'Luka' left off".... On the Hundred, the cut climbs 12 positions 62-50*....

Sammy Hagar, "Returning Home", Geffen.... It's not every day that an artist can boast about 3 tracks doin' damage on the Hundred, but this week Sammy is the man. While admittedly "Give" is now backing off, "Boys' Night Out" is leading in the "Fave Sammy Track Sweepstakes" with 8 adds, 11 increases and a downright serious 26-23* HH move. Meanwhile, back at the pressing plant, prepare yourself for the "Returning Home" 12" release which is bound to give the "Boys" a run for the money. "Home" picks up 4 early adds while advancing 68-64* on the HH.

Crowded House, "World Where You Live", Capitol.... We're thrilled to see you all are still with us on one of our favorite bands to come out of '86. And, let's face it, "World" is so good, you'd be dropping the ball at this point to let it slip by. 7 take on the challenge this week (KOME, KLOL, CHOM), with increased air at 'BCN, 'HCN, 'RCN and 'NEW. With 63 total on, (including top 5 phones at 2), "World" continues its domination with a 54-45* charge on the Hundred.

Roger Waters, "Sunset Strip", Columbia.... Although we've had to field a couple of "Where Does This Song End?" comments, Roger has never been hotter, solo or otherwise, as he is with "Radio K.A.O.S.". And the excitement surrounding the tour is exceptionally electric. 13 adds (KYYS, KZEW, WIOT, WRIF), and 5 increases keep the statisticians happy with an aggressive 31-25* move on the HH....

Patty Smyth, "Isn't It Enough", Columbia.... The lady's on the road and this has become one of the "bring down the house" numbers that's destined to keep 'em asking for more. 14 adds with WIOT, WPLR, WBAB, KSJO and KOME on board, plus increases at 8, gives "Enough" power to advance 9 positions on the Hundred, with a 37-28* move. 'RUF's Jason Tyler confesses, "We played 'Isn't' off the album when it first came out. Now we're back on it, especially after the fine version Patty did in concert".... Whadda we tell ya? 104 total on, with plenty of room to grow.

Frozen Ghost, "Promises", Atlantic.... Hey, guys! Have you listened to this one? "Should I See" was a dignified success story at AOR, and to miss out on the follow-up tracks on a fine debut album like this is a bit embarrassing. Yeah, it's a little pop, but "See" wasn't exactly a crunch monster! Go back and pull out this tasty burger for a cool sound your CHR would kill for.

Hooters, "Satellite", Columbia....

Paramedics moved in quickly after we received this call from KDJK's usually unflappable "Johnny Beaver" Brown, "Send me the Hooters' CDs quickly!! The grooves on my Lp are wearing out! 'One Way Home' has to be one of my top two Lp's of the year".... With "Johnny" breaking into the Top 5 of the Hard Hundred this week, the pressure is still on to take it all the way to the top. Meanwhile, reports of retail have kept the stores jumpin' and programmers lookin' deep. "Satellite" is unquestionably the programmers' choice for next up, with 5 adds pushing the total this week to 30, as the track itself climbs 82-74* HH...

Omar and The Howlers, "Mississippi Hoodoo Man", Columbia....

Our favorite from the album has caught the ears of 25 of our reporters, as 9 more decide to head south and pick up a second track from this truly deserving album. With 'HCN, 'EGR, 'KDF, KFOG, KKDJ, WAAF, WZEW, KEZE and 17 more already on, be on the lookout for the big push momentarily. Already breaking through on the HH 98-91*.

Tesla, "Rock Me To The Top", Geffen....

Just can't seem to stop this band as their debut Lp continues to hold on to many of your retail charts out there. 5 reporters decide to "Rock" with KBPI, WEGR and WKLT adding this week increasing that overall total playing count to 38. And don't forget the impending opening slot on the Leppard tour set to begin late September; count on it to be this band's big time exposure shot at the top. HH 85-84*.

Neil Young, "Too Lonely", Geffen.... We've gotta say, we're partial to the harder rockin' tunes on "Life", and are looking forward to deeper play on this formidable album. But right now, the nod turns to "Lonely" and 34 reporters agree, 4 of which (KATP, KNCN, WAQX, WMRY) go with this week. Request action has also started the switch over to "Lonely", with the second cut already logging phones at 'PYX, and KTYD. Nice jump on the Hundred, too, with the 83-71* surge.

John Hiatt, "Thing Called Love", A&M.... "Thank You Girl" will rank as one of our favorite summer songs of the year, but early indications are pointing to activity on the equally enticing "Thing", and you should take note. We show 7 reporters already on, with plenty of interest registering for a follow-up. If you're ready for a move, this be the cut.

HARD ACTS TO FOLLOW . . .

The Bears, "Fear Is Never Boring", PMRC/I.R.S.... Now here's a long-term project that Lyons won't let you forget. In a tough week, Belew and company bear up and hold tight at 70 on the Hundred, picking up a bullet in the process due to the 3 adds (WKQQ, KPEZ) and 5 increases registered. And check out these quality calls: WBCN, WKLS, KYYS, WHCN, WIOQ, WOUR, KBCO, WLZR, CHEZ, WHFS and 32 others all on "Fear", with plenty of interest still being voiced from those on the fence. As 'IOQ's David Anderson told us, "Their unique quality is the combination of the great musicianship and neat presentation (a la Timbuk 3) that makes people remember this band".... And Howard Glassman, WEQX, "It seems the rest of the planet is finding out what our listeners have been telling us for months: The Bears don't shit on vinyl. You want to become a raving lunatic, see them live".... HH 70-70*.

Gregg Rolie, "The Hands Of Time", Columbia.... Gregg's solo outing arrived a bit late for major action this week, but the 9 OTB adds at KFOG, WZEW, KRZQ, WAOR and KRXQ is indication enough that "Hands" has hooks to make it happen. This week's winner of the "Find and Listen Now" award....

Warren Zevon, "Detox Mansion", Virgin....

Sales and phones for Mr. Z have prompted a number of programmers to go deep or go home, and "Detox" is the catch of the day. WAPL's Garrett Hart, "Zevon has been retailing here like crazy".... And Bob Welch, WQBK, "'Detox' breaks Top 10 phones"... Add 'em up and you've got 8 on this week (KJOT, KMOD, WBAB, KTYD, WBLM) upped airplay at 12 backing the 48-41* jump on the HH.

Starship, "Babylon", Grunt/RCA....

The CD single goes to radio this week, as the emphasis swing begins to take hold. 5 adds this week with 'RIF, KRZQ, KFMF and KNCN comin' on, while increased play at KSJO, KZAP, WWZU and WZEW help with the 99-93* Hundred move. And don't be shocked to find the phones active, once you make the switch. KFMQ's Joe Skare, "'Babylon' is the surprise of the week for us with Top 5 phones after one week of play"....

Motley Crue, "Wild Side", Elektra....

You already know what these guys have done to your phone lines and retail chart, so how about a little respect? The phones have kicked in at WRCN, WAQX, WAPL, KNAC and KISS for "Wild Side", and you know what's gonna happen when MTV starts poundin' the video — so why fight it? 5 adds with 'BAB, WIMZ, KSQY, WOUR and 'ZZQ all in and increases in play at KRXQ, WEGR, KBER and 'FYV make this a seriously solid week for the boy, as the cut advances 60-59* on the Hundred....

R&R's NEW ARTIST CHART

STARSHIP 'BABYLON' READY TO ROLL AT ROCK RADIO!

THE CD IS ON YOUR DESK NOW! 

Dio, "I Should Have Been A Dreamer", W.B.... Ronnie unquestionably has one of his biggest mainstream records ever with "Dreamer", as 5 reporters (WCCC, KEZE, KOMP) join the party, boosting the total on, to 100. But the real story could be audience reaction as the song ties with Sammy on the Most Requested list, pulling Top 5 phones at WLWQ, WYNF, KZRR, KSJO, KDJK and 5 more. Dio breaks into the top 30 overall this week with a dignified 36-30* HH showing.

The Call, "I Don't Wanna", Elektra.... The Call hangs in there and even picks up a position at the top of the Hundred, enduring some of the heaviest competition of the year with a 28-27* gain. You've got to admire a chart performance like this, especially when you start counting up the number of weeks this project has been on the build. We register 6 adds this week (KBER, KAZY, KPEZ), and 9 increases, with the total on now reaching 115.

Faster Pussycat, "Don't Change That Song", Elektra.... Wondering about these guys? We believe that "Change" is a two-listen storm trooper, but don't take our word for it.... Check out these qualified raves...KAZY's Tim Jeffreys, "We're on the campaign trail this week for those L.A. Motley rockers. Hey, they're raw, a little crude, sound something like AC/DC meets the Crue on the way to an Aerosmith show. It's like hitting your 18-24 male demos with a bazooka at close range".... And KRXQ's Ron Garrett, "The quickest way to the heart of any rock and roll rebel is Faster Pussycats. Don't change that song — add it!".... 14 already playing with 6 new converts this week. Look for an HH debut by week's end....

Joe Ely, "Lord Of The Highway", Hightone.... The regional support has been commendable as quick action from the great state of Texas gave Joe a jump on the competition with OTB adds from KBAT, KATP, KFMX, KISS, KPEZ and KWIC. But now it's time to cross the stateline, and play at 'YNF, WNGZ and WAPL may signal the beginning of big things to come. 17 already on, with many considering.

CHARTSTARS

Bryan Adams, "Victim of Love", A&M.... "Victim" does the Most Added Shuffle this week as 35 go for gold, pushing the total playing to 64. New on KLOL, CILQ, WLAV, WKFM, WGIR, WDIZ, WCCC, KSHE, WLLZ, KTYD with increases at 7. All this figures into the huge 38 position jump on the Hundred, as the track ties for first place as the week Biggest Mover.

U2, "Where The Streets Have No Name", Island.... Adds at 18, and increases at 7 gives you an idea of where radio's heading next on this project. As the total playing climbs to 78, look for many to readd the cut most programmers named as their favorite at the time of the album's release. On the Hundred, "Streets" move 45-31*.

Jon Astley, "Jane's Getting Serious", Atlantic.... The Pride of the Atlantic Crew, Jon is still picking up adds with new air this week at WLLZ, KMJX, KBPI, WMGM and WGTR, while logging increases at 15 more. Request reaction has been one of the big sellers of "Jane", and those phones are still ringing Top 5 at 18 reporters. Give yourself a golden banana if you had the ears to hear this one early on. HH 17-17*.

Charlie Daniels, "Bogged Down in Love With You", C.B.S. Assoc.... Mr. D. comes up with 13 adds with KSJO, KGON, KZEW, WIBA, WSHE and WQBK on board, swelling the ranks to 116 playing. 'QBK's Bob Welch predicts "Top 10 AOR action, at least" for "Bogged", and all indicators say O! Bob's right on the money. Top 5 phones at 7 stations let's us know the fans are out there, too. HH 24-21* HH.

Los Lobos, "La Bamba", W.B.... It's pretty funny how many reporters are doing the "I'm Too Young To Remember This Song" shuffle, while complaining about getting their kid a car for his 16th birthday. Hey, we understand. The only Bomb Shelters we've got are for Tax breaks... But back to the music. The movie is just about as hot as it gets, and the sincere raves surrounding Los Lobos' handling of Valens music is as quantitative as qualitative. The track picks up 7 adds this week as the total jump to 119 on. Add in the huge 24 increase play count, and the 22-18* HH move is a breeze.

Twisted Sister, "Hot Love", Atlantic.... TFS picks up another 3 adds this week as the coveted KGB, and WPYX see the light, easing the total on to a cool 82 playing. Check out the increases at 'BCN, WKLC and WRIK, get on the stick, and give "Love" a roll, then get ready for the phones to explode. Dee, Jay Jay and the boys haven't missed yet with the 18-24 guys, and it looks like the women are coming around for this one too. In a difficult week, TFS still pulls upward movement with a conservative 39-38* advance. Look for the breakout week, right around the corner.

3. FEAR IS NEVER BORING IS THE CONSENSUS CUT

IRS-42011

"We're starting to get calls for 'Fear Is Never Boring'. Great musicianship on this outstanding album. People DO remember this song."

DAVID ANDERSON, WIOQ

"It seems the rest of the planet is finding out what our listeners have been telling us for months—the Bears don't shit on vinyl. If you want to become a raving lunatic, see them live!"

Radio Reports...

Monday and Tuesday

10am - 7pm EST

609-654-7272

I'll be returning to radio soon. Right now, I really can't say more than that.

Thanks for being so happy for me, Bill. It's been a gas.

Watch this space for further developments.

How ya doin? By now, we all recognize Rick the Bass Player, KLBJ's Dale Dudley, PM Driver Joe Walsh and PD Jeff Carrol. They all got gum.

I'M A GOIN' FISHIN', YOU'RE A GOIN' FISHIN', FCC'S A GOIN' FISHIN', TOO

I love unauthorized radio. It's how I got my start. We had a 16 watt AM pirate in a basement in Columbus, Ohio, and played rock & roll for five weeks until the Commission came out and said, "You be good boys and don't do this anymore."

Yesterday (7/28), off Long Island, the Coast Guard cutter CAPE HORN steamed up to the rusting freighter SARAH and popped Alan Weiner and DJ Ivan Rothstein for violating the International Telecommunications Convention, a treaty barring shipboard broadcasts from international waters. They were also charged with conspiring to impede the functions of the FCC and probably fishing without a license.

Calling themselves Radio Newyork International, they had been broadcasting rock & roll since Thursday (7/23) and had pretty much captured the hearts and minds of New Yorkers. This fact was not lost on the US Attorney, who said, "We are looking for assurances that they will not continue to operate. That's more important than the prosecution of these two."

US Attorneys just love to run for elected office after they're US Attorneys. Besides, these kinds of cases are rarely prosecuted -- as I can testify.

I don't know a lot about broadcasts from country to country, or the high seas. Hell, what I know about boundaries and borders I learned at the International House of Pancakes.

"It's not going to cause me to give up," says Randi Steele, operations manager of RNI. "But, obviously, it is a major setback."

No shit. Armed Coast Guardsmen board your ship, put two of your people under arrest and in irons, shut you down, consider prosecution that could result in five years in jail and a \$250,000 fine and Randi calls it a "major setback."

Optimism. It's like leaving the porch light on for Jimmy Hoffa.

"The basic message is that the FCC is in clear violation of the First Amendment," says Steele.

Steele had said earlier that the ship, flying a Honduran flag, was not subject to FCC jurisdiction because it was one mile outside the three-mile limit of the United States, off the shore off Long Island. This minor technicality didn't stop the Coast Guard from towing the SARAH in and stripping a jillion dollars of radio gear out of the ship as evidence before sending it back to the Honduras.

The station broadcast for five nights at 1620 AM (Yeah, I know the AM dial ends at 1600, but all radios -- digital and analog -- tune past that. Our bootlegger was at 1610 AM. The FCC busts you for crashing the Marine Band, which is not a harmonica but the next band up from AM.) and 103.1 FM. Holy cow, RNI's signal was heard in the FCC's monitoring station in Allegan, Michigan, on Friday.

Steele said that those operating the station had tried repeatedly, but failed, to get licensed. Gee, wonder if this will hurt their chances in the future?

We love to entertain on our new conversation pit from Furniture City. Thrilled about the new ROCKTRENDS show they've put together are (left to right): MCA Radio's Lance Robbins, Robert Kardashian, Producer/KROQ PD Rick Carroll, MCA's Bill Barnett and host Richard Blade.

DAVE'S NOT HERE

Hey, campers, it's been one big week in Orlando.

Or: the heels of his hefty debut book at WHTQ, PD Dave Gariano and GM Jim Jordan have split the station.

"This was my decision, trust me..." said Dave.

New owner T-K (WSHE, etc.) signed the papers on WHTQ Tuesday (7/28) and were in the building the following day.

Gone also is consultant George Harris, his contract honored by seller Bluegrass.

"I'd love to stay in Florida, my friend, but I want to get back and do it," says Dave. "I don't want to lose any momentum. I feel like we're so hot and everything has gone so well, that I'd like to do something really meaningful."

DEDE ON THE MOVE

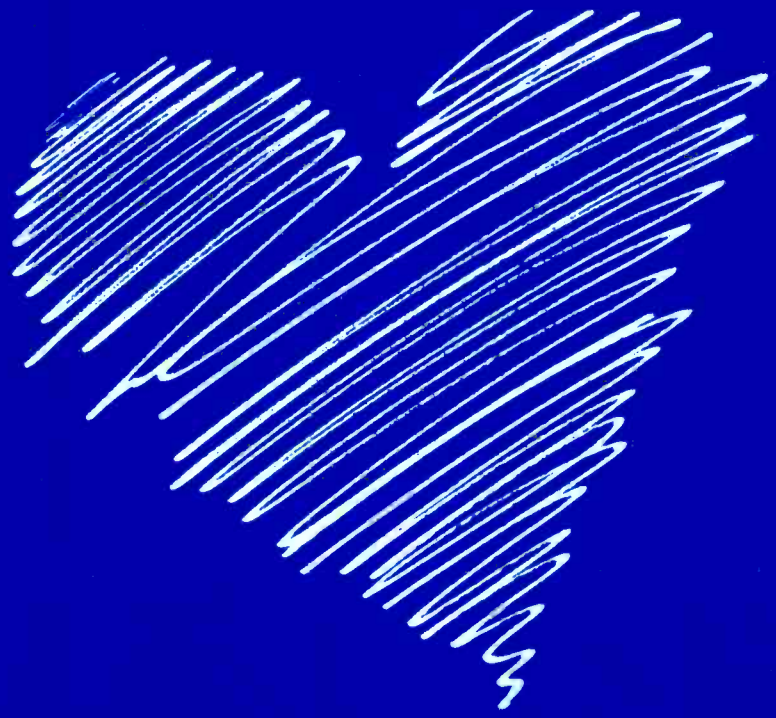

MTM's Dede Whiteside is joining the MCA Radio Network. She had been the Pop Promotion Director at the label.

She will re-locate from Nashville to LA and be parking her MG TD next to Irving's Volvo in the lot this Monday (8/3).

She will be the Affiliates Manager at the network and be involved in program development.

Which leads us to:

In the fine tradition of BOB NEWHART, HILL ST. BLUES, ST. ELSEWHERE, ad infinitum, Scott Borchetta has been named National Director of Album Rock Promotion for MTM.

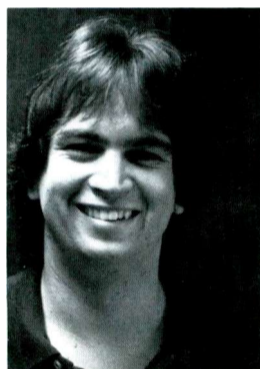

"This has been my goal ever since I started in the business," said Borchetta. "The seeds have been planted; now it's time to bring them to fruition."

Scott had been the assistant to MTM National Promo Director Bruce Shindler.

Meow.

BRIAN ILLES

"This is the position I've been training for my entire career," says new WKFM/Syracuse PD Brian Illes. "I couldn't ask for a better opportunity."

With that, VP/GM Jay Sterin wiped the "Acting" off the front of Illes' title.

"I want to thank everyone who called in their vote to the GM," smiled Brian.

"Mayor Daley's election committee couldn't have handled it better," added Illes.

"Brian's done a great job as promotion director, and he'll continue to do a great job in the programming department," says Jay. "We plan to continue to move onward and upward under his leadership."

Illes plans no changes, but the station could use a promotion director. See ADVENTURE.

Used to be it was "a jungle out there." Now it's a jungle in there. Jon Astley and WNEW PD Mark Chernoff and the go-rill-a their dreams — twice.

Back in their lavish dressing room, we see Danny and Flash (yeah, that's Flash without the goggles — Hard had to tell me who it was...) swinging down Vine Street.

MARK KATES IS GEFFEN'S ALTERNATIVE CHOICE

Big Time Director of Promotions Mark Kates is crossing the street to be Geffen's National Alternative Promotion Director.

"My job is going to be to bring Geffen's up and coming bands to the level where the mainstream promotion staff brings them in big," says Mark, "and to stop this rash of freeway killings."

An ex-Bostonian, Kates will fit in nicely with the rest of the Clam Chowder Mob (Al and Marko are Bastin guys, too).

"And tell all those guys to lighten up out there," adds Mark, "because music is music."

Bloch party in the Atlantic suite at NMS. Left to right: Sonny Joe White, Our Flounder, Roger Daltrey, Atlantic's Don Maggi, and WRCN's Lenny Bloch.

DON BERNS CFNY PD

Don Berns has been upped to program director at CFNY/Toronto. David Marseeden retains his title of operations director.

"This was always the plan," said Berns, who has been at the station for two years. "I'm very excited — I've been waiting for this for a long time."

Berns first act as PD was to import all unwanted ducks from Medford Lakes, NJ.

ADVENTURE IN MOVING

Bob Welch becomes PD at WQBK/Albany.

Don Gilmore is the MD at KLBK/Austin.

The Music Zone is on the prowl for full- and part-time announcers with production skills. T&R: Renee Blake, WKXL, PO BOX 875, Concord, NH 03301.

KKBR/Albuquerque goes Classic. Skip Ward (KCPX and KLUB-AM/Salt Lake) is PD.

PD Griffin Allen has left WVVV. No replacement named as yet.

JD Stone out at WTKX/Pensacola. PD Mark Dagwell will handle the mooosic.

WKFM seeks a creative, organized, experienced promotion director/ midday personality. Past experience in producing station publications helpful but not necessary. Send samples along with T&R to: Brian Illes/PD, WKFM, 1022 Willis Av., Syracuse, NY 13204. EOE, M/F. No calls, please.

Collins/Barrasso, Inc., has announced the renaming of the firm: Collins Management, Inc.

LA Personal Direction has moved: 8335 Sunset Bl./3rd fl., West Hollywood, CA 90069. New dingaling: 213-650-8778.

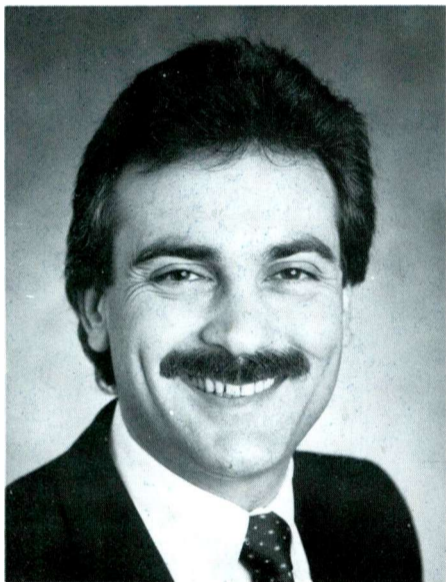

Cathy Down doesn't do it anymore at WLNZ/Lansing. Ditto for John Rogo.

Now that we've finally learned to spell her name, MD Elise Vanderborcht is leaving KNCN/Habeus Corpus Christi. Ten years in C-City at 101 and she'd like to make that major market move, assuming you can fit her entire name on the back of her station softball jersey. 512-447-1484.

The station clearance gig for Global Satellite Network is open. Sales experience a must. A good understanding of the radio marketplace wouldn't hurt, either. Resume to: Rachel Perkoff, GSN, 15477 Ventura Bl. #300, out in the like Valley in Sherman Oaks, CA 91403.

I THINK I KNOW WHAT'S ON YOUR MIND

The John Parikh Interview

I don't know why, but I think Parikh is the most amazing guy in the business. Maybe it's the way he can look into the future, without coming off like that guy with the hair-weave on Merv Griffin. Maybe it's because he can communicate in simple terms in a world that's too complex. Maybe it's the way he's right so damn often.

John is CEO of Joint Communications, Inc. and is partnered with media consultant Jon Sinton. Parikh earned his Masters degree under Marshall Fucking McLuhan and I'm convinced that in ANNIE HALL II, Woody Allen will pull John into the theatre line to argue with the guy behind him. Parikh studied for his Ph.D. in Language and Perception, before he found out just how much we'd pay to find out what he has to say about these things. He is considered to be North America's leading expert in youth-based programming and lifestyle research, and in 1980 made it into "Who's Who in Finance and Industry."

Parikh co-created MTV's "Profiles In Rock" and "Friday Night Videos" on NBC. He supplies research to and consults ROLLING STONE, MTV, CBS News, record companies, and broadcast groups and stations in America, Canada, and Australia.

Steve: Well, I think we're all set up here: The tape's running, the polygraph is set up.

John: The voice-stress analyzer is plugged in.

Steve: Now I need one of those laser things that the CIA uses to fix in on your eyes and check for nervous movement.

John: Don't laugh. That's true. It's a medical fact that your eyes dilate when you're lying. The Arabs have known it for centuries. Arabs stand about five inches from your face and stare straight into your eyes when they talk. They are watching for dilation of the pupils. And that's why lately Yassir Arafat and the rest of those guys wear shades all the time -- indoors and out.

Steve: But what about all of us twenty years ago -- when we were "all dilated, all the time?" You mean the GM wasn't looking to see if I was high?

John: What can I say? I am a fountain of useless knowledge.

Steve: No! No! You have great information. And you pack it into your bullshit so beautifully.

John: That's the trick, isn't it?

Steve: You bet it is. People sit on the edge of their chairs to hear what you say and I'm one of them. Every time you speak, we know that something's going to come up that we've gotta hear.

John: I'm not very good at taking credit for myself. I'm a product of a society that teaches you to keep your head down and don't think too highly of yourself.

But someone told me "The thing I like about you, whether I agree with you or not, is that you are a rarity -- you are an original thinker." And somebody came up to me after I did my presentation at RAB in New York and said "When I heard you, I realized that you hadn't read that anywhere. Those were all your own ideas; you weren't just talking about what someone else had said."

I guess it's true. I just have a cock-eyed view of the world and I'm not afraid to speak about it.

Steve: My favorite thing about listening to you is your ability to distill everything to black and white -- in a world of greys.

John: I have to follow my own advice: Cut-through in an over-complicated world. The only way to do it is to be stereotypical, use quotable quotes and memorable phrases so people can hook on to what I say. Even if they lose the substance of your message, they get the kernel of it with one phrase.

Steve: We're bombarded daily with hundreds of messages. From three-hundred sixty degrees: Print, electronic, and person-to-person. How do you "cut through." How can you be heard?

John: One way is to shout. When the whole world is noisy, turn up the volume. TV commercials are really good at that. Car dealers, jewelers: These guys shout.

But after a while everybody is shouting, and you have to look for another way to do it. That way is to develop a distinct image that is unlike any other: Sylvester Stallone when he first came out, Michael Jackson's one-glove androgyny of years ago, Joe

Isuzu, and Reagan. Reagan the Great Communicator. I mean, even in the heat of summer, the man wears a black suit. He is brilliant because he understands that he always has to look like he's just come from Geneva with the Soviets or the World Bank.

That's another way to cut through — create an image that is very consistent, very reliable.

One of the things you try to do is tap into mass consciousness or mass awareness. When the country is getting into physical fitness and everybody is wearing running shoes even if they don't run, you try to tap into that and build something around it. We call it "Psychic Surfing" — that's the term we've given it. It is riding the wave of the psyche of the population. If you are ahead of the wave, you get crushed by it. If you're behind it, you don't get a ride. But if you're right on it, you ride through designer waters like Perrier, Reebok and the like. That's another way to be heard — stay so totally in synch with the people that whenever you say anything they all gasp with collective recognition.

Steve: You're like a rock & roll Naisbitt.

I remember years ago, you spread the alarm about shrinking attention spans. I would imagine that they are now smaller than ever.

John: Oh, yeah. Everything is sixty seconds or less now.

There are two issues operating with shortened attention spans.

One of them is: When there is more information available, you need it distilled to its essence to get as much as possible.

Secondly, TV has so stepped-up image over content, that people now want everything as quickly in words as they get in an image. If you take the old adage "A picture is worth a thousand words," whoa. A single picture in USA TODAY is great at this: It takes up a lot of words.

People are saying "Give it to me quickly. I want it very, very fast." They are not willing to follow anything that's complex.

Steve: Why?

John: Logical thinking has collapsed. Everyone just grabs at whatever is happening.

And if you commit to working through something and it hasn't been worth it when you get to the end, you feel cheated. So you'd rather have little snippets of gratification and have the illusion that you're more in charge of your world.

What we lack these days are cohesive, unifying systems for information — ones in the same way that history or mythology used to give. America is grasping at "Frontier Values" right now: Truthfulness, hard work, aggressively attacking the environment — "we can conquer anything." Once myths collapse, and that one certainly is, people flounder because they don't know what to do with all the information they have at hand.

Attention spans are getting shorter because of information overload.

Steve: What can we do to increase our attention span? You told us once to read fiction...is that still true?

John: Absolutely. And not, God help us, Robert Ludlum. You need words that challenge your imagination. Look for books that both challenge your way of using language and enrich your understanding of people and events.

Steve: What's important for your radio station to be in 1987?

John: These are the things I would try to be if I were a radio station:

Number One, product should be your primary goal. If you're a rocker, you should claim to be the #1 Rock Station. What else should your station be? Easy to explain to someone else. Somebody should be able to encapsulate your station in five words. If they can't do that, your station is not well positioned. Your station needs superior "minute-by-minute" music, but it also needs some identity, some personality. Usually that's carried by the morning show. I think not enough is done with first-rate personality outside mornings [I couldn't agree more, but that seems to be changing slowly — S]. A good personality doesn't mean that a person talks a lot — it means that what they say matters. We hire persons for their voices, not their brains. What we really need in what Jon Sinton calls the "Near Nineties" is the capacity to take a single phrase and drop it in, "boom" around the music is the thing that will really add up with people after a while. Research shows that 20% of the people still listen to radio for the personalities.

Steve: How do you perceive yourself? I bet nobody's ever asked that one.

John: No, they haven't. I know how other people perceive me, but...

I'm curious as hell. I am a voracious reader, covering COSMOPOLITAN to GOURMET to my all-time favorite, THE NATIONAL ENQUIRER. Although the STAR has been better lately.

I watch tons of TV.

I like to hypothesize. I love to study perception. I'm intrigued beyond words at how people can watch a bonafide liar on TV and come away thinking he's the new messiah.

I wonder why a 14-year old loves Metallica and why a 31-year old woman loves Whitney Houston. I try to get inside people and understand why they behave the way they do and why they see the world the way they do.

Steve: You ask "why" a lot. That's essential in a good PD, isn't it?

John: But we so often don't. When you're pressured for time, the "why" answers don't always come quickly. So we look around for quick, simple answers. Some of the best ones are "It's always been done that way." "It worked this way in the last market."

I did some work recently for some record people. They wanted to understand what "call-out" research was about and how it worked. When they asked why a record didn't get played or was dropped, they were told "It didn't test well" — they wanted to know what that meant.

So I did a seminar on research methods, and to that end they kept saying "When I ask 'why' and they don't have a reason, they just say 'It didn't test well.'" Yeah, probably half the time, that's it.

When we ask "why" I think we have to be honest enough to admit that we make mistakes...and learn from those mistakes.

We are not always right. And one of the terrible things — especially in the highly leveraged, cash-flow pressured world of radio today — is the insane desire to be right — right away. They don't want to take ten lousy minutes to be a little more right than the next guy. Some stations have 3 or 4 consultants, for God's sake. It doesn't make any sense. These

stations think "I'm covered, I've got all these people; I'm going to be right." And, of course, half the time they are not.

For there to be growth in programming, we have to share our mistakes.

Steve: As a consultant, how do you get people to do your bidding?

John: I don't think it's a question of getting them to do your bidding. I used to think that when I got into the business. I think it's more helping them find inside themselves a way to do it their own manner. You don't make up other people's lives. They have to do it themselves.

We hardly have problems, once we spend the time; but in the consulting business, people don't spend time with their clients. They come in on the 11 am from Denver and are planning on leaving on the 8 am to St. Louis. They try and jam everything, including a sales meeting, into a tiny space of time. Everything is bam, bam, bam, and "see ya."

You've gotta spend time with your clients. Listen to them. It's not a question of getting them to do your bidding. It's getting them to understand why something makes sense — and that they want to do it.

Steve: What is the biggest, most common problem you see station to station?

John: Marketing. It's totally amateur — not even Marketing 101...

Dave Nichols, a guy that completely revolutionized the grocery biz, gave the best definition of marketing I ever heard. He said that marketing "is the art of meaningful differentiation." Marketing is an art, it is not a science; and "meaningful differentiation" really sums it up. I see the goofiest shit, unbelievably stupid marketing and it's all done from the inside out, rather than the outside in, which is how the market perceives you.

Marketing is where the biggest bucks are misspent. I'll see a station spend \$300,000 and four Porsches. Then we'll go into the market and post-test and find the inmate population credits five different radio stations for those Porsches. Here was an expensive promotion that had no long-term gain.

You need a long-term strategy for marketing. It builds heritage. WINS in New York had the best for 15 years: "Give us 22 minutes and we'll give you the world. All news, all the time." Well, the ratings finally slid and they changed the positioner to: "The news changes all the time, so tune us in 4 or 5 times a day." Well, the public doesn't believe it. They don't believe that radio news is current or new enough. And by late afternoon, they just wait for TV news. So for the first time in its long, illustrious history, here's a radio station saying something that the public doesn't buy.

Why don't radio stations build a gunsight for their marketing needs? They go out and just fire into the wind. They hope some of it sticks. We do pre-marketing research. We take a portion of the marketing budget and we build a gunsight. It hits.

We regularly get calls eight weeks before someone wants to start a campaign and they tell us "I've got \$250,000 from corporate — what should I do with it? We need to do something, so we got all the money." If this lady or gentleman went into corporate headquarters and asked for a \$25,000 raise, they'd throw him or her out. If they went in to get \$100,000 to up their talent, they be thrown out. But if they go in and say "We need to do something," all of a sudden it rains money.

This is the area in which radio is least sophisticated. The most ego is found in this area. Radio has a long way to go here.

Steve: You and Jon Sinton are very different from other consultants.

John: Yeah. We work at it. We don't just plug in the music list.

Steve: What should someone look for in hiring a consultant?

John: Intelligence. People just don't look for that often enough.

Chemistry. If you don't get along, there won't be any energy left to do the job.

Experience. A track record.

Look for a team consultancy. The days are long gone when one guy could come to town with a six-gun and a music list and fix your station. What you need these days are teams with specialists, teams with someone who deals with marketing, someone who deals music, and so on — so you always have an expert on the case.

Steve: What's in the future for consultants?

John: Fewer quick turn-arounds, especially in big markets.

More consultants and market researchers working together, as Joint Communications does.

Problems will be approached as if they are unique — no more cookie-cutter stuff: "This slogan worked in LA, let's try it in Cincinnati." Oh, sometimes it works, but it's usually just a response to everyone being in a hurry.

Finally, I see a lot of consultants getting out of the business. Most will not be able to deal with the large turnover of clients and won't be able to bring in new business.

Steve: Yeah, but a forest must have died for all those "consultants" to hang out shingles. The R&R RATINGS GUIDE has 102 consultants listed.

John: Not surprising in an age of specialization.

Don't forget: In 1986 one-third of the radio stations in the United States changed hands. That's an enormous number. When that happens, all these new owners want an expert. They are non-broadcasters and they want insurance. The big guys are locked up in most markets, so business has been great for everyone. A lot of new people have gotten a chance.

Steve: Back to the record company project you did. Obviously, records' perception of radio is quite different from radio's perception of itself. A lot of what happens inside a radio station is voodoo to someone in records.

John: We need to de-mystify the whole thing, but maintain the excitement and the fun.

The worst thing that's happening: PDs saying "Leave the record at the door." Then they go test it — or don't — and go do what really interests them, like watch movies on a VCR. That's got to stop.

Be honest with each other. Explain your business to each other. Have mutual respect.

Find out what your public is really up to. Records are notoriously incompetent when it comes to research of the record-buying public. Thank God Mike Shallet is out there. At least he's starting to shed some light on this.

Understand positioning. Look for market niches, and super-serve them.

Steve: What do you want to be when you grow up?

John: I don't wanna grow up.

PICKS

10,000 MANIACS "IN MY TRIBE" (ELEKTRA)

It's obvious that the popularity based formed by "The Wishing Chair" Lp is now carried over by early and fervent reaction to the latest Maniac-songworks. Although memories may be sketchy, "In My Tribe" places them high on a pedestal where Natalie Merchant's pure throaty vocals cut right into the senses and the band masters their own style of folk/pop perfection. You'll find a continuum of praise for their simple, serious execution and the ability to reach down deep and pinpoint that sound niche and translate it to vinyl. Tender and storylike, it's time to applaud the maniacs or at least let the audience do it for you. And the Michael (R.E.M., Palomino, Hugo Largo) Stipe pays a visit on "A Campfire Song" joined by the other solid sounds of "Hey Jack Kerouac", "Don't Talk", "What's The Matter Here" and "City Of Angels".

UB40 CCCP "LIVE IN MOSCOW" (A&M)

Last November UB40 set out on a Soviet tour - in the dead of winter mind you - but one listen to this sequence indicates that they certainly warmed up matters in Russia. The collection of songs is comprised of material spanning the last 4 Lps, and in their traditional encore performance vein the material rings true. The package includes Lp, CD and a long form video directed by sax man Brian Travers which completes the big picture for their fan fare. The songs reek with live appeal including "Don't Break My Heart", "Please Don't Make Me Cry", "Watch Dogs", "Sing Our Own Song" and the current "Cherry Oh Baby" single. UB40 are a summer staple and continue to measure up to their own standards with a few added surprises. Make it known.

WILD FLOWERS "A KIND OF KINGDOM" (BIG TIME)

When it comes to guitar heaven, you'd best pack your bags and head for Australia. But the Big Time folks, have proven to be the source for bring that sound stateside. It's the first single impression that takes the standard six string fare and turns it inside out, with a powerpop drive first on the agenda. Test the waters with the Wild Flowers and you'll see this one float to the top.

ZODIAC MINDWARP AND THE LOVE REACTION "PRIME MOVER" (PHONOGRAM/IMPORT)

Word has it that PolyGram U.S. plans to release this Mover - but if you get your hands on the import now, it could still be in heavy rotation by then! Talk about mixing dance rock with malice and a sound which implies that it might have been mixed by a small army. It builds, stops, swirls and is a virtual rock 'n roller coaster ride so hop on and hang on. That's entertainment.

DASH RIP ROCK (688 RECORDS)

Dash Rip Rock can shake rattle and roll with the best of 'em. Not since the Stray Cats burst upon the scene in the early 80's has such a powerful debut rock-a-billy Lp been delivered. Stand out tracks include "DMZ" and "Operator" and lest we forget the cover of Hank Williams "I Saw The Light" which in this case is given new life. Just when your foot is really starting to move on comes a killer thriller, "Shake That Girl". This track - this one lonely track - could break Dash Riprock wide open with a positive long term push from 688 Records. I hear that the live show puts forth even more energy than the vinyl. So please your demos across the board and add this record.

MUSIC NEWS!

TOM VERLAINE "A TOWN CALLED WALKER" (IRS) #1 Most Added status brings on a solid chart contender for next week, and now that the Lp is arriving looker for a high conversion ratio. Who's hip early? WEQX, WRAS, WRVU, WTOS, WWUH, WWVU, WXRT, KTAO, WFNX, WHFS, WMDK and WOXY that's who. WFNX's Bruce McDonald says "The guitars are huge and I love the single. It tested well in Boston."

PAUL KELLY AND THE MESSENGERS "GOSSIP" (A&M) It looks like "Gossip" is settling in with "Darling It Hurts" in major hit mode across the board. It moves 16-6* this week showing remarkable progress on a very competitive chart these days. Album airplay continues at CFNY, KABL, KEYX, WEQX, WBNY, KUSF, KTAO, WNCS, KTCO, WHFS, WRAS, WMDK, WFNX and over 90 more (21 new this week). When an artist gives you quality building blocks, it's best to rack 'em up on tracks like "Leaps And Bounds" and our Sampler fave "The Executioner". KDKB's Steve Trella sez, "It came up from down under and bit me. Really happening."

NEW MODEL ARMY (CAPITOL)

New at 37* this week, put on "White Coats" and see why the new music contingent is alive with this record and the notion that live appearances are in the works. WKWQ's Art Boerke saw them and said they "rule".... Mark Greenland, WWUH says "The older material sounds great live!".... WHTG's Mike Marrone adds, "I've always liked them and '51st State' got response here on the last Lp." Air check: KEYX, WFNX, WMDK, CFNY, KCMU, KTCL, WHTF, WOXY, WRVU, WUOG, KJET, KUSF, WRAS, WBNY and more.

LIME SPIDERS "THE CAVE COMES ALIVE" (VIRGIN)

Here's record that's become routinely more popular as it settles in. The Cream remake "NSU" and "Jessica" are first to go for commercial appeal but buzz has it that "Space Cadet" is the key cut to use. It's in the Top 5 requests at WHTG already. "My Favorite Room" gets the nod at KRXQ, Sacramento, and the rest are all over this one like gangbusters.... Jonathan Rosen, KEYX says "I went nuts for the Big Time Ep. They've really reached musical maturity with an album loaded with good material. I went with 'Jessica' which immediately hooked me!".... KCMU's Faith Henschel points out, "This record may take a while to grow on you, but it is instantly catchy." Now at 46*.

NEW ORDER "TRUE FAITH" (QWEST/WB)

Faith is what progressive radio holds for this band and the single is proof positive that they continue to crank and mix the brand they know best. It's at 18 stations so far including KJET, WFNX, WLIR, WTOS, CFNY, KBCO, KTCL, WRAS, WHFS, WEQX, WMDK, WXXP, KEYX, KFMH and more.... Paul Kriegler, KRCK says "One song that's a sure shot after a week's vacation is 'True Faith' from New Order - the gem in my pile of records. I was pleasantly surprised to find that this fits in with their singles success story." Speaking of singles, the new Lp is a retrospective of the New Order singles collection. Not even out yet, we already know it's a prize package.

From the Enigma-works, Mojo Nixon will be returning on August 19th with his new Lp, "Bo-Da-Shus!!" featuring the 12" "Elvis Is Everywhere". Enigma will also release the Textones new Lp on that date. Wire are re-recording "Ambitious" plus two new tracks to be released in September. And the Dead Milkmen are finishing up their video for "Bigtime Operator", not to mention their extensive tour to every imaginable town, city and state in the U.S.... Chris Watts is the new Mgr. of Radio Promotion for Restless Records. Call and wish him congrats, kudos or Happy New Year at 213-640-3772.... Congratulations to Don Berns who becomes CFNY/Toronto P.D.... And best wishes to Mark Kates (former Big Time Records ace) who moves on to become the Geffen Nat'l Alternative Rep.... The Screaming Blue Messiahs are in New York mixing their new Elektra Lp which is again produced by Vic Maile - hot stuff. Guadalcanal Diary are finishing their "Two By Four" Lp with Don Dixon producing, and may tour with R.E.M. in the fall. Ruben Blades is working on an Lp of the English persuasion with songs contributed by Lou Reed, Sting and Elvis Costello.... The It's Immaterial album will be arriving at your station with the A&M label on it. The first 12" "Driving Away From Home" was a huge import success and it ships on August 5th, (Karen Glauber's birthday), so play it for her.... A&M is also gearing up for the Squeeze and Best Of Split Enz video and Lp releases, plus Nashville's Royal Court of China album due at the end of August.... Balaam And The Angel are in the process of recording 4 more songs for their upcoming Lp slated for fall release on Virgin. The next PIL album will be released on Virgin also.... Hugh Marsh's album is out on import (he used to play in Bruce Cockburn's band). An Lp highlight is the "Purple Haze" cover tune featuring Robert Palmer on vocals. It sounds fantastique! Call HR's Dawn Hood for info.... New York's Dust Devils have released a must-hear Lp on the Rouska label available through Peter Wright in the states. A unique edgy sound that melts shades of Live Skull and UT into one rough and ready recording. Tasty? I think so. Contact Peter at (212-777-3966).... Jane's Addiction have been signed to Warner Bros but you can sample their Lp through Triple X. It's a stunning approach to the acoustic and metal sides of art and rock with a strong aggressive rhythm base. They contribute "The Mountain Song" to MCA's upcoming "Dudes" soundtrack which also houses treats from the Leather Nun and Legal Weapon.... Did you play the Animal Liberation Lp on Wax Trax Records? Why not followup and contact PETA (People For The Ethical Treatment Of Animals) at P.O. Box 42516, Washington DC, 20015 (202-726-0156). It only takes a stamp to find out more information on the how's and why's of combating this very serious and sad situation.

NEW THIS WEEK

Guns N' Roses, "Welcome to the Jungle", Geffen.... Good tune! Even considering their deranged demeanor, looks to kill, and an album cover only Tipper Gore could love, these guys have managed to come up with a good tune! So good, in fact that this is our #1 most added metal song this week. Surprised? Well you won't be once you hear this song, because it's pretty happening to say the least. Can't wait to hear all of the Led Zeppelin comparisons, or how about the video.

Faster Pussycat, "Don't Change That Song", Elektra.... The record company that brought you Dokken, Motley Crue, and Metallica now bring you something completely different. One listen and you'll think to yourself, "It's a bird, it's a plane, it's...AC/DC with Stephen Tyler on lead vocals!". Wrong...Ha Ha Ha!!! They may sound classic but they're brand new and they're tearing our chart to shreds in thier first week with an unprecedented debut at #22. How do you spell hit? Currently on KNAC, KISS, KNCN, Z-

Rock, and some of our favorite college reporters including KTEC and WKNC.

TNT, "Everyone's a Star", Merc.... The second cut from the "Tell No Tales" album is of a different vein than "10,000 Lovers...(In One)". It definitely shows off the more rockin' style that they had on their first American release "Knights of the New Thunder". Tony Harnell's voice is once again in great form and guitarist Ronni LeTekro simply kicks ASS all over. We all know what this guy can do and the solo on this one is really tasteful. That shows a good deal of discipline and hey, I can respect that! The album, by the way is holding steady at #26 and, as was previously reported by your favorite Metal Mutts they are soon to tour with Loudness and Stryper.

Shy, "Emergency", RCA.... Easily the most commercial song to come out of the metal wasteland in quite a time, "Emergency" is incredibly accessible to just about everyone. Hey, just look at those sweet young things who get into metal just for the guys but then bltch 'cause they wanna dance? Whatta want? Michael Jackson?? Well, stop your jawin' 'cause this could make it on Solid Gold! Now, don't get me wrong! This one's sooo good! It's just one of those foot-tappin', good-time kind of METAL tunes. I know you may be saying to yourself, Hold on, 'Metal Mutt', how can it be true Heavy-Metal if the chicks can dance???? Well guys, all I can say is, you've got to hear it to believe it.

EARTHSHAKERS

White Lion, "Pride", Atlantic....

This is the first major label release for these Hard-rockin' New York-type guys. You'd never know it though with the fabulous production on this one, especially in the area of guitar overdubs. Give a lot of credit to producer Michael Wagener for the great job. Really slick. Excellent guitar work and great songwriting add up to a spot at #20 on the airplay chart. What to play? Getting the really big play are "Hungry", "Wait", and "All You Need is Rock N' Roll", the latter slated for soon to be released video. And look for them to "Rock and Roar" on the road.

Heathen, "Set Me Free", Combat.... Wow! Boys and girls, you're gonna wanna sit down after this one. It's pretty major. Heathen is our highest debut of the week at #11!!! Unbelievable!!! Not only that but they're also #3 most added! Ronnie Montrose has turned into quite the producer these days hasn't he? Of course it helps to have something worthwhile to work with, eh? The band has a really tight sound with a good groove and a commercial feel. Just an great record overall. They're on at WCWP, KICT, KISS, KOZZ, KTEC, and WXRC with great phones everywhere.

Def Leppard, "Hysteria", Mercury....

Hysteria is right! Boy do these guys know how to name an album. Hysteria is exactly what every record store in the country is going to experience once this record hits. I'll buy that for a dollar, what do you think? Well maybe eight dollars. Anyway, back to reality here for a minute, the single is in its second week here and is up to #12 on the Hard Hundred, and #3 most requested with 57 of our reporting mainstream stations getting the calls. Even though it took over four years to get here, who can say that it wasn't worth it? I'd hate to be working at a ticket agency when the tour dates are announced that's for sure.

METAL NEWS

The Motor City Madman is back to work. Ted Nugent is currently in Los Angeles recording his new album with producer Tom Werman (Motley Crue). This will mark the first time that Nugent and Werman have worked together since the late '70s. According to Ted's manager, Doug Banker, this will be the longest time that Ted will be spending in the studio. Nugent wrote all the songs for the album with the exception of one. It is a song entitled "The Story Of Love" which was written by Ted and two guys named Bon Jovi and Sambora. Probably just two kids looking for a break. Anyway, the album is due out in the fall. Also, because Ted wants to put full concentration and energy toward the record, his acting career has temporarily been put to the side. But, says Banker, if the album, tour, etc., do not fall on schedule, Ted may begin to look at more scripts. Finally, look for an August 14 rerun of the "Miami Vice" episode which featured Ted Nugent.

They are known as one of Long Island's top bands. No matter where Snatch played, they were sure to draw a crowd. but problems between the members regarding musical direction set in. Was a giant about to be put to rest? No way, Jose. Now, after having gone through wholesale personnel changes and a name change, they are back. The band has changed its name to ROAR. The only remaining Snatcher is vocalist, Petey. ROAR now consists of Tommy "TJ" Jordan on guitar, Rex Longyell on bass and Mike Gandia on drums. The band has a new demo which they are currently shopping around. It should not be long before we hear the ROAR.

You may recall that in the July 17th Issue, we mentioned that Metallica was going to be releasing a new mini-Lp which was to contain only cover songs. Well, the title of that album will be "\$5.98 Ep - Garage Days Revisited". Also, I'm sorry to disappoint you, but "Am I Evil?" and "Blitzkrieg" will not be on the record. Also, look for Metallica to do several festivals in Europe in August.

As many of you know, Milwaukee fans were treated to a festival that could easily have been dubbed "Metal Woodstock". But what would you call a festival that was held in front of 20,000 screaming, thrashing, moshing kids? Think fast because it is currently in the works. Unconfirmed sources say that this arena festival will be held at the Nassau Coliseum on Long Island. It is alleged that Anthrax will headline. It is still not known who the opening bands will be. Those same unconfirmed sources say that any or all of the following could be added to the bill. They are Overkill, Slayer, Motorhead, Exodus, Celtic Frost, Destruction, Testament, King Diamond and Trouble.

Just got word about a tentative tour lineup that is bound to open some eyes. It appears that Armored Saint and Helloween will be supporting Grim Reaper on their U.S. tour. Helloween has already released their "Keeper Of The Seven Keys - Part I" along with a picture disc for the song "Halloween". Armored Saint and Grim Reaper are both scheduled to release records in late August. Grim Reaper's Lp is entitled "Rock You To Hell" and features one of the all-time killer covers. "Raising Fear" is the title of Armored Saint's new album and the early reports state that this will be the metal album of 1987. I can't wait.

Fates Warning finally has a new singer. His name is Chris Cronk and he is from Texas. Chris is the former lead vocalist of the band Jag Panzer. Now, the band can finally get down to recording. They will be entering the studio with producers Roger Provert and Max Norman. Max will also be engineering the record. Entitled "No Exit", it will be Fates Warning's fourth album. Look for side two to include a 25-minute epic entitled "The Ivory Gate Of Dreams". The album will be out by January.

Former Ramone drummer Marc Bell has returned to the scene once again. He has formed a new band called Marc Bell And The Hunted. Bell started in the early '70s with a band called Dust. He later joined the Ramones and was there during their most prolific years. Several years after leaving, Marc re-emerged with former Plasmatic's guitarist Richie Stotts in a band known as King Flux. Now, he has put together a band that he calls the most awesome and dedicated he's ever been with. Good luck to one of rock's true nice guys.

They are called the best British band never to be signed. That band is Diamond Head. For most American metalheads, the only Diamond Head they are familiar with is Metallica's version of "Am I Evil". Until now. Metal Blade Records will be releasing a greatest-hits type record entitled "Beyond The Beginning". To everyone's delight, "Am I Evil" and "Helpless", which Metallica covers on their new album, will be included on this record. This is one record everyone should get a copy of.

KISS has changed the name of their forthcoming album from "Who Dares Wins" to "Crazy Nights". The first single from this album will be out the first week of August and is titled "Crazy, Crazy Nights". This is the first new KISS album in over two years and the follow-up to the Asylum Lp. It's also the first KISS album in over six years that the band did not produce themselves. "Crazy Nights" was produced by Ron Nivison (Heart, Ozzy, UFO) and is due for release in mid September. Among the 11 tracks on the album, other song titles include "No, No, No", "Boomerang", "Dial L For Love" and "Thief In The Night", a song that originally appeared on Wendy O's "W.O.W." album that was written by Gene Simmons. KISS begins a U.S. tour with a new stage show in November. In the meantime, Simmons has started his own record label, Radioactive Records, distributed by PolyGram. He is also working on a pilot series for ABC T.V. and producing the new "Black & Blue" album. Paul Stanley will be producing the next Poison album and Eric Carr has started his own production company as well as his own comic book character.

Yngwie Malmsteen has recovered from his recent car accident. It's now been revealed that Malmsteen actually was unconscious for two days following the accident and suffered from severe head and facial injuries. This injury will most likely delay Yngwie's new recording partnership with Joe Lynn Turner. Malmsteen is also being charged with drunk driving.

White Lion will film a video from their new album "Pride" in the next few weeks. It will be for the song "All You Need Is Rock And Roll" and will be a performance and conceptual video. The band has just completed a tour supporting Ace Frehley's Comet and is now working on new tour plans.

OZZY OSBOURNE has put on a concert at London's Wormwood Scrubs prison. Opening for Osbourne was a band called the Scrubs, which includes three prisoners and three prison wardens. They had approached Osbourne about the idea of a concert a few months ago. Osbourne then visited the prison, talked to the band, and set up some rehearsals. Osbourne and the Scrubs both played for the show, which was for inmates only. Osbourne doesn't plan to begin working on another studio album until next year.

The long-talked about One World Festival, a charity rock concert that was supposed to take place this month, probably won't take place until December, according to organizer Michael Aminian. He gave the estimate upon his return from the Soviet Union, where he received an offer to allow Moscow's Olympic Stadium to stage part of the festival. "It would have been ridiculous to have staged a 'One World' festival without the Soviet Union," Aminian says. Exact dates for the show should be announced soon, along with details of the bands taking part at all of the different venues around the world. There has been one casualty of the postponement. Pushing the concert back from July to December means that Britain won't be able to use London's Wembley Football Stadium, and organizers will instead have to find a warm indoor arena. Aminian says there have been a lot of "difficult bureaucratic negotiations" involved in setting up the show, which is being dubbed "Live Aid 2." "I want the One World Festival to be a platform for people to analyze the problems," Aminian says. "It was never meant to be a basic fund-raising charity. We must try to understand that mere fund-raising events of any kind cannot be enough. We need to raise world awareness."

BRUCE SPRINGSTEEN has almost finished work on a new studio album which should be out before the end of the year. There are also plans for a series of live performances, but not like the two years of touring that followed "Born In The U.S.A." This tour is likely to last about three months.

BILLY JOEL overturned an electric piano and smashed a microphone on stage during his second concert in Moscow, apparently angry because a film crew directed spotlights on the audience. "Stop lighting the audience. It's my show, for Christ's sake," Joel said when he interrupted his performance of "Just A Fantasy." The film crew is making a documentary of Joel's Soviet trip, hoping to recoup some of the \$2 million cost of the tour. Joel banged on some drums before resuming the concert. He then yelled at some of the audience members near the stage, because he didn't feel they were animated enough. "If you don't want to be here, why don't you leave," he yelled at them. Joel says he's been "run ragged" because of 11 months on the road, and says his throat has been bothering him. Soviet authorities have complained about the loudness of Joel's music and a lack of crowd control at the shows.

DEF LEPPARD's new album, "Hysteria," the band's first LP in three years, is the first since drummer Rick Allen lost his left arm in an auto accident near Sheffield, England, in 1984. Allen says he's able to play "pretty much everything I used to play with my left foot that I used to play with my left arm. My right foot takes care of the bass drum," Allen explains. "I have the added bonus of being able to come over with my right foot and play the pedals, too. So you can actually do the things that to the normal drummer sound physically impossible, like going up and down the pedals and the pads in different ways. It's quite interesting," Allen says. "But the only way to fully appreciate it is to come along and see Def Leppard." Allen says he's putting some drum sounds on a computer floppy disk or microchips, and he can trigger off the sound he wants. "I'm just imitating the sounds I used to create before from my real drum kit." Allen says he believes that his timing has improved

because of the new arrangement. "You can almost imagine yourself being a drum machine, because all your sound is coming from one place. Now, I can actually think about things and use what I've got to the best effect."

KEITH RICHARDS has signed a worldwide multi-album solo recording deal with Virgin Records. Richards is currently finishing the soundtrack to the Chuck Berry film, "Hail Hail Rock & Roll," which is scheduled to come out in September. Richards' manager, Jane Rose, says he plans to take his time choosing musicians for his solo work.

NINA HAGEN is getting married August 9 to a 17-year-old Spaniard named Iroquois who she met in Rome in 1985. Hagen has written a single about the event called "Punk Wedding." "The single is coming out in Germany and we're talking to a company in the States about getting released here so everybody can participate in the wedding celebration. It's a total party song and there are church bells in it, as well as the ocean, fields and motorcycles," she says. "We're going to shoot a real groovy video at the wedding."

WILLIE NELSON has signed the contract for Farm Aid III at the University of Nebraska in Lincoln. He says John Cougar Mellencamp, Bon Jovi and Neil Young have agreed to participate.

RICHARD BRANSON'S Virgin Atlantic Airways has come up with a novel way to raise money for UNICEF. Envelopes in in-flight magazines allow trans-Atlantic passengers to donate the foreign coins they'll be unable to use in their home country. The airline collected \$975 one week when it tested the idea on its New York to London flights. Virgin Atlantic estimates it could raise \$500,000 for UNICEF in the project's first year.

MICKY DOLENZ says he's optimistic that "Love 1967," a live album just issued by Rhino Records, will finally lay to rest the belief that the members of the Monkees couldn't play their instruments. "That album is indeed just us playing on our first concert tour," Dolenz says. "We didn't have any backup musicians at all." David Jones says "Love 1967," and "Missing Links," a compilation of unreleased tracks, are "the final lot of the old material" that hasn't been released from the Monkees' earlier days.

"We've definitely come a long way with this record and have surpassed anything we've done in the past." That's the assessment by the **LONG RYDERS' STEPHEN MCCARTHY** of the band's new album, "Two Fisted Tales." McCarthy says producer Ed Stasium, who has worked with the Ramones, Julian Cope and Peter Wolf, helped to tighten up the band's sound on record. McCarthy says the album is a tribute to comic book illustrator William Gaines, who had a series of comics of the same name. "We liked the name; we thought it was catchy," McCarthy says.

JOHN FARNHAM was a big winner at the eighth annual Countdown Music and Video Awards in Sydney, Australia. Farnham received awards for best album, best single, best male performance in a music video and most outstanding achievement. Crowded House also won a number of awards, being named best debut act, best debut album and best music video. Crowded House's Neil Finn was named best songwriter. Pseudo Echo was named most popular group, and Brian Canham of the band was named most popular male performer in the awards, which marked the final showing of Australia's "Countdown" television program. INXS won the award for best group performance in a video, and a-ha was named most popular international act.

With legal battles involving their former record label, Bearsville Records, settled, **NRBQ** will have a live album out in October on Rounder Records. "It was recorded in one set, as it happened," says Terry Adams. "It's continuous sound, the real thing."

THE HARD REPORT

THE RAMONES will release their tenth album, "Halfway To Sanity," in September. The first single from the album is a track called "I Want To Live," a song that Joey Ramone concedes is "optimistic." "Although the last line of the last song on the new album is, 'I wish I was dead,' I believe it's good to think positive," he says.

BOZ SCAGGS is working on his first album in five years. He's recorded one track in Minneapolis with producers David Rivkin and Ricky Peterson. Rivkin has produced hit singles for Jody Watley and the Jets. Poet Jim Carroll has three songs on the upcoming Scaggs album.

THE BEASTIE BOYS apparently passed the test at their Memphis show, where City Councilman Jimmy Moore was waiting for the opportunity to nail the band for violating obscenity laws. The toned-down show was crude and profane, according to Moore, but not legally obscene. In Jacksonville, Florida, meanwhile, tickets for the Beastie Boys/Run DMC show next month carry the warning, "For Mature Audiences...Adult Subject Matter." The warnings are prompted by a new city law which calls for warning labels on tickets and advertisements for shows at city-owned facility. The law was passed after the last time the Beastie Boys came through town.

GEORGE HARRISON, RINGO STARR and **YOKO ONO** are suing Capitol Records for \$40 million, claiming that they are due money for the release of Beatles albums on compact disc. The New York State Supreme Court suit asks for \$20 million in punitive damages and \$20 in actual damages. The plaintiffs also claim that EMI-Capitol unfairly withheld the release of Beatles compact discs in an attempt to force the band members to settle another lawsuit, a \$50 million breach of contract suit in which the Beatles claim that Capitol cheated them out of royalties between 1969 and 1979.

HEGE V, the son of country singer George Hamilton IV, says the lyrics of his debut album consider "the survivalist-broken-hearted-country-cynicism of busted hearts and broken dreams." Hege V, lived in Nashville before moving to Chapel Hill, North Carolina, where musicians including the Allman Brothers and Gordon Lightfoot were often guests. "We want to represent the regionalism of the southeast, but also want to stay completely open with our music," Hege V says. "And like Neil Young, I don't want to plan anything. I want the right to be unpredictable."

ELECTRIC FLAG are on the road, but with only one original member, bass player Harvey Brooks. Guitarist Freddie Salem of the Outlaws and the Earth, Wind & Fire horn section have joined the group for their current tour.

U2's "The Joshua Tree" album is so far the best-selling album of the year in England. The album has sold a million copies in England, the first U2 album to do so. It's also probably the biggest-selling current album in the world, having sold almost

nine million copies. U2's "Joshua Tree" has been in the chart for 19 weeks, and has been in the top five for each of those weeks. The second biggest-selling album in Britain so far this year is Whitney Houston's "Whitney," which has sold 725,000 in just seven weeks. Houston's album just was knocked from the top of the British album chart by the debut album from Terence Trent D'Arby, whose "Introducing The Hardline According To..." sold 100,000 copies in its first week.

CULTURE CLUB'S ROY HAY has named his new band This Way Up. "I'm prepared for the This Way Up stuff to take over completely," Hay says. "I'd like to work with (Boy) George again, but as a band it'd certainly have to wait a while. Maybe one day, I don't know." The band's debut album will be called "Feeling Good About It."

BIG AUDIO DYNAMITE have recorded the theme to Jim Jarmusch's new short film, "Sightsee MC." The theme song is written and produced by Mick Jones and Joe Strummer, and is only available in England as a 12-inch. Jarmusch directed the films "Stranger Than Paradise" and "Down By Law."

SUICIDAL TENDENCIES had to drop the first half of their name to appear on a British television program, but the band members still work caps that said "Suicidal."

"I've not taken this job as a career move," says **JON KLEIN**, the fifth guitarist in **SIOUXSIE & THE BANSHEES**. "I've taken it as a chance to play with people who've stayed alive long enough, through a lot of common sense, to suggest to me they know what they're talking about," he says. "I feel a bit like the drummer in 'Spinal Tap,' about to combust any second," Klein adds.

BALAAM & THE ANGEL sound more "aggressive" on their new single, "I'll Show You Something Special." "We wanted to make a record that matched our hardness on stage," says Mark Morris. "The last album erred on the side of the studio and didn't really relate to our live performance, partly due to Hugh Jones' influence. Hugh had been involved in guitar-pop bands before and consequently the album was less aggressive than we might have liked." The b-side of the single is a cover version of Donna Summer's "I Feel Love."

XTC are releasing a second album of music under the moniker of the Dukes Of Stratosphere, to be called "Psonic Psonspot." The first single from the album is a track called "You're A Good Man Albert Brown."

BOY GEORGE, the **PET SHOP BOYS**, **KIM WILDE** and **MEAT LOAF** perform their favorite Elvis Presley songs in a Presley tribute program to air on British television next month. The program is called "Love Me Tender, A Tribute To The Music Of Elvis Presley." On the two-hour program, Boy George will sing "Are You Lonesome Tonight," the Pet Shop

Here's the latest music news Live From London courtesy of CFNY, Toronto and our exclusive reporter Lee Carter. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

The organisers of The One World Festival issues a press release this week confirming the participation of The Soviet Union, but in a shock announcement have said that the original charities involved have pulled out.

The Soviet Union have offered their 30,000 seat Olympic Stadium for the 6th of December with bands from the west being welcome to play there. It will be linked to London's indoor Wembley Arena with more venues around the world expected to follow. but the original charities involved: The Church Of England's Y-Care and Save The children have withdrawn from the event because of it's "political tone". A spokesman told 'The Hard Report' that the festival's own trust will be set up to allocate funds to organisations who work in both "the political and non-political fields". On the subject of groups playing, he re-affirmed that both U2 and Simple Minds had been approached to play the Wembley Arena leg of the show but quickly added that because of the new politics of the festival, bands will have to be approached all over again. He admitted that some bands had been put off. "We are really starting all over again." Michael Aminian, the festival organiser, states that the main aim of the concert is to "raise awareness of third world issues. It was never meant to be a basic fund-raising charity." Already, One World looks like being a very different animal to the simple Geldof equation of food for the starving. With many months to go before December, the organisers are going to have to make their message a lot clearer. It could be argued that Geldof was successful in shutting out all forms of politics, including going over the heads of the Ethiopian Government by buying Band-Aid trucks and generally cutting red tape. It would seem to this correspondent that people will not be so generous if there is the merest whiff of jobs for the boys. Raising awareness of third world issues sounds great on paper but anyone experienced in these matters will know that a lot of money can be swallowed up in seeming to care.

At time of writing, there was still considerable doubt that Madonna's shows at Wembley stadium here in London will go ahead. As revealed last week, Wembley have had a record breaking number of shows this year, the bulk of which have been over the past two months, to the fury of local residents. The local council are deciding, hours after this is written whether to grant a license for the shows, following meetings with Wembley Stadium's management. Prince pulled out of his British tour earlier this year, so it would be double disappointment if Madonna does not perform.

The future of the Republic Of Ireland's biggest rock festival, Slane Castle, looks in doubt after a young fan was drowned trying to swim across the choppy River Boyne which surrounds the site of the show. The boy was trying to get into the event, headlined by David Bowie, for free, and two other young men were yanked out of the river by police. Another fan was killed in an identical incident when Bob Dylan headlined at Slane in 1984. The July 11th concert was also marred this year by two stabbing incidents and 85 drug arrests. Local authorities are considering whether to shut the festival down, which in the past has seen performances by Bruce Springsteen and U2.

In yet another rock festival story, a huge scandal has erupted here over the first, and very likely the last Plymouth Festival in south-west England. Fans expecting to see Siouxsie and the Banshees, Spear Of Destiny, The Damned and Steel Pulse, instead got Black Sabbath and Captain Sensible. Many fans who had purchased the \$30 tickets didn't show up because of the level of confusion as to whether the show was on or off. The organisers have claimed that any fans who were unhappy with the lineup can receive a refund at the point of purchase, but an investigation by "The New Musical Express" has revealed that, as yet, no-one has been reimbursed. The Damned are said to be furious that the organisers continued to use their name long after the band had pulled out. People had travelled from all over Europe to see the show, some paying in excess of \$200 to be there.

Hurrah are this week claiming to be the victims of "moral censorship" after being turned away from New York's New Music Seminar by U.S. Immigration. As reported last week, all the British bands were given a severe and arbitrary grilling and Hurrah were one of four groups turned away. Keith Armstrong from the band's label, Kitchenware claims that the main reason for their objection was the discovery that MTV had banned their video for "Sweet Sanity" earlier this year, on the grounds that it depicted "overtly lesbian behavior". Armstrong says that U.S. Immigration found the title of Hurrah's Lp "Tell God I'm Here" blasphemous. "It seems that in the age of the moral majority in the States, anything is possible!" He fumed. Meanwhile the American music industry are siding heavily with the unfortunate British bands and plan to lobby Congress for changes in the laws to make it easier for U.K. groups to enter the country.

Sport Aid 88 is now fully underway. The launch will be held in London's Hyde Park on the 6th of September with an open air concert featuring The Pet Shop Boys, Swing Out Sister, and Spandau Ballet. Then on the 11th of September, for the second year running there will be The Race Against Time, the giant running marathon and music event. Last year over one million feet pounded the pavements in London joined by millions more around the world. It was only dampened slightly by the poor turn out in New York (literally a few hundred) blamed partially on the fact that Hands Across America was held the same day. Among the names supporting this year's Sport Aid are Level 42, Sting, Paul McCartney, Elton John, Tears For Fears, George Michael, Kim Wilde and Nick Kamen. All money raised from Sport Aid will go to The Red Cross and Unicef for their projects for the starving in Africa and South America.

Big Audio Dynamite are releasing a film, directed by band member Mick Jones. Both the film and a soundtrack album released to accompany it are called "Sightsee MC". The film started out as a video, but it got out of hand. It will be screened around London in the next few weeks. BAD are currently on a sell-out tour of Europe.

The Jesus And Mary Chain release a new single next week called "Happy When It Rains". The band

have just completed their long awaited second Lp which will be out in early September to coincide with some U.K. shows. It's rumoured that the new **Mary Chain** single features the services of a string quartet which should be most intriguing.

U.K. INDUSTRY NEWS:

From August 1st MTV Europe will begin broadcasting from Britain, owned and operated by MTV in the States. MTV Europe will be a 24 hour a day, seven day a week music station featuring videos, interviews and special features. There will be seven presenters from all over Europe. Ironically only about 50,000 homes in Britain will be able to receive the service as Britain is not cabled up. In much the same situation is MTV's future competitor, Musicbox who have millions of subscribers in continental Europe. Britain will only receive MTV Europe as satellite television gains ground.

IN BRIEF:

Ozzy Osbourne, ever unpredictable will be playing his only concert of the year here in Wormwood Scrubs prison in London.... Sounds awful.... It is rumoured that **Mission** lead singer

Wayne Hussey, known here as **Mr. Rock N'Roll** Debauchery for short is drastically cleaning up his rock and roll lifestyle, following a meeting with **Iggy Pop** who told Wayne he was a total mess and enlightened him on the secrets of looking good with your pension.... It seems the knot is finally tied between **Eurythmic Dave Stewarts** and luscious pouting **Banana Girl Siobhan Fahey**. Wedding expected soon.... **Squeeze** release a single "Hourglass" this week on **A&M**. **Squeeze** have a new album due out next month, followed by an extensive Fall tour of Britain.... Is **Kate Bush** pregnant? We really should be told Just released here on video "Drum", the story of how **Simon Le Bon** sailed and sunk his yacht. It's actually rivetting viewing as well as some good music from **Phillip Glass**, **Bronski Beat**, **Propaganda** and **Le Bon** himself.

NEW RELEASES:

Best new single this week "Lips Like Sugar" by **Echo And The Bunnymen**. Also good, "Don't Shilly Shally" by **Edwin Collins**, formerly the brains behind **Orange Juice**- strong uptempo material from his forthcoming Lp. Good summer pop. "Was That You" the latest **Spear Of Destiny** and coming out of nowhere a fab record by **The Weather Prophets** "Why Does The Rain". Alternative should love this dark, moody, addictive song. New Lp: **The Dolphin Brothers** who are really **Steve Jansen** and **Richard Barbieri** ex of **Japan**. Excellent

debut album that might make brother **Silvian** hang his head in shame over some of his more indulgent new age meanderings on his last offering. Like **Japan** in their prime, **The Dolphins** tread a delicate line between atmospheric and uptempo pop.

ALBUM CHARTS:

Up 6 to 10 "Sixties Mix" by various artists. Almost as dull a concept as **Stars on 45**. Up 7 to 9 "Bad Animals" by **Heart**, the first UK breakthrough for the sisters **Wilson**. New at 2 "Hits 6" by various artists. Another in the phenomenally successful singles packages offered by a co-operation between **WEA**, **CBS** and **RCA**. Sweeping aside **Whitney Houston** and after selling 100,000 copies in it's first week of release "The Hardline According To **Terence Trent D'arby**" enters the Top 100 at number one. This gifted black singer is originally from New York, but has made his career here. This success follows two top ten singles "If You Let me Stay" and "Wishing Well" both of which have had him compared to many, from **Sam Cooke** to **Paul Young**. You can't afford to be without a copy of this Lp.

Although for the past few months **U2's** "The Joshua Tree" has been doing a yo-yo act within the Top Five Lps, it became this week their first album to sell a million copies in Britain, after 19 weeks on the chart. In any given week it has never sold fewer than 30,000 copies here. 1983's "Under A Blood Red Sky" is selling at a rate of 5,000 copies each week in Britain and has now sold over 900,000 copies. It's the best selling live album ever in the U.K. and will also shortly hit the million mark.

SINGLES CHART:

New at 33 "Sugar Mice" by **Marillion**. Very liked and admired here, musically sounds like **Genesis** about ten years ago. A climber of 12 at 26 "Sold" by **Boy George**, definitely putting him back in the high life. A strong anti-racist song with a slick video, including a dig at your pal and mine, **President Botha**. Although strong, it contains some of that embarrassing self-consciousness in "The War Song" - a bit of empty sloganeering on the trendy issue of the day, still, this could be pulling wings off flies, so I give "Sold" a thumbs up. A big climber of 17 to 17 for "Labour Of Love" by **Hue and Cry**. Very fine, polished Scottish duo who turn out likeable pop songs, heavily influenced by 60's R&B. At their gigs they perform some breathtaking versions of old **Traffic** songs. File along with acts like **The Christians** but more uptempo. Recommended. Up 11 to 15 "I Heard A Rumour" the latest offering from **Bananarama**. The highest climber is up 26 places for **Los Lobos** with "La Bamba" at this week's 4. Limp remake, but what a great song and fan summer music. Deposed from the throne after three weeks, **The Pet Shop Boys** slip to number 2. Britain's brand new number one is **Madonna** with "Who's That Girl". Mrs. Penn has now broken every record in slight, dutifully reported week after week in this column. The most staggering one to me so far was being able to have 5 top 3 hits from the same album, all from side one, while the album itself was a million seller. Does pop-corn do this for you? Pass it over! Cheerlo til next week.

Pam Edwards, KGB-FM, San Diego

Last week Guns N' Roses released their long awaited Geffen Lp, "Appetite For Destruction". When the record fell out of the package, I stared in disbelief. Here on the cover was a depiction of a woman who had just been brutally raped. She looked either dead or comatose, exposing a breast with a bleeding cut and underpants nearly down to her ankles. The drawing left absolutely no room for another interpretation. I once again checked the label. Could this really be an album on the classy Geffen label, the same label from which we've come to expect quality material from artists like Peter Gabriel, Neil Young and Lone Justice? I began making calls to express my surprise and disappointment at this violent and grotesque cover. Tom Zutaut (the A&R man behind Guns N' Roses) first gave the story behind the 1978 Robert Williams drawing. The abused woman is supposed to represent society and all people who have been raped by the media. The media is the mechanical apparatus with the camera on its head and the big "monster" flying over the fence is a representation of bad karma coming to kill the robot and rid society of the evil media. Tom then expressed that perhaps the album cover was too intellectual for the masses. Was he implying that I was stupid. He assured me that I wasn't. I asked if the man had been a victim with a bleeding lacerated penis, would it have made the cover. Oh yes, it would have made the cover. Speaking to others, I was attacked as acting like a censor. I was told I was behaving similarly to critics who had taken offense with Elvis Presley's gyrating hips or Bob Dylan's political message songs. I don't see any correlations between those two trains of thought. This is not an issue of censorship, but simply one of bad taste and poor judgment. Criticism of Elvis and Dylan and those like them represented the societal mores of the time and as society came to accept these new expressions and thoughts the criticism was rightly overturned. These artists were just ahead of their time. On the other hand, I hope we never live in a world where rape or other violent acts are condoned or tolerated. Maybe GUNS N' ROSES were trying to make a valid point by telling us how immune we've become to violence because of the media's blood and guts coverage, but why couldn't they have found a better way to tell us. Why resort to the same use of gratuitous cartoon like violence which they say they are opposing. One reason may be a marketing strategy. This album would never have been racked at many retailers. Bon Jovi couldn't even put a girl with a wet T shirt on their cover and Geffen expected that Guns N' Roses could have been stocked at your local outlet. Believe that, and I'll sell you Jim Morrison's new address. With a cover like this the band gets immediate negative attention, the album cover is changed with lots of media hype and the albums with the original cover art are bought up and become collectors items. I would be hesitant to even make my criticism public if this wasn't an industry only trade. Because any publicity, negative or positive, only tends to sell records. I also wouldn't have such strong feelings about this record if it weren't for the obvious commitment and money behind the project from such a big label as Geffen. A week prior to its release every rock trade picked the song albeit without seeing the cover art and most stations were served with the CD single. I think that if a trade publication can pick a song or an album, they can certainly un-pick it or at least print some sort of retraction. It is quite rare to read such a negative commentary in this or any other trade because we are always striving to promote new artists rather than to denounce them, but this really hit a raw nerve. In today's climate I see no legitimate use for this album cover. I invite you to express your feelings to Geffen Records, Guns N' Roses, their management, and The Hard Report.

Harvey Kojan, KLOL, Houston

Ever since we began playing Jon Butcher's "Wishes" a few weeks back, we knew we had a real winner. Sure, the other three Butcher tracks had all done very well for us, but "Wishes" is the one that gets instant reaction. That was never more apparent than at Butcher's return engagement at Stage One last week when the band was visibly moved by the crowd's overwhelming response to "Wishes". Jon actually backed away from the mike and listened in disbelief as the packed house sang at

the top of their lungs. "They knew all the words", exclaimed Jon's manager Bruce Amdur after the show, "And it's all because of KLOL." Thanks for the kind words, Bruce.... I got an early listen to a double dose of Polygram dynamite as Drew Murray and Ted "Cougar" Mellencamp primed me with fine food and drink, placed me in a limo, (tough life, I know) and played new stuff from Def Leppard and the Little Bastard. Both albums sounded exceptionally good despite the limo's rather primitive sound system. "Paper And Fire" smoulders thanks to a winning combination of guitars, fiddles, dobros banjos, great harmonies and an unlikely accordion/Hooters riff that almost steals the show.... Like Bob Seger with "Shakedown", the Pretenders have struck gold (finger) with a sultry soundtrack sound that's as good or better than anything on their last album. "Where Has Everybody Gone" picks up where Peter Gun left off. It's an atmospheric wonder.... Two other outstanding songs made it in this week, "Painted Moon" and "World Where You Live".... #1 album in Space City remains Whitesnake followed by Heart, U2, Hagar, and -- note the alliteration -- the Crue, the Cure and the Cult.... I'd like to think we're being adventurous by playing the Cure, but considering their new top 5 sales, we're really not taking that much of a chance now, are we. Yeah, it's time we got wise and started giving bands like the Cure, P-Furs and Echo and the Bunnymen a real shot on AOR.

Tim Jeffreys, KAZY, Denver

On the campaign trail this week for those LA motley rockers Faster Pussycat. Hey, they're raw, a little crude, sound something like AC/DC meets the Crue on the way to an Aerosmith show. It's like hitting your 18-24 male demos with a bazooka at close range.... Pretenders. So cool you have to listen to it with shades on.

John Cooper, WPYX, Albany

From Ed Levine, VP/Op Manager: Goddamn! The new book is in and WPYX has jumped 10.0 to 10.8 12+. Once again, we're #1 adults 25-54 plus, of course, 18-34. Couple this with a 19 share 12+ in the Birch, WQBK's 2.6 ARB showing, their worst Book in years and it's easy to see that we're a bunch of happy campers. August in Saratoga, here I come!... From John Cooper: There are some perfect summertime records out there, just right for having the windows down and the stereo turned up. And Paul Kelly's "Darling It Hurts" and the Insiders "Ghost On The Beach" are the top two in my cassette deck and adds on PYX this week.... Mixed reaction so far to the Pretenders, and the John Cougar Mellencamp is a smash.... Thanks to Pat and Boulos at PolyGram.... Congratulations to Bob Welch on the official PD title. As Bob said to me, "Good luck, you're going to need it".

Chip Hobart, WQFM, Milwaukee

Virgin Vinyl highlights: "Hold On" from Steppenwolf; "Twisted" from Melvin James; "Prisoners Of Rock And Roll", which truly tells it all, from Neil Young And Crazy Horse; much improved "Hearts On Fire" from Daltrey, really much better than the first one. Also did "Pipeline" from Dick Dale and Stevie Ray Vaughan. Best remake that I've heard in a long time. (PS: would somebody please send me the Duane Eddy record.).... "In Dreams" from Pete Bardens. I like it and think he's got himself a record there.... Skagarack with "I'm Alone".... Hollywood Hills from the Beat Farmers which I think should be the next single.... And "Everybody Got Hammered Last Night" from Joe Ely.... "Ooh La La" from Slade and the new Echo And The Bunnymen.... New in regular rotation: Cock Robin. I think this record is a hit; and people should get over their preconceived notions about any past Cock Robin product. Do not ignore this record. I mean, Cock Robin is a racy name and everything, but they sing good, goddammit.... The Insiders is a band that played on the rock stage at Summerfest so we had the inside on that one anyway, and this new song is like Jackson Browne meets Bob Dylan. The singing is great and I think they've got a real hit record on their hands.

Beaver Brown, KDJK, Modesto

The men from Robert Vaughn And The Shadows shouldn't be kept a secret anymore. Expose them on your airwaves.... The only way to be shot is with the Silencers. "Painted Moon" is one of my faves.... Send me the Hooters CDs quickly!! The grooves on my Lp are wearing out!! "One Way Home" has to be one of my top two Lps of the year, along with U2. Give a hoot, play the hooters.

Joe Anthony, KISS, San Antonio

Attention, Mike Bone, Cliff Bernstein, Dave Krebbs, Rob Sides: Who's gonna be the first to sign Mortal Sin and Talon? We guarantee they are gold record winners. Could be the hottest bands of the 80's. Call me if you need more information. Right now the sales and phones are going big on them both. I'm getting more reaction to these groups than to anything else I've got.

Kim Alexander, WHCN, Hartford

First things first... The minute I studied the Guns N' Roses cover I got a sick feeling in the pit of my stomach. Obviously someone just wasn't thinking the day they Okayed the cover "art". Should the cover be censored? No. It's a free country. But speaking individually, I can say that I don't want to associate myself, my jocks, or my radio station with this record. That's where I stand. When the new cover comes in, I'll be happy to give it a listen.... The Steppenwolf record was the nicest surprise of the week. "Hold On" has a killer hook and John Kay's signature growl. Our audience is gonna love it. There's so much great rock and roll this summer, I'm in heaven... The Insiders have given us the best power pop of the 80's.... Fabulous Thunderbirds' "How Do You Spell Love" should be dubbed the "Joan Collins/Peter Holm Memorial Tune". Bound to keep even THEIR radios cranked.... Europe's "Carrie" is very big with girls...and I do mean girls.... Slade still is one of the most hummable hard rock bands around.... And Mason's whole album is so good, it's a pleasure to go deeper with "World".....

Jason Tyler, WRUF, Gainesville

Another good week of rock has passed, and Def Leppard holds the throne as the #1 most requested tune.... Listeners are getting a hold of the Dead's new album and requesting several tracks deep.... On the screaming rock scene: Guns N' Roses' "Welcome" smokes. It makes the bad boys of Motley Crue look like ABBA.... Don't overlook The Call's new album, "In the Woods". It's very, very strong.... When it comes to Danny Wilson, prayer is not necessary for this tune.... We played "Isn't" off of Patty's "Never Enough" when the album first came out. Now we're back on it, especially after the fine version Patty did in concert.... The Insiders sound like the Cruzados. Sounds like a solid summer tune. Who are these guys?

Bob Welch, WQBK, Albany

To say I'm psyched having been appointed the 3rd P.D. at WQBK-FM in it's 13-year history would be an understatement. I will be handling the music duties for a while... Calls will be Monday, Thursday and Friday from 10-Noon. Please be patient. I've got lots to do.... Musically: The Cruzados are starting to get decent phones and I've got that old gut feeling so we'll pop it into heavy.... #3 sales continue for Suzanne Vega.... Zevon's "Detox" breaks to 10 requests.... Stevie Ray Vaughan's got a solid audience in this market and what a classic combination.... It takes a couple of listens to sink in, but the hook on Steppenwolf's "Hold On" will grab ya and, hey, his audience is still there... And Charlie Daniels is back and rockin' again; should be a Top 10 AOR at least.

Joe Skare, KFMQ, Lincoln

Talk about summer heat waves, I thought it was hot here in Nebraska! You wanna talk hot, check out the Insiders' "Ghost on the Beach". This is a great summer rocker that I expect to see a lot of phones on. It's nice to finally get the identity of the band behind this hot track.... We also liked Urgent's "Can't". This

is just straight ahead, no frills rock and roll.... The Starship's "Babylon" is the surprise of the week with Top 5 phones; a lot stronger than "Over".... Ronnie James Dio's "Dreamer" is his best effort to date; much more accessible than his previous stuff.... Europe is getting good phones. Your basic power ballad is a Top 5 request item this week.... Getting set for the Bryan Adams/Hooters show tonight so I gotta run....

Carter Alan, WBCN, Boston

WBCN took to the beach this past weekend on the hottest days of the year for not one but two remote broadcasts. This first originated in Canoe #104 which was pedalled across 2-1/2 miles of ocean to Revere Beach with yours truly broadcasting live from the center seat position. "No Swamp Radio" was our theme. Our second broadcast originated 25 miles up the coast in Salsbury Beach from the Pro Beach Volleyball Championships. The 'BCN airstaff welcomed the chance to trade in their studio tans for the real thing.... Talking about beaches, the "Back To The Beach" soundtrack is steaming hot. Stevie Ray Vaughan and Dick Dale's version of "Pipeline" is on a high tide roll at WBCN. Also the Aimee Mann's "Sign Of Love" is a Top 40 "chills down the spine" shot in my opinion. This song is already logging heavy requests after only 5 days on the air. Meanwhile, U2's "Spanish Eyes" moves up to #1 requests this week....

Kevin Vargas, KWHL, Anchorage

KWHL is extremely pleased to be the latest Rockline affiliate. Be looking for pictures of our inaugural show and special presentation to be made 8/3. Thanks to Ray Gmeiner, Louis Heidelmeier, Marko, and Starvin' Marvin for the arrangement in Chicago at the Crue/Whitesnake show. And special thanks to Jay Ziskraut for the special help for a special occasion. I have nothing to add musically this week, because I've been vacating for two weeks. However, the next time someone calls Alaska's reindeer sausage a strange food item, well, in Chicago I saw a sign advertising fresh live cut-up poultry.

Phil Thompson, KICT, Wichita

The Beatles meet ? & the Mysterians. That's how somebody described that tasty track from Paul Kelly And The Messengers and they're right. That's exactly what it sounds like. It went on in light here two weeks ago and it proved to be one of the best sounding tunes on our airwaves. It moves to medium.... I like the yellow mystery song, also. The Insiders are on out of the box this week.... Had a wild time with MCA's Norrin Cohen over the weekend. Thanks for everything! Let's do that again. KICT 95 is about 80% compact disc now! We're looking for CD giveaways to go along with our image. Any spare CDs you have laying around and don't know what to do with? Send them to me! Phil Thompson, KICT 95, 734 North Maize Rd., Wichita, Kansas 67212.

Alison Stewart, WBRU, Providence

The Insiders spark interest. I love the marriage between raw rock and slick production. The Pretenders definitely have a summer smash. "Where" is dramatic and different. It debuts here as our Master Blaster. Congratulations to WBRU alumni Don Berns on his promotion. And thank to you to George Skaubitis from Warner Brothers for bringing the Replacements by.

Dennis McNamara, WLIR, Long Island

Larry the Duck is back from Hawaii next week; just in time to see Bowie live on the New York leg of the tour. "Never Let Me Down" is a good choice for the new single and has been a favorite of the airstaff at 'LIR for quite a while. We're very pleased with the quality and immediate response to the new material from the Cure, Echo And The Bunnymen, and New Order. Ian McCulloch from Echo called live on the air and is a very capable conversationalist as well as singer.... WLIR presented the Replacements in 3 sold out shows in the area, and we're all trying to recover. Paul Westerberg from the band was on the air chatting with Donna Donna.... Screamer of the Week: The Cure's "One More Time". PeeWee Herman's "Surfin' Bird" is a

big beach item with our listeners.... The Colourfield does a great update on the Monkee's classic "She".

Jimmy Christopher, KISS, San Antonio

It's been crazy. I'm not ignoring you...please bear with me until T-Bone returns next week. Rockin' South Texas....

Dale Miller, KATP, Amarillo

Guns N' Roses!!

Art Boerke, WKWQ, Columbia SC

You wanna hear about phones, I'll tell ya about phones - D E F L E P P A R D. Within one day of premiering "Women", it shot up to #1 on the request list. But wait. Here's the unbelievable part. All I had to do was mention the fact that the first British single is called "Animal" and the phones got hot for that track and we don't even have it yet! PolyGram guys, get me this import 12" quick.... And, speaking of 12"s, the new remix of "Wild Flower" by the Cult is absolutely magnificent. They're in town tonight with Billy Idol for what I'm expecting to be a monster show.... Question and answer time. What is it that just arrived that has the Big Boerke machine bouncing off the walls (the control room has impact marks to bear witness)? If you guessed the arrival of the Starship Compact Disc, you'll be hunted down and delt with accordingly by my brutelike servant Torg. Ok, I'll tell you. I've seen the future of hard rock and its name is Guns N'Roses. Heavy metal that's different. What a band, what an album, what if the gods had tattoos? Forget about Crue, Whitesnake and the rest. If you're looking for a band with magnetic riffs and the fire power of a Sherman Tank, "Welcome To The Jungle" - it's for you - 'nuff said.

Erin Riley, WMMR, Philadelphia

I didn't become the big Glen Burtnick fan I am today right away. I never felt his first album did him justice. It wasn't until I saw him perform live that I was sold. Glen writes the best songs, has a fabulous voice and is a fire cracker on stage, not to mention he has the coolest guitar in the business (sorry, Eddie). My mother always told me a hit is a hit is a hit and if "Follow You" is not a hit, I'll eat my desk!... Thanks to Cliff Bernstein, I was able to hear the Def Leppard in its entirety. What an album! From Mutt Lange and the nearly grown up Leppard come a perfect album. I don't ever recall using that term before. Perfection is certainly up to one's own opinion, and in mine "Hysteria" is flawless. It's the perfect transgression from "Pyromania". The layered vocals, the production, right to the songs themselves! While I was listening, I kept turning around to look at the speakers. I couldn't believe what my ears were hearing. I said to Cliff, "Does everyone do this?" He told me yes.

David Anderson, WIOQ, Philadelphia

Whose bright idea was it to send a box of poison cigars to Castro?? My wife liked the yellow flowers from Epic much bet-

ter. Congrats to Epic for a great buildup on a new artist, Insiders. The CIA could learn a few things from you guys.... Remember this name -- Marc Jordan. I heard his three-song RCA CD Sampler today and it is absolutely fantastic. A great adult AOR record. Listen to "This Independence"!... The real reason Joan Collins and Peter Holm divorced? Joan went bonkers over Alex Miller at Atco. I mean, anyone who can shoot off clever creative bits like Alex did this week is bound to help Joan's career!

Ron Garrett, KRXQ, San Francisco

The quickest way to the heart of any rock and roll rebel is Faster Pussycat. "Don't Change That Song", add it.... Guns N' Roses is intense and could be a new standard for power performance. Sparks fly from this kick ass take no prisoners rocker. These guys are armed and dangerous; don't turn your back on them. Welcome to the jungle baby.... He scored first as a side man for Santana and Journey producing some of their most recognized music of the 60's and 70's. Now it's time for Greg Rolie's importance as a solo artist to be recognized. Don't overlook the "Hands Of Time".... The Insiders' "Ghost On The Beach" has crossover written all over it. It's bursting with mass appeal success. There you have it: two 18-24 killers and two 18-34 total appeal monsters. I'm making room for the gold and platinum. See ya!

Ellen Gerdes, KYYS, Kansas City

We will be missing Mary K., but all of us at KY wish her lots of good times in DC.... Mary K can listen for the echo of "Alex Chilton" on the way out of KC because it's another good song that we added from the Replacements.... Speaking of other good songs, Bowie's "Never Let Me Down" will definitely not leave your listeners disappointed. This is the song to take Bowie to the top -- again.... Chrissie makes a great chanteuse for James Bond.

Ramona Rideout, MJI Broadcasting, 212-245-5010

From Ramona, Abbie, and Patti at MJI to Tom Evans, 98ROCK: Thanks for making us leave during the 7th inning of the Orioles/Royals game right before they rallied to win in the eighth but it was worth it to see your stand-up act at the comedy factory outlet. Keep practicing and we'll feature you on the comedy hour, had a great time.

Richard Crowley, Ryco Productions, 213-654-2792

England is the country, Mood Six is the band. "I Saw The Light" is the album's title and lead cut, it goes straight into heavy at WMDK, KABL, KBLE, KTAO, KTCL, KZRE, WHTG, WGTU, WUOG, WOXY didn't waste any time either. The Tissue says "Could definitely be the sleeper hit of the summer; Mood Six's cover of the early 70's Todd Rundgren hit is tasteful, breezy, hip and stylish check out the album". I couldn't have said it better

myself and there's MTV and VH-1 action, too. It's got multi-demo appeal.... Also check out the David Khane remix of Private Domain's "Absolute Perfection" on the "Back To The Beach" soundtrack. It's a proven KROQ, WLIR monster cut.

Eddie Trunk, Megaforce, 201-254-6533

Frehley's Comet continues to kick ass on the road. The crowd reaction has been incredible, especially for "Rock Soldiers". This song is the new single and video, and the audience response has been so great that "Rock Soldiers" is now being performed as an encore on the current tour. How can you not be playing "Rock Soldiers"? Everywhere it's been played the requests have been amazing. Above all, "Rock Soldiers" delivers a positive message against drugs and drinking and driving. The next leg of the tour kicks off on August 8th in Houston with Y&T and Guns N' Roses. The first leg was a complete sellout! ACE IS BACK AND WE TOLD YOU SO! The "Rock Soldiers" video has just hit MTV and it will be a monster. Why don't you break "Rock Soldiers" before MTV does? Be on the lookout for the new M.O.D. album U.S.A. For M.O.D. It's due out in mid-August on Megaforce/Caroline Records and has a tremendous buzz. This album picks up where the classic S.O.D. album left off (Billy Milano was the lead singer in S.O.D and M.O.D. is his new band).... Testament is on the road touring with Anthrax and Overkill.... They have just released a video for "Over The Wall" from the Legacy Lp that will truly propel this record. When you see it you'll understand!

Christina, WPLR, New Haven

I am offended and wondering whose brains were out to lunch when a classy record company like Geffen, for whom I have the utmost respect, let the Guns N' Roses cover get released. It is an insult to females, and males, and is totally unnecessary. People have to start thinking and start saying no!

Simon Jeffries and Lorraine Rapp, WAQX, Syracuse

Never in all of our years on radio have we been as appalled and disgusted as we were at the extreme bad taste and poor judgment displayed by Geffen Records with the release of the Guns N' Roses album cover. The only reason our position to never play any music from this group does not extend to the entire repertoire of Geffen acts, is the hope that the public will likewise be able to focus their repulsion on this singular incident, rather than the rock genre at large. Rape and murder are horrors of human existence not ornaments to be used in packaging entertainment.

Jessica Harley,

Heathens debut lp "Breaking The Silence" is incredible. Great melodic thrash with lots of originality and power tremendous production and musicianship. The track "Death By Hanging" is

sure to light up your request lines. This brilliant debut is DEFINITELY a top five lp.

Paul Kriegler, KRCK, Omaha

One thing that's a sure shot after a week's vacation is "True Faith" from New Order (which was among the 2 ft. stack of packages). One gem in the pile! When I first heard that they were going to use Steven Haig as producer, I was put off and worried that he would drag them in the same direction as OMD. But no, I was pleasantly surprised to find out that this fits right in with their single success story. Help! I can't get this off my turntable. Send me the Lp quick!... I spent a lot of time listening to Tom Verlaine. "A Town Called Walker" is a great song.... The Mighty Lemon Drops' "Out Of Hand" is just fantastic. Check it out. It has a psychedelic guitar quality.... Echo And The Bunnymen is hot here. We're on four tracks; "Life", "Bedbugs" and "New Direction", of course. At least once an hour we get requests for this record.... "Big Decision" from That Petrol Emotion is a great remix. One of the better one's I've heard this year.... Some of the joys of listening to radio stations while I was on vacation in Colorado. KTCL is great. The signal comes across like gangbusters! They cover 1/2 of Eastern Colorado and reach Nebraska - the music they play is GREAT. This is what radio SHOULD be like. Thanks to John at KTCL for playing New Order for me.

Ivar Hamilton, CFNY, Toronto

Congratulations Don Berns, on your promotion to P.D. Now I can rave about all the records that you hate! Replacements, Replacements, Replacements!.... For those not that knocked out by adding "True Faith" by New Order, get hold of an import and try the B side, "1963". First week out we're three to one ahead on airplay.... While staying with imports, the Pet Shop Boys "It's a Sin" has become an absolute smash in Toronto. The Ian Levine remix is more appropriate for radio and don't believe for 2 seconds the bullshit that it sounds like Cat Stevens "Wild World".... Glad to see that Pierce Turner will finally go domestic in the U.S. on Island. Polygram has just issued Pierce's Lp in Canada.... The fans will be interested to note that there is a great rendition of "Uncertain Smile" from the classic "Soul Mining" Lp.... The great Ontario talent search wrapped up last week with a live showcase of five finalists at the Copa Club. It was great to see all the record reps in attendance and a special thanks to Miller High Life and the Music Shoppe and Music Shoppe Two for lending their support!

Jonathan Rosen, KEYX, Phoenix

The Dead Milkmen are #2 after more than 5 weeks of airplay. Phones are running 95% positive for "Instant Club Hit".... Tonio K's "Sex With You" is getting a majority of women on the phones with 60% negative with angry comments. This song is an irritating reminder of reality. It's a great social commentary on how casual society is about sex. There seem to be two types of negative listeners: One understands what the song is saying but the

subject upsets them. The other group doesn't really understand what the song is about. The only positive side is that the song is musically good with a strong message and it's getting reaction.... Echo And The Bunnymen is #1 on our list this week. Not only are "Direction" and "Game" hot songs, the anticipation for Arizona's first new music fest (with Echo, New Order and Gene Loves Jezebel) is feverishly building with the KEY audience and new music by Echo is helping to build the excitement.... Really hot on requests is Steve Jones and the Replacements, and after many weeks of airplay, "Jesus On The Payroll" by Thrashing Doves seems to draw upper demo phones.... The new Windbreakers Lp on DB Records is excellent.... A hot new import from Zodiac Mindwarp and the Love Reaction "Prime Mover" is catchy and edgy uptempo pop rock.... Judy Tenuta on Elektra is great! Dry humor - an ideal counterpart to Emo Philips.... Great new indies from San Jose, CA are The Endmen with a 4 song Ep on Petroleum By Products.... Slovenly finally puts out a record I can listen to on SST.... And a great second effort from Screaming Trees.... Thanks to Erasure's Vince Clarke and Andy Bell for an hour and a half of the most fun I've had in a while. Their guest DJ stint drew quite a mob to the studio on Tuesday July 21st.... Also thanks to Steve McDonald and Robert Hecker from Redd Kross for one heck of an interview Friday July 24th. Keep an ear for what could be their signature song, "Love Is You".

Duane Sherman, WTOS, Skowhegan

The name is Hynde, Chrissie Hynde. "Where Has Everybody Gone" is a strong record. The blend of the Bond sound with Chrissie's vocals is a perfect match. This track debuts heavy with much attention.... Also going heavy this week is the soundtrack to "Back To The Beach". So much great music and a number of great performers all on one soundtrack!... Check out the following vinyl, Mood Six covering Todd Rundgren "I Saw The Light"; Tom Verlaine "A Town Called Walker" (after the 70's you OWE this man airplay); and the Swimming Pool Q's "El Presidente". All the aforementioned records are worthy of your time and trouble, but most importantly your airplay.... Pick Of The Week: New Order "True Faith". You must remember New Order is no longer an underground cult band. Heavy club play around the world has made this band VERY popular!... Our morning man, J.C. Palmer spent last week in London in the company of Virgin Record President, Richard Branson. J.C. attended the Virgin Atlantic Flyer Victory Party and covered it live for us. We had daily phone ins from J.C. and I'm sure a lot of radio tongues are green with envy.

John Koski, WRVU, Nashville

I'm going home to Jacksonville just to see New Model Army because they're not playing in Nashville! I love the new Live Lp especially "White Coats", and the live version of "51st State" is also great.... All the way home I'll be listening to the "Lonely Is an Eyesore" compilation from 4AD Records. It's worth buying on CD!... The Dead Milkmen are causing elephant phones with

"Instant Club Hit".... Bleached Black are coming to town and we're all very excited about it. Til next week.

Dede "Vanna" Whiteside, MTM, 615-242-1931

Rumor has it that maybe it was Vanna's affinity towards companies with three letter names (it's hard for Vanna to spell out four letter words on her own) but the real truth of the matter is that Pat Sajack just couldn't do without Vanna on the West Coast. The producer says he was spending too much time in the men's room. In case you're wondering what in the heck I'm rambling on about, I'll be moving this week to the town where the drivers shoot at each other and still find time to save the whales, to assume duties with the MCA Radio Network. Scott Borchetta moves up from Associate Director to Head of Rock Promotion. Boy is he gonna hate me in two weeks. What do you mean Scott that you need to sleep at night? Just to let you know what kind of knuckle head is in the helm here now, he left a blow up doll of Pat Sajack in my little red roadster thinking that it would make me stay. The problem is I thought it was real for two whole days and then I realized that the lips didn't move as fast. Sorry Scott, but I just couldn't resist the opportunity to work with the charming, Bob Kardashian and the lovely Roxy Myzal. MCA's net has some excellent shows coming up and we've got some killer ones on the drawing boards. It will be my wild and wacky pleasure to lend my energies to the crew at the East penthouse known by those of in the know as the asylum on the roof. Sincere thanks to all the sweethearts that made my job easier here.

Brian Illes, WKFM, Syracuse

I'm delighted to accept the position of PD here. Most of you have gotten to know me; there won't be any changes in the way I do biz. Please keep in mind music call hours are Thur-Fri 10-N. Please try to stick to them so I can do the other things I have do.... Musically, the Insiders knock me out. It could have been as plain and empty as the backpage add on a recent tipsheet, but Epic delivers the goods.... Also high on The Beat Farmers' "Dark Light". I always did like double negatives like "congressional intelligence", "jumbo shrimp", and "weekend talent".

Steve Avery, WOOJ, Ft. Myers

Jon Astley is still stronger than ever. Wish I had never seen the video, though. Now all I can think of is dancing gorillas. Before I saw the video I thought of artsy-Metro dance crowds -- you know, a different kind of jungle.

Joe Kelly, KRIX, Brownsville

Paul Kelly send the rock 'n' roll message to your listeners that sometimes it does "Hurt".... Bears up to Medium on reaction.... Starting to get requests on Pete Bardens -- popular with females.... Same with Europe's "Carrie".

July 31, 1987

Slats, WHTQ, Orlando

Wed 7/29 T-K became the owner of WHTQ. Great timing. Cause those diaries have spoken. WDIZ had their lowest share since the Spring of '87. 12+: WDIZ 7.9-5.1., WORZ 4.0-2.7 and we debuted with a 3.7. But wait! There's more! 18-34A: WDIZ 10.9, WORZ 4.8, WHTQ 8.6. 25-54A: WDIZ 5.0, WORZ 3.7, WHTQ 4.5. We have reached the prostate of success. The summer should have us at the colon and removing polyps.... Danny Wilson to Heavy. Glad we beat the ACs! This record is happening.

Bill Evans, KTAO, Taos

You guys go ahead and rave about the new Pretenders while I hold the only record that matters. It's on the Enigma CD sampler -- Mojo Nixon and Skid Roper. Much more than a novelty record, it explains Stonehenge, the pyramids, and the Bermuda Triangle (Elvis needs both). If your morning man gets phone calls from Elvis or if your afternoon team got a local Emmy for a Graceland TV special, this is perfect. It stands up to repeated listening, too.... P.S.: Neil Larsen's "Hiphugger" gets the nod for instrumental of the week.

Dave Kane, WCMF, Rochester

I love the new Pretenders tune from the new Bond -- James Bond -- movie. Chrissie's singing has more bite than a pit bull -- and you gotta love the brass. Hell, I'd go see the movie just to hear the song in a big room.... We're going for seconds this week on Richard Marx. I honestly didn't think there was anything on his Lp that could compare to "Don't Mean Nothing" but "I Should Have Known Better".... We're also in for more with Fleetwood Mac and U2.... I'm surprised that there isn't more action on the new from Wetton/Mozzerella. We're seeing good reaction after a relatively short time on the air. Here's a real summer sleeper.... Is this a sign of the times or what. My mom wanted tickets for the Dead! She did!... Speaking of the Dead, we also go with "Hell In A Bucket".... Whitesnake and Dead still own the phones, but Def Leppard is picking up and there is good early action on Europe.

Robin Mutchler, WZYC, Beaufort

is is a list of a few of my faves.... I've been once bitten by the Great White, the record I crank up the loudest. But in your pursuit of happiness, you owe it to yourself to let the Beat Farmers loose on your listeners.... Check out "Jane" from Jon Astley -- you might get serious, too.... Danny Wilson in heavy and I still turn it up every time I hear it. Great phones.

Aegis-class Gary, WWDC, Washington

I was first taken by the name, The Brandos. Are they truly approved by Marlon? I must correct the band -- more than 50,000 died at Gettysburg.... With all the recent news about Billy Joel throwing tantrums in the CCCP, I hope our simulcast comes off this weekending. I understand the show is being tape-delayed to the US Embassy! First they proved they could do a good cover with "Black Dog". Now they've pulled another great one-hit wonder outta the bag. And oh, brother do the New City Rockers do a good job on "Brother Louie".

Larry Snider, KXRX, Seattle

Check out the six minute blues mix on the Silencers "Painted Moon". We've got a lot of confidence in that tune around here.

Jon Scott, Music Awareness, 818-883-7625

Thanks to all the great radio stations involved with our private dinner with Crosby, Stills, and Nash in San Francisco.... Also great reaction to the Music Awareness Pink Floyd Front Row In Hollywood promotion. Call us if you're looking for the best in different and unusual rock and roll promotions.

Jeff Carroll, KLBj, Austin

Get ready for an onslaught of hot new Lps from Polygram. I just heard three super Lps including the new one from John Cougar

Mellencamp. The guy hasn't lost a beat, in fact he's added a few. His forthcoming track will soar to the top.... Talk about loaded albums, it was worth the wait for Def Leppard. This lp is packed with hit after hit. It includes 12 full length super tracks, AOR and CHR are going to have a heyday with this one.... The new one from Rush keeps in touch with their past sound and expands it with a great female vocal. You'll want to save room for these.... We're getting super phone response to Jon Astley and Great White.... Station News: KLBj-FM appoints Don Gilmore as MD.

Greg Morrison, WRQK, Canton

Getting great phones on Def Leppard and Great White.... From The Department Of Changes: After assuming the PD position, I find I need to change my music call times to Friday and Monday 2-4 pm. Until a Music Director is named, I will need to stick to these times for my own sanity. Your help and patience is greatly appreciated.

Jeff Ivan, KFMX, Lubbock

Big thank yous to Ronnie James Dio for taking the time out to give us an excellent interview last week.... Also thanks to Liege Lord and Sacred Child for a couple killer interviews as well.... So glad that the new Guns N'Roses is out. I've about played the live Ep into the ground and this new Lp is excellent. This is going to be a big seller.... The new Anthrax rap tune is killer and it picked up immediate phones.... The debut from Faster Pussycat is quite good as well we continue to have building sales from Dio, Grim Reaper and Nuclear Assault.... Give TSOL, White Lion, Liege Lord and Heathen a good listen if you haven't already as they go over very well.

Renee Blake, WKXL, Concord

The music zone is looking for full-time and part-time announcers with production skills. Please send tape and resume to: Renee Blake, P.O. Box 875, Concord, NH 03301

Mike Gardener, KOAS, Kealakekua

As summer draws to a close in our land of the endless summer, we've got more hot releases among them Stevie Ray Vaughan and Duck Dale, The Pretenders, Glen Burtnick.... Also the Insiders are doing very well as the Lp unfolds.... Minneapolis' own Replacements, Joe Walsh, and "Hearts Of Fire" by Roger Daltrey doing pretty well.... I'm still on the look out for groups and artist who would be interested in coming and playing on the big island.

Catfish, WHMD, Hammond

Thanks a lot to Phil Poulis of Elektra for a great show from The Cure. Top 5 phones, top 15 selling Lp locally and an incredible buzz makes this one of England's best imports this year. Go for The Cure. Thanks, Phil!

Tom Starr, WOUR, Utica

It just wouldn't be summer without a trip to the shore and this Insider's tune is a real beach.... We made certain CHR inherited a crispy critter when it picked up on "Don't Mean Nothing" from Richard Marx. If you want to maintain a current profile on him, try the remix of "Should Have Known Better".... The Lennon-esque undertone of the new Bowie track may be enough to get our attention on a song that is bound to Dapper Dave several places on the dial near you.... Lennon, Marx, and hey, enough of this Communist Manifesto crap, how 'bout dem Hooters. Nice to know we've sunk OUR lasers into a record we'll still be blasting two seasons from now.... Nice little cooker of a tune from Glen Burtnick. Asked who they think it is, listeners would probably get stumped whether it was Jon Bon Adams or Brian Jovi. He's in good company either way.... Congrats to Paul Brown for breaking into Virgin territory.

Fred Leehumis, KGRQ, Casper

I'm shocked at the response we're getting to Great White. Totally upper demos, and most callers think it's Led Zeppelin. And

one guy thought the #2 Most Requested call was Bruce Springsteen.... Also in the top 5: Michael Tomlinson. Don't overlook this one. It's a soft sound but very adult and we're getting very good retail. How about 8,000 thousand units in Seattle last week?... Also top 5 on Richard Marx "Heaven Only Knows" and Suzanne Vega's "Solitude". We were deep on the first album and requests here have been steady, too.

Greg Mull, WRXK, Ft. Myers

If you missed it, it's too bad. If you saw it, you'll never be the same. Tom Petty and the Heartbreakers wrapped up the rock and roll caravan here last night and it was unbelievable. The Del Fuegos have to be the nicest band on the road and their show was just as great. The Georgia Satellites are the hottest rock band I've seen in years and Petty was phenomenal. Special guest Roger McGuinn was an added treat. It's shame that all shows can't be this hot. Thanks to Jeff Cook of Elektra and Ed Nuhfer of WB for all their help with the pre-show barbecue. Bibbs Ribbs are the best, just ask the Fuegos. Also thanks to Michael Steele for the tickets.... Another surprise this week with the Insiders. Usually when there's this much hype the product is lacking, but not this time. By the way, what the hell does yellow have to do with anything.... I want the new Mellancamp now! I can't wait til tomorrow.

Dru Dawson, KBAT, Odessa

It's nice to know that rock and roll never forgets as long as real classic rock and roll bands are still trying. It's nice to see Steppenwolf back in the hunt.

Mike Boyle, WDHA, Dover

We're all so knocked out over the new Glen Burnick song, "Follow You". Glen is a home state favorite around here and it was interesting to watch the progress of how Glen worked on this album. We did keep tabs on it. Glen's very proud of it and we're very proud to be the station that screams the most about Glen Burnick, a rock and roll HERO, not a ZERO.... Early reaction to John Kay & Steppenwolf's "Hold On" is very positive. Find some room for it.... Well, the "tease" is over and Epic has delivered its "yellow secret"; The Insiders. In this case, the hype was well worth it. "Ghost On The Beach" is only the beginning. Demand your advance album or cassette and you'll see what I mean.... Thanks this week to Paul Yeskel and Island's Andy Allen for the shark fishing trip. I'd get sea sick again with you guys anytime - in another lifetime!... Top 5 sales this week: Grateful Dead, Heart, Whitesnake, Roger Waters and Suzanne Vega.

Doug Clifton, KBCO, Boulder

Mason Ruffner and the Fabulous Thunderbirds were special guests at the station this past week. Had the opportunity to see Mason open for CSNY at Red Rocks. What a performance! Mason played the guitar from just about every possible position you could play a guitar. CSNY are back on track with a triumphant return of David Crosby. Thanks to CSNY for spending time with our contest winners after the show.... The Grateful Dead continues to be our hottest record. #1 retail and still stop 5 phones.... The Silencers, Marillion and Cruzados are all records that are developing quite nicely, thank you.... New to KBCO this week: Robert Vaughn, Eleanor, "Summer School" soundtrack and Cock Robin.... Thanks Jeff Patton, Jayne Nozik and Mr. Comedy, Jay Leno.

Keith Taylor, WQMF, Louisville

I, for one, have been wondering what the heck was going on with all those groovy blank yellow sheets, but boy, do those Insiders sound great.... Faves on the home turntable this week also include the new David Bowie single, Beat Farmers, Bears, Zevon and Melvin James.... Since quite a few folks feel that "La Bamba" is such a super summer hit, give a spin to Stevie Ray Vaughan's "Pipeline".... Mucho apologies to MCA's Scott Porter for not being able to hook up with me while I was on vacation.

Next time we'll do it up.... So as the T-Birds say, I'm off to the bank to get the girlfriend some l-o-v-e.

Rick Van Gil, WLNZ, Lansing

Vega. The name strikes fear in my heart. I owned a 1975 brown Chevy Vega, the doors held water like a camel and it had the pick up of a boulder. I hated the car and the name. That's why I want to change Suzanne Vega's name to Rolls Royce. This record is smooth and "Solitude" is picking up right up where "Luka" left off.... I'm so taken by this Insiders tune that I recorded it over and over on my 8 track tape recorder. Even with the thinking of the channel change, this tune sounds great.... Paul Kelly and The Messengers deliver the goods with "Darling".... The new Steppenwolf deserves airplay simply because this band has played before more men than Joan Collins.

Paul Nelson, WWCT, Peoria

Pretenders and James Bond, what a classic combination! "Where Has Everybody Gone" even has that James Bond feel to it.... John Kay and Steppenwolf, "Hold On". If anybody thinks he's a has-been, think again.

Dave Ross, KFMU, Steamboat Springs

Jon Astley moves from light to heavy this week. It's a great tune and instant phone response helped put it there.... The Call is doing great here as well. The album is full of songs that will keep 'em listening. The entire Lp is worth checking out.... Bowie does it again with "Never Let Me Down". The album has worked here so well that we can't let this one slide by.... And the Silencers move into heavy this week. I think they'll go Top 5 soon. The audience response has been great and we're expecting big things out of this group down the road.... That's it for now from the world's only wind powered radio station.

Andy Allen, Island, 212-995-7814

U2's "Where The Streets Have No Name" will be the third single release from "The Joshua Tree", shipping in four weeks. Now is the time to slap "Streets" into power and stay ahead of CHR. Remember, you'll have two more unreleased B sides to work with when "Streets" ships as a single. Tour dates are coming together -- many stadium dates have been added. Be cautious of pre-announcing tour dates as many erroneous dates are floating around.... Robert Vaughn And The Shadows' "Justice" is a great adult, mass appeal, rock track, period. Evidence: KGB, KYYS, WONE, 91X, WIOQ, WOUR, KRNA, KBCO in the first three weeks. Many more are on the fence. Give it a try, use it in your music mix for a week and you won't be disappointed.... Buckwheat Zydeco shipped this week. Zydeco music has been happening in New Orleans, Houston and points in between for decades but until recently the music has been little heard outside of this realm. This is both propulsive and soulful music whose primary purpose is to get people up out of their seats and onto a dance floor. Buckwheat's lead instrumentation is an accordion. "Zydeco Honky Tonk" and "On A Night Like This" are both adds to my party tape.

Howard Glassman, WEQX, Manchester, VT

What needs to be said about Tom Verlaine isn't how good it is to once again have a domestic release but how good it is to be playing him on the air. Tom, you sound bitchin' on WEQX.... It seems the rest of the planet is finding out what our listeners have been telling us for months: The Bears don't shit on vinyl. You want to become a raving lunatic, see them live.... Congratulations are in order to Mark Kates. Good move, Geffen.... Hey, Mr. Ed. we got our 1 share and damned if we don't feel good when we bed down for the evening. Care for some granola with your milktoast?... And remember, Mojo is everywhere.

Charlie Logan, WYNF, Tampa

Glen Burnick. Can't you just see people jammin' to this on the drive home? An uplifting pop masterpiece. Your audience will be drumming the steering wheel and singing the hook almost immediately. "Follow You" is a certified winner.... Richard Marx.

"Should Have Known Better" is an excellent second track to keep this album alive. Sounds wonderful on the air.... Steppenwolf, "Hold On". Following the success of the Dead, Robin Trower and Gregg Allman, John Kay and the boys have also revitalized their career with this effort. Since we play more library cuts of Steppenwolf than the aforementioned artists, this is a natural.... The Insiders, "Ghost". Singing about the surf and beach is a natural for YNF and the Sun Coast. Plus the label brings back the ghost of Epic past. Great drum sound; I'm sold, I'm hooked, it's on.

Mark Brodsky, WKLC, Charleston

If Hege V sounds as unfamiliar to you as they did to us when MTM first sent us "House Of Tears" don't worry. They won't be for long. These bad boys of southern/rockabilly rock and roll reek of J.D. Loudermilk and Screaming Jay Hawkins and, believe it or not, the Allman Brothers. We'd like to thank the band, Hege, Tim, Dave and Rob for putting on a blowout free show for us in Huntington, WV to benefit the Children's Home. After the interview on Sunday and after tracking the first two songs on side one of "House Of Tears", the phones went wild! Take a few minutes to listen to it and you'll get on it like FM105 did.... Many warm congratulations to our Music Director and midday man Duane Doherty on his marriage to Valerie Gears on Saturday, July 25th. Way to go!

David Allen Ross, KMJX, Little Rock

The Gods of Arbitron have spoken. We are #1 adults 18-34, #2 adults 18-49. We're #1 men 18-34, #2 men 25-54, 12# 4.8-9.0 and we beat KKYK for the first time. I guess we're livin' right!

Elise Vanderborght, KNCN, Corpus Christi

I'm gonna take this reporting space to say Adios! This will be my last report (I hope that's just a temporary statement) but after 10 years in the C-City and almost four years at C101, I feel it is time for me to move on. Bob Fazio always said he'd like to see me in a bigger market, so that's what I'm shooting for. I'm pushing my career goals ahead a few years and hope to make the switch to a major market a.s.a.p. Anyone interested, I'll be in Austin at 512-447-1484. My father is a cinematographer and I plan to help him on a project in Colorado in August and hopefully land a job there on the air. If you have an opening and want a fresh, young voice, call me. I've really enjoyed working for C101 and thank you very much to all the wonderful friends I've made in radio and records. Hope to be back soon!

John Foster, KMOD, Tulsa

Thanks very much to Dana Buck of the Westwood Radio Network for the outstanding work done on the backstage promotion with the REO Speedwagon concert in Tulsa. Our winners were ecstatic. Thanks from all those here at KMOD.

Paul Marszalek, WMAD, Madison

Three men, three records added; Lyle Lovett, Pete Bardens, and Jesse Colin Young. The only problem with Lyle is trying to decide which song to add. God-like consultant and part-time nude model Tom Teuber says, "If Jesse Winchester had hung out with Tom Waits instead of moving to Canada, we wouldn't need Lyle Lovett".... I'd like to thank Starvin' Marvin for the Gabriel show. Awesome once more.

Anthony Alfonsi, WDVE, Pittsburgh

I never thought I'd hear a new Steppenwolf record. But, lo and behold, it's here. "Hold On" and some of the other stuff I've heard off the album are pretty good. It's great to have something fresh from these guys.... Speaking of fresh, the Insiders' "Ghost On The Beach" lives up to its mystery yellow promotion. This is one of those records that just grabs you upon the first listen.... I'd like to thank Jack Snyder of Capitol for helping me see Heart last week while I was in NY. It was probably the best Heart show I've ever seen. Their material sounds great live.... Also while in NY, Michael Prince of Atco and David Fleischman of Atlantic played me some of the new Yes album. I can't wait to hear the

rest of it.... Meanwhile over at CBS, Jim DelBalzo and Paul Rapaport played me some of the new Loverboy. It has some real punch to it. So it looks like we'll be having some more good music in the not too distant future.... While in NY, I also got to finally meet the world famous Bill McGathy.... And last but not least, WDVE's listeners came through once again, DVE and the Central Bloodbank of Pittsburgh held a Blood Drive on July 22nd and over 600 people showed up to endure the heat and long lines to give blood. We've always known our listeners are special people.

Justin Phelps, WXRC, Charlotte

With the current interest in Pink Floyd, it seemed like a good time to add the new Pete Bardens track. If you spliced together genes from Pink Floyd and Steve Miller, you'd probably get this song.... What a surprise from Paul Kelly. The cheesy organ is great. A throwback to the late 60's.

Garrett Hart, WAPL, Appleton

Greetings officious mendicants from the land of cheese and too much fun.... We're finally in on The Replacements. "Alex Chilton" not only sounds great on the air but it segues great with Zeppelin and the Doors -- just like a hot AOR track should.... Warren Zevon has been retailing here like crazy and hence the addition this week of "Bad Karma". We feel it's the best track from him yet.... The Beat Farmers' "Dark Light" is rolling in this week as well. We're looking for this one to be big.... New stuff we are into this week include the Insiders, Glen Burtnick and the Cult.... Personal fave of mine is "Gettysburg" by the Brandos. Not only a hot rocker but it's got historical significance, too. You can almost smell the artillery smoke. That's it for this week -- let it rock!

Kelly Cruise, WEGR, Memphis

Def Leppard's "Women" is #1 most requested.... We have finally seen the "Dark Light" on the Beat Farmers; definitely not a one listen record.... Do give a listen to the swamp rock of Omar And The Howlers on "Mississippi Hoodoo Man". It's got the feel of the Fogerty/Creedence "Born In The Bayou".... That Brandos cassingle hasn't left my car tape deck. You watch -- "Gettysburg" is going to be an incredible smash here in da South! Hurry up with the vinyl!... On the subject of the Lynryd Skynyrd tribute tour, please let us know what the tour schedule will be in advance. Our listeners are going crazy.

Lex Staley, WFYV, Jacksonville

"Wild Flower" from the Cult was an obvious choice for us. Since "Electric" hit the Jacksonville airwaves, retail is moving this record out in droves. And why not? How can you beat a lead singer who sounds like Bon Scott meets Billy Idol and a record the competition won't touch?... Jon Butcher is also joining the ranks of heavy retail action as "Wishes" becomes the ROCK105 Screamer Of The Week just in time for Jon's show here at Shooters on Friday night.

Stephen Page, KOME, San Jose

Summertime is here and the epitome of the summertime rock and roll record album is back. It's "Back To The Beach" with Frankie and Annette. There are definitely some rock and roll gems on this one, especially the 1987 version of "Pipeline" featuring the original Dick Dale teaming up with Stevie Ray and the combination is scary.... Of course, I've got to put in a plug one more time for the latest Beat Farmers Lp. It is outrageous and contagious. If you haven't heard it yet, you've got to be locked in a closet and I suggest somebody find the key real soon.

Patty Martin, KSJO, San Jose

KSJO is pleased to announce that we will be working with Burkhart, Abrams, Douglas and Elliot & Associates effective September 1st. We'll be working specifically with Dwight Douglas at that time.... Count KSJO in on the Insiders bandwagon.... Congrats Epic, it worked!... KSJO is out in force at the Santa Clara Country Fair featuring our Best Of The Bay series on the grandstand stage. It features bands that have performed well in KSJO's monthly Best Of The Bay hour. Other than that, I'm moving and I can't think.
