David Lee Roth, "Skyscraper", WB.... Well, it didn't take long for Dave to do it to the Hard Hundred--as the new single takes the top slot in only two (count 'em) weeks!! He tops the Increase Index with 33, while maintaining the lock on #1 Most Requested, too. **KCAL's Kelli Cluque** tells us, "Everything we have ever tested on the man just goes through the roof. He is magic for our station".... **KDXR's Mark Zeiger** reports, "We had requests before we received it. It went right on and we never looked back".... And one listen to the new album should confirm easy #1 status there, too. As noted by **Greg Mull**, "I hear five or six tracks that really stand out, as opposed to three I used on the last album".... Expect heaviest early action on "Bottom Line", "Damn Good", and "Two Fools"....

Black, "Everything's Coming Up Roses", A&M.... WRIF's early add two weeks ago certainly caught our eye--followed up by WLLZ reporting it this week. And while we're not surprised to hear **Oedipus** sing the praises of this 'BCN style record, it's pretty amazing to see the Motor City rush to judgment on anything that vaguely resembles Europop. You know what did it? That scented CD. Who knew that Programmers Podell and Still were nuts for roses! They couldn't resist!! As for the music, Black does a terrific job of bridging the Roxy to Bowie spectrum (narrow as it may be) and Lawd knows it takes serious stones to pull off such a pollyannaesque chorus. But damn, if he doesn't do it, just in time for a wonderfully atmospheric bridge. Don't be surprised to see healthy urban, CHR and even club duty here....

AC/DC, "Heat Seeker", Atlantic.... This record came away from the Lauderdale meetings with a huge buzz, because a) it starts out strong and then gets intense and b) it's the real thing. As **Rad Messick** puts it, "No over-analysis required. You don't have to be a rocket scientist to know that this one's on the mark. These guys have been around for years and are back to doing what they do best--rockin!!".... Or, as **Carter Alan** puts it, "It's a good rocker and like Def Leppard, they know how to saw off some of the sharp, hard edges so it will work for everybody".... And once again **Mr. Mull**, and "Between you and me, it's been on the air for almost a week now and the phones are driving me crazy--with surprisingly wide demos".... They're the band many of your now 25 + listeners grew up with--so pay special attention....

Tonio K, "Without Love", What/A&M.... You've gotta love the ad campaign. When's the last time you saw Bone, Leeds, Tusken, and McKeon testifying about another label's priority? Hey, call these folks and ask them. Anyone who's ever worked with Tonio knows it all boils down to "when" and not "if". And if you track this tune once or twice, you'll know it's Now. Any fan knows Tonio can come up with wonderful, off the wall stuff like "Sex With You" and "Life In The Food Chain"--but what he needs right now is a straight forward hit. That's the haps here, K-people. You'll still hear just enough of his twisted wit to keep it interesting, but this time the song structure is straight out of Indiana....

RECORD OF THE WEEK

Joe Satriani, "Satch Boogie", Relativity.... We called it first with that December 11 Front Page shot--and here's the Breakthrough week: **Joe Skare, KFMQ**, "Instant phones like you wouldn't believe. Undoubtedly our biggest mover of the week".... **Ron Marsh, WKWQ**, "He heads the list of reaction records here".... **Rik Elliot, WRQK**, "It blows people away when they hear it. Testing really well".... **Brent Clanton, KPEZ**, "A monster. Every time we play it the phones melt down".... **Pam Edwards, KGB-FM**, "Throw away any doubts you have about this record. It gets immediate positive reaction from all demos. I can't remember the last time the whole staff has descended on my office to get personal copies".... **Stephen Page, KOME**, "Instant phones and I do mean INSTANT. We're talking Jeff Beck meets Eddie Van Halen and the rest is history".... So, there you go. It's new at #8 Most Requested, just added on 12--with another 72-57* Hard Hundred move. It's a gone gator--so get on board!!....

NEW THIS WEEK

Rick Springfield, "Rock Of Life", RCA.... You know the funny thing about Rick's "image" problem at AOR? He had an absolutely nowhere rap when "Jessie's Girl" blew through the roof. It's not as if he rolled into that giant smash hit with a ton of rock radio credibility. Since that time, his music has been hot and cold, true--but his various entertainment exploits have at least cemented his status as a world class multi-talent. His teaming up with red hot producer Keith Olsson also shows Rick has a talent for right time/right place. "Rock of Life" takes all those pop crunch elements that put Rick on the map in the first place, with Keith the key ingredient in a super effective late 80's overhaul. Listen before you laugh--he could be back in a big way....

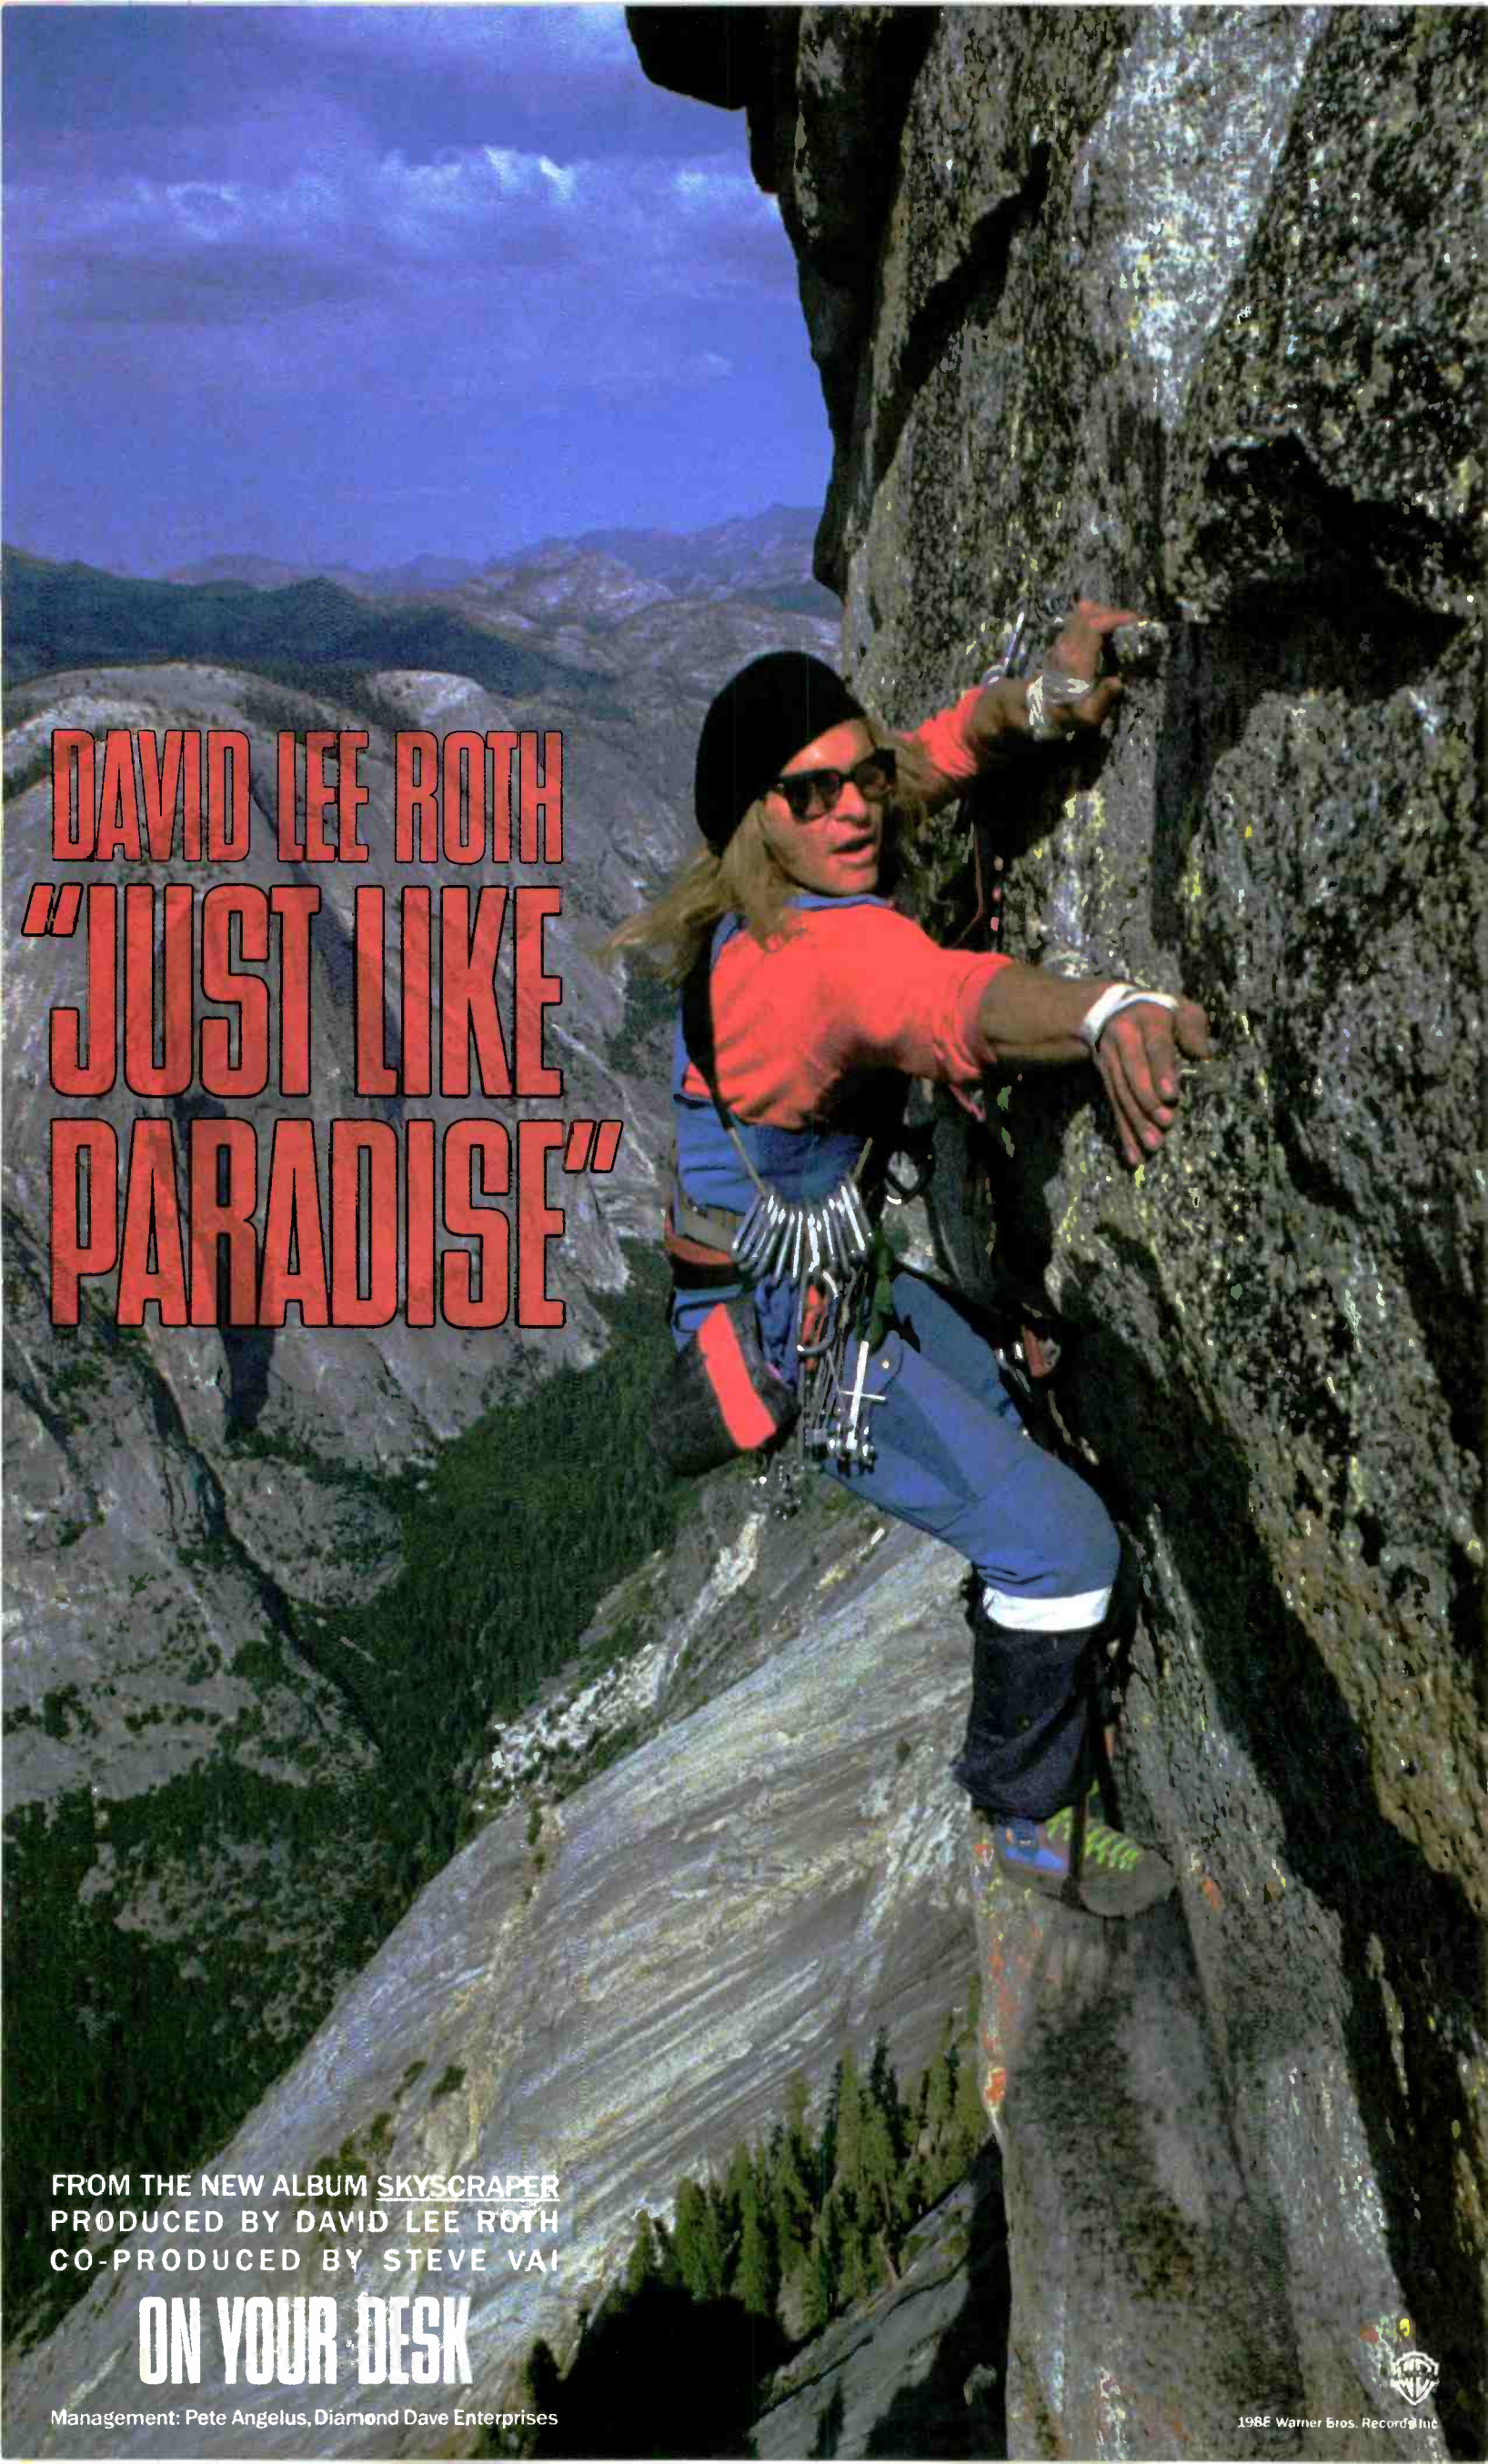

Bourgeois Tagg, "Cry Like A Baby", Island.... Now that B-Tagg have conclusively demonstrated they can cover the Revolver period better than anyone (even Paul or Todd), now it's time to take on Steely Dan. There's great daypart magic lurking here, and tons of adult appeal. They've had a great run already, the audience is comfortable with the band, and continuing the momentum on your side of the dial is the obvious move. Currently on WPLR, WNEW, WDHA, KTYD, KDJK, KVRE, and half a dozen more, just enough to start it off at 100*.

Danny Wilde, "Any Man's Hunger", Geffen.... Can you believe how "Time Runs Wild" just keeps getting better and better? In fact, I'm ready to call it 88's first near classic song. As **WZTA's Jean Cashman** says, "It's a great song. Just one of those tracks you like the first time you hear it".... As great as it looks in just two weeks (39 new/89 on, up 56-36*), please don't think the fun stops there. Just listen to the next two tracks on the record, with special attention to "Ain't I Good Enough". Is he the new Tom Petty? Sure sounds like it to us.

Bryan Ferry, "Kiss and Tell", Reprise.... Now here's an album the format has severely under utilized, all due to the lack of a clear consensus cut. Naturally "The Right Stuff" started with a bang, but it came time to move on, "Kiss and Tell" and "Limbo" more or less split the vote. So, while the album was making really meaty Billboard jumps, stations added neither. You figure it out. Now the course is clear, with the likes of KRQR, WPLR, WNEW, WMAD, WDHA, WBCN, KRXQ, KBCO and WLAV all playing the above, and it's certainly not too late to take advantage of this original's style setting appeal.

Ted Nugent, "She Drives Me Crazy", Atlantic.... Do you ever get tired of nasty-ass rocker types putting out singles that sound like the Son of 101 Strings? You know that the whole time they're laying on the syrup what they really want to do is rip your lungs out through your nostrils, but have to cross to CHR to make those Benz payments? Terrible Ted may have one of those stashed in this deck for later, but for right now his reunion with Producer Tom Werman is more of the blood and guts that made him famous. If you're rocking, roll it at night.

Echo and the Bunnymen, "Bedbugs and Ballyhoo", Sire.... When you single out the New/Alternative acts most likely to cross back to medium to heavy duty mainstream AOR action, Echo has to place easy top 3. They sell big units, their concerts are a riot, and most of all--their music stands up. Hey, hooks and history--the 3 H's, what more could you want? Get familiar with this Ivan Ivan (I know he's hip, Dawn Hood told me) remix. WMMR (no lie) played the original last fall to coincide with the tour and it sounded great. Now the band is going back out on the road you can be guaranteed a ready made response if and when they're in the market, or within three states.

A full-page photograph of David Lee Roth climbing a steep, dark rock face. He is wearing a red long-sleeved shirt, blue pants, a black beanie, and sunglasses. He has a climbing harness with various pieces of gear attached. The background shows a vast, mountainous landscape under a blue sky with some clouds. The text "DAVID LEE ROTH" and "JUST LIKE PARADISE" is overlaid on the left side of the image in a large, red, outlined font.

Mike Oldfield, "Magic Touch", Virgin....

Nothing up Mr. Mike's sleeve, as 76 jump right outta that box. Nice set up there, boys. **WLLZ's Jim Pemberton** was just one of those impressed with "Max Bacon's excellent vocals. They're almost instantly familiar due to his work with GTR and Bronze".... How about this from **WKFM's Brian Illies**, "An outstanding piece of music. There was no question in my mind that this is an automatic and that any station that doesn't play it is giving away ratings".... **DC 101's Curt Gary** calls it "Mike's most accessible song ever. A little tubular bell went off in my head when I first heard it".... **Rad Messick** of **WDIZ**, "'Magic Touch' is my favorite pop Oldfield since 'Family Man'".... Record of the Week nominations flowed in from **WKQQ's Stacy Yelton**, **Jean Cashman** of **WZTA** and **KFMF's Marty Griffin**, who confessed, "I've been waiting since early December for this one".... The track settles in nicely on the Hundred, debuting at #39....

Jerry Harrison: Casual Gods, "Rev It Up", Sire....

Jerry's flavor this time out is equal parts sugar and spice, and we're finding reporters' overall reception to be exceptionally warm. Already on 70 stations, new at 32 this week including **WBCN**, where **Carter** called it "The strongest add of the week. 'Rev' is just the tip of the iceberg of a great album".... **Jim Steel** from **WIOT** agrees, "It was last week's best record; a wonderful rock and roll record with lots of diverse audience appeal".... **KRXQ's Ron Garrett** calls it "An uncontested foot tapping head bopper featuring flash, finesse and feeling".... And **'RXK's Greg Mull** warns, "Play it and be prepared to 'Rev It Up'".... The week's fourth Most Added; 71-49* , and one of the weeks Biggest Movers with the 22 position climb....

Lita Ford, "Kiss Me Deadly", RCA....

Lita lands the biggest left hook of the week with "Deadly" and the majors are leading the way with airplay. Out of the Box on **KLOS**, **KQRS**, **WHCN**, **WLLZ**, **WQFM**, **KLOL** and **DC 101** where **Curt Gary** declared, "Lita's finally put together a great melody with just the right kiss of crunch. It screams hit to me".... **Jim Pemberton**, **WLLZ**, "This one has even more cross over appeal than her last one and I hear the video is just as hot".... **KDJK's Beav Brown**, "Lita is simply amazing!! She can 'Kiss Me Deadly' any time".... "Kiss" comes on the chart at 75* this week with 28 adds....

Icehouse, "Electric Blue", Chrysalis....

The smash status of "Crazy" has got to have you ready for more and "Electric Blue" is as easy a move as they come. New at 21 with phones igniting for "Blue" at **KRXQ**, **KFMH**, **KTYD**, **WRFX**, **KZAM** and **'KQQ** where **Stacy Yelton** admits, "I couldn't have prepared myself for the shock 'Electric Blue' has sent through our phones".... **RFX's Mary London**, "An outstanding first week for Icehouse with quick phone reaction strong enough to move it up in rotation".... Up at 6 with a 12 position move on the Hundred: 46-34*....

The Kinks, "The Road", MCA....

"The Road" is quickly turning into one of the fastest moving reaction records the band has had in years. **Downstairs Dan** at **WQFM** thinks that "Any heritage rocker can't ignore any new song from The Kinks".... And as the total reaches 140 this week, it's obvious that few disagree. Phones are kicking in at quite a few outlets too, as **KZAM's Tom Krumm** reports, "New requests just starting for 'The Road'. I was figuring this one would be a reread of lyrical ground that this band has already covered, but the sound quality is just the beginning of the good stuff on this live album.... While across town **Al Scott** tells us "The Kinks are huge and this track sounds like a classic to me".... New at 15; 28-17*....

George Thorogood, "You Talk Too Much", EMI/Manhattan....

George exploded on the phones this week, as listeners let reporting stations know that what they were hearing of "Too Much" was not enough. Top 5 phones were the name of the game at 30 stations, as George narrowed the gap on David Lee, moving 5-2 on the Most Requested. The situation was similar at the top of the Increase Index, where the two battled it out with upped air at over 30 stations.... On top of all this, the album shipped this week, and programmers were delighted with depth. George rates Record of the Week at **KQRS**, **WQFM**, **WRFX** and others, including **DC 101** where **Curt Gary** remarked, "Thorogood is unquestionably making the largest impact this week with phones and real excitement.... **John Cooper** at **'PYX** calls it "A Barnburner!".... And **KQRS's John Lassman** "A new George Thorogood in this city is more than just a record release, it's an event!".... "Talk" bounds 10-5* on the chart, with interest piqued for "I Really Like Girls", "I'm Ready", "Highway 49", and "Shake Your Money Maker"....

Aerosmith, "Angel", Geffen....

The second Most Added and highest Most Requested debut again go to Steven and company. The pop monster they've been holding back makes it look easy. Adds at 61 punch that count to 103 after just 2 weeks of attention.... The fastest mover for many reporters this week including **Mark Dagwell** at **WTKX**, "Real good phones and sales on the increase as a result of our play on this album. Will be a big hit for us and top 40 as well".... It was **Jim Pemberton's** "Only heavy add this week. They always have been and always will be huge here and 'Angel' continues the tradition".... **WRXK's Greg Mull** calls it an "Across the board certified smash. We've all known it since the Lp came out and now is the time to let this one do its thing".... **John Lassman** at **KQRS**, "This band can do no wrong".... And **WIOT's Jim Steel**, "We're glad to get the green light on 'Angel' at last. This one could be number one fast enough to spin your headphones off your head".... Up at 7, with a 53-31* advance....

BoDeans, "Dreams", Reprise....

The 'Deans high profile of late in **Lauderdale** and on **Robbie's Lp 5610** should tell ya something about the punch behind these guys. "Dreams" doesn't disappoint with 28 jumping out front on the new/improved remix. **WBRU's Alison Stewart** heard a difference, "This should make the track very AOR-able".... **KZAM's Tom Krumm** agrees, "This was a good track before the remix but now it's great".... **Ted Habeck** at **WMRY** reports, "The first track did well enough retail and request wise to merit deeper play".... While **'QFM's Downstairs Dan's** been getting into that "Country twang it's got".... A debut at 61* this week with top rotation at **KLBJ**, **KRQU**, **WAPL** and **WMAD**....

Dokken, "Prisoner", Elektra....

The track nailed down Record of the Week at **WLLZ**, with **Pemberton** declaring "Prisoner" his "Strongest add", and there's no doubt in our minds that was the case in many markets this week, as the cut doubled its base with 24 new (48 total on) and even logged a few early top 5 phones as the core starts to smile and dial.... Up at **KWHL** and **KILO** where the phones are jumpin', the heaviest air happening at **WQFM** and **KNAC**.... 79-56* on the Hundred is strong enough for the week's second Biggest Move....

Richard Marx, "Endless Summer Nights", EMI/Manhattan....

The release of the single has sparked some pretty quick moves on this side of the street, and this week's 22 adds proves the format is far from ready to relinquish Mr. Marx to top 40. **WIMZ's Mike Stewart** loves "Summer Nights". I'd rank it right up there with 'Should Have Known' (still in heavy here) and it definitely rivals 'Have Mercy' in overall song quality".... **WWCT's Paul Nelson** is "Not letting Richard get away after introducing Peoria to his debut album, so in mid January, we're reliving 'Endless Summer Nights'".... Richard bags the #1 Biggest Mover slot with his 38 position jump on the Hundred (93-55*)....

The Rainmakers, "Small Circles", Mercury....

The 'Makers get serious (relatively speaking) this time around and radio's ready to listen. 21 adds with **OTB** air at **KYYS**, **KGON**, **KSHE**, **KKDJ**, **KMBY**, **KMOD**, **WRIF**, **WPLR**, **WIMZ**, **KTYD** and **KDJK**, where the **Beav** was heard to exclaim, "What an album!! It's awesome!! And 'Circles' is our Strongest add of the week. Don't be left out of the dance. Make 'Small Circles' with the Rainmakers".... **'PLR's Christina** calls it her "Favorite from the 'Tornado' album".... While **KATP's Jim Kelly** thinks "It's the best track on the lp".... 27 total on for the 71* debut on the Hundred....

John Brannen, "Desolation Angel", Apache.... John keeps the pace brisk with another jumpin' add week -- 15 this time around with KFMF, KILO, KQDS, KXRX, WAAF, WRIK, CFOX, KQSP, KRXQ, KYYS, WDIZ, WZEW and WONE making room, as the phones respond at WQFM and 'LZR with top 5's. That's rapid request action for a new name ya'll. **KRXQ's Ron Garrett** calls it "The most unique sound of all the newest releases. I like it because it dares to be different without losing touch with good musical sensibilities".... **KWHL's Cyndee Maxwell**, "It's one of those songs that grabs you within the first minute and you know you have to add it".... **KDJK's Beav Brown**, "If you want a song that sounds gritty and tough, 'Angel' is what you're looking for. John has a tune for our times".... 69 total playing as the cut moves 54-48*....

The Godfathers, "Birth, School, Work, Death", Epic.... Ranking at the top of 'BCN's Reaction records list this week is the Godfathers and "Birth, School....", coming through again with 12 adds (WGIR, KISS, KGB, WQMF, WHCN, KROQ) taking the track past the 53 total mark. **Carter** tells us, "It's a smash here, building strongly in requests, and it's this week's Big Mattress song. A new hip, underground artist that rocks so you have half a chance to connect with the kids while getting a shot at the musically active hip audience".... A big staff favorite in many markets, with reaction calls the order of the day.... And be sure to check out the 67* debut....

The James Harman Band, "My Baby's Gone", Rhino.... "Baby" doubles her numbers as the total grows to 22 after KBCO, KDXR, KFMH, KZAP, KZEW, WDHA and WFYV join in this salute to the blues, with the track scoring high on this week's considering list. Take that scorching guitar intro and mix in James' pleading lead, and you've got a sound unavailable anywhere else. Time to take the time with this one....

Insiders, "35,000", Epic.... You know there's something to a hook when your reporters sing the chorus as they report the add. So the story goes for this catchy followup, and sing they did this week with new air at 6 coming in from KJOT, KLAQ, KWHL, WGIR and 'RIF.... The record scored big at 'QFM this week; the Record of the Week there to be precise, as **Downstairs Dan** told us "I'm still buzzing over this record. This is the second week in a row it's kept me interested. This thing just burns rubber at the end".... **Karen Andersen Small**, WGIR, "When the song arrived on a labelless 12", our interest was piqued and our ears hooked. What a neat track".... 94-84*....

The dB's, "Working For Somebody Else", IRS.... A shoe-in for the mornings, and a strong contender for overall play, the dB's have the next "Take this Job and...." in the can. But we don't have to tell you Johnny Paycheck they aren't. New at WLZR, KFMU. WHCN and WHFS. Great custom CD promotion there, Barry....

Marc Jordan, "Catch The Moon", RCA.... If the Cd has yet to fit your player, give yourself a treat and listen to one of the finest sounding production pieces out there. It's Fogelberg meets Parsons and undeniably adult all the way, but Marc's talent is a pleasure to experience and without a doubt one of the tastiest entries of the week. He's rippin' 'em up in San Francisco, where **Sky** and **Logan** are great fans, but his appeal will be soon felt outside of the left coast, and if you're in the market, start shoppin'! New at WLAV....

Prophet, "Sound Of A Breaking Heart", Megaforce/Atlantic.... A young band could hardly ask for a bigger first week with significant action at a multitude of majors, including: WNEW, WEBN, WQMF, WRIF, and KJJO. We're talking serious major market out of the box beef. 13 in all come to the Prophet party, with many considering the track down the road. **WMRY's Ted Habeck** "Added the Prophet for night play. That typical good harder edge fits right into our nights".... A very impressive start....

Midnight Oil, "Beds Are Burning", Columbia.... **CHEZ' Greg Torrington** reports #1 car play after a full month--and if ya skeeve a copy of the advance tape it will take over your life, too. He tells us, "The Midnight Oil is absolutely the record of the week if not the month!".... 11 mainstreams jump on immediately as the 60 seconds to Hook Heaven rule of thumb rings true.... New at WLAV, WNEW, WPLR, KMOD, WHEB, WRIK and numerous New/Alt's including 'HTG's **Mike Marrone**, "I love it! The third listen did it for me, and now the audience loves it too".... Also take note of comments from **Christina**, **Oedipus**, **David Sadof** and more. It's not the easiest audition on the street, but in the end you'll be reduced to rubble....

The Broadcasters, "Down In The Trenches", Enigma.... We're seeing encouraging results in the markets where the Broadcasters are getting consistently solid play, as in Minneapolis where **KQ's John Lassman** tells of sales and phones consistently building these past few weeks. And we've got to believe that this is a band that will perform, given the proper opportunity. New air this week at KFMF, KBAT, WLAV, WRIF, KLBj, KGB and KISS with increases at 5 contributing to the 51-50* advance....

Sinead O'Connor, "Mandinka", Chrysalis.... If you check your retail, you may be surprised by the performance this lady is putting on at the cash registers. **Carter Alan** reports "Building sales", **CFNY's Ivan Hamilton** laments, "Retailers can't keep it in stock", **CHEZ' Greg Torrington** is watching encouraging local sales, **WKWQ's Ron Marsh** has curiosity calls and retail inquiries, and **KATP's Jim Kelly** has "Sales moving at about 30 units a week".... The fans are there and the hook factor available in "Mandinka" is well worth considering.... New at WTPA, KRQU, KBCO and WKWQ, with phones at WMAD, WMJY and 'EQX.... 85-80*....

Gene Loves Jezebel, "Twenty Killer Hurts", Geffen.... The heady guitar lead might not be what you'd expect from GLJ, but a listen and a half should convince you of this band's commitment to the format. Play at WNOR, KJJO, WAAF, 'BCN, WNEW, KLLOL, KTYD, WDHA, WGIR, WZEW and new air at WBLM, KBAT and WNGZ gave "Killer" what it needed for that 92-86* jump this week on the Hundred....

Noiseworks, "Take Me Back", Columbia.... **Dick Sheetz** was so excited about this band he jumped the gun last week, going for the add off the four song sampler Cd. It's still early but we're fielding great comments and strong considering reports with KLOS reportedly looking to drop it in, and watch it test like a mutha car song.... Stay tuned for more....

REM, "Finest Work Song", IRS.... "World"'s single status triggered movement onto "Work Song", and this week's 11 adds pushes the track into full view on the Hundred with the 75-58* jump. New at WNEW, WBLM, KOZZ, KBCO, KSJO, KQWB and WRQK, where Rik Elliot tells us, "The band's been doing well on this project with strong phones. They're a hot item now and it certainly can't hurt to go deeper".... 37 now on with phones at 'DHA and WRCN....

Foreigner, "Heart Turns To Stone", Atlantic.... Depth play is the order of the day for these guys, but you already know that. "Stone"'s still on the build with increases taking over where adds left off with 14 upped rotations keeping the top of the chart in line with the 13-9* move. "Can't Wait" is still stirring things up mid-chart with its 63-59* build. And "Beat Of My Heart" is still getting those rave reviews; this week from WIXV's Richard Smith, "Our listeners scream for more every time we play 'Beat'. It's our record of the week with request lines lighting up constantly for this track. We even blew a speaker in the control room with it. It's just a great rock and roll song"....

The Alarm, "Presence Of Love", IRS.... The big time success the single experienced couldn't help but warm the waters significantly for this followup and not surprisingly "Love" has a big first week out with 20 mainstream adds (KATP, KFMF, KILO, KYYS, WBRU, WCCC, WHCN) powering a dignified chart debut at #72. If it's retail you want, WCCC's Harve Alan's got it with solid sales, as does WMRV's Ted Habeck who reports, "After 'Rain' performed so well as a single, we're going early on this second track".... 'BCN's Carter Alan calls this "A song that'll work well for everybody, including CHR and 'Presence' fits the bill".... Joe Skare, KFMQ, "The Alarm is real smooth and is just too good not to play".... While 'GIR's Karen Small admits, "I'm cheering on the Alarm to make it two in a row with this one. This album just keeps getting better with each listen"....

Joe Cocker, "Two Wrongs", Capitol.... Word is, this one's testin' like a tuna, and we picked up a few increases in response to some of those results. 6 increases combine handsomely with 15 adds and the 31-25* move on the Hundred becomes academic.... 'CCC's Harve Alan had a great run with the lead track, "And decided to give this followup the shot it deserves".... 111 now playing with 22 in heavy or better rotation....

The Radiators, "Doctor Doctor", Epic.... It didn't take long for radio to endear themselves to this cut, and now the audience is coming through with those top 10 phones and sales in overdrive. New at 7 (KISS, WIYY, WHTQ) up at 13 including KGON where Inessa calls those Rad fans "Fishheads, like Deadheads....bugging you on the phone for multiple concert information so that they can catch every show in the area. And when you go to a show, this band with a real casual look and a giant reputation takes the stage and all hell breaks loose".... 122 now on: 29-23*....

White Lion, "Wait", Atlantic.... The long awaited single hits this week and you know those top 40's have been chompin' at the bit to get a piece of this baby's action. New air this week registers at 8 stations with 14 choosing to increase air. Meanwhile, everybody's ravin' come report time.... WIOT's Jim Steel, "The 18-24's love this record and I don't think anything will be stopping this song".... WAAF's Sandy Martiros, "White Lion's got the fast moving phones of the week. Requests have shot up very quickly".... And 'MMR's Erin Riley, "We couldn't deny the White Lion any longer".... The track holds steady on the Most Requested 3-3 with 31 top 5 requests; On the Hundred, "Wait" makes a 33-29* advance....

Squeeze, "853-5937", A&M.... While this band's regional popularity has made them automatic in some markets, they're still landing left of center in a few out there, but we're predicting all that may change with this single as "853" is quickly becoming the most popular telephone number to crack the charts in years. Adds at 8 take the total to 62 this week as the phones begin to simmer in more than a few markets. KZAM's Tom Krumm's had success with the first two tracks from this album, "And I don't see any reason to hesitate on this single, so it's on this week".... 47-43*....

Def Leppard, "Pour Some Sugar on Me", Mercury.... The tour's relentless schedule is keeping excitement at fever pitch in many markets, and the double duty track action on CHR and AOR is doing the job of keeping these guys in you and your listeners' faces no matter where you turn. On the rock end, "Sugar" is the way to go and most reporters are eager to accommodate the track. New at 11 this week, with top 5's at 7, while the single continues to chart high on the Most Requested. There's quite a story on the retail end too, as Rad Messick reports top 5 sales, and KATP's Jim Kelly tells us of continuing strong retail.... 44-38*....

Jethro Tull, "Jump Start", Chrysalis.... When 'KQQ's Stacy Yelton say "Thump", it thumps! Well, at least that what she told us, and what the hey, we're buying! Looks like everyone's getting in on the act on this track as another 10 come aboard as 10 simultaneously increase keeping things jumpin' on the Hundred with a 26-20* gain. 127 now playing with close out status around the corner....

Aerosmith, "Rockin' Pneumonia And The Boogie Woogie Flu", Columbia.... Nobody sings the flu's like Mr. T and this soundtrack cover so far is working up quite a nice lather side by side with the studio album, and we really don't see light at the end of this tunnel of tunnage at all. New at 6 (KRNA, KSJO, KMJX, KBER, WDVE, KEZE) with the phones on a warming trend as top 5's make the grade at 7. It's record of the week at KMJX where David Allen Ross confesses, "It just makes me want to get up and bounce around the control room. It's got so much energy and Aerosmith has come back as strong as ever".... 45-41*....

Steve Winwood, "Talking Back To The Night", WB.... It's funny how the remix is now the only version that comes to mind when this track is mentioned, as if the original somehow didn't count. A real big week in the add column for Steve with 17 stations making room, pushing that total on past the 100 mark. Up at 8, and still on the move on the charts, moving into a position that'll threaten top 20 next week. Phones too are lookin' good with those top 5's coming in at WIMZ, WCKW and WWRX....

INXS, "Devil Inside", Atlantic.... The single landed the #1 slot in Billboard this week, while "Devil"'s building similarly on this side of the format. 28 increases and 9 adds translates into a great week for the track with the 22-12* jump, but it's the phone activity that's really the key with 21 stations reporting top 5's for the 7-5 move on the Most Requested.... WKFM's Brian Illes reports "A healthy jump up to #2 in retail makes this add an easy decision".... And KBER's Trisha Griffith confesses, "This song makes me want to do strange things in the control room"....

Sting, "Be Still My Beating Heart", A&M.... This one just might be the biggie from this album, with CHR action as hot as the activity we're observing on this side of the fence. A huge week stat wise with 27 increases and 15 adds jettisoning "Heart" into the top 10, 16-8* on the chart. Phones have come alive too with top 5's showing up at 9 stations with many more top 10's lurking in the shadows. "Still" came through as one of the most consistent personal favorites of programmers polled and registered high on the Staff Fave list too. Record of the Week? We've got 5 nominations in, including WKFM's Brian Illes who calls it "A truly awesome track that gets me every time it's played".... WBLM's Robin Mathieu reported #1 retail for the album, while WONE's Mike Michelli declared the track to be his Biggest Mover with "Medium to Heavy to Power play in three quick weeks"....

Michael Bolton, "(Sittin' on the) Dock of the Bay", Columbia.... "The Hunger" has certainly turned into the album Michael's been buckin' for as "Dock" takes off top 40, with its sights set on breaking the record "That's What Love is All About" established on the CHR charts a few months back.... 20 increases is where the big moves are with sales and phones taking off just about everywhere. KLOL's David Sadof calls it their "Fastest Mover, with CHR support helping fuel the fire".... WMRV's Ted Habeck reports "Incredible constant phone action is driving the jocks crazy".... Now on 129, top 5's at 10.... 21-14*....

TONIO K

Take a Tip from these pros . . .

Mike Bone, President, Chrysalis

One of the most misunderstood and underrated musicians on the scene today. Genius unrealized.

Jim McKeon, VP Album Promotion, RCA

1988 has us feeling like the tail end on a trip through life in the food chain. But wait, what's that? "Without Love" has to be the finest, most radio worthy music by America's greatest yet to be discovered artist, my friend Tonio K. And if he was on RCA, I'd get even more excited.

Ray Tusken, VP Rock Promotion, Capitol

Having worked his music in the past, Tonio K has always been extremely creative but somewhat eclectic. I'm happy to hear that "Without Love" can take him to the mainstream so that we can now expect a commercial breakthrough for a special and unique talent.

Kyle Hetherington, Promotion Mgr. West, PolyGram

"Without Love" is definitely the song for these times. Tonio K is a very talented artist, and a great songwriter with plenty to say. I love him.

Harvey Leeds, VP Album Promotion, Epic

If I didn't know better I'd say he's from the Asbury Park school. He's been ahead of his time since "Life In The Food Chain" and it's great to see him getting his turn at mainstream. Play it, we're looking forward to selling some catalogue.

Lew Garrett, VP Purchasing, Camelot

This is by far the most commercial release from Tonio K. We expect to have great success with this record.

John Carter, VP A&R, Atlantic

OK? KO!!!

January 22, 1988

Counting up the moves this week we have some mighty momentous stuff going on. From the Florida hotspots to our own backyard, news rolls in about those first tremors known as the Fall Book Boogie. Check into our feature on the Burkhart/Abrams convention as seen from the inside, and don't pass up those photos that Bwana Bill smuggled back. Now the focus shifts to the left coast and the JPC get together where fearless leader will, as always, be asking the Hard questions.

ARISTA ADVANCES COAKLEY

After a long and productive career at Arista **Sean Coakley** has been upped to VP status for Album Promotion. Sean has been slam dunking work projects for the label since '83 and has been a prize dinner date for MDs and PDs all over the country. His almost religious zeal regarding the Grateful Dead project extended to a completely revisionist wardrobe crammed with fringe and beads. The man is a prime reason for the Arista renaissance and his VP stripes merely confirm years of hard work when the fortunes of the label weren't quite as rosy.

ENIGMA GETS JEM

With a move to expand their field staff in the works, Enigma has fired up an acquisition of extreme import to the burgeoning label's future with their announcement of plans to purchase JEM records. All of the JEM labels will continue to operate under the new arrangement but most interesting is the fate of JEM's distribution organization which will provide Enigma's Restless label with a new venue. When we called the coast Enigma President **Wesley Hein** got on his Latin American phone system and told NOISE, "This is a very big move for us but then we are pretty much accustomed to substantial growth at Enigma. This move, however, will essentially double the size of our company overnight so, yes, it's a very big move. **William Shaler** will remain the head of distribution at JEM with **Marty Scott** running the labels as well, so basically the front line management will remain the same. As long as I have been in the music business I have known and respected JEM." Look for Enigma to open a New York office in the spring as part of their continuing expansion.

MORE CORPORATE MOJO

Hightone Records has moved to Oakland where **Bonnie Simmons** will base her National Promotions effort. Check out those Hightone types at 220 4th Fourth St, Suite 101, Oakland CA 94607. The phone number is 415-763-8500.

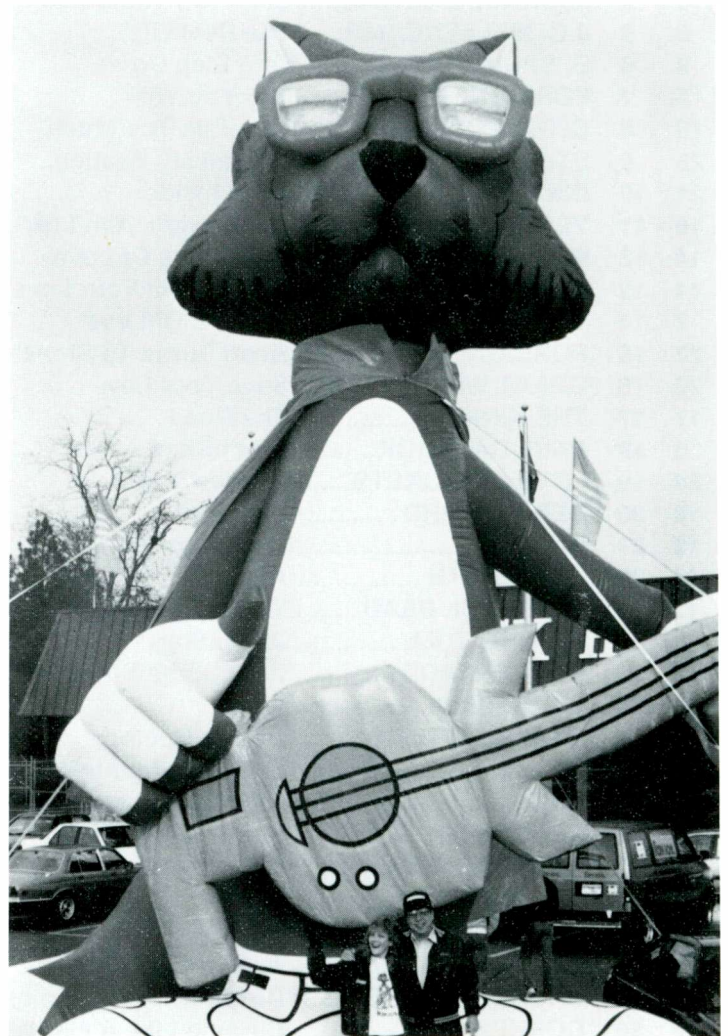

Westwood One has named **Andy Denmark** Director of Programming for the East coast. Andy was formerly head of programming for NBC Radio Entertainment and the Source. He will be headquartered in New York and responsible for program development and overseeing all existing projects.

Summit Communications has finalized their acquisition of DKM Broadcasting. Summit is one of the nation's top cable operators and they intend to maintain DKM's broadcast management team to handle the properties being absorbed by their corporation. Some of those stations include **KAZY/Denver** and **WONE/Akron**.

Slash Records has announced two new A&R pros for the label. Named to the staff are **Matt Wallace** and **Jason Lockett**. Wallace, a former studio owner-operator has risen through the ranks of the company in various capacities. Lockett is named Director of A&R for the label, previously he worked with Bob Medina in the Warner Brothers A&R department.

Mike Corcione has been getting fired up for his road trip with L.A. Guns and wants us to note that his work with the band doesn't extend to management as previously reported in your usually impeccable NOISE. Mike will be working with the boys on the road helping out PolyGram's full court press to make L.A. Guns the next big thing. If anyone can do it, Mike can.

Apache Records has announced the formation of their Promotion Department with **Jennifer Jay** heading up the team after a stint in the Elektra marketing department. The Southrand Southwest gets handled by **Deborah Klinger**, **Stephanie Davis** takes care of the Midwest and **Brian Shapero** completes the squad with the East as his turf.

Talk about air guitar, look at the size of this sucker wielded by **WMFX/Columbia's** mascot "The Big Guy". Pictured with their friendly fox is Kendall and Chuck Dunaway.

THE RADIO RUMBLE

WFNX/Boston has promoted Bruce McDonald to APD. Bruce will tackle some new programming chores while retaining his MD duties for the time being.

WDVE/Pittsburgh is in the market for a morning news person who works well with a crazed breakfast host. A knowledge of news isn't as important as the ability to work within the entertainment context of the show. T&R to Gene Romano at WDVE, 200 Fleet Street, Pittsburgh PA 15220.

KMPC/Los Angeles is live except for all nights and parts of the weekend, when they make use of the Transtar feed to buff out their full service rock approach. The line up features Cynthia Fox and Rick Scarry in the morning, Pat Kelly on middays and J.J. Jackson on for afternoon drive. At night is funnyman Guy Kemp who PD Sam Bellamy calls one of the best talents she has ever worked with. Word from the market has KMPC playing tons of currents and sounding great across the board. And why not? If anybody knows the market, it's Sam.

WHTQ/Orlando has finally made the move we all knew was coming and Howie Castle gets the door as a result. Howie had been struggling with the situation at 'HTQ for months and the crescendo of bad vibe rumors came to a head last Friday with notice that he was being replaced by Neil Mirsky who takes on programming as well as operations at the embattled rocker.

WKFM/Syracuse got chummy with former football great L.C. Greenwood. Midday jock John "Rock and Roll" Schrack stood on a box and posed for this shot with L.C. just before mentioning that he was a distant cousin of Jimmy the Greek's. John is listed in stable condition at this time.

WZZO/Allentown is looking for people to fill part and full time openings on air as of now. T&Rs should be directed to Rick Strauss at WZZO, Suite 205 Westgate Mall, Bethlehem PA 18017. The shop is seriously looking for talent so get it in the mail friends. No calls please.

KNAC/Long Beach is getting ready for a live remote with David Lee Roth wherein David will repel down the face of his billboard on Sunset Blvd. For a neat twist, factor in all those heavies across the street at Spago convening for the JPC dinner and you've got what they call a captive audience.

KWLN/Memphis spent some time with Alice Cooper recently before his concert. Word was that the Coop-man was as crazed as ever and definitely an audience pleaser all the way around.

WMRY/St Louis has announced that Ted Habeck has stepped down from his PD slot to concentrate on his afternoon shift at the station. When NOISE contacted GM Tom Callahan he informed us that they were very close to a decision regarding Ted's replacement. "We got together and felt that Ted could better serve the station and it's growth by continuing to do his best on the air." Look for an announcement about this gig very soon.

WIXV/Savannah is looking for a morning show co-host who likes to live in a warm climate with lots of beach time. Females are highly encouraged to apply. Get your package to WIXV, PO 876, Savannah GA 31498. Include a photo as well.

WNEW/New York gets together with Budweiser and Rush to celebrate the band's recent appearances in the area. The station gave away 102 pairs of tickets and 102 Budweiser guitars to their lucky listeners. Pictured are four grinning guitar heroes, Jody Young of 747 Associates, Pat St John and Neil Barry of WNEW and local PolyGram rep Paddy Rascona.

WDHA/Dover has upped Mike Boyle to Operations Manager with less on-air responsibility and more management assignments. Also at the station Vic Porcelli rejoins the station after a one year hiatus at WMJY/Long Branch and John Markham has been given the full time nod after doing his apprentice work at the station. John will hit the night time-airwaves immediately.

WAQX/Syracuse is getting folks hitched in a major way with their newest promotion, a Valentine's Day wedding and a double honeymoon. The entire bridal party will get tickets to a Sting show and a chance to meet the Stingster after the show. Then it's off to sunny Cancun for a honeymoon filled with all the decadent joys that makes getting married worth while....for the first six weeks anyway.

WZEW/Mobile now has two openings to fill with the departure of Rebecca St John from MD/afternoons. The MD job will probably be reshuffled within the station but they do need two full time airtalents as of now so get that package in the mail right away.

WRCN/Long Island is airing one of those great old "ten snips of songs" promotions with a CD twist that has awarded two deluxe trips to Aspen as a result.

Why does everybody react to Alice Cooper the same way? Pictured with Alice before a recent concert is **WLLZ/Detroit** PD Doug Podell, morning guy Jim Johnson, Alice, morning pal George Baier and promotions director Mike Isabella.

WBMW/Washington had a hot commodity with John Sebastian and his customized version of EOR, a class act all down the line, right? Well the news is out that those old Arizona winters looked too good from the Potomac so John is headed for the formerly progressive KEYX/Phoenix. Sebastian has been long quartered in his Scottsdale digs and now goes out to get his share of that post Wave eclectic pie by forming a consultancy to spread the 'BMW format. WBMW will retain full ties with John, while Bob Brooks takes the PD chair. Bob hails from the Portland market where he worked as PD at both KGON and KRCK. Bob is well known as a stand up pro who gets things done.

KSHE/ST Louis morning man Steve Mitchell is out to make way for Adam Smasher, most recently at DC-101/Washington. Steve's background includes stints at KFI, KIQQ, KYA-FM and a long history of success at WKLS where he spent time programming and being the produced voice of the station. He's as all-round a player as you're ever likely to find. Steve is open to air, program and production gigs at (314) 576 5088.

WONE/Akron has new music hours with Mike Michelli taking calls Monday and Thursday from 2-4pm.

Kriegler/KRCK says "This will probably be one of my favorite album at the end of the year. Those rhythms just nab you!".... WHTG's Mike Marrone says "Forget any preconceptions because this record is great!" If you still need a copy, call Ray Farrell (213-835-8977).

HOUSE OF FREAKS "MONKEY ON A CHAIN GANG" (RHINO) Let's highlight the a most added record: New at KABL, KROQ, WCDB, WMDK, WOXY, WUOG, KRCK, KTAO, WBNY, WFNX, WNCS and WRVU with more on the way for sure. Now at 20 stations and just out, House Of Freaks packs pure rock Americana into one album full of easy track adds like "40 Years", "Bottom Of The Ocean", "Black Cat Bone" and "Cactusland".... WKXL's Renee Blake hears "Some viable rock with melodic turns. What a surprise!".... WCDB's Kevin Byrne notes "This record is getting a lot of positive feedback, especially from the Ep. A good driving album, especially when you ARE driving!" New on the chart with a strong 20* debut this week.

JERRY HARRISON "CASUAL GODS" (SIRE/WB) If you want to see across the board reaction on a perfect radio track for college, AOR and even clubs, then Jerry Harrison's Casual Gods would probably be #1 on all counts at the moment. It's insatiable groove has achieved vast coverage in its short existence, with even the most conservative rockers realizing Harrison's musical clout.... New progressive adds include WNDY, WXXP, KROQ, WBCN, WKXL, CFNY and WVVV for "Rev It Up" with a total of 70 reports for the single overall. Addition album mentions include KTAO, WRAS, KCPR, KJET, KUSF, WCDB, WDET, WOXY, WXRT, WRVU and more.... WXXP's Deb Brady says "Jerry Harrison's Casual Gods should verify his place in the music world".... WRCN's new music fan John Loscalzo says "The only record out there that approaches it for land shark status is Jerry Harrison's 'Rev It Up'".

SISTERS OF MERCY "FLOODLAND" (ELEKTRA) After strained anticipation to hear the finished creation of one Andrew Eldritch, it's a relief and pleasure to say that he has definitely changed with the times but retained that fundamental shadow of darkness that made the band tops in the doom gloom genre during the demise of Bauhaus and the birth of the Sisters. The ominous beat still remains, positioned under a theatric dance beat in "This Corrosion" and "Dominion/Mother Russia" combination. "Lucretia" also wins early praise as another focus track on this much welcomed return that has refueled a move on the chart to 14*.... WXCI's Kandi Wilkins says "This album, I love! It's sweet and eerie, doom and gloom at its best. I was kind of surprised at the addition of female vocals but she has a nice voice that adds a 'spiritual' dimension to the record".... Jamey Karr, KACV says "We were getting #1 phone mentions since 'Corrosion' and reaction to the album has been incredible. We can't play it enough!".... Jetson at WOXY says "It's incredible all the way through. We're 4 cuts deep!"

THE GUN CLUB "MOTHER JUNO" (FUNDAMENTAL)

You'd better believe that Jeffrey Lee Pierce is back with a vengeance and the album, produced by Robyn Guthrie of the Cocteau Twins, is serious stuff for the newly formed Gun Club. Although they said goodbye to one of the best American guitarists (Ward Holmes, now rockin' the Pontiac Brothers), the new combination adds a fresh new attitude to the band. With reckless western spirit they use that aggressive edge wisely to form songs that may take two listens to catch you, but they will none the less! Key cuts are the Cocteau sounding "The Breaking Hands" (which will appear on a special Ep soon) and "Bill Bailey".... WBNY's Adam Langley reports "It's #1 this week! An excellent album, haunting. Response is good and some people can hardly believe they're back together!".... WCDB's Kevin Byrne says "They're one of my favorite bands of all time. I like Jeffrey Lee's vocals and the mix of country, folk and blues styles. My favorite tracks are 'Thunderhead' and 'My Cousin Kim'."

NEW RELEASES

If you thought that Echo And The Bunnymen album had run its course, then you'll be happy to hear great new remix versions of "Bedbugs And Ballyhou" done by Ivan Ivan of Book Of Love fame. It will arrive on a special Ep with the B Side containing 3 surprise cover tunes: Television's "Friction", The Rolling Stones "Paint It Black" and Velvet Underground's "Run, Run, Run". Even better yet, the tour begins on January 27th and sweeps the whole U.S. till April. Steve Tipp has a marvelous schedule for you. He can be contacted through the WB L.A. offices.... The debut Chrysalis album from Crazy House arrives this week. This U.K. band is comprised of David Luckhurst and Peter Parson as the force that started the ball of wax rolling. Produced by Luckhurst and Steve Nye (Japan, XTC fame), their album thrusts forth with dance energy and lyrics of hope and desire. The bold outlook is best heard in "Burning Rain" and "The Whole Creation", but you can find that out for yourself. Look for the the album titled "Still Looking For Heaven On Earth.... Speaking of wax, 1988 is starting off to be a great year for Wax Trax with the release of the Neon Judgement album "Horny As Hell". This Belgian group made a clean sweep last fall with their "Man Ain't A Man..." Ep and now the full length album will certainly pick up where that left off. Their dark techno-dance rhythms are not as thunderous this time, but the special efx will definitely send you spinning. Call Cheryl Payne (312-528-8753) before your local night club beats you to it.... SO is the name of a stunning duet on EMI Records with their first single out this week, called "Are You Sure". It's already on the air at KACV, KATP, WMDK, WOXY, KBLE and WRAS out of the box. Combining the production expertise found in Icehouse with a dynamic edge, the outcome is definitely fined tuned for modern rock stations and CHR alike. So, watch what you play and look to the "Breaking The Silence" CD sampler to break some ground for this band. Contact Jennifer Grossberndt at EMI N.Y. for a copy.... The Astley family has another base covered on the music scene as Virginia Astley releases her "Hope In A Darkened Heart" album on Geffen. Produced by ex-Japan wizard Ryuichi Sakamoto and a guest vocal appearance from David Sylvian you may already have a vague idea of Virginia's style. Serenity, innocence and tender instrumentation surrounds her sweet whispering

vocals. A classical sound with added sound dubs reminiscent of Shelleyan Orphan, this is English charm personified. Listen quietly and you'll agree. It's bubbling under at high speed for a spot on the airplay chart soon.... The album from Drivin'N' Cryin' is out next week on Island Records, a major coup for this band who took off on the 688 Records label based in Atlanta. Now for a double shot. The Frank French Kevn Kinney sessions are now on vinyl. French and Kinney were the founders of D'n'C, and Frank parted in its early stages leaving behind 15 sizzling garage type rock songs found on "Everything Looks Better In The Dark" (Twilight/Fundamental 404-786-2248). Since the new band is about to overtake the college radio community, it's also nice to reflect on its past with a retrospective that rocks out loud. Fundamental has also entered into a manufacturing and marketing deal with Rick Harte's Ace Of Hearts label based on Boston. Best known for bring us The Lyres, and his involvement with the seminal punk band Mission Of Burma, this certainly opens up even more opportunities for both labels. The new Lyres album is due in March to be named "A Promise Is A Promise."

Programmer Pick!

After selling out 700 person venues in Western N.Y. for a solid year, The Great Train Robbery have decided to expand their horizons and set their sights on anyone willing to be taken over by their pure musicianship on their first Lp "Intensified". Formerly known as David Watts and The Great Train Robbery, GTR are well rehearsed with sounds ranging from rock and roll to the uppity beats of ska. In the true alternative fashion, GTR incorporates a fantastic horn section that adds punchy spice to the record. It's always great to see a band be diverse, an obvious change of tempo, rhythm and beat in every song are pluses "Intensified". In short, the members have an amazing talent which comes though all over the album. Key tracks guaranteed to create response are "Little Persuasion" and "Selling Guns To The Indians". Once again, "Intensified" is the name of the Lp and it truly deserves some attention. For a copy, call Ted Volk at (716-875-9246) or drop a line to P.O. Box 217, Buffalo NY, 14217. -Adam Langley

Sinead O'Connor

is currently riding high on reaction to her album debut "The Lion And The Cobra" released late last year on Chrysalis Records. She walks a fine line between art rock and commercial appeal with songs ranging in style from Euro-pop to ethereal poetry readings, songs which have found favor at both mainstream and college radio levels. Anyone in touch with The Hard Report has witnessed the impact of the first single, "Mandinka", already #1 on the Alternative Tracks chart and now crossing to the Hard Hundred with three successive bullets. With such a bright future ahead, most of Sinead's story remains to be seen, but she did take a few minutes out of a London studio to fill us in on her young and successful career which is truly self-inspired.

Dawn Hood: You just finished a brief U.K. tour with Mike Joyce and Andy Rourke of The Smiths? This line up really gained heavy attention - how did it come about?

Sinead O'Connor: We met through our accountant!... The tour actually went really well and we'll be coming to America this Spring.

Dawn: How did you get involved in producing?

Sinead: You need to know what sound you want, and get an engineer who will do it for you!

Dawn: You seem to project a real freedom and power that's rare among female recording artists in pop music. What is the most dominant aspect in your music?

Sinead: I really don't know but I guess it's my personality. My music is just the way I am. I don't set out to try to do something beforehand, I just act out what I'm thinking. This usually happens when I'm in the studio.

Dawn: Your lyrics and song execution are very intense, yet the music is more tender - a nice balance. Where do you draw the line?

Sinead: I just don't like to have big heavy arrangements with a lot of music going on because I don't think my songs wouldn't sound as good with so much intensity going on behind the lyrics.

Dawn: Why did you title the album "The Lion And The Cobra"?

Sinead: It's from Psalms 91. It's the only Psalm that deals with religion the way I see it, which is that religion is the same thing as faith in yourself. If you're honest with yourself and true to yourself all the time even though it might be difficult, everything will be fine.

Dawn: You're remixing "Mandinka" as we speak?

Sinead: Yes, for London clubs only. I don't think it will appear in America.

Dawn: Your video for "Troy" is a beautiful one. Can you explain the song and clip?

Sinead: It was done by a friend of mine, a guy called John Maybury who's a film maker. He's done some Jesus And Mary Chain stuff and some Smiths videos. He also did the video for Boy George "Everything I Own". Large parts were done in the countryside in Ireland, by an old building which is called the Hell Fire Club which we blew up. In the video there's a big explosion on the mountainside behind me. The rest was done in the studio where I was covered with gold makeup, spinning around changing into different people.

Dawn: Is it a love song?

Sinead: It's never really explained.

Dawn: It looks like a big fire ball of emotion!

Sinead: That's what it is.

Dawn: "Lay Your Hands On Me" is another song getting great reaction, probably because of the dance beat.

Sinead: It's the next 12" with a special remix from M.C. Lyte. She's a New York rap artist.

Dawn: I really like the Eastern sounds in "Jerusalem"...

Sinead: I didn't actually write that song. I wrote the verses and lyrics, but not the choruses or the melody! A friend of mine wrote it and I changed it around a bit.

Dawn: Can you fill us in on your past, including your performance with the Edge in the song "Heroine"?

Sinead: That came about because of my association with Bono who I met in Dublin after I got my record deal. I met him briefly, and he asked me if I would be interested in singing for Edge on the project.

Dawn: When did you begin pursuing music?

Sinead: When I was 16 I left school wanting to be a singer. I joined a band in Dublin which was alright except I wasn't doing any of my own songs and the people in the band didn't want me to so I left!

Dawn: How do you like living in England?

Sinead: It has been very good for me because I wasn't happy in Dublin at all. Now I am, I've got lots of friends and I'm out doing a lot more here.

Dawn: Was your career a key reason for the move?

Sinead: Yes, getting the record deal was a major step.

Dawn: What other projects are you working on now?

Sinead: Well I'm basically getting ready to go on tour in March in America. I'll also be writing so I can begin the next album.

Dawn: There have been so many comparisons between you and a host of other artists. What are your thoughts on that?

Sinead: For me, categorization is a big drag and unnecessary because if you say that someone is like somebody else, you take away their talent and you say or imply that they have stolen their style from somebody else, and that they're not their own person. That's not the way things are.

Dawn: Name some mis-comparisons that you've been subjected to.

Sinead: Suzanne Vega has been the biggest one... Kate Bush and Carmel are others.

Dawn: Will you stay a solo artist?

Sinead: Yes, because I'll be able to stay in more in control of the music. I won't have to answer for it.

Dawn: Any last message for our readers?

Sinead: Only that I don't think the past matters as much as the present. Look to the present and future.

HEAVY HITTERS

AC/DC, "Heatseeker", Atlantic....

In a field that is becoming increasingly cluttered with ultra-hardcore and/or ultra-progressive music, it's nice to see people go back to their roots every once in a while. These guys don't have to go back, they are the roots. Since the early seventies, AC/DC has been a driving force in Metal. After just one listen to this new cut, it was obvious to us that this still holds true today. This is Angus Young's best playing in years, and Brian Johnson's voice sounds better than ever. If you're looking for an unpretentious, up-front, rock-your-face-off type of song, look no further. With the initial cut sounding this great, (and I mean this office was rockin' in the wee hours of the morning), the Lp is anxiously awaited.

Leatherwolf, "Cry Out", Island....

It's unanimous, this is one of the best groups to hit the scene in '87, at least as far as we here at the Hard Metal section are concerned. We've been ranting and raving over this album for months and now with the release of this new 12", we're hoping to see a lot more action on the chart for these guys. This week Leatherwolf moves 27-26* on the Hard Hitters and we're taking that as an early indicator of things to come. "Cry Out" is one of those songs that starts out slow, and dare I say "pretty", but then slams you in the face with that mean triple axe attack. Lead singer Michael Oliveri has powerful pipes with great range and a great sense of melody that really drives this song home. The musicianship, the looks, the energy and meaningful lyrics are all there. The message here is well taken, "set yourself free, live your life your own way....soon you will see no one stands in our way." It's the anthem for the youth of the '80s, but then Leatherwolf is the youth of the '80s.

Megadeth, "So Far, So Good...So What!", Capitol....

The long awaited album has finally hit your desks and the response was decidedly in it's favor. It hits THE chart with a impressive debut at #13*, takes the #1 Most Added Metal, and lands the the #6 Most Requested Metal slot. It was literally in the bag for this one, before anyone had even heard it. One of our fave metal reporters, Mike Jones from WGIR had this to say, "Yo, it's here, it's bad, it's huge, it's short, it's loud. New Megadeth, MEGADETH!! Platinum bound big time." The emphasis track is "Hook In The Mouth" but a great number of reporters are claiming great response from tracks like "Liar", "Mary Jane" and "Anarchy In The U.K.". Mustaine and his bad boys can be caught live in the act, opening up for Dio. They really get the audiences going making for quite a show. Lot's of you have jumped on this one: WGIR, WHJY, WHUS, WKNC, WNGZ, WNHU, WOUR, WPYX, WWUH, KSLC, KISS, KNAC and Z-ROCK.

L.A. Guns, "L.A. Guns", PolyGram....

The L.A. metal scene has had it's share of successes with the Motley Crue, Ratt and Poisons of the world. It looks like there could be another star rising from the streets of la la land. This band is a cross between the Crue and the Sex Pistols with a little Polson thrown in for good measure. They have an amazing amount of energy and a sound that storms out of the speakers and assaults your ears. They're already enjoying a growing reputation as official spokesman for sex, booze and wild behavior. Their video was denied airplay on MTV due to the excess of sex and violence in it. A re-shoot is in the works, and they're taking to the road in February. Could be scary. The records a bruiser so take your pick. Some of the

CONTINUED

frontrunners are: "One More Reason", "No Mercy", "Bitch Is Back", and "Hollywood Tease". Z-Rock's Mad Max says, "L.A. Guns is more sleaze from L.A., and the more sleaze the better. They're real rough and should make it really big." Could be.

Barren Cross, "Atomic Arena", Enigma... This is the second release for this hard-rockin' quartet of born-again christians (where have we heard that before?) and before you start moaning and groaning about it, take a listen. You'll find it a pleasant surprise. The songs are heavy, but with a progressive edge. Mike Lee's vocals are reminiscent of Bruce Dickinson in his early days with Iron Maiden, but still retains some degree of originality. On their first record, "Rock For The King", their sound leaned more towards the patented "Stryper" sound, but that's all changed now. Just check out tracks like: "Imaginary Music", "Deadlock" (which is about drug abuse) and the ballad, (oh, stop your whining!) "Heaven Or Nothing". With their unusual mixture of Christianity and straight ahead Heavy Metal this band should be a favorite for both moshers and missionaries alike.

Metal Releases Overview

Shrapnel releases:

Racer X, "Second Heat".... This band featuring guitar virtuoso Paul Gilbert burst onto the scene a short time ago with their "Street Lethal" album. This record sets the standard for up and coming musicians of every age and caliber. Each of the members of this quintet are a lesson in discipline and innovation. Check this out for songs like the title track, "Scarified", "Hammer Away" and the two cover tunes "Moonage Daydream" and "Heart Of A Lion".

Cacophony, "Speed Metal Symphony".... Another in the long line of speed guitar heroes discovered by Mike Varney, this is a gem for instrumental enthusiasts who revel in that classical, almost orchestral new genre of metal. Tunes that are standouts include: "Savage", "Desert Island", "Concerto" and the title masterpiece. The record features Atma Anur on drums and Peter Marino on vocals. They are perfect compliments to the frenzied guitar styles of these two guitar wiz's. Incredible.

Joey Taffola, "Out Of The Sun".... This one could have been titled "With A Little Help From My Friends". It features the likes of Tony MacAlpine on keyboards, Wally Voss (of Yngwie fame) and Paul

Gilbert trading off solos on a couple of the tracks. Joey's style lies somewhere between classical and the new blend of fusion rock. While this fixation so many guitarists have with classical mixes does get tiresome after a few listens, "Out Of The Sun" has enough energy and intensity to keep ya hooked. Prime cuts are: the title track, "Samurai", "Zero Hour" (featuring Paul Gilbert). Guitar players seem to be all the rage, don't pass this one up.

Noise International

Kreator, "Terrible Certainty".... A thrash album that's really beginning to gain some momentum. This week they land a debut on our chart at 34*, also grabbing the #4 Most Added Metal slot. If death metal is your pleasure this is your poison. Killer tracks are: "Blind Faith", "Toxic Trace" and "As The World Burns".

GWR/Profile Records

Girlschool, "Nightmare At Maple Cross".... This marks the first release in three years from one of the best know all-girl metal bands on the scene. This is a more whimsical look at the hard rock scene and life in general, than we're used to getting from metal artists, but it has some edgier moments. Check out "Let's Go Crazy", "Tiger Feet", "Leader Of The Gang" and "Let's Break Out". The girls aren't afraid to flex some metal muscle in the oh so macho metal arena. Early on WKNC, and WGBW.

Hawkwind, "Live Chronicles".... For those in need of some nostalgia, Hawkwind was an early pioneer in Britains metal movement, having influenced future innovators in the electronic age. "Chronicles" is a two record tribute to the band's vast history and recorded library. A must for metal trivia enthusiasts.

Metal Blade Records

Dead End, "Ghost Of Romance".... Japan's latest offering to the American metal scene is this rockin' quartet. They've already got some of our metal reporters listening up, as they've taken the #8 Most Added Metal position this week. If you like Loudness and EZO then these guys are a definite must-play. They've got the glam look and the sound down and it will be interesting to see how they can do up against all the new product invading the airwaves. Spin these: "Danse Macabre", "The Godsend" and "Dead Man's Rock".

*On Your Metal Desk
This week!*

January 22, 1988

Candlemass, "Nightfall".... If gothic metal with deep churning guitars is your passion (and it seems to be as they've taken the #5 Most Added Metal slot this week) than this record will hit the spot. It's not speed metal but it has many of the same qualities in that it is heavy and methodic. This record falls in the same vein as classic Celtic Frost. A definite improvement over their first release "Epicus Domicus Metallicus", it has some really heavy and mysterious tracks that exceed your darkest expectations. Some of the tracks to track are: "Dark Are The Veils Of Death", "Codex Gigas" and "At The Gallows End".

New Renaissance Records

Bloodfeast, "Face Fate".... Formed in 1986, these boys have been steadily building a loyal following in the thrash community. Rough and tough for the harder members of the metal scene. They're already on: WEOS, KSLC, WWUH and KTEC. For the thrash/hard core audiences it's a meal in itself, with lots of meaty riffs to sink their teeth into. It's not for everyone, but if this kind of music is your calling, do take of it.

METAL FILINGS

-The new AC/DC track "Heat Seeker" debuted Friday night on KLOS. This is the same station that added Lita Ford's latest "Kiss Me Deadly". Maybe AOR is taking a better look at some of the stars on the metal horizon.

-New Renaissance has signed Portland based metal group Gargoyle. The label will be releasing an introductory limited edition 12" featuring cuts from the forthcoming album. It's due out in January, but you'll only have to February to get your hands on it, as they will be discontinuing it to coincide with the release of the Lp.

-Girlschool recently came through in a pinch, playing a set at the Zenith in Paris after Black Sabbath backed out of the gig at the last moment. They recieved a standing ovation from the audience who had come to see Sabbath, Motorhead and the Cro-Mags. Lets here it for the girls. Tour info. for Girlschool as well as fellow GWR/Profile recording artists Hawkwind is forthcoming, so stay tuned.

-Metal Blade Records has some new release coming out in the next few months including: Complete Death Comp. II and Nasty Savage's "Abstract Reality" Ep both due out on January 29th and Viking's "Do Or Die" due out on February 12th.

-The Anti-Nowhere League will be on MTV's 120 Minutes program within the next couple of weeks. Keep your eyes peeled for an interesting to say the least, experience.

MUSIC NEWS

Hello once again. From the metal control center, this is Sal "The Earl Of Earache" Treppiedi with this week's metal news. Today, we begin the first of our four part interview with Mike Levine of Triumph. We'll also talk to Eric Barath of I.N.C. and Ronnie "10/10" Younkings of Kix. First, let's get to some news.

Blue Murder, the band that John Sykes, ex-Whitesnake guitarist, recently put together is in the process of solidifying their line-up. The original Blue Murder line-up featured Sykes on guitar, Ray Gillen on vocals, Cozy Powell on drums and Tony Franklin on bass. After several months, both Gillen and Powell left. Now it appears that Carmine Appice of King Cobra and Mark Free formerly of King Cobra, will get the gig. The band is currently signed to Geffen Records. Apparently, the band, at the request of the record label, will wait to make sure that the lineup will remain intact.

Let's get to this week's feature interview. I recently had the opportunity to speak to one of the giants of HR/HM. In a recent phone conversation with Mike Levine of Triumph, we talked at length about the band's latest album, "Surveillance". In part one, I asked Mike about how guitarist Steve Morse got involved in the project.

MIKE: "Rik (Emmet) and Steve had been talking for a while and managed to stay in touch. Now, in May there was a guitar festival here in Toronto. The committee asked Rik to put together the opening night. So Rik figured that he would put together a band with all the hot players in town. He then decided to bring Steve in. So he called and asked him if he wanted to come up and do the thing with him. Steve said sure. While he was here, he came into the studio and did the solos on "Headed For Nowhere" with Rik and did the acoustics on "All The King's Horses". So, Steve being on the record came about because he was here doing the other thing."

I then asked Mike how the two vocalists, drummer Gil Moore and guitarist Rik Emmet go about democratically deciding who will sing what songs.

MIKE: "We try to create a balance from a record point of view and who does a better job on the tune. Usually it's cut and dry. Once in a while there is a song that both want to do and I then get to be the referee. They then each put a scratch vocal on it and I get to make the decision. One of them usually winds up hating my guts. But it's good to have competition because you end up getting a better vocal performance."

In part two of this interview next week, you'll hear what Mike has to say about the live album, "Stages", that the band recorded.

"Never Say Die" was the title of one of the greatest Sabbath songs ever written. It is also the motto of UFO. Word has it that original UFOer's Phil Moog and Pete Way will reform the band with new material and a possible new deal. The band apparently has seven songs that they will release on the Metal Masters label in England. According to my sources, Metal Masters has 12 weeks to find a deal here. If the label does not, UFO will be open for bids. Also, the

January 22, 1988

band is looking to reacquire the services of Paul Raymond. They would also like to add a hot shot guitar player. Drummer Jim Simpson will be the only remaining member from the band's previous record, "Misdemeanor".

Kix is currently preparing to go into the studio to record their fourth album for Atlantic Records. The album is going to be produced by Tom Werman. In the meantime, the band recently completed work on a song for a movie soundtrack. The movie is called "Johnny B. Goode" and stars brat packer Michael Anthony Hall. I recently spoke to Ronnie "10/10" Younkins about the movie and the song which will be featured in the movie.

RONNIE: "We did a song called "No Ring Around The Rosy" that should be on the fourth Lp. The song was written around September. Donnie Purnell, our bass player, was writing songs with a guy named Taylor Rhodes from Nashville, Tennessee. Taylor is a singer/songwriter/guitarist/keyboard player. He's written songs with Joan Jett and Loverboy. We demoed the song and sent a tape to Atlantic for Richard Steinberg, who is our A&R man. Paul Dean of Loverboy got wind of the song and wanted to record it for Loverboy. But being that the song was written by Donnie and Taylor it was for our band. About a month ago, Richard called and said that the song was going to be used on the soundtrack of the movie "Johnny B. Goode". We had recorded the song at Sheffield Studios in Maryland. So, we came to New York and remixed the song and added a few guitar parts and sampled some more drums and doubled the vocals. The song is a little different from most Kix songs. It has an avant garde arrangement to it. Taylor came up to record the song, produce it and mix it down. He did a hell of a job. I just wish that I knew more about the movie."

For those of you in the tri-state area, Kix is scheduled to play L'Amour in Brooklyn on January 30th. If you have never seen this band, you must be nuts.

I.N.C. is another in a string of class metal acts that have emerged from the state of Connecticut. Their debut album is entitled "Razorback" on Giant Records! I recently spoke to lead guitarist Eric Barath about how the band first came together.

ERIC: As a kid, I used to watch MTV. Because of that, myself and Dennis (bassist Dennis Gergely) got together and started making noise. We rented some equipment and just goofed around. We then started playing Zeppelin and stuff. We then decided to get a band together. We played for a couple of years doing covers and then we wanted to get more serious. We then got Gary Duguay, our drummer. We had this singer who was more into commercial stuff. But I started getting into the heavier stuff when I picked up a Venom album and liked it. There was something about it that made me like it. It was probably the aggression. I then started listening to Motorhead and Metallica and began to think that we could do this too. So, we started writing heavier material and, in the process, wound up dumping our high pitched singer. We made Dennis sing because he had the rough voice we were looking for. Then we wanted another guitar player to make the sound thicker. That's when we added Anthony Fabrizi. The lineup had been this way for about two and a half, three years."

I.N.C. are planning to hit the road very soon as a support act. Look for some hellraising mayhem when they come to town.

Ted Williams has gone back to the dugout, into the showers and has left the stadium for good. Unfortunately, or fortunately for some, the Ted Williams we are speaking about is Dream Death's bassist. Dream Death, who currently have an Lp entitled "Journey Into Mystery" on New Renaissance Records, will be seeking a replacement for Williams. Interested parties must be willing to relocate to the band's home turf, Pittsburg. All parties should send a demo, photo and any other pertinent information to: Dream Death; R.D. #1, Box 2200; Leechburg, PA, 15656.

That's all for now folks. Next week we'll bring you part two of my conversation with Mike Levine of Triumph along with an update on Malice courtesy of guitarist Mick Zane. Also, we'll hear what former Malice guitarist Jay Reynolds is up to these days. Until next week, this is Sal "The Earl Of Earache" Treppiedi reminding you that it's not how you play the game, it's which side Mr. Death is on. MUYA!

Music Now! is contributed by Mike Cooper. P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

Twelve fans were injured, three critically, in rioting at the annual **Rock In Rio** festival in Brazil last weekend. The incident happened while the Pretenders were on stage, and lead singer Chrissie Hynde witnessed the fighting as security men tried to clear fans who were obscuring the view of television cameras. Along with UB40 and Simple Minds, the Pretenders have threatened to boycott the event, which this year attracted almost one and a half million people over the festival's four days.

The first-ever **Sex Pistols** convention was held in London last week, exactly ten years after the band's last concert in San Francisco. It was held at the 100 Club in London's Oxford Street, the scene of many Pistols concerts, and featured rare videos of the band, assorted memorabilia, and a personal appearance from the group's original bass player Glen Matlock.

The **Malcolm McLaren** album with Jeff Beck and George Clinton is due out soon.

The **Rolling Stones** now seem close to going out on the road this year, for what may be their farewell tour. It seems Keith Richards and Mick Jagger have patched up their differences, but the band still has announced no tour dates.

Public Image Limited are in the studio to record a single for release in March. The band will be touring the U.S. in March and April, then they'll go back to England to record an album this summer.

"**Strawberry Fields**," an animated film based on the Beatles song, is scheduled for release at the end of this year. It is being produced and directed by Al Brodax, who produced and co-wrote the Beatles' "Yellow Submarine" film.

Feargal Sharkey's second album, "Wish," features Benmont Tench of Tom Petty's Heartbreakers and Keith Richards of the Rolling Stones. "More Love," likely to be the first single from the album, was written by Tench. "Having Keith Richards on the record is something of a bonus," Sharkey says. "When I was introduced to Keith I felt just like a little boy from Ireland surrounded by this great, great musician. I'd never really been into guitar heroes, I couldn't ever fathom why they were raved about until I saw him working that close. It was very, very exciting." Sharkey's new album is produced by Danny Kortchmar, who also played on the LP.

Graham Parker is working on a new studio album with Brinsley Schwarz and Dire Straits drummer Terry Williams. Parker is producing the LP, which is being recorded in the same studio where Parker recorded "Squeezing Out Sparks" in 1979. The as yet untitled album should be out in the spring.

The **Pet Shop Boys** plan to release a surrealistic film next month that features music from both of the band's albums. The band has also written a single for actress Patsy Kensit, called "I'm Not Scared."

Keith Emerson, Carl Palmer and **Robert Berry** have formed a new group called **3**. The band is expected to tour after the release of their debut album.

"**The Cure In Orange**," a live video recorded in Paris, will be released on homevideo February 23 in the U.S.

The first video compilation from the **Pretenders**, "Pretenders: The Singles," is being released next month. Running just under

an hour, the compilation (listing at \$19.98) includes the clips for "Stop Your Sobbing," "Kid" and "Brass In Pocket."

Glenn Tilbrook of Squeeze contributes vocals on one of the tracks on Robyn Hitchcock's album due out next month. R.E.M.'s Peter Buck plays guitar on two of the cuts. The LP is called "Globe Of Frogs."

Vocalist Dave Walker, who was in **Savoy Brown** in the 1970s, has rejoined the band. The group, which also includes founding guitarist Kim Simmonds, has completed a new album called "Make Me Sweat."

Eric Clapton admits he's no "Slowhand" when it comes to driving in England. He pleaded guilty to charges he was driving 111 miles an hour on an expressway in the south of England last September. Clapton was driving a Ferrari near Ashchurch at the time, and was stopped by a police car in nearby Cheltenham. The speed limit along the stretch of road was 70 mph. Clapton was fined \$220 and banned from driving for six weeks.

Pink Floyd plan a number of stadium concerts this summer, after dates in Australia, Japan and the Far East early this year.

Loverboy and **Anne Murray** appear in an hour-and-a-half musical tribute to the 1988 Calgary Winter Olympics which will air next month on Canadian television. "A Gala Evening At Calgary '88" will be hosted by Max Headroom.

The debut album from former April Wine guitarist **Brian Greenway** is scheduled for release next month.

The upcoming album from **Afrika Bambaataa** includes contributions from George Clinton, Bootsy Collins, Sly & Robbie, Yellowman, Nona Hendryx and Boy George.

Former **Madness** members Suggs, Carl, Chris and Lee have recorded an album that will be released in April. But the band has not decided on a name to use, though it is known they will not be calling themselves Madness.

Connie Plank, the veteran German record producer, has died (last month) of cancer. He had been ill for almost a year, but had recently begun working again after an operation and chemotherapy. Plank's studio in Dusseldorf, located in the middle of an oil refinery, was the birthplace of Kraftwerk in the early 1970s. Plank subsequently worked with a number of bands, including Ultrabox, who consider him a major influence. His last project was to produce a live version of the Eurythmics' "There Must Be An Angel" included on a CD single released in England this month. He also had been collaborating on the soundtrack for the Eurythmics' upcoming feature film, "TVP." Plank's widow will continue to operate his German studio.

AC/DC's next album, "Blow Up Your Video," will be out next month. It was again produced by the Vanda & Young team.

The next album from the **Mighty Lemon Drops** will be called "World Without End," and it's due out next month. It was recorded with producer Tim Palmer, who was responsible for the Mission's last album.

Robert Plant's fourth solo album, "Now And Then," will be out this spring. It features Jimmy Page on a couple of tracks, but Page is not expected to go on the road with Plant when he tours this year.

The **Pogues** are touring Australia this month, just before the release of their third album, "If I Should Fall From Grace With God," produced by Steve Lillywhite. The LP will be released on

Island Records in the U.S. The band had a number two single in England over the holidays with "Fairytale Of New York."

Jimi Somerville of the Communards needed stitches for injuries suffered on his head and nose when he was attacked on New Year's Eve by a couple of drunks in London's East End.

"Miracle" is the name of the **Mink DeVille** album that will be released next month. It was produced in London by Dire Straits' Mark Knopfler. "We worked on the album for four or five months," DeVille says. The LP includes a cover version of Van Morrison's "Could You Would You."

Cult figure **Alex Chilton** has recorded a new album called "High Priest." He says it's "a more conceived album" than usual for him. "I think there's some density there, more than a person can maybe see all at once," Chilton says.

The Grateful Dead will begin a spring tour March 24 in Atlanta.

Boston member **Barry Goudreau** and his wife, Claire, are expecting their first child next month. Claire is the sister of the wife of fellow Boston member Brad Delp.

Former Marshall Tucker Band member **Toy Caldwell** has formed a new band with Nashville songwriter **Mark Gray**. The group, the **Caldwell-Gray Band**, has finished recording some demos and is just going out on the road for the first time. Caldwell and Gray hooked up through Paul Hornsby, who produced all of the Marshall Tucker Band albums in the 1970s. "I'm basically a songwriter and guitar player, and I sing a few songs, but I'm not a singer," Caldwell says. "I couldn't branch out and do the kind of things I wanted to do. I needed somebody to sing the songs and help me write them."

The Russian band **Autograf** will play a few dates in the U.S. before performing at the Calgary Olympics. Autograf was the band that performed by satellite at Live Aid. It also appeared in the "Rock & Roll Summit" in Moscow last year where Santana, James Taylor and Bonnie Raitt performed.

A country-rock band called **Razorback** is recording two long-lost songs by Buddy Holly that were written just before he died in a plane crash in 1959. One song is called "Am I Ever Gonna Find It" and the other is untitled. The songs were found in the inside cover a guitar case owned by producer Scott Turner. Turner and Holly's widow, Maria, have decided to let the group record the tunes.

Depeche Mode will begin work on a new album after "collapsing for a couple of months" following their world tour.

A **Janis Joplin Memorial** was dedicated Tuesday in Port Arthur, Texas, on what would have been the singer's 45th birthday. The monument is a bronze statue by Douglas Clark. It's sponsored by the Greater Port Arthur Chamber of Commerce and the Port Arthur Historical Society. The memorial is being housed at the Gates Memorial Library of the Lamar University at Port Arthur. Also on display are Joplin's Bible, two signed high school yearbooks, one of her gold records, jewelry, a 5-foot-tall wooden Christmas decoration she painted at age 10, and some newspaper and magazine articles about the singer.

Joe Ely will do double duty in the Los Angeles area next month. On Friday, February 5, he'll play a solo show at McCabe's Guitar Shop in Santa Monica, then go a mile away to play with his band at the Music Machine. People who go to both shows will get a break on their ticket show. Ely has just released a video for "My Baby Think's She's French." His Los Angeles dates are part of a tour that began January 16.

The Housemartins are calling it quits. A brief statement from the band's management says the band will break up this summer after a "three-year recording project." The statement adds that, "In an age of Rick Astley, Shakin' Stevens and the Pet Shop Boys -- quite simply they weren't good enough."

Because of solo projects they are involved in, there are rumors that the **Beastie Boys** are about to break up. Ad Rock has been in Texas, working on a film starring Donald Sutherland. Mikey D has been playing drums with a band called Big Bad Love. The band do have a new song, "Desperado," on the soundtrack to the Run DMC film "Tougher Than Leather." They are expected to go into the studio in the next couple of months to record a new album, that reportedly will be influenced by Donovan and the Grateful Dead. One track is said to feature a mandolin player.

The Long Ryders have broken up, following the departure of founding member Stephen McCarthy. "We realized we couldn't go on without Stephen," says Sid Griffin. "The band is no more. Greg and I may do something together, I'm not certain, but I am sure I will continue making music." The band's lack of success apparently entered into the decision. "Stephen got very demoralized during events of the last year and he has had it with music for a while," Griffin adds.

Cover versions of Kinks tunes seem to be the rage for a couple of veteran British bands right now. **The Stranglers** are in the British top 20 with their version of "All Day And All Of The Night," and now the **Fall** have released a cover version of the Kinks' "Victoria."

Former **Smiths** member **Morrissey** will be releasing his first solo single next month. An album is expected later in the year.

Kiss' Paul Stanley says he was going to produce Poison's next album, "but the timing didn't work out. But I did write some songs with them in Los Angeles, so we'll see what happens with those."

Queen's Roger Taylor has formed a new band called the Cross. "Queen are still friends but we've reached the point where we can easily exist as a band and do solo projects too," Taylor says. "It's great to be in a working, hungry band again. The cross are very raw and very exciting. None of the band was recruited because of the way they look or because they were wearing the right aftershave. We want to put the bite back into music. I suppose we're a reaction against so many of the clean-sounding, video-oriented bands these days." The band's debut album is called "Shove It." The band includes someone named Peter Noone, but it's not the lead singer for Herman's Hermits. "I could have taken the easy way out and formed some kind of super group from my friends, but that would have been a pretty undemanding move," Taylor says. "I wanted to get my feet back on the ground and work with new talent." Queen will begin work on a new album later this year. "I think it's going to be a very hard and punchy album. The great thing about Queen is that we never know what we're going to do next."

SWA are in studio with guitarist Phil Van Duyne, working on a new double album.

Rick Springfield will appear on NBC-TV's "Today Show" January 27 to kick off promotion of his new "Rock Of Life" album. A video for the title track, directed by Alex Proyas, includes some pyrotechnics by Special Effects Unlimited, which was responsible for special effects in the film "Apocalypse Now."

Jane Siberry's new album, "The Walking," will be released in the U.S. early next month. The LP has been out in Canada for several months, and is already halfway to achieving gold record status.

BRIT-PICKS Albums:

"If I Should Fall From The Grace Of God" by The Pogues

The success of "A Fairy Tale Of New York", which just missed becoming the Christmas number one, has provided The Pogues with a new commercial life. Although they continue to be the only purveyors in rock of indefinable Gaelic beer-swilling music, it's not all like that on this album. "Fiesta" for instance has a real latin feel to it and should really be an excellent choice as a single. Steve Lillywhite has produced a leaner sounding album than "Run Sodomy and The Lash". The sound is less jumbled and frenetic. Alternatives will shoot themselves for not getting behind this one.

UK Music News

As reported briefly in last week's "Hard Report", The Housemartins have unexpectedly split up. The band apparently decided on the break-up just before Christmas. Nevertheless the news, which was leaked to "The New Musical Express" was not supposed to be released until June and took the band by surprise. The band's label GO! Discs told "The Hard Report" that the band had really gone as far as it could, but they wished to emphasize that all four individual members wish to remain with the label and indicated that solo projects are already underway. A statement from the group's headquarters in Hull, Northern England, reads: "The group was originally intended as a three year recording project. That period ends in June 1988. After that The Housemartins will cease to exist as they feel they haven't reached the required standard. In an age of Rick Astley, Shakin' Stevens, and The Pet Shop Boys they quite simply weren't good enough." Aside from this sarcastic statement, no individual members of the group have been available for comment, although they did reveal some unhappiness in the group just two weeks before in an interview for "Record Mirror". In the interview, guitarist Norman Cook, whose interest in scratching and hip-hop has been well known, complained that the band sounded dated and uninteresting.

This certainly was not the point of view of the millions of fans who supported The Housemartins. It was "Happy Hour", the follow up to the undistinguished debut "Flag Day" that put the surprised indie Land to number one three years ago. The euphoria continued for their debut album "London O Hull 4". Particularly remarkable was the loyalty they had built up on the British live circuit, where playing everywhere had certainly paid off. Critics were intrigued by a group who could achieve such success while seemingly breaking most of the rules of commercial pop. The Housemartins were not, by most stretches of the imagination goodlooking, wearing grievously unfashionable clothes and playing guitar and drum music at a time when top ten success was meant to rely on other formulas.

Their remixed "Think For A Minute" went to number three, they scored the 1986 number one with "Caravan Of Love" and won best newcomer at the British Record Industry awards. Following another top ten single "Five Get Overexcited", their second album "The People Who Grinned Themselves To Death" continued to confirm the existence of thousands of fans, particularly from the young turn-out to their British tour.

The Housemartins' dichotomy was, it seems, coming to terms with being a humorous band (particularly evident in their videos) and packing their serious and articulate messages in their superbly structured songs. They were also badly shaken and lost a drummer, from a particularly vicious smear campaign from the tabloid UK press. The rest of the mainstream media either treated them as nutty boys, or in the case of teeny mag "Smash Hits", (in an effort to overlook their lack of pin-up potential,) tried to bill them as nice boys next door. It is saddening to lose such refreshing talent; not least because like The Smiths, The Housemartins were a beacon of hope to bands as an example of how to become commercially successful on an indie label, without changing your spots. Perhaps one cannot, after all do both.

Marillion had to dramatically abandon its British tour after lead singer Fish was struck suddenly by a throat virus. The band had just stepped onstage in the northern English town of Sheffield, when Fish's voice just vanished! A hastily summoned doctor ordered the singer to rest his voice for several days, throwing out the Sheffield and Nottingham leg of the tour. At the time of going to press, the band was expected to resume the tour, and have already rescheduled lost dates for next month.

At the time of going to press, **Holly Johnson**, the former Frankie Goes To Hollywood singer has gone to the High Court here to legally fight it out with his record label ZTT. Johnson is claiming that his contract with ZTT is unenforceable and in restraint of trade. He's also claiming that the contract was always invalid and wishes to sever all ties with the label. ZTT is contesting the case. Johnson has already written his first solo album, but is unable to record it, because of his contractual obligation to ZTT. His dissatisfaction with the label has been known for several years.

14th January was the tenth anniversary of the break-up of the the **Sex Pistols**. Two conventions in Great Britain commemorated the event - one main one at London's 100 Club, and another in Manchester in north-west England. Glen Matlock was the only former member of the band on hand at the London event, although Wally Nightingale, an early founding member, who was kicked out of the band when Malcolm McLaren came on the scene, presented to reporters a fascinating insight into the group's very early days. The 14th marks the group's last ever concert, half way through their American tour in San Francisco. Videos, stalls and memorabilia were also plentiful at the convention. What John Lydon thought of all of this though, is not hard to guess.

Motley Crue officially called off its British tour last week because the members are feeling tired after "an exhaustive non-stop personal appearance schedule in 1987". But the cancellation, only one week before the tour was due to begin, has fueled rumours here that bass player Nikki Six had only just survived a serious drug overdose and that he had been taken to a rehabilitation clinic in the United States. Motley Crue has not announced any plans for rescheduling the tour, intending to take several months rest before starting work on the next studio album.

Motorhead's lead singer Lenny has made himself homeless after an altercation with a deep fryer. Over Christmas, Lenny decided to make himself some french fries, but since even this simple culinary task was too much for him, he overfilled the pan with oil and set fire to his kitchen. His apartment had been provided by his record company GRW who were reportedly not too pleased by the galloping gourmet routine. They have now moved him on to a second penthouse suite.

London's most famous club, **The Marquee** is hotly denying rumours this week that it is closing down. The club announced some time ago that it was closing in March for extensive renovations, but now "The Evening Standard" newspaper of London claims that the building in Wardour Street is being sold. The club's manager denies the story which originates from the club's management company. The Marquee has stood at its current location for 25 years and was a part of the launch of such bands as The Rolling Stones, The Who, Jimi Hendrix, The Police and dozens of other legendary acts.

These are the ten rarest EPs in Britain at the moment: 10) **The Pharoahs**, (worth 75P) 9) "Diddy Wah Diddy" by **Captain Beefheart** (80P) 7) "Something Else" by **The Kinks** (80P) 6) "Jazz In Jeans" by **The Artwoods** (90P) 5) "Arrival Of The Eyes" by **The Eyes** (95P) 4) "An Ideal For Living" by **Joy Division** (95P) 3) "Hits" by **Dave Davies** (100P) 2) "Bo Street Runners" by **The Bo Street Runners** (100P) 1) "I Hear A New World" by **The Blue Men** (110P).

UK Industry News

Sales of CDs for 1987 are estimated to be 250 million worldwide (and 17m in the UK), a huge boom in comparison to the 1986 figures of 140m worldwide (8.5m in the UK) At the end of 1986 world production was around 25m CDs a month while by mid-1987 this had doubled to 50m a month. Prices are substantially falling too. Two offshoots of the CD though, are still an unknown quantity: Compact Disc Video is still an idea grappling with tremendous difficulty, namely that it cannot be standardized

throughout the world. Britain and Europe operate on the PAL television system, while North America is on NTSC. Another idea, the CD single has just been introduced to British shape in an effort to curtail tumbling singles sales. The problem with this relatively simple idea is that as yet record companies will not agree on a standard size. Some favour three inch, while others favour five inch! Such glowing news for CD sales seems odd in light of a survey here where many people could not say what CD stood for. Another continuous problem facing CD in Britain is the growing trend of renting them from shops. For more reading on CD, consult the CD supplement in the 23rd January edition of the British industry magazine "Music Week".

In Brief:

Acclaimed independent band **The Woodentops** release "You Make Me Feel, a new single on Rough Trade ... **CS Records** release "Robert Palmer - The Early Years", in fact the debut album of his stint as vocalist of Alan Bown... "It's not a racial policy, it's a financial one" - **Eddy Grant** on south Africa ... **Gary Numan** and **Bill Sharp** release another joint single "No More Lies" written and produced by Sharp... **The Mighty Lemon Drops** release their next album "World without End" 15th February in the UK... **George Michael** makes his debut solo appearance at London's Earls Court Theatre 10th, 11th June. His video for "Father Figure" has been heavily censored by British pop TV shows, after being deemed "too raunchy"... You would have thought that by harnessing the talents of Lisa Lisa and UFO (who are in turn working on the next James Brown album) that **Sam Fox** might have gone up slightly in the world. Sadly not, as her new single is called "Naughty Girls Need Love Too" - dearie me ... Can it be true that **Adam Ant** is rapidly becoming bald. One gossip column even suggests that Mr. Goody Two Shoes has shaved his head out of embarrassment. I think we should be told... **Dr. Robert** of the **Blow Monkeys** says that he heard from a chauffeur in L.A. who had driven Prince, that he heard the purple one say that his next album will be his most avant garde. Hey! Straight from the horse's mouth or what? ... Or how about **Curiosity Killed The Cat's** Ben's neighbour? Mrs. Somebody or another says "He's up all hours playing those blasted records, many of them his own. They're quite dreadful!" Give that neighbour a critic's award!... **MCA UK** has been completely restructured under new Managing Director Tony Powell from Phonogram, who has used nine former Phonogram staff, according to "Music Week"... **The Fall** album is set for late March release on Beggars Banquet. Their new single is a cover of The Kinks "Victoria" as reviewed last week... New releases of studio sessions for the John Peel radio show here include a 5 track LP from **Syd Barret** featuring a previously unavailable track "Two Of A Kind", 3 tracks from **The Buzzcocks** recorded in 1977, a session from June last year with **The Very Things**, **Danielle Dax** from 1985, and **The Flowerpot Men** from 1986 ... U2 manager **Paul McGuinness** has just received the prestigious Eammon Andrews award in Dublin for his "outstanding contribution to Irish showbusiness." ... Britain's Health Education Authority Chairman, **Sir Brian Bailey** has warned that young people will develop serious hearing problems in middle age because now there are personal stereos in addition to discos and concerts... Readers of "New Musical Express" voted **The Smiths** (or associated beings) for practically everything in the Reader's Poll results. "The Smiths breakup" was superseded in first place by "The nuclear agreement" for the Event Of The Year though.

UK Chart Survey Singles:

Top Five: Down 1 to 5 "**Stutter Rap**" by **Morris Minor** and **The Majors**. Side splittingly funny satire of The Beastie Boys by this British comedy troupe. Recommended Down 1 to 4 "**House Arrest**" by **Krush**. British house music, popular in the danceclubs. Up 10 to 3 "**I Think We're Alone Now**" by **Tiffany**. Up 6 to 2 An excellent and probably overlooked track from the **Terence Trent D'Arby** album, "**Sign Your Name**". At number one for week 2 "**Heaven Is A Place On Earth**" by **Belinda Carlisle**.

Albums:

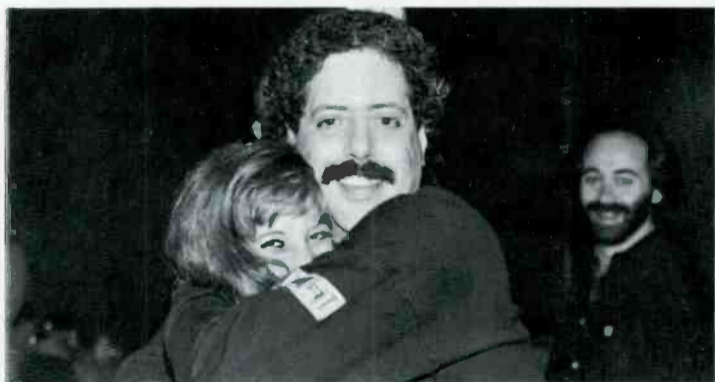

Top Five: 5 "Bad" by **Michael Jackson**. Up 4 to 4 "**The Christians**". Up 1 to 3 "**The Hardline According To Terence Trent D'Arby**". Entering the Top 100 at number 1 and deposing **Wet Wet Wet** to second position - "**Turn Back The Clock**" by **Johnny Hates Jazz**.

Nice Guy Mug Shots

Basically, these are the folks who pretty much stayed on good behavior . . . at least while our roving cameraman was in range. . . .

A&M's J.B. Brenner and Epic's Harvey Leeds.

Lee Abrams and the top half of Judy Libow. Aren't you glad he uses Dial.

Geffen's Marko Babineau and Columbia's Paul Rappaport. A white sports coat and a pink crustacean?

WLVQ PD Buzz Knight, WB's Patti Oates, and the guy who just has to be Buzz's GM, Tom Thon. (no relation to Fred Gwynne)

Greg Torrington, CHEZ, Ottawa

Midnight Oil is absolutely the record of the week if not the month. I've got it nailed into my cassette player in the car and it never comes out. Have you noticed how tough it is to play air-guitar when you're driving a car?... Sinead O'Connor is doing very well on local retail as is INXS but the real story is Ry Cooder which is going through the roof.... The staff is very supportive of the Godfathers, the Screaming Blue Messiahs and the Sisters of Mercy.... It's very pleasant to report that the Radiators are gaining momentum as well. They are a band that we all enjoy very much.... Look forward to the "She's Having A Baby" soundtrack which has a new Love and Rockets tune and Bryan Ferry covering Van Morrison's "Crazy Love".... We have David Lindley coming into town soon and we can't wait for his new album which has been produced by Linda Ronstadt. Should be pretty interesting.

Greg Mull, WRXK, Ft. Meyers

Aerosmith's "Angel" is a board certified smash. We've both known it since the Lp came out and now is the time to put it back in and let it do its thing.... Jerry Harrison isn't too dancey for AOR radio. It's just as, if not more, accessible than any Talking Heads cut. Play it and be prepared to "Rev It Up"!... The new AC/DC and Robert Plant records are hot. The Power Brothers album is called "Blow Up Your Video" and the lead track is called "Heat Seeker". It's got a great tempo and it isn't too heavy for most dayparts. The Plant record is a total departure from the last album and it's in the right direction.... A totally new band sparks a fresh new sound, making me wonder if this classic rocker could find new stardom a la Winwood, Gabriel and Robertson. The only problem is that it ain't out til March.... And finally, if you're wondering about the John Brannen. Get over it and just play the song, it will work!

Jim Steel, WIOT, Toledo

The best record last week was the Jerry Harrison. It's a wonderful rock and roll record with lots of diverse audience appeal.... I'm biting my tongue because Danny Buch guaranteed me top five phones on the White Lion and it is certainly doing everything we expected of it. I'm just glad I didn't make any bets on this one. The 18-24's love this record and, although the 25+ audience isn't as appreciative, I don't think that anything is going to stop this record.... We are glad to get the green light on "Angel" at last, this one could be #1 fast enough to spin your headphones right off your head.... I'm changing music hours to Tuesday 1p -3p and Thursday and Friday 2-5p.

Brian Illes, WKFM, Syracuse

We are just elated to have reached the highest rating ever for WKFM. We got a great book thanks to Dave Brewer, Rob Lipshutz and Craig Martin at JPC. Thanks to a great TV spot from Robert Michelson. Thanks to all those long hours from a great staff and great management team. With this book the competition's eight year lead is wiped out. Probably the most amazing thing is we did this while seriously understaffed. My staff refers to me as the Mugrammtioneer which stands for Music, Programming, Promotion and Engineering. I've done a lot of each since last June. Nobody in Syracuse likes a tie and I'm sure that neither AOR will settle for one either.

Anthony Alfonsi, WDVE, Pittsburgh

Looks like a double shot for Aerosmith this week. Not only do we have "Angel", which I think is an unbelievable song, but we also got "Rockin' Pneumonia" from the "Less Than Zero" soundtrack.... Love and Rockets' "No New Tale" is very refreshing plus it doesn't hurt to have some tinges of Tull in it.... Steve Winwood's "Talking Back To The Night" is another one of those wait five years to be a hit.... Special thanks to Bobbi Silver of PolyGram for her help with KISS and Def Leppard on back to back nights and thanks to Mark Fritzges of Atlantic for his help with Ted Nugent and Rob Ellis of Geffen for his help with Tesla.

Babe Shots R Us

As you might have heard, scenery was the word—chanted to the rhythm of "Don't Smoke Dope, Fry Your Hair!!"

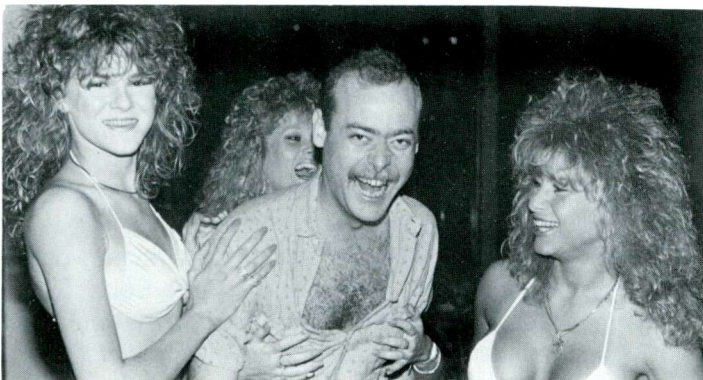

How's this for a great shot of the graduating class of the Donna Rice Charm School. Who knows, maybe it's that Miami water or something.

Women go crazy for a sharp dressed man, especially those Texas boys with long (Red) beards. This is a Heimlich Maneuver if we ever saw one. Or is it the Cobra Clutch?

We don't know what it is about Jeff Cook's jacket, but we'd sure love a bathrobe made out of it.

Mindreader Miss Tasha illustrates graphically to WRXK's Greg Mull exactly what he's thinking about friend Felicia at this given moment.

Sandy Martiros, WAAF, Worcester

Big phones for Tesla. This band is getting lots of great response.... Fastest moving phones have to go to White Lion which has shot up very quickly.... The staff is real high on this George Thorogood record and we have added two new tracks, "I'm Ready" and "I Really Like Girls" this week as a result.

Ron Garrett, KRXQ, Sacramento

John Brannen's "Desolation Angel" is the most unique sound of all the newest releases. I like it because it dares to be different without losing touch with good musical sensibilities. But most important, it's accessible to a radio audience.... Jerry Harrison's "Rev It Up" is an uncontested, foot tapping, head bopper featuring flash, finesse and feeling. Even if your MD is deaf, have him eyeball this one right up the charts or send him to Brazil to dig for gold.... Danny Wilde's "Time Runs Wild" is the one song that should bring it home for this artist whose last two outings prove he's for real and paves the way for this mass appeal AOR rocker.... We need CD's on everything. Give me CD's or give me death.

Patty Martin, KSJO, San Jose

George Thorogood is my favorite release of the week. There isn't a tune on it that we wouldn't want to play. For starters my fave is "I Really Like Girls." I also like "I'm Ready" which I seem to recall George has been doing live for a long time now. Is it on another record, too? My other fave is the Elmore James classic "Shake Your Money Maker".

Pam Edwards, KGB, San Diego

I'm absolutely elated to see how well the White Lion record has done. Congratulations to Atlantic Records for picking this album out of the dust and turning it into gold!... I've gotta thank John Schoenberger at Relativity for turning me on to the Joe Satriani record and inviting me to the NAM convention to see Joe play. With a comic book album cover and a name like Joe Satriani, I figured the guy better be good, but he was phenomenal! I've never seen a crowd of musicians so enthralled while watching one of their peers. Throw away any doubts you may have about this record. It gets immediate positive reaction from all demos. I can't remember the last time the whole staff has descended upon my office to get personal copies of a record, especially an instrumental one. This record defies categorization and format boundaries. Play it often!

Rad Messick, WDIZ, Orlando

Strongest add: A real toss up between George Thorogood and Aerosmith, both of which I think are going to be really big records. Thorogood is already getting top 5 calls.... Aerosmith is not far behind. "Angel" has been my pick for the single from the beginning.... For the cosmic side of Yes we went for "Final Eyes", even though no one's working it.... Def Leppard continues to be strong with "Hysteria", still a top 5 seller, so we put on "Pour Some Sugar On Me".... Mike Oldfield's "Magic Touch" is my favorite pop oldie since "Family Man". Sounds great daytime or night time.... Congrats to Burt Stein for a real solid first release with John Brannen. "Desolation Angel" feels real good to me.... Five current faves: Sting, Mike Oldfield, Yes, Radiators.... Almost added: Godfathers and Danny Wilde.... Fastest Mover: INXS "Devil Inside".

Inessa York, KGON, Portland

The Radiators story is a real interesting one. First, you get this record; that is, sure, a really fun one, in fact it's very inviting on more than one song. Then you keep getting these weird fish in the mail. And those noodles. Then you keep getting threatened with this weird reputation they have -- like Deadheads (only these are Fishheads) fans calling on the phones asking "Where else are there gonna be shows besides here" 'cause they want to catch them all) and then you meet the band. Guys that could stand in for your brother. No mouse, no tight black jeans, and a plaid shirt. And then this band with this really casual look and this giant reputation takes the stage and frankly all hell breaks loose. And thus "Doctor Doctor" moves to heavy this week... Almost added: Jerry Harrison, I really like that Insiders "Three Five

More Babes? You Bet!

Who caught who? No, this isn't stop action from the MJJ softball game, but WIYY's Tom Evans gets our golden glove award, no problem.

And speaking of research, BADE's Greg Gillispie A&R's the quality of the printing on this attendee's swim suit button. Greg reports the button had but one word on it, "Right". There's got to be a callout joke here somewhere.

Comma Oh, Oh, Oh" track, and I think Willy DeVille could work nicely as a mood piece.... New reaction: George Thorogood, always good for us.... Obviously, Radiators are top 5 this week, and INXS is also a smash with "Devil Inside".

John Lassman, KQRS, Minneapolis

Record of the week: Thorogood because Minnesota loves George and vice versa. And a new George Thorogood in this city is more than just a record release, it's an event. Already top 5 phones and we're on a second track, "I Really Like Girls". Somewhat novelty, but undeniable.... Other adds: Aerosmith's "Angel" (a band that can do no wrong at this time), Guns 'N' Roses "Mr. Brownstone", our third Guns 'N' Roses track. Three deep on an album that's selling like crazy.... Danny Wilde "Time Runs Wild". Looks like the industry's new fave.... Lita Ford who just came up with the song that both Katrina and Joan wanted.... And Triumph's "Never Say Never" is much better than the track initially released.... Five current faves: Godfathers (which is gonna go next week), Lita Ford, Thorogood "Girls", Guns 'N' Roses "Paradise", and INXS "Devil Inside".... Almost added: Joe Satriani and the Godfathers.

Jane Fredericksen, KTCZ, Minneapolis

He's back and this time you can't ignore him! I'm talking Lyle Lovett and I'm afraid to say too many nice things about him, because the next thing you know, everyone will be playing him, he'll be on the cover of People magazine and then it's just a matter of time before "Hollywood Squares" and God knows what else! He'll be celebrated throughout Tinseltown for his droll sense of humor and collaborate with Garrison Keillor on a screenplay, wars will be fought over publication rights, plutoniums with radio messages from space saying "Lyle Lovett". Hell, I don't even wanna think about it! I'd rather keep him a precious secret, but I guess I blew it already. Run with what works.... With that in mind, we've added two more Grapes Of Wrath cuts.... We're also eagerly awaiting albums from Clanad, James Taylor, Joni Mitchell, Don Henley and Deacon Blue, whose cut on an advance cassette sounded absolutely wonderful!

Duane Doherty, WKLC, Charleston

My favorite add this week goes to Great White "Save Your Love".... Lita Ford is an interesting one, also.... I'm happy to say that 96% of our playlist is on CD, but discs we're looking for are The Radiators, Hooters, Whitesnake, Northern Pikes and White Lion.

Jetson, WOXY, Oxford

Fresh back from a week on Hollywood where the band I manage (The Red Belly Boys) placed second in the Seagrams' Talent Search. I want to thank everyone who came out to see them perform. I hope you enjoyed it! Hopefully, a record deal is not too far away.... On to new music now! The Sisters Of Mercy Lp is incredible all the way through. We're 4 cuts deep.... Also, I'm crazy about "Are You Sure" from the band So. Check it out!... Also real hot this week: World At A Glance and House Of Freaks.

Deb Brady, WXXP, Pittsburgh

Has Robyn Hitchcock got a hit with "Balloon Man" or what?! Instant phones!... Midnight Oil enters 1988 with a song that captures the power and passion of their sound. "Beds Are Burning" is an easy add.... Jerry Harrison's Casual Gods should verify his place in the music world. His self-produced Lp is rock solid first cut to last - "Rev It Up"!... Screamer Of The Week: Voice Of Beehive, "I Say Nothing".

Mike Marrone, WHYG, Asbury Park

It's about time 54.40 made top 5 requests. We added "One Day" about two months ago because I thought it was the most accessible track on the Lp. For about three weeks, there was no action, but I liked it so much I stuck with it. It took a while to sink in, but now it's in power!... You wanna talk about a reaction record - I played "Black Cat Bone" from House Of Freaks and ten minutes later, someone called and said "Play it again". After 24 hours on the air, there were already 10 requests for the

song.... Midnight Oil "Beds Are Burning". By the third listen, I loved it! The audience obviously likes it, Rich likes it, and now Mikey likes it and so will you!... They Might Be Giants are #1 most requested with "Don't Let's Start". I blame myself for this record. We did extremely well with "Puppet" and there was a tendency on our part to dismiss them as a novelty band. Boy, am I stupid. "Don't Let's Start" is an irresistible 2:30 of pure pop for now people!... World At A Glance "Burning Out" is an out of the box add! We tested it off the Island CD to favorable response and the 12" remix is really nice. It reminds me of a smoothed out Cult. I expect it do real well!

Dave Fortney, WKLK, Kalkaska

Great to be back to normal. I really enjoyed myself in Fort Lauderdale at the B/A/D/E convention. What a great time playing softball. Maybe next year the record guys will have a team. Also, of course, enjoyed the ride on the magical mystery tour bus. It was great seeing everyone... While I was there I had a chance to hear the new David Lee Roth album. Sounds like he has matured as a rock and roller.... Also can't wait for the new Robert Plant and AC/DC. Let's do it in '88. We're ready to tear them down.... New adds: I like Max Bacon on vocals on the Oldfield. It has nice flavor and good possibilities.... Think Aerosmith's "Angel" will be the biggest hit on the record.... Also thought "Finest Work Song" should have followed the first track and will do very well for REM.... Five current favorites: Love and Rockets, still very much enjoy the Robbie Robertson, also get a kick out of the new Kinks live, and INXS.... I still enjoy the Aerosmith album.... New requests: Love and Rockets is doing well, as well as the White Lion.... REM seems to do very, very well here, and David Lee is getting some instant attraction.... Considering: Richard Marx and John Brannen.... Fastest mover: Anything by Whitesnake with Def Leppard not far behind.

Beaver Brown, KDJK, Modesto

The Rainmakers, what a group! Their "Tornado" album is awesome! Don't be left out of the dance. Make "Small Circles" with the Rainmakers.... Lita Ford is simply amazing! She can "Kiss Me Deadly" any time.... If you want a song that sounds gritty and tough, "Desolation Angel" is what you're looking for. John Brannen has a tune for our times.... Five current favorites: Himmelman's "Waning Moon", David Lee's new one, Cocker's "Two Wrongs", Def Lep "Pour Some Sugar", and the Thorogood is really good, too.... Almost added: the BoDeans.... Strongest add of the week would have to be the Rainmakers. I was willing to fight for this one.... Best Promo Job: Sam Calle on Brannen. He more or less brought more light onto the subject for Mark. I was sold and we had to close the PD.... Fastest Mover: Sting "Be Still". Entered as a light and two weeks later it's in heavy.... P.S. I heard MTV's ratings dropped. It's not hard to see why. They didn't hire me.

Wendy Steele, WLWQ, Columbus

Thanks to Marty Mooney and Mark Fritzges from Atlantic for their entertaining evening after the Kiss/Ted Nugent show.

Don Gilmore, KLBK, Austin

Strongest add of the week is definitely Danny Wilde, one I wanted to get on last week. It's got everything that an 80's rock song should have. Me and a jangley guitar, we're inseparable.... Also added Robbie Robertson's "Broken Arrow". My album of the year for last year. Probably the best ballad on the record.... Broadcasters are an act whose time has finally come down here.... Thought Lita Ford's "Kiss Me" was too teen on first listen, but after the fourth time, was singing right along.... And Foreigner's "Can't Wait". We couldn't.... Record of the week: Himmelman. People are finally starting to really react to this record.... We're getting a ton of night calls for Joe Satriani. The teacher shows the students how it's really done.... From a personal stand, the Jerry Harrison. The whole album stays in the CD player. I think it's just phenomenal. Check out "Cherokee Chief".... CD Search: Supposedly the Atlantic guys are sending INXS. That's the only one we don't have.

Celeb Shots A Go Go

And what would any gathering of the minds be without a few convention cameos from those guys who really love ya babe.

Finally, a shot that's all talent of the musical variety. Robbie Robertson flanked by BoDeans Kurt and Sammy, relaxing at the Geffen Closeout bash.

Robert Harder, KWLN, Memphis

Michael Bolton took a while to generate phones but after a month and a half, the phones exploded.... George Thorogood is a Memphis favorite. The Lp was recorded right here in town and his straight ahead style is much appreciated by the audience.... Aside from Michael Bolton, Mike Oldfield is my favorite record right now. I really believe in this record, it's different enough to get your attention but should go top five.... The Rainmakers' "Small Circles" got added on the heels of "Snakedance" despite its quiriness. It really grows on people after a while.... Noiseworks is a good sounding record with a great beat, put it on the air and see what it does for you.... We had Alice Cooper in the studio before his recent show and what a show he put on, he is just as crazy as ever.

Trisha Griffith, KBER, Salt Lake City

One of those records that gets me crazy is the Eurythmics "I Need A Man". It makes me dance like a fool and want to get some breast implants and a platinum blonde wig, wow!... Def Leppard still works like a big dog for us and the INXS "Devil Inside" makes me want to do strange things in the control room.... George Thorogood is strongest because he's so bankable and what do you know, it's a great song, too.... Big phones for "Pour Some Sugar On Me" and "Just Like Paradise". What did you expect.

Kelli Cluque, KCAL, San Bernardino

David Lee Roth dominates the phones without any start up time at all. Everything we have ever tested on the man just goes through the roof. He is magic for our station.... I love the Call's "Walk Walk". I went back to it over the weekend and it blew me away. How could radio miss this song? It has everything that makes the format fun to listen to.... Great White continues to garner lots of audience response. This album has proven its staying power.... KCAL is welcoming Aerosmith to town with cassette giveaways of the Dokken and Aerosmith catalog. We will also get someone to the Forum dates for the show in a well stocked limo with yours truly.

Dick Sheetz, KRZQ, Reno

We just got our numbers and everything looks real good. We're #1 18-49 adults, that's our target.

Rick Panneck, WAPL, Appleton

White Lion's "Wait" is #1 phones and top five retail. This record will explode soon at CHR, don't be left out.... Aerosmith has been a consistent performer over the last several months. "Angel" will be the song to push this album into double platinum.... We are still having continued success with Great White's "Save Your Love".... Mike Oldfield adds a nice change of pace to the music mix. Listeners want to know if it's on the new Yes album.

Joe Skare, KFMQ, Lincoln

The first time we played Joe Satriani we got instant phones like you wouldn't believe. This is undoubtedly our biggest moving record of the week.... Danny Wilde is a smash in the making.... The Dokken track "Prisoner" was always my personal pick off the album.... The Alarm is real smooth and works well for us on the air. It's just too good not to play.... This Godfathers' record is great rock and roll that will not be denied.... Ditto the Broadcasters "Down In The Trenches" is a real fun track to spend some time with.... We are looking at Jerry Harrison and John Brannen for the future when the list lightens up a little.

Terry Medert, WQMF, Louisville

My turntable is broken so if you want me to listen to that new song be sure to get it to me on CD.... The staff continues to lobby for "Precious Town" by Tom Caufield so we will watch that closely.... The staff also got very excited about the Godfathers record when we added it this week. It's very anthemic and they enjoy it a lot.... The record of the last two weeks has got to be the George Thorogood. A very strong effort that speaks directly to the heart of our audience.

Donna Geisinger, Passport, 818-500-7677

The "buzz" word is "B/A/D/E". Big thanks go out to my hosts for a great convention in Fort Lauderdale this past week. I enjoyed meeting everyone. Putting faces together with names was exciting and surprising. Besides learning a lot, I made new friends, too.... Under the special thanks department go: Tom Cale of KZAP for the enlightening radio conversation; Bill Hard for offering to manage my career into hand modeling (thanks, I'll stay with promotion, that way I won't worry when I break a nail); Skid Roadie of KYYS for not squirting me with the "Robo-Hand" water gun; Kim Alexander of WHCN for surviving "Titty-Hell" in the PG suite; Ken Anthony at KSJO for learning how to say "Mud, Lies & Shame" with the proper southern accent; Alan Wolmark of MCT for helping me along the way; Tommy Nast of Album Network for not tying my shoes together; Harvey Kojan of R&R for all the hand-kissing, what a gentleman; Rad Messick of WDIZ for the outstanding observation that the black T-shirts were for the bad guys (promotion) and the white T-shirts were going to the good guys (radio); Greg Morrison of WRQK for not describing our dinner Tuesday night; Steve Smith of Album Network for throwing the first "15 yard penalty" flag and to all the labels who sponsored the dinners, cocktails and entertainment to be enjoyed by all! Thanks everyone! I look forward to catching up with everyone again at Gavin, R&R, the T.J. Martell Rock 'N' Bowl. Boy, I better get into shape. It is going to be hectic these next few months.... Watch your mailboxes for the Wild Seeds' "Mud, Lies & Shame" Lp. (Call Ken if you need help with the pronunciation) and I'll be talking to you all real soon.

Matt Pollack, Relativity, 718-740-5700

Yeah, so I go down to this Burkhart/Abrams convention, and the weather rots, overcast and windy. I meet with all the ladies and gentlemen, who mind you were gentlemen shortly prior to the Geffen party, but I meet with all the ladies and gentlemen MD's and PD's. And after spending some time with these individuals

and imbibing lethal amounts of scotch & soda, I was given the buzzword for the upcoming year, "passion". Yes, passion. We've got to put that word back in this biz. So, the following week everyone goes back with that word imbedded in their minds. They think to themselves, what has guts, rocks like a mutha, is a great image record and will ring the phones louder than Big Ben? Hey, how 'bout Joe Satriani's "Satch Boogie". Yeah, yeah, that just might work. Well, you know something, it already did. Welcome aboard: WEZX, WTPA, WAAF, KUPD, KRQR, KRXQ, KGB, WBCN, KUPD, KDKB, WCCC, WOUR, and too many more. These folks went with the instrumental monster and after one week nearly half of them are already getting top phones. So leave any preconceived notions about instrumentals aside, this one defies words. It's real fresh, it's got one of those buzzes everyone talks about, it's quick, concise and leaves you breathless and sweaty; and we at Relativity love to see you in that state. So put a little umph in your playlist. The success ratio on this sucker points in all the right directions. Just ask your neighbors, They're already playing it.

Phillip Hardy, Megaforce, 201-254-6533

Though at this time a vast majority of AOR reporters still have not received or had the time to listen to the new Prophet 12" "Sound Of A Breaking Heart", we were still capable of picking up some extremely important adds late last week and early this week. Many thanks are in order to WNEW, WEBN, WDHA, WRIF and KJJO for jumping out of the box and leading the way for this band on its way to great success. A CD single of "Sound Of A Breaking Heart" should arrive on everyone's desk within the next week, with the album slated to hit the stores by the first week in February. If this song isn't a hit, I will eat anything anyone puts in front of me.... For all you metal heads, I just got a look at the new Anthrax video for their rap hit, "I'm The Man". Once this baby gets onto MTV, retailers will have to open an Anthrax aisle in their stores to handle the volume.... Also M.O.D. have

just hit the road with Exodus. Anyone who knows how to laugh and finds it enjoyable should be thinking about an interview with Billy Milano. How funny is Billy? Ask the Great Kat, or anyone else who was at CMJ.... Finally, may I add that I'm very pleased with the very early responses I'm getting back from people on our band from Texas, Kings X. It's so rare that something so totally unique comes along, that it's an equal pleasure when you find so many people enjoy it.

Megadon, Combat, 718-740-5700

Okay, okay this is getting out of hand now. I've been swamped with calls asking what went on in Boston that Lang and Fischer had to comment on. We got drunk and went bowling! It's as simple as that. I just wish Fischer kept my poor scores to himself. I'll just blame it on my drinking (poor excuse, if I was sober, I'd have blamed sobriety on my bowling). An expert bowler I ain't, but I can drink those Beartown Boys under the table any day!... Just checked out Death, Whiplash and Napalm last week. What an incredible show, all three bands simply devastated all in attendance. I was completely blown away by the evening's festivities (of course, I was buzzing), and I can't wait to see Death again!... Believe it or not, it actually looks like Heathen and Zoetrope will be embarking on a 36-date US tour together beginning in February. I'm serious this time, it's being booked as you read this! Exodus are still God.... Down with Scroggs -- ALF rules (so does "Married With Children"). Later.

Don Kaye, Noise, 212-334-9260

Yes, it's official. Noise Records have opened up a brand-new (well, not that new) office right here in the good ol' US of A. My name is Don Kaye, I'm the promo guy here, and if we haven't already spoken I'll be getting' in touch with you or hoping that you'll give me a ring.... For those not entirely familiar with the label, it's the home of such greats as Voivod, Celtic Frost, Kreator, and Tankard, and it's those guys I want to discuss real quick now.... The new Kreator, "Terrible Certainty" is certainly making waves on the radio front already, with one and all proclaiming it the German quartet's finest hour. And I'm also getting good reports on Deathrow, another Teutonic foursome whose "Raging Steel" Lp went out with Kreator's. Let me know if you haven't received them. A Kreator tour in March looks good, so let's get the record on the air and drum up a good buzz for the tour. With some special guests, it's bound to be a hot one.... And new Tankard, Voivod, and Sabbath are all imminent, so let's talk!... Special thanks go to the cool people who have already called and to the tip sheets for keeping up with the musical chairs situation that's plagued the NY metal industry for some time now. See ya!

Louis Heidelmeier, Elektra, 404-344-5080

A funny thing happened Saturday In Atlanta. The second Guadalcanal Diary show that went on sale Friday at noon sold out. 1,000 tickets. Now, you're probably thinking that it sold out because they're local. Well, don't you think that the promoter and the band took that into account when they only booked one show at the start? The only REAL difference between this show and previous shows is airplay and support from 96Rock (WKLS). Today's AOR can and will help us break Guadalcanal Diary. "Lips Of Steel" is not a bonus track from the "Revolver" CD. It's the new 12" from Guadalcanal Diary. Please follow up what you started with "Litany" by playing it.... Dokken is almost 500,000 units over their last album. That's 500,000 new converts. "Prisoner" is the new one. While CHR and MTV continue to play "Burning", isn't it time to give your audience some fresh Dokken?... The Call continue to win new stations each week with "Walk Walk". Some of you are waiting for this one to go away. With any luck, you'll be waiting a long time. Put it on and it will work for you like it is working for everyone who is playing it.... There seems to be a MAJOR negative attitude towards the Cars. In spite of that, we're double digits in three formats. Imagine where "Coming Up You" would be if so many of you weren't tell-

ing me the band was over. This song works and the album is selling with a strong resurgence at Sound Warehouse in Texas.... Be prepared for new 12"s from the Screaming Blue Messiahs ("Bikini Red") and from the latest American band to explode in Europe before they hit it off in their homeland, 10,000 Maniacs ("Like The Weather").... Also, the tune that will lift the \$13.98 list two-record set from the Cure to platinum, "Hot, Hot, Hot".... By the way, nice meeting so many of you in Fort Lauderdale.

Bonnie Simmons, Hightone, 415-763-8500

First of all, our new office address is 220 4th Street, #101, Oakland, CA 94607, and our new phone number is 415-763-8500. The old numbers you have will also probably find us in an emergency, but the new number is where you will find us most of the time. Having only been in this office for two days, we're still experiencing some terror filled moments involving our new phone system, FAX machine, Xerox, and the most complicated heating and cooling set up I've ever seen, so if we disconnect you or do anything else clumsy to you, please give us the benefit of the doubt.... Joe Ely is on the road and getting rave reviews. The next week's schedule is as follows; Tuesday, January 26th he's in Toronto; Thursday, January 28th he's at Club Bene in Morgan, NJ; Friday the 29th he's playing the Ritz in New York with special guest Will Sexton; Saturday the 30th he's in Boston at Nightstage; and Tuesday February 2nd he'll be at the Bacchanal in San Diego. If you'd like to go to any of these shows, just call... The video to "My Baby Thinks She's French" is, of course, out and that 12" reservice is probably right behind your desk as we speak.... We'll have a new Joe Louis Walker Lp called "The Gift" out in a couple of weeks so if you have a blues show and need one, give me a call.... In live music this week in SF, Rosanne Cash wowwed everyone at Bimbo's a couple of days ago.

Jeff Naumann, Virgin, 213-278-1181

The two main topics of conversation this past week were #1) Jimmy The Greek's Tv philibuster and #2) Mike Oldfield's "Magic Touch". The big difference is that Oldfield looks to have a bright future ahead. A combination of extensive set up planned from our Virgin staff and a killer song is the reason why "Magic Touch" scored over 100 adds in its first week. Thank you early believer for making our first week a success. The full Oldfield Lp "Islands" will be arriving at radio any minute now. And for those stations doing "Two For Tuesday", how about coupling with "Magic Touch" with the long out of print edit of "Tubular Bells" found on the Virgin compilation CD.

Victor Lentini, Passport, 818-500-7677

Get it up! Up to #83 Hard 100, up to #88 Power Cuts, Album Network. That's what Tom Caufield is up to.... "I'm Sorry I Can't Rock You All Night Long" is the new single from the Wild Seeds. The Lp is entitled "Mud, Lies & Shame". The Wild Seeds tour begins February 11th in Shreveport, LA with 20+ dates including Memphis, Atlanta, Tampa, New Orleans, Houston, Nashville, Pittsburgh, Philadelphia, Baltimore and Boston. Let's make it happen. Jump on "I'm Sorry I Can't Rock You All Night Long". Now!

Ray Farrell, SST, 213-835-8977

Yeah, rockin' in the 80's! FIREHOSE rages once again with the new "if'n" album. In its first week, it's burning at WOXY, WFNX, WVV, KJET, KRP, KTLL, WHTG, KOTR, WGTU, KABL, WRVU, WRSR and others. You shoulda been there - jazz guitarist Elliott Sharp with FIREHOSE's rhythm section, opening for Joe Satriani - two opposite camps of mind boggling guitar on the same night! Say no more!... The Meat Puppets begin an extended West Coast tour this week. Wanna go? Call me! Never seen 'em? Let's go! Unbelievers heads will spin at the attendance of their shows.... If you haven't checked out Negativland yet, do so. WHTG, KITS, KEYX, KABL, KUSF and WRVU have been having

lots of fun with their ground-breaking new album "Escape From Noise"... Finally, thanks to KTCL, KLOL, WBCN, WFNX, WEQX, CFNY and KRP for their help with promotion of Angst's "Mystery Spot" tour. Later.

Ivar Hamilton, CFNY, Toronto

It sure didn't take long for the new release slump to subside! We have plenty to consider over the next few weeks and plenty of New Music to introduce.... Sire has done well for CFNY this week with adds on Underworld, KD Lang, Depeche Mode, The Casual Gods and Mighty Lemon Drops.... KD Lang is of particular interest because of the recording with the Edmonton Symphony Orchestra. Was the last time a rock band recorded with the E.S. back in 1972 when Procol Harem did "Conquistador"?... The Stranglers cover of the Kinks "All Day And All Of The Night" could be their biggest release ever. Any AOR should find that the remake of this classic could fit into the format easily.... What a drag it was to hear about the split of the Housemartins last week. They will be missed greatly and I'm sure many are disappointed that they never toured in North America.... Not surprisingly, Sinead O'Connor has finally overtaken all other artists to become our Number One airplay release. Retailers can't keep it in stock and we are still the only station playing Sinead on Toronto!

Jeff Michaels, KSQY, Rapid City

Record of the Week: Real easy, Joe Satriani with "Satch Boogie". When I was 18 years old and I heard an album like this for the first time, I would have thrown a party to turn everybody on to it. Now ten years later, I'm 28 years old and I can turn everybody on to it with the power of radio. Getting requests up the ying yang.... CDs: Looking for Steve Miller's "Fly Like An Eagle". I just can't seem to get it.... Top 5 phones: Thorogood, David Lee, Joe Satriani, Love and Rockets, and Danny Wilde.... Adds: Love "American Roulette" from Robbie Robertson. It's always been my favorite song, could be the record's biggest hit and it's about time they got around to releasing it.... Really like Mike Oldfield. Thought it was Jon Anderson.... Increases: John Brannen goes to medium. The song just keeps sounding better with every spin. A few calls on it, but due to popular staff demand, we're moving it up in rotation so everybody can play it more often.... Danny Wilde moves to medium after one week. Nonstop rock from start to finish.

Christina, WPLR, New Haven

The first time I saw Kinetic Sect perform was as a judge in the finals of the WPLR/Toad's, Seagrams Talent Search. I figured if I could see a band for the very first time and hear at least five songs which I would love to have on vinyl they must be special. Kinetic Sect's melodies are catchy but not contrived; the lyrics provoke feelings, that's the sign of a well-crafted tune. The excitement level is just starting to build for this band. They were

the national winners. Congratulations.... I got right down deep into the belly of the Jerry Harrison "Rev It Up" on the first spin. Boy, is it hot!... Ever seen Midnight Oil perform live? What a hot band and this record surpasses everything they have ever done.... The Rainmakers' "Small Circles" was always my fave from the "Tornado" Lp. It's nice to be able to expose it.... Guaranteed hits: Aerosmith's "Angel", Squeeze's "853-5937" and Bourgeois Tagg "Cry Like A Baby".

David Hall, WKDF, Nashville

The book is back and 'KDF remains Nashville's #1 radio station in the market. They either love it or hate it and so far those that love Michael Bolton's remake of "Dock of The Bay" outnumber those that don't. It moves to power this week.... "When We Was Fab" just came through its first week of call-outs with some good numbers and I must say I love that picture sleeve on the single.... Ever hear of a scalper getting \$100 for a ticket stub from a concert that happened last year? That's what one listener says she paid for half a ticket from 'KDF's 1987 One For The Sun concert because she's trying to collect all fifteen items in KDF's \$15,000 dollar scavenger hunt. It's turning Nashville upside down.

Al Scott, KZEL, Eugene

John Brannen is so thick that it's sweet.... The Love and Rockets song is going to stand out as one of the best songs of the '80's.... Jerry Harrison blows me away. Thanks to Warner's Greg Dorfman for getting that record under our noses. It's a timely record that works for the modern day.... The Radiators show was killer. The band turned in a powerful performance that generated smiles all around.... The Kinks are becoming a huge local favorite, sounds like an instant classic to me.... We are also looking forward to another great show from the Rainmakers here on the 27th.

Brent Clanton, KPEZ, Austin

We are really hot on the Lyle Lovett because it has a nice texture and he's a Texas boy.... Another Austin band doing real well for us is the Reivers.... It's real nice to see the Radiators coming into their own. This band will knock you back.... George Thorogood has come out with another typical teeth crunching rock and roll record that the people just love.... Joe Satriani is a monster. Every time we play it the phones melt down, it's a tidal wave of rock and roll.... Look for the Church to deliver a great addition to your record collection with the release of "Under The Milky Way".

Ron Marsh, WKWQ, Columbia

Joe Satriani heads the list of reaction records here with the Savoy Brown getting instant phones. People like a good Russ Ballard tune and, best of all, it's nasty.... Sinead O'Connor is getting a lot of curiosity calls from folks who liken her to Kate and Cindy of the B-52's going solo. It sounds great on the air and

Can You Smell a hit?

BLACK

"Everything's Coming Up Roses"

Scented CD Single on your desk!

January 22, 1988

we are getting a lot of curiosity calls on it.... The one record I want every PD in the country to listen to is Robbie Robertson's "Somewhere Down The Crazy River".... Staff support is still hot and heavy for the Godfather's and White Lion. These are seriously important records for the format.

John Loscalzo, WRCN, Long Island

They Might Be Giants Ep "Don't Let's Start" is a big fave here with "We Are The Replacements" and two guys from New York with great first names, anybody involved is named John.... The metal heads dig the Dokken and Megadeth while the rest of us are still into the Love and Rockets and the Housemartins album.... The Godfathers are a big dark horse around here with the staff panting for the rest of the album to get out. The only record out there that approaches it for land shark status is Jerry Harrison's "Rev It Up".... WRCN is powering up a Mystery CD in a Row contest that has awarded two trips to Aspen already.

Dave Ross, KFMU, Steamboat Springs

Currently, favorites on our playlist include David Lee Roth "Just Like Paradise", REM's "Finest", Tom Caufield's "Precious", Bourgeois Tagg's "Best" and the Alarm's "Presence".... Getting new requests for Jerry Harrison "Rev", Aztec Camera "Somewhere", and Insiders' "Three Five Comma Oh Oh Oh".... Right now our fastest mover is David Lee Roth.... This week Virgin helped me see the light on Mike Oldfield.... That's it this week from the world's only wind powered radio station.

Butch Lazorchak, WVVV, Blacksburg

This is a quote from the new Trouser Press record guide. "Robyn Hitchcock's entire body of work -- both as leader of the Soft Boys and as a solo performer -- remains one of the great undiscovered treasures of modern pop music. His melodic emotional compositions place him in a songwriting peerage that includes Elvis Costello, XTC's Andy Partridge and very few others. Psychedelic pop of the 60's provides the touchstone for his sound but Hitchcock blends his own ideas with those of John Lennon, Sid Barrett, the Doors and Byrds to create music that advances the tradition rather than merely recapitulating it." I read it; I think it's true. You should listen and find out for yourself.... Also love the firehoSe.... Every day I pray that someone will send us the Godfathers' 12".

David Allen Ross, KMJX, Little Rock

My record of the week is Aerosmith's "Rockin' Pneumonia". I think it's a hot little dude. It just makes me want to get up and bounce around the control room. It's got so much energy and Aerosmith has come back strong.... I've been looking for the Phil Collins "In The Air Tonight" CD. I have never been able to track a copy of that down. I'd appreciate any help.... Everybody on the staff seems to like the Foreigner album, Thorogood's album, and Dokken.... Top 5 phones this week for: Thorogood, Dokken, David Lee Roth, White Lion, and Guns 'N' Roses.

Alison Stewart, WBRU, Providence

Harrison is hot. "Rev It Up" has a slinky sound and feels like a T-Heads track.... Nice remix on the Bodeans. This should make "Dreams" very AOR-able.... We got back on "Devil Inside" 'cause you can't lose on INXS.... It's great when you can find a rock band that is very hip and very exciting. If you can get your hands on the new Blue Rodeo tape, do it. It's a tasty little cassette.

Howard Glassman, WEQX, Manchester

Sinead O'Connor holds down the top spot on the request log here at EQX. It's really no surprise though. She's a fabulous babe with a great set of pipes. Who shaves her head?... Months ago, Bruce McDonald hit the proverbial nail on the head. The Godfathers "Birth, School, Work, Death" is something special. Don't make the same mistake Sonny made, listen to the Godfathers.... And quit fucking around play the Silos!

Mike Scott, WRIK, Paducah

Love the Harrison. "Rev It Up" just simply kicks ass. I don't know why but it reminds of Stevie Wonder's "Superstition".... Almost added Squeeze "853" and Prophet.... Terence Trent D'Arby is back onto the list. Reaction is getting strong.... The audience loves any metal which is Dokken's entire Lp.... Godfathers is getting some response.... TSOL's "Along The Watchtower" just won't go away for us.... Royal Court of China is getting a push from us.

Cyndee Maxwell, KWHL, Anchorage

MSG's "Love Is Not A Game", Joe Satriani's "Satch Boogie" and White Lion "Wait" are all doing really well on our station. These are the sounds that work for K-WHALE.... "Satch" generated instant phones as well as sales so we decided to move it into heavy.... John Brannen's "Desolation Angel" is one of those songs that grabs you within the first minute and you know you have to add it.... Ditto the Insider's "Three Five Comma Oh Oh Oh". Great rock and roll for the masses.... Finally, I feel really strongly about Prophet's "Sound Of A Breaking Heart". This is good stuff, Maynard, check it out.

Hubby Dean, KZRR, Albuquerque

I would like to thank Zak Phillips, Nancy Levin, Rich Abravaya and Ira Gordon for showing me a great time during my vacation in Denver.... P.S. Be on the lookout for Gary Brandon's Radioux.

Marty Griffin, KFMF, Chico

Mike Oldfield's "Magic Touch" is the record of the week at KFMF! I've been waiting since early December for this one. Good job by Virgin on the set up and the CD service.... The Bodeans are hot! "Dreams" is an outstanding follow up choice.... Keeping with our tradition of breaking new artists, John Brannen gets a shot this week. Phones are already real strong.

Monte Conner, Roadracer, 212-219-0077

GANG GREEM has set in and is spreading fast at WBCN, WWUH, WOOF, WOXY, WNGZ, WNHU, WJUL, WGIR, WBIM, WEOS, WRTN, KCMU, KOZZ AND Z ROCK. What's that? You haven't been infected? I bet I know why. You're thinking that GANG GREEN are just another obscure, loud, offensive hardcore thrash band. Well, folks, that just ain't true. Ever wonder what AC/DC would sound like if they were pissed off and starving? Wonder no more. All I ask is that you give these boys a chance. Check out "Sheet Rock" and "Born To Rock". Both are fine examples of heavy metal rock 'n' roll in its purest form! Watch MTV for the forthcoming "Born To Rock" video.... WHIPLASH continues to do some serious climbing, mainly due to the fact that it has gotten such a great response from the listeners. The phone lines have been burning up after just one spin. An honorary WHIPLASH neck brace goes out to the following: Kris Kuper, Janet Getchell, Bob Lang, Mark Silver, Craig Q., Don Weeks, Tom Smith, Crazy Dave, Lord Jones, Scroggsy, Bill "You'd be god if Jones wasn't" Fischer, Jess, Mike Z., Charity Kurz, Ken Glidewell, Lisa Walker, Missy Callazzo, Joe Quirk and all at Z Rock. You should have all received your own "ticket" to mayhem. This little piece of paper is your personal invitation to a phone conversation with WHIPLASH. Cherish the opportunity. Call today!... P.S. I have to agree with Scroggs. ALF should be shot. Or better yet, be eaten by Mr. Death!

Rich Flamingo, KCRK, Omaha

Six months on the air as a rocker and we have already filled up our CD rack. This is thanks to people like John Souchack, Dave Rothstein, Kenny Rother, Kathy Arnold Pedrepti, David Newmark, Beverly Stevens. CD sounds way premo on cable so for the best representation of your artist go digital at the Creek.... Speaking of that, could somebody at Apache send me the John Brannen CD? I heard it at the night club I work at last weekend and that's all it took.... Lastly Rich's fav new song "Over There" by the Connells. Plug in, tune in, turn on!

Lorraine Caruso, WNEW-FM, New York

It's nice to see how some records are selling in the NYC area. Love & Rockets is not only selling well, but has top five phones.... Bryan Ferry's "Bete Noire" Lp is another monster, and Gene Loves Jezebel is off to a good start. It's good to know that people are buying records like these, especially when the obvious sellers, Springsteen, Cougar, REM, Harrison, and INXS, to name a short few, are also doing real well.... Aerosmith's "Angel" debuts at the #2 most requested slot, with David Lee Roth's "Paradise" at #1 for the second straight week.

Clarissa Garcia, Enigma, 213-640-6869

With two bands on the road and one tour in the works, I am one happy metal rep.... OBSESSION kicked off their long-awaited tour with BATTLEZONE earlier this month. In February, they'll be in the midwest Cincinnati (2/3), Detroit (2/5), Cleveland (2/6), Chicago (2/7), and Milwaukee (2/8). Let's see if OBSESSION'S lead singer, Mike Vescera, can keep his resolutions to keep his clothes on in public and to stay out of jail. If you see a naked man being arrested in the cities mentioned, please call Gail Flug at Crash (212-245-7090) immediately. Also call Gail if you'd like to set up an interview with OBSESSION. Hmm, I wonder if Mike will be able to keep his resolutions when the band hits L.A. I'll just say I hope he stays out of jail.... LAZ ROCKIT will be hitting the road in mid-February with L.A. Guns.... BARREN CROSS may soon be filling up a club/venue near you. "Atomic Arena", the thundering new release from BARREN CROSS, will be mailed out later this week; you'll have it before you know it.... As I eagerly wait to hear the word according to Monte Conner, I'd like to say hi to John Bello, Megadon, Derek Simon, Eric Hodge, Brad Martin, Shelli B., Jessica Harley, Rudy Mendoza, Janet Getchell, Tom Smith, Steve Prue, Mike "It's My Turn, I'm Next" Jones, "Very Manly" Rich Scroggs, and Bill "Chicks Love Me" Fischer. (More victims next week).... P.S. Chain comix are pleas for help.

Paul Brown, Virgin, 212-463-0980

First of all, a word of congratulations to the entire Virgin staff on an incredibly meticulous set up on Mike Oldfield's "Magic Touch". What I appreciate equally as much is the vast multitude of you that legitimately share our excitement as we endeavor to break this very, very talented artist. Back in the early days, when the notion of what Virgin was to be was only a glint in the eyes of Richard Branson and Simon Draper, Mike Oldfield was the first guy they signed. That fire now glows brightly in the eyes of this staff.... Coming down the line are two great records. First, "Reconsider Me" from Warren Zevon featuring an all-star cast. It's a beautiful rendering of a gorgeous song and temporally on the money, what with Valentine's Day rapidly approaching.... Then, something that is, according to the things that hold up my spectacles, just spectacular. It's "I Love The Things You Do To Me" from Balaam and The Angel. This record could go like blazes at Mainstream Rock Radio. Alternative America, Metalville and ultimately at Pop Radio. For the time being, "I Love The Things You Do To Me" can be found on your "YEEPUHHS!!!" cassette. Turn this one up to twelve.

Pam Newman, Enigma, 213-640-9342

As your neighborhood drug store stocks up on everything from Brach's to Godiva, and Hallmark and F.T.D. market the sentimentality of Valentine's Day, you can count on Enigma to throw a curve ball. "HEART IN A BOX", a love song with quite a twist, is on your desk today in the form of the "Romeo At Julliard" CD. Don Dixon, master of melody/wizard of words, brings to you the ultimate Black Valentine for anyone that's ever been dumped. "Your Sister Told Me" held its own on 45 radio stations, through the most heavily traffic'd release schedule in AOR history (many of those stations are still playing it.) "Romeo At Julliard" continues to be Enigma's #1 CD seller, a strong retail item in Boston, Washington D.C. and San Fran/Sacramento and was a consistent "Placer" on critics' 10 Best Lists for '87 across the country. Stop, look and listen to "HEART IN A BOX"!... "DOWN IN THE TRENCHES" continues to hook and reel in stations like KGB-FM, WRIF, KISS and WLAV. Call Carter Alan or John Lassman (on the Broadcasters from the beginning) to find out why.... Now, if you'll please excuse me I've got to run out and get either a life preserver or a surfboard.

Michael Linehan, Reprise, 818-953-3750

The Bodeans cut "Dreams" hit album radio this week to sensational response. The cut was among the most added, and debuted around 60 in all tracks charts, while the Lp picked up bullets across the board. If you haven't heard the remix yet, check out the pro, which you should have received this past week. Look for a CD pro to ship next week as well. "Only Love" grazed the top 10. The band received standing ovations while opening the U-2 tour. They've received great exposure on Robbie Robertson's Lp and video and have just been voted "Best New American Band" in Rolling Stones Magazine's Readers' Poll, to be published shortly. This is definitely a band on its way to bigger things, so don't hesitate to get on "Dreams".... Shipping this week, is a 12" pro of "Kiss And Tell" from Bryan Ferry's "Bete Noire" album. This cut is already picking up substantial support, including WBCN, KFOG, WNEW, KRXQ, and WXRT among others. The track debuted last week across the board and has 8 and 9 point jumps this week. Retail response has been consistently huge, and album radio's target demo is who is buying this album (CD). Now "Kiss And Tell" will be featured in the forthcoming motion picture "Bright Lights, Big City" starring Michael J. Fox, and will be released February 2nd as the first single from the movie soundtrack. Bryan has appeared recently on the "Today" show and "Saturday Night Live", and will be back in the country later this month to do more. We feel very strongly that this is the cut to finally put this artist over the top. You know him, you love him, and now you can't live without him.... We will also be reseriving the Dream Academy CD and chasing the cut "Lesson Of Love", which also ships this week as a 7". If you're looking for a quality song from a group with proven adult appeal, be sure to check out "Lesson Of Love".... Last but not least, it was great to meet many new faces at the Abrams Convention. Too bad about the weather, but you can't get tan at night anyway.

Michael Faley, Metal Blade, 818-344-2437

First off, I would like to welcome Cheryl Valentine to the Metal Blade NYC office. Cheryl replaces Peggy Donnelly who is now at Atlantic Records. (Good luck, Peggy).... Metal Blade starts the new year with the most anticipated metal album of 1988, "Nightfall" by Candlemass. Already given the highest praise by Kerrang, Metal Forces and Metal Rendezvous, "Nightfall" is a must for your listeners.... From the land of the rising sun comes Dead End with their American debut, "Ghost Of Romance". This band is the current rage of Japan and on the strength of this album, they will soon be the rage of the States. If you require further info on Dead End, contact me or Bernie at Amuse America (EZO).... Still going strong into the new year is Lizzy Borden. Check out "Shock" which is the new single. If you felt Lizzy was not accessible to your audience before, this single will break the ice.... Sacred Reich, Sacred Reich, Sacred Reich. 1-800-SEE-YA.

John Beaulieu, WTUE, Dayton

The book is in and we're #1. It looks like the "Summer" will start early here in Dayton, in February.... Once again we're crusading the "don't be afraid of instrumentals" thing because the Satriani is probably the most viable guitar piece on the radio right now.... Jerry Harrison proves he is one of the better producers around and fills the void nicely as we wait for new Talking Heads.... Danny Wilde's "Time" has finally come.... My five current faves are John Brannen, Jerry Harrison, Joe Satriani, The Radiator's "Doctor Doctor" and Danny Wilde's "Time Runs Wild". I like them cause they're still new.... The songs getting the most new requests are Joe Satriani and John Brannen.... We're considering: the Broadcasters, BoDeans, Greg Kroll's "Help Yourself To My Heart" and Foreigner's "Can't Wait".... David Lee Roth is the biggest mover so far.

Manly Rich Scroggs, WWVU, Morgantown

I'm confused and I need some answers! First, Megadon: Does ALF eat cats from hell? Second, Monte Conner: If Clarissa Garcia is a mentor and Jessica Harley a Goddess and myself, yours truly, a God, what in the hell is everyone else? Like I said I want answers and I want them now.

Mike Jones, WGIR, Manchester

"Into The Lungs Of Hell" I plunged with "Hook In Mouth" to "Set The World Afire" because of "Anarchy In The U.K.". I had to see "Mary Jane" at "502" but it was my darkest hour 'cause I'm a "Liar". Yo, it's here, it's bad, it's huge, it's short, it's loud. New Megadeth, MEGADEF!! Platinum bound big time.

Jeff Ivan, KFMX, Lubbock

First up is that I have new music call hours. They are Tuesday from 11am to 1pm. Remember, we are in the Central time zone. Please try to call during those hours, as I am extremely hard to reach at other times.... How about that new Lita Ford. Hit city or what? It goes on the metal show this week and is already added to our regular format.... Also on our regular format are the latest from MSG, Joe Satriani, and those Guns 'N' roses dudes. If you haven't added "Paradise City" you better do it now. When we did the local sales went from 15 to 3.... Kreator looks to be a biggie on initial listen.... Records to keep on the turntable include: Whiplash, I.N.C., Paradox, and if you still aren't playing White Lion you must! There is just no reason not to.

Dewey McCafferty, WKNC, Raleigh

The big ones down here this week are the brand new Lita Ford and I'm really impressed with the new Girlschool so be looking out for that.... Most important play priorities for metal in January are definitely L.A. Guns and Megadeth. L.A. Guns' "No Mercy", "Electric Gypsy" and "Bitch Is Back" are great. It's great trash glam with more of a metal edge.... Leatherwolf is super huge down here and the phones are lighting up for it. When we went into the local record store we saw a huge display of just Leatherwolf. It's that big down here. We're on "The Calling", "Bad Moon Rising" and "Cry Out".... Also Warlock and Black Sabbath are big down here. We're focusing on "Hard Life To Love" from Black Sabbath. It's a really great track, and an incredible return for those guys.

Jeff Holbrook, WWCK, Flint

The Record Of The Week would have to be David Lee Roth because that's all everyone is calling for.... As far as CD's go we can't seem to get the Richard Marx on CD.... We're considering the Aerosmith song "Angel".... The Joe Satriani was almost added but we held off in anticipation of the David Lee Roth album next week.

Mad Max Hammer, Z-Rock Satellite

The Zodiac Mindwarp is the surprise of '88. It completely surprised me -- it rips with a driving beat and hard rockin' guitars.... Barren Cross is a great straight ahead Christian rock album that'll do well for them. They could be the next Stryper.... L.A. Guns is more sleaze from L.A. and the more sleaze the better. They're real rough and should make it really big.... Love the Kreator and we're playing the hell out of it. It's more brain splitting rock and roll for your head so break out the neck braces.

Jon Austin, WXRC, Charlotte

My personal current favorites include Love And Rockets' "No New Tale", the Grateful Dead's "Throwing Stones", Sting's "Be Still My Beating Heart", George Thorogood's "You Talk Too Much" and Bruce's "One Step Up".... New request/reaction records would definitely be Thorogood and David Lee Roth. The record stores are reporting that people are anxiously awaiting the new albums.... Things have been kind of crazy so I'm not really considering anything for next week as of yet.... Our fastest mover has to be the Thorogood, even though I added it into heavy because we've had such fast response on it.

Stacey Yelton, WKQQ, Lexington

Roll up the carpet and get down on the floor, I'll take it. Jerry Harrison has an endless hook running through "Rev It Up".... I said that Icehouse's "Crazy" would be a smash, but I couldn't have prepared myself for the shock "Electric Blue" has sent through our phones.... Heads up for music from our back yard. Indiana's Mr. Henry Lee Summer will blow you away, Amen.... Our record of the week wasn't added but something tells me it will be Mike Oldfield's "Magic Touch". I just have a feeling.... On the retail scene, Love And Rockets is doing real well as is Sinead

O'Conner.... As far as INXS goes, I can't wait to expose everyone to all the tracks on this album.... Michael Bolton's "Dock Of The Bay" has held steady -- if not in Top Five, at least in Top Ten.... Midnight Oil definitely appeals to me, and it has a different sound this time so watch out for it.... Jerry Harrison's "Rev It Up" -- turn it up, crank it.... A big staff favorite is Jethro Tull's "Jumpstart". We have a little saying around the office, "It thumps".

Jean Cashman, WZTA, Miami

My record of the week would probably be the Mike Oldfield, even though we didn't add it. It sounds so much like Yes. We just weren't really ready for it this week.... New reaction records include the Radiators, George Thorogood and David Lee Roth is doing real well for us.... Sting's doing well because he's in town this week.... Yes is also doin' fine. We played "Shoot High" a long time ago and from the first time we played it it was an instant on the phones.... Danny Wilde deserves a real push. It's a great song. It's just one of those songs where you like it the first time you hear it and are like "whoa who was that".... Lyle Lovett is good even though I don't think it'll do that well on AOR. He's one of those artists you really have to see to enjoy.

Dr. Metal, WHJY, Providence

We think the new Megadeth 12" "Hook In Mouth" really smokes.... I've never been into Christian rock bands but Barren Cross has broken through to me with "Atomic Arena". Songs like "Heaven Or Nothing" and "Imaginary Music" hit the spot.

Jeff Parets, KEYX, Phoenix

Major changes at KEYX. The station has entered the New Age with a heavily instrumental format consisting of light jazz, acoustic/progressive album cuts, and New Age music. Our new call letters will be KGRX, and John Sebastian will be based in Phoenix consulting the station. I am retaining my position as assistant PD/Music Director and will continue to take music calls Wednesday through Friday, noon to 2pm. Since we are adding a substantial amount of New Age and jazz, we need immediate service from those companies, preferably on CD. We will continue playing selected vocal cuts from other companies.

Tom Van Sant, WIZN, Burlington

"#1 12+" has a nice ring to it. "23.7" doesn't sound bad either. WIZN has captured the top spot in the fall Birch book for the first time ever with a 23.7 share. A few highlights: Men 18-34 44.7 (#1) Women 25-34 29.4 (#1) Adults 18-49 weekends 46.5 (#1) I guess that's what happens when you have the best music, promotions and airstaff in your market. Cormier even drank a beer in celebration. Many thanks to all at the labels who helped us pull it off!... Five Current Faves: "Shoot High, Aim Low" from Yes reminds of their classic stuff, 10,000 Maniacs "Don't Talk", The Godfathers "Birth, School, Work, Death" and Jerry Harrison's "Rev It Up".... I'm renewing my enthusiasm for the Jethro Tull Lp.... New requests: Bryan Ferry's "Kiss And Tell" is getting goods calls and is selling. We've been on it for four weeks.... We're considering Tonio K. and The Insiders.

John Schoenberger, Relativity, 213-212-0974

1988 - The year of passion! The year of the street! THE YEAR OF THE INDEPENDENT! It used to be often said about an independent release. "Boy, they sure have a great sounding record, too bad they can't support it like the major manufacturers/distributors can, or I'd add it." **NO LONGER TRUE**. In fact, the majors are currently scrambling to associate themselves, either directly or indirectly, with us to find out what we independents know. There is nothing like knowing how to develop ACTIVE and REAL response. Like I said, 1988 is the year of passion, the year of the street, the year of the independent!... Oh, by the way, can you BOOGIE? You know, the JOE "SATCH" SATRIANI "BOOGIE"!!!!

Renee Blake, WKXL, Concord

It's great to see that one of the most overlooked and under-appreciated artists of 1987 is getting a second chance. I'm looking for Marc Jordan to do big things with "Catch The Moon".

Michael Prince/Alex Miller, Atco, 212-484-6400

The second leg of the Yes tour began this week as the third track from "Big Generator" edges into the top ten. "Shoot High, Aim Low" is the quintessential album rock track and rock radio is loving it. We canvassed album radio and the next choice became obvious. We'll be chasing "Final Eyes" as the follow up to "Shoot High".... Thank you's go to everyone who offered us well wishes on the announcement of a new and expanded Atco 1988.... On the Island side: You have already received Island CD sampler #2 with the follow up cuts from Bourgeois Tagg and Peter Himmelman. "Cry Like A Baby" by Bourgeois Tagg is an automatic from the band that brought you 1987's most distinctive song "I Don't Mind At All", an across the board multi-format smash. "Cry Like A Baby" is NOT the old Boxtops tune.... Peter Himmelman is an artist Island is committed to. While "Waning Moon" continues to catch raves, Island CD Sampler #2 contains another great song from Peter Himmelman "I Feel Young Today".... Since you did, thanks for reading.

Jody Petersen, WNCS, Montpelier

The lightning bolt R&B of Barrence Whitfield and The Savages is shakin' the icicles right off this radio station.... A close runner up might be the Kinsey Report, part of that tasty new generation of Chicago Blues.... We're really enjoying the depth of Sinead O'Connor.... And speaking of Irish, it's nice to hear from Clan-nad again.

Jim Kelly, KATP, Amarillo

If you have any reservations about Willy DeVille's "Southern Politician", put it on the air and watch it fly. The listeners love it. It's generating lots of curiosity calls.... We just added "Small Circles" which is definitely the best cut on the Rainmakers album.... Def Leppard's "Hysteria" is our record of the week. The sales remain strong and should kick in even more with the next track "Pour Some Sugar On Me" on the air and doing well.... We need CD service on all current releases especially Richard Marx, Triumph, U2, Grateful Dead, INXS, The Radiators, Great White and Robbie Robertson.... Sinead O'Connor is selling well at about 30 units per week.... Also sales on Michael Bolton are kicking in with the success of "Dock Of The Bay".... Favorites among the staff include Def Leppard, John Cougar Mellencamp, Richard Marx and John Brannen.

Paul Marszalek, WMAD, Madison

Oh boy, Denver and Washington. Somebody wake me when it's over.... Much more exciting than the Super Bowl 22 match up are the Connells, the Lyle Lovett album and Kinsey Report.... OK, maybe I'm just pissed because both the Bears and the Vikings choked. I think I better go outside and get some air before I break something or hurt somebody.

Paul Nelson, WWCT, Peoria

We're not letting Richard Marx get away after introducing Peoria to his debut album, so in mid-January we are into reliving "Endless Summer Nights".... Other projects that continue to develop here are Aerosmith with "Angel", Joe Cocker with "Two Wrongs" and John Mellencamp with "Check It Out" which was great in concert and sounds great on the radio.... Love and Rockets, which may be an AOR staple of the future, gets the nod this week. Our kudos go to the RCA staff for not letting this one fall through the cracks. It takes a while but this tune deserves to be on the radio.... On the bookshelves check out "Texas In The Morning". It's a new book that exposes LBJ's sex life. He used to say "My God, I love Texas in the morning" after having sex with his alleged mistress. Can revelations from Nixon and Reagan be far behind. Around the end of the war Nixon probably said "Get ready Pat, I'm ready for total withdrawal" and I can imagine after sex our beloved president saying "Ok Ed, George, get out of here".

Stephen Page, KOMA, San Jose

We are hardly into the new year and already the music that has crossed my desk is mounting up. Some really fine tunes to be looking for. First on my list is Joe Satriani's "Satch Boogie". Instant phones. I do mean INSTANT. We're talking Jeff Beck meets Eddie Van Halen and the rest is history.... Another nice

one is Mike Oldfield's "Magic Touch"; very tasty and also strong response on the phones.... This week I had to add The Kinks on "The Road". Even though it is a bit long, it says it all. And Ray's voice is haunting.... Something to think about if you are looking for a 1980's version of The Beatles classic "Tomorrow Never Knows". Listen to Guadalcanal Diary's "Lips Of Steel". I'm serious. Trust me. End of reality.

Simon Jeffries, WAQX, Syracuse

Congratulations once again to the entire staff on yet another winning book. The Fall Birch is in: 95X remains #1 in all of our target demos, doubling and in some cases even tripling the nearest competitors. My personal thanks to the best staff in Syracuse.... Great news! After ten years of rocking Syracuse with 3000 watts, 95X will be increasing its power this winter to 25,000 watts. That will be the straw to break the metro's back.

Mark Dagwell, WTKX, Pensacola

The fastest mover would be "Angel" by Aerosmith. That's going to be a real big hit for us. Real good phones and the sales have also picked up on the album as a result of our play on this album. Think it could be a big crossover hit.... Also seeing nice momentum on the Michael Bolton which moves to heavy. Getting a lot of upper demo calls.... INXS' "Devil Inside" is also getting good response.... Five current favorites: Robbie Robertson, INXS, Sting, Aerosmith and the Alarm.... Great White is starting to do well in phones; ready to crack the top 5.... Getting a lot of calls for the new REM song.... Considering Radiator's "Doctor Doctor".... Best promo job: Atlantic on White Lion.

Jim Pemberton, WLLZ, Detroit

Aerosmith's "Angel" is our only heavy add this week. They always have and always will be huge here, and "Angel" will continue that tradition.... Also new: Dokken's "Prisoner". This was my original Lp pick, and now it's time to go on this one. Expect it to do even better than "Burning Like A Flame" which we were on for 13 weeks.... Also out of the box on Lita Ford. We played her last album too, and this one seems to have more crossover appeal, and I hear the video is hot, too. Love the cover of the 12".... A very early add on Black's "Everything's Coming Up Roses"; a new sound we're using as a texture type thing. Think it has some potential here.... And Max Bacon's vocals on the Oldfield are really good, and almost instantly familiar due to his work with GTR and Bronze. I think this one could have some real life to it.... Record of the week: Dokken, the strongest of all the adds this week. Even though "Angel" was added into heavy, I think Dokken will have longer life... CD Search: Michael Bolton, the Whitesnake import.

Ty Banks, KQWB, Fargo

The Godfathers are doing exceptionally well out of the box, with real good interest calls after it's played.... Adds this week: Jerry Harrison. The cover made us listen to it and am I glad we did. What a great tune!... I'm biased because I have a personal love affair with the Alarm. "Presence Of Love" is another consistent track from them. "Rain In The Summertime" was an average plus performer for them here.... Really like the new Icehouse "Electric Blue", especially after good female success with "Crazy".... The audience forced us to add Guns 'N' Roses' "Paradise". Of course, MTV video play has been happening for awhile, but we had top 15 sales response here before we even spun it once.... Five current personal faves: Sting, Godfathers, John Brannen, Joe Cocker and Jethro Tull.... Considering: Oldfield, Lita Ford... Fastest Mover: Foreigner "Heart Turns To Stone".

Downstairs Dan, WQFM, Milwaukee

Record of the week: I'm still buzzing over this Insiders's record "Three Five Comma Oh, Oh, Oh". Second week in a row it's kept me interested. This thing just burns rubber at the end.... Almost added: Cannata on Epic. Be Bop was working me on this one, and it's a good, interesting record. Got that orchestral kind of feel to it that seems to work on AOR at times.... Kinda like the Noiseworks track, too.... Five current favorites: Like the whole Godfathers CD, I've been a fan of Love and Rockets since day 1, also the Jerry Harrison (hometown boy from Milwaukee, the

new center of the rock and roll industry), and Guns 'N' Roses.... Also a big fan of Willy DeVille. I love that guy, saw him the first time in 1977 on his first tour, back when he was doing "Cadillac Walk" and "Mixed Up Shook Up Girl".... Biggest Movers: Guns 'N' Roses moves right up to power with "Jungle".... Adds: Bodeans "Dreams". Kind of a country twang to it.... Also went with Lita Ford. Nice gams. If this record does as well as those sticks, she's got a hit on her feet.... Think the Icehouse will score well with the ladies and God only knows, we need those ladies.... Any heritage working rocker can't ignore any new song by the Kinks.

Mike Stewart, WIMZ, Knoxville

Love the Richard Marx. In fact I even think it's right up there with "Should Have Known Better" (still heavy for us) and definitely better than "Mercy".... Almost added: Mike Oldfield, which should go next week.... This week's adds include: Dokken's "Prisoner", Pink Floyd "Sorrow", Cars "Coming Up You" and Rainmakers "Small Circles".... Up in rotation: Joe Cocker "Two Wrongs" to heavy. Showed up better in research this week.... The Call to heavy, looking better.... Though the Thorogood has only been on for a week, it was good enough to move it to heavy. Plus "Bad To The Bone" doesn't get calls quite like "Freebird", but it does get very, very good calls.... David Lee Roth is also doing excellent. A hit without a doubt.

Dave Richards, WWRX, Providence

Congratulations to my old cohorts at WZZO, Bethlehem/ Allentown. Three guys whose time has finally come. Todd to music, and Rich in the Boss's chair. Geno, congratulations on landing your dream at WDVE! Best of luck to all of you and hey, is there going to be any music from the new Jack Nicholson, or should I say Tom Waits, movie?

John Cooper, WPYX, Albany

Just listening to the new Thorogood album. What a barnburner! Highlights include the riproaring "Shake Your Money Maker" and "Highway 49".... WPYX doesn't just say it, we deliver upper demos and that's why the new James Taylor song "Never Die Young" is an out of the box. Used correctly this song can work correctly for you.... Huge phones for David Lee Roth. Thanks for the CD's, David.... We're also starting to receive very positive response to Peter Himmelman's "Waning Moon".... Top 5: Floyd "Turning", Great White "Save", Paul Carrack "Shed", White Lion's "Wait" and David Lee.... PYX106 broadcasts the morning show live from Miami Beach Wednesday through Friday. Mason and Nash expect to have guests ranging from Sting to the waitresses in the topless donut shop. Thanks in advance to Rick Carr of remote possibilities for his help.... Almost added: John Brannen. Good Springsteen clone. I'm sure we'll use it within the next couple of weeks.

Carter Alan, WBCN, Boston

Some great new stuff out there. I do like the new Alarm "Presence Of Love". Obviously, any song from this record is going to do well for WBCN. But they do need a song out there that works well for everybody, including CHR, and I think "Presence" fits the bill. You know, it works off an "Every Breath You Take" type of feel.... The new Bryan Ferry "Kiss And Tell" was the pick for Oedipus and me from the very beginning, so it's nice that we've gotten to it.... I like this cut down version of "Hysteria" from Def Leppard. It's an obvious choice in all departs.... Record of the week: AC/DC, "The Heat Seeker". It's a good rocker, and like Def Leppard, they know how to saw off some of the sharp, heavy hard edges so that it will work for everybody.... Considering: the Paul McCartney imports. We have to question why Capitol didn't release these songs in America. They're easily the best things McCartney has done in a couple of years, "Once Upon a Long Ago" in particular; a beautiful ballad that George Martin mixed which sounds like a #1 record to me. "Back On My Feet", more uptempo, is co-written by Elvis Costello; trax only available on the import greatest hits album, or the import 12".... Strongest add of the week: Jerry Harrison. "Rev It Up" is just the tip of the iceberg for a great album. There are a lot of great styles here, and not just funky rhythmic stuff that you'd expect from the Talking Heads and Tom Tom Club member. Pretty amazing record actually.... Al-

most added: Probably the Bolshoi "TV Man". Real nice record with a funny, goofy little hook to it, from a band that's provocative in a Love and Rockets sort of way.... New reaction records; the Godfathers. It's a smash here, building strongly in requests, and it's this week's Big Mattress song here. A new hip, underground artist that rocks so you have half a chance to connect with the kids like Def Leppard, and you've also got a shot at the musically active hip audience.... Love and Rockets continue to go out of sight; a smash in Boston and is flying out of the stores.... Sinéad O'Connor also starting to build in sales here and it sounds good.

Mike Michelli, WONE, Akron

Biggest mover this week: that's a tough call, but I would have to say it would be the Sting record. It went from heavy to power, but moved up quickly all the way around.... Also nice momentum on Thorogood, in terms of rotation and requests and it works well on our air too.... INXS "Devil Inside" also showed nice gains.... Almost added: Danny Wilde. It's a great record.... New reaction: White Lion is starting to get the exposures that we hoped it would.... The Radiators are also doing great at this point.... Rotation: Yes' "Rhythm" moves to power.... Kinks move up. People are always looking for some new Kinks.... Another artist who moved up was Joe Cocker with "Two Wrongs", which I think is the strongest track on the album.

John Amberg, WKRR, Greensboro

Almost added: Sting, "Be Still My Beating Heart". A great adult sounding record.... Did go on the Bodeans remix. Sounds like what the BoDeans do live.... The Radiator's "Doctor Doctor" goes to heavy. In the same league with Little Feat, and we are getting some calls. The slide guitar just kicks ass.... Speaking of slide, Thorogood's in the top five, along with David Lee Roth, Rush's "Lock and Key" and Aerosmith's "Hangman".... Our fastest mover probably is David Lee. Now #1 requested.... New requests: Getting some interest on Danny Wilde, and we're also getting some decent calls on the John Brannen record. His Springsteen style vocals are making some people turn around and say "who is this guy anyway".... Best Promo Job: Probably Katie Seidell for Reprise. Bodeans are our only add this week.

David Sadoff, KLOL, Houston

If you're station has a new music show, be sure to listen to the new album by firehoSe. My favorites are "Windmilling" and "For The Singer Of REM".... Speaking of new music, this week on Exposure, we debuted the latest from the Church, Sisters of Mercy, Clannad, The Tiffids, the Tami Show, Midnight Oil, and the Bodeans re-recording of "Dreams". What a difference live drums make!... Five current favorites: "Balloon Man" by Robyn Hitchcock, "Under The Milky Way" by the Church, "Rev It Up" Jerry Harrison, the Bodeans "Dreams", and Midnight Oil.... Also like the T-Bone Burnette, and the Raindogs "Grey House" 12". Two of the guys who used to be in Red Rockers. On Monolith records. Call Howie Klein.... Fastest mover: Michael Bolton, going light to heavy. Getting a lot of CHR support.... New request action: Joe Satriani now #1 in calls. W7we've used "Always With Me" on the jazz show, played additional tracks on the new music exposure show, and the record is selling well, with some stores not able to keep it in stock.... The Radiators' "Doctor Doctor" also getting calls, ditto Gene Loves Jezebel.... Attention, Peter Himmelman fans. If you've been trying to figure out what "Gematria" means, a listener of mine called me and said it is a magical divination art, used by the Jews to uncover secret messages. Ok, class dismissed.

Richard Smith, WIXV, Savannah

I would like to thank all the record reps for the instant cooperation and warm welcome in my new position as Music Director. We're 90% CD and headed for all Compact Disc before April.... The new George Thorogood is doing great for us.... Our listeners scream for more every time we play "The Beat Of My Heart" from Foreigner.... I'm not one to go for remakes but you need to make time to listen to Guadalcanal Diary's cover of "And Your Bird Can Sing". It's on the "2X4" CD only and it melted my disc player.... Until next time in regards to the competitor, "Kill

Kill, Hate Hate, Murder Murder, Mutilate".... P.S. "Three Five Comma Oh, Oh, Oh": Oh oh oh oh oh oh god! What a great track!... Record of the Week: Foreigner "Beat Of My Heart" because our request lines are screaming for it every time we play. We blew the speakers in the control room with it. It's just a great rock and roll song.... CD search: Rainmakers "Tornado".... Just starting to sell is Peter Himmelman. Beautiful track that has kicked in well after 3-4 weeks.... Aerosmith's "Angel" gets top 5 phones.... Staff faves: "Beat Of My Heart", and the new Thorogood.

Tom Krumm, KZAM, Eugene

Five Current Faves: Eurythmics, Sting, Radiators, Willy DeVille.... We're on the Eurythmics' "I've Got A Love" and "Chill In My Heart" which is my fave track on the album. Top phones.... On two tracks from Sting with "Be Still" and "Lazarus". "Still" is my fave track on the Lp which features renewed depth and growth from my favorite artist of all time.... New requests just starting for the Kinks "The Road". I was figuring that this one would just be a retread of lyrical ground that this band has already covered, but the sound quality is just the beginning of the good stuff on this live album.... Considering Robyn Hitchcock, Squeeze ("Trust Me" has hung in there really well and we're just now ready to move onto the single), and Jonathan Richman.... Fastest Mover: The Radiators. I love this track. It reminds me of the Allman Brothers with that great guitar. Phones are just starting.... Made room for the BoDeans this week. This was a good track before the remix but now it's great.... 54:40's "One Day" is another add. I've got to admit, when the album first hit, this one didn't stand out, but now that I've spent some time with it, it's turned into one of my favorites. And it sounds great on my station.... Best promo job goes to John Kohl, Elektra. He's got to be the easiest guy to talk to.

Catfish, WHMD, Hammond

Jerry Harrison's solo outing "Casual Gods" is tasty synth oriented funk. This Talking Heads wants to "Rev It Up".... Top 5 phones for the Radiators. "Doctor Doctor" moves into our power rotation. Mardi Gras is February 16th. Celebrate with the New Orleans Radiators.... Dig out your Paul Simon Greatest Hits and listen to "Take Me To The Mardi Gras".... Check out "Apeman" from the Kinks live Lp. It's really swinging.... Almost Added: Terence Trent D'Arby's "Wishing Well".... Reaction calls for Rush "Lock And Key" and Jerry Harrison after the first play. Someone just wanted to hear it again.

Mark Zeiger, KDXR, Amarillo

My current faves include Bruce Springsteen's "Spare Parts", David Lee Roth "Just Like Paradise", John Brannen "Desolation Angel", Aerosmith "Permanent Vacation", and George Thorogood "Talk Too Much".... David Lee Roth is a all over this town; we had requests before we received it. It went right on and we never looked back.... John Brannen is building nicely. We feel the spoken intro on the longer version is interesting but it's a lot to expect an audience to sit through, so we're gonna stick with the edit for now. Heard another cut from album and can't wait to hear more.... I have loved George Thorogood since '79. He never lets us down. I just wish the studio albums came out faster. It was too long this time.... Considering: The Wild Seeds, "I'm Sorry I Can't Rock You All Night Long".... Looking for Broadcasters vinyl or CD.... Fastest mover: David Lee Roth exploded this week in this town and on the phones.... Best Promo Job so far this year Louis Heidelmeier, Elektra.

Mike Gardner, KOAS, Kealakekua

It's great getting good airplay from many different groups, of course, due to the time of the year. Some of the groups that we're playing awfully hard lately include Sinead O'Conner, Glen

Burtnick, The Textones, Jethro Tull and Roy Buchanan.... We're eagerly awaiting the arrival of great new releases from George Thorogood and David Lee Roth.... Looking forward to a great 1988.

Brian Illes, WKFM, Syracuse

The Mike Oldfield track is an outstanding piece of music. There was no question in my mind that this was an automatic, and that any station that doesn't play it is giving away ratings.... INXS takes a healthy jump up to #2 in retail making an add on "Devil Inside" an easy decision. This album has a lot of depth and I'm sure we'll be dealing with a lot of tracks.... I'm glad to see there's lots of stations out there jumping on the Jerry Harrison track. This is an easy one for conservative programmers to stay away from because "Nobody knows him".... Record of the Week: Sting "Be Still". An awesome track that sounds great every time it's played.... CD search: Joe Cocker, "Unchain My Heart".... Staff faves: Sting, Jethro Tull and Paul Carrack.

Rik Elliot, WRQK, Canton

"Hysteria" has Northeastern Ohio in its grips. Def Lep is coming to town February 2nd with Tesla and our listeners are rabid for everything on the "Hysteria" album. They can't wait for the show.... Oh, and by the way, the Cleveland Browns will be back. A Superbowl victory will be coming our way. I'm a season ticket holder in the dog pound and these last two years have been very exciting. I believe you should come to town some time and check it out for yourself.... Almost Added: Joe Satriani's "Satch Boogie", and Danny Wilde.... Reaction records: Kiss "Reason To Live". They were just in town and put on a fantastic show and the place went nuts. Sales made a huge jump after the concert and the song is building to take it all the way... Personal Push: Joe Satriani. It's just amazing pyrotechnics guitar that blows people away when ever they hear it. We've been testing it and it really has been doing well.... George Harrison "When We" goes to heavy with retail strong and we want to be there early. Should be a big top 40 song.... White Lion's "Wait" is coming in top 5 phones. This one is definitely building with curiosity calls starting for "Children".... REM's "Finest" is an add this week. The band's been doing well from this project. They're a hot item now and it can't hurt to go deeper.... Added Mike Oldfield this week. It's great and we wanted to add it off the advance sampler that hit three weeks ago. I like the Max Bacon vocals and the overall Yes sound with Mike's guitar riff is tremendous.

Ted Habeck, WMRY, St. Louis

Five current faves: George Thorogood, Sting "Be Still", Bourgeois Tagg "Out Of The Box".... Thorogood is getting out of the box calls from WOMEN. The calls are so heavy we're gonna feature the album later tonight.... The Sting concert will be the biggest thing to hit St. Louis this year. Two sold out shows with this song one of his biggest ever.... Added the BoDeans. The first track did well enough (retail and some requests) to merit deeper play.... Since "Rain" performed so well as a single, we're going early on the Alarm's "Presence". This tune will help keep that sales momentum in line.... Went with Mike Oldfield's "Magic Touch". He certainly is an upper demo artist and oddly enough I'm getting requests for "Tubular Bells" so I know there's an audience out there for this.... Went with the Squeeze single this week. The band has always done well in this town with calls still strong for many of their catalog songs. So we're just keeping the success story of this band going with this add.... Added the Prophet for night play, with that typical good harder edge fitting right in.... I'm a real fan of Martha Davis and both singles have sounded real good to me. She deserves another try and we're giving it to her.... This week's fastest mover is definitely Michael Bolton with incredible constant phone action driving the jocks crazy.

Robin Mathieu, WBLM, Lewiston

Mike Oldfield, Bodeans, Danny Wilde, and Gene Loves Jezebel are all freshening up the 'BLM airwaves.... I've lots of faith in Danny Wilde. We added it on first listen and think it could cross-over in time.... If you receive a copy of the Inspectors new album "Hey", check out "There Goes The Neighborhood", a song about the Philadelphia fire that resulted from a confrontation between city police and the MOVE organization a few years back. The production on this track though local is terrific and the record has been performing well here for weeks.... Top phones for Great White, George Thorogood, Aerosmith's "Angel" and Def Lep's "Pour Some Sugar".... And #1 retail this week belongs to Sting.... Almost added: Jerry Harrison and White Lion.... Just starting on the phones is Aerosmith's "Angel" and "New Sensation" from INXS.... Personal push for Jerry Harrison. I love the album and hope to get on it soon.... Michael Bolton up to heavy. It's been funny with the phones on and off, but now they're on and we expect this one to be a big hit single.

Curt Gary, DC101, Washington

Added Lita Ford this week. She's finally put together a great melody with just the right kiss of crunch. It screams hit to me and the rest of the album doesn't sound bad either.... Went with the Mike Oldfield. Lo and behold, Michael is not old and in the way. "Magic Touch" is his most accessible song ever. A little tubular bell went off in my head when I first heard it.... Five current personal faves: Thorogood, Def Leppard's "Love Bites", Bourgeois Tagg's "Mind", INXS' "Need", and Zappa's "Reuben And The Jet".... Just starting on the phones: REM's "End Of The World".... Considering: Prophet, Richard Marx, Michael Bolton and Whitesnake.... Fastest mover: Unquestionably, George Thorogood is making the largest impact with phones and excitement this week.

Ron Richards, WSTZ, Jackson

Tommy Shaw's "Ever Since The World Began" will be the track that will move him back into the limelight. If you haven't added this yet, you need to add this one yesterday.... Keep your eyes on Joe Satriani. We're getting a lot of build off the "Boogie". I hear talk he'll be working with Jagger when the tour gets underway.... We already know what Mike Oldfield is capable of by his previous work.... Almost Added: Rainmakers.... Reaction track: Joe Satriani. Nothing but excellent calls whenever it's played.... Same with MSG.

Karen Anderson Small, WGIR, Manchester

Rock 01 is up and at 'em and taking it to the street. It meaning the New Hampshire Sweeps Ticket. We've got the van out every week handing the tickets out to listeners who come up to the van in a vehicle sporting a Rock 101 sticker. We announce where the van will be before hitting the road to give the listeners time to track us down. It seems there's a huge group following us wherever we go. This is called our Cash Drop Off.... NOT to be confused with \$1000 Thursday; also a promotion involving New Hampshire sweeps tickets. Listeners just love the chance to scoff up some sweeps tix with the potential to win big bucks.... Well, the music is coming fast and furious. When the Insiders "Three Five Comma Oh, Oh, Oh" came on a label-less 12", our interest was piqued and our ears hooked. What a neat track.... Mike Oldfield's "Magic Touch" has a hook with instant singability. Thanks to Virgin for the great Oldfield CD sampler.... I'm cheering on the Alarm to make it two in a row with "Presence Of Love". This album just keeps getting better with each listen.... Record of the Week: Grateful Dead "Throwing Stones" with top 5 phones. The calls have exploded and research is looking good.... CD search: Lynyrd Skynyrd's "Legend", and INXS "Kick".... Staff Faves: Sting "Be Still".

Erin Riley, WMMR, Philadelphia

I've always thought Danny Wilde was a great songwriter from "Great Buildings" down to "Time Runs Wild". Last year our own Tommy Conwell played guitar on the Patty Smyth version of Danny's "Isn't It Enough" and we did real well with it. I'm sure that "Time Runs Wild" will do great; the tempo really gets me going.... Jerry Harrison is sounding so cool on WMMR and I just knew that it would.... It seems that we couldn't deny the White Lion any longer. Pam Edwards starting working me on this record when it came out followed by Jason Flom who called to tell me that if we didn't add the White Lion record Pam Edwards would never talk to me again, followed by an effort and a half by Danny Buch. But when my local rep Frank "The Hog" Sciarra threatened to set up a pup tent in Ted's office, we finally came to our senses.... Excitedly awaiting the arrival of the Diamond Dave album tomorrow.... Record/Screamer of the Week: REM, "It's The End Of The World".

Jeff Robinson, WKQZ, Saginaw

Joe Satriani? You mean Axe Master Satch?... Guns 'N' Roses in an instant to raise your rockdogs on.... Def Lep: What can we expect? Nothing but the best.... Thorogood: A hundred miles an hour rock and roll. The stuff the Midwest thrives on. We love it.... Record of the Week: Definitely Thorogood, seems to be rock from the heartland with great reaction on the phones.... CD Search: Triumph, Surveillance and Guns 'N' Roses.... Staff faves: Joe Satriani, Def Leppard, George Thorogood and David Lee Roth.

Charlie Logan, WYNF, Tampa/St. Pete

Adding the Lita Ford. It's a hot record; a straight ahead vehicle and a good song for her. She's deserves the add.... Top 5 phones for White Lion and top sales as it's selling out all over town.... Record of the Week: "Devil Inside" from INXS. The audience has just come around to this track and this week the phones went nuts for "Devil". Lots of excitement for this band.... Almost added John Brannen.... CD search : The Connells.

Mary London, WRFX, Charlotte

Outstanding first week for Icehouse "Electric Blue" with quick phone reaction, strong enough to move it up.... Peter Himmelman continues to blow out the phones. It's now three weeks in top 10 requests with sales starting but definitely building.... INXS' "Devil Inside" has been a very successful track for us since we first played it, which was out of the box. The CHR's are now getting "Devil Inside" requests instead of "Need You Tonight" calls in this town and that just goes to show what kind of impact this band is having here.... Record of the Week: George Thorogood, "You Talk". It's been a while since we got anything new from him and those snickering little remarks at the end of the song are definitely worth the effort to strain your ears to hear.

Kim Alexander, WHCN, Hartford

What the 1988 Abrams convention means to me by Kim Alexander. "Passion"; beach walks; in the ocean with your clothes on; my big sister Christina; White Lion's (I named him Danny and don't forget my duet with Phil Collins, love, Marilyn), Clambakes, David Lee Roth; Jack and Sean (you record guys), JB, can I have my jacket back, "whisky and bad cocaine", Bodeans on the terrace, Dylan tunes on the beach, Marko's baby blues, twisting by the pool, Pam and Margaret, Bill and Bobby Z and dinner with Robbie, "There were hookers and hustlers...." Big Pig, champaign, "I heard about this place they call the Spanish Moon".

MIDNIGHT OIL

Oedipus, WBCN

Thank God, it doesn't sound like everything else. Distinctive vocal, irresistible hook.

David Sadof, KLOL

A club favorite for years, the Midnight Oil is hot enough to burn beds across the country.

Christina, WPLR

"Beds Are Burning" just surpasses anything Midnight Oil has ever done. All the hooks and harmonies are very live. I have seen them in action and they sizzle!! A truly rhythmic experience you'll not soon forget.

Deb Brady, WXXP

Midnight Oil enters 1988 with a song that captures the power and the passion of their sound. "Beds Are Burning" is an easy add.

Greg Torrington, CHEZ

The Midnight Oil is absolutely the record of the week if not the month. I've got it nailed into my cassette player in the car and it never comes out. Have you noticed how tough it is to play air guitar when you're driving a car?

Stacy Yelton, WKQQ

The Midnight Oil definitely appeals to me, and it has a different sound this time, so watch out for it. . . .

Lin Brehmer, WXRT

We all hear a lot about Australian bands these days, yet few Australian groups have combined modern music with the consciousness of concern like Midnight Oil. "Beds Are Burning" is an easy pick. Cool band, cool song. . . .
