ROD STEWART OUT OF ORDER

ROD STEWART

"OUT OF ORDER"

If you thought Rod was back to rocking on the single, just wait til you dive into album tracks like "Dynamite", "Wild Horse" and "Lethal Dose". Easily his best album of the 80's.

JUDAS PRIEST

"I'M A ROCKER"

When you're after those core rockers don't be quoting Shakespeare—and in that light this Priest anthem could well qualify as the ultimate arena rock policy statement.

Columbia

VINNIE MOORE

"MESSAGE IN A DREAM"

By now you ought to know your audience is hungry for virtuoso guitar performances, and we say this hard charging track will definitely add more rocket fuel to the fire "Satch" started.

Rod Stewart, "Out Of Order", Warner Brothers.... Hey, I knew when WB had that big fly-in to hear the record at Rod's hardly humble abode in Holmby Hills a few weeks back that they either needed help--or wanted to show off. Well, let me assure you the resounding answer to that question was option B. Talk about a magnificent come-back--and one perfectly suited to your programming needs. I've never heard him in better voice, and the playing and song selection is truly as good as it gets--from rockers like "The Wild Horse", "Dynamite", and "Lethal Dose Of Love" to tremendous ballads like "Forever Young" and even a spine-chilling rendition of Otis Redding's classic "Try A Little Tenderness". As per the single raves, Andy Taylor's rock touches ring loud and true, and with Michael Landau's second string work makes the album a real guitar lover's delight as well. With "Lost In You" streaking 15-8* this week behind 78 heavies and 36 increases, you'd damn well better get a couple of the above on the radio quicko pronto.

Judas Priest, "I'm A Rocker", Col.... A truly monster chorus is the key to crossing any serious cruncher. It's got to relate and it's gotta be singable. Now, when you're trying to get to your core listeners, what could be better than hitting them where they live--in RockWorld. Get into the head of any active metal kid and you'll find that's really the part of contemporary culture they identify with most. And other than singing "I'm an 18 year old guy with zits who can't get laid", you'd have to work pretty hard to come up with a more universal lyric than this one. The best part is that it works for any rocker from teens to 35--with Rob Halford sounding all the more mainstream as time goes on, and players Glen Tipton and K.K. Downing proving once again that they can hang with the best of hot flash kids on the circuit.

Vinnie Moore, "Message In A Dream", Squawk/Polygram.... Satriani blazed the trail--and now it should be clear to everyone that great guitar is the engine that pulls the train. Whether it's great lead--like Dokken's George Lynch, or killer rhythm work a la Alex Lifeson. Those listeners live to hear it scream--and ain't it great to have discovered they'll also go wild for a killer instrumental. Now in Vinnie's case, we're talking well over four minutes worth of world class wizardry. Vinnie's virtuoso regard is well documented in the pages of mags like *Guitar Player*, *Guitar For The Practicing Musician*, and *Guitar World*, and his instructional videos are required viewing for any aspiring player. Of course, it still takes the right track to let that talent shine through on the air--and we're totally convinced that "Message" is the 80's answer to the kind of magic that made songs like "Jessica" such staples through the 70's. Just remember where you read about it first.

RECORD OF THE WEEK

Jimmy Barnes, "Too Much Ain't Enough Love", Geffen.... As WPYX's John Cooper says, "It's got an excellent hook and the production team of Cain and Stone has given this song a fine gloss".... WWCT's Paul Nelson adds, "The Barnes has been raved about and rightly so. If this ain't a hit record there is something wrong with the system".... Well, the system sure looks like it hears a hit coming to us: New on 37, now on 122--and with play-ups on 20--for #2 on the Increase Index. Naturally, Jimmy's on fire chartwise--34-23* on the Hard Hundred. As Jim Pemberton of WLLZ says, "It's a smash. What more can you say?"

NEW PLAY PRIORITIES

Queensryche, "Breaking The Silence", EMI/Manhattan.... You know, until just about two weeks ago, I had this band down in the "just this side of Spinal Tap" category. That's probably due to the formerly really exaggerated falsetto Geoff Tate used to employ to obscure what I finally found to be a really strong instrument. He's got great range, an incredible high end (no joke), lots of control--and a song that will surprise you. Between their sizable following and the first real radio record ever--watch this space for further developments.

Boz Scaggs, "Cool Running", Columbia.... It remains to be seen if Boz's special brand of soulrock-- from "Moments" through to "Silk Degrees"--will ultimately rank in the Major Contribution to Contemporary Sound division. I'd easily put it there--and have to think there's got to be a motherlode of upper upper demo listeners who share the feeling. He practically started the whole trend towards what became the Hall and Oates platinum performance, and soundtracked out a big slice of your average 25+ listener's lives. And besides, who else could maintain their hipness factor with such lushness?

Kingdom Come, "What Love Can Be", Polydor.... The performance video just out should help to alleviate any Led Zep blowback--and who in their right mind would hesitate a minute anyway. You'd have to be pissed at the Polygram guy to wait more than a couple of weeks on this band. The "Monsters" tour guarantees press out the wazoo--and that could really take them to a new level if they do well. New on KGB, KILO, KFMG, WDVE, WBAB, WHTF and WWZU, with KTXQ, KQRS, WPYX, WWTR, KQDS, KNAC and more already in.

Icehouse, "Nothing Too Serious", Chrysalis.... Now the roll starts--with a 10 station add week complete with KKDJ, WLAV, WRXK, KSQY and WIZN. Nice head count on the key barometers, too--with KDKB, KLOL, WLWQ and WDHA among the early on's. They're on the edge; the song and band are no risk--so make Kevin Sutter's day, OK?

Hurricane, "I'm On To You", Enigma.... Good God, did KGB's Pam Edwards really call this record her favorite add of the month? Yep. She also said, "After just one play, I guarantee you'll get major requests".... More from WRUF's Brian Jordan, "It caught our ears as a basic rock track at first, but after listening more I think it will leave an impression on listeners and I'm looking for big phones".... KFMX's Jon McGann calls it "One of those hard edged tunes that draws you in and keeps you rockin' til the end".... What can you say--that "Na Na" hook is happening! In addition to KGB, we've also got new air on KFMX, KOME, KXBR, WRIK and WRUF, with KJJO upping and KDJK, KILO, KISS, KLOS, KRZQ, KTYD, WCCC, WDVE, WHCN and WHJY among those already in. 100-94*.

HARD ACTS TO FOLLOW

John Norum, "Back On The Streets", Epic.... John may have left Europe just before they hit it big--but it's his guitar that's all over "The Final Countdown". Here guest vocalist Goran Edman shows he's every bit Joey Tempest's equal in the romantic lead department--and the Vinnie Vincent penned tune starts out being a lot tougher than most of Europe's material. And as you would expect, Mr. Norum is anything but normal when it comes to coaxing out those fjord shaking leads guaranteed to melt any female viking's heart from 15 to 40. This is a hit song--take it seriously.

Stealin' Horses, "Turnaround", Arista.... And while we're on the topic of female appeal, say hello to a couple of hard charging rock and roll women with a little more leather and a little less lace. Between Tracy, Toni and Melissa the sensitivity angle is pretty well booked, and Kiya Heartwood and Kopana Terry do a fine job of shading just slightly rural. The track's got just the right edge, with the tenderness of Stevie Nicks and the punch of Patti Smyth. Take it from CFOX's Karen Hewko, "There's so little female rock on the radio that they fill the gap with an almost Hornsbyesque sound. Very down to earth."

RAM IT DOWN

“I’M A ROCKER.”

ON COLUMBIA RECORDS, CASSETTES AND COMPACT DISCS.

Produced by Tom Allom. Management: Bill Curbishley—Trinifold Limited, U.K., Anne Weldon—Left Field Services, U.S. “Columbia,”  are trademarks of CBS Inc. © 1988 CBS Records Inc.

Melissa Etheridge, "Similar Features", Island.... When we asked WIOT's Jim Steel about several supposedly hot new releases, all this normally well versed MD could say was "Melissa, Melissa, Melissa! I haven't listened to anything else for a week. The whole record is just astounding. All I can say is I'm hooked for life. It's time for Heart's Wilson sisters to move over for a while".... Then there's **WHTF's Dave Powers** and "She's like a female Bruce. I'm crazy about her stuff".... We know the female fronted rock division is in the feast mode all of a sudden--but as per the response to Tracy Chapman, it's a style whose appeal the format appears to have dramatically under estimated. And for straight female appeal lyrics "Similar Features" ranks with the best.

Alice Cooper & Friends, "Under My Wheels", Capitol.... You'll never hear Alice's remake of "Under My Wheels" under a Michelob commercial--or an Izuzu spot for that matter--but given how well remakes with a slightly different wrinkle have gone over, this should be an automatic. It's right up there with "School's Out" and "Eighteen" in the classic Cooper Cuts department, and who better to contemporize it than those bad boys from Guns 'N Roses? Look for boffo box office for at least the opening run--and we could well be witnessing the dawn of a cult classic in the making here. Also check out Lizzy Borden's "Born To Be Wild", and "The Prophecy" from Queensryche.

IMPACT TRACKS

John Cougar Mellencamp, "Rooty Toot Toot", Mercury.... One of the Coogman's best summertime top down numbers to date scoops up this week's #1 Most Added honors courtesy of 43 adds--as a total of 123 current reports and 9 increases give it our third longest 48-30* gain. It's heavy or better at 37, including WKDF, DC101, KZAP, WBCN, WDVE, WEBN, WIMZ, WNEW and WPYX. With the album already four top ten tracks deep, this one's an automatic automatic.

Henry Lee Summer, "Darlin' Danielle Don't", CBS Assoc.... As CFOX's Karen Hewko says, "Even though it's a ballad, it has that rock credibility. It has a groove that says 'Rock!'".... **WIMZ's Mike Stewart** says, "The album is incredibly strong throughout, but 'Danielle' really jumps up and gets your attention".... And from **KRZQ's Dick Sheetz**, "The overall buzz in-house has Henry Lee doing great things for us".... 31 more adds this week pumps the count to 115, with 25 already reporting it heavy and 13 increasing--including KLOS, KRXQ, WCCC, WIOT, WOUR, WKQQ and WTUE. 31-26* on the Hard Hundred. He's far and away this year's best performing new name--but hesitate on the follow-up and you forfeit your claim.

Bruce Hornsby, "Scenes From The Southside", RCA.... This might seem a little incidental--but never before have I seen two tracks from the same album nail down first and second "biggest mover" honors. Never. This week "Look Out Any Window" powers 85-52* behind 24 adds and one increase, with "Defenders Of The Flag" right behind 90-63*. It's got 16 adds, one increase and 34 aboard--including heavy action at KBCO, KOME, WIOT, WKFM, WLAV and WPHD. "The Valley Road" has no problem repeating at #1, with 23 mentions, 62 powers, 98 heavies and 29 Top 5 phone mentions. **WBRU's Ted McEnroe** feels, "If someone could take the class that Bruce exudes with every chord and put it in a bottle, the world would be a much better place".... **WWCT's Paul Nelson** adds, "He may just be The Bruce of the 90's. He does have an artistic integrity that we really appreciate".... From **KZEL's Al Scott**, "The more I listen to the album the more I am totally enthralled by this masterpiece. This is an album that we will be playing until 1999".

Paul Carrack, "Double It Up", Chrysalis.... **WHTF's Dave Powers** knows the score, "It's the strongest track on the album--punchy, a good rocker and full of life".... Anybody with even one ear will tell you it's rock radio's texture/tempo champ. We've got it #4 Most Added with 25 adds--including KBPI, KDKB, KICT, KLBj, KRXQ, WDHA, WDIZ, WGIR, WLLZ, WPLR and KILo. Also be impressed with early action on WMMR and KMOD. It's in at 66*--but rest assured that's just the start for what we think is an easy top twenty track. Debut 66*.

Toni Childs, "Stop Your Fussin", A&M.... I probably don't have to tell you how well KBCO does in numbers and demos year in and year out--and you've undoubtedly marveled at how they do it with such a wide variety of music. We'll have the answer to that question for you in the next week or so, but in the meantime, please acquaint yourself with the fact that the top 3 requests there are currently Tracy Chapman, Toni Childs and Melissa Etheridge. And that's not because there's a big nursing school in town. Or a bunch of lonely soldiers. We say all three of these artists deserve a shot--and thankfully all are different enough to work well together. Think about "Stop Your Fussin", co-written with David Ricketts of David and David fame.

Face To Face, "As Forever As You", Mercury.... One of the Boston area's best as of yet unbroken bands grabs a great first week--with the Northeast well represented in terms of WBCN, WAAF, WBRU, WCCC, WGIR, WHCN, WHEB, WHJY, WIZN, WNCS, WNEW, WPLR and WWRX--but with KEZE, KSQY, WRUF and WWWV also turning in first week action. **WGIR's Karen Small** calls it "One of my favorite adds this week. The hook is instantly hummable and this one deserves to land on the radio".... From **WAAF's Rick Mackenzie**, "This band has always had a lot going for them, and it's nice to see the label supporting them this time out".

Ziggy Marley, "Tomorrow People", Virgin.... If you're one of the 75 some-odd stations not currently on the case--and you don't believe what you've seen so far in terms of quality calls, solid phones, programmer raves and retail--we urge you to simply test the record on the air. KUPD, KLOL, WLvQ, KSJO, WHCN, KLAQ and WAAF are just some of our reporters who have come back with adds after tests. With the record up 34-31* in Billboard and 300K units in the marketplace, you know there's a huge demand. As **KWIC's Tim Kelley** says, "I can't believe the reaction. Old line Bob Marley fans are coming out of the woodwork".... **WWCT's Paul Nelson** feels, "If the Heartland can deal with this, anyone can. Up to heavy this week".... **KNCN's Tim Parker** adds, "I should have added it a long time ago. Reggae works here because of the beach. Whip me, beat me, make me write bad checks. I was late and shouldn't have been".... And from **Jeff Kent** at **WAVF**, "Ziggy is getting excellent phones and knocking down the retail".... The Zigster's 20 play-ups place him third on the Increase Index, with a 41-28* move to match. New on 23, now on 112--with top 5 phones at 12, and heavy play at 29.

Pink Floyd, "Dogs Of War", Columbia.... Isn't it amazing what a multi (is this true?) platinum album and a sellout stadium tour can do? "Dogs" stakes its claim to 20 more--with 69 total--and heavy action at WBCN, KZAP, WNEW, WIZN, WFVY, KVRE, KILo and KFMH bringing home a fat 52-40* advance.

Joan Jett, "I Hate Myself For Loving You", CBS/Blackheart.... More major adds and solid increases indirectly reflect the active audience interest in this record. As **WEQX's Andi Turco** says, "We're seeing Top 5 phones for Joan and these listeners are not kids. This is her best record in a long time".... Joan's new on 20--including WEBN, WIOT, WKDF, WKLS, WQMF, WRFx and KDKB, with KGB, KJJO, KILo, KRXQ, KSJO, WAAF, WMMR and WSHE among this week's 12 increases. Checking the phones: KATP, KOZZ, WBLM, WDHA, WPDH, WPLR, WRCN and six more. Currently on 109, up 39-30*.

John Cafferty & The Beaver Brown Band, "Song And Dance", Scotti Bros.... What can you say, this guy's good at putting down what it takes to get on the radio. Those quick listen hooks put his latest song on 19 new believers, with a 55 station total that now includes WMMR, WNEW, WLLZ, WHJY, WHCN, WBCN, WQMF, WAAF, KMOD and KFMG. It's this week's fourth longest mover, 65-48*.

Robin Trower, "Tear It Up", Atlantic.... Yet another active Most Added week has Robin back with 20 more stations--for an excellent 139 station three week total. The new moves couldn't look better--with ups from 19--including KRXQ, WDHA, WFYV, WMAD, WOUR and KCAL. **WKDF's David Hall** comments, "Our success with 'Passion' and 'No Time' from the previous album set this track up for quick acceptance".... **WEGR's Kelly Cruise** seconds, "'Tear It Up' sounds great on the air and is generating good phones, with more killer songs reminiscent of his early days on the album".... **Dick Sheetz, KRZQ**, reports, "Trower moved up a ton of slots this week based on staff interest, calls and mammoth chart action. It's the best thing he's done in a long time".... 23-16* on the Hundred.

Joanna Dean, "Kiss This", Polydor.... This track's overtly novelty approach could well have programmers thinking "one hit wonder"--but we're picking up plenty of comments suggesting that Joanna is a legit future talent to reckon with. And there's definitely no denying the phonepower--as **KRZQ's Dick Sheetz** comments, "It's picking up phones in all dayparts. Overnights I get phones, mornings I get phones. I mean, the response is coming in all the time from everybody".... **KFMQ's Joe Skare** adds, "Joanna had a great run on our 'Rockwars' feature and the audience is getting their way with this saucy female".... 15 adds make it 50 now playing, with top 5 positions from KMJX, KRZQ, WRDU, WIXV, KEZE and half a dozen more. 72-57*.

Graham Parker, "(Get Started) Start A Fire", RCA.... When a heretofore very rough cut kind of performer comes through with a relatively soft, sensitive song you never know how rock radio is going to read it--and three weeks into this particular Parker project it's obvious the change-up is appreciated. Of Graham's latest artistic vision, **Redbeard** remarks, "I had a chance to interview him recently, and his energy and clarity of vision were so refreshing. I certainly hope this record will be the one to crack it for him".... As the **Catfish, WHMD** puts it, "Subtle hooks draw in the mature listener--definitely an 18+ record. It's not a #1 single, but Graham is not a sugar-pop sell out".... Any fan has got to love the 76 station total, with 16 new, 12 ups (KBCO, WBCN, WDHA, WIZN, WWWV), and 12 heavy reports. This Report's fifth longest gainer, 60-44*.

Brian Setzer, "When The Sky Comes Tumblin' Down", EMI/Manhattan.... 15 adds put Brian just over the century mark with 103 stations--with increases from KMOD, WRKI, WSTZ, WWWV and WXRT shaking out a 44-33* move. Most of the play is medium, with early heavy action at KQRS, WPLR, WRCN, WRXK, WTPA, WRKI and KOAS. **KFMX's John McGann** comments on the ultimate test, "When I looked up in this week's music meeting and saw the PD singing it, I said 'Rest assured. This song will work given time'".... From **KZEL's Al Scott**, "Brian has a real important record on his hands. It's one of those tracks that just shines on the air. That Dave Stewart production really helps give him that special touch."

TAKE TWO

Lita Ford, "Close My Eyes Forever", Dreamland/RCA.... "This may be Lita's song but Ozzy's vocal performance almost steals the show", explains **WKDF's David Hall**, "This is the best thing out of his mouth since he bit the head off that bat. Ozzy fans and Lita fans are teaming up to light the phones for this one".... **WKDF** along with KGB and 11 others are among the adds this week and that puts the station count at 43 with KISS, WBAB, KDJK, WHCN, KLOL, KILO and WDHA some of the early believers. **KQWB** moved it to Heavy where **Ty Banks** relates, "Headbangers like Ozzy, females identify with Lita. It's an all day song...a winner".... **KRZQ's Dick Sheetz** has it in Top 5 Phones, he also registers a complaint, "I never get to play it! The guy ahead of me cherry picks it every single day".... **Dick**, move it to Heavy or Power, that might take care of your problem. Lita has a 62* this week and the future is looking mighty good.

Jerry Harrison, "Cherokee Chief", Sire/WB.... Speaking of one of the Heads, here's a guy that has his own bread to butter out there. He's also picked up a big fan, with a **Redbeard** at **KTXQ** opining, "This track is one of my favorites, it's got some incredible steel".... If you were waiting for "Cherokee" to debut on the Hundred, wait no more it's sitting at 97* and the smoking gun theory makes this one look like a big caliber, soft nose, tumble job. **KBCO** and **WRIF** didn't wait and with the stick in first all it needs is your help to shift into second. If you "Rev'd It Up" before, get your foot back on the gas and don't fear the traffic out there. If you're looking for a long successful ride, get on board.

Joe Satriani, "Surfing With The Alien", Relativity.... Question: Does **Redbeard** ever sleep? Answer: Not often it seems. But we're glad about that because he always seems to have time to comment on music and we all know what that means, it means he is actually listening to the stuff, what a novel concept! Thanks 'Beard. This time he states, "Satriani continues to burn up both phones and retail in Dallas. It's #2 sales, and we're talking pure unit count".... Isn't it funny that you can't seem to find those, "Instrumentals don't work on AOR", people anymore. They have been proven wrong as wrong can be and who did it? **KLOS**, **WLLZ**, **KGB**, **WGIR**, **KISS**, **KRQR**, **WRFX**, **KSJO**, **WVVV** and the list goes on and on, including 77 stations "Surfing" with Joe. So for phones and hot sales, let your hair down and catch a wave.

Midnight Oil, "Dead Heart", Columbia.... **John Loscalzo** at **WRCN** makes a good point, "This song is a mother, it will be bigger than "Beds". Quote me now, pay me later." I thought that was illegal? Actually we get your point John and so do 35 other reporters who are already playing "Heart" including **KROQ**, **WLLZ**, **KBCO** and **KOME**. To drive home the volatility of the track check out that 3rd biggest move on the HH to 71*. If you waited to add the first track don't get caught waiting on this one. The tour is a certified mofo and as **WIZN's Tom Van Sant** put it, "It's got a strong hook and a great upbeat sound that sticks with you." "Beds" is still at #4 on the Most Requested List, but this tune could surpass it's success with just a tweak or two from Programmers like you. According to **KWIC's Tim Kelley**, "It's the best thing off their album".... In our opinion truer words were never spoken.

Talking Heads, "Blind", Sire/WB.... Maybe the title of this song should be "Deaf" because with the current flood of interest in the band you'd have to be in the stated condition not to add it. Sure, 41 stations is a good start so far, but these are the Heads we're Talking about. With the fan base these guys (and gal) have going for them, it would behove ya' to give this cut some spins. **David Byrne** once again weaves his magic into the microscopic grooves of this track and he has done so with that funky calypso beat that's so darn good you'll probably be looking for your set of maracas. Is your audience digging Ziggy? Did the last Heads track do well for you? Are you still breathing? Then give your audience a shot at jamming with this one. A 77-64* move on this weeks Hundred, later mahn.

Operation: mindcrime

White Lion, "Tell Me", Atlantic.... "We were one of the first ones on 'Wait' and the listeners ate it up", explains **KDJK's Mark Davis**, "Now with this track, it looks like history will repeat itself".... Big sales figures, Top 5 phones and women swooning over Mike Tramp, what more do you want? A great followup track? Well, this is it. KGB, WDVE, KILQ, WRIF, KISS, WNEW, KMOD, WAPL, KOME, WHCN, KTXQ, WZEW, KSJO and WRDU are just some of the 107 reporters on "Tell Me". Now the story shifts to those precious increases in rotation, not to mention a new body glove set of leather pants for the Trampster. It's currently at 25* on the Hard Hundred. So the choice is yours, you can add it now...or talk to Danny Buch later.

The Church, "Reptile", Arista.... "How can AOR take a band's opening track to #1 and not go out quickly on the follow up", cries **KNCN's Tim Parker**, "Even if you don't like the band you should play it".... What's not to like? With the infectious guitar riff and stunning vocals this tune is a natural. KBCO leads a pack of 15 early believers helping to put Starfish at 9* on this weeks Album Chart and we look for "Reptile" to come slithering on the Hundred soon. So don't let this one crawl up your leg without getting a chance to shed some skin on your airwaves.

CHARTSTARS

Poison, "Nothin' But A Good Time", Enigma/Capitol.... **KFMZ's Mike Richter** cries, "This song screams 'Party'. No doubt about it, it's got an attitude". Speaking of attitudes, the way rock radio feels about this band has definitely changed. From what almost amounted to a total ignore mode on the last record to 106 stations strong in almost no time at all. WRIF, KISS, WLLZ, KNAC, WGIR, KDJK, WHCN, KMOD, WONE, KRXQ and KTYD are all on it. Who's new this week? How does WNEW grab you? Speaking of grabbable, **CFOX's Karen Hewko** states, "We are reacting to our listeners and pushing it up to Power rotation".... Phones have been ringing off the hook as "Good Time" jumps from 10 to 5 on the Most Requested List. **WBCN's Carter Alan** wants to know, "When is this song going to be a beer commercial?".... How about whenever it's on the air during the party weekends that are fast approaching. "Open Up And Say... Ahh!" is also loaded with great tunes, so give it a listen. 24* on the Hundred, hey Bill, pass me another brewski.

AC/DC, "That's The Way I Wanna Rock & Roll", Atlantic.... Who sells out wherever they play, has fans in the 25+ age group and has a sound that's often imitated, but never duplicated? No, not Barry Manilow, but the exact opposite end of the spectrum. These Aussie head-bangers have been doing it for so long, and so successfully, that an add for AC/DC can do nothing but good for your rock and roll profile. WMMR came on board this week along with 7 others. KLOS, WBCN, KBPI, WLLZ, KISS, WNEW, KOME, WRIF and KSJO are also on bringing the total stations playing to 97. "Blow Up Your Video" is at 26* on the Album Chart while "That's The Way" is still making it's climb up the Hard Hundred at 31*.

Neil Young & the bluenotes, "This Note's For You", Reprise.... Expect a flurry of adds soon on what **WDVE's Anthony Alfonsi** is calling, "THE song that tells it all about selling your songs for commercials. It reminds me of some of John Lennon's best protest songs".... **WDVE** along with **KZAP, WAPL, WRKI** and **KFMF** were among the 9 new adds, but the blips on our hitmaker radar are going crazy. Let's face it, who else besides Neil has the gonads to come out and say what he feels about the latest Madison Avenue craze. It was about time someone spoke up and this is just the guy to do it. Currently at 55* on the HH the track is looking stronger by the nanosecond and the Lp ain't doin' too bad either at 3* on the Album Chart. "Ten Men Workin'" is also hanging in there nice and tight at 5* here at Hard Acres.

Timbuk 3, "Rev. Jack & His Roamin Cadillac Church", I.R.S.... These days the hippest MacDonald's around has nothing to do with Ronald. If you want to cause your listeners to do a double take with their triple thick shake, just give this track some spins. **Joe Skare** at **KFMQ** says, "It's one of those unique songs on the radio that sets us apart".... Remember how cool "Future's So Bright" sounded on the air? Especially when you kicked the CHR's tails up and down that add? Think about it...the weather is getting good...why not do it again? **KGB** leads a list of 8 new stations this week, bringing the count to 96. **WNEW, KTXQ, WDHA, KRXQ, WHCN, KATT, WGIR** and **KLOL** are all part of the team effort. Dare we call it, "A Tune for our Times?" 35* on the Hundred and still full of grace. I wonder if Swaggart likes it?

Balaam & The Angel, "I'll Show You Something Special", Virgin.... It's not too early to think about the next Balaam track. Once again **KTXQ's Redbeard** leads the pack, "The recent show was so strong that we have seen a huge phone response. So this week 'Special' gets the nod".... **KNCN's Tim Parker** likes the track too, "It's a little closer to what they're all about. It has more of an edge, we like it".... So if you're in that switch mode on "Love The Things", now could be the time to give the audience a full broadside of that Balaam sound. The first track may have been a bit withdrawn for real fans of the band but it proved their ability to work on the format. This followup is a more rocking side of the band and that's a welcome continuation of their story.

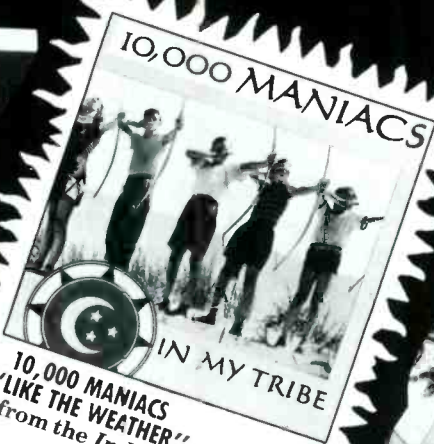

Van Halen, "Black And Blue", Warner Bros.... What more can be said, It's Eddie wailing away on his axe, Sammy belting out those patented vocals, Michael thumping on that bass and the backbeat being pounded out by Alex. 158 reporters are on it, 113 in Heavy or better rotations and that kind of emphasis play can't be gotten with trading stamps. The VH boys were 2nd on the Increase Index with 34 Play Ups and let's talk phones, "Black And Blue" has a stranglehold on the top spot of the Most Requested List. **Al Scott** at **KZEL** says, "The audience is eating it up! It really bumps and grinds its way into your living room and Eddie has one dirty guitar sound to boot".... "OU812" should be in you're hands by late next week, can you feel the anticipation? Currently at 6* on the Hard Hundred.

Iron Maiden, "Can I Play With Madness", Capitol.... When it comes to talking about this band's latest effort **WGIR's Karen A. Small** may have hit the nail on the head, "They have come up with a song that most album radio can play outside of the Metal Shop. Their most accessible yet".... **WLLZ, KBPI, KNAC, WBAB, KOME, KTXQ, KSJO, WHCN** and **WAPL** are among the 64 reporters on. So you say you've never played Maiden before. A year ago a lot of the stations that are on "Madness" right now had said the same thing and it appears to be working for them. Rock and roll has many faces and Iron Maiden is one of the most bankable out there. Don't be afraid, Eddie won't hurt you, especially when his song is at 46* on the Hundred.

ALBUM PLAY PRIORITIES

Aerosmith, "Magic Touch", Geffen.... 15 more adds this week for the boys from Boston. **KRXQ, WRKI, KMOD, WAPL, KATT** and **WLVQ** are just some of those who came on board. With the station total now up to 59, "Magic Touch" stands at 50* on the HH and count on some major video action to up the ante for these guys. What, you say you've got no room on the playlist, for shame.... **WBCN, KBPI, WLLZ, WONE, KISS, KRQR** and **KILO** all do, and these dudes don't exactly play patty cake with their playlist either. With the weather already heating up, you might as well give your audience another bit of "Permanent Vacation", goodness knows we could use one around here.

Jeff "I'm An Aries" Cook says,
WE DON'T FOLLOW THE STARS, WE MAKE THEM...
ON ELEKTRA SUPERIOR-QUALITY CASSETTES,
COMPACT DISCS AND RECORDS.

Michael Bolton, "Wait On Love", Columbia.... After the success of "Dock Of The Bay" it appears that Michael is not about to let up. "The Bolton is a great addition to our playlist", says **KFMZ's Mike Richter**, "The quality of Jonathan Cain's production really shines".... KGB heads a group of 12 new quality adds that help to bring the station total to 69. WNEW, WMMR, KRQR and WRIF make up a part of that list and the rest is all prime cut stuff. **Ty Banks** at **KQWB** moved it to Heavy even though it took a forklift to do it, "This man has that sexy voice that females seem to like." Hormone shots aside, "Wait On Love" is at 42* on this weeks Hundred, I think it's time to leave the dock.

3, "Lover To Lover", Geffen.... Pound for pound and note for note it's difficult to think of a more talented functioning trio than these guys. Emerson's lush and wide ranging keyboards and the melodic counterpoint of Carl Palmer with his sticks and skins creates a dramatic setpiece for Robert Berry's vocal. Here's another one that KSHE went on this week and that brings the station total to 20. The folks in Berry's hometown, San Jose, have been seeing good response to their early support of this cut and the story gets better with every rewrite. Already on this flourish of cinematic emotion are WMMR, KISS, WDIZ, KMOD and WGIR. It debuts this week on the HH at 90*.

MORE HARD ACTS

Tracy Chapman, "Fast Car", Elektra.... Not only are the chart moves exceptional--but when you see stations like DC101, WNOR, KTXQ, WKDF, WKQQ and even KDJK--it's obvious we're talking really broad based appeal. **KBCO's Doug Clifton** has it short and sweet, "#1 phones and #1 retail. That pretty much tells the story".... From **WEQX's Andi Turco**, "Our phones continue to ring off the wall every time we play it. We are also seeing significant sales to back up the phones".... **'KDF's David Hall** adds, "Anyone who loved Joan Armatrading should love 'Fast Car' and this song is poised to attain the success that always eluded Joan".... The request roll call appears to back that prediction up--with 19 Top fivers--including WPYX, WPLR, WNEW, WMAD, WKXL, WBRU, KRNA, KPEZ, KLBK, KATP and CHEZ. The heavy play count is equally impressive--with KBCO, KLBK, KROQ, WFNX, WLAV, WMAD, WNEW, WPLR and WZEW topping the list of 20.

Only Child, "I Believe In You", Rampage.... This week **KQWB's Ty Banks** told us, "I anticipate this rocker will be around for a good long time. Talk about a dominant rocker. It kicks!!".... **WLLZ's Jim Pember-ton** calls it "The only leftfielder that I really do like"--and let me tell you folks, this man is hard to please! Also be aware that in addition to WLLZ, KDKB came in this week, along with WWRX and KFMG. It's already on KJJO, KMOD, WBAB, WCCC, and WYNF.

Noiseworks, "No Lies", Columbia.... The leadoff number may have had been plenty slick enough--but "No Lies" has the kind of hookpower that has made Noiseworks such a big success Down Under. We're confident in predicting a big crossover future here, encouraged by early action on WDVE, KJJO, KXBR, WDHA, WRIK and WWTR. Listen and you'll hear.

Then Jerico, "Let Her Fall", MCA.... It came out of nowhere--but the call letter quality coming in strongly suggests Then Jerico is a keeper. Witness new air on KYYS, KDKB, WBRU and WEQX. And of the fifty stations already in, howzabout WHJY, WHCN, WDVE, WDIZ, WBCN, KQRS, WCCC, KMOD and KICT. 82-68* on the Hundred.

10,000 Maniacs, "Like The Weather", Elektra.... What started as a decidedly left leaning favorite is now pulling in those powerhouse commercial outlets--with KUPD, WLLZ, WDIZ, WKLT, WTPA and WAVF just adding. WAAF, KRNA, WHEB, WOUR, WRCN and WZEW show increases, with lots 'o quality in the heavy play column, too: WBCN, WBRU, WCCC, WDHA, WLAV, WNEW and WLAV included. You know we love to sock you with their sales update--and how does 360,000 grab you, complete with a seventeen thousand five day? And with things just now kicking in at CHR and AC, just wait. Also be aware that Black Entertainment Television just added it, with ongoing exposure at VH1, MTV and millions of independent outlets. At this rate, better make it Ten Million Maniacs.

The Alarm, "Rescue Me", I.R.S.... WIZN's **Tom Van Sant** is really pleased with this tune, "It's the best rock song on the Lp. So play it! They've never been a ballad band and never will be, playing 'Rescue Me' is the best way to let the listeners know that".... KSHE, along with 11 others, threw these Irishmen a rope and added it as well. Another one of those new Alarmists this week was **WKLS**, where **Beth Kepple** emotes, "The third time's the charm for the Alarm, play this cut".... WMMR, WBCN, KRXQ, WRCN and WAPL are just a few of the 46 stations on what has to be one of the most hard to put down songs from this album. Look at that healthy 10 spot jump this week on the HH to 60*.

Jon Anderson, "Hold On", Columbia.... WLLZ re-adds this week based on market response--along with new air on KZLR, WAPL and WWZU. WDIZ ups rotation, along with KLPX, WOUR, WPDH and WZXL. 51-47* on the Hundred.

John Kilzer, "Red Blue Jeans", Geffen.... There's a nice little phone build happening here, too--with WDVE, WXRC, WLZR, WEQX and KZLR joining those expected hot requests at hometowners WEGR and KWLN. We also like increased air reports from KTXQ, WDVE, KFMG, WGIR and four more, as well as heavy play from KAZY and KQRS. **WKWQ's Ron Marsh** testifies, "We put John on the air and let the people decide--and the vote of confidence has been tremendous".... **WTUE's John Beaulieu** adds, "We hear lots of good stuff on the street, he is putting out some very good, no nonsense rock and roll--perfect for the format".... and **Inessa York, KGON** explains, "We went this because it belongs in the 'just good rock' category".... Check the healthy 37-32* HH gain--courtesy of 11 more adds and 94 now playing.

Living Colour, "Middle Man", Epic.... Couldn't agree more with this from **WAQX's Lorraine Rapp**, "I can't understand why more people aren't raving about this song. Although the guitar work might be reminiscent of Trower or Hendrix, there is something refreshingly original about the song".... Gosh, it couldn't be that AOR types can't quite figure out how four black guys could rock this hard, could it? In addition to WAQX, we've also got new action at WQFM and WIXV, with WPLR increasing. Ongoing play at WLLZ, WNEW, KLOS, KDKB, KJJO, KMOD, WCMF, WFYV and more bringing the 96-93* advance.

Parthenon Huxley, "Chance To Be Loved", Columbia.... The ultra-layered production and unorthodox song structure will have you scratching your ears on the first listen or two--but "Chance" is different enough to stand out--and really quite memorable. **WKWQ's Ron Marsh** testifies, "Never have I heard production like this before. What a voice! And the song is so lush it will definitely take people by surprise".... Test it, why not?

Well, Campers, that's it for this week. Here's hoping we run into (or over) you at this weekend's T.J. Martell Rock and Bowl-a-thon in L.A. This friendly reminder from last year's runners up for the esteemed Athletic Cup (In the mail, Jon?)--we hereby say to those ringers from Chicago--Hope you've been practicing. And that goes double for you, Tommy. Between Bwana Bill's new ball, the Bouncin' Beaveman, Mud Slingin' Jim, our resident semi-pro Slats, and the Mauler we picked up from the printer we're ready to take it all!!!!

The top of the Winners Chart is seeing some new blood this week and with the pack of solid performers currently in the Top Ten it will be interesting to see who hits and who sticks. **Glass Tiger** has come up with one of the most positive response tracks to favor a relatively new band this year. Increased airplay at WTUE, WFYV, KSHE, KLOS and KGB helps to move that puppy into a 10-8* landing pattern that should help fuel continuing interest in their album. This high gloss rocker sounds so good in the speakers that stations like WHCN, KLPX, KLAQ, WRXK and WPYX are getting Power play mileage out of it. **Rod Stewart** has impacted the Top Ten with a sturdy 14-9* run this week helped along by a steady stream of increases at format leaders like WOUR, KLB, WKDF, KBPI and WKQQ. Rod has crafted a song that relies on all of his tried and true back-brushed 'do moves, but somehow the sound is fresh and easy on the inner ear from start to finish. Big phones at WONE, WFYV and KYYS indicate a big round of applause from the listener side for a song that the CHR's will be banging all summer long. Third on the list of top flight movers this week is **Robert Plant** whose "Ship Of Fools" is nailing Heavy or better play at WRXK, KZAP, WZZO, WNEW, KGGO, The Loop, WLLZ, KEZE, WDIZ and too many others to mention here. The man has outdone himself with this album

and the audience acceptance is off the scale. Look for his 15-10* move this week to be followed by more stellar growth in the future.

Our prime chartburner this week comes from the cornfields of Indiana and the fertile hit machine that is **John Cougar Mellencamp's** brain. "Rooty Toot Toot" moves 27-15* with some rotational help from WBCN, CFOX, WWDC, KZAP, WDVE and WEBN. Soon we will be playing the serial number off this album but in the meantime let's get maximum use out of a guy whose songs are past masters at radiating a good-time summer buzz. Another big chart buster is a guy who sounds like he's from Des Moines but actually hails from Australia. **Jimmy Barnes** is getting lots of critical adds on premium players like WEGR, WPYX, WHJY, KLLO, KTXQ and WNOR and the number of smash reviews from MD's across the format are increasing daily. Jimmy moves up 30-21* with a host of building rotations on WFYV, KMOD, KLB, WLAV and KBPI.

Back in the thick of things but looking like the next crop of challengers are a trio of songs from artists as diverse as is conceivable. **Henry Lee Summer** is getting a good run at the upper third of the chart with "Darling Danielle Don't". This rock solid followup is seeing an increasing level of airplay support on KLOS, KWHL, WOUR, WPHD and WTUE. With a serious 35-27* curve and new adds from CFOX, WKDF, WNEW, WEGR and WHJY it looks like this Americana rocker is going to get bigger each time out. **Joan Jett** is making it look easy with a 42-31* hike up the Winners Chart motivated by KGB, KILLO, WAAF, WMMR and WEBN. Phones are beginning to get serious and a quick overview of the album shows that this is no one song trip for Joan and The Blackhearts. Last of our backfield breakers is **Timbuk 3**, a duo with enough combined talent to fuel two or three groups at once. This album and the first single from it are a gratifying confirmation of the hints-of-greatness that marked their first release. "Reverend Jack" has his Cadillac all tuned up and his 44-36* spin on the turnpike is looking like the goods at KBCO, KLB, WHCN, WXRT and CHEZ where it gets Heavy rotational treatment. New airplay at WLVQ, WFYV, KMOD and KGB indicates more of the same in the near future.

Debuts this week include yet another **Neil Young** offering, "This Note's For You", which shows up at 42* based upon the enthusiastic response of format leaders like KILLO, WMMR, KQRS, WPYX and KZAP. The interest in this song is so intense that it has jumped a monstrous 12 slots ahead of its HH placement. Make no mistake, this is the one to deliver on with those Neil fans out there. It's a genuine pleasure to see **Graham Parker** getting so much positive attention for his superlative release "Start A Fire". This return to the format is one of the most musically satisfying songs available right now and with support from WBCN, KBCO, KTXQ, WMMR and WRXK this might be the most important song in the man's career. A 43* debut with more on the horizon and maybe Mr. Parker will finally find the success that has eluded him for so long. **Aerosmith** has emptied four or five full clips on an unsuspecting format and, guess what, they are back with a Stinger missile for your playlist. "Magic Touch" hits the Winners Chart at 45* this week and the rollcall of players reads mighty impressive, KDKB, WONE, WBCN, WDIZ, WFYV, KPOI, WHCN and KMOD. Look for yet another video to wrap up audience response and get on that gravytrain now. **John Cafferty and The Beaver Brown Band** remain one of those stylistic sensations that defy gravity with every release. This time they show up at 46* on the Winners Chart and things are looking up with support from WPLR, WBCN, WHCN, KGGO, WLLZ, WMMR, KTYD and WNEW.

But wait, there's more! **Tracy Chapman** also enters the chart at 48* on a wave of music intensive adds at WLLZ, WBCN, KBCO, WPYX and KLLO. Her tasteful reflections on life and its occasionally bruising moments have made for an impressive first time outing. With **Bruce Hornsby** locking up the top of the chart, it was about time that a depth track started to circulate and "Look Out Any Window" is the choice at 49* with play on WWDC, WYNF, The Loop, WNOR and WEBN. Our final entry this week sees **Jon Anderson's** solo project notching playlist time on CFNY, WNEW, KVRE, WLLZ and many more. The tail end of the Yes cyclone is the perfect starting point for this programmer fave.

The

Flamin' Harry Band

is burning at Album Radio!

Ted Utz, WMMR

The Flame has been burning up Philadelphia for ten years. He's taught some of the best how to play and now it's his turn in the spotlight. "Ain't Nobody" has been in heavy rotation for thirteen weeks and is a proven #1 record through callout research. And that's only the beginning.

George Harris, Harris Communications

Without naming names, "Ain't Nobody" is outperforming a number of current songs from established artists. Flamin' Harry is obviously ready for national recognition.

Jeff Kaufmann, WTPA

We've been on "Ain't Nobody" and "Life Under the Gun" for going on three months now, and we've had real good response. Reaction is on par with Tommy Conwell, who's also done really well here. We're enjoying the local angle now, because we'll soon have to share him with the whole country.

Mike Ondayko, WHTF

Flamin' Harry is what straight forward rock and roll is all about. "Ain't Nobody" has been in heavy since the album's release and a month ago we added "Life Under The Gun" because our audience wanted more. You can't miss with anything on this album.

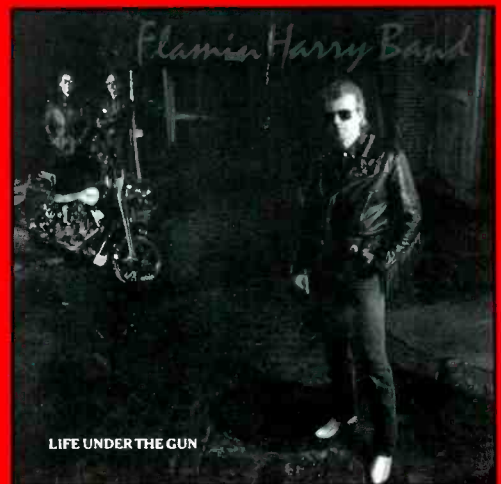

Bill Hard

Harry puts on one of the best blues rocking shows I've seen in years, and WMMR has made "Ain't Nobody" one of Philadelphia's biggest local records since the Hooters "All You Zombies". Here's a dues-paid-in-full talent who's definitely going places.

KTYD/Santa Barbara has secured the talents of Roger Mayer as their new PD in the wake of Russ Mottla's leaving for Baltimore and WIYY. Roger hails from KFMU/Steamboat where he has been GM for the last year. Prior to his stint in the front office at KFMU, Roger had been an Associate Director of Promotion at Chrysalis, OM at WIZN/Burlington and PD back at KFMU from 1981 to 1986. When NOISE contacted Roger he waxed poetic about the opportunity to pilot the heritage rocker, "What convinced me to join the team is the very impressive play of their frontline management. Russ did a terrific job repositioning the station and the possibilities inherent to working with Andrew Reimer are very exciting indeed. As for KFMU, we have put together the best small market AOR package in the country and I know that I can leave things without any worry. Tim Jeffries and the team are absolutely bulletproof." Look for Roger to hit the beach June 1. And Rog-baby, aside from the El Encanto, check out the bar at Rocky's and L'Auberge in Ojai.

KBCO/Boulder put together a music trivia contest that keys on song snips put on cassette. Anyone can enter for \$15 and the winner will snag half of all the money in the kitty. There are 5 separate categories and you can get all the required information by calling them at (303) 494-3193. Could be a winner.

KQRS/Minneapolis is preparing for their 20th hoo-hah Birthday with a major league Pink Floyd show in the Metrodome. Before the show they will conduct a karmically correct pig roast in the parking lot and serve up the world's largest pink birthday cake for desert to the thousands expected to show up.

WTKX/Pensacola announced the promotion of Steve Smith from within the staff to the newly created position of AMD. Steve will take music calls on Friday from 10:00 - 12:00 noon. Call him up and give him a few penguin jokes.

Enigma recording artists the **Del-Lords** launched their most recent album with a beans bash at New York's famed Exterminator Chile. Pictured are the band with Manager Mike Lembo and Enigma's Tom Cording.

WKLC/Charleston is still looking for talent for their Free Fourth of July Concert. Last year they had the Hooters and the Truth show up for a crowd of 70,000 plus. The show is a bona fide local smash and bands interested in a great venue chock full of retail potential should contact Duane or Brian at (304) 722-3308.

WONE/Akron is digging deep in their promotional pockets and kicking in \$10,000 for the listener that comes up with the most creative way of displaying their call letters. So far they have seen locals parading an array of painted cows, a locally produced commercial aired on MTV, a body arrangement on the Kent State Campus and a surgical scar reported by a recent brain transplant recipient.

WMMR/Philadelphia threw an intimate little party for 50,000 friends to celebrate their 20th Anniversary. The Spectrum rocked the whole night long to a hotter than hot Glen Burtnick band, homeboys the Hooters and an acoustic tour de force from Steve Howe. As the night unfolded; WNEW's Dave Hermann got a huge reception as WMMR's "First DJ", Morning guy John DeBella got to say the F-word. The crowd showed a tremendous sense of enthusiasm for the entire event and the thousands more that heard it on the air were equally treated to a one of a kind showcase. Pictured are John DeBella with Roger Glover, Joe Bonadonna with a few of his closest friends and the staff of WMMR, past, present and future getting a rousing welcome.

WGIR/Manchester has joined forces with their sister station in Manchester, England to help get John Lennon a star on Hollywood Boulevard. The TransAtlantic campaign has been heavily cross promoted via phoners and petition exchanges and it looks like this sort of platform may be the beginning of an ongoing relationship between the sister cities. You might also want to contact a station in Australia or Europe and generate some international vibe yourself.

KFMH/Davenport is looking for some all-night female talent, (what an opening line), and they want your T&R right now. Get that package to Steve Bridges c/o KFMH, 3218 Mullberry Avenue, Muscatine, IA 52761.

WKDF/Nashville lined up a hefty roster of players to entertain the masses at their One For The Sun benefit concert. John Kilzer, Cinderella, Joanna Dean and Richard Marx have signed on the dotted line for a show that will raise money for a local charity.

WKFM/Syracuse announces the addition of Maura Howe, formerly with WIBC/Ithaca, to their airstaff. Maura joins after Steve Lewis jumped ship to crosstown rival WAQX. For the time being she will handle weekends as Brian shuffles things around once again.

WWRX/Providence is looking for part time airtalent to join the team. Get your T&R to Dave Richards at WWRX, PO 325, Westerly, RI 02891.

WEBN/Cincinnati called to contest our story regarding Arthur Penhallow's claim to the longest tenure at one station in the format. Arthur recently celebrated his 18th year at WRIF/Detroit and, that seems like plenty of time at one board for the average broadcaster. Well check this out, over at WEBN Ty Williams has been on the air with the station since before there was a format, circa 1967. When we contacted Ty he was just waking up and a little bemused by the whole issue, "Well, I did take a year off in 1970, but otherwise I have been here the whole time. My family is here and I don't have any real drive to 'make it' in the conventional sense. I've seen lots of people leave the town only to turn around and come back." Must be so, Mike Luczak just returned for afternoon duties at the station after spending some uptown time in Chicago. It must be the water, or maybe the Reds.

KSJO/San Jose morning meister, Perry Stone, in a reverse slow-mo playback of Bob Rivers' Orioles antics, recently vowed to stay on the air until the streaking A's of Oakland town actually notched a loss. Well, that was all it took. Sixteen and a half hours later the A's lost for the first time in 14 games. Stone's stunt pulled in TV and Press coverage like a magnate and Perry promised to once again stay on the air non-stop when the Athletics take the AL West Championship, Pennant, Series, et al. Given the negative impact of his first on-air attempt for the team, the superstitious A's Manager, Tony LaRussa told Perry, "Don't do us any favors."

WZXL/Atlantic City got the "Best Radio Station" appellation in a recent issue of Atlantic City Magazine. The station's fictional Governor Fudd, Governor of South Jersey, was given the nod as "Best Radio Character" in the voting. Aw you wistning out dere?

WDHA/Dover is getting together with the organized families of POW/MIA's for a special Memorial Day campaign to support their efforts in maximizing awareness of the issue with the public. With the large amount of travel that goes on during that weekend the station encourages other broadcasters to join them in getting motorists to drive with their lights on during the long holiday weekend as a symbol of remembrance. The station is also working on the U.S. Congress for a special declaration to mark the event and would appreciate the backing of any interested stations. For more information contact Kathy Miller at (201) 328-1055.

WLLZ/Detroit brought in Rockzilla and his boombox to kick off ticket sales for the Monsters of Rock tour. Things went fine until Mothra showed up with a portable CD player as big as a locomotive. The resulting clash left five city blocks demolished but nobody seemed to notice.

KDXR/Amarillo continues to anguish over FCC clashes and ownership problems. The station was reportedly being purchased in-house by a senior investor but that deal is stalled over terms. At the same time, the station is doing some major FCC wrangling over a temporary permit, (their second in a month), that would give them the right to broadcast while their new tower is under construction. Looks like a few weeks before that gets resolved, which on the Federal Bureaucrat Time Standard, could mean a long dark summer in Amarillo if somebody doesn't get it together.

KZEW/Dallas and comedian Gallagher will be throwing a musical benefit of sorts at the Hard Rock Cafe to get more decent rock and roll into Russia. Gallagher will be on hand for a live broadcast and the station will encourage listeners to bring down old copies of their favorite rock albums to be shipped off to the Soviet Union. I guess they will disguise them as tractor repair manuals and pay off customs in blue jeans.

KFMQ/Lincoln MD Joe Skare celebrated the big 3-0 with a few hundred friends recently. The gang took over a local watering hole called WC's, (short for toilet in Europe), and proceeded to get good and sloppy. Our congratulations Joe on turning the corner to a warm and fuzzy middle age.

WMMR/Philadelphia is putting on a Flamin' Harry live broadcast May 17th. The show will be coming out of the Trocadero, (great bar-greater hall), and count on that Flamin' frenzy to spread into an unquenchable blaze. Then on May 22nd the city of brotherly love will join the station to throw their Fourth Annual Louie Louie Parade. The mighty throng will gather to help raise money for the Luekemia Society Of America in their battle against the dread disease.

WBCN/Boston clinched First Place with their public affairs program, Boston Sunday Review, in the most recent competition held by the Massachusetts AP Broadcasters. The notables involved are Mat Schaffer and Katy Abel, who produce and host the show in tandem.

KRQR/San Francisco MD John McCrae in conversation with INXS's Michael Hutchence and Kirk Pengilly after a sold out show in the Bay Area. In this shot the boys from down under are marveling at John's beard. "It's nothing", said John, "You just don't shave for a couple of weeks." To which the guys replied, "Shave? Shave?" John gave up on the concept. So do we.

WCCC/Hartford has gotten their programming house in order with the announcement that Joe Marino joins as MD and Ted Sellers gets the nod as PD.

KFMQ/Lincoln MD Joe Skare celebrated the big 3-0 with a few hundred friends recently. The gang took over a local watering hole called WC's, (short for toilet in Europe), and proceeded to get good and sloppy. Our congratulations to Joe on turning that corner to a warm and fuzzy middle age.

SPOT THE HIDDEN PHRASE

Those of you looking for that much discussed and nearly libelous line in this weeks sheet can cease your searching. The mystery slam that our highly paid legal team told us to delete was, and we are quoting now, "scum sucking degenerate." Now all you have to do is find the place where the phrase fits and insert at will.

"As I sit staring at Sherri McGee's sunglasses, left on my desk when she and Dan and Scott brought me their new CD, I am thinking about how this band, VELVET ELVIS, has worked so hard to get where they're bound to go. I have danced and sung with Velvet Elvis since I arrived in Lexington three years ago. They have competed in our local band competition, and opened shows for Rob Jungklas and Henry Lee Summer. Velvet Elvis. Listen to the record, play the record, remember the name, over and out."

**THE NO SPEAK INTERVIEW
YOU HEARD IT FIRST**

(BUT NOT HERE)

One of the most interesting permutations on the label frontier has been the recent creation of the No Speak label out of a roster of artists that would otherwise have been signed to IRS. The music on these releases has found its way into our speakers at the HARD REPORT on more than one occasion and whether it served to sooth the savage beast on deadline day or to (clap) pump us up when the going got slow, the effect has always been a welcome one. The class act rock of Wishbone Ash, (Miles Copeland's first management signing), and the stellar work of Pete Haycock and Stewart Copeland made the first batch of releases a treat for music lovers everywhere. Let's not forget the William Orbit contribution which helped focus attention on one of the most gifted and energetic musical lodestones on the scene today. After wearing out the vinyl on my first set of No Speak albums, (and in the vain hope that CD service will follow this article), I got on the phone with the IRS grand poobah of promotion Barry Lyons to discuss the future face of Rock and Roll without words.

Jim.... Would I be correct in categorizing this No Speak effort by IRS as one of the most adventurous efforts yet from a label that has built a reputation on innovation?

Barry.... mmph...mmmmhmm.....

Jim.... A lot of this No Speak material is being referred to as instrumental rock for the Nineties. Are you actually saying that rock without lyrics can be more than just filler for the format?

Barry.... bzzzt...mrphelpg....

Jim.... Many new age stations play this material but a lot of mainstream AOR's have found the audience response to this music very positive on their New Music shows and sometimes even on regular rotations. Does this mean that the appeal of No Speak is destined to expand well beyond the narrow limitations of the New Age format?

Barry.... ruh roh....

Jim.... How do you respond to criticism that this is just a watered down attempt to superserve the New Age format?

Barry.... #**@!!#**....

Jim.... This music seems to work very well with a rock audience that is currently being underserved by the format. I'm talking about the 32 year old listener who grew up with rock music and has stopped being responsive to new music, not because they don't like new music but because there hasn't been that much new music targetted at them that is relevant to their musical needs and lifestyle. To be more specific, isn't one of the problems in getting older listeners involved with new music that they have a difficult time getting next to songs that have a lyrical content more appropriate to 18 and 20 year olds?

Barry.... hommina hommina hommina.....

Jim.... Wouldn't this also explain why a record like Joe Satriani, which some programmers initially categorized as metal, tested so well with 25-34's?

Barry.... mmmhmm....

Jim.... As for the artists involved, Pete Haycock used to play with the Climax Blues Band and Wishbone Ash was certainly known in their heyday more for their screaming twin lead guitars than they were for their singing. Do you agree that this is an indication that the current generation of listeners, raised on the musical virtuosity of Jimi Hendrix, Duanne Allman, Keith Emerson, Carlos Santana, Jorma Kaukonen, Eric Clapton and Frank Zappa, still have a thirst for the great playing epitomized by our past?

Barry.... rhubarb rhubarb rhubarb.....

Jim.... Does that mean that the future of the No Speak label could include releases by artists like Rory Gallagher, Robin Trower, Randy California, Steve Hunter and more?

Barry.... uh huh.....

Jim.... Don't you think that this music would spice up almost any AOR playlist that isn't hopelessly mired in the stoneage?

Barry.... ungh fatang zrrboing.....

Jim.... Thanks for your time it's been a pleasure uh, speaking with you.

JIM TRAPP

But if songs must have words then they could hardly have words more in tune with the times than this little ditty submitted to us here at the HARD REPORT by Hugh Ben Stuckk.

NANCY WOULDN'T LIKE IT ANYWAY
(Sung to the tune of Bad Moon Rising)

I've seen Khoemeni on the rampage
I've put Khadafy in his place
I knew that these things would all happen
Cause my stars were in the right place

When my constellations clash
I'd just as soon haul trash
But Nancy wouldn't like it anyway

I kicked some big butt in Grenada
I did it cause Mars was on my cusp
When Jupiter aligns itself with Pluto
I know the Russians I can trust

In the crystal ball appears
We can't take four more years
George Bush reads tea leaves anyway

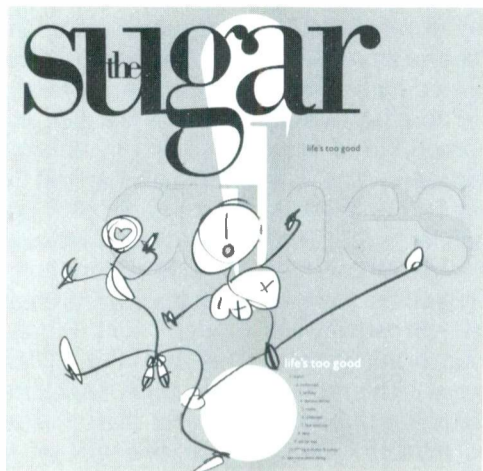

Solo (If the stars permit)

My cabinet's making big bucks on their novels
I say it's just cheap expose
Looks like my horoscope is Doo-Doo
I guess Noriega's gonna stay

My stars would not align
So that treaty I won't sign
Nancy wouldn't like it anyway

(Repeat until nausea sets in)

PICK

Sugarcubes "Life's Too Good" (Elektra) An import single of "Coldsweat" has fueled a continuous buzz since late last year, and now the rest of the story continues with the new chapter for Iceland's Sugarcubes. It isn't hard to predict that their first domestic release should cause a gigantic wave of reaction, because the musical events on this record stretch the imagination while the rhythm patterns hold you tightly in their eclectic grasp. The sparse, atmospheric guitars lay a peculiar foundation invaded by the banshee-esque holler of vocalist bjork, who from the first moment sings every note like it's her last. Somehow traveling the middle ground between Nina Hagan and Cindy of the B52's, she growls heavy melodies mixed with moments of bittersweet pop and the haunting result compliments the art and music stance that the group represents. Their approach may be drunk with free form beauty but all of the stray pieces are in place, making this album a potent first taste of the Sugarcubes. Get out of the state your in, and head Northeast to sample the chillin' effects of "Blue Eyed Pop", "Birthday", "Traitor" and "Delicious Demon".

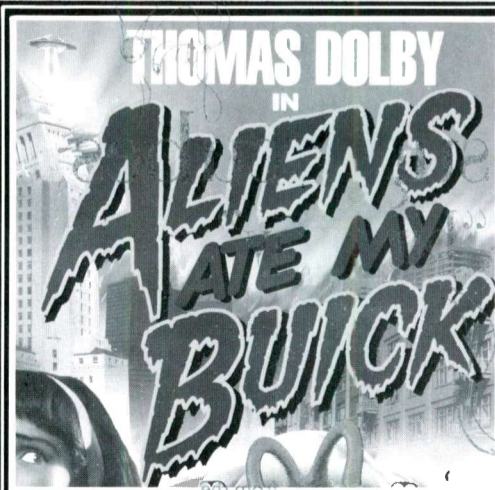

NEW RELEASES

Jesus And Mary Chain "Barbed Wire Kisses" (WB) Highlighting the B-sides of JMC's young career, "Barbed Wire Kisses" is a potential time bomb of joy for the band's impressive followers who are unfamiliar with the even darker, louder and ghastly side of the hit-powered U.K.

quartet. A brief look back finds them unleashing that ear piercing assault of "Never Understand" (which is luckily not included here), on an Ep that turned us "Upside Down". Then came the riotous 20 minute gigs leaving mayhem behind on a regular basis. It was a brief portrait of the late 70's punk movement until they tore down the wall of feedback for a laid back look at the real music below. Since the "Psychocandy" and "Darklands" albums, the Jesus And Mary Chain are true college/alternative staples and this retrospective is not only hot radio fodder, but a worthy collection for catalog-loving admirers. It includes other versions of "Taste Of Cindy" and "Don't Ever Change", plus the demo out-take of "On The Wall". The new single "Sidewalking" pays tribute to their old style with catchy beat box percussion and "Kill Surf City" is a summer gem for unsuspecting listeners. Just a little sun burn for ya.

Then Jerico "First - The Sound Of Music" (MCA) First - the unstoppable high energy of Then Jerico's brand of pop rock is so obviously appealing, that you may slough it off because there's not some weird twist or lopsided novelty surrounding their latest release. Listen to "Let Her Fall" or "The Motive" again and you could be talking about these guys two weeks after the fact. Ok, this is another U.K. pop band in the making. But so were the Smiths, Echo and even New Order and I don't know a dance club around whose patrons who turn a cheek away from catchy Euro-dance songs. The brightly produced guitars and Shaw's emotional vocal presence lend more to this band than you think. Charlie Sexton adds backup vocals and guitar on the single, and leaves not a trace of speculation that the potential crossover is a fine tuned offering that could be a summer smash.

Parthenon Huxley "Sunny Nights" (Columbia) Whether or not you think Parthenon is an unusual intro for this worldly solo kind of guy, his music is easy to relate to, although at sometimes the lyrics make you feel like a walk in the clouds. For every cosmic interpretation on Huxley's debut album lies a pure pop hook in its midst carried by a smooth but dominant voice. The worldly remark refers to his teenhood in Greece and college years mingling in North Carolina's much sought after music scene, working with the great Don Dixon and developing those alluring passive pop sounds of the south. As he launches these colorful influences into orbit with an electric edge, Parthenon Huxley draws a fine line between commercial production and the individualism of style. A whisper from rock music's earlier days with shadows of the present are the right ingredients for the subconscious flower children in all of us. "Chance To Be Loved" is the lead track with "Button" following closely behind. Also check "Double Our Numbers" and "Don't Worry".

The Geffen Records alternative department, Mark Kates Inc., has been gearing up for the long awaited return of the Chameleons U.K., except the band has rearranged a bit and chosen the new name of **The Sun And The Moon** to accompany their next fine release. "Peace In Our Time" is the first single from the forthcoming album due June 7th, and the unmistakable voice of Mark Burgess reassures us that the transition has been a smooth one. Ex-Chameleons John Lever and Mark are joined by two new members, Andy Clegg and Andy Whitaker. The ethereal texture of the first single, laced with quieter moments and the slight build in tension mark the elegant approach that made the band an art rock lover's dream. The Sun And The Moon certainly pick up where the Chameleons left off.... The new **Crowded House** album will be titled "Temple Of Low Men", scheduled for a July 5th release on Capitol Records.... From the cultural wizards at Bar None Records (611 Broadway Rm 616, NY NY 10012) comes the newest album from Austin's **Glass Eye** - that's Glass Eye from Austin, Texas. This adventurous outfit experiments with a series of pauses, chops and stops set to a folk/rock tone that sometimes mirrors Jethro Tull in one instant and 10,000 Maniacs in another. Their music boasts momentary thrusts of energy with neatly placed percussion off the beaten path, and clear vocals shared by Brian Beattie and Kathy McCarty. Nothing less than intriguing, Glass Eye hones a perplexing style introduced on 1984's "Marlo" Ep into a challenging assemblage of new fangled songs. Outstanding tracks on their new Lp titled "Bent By Nature" include "Parking Space", "Comeback" and "Dimsey Naish" (written by Dimsey himself). Their anthems are unlike any other, from a band of inspired conceptualists who stand alone in the evolution of inspired music.... **Joe Jackson's** double live album, "Live 1980/86" is nothing short of spectacular, including such greats as "Look Sharp", acapella and acoustic versions of "Is She Really Going Out With Him", "I'm The Man", "Sunday Paper", "Breaking Us In Two" and much more. There's no telling what the new wave, pop, jazz artist extraordinaire will do next, but capturing some of his finest work live is more than a treat.... The **Big Pig American Tour** begins on 5/18 in Santa Clara, CA and continues through 6/12 in Washington DC. A&M has the rest of the scoop.... In the first of many updates, **PETA** (People For The Ethical Treatment Of Animals) is hosting the first ever Animal Rights Music Festival in Washington DC on June 11th. The event will take place at the Sylvan Theatre by the Washington Monument from Noon till 6PM and thousands of people are expected to turn out and support this worthy cause. Acts scheduled so far are Lene Lovich, Nina Hagan, Howard Jones, the B52's, Natalie Merchant and Robert Buck, Guadalcanal Diary, Rue McClanahan, Betty, Mink Stole Exene and more. For more information call 202-726-0156 and please - be there.... **The Lodge** consists of John Greaves, Peter and Kristoffer Blegvad, Jakko Jakszyk and Anton Fier, collaborating

on their first album, "Smell Of A Friend" on the Antilles division of Island Records. Heavily focused on lighter fusion and jazz with a definite mature pop appeal, the musical sophistication and smokier blues undertones make this project more than a jam session. Visions of Golden Palominos dance in my head, probably due to Fier's superior work with that collaborative group. Greaves worked with Henry Cow and Robert Wyatt and Peter Blegvad with Arto Lindsey, Carla Bley and John Zorn. The result is a culmination of experience and skill on this intelligently produced debut. It's the kind of popular music that the Big Apple should be known for.... **Toni Childs** is a stunning new vocalist who debuts her "Union" Lp on A&M Records. Toni's rich voice rides high on the musical theme of African rhythms with additional backing vocals from Swaziland's Sibane Semaswati Singers, who she selected with the help of producers David Tickle and David Ricketts (another David + David). The spiritual innocence on the album is just brilliant, and song popularity seems to be in favor of "Stop Your Fussin'" at this early stage. She won't be an album airplay priority for long, because Toni's talent is strong enough to exceed format boundaries. Listen now.... The Cassandra Complex "Grenade" Lp is available through Fundamental Records. Dark body music that floats on a stream of guitars and overdubs, with lurking vocals are a hint of how the Leeds based band structures its sound. The electronic style and lack of emotion is great for straight faces, but dance club poseurs rarely smile anyway. It is trendy, and it is good, especially for the Red Lorry Yellow Lorry, Trisomie 21 and Revolting Cocks types.... From the KUSF/San Francisco Demo Tape Show comes "a KUSF compilation" on Germ Records (aka Germs choice). It's going to take some kinda music scene to change my mind that the City By The Bay isn't one of the best underground meccas today. That was stated when the "View From Here" compilation arrived last year. Monks Of Doom, Carnival Law and M-1 Alternative strike a familiar chord along with newer and equally impressive songs from Shiva Dancing, Capture The Flag and Mood Swing. The tables are turning and SF's a good example for other college stations contemplating a project such as this. Other recent regional collections include "Mental Floss", a Brunswick, and "You're Soaking In It" (Philadelphia area) and the best local Canadian bands represented on the CHEZ fm "Share Chez" compilation.

19 OTB adds including WRAS, WXRT, WXXP, WHFS, WMDK, KJET, WOXY, KUSF and more.... Lin Brehmer at WXRT calls it "Record of the week. This is a gloriously varied piece of work. 'Eye Of Fatima' is bare knuckled American rock".... KUPD's Virgin Vinyl host Jonathan Rosen says, "Their major label debut may be missing the biting novel humor of earlier gems, but musically this long time fave will win many new listeners with songs like 'Turquoise Jewelry' and 'Eye Of Fatima'".... Paul Kriegler at KRCK says, "I was afraid that when Camper Van Beethoven got signed to Virgin they'd take the high road. But the new album is great!"

Soul Asylum "Hang Time" (Twin Tone/A&M) The major label outing for these Minneapolis rock godz is enough to make any Mom proud. Seriously, never in the last two years did I picture these guys spinning on album radio stations, and now it looks like a glorious reality. "Sometime To Return" is their most accessible song to date, and any college music buff will clue you in. Now at 39 Hard stations, early support includes KABL, KQRS, WQFM, WOXY, WLLZ, WLAV, WHTG, WBCN, KQRS, KMOD, WXRT, KQDS and WRCN. With Top 5 requests in their hometown at both KABL and KQRS, look for more stations to follow suit.... WRCN's John Loscalzo asks, "Remember rock and roll? Soul Asylum brings back the excitement of rock and roll in person and on vinyl, believe me".... Butch Lazorchak, WWV, "It's raw with hooks a plenty. They're on the edge of becoming stars".... Doris Duwe, WTSR says, "The single is doing phenomenal here".... and from WHTG's Mike Marrone, "Already in the top 10 requests, this song is catchy with great hooks and it's becoming a staff fave".... KJQN's Mike Summers reports, "The single is getting good reaction on specialty play, which leads me to believe we'll work it in full time."

The Young Fresh Fellows "Totally Lost" (Frontier) Another impressive first week showing finds the Fellows in good standing at stations like KJQN, KRCK, WKXL, WBNY, KABL, KACV, KCPR, WHTG and more. Already media stars in their home town of Seattle, the band continues to solidify in pockets of the national rock scene. And if you're still doubting, just get out to a live gig and then change your mind. You can't deny the character in "Everything's Gonna Turn Out Great", or the lively lyrics in "Universal Trendsetter". This is truly a modern rock band with no tricks, gimmicks or false pretense. When you play the Fellows you have to mean it, and by the sound of goods on "Totally Lost", I think you've just met your match. New at 47*.

Velvet Elvis (Enigma) The biggest alternative mover this week is soon be sitting in the Hard Hundred with their velvetized "Over And Out" single. Much more than filtered down southern pop, I repeat that this band has a big reason to break out of Kentucky; lots of song writing saavy, and the production to make it stick. Already at 23 stations, airplay high-

lights include WXRT, WKQQ, WHTG, WMDK, WVVV, KFMH, WKXL, WOXY, KRCK, WRAS and WHFS.... Here's the word from WBER's Andrew Chinnici, "This is an easy record to deliver to our audience. The production certainly lends to their sound, with pleasing melodies throughout the whole album. Definitely a hit record."

Pixies "Surfer Rosa" (Rough Trade) No doubt that this is one left field success story that's blowing out in the alternative radio arena. Look to the top of college charts and you'll see what I mean. Now at 22*, the Pixies are achieving remarkable but deserved airplay, especially with the commercial slant present in the progressive radio sample. Who says you can't love a non-conformist? This Boston area band has been gearing up for a release like this since their debut last year, and the response was definitely waiting in the wings.... WUOG's Larry Lumb notes, "Because of response on their last record, the new one was received rather quickly. The fact that Steve Albini produced adds a cleaner edge to the sound".... Paul Kriegler at KRCK observes, "The Pixies are such a unique group that many people are calling out of curiosity for 'Surfer Rosa'".... Tim Ziegler at KUSF says, "A great record, and I'm looking forward to the tour. The lyrics are different and funny".... WBNY's Adam Langley endorses, "That Pixies album - I love it! It kicks my ass! I've been listening to it all weekend."

Stump "A Fierce Pancake" (Chrysalis) If one thing can be said about Stump, they always give you plenty to think about. A pleasingly produced American debut finds them hot wiring college radio at a fast pace, with songs that will never be imitated and music that's fun and challenging from start to finish. "Alcohol", "Buffalo" and "Charlton Heston" lead the pack of vinyl mind benders.... Consistent play at WBER, KRCK, WFIT, WRAS, WRVU, WXCI, KABL, KCMU, KCPR, KUNV, WHFS, WXXP, WKXL, WWVU, WHTG and more brings them onto the chart this week with a 49*.

Peter Murphy "Love Hysteria" (RCA) Peter has practically matched the rave factor surrounding Ziggy Marley, as the album advances to 3* this week. As Murphy travels coast to coast, he's leaving stunned audiences behind and now claiming the music press as well.... Ivar Hamilton at CFNY says, "Peter Murphy continues to be a hot album on our airwaves and is definitely a favorite among the jocks".... WBCN's Carter Alan adds, "'All Night Long' sounds great and is well worth adding and playing at WBCN".... Mike Summers at KJQN notes, "This record sounds more like his work with Bauhaus than the last solo release. People are making the connection and the more we play it, the more we like it".... Paul Kriegler at KRCK says, "'His Circle And Hers Meet' is our followup track. He's the Bowie of the nineties, meaning he has a sound all his own".... WFNX's Bruce McDonald says, "He kicked off the tour in Boston and the song is picking up request momentum. It's a commercial sounding record without

losing the alternative status. Personally, I don't mind if he crosses over and stays true to his original audience".... New at WXRT, CHOM, WLAV this week, the total reaches 46 Hard reporters including KBCO, WXXP, WHTG, WHFS, KROQ, WRCN, WFNX, WBCN, WDRE, CFNY, KTAO, WFIT, WMDK, WRAS and others. The sprint to the top of the progressive chart narrows.

HEAVY HITTERS

Queensryche, "Operation: Mindcrime", EMI/Manhattan.... With the record hitting hard on metal programs last week, it's no surprise that this band leaped up the Hard Hitters chart with a 28-5* move, while landing the #1 Most Added Metal for the second week in a row and moved 7-3 on the Most Requested Metal chart. This week "Breaking The Silence" goes out to AOR so the next couple of weeks should be very interesting. The record could prove to be too political and unnerving for many mainstreamers to approach. If they don't - they're fools. It's a masterful display of intellect and musical creativity. For a relatively young band, they've leaped beyond many of their peers as well as many of their predecessors in style, content and innovation. Listen to the words of YOUR peers. WUSB's Raz Cut says, "Queensryche adds a revolutionary twist to the integration of "The Warning" and "Rage For Order" to yield "Operation: Mindcrime". An album with unprecedented force and vitality in both lyrical and musical content...", and from 'GIR's Mr. Mike comes, "It's here, it's here! Queensryche's full length motion picture album.... I will say that this Lp is, in my opinion the first metal Lp of the 1990's....it's sheer brilliance." Bill Fischer of WJUL raves, "One week added and already Queensryche is in our Top Ten....I too must utter the word - brilliant....I've learned not to doubt Queensryche's ability," and Scroggs feels, "Operation: Mindcrime will be a blueprint around which other bands can plan their trendy imitations. It should be a classic for years to come." Such is life in the world of a Queensryche fan.

Vinnie Moore, "Message In A Dream", Squawk/PolyGram.... 1988 is quickly proving to be the year of the guitarist. With the impressive success' of guitarists like Joe Satriani, David T. Chastain and more recently Ronnie Montrose, the doors have virtually been opened wide for 24 year old Vinnie Moore. He's no stranger to the music world and has already achieved the respect and admiration of his musical peers as well as his fans. His first record "Mind's Eye" (on Shrapnel) was well received and set a new standard in technical playing. With this latest record "Time Odyssey" he shows new growth in emotional content and further exhibits his incredible talents as a guitarist/composer. "Message In A Dream" was the standout track for us. It has a three-part intro that borders on dreamy, but then it snaps into a mid-tempo tune that is full of interesting changes and really picks up and builds as it goes along. It's one of those pieces of music that should do well on AOR as well as with hard rock audiences. "Message" can also be found on our Hard Hitters CD, so give it a listen. This week it gets air at: KTEC, WHJY, WKNC, WRCN and WVVS.

The Top 40 Airplay Chart combines airplay point totals for "12" and albums listed by commercial metal and college reporters

"The Decline Of Western Civilization Part II -- The Metal Years" Soundtrack, Capitol.... Megadeth, Metal Church, Armored Saint, Motorhead, Rigor Mortis, Alice Cooper with a little help from friends W. Axl Rose, Slash and Izzy Stradlin' from Guns N'Roses, Seduce, Faster Pussycat, Lizzy Borden, and Queensryche. Is this a dream? Better yet, it's a movie. Looking at the list of artists was fun, now look at the featured tracks, starting with the Alice/Axl connection. The cut is a remake of Alice's classic "Under My Wheels" and it rocks. The other remake on the Lp is Steppenwolf's "Born To Be Wild" recorded live by none other than Lizzy Borden. The other live cuts are Faster Pussycat's "Bathroom Wall" and Seduce's "Colleen". Also included is the unreleased studio version of Queensryche's "The Prophecy". Included for the knowledgeable thrasher are Megadeth's "In My Darkest Hour", Metal Church doing "The Brave" and Rigor Mortis with "Foaming At The Mouth". The other thing to look for on this excellent compilation are special messages by Gene Simmons, Alice Cooper, Rikki Rockett and Steven Tyler. One could easily program an entire show around this Lp. Why not try it?

Judas Priest, "I'm A Rocker", Columbia.... Well, with "Johnny B. Goode" now fading from the airwaves and into "Classic Covers History", it's about time we got some new material to sink our teeth into. The Priest is back with a vengeance and just in time, with legion of fans chomping at the bit. First out is a stompin', rocker type anthem that will instantly get the heads of many a fan to bangin'. As with most of their music the dual axe attack is right up front and in your face, with Tipton and Downing sounding particularly strong and energetic. Rob Halford is definitely coming into his own as a singer and carries the "I'm a rocker....and no one can take that away" theme with a determined air and power that's sure to cause the masses to rise up and proclaim their right to rock. Early ears on the rest of the record assures that this band is moving into the late '80's and 90's with a renewed vigor and are learning to stretch their musical style just a bit farther. It's some of their most unique material to date. "I'm A Rocker" will without a doubt storm the charts on the metal side of life as Priest continues to be a major force to contend with.

John Norum, "Total Control", Epic.... Europe's former guitarist extraordinaire has finally returned to the music scene with his debut solo release. The record has a lot of that commercial Europe sound to it, but it also has a lot more edge and John's signature guitar sound is presented in all its technical and stylish glory. He has managed to capture a lot of different feelings and textures on this project and it is especially evident on songs like: "Let Me Love You", "Too Many Hearts", "Law Of Life", "Wild One" and the emphasis cut (which is a Vinnie Vincent song) - "Back On The Streets". While the overall sound of this record may be too commercial for our harder rockin' people, those stations who are playing groups like Hur-

ricane, Joanna Dean, Poison, the Killer Dwarfs and others like them will do well with this Lp. One of the high points of listening to this record was finding that John is quite a vocalist himself, and in guest singer Goran Edman he's found Joey Tempest style vocals that are still a little rough around the edges with killer range. The album is a nice response to the many questions that were no doubt raised when Norum left Europe just as they were hitting the bigtime. With this piece of work he's proved that he made the right move. "Total Control" has already sold 150,000 units worldwide not including the U.S. Britain or Australia. Looks to be in for a good run here in the States as well.

Van Halen, "Black And Blue", Warner Bros.... Judging from the quality of this number, Eddie, Alex, Mike, and Sammy seem to be on their way to yet another of those platinum discs. AOR response has been staggering. They still hold down the mainstream #1 Most Requested slot (107 reporters) while the track moves up one position to 6* on the Hard Hundred. The reason you're reading about it here is the Hard Hitters debut at 28*. Surprisingly, not as many of our reporters are playing this one as we had expected but the release of the Lp and the upcoming Monsters Of Rock tour should change that. We're lookin' for somethin' a little nastier get our hands on from the album. Some of those who are on it include KNAC, KJJO, KISS and WHMH (all in power) and KRSR (in heavy). Eddie is in great form on guitar and Sammy can belt them out like no one else, and it's one of those kick back and have a beer type songs. It's a slow grinding rocker and that's exactly what it's going to be doing to the Hard Hitters when the album hits. Grinding its way into the Top Ten.

Mucky Pup, "Can't You Take A Joke?" -- Gothic Slam, "Killer Instinct", Medusa/Torrid.... In the spirit of S.O.D. and M.O.D. Medusa Records is proud to bring you the a double thrash wammy in the form of two of their latest releases... You may remember that Mucky Pup is one of the bands which won the Bloom County contest to write a song for Billy And The Boingers. Their entry was entitled "U Stink But I Luv U" and was featured on a flexidisc in Berke Breathed's cartoon book, "Billy And The Boingers Bootleg" which sold roughly 800,000 copies (roughly the same as the last Metallica Lp). This is an album of great hardcore mosh music loaded with some really bizarre lyrics and (believe it or not) good musicianship. Included are 16 songs, some of which are under 40 seconds long. Listen to "M.B. (The Ballad Of The Moron Bros.)", "A.I.D.S" and "Laughing In Your Face".... The Gothic Slam Lp is more straight ahead thrash than it is hardcore and it's also quite interesting and very good. Listening to the intro to the first cut, "Skankin'", reminds me of being in a roller skating rink, that feeling wears off pretty quickly however and the remainder of the album is highly reminiscent of Metallica's first Lp. Listen to "Bedlam", "Living To Survive" and "Stand Up And Fight".

METAL MUSIC NEWS

Greetings children of the metal movement. This is Sal "Earl Of Earache" Treppiedi with this week's metal news from around the world. This week we'll bring you the final part of our interview with Snake and Away of Voivod. Let's get to some news.

We begin with a bit of news from a band not necessarily considered to be metal but one that can play loud with the best of 'em. My London correspondent, Brian Pithers of Radio 210, called with some great news regarding The Who. According to Brian, from a conversation he had with Roger Daltry, **The Who** will release a single toward the end of this year. This leads me to believe that they will also release an album with a tour to follow. Daltry also announced that he will no longer record solo records. The kids are alright and they will be returning.

Suicidal Tendencies have added rhythm guitarist **Mike Clark** to their line-up. The band is currently in Los Angeles recording their Epic Records debut. The album will be produced by Mark Dodson (Metal Church, Udo) with mixing done by super-duo Steve Thompson and Mike Barbiero. In the past these two have worked with the likes of Guns N'Roses, Tesla, Dokken and Yngwie Malmsteen. The album is due in July with a single to be released before the album. Most of you may remember that the record was originally set for release on Grinder Records. Well, according to Bob Feineigle, A&R at Epic, Grinder has been put on hold. You know what they say about the best laid plans.

Recently I placed a call to Mark Puma at Freefall Talent. It seems his company has plenty going for it. First, **Dee Snider** and **Twisted Sister** have officially parted company and Dee has begun work on a solo album. Judging from the guitarist he has selected, he is certainly heading in the right direction. Dee's new guitarist is Englishman **Bernie Torme**. This solo will also mark the first time that Snider will be collaborating on the writing. What about Twisted Sister you ask? Well according to Mark, he's not sure. Well, the Earl would like to wish Dee, Bernie and the remaining Sisters the best of luck.

Capitol Records has released a radio only promotional live CD from **Great White**. The disc is entitled "Live At The Ritz" and was recorded on February 2nd in New York. The disc features the following six tracks: "Rock Me", "All Over Now" and "Gonna Getcha" from the "Once Bitten" Lp, "Money" from the recovery album, "Face The Day" from "Shot In The Dark" and a killer version of Zeppelin's "Since I've Been Loving You". Thanks to Joan and Beth at Capitol for providing me with a copy.

Time now for our feature interview. Over the past three weeks, you have gotten to know **Snake** and **Away** of **Voivod**. This week, we culminate our interview with Voivod.

VOIVOD PART IV

HARD REPORT: DO YOU FEEL THAT VOIVOD IS AN EXPERIMENTAL BAND?

AWAY: We do a lot of experimenting. We were trying to find new musical structures, new lyrical concepts, we were trying to explore. We want to do what no one has done before. We could have become bigger after "War And Pain". We could have been at the level we are now four years ago. We instead chose to explore. It takes a few years longer with experimental bands.

SNAKE: When you're an experimental band, it takes time for people to understand what you are trying to say. You have to explain the whole thing. There will always be people who will want things explained but also people who will go very fast. They know original things when they see them.

HR: DESCRIBE THE PERSONALITY OF THE VOIVOD.

AWAY: The Voivod is a concept that I created when I was young. I created him so that he could rival this world of ours. I used it for my drawings. The Voivod is not a super hero. Sometimes he can represent something bad like oppression. Korgull is someone who is guarding a hole. When people try to get out, he shoots at them. He's not a very good character. Sometimes he can represent something that can be expressed as either good or evil. He's not someone we want to be like. He's just someone to express our emotions through.

HR: DO YOU FEEL THAT BECAUSE OF VOIVOD, MAJOR AND INDEPENDENT LABELS ARE NOW LOOKING MORE AT CANADIAN THRASH BANDS?

AWAY: I think we opened the doors from Canadian bands like Slayer and Metallica did for us. The new bands in Montreal like D.B.C. and Aggression are all influenced by what we did. They really think that we opened the door. No one really looked at Canada a few years ago. All there was was Anvil and Exciter. In Quebec, no one thought that there could be a club scene. In Montreal, there is a real good scene. There is a good scene in Vancouver and Montreal with nothing but Toronto in between.

That concludes our interview with Voivod's **Away** and **Snake**. The Earl would like to thank Don "Movin' up" Kaye and Steve "How about our two bands touring together?" Bonilla. The Earl would also like to welcome **Alex DeFelice** to the Noise staff. Look for our next interview in two weeks with **Flotsam & Jetsam**. Following F&J, it's the one and only **King Diamond**. Next week, we'll have another CD review column. Hey college reps, how about come CD's to review?

Metal Church will be debuting their new vocalist on Wednesday, May 18th in Seattle. According to KCMU's Jeff Gilbert, the band will be playing a local lounge which they hang out at on the weekends. Jeff also says that there is a shroud of mystery hanging over the band's selection. No one knows who it is. While we're at it, let's wish Duke Erickson a happy birthday. And speaking of Jeff Gilbert, his weekly metal show, "**Brain Pain**" won an award as the best radio in the whole state of Washington. Jeff and friends were so excited when he won the award that the members of Metal Church all pounced on him and broke his ribs. At least he was still able to hold the award. Congratulations to Jeff from everyone at the Hard Report.

Well, that's all for now folks. Remember that next week we will have our second CD review column. For all you college who would like to see your CD reviewed, please send them to the Hard Report c/o Sal Treppiedi at 63-36 78th St. Middle Village NY 11379. Thanks. Also remember that our next feature interview will be with **Flotsam & Jetsam**. Until next week, I leave you with a question from Mr. Death. He would like to know if he can buy Jeff Gilbert's broken ribs so he can barbecue them. MUJA!!!

SAL TREPIEDI

FIFTH ANGEL'S KEN MARY

Originally released on Roadrunner Records in Europe, "Fifth Angel" won great reviews from the metal community the first time around but didn't get exposure with American audiences. This time it's been re-released on Epic and is finally getting the respect and recognition it truly deserves. Who is this band? Fifth Angel is one of the hardest rocking and hardest working metal acts to re-enter the scene this year. Members Ted Pilot, James Byrd, Ed Archer, John Macko and Ken Mary, combine stand-out musicianship with intense and thoughtful lyrics to create nothing short of killer music. Drummer Ken Mary has worked with such notable artists as Alice Cooper and David Chastain on various projects. There is no question that Fifth Angel is his top priority now and he recently told us why.

James Byrd, John Macko, Ted Pilot, Ken Mary, Ed Archer

Chris: Can we first start off with how you got started in music and then eventually with the Fifth Angel project?

Ken: Okay, sure. I started playing drums at about the age of 13, in junior high, you know like everybody does. For me there was no question - I always wanted to play drums. So I started back then and by the time I was 15 I'd met Ed and Ted who are both in Fifth Angel and we had a little high school type band together. Then we went our own ways and everybody kind of did their own thing. Then we got together in about 1984 and did a demo tape that had some of the songs that are on "Fifth Angel" record on it and we sent it out. We got an independent record deal that did well in Europe and then we got the deal with Epic in the United States.

Chris: So you started out on Roadrunner. There must be quite a difference in working with a major label now.

Ken: Yeah... Well I think that the big difference is that your music is much more widely available. When you're on an independent label, you're only available at certain specialty stores, so for someone - even if they really like the band, going out and getting the record could be very difficult. So with a major label usually your record is available in most or all record stores. It just makes it easier for people who are into the band to get the record... And of course you also have things like tour support and videos and stuff. So in terms of just the industry part of it there's a lot that's better with a major label.

Chris: Why did you choose to re-release the "Fifth Angel" album instead of putting out our new material?

Ken: Well we had all the material ready to go for the new record, but when Epic heard the record they really thought it was a great album and should be put out in the United States. It wasn't really scheduled for release here and there were only 3,000 copies printed up, period, for the entire United States. So really the only people who had it were the radio people and the magazines and it really wasn't available to the general

public. So Epic said, "This is a great record, let's put it out and let everybody have a chance to hear it and build up a base so that when we do the next record people will already be familiar with the band".

Chris: What can we be looking for on the new one?

Ken: I think the new one, will still be very heavy and everything we ever do will still sound like Fifth Angel. I think we're going to expand a little. We'll have some songs on there that are even heavier and some that are lighter than anything we put on the last record.

Chris: You have been involved with a lot of projects like the Alice Cooper tour, Chastain, and of course this record. I take it Fifth Angel is your top priority though?

Ken: Yeah, you know it's kind of like it's "my band", not mine personally but it's like a real "band" vibe and everybody works together. You know Alice Cooper is more like, well, Alice Cooper. This is a band situation and that's something I'm a little more comfortable with.

Chris: How did you get involved with the Chastain projects?

Ken: Well, Dave and I have been working together since, I think around '85 or so, when we did our first record together. Mike Varney called me up (I'd worked with Mike before) and he said he had this guitarist in Cincinnati who needed a drummer on his record and would I do it, and I said, "Sure". So I went down there and played on the record and Dave and I got along so well that for every record after that he called me up and said, "Hey, you want to do the record?" and I'd say, "Of course". It's really great to work with Dave, so we've done four records together. He's a really nice guy too, and whenever you have a situation where you have great players who play well together and really get along perfectly it's a good working relationship.

Chris: Are you planning on doing any touring with Dave and Co.?

Ken: I think pretty much the commitment to Fifth Angel is gonna restrict what I've been able to do in the past. I don't think I'll be able to do as much. We're supposed to be going out on the road in a month and a half with Fifth Angel, so I have to prepare for that and we're supposed to be doing a video so as far as my time goes, Fifth Angel is taking up most of it.

Chris: Where do the songwriting responsibilities fall in Fifth Angel?

Ken: Uhm, with the next album most of the writing's been done by Ed, Ted and myself. John who's a relatively new member of the band, as of yet hasn't had a chance to put a great deal of input into that. I think with the record after this he'll have quite an effect on the band 'cause he's a great writer as well. It's just one of those situations where he hasn't been involved that long and it's gonna take some time for him to adjust to the band and to start to work with us. On the next album the material is phenomenal. It's just a great album.

Chris: Who's going to produce it?

Ken: I think we're gonna stick with producing it ourselves and with Terry Date. We were really happy with what we did on the last record, especially when you consider the budget we did it on. It was a really limited budget and now that we're on Epic we'll have a regular budget and probably around \$150,000 or so. Yeah, I think we will probably go ahead and produce it ourselves. We're not the kind of band where someone can come in and produce us and tell us, "Well, you're gonna sound like this", because no one knows what we should sound like better than us. At this point we really don't have a need to bring in anyone from the outside. What's nice is that we've all known each other since we were 15 years old and so there are no illusions about the business or each other. We've been friends for so long that we don't have to worry about being on the road and fighting or whatever. It's really a good situation.

Chris: It must feel pretty good to see everything beginning to happen for Fifth Angel.

Ken: Well, we've worked so hard for so long that we won't be able to breathe easily until we see gold and platinum records beginning to appear on our walls. We're not gonna let up one bit until we've achieved a certain level of success, and even then we'll keep going. You can always improve on what you've accomplished.

Chris: Where did you get the name Fifth Angel?

Ken: That was actually from when Ted's brother had a course on the Bible in college. He found the name and we already had a song called "Fifth Angel" so we thought that it would be a great name for a band. Now there are bands called Death Angel and Dark Angel, a million angels, but when we picked the name four years ago, no one else had Angel in their name. The original Angel had already broken up, and no one was really using it so at the time it was a really original name. We're not religious or anti-religious.

Chris: You're doing a video from this album?

Ken: Yeah, we'll be going in to do one for "Fifth Angel", and we'll have everything to do with the concepts and working on the video. Like I said, we're just that kind of band, we know what we want to do and what we want to be and that's what we'll be showing in the video.. I think they're really important

to a band, to a point. Take a band like Poison who was almost completely made by their videos. They had the record out and not much was really happening, until they got the videos out. I don't think that for Fifth Angel it'll be all that important, but I think it'll be good to have one and it'll be good for people to see the band perform and they can become more knowledgeable about the band. I don't think it'll make or break us though. Live performance, when we get the chance to go out there and show what we can do, I think that's really what's gonna do it for us.

Chris: Do you like playing live more than studio work?

Ken: I love them both. I love playing live but then again I also love playing in the studio. They're like two entirely different worlds. In the studio, you're laying something down for all of eternity and it's gonna be there forever so you have to be extremely meticulous about what you're playing so that's a challenge. When you play live you're concentrating more on just rock and roll. You want to put out the energy and the vibe and you might not be so concerned about being exactly "on" as long as the energy is there.

Chris: When you're writing material or performing, do you consider the influence it may have on your listeners, do you feel it has an effect on them at all?

Ken: Well... I do and I don't. It's a free country. You can say what you want, and if somebody doesn't like it they don't have to buy it. I think it's really important that bands are free to

express themselves and I think it's up to the audience to decide what they are going to listen to and what they are going to be influenced by. In rock and roll the bottom line is the music. All that stuff about Ozzy's songs and whatnot, I just can't buy it as being so important to somebody's life - to the point where they're going to do something weird because of what they're hearing. I think if someone does that, they're obviously disturbed to begin with. I think it's music and

whatever you want to say - say. If someone doesn't like it - they don't have to buy it.

Chris: Are you encouraged by the recycling of metal and hard rock's popularity?

Ken: Metal has always been a big portion of the industry and I'm glad to see that it's picking up again. I'm just really glad to see that it's turning around again, 'cause you know for awhile there it was all pop, that was all you'd hear. You wouldn't hear metal on the radio or see it on T.V. or anything.

Chris: Anything more that you want people to know about Fifth Angel?

Ken: Just that this band is really dedicated to what we're doing. No matter what, any Fifth Angel record, whether it's this one or a new one, that anyone picks up is guaranteed to have great songs, great production and will look great. So that when people go out and spend \$20 on a CD, they're not going to be disappointed. That's something I'll guarantee and even seeing us live, whatever we do, we're going to do the best we possibly can. We're a really dedicated band and won't put out anything we don't believe in.

Many thanks to Ken Mary for the interview and to Carol Radel for arranging it. Mega thanks also to Derek Simon at Concrete Management. Fifth Angel is rockin' on Epic Records with their great album "Fifth Angel". Be looking for a tour sometime soon.

UK MUSIC NEWS

Sinead O'Connor has revealed a possible film career, a duet with another artist and a tour of the British Isles. As everyone knows, Sinead O'Connor is North America's number one alternative act, due in no small part to early efforts by your trusty "Hard Report". But a similar impact has yet to be felt here in Britain or even in her native Ireland. The album has sold reasonably here, but her London shows (just before her U.S. tour) were greeted with a Lukewarm response from the British music press. Hopefully this state of affairs will change soon, as O'Connor embarks on a short tour early next month of Eire and The United Kingdom, with her album being re-promoted by Chrysalis. While she was in the United States, O'Connor discussed the possibility of a movie career with the William Morris Agency of Hollywood, it was revealed in "Melody Maker". She is due to do a screen test soon, but both Sinead and the agency stress that any future film role would be non-music related. Sinead has also revealed that she will be recording a duet with Bjork, the lead singer for the top indie band The Sugarcubes (much raved about by yours truly). The pair will record two songs; an Icelandic folk song and a traditional Irish song. O'Connor is also hoping to participate in the Reyjavik festival in The Sugarcubes native Iceland, headlined by the band. Sinead's second album has originally been scheduled for the end of this year, but due to the amazing response in the U.S. the album has been put back so she can spend more time on your side of the water. Her current single is the remix of "I Want Your Hands On Me" with rapper McLyte.

The Style Council break eight months of silence with the release of a new single 16th May; "Life At A Top People's Health Farm". The B-side is called "Sweet Loving Ways" while the twelve inch features two additional remixes of the A-side. An album is expected soon from the now official trio of Paul Weller, Mick Talbot and DC Lee.

The inimitable **Malcolm McLaren** has been giving details about his next album, currently being mixed in Los Angeles and due for release in September. He describes the record as "Johann Strauss meets James Brown with a dash of Victorian parlor music." (!!!!) He has managed to merge 3/4 waltzes with 4/4 beatbox rhythms to produce "...something no-one has quite attempted before. People should find it quite interesting!"

Wire release a new album, "A Bell Is A Cup...Until It Is Struck" 16th May. The ten track album was recorded in Berlin and produced by Wire with Gareth Jones. Tracks are: "Silk Skin Paws", "The Finest Drops", "The Queen Of Ur", "Free Falling Division", "It's A Boy", "Boiling Boy", "Kidney Bingos", "Come Back In Two Halves", "Follow The Locust" and "A Public Place".

Scritti Politti release their long awaited follow-up to 1985's "Cupid and Psyche" next month. The album, released by Virgin Records will be called "Provision" and will include the current hit single "Oh Patti".

In a unique deal between the Soviet label **Melodia** and EMI (UK) **Paul McCartney** will be releasing an album of rock and roll cover versions which will only be available in The Soviet Union! Melodia have been given exclusive rights to the thirteen track album. Four of the tracks can be found on 12 inch versions of this single "Once Upon A Long Time Ago" but the other nine are previously unreleased, nor are they likely to be ever released in the west. The full track listing is "Kansas City", "Lawdy Miss Clawdy", "20 Flight Rock", "Bring It On Home", "Lucille", "Don't Get Around Much Anymore", "I'm Gonna Be A Wheel Some Day", "That's Alright Mama", "Summertime", "Ain't That A Shame", "Cracking Up", "Just Because", "Midnight Special". Some may notice that a few of the songs were also covered by John Lennon on his famous "Rock and Roll" album (1976). Says Macca: "The new spirit of friendship opening up in Russia has enabled me to make this gesture to my Russian friends and let them hear one of my records first for a change."

The Trend Connection, an Australian novelty firm has revealed their rather gruesome plans, whereby they have of-

fered Mick Jagger over \$20 million to buy his ashes after his death. They propose to then transfer his ashes into 1000 hourglass egg-timers (which they would then sell at \$1 million each). Trend Connection Director Guenter Roth says "Mick Jagger is the best symbol for a whole generation of action and motion in music. (????) This would be a chance for him to become a symbol for motion after his death. (????!?!?!?) A spokesman for Mick Jagger has called the bid "preposterous" and said they were taking it with a pinch of salt.

New Order have been describing how "Blue Monday 88" came about. The project was the brainchild of Quincy Jones' record company, Qwest Records. "Blue Monday" was never released in America, despite becoming a dance club favorite in the cities and Quincy Jones wanted a blacker feel for American radio. "The bass sequencer is much softer." explains New Order's manager, Rob Gretton to "The New Musical Express". "None of us were really that interested because the records's five years old. But no one was against it being remixed. The band did a video for it, and then they went in and recorded overdubs, but Quincy didn't use the re-recorded vocals or drums." The record, which threatens the number one spot in the British charts was not originally to be released in Britain, but the demand from UK fans became too much. Various theories abound as to what the song is actually about. Some, coming as it did in the middle of 1982, saw it as an anti-Falkland's war record. But the favored theory seems to be a rather obscure reference to a track by Fats Domino in the 50s called "Blue Monday", to the strains of which six Swedish students committed suicide in the 1950's. It was written allegedly to test out the bands's new drum machine, and it ended up breaking them away from the darker sounds of Joy Division forever. Although "Blue Monday" in its original form was for many years running the biggest selling twelve inch ever in Britain, the remix has already sold more in one week than the original did over two years, within the UK. That means it has sold more than 800,000 copies! Despite this enormous success, many long time New Order fans dislike the remix, among them the NME's Len Brown who reviewed it as "...criminally tarted up, softened and sweetened for mass consumption." It follows the grim trend started by (producer) Stephen Hague with "True Faith" of reducing (Peter) Hook's bass penetration - those glorious tum rumbles that Morrissey stole for "Everyday Is Like Sunday" - to clot the grooves with squeals, mumblings and sparky's search for the lost chord." Despite New Order's immense success with "Blue Monday" they have never received any platinum or gold discs for the record as they are not members of the BPI (the British equivalent of RIAA) although they have ironically picked up a BPI Award for "True Faith", the video. This was because the video award was one of two not chosen by the BPI, but the producers of "Top Of The Pops" from viewer response.

Ozzy Osbourne has revealed the line-up of his new band who will be performing at small venues in Britain. Ozzy is reunited with his old pal from Black Sabbath Geezer Butler on bass. The band also includes 21 year old New Jersey guitarist Zakk

Wylde who joined the band last year. The lineup is completed by Randy Castillo on drums - the only survivor from Ozzy's last band - and John Sinclair on keyboards. They have finished work on a new album, tentatively titled "Son Of A Nun" scheduled for a September release. Commenting on the new group's decision to play a tour of colleges and small venues, Ozzy says: "I'm bored. I want to get back out there and really tread the boards in time-honored fashion."

Specialist label Charley Records have admitted they possess tapes to make a proposed album "The Decca Sessions 1.1. 62" but have promised not to release the material pending a High Court Action by former Beatles Paul McCartney and George Harrison with Yoko Ono, to prevent the label from distributing the fab four's early demo tapes. The Beatles recorded 15 songs with Pete Best on drums for Decca, who turned them down ("That guitar sound is going out of fashion.") Manager Brian Epstein handed the tapes around to various companies in search of a deal. The album has been out twice before in the UK and twice successfully stopped; once in 1982 and again in '83. The tapes are believed to be of American origin. The case starts in two weeks.

UK INDUSTRY NEWS

Tandy Electronics claim they have developed an inexpensive method of manufacturing CDs that can record as well as play. The company has managed to record and erase information onto a disc some 40 times! The system, titled Thor-CD is to be launched within two years and Tandy say that initial machines will cost around \$500.

➤ Thought to be in total decline, British observers are astonished to see a huge boost in single sales. The reason? The success of the new experimental CD single format. They account already for 7% of the singles market within only a few weeks of it's launch and that figure is expected to rise every month. The CD single was originally intended as a promotional device only, but the music industry is now taking a second look.

Island Records chief **Chris Blackwell** has decided to sell off the publishing arm of the company, Island Music, which ironically celebrates its 25th anniversary this month. The company is expected to be sold by the summer and contains the rights to most of Island Records' most famous work. Blackwell says he wants the company to concentrate on the creative side of music and draws an analogy with the record company who do all the signing, A & R, marketing and publicity but not the manufacturing or distribution. Lionel Conway, the Los Angeles based President of Island Music is to take an active role in selling the company and he is believed to be trying to find a buyer who will take on existing staff and premises intact.

Britain's most successful record company in terms of overall sales, Dutch-owned **Polygram**, have held a meeting in Marbella, Spain, to assess their worldwide strategy. Polygram sales in North America rose from 19 to 21 percent and the company intend to continue aggressive competition with American giants WEA and CBS. The company also intends to float Phillips Electronics on the world's stock exchanges although no date has been set. Polygram's most successful artists have been Bon Jovi (an astounding 12 million copies for "Slippery When Wet") Def Leppard, Level 42, and John Cougar Mellencamp. Compact Discs now account for 40 percent of the company's turnover.

UK SINGLES CHARTS

The highest new entry comes straight in at 5 "She's Leaving Home" by **Billy Bragg**/"With A Little Help From My Friends" by **Wet Wet Wet** double A side, taken from the **New Musical Express** charity album "Sergeant Pepper Knew My Father". **Billy Bragg** with the help of recorder player and vocalist **Cara Tivey** does an exceptional reading of the pathos-ridden **Beatles** song, while teeny darlings **Wet Wet Wet** are probably more responsible for the high new entry of the single. Proceeds go to fund a hotline for abused children, so the more sales the better! Jumping 13 places to four "Loads-amoney" by comedian **Harry Enfield** which will be largely incomprehensible on your side of the water. Jumping 7 places to 3 "Blue Monday" 1988 by **New Order**. Dethroning the house record "S-Express" to 2 "Perfect" by fabulous new Scottish band **Fairground Attraction**. This record cannot fail to appeal to all types of radio and most people of any age group. It is infectious, simple and straightforward, borrowing a straight double bass riff from the 50s and adding a killer chorus. A marvelous hit.

"I'm On To You" from Hurricane is my favorite add of the month. Here's another band that seems to have all the ingredients to make the entire package work: a hit song, a great album to back it up, a committed label, a major LA buzz and dreamboat looks. Let your listeners decide. After just one play, I guarantee you'll get major requests. It's the perfect summertime radio song.... Why did Yngwie Malmsteen add the middle initial "J" to his name? Is it possible he was getting confused with someone else? Or is he just emulating Michael J. Fox? It's one of those burning questions of mine. In any event, his song sounds great on the radio. Get past his name and play it.... I'll be gone for the next two weeks. Be nice to Ted, and if you need to give your priorities to someone, please don't hesitate to call my assistant, Marina Williams. Au revoir, talk to you in June!

Carter Alan, WBCN, Boston

The Cross is an automatic at 'BCN this past week with calls for "Shove It" flooding in. Featuring Roger Taylor, the drummer from Queen, this is the best thing we've heard from the band, solo or complete since "Another One Bites The Dust". The samples of the Queen vocals knocks us out.... "Blind" by The Talking Heads is a funky follow-up to "Flowers" which has moved into airplay prominence.... The Del Lords have finally kicked in over the air. By the way, is it my imagination or are there more songs from more new artists out there now than ever before? If not, it's damn close.... Finally, when is the Poison song gonna be made into a beer commercial?

Curt Gary, DC101, Washington

Adds represent a real blow for art this week. The new sensation, Tracy Chapman, gets a shot at DC101. We'll see how fast the DC market is captured by Tracy.... Rarely does a double set record come out that has this much depth and so beautifully captures the contribution that Joe Jackson has made to rock and roll. We decided to give our audience a real musical treat and play them the a capella version of "Is She Really Going Out With Him", which is a magical moment that is captured on vinyl.... With the "Dogs Of War" soon coming to DC, Pink Floyd was a natural. We love the exclusive tour concept for the CD. Keep them coming, Columbia. And despite to my ears, its overly raw energy, "Roulette" is already bringing hot phones.... This past weekend DC101 had its Ninth Annual Chili Championship, with over 25,000 in attendance. Many thanks to Tommy Conwell and Cornerstone Management for making it all happen.

Jim Steel, WIOT, Toledo

Melissa! Melissa! Melissa! Where have you been? Count me in as one of your newfound fans. I try to make it a habit not to take my work home with me on the weekends, but I just couldn't help it. The whole record from Ms. Etheridge is just astounding. If this young woman doesn't have "superstar" written all over her, then the hell with everyone. All I can say is I'm hooked for life. It's time for Heart's Wilson sisters to move over for a while. Melissa, Lita, Joan Jett and Joanna Dean are on the prowl.... Tips of the 104 cap to Joe Carroll of Epic and Doug Burton of Polygram for your persistence.

Don Berns, CFNY, Toronto

We who are fortunate enough to make it out twice in the past week saw two of the best concert so far this year, as the Bo-Deans and Midnight Oil played to sold-out houses in Toronto. Each in their own way, these bands represent the best that rock and roll has to offer. Maybe it's time for the old farts to retire and make way for the future of rock and roll because it's here now!

Tom Van Sant, WIZN, Burlington

So, what if it's the third track? "Rescue Me" is the best Alarm rock song on the album. So play it! They've never been primarily a ballad band and never will be. Playing "Rescue Me" is the best way to let the listeners know that.... After considering "Put Down That Weapon" and "Sometimes", we gave Midnight Oil's "The Dead Heart" the nod. It's got a strong hook and a great upbeat sound that sticks with you, but hey, Big

Red, how about an edit?... Although it's in power, the negatives are building on Eric Clapton's "After Midnight". We are looking deeper in to "Crossroads" and the emerging favorite is "Got To Get Better In A Little While". You know this would be a classic album cut if it had come out in 1972. Just imagine if they had finished it. There's plenty of mileage left on "Crossroads".... Ditto on Bruce Hornsby's "Scenes". "Look Out Any Window" sounds like "The Way It Is" Part Two. Nothing wrong with that.... P.S. Add Face To Face. It's an obvious hit.

Redbeard, KTXQ, Dallas

Joe Satriani continues to burn up both phones and retail in Dallas. It's #2 in sales, and we are talking pure unit count.... The recent Balaam And The Angel show was so strong that we have seen a huge phone response, so this week the new track, "Something Special" gets the nod.... One of my favorites is the new Jerry Harrison, "Cherokee Chief" which features some incredible steel.... Also this week, big phones for Kingdom Come's "What Love Can Be" after only one week on the air.... I had the rare chance to interview Graham Parker recently and his energy and clarity of vision were so refreshing that I certainly hope this record will be the one to crack it for him.

Lin Brehmer, WXRT, Chicago

For the number of generic album rock records we receive, you would expect more of them to succeed. How many bands have decided or have had their label decide that the band needs a slick, middle of the road production to appeal to mainstream album radio. Whether it's a metal band softening their sound, or an alternative group shaving their edges, the commercial result is disastrous. Record buyers don't want a metal band that has softened or an alternative group that has abandoned the distinctions that made them stand out. These generic recordings appeal to program directors at mainstream album rockers that trust consultants more than they trust themselves. The irony is that those are the sort of stations that seem to have the worst track record establishing artists at retail. So a well intentioned band will seek to conform its sound to a segment of the format that doesn't sell records.... Speaking of selling records, we appreciated Jetson's comments about their early support of new artists being forgotten as soon as the artist succeeds. In every market where one station clearly takes chances, that station will be taken for granted. And as soon as an artist can kiss up to some station that prides itself on its 20 current records, they usually will. When we think of the artists that we've had to fight to maintain a promotional association with, it's amazing we still take phone calls. "Hey man, it's the management. Hey man, it's the promoter. Hey man, it's the label." Bullshit. We've heard it all. It's a lack of hindsight and foresight. It's a quick fix business. There are people you can trust. Cherish them. There are people you can't. Let them regret it.... Record of the week: Camper Van Beethoven. This is a gloriously varied piece of work. "Eye Of Fatima" is bare knuckled American rock. "Waka" is simply the best rock instrumental of the year.

John Loscalzo, WRCN, Long Island

Remember rock and roll? Soul Asylum brings back the excitement of rock and roll in person and on vinyl, believe me.... How about that Maiden? Ask Tom Calderone about his close encounter with B.D.

Cyndee Maxwell, KWHL, Anchorage

Thank you Larry Reyman and Columbia Records for Bruce Springsteen and the E Street Band. Our winners were thrilled and I was pretty jazzed myself. The show was awesome.... Also thank you John Kohl and Elektra Records for the platinum records from Dokken and Georgia Satellites. A great addition to the K-Whale Wall of Fame.... I listened to the John Kilzer cassette on the plane ride home from Seattle. Side one is dynamite, lots of great stuff. "Red Blue Jeans" starts off in medium.... Any promotion people dying to send a K-Whale listener to one of your artist's concerts can join our big spring promotion. It's called A Vacation A Day in the Month of May. Call me as soon as possible, join the bandwagon.... Thanks to Mark Rose of Atlantic for sending our listeners to see INXS in

L.A. and to Stan Forman for sending our rockers to Heart, also in L.A. Get your name printed here, too. Call me.

Dave Richards, WWRX, Providence

WWRX, Providence is in need of qualified part-timers from the New England area. Send tapes and resumes to Dave Richards, WWRX, P.O. Box 325, Westerly, Rhode Island 02891.

Jon Austin, WXRC, Charlotte

Pink Floyd came in to our part of the country last week and I was totally blown away. It had been raining all day and it slowed down to a drizzle as the concert started. Twenty minutes into the show the clouds cleared off and we had beautiful weather all the way through the rest of the concert. You can sort of call it a case of divine intervention.... Heard the new Steve Winwood this past weekend. This is going to be the biggest song of the early summer. Steve has brought back the old Spencer Davis organ and has really got a sound that cooks like a classic Sam and Dave track. You want it, you better get it.

J.D., WONE, Akron

So you're feeling low, down in the dumps, possibly lonely? Well, would \$10,000 cheer you up? That's exactly what we plan on giving away this weekend. For the past month we've been asking our listeners to show us their W-ONE. All they had to do was show W-ONE off creatively to the most people. You should see some of the entries. Painted cows and people with our calls, banners hanging from Cleveland Stadium during Indians games, a commercial which was placed locally on MTV, lighted buildings and even 200 people spelling WONE 97.5 with their bodies on a field at Kent State University and the list goes on and on. Judging will take place at a local mall where everyone will be able to see all the entries on display. Who will be doing the judging? Well I'm glad you asked. How's this for an unbiased panel. A county judge, an Akron police officer and a priest. This should be one contest with some ending. Stay tuned.... P.S. Congrats to Marty (Sobol) Bender. I'm sure with Marty in Detroit some excitement will be generated and radio wars will be soon to follow.

Curt Cartier, KEZE, Spokane

Long overdue tips of the cap, pats on the back and gotta hand it to's. Larry Reyman of Columbia for the dynamite service on Springsteen. Thanks for the smattering of Boss and Floyd tour CD's. Another big Columbia stud, for the near instant filling of record requests and making sure Reyman doesn't spend too much time on vacation.... Rock God Jim Anderson of Warner Brothers, kudos for the "Skyscraper" picture, CD player and upcoming Van Halen listening party, complete with all the "Monster Trimmings".... Mark Rose at Atlantic, Elektra's John Kohl, Bob Smith of RCA and Reprise's "Sunshine" Suzie Brett for the Robert Plant, Dokken, Kings Of The Sun and Neil Young product respectively.... JBZ of Arista for the acoustic bag-pipeless version of the Church's "Milky Way". You drive a hard bargain, you geek. Last, but hell no, not least, Polygram's Don Coddington. Mr. Heavy, you are so heavy. Thanks for the "Crossroads" CD box sets and next day service on most anything we ask for. Now change that damned answering machine message and send us another box of Melencamps. You all make my gig a hell of a lot easier.... If it's promotion, the best is in the Northwest.

Butch Lazorchak, WVW, Christiansburg

Play the Triffids. Wait til you see them when they open for the Church this summer. They are absolutely incredible.

John Lassman, KQRS, Milwaukee

In celebration of our 20th birthday, KQ-92 and Budweiser present Pink Floyd in concert May 24th at the Metrodome. Join us in the parking lot before the show for a KQ Birthday pig roast with the world's largest pink birthday cake and free KQ/Pink Floyd souvenirs. The pig will be flying high above Highway 100 all week. Anyone interested in attending call me A.S.A.P. KQ-92, 20 years young!

Catfish, WHMD, Hammond

My vacation in the Carolina's was relaxing. Thanks to Mary London of WRFX, Cat Collins of WBCY, Ron Harper of WLWK and Al Moss, independent promoter, for their hospitality.... Cowabunga!! Ziggy Marley is the happeningest artist since Elvis. Every song on his album is meritorious, platinum ahoy! When you see Ziggy in concert wear lead shoes, lest you float away.

Bill Clay, KXBR, Springfield

There's no doubt Tracy Chapman's "Fast Car" is a great song. But it's different enough that you pause a little bit before you think about adding it to an AOR playlist. But this is an instance when you have to trust the audience a little bit. If you put it on the radio, you will get immediate phone reaction. It's that kind of song and it stands out from everything else. What keeps the format alive is the chance to break new artists like this.... It's also songs like Hurricane's "I'm On To You" that's a rock radio natural.... Top requests are Van Halen, Guns and Roses, Scorpions, Midnight Oil and Joanna Dean.... Joe Strummer and Echo and the Bunnymen's new mix of "Bedbugs and Ballyhoo" are on our new music show.... Megadeth and Iron Maiden, top requests on our Metal program.

Patty Martin, KSJO, San Jose

By the time you read this, I will be on a well deserved vacation. See you at the bowling party.

Wendy Steele, WLWQ, Columbus

Should be back from New York after escorting winners to the Atlantic Birthday party. I'm psyched!

Joe Simon, KTCL, Fort Collins

If you are looking for some tasty reggae to supplement your playlist, check out "Don't Turn Around" by Aswad (Mango distributed by Island). This sounds at least as good as anything on Ziggy's Lp. In fact, one can only ponder the runaway success of "Conscious Party" while a reggae legend like Jimmy Cliff appears to be gaining little support (although he definitely has ours). The phenomenal success of the Melody Makers just goes to show how well reggae can work on the radio. From my experience with working in clubs, I can tell you that at least in this part of the country, a reggae tune will generally fill the dance floor. UB40, Steel Pulse, Black Uhuru, The Wailers, Peter Tosh. They are all Jahmen! If you are playing Ziggy, please listen to Aswad and Jimmy Cliff's "Hanging Fire" on Columbia. If you don't like the title track, check out "Reggae Down Babylon" or "Hold Tight". Rasta.

Paul Kriegler, KRCK, Omaha

Note the new music hours are Monday and Tuesday, 2-4 PM.... Ziggy Marley is doing phenomenally well, still no other airplay locally except for us, and it's the #1 retail item this week. It's one of those hip artists to like. A hipness factor of "10".... Velvet Elvis' sticker compares them to Let's Active to Fleetwood Mac. That's way outta line. The Velvet alone on the 12" for "Over And Out" was enough, but it's a good song, catchy too!... Everything But The Girl sounds slightly AC, but my first assessment of the Bryan Ferry album was similar. So far, "I Was Always Your Girl" is on at KRCK.... I was so scared when Camper Van Beethoven got signed to Virgin that they'd take the high road. But the new album is great!... The new Parthenon Huxley album contains catchy pop hooks that lean a little commercial but good anyway.... Thanks to my good friend Nick at Rough Trade for getting us the Pixies CD. Good response on this one.... Soul Asylum is kind of in the vein of the Huskers and Replacements, and it's great rock and roll. Waiting for them to come to town!

Richard Smith, WIXV, Savannah

We finished up our Atlantic Records 40th birthday contest this weekend and we'll pick a winner today to go to New York for the show. We had about 40 qualifiers who all got an official concert jersey commemorating the show.... We are starting our next promotion this week and giving away a bikini on wheels, a 1988 Suzuki Samari. Should be tons of fun.... We

went with another Bruce Hornsby track this week and also went on John Kilzer's "Red Blue Jeans" which is a great rock and roll song.... Living Colour is an add with "Middle Man" and we see great potential in Drivin' N' Cryin'.

John Cooper, WPYX, Albany

The best thing I've heard Jimmy Barnes do is his new song "Too Much Ain't Enough Love". It's got an excellent hook and the production team of Cain and Stone has given this song a fine gloss.

Paul Nelson, WWCT, Peoria

Bruce Hornsby's "Look Out Any Window" is the first of many from his fine follow-up album. He may just be THE Bruce of the 90's. He does have an artistic integrity that we really appreciate.... Jimmy Barnes has been raved about and rightly so. If "Too Much Ain't Enough Love" ain't a hit record, there is something wrong with the system.... Ziggy Marley gets in heavy this week. If the heartland can deal with this, anyone can.... It was great having Atlantic's Rick Sudakoff in town for the White Lion/Aerosmith show. Rick, I guess you're not a record weasel after all and Bebop, you're welcome anytime. It's not everyday someone visiting Peoria says "I wish they had a place like that in Chicago." Come to think of it, that's never happened before.

Charlie Kendall, WSHE, Miami

It is with great pleasure that WSHE announces the 10th Annual Coconut Bed Race to benefit Muscular Dystrophy. This is the biggest and most profitable bed race in the country. Last year the attendance was over 150,000 and the profits were over \$100,000. This year promises to be even better with Joan Jett and Michael Bolton appearing for the wrap up concert. Our thanks go out to Kenny Laguna, Harvey Leeds, David Krebs and Louis Levin who still know that a friend is a friend. However, it is with utter disgust that we announce that Bill Wise, program director of WGTR, has scheduled his Louie Louie parade on the exact same date. Competition is what we all thrive on, but hurting those afflicted with muscular dystrophy for a competitive thrill is totally inconsiderate. I personally call for a boycott of WGTR and demand that Cox Broadcasting replace him with a human being.

Duane Doherty, WKLC, Charleston

WKLC is still looking for bands to play our 4th of July outdoor concert. Any labels who have bands that need good publicity are encouraged to give us a call. We did it last year with The Hooters and The Truth and did 70-80,000. If interested, contact me or Brian Krysz at 304-722-3308.

Beth Kepple, WKLS, Atlanta

Maybe it's because I've been such a sick puppy for the last week. Maybe it's because he's such a fertile stud puppet, but Mr. Bill is letting the ladies loose this week! Two light adds for Joan Jett and Joanna Dean -- what fun! Now if I can only get him to fall in love with Melissa Etheridge like I have.... We only had room for one more add this week. The third time's a charm for the Alarm with "Rescue Me".

David Hall, WKDF, Nashville

The artist lineup for 'KDF's "One For The Sun" benefit concert June 18th is growing into our best ever. So far, we've got Richard Marx, Cinderella, Joanna Dean and John Kilzer officially signed up and more will be announced soon. This year's show will benefit Nashville's Rape and Sexual Abuse Center and Base Camp for kids.... Robin Trower's previous album had two cuts which performed well for us, "Passion" and "No Time". That success sets up this new Atlantic release "Tear It Up" for quick acceptance.... "Close My Eyes Forever" may be Lita Ford's song but Ozzy's vocal performance almost steals the show. This is the best thing out of Ozzy's mouth since he bit the head of that bat. Ozzy fans and Lita Ford fans are teaming up to light the phones for this one.... Anyone who loved Joan Armatrading should love Tracy Chapman's "Fast Car" and this song is poised to attain the success that always eluded Joan.... I can't believe more stations haven't jumped on "Shove It" by The Cross on Virgin. Maybe you are like us

and just haven't had room yet. But if you haven't listened, check out a sure reaction record.

Adam Langley, WBNY, Buffalo

I really like the new Magnolias album, especially the guitar licks in the beginning of "Goodbye For Now" that sound exactly like the guitars in Julian Cope's "Spacehopper". My favorite track is "Glory Hop", and the band is energetic, well produced and not thrown together.... That Pixies album -- I love it. It kicks my ass. The guitars are so great and I've been listening to it all weekend. I wanna go out with that girl. That voice!... "Permanent Record" features "Trash City" from Joe Strummer. A hot tune.... When's the next BAD album coming out!... I've never really been a Graham Parker fan, but the newest Lp is really likable. Suggested cuts at WBNY are "I'm Just Your Man" and "The Girl Isn't Ready".... "Majestic Head" by the Soup Dragons is an excellent rebirth of the Byrds and Mamas And The Papas. Much better production on this album.

Jamey Carr, KACV, Amarillo

First Buddy Holly, and then Ritchie Valens and now Bobby Fuller. Check out the Clash's "I Fought The Law" and watch the phones light up!... Tracy and Shona still run our request lines with the new Van Hagar closing in.... PS: It's so windy here. Please send sunshine!

Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix

I'm quite happy for Sinead O'Connor's recent success, but it's now May and there are three other ladies that deserve your attention! Try Melissa Etheridge (sort of a female Willy DeVille) with "Bring Me Some Water", into Shona Laing's sultry "Soviet Snow" and end with the Divinyls "Punxie" which is a perfect 50's to 80's dramatic ballad. Comfortably in between alternative and mainstream.... Camper Van Beethoven's major label debut might be missing the biting novel humor of early CVB gems like "Take The Skinheads Bowling" and "Club Med Sucks", but musically, this long time fave will win many new programming ears and listeners alike with songs like "Turquoise Jewelry" and "Eye Of Fatima Parts I and II".... Is Linda Kirishjian "Wonder Woman" in disguise? Thanks for the rare and I'm sure hard to get personal ID's from Jimmy Cliff and T-Bone Burnett.... Uncle Milty's Rowdy Rivet Of The Week: Phoenix's own Flotsam and Jetsam, soon to break your ears on Elektra Records.

Ivar Hamilton, CFNY, Toronto

I think there are a whole lot of converted Midnight Oil fans in TO after an SRO show earlier in the week. Peter Garrett not only writes and performs great songs, but is certainly one of the most interesting people I've seen speak on world issues since Billy Bragg. The band is great too!... Erasure has finally moved into the top request spot by a wide margin. They will no doubt in this city become a major act this year. We expect a very long run with the album as just about every cut on it has strong appeal.... Peter Murphy continues to be a big album on the airwaves and is definitely a favorite among the jocks. The UK 12" of "Indigo Eyes" features two live tracks recorded last year at the RPM Club. Those who may already have the record will know that the label mentions the Phantasy Club. There is no such club here, maybe it had something to do with the Dolphins suspended from the ceiling!... Thanks to the Ramones for the Gabba Gabba Hey last week and watch out for Australian band, Weddings, Parties, Anything.

Jeff Ivan, KFMX, Lubbock

Some hot new stuff this week for adds. Chris Impellitteri smokes with "Since You've Been Gone". I'm generally against covers but when the cover is better than the original who am I to say no.... The latest venture for Nuclear Assault is great. I love these kind of intros that build up and then kick in. This is an easy add.... And finally comes the much anticipated release from Flotsam & Jetsam. "No Place For Disgrace" sounds just like what I expected. I'm anxious to hear the whole album now that Jason's gone. But the first single is still a good one.... Major huge thanks to Carmine Appice for the phone call. Get behind him with King Kobra and wait till you hear the Blue Murder. He got me to psyched up about a lot of stuff. What can I

say; he's a legend.... Also thanks to Vinnie Moore for the call. Dude is too cool and he's got a smokin' new album on the way.... The list of must plays continues to grow, but you gotta be rollin' the Queensryche masterpiece, the Fates Warning epic, Toxik, Testament and the Vinnie Vincent Invasion.... And after a long and somewhat hard battle, we added Hurricane to our regular rotation.... Finally, why is getting married such a pain in the ass.

Lisa Walker, Program Director/Metal Shop, WPYX, Albany

Thanks to Clarissa at Enigma for Hurricane ID's and the great talk with Ronnie Montrose. It was interesting hearing his feelings about the increasing popularity of guitar oriented instrumentals on the radio.... The requests for Satriani, Vinnie Moore and Yngwie instrumentals keep pouring into the Metal Shop.... Thanks to Josh Christian of Toxik for calling in and thanks to Monte for setting it up. Toxik deserves serious attention. I know there's a lot of great metal out there but listen to it.

Russ Ceccola, WKVU, Villanova

I'm just returning from that psychedelic trip created by Queensryche's "Operation Mindcrime". The album is intense! Stuff like this makes me wonder at good 'ol Villanova how we're supposed to keep all of you good people happy by reporting your Lp's when such excellent major label bands as Iron Maiden, Queensryche, Scorpions, Megadeth and AC/DC all have hot albums out right now.... Anyways thanks go out to Peggy Donnelly for spending time with us at Dirty Looks; a truly kick axe show. She is now the first label rep to visit the hallowed halls of this dump we know and love as WKVU.... The only metal poster that survived the redecoration by the progressive people being Heathen. That should make you happy oh one of Mega-hair. Send us more posters people so we can take over.... A disappointing album this week is the new Vinnie Vincent Lp. Should have kept the make-up and the real music.... Toxik, Maiden, Fates, Blind Illusion, Dirty Looks, Testament, Kings X, Fifth Angel and Sanctuary rule this week. Putting Kat, Mega and Monte "my moustache was an extra for the cockroaches in Creep Show" Conner on the same page was brilliant. Let's take Don Kaye's and Monte's cues and see more pictures of that beauty Chris Black in the Hard Report.... Finally despite all rumors I am a sick pup and have a Fangoria, Kracked, Mad, and Gore Zone subscriptions to prove it.... Cheryl, Jason Voorhees is my personal god!

Raz Cut, WUSB, StonyBrook

Queensryche adds a revolutionary twist to the integration of "The Warning" and "Rage For Order" to yield "Operation Mindcrime". An album unprecedented with such force and vitality in both lyrical and musical context. Opening the eyes and minds of listeners everywhere about the society which surrounds us today.

Mad Max Hammer, Z-Rock Satellite

"The Decline Of Western Civilization" has broken into the Top Ten based on the strength of requests. The song that is pulling in the most in the Alice Cooper/Guns N'Roses collaboration "Under My Wheels". Also on the album - I'm really impressed with Faster Pussycat's live version of "Bathroom Walls". Lizzy Borden sticks out too with a killer rendition of "Born To Be Wild". In my opinion it's the best song on the album. Armored Saint also do a song on there called "You Can Run But You Can't Hide". It's a great song. The Seduce track "Colleen" is also a great song; it'll kick ya right in the teeth.... Krokus is still taking off for us. It jumps into our Top Twenty. Another heartstopper from Scandinavia.... Flotsam isn't out yet but it breaks into our Top 25 based on strong requests from airplay on our new music show "Out Of The Box"..... Joanna Dean's "Kiss This" is definitely a smash hit.... From Sodom's "Persecution Mania", "Iron Fist" is what we're playing and it's doing real good in sales and requests for us.

Mike Jones, WGIR, Manchester

It's here, it's here! Queensryche's full length motion picture album "Operation Mindcrime" on vinyl at last. I've already

raved about it twice here, so I will refrain this time. I will say that this Lp is, in my opinion, the first metal Lp of the 1990's. This is the one that makes the transition from this decade to the next. Should be in a movie theater near you. Once again - it's sheer brilliance.... Nuclear Assault's new one "Fight To Be Free" is very powerful. Can't wait for the rest of the Lp.... Ditto for the Flotsam & Jetsam.... I saw AC/DC and LA Guns in Worcester this past weekend and AC/DC were the best I've ever seen them. They were on fire. LA Guns have improved a great deal on the live front since last I saw them. A must see show.... Thanks to Mike Corcione of Risky Business for all the help.... My boys Guns N'Roses roll into town this week for a night of decadence and destruction with Zodiac and Udo. I'll miss most of it, but I'm really happy that they are doing so well.... I saw the Living Colour and Kings X videos on MTV and I'm still trying to regain my composure.

Rich Scroggs, WWVU, Morgantown

Gee, the new Agony album is wonderful. They combine the sound of two of my favorite bands Testament and the now defunct Artillery, to come up with something that's quite good. I foresee a happy future for these Scandinavian thrashers.... Fates Warning is doing massive phones down here and it's good to see that my listeners have some taste.... Mucky Pup will remind a few people of S.O.D. and they're more than likely correct. Scott LePage plays exceptionally well on this album but then again he played exceptionally well with Hades, so it's a given. For a few laughs, try the track "Nazichism".... There is something for everyone on the new Pantera album. If you like Alice Cooper style anthems, they have them. On the other hand, if you like Metallica/Metal Church/Wrathchild type of thrash then you'll love this album as well.... I'm sorry to hear that Megadon didn't enjoy himself while in Canada. I understand that he was mistaken for the legendary Bigfoot and fired upon on several occasions when travelling near wooded areas. In the future, I would suggest that he stay in urban areas -- free of rifle-toting rednecks.... I sincerely hope that the writer's strike ends shortly because I'm tired of watching David Letterman and "Married With Children" re-runs.

Bill Fischer, WJUL, Lowell

One week added and already Queensryche is in our Top Ten. I know it has probably been realized by all of the metal types, however I too must utter the word - brilliant. The only possible follow-up would be a mega-tour that can capture the brilliance of this album live. Seems like a very tough task, but I've learned not to doubt Queensryche's ability.... As I babbled before the new Testament album is also doing very well with us as it sonically destroys anything in its way.... It's alright Ms. Valentine, you can quit the prank calls to my house at odd hours of the morning, the Fates Warning has easily shifted into overdrive and is number one while Hallows Eve is a few steps behind.... As you might or might not know, my lovely wife Clarissa and I have declared ourselves divorced due to a rather stagnating plot, irreconcilable schedules and a 4,000 mile separation. Past references easily rate me as a top notch male companion but 4,000 miles is slightly out of my range. However Clarissa and I would like to thank our cast of characters, who enhanced our storyline: Monte Chihuahua - a man's best friend, Chris and Jeff at the Hard Report for bearing with us and actually laughing at my dumb jokes, Jem Aswad - for acting as an alter-ego, Megadon - well, for being Megadon, Cheryl "Joy Jell" Valentine, Rich Scroggs for showing how backwards and behind the times Morgantown actually is, Sal Treppiedi for not joining the dialogue wars with his petty wit and finally the FMQB for giving us the biggest laugh of all, THEMSELVES. Cheers.

Kelly Cruise, WEGR, Memphis

I have to rave some more about the new Robin Trower album. "Tear It Up" sounds great on the air and is generating good phones, but moreover "Take What You Need" contains some killer songs reminiscent of his early days. Welcome back Robin!... Local artists John Kilzer and Joanna Dean are working great for us of course, but it's wonderful to see that they are also burning up the airwaves everywhere else too.... Keep an ear out for the return of Jimmy Davis and another album coming soon from Rob Jungklas.... Gene Dries, thanks for the

hard work on the David Lee Roth Show. You're a great guy and a bad mother in your own right.

Tom Calderone, WRCN, Long Island

Please take a look at Soul Asylum. This is an important record. It has already burned a whole in my 8 track player.... Our new music show is called "Scoberlaypigglety".... During WRCN's month of May-hem we are giving away very trendy 'RCN boxer shorts. First five callers through on the Tom and John Hotline (516) 727-1185 will be sent a pair. Leave your name and address at the beep.... Too bad Howard Devoto did not play the Ritz last weekend with Soul Asylum and The Fall. Although a great show, it was a major disappointment that Mr. Devoto did not play.... WRCN is rockin' into the 90's with adds from Shona Laing, Everything But The Girl, Sinead O'Conner, John Cougar Mellencamp and The Church.

Bob Berzins, KRSR, Las Vegas

I finally gave in, I finally gave in! This week we added White Lion's "Tell Me". The phones demanded it - the telephone is mightier than the sword. Looking forward to seeing White Lion with AC/DC June 21st here in Las Vegas.... It's like Bon Scott is back from the dead in the form of Dirty Looks, especially on "Oh Ruby". It's our hottest request this week.

Kaptain Kevin Kasky, WOUR's Power Hour, Utica

Do you feel those winds a blowin' brothers and sister? It feels like a Hurricane, but just like when I was living and playing in L.A., let's stay out and surf on the swelled wave. This band is hot. If you like rock even the slightest bit hard, then these boys are for you. The Hurricane is knockin' on the door and heavy hitters are shakin' in their guitar straps.... Barren Cross paid the ol' Kaptain a visit last week and they gave a "heck of a show". It's too bad that too many people passed up a great opportunity to see and hear a great rock and roll band because of a silly stereotype attached to that type of rock. They played hard, raw and powerful rock and roll. And that's the end of that.... Until next time rock and roll and if you can't rock and roll - I feel sorry for you. Da Kaptain has spoken.

Brad Martin, WRCN, Long Island

I'm not one to give advice, but - HURRICANE!

Andi Turco, WEQX, Manchester

I hate trying to think of creative opening lines, so a simple hello will work just fine. Ernie is filling in on the air today, so I get to pass along all these illustrious comments!... Our phones continue to ring off the wall every time we play Tracy Chapman. We are also seeing significant sales back up the phones.... Phones are hot for John Kilzer, too.... You know what puzzles the hell outta me? How so-called rock and roll radio stations in the capitol district can ignore an artist like Joan Jett? She as always had a very strong following there. Her concerts do well, yet nobody will even give her record a chance. We're seeing top 5 phones for Joan and these listeners are not kids! This is her best record in a long time and it deserves a second chance from those close-minded programmers.... Continuing to build here at WEQX are Shona Laing, Jimmy Barnes and Midnight Oil's "Dead Heart" which is the perfect follow up to "Beds Are Burning".... That's it for now. I'm looking forward to seeing some of you this week for the bowling party.

Pam Brooks, WPDH, Poughkeepsie

Dear Alex Miller: When you're right, you're right. Of course, I can't recall anytime when you haven't been. Ziggy is lighting up the phones like crazy and "Tomorrow People" is so wonderful we've moved it to heavy. How uplifting to find that "Conscious Party" wasn't destined to be a great piece of vinyl that my friends and I would enjoy only in my home. I also love "What's True" and "New Love". So here's to a lasting jammin' story on Ziggy's rasta rock. Love ya bunches, Pam.... So Maggi, where's my "Red Blue Jeans". Over-dyes aren't to tough to do. Size 5 please. Regardless of you adding to my wardrobe, we've added John Kilzer because you cannot deny the gift of great rock and roll and John certainly embodies all that that is. I'm lovin' "Give Me A Highway" and "If Sidewalks

Talked" is a truly moving remembrance of John Lennon. "Memory In The Making" is one of the most well-rounded, inviting Lps I've dealt with in a long time.... Tracy Chapman's still kickin' butt. Lots of response from both the guys and the gals. God, I can't help but gush about this album. My favorite is "Push Comes To Shove", "For You", "For My Lover", "If Not Now" and the song I'd release next "Baby Can I Hold You". In a word: amazing. Thank you Tracy for an album that fits me like a second skin.... I've got this buddy Bobby Messano; he's a super axeman who's no stranger to lots of powerhouses in the business. Bobby's toured with Steve Winwood and Lou Gramm and gigged with countless others. An incredible package came the other day - a CD of some of Bob's finest. We've already checked out "Tell Me Why" and "You And I" and the phones lit up. Please do me a favor and lend your ears to Messano when it comes to your station. Record companies you should be so lucky as to sign this man.

Ted McEnroe, WBRU, Providence

If someone could take the class that Bruce Hornsby exudes with every chord and put it in a bottle, the world would be a much better place. "Scenes From The Southside" has the kind of sound that no format, including AOR can refuse.... Also, I've been noticing that Talking Heads "Naked" is getting neglected by a lot of stations and falling on the charts. "Blind" is a solid second track. It has done quite well here with Top 5 phones and AOR shouldn't give up too easily on an act that should be considered among its core artists.

Brian Illes, WKFM, Syracuse

It's another one of those weeks where all the records on my list are performing very well, so there's very little room for adds. The Bruce Hornsby Lp debuted in the top ten at retail this week and is really a work of art.... The Clapton set debuted at #3 retail despite its hefty price tag.... The Scorpions, Neil Young and Talking Heads all continue to ring the register and the request line in central New York.... Two records I hope will pick up soon are "Rescue Me" from the Alarm and "Judas Kiss" by the Del Lords. These are great songs by great bands that deserve airplay. If I can find room for them on my tight list, surely you can find room on your yours.... Just a reminder, music calls are Thursday and Friday from 11-1pm. If you call then, I promise that I personally will take (or return) your call and I will give you the straight scoop on what I plan to add the following week. Additionally, you can call during those times to find out which Syracuse AOR really had a good book, and which one was down in just about every daypart and demo.

John Beaulieu, WTUE, Dayton

Yngwie is building nicely. The man has always made great music but this one is far more accessible and relateable to our core audience.... We hear lots of good stuff on the street regarding the John Kilzer. He is putting out some very good, no nonsense rock and roll, perfect for the format.... That Glass Tiger track is a real stand out, you just can't help but turn it up real loud.... The newer, more relaxed tempo on Eric Clapton's "After Midnight" has made a rock and roll fantasy come true for me. I can actually play drums to this song now and it remains as smooth and satisfying as ever.

Joe Skare, KFMQ, Lincoln

The new Bruce Hornsby is a great departure from his signature sound. "Defenders Of The Flag" is a song that was made for the format and has to move Bruce to another level altogether.... Joanna Dean has had a great run on our Rockwars feature and the audience is getting their way with this saucy female.... We are adding "Skyscraper" from David Lee Roth due to intensified tour interest and a huge audience response.... Timbuk 3 moves up this week. It's one of those unique songs on the radio that really sets us apart.... John Cougar Mellencamp also moves up in rotation this week. You just can't go wrong with John-Boy in this part of the world.

Anthony Alfonsi, WDE, Pittsburgh

Neil Young's "This Note's For You" is a song that tells it all about selling your songs for commercials. It reminds me of some of John Lennon's best protest songs. Neil, you've hit

the nail right on the head.... I had faith in John Kilzer's "Red Blue Jeans" and the audience is coming through. It was #1 requests last week and shows no signs of letting up.... Thanks to Mark Fritzges of Atlantic for his help with Ted Nugent and Mike Whitneck from RCA for introducing me to the new love of my life, Lita Ford.

Rick Mackenzie, WAAF, Worcester

We added the Face To Face this week. This band has always had a lot going for them and it's nice to see the label supporting them this time out. This is great stuff that we just couldn't get away without adding this week.

Jon McGann, KFMX, Lubbock

Hurricane is good hooky rock and roll with no bad aftertaste. It's one of those hard-edged tunes that draws you in and keeps you rocking till the end.... Every time we listened to the Brian Setzer in the music meeting it sank in deeper and deeper until this week when I looked up and saw the PD singing it to himself. Rest assured, this song will work given time.... The big buzz this week is the Kings Of The Sun. Everywhere we go people tell us how much they love this record and the retail story is beginning to build into a very respectable showing.

Lorraine Rapp, WAQX, Syracuse

I can't understand why more people aren't raving about Living Colour's "Middle Man". It gives me the same kind of good feeling I got when I first heard Robin Trower's "Bridge Of Sighs" album. Although the guitar work might be reminiscent of Trower or Hendrix, there is something refreshingly original about the song. My thanks to Pat Rascona of PolyGram for his support, not to mention a fine dinner.... Thanks also to John McHugh of A&M for the visit.

Ron Marsh, WKWQ, Columbia

Parthenon Huxley! I have never heard production like this before. What a voice and the song is so lush it will definitely take people by surprise.... Balaam And The Angel will be in town next week for a concert and WKWQ is proud to be the sponsor station. We have always thought the Balaam album was a real winner and "Something Special" is a standout track for the format.... We put John Kilzer on the air and let the people decide, and the vote of confidence has been tremendous.... The 10,000 Maniacs are new to the air and their quick start at the phones is very encouraging.

Kim Alexander, WHCN, Hartford

Ziggy. Ziggy. Ziggy. Even 'TIC FM is playing it.... And make sure you listen to Parthenon Huxley, it's a killer.

Mike Stewart, WIMZ, Knoxville

Jimmy Barnes has put out a great song that will be a hit on all formats before long.... Glass Tiger is a smash around here, a big surprise record that has fooled all their critics. What a great song; a hit for all formats.... The Henry Lee Summer album is incredibly strong throughout but "Darlin' Danielle Don't" really jumps up and gets your attention.... Our audience research tells us the Scorpions are a favorite with men 20-24, so we have put it into power this week where it should rule for at least a few weeks.

Dick Sheetz, KRZQ, Reno

Joanna Dean is picking up on the phones in all dayparts. Mornings I get phones, overnights I get phones. I mean the response is coming in all the time from everybody. The audience is starting to catch on to our airplay and the MTV exposure is probably helping, too.... Robin Trower moved up a ton of slots this week based on programmer interest, calls and mammoth chart action. It's the best thing he has done in a long time.... The overall buzz in-house has Henry Lee Summer doing great things for us and Ziggy Marley is a definite staff favorite.... As for the Lita Ford/Ozzy Osborne duet, I never get to play it because the guy ahead of me cherry picks it every single day.

Mike Richter, KFMZ, Columbia

John Cafferty should do very well with the format. It's the kind of stuff that just stands out from the crowd.... Glass Tiger is ringing the bejeezus out of the phones and everybody else in the market is on this one.... Poison has a song on their hands that just screams "Party!" It is a song with an attitude, no doubt about it.... Jimmy Barnes and Michael Bolton are both great additions to the playlist. Both songs were produced by Jonathan Cain and the quality really shows.

Karen A. Small, WGIR, Manchester

The new Bruce Hornsby album is a very tasty record. It adds just the right amount of texture to the airsound.... Iron Maiden has come out with a song that most album radio can play outside of the Metal Shop. "Can I Play With Madness" is their most accessible yet. Do these guys want an album rock hit or what?... We are continuing to support the New England rockers as "As Forever As You" from Face To Face has to be one of my favorite adds this week. The hook is instantly hummable and this one deserves to land on the radio.

Tim Kelley, KWIC, Beaumont

Robbie Robertson has started to explode across the board, the phones are hopping for this one.... I can't believe the reaction from the audience regarding the Ziggy Marley. Old line Bob Marley fans are coming out of the woodwork for this one.... Treat Her Right is still getting great response on the phones and that's after more than a month on the air, talk about staying power.... Midnight Oil has a pretty good depth track with "The Dead Heart", it is definitely the best thing off their album.

Al Scott, KZEL, Eugene

Van Halen really bumps and grinds its way into your living room. Eddie has one dirty guitar sound on this one and the audience eats it up.... The more I listen to the Hornsby album the more I am totally enthralled by this masterpiece. This is an album that we will be playing until 1999.... Brian Setzer has a real important record on his hands. It's one of those tracks that just shines on the air. That Dave Stewart production really helps give him that special touch.... Honeymoon Suite is a real steady record and its building story looks like another real winner for those Canadian guys.

Stephen Page, KOME, San Jose

Tip of the hat once again this week to Kevin Knee and those Columbia record heads for doing such a great job last week at the Springsteen show. He was hot, the tickets were great and the evening was great, too. Thanks Kev.

Jerry Trujillo, KDKB, Mesa

Congratulations to our Promotions Director, Kendall, and wife Jeannie Adkins on the birth of their first child, 6 pound 8 ounce, Jeremy. His first words were, "I wanna hear the new Van Halen".... I really am high on the Only Child record. If this were a major label, the record would be moving much faster.... We are gearing up for our big river float. It takes place Friday, May 20th and we are calling it Somewhere Down The Crazy River.

Doug Clifton, KBCO, Boulder

#1 retail and #1 phones for Tracy Chapman. That pretty much tells the story.... Following Tracy's success on the phones are two more new female vocalists: Toni Childs and Melissa Etheridge.... Bruce Hornsby is hanging in the top 5 along with Neil Young. The rest of our retail story: Ziggy Marley, Robert Plant, 10,000 Maniacs, Eric Clapton, Talking Heads, Bruce Hornsby, Jerry Harrison, Morrissey and Neil Young rounding out the top 10.... Another busy Monday as KBCO welcomed Depeche Mode and OMD to McNichols Arena in Denver.... At the same time we threw a few concert at Boulder's Coast featuring Pat McLaughlin. The crowd spent the entire night on their feet. Thanks to Randy Robins for stopping by with Pat before the show. Special thanks to Tim Neece for helping with the arrangements.... Kudos to CBS for the excellent dinner with Boz Scaggs. It's great to have Boz back

on the music scene. Thanks to Joe Schuld and Burt Baumgartner for the dinner.

Ty Banks, KQWB, Fargo

Midnight Oil is alive with "The Dead Heart", yet another great song!... I anticipate the Only Child track "I Believe In You" will be around for a good long run. Talk about a dominant rocker. It kicks!... The big success story this week is Glass Tiger's "I'm Still Searching", drawing requests in all dayparts, ages, sex, etc. -- even the metal headers like it.... I still haven't gotten the Bruce Hornsby album from RCA, but I'll bet it's really really good.... Finally, thank God for the Divinyls!

Inessa York, KGON, Portland

Balaam was a real slow developer for us, but it's really starting to react now.... Two more Hornsby cuts go in. It's kind of passive, but wonderfully so.... I think that people will start to notice some interesting additions to our playlist, which we're really excited about, such as Def Leppard and Great White, with hopefully more rockers to come signifying only a slight change in direction that we're real excited about.... Went with John Kilzer cause it belongs in that "just good rock" category.

David Alan Ross, KMJX, Little Rock

Wanted to mention the latest Birch: 12+, Monday through Sunday 6am til midnight: #1 is KSSN (Country) with a 16.0. #2 KMJX (Magic 105) with an 11.8. #3 KKYK (CHR) 11.3, and #4 KZOU (CHR) 10.5, #5 KIPR (Urban) 8.9, #6 KEZQ (Easy Listening) 6.9, #7 KARN (News Talk) 6.7, #8 KOKY (Urban-AM) 4.7, #9 KHLT (AC) 4.0 #10 KABF (Community radio) 2.6, #10 KWTD (Urban) 2.6, #11 KITA religious 2.4, #12 KLRE (Public radio) 2.3, #13 KZLR (AOR), 2.2, #14 KAAV (Religious) 1.3, #15 KQLV (Oldies) .8, #16 KHLT AM (AC) .5, and #17 KEZQ easy listening .4.

Alan White, KILO, Colorado Springs

I think Vinnie Vincent is really stellar. It's hard not to categorize what he's doing with what Whitesnake, Kingdom Come et al have done, but it works. It's a very dynamic song and I think it's ten times better than the last album. Playing, writing and production-wise they're going to eat it up.... Sentimental favorite of the week has to be the Graham Parker. It's not a raucous record, but he's not that kind of artist. This subtle, biting writer lays a lot of things out between the lines, and therefore it always takes a little longer to digest. But it's awfully good and I'm glad we're giving it a shot.... Joan Jett moves to heavy. We're getting solid calls, reaction is good, and she's improved in terms of her performance -- and so has her band. But the essence of Joan is still there, and that's what people relate to.... Already starting to get a good initial buzz on Hurricane. You can't help but hear the hook once and have it repeat in your head over and over again.

Tom Starr, WOUR, Utica

Van Halen broke from the gate #1 Most Requested within hours of its arrival and currently enjoys a 3:1 margin over its closest challenger. It struck at the same time as the real spring weather here in the Northeast and listeners couldn't have been more primed for both.... WOUR has championed Jimmy Barnes ever since Cold Chisel devastated an SRO crowd at a local club in '81. His pipes, Neal's chops and this song were all made for each other.... Glad to hear Rod upped his octave with Andy's gang. "Lost In You" is winning doubters over in a hurry.... Got to put OUR seal of approval on this Hurricane track "I'm On To You". Enigma strikes again with one of the easiest listen hard rockers you'll ever hear. If more hard rock was delivered in melodies like this, we'd play more of it. Check it out.

Joe Marino, WCCC, Hartford

Hello from Hartford. I'm really glad to be here. A competitive market, great people, and a legendary station; what more can a guy ask for? I'd like to thank Beth Sullivan for making the transition so easy.... My favorite add of the week is Face To Face's "As Forever As You". Laurie Sargeant's great voice and the powerful guitar work make this one a future AOR staple.

Cheryl Valentine, Metal Blade, 212-645-6208

Hi ya from the depths of Manhattan. It's good to be back and kickin' in New York even though I miss my L.A. Metal Blade cohorts. Yep, our people out there rule and our offices have the distinctive air of professionalism while remaining comfortable. Too bad we can't clone those offices and put 'em in New York.... I saw some killer shows in Hollyweird like Betsy getting down and dirty with the boys and Masi playing extraordinary leads with his hands tied behind his back and blindfolded. I heard that he took lessons from that guitar virtuoso, Clarissa Garcia-Aswad-Fischer.... Ya know what? I refuse to rag on Monte Conner in this dialogue for one simple reason. He brought THE King Diamond by our office before the King departed to his homeland. I MET THE KING! So, in this ONE particular instance, Monte ruled!... My tits are growing, er, I mean that my "tits" list of those playing the "Ivory Gate Of Dreams" is expanding. I'd like to say thanks to: Mike Dinvald, Joe Kleon, Killer Chris, Psycho and David Sloat. You're jammin'!... Also, those currently raised to "god" status by placing Fates at their #1 position on their playlist now include: Bill "Metal Hammer" Eikost, Mike "Limo" Zweeres, Rich Scroggs (Lord help us), John Lovely, Killer Chris, Rob Heckman, Evan Walker, Roger MacKinnon, Cynthia Hardin and Cheryl "I need help" Lebeau.... Okay, we have the ballots in and the "Fates Junkies" award of the month goes to Caesar & Russ for playing all four Fates Warning Lps in a row on the air! Your crowns await you! Hail! Hail!... By the way, I saw the killer bill of the decade in Philly a week ago. Of course, I'm referring to Hallows Eve and Fates Warning at the Empire. The club was packed! People were bouncing off the walls for Hallows and were emotionally swinging during Fates (a series of emotions are experienced during a Fates show). Don't miss this show - bring your family, friends and enemies. A ragin' time to be had by all.... This next listing is to thank those of you who are cool enough to put Hallows Eve at #1: Tim Bennet, Bert New and Frank Gargiolo.... Yo, Scrogg-head: I'm casting my vote for Alex, the laid back Stroh's dog who is cooler than Spuds because Alex doesn't draw attention to himself - he just parties.... Severe loathing goes out to Bill "I'm a cheese class clown" Fischer. I singled him out because, well, he lives in Lowell, the world's cultural hell hole.... Look for my interesting dialogue next week that rips and shreds at the industry we live in.... And remember AOR stations, "Silent Cries" is primed for your airplay.

Clarissa Garcia, Enigma, 213-640-6869

First off, congrats to a couple of obsessive guys: Jon Goldwater of Crash Management and Art Maco of Obsession. They recently got married -- no, not to each other! Hey you guys, why didn't you tell anyone at Enigma about your wedding plans? You could have at least told William "Don't Call Me Bill" Hein, who was upset when he found out I had been married without telling him.... Thank you to Tawn Mastrey at KNAC, who interviewed Ronnie Montrose a couple of weeks ago and to Ross Goza, Tom Marshall and Julie Thorne. Mucho thanks to Lisa Walker/WPYX and to Dave Schulps of MJL Metalshop who also interviewed the guitar master that day. Don't forget that Ronnie will tour with another guitar god; Alan Holdsworth this summer.... This is my last week here at Enigma. Don't worry, I'll be back. I absolutely must return. Wesley "Don't Call Me Wes" Hein said he would hunt me down and find me if I'm not in the office on July 15th. I think he meant it. He said it with such fury - it was like I was unrecouped or something. While I'm away, I will be entrusting my metal duties to Tom Callahan. So far, I've told him that the Metal Mistress Ms. Chris Black and her Metal Slave - Jeff "Clarissa, I have a new nickname for ya" Luttrell are da greatest. I did warn him to be careful of the irrepressible Beaver Hans and Beaver Franz. Beaver's the one who always offers to pump you up.... Before I go, I have some messages for a couple of people. Tom: If you ignore Caesar and Russ/WKVU, those little pests might go away.... And if Rich Scroggs starts off a sentence with, "I predict" or variations thereof, hang up the phone quickly.... Brad Martin/WRCN: I promise I won't get married (again) while I'm away if you don't.... Hubby Bill Fischer/WJUL: I've filed for a divorce in a (like totally bitchin') California court, citing irreconcilable differences. And to quote Ms. Lita Ford, "Uh huh, it ain't no big thing". My big brother Jem, isn't speaking to me

because I'm leaving. And by some strange twist of fate, he is now on Bill's side.... Mike Jones/WGIR: What can I say to a metal god such as yourself?... And to all the mega-hip metal programmers and trades people: Look for the new Saxon, Stryper and Death Angel releases this summer. Call me up this week to say goodbye. Take care and talk to you soon.

Ray Gmeiner, Elektra, 213-205-7433

Exciting times at Elektra Records these days! We're in the midst of breaking two artists whose music truly stands out as unique, quality, artistic endeavors of the highest caliber. The first of these, Tracy Chapman, is one of the fastest breaking artists in recent years. The critical press has fallen all over themselves trying to come up with superlatives to top each other. In a matter of weeks, word has spread like wildfire and Tracy is selling out shows, gobs of her Tracy Chapman CD (hello affluent upper demos), cassettes and Lp, and pulling Top Five phones at radio stations from all corners of the country. You know how I can tell Tracy Chapman is hot? When radio folks and other label personnel are all over me for tickets to her show and the CD.... The 10,000 Maniacs are another story. "Like The Weather" has exploded after 8 months of hard work by the band; management and Elektra Records. This record will be certified gold shortly. All systems are go for 10,000 Maniacs and Tracy Chapman to be at once quality and platinum artists. Join us in the excitement now! Radio listeners have and are thanking their favorite stations. You'll thank yourselves later.... P.S. Coming soon: Raymond May's "Romantic Guy" and on May 25th you should be "Open All Night" for the Georgia Satellites.... P.S.S. As I stated several months ago, we've been looking for your support on Dokken. Don't call me at the last minute for Van Halen's Monsters Of Rock tickets unless you've come to the party.

Rick Cohen, Golden Guru Entertainment, 215-574-2900

The Flamin' Harry Band is burnin' hot on regional radio. Draw a circle 100 miles around Philadelphia and you're in Flame Country. "Ain't Nobody" was #1 at WMMR last week. We're also happening big time with multiple cuts on WEZX, WHTF, WTPA, WZXL, WZZO, and check this out: WWDC! I'll bet you national companies wouldn't mind stations like that. Pay attention, this is the perfect AOR record. We may just have to take it on a national level ourselves. Those of you in listening range be sure to catch the Flame's special live broadcast on WMMR from the Trocadero on May 17th.

Rob Steinberg, Contemporary Comm./Break A Leg, 215-667-6766

Pilot to bombadeer, pilot to bombadeer. Increase rotation to power, increase mediums to heavy, give me an 8 point rise on your chart, we have the target in sight. Bombs Away. Ka-Blam!! Ka-Pow!! K-Mart!!! Smash hit explosion! The Scorpions' "Savage Amusement" album is Top 10 in Billboard. In just three weeks, the Scorpions' "Savage Amusement" is nearing platinum status. We would like to thank rock radio for their on-going support and continued encouragement with the album's additional tracks. This week "Don't Stop At The Top" and "Believe In Love" pick up 4 more believers. Check your retail reports and you'll notice that we're top 5 sales. Check your request lines which have been lit up with Top 3 requests for the past five weeks. Maybe your rotation should be consistent with those factors. If that's the case then we should be increased out of light and medium rotations to heavy and power. So come on down! You're the next contestant on the "Song Is Right"! "Rhythm Of Love" powers 9-7* in the Hard Hundred with top 3 requests. "Savage Amusement" leaps to 7* on the Hard Album Chart.... The McAuley Schenker Group has been ready for some "Time", now maybe this tour could be the perfect timing for MSG. Watch this piece move around the clock. The hour is drawing near and you shouldn't be late. Catch them on these dates and let's give "Time" some time to be heard. May 16th-Columbus, May 17th-St. Louis, and co-headline with Vinnie Vincent May 20th in Chicago, 21st in Milwaukee, 22nd in Kalamazoo. Call me if you need me, but need me if you call me. See yiz.

Derek Simon, Concrete Marketing, 212-645-1360

I just felt it was time to thank metal radio for their tremendous support for Fifth Angel. Having a record solidly lodged among your Top 5 releases over the last three months the way Fifth Angel has been is a sure sign of your commitment to the band. The band will be hitting the road in mid-June and are looking forward to meeting you all and thanking you personally for all that you've done. Anyone interested in phone interviews or CDs should give me a holler. CDs of the full album will be available soon, but in the meantime just check your Hard Report and FMQB metal sampler CDs for tracks by the band as well.... Also worthy of your attention are the new releases by Riot and Vinnie Vincent Invasion. Both records are diverse enough for any metal show. Call me if you lack either.... Finally, keep your ears open for Judas Priest's new one, "Ram It Down", and the rockin' debut from Britny Fox. Both of these babies will be on your turntables (or in your disc players) for quite some time to come. Speak to you soon.

Camper Van Troutmaster, Virgin, 212-463-0980

Please make the time to spend some time with "Our Beloved Revolutionary Sweetheart", the ultra-fun new Lp from Camper Van Beethoven. There are some very important qualities being demonstrated here, those being an obvious love and understanding of several seminal strains of American music and a total disregard for convention, sentimentality and propriety.... Wanna feel young? No, not Kevin Young. Young, young as in when you first stole away into the basement to listen to music. Just listen to this Lp a couple of times through. This one could happen. This notion is just as reasonable as our telling you a couple of months ago that you were gonna love a certain reggae record we were about to ship.... Three other projects in the wings: The Railway Children, a new track from Balaam & The Angel ("I'll Show You Something Special") and finally something that'll blow you all away, "Keep It Rollin'" from Steve Winwood. The Stax/Volt library has got nothin' on this guy.

Kenny Puvogel, Warners, 818-953-3723

Attention! Attention! Attention! Heavy and #1 reports are requested for the #1 most requested song in America. "Black And Blue". Van Halen's "OU812" hits rock radio next week. Get ready for one of the events of the year with the Lp.... By now, you've all received and hopefully listened to "Out Of Order" by Rod Stewart. As you can see and hear, Rod is back and better than ever. We are preparing "Wild Horse" and "Dynamite" for rock radio.... Another nice week in terms of rotation increases on Honeymoon Suite's "Love Changes Everything". For those of you who are already in heavy, give "Lookin' Out For Number One" a shot!... Next week we will be shipping an edit of "Blind" by the Talking Heads. We are on over 40 rock radio stations with this track and we look for a lot more to come to the party.... We also understand that there are a lot of stations getting real close to adding "Cherokee Chief" by Jerry Harrison. Now is the time!... Next week we will also be shipping a CD pro of "Skyscraper", the title track from David Lee Roth's great album. This song really cooks live!... Hot in the CD player in the office: Prince's "Lovesexy" (entire Lp especially "Dance On"), Chiefs Of Relief "Freedom To Rock" and Underworld's "Glory! Glory!".... Omitted (oops!) from last weeks great jobs has to be the job Harvey Leeds & Company at Epic have done on the Cheap Trick project, which is slowly but surely becoming one of my favorite songs on the airwaves.

Michael Schnapp, S.P.V., 516-783-3040

It's May, 1988! It's been predicted for 2,000 years. "The Prophecies Of Nostradamus" have arrived! The Bollock Brothers new and very timely album on Blue Turtle Records is music to save the day. Check out the wacked original "Harley David", reworkings of "Heartbreaker" and "Magic Carpet Ride". If you've ever heard of "Sex" by Berlin, listen to "God Created Woman" and have a laugh on The Bollock Brothers. If California falls into the ocean and the surfs up in Nevada or Arizona, then Nostradamus is correct. If not, then The Bollock Brothers will have saved the day.... Other Blue Turtle

May 13, 1988

luminaries The Raymen may not be soothsayers, but they f**kin' rock up a storm. Check the version of "Real Wild Child", the one Iggy did. So the Blue Turtle package will be crawling to you soon.... Already spinning mayhem are the current Steamhammer records, Sodom should be coming to get you soon (you'll see). You'll also be expecting a visit from an Assassin. This ain't no terrorist death squad, but a terrific German thrash band, highly energetic.... Also a new Lp from the best band with the worst name. Satan, call 'em Stan, call 'em Satan, call 'em really surprising, but don't call 'em ... oh, never mind. Anyway, spin that vinyl and enjoy!... Last week I went to South Jersey and Philly and had a wonderful time. Big, huge thanks go out to everyone at the Hard Report. Bill & Colie, Dawn, Chris, the Beave, Jim, Venetia, Rich and even Slave, you've got a real nice place.... Also to all the L.A. Guns boys, (and Corky) you guys rocked and to AC/DC, dudes, huge as always, and I made it home alive.

Colleen Baxter, SST, 213-835-8977

The Meat Puppets are back on the road, this time playing to adoring audiences throughout the Midwest. Dates include Minneapolis, Madison, Evanston, Chicago, Kalamazoo, Ann Arbor, Toronto, Cleveland, Pittsburgh, Louisville, Columbia and Kansas City. Six of the shows will be a double bill with Brian Ritchie of the Violent Femmes opening. If you're interested in an interview or promotion and I haven't contacted you yet, give me a call.... Also on the road this month is H.R., the former lead singer of the Bad Brains. Das Damen just wrapped up a hugely successful U.S. tour, and yo should have their new Lp "Triskaidekaphobe" by now. (For those of us who aren't walking dictionaries, that means "fear of the number thirteen"). Das Damen is the definitive rock band -- they play really loud, they have really long hair and they drive women crazy.... If your station has a reggae show, please let me know so I can send the new Ras Michael album, "Zion Train."

fooled ya!) NA!

Phillip Hardy, Megaforce, 201-254-6533

Stumbling around your desk right now and just waiting to be heard by his legion of fans and your listeners is the new Ace Frehley single "Insane". Ah yes, the Space Age and crew Frehley's Comet, have returned with an all-new studio Lp that is just packed with killer tunes. Killer radio accessible tunes. "Insane" is just a classic cut mined by ACE, chuck full o'boogie licks and sharp hooks. No one will deny this as nothing but a perfect radio rocker guaranteed to set your phones alight. Couple this with a 45 date arena tour with Iron Maiden (those AOR darlings) to start and three videos in the can and you get a multi-platinum sensation. '88 is the year of the Comet; Frehley's Comet.... Special thanks to KJJO for being way cool and WLZR for the killer Prophet interview, getting to hang with NYC legend Chip Hobart was a total rush.

Jeffrey Naumann, Virgin, 213-278-1181

Holy snappin' arseholes! Ziggy Marley has yet another incredible week how about some of these hit spinners. KUPD, KRQR, KSJO, WLLZ, WONE, WFYV, WPHD, WDIZ, WKQQ, to name a few of the many great newcomers to Ziggy. Even the classic stations are coming in on "Tomorrow People" and there's plenty of increases in rotations, too. Sales and requests continue to skyrocket. Ziggy is for all of radio to play. I think we've proven it by now. Thanks everybody for taking a shot on a record that many of us thought would never happen at album radio. It's nice to be wrong sometimes.... As for Balaam, stations are beginning to switch to "I'll Show You Something Special". If you haven't heard this second suckaahh yet, get ready for a balls to the walls rocker you'll love after just one listen. It's that good, really.... Camper Van Beethoven's Virgin debut Lp is out and the buzz, as expected, is quite good. Check out the four page spread in the latest Rolling Stone, too. I think CVB could be the Grateful Dead of the 90's; "Eye Of

Fatima Parts 1 and 2" is the cut to start with from this very innovative band.

Sean Coakley, Arista, 212-830-2178

This is the week we introduce one of the most exciting debut albums to come along at any time, Stealin' Horses. Coming from Kentucky, the principal songwriters are two women, Kiya Heartwood and Kopana Terry. "Turnaround" is on your desk now. Taking it into the control room will be like opening the window and letting the summer warmth in. The album is stuffed full of quality tunes, many of which will eventually find airtime.... Later this week, you'll receive a rock radio remixed 12" of "Reptile" from The Church. Following up on their first #1, this song should be an AUTOMATIC everywhere. The tour is blowing people away every night. Please don't miss them when they come to your town.... Witness is coming soon and if you need an endorsement, call Mary London at WRFX.... Patti Smith is coming on June 8. The summer will never be the same after that day. We've made a CD of Patti's greatest hits (for radio only). If you'd like one, gimme a call.

Megadon, Combat, 718-740-5700

I know you're sick of hearing it, but play Blind Ill, Crumbs, Virus, and Agony for me, would ya? That's all I'm gonna say about it.... Montreal was a blast as usual, didn't run into Dr. Metal of WHJY as was planned, but we almost got strip-searched at the border upon re-entry to the U.S., thanks to the stupid macho attitude of an acquaintance of mine. Other highlights included: the weirdest tasting pizza anywhere, Flintstones in French (every sentence uttered by Barney Rubble ended with "Fred"), and drinking in the bar of our "luxurious" motel, hereby referred to as "Motel des Fromage" or Motel Cheese to you and me.... Great show with Guns N' Roses and Zodiac in NYC. G'N'R have written the manliest power-ballad every in "I Used To Love Her But I Had To Kill Her" -- my sentiments exactly.... I've been reading a lot about Queensryche. After several spins, I've decided it is the greatest, but will your average metal head on the street be able to get into it? Hmm.... Special thanks to Peggy at Atlantic for the Dirty Looks party. It was a pleasure getting blasted at your expense.

Deborah Klinger, Apache, 213-466-9958

Greetings from the coast of Arizona! (Hope I don't eat my words).... 400 years ago, in the red-light district of a small town in France, a physician by the name of (take a wild guess) Nostradamus made hundreds of prophecies about the years to come. Some materialized, some didn't. The cryptic wording left most of them open to interpretation, but one stood a giraffe's head, neck and shoulders above the rest. In a jumble of languages, the prophecy foretold a rocker from the Southern coast of a large land mass emerging from the swampland to conquer AOR radio. "He shall walk 'Mystery Street', unleash 'Primitive Emotion', and score A Top 20 hit in, in, May, May 1988. PD's everywhere will welcome him with flashlights, canned food, and first-aid kits (oops, wrong prediction), and he will soar to great heights." Yea, we know rumors portray Nostradamus as a drunken fraud. Could John Branzen prove him wrong?

Charity Kurz, Mechanic, 212-226-7272

Remember me? I'm the one who harassed all of you for months on the subject of Motorhead. Well, I've joined the Mechanic team now and plan to help make all of you painfully aware of Stone and Violence. For the past three years, the country of Finland has been "rocked" out by a band called Stone. These four young blonde guys are now thrashing their way into the U.S. of A. I think the USA could use four Finnish blonde guys. I've personally had quite enough of the Slash look-alike thing.... Speaking of that, another band to put the San Francisco Bay Area on the map is Violence. If you thought Exodus was heavy. If you thought "Kill 'Em All" was Metallica's best work. Just wait until you hear Violence. Your ears may never be the same.... P.S. Just wanted to extend many flesh-eating parasites to the crawling slime who stole my wallet the other night at the Scrap bar. Do I ask for this abuse? No, I do not.... Yo Mega, now I really need to go out and get drunk!
