Columbia

### BOB DYLAN

#### "SILVIO"

WMAD's Paul Marszalek nails the hit on the head, "No Hype, no radio jive. It's classic Dylan with a dash of The Dead. It's a great idea and the results are wonderful."

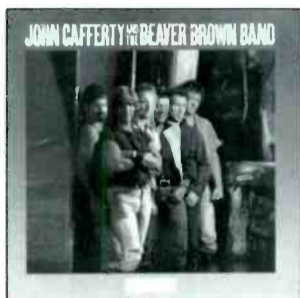

Arista

### STEALIN HORSES

#### "STEALIN HORSES"

We're picking up a very strong buzz on the single, and one listen to the album will reinforce the fact that this act has one of the best shots in the female rock faceoff.

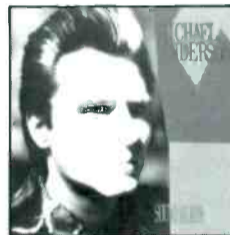

Scotti Bros.

### JOHN CAFFERTY & BEAVER BROWN BAND

#### "BOUND FOR GLORY"

Though the leadoff track is sitting pretty on 66 stations, we happen to think these guys are most effective pumping that high octane Bruce juice that put 'em on the map.

## RECORD OF THE WEEK

A&M

### MICHAEL ANDERSON

#### "SOUND ALARM"

With guys like WPYX's John Cooper testifying, "I feel very strongly about what I think is a really good rock and roll song", is it any wonder Anderson's out of the box with 51?

**Stealin Horses, "Stealin Horses", Arista....** You'd think that between the big Arista push and Greg Ladanyi's producer credit there would be real substance at hand here--and that's what this LP pick is all about. As well as the leadoff number "Turnaround" is performing, be advised it's just one of several really strong selections--most notably "Rain", "Walk Away" and "Tangled". As for this week's single raves, **KLAQ's Mike Ramsey** says, "The vocal delivery makes the song outstanding. It's something that can work anywhere in the country".... From **KATP's Jim Kelly**, "It's not a Top 40 song, it's definitely AOR. Fresh, new and killer".... Or, as **KLBJ's Don Gilmore** put it, "Great power hooks back up a vocal performance of true grit that rides right down Main Street".... Finally, from **KDF's David Hall**, "There's something unique about this record. I place that sound somewhere between Heart and Lone Justice".... "Turnaround" takes this week's longest chart jump 92-62\*, with 20 adds, two ups and 46 now playing.

**John Cafferty & The Beaver Brown Band, "Bound For Glory", Scotti Bros....** The soon to be single "Song And Dance" looks just about right on the runway at this point: The album base builds slightly to 66 stations, with ups from KMOD, KWLN, WIZN, WSTZ and WWWV bringing in a 41-39\* move. Obviously, a serious shot of crosstown CHR action will dramatically up this track's rock radio profile. In the meantime, John's back to doing what--and who--he does best. Just listen to cut 1, side 1. With all the talk about Bruce moving into what can only be called his blue period--"Bound For Glory" could well be the ticket for the BBB to pick up where "The Dark Side" left off.

**Bob Dylan, "Silvio", Columbia....** It's not tales out of school to say that one as great as Dylan walks in with a lot of bad baggage. The man's made some real radio classics--but you never know whether he's got an ace or a deuce hiding in that plastic sleeve. Furthermore, the recent string of collaborations have occasionally proven uneven--with the Tom Petty linkup a prime example. In this case, the kind of creative juices that Bob taps into with The Grateful Dead are more in line with what made that original genius shine. There's plenty of neat acoustic picking and rhythm strumming, typically inscrutable lyrics, and the Dead's inimitable post aid do wop vocals as a backdrop. The ultimate upper demo flashback tune? Uh, what was the question?

## RECORD OF THE WEEK

**Michael Anderson, "Sound Alarm", A&M....** What a killer first week! You know all those Van Halen cuts and The Moody Blues action put a big dent in just about every game plan--but "Sound Alarm" still rolled up 51 adds and a solid 58\* debut. Reaction: **Charlie Logan, WYNF**, "Just a great little song. A one listen ditty. And don't you just love the way his voice cracks at the end? It's real man, real!".... **Joe Marino, WCCC**, "I sang this one all the way home and back to the station. Great tune!".... **Dave Fortney, WKLT**, "It's got a refreshing sound to it and a great hook that caught me right off the bat".... And from **KLAQ's Mike Ramsey**, "It's alarmingly good, fresh, new and exciting".... **WRXK's Greg Mull** says, "I think it's real safe".... and from **WRDU's Bob Walton**, "I think this is going to a big record."

## NEW PLAY PRIORITIES

**Honeymoon Suite, "Lookin' Out For Number One", WB....** There's too much to like about this scorcher to wait. As **Rad Messick, WDIZ**, says, "It's the song I feel strongest about from the album. Blazing guitars, and that singular Honeymoon Suite vocal stamp--much more in the 'New Girl Now' phase of their career".... In addition to WDIZ, it's also new on WCCC and KEZE, with WQFM, WHJY, WEZX, WDHA, KSQY and KILO among those already in. Hit band, exciting song--this Number Two should be a shoo in.

**Smithereens, "House We Used To Live In", Enigma/Capitol....** If this were a wayback playback--to that wonderful year 1978--most of you guys would already have pounded what most people picked as the album's best song from day one. Fortunately, in this day of one tune at a time from all but the biggest of bands, it's practically still in the wrapper, all squeaky clean and new. For our money, it's the one that should really kick this project into hyperdrive. New on KEZE, WBRU, WCCC, WRUF and WXXP, with WHCN, WFNX, WRCN and WKWQ already in.

**Ace Frehley, "Insane", Megaforce/Atlantic....** Take it from **KNCN's Tim Parker**, "He's got a strong following from his Kiss days and beyond, even though he was out of the spotlight for years. We got a lot of pre-release calls last time and this time, too. This particular record will keep the fans happy and it's mainstream enough that he could expand. Easier than the last record to use in all dayparts".... From **WQFM's Dan Hansen**, "We put it on 'Dig It Or Die' last night and got some of the most active response we've ever had. Everybody dug it!".... Out of the box on KBAT, KISS, KNCN, KWHL, KXBR, WHCN, WLZR and WPDH.

**Lynyrd Skynyrd, "Gimme Back My Bullets", MCA....** With the next leg of the reunion tour right around the corner--and Rossington opening--you've got to start with an inclination to play this one. Basically, the reasons to roll are all there, and it really comes down to performance quality--because obviously the song's there. In this case Johnny's at the top of his form and for medium to short term use you can't go wrong here.

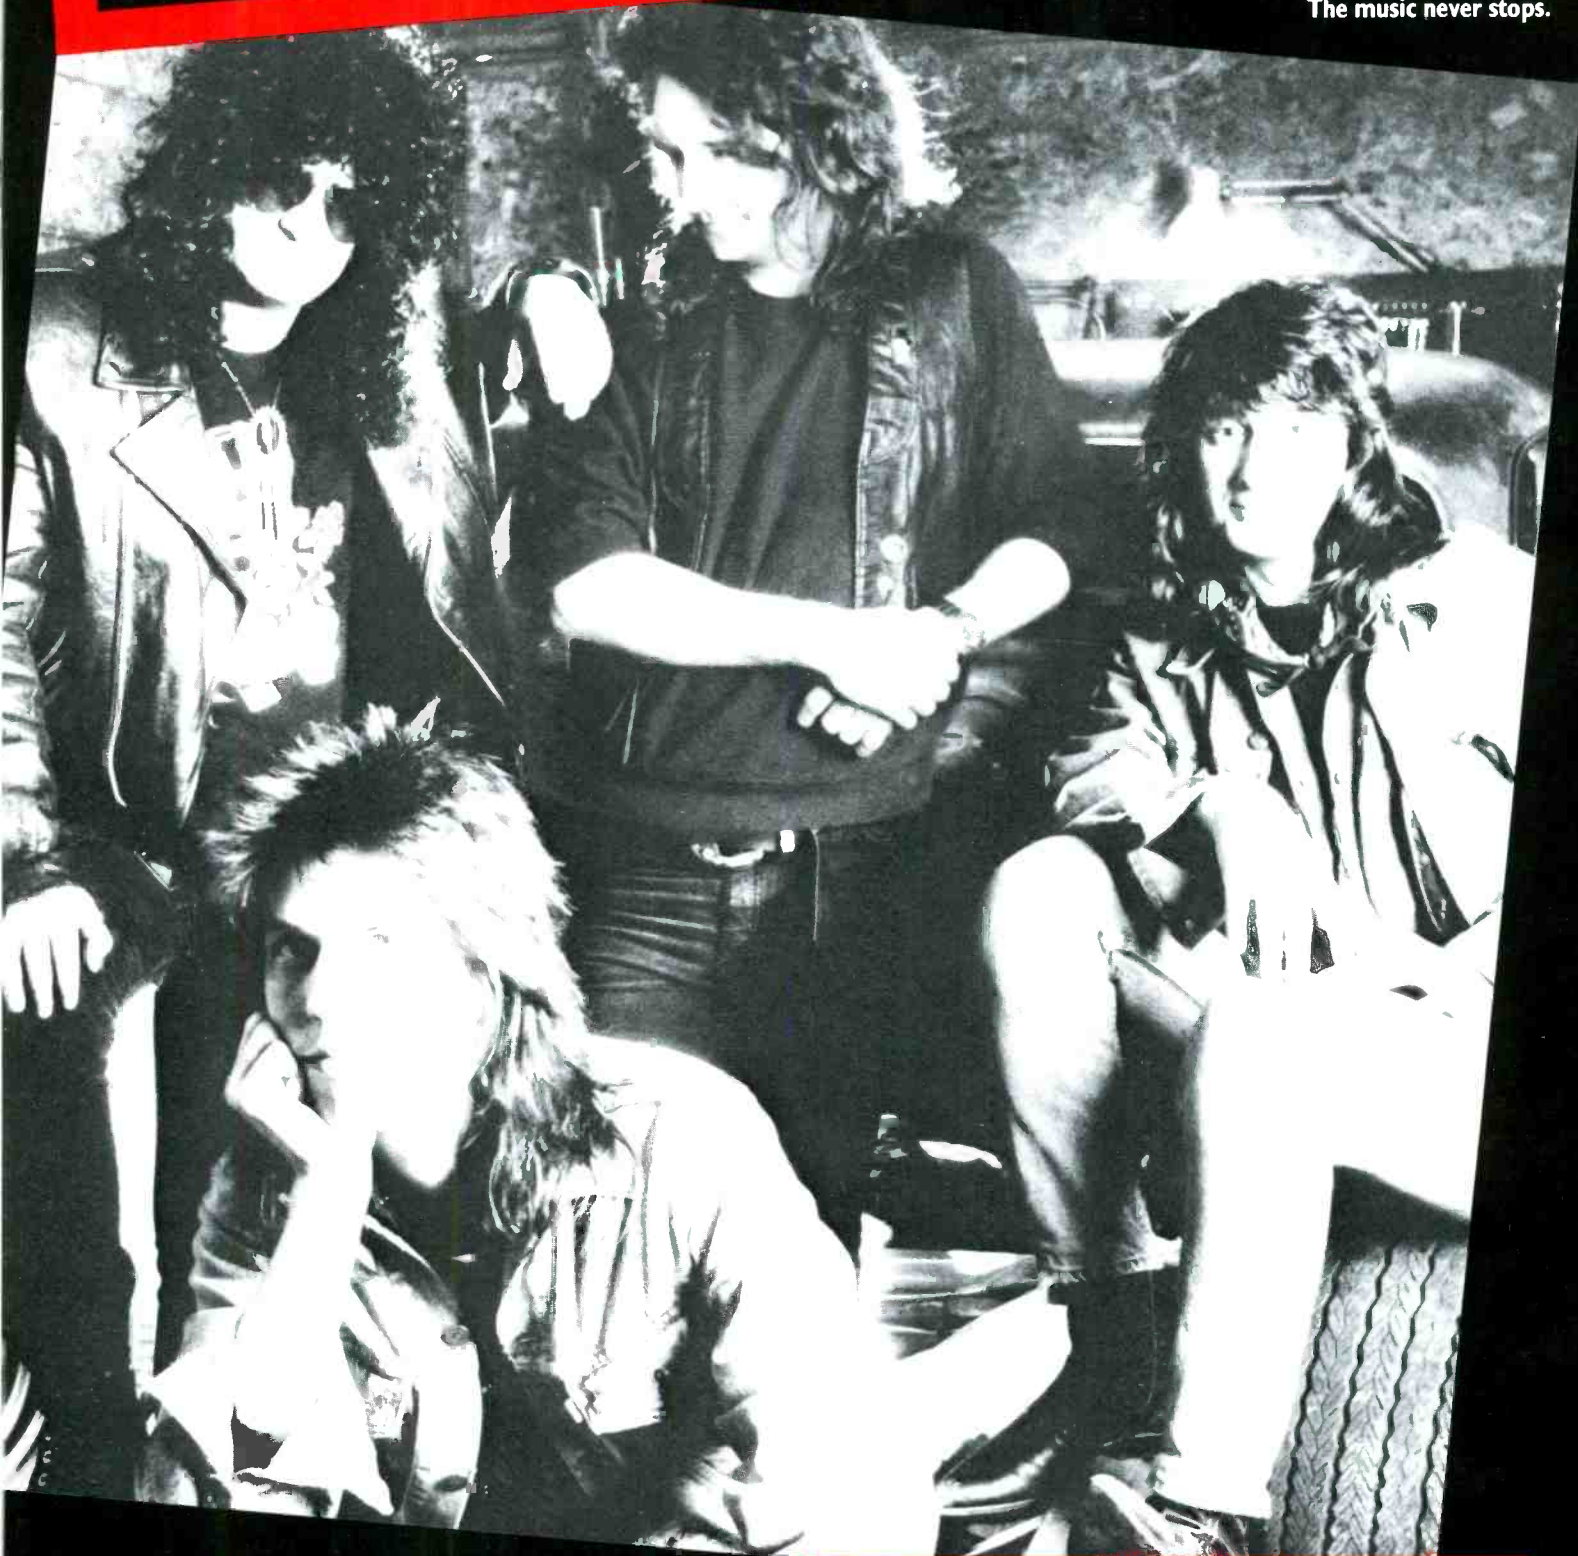

**John Norum, "Back On The Streets", Epic....** OK, now that Van Halen, the Moody Blues and other miscellaneous megabands have slotted in--let's lend some support to the guy who's better than half responsible for Europe's American success. KNAC and KJJO are screaming that the album's a smash, and we don't think it would be stretching things to predict this could well wind up Epic's equivalent of the Whitesnake project. As **Rad Messick, WDIZ**, sez, "This has all the great guitar sounds that made Europe such an effective young adult Scorpions replacement".... Look for the video shortly, and be advised that international sales are already well over 150,000 units--not including the US, Britain or Australia.

## HARD ACTS TO FOLLOW

**Vinnie Moore, "Message In A Dream", Squawk/Polygram....** Vinnie's first album on the Shrapnel label sold over 125,000 worldwide--but moreover, his amazing playing there made him #1 on virtually every "Best New Artist" poll that counts--from Guitar World to Guitar Player to Guitar For The Practicing Musician. Yes, he even beat out you know who. That wonderfully complex yet melodic style is further refined on the new Squawk release--and we dare say "Message" has "radio reaction record" written all over it. But to paraphrase the old Publisher's Clearinghouse line--you'll never know if you don't listen to it! And based on our calls, it's still in the on deck circle. Again--there's room for more than one instrumental on the radio and you won't find five minutes of more exciting lead playing anywhere. Dig it out on our latest Hard Hitters CD--to cue up the 12"--and you'll be duly impressed.

**Rhythm Corps, "Common Ground", Pasha....** One of our very favorite new songs starts with 21 stations--and at least double that amount seriously considering for the coming week. Now the radio reviews: **Karen Small, WGIR**, "I have to rave, rant and pant about this phenomenal record. I predict this band and this album will be on turntables 'til I meet my maker at the pearly gates".... **Doug Clifton, KBCO**, "They really have a sound like a band that is going to be around for a while".... **Don Gilmore, KLBj**, "A sincere vocal drives this one behind what seems like an army of 12 strings".... **John Lassman, KQRS**, "Quirky enough to draw attention".... Out of the box believers include KBCO, KLBj, KMOD, KZOQ, WNEW, WLLZ, WRIF and WWWV--with a debut dead ahead next week.

**Camper Van Beethoven, "Eye Of Fatima", Virgin....** Though the band is best known on the fringe--there are a number of mainstreamers like **WMAD's Paul Marszalek** who are ready and waiting: "From the time of 'Take The Skinheads Bowling' I always knew that one day it would come together. And even though I still like those sloppy old records, they seem to have a serious new direction this time".... They certainly have a serious base: 60,000 sales, super positive critical press, and a not to be missed live show. **WIZN's Tom Van Sant** adds, "It's worth another listen. Just a good time tune, with shades of any and every 60's grunge band you can think of".... He's right--it's a lot of fun. Have some!!

**Dirty Looks, "Oh Ruby", Atlantic....** You gotta love those tracks that come pre-tested, and we've got a nice story here. "Oh Ruby" wasn't the original 12", but that didn't matter to KNAC. They put it on and the phones went nuts--and nearby retailers reported active response there, too--including sellouts at a couple of Tower stores. After all, it was that song on their indy release that got 'em the Atlantic deal. Listener interest at Z-Rock confirmed the KNAC success story and now it's the one to go for. The band is still close to top 10 on Chris Black's Hard Hitters chart, they're out on tour, and the video's in the can. Just add airplay and watch that unit count.

## IMPACT TRACKS

**Steve Winwood, "Roll With It", Virgin....** We collected this issue's stats on Monday and Tuesday of last week, and with the Winwood hitting radio on Wednesday we thought it would be nice to lay a few choice lines on you...courtesy of... **Greg Mull, WRXK**, "Aw man, that Hammond organ makes it. It sounds like all of a sudden we've gone back to Motown again. The only format that can't use it is country, and don't start it in anything less than power".... **Jim Steel, WIOT**, "Very happy to hear it wasn't 'Back In The High Life'. Definitely reminiscent of the Spencer Davis days, which is a nice sound".... **Paul Nelson, WWCT**, "I don't think there could be a more appropriate record for us. A familiar favorite for 25+ and females that will be automatic at CHR. And the song isn't formula, which would have been the easy thing to do".... And our favorite quote from **WAPL's Rick Panneck**, "It does remind me of some of the older Spencer Davis stuff, but it is more contemporary. If I'm going to have to listen to a song 20 times a day, it might as well be this".... Well you will, Richard--and it is. So enjoy.

**Van Halen, "OU812", WB....** Just where on the Richter did this baby rock into town? Try 35% more total points than last week's #1 airplay item. Surprisingly, "Black And Blue" moves 3-2\*, with "The Valley Road" square in its sights for next week. How can you not expect that with the request roll call still 100 strong? "When It's Love" lands 91 adds and a 30\* debut; "Feels So Good" got 61 stations, entering at 42\*; "Mine All Mine" debuts at 60\* behind 36 adds, with "Finish What You Started" in at 63\* with 34 OTB adds. And there's also solid play on "Sucker In A 3 Piece" and "Cabo Wabo". **KGON's Inessa York** comments, "We're extremely pleased with the record, but the aspect I like best is that you can tell they've gotten to know each other. They don't even have to use last names anymore!!".... From **WIXV's Richard Smith**, "It's rare that any band puts out a release in which every song appeals to me. In this case, I put it on and every song knocked me out".... **John Cooper, WPYX** adds, "It's got depth, amazing guitar work, and it's going to be around for a long time".... From **KLPX's Jack Green**, "They really sound like a cohesive unit this time, and we expect this album to do a lot better than '5150'".... **Karen Small, WGIR**, wraps it up with "This effort is solid through and through. There's not a throwaway cut. These monsters of rock are really flexing their muscles."

**Peter Murphy, "All Night Long", Beggars Banquet/RCA....** Peter's Bauhaus background (see Dawn's interview this week) furthers his impeccable progressive credentials, and now we're starting to see some legitimate crossover action. Just check the new calls: **KRZQ, WMAD, WRKI, WIZN, KRQU** and **KPOI**. **Tom Van Sant, WIZN** says, "This song has great texture and atmosphere, with both adult and hip appeal. The right combination for WIZN".... Last week **WZEW's Kerry Gray** said, "I only hope he follows in the footsteps of Midnight Oil and The Church in becoming the next alternative artist to crossover to mainstream AOR".... Now on 39 Hard stations--including **WXRT, WLAV, KFMH** and **WVV**, up 77-75\*.

**The Georgia Satellites, "Open All Night", Elektra....** Howzabout two major releases slipping out between the sheets, as we say? The Sats were actually out a half a day behind the Winwood--depending on how many albums you've been cycling back to your UPS guy. **KOME's Stephen Page** reviews, "Great song. It's definitely going to be a strong follow-up".... Across the street, **KSJO's Patty Martin** comments, "Incredible. We put it on the air the minute it walked in the door. Excellent follow-up".... And **BCN's Carter Alan** actually kept his hands to himself for once, saying "The new Satellites is so automatic that it walked into the studio without my help".... Rest assured, more next week.

**The Moody Blues, "I Know You're Out There Somewhere", Polydor....** "The Moody Blues have a legitimate smash on their hands", says **WYNF's Charlie Logan**, "We've always done well with them; we'll do even better with this one".... **WRUF's Brian Jordan** adds, "The new song has that 'Wildest Dreams' feel to it that worked so well for them the last time out. Look for this record to do big things".... **Inessa York, KGON**, adds, "There's no one else out there like them, and even if they don't break any new ground, their fans are very happy to have new material".... **Curt Gary, WWDC**, "They're an upper demo monster and we're already getting phones".... **PDH's Pam Brooks** compares, "They're like an old friend you can't wait to hear from and are never let down by. They make radio magic".... #1 Most Added with 135 reports this week--and our highest Hard Hundred debut at 15\*.

**Guns N' Roses, "Sweet Child O' Mine", Geffen....** As **KFMQ's Joe Skare** says, "We had #1 phones on 'Jungle' for more than 8 weeks--and this song is a lot more accessible".... And how about this from **WRDU's Bob Walton**, "We fought it, but after testing it at night, we know it's real. It's the kind of song that the young males are going to like, but one not likely to blow off the 25-34's".... **Patty Martin, KSJO**, "This actually started getting calls weeks ago, but we were getting too many calls on 'Jungle' to move it out. This one's isn't quite as heavy, so we can start it after 5 instead of after 7".... **WYNF's Charlie Logan** ain't lying, "With the street buzz and retail action on this band anyone not playing it is--well--stupid".... It's new on 42 this week, new at 56\*. Already a Top 5 Phone item at **KGB, KEZE, KILO, KISS, KJJO, KLOL, KRXQ, WBCN, WIXV** and **WKQZ**.

We're telling you, they've got a record here. The latest add breakout includes new action on WLLZ, WQMF, WRXK, WFYV, WEGR, KWIC, KWHL, KMOD, KBPI and KATP, with all kinds of quality call letters already on board--including KLOS, KFMG, KGB, KILO, KOME, KRXQ, WDVE, WHCN, WPYX and WTPA. **WPYX's John Cooper** updates, "We're starting to get healthy requests for it, with calls even quicker than I had expected".... **KFMQ's Joe Skare** calls it with "We're starting to get some calls. A real hooky, real reactionary song".... And from **KOME's Stephen Page**, "I expect Hurricane to be in our top 5 phones next week in all dayparts. I'm even getting great morning phones on this snappy little tune".... And how about this from **KATP's Tim Kelly**, "It tested 100% positive here. It sounds like something our nighttime people would love and our phones are burning up".... This week's fourth longest Hard Hundred mover, 73-65\*.

**Bruce Hornsby & The Range, "Look Out Any Window", RCA....**

**KZEL's Al "Shakespeare" Scott** emotes, "This song manages to show that Hornsby's songwriting is on a level beyond anything else being offered these days. I haven't heard a song like this in years".... Not to be outdone, **KDJK's Mark Davis** refrained, "Songwriters with his talent only come along a few times in one's life. We should all feel fortunate to hear Bruce's music".... **KGB** leads a group of 16 new adds this week to bring the station total to 101. With major play ups on the way, and even more adds look out for "Look Out". 26\* on the HH. "Defenders Of The Flag" is trailing behind, but not by much. An even 50 reporters, with 14 in Heavy, land it at 53\*. Of course, the crowning jewel of "Scenes From The Southside", "The Valley Road" is still maintaining its hold on the top spot of the Hard Hundred.

**The Rossington Band, "Welcome Me Home", MCA....**

Another big week finds 42 new in the Most Added column--for #6 Most Added. **WCMF, WIMZ, KSQY, KEZE** and **WBCN** show increases--with **Carter Alan** commenting, "We love this effort, featuring one of rock's best belters, Dale Krantz".... **WNPQ's Eric St. John** adds, "We really liked this track when we heard it at the music meeting, and we're already seeing early nibbles on the phones and at retail".... **Pam Brooks, WPDH**, predicts, "Powered by her strong vocals plus a great song, the phones should be hot. I expect this to sizzle right through the summer".... From **WAPL's Rick Panneck**, "The Journey connection here obviously helps out on the songwriting, and Dale's vocals really help the song".... Up 43-36\* on the Hundred.

**MORE HARD ACTS**

**Boz Scaggs, "Cool Running", Col....**

Those Eugeniacs were starting to get pissed, but as **KZEL's Al Scott** says, "Audience response dictated that we switch to 'Cool Running' as the best thing on the album--so we did!".... It's definitely the one to go for if you don't want to find your hubcaps missing after that six hour shift. We got new air this week at **WLAV, WDHA, KWHL, KFMZ, WMFX** and **WWWV**, with **KJJO, KFMH, KMBY, KOME, WLLZ, KQWB, WMAD, WPLR** and half a dozen more already in. Debut 86\* on the Hundred.

**Judas Priest, "I'm A Rocker", Columbia....**

It's ripping the Hard Hitters chart to shreds--and that's just one indication of how active their following is. As **KQRS's John Lassman** so succinctly puts it, "They've been here and they're going to be here".... As for the Bay Area interest level, **KOME's Stephen Page** reports, "It sounded too good to wait, and we were getting inquiries before we even added it. Plus it's already selling well".... We've got a 79-76\* underline to talk about--thanks to adds at **KOME, WHJY, WXRC, KFMQ, KRQU, WAQX** and **WRIK**. It's currently on 37, including **KAZY, KILO, KISS, KJJO, KLOL, KQRS** and **KRZQ**.

**Graham Parker, "(Get Started) Start A Fire", RCA....**

"Of all the songs currently in our medium rotation, this one stands to be the one moved to heavy first", relates **DC101's Curt Gary**, "The more you play it, the more it stands out as a class act".... **Mark Bradley** at **WNOR** is another believer, "This song sounds so good on the radio. Graham has a really hip image, and the song is easy to play".... So easy in fact that 13 stations came on board this week, including **WQFM**, where **Dan Hansen** says, "I think it's a terrific little song and the whole album is brilliant. He was always one of my favorite songwriters. Obviously, something is happening with him out there because he's garnering a lot of attention".... The station total now stands at 106, 32\* on the Hundred. **KOME's Stephen Page** gets the last rave, "Fabulous production! Maybe this will finally break him."

**Face To Face, "As Forever As You", Mercury....**

**KATT, KMOD, WPDH** and **WZZQ** are among 10 new stations to come on board, with **WNEW, WBCN, KTYD, WRKI, KZOQ, WGIR, WIZN** and **KATP** helping to round out the field of 48. Stations like **WHCN** are getting calls as **Kim Alexander** explains, "The song is building on the phones. They call when they hear it and want to know who it was".... Well, it's better to have people curious about you, then not at all. **WRXK** has it in Heavy as **Greg Mull** relates, "I think you ought to play it. We added it out of the box, so I feel pretty strong about the record".... It must be doing something right, even with all the debuts on the Hundred, "As Forever" still managed to hop up 6 spaces to 59\*.

**INXS, "Kick", Atlantic....**

One quote will suffice, that of **DC101's Curt Gary**, "When it comes to INXS you cannot be excessive".... Yes indeed, that's why their latest strolls in with 26 reports. "Kick" starts the climb at 71\*, with **KATT, KEZO, KZAP, WDIZ, WEGR, WHJY, WLVQ, WIMZ, WPLR, WWCT, WWTR** and **DC101** already among the 35 now playing.

**Rod Stewart, "Dynamite", WB....**

Yeah, he's back!! When's the last time Rod had an album cut on the move like this? "Dynamite" powers up a 59-43\* advance--our second longest overall gain--behind 23 more adds, and increases from **WHEB** and **KGON**. A solid 13 station heavy count helps out, too--with **KBCO, KFMG, KGON, KISS, KQRS, WGIR, WMMR** and **WWCT** on that list. Also nice to see a research monster like **KQRS** reporting top 5 phones, too. Meanwhile, the single scoops up a 7-3\* move courtesy of fourth strongest 23 increases, with 39 powers, 82 heavies and 23 top five mentions rounding out a rosey airplay portfolio.

**Queensryche, "Breaking The Silence", EMI/Manhattan....**

"You'll notice this sucker is already top 30 in Billboard", says **KNCN's Tim Parker**. He continues, "At first I was a little taken aback by the 'heavy metal Pink Floyd' concept, but their fans are obviously having no trouble with it".... **WQFM's Dan Hansen** says, "We're getting good phones on it, and it's the perfect night time edgy rock song".... **KRXQ's Pamela Roberts** adds, "I can see this opening up, with good night time calls already. Good fan calls before it came out due to huge awareness in the metal pipeline".... Again to **Patty Martin** at **KSJO** and "I've never been any kind of a fan, but this is certainly a radio song--and they've got quite a core of fans. We were getting calls before we even played it."

**Melissa Etheridge, "Bring Me Some Water", Island....**

"Similar Features" has been a crowd pleaser around the ranch since we got the cassette a couple of months back--but this week it started to look like "Water" was really the way to go. Jeez, any time you get **KYYS** and **KXRX**, that's a lead any smart company had best follow. Other new's include **WHFS, WRKI, WZEW** and **KTCL**--with **KBCO, KJQN, KOAS** and **WDHA** already on.

**Vinnie Vincent Invasion, "Ashes To Ashes", Chrysalis....** Happening West Coast clout rolls in this week--with KLOS, KSJO, KOME, KEZE and KBER. **KSJO's Patty Martin** comments, "We tested it and it did really well, and we've consistently gotten enough calls to warrant our adding it. There's a core of people out there who know who he is and like him a lot. That takes the total count to 42--a list that includes majors WDVE, WLLZ, KISS, KRXQ, WFYV, WHJY and WYNF. Also be sure to check out the **Redbeard** approved future classic, "That Time Of Year", which also received the Stamp Of The Champ from KISS's Joe Anthony this week. You'll be impressed.

**CHARTSTARS**

**Tracy Chapman, "Fast Car", Elektra....** "Her success scenario continues to captivate and titillate the audience", relates **KBOY's Bob Jeffries**, "She's opening up musical closets and awakening many a memory bank. Small wonder she's top 5 phones"... **WMAD** is playing "Fast Car" in Power and **Paul Marszalek** says, "The record is blowing out of the stores and the requests are coming in. It doesn't matter what retail shop it is, they are all selling it big".... The only surprise so far about this record is that only 96 stations are on it. It seems that wherever this tune is being played the phones light up. She's sitting at #5 on the Most Requested List, right behind phonemonsters Poison, Scorpions, Cheap Trick and Van Halen and that's not exactly the Ladies Tea Auxiliary we're talking about. **Will Douglass** at **WGLF** explains, "It certainly surprised us and her song is getting a lot of instant response. It sounds real good on an AOR station".... With yet another success story is **WIZN's Tom Van Sant**, "It rocketed to #1 requests, the response was immediate. She hits a chord with our listeners".... It's all there in black and white and climbing the Hundred at 34\*. Nuff said?

**Ziggy Marley, "Tomorrow People", Virgin....** "Every store in the area tells us the same thing", explains **WNPQ's Eric St. John**, "The hottest thing out there is Ziggy. The people are voting with their dollars and this album is a smash".... The story continues with **DC101's Curt Gary**, "He has crossed the barriers here, believe it or not. You could call it a relief record if you wish and it's doing just that. It's added a little spark to the format".... I don't know if spark adequately defines it, how about roaring flame! 137 stations are jamming with the Melody Makers with 67 in Heavy or better. The Zigster got 23 play ups this week which put him 4th on the Increase Index. The phones are lighting up too, "Tomorrow People" is at #8 on the Most Requested List. **Ron Marsh** at **WKWQ** sums up by saying, "Ziggy is killing them at retail, the story is just beginning".... "Conscious Party" is 15\* on the Album Chart while the single is in at 13\* on the HH.

**Robin Trower, "Tear It Up", Atlantic....** With his swimsuit on, Robin is prepared to take that dive into Top 10 waters. Currently sitting at 12\* on the HH, he had another good week of play ups with KGB, WNEW, KLOS, WMMR, WLLZ, KSHE, WPYX, KSJO, WRIF, WLUP, KBPI, KISS and KZAP among the 158 on board. **WKFM's Brian Illes** states, "He's finally cracked the Top 5 phones list. It took a little while, but the song has a monster hook and I expect it to do very well here".... With 14 stations reporting big phones, Robin debuts on the Most Requested List at #10. "Take What You Need" is also doing very well on the Album Chart at 13\*.

**Timbuk 3, "Rev. Jack & His Roamin' Cadillac Church", IRS....** If this one hasn't hit you right between the ears yet, something may be missing in that general location. That laid back Texas style that the MacDonald's bring to their music is so infectious a doctor may be called for. Just ask **KSJO's Patty Martin**, "I dug into this one right away. Ken wanted to wait, but he's decided to go for it".... Other stations that have already gone for it are KGB, WBCN, KBCO, WNEW, KATT, KILO, WRCN, KISS, KZAP, WWDC, KTXQ and WAPL. The Reverend and his flock move up the Hard Hundred this week to 27\*.

**John Kilzer, "Red Blue Jeans", Geffen....** "We put this on the air and let the people decide", states **WKWQ's Ron Marsh**, "Boy did they! This song is the real thing folks".... **WQFM's Dan Hansen** is another firm believer, "If you can't dance to that, you don't have a funky bone in your body. Just like God intended rock songs to be 3:20 and it rocks the whole time".... 7 more adds bring the station total to 130, but look closely at the rotations. This baby is primed to move when only 25 reporters are in Heavy or better rotation. "It's a staff favorite right now", says **WBLM's Robin Mathieu**, "Every time it comes on, the monitors in the control room go up to 11".... **KLBJ** is one of 17 reporters to give John play ups this week, **Don Gilmore** relates, "If you look at our playlist we're on a lot of things early and the Kilzer seemed like the safe thing to do".... It appears as if the best is yet to come for this man in the "Red Blue Jeans" with a 7 space leap this week, he's at 20\* on the Hundred.

**Poison, "Nothin' But A Good Time", Enigma/Capitol....** The mighty KSHE comes into the fold this week, bringing the total to 116. It appears as if programmers are listening to the music and not concerned with looks. What they should be looking at though is the phones. "Good Time" is currently #4 on the Most Requested List and sales have shot through the roof with over 1.25 million units sold in the first two weeks. **WRXK's Greg Mull** has the boys in Power rotation, "It's a mass appeal summertime hit record, not offending a soul. It's rock and it's fun, why shouldn't we burn it before the Top 40's?".... "Open Up and Say... Ahhh" is at 20\* on the Album Chart while the single bolts up to 18\* on the Hard Hundred.

**Joan Jett and the Blackhearts, "I Hate Myself For Loving You", Blackheart/CBS....** Maybe the title should be, "You'll hate yourself, for not playing Joan". **WBLM's Robin Mathieu** reports big phones, "This is her 4th week at #1 most requested, she's outdistancing her competition every time. The audience can't seem to get enough of her".... We also get good response from the San Jose Connection. **KSJO's Patty Martin** claims, "Joan moves to Heavy, the phones have been incredible".... While over at **KOME Stephen Page** reports Top 5 phones, "The guys love it as much as the girls. The calls are split 50/50. It's one of those great leather clad anthems".... No matter how you slice, dice or julienne strip it, one word comes out. Hit. 21\* on the Hundred and getting more serious by the minute.

**Jimmy Barnes, "Too Much Ain't Enough Love", Geffen....** How's 10\* on the Hundred sound? How about #1 on the Increase Index? How about **Pam Brooks** of **WPDH**, "The man has got it covered. Not only is the album a non-stop musical romp. 'Too Much...' is a bluesy, aggressive rocker packed with wonderful lyrics. I can't get it out of my car's cassette deck".... Try a pair of pliers Pam. 155 stations can't seem to keep it off the air, but that's all right, no worries there. **KOME's Stephen Page** has no trouble with Jimmy either, 'Great song and it's picking up good phones from people who aren't familiar with him. The LP is as strong as the song, Geffen may have struck Aussie Gold".... "Freight Train Heart" made a strong debut on the Album Chart at 12\*, so look for more from Jimmy in the future.

**TAKE TWO**

**Midnight Oil, "The Dead Heart", Columbia....** Look for this one to pick up where "Beds" left off. **Greg Mull** at **WRXK** already has a success story to tell, "Top 5 phones this week at #3, sales are Top 5 as well".... **KROQ, KBCO, KOME, KISS, KILO, WHCN, WRCN** and **WIZN** are among the 56 stations on. 10 more stations including **KBPI, KLBJ** and **KFMF** came on board. **KPEZ** is new this week too and **Doc Phillips** makes this analogy, "It's got viscosity, it carries a lot of weight, maybe 10-30".... He's got a point. This ain't no sissy song, it's got power, strength, drive and hairy knuckles. It's music that evokes emotion and moves people and from the sales reports, listeners are moving in numbers to the stores to buy this Aussie MoFo. "Dead Heart" is at 52\* this week on the Hard Hundred and if there was ever a song, and a band, that deserved more airplay than it's getting, look no further.

THE NEXT ROCK RADIO HIT

*green  
Thoughts*

**Balaam & The Angel, "Show You Something Special", Virgin....** If you don't think these boys can rock, think again. After one spin on the old turntable, you'll be a believer. **KILO's Alan White** says, "I think they have the potential to turn a few heads with this tune".... **KILO**, along with **KLOS** and **WLLZ**, were among the 10 new stations on board. Others in the 15 station total include **KTXQ**, **WRCN** and **KNCN**. Here's another young act that shouldn't be ignored. Believe me, with **Naumann** and the **Attack Hamster** on the job they won't let you forget this song is out there. But, then again, you shouldn't have to be reminded. Look for a debut next week on the Hundred.

**Henry Lee Summer, "Darlin' Danielle Don't", CBS Assoc....** This lanky Indiana boy isn't satisfied with just a single #1 song, he wants another. With the quantity of stations on his new track he just may have a shot. **KGB**, **WLLZ**, **WLUP**, **KSHE**, **WRIF**, **WPYX**, **WAPL**, **CFOX**, **KSJO**, **KISS**, **WNEW**, **KBPI**, **WIZN**, **KISW**, **KOME**, **KTXQ** and **WNOR** are just a few of the 138 reporters trying to make Henry's dream come true. "Danielle" also did good on the Increase Index, 35 stations gave play ups, that's #2 on the list. So it's time for you to fill that gap, not the one between his teeth, but the one in your playlist. **CHR** will run with this track until they drop, but you can beat them out of the starting block. 13\* on the HH.

**Scorpions, "Believe In Love", Mercury....** Now don't you think for a second, that the only band with multiple tracks in the Hard Hundred have Dutch surname's or come from the South. Those boys from Deutschland are also there with three tracks of their own. "Rhythm of Love" kept it's hopes alive for a top 5 showing by jumping to 6\*. At 152 strong, 99 in Heavy or better, it still has a solid shot. "Believe" is sitting at 90\* and 18 reporters are on with 4 in Heavy. "Don't Stop At The Top" is the newcomer to the HH at 100\*. **WRUF's Brian Jordan** exclaims, "We're getting great phones and they're all positive. The excitement about the tour is building and these guys are as important to the buzz as Van Halen".... Who knows, maybe the new chant will be "Scorpions Uber Alles".

**Neil Young & the bluenotes, "This Note's For You", Reprise....** Most radio stations thrive on being controversial, different and exciting. Here's a song with all three of those wrapped into one package. Neil's lyrics strike a chord that's sure to be appreciated by your audience. **Will Douglass** at **WGLF** agrees, "The average listener with some degree of education can get behind this song. It's witty and it rocks at the same time".... So far 58 are on, chiming out in agreement with Mr. Young. They include **WMMR**, **KRQR** and **KZAP** and "This Note" is currently sitting at 44\* on the HH.

## ALBUM PLAY PRIORITIES

**George Thorogood, "Treat Her Right", EMI/Manhattan....** 13 new players this week including **WAPL** where **Rick Panneck** says, "It's just a great cover version. Our morning guy says it's his favorite song of all time".... He must've never heard "Stairway To Gilligan's Island". Also in the new add column is **WLAV**, **KVRE**, **KDKB** and **KGON**, where **Inessa York** proclaims, "We're really pleased to have this one on. It's one of our original favorites from the album".... **WMMR**, **WNEW**, **KZAP**, **KISS**, **WBCN**, **KILO**, **KDJK** and **WDVE** are among the 45 station count that George has amassed. Once again it appears that Lonesome George has breathed new life into a classic. It's our 4th Biggest Mover on the Hard Hundred this week with a 10 space jump to 57\*.

**Kingdom Come, "What Love Can Be", Polydor....** After the first listen, I had to check the label to see if I had the right record. Yep, it's Kingdom Come. Don't let its similarities to Zep's, "Since I Been Loving You" throw you off the track. This one will work like a black dog. Who thinks so? **KLOS**, **KGB**, **WBCN**, **WLLZ**, **KSJO**, **KILO**, **KTXQ**, **WPYX** and **KOME** are just some of the 64 stations on and that includes the 13 new adds this week. **Lenny Wolf and Co.** will soon hit that old dusty trail, opening the **Monsters of Rock Shows**. With the kind of publicity that will garner, big phones and sales are sure to follow. 49\* on this week's HH.

**The Alarm, "Rescue Me", IRS....** Are you hearing the bells yet? **KSHE**, **WMMR**, **WPYX**, **WBCN**, **KILO** and **KRXQ** all put this class act rocker in with a total of 12 new adds this week and the station count at 66 and building. Remember, these guys can deliver those slice and dice rock riffs and this track proves it. We've been told time and again by many programmers, this is the song that most resembles their live shows. If you had success with the first two cuts, your audience is seriously primed for this great followup. And once the **Dylan** tour gets within shouting distance you will find yourself throwing out a lifeline if you don't get on this one. 46\* on the HH.

**Cheap Trick, "Let Go", Epic....** "It's the best thing they've given us in a while", states **KILO's Alan White**, "They are on a roll".... That seems to echo the majority of comments that have come in about the Trick's new LP. With "The Flame" starting to flicker and fade, this next track will definitely reheat those phones. How about retail? **Rick Panneck** at **WAPL** claims, "The band consistently shows Top 10 sales and with **CHR** jumping all over the first track we decided to roll with this one".... **KBPI**, **WGIR**, **KTXQ**, **KATT**, **WYND** and **KTYD** are among the early believers that now number 24. "Let Go" was also the second Biggest Mover of the chart this week making a 99-83\* jump on the Hard Hundred.

**Lita Ford, "Close My Eyes Forever", Dreamland/RCA....** Talk about your active phone records! With 54 stations playing it, 13 are reporting top 5 phones. That's a 25% request to airplay quotient. Quite a ratio eh? **KILO's Alan White** will confess, "She played here and drew 600 into a tiny club and she kicked ass. Colorado has gone bonkers over this beautiful lady. She's a rocker who can play with the best of them".... Alan also reports Top 10 sales, no surprise there, and her album has just gone gold, selling 40,000 units last week. "Kiss Me Deadly" is now a top 20 **CHR** track and some stations have gone back to re-add it because of that. Look for Lita on the road soon, she's out with **Yngwie** and **L.A. Guns**. 54\* on the Hundred.

**The Church, "Reptile", Arista....** Success, take a look at that word. Study it, examine it, learn it. Make it your credo. And if you find it to be esoteric, then maybe that's why you're not on "Reptile". When a band's first offering hits the top of the charts, that probably means somebody liked it. Are you with me so far? Like for example, a whole lot of listeners. Your listeners. Well it's time to give your audience another shot of a successful sound and these boys have it. Can you connect the dots? 10 more stations came on board this week including **WKWQ**. **Ron Marsh** relates, "It's a real favorite around here. We added it to follow up on the initial success of the band".... Hey, there's that word again "Success". 33 stations have that feeling so far. You can too. One of the weeks Biggest Movers on the HH, 88-74\*.

**Paul Carrack, "Double It Up", Chrysalis....** Why should you give this track airplay? Just listen to **KLBJ's Don Gilmore**, "It just seems to add so much punch to the currents. Very bright, very hook oriented, sounds to me like it should be the theme to Beverly Hills Cop 3".... Well, if you haven't felt the heat that this one generates, you're not listening hard enough. **WLLZ**, **KRXQ**, **KBCO**, **KISS**, **WGIR**, **KDJK**, **KTYD** and **WRCN** are part of the full frontal 62 station attack, so far. This was the tune a lot of programmers raved about when the LP was first released, so it's time to put up, or shut up.

**John Cougar Mellencamp, "Rooty Toot Toot", Mercury....** They couldn't have timed this one any better. The sun is shining, the birds are singing and the pollen is in the air...ACHOO!! Oh, excuse me. With it's sing-a-long chorus and bouncy beat, John has another Top 10 track as "Rooty" toots in at 9\*. Those ever popular play increases didn't hurt with **KGB**, **KLOS** and **WLUP** were among the 29 giving ups. "Rooty Toot Toot" is #3 on the Increase Index this week with 147 stations cruisin' with the top down. And check out those 83 in Heavy or better with that big watermelon grin. So it appears that the Cougarster has his convertible in overdrive and is motoring towards the top 5 at your local Hard Hundred picnic grounds.

The format settles in for the **Van Halen Monsterkrieg** while a host of recent debuts struggle to hold on and begin the race for upward momentum. It could be a slow couple of weeks except for the developing tracks in the bottom third of the chart. That story will hinge on rotational support from early believers while we wait for the rest of the format to catch up with AOR's leading stations.

Kick start that heart! After a week of wobbly chart performance **Cheap Trick** has reversed direction and moves within striking distance of the coveted #1 spot with a 6-3\* move. Increases at KGB, WWDC and WMMR coupled with steady Power play on CFOX, WZZO, WKDF, KYYS, WPYX, WFYV, KLOS, WHCN and WRXK have helped to keep this comeback on track just when it started to look as though things were starting to fade away. New to the Top Ten is **Henry Lee Summer** who is shaking off any sophomore jinx with a 16-10\* end run that gets a push from The Loop, KLBj, KLAQ, KWHL, KTYD, KSHE, WEBN, WDIZ and WLvQ. Henry Lee's coming out with the sort of stuff that summers are made of and the format is eating it up with a big spoon.

Premiere placement is the story this week for a pair of songs from heritage artists who have earned their chops through years of crowd pleasing releases. New from the **Moody Blues** is "I Know You're Out There" with an impressive 13\* debut on the Winners Chart motivated by adds on WONE, KGGO, KGON, WBCN, WWDC, WPYX, KQRS, KYYS, KZAP, WYNF, WMMR, WNEW and WNOR. This song has all the earmarks of another superb Moodies effort with those mellow and distinctive vocals and a lush arrangement that is perfect for a little aural escape. The other high altitude player this week is, you guessed it, **Van Halen**. "When It's Love" shows up this week at 17\* a full 13 slots ahead of its HH ranking. WKDF, KILo, WOUR, KQRS, WMMR, KEZO, KEZE, WRXK, KLOS, WEZX, KATT, WEBN and KSHE all lead the pack with this song. While the rest of the format is needle dropping the album in search of the best depth track leave it to the format leaders to single out this great midtempo rocker. Just slice into that rich as cheesecake chorus and you'll know why this is the obvious cut of choice.

**Bruce Hornsby** piles up another 8 slots on the Winners Chart with a 28-20\* run this week helped by new play on WIMZ, WDVE, KQRS, KPOI, KGB, WOUR and KGGO. While he maintains a stranglehold on the #1 spot, this unique American troubadour is winding up for the knockout blow with this atmospheric piece from his much acclaimed album. "Look Out Any Window" may be the strongest pure song on the whole record and is undoubtedly a big favorite with the prime movers in the format. **The Rossington Band** is making a big noise with "Welcome Me Home", a song that is notching support from KBPI, WLAV, KISS, WAAF, WWDC, KLOS, WZZO, KEZE and WRXK. With so many female voices on the market right now this track works in the context of a strong and familiar rock approach to present one of the safest adds possible. Another woman with all the right moves is **Tracy Chapman** whose "Fast Car" continues to elevate with a 34-30\* week on the Winners Chart. If what you're looking for in a female artist is something with a little contrast to the rest of the mix and an ability to hook those women listeners the first time out, then take a look at some of the premium players on this track including WBCN, WPYX, WKDF, KEZO, KTYD, KILo, KLOL and WNOR. Those phones aren't to be taken lightly either with big requests at KBCO, KLBj, WMAD, WNEW, WRXK and WHCN.

**Rod Stewart** is up and running with what's starting to look like a great album for AOR and this week the rocker with a rooster hairdo has seen "Dynamite" hit the chart at 42\*. Heavy airplay on KBCO, KGON, KISS, KQRS and WMMR gets things started and those new adds on WDIZ, KSHE, WONE, WMAD and KEZO light the fuse on a song custom built for the format. That searing guitar lead and those down and dirty horns combine to pump up what might be the most fun thing to come from the Rodster in almost a decade.

Well, the **Van Halen** album has been unleashed and an unsuspecting format may never be the same. Initial adds show the emphasis to be on keyboard heavy midtempo numbers reminiscent of the last album rather than those gritty crunchers that also inhabit this disc. Aside from the lead track and "When It's Love", the two songs to hit the chart this week show the two faces of Van Halen that we have come to know and love. "Feels So Good" could be the best of the synth intensive tracks on the album with an opening phrase to die for. KZAP, WRKI, KILo, KLBj, WLLZ, KPOI, WPYX and KYYS have all made room for this one and that first week 46\* is bound to be followed by more of the same. The other side of the ballad/rocker coin is represented by "Mine All Mine" which comes on like a heritage Hagar burner with jumbled syncopation and a non-stop guitar backwash that will put the beer drinking crowd in a frenzy. KEZO, KATT, WDIZ, KLOL, KSHE and WLAV have all cranked up the generator and plugged in a 50\* debut this week. The tour and the depth of this album will most certainly combine to manufacture one of the most intense programming opportunities for the format in recent memory.

**MARTELL-A-THON**

To paraphrase **Dennis Hopper**, (a very L.A. thing to do), we're all, "A little pinker, a little more confused." One thing's for sure, the weekend in Los Angeles sped by like you wished the traffic would on those infamous freeways. Golf, softball, tennis, bowling, pool sitting and phone bashing took up the majority of the time and the results netted another \$200,000 plus for the **T.J Martell Foundation**. The **HARD REPORT** bowling squad came in second for the second year in a row by all of six pins this time. One more spare! Just one teeny tiny spare and the trophy would have been ours. Just one lousy, easy to pick up five pin. But I digress. **ZZ Top** won this time out and **McGhee Entertainment** came in third. The old **Chicago** dynasty fell by the wayside and as for the record industry, A&M came up with a very strong effort. As for the other competitions, The Rockers, led by **Vince Neil**, beat the Rollers, captained by **Richard Marx** in extra innings with a score of 19 to 17. Out on the links **Accelerated Chart Movement** took the gold, **Dick Williams** the silver and there was tie for the bronze between **McGhee Entertainment** and **Avalon Productions**. Meanwhile, back at the hotel, there was a sneaking suspicion among some revelers that the jack hammers that noisily shattered concrete around the pool had been specially imported to make us Jersey tipsheet types feel more at home. One thing is for sure, it didn't drive our impromptu tipsheet convention out of the sun, you couldn't have done that with guns. Thanks go out to **Atlantic** for dinner and the best party of the weekend, to **Naujez** for his hospitality, to **Island** for the great shirts, (I still think Bill sold mine), and to **Jon Scott** and his team for another great event.

Bill showing that it's never too late to get religion. To the right is **Seth Hard** thinking, "Gee, when I grow up I wanna be just like my Dad."

The Hard Cheese Boys. Left to right, **Slats**, **Bob Maul**, **Jim Trapp**, **Bwana Bill** and **Beaver Brown**.

**Virgin's Paul Brown** and **Jeffrey Naumann** give it their best "We're all pals" pose with **Trapper** and the **Beav-man**.

We coulda won with just **ONE MORE SPARE!!!**

**SIRE SETS MORE MANAGEMENT**

The new label Manager at **Sire Records** is **Bill O'Connell**. Bill joins the **Seymour and Howie Show** to handle syndicators, video programmers and the artists themselves. Bill jumps over from **TVT Records** where he had been doing radio promotion, prior to that he had been a talent coordinator at **MTV's Cutting Edge** program.

**UNI-FIED TEAM GETS GOING**

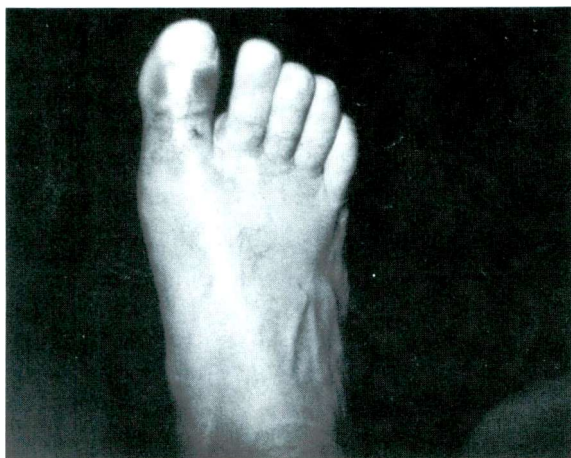

With a staff that is sizing up to be a real contender, UNI continues to add to their personnel roster. **Robert Smith** has been made the label's Veep of Marketing with **Marty Diamond** being announced as Director of Artist Development. The label is gaining more momentum by the minute and what already looks like a great staff with Bennett and Kaiser and Gorlick is getting better with every new move.

**A&R ADDITIONS AT GEFFEN**

If, as Nappy Bonaparte said, "An army moves on its stomach", then it can be said that Geffen gets to the party on the strength of their A&R department. The label has done a great job of signing just the right combination of babybands and heritage acts and the result at retail and on the charts has made for yet another growth oriented year for those Geffen guys. Well, never content to rest on their laurels they have now added **Jeff Fenster** to the A&R department. Jeff comes over from the Business Affairs division of Warner Brothers and joins the most happening set of ears in the biz right now.

**POLLACK'S TEN POINT PROGRAM**

When **Jeff Pollack** took the rostrum at the recent Music and Media Conference in Montreux, Switzerland he urged European broadcasters to take a lesson from their American counterparts and focus their efforts more effectively. The deregulation of broadcasting within the European Common Market countries has spurred a rapid growth in stations, mostly low powered, and mostly working at cross purposes. Jeff's 10 Point program for a winning effort in Europe called for stations to get more specific with their formats and target the audience more efficiently. The current broad spectrum, almost block programming approach that dominates European radio has kept it from being a viable source of media in the sense that it has become in America. Jeff then went on to hand out his phone number to everyone still breathing in the auditorium.

WB's **Kenny Puvogel** got so antsy about the **Van Halen** project that he dropped a barbell on his big toe while he was (clap) pumping up. Kenny can't make up his mind if this is a natural tie in for "Black And Blue" or the new **Little Feat** project. Either way, it's a high price to pay for a photo opportunity.

**PASSPORT TO THE BIGTIME**

Out on the coast this last weekend the word was circulating hot and heavy that **Passport** is shopping around for a distribution deal in the wake of their fouled negotiations with Enigma. A few major labels were mentioned as being more than a little interested in the extensive Passport catalog. Rumors also have these ongoing talks contributing to an exponential increase in the group's net worth.

**EAST-WEST WITH ATLANTIC**

**Nesuhi Ertegun** has announced his long awaited plans for a new label to be called East-West. The label's direction can be anticipated by the first releases which will be by **The Modern Jazz Quartet** and synthesist **Joel Spiegelman**. East-West will be distributed by Atlantic in the U.S. and by WEA International elsewhere. Nesuhi told Noise, "I intend to focus on a small number of carefully chosen releases and to build a worldwide image of high quality and innovation for East-West Records."

**RADIO LISA**

What is going on with **Lee Abrams**? Word has been percolating through the industry that Lee is putting together a satellite delivered rock format for 12-24's. Although Lee has done his best to keep the lid on it, you can't mistake those "Big Things Are Happening" vibes. To be called **Radio Lisa**, the project hinges on a "CHR for young boys" approach that will obviously be harder than the average AOR. Lee has long been on record as thinking that the only thing standing between Z-Rock and the bigtime has been a counterproductive attitude and out of skew musical focus. The man doesn't spend that much time thinking about something without usually coming up with some answers, so look for this development to hit the boards very soon. In the meantime, Lee has relocated to 445 Harris Trail, NW, Atlanta, GA 30327. His new number is (404) 266-1585.

**EXPANDING THEORY OF RELATIVITY**

**Matt Pollack** called to announce the hiring of **Mark Dyba** as Relativity's new Midwest rep, all part of the independent's ongoing corporate growth. Mark hails from KTAL/Shreveport where he was MD and will be working out of the Chicago office at (312) 298-5533. For now though, Mark is undergoing rep basic training at the crack Relativity survival course.

**POLYGRAM POW-WOWS**

Meetings are going at a furious clip with PolyGram folks on both coasts jockeying for position in the newly opening Polydor and Mercury labels. Internal staff shuffling is the first step to building these new labels before the corporate headhunters hit the road looking for fresh blood to pump into their expanding personnel manifest. The projected labels will be based on both the East and West coasts.

**MILLER TO ISLAND ALT JOB**

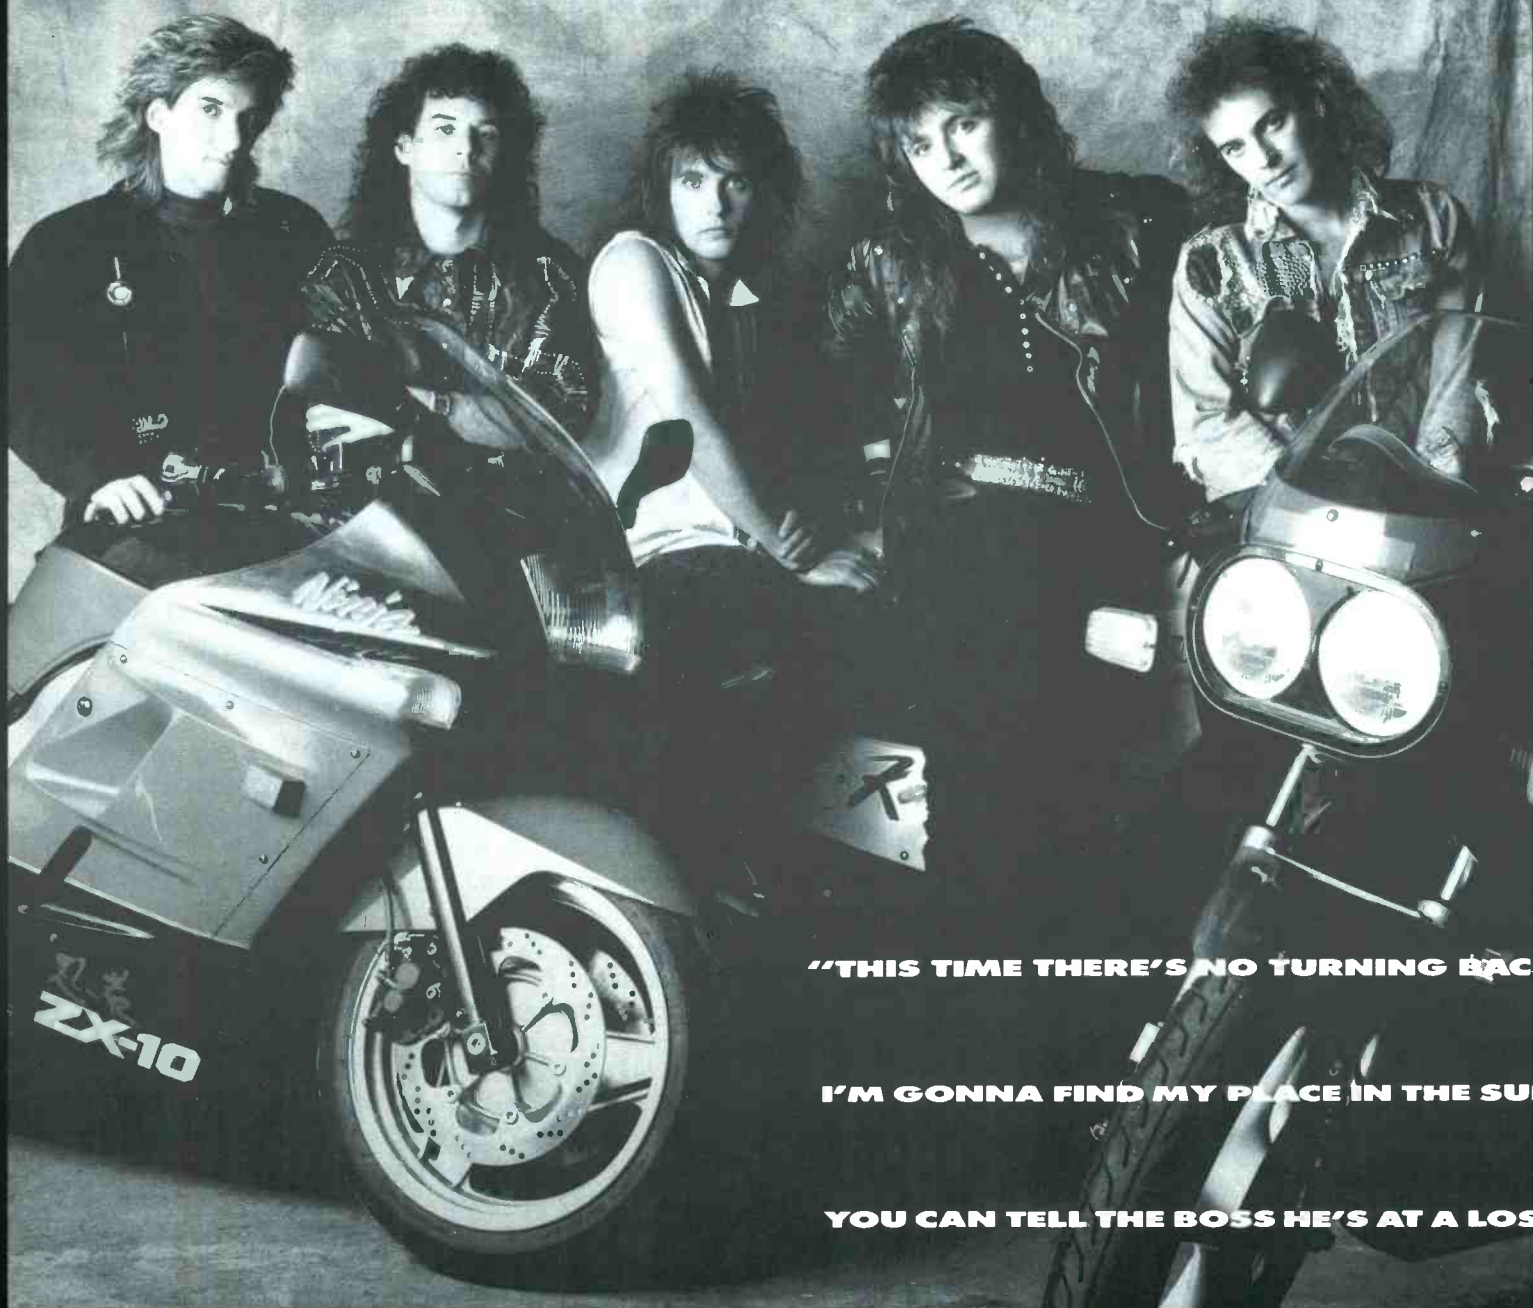

**Gayle Miller** has been hired by Island Records to become their Director of Alternative Marketing. Gayle joins after spending a year with Concrete Marketing where she was Director of Promotion and Marketing. During her tenure at Concrete she worked with acts as diverse as **Tracy Chapman**, **Guns And Roses** and **White Lion**. Island Record's VP/GM **Bill Berger** told Noise, "Given the nature of the Island roster, we had been searching for the right person to head up Island's Alternative marketing department. Gayle's background and experience makes her the ideal person for the department."

Island's new Director of Alternative Marketing, **Gayle Miller**.

**WEDDING BELLS IN PROMO LAND**

Our best wishes go out to two of the most well liked and respected promotional pros on the Westcoast. **Bubba Osborne** of MCA and **Michelle Meisner** of Elektra will be getting married sometime next month and the affair should rock San Francisco down to the fault line. Here on the Eastcoast, **Bob Laul** of Serious Bob Promotion plans to marry **Rochelle Katzman** who works the Northeast for Rhino. The wedding date is June 4th and as for the honeymoon.... well I suggest Cabo San Lucas on the tip of Baja and the Twin Dolphin for the time of your decadent life.

**ATLANTIC ADJUSTS ON THE WESTCOAST**

When **Mark Gorlick** left Atlantic for the post at UNI the speculation about his replacement ran rife through the industry. The announcement recently came that their Midwest Regional guy **Bob Clark** is now the man to move to California for those duties. Bob is known as a shining light in the Atlantic team, a guy whose sense of humor and appreciation of the finer things in life, (including black leather and colorful bars), should help him fit right into the L.A. landscape. Now all he has to do is build up his tanning base and it's Miller time!

**AND THE BOOM GOES ON**

Well those fertile radio types are at it again. **Jim and Pam Marchyshyn** promoted their second child, a son, on May 20th. The little bruiser was named **James Nigel Marchyshyn** and becomes the first member of the new, highly exclusive **Club Jim**, (Just Incredible Men). His dad, another **Club Jim** member, has already made a down payment on his Penn State tuition and Pittsburgh Steeler's uniform. Another child of the times was presented to **Ed and Pam Levine**. Actually their darling daughter, **Lauren Jennifer May Levine**, was a month premature, (continuing Ed's legend of getting his releases earlier than anybody else in the market). Both mother and child are healthy and doing well, although during my interview with Ed he was spilling coffee and laughing out of context. Check out Ed's comments following Noise for a look at one of the format's Platinum Grade performers and send the man something in pink.

**THE PHRASE THAT PAYS**

After last week's expose regarding the terms most used by radio to describe record types we felt obligated to fund a similar effort from the other side of the fence. This time **Smarmco Research**, "*Guys In Ties Who Are Really Nice*", canvassed the record community for some of their favorite descriptive phrases used to portray radio people. The term "geek" came up frequently as in "radio geek", "geeky jerk" or "your mother's a geek". Terms that also surfaced and their response percentages were:

- I've seen better ears at a corn stand .....72%
- Should be involuntarily sterilized .....28%
- Hand full of gimme and  
a mouth full of much obliged .....84%
- Munchkin balls .....39%
- Thinks KTEL records is a progressive format.....46%

Well, now that we've cleared the air it's our sincere, yes even smarmy, hope that everybody feels just a little bit better. We really must do this again sometime.

**WBCN/Boston** seen with a visiting **Chuck Norris** who hit the station to pump up sales on his new autobiography, "*Kicking Butt All The Way To The Top*." Notice how happy everybody looks? With **Chuck** around you had better put on a smiling face or risk some none too gentle denture replacement.

**THE RADIO RUMBLE**

**WGTR/Miami PD** **Bill Wise** has been made Operations Manager for the station and its other half, **WIOD**. **Bill** has been instrumental in making the South Florida rock wars as intense as the blast from a 20k nuke. His strictly formulated Classic approach has remade the competition in his market and **Bill** gets this corporate high five as a result of his efforts. Across the street however the hall and studio buzz about both **Charlie Kendall** and morning guy **Joey Reynolds** has folks frying the phones in an orgasm of gossip. Word has it that **Joey's** gig is hanging by a thread and that **Charlie**, who is scheduled for a well deserved vacation, may soon be changing his zip-code. Just more indications that the Miami mambo is far from done.

**KKLZ/Las Vegas** is looking for an air talent to hit the beach for night duty. Good production skills and an ability to win are mandatory. T&R to **Jeff Murphy** at **KKLZ**, 925 E. Desert Inn Road, Las Vegas, NV 89109. The station has stuck it to former heritage rocker **KOMP** in the last book so the stage is set for yet another skirmish.

**WLLZ/Detroit** has a new GM in **Buzz Van Houten**. **Van Houten** has worked the market extensively on the Sales side of things and his appointment looks like another strong move from those Motortown maulers.

**WLVQ/Columbus** reports a change in music hours. You can now reach Wendy Steele Thursday and Friday from 4:00 - 5:30pm. Wendy also reports that the first ever concert at Ohio Stadium will be held this weekend. The band to set that precedent is Pink Floyd and the town is getting ready to welcome them in high style.

**KMJX/Little Rock** held a very successful scavenger hunt recently. Grand Prize? How about a Suzuki Samurai loaded down with about two grand worth of extras like a mobile phone and lots of stereo stuff.

**KLOL/Houston** unveiled their new midday-meister with the announcement that Moby has come home to Houston. The move sees Rick Lambert leaving the air to concentrate on his PD duties and effectively puts together one of the most potent airstaffs in the format.

**WRIF/Detroit** called to issue this challenge to WEBN in response to their statement that Ty Williams had been on the air longer than that old man on the mountain Arthur Penhalow, an 18 year vet of the station. Scott Brown countered WEBN's position, "Sure this guy at WEBN has been on the air for 20 years but has he been on the same shift for all that time? At exactly the same time every year, year in and year out? Arthur has, he was the drivetime jock here since before there even was a 'RIF. So if you can find a longer lasting, better working afternoon guy, buy him." Scott finished by saying something about having your machine call his machine so the lawyers can do lunch. Bragging rights in this issue aside, both of these gents deserve major attaboys for their drive and stability.

**WKGR/West Palm Beach** has named Steve Street as their new PD. Steve comes from market competitor WRMF and replaces Tom Stevens who was dismissed last week.

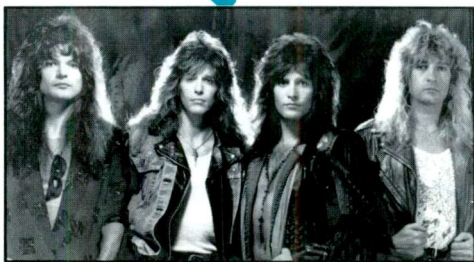

**WBRU/Providence** has made Neil Bernstein their new PD. Seems that former PD Kurt Hirsch has departed the wonderful world of radio for a few casual years in law school. What a swap on the stress-o-meter! The station also announces that their scavenger hunt came to a \$10,000 climax with a runoff among ten deadlocked winners. Key to the contest were those ever valuable Bob Uecker baseball cards.

**KZLR/Little Rock** is upping the promotional ante in their head to head confrontation with KMJX. \$30,000 in contest cash has already been distributed and their new rolling billboard is a custom van called "Black Thunder". The station is also getting the official sponsorship of the Riverfest Fireworks this year with an anticipated impact on 200,000 potential listeners.

**KDKB/Mesa** is throwing their 93 Days Of Summer promotion with the accent being on recreational prizes. The station will be giving away weekend trips, concert tickets, rafting adventures and more of the same during those long hot days in Arizona.

**KRQR/San Francisco** all night temptress Mimi Chen has been selected to sing the national anthem for the Giants/Reds game on June 10th. Mimi was selected by the franchise to warble the most unsingable song in the history of such things. Mimi is one of the Bay Area's most popular announcers and her contributions to the all night show have helped to motivate KRQR's recent surge in the Winter book.

**KZEW/Dallas** has signed on with Carl "Rock And Roll" Russo to do evenings at their station. Formerly with powerhouse WFBQ/Indianapolis, Carl will be in town for duty June 6th. To celebrate the station is throwing the Second Annual Hydromaniac Slideathon. The contest is a marathon of water sliding that took some 41 hours to run its course last year. Prizes? You bet, about \$15,000 worth will be awarded during the event and then it's all done but the puckering.

**WRKI/Danbury** threw money at the audience to celebrate their millionth song milestone. The tune was Elton John's "The Bitch Is Back", which was also the first song aired by the station in 1976 when they went AOR. The first five callers received \$1,000 each for being on cue and the resulting tidal wave of phone calls, (30,000 in all), burned out the local phone system for almost three minutes.

**WPYX/Albany** brought their \$106,000 Dash For Cash to a checkbook wrenching conclusion when their winner dove head first into a vault of money and scrambled out sixty seconds later and \$19,621 richer.

The WPYX vault of shame with enough cash in evidence to drown a Sales Manager.

The winner showing his 19k form in the category called "Scoop and Scam". Now maybe he can afford to have those shoulders shaved.

**KRIX/Brownsville** has bumped Joe Kelly from his Ops gig with no replacement yet named. For the time being Sonny Cuellar, (or Sonny Cellular as we like to call him), is the man with his finger on the pulse of everything.

**WBCN/Boston** presents the 10th Annual Rock And Roll Rumble, a local band competition. In the past winning bands have received fully produced videos on MTV, studio time in some major facilities, lighting and even sound equipment. With a full compliment of industry heavies to serve as judges you can also count on a strong shot at some major market A&R attention for the lucky winners as well. 24 hopefuls will take the challenge over a week of competition with \$3,000 being awarded to the first place band.

**KRZQ/Reno** morning talent Captain Dale Kelly has been fired and the station is shopping for a replacement. T&R's should be directed to Dan Cook at KRZQ, 4000 Kietzke, Building D #135, Reno, NV 89502. The station has put together a quick substitute show but if you've got the stuff they will certainly consider your application.

**WONE/Akron** gifted a listener with a trip to the Indianapolis 500 as part of their continuing Vacation A Day promotion. The station estimates about \$50,000 has been given away in trips and funstuff during this sweep of promotions.

**WHCN/Hartford** celebrates their 19th Birthday with a week of special events culminating in a live broadcast party with houseband NRBQ. The station promises a good time for their listeners and one of those memorable rock and roll happenings that money can't buy.

**KSHE/St Louis** decided to celebrate summer with a neighborhood BBQ promotion. Winners will get a custom barbecue with enough food for fifty friends and neighbors. The prize is given out once a week and the number of block parties is going off the scale as a result. The contest takes advantage of the fact that May is National Barbecue Month for widespread consumer and retail tie-ins.

**WKLC/Charleston** named Duane Doherty as their interim PD as Brian Krysz heads for new corporate chores at sister station WCCG. Brian will continue to have a hand in programming long distance style and they have not precluded the possibility of a replacement being hired for him should the right candidate present him/herself.

**WFBQ/Indianapolis** has hired Jim Pemberton to fill the gap left by Marty Bender at PD. Jim leaves that MD post at WLLZ/Detroit and, just to make things real interesting, his new employers also own crosstown rival WRIF/Detroit. Meanwhile, back at the radio ranch, look for Doug Podell and WLLZ to go out of the market for Jim's replacement.

**KZRR/Albuquerque** morning personality T.J Trout see filming his TV spot with Welwood International. The concept seems to be either "I like rubber" or "Fish are fun".

**KBOY/Medford** got together a David Lee Roth Skyscraper promotion that sent some listeners upstate to Portland to see the show. Congrats go out to Greg Dorfman and Kenny Puvogel for all their help on this one.

**KSQY/Rapid City** PD Jack Daniels is getting married for the first time this August on the Island of Maui. The reception will be held at Saloon #10 in Deadwood and the industry at large is welcome to join in the festivities. Call to RSVP at (605) 578-3533.

**WKWQ/Columbia** got the welcome for Lynyrd Skynyrd's concert in their town and went suitable boop shoooby over the fact. Huge blocks of programming were tailored for the band and listener awareness promotions stockpiled a load of station-band association with their audience. The grand prize put someone in a limo for the ticket, dinner and backstage routine all of which went down very well in that Dixietown.

**WKFM/Syracuse** announces new music hours due to their Spring promotional push. Calls to Brian should be made on Thursday only from 11:00 - 1:00pm.

**WIZN/Burlington** pictured here getting casual with Jerry Harrison and Alex Weir. The guy with the beard is MD Tom Van Sant.

**WNEW/New York** threw their Annual Rock And Roll Beach Party Broadcast at the boardwalk of Asbury Beach this week. Daylong giveaways and remote broadcasts from the beach featured appearances by Glen Burtnick, Joan Jett and The Blackhearts, Treat Her Right and the Georgia Satellites.

**WMMR/Philadelphia** vet Chip Horanek is looking for opportunities as part of a personality intensive morning show. Most recently he has worked at Power 95 in New York and can be reached at (201) 446-9560.

**WYNF/Tampa** gets mobile with their custom axe and an in-store recently held with White Lion.

**POSTSCRIPT**

A number of industry peers wanted to extend their condolences to **Bill McGathy** on the recent loss of his father. We would like to take this time to add our own sympathy to that growing list. Bill is, as anyone who knows him will attest, one of the most enjoyable people in the industry. His sense of humor has brightened many nights spent on the town. It is therefore doubly sad to think of him suffering this loss.

## THE PLATINUM GRADE PERFORMERS AOR AT ITS BEST

The Book is back and stations across the country are sitting down and pouring over the endless lines of data, scratching their heads and trying to figure out what to take seriously and what to discount as "sampling error", "statistical anomaly" or just plain "bad luck". Within the charmed circle of radio's elite these questions are also being asked. The nine stations being profiled in this article represent the crown jewels of the format. These double digit monsters have the distinction of being among the finest examples of broadcasting in any format you care to name. Make no mistake, these people are the best at what they do, the ones who have set themselves apart from the crowd by rising above the self-limiting 5 or 6 share mentality of most rock stations. The realization by these professionals that AOR can be a market dominant format is refreshing. It is indeed time to leave the back of the bus.

**WCMF/Rochester** tops the list of format leaders with a whopping 15.2 rating 12+. Stan Main has led the station to this peak performance along a very stable growth curve. With the exception of a slight dip in the Fall, the station has been consistently plotting the kind of audience increases that other stations just dream about. The station also ranked among the highest AOR's in women 18+ and they were the only station in this group to win in the morning, reversing the typical AOR daypart profile by coming in second both afternoons and evenings.

**JT....** How do you see the station developing right now?

**Stan....** The station has been consistently delivering over 50% of the audience above the 25+ line. In fact, the Classic rocker in the market has now gone to a straight oldies format because they just could not keep up with us. This development should help us to expose more new music now that we have a corner on the market. It's not that we are going to do anything radical, you don't want to fix anything that isn't broken, but we plan to do a few things that we have held back from before because of there being a Classic competitor in the market.

**JT....** What sort of new to old music emphasis is the station using right now?

**Stan....** We've seen the station tighten up as much as a 30/70 current to core ratio but things are more like 60/40 now. As for our projected expansion of new music, that will probably mean making use of artists with a consistent heritage and not necessarily conducting an exploration of the new artists on the scene.

**JT....** Do you have any other concerns about your musical execution?

**Stan....** With our TSL showing a dramatic increase we have to give some serious thought to whether or not things are rotating too fast. This can be tricky because it's a very fine line between making the right adjustment and overreacting to a perception as opposed to a reality. We have to figure out whether the Winter numbers reflect an accurate or distorted usage of radio by our listeners and if that data should really be factored into our decisions regarding rotations. If we are wrong we could end up doing exactly the wrong thing for the station.

**JT....** The morning show is the only number one AOR show in our group of Platinum Grade performers. You must be proud of them.

**Stan....** Yes, our morning show is very much a contributing factor to our success. They have been number one for two books in a row and they just keep getting stronger.

**KEZO/Omaha** is in the midst of welcoming back Bruce McGregor to the station that he made so successful before leaving for Milwaukee and Detroit. Even here, with the highest surveyed numbers in men 18+ and a number one performance in three out of four dayparts, the watchword is improvement.

**JT....** What have you done with the station since your return?

**Bruce....** The only adjustments I've really had to make here were musical adjustments that will help keep the station a bit more uptempo. It was getting a little sleepy around here at one time. That sort of musical move required dayparting certain songs more strenuously and eliminating other songs from the library altogether. Too many downtempo songs were killing the rock and roll spirit of the station.

**JT....** How about the staff?

**Bruce....** The jocks are well known in the market so it's just a matter of helping them be more concise while keeping their personal appearances up. I need to work with them on content but when you have been together as long as we have it's a lot easier to kick back and still get the job done. These guys also recognize that I've been to these other markets and picked up a few things along the way and they are very eager to profit from my experience.

**JT....** Were there any other structural problems that you faced when you got back in the building?

**Bruce....** We had a problem with spotload when I returned, promotions had gotten out of hand and the sales staff had taken advantage of the complacency in programming to make hay while the sun shines. Right now it's important to position the station so that we can block anyone who might try to make a run on us in the future.

**JT....** Your Female numbers aren't particularly strong. What do you attribute that to?

**Bruce....** We used to do much better with women and I think an expanding base of musical familiarity should help us in that regard. There is a real good CHR and AC market developing here in Omaha so we need to do something to increase the casual female cume of the station and then find a way to turn them around to help our AQH's. The station is in great shape and now it's just a matter of taking it over the top. This is a rock and roll town so we have good ground for planting that seed of market leadership and, since we have been number two since Spring of 86, what's to stop us now?

**KMOD/Tulsa** has been cooking right along since Charlie West left for those bright lights in L.A. town but the story has not been with some ups and downs. The ups saw the station hit a sizzling 14.9 last Summer, the downs have seen a slide through Fall and Winter that brought the station to 12.5. Still mighty respectable to be sure but PD Jim Jones is not one to wait for the goodtimes of Summer to bring things around again.

**JT....** How much of this decline is based on the Winter doldrums?

**Jim....** That seasonal peak in the summer really does hang there and I hate it to be that way because I don't want to feel like we should accept a down Winter book just because of the seasonal timing. I mean, we just cannot accept that. There must be a way to adjust the formula so that we can maximize our relationship with the audience no matter the time of year.

**JT....** What tactic do you suggest?

**Jim....** I'm a big believer in building momentum, whether it's across the year or through your dayparts. You start things out easy and somewhat safe and you build in tempo and risk-taking as you go along. In Tulsa we are in a fierce AC and CHR market so we must be careful not to play songs that will blur our image. It's critical to watch the texture of every tune so that we don't slow down that momentum. As we build to a plateau in the evenings it could just be that we will back that plateau up as Summer gets closer. Doing so we will better reflect the audience's change in lifestyle with the warm weather seasons.

**JT....** The station is only coming in third in the mornings. How are you going to deal with that?

**Jim....** The morning show is a problem for us because we know that we are getting much better response to the ZOO than the ratings reflect. This market is very conservative so we have to watch our content. If we have a weak spot that's got to be it because the music is obviously right on the money. Our morning show does have enough heritage to mature with the audience and that is positively reflected in their work. We've gone through our "soaking panties" stage and the show now really reflects the format at it's best. They understand how the format has changed and what needs to be done. I'm very lucky in that regard because they have the ability to get out of their own little universe to take the overview regarding how their work fits in with rest of the station, market and industry.

**JT....** You have a very strong philosophy about format purity. Could you share that with us?

**Jim....** The format must use emotionally sensitive marketing that tells the audience "You are never too old to rock and roll". Keeping CHR and AC in their niche and standing out on our own, that's the critical battle. Don't let them take your music away and don't make the mistake of borrowing their tunes either. That means staying away from being manipulated with singles by the labels. Crossover music should be viewed as a potential evil because it waters down our image. One of our most unusual aspects is our ability to appeal to Harley riders and lawyers all at the same time. That ability to cover the rock and roll spectrum through all sorts of lifestyles is something I was taught by Charlie West before he left for

KLOS. Charlie is still teaching me how to meet the challenge of programming in the eighties and the tradition he inspired lives on.

**WEBN/Cincinnati** has long been viewed as the heir to WMMS' crown as the Great Middle-America Rock and Roll station. Numbers that defy gravity, including an orbital 16.7 last Summer combines with the a strong Female and Teen presence make for an unbeatable coalition that has made grown men cut off their own arms rather than take the station on head to head. Tom Owens is half Rocker and half Five Star General, his sense of strategic planning sets him apart from his peers and has made Cincinnati his own private playground.

**JT....** Well, it's another great book for Tom. How do you view this one?

**Tom....** This book is yet another major success in terms of our 12+ numbers but also in the qualitative arena where we are #1 in 25-54 men and saw a 60% improvement in 25-34 females. This kind of increase in key demos is always welcome and a sign of things to come.

**JT....** What are your primary goals at this time?

**Tom....** The station is already becoming much more well rounded in terms of sports, news, traffic and entertainment values. The whole process is evolutionary and will make the station into a much more mainstream and service oriented vehicle. We had a bit of luck this time out gaining Women without any losses in Men or younger demos. The music on the station has become much more mainstream and we are #1 18-34 women as a result.

**JT....** You have a pretty hefty teen base to work with, how are the demos breaking out for you?

**Tom....** Our 25+ audience composition stands at 47% which is a little low right now but we have retained our number one strength in 18-24's. As for our teen composition, although we get a 22.7 that only reflects 14% of our overall audience. One of things we have managed to do here is to stay firmly within the framework of the format for 20+ years and that sense of history, combined with a collective and well developed sense of humor, only fuels the fire.

**JT....** What blueprint do you have for the next year?

**Tom....** We see a major opportunity on the horizon for WEBN. The station is on the threshold of getting the absolute most out of the product that is possible. We are, in fact, reaching saturation level with the audience and that means that the focus must now switch to demo tweaking and some major growth in morning drive. We want to create a true morning drive dynasty here and we are intent to back that up with a daypart inten-

sive strategy. The station should become such an immovable object, the intimidation factor should be so high, that any potential competitor would think twice, maybe ten times before attempting any direct format attack.

**WPYX/Albany** is basking in the glow of another high octane performance. Ed Levine hit town in the Fall of 86 and rebuilt a drifting WPYX along more streamlined and competitive lines. The end result has been some serious double digit books and a stampede for the exits that has steamrolled more than a few market foes.

**JT....** What's the most important aspect of this book?

**Ed....** This is a textbook example of a winning radio station not only having big numbers but having them in all the right places. For instance, we were among the top three stations in the market when it came to female demos up to and including 25-54.

**JT....** How do you respond to criticism that the market just isn't all that competitive?

**Ed....** This market is very competitive with two CHR's, two AC's, a Classic and a Progressive rocker all coming into the metro with city grade signals. This town is no cakewalk. In that regard we are especially proud of our performance against the Classic competition. WQBK made a fatal mistake by running at the market when there wasn't really a hole for them to fill. We have always had a very solid image with the Classic audience so that left WQBK without much to take advantage of. Taking on a Classic station can be a very serious challenge because it all depends on positioning. If you aren't ready to meet that challenge before it hits you then all the good moves in the world won't help. At the same time you can't overreact to the threat of a Classic station or you will just hand the audience over to them by aping their content. Then again, not reacting is a kind of overreaction in itself. It's a game of watching the niche and making the most of your research and market trained judgment. We could superserve that Classic hungry audience but we'd lose our ability to perform as a 12 + station if we did. Classic rock is such a minimalistic format, it gives you only one good thing to love and not a whole lot to hate. And that one positive point of contact just isn't enough to sustain a station when it comes to mass appeal acceptance. It is basically a formula for a micro market. In a large city you can make enough money with it but not in a market like Albany.

**JT....** So you see the game as being one of anticipation not merely adjustment?

**Ed....** The main thing is to be ready for a challenge to your station before it becomes a reality. You simply cannot change a perception and with two weeks of adjustments make up for two years of neglect. I also try not to view the market in terms of AOR potential. We would rather go after the whole market

and that philosophy has WPYX now sharing equally with three other stations in the market. Our growth in Men and Women 35-44 is unheard of when you factor in our teens as well. We have built what we like to call PYX pride here. Our people are proud to be working at this station. The rest of the market may call it arrogance but I want to be like the Bears or the old Raiders and use pride and intimidation to keep the competition off balance.

**JT....** What are the most important elements in building a winning radio station?

**Ed....** The keys to winning begin with research. Not just nice perceptual stuff but hard facts that let you know in an ongoing process whether the station has what I like to call "Song by song greatness". We hear time and again that the overriding complaint about AOR is that it is just too damn unfamiliar and uneven for the audience. To get around that we use auditorium testing once a year and do constant outcall to cross check those results. To back that up we have regular focus groups that provide both factual and perceptual data. Next on any winner's list is marketing. Too many stations are content to be marketed as "The Rock And Roll Station" but you don't have to constantly reinforce that image with a public that has been listening to you for a number of years. Lastly, you have to shake off the limitations of being too preoccupied with what the competition is doing in your format. 50-60% of your audience won't even be listening to the other AOR in town but they will be cross-cuming to the CHR for a breath of fresh air once in awhile. Don't spend so much time being caught up in what the direct format competition is doing.

**KLAQ/EI Paso** continues to win big in a situation where they are the only AOR in town. But for Nat Lamp that makes the aspect of competition even more intense as it relies on his ability to create winning promotional campaigns as often as programming ones. With a firm grip on his rock and roll position, he must shift his energies to fight a multiple front war with the market at large while keeping his staff fired up.

**JT....** How has the market changed in the past few years?

**Nat....** This market has become very reactive to promotional efforts and that is something that has just kicked in over the last three years. If anyone can take a run at us it's in that way. Unfortunately, during the Winter book we tend to pull in our budget reins because everything goes into the Spring and Fall ratings period. The logic being that doing a good job during those periods will spill over into the Winter book, but that didn't happen this time. We have to stop sitting on our heritage, you know, taking things for granted and work just as hard in the Winter as we would for any other ratings period. In the morning show, for instance, we try to do things that tend to string along over time. Program projects that last for a couple of weeks and feed on themselves. Other than that we promote the station as a cohesive personality but we do key the most

important aspect of any such promotion to the morning show and then try to recycle them through all the other dayparts.

**JT....** You guys have had to shuffle things a bit in your drive for a more mature share of the market. How have these changes affected the station?

**Nat....** We are trying to refocus our musical direction so that we don't scare the ladies quite so much. It's important that we drill it into their heads that they should give us a shot. That's a priority for us. Aside from that we have to tone down any sexual overtones, women just do not have any patience with that sort of stuff anymore and a chauvinistic attitude on the air can scare them off just as quick as playing the wrong music. There may have been a time when it was considered cute or good clean fun, but no longer.

**JT....** How do you handle the problem of staff motivation and direction?

**Nat....** It's important to let the staff interact with you when they are being critiqued and not just make them feel like you're coming down on them. They are the ones that hold down the shift so let them give you some ideas as to what their show needs or could stand to lose. Sometimes that's the perfect input for your efforts as a PD. Make the staff feel involved and use their best ideas, let everybody know that they are permitted to bring something to the game if they want to contribute.

**WLAV/Grand Rapids** is in the double digit club for their second book but PD Dave Lange sounds like a man with major mountains still to climb. Which is true when it comes to his morning numbers. After restructuring his AM drive team along a more full service model he must now wait for them to catch on in the face of a #5 ranking in that daypart. Aside from that challenge Dave has the lowest teen rating of any of our profiled stations and is knocking down a #1 ranking in only one daypart. That means that specific demo dominance is pulling up the station to a phenomenal 12+ platform. And when we say demo dominance we're talking borderline thermonuclear.

**JT....** This book shows a slight dip for your station. Do you agree with others that it's just in the nature of things for AOR to get hurt in the Winter?

**Dave....** Outside of a few markets, Winter books are tough on AOR. In medium markets the pattern of an increase in 45+ diary keepers starts affecting things also. These older folks just get much more involved in the rating process in Winter. That usually means that traditional MOR, Country and News/Talk rise at the expense of younger skewed formats.

**JT....** Your morning show performance is pretty far back in the pack. What's the story there?

**Dave....** We performed much better in the morning show than I thought we would given that the program was completely

changed in February. They are doing well on the street but it will take another trend or two to figure out how things are really going there. We have gone to a more full service approach with things like sports, community information and even movie reviews that appeal to the 25+ audience. For us toilet humor was something of a problem so we flushed it and now the station has an adult sound that will work across all the dayparts.

**JT....** You have a truly adult profile when it comes to your demo performance, almost no teens and the kind of marketable listeners that make agencies drool.

**Dave....** Women are up almost 50% in this book and that's a very good sign for us. I think we have so few teens because of the market itself. There are three teen crazy CHR's in town and they dominate that group pretty well. Those CHR's have 30 and 50 shares in teens and that's great because it means that is their sole target audience. They can have all the soft drink and bubble gum buys in the world as far as I'm concerned, we have elected to stay away from all that.

**JT....** What was the big lesson for you in this book?

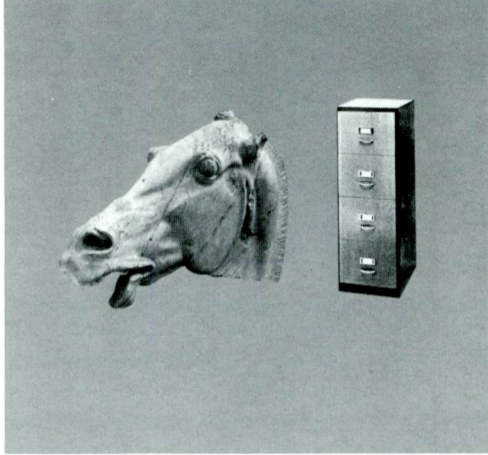

**Dave....** The main thing we felt was that Winter is a tough time to maintain excitement on the air. There are no really big albums and no concert tours or outdoor activities to tie into and everybody tends to get a real dose of cabin fever in this part of the country. That poses a promotional problem that we will have to solve for the next Winter book. Everything kind of slows down out there in the real world but it would be kind of nice to avoid that when it comes to your station's performance.

**The thing that impresses me about these winners is their continuous drive for self improvement. Sitting on these monster numbers they are far from content to pause and look smug for the camera. Morning shows need be dusted of their CHRism's in the search for a true AOR personality approach that is adult but rocks at the same time. Musical focus and the research that makes such focus possible must be upgraded regularly and used to build a station's profile as unassailable. Promotion and marketing have become as crucial as programming in a tight race and in the pursuit of market dominance it's an absolute must. Keep your staff healthy, happy and involved in the decision making process and let Ownership know that none of this stuff comes for free. Catering to the purity of our image as musical pathfinders and letting the audience know that they can enjoy our company without feeling embarrassed is another critical part of the recipe. So is the need to anticipate challenges and prepare for them before they steal your momentum. Most important though? Simply this, don't accept that you have any limitations and maybe we will be writing you up next year.**

**WIRE • A BELL IS A CUP**

**Wire "A Bell Is A Cup Until It Is Struck" (Enigma)** Now that Wire has shifted gears into the 90's mode, they return with music that will latch onto an even larger audience. The glory of the music is realizing that the band is always maturing and testing new waters with sophisticated new combinations and a mode that's eerie and friendly at the same time. The sleek and imaginative new sounds found on "A Bell Is A Cup..." continue to be ahead of the times, floating one layer above us all. Their detachment from popular music standards reward listeners once more, first with the "Kidney Bingos" single and now the rest of the musical feast. Colin Newman's soft voice opens with "Silk Skin Paws", a chunky but sweet rhythmic delight followed by "The Finest Drops", featuring Graham Lewis' vocal charm. "Come Back In Two Halves" and "Follow The Locust" ride on the busy, pulsating rhythms and embellishments that decorate each song, leaving plenty of room for interpretation. The rest of the puzzle may never be solved, and the alluring machinations born of Wire will always be a timeless reminder of their musical influence that inspires more musicians than you know.

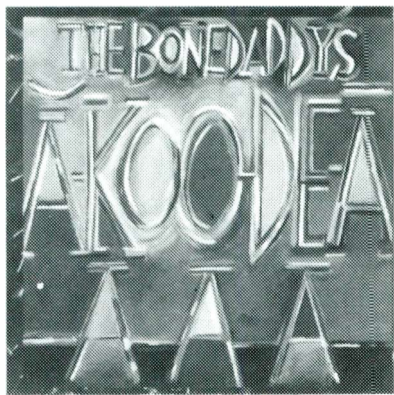

**The Railway Children "Recurrence" (Virgin)** With their second domestic release, England's Railway Children captivate every mid tempo bone in your body with a smooth guitar presence that supports their consistent pop appeal. Now at #8 on the U.K. Charts, Aztec Camera's "Somewhere In My Heart" will be the next American single as well from the album "Love", released last year from Sire Records.... **Digital Sex** was originally a Nebraska band whose claim to fame was performing songs by groups like Joy Division, Velvet Underground and The Cure. When they discovered that people were attracted to their originals, the band members launched out and began a career back in 1983. The delicate, refined sound of Digital Sex sometimes implies a pop/new age synthesis, but lead man Steve Sheehan writes songs that are concise and uplifting, removing them from Dead Can Dance comparisons completely. "Essence & Charm" is the title of the newly released CD compilation which houses songs from 1983-85 plus seven new recordings that show how much the band has matured. This is a limited edition that's only available by contacting Post Ambient Motion, 5402 Camden Avenue, Omaha, NB 68104. Enjoy.... into the spotlight, the lyrics assume a more dominant stance than ever. The blue, airy mood that accompanies the Railway sound leaves a feeling of calm in its path with memorable songs like "A Pleasure", "Monica's Light" and "In The Meantime" which mark the lighter moments on the album. The fresh sound and lack of pretense found here only lend the finishing touch to a style whose pure simplicity sets the tone for a perfect summer record, and another successful entry into the growing Railway Children catalog. Sometimes nice guys do finish first.

**CHARTSTARS**

**Soul Asylum "Hang Time" (Twin Tone/A&M)** If it has ever been said that you can't "hear" Soul Asylum, then you MUST be deaf because these guys are experts at making guitars shriek like never before. Rock and roll plain, loud and simple with a biting edge that beckons the rebellious attitude of the genre to come alive again. "Sometime To Return" has received impressive early mainstream support with full time play at WLLZ, KQRS, WZZO, WLAV, KQDS and WPDH, and an army of alternative stations cause the move to 12\* on the Top 50 Airplay chart. Increases at WBCN, KUNV, WBER, WUOG and WRVU, plus heavy rotation at hometown KABL ("#@\*!&"), KRCK, WFIT, WHTG, WRVU and others mean more airtime for a band that really deserves a chance to be heard on a grand scale. The report total reached 43 stations this week and progress reports keep flooding in.... Ted McEnroe at WBRU says "It's their most accessible album to date, and more people than ever are being turned onto Soul Asylum".... WRVU's John Koski admits "I was never an in depth listener of their older records. Now I'm finding myself going back to listen! The roots sound is still there and I'm really for all of the national attention surrounding the band".... Spike Marrone at WHTG feels "They appeal to anybody from Album Radio to College listeners. Soul Asylum have been critics darlings long enough, so it's time to catch up with some airplay!".... KUPD's Jonathan Rosen says "I'm a believer. I suspect that Soul Asylum may not cross over to mainstream completely, but specialty shows not playing this are really missing the boat. This album will be in rotation here for a long while."

**Camper Van Beethoven "Our Beloved Revolutionary Sweetheart" (Virgin)** If you don't believe that this band is huge at college radio, then check out the 1\* Debut in CMJ and rethink your opinion. Now that they've given a wider audience music to cherish with songs like "Eye Of Fatima" or "Turquoise Jewelry", your ears can tell

you what will happen next. So far, 37 stations are off and running as the album practically enters the Top 10. Heavy rotation highlights include WHTG, KABL, KJET, KRCK, KUSF, WBER, WCDB, WTSR, WUOG, WWUH, WWVU and more, with 5 new adds (KJQN, KRZQ, WEQX, WHCN, WVVV and WWWV) this week.... Tim Ziegler at KUSF believes "This will definitely cross them over. The new songs are finely produced and 'One Of These Days' is a personal fave".... Sean Maxson, WXCI says "This is a fine major label debut with a lot going on in the music".... WTSR's Doris Duwe reports, "It's another brilliant effort that sounds very different from their earlier records. DJ's are picking up on Camper Van Beethoven in a big way".... Lin Brehmer at WXRT says "This is a gloriously varied piece of work and 'Eye Of Fatima' is bare knuckled American rock. 'Waka' is simply the best rock instrumental of the year."

**Shona Laing "South" (TVT)** Once her songs get you within earshot, it's downhill from there because this songstress from New Zealand knows how to tug on your heart strings with some of the most tempting tunes out now. "Soviet Snow" and "Glad I'm Not A Kennedy" gained immediate reaction with the swirling political innuendo that immediately rises to the surface. On the flip side, "Drive" and "Caught" reveal her obvious talent for blending unexpected melodies into shiny pop songs.... WTSR's Doris Duwe thinks "Her voice is wonderful and the songs catchy. College radio will probably start the buzz as usual but this definitely appeals to all audiences".... WMDK's Mike Thomas recommends "This is a must for all programmers. In one week our requests were phenomenal! Play it!".... Sean Maxson at WXCI adds, "She could be an all out pop star and a college radio success! Shona writes catchy tunes and has a very appealing voice".... WHTG's Mike Marrone reports "According to our retail reports, she's blowing out of the stores faster than Sinead O'Connor!" An airplay check finds KBCO, KFMH, KTAO, KTCL, WDHA, WDRE, WFNX, WHFS, WHMD, WNCS, WRCN, WZEW, WKXL and more for 38\* Airplay status this week.

California's **Prime Movers** have just released their debut Lp on Birdcage Records (P.O. Box 784, Sierra Madre CA, 91024). With a gliding hand on the guitar and a western backdrop, the ethereal sounds mesh with brilliant production that'll surprise y'outta yer boots. The windswept theme in "On The Trail" and other brazen hooks in "No One Waits For Me" and "Murder In Bordertown" make the "Spooked" Lp one to seek out and play often. Two thin beams of light shine into his face from opposite ends of a darkened stage, making Peter Murphy look like his skull has been pierced with opposing drills of illumination. His long and angular presence waits, assuming a mime-like stance that fills onlookers with mysterious anticipation as he opens the set. The lurking intro of "His Circle And Hers Meet" unfolds into an hour plus of music from Murphy's newly released *Love Hysteria* Lp on Beggars Banquet/RCA Records. He stands like a sentinel waiting for the first musical break, a cue for the haunting and familiar voice that bellowed tones in the Bauhaus favorite, "Bela Lugosi's Dead", now declaring its independence in songs more uplifting... and human.

The fact that Murphy is a natural performer may have been established in the early 80's, but now he's proving it to American audiences with an album that showcases his strength as a songwriter and musician as well as one of the more distinct voices in popular music today. You may remember him as the caged singer in movie clips of "The Hunger"; or in the 1984 project by Dalis Car with ex-Japan member Mick Karn; or the release of his first solo Lp *Should The World Fall To Fall Apart*. These were among the events that became the catalyst for his best production to date. "Love Hysteria" brings forth a swirling modern sound that melts the musical personalities of pop, classical, latin, eastern, Bowie and Iggy, but mostly Peter Murphy's glowing aura which overshadows any hint of imitation.

With the prospect of commercial radio success in America becoming a reality this time around, Murphy muses "I don't consider any of my records more or less mainstream than the other. My point of view is writing, creating and performing on stage. I don't feel that I've softened up at all and I'm just as passionate about *Love Hysteria* as I was *In The Flat Field* [Bauhaus 1980] or "Bela Lugosi". The process is still exactly the same, as is the whole attitude. Maybe there's more melodic potential in my writing now, because the melodies I heard in my head during Dalis Car or Bauhaus were more instinctive. They were not necessarily meant to be alternative, but at the time were. I'm happy to know that what I'm doing now can be heard by more people and it's also refreshing to realize that more album radio stations are willing to negotiate newer artists. It seems they feel more comfortable with those who offer a different sound instead of churning out the same sound every time. They now want the music that has always been there."

# PETER MURPHY

No matter how you categorize his new sound, Peter Murphy's writing is more mature than ever without leaving behind any of the visual imagery his songs have in common. The abstractions leave room for more personal interpretation and as an artist, he prefers that effect above all else in the music. "Dagnat Drag" for example was inspired by a painting. "I wanted to write a fairytale about an imaginary place," says Murphy, "the song turns out to be a love song, but it's also about liberation of the soul. It's a story about three souls (represented by doves) being held captive by an evil spirit (a dragon). They eventually escape into freedom and the story unfolds into swirling themes that overlap the main one being love and the freedom that surrounds it." Most of the songs are written on his 4-track home studio. "I was just strumming on the guitar until the sound was just right. I wanted a high energy approach with a quiet break for the monologue. There is a lot of layering in all of the songs, but they are basically very simple. If you break all the parts down you can hear each one working independently of the other."

For a guy who is perfectly capable of making a go of it on his voice alone, Peter Murphy's desire to explore more musical avenues on this album is quite evident. "I didn't want to be limited to one aspect of my own record. In Bauhaus everyone played one instrument and it just so happened that my voice was my instrument. I never bothered to learn another, but when I went solo, I knew the only way to get the music recorded the way I wanted it to be was to start using instruments myself and bring in someone to collaborate with. It was very difficult at first, not knowing any other possibilities, but I picked things up along the way using my ear mostly. Many of the songs on *Love Hysteria* were created from very simple ideas. I would just play around on the keyboards and hear foundations of songs. There is still collaboration going on, but one part is not intended to be stronger or dominant than the other. It's all part of the whole."

Translating the record to live audiences has been Peter's biggest job in recent weeks, but converted fans and stronger record sales are an important reason why he plans to return to America in July. The "All Night Long" video is in rotation on MTV which leaves no doubt that another wave of recognition should fuel the upward momentum of his career. This is quite a comeback story for the man who picked himself up after the spotlight mania of Bauhaus grew dim. The will to "start over" does not come easy. Peter Murphy credits, "A solid relationship with my wife was a real motivation after Bauhaus ended. Coming down off of such a high feeling made it difficult to carry on and even start over. This may have been born of fear and exhaustion, but I needed help in discovering my talent again. For the first time after Bauhaus I feel totally in communion with writing and performing again, which at one time was questionable because of the pressure to succeed like I did then... but that time is passed."

**Judas Priest, "Ram It Down", Columbia....** Looking over at the chart, could there honestly be any other candidate for Record Of The Week? I don't think so either. With their astonishing 27 point Hard Hitters move, the Priest has taken a commanding hold on the #6\* position and appears to be jockeying for even higher echelons. The listing of any call letters would be utterly useless because there are just so many, and you know we don't like playing favorites. When listening to their latest, the last couple of records just don't seem to compare. It looks like keeping the new bands in line, is gonna be a breeze for Rob and his bad boys of metal. And what are the masses saying? WELL, Mad Max Hammer says, "Leaping into the Top Ten is Judas Priest's "Ram It Down". We ram every cut off that album down our listeners throats and the response is great" and WWVU's Rich Scroggs thanks god that, "...Judas Priest threw their synthesizers away and picked up their guitars again," because, "'Ram It Down' follows in the tradition of the classic Judas Priest Lps. There is no excuse for not playing this record" and Mr. Mike felt compelled to exclaim that, "The Priest is back! I said the single was pretty good but there are some way heavy tunes on here like "Love Zone", "Monsters Of Rock" and the thrashing title track. Kind of "Defenders Of The Faith" Jr. A welcome change of pace from "Turbo". Well done lads." Nuff said.

**Saxon, "Destiny", Enigma....** Having recorded some ten records over the last nine years, this band has yet to achieve a high level of success here in the states, although they are a staple of the British metal movement and have been since the 70's. But never fear, this could be the record that opens the doors to the gold on this side of the Atlantic. The biggest mistake one could make however, is to classify these guys as just another heavy metal act. Yes, they are a powerhouse band, but they also have a wonderful sense of melody and continuity. Lead singer Biff Byford has always had a unique and strong voice and on "Destiny" he sings with everything he's got, no holds barred. Guitar players Paul Quinn and Graham Oliver deliver very smooth lead switches and tasteful rhythm fills. Overall a very pleasing presentation. It's one kickin' record and I have to say right off that the cover of Christopher Cross' "Ride Like The Wind" is something that has to be heard to be believed. It's one of the more innovative and choice covers to come out so far this year. There are some other killer tracks on this record that warrant massive airplay

commercial metal and college reporters

not only by the metal heads among you, but also some of those harder rockin' AOR's. Among the harder tracks to track are "Where The Lightning Strikes", "S.O.S.", "For Whom The Bells Tolls", "Jericho Siren" and "Red Alert". On the softer side are "I Can't Wait Anymore", "Song For Emma" and of course that wacky but wonderful cover of "Ride Like The Wind". With a new label, strong songs and a solid line-up, this record should break these boys on these shores for sure.

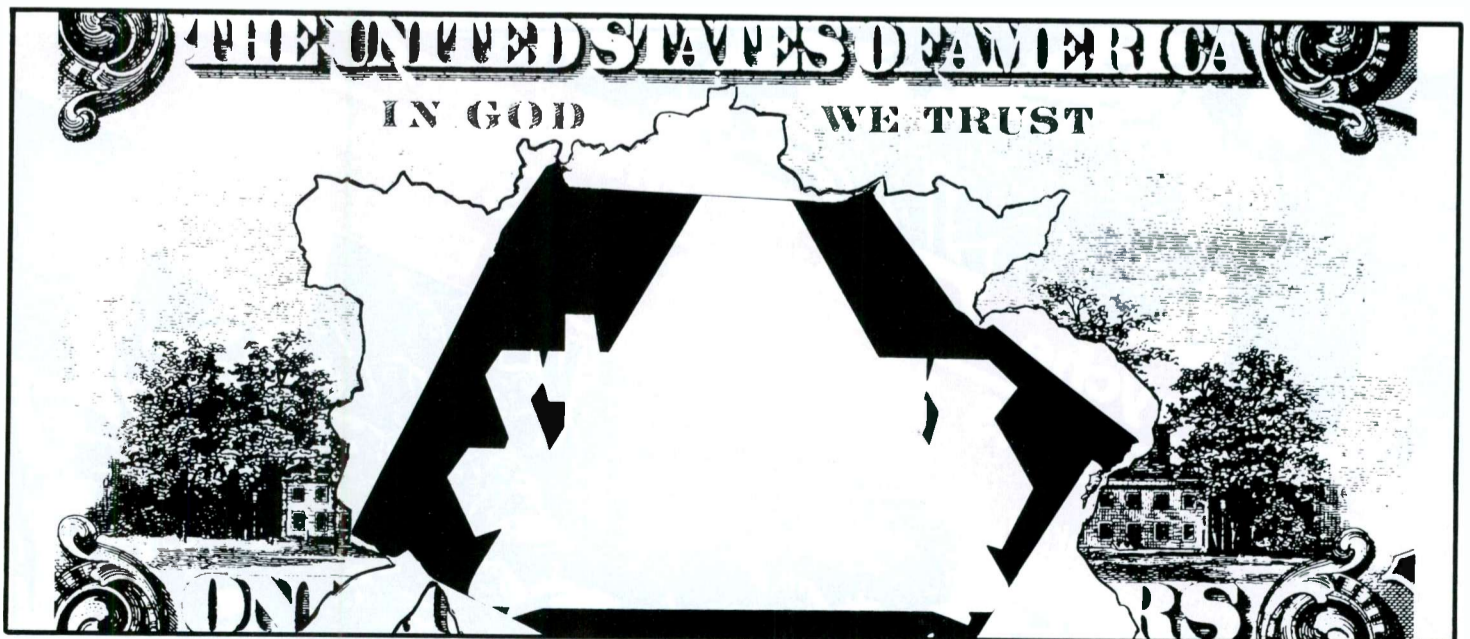

**King Kobra, "King Kobra III", Rocker/N.Renaissance....** Congratulations Carmine, this record is finally getting on its way. With the just released album now hitting the airwaves of America and the video getting good exposure on MTV, it was just a matter of time before the Kobra struck the Hard Hitters Chart this week (after maintaining rumblor status for a few weeks) with a debut at #30\*. Carmine and Co. got air on some heavy hitters like KJJO, KNAC, KQQK, WHMH, WOUR (Heavy), WPYX, WRXK (Heavy), Z-ROCK and more this week and with their strong and energetic sound, they have proven to be more than just contenders in the hard rock/metal arena. This time they've come to stomp. Some of the tracks receiving major attention are "Take It Off", "Redline" and "Legends Never Die". Ain't no thrash here, just some good ol' fashion rockin' and rollin'. WOUR's Kaptain Kasky Kobra says, "just heard his latest masterpiece. And I don't feel like I exaggerate when I say masterpiece. Great work Carmine". Don't pass this record by, a lot of good ideas and 20 years or so of hard-earned knowledge went into its making.

**Frehley's Comet, "Second Sighting", Megaforce/Atlantic....** Well, we went to that old listening party last week at the Cat Club, what a blast that was! We would especially like to say thanx to everyone who was in attendance (and some of those who weren't) for making sure that a good time was had by all. We would also like to thank Ace and the boys for coming through with such a killer record for us all to listen to that night. This one's got more radio songs than you can shake a stick at (however many that is I don't really know). The 12" is "Insane" but there are other songs to consider, especially "Fallen Angel". If you want instant AOR phonage, this one is your first choice. Space Ace and his band of ravaging musician-types hit the Hard Hitters Chart this week at 40\* but it won't be long before we see some real action out there. Speaking of reaction, some of our metal heads have spoken. Take for instance Mike Jones' delirius ramblings that read as such, "Space, the final frontier. These are the voyages of the starship Frehley's Comet. Their five year mission to release ass-kickin', death defying rock and roll, to explore new towns and new cities, and to boldly go where no band has gone before (insert sound effects). What a cool record." And then there was Jeff Ivan with his decision that, "The new Frehley's Comet is another winner. Of course, I always enjoy his stuff, but after the success of his last album this is a must add. Lots of good material to play on this album." There certainly are but, hey, just remember one thing - "Fallen Angel"....

**Flotsam & Jetsam, "No Place For Disgrace", Elektra....** As if we didn't know that the response to that new Lp would be huge... It really comes as no surprise that F&J debuted at #32\* on Hard Hitters. Any good 'ol mosh maniac would be sure to tell you how great this band is. From first note to last, they deliver a heart-stopping, gut-wrenching, no-holds-barred work of art that should leave no soul dissatisfied. The two early tracks were "Dreams Of Death" or is that "Dance Of Death" and "No Place For Disgrace" but we're looking for "Hard On You" to be the one to take this album all the way. The song is a blatant protest of those wonderful "Washington Wives" of the P.M.R.C. and tells why they would be better off if they'd take a hike and just what the band would like to do if the ladies were to decide to come after them. For still greater depth, choice tracks are definitely "N.E. Terror", "Misguided Fortune" and the haunting "Escape From Within". This album is destined to be a classic in the metal realm. Remember that you have not seen the word "thrash" anywhere in this paragraph. This is because F&J should be able to crossover into the mainstream/metal arena with the power and grace of this record.

**Drive, "Characters In Time", Rampage....** Here we go again. It should be fairly obvious by now that we here at Hard Acres really like this record, and we're encouraged to finally see that a lot of you are likin' it too. Now that the record is making its way into all the right hands, it's finally getting the notice that a band of this caliber deserves a la adds this week at KNAC, KBER, KSLC, KSJS, WCWP, and WHJY. As WNGZ's former metal maven Jessica Harley says, "It's definitely the most impressive debut so far this year. Quality musicianship with tremendous range and emotion from vocalist David Taylor. Strong riffs and leads.... well put together lyrics..." "Characters" is a must for all metal shows." This band has all the elements needed to make them a metal monster and they present them with an unequalled style and energy. Give the tracks "Kamikaze", "The Entity" or "Stormtroopers" a spin and you'll be pulled right in. Put it in drive and don't look back. It's music for the metal masses like you've never heard.

**Chyld, "Conception", New Renaissance....** If you are into bands with feeling and interesting writing on top of a not too hard music bed, then you'll really go for this band. Those who thrash - look the other way oday? Late last year NR issued a limited edition Ep featuring four of the tunes that are on this album. That garnered some attention, but with the release of the full album we should see some more adds coming in for this very original sounding band. While the production of the Lp leaves something to be desired, look beyond that and it's pretty evident that this is a band with talent and creativity just waiting to happen. These boys from Philly cite bands like Led Zep, Floyd and REM as just some of their influences. That explains the light and mystical feeling of songs like "What You Came For" and "November". The music on these tracks as well as the others features some really interesting guitar changes, solid drums and bass and layered vocal harmonies which give some of the

songs an almost nostalgic air. Other songs of note are "Marion (The Walker)", "Far Away (From Yesterday), and the great live track called "Tomorrow". With some direction, a little more power and better production this band could really go places.

**Kings X, "Out Of The Silent Planet", Megaforce/Atl....** After seeing these guys live last week at the Cat Club, there's only one thing that we can say. They kill! This is one of the best bands to surface since we don't know when. Their live performance really does the album justice, speaking of which, the Lp is back on the upswing with a 37-33\* move on that Hard Hitters thang. For those of you who aren't playing this one simply because you don't like the 12", you're nuts. This album is a powerfully presented piece of music featuring beautiful vocal harmonies and textures as well as incredible amounts of intelligence, maturity and feeling in the musicianship. If you're not that into "King" don't fret, there's more than enough great cuts to chose from on this one. "In The New Age" is a study in progressive power, as are "Sometimes", "Visions" and "What Is This?". On the softer side, check out "Wonder" and especially "Goldielox"; as for AOR - "Far Far Away", "Power Of Love" and "Shot Of Love" are perfect for daytime radio. Even if you don't like the album, seeing Kings X live will definitely change your mind.

## METAL MUSIC NEWS

Greetings to one and all. Summer is approaching. That can only mean one thing: It means that this is Sal "Earl Of Earache" Treppiedi with this weeks metal news from around the world. This week we will begin the first of our four part talk with Kelly David Smith, drummer of Flotsam & Jetsam. For now, let's get to some news.

Much to the surprise of many, **Metallica** took the stage of the **Troubador** in Los Angeles for two unannounced shows last Monday and Tuesday. Funny thing about the shows is that the Troubador only holds 200 people. According to our source, admission was hard to come by. Metallica is currently preparing to hit the road as part of the "Monsters Of Rock" tour. A management spokesman recently told the Earl that the band will more than likely release their Lp following the "MOR" tour. The spokesman also mentioned that Metallica would be mixing between stops on the tour.

**I.R.S. Records** is looking to blaze new trails as it continues it's attack on the kingdom of metal. The label will be releasing three new Lps in June to be followed by another in mid-summer. First to hit the stores will be the latest from **Nuclear Assault**. Drummer **Glenn Evans**, says that the band is looking forward to their first major label release. For now, the band is heading to Europe to do the Aarschok Festival. Look for Nuclear Assault to come your way on June 13th. The following week will bring about the release of the debut I.R.S. album from Detroit's **Seduce**. This powerful three piece has some killer kuts coming your way. The third album will come from England's **Chrome Molly**. Their Lp will feature two songs mixed by **Don Dokken**. This one will be out on June 27th. Finally **Shok Paris** are currently working on their follow-up to "Steel And Starlight" in Los Angeles. Manning the controls will be Kevin Beamish (REO Speedwagon, Leatherwolf). That one is scheduled for an early summer release.

The Earl recently had the chance to speak to new **Znowwhite** vocalist **Debbie Gun**. Many of you may remember Debbie as one time lead screamer for **Sentinel Beast**. I asked Debbie how she ended up joining Znowwhite. "I got a phone call from Ian. he said that they were looking for a vocalist and the William Howell at Metal Blade had recommended me. At the time, Sentinel Beast was having musical difficulties. So, I sent him my tape and he sent me his. I learned the songs and went out to Chicago." Debbie says that Znowwhite is similar in ways to Sentinel Beast when they were at their height. Debbie and Znowwhite recently performed two killer shows at CBGB's and the Cat Club in New York. The band will be hitting the road this summer.

Had the chance to speak with my old buddy **Paul Arnold** of **At War**. The band's new album, "Retaliatory Strike" just hit the stores and needless to say, Paul and the band are doing somersaults over the Lp. Paul tells the Earl that At War will be heading down to Brazil and Argentina to headline some gigs come July. In the meantime, At War will be some gigs on the east coast.

One of the greatest heavy metal records has come to America. Thru a special arrangement with France's Black Dragon Records, **Leviathan Records** has released **Candlemass'** debut album, "Epicus, Doomicus, Metallicus".

The Lp is considered a classic by press and fans worldwide. It helped Candlemass land a deal in America with **Metal Blade Records**.

Time to get to our feature interview. We begin the first of our four part conversation with Kelly David Smith of **Flotsam & Jetsam** by first giving you some background.

### FLOTSAM & JETSAM

F&J sprang onto the scene in 1986 with their debut "Doomsday For The Deceiver" on Metal Blade Records. The band then featured a bassist named Jason Newstead. He later went on to replace Cliff Burton in Metallica. Mike Spencer, ex-Sentinel Beast, replace Newsted. Not long after, the band was signed to Elektra Records. After several conflicts with Spencer, he was canned and replaced by Troy Gregory. That is where we begin our conversation.

**HR:** When I first met you in N.Y., it seemed as if everyone was getting along so well. What happened?

**Kelly:** It got worse. He started trying to make ti Mike Spencer and Flotsam & Jetsam. That's not the way we run things. Him and Gilbert did not get along. Gilbert is one of the main songwriters. He wrote most of the new record with the exception of two songs. He came up to me one day and said that this is not good. I'm not writing anymore songs until he is out. We looked at the situation and realized that this was not going to be a problem that would go away. Therefore, we had to make a move. We had to do it soon because we had a record to get done. We already wasted a whole lot of time training the wrong guy. When we found Troy, we decided to look for personality first. We wanted someone who would fit in with our family.

**HR:** Tell us a little bit more about Troy.

**Kelly:** We found Troy in L.A. through a guy at our management. He came to our show and we talked to him and he played for us. He graduated from BIT (Bass Institute of Technology) and he's pretty scary. He scared the hell out of us. He's great. He has a great attitude and he's always positive. We think that there is something with him. He's a great bass player.

**HR:** Were there ever any complaints about Spencer's musicianship?

**Kelly:** His tone wasn't all that great. He was a good stage man and would do what he would have to on stage. He put on a good show. His writing wasn't something we were happy with. His songs had a lot of Sentinel Beast in them. He wrote in a Slayer fashion. Sentinel Beast is in the Slayer vein. Personality-wise, he started to get this rock star attitude. For instance, if a roadie was sick, he would never offer to help. They get paid but they are like family to us. So, he grew to the point where he was just going to sit there and not do anything.

Next week, we'll talk more with Kelly David Smith about Flotsam & Jetsam

Finally, with **Monsters Of Rock** beginning this week, we'd like to wish a happy 36th birthday to Klaus Meine of the **Scorpions**. Until next week, this is Sal "Earl Of Earache" Treppiedi reminding you that if you have experienced thunderstorms in your area lately not to be afraid. It's only Mr. Death belching. MUYA!!!

## Vinnie Moore A Man And His Guitar

Once again the music world has been given a golden opportunity to catch a rising star. With the renewed interest in guitar instrumentals, the time couldn't be more perfect for a "Time Odyssey". Vinnie Moore is one of the guitar world's fastest rising guitar "gods". With this latest release he brings his virtuosity to a commercial level with some of the most emotional and precise playing we've ever heard. If you're playing "Message In A Dream" or anything else from his record, then you know what we mean. Now get to know the man behind the music.

**Chris:** How does a 24 year old from New Castle, Delaware get started in the music business and a deal with Squawk/Poly-Gram?

**Vinnie:** Gradually. (laughs) Basically just step by step and a lot of hard work. I guess it all started by investing a lot of time in writing original material and working on developing my playing. I sent tapes out to a lot of different people and of course it really started with the Mike Varney thing with Shrapnel Records. And from there the Squawk people picked up on it because that first record "The Mind's Eye" did pretty good.

**Chris:** Are you a trained guitarist or are you more self-taught?

**Vinnie:** I took lessons when I started at about age 12 and I took them for probably 4 or 5 years to learn how to formally play and then I decided to quit lessons and take what I already knew and develop my own style.

**Chris:** What kind of guitar influences did you draw on?

**Vinnie:** As far as players go, the early guys from when I was first learning how to play lead guitar were guys like Michael Schenker, Ritchie Blackmore, Robin Trower, Al Dimeola, Larry Carlton and Eddie Van Halen. Yeah, they were probably the main ones.

**Chris:** And do you have a classical background as well?

**Vinnie:** Yeah, it was about three or four years into my playing when I started to get into classical music. The classical composers that are my favorites are Bach and Handel. I like a lot of jazz and fusion stuff as well.

**Chris:** Yes, I was noticing on this latest album that there are a lot of different styles present. When you write, do you piece different guitar parts together or does it all come to you at once?

**Vinnie:** Sometimes I'll hear a melody in my head and I sit down and pick up the guitar and figure it out. Then I start building the idea from there. I tape it on a four-track recorder and then I'll just kind of sit down and work at developing it more and build a whole song. I really think of it in terms of a lot of structure too, you know, with a verse, chorus and a solo.

**Chris:** Do you tend to concentrate more on the structure then on what kind of emotional impact you're building?

**Vinnie:** I try to really concentrate more on the emotional side of it. To start off there has to be some inspiration to write a song. You can have all the technical ability in the world, but if there's not that emotion you want to express and you don't have something to say then it's not worth even trying. I have to have something to say right from the beginning and then I can use the technique and knowledge that I've learned to develop the emotional idea and to put it into musical terms to express what it is I'm feeling. I admit I do want to show that I can write technical stuff but it's not the most important. Every day I'm realizing more and more, how important it is to be an expressionist.

**Chris:** Do you worry about speed or more with the harmonies and fills and other instruments?

**Vinnie:** I'm more concerned with the musical content and the emotion of the songs themselves. If you would have asked me a year ago what I considered myself to be I would have said a guitarist. Today I'd say I'm a musician/writer/composer.

**Chris:** Are you one of those players that seem to be attached at the hip to their guitar?

**Vinnie:** Yes actually, I think I'm addicted to it. I'm always playing it. Sometimes I wish I could just put it down and do something else for awhile but I really just can't. I have to be playing all the time.

**Chris:** Do you play any other instruments?

**Vinnie:** No, I don't, but I want to start learning how to play keyboards but at this point it's just guitar. I play the radio too though. (laughs)

**Chris:** Do you feel there was a significant progression from "Mind's Eye" to "Time Odyssey" in terms of your playing and songwriting?

**Vinnie:** As far as my technical ability goes, I don't think there's been a major progression. I think the progression has been more in the maturity of the songwriting. I think my writing has gotten a lot more mature and that I've gotten better at expressing myself.

**Chris:** When you write these instrumental pieces, where do you get the titles for them?

**Vinnie:** Sometimes I know right from the beginning exactly what I'm writing about, the emotion, or

the event or something in the past. Sometimes, most of the time actually it's more abstract. I'm just writing and there's no event that I can relate it to, so I just write the whole song without a name for it. Then at the end I'll go back and listen to it and see what it makes me feel like and then I name it.

**Chris:** "Time Odyssey" is a really abstract idea. Is there a common theme among the songs on this record that relates to that idea?

**Vinnie:** There is kind of loose concept through the whole record. Life. I didn't want to call it "Vinnie Moore: Life" so I thought a good way to express what I meant was with "Time Odyssey". How that represents life is, you know, travelling through time into the future is like the journey through life itself and all the events and emotions we experience during it. All the song titles are loosely based on that concept.

**Chris:** On the first record you played with some great musicians like Tony MacAlpine, Tommy Aldridge and Andy West. How was it working with them?

**Vinnie:** I couldn't have been more happy to have had guys of that caliber on my first record. Those guys are really talented and great musicians, but they are also nice people and that's important when your working with someone.

*Chris:* How did you get together the musicians for the latest album? They are names that aren't really to familiar to many people.

*Vinnie:* Right. First of all I wanted have different players on this one than I did on the last. I didn't want it to sound the same. I wanted it to be different, very different and I felt that new players would really help with that. I just set out to find the best musicians I possibly could to play on my record and that's what I got. The drummer, Joe Franco is one of the best drummers I've ever heard and he's pretty well known 'cause he played on the Leslie West album and the last one by Twisted Sister, so he's the most known. Jordan Rudes, the keyboard player is totally unknown. The guy is such an undiscovered talent. Nobody's heard him but they're gonna be amazed when they hear him play. He's really incredible. He's Juilliard trained. He studied there for ten years and I think he started there when he was 11 years old. He's one of those goes who you can just play anything for and he'll write it all down on paper like Mozart. They are all really good players.

*Chris:* Well are you interested in working with a singer at any time?

*Vinnie:* Yeah, actually I'm in the process of looking for a singer right now. I want to make the vocal band the permanent situation and have solo recording projects as a side thing. That would be pretty neat having things to cut loose with and different guys to play with on solo projects.

*Chris:* How do you feel about the attention that guitarists and guitar oriented recordings are now getting on radio and in the press with the likes of Satriani and Montrose's new one?

*Vinnie:* Well I love it. Me, I never realized that it really ever left. When I was growing up the guys I was into were Jeff Beck with the "Wired" and "Blow By Blow" albums and Larry Carlton and Al Dimeola. The guys I liked were doing instrumental albums. I guess there really has been a resurgence in it here though. I'm glad of that.

*Chris:* Tell us a little about the instructional video you did. Did all the press you got in the guitar mags lead to doing that or was it something you wanted to do?

*Vinnie:* I never had it in mind to do one. Arlen Ross (president of Hot Licks Video) was doing a video with Tommy Aldridge and Tommy let Arlen hear some song off of "Mind's Eye" - some rough mixes and Arlen contacted me about doing a video. At first I was a little hesitant because I was never really good at communicating with people or talkin a lot. I've always been kind of shy. At first I didn't really think I could even do it, but I worked at it and decided it would be a good step to take. So we ended up doing it and turned out to be their best seller ever. I should be doing another within the next couple of weeks and it should be out by fall.

*Chris:* Let's talk a bit about the instruments and equipment you use for the guitar players who might read this. Strictly Ibanez?

*Vinnie:* Okay. Yeah, strictly Ibanez. I use the Ibanez Star 4. It's a model I designed with them. My signature model. That's coming out in about a month. That's pretty much it for guitars. I'm just so comfortable with my guitar that I just play it all the time. I've always been a one guitar person. That's why I'm really happy I have this deal with Ibanez. They're making up all these identical models so I can switch back and forth. And I also use Laney amps.

*Chris:* Are you planning on touring with this record at all?

*Vinnie:* Well, we're planning to do some touring probably in September. At this point everything is kind of tentative. We haven't worked out any dates yet. We're gonna let the record be out for a month or so and see how it does first.

Many thanks to Vinnie Moore for the interview and for bringing his guitar by the office to play us some tunes and the impromptu jam session with the Metal Slave. Also thanks to Pete Morticelli and Linda Walker at PolyGram for setting up the interview. You can hear some of rock's best guitar work on the Squawk/PolyGram release "Time Odyssey".

*Chris:* If you could put together the ultimate group of musicians that you would most like to play with, who would it include?

*Vinnie:* First thing that comes to mind when I think of that is for the singer I would pick Steve Walsh. He's just my favorite singer. As far as drums go to be honest, I think I'd use Joe Franco, whose on my new record. He's just a monster and can play anything. I'd probably like to have Jimmy Dewar from the old Robin Trower band on bass cause I really like his voice to and I guess the keyboard player would be Jordan Rudes the guy on my new record because he is really a phenomenal talent.

*Chris:* Do you take the songs into the musicians you work with and say, "This is what I want" or do you kind of let them go wild on it and add their own things?

*Vinnie:* I make demos of the songs on tape and I give them to the players and I let them express their ideas and we try them out. I want them to be creative and have their own interpretations of the music. Overall it comes out better when you give people a little freedom to put their ideas in.

*Chris:* Well, with a record like this it might not be harder to do, but are you interested in doing videos for the songs?

*Vinnie:* Definitely, I would love to do a video. At this point however we're not even sure if we will. It seems like the video people could get really creative with an instrumental, more so than they could with a vocal. They could create all kinds of images and I always have ideas.

*Chris:* You produced this record. Did you do the first one and did you have any background in producing at all?

*Vinnie:* Yeah I did this one but I didn't have anything to do with the first one. I think I basically just know what I want it to sound like. I work a lot with recording at home and nobody knows like a writer does how his music should sound. When you get someone else working on it you know they're obviously gonna have a different viewpoint. Sometimes that can be good but in the past I've dealt with poor production so I figured it would be best to leave it to me, because nobody would know the music as well. Especially being instrumental.

*Chris:* You did a good job. What's interesting is how for a guitar oriented album, there isn't just emphasis on the guitar. The other instruments are well presented and balanced out with the leads.

*Vinnie:* I didn't want it to sound real heavy metalish or too heavy. I thought I could reach more people with aggressive stuff but not always with the heavy guitar sound. It took a long time to write that. It usually takes me anywhere from 2 to 7 days to write a song. I don't sit down and write constantly. I like to write a couple then take a break and then start again. We did the whole record in about six weeks which is pretty fast. We were definitely pressured for time.

*Chris:* What do you want people to hear when they listen to this album?

*Vinnie:* I wanted to set a mood and create a feeling and emotion for them. If I can reach somebody's heart or if I could make somebody feel something with my music, then I'll feel like I've really accomplished what I set out to do.

*Chris:* Is there anything else that you want our readers to know about you or your music?

*Vinnie:* The main thing is that I want them to hear in the new record that I'm trying to do something really different from what everyone else out there is doing. I thought it was real important for someone to go out and take some risks and do new things and incorporate different ideas that haven't been done on a rock record before. You know, like there are some jazz and fusions things on my record that you wouldn't expect.

**Music Now!** is contributed by **Mike Cooper**. P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

**Paul Young** is hosting a jam session at the Nelson Mandela benefit concert scheduled for Wembley Stadium in London next month. Bryan Adams, Fish of Marillion and Curt Smith of Tears For Fears are to participate. Joe Cocker, Joan Armatrading and Al Green have been added to the line-up for the day's show. Phil Collins and Midge Ure are leading another one-off group for the concert, including Joan Armatrading and Paul Carrack.

After canceling dates because of David Coverdale's back, **Whitesnake** will go back on the road in mid-June, finishing off Japanese concert dates. The band will begin a U.S. tour June 25th in Mountain View, California.

Roger Daltrey, John Entwistle, Steve Nieve of Elvis Costello's Attractions and Zak Starr (Ringo's son) are appearing together at an AIDS benefit at Wembley Arena in London. They're being billed as **John Entwistle's Super Group**. The concert also features the Stranglers, the Communards, Holly Johnson, Everything But The Girl and Aztec Camera.

The original members of **The Damned** will reform for a mid-June Amnesty International benefit concert to be held in Milton Keynes, England. "We're doing it for the fun, the finance and the fans but principally for Amnesty," says Rat Scabies. Scabies recently played a few dates with Brian James under the name of the Stink Insects. James is a member of the Lords Of The New Church. The current version of The Damned, currently without a record deal, has been playing some concerts around Britain. Big Audio Dynamite are also on the bill for the Amnesty show.

**Sinead O'Connor** says she hopes to work with singer Bjork, of the Sugarcubes, sometime in the future. "Bjork's got to be the best singer I've ever heard in my life," O'Connor says.

Films are being released this year of two live appearances by **Jimi Hendrix**. One will include Hendrix' entire set from the Woodstock concert in 1969, and the other will feature footage of Hendrix from the 1971 Isle of Wight festival. Soundtrack albums are expected to accompany both movies, being put together by producer Alan Douglas.

This month sees the release of the first six releases from **Pan-gaea Records**, the label formed by Sting and IRS Records.

Two of the releases are from **Kip Hanrahan**, a New York performer and producer. "Days And Nights Of Blue Luck Inverted" features Jack Bruce and jazz musicians Steve Swallow and Airtio Lindsay.

A British financial analyst says **Steve Winwood** was given a \$7 million advance to encourage him to sign with Virgin Records, where he'll have a new album out next month. Donald Cruickshank, managing director for the Virgin Group in Britain, wouldn't comment on the reported amount but adds that "people of his ilk can command very substantial advances."

**Eddie Van Halen** says several album titles were considered for the new Van Halen album. He says the band wanted to call the album "Rock & Roll," but their label preferred "OU812," and issued a press release announcing the title without getting the band's approval.

**Talk Talk** will have a new album, "The Spirit Of Eden," out in late June. "It's a really eclectic album, looking over everything

we've ever listened to -- areas of jazz, rock, acid, classical -- it's got hard moments and gentle moments," says Mark Hollis. "In my opinion, punk was a feeling about music being accessible and I still don't think that technique is that important to music. What's really important is the enthusiasm and the spirit in which you approach things."

**Cyndi Lauper** will appear in the film version of "Steel Magnolias," which will also feature Dolly Parton, Shirley MacLaine, Sally Field and Olympia Dukakis.

**Walter Becker** is producing China Crisis' next album.

**Concrete Blonde** has completed basic tracks for their next album. Lead singer Johnette Napolitano says it's not known what label will be releasing the LP, and that's actually helped the recording process. "It shouldn't really matter who you record for anyway," she says. "And we have no A&R department breathing down our necks. We don't worry about it, thinking people will forget about us and we won't be rock stars. Why should we be hurried?" Napolitano's record label, Happy Hermit Records will be releasing three new albums in the next few months including one from Tex & The Horseheads.

The other two members of the Police have been active. **Stewart Copeland** has a new band he's formed with Stanley Clarke called Animal Logical. Guitarist **Andy Summers** has an album, "Mysterious Barricades," coming out in June.

Songwriter **John Madara** has filed a libel suit against Daryl Hall for over \$11 million. The action, filed in U.S. District Court in Miami, stems from a magazine interview in 1986, in which Hall claimed Madara took advantage of him early in his career.

**Big Audio Dynamite's** next album will be called "Tighten Up Volume 88," and will be out in mid-June. The LP was produced by Mick Jones.

**Chris & Cosey** will have a new album out in September.

**Joan Baez** has a new album just out called "Recently." It features cover versions of Peter Gabriel's "Biko" and Dire Straits' "Brothers In Arms."

Only 400,000 copies of **Paul McCartney's** album of rock & roll classics will be pressed in the Soviet Union. But Richard Ogden, managing director for McCartney's MPL Communications, says the former Beatle didn't do the deal to make money. "The lack of foreign currency that the Russians have and the amount of difficulty involved in doing this kind of deal means that it is just not worth it unless it is a gesture of friendship," Ogden says. "Melodiya doesn't pay royalties to Russian artists. All they get is payment by the minute for the record which is likely to have been recorded in a state studio, of which there is one in Moscow.

Drummer Jimmy Copley and bass player Jerome Rimson are the new members of **Killing Joke**, replacing Raven and Paul Ferguson. Jaz Coleman, vocalist for the group, says he'll use the money from the band's new album, "Outside The Gate," to build a private studio near his home in New Zealand. Coleman will also soon release a classical symphony, and publish a biography of Killing Joke.

**Wolfsbane**, a British heavy metal band, have been signed to the Def Jam label, and will begin recording their first album in July. The LP will be produced by Rick Rubin.

**Nick Cave** is publishing a book, "King Ink," which includes lyrics for all the music by the Birthday Party and the Bad Seeds. It also includes some plays written with Lydia Lunch. Cave will be releasing a new album in September, and he appears on the new Wim Wenders film, "Wings Of Desire," which opens

this summer. He's contributed music to the soundtrack, as has Laurie Anderson. Cave has also been writing the soundtrack for another film called "Ghosts Of The Civil Dead."

**George Michael** has canceled four dates on the British portion of his world tour. Michael is blaming throat and back problems, saying doctors have urged him to lighten up on his schedule. Two dozen dates on Michael's tour have been canceled since it began in February.

**Megadeth** are featured in Penelope Spheeris' forthcoming documentary, "Decline Of Western Civilization Part Two: The Metal Years." But Dave Mustaine of Megadeth is already criticizing the film, even though Spheeris "has been real cool about us." Spheeris directed the band's video for "Wake Up Dead." "I think the movie's pretty shitty, really," Mustaine says. "They got all these pussy bands talking about how big their dick is and how many groupies they fuck. Hey, I just say, it doesn't matter how big your pencil is, it's how you write your name."

**Bananarama**, who are busy preparing for a tour of Japan, had their plans upset when Keren and Sarah of the band were ordered not to dance for at least a month. The girls, who have been practicing their stage routines for the show, are suffering from back and neck pains. Doctors have warned them that if they are not careful, they could risk more serious problems.

**Elton John** is famous for his extravagant stage costumes and over the years he's built up a huge collection of specially tailored suits and custom made spectacles -- including one pair fitted with battery-operated windshield wipers. But since returning from his recent Australian tour, John has decided to sell off all his stage gear, and he's commissioned London auctioneers Sotheby's to come to his home and take it all away. "I knew on that last tour that that was going to be my final fling, as far as outrageous dressing," John says. "It's time, artistically and mentally, for a change, I thought." He also says he wants to get rid of it because the clutter has meant that he couldn't redecorate his house. "Sotheby's were at my house for three weeks -- 20 people a day for three weeks. Three vans a day."

**Sandie Shaw** will have another comeback album this summer. Guest musicians include Morrissey's drummer Andrew Paresi, Neil Conteh from Prefab Sprout and Richard Coles of the Communards. The LP will include a Morrissey song called "Help The Cause," which was originally written for his "Viva Hate" album, and a Jesus & Mary Chain tune called "Cool About You," written specifically for Shaw. The album is being produced by Morrissey's collaborator, Stephen Street.

**Boy George** will soon release a record criticizing "Clause 28" of a local government law in Britain that makes it illegal for governments to "intentionally promote homosexuality."

**The Cocteau Twins** are working on a new album, expected out in September.

**Jet Vegas**, a British-French duo, have released a track (on MCA Records), produced by Arthur Baker. "We want to bring that stilted Englishness back into pop," says Michael Duignan, the British half of the band. "At the beginning of the decade groups like Heaven 17 and Soft Cell provided that provincial edge to their sound. It gave British music identity and brought a new sound to the dance floor." Will Downing contributes backing vocals to the band's debut single, "Sex, Power & Fun."

**Thomas Dolby** named his new band after seeing a flyer posted on a telephone pole. "I was driving alone in L.A. and I saw a sign on a lamp post which I thought said 'Lost Toy People' and I thought it was a great name for a band," he says. "The next day I went past again to see where they were playing, and what it actually said was 'Lost Toy Poodle, Reward

\$50.' So, I used the name and now we're Thomas Dolby And The Lost Toy People."

George Harrison, Tina Turner, Willie Nelson and Jimi Hendrix are featured on the soundtrack to the film "**Walking After Midnight**," titled after the Patsy Cline song. Martin Sheen, Willie Nelson and Ringo Starr appear in the movie.

**James Brown** has again been arrested, this time in Aiken County, South Carolina, on drug and traffic charges. He's been charged with possession of PCP, possession of a weapon, assault on a police officer, failing to stop for a blue light and siren, resisting arrest and simple assault. Sheriff Carroll Health says deputies responded to a domestic disturbance call at Brown's home, but he sped off in his car when they arrived. Deputies chased Brown for "almost 2 miles" before Brown's car was stopped. Brown allegedly assaulted officers as they tried to put him into a patrol car. Deputies confiscated a gun from the front seat of Brown's car, and they say PCP was found in a nasal spray bottle that fell out of Brown's pocket when he got into a patrol car. Meanwhile, Brown's wife has been arrested on a drug charge. Police arrested her after she got off a plane at the Augusta, Georgia, airport. They confiscated a film cannister filled with PCP, and police say a strip search found that she had two more canisters of PCP stuffed in her bra. She's also facing new charges because police in Bedford, New Hampshire, have charged her with drug possession after tests showed a substance taken from her earlier this month was PCP. James Brown may have to cancel his upcoming European tour because of the new charges. A condition of the bond posted after his arrest is that he not leave the state of South Carolina without a judge's permission.

Here's the latest music news Live From London courtesy of CFNY, Toronto and our exclusive reporter Lee Carter. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

### **BRIT-PICKS Album:**

#### **"The First Of A Million Kisses" by Fairground Attraction (BMG)**

Undoubtedly the most delightful number one single so far this year was the recent toe-tapper by this outfit, "Perfect". The music, a whole raft of borrowed R & B and jazz influences, and the lyrics, a humorous stab at the heart, made the perfect pop record and British record buyers vote with their feet. There are other reasons why this band is so appealing. One is its utter lack of pretension, borne out in "Top of the Pops" appearances and especially live (I was lucky to see them support Deacon Blue). Girl lead singer Eddi Reader is one of the most fascinating eccentrics you're likely to see over the next couple of years, while the net musical affect of the band is a return to real roots American music. Whether it was The Beatles in the sixties or even skiffle in the fifties, British (and most recently particularly Scottish music,) has always been about adapting American influences, although it remains to be seen whether a song like the sumptuous "Clare" with its references to Bourbon Street, and that "old voodoo" will actually find a home in New Orleans for this bunch of cheeky Scots. "The First..." is not packaged for AOR, Alternative or even CHR markets, but it contains tracks which will be terrific to slip into your programming as a refreshing new sound, even though, rather like The Stray Cats, the music is often as classic as it comes but unlike The Stray Cats or Joe Jackson's flirtation with jump music in "Jumpin' Jive", Fairground Attraction have realized that if the music is going to be a bit borrowed, one had better have a damn fine set of lyrics, which is precisely what they have done. Recommended tracks: "Perfect", "Moon On The Rain", "Clare", "The Moon Is Mine".

### **UK MUSIC NEWS**

**Morrissey**, riding high with his "Viva Hate" album, is about to release three previously unavailable tracks and he is planning his first solo dates. The former lead singer for The Smiths has scored EMI's most successful album so far this year and a top five single, "Suedehead". Now he is releasing his second single "Every Day Is Like Sunday" from the album; but the B-side has three new tracks "Disappointed" (also on the 7 inch) "Sister I'm A Poet" and "I Will Never Marry". All three songs were written by Morrissey and his musical partner Stephen Street. The singer is also considering making a live appearance at London's Alexandra Palace at the beginning of July as part of The ICA's 20th Anniversary celebrations. (The ICA is an arts society who give a hand up and a forum for young struggling bands in the U.K.) Morrissey is expected to make his decision this week. Meanwhile, Rough Trade Records have announced they will release a live Smiths album in mid-August. Apparently Morrissey and Johnny Marr have both been involved in compiling the album. Marr is currently working with The Pretenders at a studio in Manchester, north-west England.

A big AIDS benefit concert planned for Wembley Arena 29th May looked uncertain this week after failing to attract enough major acts. Holly Johnson, Everything But The Girl, Aztec Camera and The Stranglers were due to play, but last week The Stranglers pulled out saying the line-up simply did not justify the ticket price of 19.50 pounds (over \$30). The organizers admitted that the price was too high for what they had managed to offer and canceled the show. Several of the artists complained bitterly that major bands had adopted the attitude that they would only do one benefit - The Nelson Mandela Benefit - and then only if it was in front of television cameras, which the AIDS Benefit would not have been. Some of the organizers also privately feel some acts are paranoid about homosexual related issues. Last year's concert went ahead with very few name acts. At the time of going to press it seemed as though some form of concert may still take place at the smaller Olympia in London, with several new names stepping into the breach like The Communards and actors, actresses and personalities like Germaine Greer.

**The Sister Of Mercy** release a new twelve inch off their "Floodland" album this week. "Lucretia My Reflection" has been com-

pletely remixed by Andrew Eldritch, and the twelve inch and CD formats are ten minute versions with what are described as "a million gonzoid guitars!" The B-side is "Long Train", originally only released as a limited edition flexi-disc in 1984 and now a collectors item. They are currently appearing at The Montreaux Pop Festival.

**David Byrne** is planning a solo show in The United Kingdom in July - without The Talking Heads. He wants to perform his "Music For The Knee Plays" according to "Sounds" - which he originally recorded in 1984 for Robert Wilson's plays, with New Orleans jazz band Les Miserable. He's currently here in London looking for a suitable venue. It's also unlikely that the play will be staged with much music. Byrne is far more likely to be the narrator as he was on the 1985 album.

A firm line-up is taking shape for **The Nelson Mandela benefit concert** at London's Wembley Stadium on 11th June: Dire Straits, Whitney Houston, Simple Minds, The Eurythmics, George Michael, Sly And Robbie, Hugh Masakela with Miriam Makeba, a band comprising of UB40, Chrissie Hynde and Maxi Priest, another band featuring Paul Young, Midge Ure, Bryan Adams, Curt Smith (of Tears For Fears), Phil Collins, Joan Armatrading, The Bee Gees, Paul Carrack and Fish (from Marillion); a soul "superstar" band of Freddie Jackson, Roberta Flack, Natalie Cole, Ashford and Simpson, and Al Green; plus Joe Cocker, Little Steven and Jessie Norman. Sade however, has just pulled out of The Nelson Mandela concert. She told "The New Musical Express": "We were very happy to be involved and wanted to perform a half hour set with our full band. However, the organizers wanted me to sing with someone else's band. I don't think I would be furthering the cause of Nelson Mandela or supporting the fight for freedom by giving a performance that wasn't representative of us or our music." Hmm. Well this is at least more reasonable than dreadful harpy Laura Branigan, who as you read this will be just finishing (and counting her not insubstantial sum) playing six nights at Sun City.

Details are emerging about **Bob Geldof's** movie, marking his debut as a director. He also co-wrote the screenplay for "Cowboys", the story a 23 year old Dublin meat packer. The film is strongly autobiographical. Those who read Geldof's excellent autobiography "Is That It?" will know that he himself worked at a slaughterhouse near Dublin before even dreaming of entering the rock world with The Boomtown Rats. Those early days for Geldof were the inspiration for some of the first Rats songs like "Rat Trap" and "Joey's On The Street Again". Shooting on the movie, which has been financed by the London based Palace Pictures, begins in Dublin soon.

**Boy George** is in Moscow this week to perform before 100,000 people at The Moscow Peace Festival. George was chosen by the Soviet Peace Committee as the most appropriate representative of western pop music. The three day musical event also includes rock bands from the Soviet Union and other parts of eastern Europe. Meanwhile his direct protest single, due out 6th June, "No Clause 28" faces a rough ride with BBC and independent British radio who are bound by rules of impartiality politically. The record refers to the British Government's new laws preventing local councils from spending property tax money on promoting homosexuality, particularly in schools and libraries. It's vague and interpretive wording has many anxious in the U.K. over repercussions that may occur. George's new studio album follows in the fall.

This week's additions to the **Amnesty International Festival** at The Milton Keynes Bowl in the English midlands are: Big Audio Dynamite, Fields Of The Nephilim, All About Eve, Icicle Works, Martin Stephenson and The Daintees, The Men They Couldn't Hang and Run Rig. They join Aswad, Aztec Camera, The Bhundu Boys, The Damned (original line-up with Captain Sensible), Go West, Howard Jones, Joe Strummer, Motorhead, New Model Army, The Rhythm Sisters, So, Transvision Vamp and World Domination Enterprises. There will also be speakers from Amnesty, poets, jugglers, comedians and much more to add a carnival atmosphere.

**Jethro Tull** is about to release a 65 track compilation and will be playing a special date at Wembley Arena 19th July, to

celebrate their 20th anniversary. The box set will be available in album, tape and CD formats and is simply entitled "20 Years Of Jethro Tull". As well as many of their famous hits, the package will include many rare Tull recordings: unreleased masters, B-sides and new recordings.

**Erasure** release their second single from the album "The Innocents" 30th May, "Chains Of Love". Remixed by Stephen Hague, the B-side is "Don't Suppose" while the twelve inch also contains the extra track "The Good Bad And The Ugly". Erasure are currently on a successful romp around Europe.

## UK INDUSTRY NEWS

**Virgin** is making a consistent profit, although suffering a reduction in overall operating surpluses, according to figures published in "Music Week" for the six months ending January 31st. The company made a profit of 11.5 million pounds from its music operations, the same as the last figures. However, total turnover has dropped, leaving total profits for the group down by 5 percent to 14.5 million pounds. Partly responsible was an operating loss at the new Virgin U.S. Records. Richard Branson says there is extensive investment in the U.S., for breaking new acts, but he expects the company to be in profit by the end of next year. Here in Britain, many of the smaller stores had not brought expected financial rewards. Virgin will instead concentrate on their giant megastores like the one on London's Oxford Street. In a move towards further internationalism, Branson has also announced his intention of opening Megastores in Sydney, Paris and Dublin.

## BRIT-PICKS Singles:

### "Little 15" by Depeche Mode (Mute)

Mode at their blackest and moodiest. Sometimes this hasn't worked but this time it does. Recommended to alternatives.

### "Just Play Music" by Big Audio Dynamite (CBS)

Standard BAD fare which on first listen disappointed me. Somewhere along the line the production lacks guts. Nevertheless, on subsequent listens it's grown on me. Could be better.

## UK CHART SURVEY

Entering the album chart at 11 "Bullet From A Gun" by tough British rapper **Derek B**. New at 7 "The First Of A Million Kisses" by **Fairground Attraction** (see album review) Back to number one, playing a yo-yo act with Prince's "Lovesexy" - "Tango In The Night" by **Fleetwood Mac** their multi-million selling album. New at 28 in the new singles chart "Life At A Top Person's Health Farm" by **The Style Council**. Although lyrically rooted in the social ills of Great Britain, this record is the best thing they've done musically for about four years and should cross the Atlantic, where other SC offerings haven't. New at 25 "Give A Little Love" by **Aswad**, their follow up to the UK number one "Don't Turn Around" and similar, soft, breezy reggae lovers-rock. A climb of 22 places to 18 for **Scritti Politti** and his intricately produced love song "Oh Patti". Up 10 to 15, an unusual record by an Israeli singer **Ofra Haza** with "Im Nin Alu". In her native Middle East, the Yemenite singer's fabulous voice sends her fans into quite a frenzy, where she has sold more records than Abba's catalogue!! This is tremendous' westernized by house producers Coldcut. Up 21 places to 13 "Check This Out" by **LA Mix**. Another in the line of M/A/R/R/S, Bomb The Bass, 3-Express style records, but rather than offer a new angle, this record sounds like a sub-standard composite of all the other British house records hurrying the genre into its grave. Will probably sell by the bucket-load but I cannot recommend it. Up 11 to 11 - a new name to really watch out for from Ireland - **The Hothouse Flowers** with their second single "Don't Go". First class intense rock which should appeal to all formats. Up 9 to 8 "Somewhere In My Heart" by **Aztec Camera**; Up 7 to 7 "The King Of Rock and Roll" by **Prefab Sprout**; up 6 to 6 "Circle In The Sand" by **Belinda Carlisle**. Still at number one for the second week - the double a-side "She's Leaving Home" by **Billy Bragg** and "With A Little Help From My Friends" by **Wet Wet Wet**. A dual effort between the music paper "The New Musical Express" and Island Records - not to mention GO! Discs - proceeds from the single go to Childline, a helpline for children who fear they may be in danger (The only person making money on the record is Beatles copyright owner ..Michael Jackson.) It's the seventh charity record to reach number one in less than four years. The others are: "Do They Know It's Christmas" by Band Aid (Ethiopia-Sudan) "We Are The World" by USA For Africa (Ethiopia-Sudan) "You'll Never Walk Alone" by The Crowd (Bradford soccer stadium fire disaster) "Dancing In The Street" by Bowie and Jagger (Ethiopia-Sudan) "Living Doll" by Cliff Richard and The Young Ones (Ethiopia-Sudan) and "Let It Be" by Ferry Aid (Families of Victims Zeebrugge Ferry Disaster).

**Carter Alan, WBCN, Boston**

Oedipus wanted me to pass along his thanks to everyone who made his visit to LA for the TJ Martell Bowling Party such a great time. As I understand it, the champion golfer also smoked on the IRS Bowling Team and plans to pick up all his spares in the future.... The Del Lords performed a special BCN night for a completely soldout and sweaty audience. "Judas Kiss" is still working well for us at the ROCK and we're also eyeing "Cheyene" from the Del Lords album.... Pat McLaughlin brought his blues guitar into Boston for a special BCN \$1.04 Concert. Thanks to Capitol Records for the broadcast as well. It was a rare opportunity to hear Pat McLaughlin in a club before he hits the road with Bruce Hornsby.... Love the Rossington Band effort with one of rock's best beltors, Dale Krantz on the pipes.... Guns N' Roses "Sweet Child O' Mine" crosses daypart demilitarized zones.... And the new Georgia Satellites is so automatic that it walked into the studio without my help.

**Drake Hall, WEGR, Memphis**

We are sitting back and smiling at the success of John Kilzer in Memphis. Just so happy to see this man doing so well nationally. I urge you to spend time with more than "Red Blue Jeans". He's a fine writer and will be around for quite a while.... If part of a balanced diet for you includes that good ole high fiber, low wattage in the cottage type rock and roll, you might as well play the best, and Hurricane fits that description. This is a one listen record. Just go on, pop it in.... What else? HEY, HOW ABOUT that Van Halen record! We're only playing five cuts cause we wanna save four or five for next week. In fact, that's all we have in power now. That and John "Who loves ya" Kilzer.... In fact, we've moved Hornsby back to considering and dropped everything else.... But seriously, I do like Parthenon Huxley, and did on first listen. In and among all the predicto formula music, this song is a real breath of fresh air. We hope to get to soon.... Also liked Gene Loves Jezebel.... Just chill out Marko. We took care of Guns N' Roses, INXS and Rod Stewart tracks to keep it interesting.... Also went with the Rossington Band, perfect for this part of the country.... Personal to David Fleischman: I made the comment on-air about the sardine syrup sandwich, and for some reason everyone seemed to get it.

**Mark Bradley, WNOR, Norfolk**

Parker moves up 'cause it's a good sounding song on the radio. Nothing yet in sales, but MTV is behind it and the guy has a really hip image. The song is very easy to play.

**Erin Riley, WMMR, Philadelphia**

They played me the Michael Anderson advance a month ago, and it sounds like American rock and roll. Outstanding example of American rock and roll songs; really good production, really good. There is a lot of stuff that sounds like that these days. This is a standout track.

**Lorraine Caruso, WNEW, New York**

It was great being out in LA for the TJ Martell Bowling Party. The Smithereens captivated a soldout Roxy. It was great to see how well they've gotten their act together. It was great to meet the people whom you only know by a voice over the telephone. It was great to be in the sun. It was great to bowl. The Atlantic suite was especially great. It was great to hear Tom Jones' greatest hits 50 times. Special thanks to Flash, Jackie, and Danny "The Man From La Mancha" Buch for taking extra good care of me. It was great. It was great.

**Curt Gary, DC101, Washington**

If the Van Halen album has left your ears "Black and Blue", "Finish What You Started". The tastiest tune on the Lp.... The Moody Blues are an upper demo monster. Already getting phones.... You cannot be excessive when it comes to INXS. And I get a "Kick" out of you. Yes.... Rossington Band is good straight ahead rock and roll song. Think it's gonna work.... Of all the songs currently in our medium rotation, Graham Parker's "Start" had to be the one to move to heavy first. The more you play it on the air, the more it stands out as a real class act.... Ziggy has crossed the barriers here, believe it or

not. You could call it a relief record if you wish and it's doing just that. Adding a little spark to the format.

**Bob Jeffries, KBOY, Medford**

Tracy Chapman's success scenario continues to captivate and titillate the audience. She's opening up musical closets, awakening many a memory bank. Small wonder that Chapman is top 5 phones.... What's for dessert? Ozzy and Lita is close, well-produced with great over-dubs and a continuous hook which is why Lita goes back into heavy this week.... Big promo weekend at KBOY with the Diamond David Lee Roth tour in Portland. Special thanks to Greg Dorfman and Kenny Puvogel for their expertise and assistance in bringing it all together. The KBOY Skyscraper winners are still buzzing with kudos about the show.... And to Michael Papale in the City of the Angels, thank you for your support.

**Anthony Alfonsi, WDVE, Pittsburgh**

Van Halen's "OU812" is another bigtime winner from those Southern California rockers. We'll be hearing this one all summer long and into the fall. We've added "When It's Love" and "Feels So Good". I also like "Mine All Mine" and "Finish What You Started". I'm looking forward to hearing the new stuff on their Monsters Of Rock tour.... The Moody Blues is formula Moodies all the way.

**Eric St. John, WNPQ, Canton**

We went with Hurricane this week. The words aren't hard to listen to and the band sounds great on the format. The Rossington Band has always done well here and we really liked this track when we heard it in the music meeting. We are already seeing early nibbles on the phones and at retail.... Speaking of retail, every store in the area tells us the same thing, the hottest thing out there is Ziggy Marley. The people are voting with their dollars and this album is a smash, even if you don't like reggae.... John Kilzer is overwhelming us with listener response.... The Scorpions are maintaining a lot of interest right now with the Monsters Tour being the key.

**Doug Clifton, KBCO, Boulder**

This week we decided to add records that had interesting names, like the Rave Ups, Rhythm Core, Camper Van Beethoven, Parthenon Huxley, Tuck and Patti, and Siegal Schwall.... We've gone with the second track from Melissa Etheridge. The new cut is "Similar Features". I expect to use most of this album before the end of the summer.... On the New Music Express, an interview with Mojo Nixon so Brian Setzer, Ranking Roger, Echo and the Bunnymen and Jane Wiedlin.... Top phones: Tracy Chapman, Melissa Etheridge, Bobby McFerrin, 10,000 Maniacs, and Big Pig.

**Curt Cartier, KEZE, Spokane**

From the hugest songs of their career file (major market) Van Halen "When It's Love", George Thorogood "Treat Her Right".... From the hugest songs of their career file (medium market), Lita "Close My Eyes" Ford, Rossington Band "Welcome Me Home".... From the hugest songs of their career file (small market) Guns N' Roses "Sweet Child", and Pat McLaughlin "No Problem". Lots of career making rock and roll out right now.... Henry Lee Summer would hate my dad. He wears nothing but wingtip shoes.... Thanks to Polygram for the pound of blow that came with Cougar "Rooty Toot Toot" add. Just kidding.

**Kelly Cluque, KCAL, San Bernardino**

It's made my week to add AC/DC's "That's The Way I Want To Rock And Roll". I know some programmers have been apprehensive about this album, but our listeners forced us to play it and it sounds wonderful on the air and gets that blood pumping.

**Charlie Logan, WYNF, Tampa/St. Petersburg**

Van Halen's "Feels So Good" might be the best song on the Lp. A strong melody and that trademark Van Halen groove make it the perfect song to further the excitement surrounding their Monsters of Rock show June 5th.... Guns N' Roses "Sweet Child O' Mine". We started playing this Lp last October and it's still getting top 5 phones. I don't mean to be offensive, but with the street buzz and retail action on this band anyone

who rocks not playing it is well -- stupid. This band is the Aerosmith for the present generation of kids.... Def Leppard "Pour Some Sugar On Me" goes back on the radio for basically the same reasons as Guns N' Roses.... The Moody Blues have a legitimate smash on their hands. We've always done well with them, we'll do even better with this one.... Michael Anderson. OK, so the "sound alarm" is a great little toy, but "Sound Alarm" is a great little song. A one listen ditty. And don't you just love the way his voice cracks at the end? It's real man, it's real.... Speaking of reality, a personal to a friend, Bill McGathy. All of us at WYNF extend our deepest sympathies.... P.S. To Marko, JB, Buch, Flash and the Nasty Man: Thanks for the hospitality and the good time.... To Lorraine Caruso: Come down to Florida. Believe me, Tampa's not what you think.

**Richard Smith, WIXV, Savannah**

It is a rare that any band puts out a release in which every song appeals to me. Usually about half the songs are good and the others are "fill tunes". An exception to this is the new Van Halen CD. I put it on and every song on it knocked me out. The band sounds more congealed and precise than I have ever heard and Sammy's vocals are right on the money. We added four tracks this week so I guess you could say that we're AFU about it.

**Inessa York, KGON, Portland**

I have just discovered the Melissa Etheridge track that works for me, and that is "Bring Me Some Water". I really feel that the first track they put out there "Similar Features" was totally wrong, though it did showcase her vocal talent.... We're extremely pleased with Van Halen, of course. But the aspect I like best is that you can really tell they've gotten to know each other. They don't even have to use their last names anymore. And I love the depth of their finesse which especially is wonderful to hear on a song like "Finish What You Started".... "Treat Her Right" from George was one of our original first good hits from the album so we're real pleased to have that on. He'll be here this summer so we're gonna start rolling it.... There is no one else out there like the Moody Blues, so even if they don't break any new ground, their fans are very happy to have new material. We've gotten good phones on this already.... To heavy for Robin Trower. It was a natural heavy for Robin.... Jimmy Barnes goes on. We really think it deserves more exposure.

**Greg Morrison, WRQK, Canton**

WRQK welcomes the addition of Mike McKelly to mornings.... I'm getting cauliflower ears from answering the phones for Van Halen.... New Moody Blues is getting strong daytime phones as well.

**Dave Gariano, KZLR, Little Rock**

Personal to our friends at Tragic 105: Congratulations on finally getting real studios in the city of Little Rock. Too bad you can't do anything about your limited signal. Also can't wait to see the photo of your car contest winner in the Hard Report. When exactly does she graduate from high school?... Thank you for the Birch update. Since those numbers were taken during the period of transition from my predecessor to myself, do you just suppose that's why they hired me?... KZ95 is pumped up about the arrival of our new custom van "Black Thunder".... We're also sponsoring this year's annual Riverfest fireworks for over 200,000 Arkansans. Our current contest has already blown out over \$30,000 in cash and prizes with a \$10,000 skiboat package on the line this week.... Our morning show, the Big Breakfast with Bob and Jeff have literally ignited Little Rock morning radio. Our new on-air lineup is now firmly in place with Bob and Jeff in the morning, Billy St. James in middays, Production Direction Steve Hodges afternoons, and our lady night-time rocker Sherry Brooks from 7-Midnight and Lee Benson on overnights.... KZ95 is poised for ultimate destruction.

**Jeff Robinson, WKQZ, Saginaw**

"Always With Me, Always With You" -- slick, subtle, SATCH. Lyrical and intriguingly laidback. This is not a piece of production studio hardware! This Lp should be at the forefront of a real album rocker's library! Rock always.

**Michael Cross, KJJO, Minneapolis**

Hopefully, by the time you read this, I will have survived the world premier opening weekend of the Monsters of Rock tour. More details coming!... Vinnie Vincent is blowing the phones apart, and so we're in with our second track "That Time of Year", which anybody could play.

**Joe Marino, WCCC, Hartford**

What a week! Van Halen, the Moody Blues, and with the Georgia Satellites and Steve Winwood waiting in the wings, and I still can find room for a great one listen tune like Michael Anderson's "Sound Alarm". I sang this one all the way home and back to the station. Great tune!... Ziggy Marley goes to heavy. Okay, Fish-people, I believe!

**Mike Richter, KFMZ, Columbia**

First things first, a special thanks to Noren Cohen from MCA for the birthday surprise. I'm still spitting watermelon seeds.... And for the preview of the new Little River Band single, "Love Is A Bridge". Glenn Shorrock is back on lead vocals and never sounded better. It's back to what made them a hit in the first place. Earthy lyrics, flawless musical arrangement, and those unmistakable LRB harmonies. Listen to this one when it crosses your desk.... Onto the current stuff. Where Van Halen's concerned, everyone should eat one or two. "When It's Love" grabbed me on the first listen.... Henry Lee Summer cracks the Top 5 this week.... Michael Bolton and Jimmy Barnes are building nicely. Let's face it, too much ain't enough.

**David Allen Ross, KMJX, Little Rock**

MAGIC105's Scavenger Hunt was a big success. Our grand prize was a 4-Wheel Suzuki Samari with \$2,000 worth of stereo goodies and a mobile phone.... Our morning team recently caused quite a stir here in Little Rock. The Outlaw Tommy Smith and his sidekick Michael P. went on the air and said that due to a bad officiating the Boston Celtics and Atlanta Hawks were going to have to replay the last five minutes of their play-off game. The radio station, local newspaper and local TV were inundated with phone calls. Needless to say, they apologized.... Weirdness of weirdness, in the current issue of Sports Illustrated on page 79 in an article entitled "The Valley Boys", there is a picture of John Havlicek, the Neikro Brothers and other sports notables at a bar in Ohio and prominently plastered against the wall is MAGIC 105 Bumper sticker. Check it out.... Finally, Van Halen is a monster. Our three faves are "Sucker In A 3 Piece", "Mine All Mine" and "When It's Love".... Final reminder, next week I'll be printing our new mailing address.

**Ted McEnroe, WBRU, Providence**

It was a week of milestones in BRU history. The Kurt Hirsch era comes to a close on June 1st as Neil Bernstein takes over as P.D. Neil has been on the air-staff for four years and I'm sure he'll do a great job while Kurt moves to get this, law school.... Also our \$10,000 Scavenger Hunt came to a close with great fanfare as we broke a 10-way tie for first with some tie-breaking questions. Not only did the contest cause a huge buzz in Southern New England, we were also able to drive the price of Bob Uecker baseball cards up tenfold in the area.... Musically, big things around these parts include Ziggy Marley, Graham Parker, Tracy Chapman and the Smithereens. I'll make more comments on these next week.

**Karen A. Small, WGIR, Manchester**

From Jon Erdahl: I have to rave, rant and pant about this new Rhythm Corp record. This is a phenomenal record. I predict that this band and this album will be on turntables til I meet my maker at the pearly gates.... The Van Halen goes beyond anything the band has ever done. Eddie, Sammy, Alex and Michael are in full form throughout the entire album. Every track is a godzilla.... The Guns N' Roses makes me flip. This band is gonna take over the Stones' throne but I refuse to let my daughter date Slash -- ever! (M.D. Note: His daughter is three months old.) Good luck to Carter and Oedipus and the WBCN crew with this year's Rumble.... From Karen: I guess this week I'll add my two cents to the hundreds of raves the Van Halen album will get. This effort is solid through and through. There's not a throw away cut on "OU812". These

monsters of rock are really flexing their muscle.... Also in the rock and roll muscle department, Guns N' Roses. "Sweet Child O' Mine" sounds like a smash to me. This song will appeal to all segments of the album radio audience.... Michael Anderson's record has the goods to go on the air right away.... A tip of the hat to A&M for the sound alarms they mailed out in conjunction with the new record. What a great record to vent one's anger while driving in New England. Although I could use a real grenade launcher in my Toyota.

**Joe Anthony, KISS, San Antonio**

Some interesting recorded gems; give them a listen. Vinnie Vincent's "That Time Of Year" is the outstanding cut on the album.... The record companies could consider remixing the intro and David Lee's "Hina" could be a hit.... The Triffids "Bury Me Deep In Love" is an exquisite ballad.... Satriani worked well for you? Try Stuart Hamm's "Tears Are Flowing". Joe Satriani plays lead guitar on this cut.... House Of Freaks "Black Cat Boogie" reminds me of "Red Blue Jeans".... Another interesting tasty record is Bruce Mitchell "The Far Country". Good spice for your format.... Ian Matthews' "Lovers By Rote", Camper Van Beethoven "Eye Of Fatima", Kusko "Battle Of Flutes", Acoustic Alchemy "Natural Elements", Toni Childs "Stop Your Fussin". Any of these selections would certainly freshen up any format. Listen to them and draw an opinion.

**Brian Illes, WKFM, Syracuse**

I'm very pleased with the sound of the new Van Halen and although we'll probably stay away from most of the hard rockers, there's enough songs with the softer (for Van Halen) sound for just about every station to deal with. A lot of programmers, including me, are probably reluctant to admit it but Van Halen with Sammy Hagar now sounds better than a lot of Van Halen with David Lee Roth. I think all the time they spent on the road since the last record has really brought them together as a band and it has really paid off with the sound of this album.... Robin Trower finally cracks the top five phone list. It took a little while, but the song has a monster hook and I expect it to do very well here in central New York.... Listener response to the new Rod Stewart Lp continues to be very good, with top 5 phones on the single and lots of calls for other songs off the album as well.... Please note that due to major station promotions which will place a great demand on my time, music calls will be taken only on Thursday from 11:00-1:00PM from now until July 1st. I will not be available on Friday for music calls whatsoever. I apologize for any inconvenience this may cause any of you.

**Will Douglass, WGLF, Tallahassee**

The average listener with some degree of education can really get behind the Neil Young song, "This Note's For You". It's witty and it rocks at the same time.... The Moody Blues go straight into medium this week and we expect good things from this track. This song is a great example of the band at their best.... We are getting a ton of calls for Treat Her Right all of a sudden. The curiosity behind these calls extend to the local record store. They called to find out what the song was so they could put it on in-store.... Of all the Van Halen album tracks on the air right now, the track of choice is "Feels So Good" and the audience is backing it 100% with their phones.... Tracy Chapman certainly surprised us and her song is getting a lot of instant response. This song sounds real good on an AOR station.... Looking forward to getting the Georgia Satellites and Steve Winwood, can you spell anticipation?

**Brian Jordan, WRUF, Gainesville**

The new Moody Blues has that "Wildest Dreams" feel to it that worked so well the last time out. Look for this record to do big things.... We are getting great phones on the Scorpions and it's all positive. With excitement about the tour building, it seems like the Scorpions are as important to the buzz as Van Halen.... This market has been reggae starved for some time so it was natural to add the Ziggy Marley. We can't saturate our sound with reggae but once in awhile it helps you sound very good and works with those wandering upper demos.

**Jeff Michaels, KSQY, Rapid City**

Jack Daniels, Program Director of KSQY, Rapid City will marry on August 3rd in Maui, Hawaii. He invites record reps from

across America to the reception at Saloon #10 in Deadwood on August 20th. RSVP at (605) 578-3533.

**John Cooper, WPYX, Albany**

Wow, a great injection of rock and roll this week. Steve Winwood's "Roll With It" is an absolute stone cold smash hit. This one song combines all of Steve's musical styles from his early R&B days with Spencer Davis to "Back In The High Life".... Van Halen's "OU812" is this week's most requested record and with good reason. It's got depth, amazing guitar work and it's going to be around for a long time. We are four cuts deep and how about that cover of the Little Feat song.... What's it been, more than 20 years, and the Moody Blues are still cooking. In fact, "I Know You're Out There" puts some of their previous work to shame.... Our Dash For Cash winner grabbed \$19,621 in 60 seconds inside a bank vault with \$106,000. All the local TV crews and press people were there; photos to follow.

**Dave Ross, KFMU, Steamboat/Vail**

An album that needs much more attention is the latest from Jimmy Cliff. Reggae plays an important role here and Jimmy comes through again with some uptempo, great sounding stuff. Check out "Reggae Down Babylon" off the Lp "Hanging Fire".... The Mighty Lemon Drops do it again. I'm very convinced that this band has staying power. "Fall Down" has what it takes to get played here. The cool vocals and great chorus put this song in a class by itself, highly recommended.... Now, don't start pushing Mucho Metal on me but Guns N' Roses goes in here. I know, what a shocker! I listen to music on a per song basis and I feel the all daypart remix of "Sweet Child O' Mine" will sound great at night. (Get the message).... No, we don't play Metallica, Iron Maiden or Motley Crue, we didn't even play "Welcome To The Jungle" but this is a groovy tune and all I have to say is that you don't have to play hard edged metal to play Guns N' Roses.... That's it for now from the world's only wind powered radio station.

**Jon McGann, KFMX, Lubbock**

We had Guns N' Roses "Welcome To The Jungle" in recurrent when everyone else put it in light and still received top 5 requests. So we expect nothing but the same from "Sweet Child O' Mine".... The Rod Stewart album "Out Of Order" continues to perform extremely well for us.... With big names like Aerosmith, Hornsby and Van Halen stacking up the playlist, it's good to hear that the core artists are having no problem putting out great music.

**Butch Lazorchak, WVW, Blacksburg**

Thanks to everybody for their patience while I was on vacation. I had a blast and hope you did too. Everything should be back to normal starting now.

**Glenn'O, WBYR, Buffalo**

Thanks go out to Barbara Balchick from Reprise for a great time last Thursday for the wine and dine. Also, Jeff Criden of WB for bringing by the guys from Honeymoon Suite to say hi and for the great ID's.... The Alarm's "Rescue Me" is doing great here. They are sounding off alarms on the phone and airwaves.... Looking forward to Georgia Satellites and Steve Winwood this week.... Monsters of Rock coming to Buffalo on June 19th.... This one goes out to all you hip rocking record reps and you know who you are: Please remember to take care of yours truly the day of that show. Ab-s-o-o-o-lutely that's all for this week. Aloha.

**Ron Marsh, WKWQ, Columbia**

For our Lynyrd Skynyrd welcome, we really blew it out being as we are in the heartland of South Carolina. Three weeks ago we played a full half hour of Skynyrd in our Friday Drive at Five. We also set up ticket registration points at local Record Bars and drew the winners name on the air Monday and Tuesday. In addition, we had the listeners write in to tell us why they liked the station and why they would like to see the band. For the grand prize we announced the winner on the morning of the show and presented them with tickets, dinner and a limo and backstage passes. The weekend before the show we played Lynyrd Skynyrd every hour and gave away Lps, cassettes and tour shirts and catalog. To top it all off, we did an in-store

autograph session with members of the group the afternoon of the show. By now you may have guessed that we called it the "Most Phenomenal Concert Welcome In Columbia Radio History".... Joe Kelly, why can't I afford you?

**Lorraine Rapp, WAQX, Syracuse**

95X just completed Syracuse's first scavenger hunt. It was a lot of fun on the air and for the Grand Prize winner picked up \$5,000 in cash.... Going with Ziggy this week although I admit to being a bit skeptical.... The new Rossington is hot.... We really like the Moody Blues latest effort.... Thank you A&M for the Michael Anderson; sounds like he has a career in front of him. "Feels So Good" and "When It's Love" are the obvious first two tracks from the Van Halen album.

**Tom Calderone, WRCN, Long Island**

Congratulations to Adam Langley of WBNY on his new position as GM at the station. As former PD of the alternative radio station, I am happy to see it continue in the direction that I built.

**Al Scott, KZEL, Eugene**

I never get tired of Stealin' Horses and the audience has responded so well to the songs on air testing that we added it to our regular rotation this week.... "Look Out Any Window" just manages to show that Bruce Hornsby's songwriting is on a level beyond anything else being offered these days. I haven't heard a song like this in years.... Audience response dictated that we switch to "Cool Running" by Boz Scaggs as the best thing on the album.

**Jerry Trujillo, KDKB, Mesa**

If you are planning a trip to Phoenix, put it off until September as it's getting up to about 103 degrees these days. To counter all that we are putting on our 93 Days Of Summer contest with all kinds of good stuff including all kinds of good stuff like river floats, concerts, weekend trips and who knows what else.

**Wendy Steele, WLWQ, Columbus**

My condolences to Bill McGathly on the passing of his father.... On a lighter note, we added Tracy Chapman this week. I look forward to getting huge phones as other stations have experienced.... Also to light the unique sound of Parthenon Huxley and Velvet Elvis. I've seen Velvet Elvis perform twice now and they have a "raw but fresh" REM sound, very appealing. I hope and look for them to go far.... Added to heavy the Moodies, "Kick" by INXS to medium and I spent the weekend with the Van Halen release. My favorites are "When It's Love", "Finish What You Started", "Feels So Good", and "Mine All Mine". They are the number one requested band this week again followed by Pink Floyd who play in Ohio Stadium this weekend which will be the first concert ever held in that stadium. I expect heavy security. Music hours are now Thursday and Friday from 4:00-5:30PM.

**Paul Nelson, WWCT, Peoria**

Tracy Chapman is quite a talent. The easy thing to do with a new artist is to compare them with someone else. So the Suzanne Vega and Joan Armatrading comparisons are a good starting point. When her album is no longer current, probably about a couple of million units from now, other artists will be compared to her.... We said Lee Arnold would sacrifice a classic pre 60's automobile on the highway in California. Thanks Lee the weiners and marshmallows are in the mail.... Congrats to everyone who can bowl a score as high as their blood alcohol content. Watch out Wisconsin, Roger Lifeset may be hustling at an alley near you soon.

**Tom Van Sant, WIZN, Burlington**

Tracy Chapman's "Fast Car" has rocketed to our #1 request. The phone response came immediately after we added it so we knew that something was up. Tracy just hits a chord with our listeners. We're now playing "Talking About A Revolution".... If you've forgotten about Camper Van Beethoven's "Eye of Fatima", it's worth another listen; just a good time tune, with shades of any and every 60's grunge band you can think of. If Steve Cormier can hear this record on the first listen, why can't you?... I feel fortunate to work at a station that can add the Church's "Reptile" and Peter

Murphy's "All Night Long" in the same week. Each song has great textures and atmosphere, with both adult and hip appeal. The right combination for WIZN.... I was apprehensive about Michael Anderson's "Sound Alarm" but it gets better with every listen. Sounds like Gordon Lightfoot meets Bruce Springsteen. LET'S CRUISE!

**Tim Parker, KNCN, Corpus Christi**

Special thanks this week to everyone who made my first Rock N' Bowl, and this visit to LA a memorable one. Thanks to J.B. Brenner of A&M, Marko Babineau of Geffen and Ronnie Raphael of SWAN for making things happen. To Danny Buch and David Fleischman of Atlantic, thanks for staying open all night. Most of all thanks to Michael Hughes of WRDU for the great tour. I'm ready to move!

**Alan White, KILO, Colorado Springs**

Once again, Jon Scott pulled off a fun filled T.J. Martell weekend in LA. Many thanks to Hugh Surratt of RCA for the royal treatment and to my golf mentor Ray Gmeiner at Elektra for the golf lesson. As always it's good to put faces with the voices.... Here's our new KILO batting order: Red Noize and Gary Street 5:30-9, Alan White 9-Noon, Kris Koenig Noon-3pm, Larry Gates 3-6, Robert Chase 6-10, Bobby Ihle 10-2am, Carolyn Barnes (from KKFM) 2-5:30am.... Musically, what can you say about Van Halen that isn't redundant? "OU812" is totally balanced for all day parts. Virtually every song is a winner. Deal us three to start with "When It's Love", "Feels So Good" and "Mine All Mine".

**Jim Steel, WIOT, Toledo**

Eddie rules!!!

**J.D., WONE, Akron**

Drivers, start your engines! This past weekend we sent a listener to the INDY 500, all expenses paid, as part of our vacation a day in May promotion. So far we've given away over \$50,000 in prizes and the month isn't even over yet! To round out the month, we will send a listener/correspondent to Detroit to see and report on the Monsters of Rock, before it lands here June 22nd and 23rd at the Akron Rubber Bowl.... Speaking of monsters, oh, you ate one too? Godzilla pales in their presence. This new Lp is a strong one with some ree-ahl, co-ahl tunes. This week "Mine All Mine" and "When It's Love" make it to the air.... How about those Moody Blues? Great stuff, great stuff. Can hardly wait til the album ships. "I Know You're Out There Somewhere" is a strong solid record. Looking forward to the tour as well, which will stop in Akron, August 12th.... P.S. Carolyn Heldmen: Call soon, the tests came back negative.

**Pam Brooks, WPDH, Poughkeepsie**

Hell, it's my birthday week and still you want me to be coherent enough to listen to and add music. The party of the year starts today and continues through Memorial Day, with exciting events planned each day to entertain and entice moi.... However I did lend my ears to some happening new vinyl. Van Halen is killer. We love "Feels So Good", "Finish What You Started" and "When It's Love". No question the ticket and Lp of the summer, thanks guys.... I adore the new moody, Moody Blues. Like an old friend you can't wait to hear from again and are never let down by. They make radio magic. Looking forward to the rest of the new edition of the saga.... Whoa! is Dale Krantz sounding awesome. Make room now for the Rossington Band because "Welcome Me Home" proves they are back with a vengeance powered by her strong vocals plus a great song. The phones should be hot. I expect this will sizzle right through the summer.... Soul Asylum's "Sometime To Return" is refreshing, raw new music at its best. They've worked out a lot of the kinks that seem so prevalent in so many groups ready to break out of the college radio mode. What remains is an Lp on the cutting edge, we're happy to give a shot.... Jimmy Barnes has got it covered. Not only is "Freight Train" a non-stop musical romp. "Too Much Ain't Enough" is a bluesy, aggressive rocker packed with wonderful lyrics.... One of my current faves that I can't get out of my cars cassette deck. We're cruisin'.

**Patty Martin, KSJO, San Jose**

Thanks to everyone for their contributions to my killer vacation. Jay Ziskrout for the Church show, dinner with the band and my first flying lesson. Bubba Osborne for the Universal Tour. Barry Lyons, JB Brenner, Hugh Surratt, Michael Papale, Michelle Meisner, Bob Osborne, Robin Silva, Donna Geisinger and JBZ for various lunches and dinners. Enigma and Capitol for the amazing Smithereens show. So good, I'm going again this weekend. Pam Newman for rounding out the happening, powering hanging we did.... In between I also heard some great music. Got an advance cassette of a new Eddie and the Tide Lp. It's suburb. "Days Go By" has all the markings of a smash. But there's lot's of really strong songs.... Patty Smyth; I heard four cuts, phenomenal. All are radio songs, but don't worry she hasn't lost her way with lyrics.... Another one I can't wait for, one of my heroes, Iggy Pop. Heard two songs and it sounds like it's back to raw power for Ig. It's going to sound terrific on the radio.

**Stephen Page, KOME, San Jose**

Another week of great rock and roll lies before me, but let's reflect on the weekend, primarily the bowling party in L.A. First and foremost, thanks to I.R.S. for showing me such a fab time and making me look real cool. They picked me up in a limousine in front of a very expensive hotel making everybody at that hotel wonder who the hell I was. After all, It was L.A., wasn't it? Had a great time at the bowling party, hope to do it again next year. Thanks to Barry and Jay for the great Italian meal and the REM platinum CD.

**Jack Green, KLPX, Tucson**

Add mine to the list of raves on the new Van Halen Lp. They really sound like a cohesive unit this time. We went ahead and put in "When It's Love" and expect this album to do better than "5150".... Another natural for us is the new Moody Blues, "I Know You're Out There Somewhere". It fits in perfectly with what we're doing.... It was great to see and meet so many people at the bowling party last weekend. Hope to be able to do it again next year. Special thanks to Steve Brack, I actually finished that beer.

**Catfish, WHMD, Hammond**

Van Halen has beaten me "Black And Blue" with #1 requests, two Rockline appearances and a scorching hot new album. It's no wonder Valerie Bertinelli bought new shoes and socks for her guitar pickin' hubby.... Hats off to Steve Gottlieb, Joe Hodge and Michelle Higgens of TVT for landing on our shores the New Zealander Shona Laing. Check out the track "Soviet Snow" from her Lp "South".

**Mike Gardner, KOAS, Kealakekua**

Looking relevant for us: hot guitars from Scandanavia with John Norum and group on Epic; Melissa Etheridge, our fourth week with this fine island performer; Toni Childs, another of the current fine group of ladies on A&M; Stealin' Horses fits us fine from Arista, and would Geffen please send us Jimmy Barnes & John Kilzer?... Robin Trower, Brian Setzer and Graham Parker along with Ziggy Marley and Tracy Chapman are doing well for us.... Hey WEA, where's my Van Halen CD? Even an Lp would do.... Good music and a service well done to our listeners who expect rock, blues and reggae new and old from us. Thanks to the companies.

**Cole Gill, KSJS, San Jose**

Man, this Queensryche album is simply amazing. Truly a band comfortable with making a statement in a world of "wanna be" look-alikes. Our listeners once again are proving their taste and intelligence by making Queens #1 in requests.... Also an excellent album is the Fates Warning "No Exit". Our "Brain Pain" fanatics can't get enough.... Testament, Toxik and Hallows Eve are all getting extensive airplay.... Also, I'm finding Kings X kind of interesting, kind of a cross between the Beatles and the Bad Brains. I'm looking forward to the Fates Warning, Iron Maiden and AC/DC shows.

**John Johnson, WKNH, Keene**

After four years of doing WKNH's "Flaming Metal Death" show, I'll be retiring from the show on June 25th, the show's fourth

anniversary. Taking over will be Chris Rennpage who has filled in for me on several occasions in the past. Adjust your mailing lists accordingly. I'll continue to be involved with WKNH and will probably be filling in on Chris's show from time to time, so I'm not dying or anything like that.... All Dictator fans should check out "The Incredible Wild Kingdom" track on the otherwise forgettable "Mondo New York" soundtrack.... I've also finally gotten to hear Sabbath and am pretty impressed. You should be too.... And again I ask, when is the Danzig album coming out?

**Kim Alexander, WHCN, Hartford**

It's birthday week at WHCN, our 19th and we've got a week's worth of fun lined up with the highlight being a big party and live broadcast with NRBQ. Thanks in advance to Jack Rich and the band for what's bound to be a wicked good time.... Belated thanks (where was my head?) to Karen Durkot for the Guns N' Roses show at the Orpheum. The audience looked like extras from the Rocky Horror Picture Show, not just a concert but an adventure. Hint: Can I get one of those doormats?.... Van Halen's "Feels So Good" is all I need to hear on the radio this summer. Nuff said.... Segue of the week: Bobby McFerrin's "Sunshine Of Your Love" into Cream's original. The phones will buzz.... Christina, thanks for the kind words, we are the Connecticut mafia, aren't we?

**Mike Boyle, WDHA, Dover**

The bowling party was a blast and quite a success as well! Congratulations to Jon Scott and crew for all their efforts. This year's "stroke" list is pretty long.... Paul Yeskel, Freddie, Dirt & Company, J.B., The Capitol Crew -- Ritch & Ray, those Smithereens were hot, Michael & Eric from Atco, John Brodey & Mia from Polygram, Kevin Sutter from Chrysalis and his "nun-bims", Henry Lee Summer, Richard Marx, Robert Tepper, the Skid Row guys, Joanna Dean, Baxter Robertson, Sean, Ross from KNAC -- your friend makes great drinks, Jack & Sue, Al, Tommy Nast, Beth -- that was a "wild restaurant", Dave from Rhino, Graham from Frontier, those one of a kind Atlantic boys, Danny & Dave -- the best suites in the business, all the California girls, and anybody else I forgot, it was lots of fun!... While in LA I got to meet the guys from Rhythm Corps. These guys will be coming to your town soon. They want to tear it up! They've got the goods with "Common Ground". Play a smash song!... Also had a chance to meet Baxter Robertson. I've been a fan of his for a long time. Make the room on your playlist for "No Simple Cure". You'll be glad you did.

**Duane Doherty, WKLC, Charleston**

All of us at WKLC would like to wish our somewhat beloved PD Brian Krysz the best of luck as he leaves 'KLC to assume the programming responsibilities at our sister station WCCG in Charleston, South Carolina. Brian will still be overseeing WKLC's programming as I will take over as interim PD.

**David Hall, WKDF, Nashville**

"OU812" maintains the momentum Van Halen gained with "5150". No doubt this will be another #1 album for them. "When It's Love" is the obvious killer smash, but there's much more great stuff to choose from including "Mine All Mine", "Finish What You Started" and "Feels So Good". As impossible as it would seem, Sammy's singing and Eddie's playing just keep getting better.... Sampling some CD's in the office, I came across Underworld's "Glory Glory". It's an exceptional recording of a great song and it's getting lots of play here in the office. I don't know if it'll make it into the control room due to all the heavy traffic out there now, but it'll be a shame if it doesn't.

**Jim St. John, KTYD, Santa Barbara**

Has anybody spent any time with the Underworld album? Please don't feel obligated to reply, just listen to me for a moment. This album has something for just about everyone on it. "Glory Glory" and "Underneath The Radar" are both hip rockers and "Show Me Some Emotion" is a #1 crossover. These fellows have a bunch of talent, not as much as Terry Jaymes, but they're good and should be getting a lot more attention. This album is one of the few that I listen to every day. It's too cool to ignore!... By the way, the bowling party

was fun. "Oh excuse me, there's someone I want to say Hi to. I'll hook up with you later!"

### **Jeff Ivan, KFMX, Lubbock**

The new Frehley's Comet is another winner. Of course, I always enjoy his stuff, but after the success of his last album this is a must add. Lots of good material to play on this album.... Looks like Masi has struck gold with their new single. The addition of the members from Hawk makes for a great sounding band. "God Promised A Paradise" is a very catchy tune that will pull some great phones and sales.... Betsy formerly Bitch, also has a good new tune out.... Britny Fox have had a lot of pre-release press and it seems to be worth it. Their first single is a strong track. I'm very interested in hearing the rest of the album.... Congrats to Giant records for giving us Steel Vengeance; this is a super strong album. A definite must play. These guys have a big future.... I also went on the new tracks from Fifth Angel and L.A. Guns.... Thanks to Bill and Head Office for the interviews with Brighton Rock and Honeymoon Suite.... I also like the sound of the John Norum record. Good stuff. Should go on this week and finally the new Camper Van Beethoven kicks butt.

### **Caesar Ettore, WKVU, Villanova/Philadelphia**

Well, folks this is my fairwell dialogue - at least until September. I just wanted to insult you all one more time so that your inferior minds have all summer to think up suitable comebacks.... Yes, my preliminary findings have been proven true. Cheryl Valentine has lost it. Besides marrying a 13 year old (see below), she introduced me to Fates Warning's bassist Joe Dibiase on at least four different occasions. Three in one 24 hour time span. Pleading drunk will not help. Expect a visit from the men in the white jackets real soon.... I guess it's better to exist in a mentally unstable state then not exist at all. Case: Monte Conner is a non-existent entity in himself. If it wasn't for the unfortunate fact that we can see Monte, he probably wouldn't exist at all.... I won't slag Megadon because he'll just bore us with his response anyway.... To Steve Kandtsheidt - what's wrong, did Peggy Donnelly shoot you down? I can't blame her. Who'd want to marry a 13 year old (Cheryl)? She can marry me instead.... Well, I hope I didn't leave anybody out - oh yeah, the best of luck to Rich Scroggs whose brilliant insight was always a plus to dialogues.... Fates Warning, Kings X and of course the Ramones all rule. Thanks to everyone for all your help throughout the year.... Extra special thanks to that complete metal goddess Chris Black for putting up with all this weekly garbage.... Anyone wishing to contact me for any reason, (interviews, etc...) can at: 215-789-0310. Now it's off to the beach to mosh.

### **Mad Max Hammer, Z-Rock Satellite**

In Z-Rock's "Terrible 25" (as it's affectionately known) the biggest movers this week are the new Testament and Van Halen and our big mover, leaping into the Top Ten is Judas Priest's "Ram It Down". We ram every cut off that album down our listeners throats and the response is great.... Queensryche should have another real strong single coming out soon. Will be a real mind-blower.... Breaking into our Top Ten is Dirty Looks with a real strong album ("Cool From The Wire") that's getting real strong sales and requests.... Just breaking into our Terrible 25 is Hallows Eve's "Monument". The song "Speed Freak" has really surfaced for us and Sodom's "Persecution Mania" has consistently strong sales and requests. The hot track is "Iron Fist" - the old Motorhead song.... The new Frehley's Comet is really good too.... Van Halen's "Sucker In A 3 Piece Suit" is one of the strongest tracks off the new one that we're playing. I look at Van Halen with Sammy Hagar as Van Halen grows up.... Only Child's Paul Sabu put together a great band and we're playing "Scream Until You Like It". It's a real good rock and roll album.

### **Rick Scroggs, WWVU, Morgantown**

Thank god, Judas Priest threw their synthesizers away and picked up their guitars again. "Ram It Down" follows in the tradition of the classic Judas Priest Lps. There is no excuse for not playing this record.... The Armored Saint track on the "Decline Of Western Civilization" soundtrack jams. It pulls an immediate phone response and hopefully it's a small sample of what their next album will sound like.... I'm happy to hear

that Trouble have enlisted Barry Stern, formerly of Zoetrope. Their cover of "Come Together" is very cool. Definitely the best trendy cover I've heard this year.... Tonight is a magic night here in Morgantown. The bar where I work is serving 35 cent, 12 oz. drafts for most of the evening. With this fact in mind, I will be taking reservations for Rick Scroggs' Metal Person Travel Agency. I will offer a trip to scenic Morgantown West Virginia for all the industry people who enjoy cheap alcohol. I expect Megadon will be first in line.

### **Mike Jones, WGIR, Manchester**

Space, the final frontier. These are the voyages of the starship Frehley's Comet. Their five year mission to release ass-kickin', death defying rock and roll, to explore new towns and new cities, and to boldly go where no band has gone before (insert sound effects). What a cool record. And they've got the Maiden tour. Hot damn. "Dancin' With Danger", "Insane" and "Separate" are personal faves. Crank 'em loud and proud dudsicle.... The Priest is back! I said the single was pretty good but there are some way heavy tunes on here like "Love Zone", "Monsters Of Rock" and the thrashing title track. Kind of "Defenders Of The Faith" Jr. A welcome change of pace from "Turbo". Well done lads.... Barry Lyons, the metal madman at I.R.S., is screaming about Seduce and rightfully so. "Anytime Or Place", which you will find on the Hard Hitters Cd, is a song that belongs on radio. Heavy yet accessible, great melody, catchy chorus - what are you waiting for? Put it on and watch the phones explode.... And the \$64,000 question is - what IS the title of the second song on Flotsam & Jetsam's new album. Is it "Dance Of Death" or "Dreams Of Death"? Inquiring minds want to know.

### **"The Kaptain" Kevin K. Kasky, WOUR's Power Hour, Utica**

Here we are again, another week has gone past and more and more metal has come across my desk. Cheryl at Metal Blade should be extremely excited because this week her boys from Fates Warning surpassed the all-mighty Maiden! Monsters Of Rock is drawing near. I'm real excited about that one, and who isn't (unless you're one of those F#\*@\$\*G Zipperheads that love the P.M.R.C.).... I take my leather cap off to Chris Black and her metal slave for a job well done on the CD compilation.... Carmine Appice gave me a buzz today -- on the phone, dirt mind -- and just wanted to make sure that we here at the Power Hour Plant had heard his latest masterpiece. And I don't feel like I exaggerate when I say masterpiece. Great work Carmine, and good luck with your very own record company!... Well, metal-brethren (and sisteren) 'til next time, keep the sun on your private parts and smile.

### **Mike Marrone, WHTG, Asbury Park**

Thomas Dolby continues at #1 for the third week. We're on "Airhead" and "Key To Her Ferrari". The album is selling with Top 5 sales and requests and Top 5 in our hearts at WHTG.... Melissa Etheridge moves to power this week and I do have to say that I saw her at the Bottom Line last week and was completely captivated by one of the best voices I have ever, ever heard. If you get a chance to see this lady perform, don't miss it!... Graham Parker's "Start A Fire" continues in power and we're ready to crank "Don't Let It Get You Down". I've said it before, but this is my favorite GP album since "Squeezing Out Sparks" and it seems to be one of our audience faves as well.... Parthenon Huxley moves to heavy on "Double Our Numbers". When I first listened to it, it didn't grab me, but on subsequent listens I realized there's a lot going on there and I think it's a really good track.... Shona Laing is, according to our retail reports, blowing out the stores faster than Sinead O'Connor! Dave at Vintage Vinyl in Woodbridge says it's the fastest mover he's seen in quite a while.... Soul Asylum's "Sometime To Return" is in power. They appeal to anybody from AOR to college radio. They've been critics darlings long enough so it's time to catch on with some airplay!... It's good to see Ranking Roger back with "So Excited". If you're expecting a radical departure from the Rankman, forget about it because it was cowritten by his English Beat partner Dave Wakeling!... I must admit I had preconceived ideas about what the Dag Nasty was going to sound like, but as usual when I have these stupid ideas I am wrong. "Trouble Is" isn't even the

slightest bit hard core. If you played the Replacements you can play this and I hope you do. It's a great song.

**Jetson, WOXY, Oxford**

This past Sunday WOXY welcomed Depeche Mode to Cincinnati to over a crowd of 7,000. We are the only Cincinnati area station that plays Depeche Mode and I think this says something about the strength of this band and WOXY in Cincinnati.... It's sad to see other radio stations not realizing the popularity of bands like this that sell records and concert tickets like crazy. Programmers are so worried about playing music that's "safe", sometimes or always they miss out completely. I think it's time for radio to move forward instead of trying to live in the past and play mostly music of the past. This is a scary trend and it's a scary thing that when we look back on the music from the 80's we'll be hearing the Beatles, Jimi Hendrix and Led Zeppelin. AOR's seem to be looking for the next Led Zeppelin sound-a-like but what about a band I believe is an evolution of the Zeppelin sound? The Mission U.K. The song "Tower Of Strength" should be a major AOR hit. It was produced by John Paul Jones and they're opening for Robert Plant on his current tour. This should tell you something.... We would like to thank Craig Diable of WB for the great Depeche Mode concert promotion. We appreciate it and thanks to Doug Burton of PolyGram for a great time at the Reds game!

**Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix**

The Bollock Brothers is a well structured record from song to song and my initial faves are "Calendar Of Visions" and "God Created Women", a wonderful spoof of Berlin's "Sex". The delightful yet annoying cover of "Magic Carpet Ride" just makes me roll!... Although it's hard to find, "Used And Recommended By" is an incredible compilation of new and up and coming Australian bands along with some familiar names. Included are Hunters And Collectors, The Saints' Chris Bailey. Not to overdo it in the covers in my comments, but a must listen is Australia's X doing "Dream Baby", a song popularized by Roy Orbison many years ago. It's the best Australian compilation since "Storm Riders" (the original soundtrack) in the early 80's.... Uncle Milty's Rowdy Rivet of the week: Assassin on Steamhammer Records.

**Rick Panneck, WAPL, Appleton**

We're gearing up for the Monsters of Rock. By the time you read this, the first three shows at Alpine Valley will be history. Two lucky WAPL listeners will join Van Halen on stage for one of the shows. Needless to say our phone lines are reflecting the "Monster Mania" that is sweeping the area. The release of Van Halen "OU812" has added fuel to the fire. "Black And Blue" is #1 requests. "Mine All Mine" and "When Is Love" show the diversity of the Lp.... Tracy Chapman has completely blown me away in audience response. This record gets immediate phones. If you don't believe me, try it for yourself. Finally Only Child's "I Believe In You" is quality rock and roll that shouldn't be overlooked.

**Rich Flamingo, KCRK, Walnut Creek**

This week we'd like to bid a fond farewell to our morning gal Darlene Heath. Talk about a change of lifestyle, she quit her gig and bought a motorcycle. She plans to tour the US this summer, no dates scheduled as yet, but if she comes to your town tell her we said hi.... One big record rave this week and that would be Melissa Etheridge. If you like "Similar Features", check out the next song "Chrome Plated Heart". Sounds great on CD, too. Thanks to John Souchak from Island. Plug in, tune in, turn on.

**Ivar Hamilton, CFNY, Toronto**

Hats off to Lin Brehmer at WXRT and the comments dated May 13th. He's right regarding stations taking chances and being taken for granted. It's really quite discouraging to watch the stations who are the groundbreakers when it comes to new artists being given the second division treatment when a band begins to break. We are fortunate that the situation is not as bad in Canada, but we also get the hype. Damn it, we don't care if a record is #2 or #200 on any chart or if it's pulling top five phones in Anyplace, U.S.A. If it's good it will get played at CFNY and I'll be the first to admit it if I was wrong on

something. What I don't need to hear is "We're going for #1 this week, can you put our record into heavy? Or something I never heard of before, "low-heavy huh?". That doesn't cut it here. Also, we play a lot of independent acts that haven't lost that cutting edge before that commercial release comes. In many cases a producer becomes involved with the new band and ends up making them sound like everybody else and what we end up with is a load of mediocre albums.... To Peter Vitols, formerly of Duke St. Records, we'll miss you. You're a good man and your input was always appreciated here. From Don Berns, Kneale Mann and the rest of our staff, we wish you all good things in your career future.

**Michael Linehan, Reprise, 818-953-3750**

This Thursday, June 2nd, you will be receiving the new CD pro of "This Note's For You" from Neil Young. It's a full length version taken from his April 13th show at The Palace in Los Angeles. This CD also contains a 3:15 edit as well as the Lp version. A third of album radio is already playing this track from the LP and now that "Ten Men" has peaked for most people, we are going after it as our emphasis track.... Also on your desk now is the CD remix of "Fall Down (Like The Rain)" from the Mighty Lemon Drops which is a great rock and roll song. "Inside Out" created a buzz on this band and established a mainstream base in addition to being a top 5 alternative cut. I know there are a lot of releases lately, but don't overlook this track. To those of you who have been listening to this cut recently, and you know who you are, how about giving these guys a shot? We need to break this act since it's apparent we can't fall back on a career in professional bowling.

**Deborah Klinger, Apache, 213-466-9958**

"Apache staff overcome by toxic fumes! Complete details on your phone lines".... What a week and a half! Those of you fortunate enough to have your regional reps screaming into your ears "Can you hear me?! Our roof is being fixed and we can't hear a thing and all this dirt and glass keeps falling on our desks!" have an inkling of current life at Apache. Then Monday AM 40 gallons of ammonia leaked into our air, and the rest is history.... C'est la vie! Of course, between roofing hell and toxic leaks, the Rock 'n' Bowl served as a great sanity saver! I had fun, even though I've been walking lopsided for the past 3 days - bowling shoulder.... Great finally meeting Nat Lamp, trying to be witty for Charlie Logan, and tracking down Tim Parker's red snakeskin boots!... I, too, would kill for Marko's Guns 'N Roses' jacket (see comments by Steph and Jen).... Many thanks to KLOS and WSHE for going PRIMITIVE this week! Yeah!! You can be a Savage, too! Do that primitive thang!

**Stephanie & Jennifer, Apache, 213-466-9958**

Yes, we attended the T.J. Martell Rock 'N' Bowl Saturday evening, and it was great! Well, what we can remember of it -- just kidding. It was fun seeing all of our favorite industry friends! Sam Calle, we love you! Andy, too.... Marko and Christina of Geffen were wearing the coolest Guns 'N Roses jackets! Any extras?... Missed Kid Leo.... Couldn't find Kelly Cluque (KCAL) or Sue Frey (WAOR). Where were you?... Found Jim St. John (Robo the Magic Clown) KTYD.... After the Rock 'N' Bowl, we proceeded to crash Atlantic's exciting party at the Sheraton Universal, where we had fun hanging out with Sky Daniels (KFOG - interesting man), Patty Martin (KSJO), Paul Yeskel, Ronnie Raphael, and everyone's favorite nasty guy, Tommy Nast. He looks so cute without the beard!... We met Robert Tepper (charming), and someone has an interesting fascination with blow-up dolls! You know who you are! Thanks for the great time, Mr Buch!... But back to the phones. John Brannen is gaining momentum. Thanks to all our supporters.... 'Til next party, see ya!

**Cheryl "Jim Morrison is alive and living in Glen Cove, NY - I saw him there" Valentine, Metal Blade, 212-645-6208**

Guess what? Us Metal Blade dudes are going to be keeping you all very busy over the summer. June highlights include an EP from Banshee (a MO band that should become extremely huge - pay special attention to the tracks "I Believe" and "The Stranger" which are mega-metal ballads), a Taramis

Lp (an Australian band who sights one of their influences as Fates Warning), and, of course, the brand spankin' new Dirty Rotten Imbeciles Lp, "4 Of A Kind".... If that's not enough to keep you busy, in July we are releasing a Candlemass 12" (including a couple of Epicus songs sung by Messiah), the new Heretic LP, the new Helstar LP, the soundtrack to Black Roses (with Alex Masi and Co.), an Armored Saint Live EP, and Leige Lord's first single off of their upcoming LP, "Master Control". Keep in mind that all dates are tentative.... Fates Warning and Hallows Eve continue their rampage on the metal echelons of the U.S. of A. Look for Fates and Hallows (separately) to hit Arizona and California in the first week of June and then some. Be sure to catch these shows so that you can rub it in to your friends that you saw this colossal event! They indescribably rule!... You do realize that Fates are currently in the Top 3 of all the metal charts with da big wigs, don't ya? There's one simple reason for this. They're a majorly jammin' band with an intrinsically satisfying classic to their name and it's called "No Exit". I could just cry over how amazing Fates are... Those beer guzzlin' Georgia boys, Hallows Eve, are an experience and a half. If you pass on the chance to see them live and talk to them, then you are passing on an incomparably great time. They're a trip!... Anyhow, particular slaggings go out to Monte who keeps sending me smutty (and rather explicit) FAXs. Honestly, I never knew ya had it in ya, Monte.... Special thanks go out to Chris and Jeff for not printing Caesar's dialogue last week. You spared us all an intolerable amount of agony.... By the way, Steve and I are enjoying our recent bond. We like to stare bug-eyed (like Malcolm McDowell in "A Clockwork Orange") at a TV screen with Morton Downey, Jr. on. The feeling of your eyes being pried apart is a vital part of married existence.... Until next week, don't let your skirt blow up if you have blue undies on and be on the lookout for me and Jessica Harley terrorizing the town and posing as the Dynamic Duo. My cape awaits.

**Peggy Donnelly, Atlantic, 212-484-8127**

I spent a few days in Dallas, Texas this week visiting the coolest station in the world. Thanks Z-Rock for the red carpet (or cahpet as I say it) treatment. Dirty Looks spent three hours on the air with Boobie Bondage. A treat for any red-blooded rocker! (By the way Boobie, the guys send their love.) To Wild Bill Scott and Mad Max Hammer their undying gratitude for being on it from the start with "In Your Face". The Z-Rockers have incredible style.... Love those Sodom T-shirts guys. Dirty Looks played to a hot Dallas crowd; two encores, thank you! These guys are going to be s-o-o-o big! How big? Check it out for yourselves and play this record. Play "Oh Ruby"! Play "Cool From The Wire"! Also check out the video this week on Headbanger's Ball!... Dirty Looks are getting serious play on KNAC, KJJO, KSRS, KISS, WLLZ, KOZZ, WTPA, WEZX, KRZQ, WFYV, and this is just the start.... Testament is obviously getting incredible response from metal radio. The band starts their US tour in July and are really really into doing some interviews.... Right now, I'm on my way to the Frehley's Comet party, which is followed by live performances by King's X and Znowwhite. Am I going to have the best night or what?... Closing note: Wild Bill for President!

**Donna Geisinger, Passport, 818-500-7677**

Congratulations to the "Hard" team and their efforts which placed them second at Saturday Night's Rock 'N' Bowl tournament! I think I can safely say that a good time was had by all and of course, it was for a great cause!... Thanks to Patty Martin for taking time out from her vacation to have lunch with me. I've eaten enough sushi for a month! It was great to meet everyone, including Slats/WHTQ, Jeff Reidell/KKDJ, Charlie Logan/WYNF and to see all my old friends as well. I can't wait for next year!... Eric Steel's next track is featured on the 1st "Hard Hitters" CD now on your desk. Don't miss "Rescue Me". The next "hit" from "Infectious" with a tour to start soon.... Thanks also to John Schoenberger at Relativity for lunch two weeks ago. It was delicious!... Don't forget Leslie West, out on tour the 1st week of July and The Wild Seeds start the Western leg June 5th in Amarillo. See ya!

**Derek Simon, Concrete Marketing, 212-645-1360**

Judas Priest is burning up the airwaves and the phones at hard rock radio with their thirteenth offering, the mighty "Ram It Down". The title track will work for all you thrash mavens while the rest of the album is packed with solid radio tracks for those of you with a tamer approach. "Love Zone" and "Come And Get It" seem to be early favorites. Fill me in on what's working for you.... Fifth Angel are still shaking the airwaves a solid ten weeks after they first came your way. If you're lacking a CD, just give me a buzz. The band is available for IDs and phone interviews, so let me know if you need. Look for "The Fallout Tour '88" coming your way soon.... And at long last, look for the first CD single from the debut album by Britny Fox to be on your desks Friday. "Long Way To Love" is going to set your phones on fire. You'll be impressed by these guys.... Britny Fox has got the poise, the looks and the tunes to make them the hard rock success story of 1988. Come on along for the ride.

**Lisa Paulon, Second Vision, 212-334-9260**

Every time I listen to MUCKY PUP and GOTHIC SLAM I'm completely blown away, and (for once) everyone agrees with me! My deepest gratitude goes out to all the hard rock/metal reporters for the most enjoyable two radio weeks I've had in my Second Vision lifetime, and also to Chris for the excellent review. Killer tracks are Mucky's "Life 4 Def" and "F.U.C.K.", and Gothic's "Killer Instinct".... Caught Znowwhite at the Anthrax. They were incredible, even though the cops made them cut the power after only three songs. Why didn't they play in Chicago when I lived there?... Happy Birthday Scott and Mega. I miss you guys and the Adidas house.... Oh, by the way I'm forming a real women's club. No more of this territorial waters B.S., Garry Shandling should be our antigod and Cheryl Lebeau should be president (because she Really is the loudest woman in rock and roll).... One more thing, watch out for the new Voivod. It is by far the most mesmerizingly unique "metal" record ever made, and the video of "Tribal Convictions" is unbelievable.

**Monte Conner, Roadracer, 212-219-0077**

King Diamond's forthcoming horror masterpiece, THEM, is just one month from your desks. The Lp's release date is set for June 20th. However, you'll all be getting advance tapes and lyrics within the next two weeks. Also, watch those mailboxes for a very special King Diamond postcard. The King was recently in the U.S. on a 7 day promotional road trip which included stops in New York, Dallas, San Antonio and Los Angeles. Though this was mainly a press trip, King managed to squeeze in a few visits to some key local radio dudes including: Mad Max and Boobie (Z Rock), Joe Anthony (KISS), Mark Snider and Donny Kaye (MJI's Metalshop), Ron Stytz and Mark Silver (WCWP), Fingers (WBAB) and Matt "Tell me King, is Grandma hot?" O'Shaunessy (WRTN). I've heard them and let me tell you - it is incredible!!! If you loved "Abigail" then you'll lose your minds over "Them". It is much heavier, with loud, grinding guitars, menacing vocals, spooky effects and a storyline that would excite even the most critical horror movie fanatic. This Lp will captivate and scare the living shit out of you. I'm dead serious. Believe it or not, there are some stations that are still scared of the King. King is just a normal guy. I mean, we went into Roy Rogers and King ordered a strawberry sundae! We went into Tower records and King bought Grand Funk and Carly Simon CDs. We were driving home from WRTN and King actually fell asleep in the back seat. (By the way, that same night we also broke down, - in the South Bronx. Hey, I'm lucky to still be alive!). So, King is just an ordinary dude who likes to put horror stories to vinyl. He is warm, sincere, friendly and extremely likeable and I'm thrilled to be able to step in on his behalf and help spread the word. King Diamond - the soon to be independent metal success story of 1988. Long live the King!

**Ramona Rideout, MJI, 212-245-5010**

The Metalshop machine has the pedal to the metal and has been in overdrive the past few months, premiering new albums by Iron Maiden, Judas Priest, Scorpions and Queensryche.

Next stop -- Monsters of Rock. If you haven't added Metalshop, in the words of Guns N' Roses, "You're Crazy."

**Victor Lentini, Passport, 818-500-7677**

Hey, we're still here so just relax. Those nutty Wild Seeds take to the road again! "Mud, Lies And Shame" lands in Santa Fe, Phoenix, San Diego, Santa Barbara, Eugene, Seattle, Vancouver BC, and many more to follow.... If you have a jazz show and you're not playing the Rippingtons you're crazy. #1 R&R. #2 FMQB, #3 Billboard, I mean c'mon. If you play Tangerine Dream, you certainly can play this excellent CD from Exchange (a personal fave too); stylin' gents from the Great White North, who know how to soothe the mood.... I had a great time at the Rock 'N Bowl. It's the first time I'd seen Sky Daniels since his Chicago days. Sky, what's the deal, are you still growing? Passport is here to stay.... Keep in mind these names in the future: NRG, The Bongos and Perfect Strangers.... Until next time, keep tippin' your garbage collector.

**Michael Schnapp, S.P.V. 516-783-3040**

BOLLOCKS! Yeah, I said BOLLOCKS (not Jim J. Bullock) THE BOLLOCK BROTHERS. The Bollock Brothers brought you the song "Horror Movies". Now it's an entire LP, their first domestic release. Jock (Jimmy Lydon) McDonald's British strangeness is a refreshing Jolt (not cola). The album is getting good initial response and I'm happy! Check out the 12" of "God Created Woman" (Berlin's "Sex", a mutation of) and of course the ever memorable "Harley David" (Son Of A Bitch).... Also in your hands with the BOLLOCKS are THE RAYMEN. A CRAMPS-like band from Germany ripping through 17 songs including a cover of the song IGGY did, "Real Wild Child".... Also check out "Powder And Lipstick". (Poison did, HA!).... Speaking of metal, those metal thrashing Germans, Sodom will be headbanging in the U.S. real soon. Starting June 16, Sodomania will shake up the following areas. Rochester, Long Island and Brooklyn, New York - Essex, MD - Roanoke, VA - Tampa, FL - Tacoma, WA - River Grove, IL - Detroit - Cincinnati - Toronto and more. Let's do some cool promo around the tour. OK! Also remember the rest of the Steamhammer metal, Destruction and Satan (Dumb name, Cool band). Keep 'em going.... P.S. I saw AC/DC and LA Guns last week (again) this time in the fine company of Profiles Chris LaSalle, Polygram's Tim "I Don't Look Like Sting" Hyde and Atlantic's Bruce Reiner. Highlights were Sting uh, ah, Tim trying (unsuccessfully) to bum a beer off of some wasted dudes in the parking lot, and the Bud bottle fight (Nice!) Low point, being harassed by Jersey City cop/stormtrooper, for buyin' Dunkin' Donuts! Remember, "Get your friends, get in your car and GET OUT OF HERE!" Nice!

DAS DAMEN: #17 Rockpool, #24 CMJ, #45 Gavin. "On the first day, God said 'Let there be light.' And on the second, God said, 'Let there be water.' And on the third, he said, 'Let there be rock.' So he invented big amps, big drums, and big hair." -- Lyle Hysen, drummer, Das Damen. "Hey, we all like Alan Alda. We're rock and roll Alan Aldas." -- Alex Totino, guitar, Das Damen.... "We used to be a skiffle band." -- Ph. Amadeus Totenhosen, bass, Das Damen.... "We come up with ideas for TV shows all the time. Like our own Monkees or something. We're talking about doing an EP with half music, half comedy." -- Jim Walters, guitar, Das Damen.... The band: DAS DAMEN. The album: "Triskaidekaphobe". The hit singles: "Reverse Into Tomorrow" and "Spider Birds".

With so many wanna-be-rockers out there now dog-fighting for a slot on the album rockers of America, where is one to turn for the guaranteed correct maneuver? You turn to the proven, the chosen, the elite, I'm not talkin' the U.S. Marines here baby, we're talkin' 'bout Ace Frehley. The impact this individual has made on the rock world in the past 15 years has been tremendous. His future legacy will span decades; case and proof in point: Behold the tremendous style similarities in the new Poison and old Kiss. The artificial reproductions abound, but there is only one original, and you can't fool the kids. The new Frehley's Comet is an automatic in this world of retreats. If a doubt remains, give it a test, let your audience

voice an opinion. The single: "Insane", the album "Second Sighting", the band: Ace Frehley's Comet.... Also, a word for the faithful, King's X were brilliant Sunday in their first arena performance as special guests of Robert Plant. This band WILL be huge.

**John Schoenberger, Relativity, 213-212-0974**

My warmest congratulations to Sheila Dubin on her recent promotion to Uni Records. Sheila, if anyone has paid her dues and learned to go with the flow, it is you. I know that this is the beginning of you finally reaching all the dreams in your life. I say this with love and respect.... P.S. To Bill: Good choice!

**Matt Pollack, Relativity, 718-740-5700**

I'm not real hip on cliches, humorous limericks or clever anecdotes, but I've got to share this analogy with people who've followed or supported the Satriani project. Ya know the story of the little choo choo train? Yea, I know you know where this is heading, but damned if it doesn't apply. Six months ago, Joe Satriani was no less talented than he is today, just far less recognized. In that time, this format has embraced an artist and style that has filled a void left vacant since the likes of Beck and Page. The proof is in the pudding, the format works. It does break artists and certainly sells records. Over 400,000 in this case. Unfortunately, we are constantly inundated with a barrage of the hottest, new and upcoming. We've got a couple; we'd love to see them happen, but it's not always going to amount to that. Not everything has a platinum soul and will tear down a stadium filled with rampid and sweaty teens; otherwise, my job would be nebulous or I'd own the Bermuda Islands. Truth of the matter is I'm the first to scream, but I can speak for everyone when I say this is the only format I'd consider dying for. Enough of that.... Joe Satriani's latest is an upper demo pleaser. It's as moody as it is melodic and can cross the morning drive barrier. "Always" will be on your desks shortly. He's on the road, due Southwest. Ya wanna do a phoner, ya wanna do a giveaway, ya wanna see my ugly mug, buzz me the details and know to do so by avoiding the later option.... Finally, I'd like to take this opportunity on welcoming Mark Dyba aboard as our new Midwest regional promotions guy. I snatched Mark up from radio down in Shreveport, LA (KTAL), alias Brian Miller. Mark's personal demeanor and savvy are a welcome delight and a fine example of the expanding strength of this label. Mark's voice will be easily distinguishable around MD watering holes inasmuch as it is approximately 20 octaves lower than the pubescent cries of the average promotion person.

**Megadon, Combat, 718-740-5700**

The buzz on Impellitteri is immense, and if all goes well, I should be mailing the Lp out around the time you read this. "Since You've Been Gone" is the obvious choice, and it's much more raging than the original. Don't stop there, though. Lend an ear to "Tonight I Fly". This song returns me to the days of my youth (and death metal had not yet been invented). Brilliant chorus, it sends shivers up my spine and Graham Bennet's never sounded better.... Dust off that Virus album and give it another shot -- seems there's a US tour in the works. Pay special attention to the title track and "No Return". For a special shot of joy, check out the "hidden" bonus track at the end of side two. You'll die when you figure out what it is.... In case anyone's interested "Three Stooges In a Hyundai Amusement Park Wooden Roller Coaster Weekend Tour 1988" began last weekend at Ry Playland and Coney Island Astroland. Future stops this summer include Great Adventure, Kennywood Park (with the #2 rated coaster in the world), Kings Dominion (see you June 10th weekend, Dewey), Le Rone (Montreal, it's got the scariest looking wooden job I've ever seen anywhere), and hopefully Disney World. Hope to join a lot of you people when I'm in the area. Later.

**Penny Barnes, Rhino, 213-453-1089**

Once again, welcome to the wild and wacky world of Rhino Records. On this trip, we'll be exploring the new and exciting realms of commercial rock radio. Creative programming. What a concept. Exciting morning shows. Oh yes! And you, too, can discover exactly what it takes to become a promotional madman like our own Dave Darus. So grab grandma and the kiddies and hop aboard. Here we

go-o-o-o-o-o!... When it comes to newly innovative, and progressive music we here at Rhino feel that we've had ears for years. Who else would be responsible for releasing artists like the International Submarine Band and Sam Sham and The Pharaohs? Keeping in this tradition, we gladly introduce you to "Golden Throats" and "Attack Of The Killer Bimbos". Both Lps will equally challenge (or ruin) the ear and stimulate the mind. Great stuff to update and freshen your morning approach.... Additionally in your hands week, we have reservised rock radio with Only Child's "I Believe In You" on CD! Yeh! This band is growing bigger and stronger each week and we really must say a big thanks to those of you who have been willing to show some vision early on. For those of you who haven't yet heard, then you are missing a song that really, really will perform if given a chance. These guys are good! Shall I try even great? Go back for that second listen.... It is currently working at great stations like WYNF, WBAB, WLLZ, KDKB, etc. Call the neighbors, cuz this is one Child that won't be Only or Lonely for very long. Please call me if you don't have any of the aforementioned, and I will get them right out to you. As for learning how to be like Dave Darus.... Well, I guess that's going to have to wait until next week when I have more room, but here's a tip. Always, always, stand on your desk when announcing an add (it's much more effective) and ring that bell, baby! Have a great week!

**Sean Coakley, Arista, 212-830-2178**

Once again, a big thank you to Jon Scott for bringing so many of us together for such a noble cause. The softball was killer. Oedipus could start at second for the Red Sox. And nothing could give us more pleasure than annihilating a classic rock station, 17-6. Live in the past and come in second. Anyway, Jon, you're a saint.

**Pam Newman, Enigma, 213-640-6869**

Karen Anderson called it "the hook that will shake you senseless." Dave Kane called it "the hook that won't quit." And unless your name is Rip Van Winkle, you probably know what they're talking about. Hurricane's "I'm On To You" hooks in another 17 stations this week as dayparts open up for those already on. New this week, singing "Na na na Na na na" are KBPI, WEGR, WLLZ, WRXK, WHEB, KWHL, KMOD, KWLN, KWIC, WFYV, KATP and WQMF! Sales will be pushing 100,000 by the time you light your Memorial Day BBQ charcoal!... By now you've heard it on the 6:00 and 11:00 news. Rumors are causing commotion throughout the country -stories of tape recordings and legal documents. They're saying that ELVIS IS ALIVE!!! Could it be? Why, yes - it's VELVET ELVIS, of course! Winning the heart and airplay of WLVQ this week, "Over And Out" is on WXRT, WKQQ, WLAV, WZEW, WLLZ, KTYD, WWWV and WHFS. Don't just touch it, play it!... There is no band making music today that deserves to be played on rock radio more than the Del Lords. Announcing the second phenomenal radio offering from the Del Lords, "A Lover's Prayer," from the album, "Based On A True Story." This is the perfect summertime song if ever there was one.... Mark the date May 24, 1988 down on your calendar. It was the night Melissa Etheridge stormed the Roxy. It will be a date you'll probably be needing to remember.

**Kenny Puvogel, Warner Bros., 818-953-3723**

Van Halen's "OU812"! What a fantastic week at rock radio! We will have a fantastic week at retail also. Get ready, "Monsters Of Rock" starts May 27th, and the tour is on its way to your city or near your city soon! If anybody from CHR radio is reading, please take note that the requests for "Black & Blue" are out of control! Last week the national promotion staff had the privilege to see Van Halen's last rehearsal before the "Monsters Of Rock" tour kick off. All I can say is get ready for one hell of a show. The new material from "OU812" sounds phenomenal. A big, big thank you to Ed Leffler.... Rod Stewart's "Lost In You" and "Dynamite" both had phenomenal weeks at rock radio. Rod is back and he's rockin', and I know everyone of you agree that he made a great album!... Records that need your tender loving care and ears this week are as follows: "Lookin' Out For Number 1" from Honeymoon Suite, (CD pro is now on your desk); "Blind" from the Talking Heads (sales are over 750,000); "Skyscraper" from David Lee Roth (still on tour and knocking 'em dead); "Glory, Glory!" from

Underworld (tour starts this week); Chiefs Of Relief "Freedom To Rock" (checkout the video, thank you KROQ); and a new record we shipped this week from Longhouse "She Don't Wanna Go Home Tonight".... We will be shipping to you next week, "I Want To Go To The Moon" from John Illsley, (bassist from Dire Straits).... Thanks to all of you for another great week at rock radio!

**Jeff "Alley Cat" Cook, Elektra, 212-484-7955**

Greetings Radio Rockers! I've just returned from L.A. and Jon Scott's Bowling extravaganza where the hip & elite meet to humiliate themselves in front of all their peers and I must admit I did. I bowl like a girl on ludes. But enough of that.... Let's talk about some great records! Tracy Chapman's "Fast Car" is PURRING nicely up the charts and sales have exploded. (We're now over 300,000 in five weeks!) All you have to do is look at the power and heavy rotations on the record and you'll have to agree, we've got a very successful record here.... The Georgia Satellites' "Open All Night" by this time should be all over your radio station with the great follow up to their #1 platinum selling debut Lp. Nobody rocks you like these CATS and their album is gonna SCRATCH its way right up the charts.... "Like The Weather" by the 10,000 Maniacs has been on some stations for 15 weeks and on the other hand, some are just adding it. This album has now sold 400,000 units and is selling at FEVER pitch. If you are considering it, I say POUNCE on it!... Raymond May's "Romantic Guy" is looking like it's gonna rock its way right on to the radio. This TOM CAT can do it!... What does Z-Rock know about Smashed Gladys' "Lick It Into Shape" that you don't? They know Smashed Gladys works! They're five cuts deep and "Lick It Into Shape" is one of the best tongue-in-cheek tracks out there and Sally is one hot KITTEN! So don't delay, shove it in!... Watch out for The Sugarcubes "Birthday". It will be selling in your market before you know it. The buzz on this band is huge and those who are on top of it know this record will be flying out of the stores.... Flotsam & Jetsam. Can you say monster? Can you say mega? Can you say Flotsam & Jetsam? You will. This music will stand your WHISKERS on end!

**Liz Brooks, Relativity, 718-740-5700**

"Flow Of My Tears" by Stuart Hamm! The CD single edit is on your desk now. More than Joe Satriani's bass player, if you've caught Stu baby doing his stuff you know that this is a talent not to be overlooked. If you lean to a fusion format, "adult" AOR or even a "Wave"ster, I hope you are already on the "Radio Free Albemuth" LP. And if you haven't seen the edit yet, well, you can call.... With The Dancing Hoods making a killing at the top of the alternative scene, it is time for you to give another listen to "Rockets" and "Torn Away". This is a quality album of straight-up fresh rock. Something everyone, their sister, and their programming philosophy can relate to.... According to my Swatch, it's also almost time for Biff Bang Pow!

**Graham "The Smarmy Penguin" Hatch, Frontier, 609-799-7597**

It's obvious you know a good thang when you hear it, The Young Fresh Fellows are quickly finding a home at stations everywhere. You can find the Fellows getting ready for a long stay at WRAS, WHFS, WMDK, KJET, KCMU, WHTG, KJQN, KUSF (heavy), KABL, WWVU (heavy), WFIT and a whole lot more. Let's make these guys a household name-or at the very least a name at cool households. Everything's gonna turn out great with the first emphasis off a very deep record chock full of clever and witty pundits like "Universal Trendsetter" and "Don't Look At My Face You Might See What I Mean". The Young Fresh Fellows are pinpoint accurate songwriters and "Totally Lost" is fresh contagious listening. So give 'em a few spins and you'll be able to deal with in-laws, roommates and traffic cops with a smile, trust me. Expect and you shall receive lots of support for this record, including a national tour in June, station IDs to you this week and the very hot "Totally Lost" Survival Kit. Don't leave home without it. Be on the lookout for the next Frontier/Gallup Poll when this time we ask record people for their favorite derogatory description of Music Directors.

# Aslan

## **"LOVING ME LATELY"**

**THE LEAD TRACK AND VIDEO FROM THE FORTHCOMING DEBUT ALBUM  
FEEL NO SHAME  
FROM ASLAN, THE PREMIER IRISH BAND OF 1988.**

"Imagine a band with the guitar-driven power of REM, the songwriting strength of U2 and the raw physical appeal of an early Rolling Stones. That goes some way to describe **ASLAN**, Dublin's hottest new musical property."

**NEW MUSICAL EXPRESS**
