GREATEST HITS

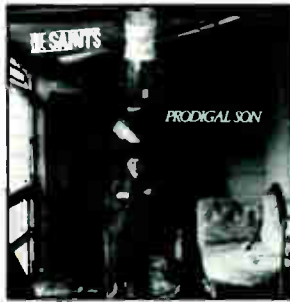

Warner Bros

FLEETWOOD MAC

"GREATEST HITS"

With more than one third of this week's 72 outta the box stations starting the new lineup in heavy rotation, you'd better believe the Mac factor will figure big into the holidays.

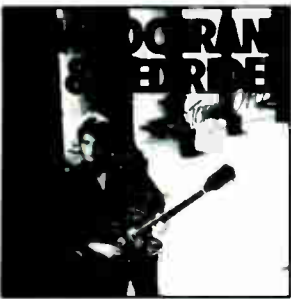

TVT

THE SAINTS

"GRAIN OF SAND"

They were one of last year's brightest spots on the independent release scene, and our pre-release radar tells us that you folks are finally ready to put them on the map for good.

RCA

TOM COCHRANE

"CALLING AMERICA"

As well as "Big League" continues to perform, we say it's just the appetizer for a main course that's destined to have Mr. Cochrane bringing home the bacon he so richly deserves.

RECORD OF THE WEEK

#4 Most Requested Hallelujah! 17-9* on this week's Hard Hundred!!

Thank You Radio For
Your Continued Commitment!!

November 18, 1988

Fleetwood Mac, "Greatest Hits", Warner Brothers.... "As Long As You Follow" gets this holiday present from Warner Bros. off to a rousing start. Christine McVie's latest edition of state of the art languidity lands this week's highest 35* debut--definitely a surprisingly strong rock radio start. WNEW is already reporting top 5 phones, and quite a few of the 73 first week stations will be sharing a similar experience in the months ahead. Other reporters coming in out of the box include, KBCO, WMMR, KGGO, KSHE, WBCN, WGIR, WLLZ, DC101, WZZO and KATT where Ron O'Brian predicts, "Fleetwood Mac--incredible--a number 1 without a doubt and I'm anxious to hear the other new track as well"....More than 1/3 added "Follow" right in the Heavy or higher category, and we look for a long shelf life--further fired up by a new Nicks tune, "No Questions Asked". As for the track list to follow? It includes "Rhiannon", "Don't Stop", "Go Your Own Way", "Hold Me", "Everywhere", "Gypsy", "Dreams", "Say You Love Me", "Tusk", "Little Lies" and "Sara". Bonus tracks on the CD and Cassette only are "You Make Lovin' Fun", "Big Love" and "Over My Head".

The Saints, "Grain Of Sand", TVT.... They set the groundwork with last year's "All Fools Day" album, injecting a much needed breath of fresh air into many of the format's respective playlists. "Just Like Fire Would" and "Temple Of The Lord", (an MTV Hip Clip Of The Week), showed tremendous musical growth in these seminal Australian innovators. It seems like only yesterday we were hearing their now classic 1976 recording of "I'm Stranded" for the first time. The years have softened their approach somewhat, but at the same time sharpened Chris Bailey's always mighty pen. "Grain Of Sand" offers a musical theme we know will connect with any working man or woman--and you just know this man is writing from memory and not imagination. . Musically speaking, the acoustic guitar intro quickly kicks into the Saints trademark down home backbeat, with ringing six strings and Garth Hudson-like organ right on target. This band has long deserved a serious chunk of your airtime, and based on the pre-release buzz all through the Northeast Corridor, this excellent effort should lift-off impressively over the next several weeks.

NEW PLAY PRIORITIES

Winger, "Seventeen", Atlantic.... The old saying goes, "Seventeen will get you twenty!". This particular "Seventeen" will not result in any legal action, but we'll lay odds it will keep those phone lines doing double duty overtime. Now that Winger has scratched and clawed their mark on close to a hundred stations with the dramatic "Madalaine", now is the time to go deep and bring this act home. Already on, KAZY, KBPI and WCKO. With new adds at KKDJ, KLAQ, KNCN, KRQU, WGIR and WXRC. This is a major "riff-o-rama" with the unrelenting drumming of former Dreg Rod Morgenstern setting a new plateau in hard rock percussion possibilities. By now you're aware of Kip's "Babe-O Rama" domination, but beware this band has a lot more going for them than a pretty face out front. Solid musicianship and a production tailor made for the airwaves will put these boys in arenas before long. Why not buy your ticket now? After all, Winger has gotten to where they are the old fashioned way.....

The Escape Club, "Shake Fo The Sheik", Atlantic.... The runaway crossover success of "Wild Wild West" has placed The Escape Club on a sure path to a solid gold payoff. A CHR monster that got its start from the AOR ranks, this second track should follow directly in those illustrious footsteps. "Shake For The Sheik" is every bit the reaction record that put the first track at the top of so many request charts and this remix was custom made to accent the guitar, and starts off with a very Steve Stevens-like riff. The Escape Club are one of the few bands who can make guitar oriented rock that is at once danceable and listenable. We recommend jumping right on "Sheik" before the competition beats you to it. Already on, WTPA, WBRU (Heavy!) and WEQX (Top 5 phones!).

Tom Cochrane, "Calling America", RCA.... It's not very often that we break format and make a second track a full fledged Frontrunner. However, this is no ordinary "second track". "Calling America" has been, without a doubt, this office's favorite right from the beginning. The dynamic acoustic/electric guitar interplay and pounding syncopation has resulted in many a deadline night air guitar freak out. Hopefully Trapp has the negatives in a safe place. We could pull out every cliché in the book to describe our belief in the hit potential of this song, and the beautiful thing is, they would all really apply. Sticking to the facts, "Big League" logged time at over 150 stations and was a Top Ten AOR track. With sales approaching the 100,000 mark, it's safe to say the proper foundation is in place. Tom will be undertaking an extensive acoustic live performance visit to many stations by the time you read this. Our advice is to place a call to your pals at RCA, and make sure you're on the list--cause before long, all of America will be calling for tix.

**Record Of The Week
Aerosmith, "Chip Away The Stone", Columbia....** Consider this the audio equivalent of a trip through Aerosmith's Hard Rock Cafe catalog, as Steven and the boys serve up this week's Most Added platter. 77 customers line up for a first week helping including, KDJK, KEZE, KEZO, KGON, KJJO, KKDJ, KLBK, KLLO, KLOS, KOMA, KRXQ, KSJO, WAAF, WAOR, WAVF, WCCC, WDIZ, WDVE, WIOT, WMMR, WNEW, WRIF, WRKI and WZZO. The Second Highest debut on the Hard Hundred, at 38* solidifies the validity of this diamond from the "Gems" collection. WMMR's Erin Riley expounds, "I'm a huge Aerosmith fan and 'Chip Away The Stone' is in the vein of their best stuff".... WIMZ's Mike Stewart relays this remark, "The Aerosmith track has been doing real well for us. We slipped it on over the weekend and the phones are already nuts".... With new studio material a couple of miles down the road, it would be foolish not to drop this Jack Douglas produced chunk of rock and roll history into your current rotational pie. Look for "Stone" to be resting near the top of next week's Increase Index pile. Count on it.

Eddie Money, "The Love In Your Eyes", Columbia.... Even though "Walk On Water" reached a peak of #2 on the Hard Hundred, there's no denying that 1986's "Take Me Home Tonight" was Eddie's biggest moneymaker in recent history. "The Love In Your Eyes" is a sax propelled gem that we know has this album's best shot at matching the success of that Platinum plus classic--after all, it is the ultimate two-fer seg. Meanwhile, many of you have already jumped out on "Forget About Love" as the follow-up, as KKZX's Christina Gorton says, "Eddie Money is hot, this guitar work is really smoking. 'Forget About Love' is an extension of his first single and why not, it's a hit oriented album, how nice".... Nice indeed! New at KAZY, KEZO, KISS, KKZX and a couple more. All together 21 stations are on "Forget" and we show a HH debut of 93*. Whether you want to rock a little harder with "Eyes" or counter CHR quickly with "Forget About Love", there's more than enough meat here to keep Eddie mondo high profile well into '89.

Rod Stewart, "My Heart Can't Tell Me No", Warner Bros.... Rodney's latest album is right at the brink of Platinum performance, with sales a whisker under the Million mark. He's shown that he can still roam the boards with the best of them, and considering he's been on tour since July 1, has more stamina than many of the youngsters on the scene today. Rod is riding an airplay crest the likes of which he hasn't seen since the "Tonight's The Night" golden era. Already on KSQY, KATS, WLAV and KZEL where Al "Nod's As Good As A Wink" Scott says, "This guy continues to amaze me. His vocal work is reassuring and familiar. The audience is in his corner 100%." The radio romp is getting pretty bouncy on this track and you's better strap yourself in for another long high speed chase on the Hard Hit Highway.

WARNER BROS.

Living Colour, "Cult Of Personality", Epic.... By now we know you're asking yourself how many times you've seen this song on our front page. Would you believe it's the fourth time we've gone to bat for the track? Now, with four more report periods left this year, the project is finally moving into high gear. Obviously their tour has been a significant factor, winning friends and influencing programmers from coast to coast--and where the airplay has happened, so have the phones. Now, MTV has kicked in with one of the final quarter's strongest videos--and so has the retail. As big time believers since week one, we're thrilled to report a 30,000 five day--and 150K sales to date. From just about any perspective we can think of, this band is primed for serious success. Ponder adds this week at KXRX, KISW, WCMF, and KOME---and realize there's still all kinds of time to get in on a rollercoaster that's just now topping the rise.

HARD ACTS TO FOLLOW

Jimmy Davis, "Catch My Heart", Chrysalis.... Judging from the radio response, it seems that the Chrysalis contingent has found the vinyl equivalent of a cure for cancer by picking up the ball on this overlooked 1987 release. Witness **WIOT's Jim Steel**, "I was having one of those typical shitty days when nothing goes right. That was until I found out that Chrysalis had picked up the Jimmy Davis and Junction project. I always felt this one was one of the most overlooked Lps from last year".... He's not alone. Let's check in with **KMJX's David A. Ross**, "Give this deserving re-release another listen. This is a very good album that got lost in traffic, and Jimmy is one of the nicest guys we've ever had the pleasure of working with".... For a female perspective here's **WEGR's Kelly Cruise**, "These Hometown rockers have a definite mass appeal item here, and 'Catch My Heart' should catch yours too"....

A House, "Call Me Blue", Sire/Reprise.... This latest import from Ireland has gained a stronghold on the Alternative airwaves with steady action reported from 91X, WDRE, WFNX, WFIT and **WRCN** where **John Loscalzo** suggests, "Move right in to A House, it combines the intensity of early Echo and the Bunnymen and expands on their vision. Give this band a couple of years and Phil "I Look Like E.T." Joanou will be following them around with his Brownie!".... New at 7 including tastemakers, **KROQ**, **WHFS**, **WBRU** and **WXRT** where **Lin Brehmer** explains, "It's upbeat, it's catchy, it's modern, it rocks and you gotta love the way it clocks in at a breezy 2:11. Irish and Scottish bands seem to be taking over the world".... The vocal jumps out of the speakers, and although you may not get it on the first listen, we urge you to take the time to discover the next crossover story. Look for the Hard Hundred debut next week.

The Toll, "Jonathan Toledo", Geffen.... We realize you might be anticipating that as of yet unplanned edit--but lend an ear to **KLOL's David Sadof**, "It was one of the more interesting records I listened to this week. I was a little surprised that a band would release a 10 minute epic as the initial track from a forthcoming album, but at the same time I can respect a band that feels confident enough to make that decision. The song is well structured and does a good job of holding your attention, especially five minutes into it when the vocalist tells the story about the Indians and the museum in a story telling style that is reminiscent of what Jim Morrison used to do. By the way, wasn't "The End" on the Doors debut album? A powerful song and a strong nighttime record".... Nighttime is the right time to expose this exciting new band. Longtime fan **WLVQ's Wendy Steele** chips in, "'Jonathan Toledo' by hometown and Geffen recording artist The Toll, officially goes into heavy this week. This band is unique--very unformulated and cool. They dress normally and play straight ahead rock and roll, full of meaningful lyrics".

Sheriff, "When I'm With You", Capitol.... This is the same song that was a major regional hit in Minneapolis about six years ago, one we understand even gets played at the occasional wedding up there. You may ask yourself, how come it took so long to break nationally and why now? Well it seems that those same Midwest programmers who heard it on the first go round, have spread their wings in other markets and they haven't forgotten the magic this call out monster worked for them in the past. Thanks to mega taste barometers **KIIS** and **KZZP**, it looks like the rest of the country is about to get their playlists arrested by Sheriff. As soon as you drop the needle, you'll recognize the immense CHR potential of this track. All we can say is to get on it now before they pound it to death. It's a power ballad of the first order, and a female killer of equal rank. The band that recorded this so many years ago has splintered into other things, most notably **Frozen Ghost**. **Capitol** is just hitting the steets with the CD at a Mid Line price, talk about timing---eh?

Waterboys, "Fisherman's Blues", Chrysalis.... The long awaited follow-up to "This Is The Sea" has been met with open ears everywhere, with the title track new at 99*. **WIZN's Tom Van Sant**, "Ah, the fluid folky sophisticated, hip, inspired and inspirational sound. 'Fisherman's Blues' is just the tip of a heck of an iceberg of an album".... New at 21 including, **CHEZ**, **KACV**, **KROQ**, **WBCN**, **WEQX**, **WFNX**, **WHFS**, **WNEW**, **WRCN** and **WVVV**. As for the rest, **Pam Brooks** phoned in this remark from **WPDH**, "My spine tingled and my heart pounded as the laser hit the first wonderful note of 'Fisherman's Blues'. The whole project is stunning".... We know what you mean, Pam. We recommend, "We Will Not Be Lovers", "When Will We Be Married" and what has turned out to be everyone's choice for the second single--"World Party". **Lin Brehmer** at **WXRT** says of "World Party", "It could be one of the best songs ever written". **KISW's Mike Jones** adds, "Having been a Waterboys fan since long before Mike Scott doffed his shades. I must tell you it's a sheer pleasure to go out of the box on 'World Party', a song destined to win over our audience with its unbridled originality".... Other stations going OTB on this track include, **KBCO**, **KLLOL**, **KTYD** and **WBRU**. This is an LP that will be remembered for years to come, simply put--a masterpiece.

10 WATERBOYS	"Fisherman's Blues"	17		3	9	5

Crosby, Stills, Nash & Young, "American Dream", Atlantic.... The title track continues to build with a 5-4* move on the Hard Hundred, fueled largely by a #3 showing on the Increase Index, with 37 stations upping play. 26 log in Top 5 phones, making "American Dream" our 5th Most Requested. Five more adds (KAZY, KBPI, KDKB, KGB and KOAS) basically closes out play--for a 171 station base. The big news is the depth charge, as no fewer than three album tracks make their Hard Hundred debut; "Got It Made"---3rd Most Added (39) debuts at 51*, "That Girl"---tied for 5th Most Added (28) debuts at 64* and "Nighttime For Generals"---tied for 5th Most Added (28) debuts at 73*. It's easy to see how the album enters at #2, with 70% of the point total of the mighty U2. The raves from radio have been many and heartfelt; here's a sample.... **WGIR's Karen A. Small**, "When we marked off tracks that we'd like to put on the air, we came up with just about everything on the album. It's that strong".... **KBCO's Doug Clifton**, "We're seeing number 1 phones already and I'm sure early retail will be just as impressive".... **WKFM's Brian Illes**, "Well, there are 14 songs on the CSNY album and at least ten of them could go on the air right away"....

Sam Kinison, "Wild Thing", Warner Bros.... Sammy shatters the century station mark with 30 new believers, making "Wild Thing" the fourth Most Added this week. New at KEZO, KOME, KQRS, KSHE, KZEW, WBLM, WDVE, WIZN, WLLZ, WPLR, WSHE and WZXL. Increased at KGB, KPEZ, KRIX, KTXQ, WBCN, WGIR, WLWQ and another seven. Big phones are why, with the send up accelerating to #2 Most Requested, with 30 reporters listing Top 5 calls. Ask **KISW's Mike Jones**, "Sam Kinison's 'Wild Thing' continues to dominate the phones, to the tune of a three to one margin over number two".... Or **WNPQ's Eric St. John**, "Sam Kinison has given us the perfect wake up call, in fact wake up jolt may be more appropriate. MTV has helped the success of this record, the video is a regular 'Who's who' of rock and rollers, and let's not forget the Jessica Hahn 'sleaze factor' appeal. Already top 5 phones here".... Moves 38-30* on the Hard Hundred.

Joe Satriani, "The Crush Of Love", Relativity.... In picking a tempo midway between "Satch Boogie" and "Always With Me..." Joe has gotten out of the blocks faster than ever before. Where we once heard, "It's too hard" or "It's too mellow", we're now hearing "Juuuuust right!" from our radio friends. **KISW, WLUP, KZEW, WRFX, KICT** and **WAAF** pace 20 newcomers and take the station count to 116 in just three weeks. Joe's pyrotechnics are on display in power/heavy at **KLOS, KILO, WIOT, KOME, KGB, WHCN, KGON, WXLP, KZAP** and ten others, with top phone reports in from a dozen more. A Hard Report hidden microphone caught **WMAD's Paul Marszalek** confessing his past transgressions, "When Satriani's first album came out I refused to add it. I was wrong. I was wrong. I was wrong. Matt and Mark at Relativity have permission to spank my white ass until I whimper".... (No thanks, Paul) Or as Marrone would say, "Whatever floats your boat, cowboy".... Instrumental doubters, save yourself from the fury of future flagellation, add Joe Satriani today and avoid alliteration tomorrow.

Dreams So Real, "Rough Night In Jericho", Arista.... You've got to hand it to the boys and girls at Arista for bringing to light yet another deserving new artist for the format. Dreams So Real racks up some impressive adds this week, with **KBPI, KJJO, KOME, KOZZ, KQWB, KTYD, WAAF, WAOR, WAPL, WIZN, WONE** and **WWWV** listed among the 17 newcomers. **WNPQ** also joined in, and here's **Eric St. John** explaining why, "First of all, I'd like to call your attention to a song that is rapidly becoming one of my favorites. 'Rough Night In Jericho' combines elements of the Smithereens and a fine use of pure pop harmonies to come up with a great tune".... **KBPI's Chris Poole** chimes in, "This is a great sound from a band with real potential for the format".... "Rough..." Moves 43-39* on the Hard Hundred, and look for the station base to crack the hundred mark in the next week. Also look for a special Christmas tune called "Red Lights (Merry Christmas)" to be released within the month. It's very Beatlesque and will be a promo only CD Christmas card to radio.

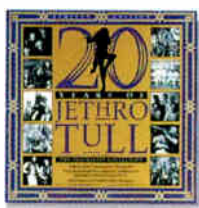

The Pursuit Of Happiness, "I'm An Adult Now", Chrysalis.... With recent major releases from the likes of U2, R.E.M. and CSNY we find it interesting that this is the one song that most of you really look forward to playing on the air each day. Not since Timbuk 3 gave us "The Future's So Bright..." has AOR had a tune which so humorously led us (and our listeners) into self examination. 125 stations are on board after adds at **KQRS, WEGR, KGON, KZEW, WWRX, WKDF, WFYV, KMBY** and 18 others. Let's go to the highlight films--first up is **WWRX's Rob Wagman**, "The market reaction on TPOH has predicated our adding it this week. It shows up with impressive phones right off the bat".... Now to **Mike Gardner** at **KOAS**, "TPOH sounds great--a mixture of many good sound styles which makes them unique".... Finally **Pam "I can relate" Brooks** at **WPDH**, "Thanks to this lighthearted romp from TPOH, I feel I have a better handle on the scariness of adulthood".... Most requested at **KYYS, KTXQ, KLBJ, KBPI** and several more, this cut defines the term "reaction record" while avoiding the stigma of a "novelty song". Growing up the Hard Hundred 34-24*.

Starship, "Wild Again", Elektra.... The "Cocktail" Soundtrack has gone beyond praise as one of the best soundtracks of 1988. It now stands to be remembered as one of the best soundtracks of the decade--especially as it concerns rock radio. The Starship has surpassed mere categorization as an AOR act. Simply put, this band remains front and center in the minds of a huge cross-section of your listeners. "Wild Again" debuts at 96* on the Hard Hundred after posting new play at **WCMF, WXRC, WAOR, KDJK, WTPA** and 11 others. **WNPQ's Eric St. John** knows where his bread is buttered, "Speaking of great additions to the playlist, 'Wild Again' is yet another stunner from 'Cocktail'. This one will have the ladies in your core reaching for the phones after just one spin".... Reinforce your roots by slipping into something a little more familiar and comfortable--in that regard, the Starship is the act for instant recognition.

distinctly

Chrysalis

Presenting remarkable recordings by artists of uncommon merit whose singular achievements position them in the forefront of contemporary culture. Huey Lewis and the News is the heart of rock and roll and truly Chrysalis. Jethro Tull's latest is a stunning tribute to their 20 years as a major force in modern music. With her newest release, Pat Benatar secures her company's uncompromising rock diva. From Ireland, Sinéad O'Connor's intense compelling presence in American music. The future of soul is Was (Not Was) whose dramatic live persona makes these wacked-out funksters true inheritors of Motor City traditions. Our constant pursuit of excellence has brought us The Pursuit of Happiness, Toronto's hottest band. Cult favorites, the Waterboys, is another alliance which is quintessentially Chrysalis. Jellybean Benitez, whose street beat has made him producer/mixer to the superstars, is now a chart-topping artist on his own. Ensuring future performance are releases by avant-gardist Adele Bertei, blueblood song stylist Tyka Nelson, London soul singer Tony Stone, Memphis rocker Jimmy Davis, and the pride of Scotland, Runrig. There you have it. incontrovertible proof that, at Chrysalis...

The Artists Make The Difference

Keith Richards, "You Don't Move Me", Virgin.... The second track from his excellent rockin' long player is new at CFOX, KOME, KOZZ, KQWB, WAVF, WCCC, WDIZ, WPDH, WPLR, WRKI and about a dozen more, Keith jumps 58-48* on the Hard Hundred. The tour is generating the kind of fever pitch excitement you would expect when a Stone hits the road alone. It's bound to be an event of seismic proportions since he's bringing the same band he recorded with out on the road. The dates are limited, but with every major market covered, you'd be foolish not to jump all over this tune to welcome him to your area. Steady on KEZE, KILO, KLBj, KLOL, KLOS, KRQR, KXRX, WAAF, WAPL, WEQX, WEZX, WGIR, WLLZ, WLVQ, WONE, WPYX, WRFx and many more who can make use of the essential truth, "It's Only Rock And Roll" and your audience likes it.

MORE HARD ACTS

KISS, "Let's Put The X In Sex", Mercury....

It is, after all, the holiday season and what better way to warm up those intimate nights at home than with a little steam generation? No doubt about it, these guys have reached back for that special message that has guys like Dave Heyman at KRIX time tripping, "I am forced to make a very emotional confession. I was a teenage KISS fanatic. I learned every lyric and lick on their first ten albums, so this is not just an add, it's my adolescence relived." Aside from KRIX... KBPI, KJJO, KQRS, WDVE, WFBQ and KDJK have all joined up and their airplay joins KISS, WNEW, WHCN, WPLR, WCCC, KSJO and WLLZ among 35 reporters leading that 68-63* drive on the Hundred. "It's All American and a rockin' song in addition to that", according to Chris Poole over at KBPI and all we need is a little mistletoe for a real party.

Quiet Riot, "Stay With Me Tonight", Pasha....

Nothing like a little time off to give a band some added punch, especially given the hammering these guys took in the public arena. Now the pieces are back in place and the fit is damn near hermetic. All the warp drive energy is there in super abundance and the urge to please is firmly stated in both their choice of content and the form used. Ups in rotation at KISS and WPLR indicate some ceiling pressure that gets a little goose from KLAQ, WZZQ, KRQU, WRIF, WFBQ and WHJY this week. A 89-72* move on the HH sees continued Heavy usage at KNAC, KZOQ, WAOR and WPLR with steady play reported on KAZY, WAPL, WLAV, KZAM, WLZR, KILO, WLLZ and KLOS as well. Looks like another case of the fox in the chicken coop from all angles.

Dare, "Abandon", A&M....

This nimble piece of user friendly rock has been getting some instant attention with almost 30 reporters finding it a good source of stamina for their iron poor playlists. KBPI, KLAQ, KOAS and KJOT among others get in line this week with supporting play from KBER, WHJY, WLLZ, KZOQ, KEZO, KMOD, WLZR and WKLS. Nothing in this song leaves any bad aftertaste, the approach is clean and noticeably free of any extremes that might otherwise taint the experience. Good, straight and true rock and roll that has obviously been made to merge with your core like an XJ with an appetite. Dare gets up to an 85-81* pace this week and we sense some key rotational ups by this time next sheet.

Alice Cooper, "I Got A Line On You", Epic.... The opening gun saw this record notch some quick reaction that was wholly in line with AC's superstar status. "A creditable remake of a classic album track", so sez Marty Meyers at KKTx, "and when's the last time you heard Alice working out with some back-up harmony?" Reporters that agree add up to 34 so far and they include WEZX, WZZO, WFYV, WRQK, WLAV, WBCN, WLLZ, KZAP, WNEW and KMOD, representing a solid contingent of stations that know when they have been handed a prize piece of vinyl. Angling for the top half of the chart, Alice gets up and rolling with a 68-63* run on the Hundred.

ALBUM PLAY PRIORITIES

.38 Special, "Little Sheba", A&M....

One of the best performing songs this week, "Little Sheba" wrestles 17 more stations while boosting rotation at 9 others. At WIMZ, Mike Stewart remarks, "If I know my market, this .38 Special song has got to be the best add this week. This will wind up in power rotation before long and is another indication that these guys are back".... Also quick to praise Donnie Van Zant and Co. is Marty Meyers of KKTx who notes, "We are doing double duty with .38 Special but who can blame us, the band is perfect for us right now. The time off was obviously well spent".... Brand new at KGON, KZRR, WRDU, WONE, KISS, KEZO and KNCN. Already a most requested item at WKLS and in heavy/power at KILO, WYNF, KOME, WCMF, KQRS, WLAV, KPEZ, KSJO and a dozen others. This is just one more example of how fun and rock and roll go hand in hand.

Phil Collins, "Two Hearts", Atlantic....

And now for something completely different. Phil has been pounding the pavement to drum up more action for both his album and the film from which this song is chosen and the results are there for all to see. "It's a sleeper", says WHTF's Dave Powers and that may well be, but the chart movement is wide awake and hollering at a 79-56* clip. KGGG, WYBB, KRQR, WPDH, WMMR and WNEW have all been on this one from the get go and track that support from KRZQ, WPYX, WKQQ and WWCT among others for a healthy growth curve. Meanwhile, Dave has it Powering through his rotations back at WHTF. The man with a voice to bridge generations, Phil Collins is continuing his singlehanded campaign for bigger and better love songs.

Alvin Lee, "No Limit", IRS/No Speak....

The late Eighties may be typified by many cultural phenoms in the TV retrospectives of future Geraldo Rivera's, (shudder at the thought), and some of them may seem superficial on closer examination. The pursuit of the Presidency by men more suited to be Principal at a High School is one, so is the tendency to play every conceivable sport indoors on a postage stamp field. But the reemergence of musical virtuosity in the person of various rock legends climbing out of the depths of commercial pop with nothing to shield them but their chosen instrument--now that is a trend worth championing! To spearhead that drive we have Alvin Lee sparkling with his trusted six string and a sure feel that is unmistakable to purists and instantly provocative to the neophyte alike. KOZZ, WRDU, KICT, WGIR and KZOQ join KATT, WLAV, KMOD, WKLS, KYYS and WAPL in making the guitar once again supreme and that debut at 100* this week is just the beginning.

House Of Lords, "I Wanna Be Loved", Simmons/RCA....

We know that the pre-release work done on this band was enough to tip your hand on just how big this project was. Anticipation ran high from Anchorage to Miami and the initial surge of welcome that this single received was soon followed by an ever increasing pattern of adds and ups. With 74 stations already on, CFOX, WAAF, KMJX, KOME and KFMZ all line up with WYNF, KLOL, WLLZ, KWHL, WLLZ, KSJO, KGB, WEZX and WQFM to put their support where their ears have been all along. Kelly Wallace over at WLZR tells us it remains one of her biggest reaction records and it's easy to believe with that 48-45* move is a sure sign of more to come.

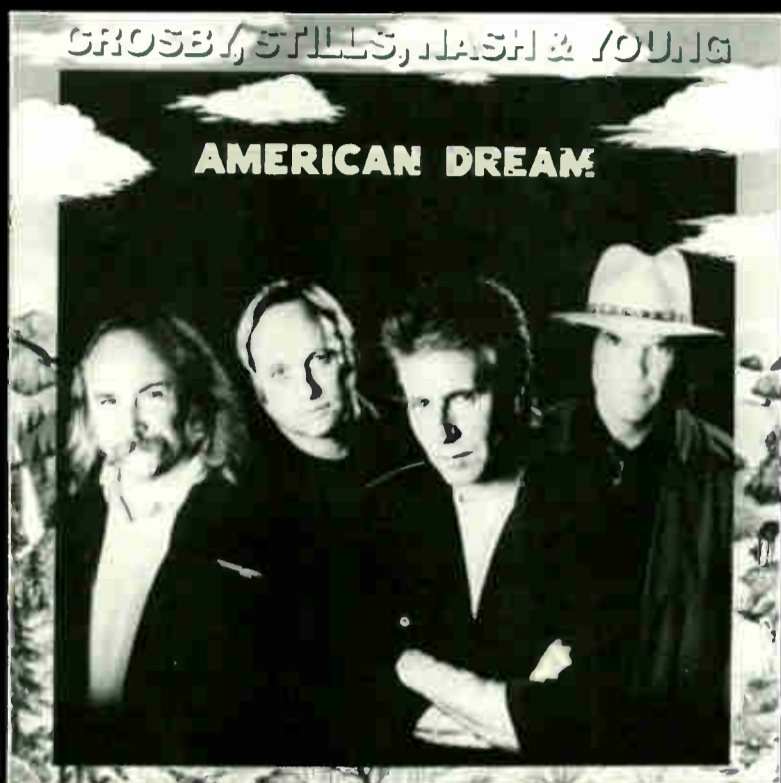

Night Ranger, "Reason To Be", MCA....

With the "Man In Motion" Lp, these boys have given us their most even effort to date. 17 new stations join up pushing the cut 100-66* on the Hard Hundred--the biggest mover of the week. This track is a bit of a change up from the lead-off "I Did It For Love", and really kicks in after the acoustic intro. WKQZ's Tim Brandow tells us, "The strongest add this week has to be the Night Ranger, it's different and sounds great on the air. You know it's Night Ranger the second you hear it but they have stretched their sound a bit".... New this week on KBPI, WKDF, WCCC, WRDU, KBER, KATT, WPLR, KZAP, KPEZ, KISS, WWTR, WCKO, KZOQ, WRUF, KFMH and KJOT and already in heavy rotation at KOME, KSJO and KZAM. "I Did It For Love" spent weeks in the top 20, and we wouldn't be at all surprised if this song fared even better.

Poison, "Every Rose Has Its Thorn", Capitol.... Multi-format momentum is kicking into high gear, and more than a few stations who swore that this band's work would never see the inside of their air studio are now out front with power rotations and top phones. Funny how perceptions change when a band can claim mega-platinum clout. Nearly 100 stations are playing "Every Rose..." and 40 have the cut in power/heavy with 25 reporting Poison in their top 5 requests! **WLZR's Kelly Wallace** makes the easy call, "Poison has delivered what has to be the ballad of the year with 'Every Rose Has Its Thorn'.... We also heard from **Anthony Alfonsi** at **WDVE**, "This is a departure from the Poison sound that most people are used to. This song will expand their base of fans".... Adds at 16 including **WLVQ**, **KOME**, **KGB**, **KEZO**, **WRKI** and **KLBJ** coupled with rotation boosts at **KQRS**, **WKDF**, **WIOT**, **KJJO** **WWTR** and others lead to a fine Hard Hundred showing, 35-28*.

Cheap Trick, "Ghost Town", Epic.... Although we won't project a winner until the polls close in your state, early returns have these Midwest mavericks neck and neck with **Little Feat** for **Comeback Of The Year** honors. It's proof that programmers have not only missed the band for their music, but for the fun and irreverent image that they bring to the airwaves as well. The track moves 47-42* as new play is gained at 13 stations including **WLUP**, **WDIZ**, **KGON**, **WLZR**, **WMAD** and **KTYD**. Top 5 phones are noted at **WZZQ** and **WWRX** where **Rob Wagman** implores, "Don't run from 'Ghost Town', this one's got phones written all over it".... Brand new reporter **Marty Meyers** of **KKTX** doesn't waste any time chipping in, "'Ghost Town' is a great song. Cheap Trick fans aren't the only people who can appreciate this track".... Don't be cruel to their legion of fans; share this cut with your audience now.

John Hiatt, "Paper Thin", A&M.... Few things are more satisfying than seeing an artist of John's integrity finally earn popular acclaim to add to the critical raves that he's been piling up like leaves on the front lawn. This week's 68* debut is all the more impressive considering that "Slow Turning" was a late bloomer at many stations and is still receiving airplay at more than 100 reporters. Included among the 22 new stations are **DC-101**, **KISW**, **WKLS**, **WCCC**, **WHFS**, **WLZR**, **WPLR** and **KEZE**. They join earlybirds **KILO**, **KLBJ**, **WRXL**, **WLLZ**, **WOUR**, **CHEZ**, **KTYD** and **KACV** in welcoming track two to the airwaves. At **WIZN**, **Tom Van Sant** raves, "Hiatt's 'Paper Thin' is quite simply a killer. It sounds like it could have come from the new **Keith Richards** album, but the vocals are superior".... **A&M** had their pick of several high quality back up cuts from the album, and in "Paper Thin" they've chosen the obvious rock track to take to **AOR**. "Slow Turning" laid the groundwork and "Paper Thin" should complete the task of breaking John to even the most remote corners of the continent.

Hothouse Flowers, "I'm Sorry", Polydor.... This could qualify as one of the more interesting sounding songs to enter the upper reaches of the Hard Hundred in quite some time. It's certainly as far away from "formula" rock and roll as it could get, and perhaps that's the attraction of this unique and immensely talented band. Leading a pack of 16 new adds are **WIYY**, **WEGR**, **KZRR**, **KATT**, **WONE** and **KISS** while **WIMZ**, **WPLR**, **CHEZ**, **WVVV**, **KMBY**, **KRNA** and **WTKI** all increase rotation. Down in Memphis where they know a thing or two about soulful sounds, **WEGR's Kelly Cruise** tells us, "'I'm Sorry' gets right down to the soul. Put your hands on the radio and say, 'hallelujah'".... The band is running away with the votes in the "Best New Import Group" category for our year-end poll while "I'm Sorry" runs up the **HH**, 44-37*.

Van Halen, "Cabo Wabo", Warner Brothers.... Look! Up on the charts! What strength, what stamina, what staying power! It's the album that has a longer shelf life than powdered milk. It's "OU812" from the first family of rock, **Van Halen**. With most of the nation settling in for several months of chilly weather, this tale of fun and frolic on the beaches South of the Border may be just the ticket to heat up your playlist. **WKLS**, **WCMF**, **KEZE**, **KNAC** and **KRXQ** were there first and are joined this week by 16 new stations including **KZAP**, **WLLZ**, **KGON**, **WLVQ**, **KAZY**, **KTXQ** and **KZRR**. "Cabo" glides on to the Hard Hundred at 89*. Playing **Van Halen** is never risky, but it's always smart.

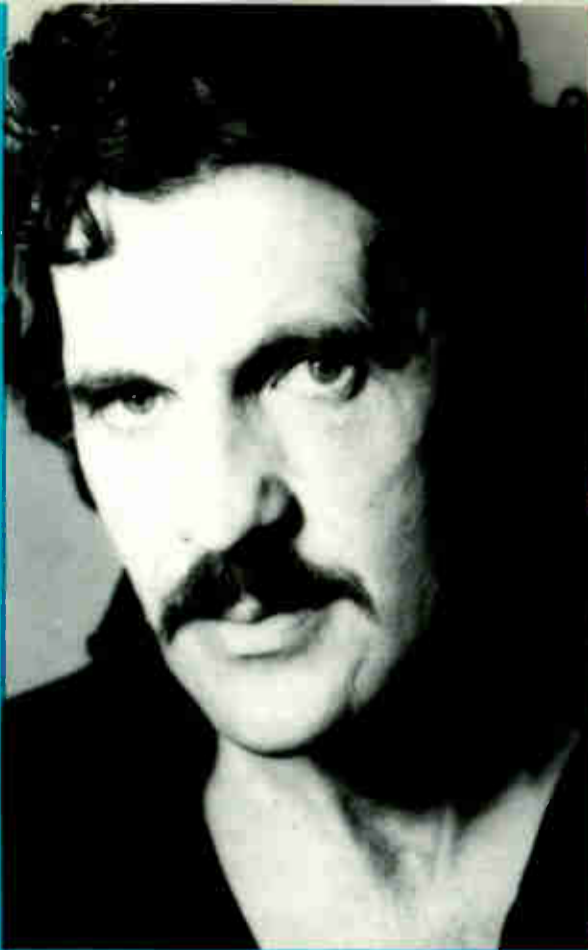

Bad Company, "One Night", Atlantic.... This **Bad Co.** album is turning into one of 1988's best testing records. Just ask the research rangers on the block and they'll tell you that when it comes to requests and call-out, **Bad Company** comes through with flying colors. "One Night" rolls 30-22* after gaining airplay at 17 new stations including **KGB**, **KYYS**, **WHCN**, **WRDU**, **WSHE**, **KSJO**, **WPYX**, and **KZEW**. Nine stations increase rotation, and "One Night" is a top phone contender at **KBPI**, **WHJY**, **WIOT**, **KICT**, **KOMP**, **KLAQ**, **KQWB**, **KWHL**, **WAOR**, **WHEB** and **WZBH**. In fact, **KOMP's Big Marty** has been hearing from **Bad Co.** fans for some time, "We'd been playing 'One Night' every once in a while, like on **Twofer** Tuesdays, and the buzz on it was getting so huge that we thought, 'Hey, we'd better get on this while it's happening'. Well, we put it on this week and sure enough, we got top five phones immediately".... Just call it unsolicited **Bad Company** testimonial #157.

Cinderella, "Bad Seamstress Blues...", Mercury.... One of the chart's biggest movers, **Cinderella** brings in 12 new stations including major players **KISW**, **WLVQ** and **KAZY**. In just 2 years, this band has evolved from "promising newcomer" status to an automatic for the format. "Bad Seamstress..." takes a 69-57* ride on the Hard Hundred and is aided by steady play on **WQFM**, **KILO**, **WCCC**, **KSJO**, **KFMG**, **KEZO**, **WFBQ**, **KOME** and 30 others. **WGIR's Karen A. Small** makes the call, "Cinderella's 'Bad Seamstress Blues' has that touch of old **Zeppelin** blues that **Album Radio's** audience eats up. This one will slide on the airwaves very easily".... The previous ballad sparked massive **Lp** sales, and the change of pace on this cut will certainly make it a major mauler on the phone lines well into 1989.

Tommy Conwell, "If We Never Meet Again", Columbia.... This jewel of a tune is working wonders for **Tommy** as the follow up to the #1 "I'm Not Your Man". Adds from **WRDU**, **WONE**, **WEGR**, **WXRC**, **WBLM**, **KCAL** and 10 others bring the station count comfortably above 100. At **WWRX**, **Rob Wagman** notes, "Tommy Conwell gets moved into heavy this week. We played the original by the **Reckless Sleepers**, but this is the version that the audience is really responding to".... The 33-29* **Hard Hundred** jump is aided by rotation increases at **KLBJ**, **WPLR**, **KRXQ**, **WWTR**, **WTKI**, **WXP**, **WKLC**, **WEZX**, **WWTR** and a half dozen others. **Tommy's** nationwide tour has gone a long way towards convincing the multitudes that **Mr. Conwell** is indeed a star on the rise. **WDVE's Anthony Alfonsi** adds, "Tommy's live show didn't disappoint my high expectations--it didn't take me long to agree with everyone else that **Tommy** and the **Young Rumlbers** are a band to really keep an eye on".... Smart programmers will be keeping both eyes on the band in the near future.

Bon Jovi, "Born To Be My Baby", Mercury.... It makes for a jovial time when your album can sell at this pace. Actually it's quite curious to consider the differences between this **Lp** and the last offering. With only half the hype of the last effort, this one's doing just as well. In fact, "Born To Be My Baby" is poised to become the second **Top 10** single in a row from "New Jersey". New play at **WKDF**, **WZZQ** and **KRQU** takes the station count up to 133 and 14 reporters up rotation including **KQRS**, **WGTR**, **WCMF**, **KNCN**, **WRKI**, **WFYV** and **WEZX**. As expected, request action is big nationwide and includes top 5 reports at **WLVQ**, **KGGO**, **WWWV**, **KJJO**, **WRKI**, **WRDU**, **WPDH**, **WAQX**, **CHEZ** and **KZEL** where **Al Scott** remarks, "Bon Jovi has given us a record that guarantees big phone reaction with every new single--'Born To Be My Baby' is no exception".... Set for a voyage into the upper reaches after this week's 15-11* showing.

"Our biggest reaction artist has to be Melissa Etheridge. Everytime we play it the phones continue to buzz. She was a slow builder, but now that the audience is familiar with her, she is getting tremendous response."

Mark Bretch, WWCT

"Put her on the air and watch the phones ring off the hook."

Edie Brickell, "What I Am", Geffen.... The record that was midwived by alternative radio gets a solid upbringing from rock radio. The momentum rolls ever so steadily with 16 adds from the likes of CFNY, KOME, WGLF, WIOT, WJXQ, WLZR, WRFX and WRXL. Check out these surrogate parental units, such as KZEL's Al Scott, "Edie Brickell continues to do very well and is building across the board. This is a song that people can't get enough of." And also here's a paternal nudge from Roger the Dodger at KRNA, "If you're thinking of giving up on Edie Brickell--don't. You and your listeners will appreciate the time you give to it." Don't overlook the growing extended family of stations such as 91X, KLOL, KQWB, KRXQ, WBLM, WCCC and WLUP. On the Hard Hundred this one is climbing steadily 25-20*.

Joan Jett, "Little Liar", Blackheart/Epic.... She made it good to be a bad girl, just the kind of fiance that's only found in Mom's worst liver-induced nightmares. Anthony Alfonsi from WDVH peers into the crystal sphere, "Joan Jett's 'Little Liar' is something that took me just one listen to realize it should be a hit. It might even do better than 'Hate Myself'." Dare not hope, Anthony. 13 others share Anthony's vision with new play from KOMP, KSJO, WDVH, WKLS, WNOR and WTKI. Healthy progress on the chart 26-21*, as seen by the station count, up to 122, including in heavy/power rotations, KGON, KLOS, KRQR, KWHL, KZRR, WCKW, WMMR, WQFM and WLLZ.

Traveling Wilburys, "Traveling Wilburys Vol. 1", Warner Bros.... Some people are getting rather impatient in the face of astounding success from a group of household names. From KRNA's Roger the Dodger, "The Traveling Wilburys", from 'Handle With Care' to 'Last Night', every cut on this CD can't miss--so where's Vol. 2 guys?" Yo, settle down and split open a few more tracks. The HH is already saturated with "Handle With Care" topping out 2-1*, "Last Night" at 39-36* and "Tweeter And The Monkeyman" rising 91-88*. Included on the early movement on "Tweeter" are KEZE, KLOL, KTXQ, KWHL, WAPL, WLQV, WNEW and WZEW. And from KKZX's Christina Gorton, "I still like the Traveling Wilburys. They have a nifty sound that is so well done that we can't get enough to them around here." And the roster is just packed to the earlobes with talent, so there's no weaseling out--if required get a shoehorn for your list.

Ratt, "Way Cool Junior", Atlantic.... It only took us moments to realize that this track was destined for pounding rotations. An enlightened Kelly Wallace at WLZR phones in, "Ratt is happening! This is a real good shift in direction for one of our favorite bands." Nothing has been that obvious and unanimous since Geraldo's nomination for anti-Christ status. 12 adds from CILQ, KEZO, KFME, KICT, WAVF, WEGR, WIOT, WKDF, WRFX, WVVV, WZBH and WZZO. A total of 87 stations such as KAZY, KDJK, KGON, KNAC, KQRS, WFBQ, WMMR, WONE and WXP. 36-34* on the Hard Hundred, plussed by some burning phones at KBER, KFMX, KISW, KMJX, KQRS, KSJO, KSQY, KZRR, WDVH and WRQK.

R.E.M., "Green", Warner Bros.... This multi-track album play just adds another dimension to the term "depth". More and more programmers are leaping onto whatever suits their mood and market need. Appetites are getting voracious for their Athens charm, and with two albums on the market at once, the confusion and delight is abundant. Listen to one content Al Scott down at KZEL, "R.E.M. continues to crush my heart with every play. Can these guys get any better? You betchum." We believe you, especially with three cuts on the HH; leading the pack is "Orange Crush" coming in for a low pass at 3-2* on the HH, A critical fave on first listen, "Pop Song '89" is getting ready for a run at 87-86*, and "The Stand" clocks in at 98-87* with a sound that demands attention and gets stronger every time out. Make this album a cornerstone of your programming attack and the fourth quarter sweeps could be more fun than that avalanche of presents under the tree.

Jim Capaldi, "Something So Strong", Island.... Whip out this gentleman's resume and read along while listening to his latest offering, a double whammy of talent and experience. Recovering from this left and right hook is WIMZ's Mike Stewart who says, "Jim Capaldi's truly great song is one of the strongest adds we've had in a while. Nothing else sounds quite like it and that's a strength." Unlike other simultaneous ex-bandmate action, Jim and Mr. Winwood can only hope to complement one another with their combined decades of logged time. 156 stations, including KISW, WCCC, WCMF, WONE, and WNEW, inched up by 3 adds at WIMZ, WLZR and WRIF. Steady growth in a rainforest of competitors, 14-8* on the HH.

Ivan Neville, "Not Just Another Girl", Polydor.... For those of you who consider the name Ivan in the same frame of mind as borscht and vodka, wake up and smell the beets. KOME's Stephen Page says, "First and foremost, hats off to Polydor for 'Not Just Another Girl'. Saw him in town last week. He was hot, the record is hot--and the phones are top 5." And how about Bob Jeffries at KBOY in the wilds of Southwestern Oregon, "The Neville should be exploding at CHR, it certainly surprised us. Everywhere you go this song keeps popping up." On at 145 stations, including KFMG, KOMP, KRQR, WDIZ, WEGR, WNOR, WXRT and WYNF. 13 new stations, CHOM, CILQ, KFMX, KGB, KLOL, WAPL, WAQX, WCMF, WJXQ, WLZR, WRXK and WWDC. 18-12* is no easy task, so keep those ears tuned.

U2, "Rattle and Hum", Island.... Not many bands develop into the mass deities this one has, and it's not hard to forget their raw beginnings and devoted cult followings. Their status in the marketplace could result in some superfluous ego inflation, but after an impromptu Hollywood sidewalk concert it's apparent that they're not developing tunnel vision. Now that programmers are focused, it's time to talk album longevity. Amid the initial multi-cut chaos, "Angel Of Harlem" eventually rose to the task of following up "Desire" and the decision was sound. Jeff Riedel at KKDJ says, "U2 skyrockets from nowhere straight into Power with 'Angel of Harlem'. These guys are unstoppable." "Angel" strides 10-6* with new air from KTYD, WKFM and WRIF, plus 26 increases from KBPI, KRQU, KZEW, KZRR, WAPL, WBLM, WCMF, WHCN, WIOT, WRUF, WWCK, and many more. Major phone action from 20 stations nails Number 8 most requested.

Mike and the Mechanics, "The Living Years", Atlantic.... Like a nimble trenchdog amidst some heavy duty firepower and flak, the lead track from the follow-up album deftly climbs through the top ten 12-5*. We're banking with WKQZ's Tim Brandow when he keenly observes, "Mike and the Mechanics is growing into a major record for the format. This one should be huge if first indications are anything to go by." "Nobody Knows" stacks up 7 adds from KDKB, KOAS, WKFM, WMAD, WRFX, WRQK and WXP. A pile of increases to the tune of 39 including KISW, KLOS, KZLR, WDHA, WJXQ, WKRR, WLLZ, WSHE, WWDC, WXRT and WZZO. With trenchmates like that, the action has got to be sharp.

Steve Earle, "Copperhead Road", UNI/MCA.... Incisively cutting to the top of the charts, one of this week's handiest jumps, no mean feat clearing the top ten, 17-9*. WMDK's Mike Thomas says, "Out of Steve Earle's three albums 'Copperhead Road' is the best. 'Johnny Come Lately' and 'Back To the Wall' are two of my strongest picks. I wish I'd have been in the studio to see Shane McGowan and Earle together. I wonder who consumed more alcohol in one sitting?" Hey, with a quality product like this briskly rolling onto the shelves of listeners, a little thing like oiling the liver isn't much of a consideration. Around Hard Acres, the pressure of deadline lucidity keeps most of us away from the brewsky unless there's an excuse handy (Oh, isn't it National Hops Week?).

Def Leppard, "Armageddon It", Mercury.... This week's Herman Melville Citation goes to one Patty Martin at KSJO with her dissertation on Def Leppard, "'Armageddon It' was my favorite off the album from the start, so it only took a year for it to be released as a single, what do I know? One thing I know is this tune works. Already the phones are great. Great enough to pop it up to power rotation. You can't go wrong with any song from this album." So, what else can we say, umpteen platinum, an ocean of t-shirts, and enough spent Bics to max out a landfill. Dem stats be tellin' what lots of you already know. 10 adds from KLPX, KOMP, KQWB, KZRR, WRFX and WRQK. Princess phones are getting worn to pieces everywhere--Number 11 most requested with 14 stations. Just a blink away from the top ten, one of this week's biggest movers, 22-15*.

NOISEMAKERS OF THE WEEK

WHTQ/Orlando has chosen their new PD and Brian Krysz is the guy hitting that hot and happening Florida coast. Brian gets going in a week and is definitely settling in for the long haul. "I like the new management team in Orlando. They have a great facility and everything is there for the station to do well and with a few new parts in place we will do even better", according to Brian. What about his replacement? "I will be involved in the transition here. These people have been very good to me and I am going to help in any way I can. I want this format to do well and if that means coming up here every three months to make sure it's running right, then that's what I'll do." As for his priorities in Orlando, "The station is looking for a few great jocks who like doing a lot of promotion and living on the street. We are also looking for a morning show but we won't be in any hurry about it. We aren't going to rush this at all. We are in for the duration on this one." With David Grossman enthroned at WSHE, the TK Florida properties are finally staffed with PD's and ready for their next stage of competition. In other news from TK World, WSHE MD Suzanne Adana exits and the position has been eliminated as a result. The subsequent promotion sees Mark Steven get the APD slot as David Grossman begins sorting out his options. In the meantime, Suzanne is shopping for a major market airshift. She is a multiple year veteran of the Florida rock wars with time spent at WDIZ and WYNF as well as WSHE. She can be reached at (813) 837-6290.

WGTR/Miami midday monster and MD The Colonel is off for mornings at ZETA-4 following Neil Rogers departure. "I am the player to be named later in the Neil Rogers deal here", said the Colonel who tells us the offer, typically, came out of nowhere. "It was a very pleasant surprise and I can't tell you how excited I am about it. It's sad to leave a great station like WGTR and the people I have worked with here will definitely be missed, but opportunities like this one don't come along all the time." This makes for a fairly incestuous mix with Neil going to work for WGTR's AM sister station and The Colonel jumping to take his place. Small world, this Miami radio scene. And it's getting smaller all the time, "One of the things I told Pete Bolger over at ZETA was that I didn't really want to leave GTR until we had really won convincingly here. Now that I have another scalp on my belt it's time to move on to this next challenge."

KGON/Portland has made a move at MD with Inessa York leaving the station to discover life without a playlist, "I was glad for the seven years I had at this station and the work has been satisfying but now it's on to the next adventure." Inessa is currently looking for career opportunities in the industry, (radio and records), and can be reached at (503) 249-0923. She is a class act lady and a great addition to any organization. "You spend so much time with one station and then it's suddenly an open field again. It all sounds so trite but it's also very true. Let's just say it is definitely time to move on." The new face on the scene is Bill Prescott, formerly of KZAP. Bill moves directly into the MD chair and will follow up with afternoon drive work as well. The Prescott man is a very funny guy and we can think of few people we enjoy as much out West. Bill tells us, "There were a number of things involved in my decision. I wanted to be an MD again and this was a rare chance to work for a good friend of mine, Jon Robbins. I grew up in that market and always wanted to work at KGON." As for those moves in Portland, Bill is enthusiastic, "Jon has the station back on the right track and hopefully I can combine all the stuff I learned in California and make a solid contribution to the station. After all, I know that market better than any other in the country. I may have spent the last few years in California but I'm an Oregon boy for sure." As for Bill's high esteem in the record community, "Just like always, I will never return phone calls. I don't like new music much and I won't add anything unless I get a CD for myself." Prescott was always known for his remarkable sense of values, don't you think? His new assignment with Jon Robbins looks more and more like a match made in Radio Heaven. "We have the same goals for the station and where Jon is more analytical about those goals, he still respects a good gut level decision and that's where I come in. We'll have real good chemistry or we'll kill each other, it's that simple." The move on Bill's part reflects a clean break and, while there is no replacement for him yet named, that shouldn't take Pat and his team very long to rectify.

DEREK DOES IT HIS WAY

No sooner did the official announcement that Derek Shulman had taken control at ATCO hit my desk, then the rumors started flying about his new team effort. First, came the official proclamation from Atlantic Grand Sultan Ahmet Ertegun who told us, "Derek is one of the most respected executives in the industry and a true music man, he comes to us with an extraordinary track record." You can say that again. If Derek had stopped after his work with **Gentle Giant** and gone off to raise sheep, he would still be assured a spot in the Rock Encyclopedia. Beyond that, Derek was integral to the growth of **PolyGram** while with the label's A&R Department. His mega-signings are the stuff that legends are made of and it was obvious that he was prime material for bigger and better things. Now we hear that A&M's Midwest Monster **Craig Lambert** is discussing the possibility of making a move to New York for the National VP job with the label. If so, you can count on some big shaking in no time at all.

Derek Shulman has reason to grin.

RCA ROUNDS UP TWO

In a very welcome announcement, Nipper tells us that they are upping a pair of the industry's best. Firstly, **Hugh Surratt** gets the job of Director, National Album Promotion at the label with his homebase continuing to be in Los Angeles. Meanwhile, New York will see the promotion of **John Sigler** to National Album Promotion Manager. With **Bruce Flohr** stepping into the National College Promotion slot and **John Sigler** working the crossover alternative product and Hugh pounding airplay with AOR from coast to coast, we are looking at a very strong line up indeed. **Jim McKeon** told us, "I can't think of two more deserving individuals than Hugh and John. Both show the commitment, expertise and spirit required to excel in the music business. Also, I'd like to welcome Bruce to our promotion team. He is a key part of our dedication to developing the alternative and college marketplace." Pass the brew and nachos folks.

Hugh Surratt

John Sigler

Chrysalis Records announces **Lynda Wuelfing** as their new Director of Video. As such, she will be responsible for the coordination of all label activities in the video field. Lynda was a four year vet at Passport/Jem in a similar position with the label.

ISLAND ADDITIONS

The much discussed expansion of **Island Records** has begun with word that **Rhino Records** Promo Pro **Dave Darus** has joined the squad. Dave will be working out West and, quoting **Bob Catania** now, "Will play an integral part of an exciting re-organization and expansion of the Island promotion staff. This re-organization will be customized to most effectively promote and market our product, and Dave is exactly the type of modern promotion person that we needed to execute our plan." Dave had been working at Rhino for the last four and a half years and will be handling the Western United States for Island in his new capacity. Look for even more announcements after the first of the year as the Island team grows by at least one more person, yet to be named, also to be placed out West. It's all part and parcel of a new generation of growth for Island that should beef up their profile on a national scale.

KGB/San Diego Promotion Director **Scott Chatfield** pictured here with some contest winners experiencing a serious **Sam Kinison** flashback. Left to right are Sam, winner, Scott, winner, Sam, Sam, winner and Sam. We count about 1,200 pounds of funny man here. I wonder what **Jessica** would do with that much lovin' stuff? On second shudder, I don't want to know about it.

WESTWOOD ONE GETS BIG IN THE BASIN

With a pricetag of \$56 Million, **WW1** picked up the paper on **KIQQ/Los Angeles** as has been anticipated for some time. The LA market has gone thermonuclear with purchase prices for FM signals completely through the roof. There has been a lot of loose talk about the station shifting to CHR but insiders assure us that **WW1** has no desire to compete against their own biggest CHR card, namely **Casey Kasem**, who already has a lucrative deal in the market. It's more likely that **Norm** will weigh his options very carefully. Let's face it, with **KROQ**, **KTWV**, **KRTH** and **KJOI** all going for \$75 Million plus, this looks like a prime investment in a market that can't even spell "soft revenues". **Norm** could practically run audio portions of the **Gong Show** and still turn a tidy profit with his well tuned machine.

THE RETURN OF THE BACK ANNOUNCE

Some would say that it never really went away. When's the last time you felt like driving into a tree because someone was laboring the significance of a certain Beatles track? An extreme case you say? You'd be right, if the public has anything to say about it. **RIAA** commissioned studies indicate that the lack of product information is a reason for complaint by the vast majority of radio users and the Association has determined that a complete campaign is required to halt the rising tide of ignorance sweeping the nation. We have all seen the "When You Play It-Say It" teasers, mostly on label print campaigns and, whereas we personally think the slogan and look was suggested by the same minds that gave us the "Whip Inflation Now" pins, we seem to be in a minority there. Nonetheless, get ready for more of the same as the industry tries to convince radio that they need to spend more time identifying songs. Want a real scary thought? The standard for this is sizing up to be **MTV**. That's right, 73% of **CHR** listeners said they wanted as much song information as they got from video programming, and those guys announce when lunch arrives much less everything else.

WFNX/Boston got hit by the **Sugarcubes** recently and here we witness those **North Sea** rockers indulging the fine old Icelandic tradition known as "Writing on someone's wall when they aren't looking".

SMN POSTS THIRD QUARTER PROFIT

The Satellite Music Network has posted a profit for the third quarter in a row this year. Net income for this third quarter was \$363,321 as against a \$167,578 loss for the same period last year. So far this year, ad revenues were up 34%, hitting the \$9 Million mark for the first time. "Advertising inventory is sold out, we've surpassed the 1,000 affiliate mark and have expanded to the People's Republic of China", said Chairman **John Tyler** in the statement that accompanied their quarterly report. Total revenues for the group increased 28% to \$14 Million over \$10 Million last year.

MJI GRABS THE GRAMMY'S

For the fourth consecutive year, **MJI** is going to be the official radio outlet for the **Grammy Awards** next February. The syndicator will tailor their programming to seven separate formats and the show will feature interviews and produced spotlights on the songs being nominated. The show hit 800 stations last year and you know that's got to be just the beginning.

WNEW/New York fixtures Dave Herman and Scott Muni pictured with Warner Brothers Promo Kingpin Kenny Puvogel basking in the warm glow of a Beatles gold record. Actually, the boys were dining at the Hard Rock in New York to discuss that five song depth that WNEW is executing on the Wilbury's project.

THE RADIO RUMBLE

WWCK/Flint has been sold but details are thin at deadline. Look for the new owners to take hold soon and then it's time to start quashing those rumors about a wholesale shift to an All Polka Break Dance format.

CFNY/Toronto MD Ivar Hamilton has jumped to PolyGram in Canada. We understand that Ivar will be handling promotional duties out of Toronto and the biz can count itself lucky to attract talent of his caliber. No replacement has been named for him back at CFNY.

Here we see Ivar in the Soviet Union getting ticketed for being way too hip. The international flair for doing just the right thing at the right time has helped nail this juicy career move for our pal Ivar.

WDRE/Long Island has nabbed the award winning talents of Larry "The Duck" Dunn for middays at the station. Larry has always been a popular studio scorcher on those Long Island airwaves and it's great to see him back on the beam.

KOMP/Las Vegas needs some assistance in setting up their auction for local children this holiday season. The celeb sell off will offer up rock and roll memorabilia to raise money for a local Toys For Tots campaign. Any labels who want to endear themselves to Richard and Big Marty should contact the station for further information.

KBLE/Des Moines hits their 13th Birthday and just might get their dream come true during this lucky year of operation. After sweating it out in the FCC cuisinart, they are hoping to finally get their hands on an honest to goodness broadcast facility. With a little luck and a lot of legalistic perseverance Ron and his squad could be on the air sometime in '89. Good thoughts are always welcome in a situation like this.

KFMG/Albuquerque MD Michael Davis exits the station after four and a half years in the saddle that saw the station pull down some of their biggest numbers ever. Michael informs us that he is seeking an airshift in a bigger market, but he is open to another MD assignment as well. You can reach Michael at (505) 256-3046. No word regarding his replacement so get that T&R in action.

KBOY/Medford names R. Charles Snyder as their new PD with Chris Stoney exiting. Snyder will also be snapping up that instant breakfast for AM drive at the station as well as working with Bob Jeffries on the programming destinies of the Southern Oregon rocker.

KSJO/San Jose had Mr. PC, better known as Steve Wozniak, in their studios for some fun and games with Candi Chamberlain on her Seven Days At Seven feature. Turns out that Steve is a huge fan of the morning show and agreed to join Perry and Trish for some donuts and coffee sometime soon. Hey Patty, get Steve to tweak that Selector system and send us a copy on a floppy. Yeah, right!

WCCC/Hartford announces that midday guy and Production Director Bill Shultz has departed for other horizons and night lady Angie moves into middays and Production as a result. That leaves an opening for a hot night airtalent at the station. Professional axe murderers are welcomed by those Hartford lunatics. Nice to finally see a station that has their priorities straight when it comes to seeking new talent. I mean, who wants to hold back on a new jock just because of something petty like homicidal tendencies?

WZZQ/Terre Haute informs us that they are no longer consulted by Larry Moffit. No reason was given and no replacement named at presstime.

WRKU/Youngstown is on the air and a new member of the Hard Report Family. Phil Manicki and his MD Joe Piano are in need of increased record service and we know that all of you out there in record land are going to just flood them with product now, aren't you?

KBPI/Denver has unleashed "The Blade" on their AM sister station and a tremulous Denver is quaking at the very prospect. New air talents Spike The Rock Dog and Leather Steal have been hired and the format calls for balls to the wall heavy metal from 7pm until 2am every night. The program will be live and locally programmed with Gabe Baptiste and Chris Poole in control. This smacks of a brilliant positioning move, one that has been touted by the greatest minds in the industry as a surefire way to bolster that 12-24 profile for an AOR. We watch in continued amazement at just how hip things are in the Rockies.

KKLZ/Las Vegas MD Kevin Vargas is looking for a new opportunity following his big wins with that CR station. Kevin is a proven pro when it comes to MD and Production work and can be reached at (702) 734-6835.

VOLUME 4
FALL INTO WINTER '88

Out Now

HARD
attack

Featuring new Music from The Waterboys, Julian Cope, Cowboy Junkies, The Go Betweens, That Petrol Emotion, Camouflage, and more!

KZEP/San Antonio PD Dana Brown called to tell us that he needs a new afternoon drive jock and MD combo given the recent split executed by Steve Coffman. Steve is entertaining offers at (512) 829-8522 after spending a solid two years with the station. The KZEP replacement must be comfortable with the 25+ direction of the station and should send their T&R's to Dana right now. The address is 427 E. 9th Street, San Antonio, TX 78215. No calls, please.

WRXK/Ft. Myers got in a crowd for a 2nd anniversary party that saw a concert featuring John Kilzer, Winger and Bad Company. A crowd of 15,000 showed up and all they had to do to get in was drop at least \$1.00 worth of free food into a bag for an area food bank. All in all, about \$72,000 in food was dropped off at the event.

WWDC/Washington "man with a pole" Curt Gary snagged this healthy specimen on a cruise with Island's Andy Allen and Bill "Sammy" McGathy. The guy minus a brim is Captain Buddy, the skipper of this rogues crew.

WPYX/Albany makes it official with the announcement that John Cooper has been made PD as well as OM at the dominant market rocker. John will be handling day to day programming chores, pretty much as has been the case since Ed Levine split for KLOL. "WPYX is a tremendously successful radio station and that tradition will continue as we dominate the Albany market. I'm very excited about being at the helm of this station." John has been with WPYX since July of last year so you can count this as yet another fast track promotion for the man, and deservedly so. Look for more word on those Promotion and Music Director positions in the next week or so.

KXFX/Santa Clara PD Rob Lipshutz and his wife Debbie had a daughter November 11th. Sara Elizabeth weighed in at 6 lbs and 15 oz and immediately called five major labels to get more product for her Dad's airstaff. "CD's for everybody", she gurgled into the speaker phone. Whatta cute tyke.

WWTR/Ocean City backstage with Eddie Money. Left to right are Skip Isley, contest winner, (nudge nudge wink wink), Karen Collins and contest winner.

WRKI/Danbury getting ready for that U2 premiere in their burg. Left to right are John Perry, Chris Engel and Scott Saalborn preparing to greet the throng in the lobby.

WZXL/Atlantic City shifts things around a bit. Jim King hits the morning team with both feet while Kevin Walsh signs on for some prime time rocking at nights. The station will be happy to run any artist ID's they get with a holiday message. Something like, "Hi this is Axl of Guns 'N' Roses and when you're visiting family over the Christmas season it's important to remember, Don't Think And Drive."

KTCZ/Minneapolis MD Jane Fredericksen exits to concentrate on her newly acquired motherly priorities. Jane and her husband have been storked with a son Noel Travis and she departs for diaper duty as a result. John Barobs is the interim MD and he will take your calls Monday through Friday from 12-5pm.

KBCO/Boulder and those wacky Little Featsters showing that it's all in the way you look at things.

KGB/San Diego unveiled their "Berger, Prescott & Chainsaw 30-Hour Foodathon" to help raise food for the needy in the area. The boys will be hammering it non-stop on the air for 30 hours with some celeb help from Ratt, Alice Cooper, Bruce Hornsby, Robert Plant, Joe Satriani, Sam Kinison and many more. Challenges will be issued and the market will undoubtedly respond with a veritable mountain of canned goods for some timely Thanksgiving assistance.

WKFM/Syracuse is throwing a Superbowl Party for some lucky listener that will include a complete Bowl Blowout at their home. The station will wheel in the big screen TV, VCR, food and drink, (no booze if you please), and when the two minute warning is history, they will leave all the goodies behind as a promotional calling card. On-air football trivia will qualify listeners and the winner gets the entire media setup as the grand prize.

WFNX/Boston names Angela Strachan as their new MD. Angela has been working out at the station over the last two years and her promotion is seen as a solid pat on the back for her commitment and professionalism.

WAAF/Worcester worked with Doug Flutie during one of their Monday Night Football remotes to a packed crowd just throbbing with male hormones. Here we see Doug displaying his "Stop I Give Up" posture when being blitzed.

KZEW/Dallas is gearing up for their Second "Rock Against AIDS" radiothon. The station suspends regular programming and calls for requests from the audience tied to cash pledges. Anything in the library is fair game for the right price and the result is some interesting radio to be sure. Last year the effort raised \$25,000 for the research against AIDS and this year should build on that success.

94.7 THE WAVE

KTWV/Los Angeles seen presenting a \$150,000 check to the American Foundation for AIDS Research. The money was raised through the station's WAVE AID music sampler and worked so well that another sampler is on the way.

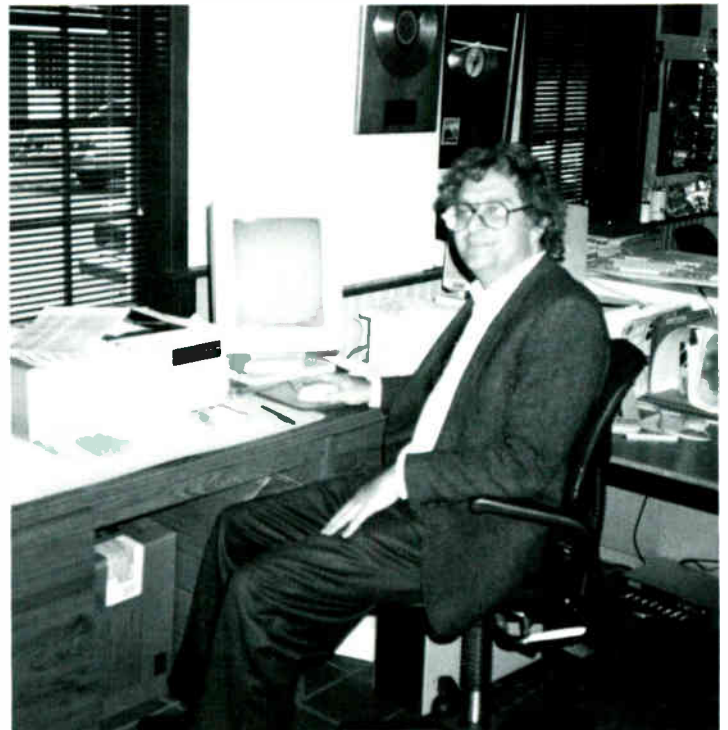

KLOL/Houston rode to the rescue when a threatened blackout of the local Houston-Browns game could have inflicted a viewing of Arnold Schwarzenegger's opus "Commando". A fate worse than death for millions of Texans, to be sure. Faced with that dire alternative, GM Pat Fant reached deep and sprung for the remaining tickets to insure Monday Night Football would, indeed, win the day. "We wanted to make a statement about the spirit of Houston and we wanted the whole country to hear it. That's why we just couldn't allow the game to be blacked out." The station took the unsold tickets and donated them to an area foodbank, encouraging listeners to exchange groceries for the tickets. In less than one hour over seven tons of food were collected. Can these guys promote their ass off, or what?

WRIF/Detroit needed some fill in help when morning guy Ken Calvert took off for some well earned vacation recently. The choice fell to comedian Bill Engvall, a veteran of "Live From The Improv" and various Showtime programs. Bill will be launching a full comedy broadside on the market with a number of fellow comics lined up for second banana duty.

WDVE/Pittsburgh was the most recent victim of the roving Weiner-Mobile recently. The occasion was a staff party and look how those female employees flock to this chunk of tube-age like moths to a 50 Megaton fireball. It's nice that the station provided a male chaperone to keep things in order otherwise things could have gotten ugly.

WPLR/New Haven gifted someone with a fully functional grasp of children's games recently when they staged a very serious round of "Simon Says" in conjunction with a local car dealer. The winner won a Plymouth Colt and the turnout saw well over 1,000 people touching their toes, running in place, acting like an armadillo, all the basic stuff. The 100 finalists were subjected to a huge game of "Musical Chairs" which saw the crowd getting more and more frenzied until, at last, a winner was declared.

Randy Newman looking pleased as punch with his new job as computer specialist at the Hard Report. Check us out for the details next week.

The Pursuit Of Happiness

Moe Berg is the lead singer and songwriter for the Canadian group, The Pursuit Of Happiness, who have in the past few weeks made an incredible nationwide radio sweep with their debut single "I'm An Adult Now". Call them tempted by Todd, fixated on love and almost too happy and you'll be 100% correct, because TPOH has whipped up an album that is undeniably witty, musically focused and overflowing with smoothly produced rock songs that boast a proud devotion to upbeat pop with a twist. There is no second guessing on their debut album "Love Junk" on Chrysalis Records, as the songs speak out with simple yet potent melodies guaranteed to catch you off guard. Already established as Canada's most promising group, The Pursuit Of Happiness are now aimed in your direction. Moe Berg fills in the blanks...

In Pursuit

I wanted to be in a band probably since I was four years old when I went out and bought "House Of The Rising Sun" by the Animals. I was in air bands when I was a kid, and basically working on this my whole life. I had a pretty good idea about what I wanted to do before I put TPOH together, a sound in my head and that I wanted to realize. Like I said, I had been in a lot of bands before and things didn't really seem to work out, and the goal was to create a rock band that played pop songs. TPOH is the perfect marriage between the hard edge sound with a lot of vocals, put together with a power trio underneath everything. This particular version of the band has been together since January of this year but we've been working on the concept for 2 1/2 years. The first two girls in the band went on to form another group.

Canadian Indie Scene

It's really good, I mean being a musician means making records so when we first started out we were only together for a few months when we had an opportunity to shoot a video for "I'm An Adult Now" with a film director friend. The video got a lot of airplay on the Canadian equivalent to MTV, *Much Music*, and this led to our first record. Our intention was to always make records whether we had a label or not. Many of the bands in Canada are lifted from the indie scene after they make an album or two, like the Cowboy Junkies being signed to RCA.

Spreading Happiness

I don't really know that much about promoting the record in America other than radio is starting to respond to it. I really went into this with no expectations. I think it's a good record and I'm proud of it, so I'd like as many people to hear it as possible.

The Todd Connection

Chrysalis sent him the tapes and he said he wanted to produce the record, kind of a boring story really. I'm a big fan. As a matter of fact I think he's the best producer in the world. So when I found out he wanted to do it I was overwhelmed. Todd's a brilliant man, incredibly articulate and he's got an interesting sense of humor. That's why we knew we could trust him, because he is so smart about music and records that we really

trusted him as a producer. The best thing Todd did the band was to keep us focused and to get incredible performance out of the band. We played 110% while we were in the studio and he got really good vocal performances out of the band and made sure the tempo was upbeat. And the sounds he wound up with as far as the vocals go are really great. And that's his trademark.

Rock radio and pop music - the missing link?

We heard a really nice compliment from one radio station that said they added TPOH because it was a "breath of fresh air". That's what we have to offer. We're not doing anything daring or completely original, it's just that our approach is what sounds fresh. If you interview any band they are going to say "We're doing this really interesting type of music etc..." I don't think most bands plan on playing mundane music that's gonna suck but sell. I think most people take what they do to heart, it's just a matter of aesthetics.

All that junk

Lyrically, the actual meaning of "Love Junk" will be learned after you hear the record. It's about all the things surrounding love.

Love may be a pure thing in itself but there are all these other things surrounding it like infidelity and sexual politics. That's the subject we decided on for this album, so that determined what songs were chosen. Todd has this idea that albums should reveal a single concept and be very focused, giving one message to people, because if you deliver too many conflicting messages it confuses people and they won't enjoy the record as much. And I basically bought that.

Looking For Girls

"Looking For Girls" is a pretty good example of my songwriting approach. The song is not exactly what it seems at first and the finale reveals that this guy is really looking for just one girl because in order to make love to one girl 487,000 times, well that would take a whole life time. I don't think people are pigs by nature. I think people are basically monogamous and looking for some stable kind of thing. But the whole mentality of when you go into a situation like that is sometimes you go out and have a really randy night where you just want to meet somebody! So I used that as the approach, like this guy is "insane" to meet a girl and he'll do anything to meet a girl but deep in his heart he just wants to meet the one to spend some time with.

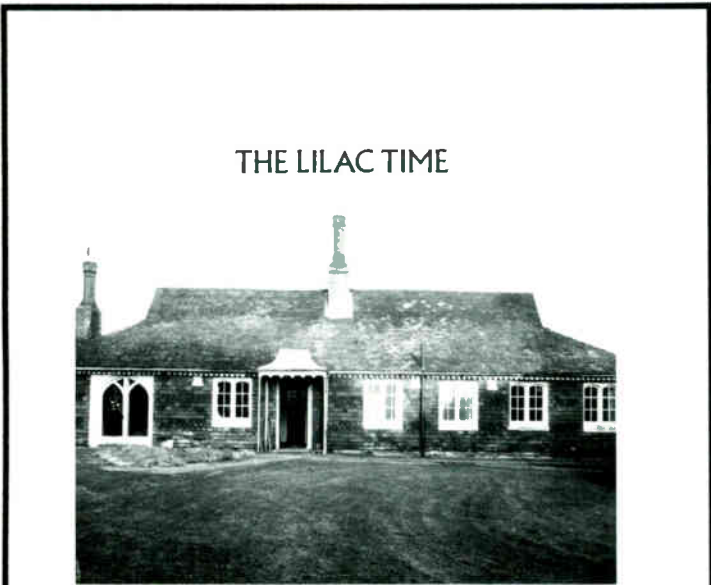

On the radio

It felt great... I had been in other bands before TPOH and heard myself on the radio then and it's a great feeling. But one of the best things that ever happened in that regard just sank it recently. About two months ago I was walking by this head shop in Toronto that displayed all kinds of drug paraphernalia and tee shirts and stuff and they had music blaring all over the street and then "I'm An Adult Now" came on and I just started screaming all over the place. I couldn't help but make a scene, I guess they heard me for blocks.

TPOH will embark on a tour for the next six months and begin piecing together the next album in between. Thanks to Moe Berg and Chrysalis' Jill Maxick for making this page possible.

PICKS

THE LILAC TIME

The Lilac Time (Mercury) The proverbial pool of quality British pop music has been drying up over the past year or two. I'm talking about bands that can outshine the temporary spotlight of exposure and literally make you chase them for years to come. Stephen Duffy's Lilac Time offers a sincere and miraculous performance on this debut album. Drawing from somber, poetic lyrics and acoustic shades of guitar and banjo with a tender touch of keyboards, it's obvious that this caravan has made the most progress by moving at its own speed. And they use up every moment to develop each song and make the countryside come to life with atmospheric earth tones and Duffy's soothing voice. What seems like simply song structure, quickly unfolds with subtle, haunting echoes and rolling, blue melancholy that intermittently adds a touch of drama to an already captivating musical plot. The Lilac Time have easily set a new standard of pop into motion treasures like "Return To Yesterday" with its shuffling guitar momentum; the solace of "The Road To Happiness"; the inspired folk banjo and galloping beat of "Trumpet From Mont Parnasse"; the distant, dark touch of Love & Rockets in "Rockland"; "You've Got To Love" could outwit Paul Kelly fans; the slow, airy tales told in "And The Ship Sales On" and "Love Become A Savage" ;and "Together" could be the mainstream fish out of water on this glorious display of emotion and talent. The Lilac Time is in full bloom and ready to please intelligent pop admirers everywhere.

The Dead Milkmen "Beezlebubba" (Fever/Enigma) There is a lot more to the Dead Milkmen's fourth release than what is probably the album title of the year (the devil made them do it). By now, these dastardly Philly boys have positioned themselves among the cream of the crop at college radio with songs like "Bitchin' Camaro", "The Thing That Eats Hippies" and "You'll Dance To Anything". They return in a similar funny fashion, sporting a new breed of rock's rotten to the hardcore songs gone soft. But they still pull pop shots on America's issues and icons with a humorous vengeance, which is why the Dead Milkmen are not only timely, but always seem to be on a roll. The songs on "Beezlebubba" scream for your attention and some stand outs that immediately scratched their way to the surface are "Punk Rock Girl", "My Many Smells", "Life Is Shit", "Everybody's Got Nice Stuff But Me", "Smokin' Banana Peels" and "Bleach Boys". The titles alone could start a five-alarm blaze, so just imagine these guys burning up your airwaves.

The Wolfgang Press "Bird Wood Cage" (4AD/Rough Trade) The tension filled sound of the Wolfgang Press seems to travel through time without recognition of outside forces. The fluid, cavelike song treatments and sinister percussion weaves in and out of every dark chamber, with a certain ghostly spirit that is now their very own trademark. Slick production adds a reptilian feel to the scenario and poses a clean contrast to their otherwise underground approach, making "Bird Wood Cage" another example of their calculated collection of releases to date. This

is swamp rock with guitars practically phased out, beefed up with chilled-to-the-bone synthesizer and techno-tactics. "King Of Soul" originally appeared as a single and opens the album to other eerie adventures like "Hang On Me"; the howling tease of "Bottom Drawer"; the stuttering pressure of "Raintime" and "Kansas"; and the rhythmic cacophony of "Shut That Door".

NEW RELEASES

From across the Pond, a new single from **The Stone Roses** will surface out from under all the material weighing you down. "Elephant Stone" ricochets with high energy dance appeal, splendid melodies and light hearted guitars on the Silvertone Records import only 12" produced by New Order's Peter Hook. Just to raise an early flag, the full length album will appear early next year so watch for the Stone Roses to make an impressive debut very soon.... **Sandie Shaw's** new album "Hello Angel" is also available on Rough Trade as an import, the title track being inspired from a postcard she received from Morrissey. You may recall that she co-wrote "Hand In Glove", and also recorded the song a few years back. This is only the tip of the iceberg where this pop songstress of the sixties is concerned, and this album is a definite must for Shaw followers everywhere.... They want it All. **The Descendents** plus one equal All, a gruesome foursome from Southern California who have just released "Allroy For Prez..." a week too late but still a strong candidate for alternative radio exposure. This six song Ep offers the solid grind of guitars and speed pop mixture

that put 'em on the map last year, eventually earning Top 30 college radio airplay status. Dig into songs like "Skin Deep", "Postage" or "Son-O-Qua" and sample more seething riffs to jump start sluggish listeners.... The intricate electronic overdrive of **Manufacture** is captured in its computerized glory on "Terrorvision", brand new from Nettwerk Productions. As the first American band to be signed to the label, the nature of their music is bound to make a stateside entry into the progressive club scene. The sampled, fast paced moments fall into a controlled rage that's bound to send minor shock waves through dance circles, and eventually spread out like shattered glass. They break a few rules and create some new ones with tracks like "Terrorvision", "Bond Street Station" and "Armed Forces".... **The Full Time Men** are back with a mile long list of special guest appearances on their new album, "My Fist Your Face". The core of this exciting New York based band are none-other than Fleshtone Keith Streng and his entourage, with an added touch of talent provided by Peter Zarella; Dave Faulkner of the Hoodoo Gurus; Pat DiNizio of The Smithereens; Stiv Bators and Peter Buck. The anthem packed, psychedelic party atmosphere has never been stronger and this Lp touts some oldies but goodies like "High On Drugs", "I Got Wheels" and the remake of Holland/Dozier/Holland's "Baby Don't Do It". You can't run, you can't hide and you can't get away with a part time job on this record. Full Time Men are workin' harder than ever to play that music and leave nothing but a good time behind. Coyote Records is your connection: P.O. Box 112 Uptown, Hoboken, NJ 07030.... There's excitement brewing for Nanci Griffith's new album, recorded live with one lone voice and her acoustic guitar in hand. With a voice that would melt an iceberg and country songs that emit a music box type melodies, she conjures up American southern folk music in its purest form. Hearing her perform in such a personal setting obviously proves that this album was only a matter of time. So get ready to smooth out that rocky road with sweet songs like "Spin On A Red Brick Floor", "Trouble In The Fields", "Once In A Very Blue Moon" and "More Than A Whisper". Take me to Houston.... Minneapolis band **Trip Shakespeare** have released "Are You Shakespearienced?" on their own record label, as local reaction would not wait for them to shop around. KABL's Mark Miller confirms the hometown support with #1 Most Requested status to report. In the city that witnessed the birth of Prince, Trip Shakespeare offers a grittier vehicle for their equally inventive dissonant vocals. For all of you audiophiles, there's no cosmetic mask to be found on this record. Deafening reverb and feedback is abandoned for lyrics like "Fine black baubles from the liquor root" etc... They're half a continent from Jimi's guitar obsession, but slightly closer to Morrison's literary bent. Brothers and guitarists Dan and Matt Wilson and bassist John Munson have a vocal connection that many band mates only dream about. They are on the brink of

a major label deal that could see them reaching for the stars. Check out "Diane", "2 Wheeler 4 Wheeler" and "Spirit". Write to Shakespearicon, P.O. Box 8656, Minneapolis, MN 55408.... **"Smart Music For Smart People"** is a very special CD only release of some very notable New York area bands plus a few added surprise performances by Immaculate Fools and The Malarians (Massachusetts based). Other acts include Bouncing Off Bob, The Red House, Original Sins and Maximum America. There is strong musical representation from the region that could surprise everyone who thought New Jersey was Bon Jovi and Bruce exclusively! The Hard Report's million dollar music director Mike Marrone wrote the liner notes for this impressive package, and availability is limited so write to BNM Inc., P.O. Box 1113, Clifton, NJ 07014-1113 for a copy.

CHARTSTARS

The Waterboys "Fisherman's Blues" (Ensign/Chrysalis) First week success sees 32 out of the box adds from KACV, KJQN, KROQ, KTCL, KUNV, KUSF, WBNY, WCDB, WFIT, WFNX, WHFS, WLRA, WMDK, WOXY, WRVU, WTSR, WVVU, WWVU, WXCI and WXRT for the highly anticipated release and highest debut 6*. This is one of the strongest first week showings this year. A number of factors led to the eager reaction: a 3-year recording hiatus, a 1986 solo record by Karl Wallinger, and an increased American awareness towards groups imported from Ireland and its neighboring geographic countries. "World Party" was co-written by Wallinger before he went on to form his band of the same name, a song that seems to pull in big praise no matter who sings it. Other standouts include "We Will Not Be Lovers", "And A Bang On The Ear" and the title track "Fisherman's Blues". Lin Brehmer at WXRT says, "The long-awaited Waterboys album features a masterpiece entitled 'World Party'. The record on the whole reflects an increasing use of acoustic instruments in popular music".... Helen at WFIT says, "My favorites are 'We Will Not Be Lovers' and 'Fisherman's Blues'. They haven't let me down yet".... From WUOG's Beth Hoepner, "It was worth the wait for a masterpiece from Mike Scott. This album will definitely go high on our list, already getting lots of response.... And from WLRA's Anthony Musiala, "The single 'Fisherman's Blues' is really good. I'm glad to see them back. This will expose them to a wider audience".... and to borrow from KRCK's Paul Kriegler, "This album was well worth the wait."

Big Dipper "Craps" (Homestead) As one of this week's biggest chart movers, Boston's Big Dipper have not disappointed anyone with the new album. "Meet The Witch", "A Song To Be Beautiful", "Hey Mr. Lincoln" and

"120 Minutes" airs Sunday at midnight EDT. Printed courtesy MTV Networks, 1775 Broadway, NY, NY 10019.

"Bonnie" bring in early raves from stations like 91X, WHTG, KTCL, WRAS, WVVV, WFNX, KCPR, WFIT, WBCN, WOXY, KTAO, KRCK, WMDK and more.... Paul Krieger at KRCK reports "This is a good rockin' album, and I like it even better than the last".... Joe Simon at KTCL sees "Huge potential".... WRVU's John Koski mentioned it as "A favorite of the week".... Greg Vegas at WXCI reports "Big airplay gains here".... In summary, Big Dipper is just beginning another solid run at the station base who helped spread the world since day one. Don't let your listeners down!

Sonic Youth "Daydream Nation" (Blast First) This could be considered the "breakthrough" album for New York City's Sonic Youth, who have been ruling the underground club and press scene for quite some time. This band will certainly go down in the history of the 80's new music scene, but I guess that's jumping ahead of the story. "Teenage Riot" is currently available on 12" as well as the album, and this track is what has radio programmers standing up for.... WXRT's Lin Brehmer says "Initial reaction to Sonic Youth's 'Teenage Riot' is excellent".... Tim Ziegler from KUSF hails this as "Album of the year".... WWUH's Dave Zaluda says "The new Sonic Youth is amazing, and could break through the underground barrier".... The album moves 48-37* this week thanks to support from WFNX, WOXY, KRCK, KTCL, WBER, KDVS, KUSF, WLRA, WRVU, WXRT, KCMU and more.

Ministry "The Land Of Rape And Honey" (Sire) Al Jourgenson takes no prisoners this time and this rip roarin' assault of mean rhythm tracks is just what the bad boys ordered. "Stigmata", "Golden Dawn" and "You Know What You Are" are the songs to reach out and cue up, as stations like KABL, KUSF, KRCK, WCDB, WDET, WLRA, WOXY, WRAS, WRVU, WTSR, WUNH, WUOG, WWUH already know. And top 5 requests mentions from WFNX, WBNY,

WLRA, WOXY, WUNH and WUOG are early indications that listeners agree. The album lands at 30* this week with a strong network of support bound to send it even higher.... Beth Hoepner at WUOG says "This album has caught on quick for us. I like the industrial sound much better, it shows a great new direction for the band".... Tim Ziegler at KUSF was "Forced to put the record into heavy rotation after they played in San Francisco".... Helen Urriola at WFIT confirms "This is a great album, harsh, noisy and response is amazing. Both the staff and audience love it."

KABL P.D. Mark Miller greets Midnight Oil's Peter Garrett during his second stint across America. He took time to discuss the current cultural state of affairs in Australia.

HEAVY HITTERS

Powermad, "Powermad" Ep, Reprise....

Formed in Minneapolis in 1984, this power metal/thrash quartet are the first of their kind to be signed by Reprise. The band's lineup consists of lead vocalist Joel DuBay (24), Adrian Liberty (23), Jeff Litke (23) and Tom Haug (19) who replaced guitarist Bill Hill in late '86-87. The band features a hard driving sound, focusing heavily on grinding guitar interaction and the vocal flexibility of DuBay. When I saw them live recently, I was impressed by their confident stage presence and the intense energy that bounced back and forth between them and their crazed audience. (The circular moshing was something to behold). So, while we await their first full Lp, (which they start recording in late Dec./Jan. all 4 tracks on the Ep ("Gimme Gimme Shock Treatment" - a la the Ramones, "Hunter Seeker", "Blind Leading The Blind" and "Terminator") should hold the masses over nicely. (Look for a radio only CD to be coming too) There is a song however on the forthcoming Lp called "Nice Dreams" that promises to be a monster. This band has definite potential and as Joel was quick to add, "Powermad is dedicated to putting the fun back into metal. What we're trying to do is get away from the doom and gloom side of metal. We're a positive band with a ton of energy live and we deliver more bang for your buck." What more could you ask? (C.B.)

Manowar, "Kings Of Metal", Atlantic....

For a number of years now, this band has been a force to be reckoned with in the ever-changing world of metal. By stating their beliefs without shame, they've also earned a reputation as being arrogant and rebellious. Their image of being the only remaining non-poser band on the planet has also raised quite a few eyebrows in the metal community. No doubt none of that will change with the release of their new album. This record has all the power and precision you've come to expect from these self-proclaimed Kings of Metal with one little twist: This will be the last Manowar record to feature the guitar talents of Ross The Boss. Those of you who attended the premier party at the Cat Club during the CMJ convention had an opportunity to see and hear his replacement, the "Death Dealer". In any case, this is one of the best efforts put forth by this band since the days of "Into Glory Ride". Even though the advance we received from Atlantic wasn't accompanied by any artwork or information about the record, (including a track listing), I can tell you that the title track and "Hail And Kill" are definitely the Lp's highlights. For those of you male chauvinists out there, (you know who you are), be sure to check out the CD bonus track "Pleasure Slave" as well. As Joey DiMaio would say, death to false metal... etc, etc, etc. (J.L.)

Candlemass, "Ancient Dreams", Metal Blade....

With titles that read like chapters in an Anne Rice novel (The Vampire Chronicles - read them they're wonderful) a la "Ancient Dreams", "Darkness In Paradise", "Incarnation Of Evil" and "A Cry From The Crypt", Messiah and his lynchmen are back and as dark, though not as heavy as ever. It seems like just a short time ago that we were heralding in "Nightfall" while Messiah and Leif did their doom dancing through the Metal Blade offices while balancing beer bottles on their massive bellies. Ah, those were the days. So what do we have here in "Ancient Dreams"? Yes, more of the oh so Gothic anthems that we've come to expect from these guys, but instead of an overly heavy doom feel, we get instead a more upbeat package. Quicker rhythms, lighter chord progressions and clear, expressive vocals this time out, make for an entirely different listening experience than you might expect. The crystal clear production creates and allows for real atmosphere and mood. Candlemass' music is still an acquired taste, due to the overly dramatic nature of their music, but for those who revel in Gregorian chants and esoteric lyrics this is what you've been looking for. Judging by the strong success of "Nightfall" last year, these guys are going to be around for awhile. (C.B)

Realm, "Endless War", RC Records.... This critically acclaimed progressive-thrash quintet first caught the attention of many an educated ear with the release of their 1:58 version of the Beatles' classic, "Eleanor Rigby". Which, by the way has been hailed by such metal luminaries as (MJI Metalshop producer) Mark Snider as the best cover song of the year. The track is also this week's #4 Most Added Metal. This week, you'll be able to hear what this band really sounds like. Their original material, and this may be too much for you to handle all at once, has the complexities of Queensryche, the vocals of Hittman and the speed of early Slayer, all rolled up into one neat little petroleum by-product package. The contrasting melodic patterns of vocalist Mark Antoni and guitarists Takis Kinis and Paul Laganowski give a slightly classical sound to the music. The rhythm section of drummer Mike Olson and bassist Steve Post on the other hand, definitely allows for some serious headbanging with their speed and power. Check out "Mang", "Eminence", "All Heads Will Turn To The Hunt", "This House Is Burning" and the title cut. (J.L.)

CHART AX-SHUN

Holy Terror, "Mind Wars", Roadracer.... This band has been raising quite a stir of late on our charts and we thought it only fair that we get an opportunity to mention that after two weeks on the Most Added Metal chart, (#3 last week), this band of mosh-types was our second highest Hard Hitters debut at 32*. This record is vastly superior to their last one and is deserving of any and all accolades that can be afforded it, (pretty nifty vocab, don'tcha think?). Take a good hard listen to the cuts "The Immoral Wasteland", "Damned By Judges" and "Mind Wars" as well as "Judas Reward". (J.L.)

Dokken, "Beast From The East", Elektra.... With one full week on the airwaves under their belt, Dokken has proven that their fan base remains as loyal and supportive as ever. Says WGIR's Mike Jones, "A double live Dokken package is welcome here anytime. Rock 101 plays lots of Dokken and I've been featuring various cuts on my nightly "Live Rock" show." This week "Beast From The East" debuts on Hard Hitters at 26* with quality airtime at: KNAC, WCWP, WGLS, WHJY, WHMH (Heavy), WKNC, WPYX, WRTN, WRXK, WTSR, WZMB, Z-ROCK, KFMH, KRSR, KSJS, KTEC and KZEL, while pulling top phones at WHMH, KFMH and WCWP. (C.B.)

Motorhead, "No Sleep At All", Enigma.... No surprise at all to us that this great live Motorhead expose should storm the charts, leaving the young rookie bands reeling in their wake. A week into it's debut on the chart at 29* it now slides easily into 19* while solidly nailing the #5 Most Requested Metal slot. It would take forever to list the stations pounding trax off this record, so suffice it to say it's practically the whole damn lot of ya. Cuts gettin' air include: "Eat The Rich", "Built For Speed", "Overkill" and "Ace Of Spades". Also note that included on the CD are two extra tracks that aren't even listed, those being "Metropolis" and "Stay Clean". Enjoy. (C.B.)

METAL FILINGS

-The wonderful Derek Simon gave us a call to say that it's now official that Majesty have changed their name to Dream Theater.

-Mucho congratulations to our real good buddy Jessica Harley on her move to Megaforce Records and 45 or so minutes from the Hard Report. As always we wish her the very best of everything and a good time working with her absolute favorites Testament.

-In Metal Blade news Cheryl V. announces the appointment of Tom Miccuci as her new "metal slave". Tom will be helping out with Radio Promotion and all that jazz on Mondays, Wednesdays and Fridays. Call and say hi. Also Metal Blade announces their signing of Mission Of Christ from Canada. They have also signed Angkorwat and Intruder. More info as we get it.

-Finally, we've gotten word on the next release from the great band Lion. It seems their new Lp will be released on Grand Slamm Records in January. So keep your eyes and ears peeled for what should be one of the hottest releases of the

new year. Also coming from Grand Slam are two greatest hits packages that should get the masses going. First "Lizzy Lives, 1976-1984" - a collection of some of Thin Lizzy's greatest hits including "The Boys Are Back In Town", "Killer On The Loose" and "Are You Ready". Next up is from Riot. "Born In America" will feature tracks spanning the era from "Fire Down Under" to the highly successful "Thundersteel" of last year. No word yet on an official release date for either of these comps.

-Well, it seems that the long-awaited "tour of the century" is finally underway. Metallica, (with Queensryche in support), is coming soon to a town, city, or venue near you. As always, in our never ending struggle to keep you informed, we can now furnish you with the latest in confirmed dates. 11/21-Madison, WI; 11/22-Milwaukee, WI; 11/24-Indianapolis, IN; 11/25-Detroit, MI; 11/26-Richfield, OH; 11/28-St.Louis, MO; 11/29-Kansas City, MO; 11/30-Oklahoma City, OK; 12/2-Albuquerque, NM; 12/4-Phoenix, AZ; 12/5-San Diego, CA; 12/7 + 12/8-Long Beach, CA; 12/10-San Francisco, CA; 12/11-Sacramento, CA; 12/13-Fresno, CA; 12/14-Reno, NV; 12/16-Salt Lake City, UT and 12/18-Denver, CO. We'll get the next batch of dates to you as soon as they come in.

QUEENSRYCHE CAPTURED

Speaking of the greatest band ever to strike a note, we recently had an opportunity, (actually three opportunities), to see them in support of Def Leppard. The band, aside from being the nicest bunch of guys you'd ever want to meet, is astounding on stage. Luckily, we managed to squeeze off a few shots during our backstage encounter.

Have you ever experienced pure, unadulterated ecstasy? If not, you can see what it looks like on the face of the one and only Chris Black. Here she is with the Golden Throat, Geoff Tate.

And here it is again, only this time she's not alone. Pictured here, (clockwise from Scott), are Scott Rockenfield, Chrisby, the Slave, Janet Getchell and the Slave's buddy Dave (from Without Warning).

-In other pertinent tour news, Testament is still on the road, only now they are supporting Combat recording artists Raven. Here's all the available dates for that one: 11/29-Providence, RI; 12/1-Boston, MA; 12/2-Brooklyn, NY; 12/3-Bayshore, NY; 12/4-Philadelphia, PA; 12/6-Washington, DC; 12/7-New Rochelle, NY; 12/9-Montreal, Que; 12/11-Toronto, Ont; 12/12-Penn Hills, PA; 12/13-Cleveland, OH; 12/14-Columbus, OH; 12/15-Cincinnati, OH; 12/16-Detroit, MI; 12/17-Grand Rapids, MI; 12/18-Chicago, IL; 12/19-Milwaukee, WI and 12/20-Minneapolis, MN.

THIS LOOKS LIKE A GOOD PLACE FOR A...

That's right, it's those Fates Warning dudes again. Shown here, at the WUSB studios displaying the eternal magic of "post-its" are 'USB's Dawn Marie Rondon, Frank Aresti and Ray Alder. Thanks to Cheryl V. for the photo.

YO BILL, WATCH THE FEET!

What is this, Round 2? It looks as though Megadon will take anybody on in his quest for the right side of the bed... even someone he's not rooming with. CMJ's unlucky victim was none other than Bill Fisher. Here we see him attempting to get the Mega-one in a "figure-four leg-lock" while screaming all the while, "I'm Winning!". You make the call....

MORE WHITE GUYS LACKING RHYTHM

Attempting to rap in what has got to be New York's smallest nightclub, (the Sanctuary), are just a few more of our friends from far-away lands. Pictured from right are WIDR's Mike Divald, Val Allgrove, WKNC's "Dimples" McCafferty and Steve Prue and Ris Happy-Face.

METAL MUSIC NEWS

Greetings to one and all from Metal Control Center deep in the heart of Queens, New York. This is Sal "Earl Of Earache" Treppiedi with this week's metal from around the world. If you're ready, take it away Maestro.

Have you made your plans for New Year's Eve yet? Here is something you might want to consider. If your band account is speaking the same language that you are, you may want to fly to Tokyo, Japan and spend New Year's Eve with **Bon Jovi**, **Britny Fox**, **Ratt** and **Kingdom Come**. In what is being billed as the Japanese Monsters Of Rock, these four bands will play inside Tokyo's brand new 55,000 seat Tokyo Dome. Sounds like a great bash.

Guitar virtuoso **David T. Chastain** has just finished work on his second instrumental album. The album will be entitled "Within The Heat" and is expected to feature a more varied selection of material. Look for the album to hit the stores in February. Meanwhile, **Chastain** (David, vocalist **Leather**, bassist **Mike Skimmerhorn** and **Les Sharp** on drums) will continue touring the eastern half of the states. Also, **Leather** has just begun work on her forthcoming solo platter.

Former Mercenary recording artists **Victory**, have resurfaced with a new vocalist and new material. Many should recall the Lp entitled "Don't Get Mad, Get Even" that was released by Victory on Mercenary back in August of 1987. Around the spring of 1988, they experienced personnel problems when vocalist **Charlie Huhn** left the band to become vocalist for the reunited **Humble Pie**. Since then, the band has been auditioning numerous vocalists in search of a replacement for Huhn. Now comes word that the band has found their man. His name is **Fernando Garcia**. The rest of the band has remained intact. That line-up features former **Accept** and **Sinner** guitarist **Herman Frank**, **Tommy Newton** (co-producer of **Helloween's** "Keeper Of The Seven Keys, Parts I & II), **Fritz Randow** (drums) and **Peter Knorn** (bass). The band are currently working on a new album which is tentatively titled "Culture Killed The Natives". The band is currently shopping for an American deal. We'll keep you posted on this.

According to Kerrang!! magazine, rumors of a **Led Zeppelin** reunion are growing stronger and stronger. The item claims that "whispers" of the band's hiring of a road crew have been heard. They also say that **Atlantic Records** and a spokesman for **Robert Plant** have denied those rumors.

According to published reports, former **Grim Reaper** vocalist **Steve Grimmett** has joined British thrashers **Onslaught**. **Grimmett** replaces outgoing **Sy Keeler**. The band is currently putting the finishing touches on their next album which is expected to be entitled "In Search Of Sanity". The

band originally completed the record with **Stephen Galfas** (**Stryper**, **Savatage**) but then, at the urging of their record company, decided to let **Keeler** go. After bringing **Grimmett** into the fold, the band proceeded to go back into the studio and re-record the vocal tracks. Look for the new album soon.

According to Jon "Vertical Hyphen" **Sutherland**, **Lizzy Borden** is "getting into his coming out". After being in hiding for several weeks, **Lizzy** is back with some prospective new band members. According to **Sutherland**, **Lizzy** will still have **Joey Scott** on drums. But, his new guitarists are expected to be **Ron Cerrito**, a relatively unknown from the **Big Apple** and **Paul Lydell**, formerly of **Dirty Looks**. **Lizzy** has finished writing his new album which is expected to be entitled "Master Of Disguise". **Lizzy Borden** will be heading into the studio in January.

Italian guitar virtuoso **Alex Masi** will be putting out a solo instrumental guitar album on **Metal Blade Records**. **Alex** is currently trying to put together an all star line-up to appear on the record.

Finally, former **Warlock** guitarist **Tommy Bolin** is putting together a solo act. **Tommy** has chosen New Yorker **Scott Fury** to be the vocalist for this project. Also, **Bob Daisley** has apparently committed to producing the band's demos following completion of his commitment to **Gary Moore**.

That's all for this week. Just a reminder to all you publicist and radio people. Get your bands ready because the time to give your New Year's resolutions is drawing near. That's right, the Earl's "2nd Annual New Year's Resolutions Column" is just around the corner. Look for it. Until next time, this is Sal "Earl Of Earache" Treppiedi reminding you that it's not how wide or vertical you are, it's how good looking the girls that hang around you are. MUYA!!!

Ozzy Osbourne says he's not too pleased with the way he was portrayed in **Geraldo Rivera's** recent NBC-TV special, "Devil Worship." Rivera suggested that Osbourne's music is connected with Satanism and his lyrics condone suicide. "I thought the man (Rivera) was very brutal in that he would spend five minutes asking a question and then give me five seconds to answer," Osbourne says. "But I have never in my life -- and I'll put my hand on a stack of Bibles about this -- taken part in any black magic ritual or anything like that." Osbourne says people have suggested his lyrics promote suicide "for years, and it's stupid of them to even think that I'd do something like that. It's certainly not my intention." Osbourne says he might take some jabs at Rivera on his next album, as he does on his current album, "No Rest For The Wicked," with television evangelists. "They were always putting my records down and saying I was the anti-Christ, and it turned out they weren't so holy after all," Osbourne says.

Tom Waits has filed a multi-million lawsuit against **Frito-Lay** and their advertising agency because they're using someone who sounds like him in their radio commercials for "Salsa Rio" Doritos. The suit asks for \$2 million in punitive damages, unspecified actual damages and profits that Frito-Lay has made because of the ads, claiming that the advertisements infringe on his right to license the use of his voice.

Fleetwood Mac's "Greatest Hits" album will include two new songs when it's released later this month. "As Long As You Follow" was written by **Christine McVie** with her husband, **Eddie Quintela**, and "No Questions Asked" was written by **Stevie Nicks** and **Kelly Johnston**. Compact disc and cassette versions of the LP will include three more songs than the album. The new tracks mark the recording debut of new Fleetwood Mac members **Rick Vito** and **Billy Burnette**, who joined the band for their 1987 tour.

Dickey Betts says he met his guitarist **Warren Haynes** about six years ago when Haynes was playing with country singer **David Allen Coe**. "I was really looking for the exact person that fit my idea for a band, and Warren was the one," Betts says. "I like the way he plays slide. He's fresh and has a nice approach to the guitar. He's from the old **Duane Allman** school, which is close to my heart. But even though he does remind you of **Duane Allman** when he plays, he never copies his licks. He's very original, and we jam together well. Improvisation is fantastic when I'm playing with Warren. We freeform a lot onstage."

Members of **Skinny Puppy** say they're pleased with their current U.S. tour, even though they've had their hassles. In addition to being arrested in Cincinnati, they almost lost their prop dog, **Chud**, in Detroit. The dog, which the band uses in its act, was swiped by a female fan who sneaked backstage after the show. Just as **Cevin Key** and the rest of the band were noticing its absence, "a skinhead with a big huge Mohawk" told them he might have some information on the theft. They finally found the dog's trail at a suburban Detroit house the next morning. "We cruised up to her parent's driveway, and there was **Chud**, locked in the car," Key says. "We went up and knocked on the door and told them what was going on. The parents thanked us for not calling the police." But **Chud** caused more trouble for the band in Cincinnati, when band members were arrested because someone complained that the band had performed surgery on a real dog during their show. "It was pretty ridiculous," Key says. "It reminded me of 'Rambo,' how the agitation factor was pushed behind the human realm. The relationship that I've always had with policemen is to be able to talk to them, but these guys, you just couldn't reason with them. It's pretty obvious that it's a pop dog -- (singer **Nivek Ogre** does a very drastic vivisection." Key, **Ogre** and tour manager **Dan McGee** were detained for a couple of hours and then released after paying a \$200 fine. "The irony of the whole thing is that we're arrested for something supposedly going on in our show that goes on one out of every three seconds in experimental labs around the Cincinnati area where animals are tested."

A pair of **David Bowle's** sneakers sold for \$300 and an autographed **Bob Dylan** harmonica sold for \$1,500 at an auction benefiting the Philadelphia Music Foundation. The proceeds from the event, over \$25,000, will go to benefit a scholarship and other education programs. A **Kramer** guitar donated and signed by **Eddie Van Halen** went to an anonymous buyer for \$2,900, and a 1981 **Buick Regal** autographed by **Bruce Springsteen**, **Sting** and many other artists, went for a mere \$2,000.

Ringo Starr and his wife, **Barbara Bach**, are being treated for alcoholism at a U.S. clinic, according to former Beatles press agent **Derek Taylor**. "Ringo wanted this to go public because it was already seeping out through fellow guests at the clinic," Taylor says. He says the couple are halfway through an eight-week program at the facility, which he would not identify. "They are free to leave at any time and go straight to a bar, but the implication of the message (Ringo) left was that they both want to complete the treatment in peace and quiet." Starr and Bach recently finished taping a children's program for PBS-TV, called "Shining Time Station," which will air in January.

Jerry Lee Lewis has filed for bankruptcy, claiming debts of \$5 million, including \$2 million owed to the Internal Revenue Service. His federal bankruptcy petition filed in Memphis says he owes almost a million dollars to the Whiskey River Club in Nashville. Lewis was acquitted of federal income tax evasion four years ago, but he still owes the IRS money.

Atlanta's **DB Records** will soon release a 70-minute Pylon album, "Hits," which will include most everything the band released, including the singles "Crazy" and "Cool." The album will also include a booklet, which is still being written by band members.

Lynyrd Skynyrd have a home video out, of the "Lynyrd Skynyrd Tribute Tour." It's narrated by **Charlie Daniels** and includes concert footage shot at the California Expo in Sacramento and the Shoreline Amphitheater in Mountain View. It also includes some early footage playing in 1971 at the Friendship Fountain in Jacksonville. Band members, their families and crew members also talk about the band in the homevideo. Some of the proceeds from sales of the tape will go to the Miami Project to Cure Paralysis, where former Skynyrd guitarist **Allen Collins** will undergo rehabilitation for paralysis he suffered in an auto accident. The video will not be made available in stores (and can be purchased by calling 1-800-55-FEVER.)

Eddie Money says he had to battle to retain his artistic freedom on his new album, "Nothing To Lose." He co-wrote five of the songs on the LP, but he says his label forced him to record songs from songwriters **Jesse Harms** and **Dianne Warren**. "I fought like a dog to get my tunes on there," Money says. "You gotta remember, I hated 'Take Me Home Tonight.' If **Ronnie Spector** hadn't helped me with the really stupid parts...I don't know if I could've done it. But I'm pretty happy with the way things went on this record. It rocks more, and we found outside material that I can relate to better than the last album. **Jesse Harms**, who wrote 'Walk On Water,' is an old friend, so he tried to write a song I'd feel good about." The album also reunited Money with guitarist **Jimmy Lyon**, who worked with Money early in his career, and the duo has already begun writing songs together in the hopes of having Money's next album include on his own tunes. "I'm not kvetching," Money adds. "You gotta remember, I'm one of the biggest crybabies in the music business. I've been doing it too long to stop complaining all of a sudden."

A copy of **Pink Floyd's** new live album will go into space with the crew of **Soyuz 7**, a joint French-Soviet space mission which blasts off November 26. One of the cosmonauts displayed the tape when asked at a new conference what they would be listening to while in space. Members of **Pink Floyd** have been invited to attend Soviet launch, but it's not known if they'll accept the offer.

Just as a new album, "Body Talk," is being released (on **Twin/Tone Records**), the Minnesota band **The Wallers** has announced it is breaking up. **Steve Kramer** had made the decision earlier this year and told his colleagues in the band, but the decision hadn't been made public. The band does plan to tour to promote the record and pay off any remaining debts. The band's last show will be in Minneapolis on January 23. "For

me, it wasn't going anywhere," Kramer says. "Two years ago, I couldn't get anything out of it as far as it being a spiritual experience of getting excited about the ideas. I think everybody (in the band) saw it coming."

Dan Baird of the Georgia Satellites says he's pleased at the success of "Hippy Hippy Shake," from the "Cocktail" soundtrack. But he still has some misgivings about the tune, which isn't included on the band's "Open All Night" LP. "It's great for the movie, and it was a lot of fun to do," he says. "But it wouldn't fit on the album. To tell you the truth, we never would have thought of doing it had we not been asked. We're not embarrassed by it. It has a couple of things going for it. It's a really short song, which I think is a cool thing. And it's not that it would sound out of place on the album, because we cover 'Whole Lot Of Shakin' (Going On,' too. But the question of re-releasing the album with the single hasn't come up, so I'm not going to comment." He says he hopes the track puts the band in the top 40. "That may or may not happen," he admits. "If it does, we'll be the hot new guys again, and we can follow up with something off the album like 'Shiela.'"

The American Academy of Pediatrics says teenagers are watching an average of two hours of rock music videos on television daily. With the exception of performance clips, the academy says 75 percent of the videos are sexually suggestive and 56 percent are violent.

Ozzy Osbourne had to cancel the second date of his U.S. tour because he found that his elaborate stage equipment would have to be redesigned before it could be fitted onto trucks to move it from show to show. The "No Rest For The Wicked" tour opened in Pensacola, Florida.

Ratt drummer **Bobby Blotzer** won the Dodge International Star Challenge 1988 Championship Race at the Del Mar Fairgrounds during the Camel Grand Prix of Southern California. Blotzer was 0.62 seconds ahead of Ted Nugent, and Tommy Lee, drummer for Motley Crue, finished third.

Wet Wet Wet are releasing an album of sessions they recorded in Memphis with producer Willie Mitchell. "The Memphis Sessions" have been in the can for a couple of years because the band's record company didn't think the songs were commercial enough.

The newest album from the **Wedding Present** is called "Ukrainski Vistupi V Johna Peela," which roughly translated means "the Ukrainian Sessions of John Peel (the prominent British DJ)." All the material on the album is based on original Ukrainian folk songs recorded for two Peel sessions earlier this year.

Gaye Bykers On Acid are rumored to have changed their name. Their British record label has been calling them Lesbian Dopeheads on Mopeds for a while, and they're said to now be calling themselves Dopes On Bikes.

Iron Maiden's Bruce Dickinson is planning a solo album as the band takes next year off so that members can have some time to rest. He's also hoping to find a publisher for a book he's written. "It's about an eccentric Scottish, semi-transvestite laird," Dickinson says. "He lives in a remote castle in the north of Scotland, with no money and no electricity, with a semi-criminal butler, obsessed with a plan to build the perfect mechanical penis."

The Sons Of Freedom say their new self-titled album (on Slash Records) has political themes, but they don't want to be considered a "political band." "The most important thing to us is the music," says vocalist and guitarist Jim Newton. "We do have some kind of message we are trying to get across. I want to write songs that mean something to me and I hope they mean something to somebody else." But he says the album is about a "personal sort of politics." "I don't trust bands who go around calling themselves political," Newton adds. "At the moment we're not really willing to commit ourselves about that." He says the band's song, "Fuck The System," is often misinterpreted. "A lot of people think it is a straightforward song endorsing rebellion, but that's not really what that song is all about. The song is basically trying to encourage people to choose new values for themselves once they reject those which have been forced upon themselves. It's not good enough to turn around and say you are a rebel. You have to

find values you can believe in, because, if you just turn around and say the world is a shithole, then you may as well say the world's a great place. I think the whole rebel without a cause thing is just hell-bent for self-destruction and that's just the same as conforming to me. It doesn't change anything."

Show Of Hands have returned from their two-week tour of the Peoples' Republic of China, and Randell Kirsch says the band was pleased at how receptive Chinese audiences were. "The language barrier was undeniable, but the people reacted favorably to the spectacle of rock & roll," he says. "They seem to fear expressing themselves. The government is very aware of crowd control. We were shut down after three songs playing in front of the Great Wall. And at the theaters, hundreds of armed police would come down the aisles whenever the crowd got excited. Then again, if rock & roll is still considered dangerous in certain parts of America, you can imagine how they feel about it in China."

British band **Bucks Fizz** is claiming to have set a world record for the fastest manufacturing of their new single. The band brought the tape of their single, "Heart Of Stone" to Abbey Road Studios and a metal master was rushed to a pressing plant. A copy of the single was broadcast on the BBC one hour and 41 minutes later. The Proclaimers had held the previous record of 2 hours and 19 minutes. Bucks Fizz' feat was filmed for the British children's television show, "Record Breakers."

Elton John and his wife, Renata, getting divorced, even though John had recently denied the couple were having any problems. They now say they have drifted apart during their four-year marriage.

The Christians are donating proceeds from their new single, "Harvest For The World," to The Disasters Emergency Committee. The group sends aid to needy locations around the world like Ethiopia, the Sudan, Bangladesh and Jamaica. "I'd hate this to be seen as a big plug for the Christians," says Gary Christian. "When you think about it, it's such a scandal that there are so many people in the world starving, yet most governments of western countries are in the position to do something about it and they don't. It's left to the pop stars or whatever to raise the money."

UK MUSIC NEWS

The author of *Echo And The Bunnymen's* authorized biography, Tony Fletcher, has revealed his in-depth investigation into the band's split up, to "Record Mirror" in the U.K. He claims that personality clashes are nothing new to the group: "The Liverpool quartet have thrived on their differences and often quarreled in public". According to Fletcher, the trouble probably started when the group took a year off after the success of 1984's "Ocean Rain" regarded as their creative and commercial peak in the U.K. but before they had really gained a strong foothold in North America. Indeed when the group released their last album, both the concert circuit and

record sales was dwindling in Britain; while in The United States, they made it for the first time, supporting New Order. But according to Tony Fletcher it was on this tour that tempers flared: In Burlington, Vermont, the first ever exchange of blows between lead singer Ian McCulloch and bassist Les Pattinson occurred as the group left the stage. The next night in New Jersey, the band delayed their performance by two hours while the group and their management argued about personality clashes and musical direction (the concert ended up being one of their best). The following night in Philadelphia, Fletcher recorded an interview with the group which revealed the group's intense

unhappiness with the album and the general sound that had ironically brought them so much success. "We all know it got diluted with too many sodding remixes." mourned **Will Sergeant**. When Mac first announced he was leaving, last May, the initial reaction was shock and skepticism, as he had once left before, even making a solo single, in 1984. Finally, the lead singer made it official, dismissing the management and leaving **Will Sergeant** and **Les Pattinson** as the sole, official members of **Echo and The Bunnymen**. For the last month they and **Pete De Frietas** have been recording demos, in a familiar Bunnymen mould. They are unsure whether to keep the name, something the departed **McCulloch**, not unsurprisingly, is against. **Sergeant** points to the success of **Depeche Mode**, **The Buzzcocks** and **Pink Floyd** after losing their founding members. Mac has demo-ed about 30 songs of his own at Liverpool's Amazon Studio, but has not yet recruited musicians. **Tony Fletcher's** article appears in the November 19th issue of "Record Mirror" (with **INXS** on the cover). His authorized biography is called "Never Stop".

Billy Idol is working on a new album, according to his London record company; to be released in May or June of next year. Idol has been recording tracks with guitarist **Mark Younger-Smith**, from **Charlie Sexton's** band, and former **Ozzy Osbourne** bassist **Phil Soussan**. All the songs were written by Billy, who takes a break from recording next month to appear at an acoustic evening in San Francisco with **Bob Dylan**, **Tracy Chapman**, **Crosby Stills Nash and Young**, **Tom Petty** and **Nils Lofgren**. It's a benefit concert for the city's Bridge School for handicapped children, set up by **Neil Young's** wife who has two children with cerebral palsy. The money from the December 4th show goes to develop the communication of physically handicapped, non-speaking children, via computers and other equipment. The show, which last year featured **Bruce Springsteen**, looks likely to become an annual event. Said Idol: "It's a great privilege to be involved." As for his new material, which he's about half way through recording, he said this week: "All in all, it's a full, rounded, voluptuous record. Production-wise, it's a lot rawer and simpler than "Whiplash Smile". It's first and foremost a rock n' roll album, but there's a bit of blues in there too - that should frighten everyone a bit!" Idol is again in collaboration with producer **Keith Forsey** with whom he has recorded at least five tracks.

Siouxie And The Banshees new single, off their "Peepshow" album is "The Last Beat Of My Heart", scheduled for a 21st November release; it's backed with the previously unreleased "El Dia De Los Muertos", while the twelve inch additionally contains another new song, "Sun-less". Here in Britain, there will also be a limited edition seven inch and twelve inch, the former in an individually numbered gilded sleeve and the latter in a gatefold sleeve, although they have the same track listing as the conventional releases. The group have also started discussing the possibility of releasing several tracks recorded at their first shows, at the London club, The Roxy, in 1978. According to "Melody Maker", a central London collector's store, Rock Off, have secured the rights to release live Roxy recordings by, not only **The Banshees**, but **The Buzzcocks**, **The Adverts**, **X-Ray Specs**, **The Unwanted** and **Johnny Moped**. Some of the **Siouxie And The Banshees** tracks they would like to release are "20th Century Boy", "Captain Scarlet", "Psychic", "Bad Shape", "Love In A Void" and "The Lord's Prayer", all recorded at the club, which was arguably the birthplace of British punk. **Rocks Off** fear that **Polydor Records** may not give permission for the material to be used.

The Fall are claiming to be the first band to release a double three inch CD. They unveil their new CD on 21st, featuring the same tracks which have been released in the United Kingdom as a double seven-inch singles box; "Jerusalem", "Acid Priest" "Big New Prinz", and "Wrong Place Right Time No. 2". All are alternative versions of tracks to be found on **The Fall's** latest album "I Am A Kurious Oranj". The double CD single comes in a limited edition of 4000 in a presentation wallet with registered individual number insert, **The Fall** who are national heroes on the alternative circuit here, return triumphant to London's Town And Country Club near Christmastime.

Joe Strummer, the former lead singer of **The Clash**, has signed as a solo artist to **Epic Records** and is now in Los

Angeles working on an album with his band, **The Latino Rockabilly War**, due for release in the Spring. **Strummer** has also just finished shooting a movie, although at present, no other details are available.

Controversy over "Acid House" parties continues this week with the British tabloid press screaming hysterically over the use of the drug Ecstasy at acid house events. Conservative Member of Parliament **John Heddle** is trying to ban "It's A Trip" a new record by **The Children Of The Night**. The MP calls the record "deplorable and depraved" and claims it will encourage young people to experiment with drugs. He's approached the British Home Secretary **Douglas Herd** to see if he can get the record banned and he is trying to get hold of a court order to stop the record being sold. **Children Of The Night** vocalist, **Dan Boylan**, was one of 19 people arrested last week at a warehouse party in Essex. **Boylan** was kept in cells for 14 hours before being released without charges. Sixty-two people were arrested at an acid house party in Ipswich, on the east coast of England. The party, held in a disused five story house was reportedly raided by more than 100 police officers, who sealed off the area before breaking into the house. Meanwhile, spokesmen for the nation's police authorities have attacked the tabloid press for their hysterical coverage of drug taking at the parties. The police deny that the problem is out of control and refute suggestions that they should set up a special squad to deal with it.

Siouxie And The Banshees release various versions of their current single, "Success", this week. The twelve inch comprises "Success" (Extended Mix), "Success" (Seven inch mix) and "Frankenstein" mixed by **Neal X**. Another twelve inch comes in a different bag, featuring **Pete Waterman** (of **Stock, Aitken and ...fame**). A third twelve inch features "Success" (Acid Mix No. 1), "Success" (Acid Mix No. 2) "Frankenstein Cha Cha Cha" and "Success" (Balearacidic 12 inch mix). Both seven and twelve inch formats of "Success" will come out in different bags featuring "Sputnik Aitken Waterman" and "Stock Aitken Sputnik". The CD version of the single features "Success" (Seven inch mix) "Frankenstein Cha Cha Cha", "Last Temptation Of Sputnik" and "Success" (Balearacidic 12 inch mix). Confused? I sure am, and to cap that, the group are thinking of releasing more versions!

Pink Floyd release their new double live album, "Delicate Sound Of Thunder" on November 21st for **EMI**. The album, recorded during the band's year-long 1988 world tour, contains tracks from "The Wall", "Dark Side Of The Moon" and "Wish You Were Here" as well as tracks from their most recent album "A Momentary Lapse Of Reason".

The Escape Club, the British band doing very well in the United States, are virtually unknown over here. And it looks likely that they will continue to be less well known for the time being, as their video is considered controversial by British broadcasters. The group spent five unsuccessful years on the club circuit here, including a failed contract with **EMI** (they are now signed to **WEA**). But even their new record company have agreed with TV producers that the video, broadcast hundreds of times in the U.S. is too sexist for Britain, and have offered to fund a "less objectionable" video. But vocalist **Trevor Steel** is indignant: "We're the last people who would let a sexist video go out. It's supposed to be satirizing all those sexist videos that have been made in the past. The video was played to death in the States and that's what broke the record for us. It's even being played in Yugoslavia - but nobody will touch it here. Why the hell should we make a new video? Just because people are too scared here to play something that's a bit different."

IN BRIEF

Have enjoyed several concerts recently: **The La's** are a new Liverpool band, signed to **Go Discs** who brought you **Billy Bragg** and **The Housemartins**. This incredibly young act are in a sense reviving a 60's R & B sound. Comparisons with **The Beatles** and **Merseybeat** are inevitable, but to me they sounded closer to the sound of the very early **Rolling Stones** or **Spencer Davis**. Their hot-house intensity live is invigorating, although their image at the moment is somewhat shapeless. But I think under the careful guidance of their label, they are a name to watch out for. A name to listen to if you

haven't already are **The Bible**, so far woefully unrecognized in Britain, who I think have a perfect sound for North America. They are a genuinely inspired band who really cut it live. Especially excellent are the songs "*Mahalia*", "*Graceland*" and their last single here "*Crystal Palace*". This Chrysalis act deserve to go a long way. Also recording for Chrysalis, our old friends **The Proclaimers** who were absolutely wonderful live. After abandoning the acoustic sound of "*This Is The Story*" and forming a full band; I was prepared for a diluted sound. Instead they sounded lean, hungry and built their show to a fever pitch. One of the most original outfits to emerge in many moons - **The Proclaimers** gift for penning and performing wonderful songs seems to know no bounds....**The Lilac Time** release a new single "*Black Velvet*" 21st November...**The Mission** played two secret gigs last week in London at the tiny Borderline Club...**Phil Collins** follows up "*Groovy Kind Of Love*" with "*Two Hearts*" out this week. Written by Phil and legendary songwriter **Lamont Dozier**, it's taken from the "*Buster*" soundtrack...**Elton John** returns with his new single "*A Word In Spanish*" from his current album "*Reg Strikes Back*"... **Bros** release their single "*Cat Among The Pidgeons*" on November 21st...**Simply Red** are planning to release their third album in the New Year...Starting this week, **Queen** will be releasing a series of three track CDs featuring their greatest hits...**A-ha** follow up "*Touchy*" with "*You Are The One*" from their last album...**Pete Burns** of **Dead or Alive** was dancing at a trendy party the other day when SNAP!!! his heel broke and he had to hobble off (next week Boy George loses his handbag??)...It's rumoured that **T'Pau's Carol Decker** has done a naked photo session for a Swiss magazine...**Ozzy Osbourne** showed that it pays to advertise when his case was stolen at Chicago airport. He took out advertising space on the local CBS station and it was immediately returned!!...Winner of the least likely record to be played by the BBC, and also said to be a dance floor smash: "*Speed Speed Ecstasy*" by **The Acid Angels**.

UK CHART SURVEY

Hottest dancefloor record here is "*Flow With The Style*" by **TA La Rock**...Top five Indie singles: 5/"*Why Are Being So Reasonable Now?*" - **The Wedding Present** (Reception). 4/"*The Peel Sessions*" - **The Smiths** (Strange Fruit) 3/"*Control I'm Here*" - **Nitzer Ebb** (Mute) 2/"*Anchorage*" - **Michelle Shocked** (Cooking Vinyl) and at 1/for the eighth week "*Little Respect*" by **Erasure** (Mute). Top five Indie albums: 5/"*Rank*" - **The Smiths** (Rough Trade) 4/"*From Enslavement To Obliteration*" by the hardcore band **Napalm Death**. 3/"*Short Sharp Shocked*" by **Michelle Shocked** (Cooking Vinyl) New at 2/"*I Am A Kurious Oranj*" by **The Fall** (Beggars Banquet) 1/"*The Innocents*" - **Erasure** (Mute)...In the national UK album chart, "*The Ultimate Collection*" by **Bryan Ferry** and **Roxy Music** is the greatest hits package that enters at 6. The new album by Scotland's **Wet Wet Wet** "*The Memphis Sessions*" enters at 3 while the new number one is "*Kylie The Album*" by **Kylie Minogue**. **U2's** "*Rattle and Hum*" has now started to sell considerably less here than expected. Despite an initial burst of sales, this week it slumps to number 11 while it is still short of 600,000 sales in Britain. Even the release of "*Angel Of Harlem*" as a single is unlikely to steal Minogue's crown. Her album has now topped 850,000 copies in Britain and is expected to top a million by Christmas. In the national singles chart, **Enya's** "*Orinoco Flow*" has dropped from 1 to 5 to be replaced by "*First Time*" by **Robin Beck**, an undistinguished single whose only claim to fame is that it was originally a commercial here for Coca-Cola. It's the fifth record in Britain to become a hit after being adapted from a Coke jingle. The most famous example was "*I'd Like To Teach The World To Sing*" by **The New Seekers**. Some of the artists who have sung for Coke include **Bobby Goldsboro**, **Lyn Paul**, **Aretha Franklin**, **Diana Ross And The Supremes**, **Neil Diamond**, **Gladys Knight**, **The Everly Brothers**, **The Four Seasons**, **Jerry Lee Lewis**, **Tom Jones**, **The Who**, **The Easybeats**, **John Farnham**, **Petula Clark**, **The Beach Boys** and literally dozens of other known acts!

Dear Bill,

It could only happen in Britain-the Coke commercial went to number one this week and Robin Beck arrived from New York to open the champagne she bought with the \$400 she was paid to sing it. "I'm not bitter about the tiny fee, the single's success has turned me into an international celebrity" she lied. Meanwhile **INXS** jump from 18 to 4 with "*Need You Tonight*"; **Chris deBurgh** 15 to 8 with "*Missing You*" and **Salt 'n Pepper** 22 to 12 with "*Twist and Shout*" are the other big movers. Watch out for **Iron Maiden's** "*Clairvoyant*" in at 13 and **Babs and Don** jump 32 to 16 with their slush hit.

It's nice to see the **Wilbury's** doing well in the charts here (37 to 21) and isn't the **Waterboys** record great!

As **Duran Duran** slipped quietly into the International for an unannounced warm-up in Manchester, this week also sees **Erasure** playing in Birmingham, **Tanita Tikaram** continuing her tour while her 2nd single "*Twist in my Sobriety*" climbs the charts and **David Lee Roth** will be high-kicking to power chords at **Wembly**; and as **Al Green** refused to come to London to record a video with **Annie Lennox** for their duet, "*Put a little love in your Heart*", we were pleased to see **Michael McDonald** return for 2 London shows. Last weeks "*Independent*" newspaper hailed the **Big Mac's** arrival with -"Placid white soul-funker, conservative stuff even by L.A. standards." - a typically snooty London dismissal of a great artist! Some articles went as far as comparing him to young **Ric Astley** (no relation). I find it rather like comparing **Mick Hucknall** with **Nat King Cole**! **Ric**, by the way, was voted worst-dressed artist in a poll by readers of **Record Mirror** recently, (obviously **Mick's** entry was withdrawn).

I'm sorry to harp back to the same subject as last week but it seems in Britain at the moment the least reported and misunderstood aspect of the combined youth-cult, media event-police exercise we call acid house is the music itself. The name has probably derived from the street-slang "acid burning" which is the sampling technique first used by Chicago DJ's in '86 and not from the drugs so sensationally linked with it here.

I certainly question the likelihood of the effect of **LSD** or **Ecstasy** being able to keep a lot of people in a strobe-filled disco allnight! What is more interesting though is the fact that for the first time since us Brits got hold of **R + B** in the early 60's an indigenous black American music has taken a stronger root here than it has there, the shame is we had to wait so long and then pick on something so utterly boaring!

Meanwhile the U.K. album chart at the moment seems more like a race to see who can come up with the most original title for a festive season compilation. Along with no-love-in-his-heart **Al Green** the **Human League** enter the competition with their "*Greatest Hits*" and **Sir Cliff Richard** allows us to hear his "*Private Collection*"; **Chris Rea** gets artsy with "*New Light through Old Windows*"; **Brian Ferry** leaves no-one in doubt with "*The Ultimate Collection*" whilst the top place goes to **Dire Straits's** least apt "*Money for Nothing*".

Much love and the best of,

Jon Astley

Erin Riley, WMMR, Philadelphia

Last Wednesday, the majority of the WMMR staff went out to see a much-heralded show and we were not disappointed. The show was Ian Hunter with Mick Ronson. These guys haven't missed a beat and they have five or six great new songs. I was glad to see how well they were received by the packed house. Rock and roll maniacs singing along to "Once Bitten, Twice Shy", "Cleveland Rocks", "All The Way From Memphis" and the classic "All The Young Dudes". Do yourself a favor if you can—go see the show and sing them up.... New music: I'm a huge Aerosmith fan and this "Chip Away The Stone" is in the vein of their best stuff... We also added Steve Howe's "Sharp On A Tack" from Guitar Speak. The station has a long relationship standing relationship with Steve, and with Yes still one of this city's most popular bands, it's a natural.

Doug Clifton, KBCO, Boulder

KBCO premiered the new CSNY "American Dream" album throughout the weekend. Early favorites include, "Nighttime For The Generals", "Feel Your Love", "That Girl" and "Soldiers Of Peace". We're seeing number 1 phones already and I'm sure early retail will be just as impressive.... The new Waterboys release is more traditional sounding than I would have expected, but I'm not complaining. My personal favorite is the Van Morrison song "Sweet Thing", but we'll start off with "World Party".... Another surprise was the new Everly Brothers tune, "Can't Get Over It". I'll be interested to see what kind of response it generates.... The Christine McVie song from the Fleetwood Mac "Best Of" is pleasant enough.... Many thanks to Bob Frymire who put together our free concert with In Tua Nua. They packed Boulder's Coast with a standing room only crowd. In Tua Nua is truly a band that is at its best when they are on stage. Thanks to Leslie and Martin for stopping by the station earlier in the day.... Nancy Levin, Jeff Patton and Michael Brannen joined the KBCO crew for a concert with the recently signed Subdudes who opened for Buckwheat Zydeco this weekend. The Subdudes will have their first release on Atlantic Records out sometime next Spring. We congratulate them and wish them well.... This past weekend, KBCO sponsored "Music Fest '88" which is a music industry seminar for local musicians presented by the Rocky Mountain Music Association. KBCO's Roxanne plays a big part in the Association and in getting local music on the radio. This year's Music Fest was quite successful—we look forward to next year.... A final note of thanks to Dick and Sal for the great time at the Broncos-Browns game.

Carter Alan, WBCN, Boston

Well it's about time we got a new Waterboys Album! It's been over three years since BCN had a huge hit with "The Whole Of The Moon" from the last album. The Waterboys also completely packed the Paradise Theater here in Boston. In the summer of '87 I ran in to Mike Scott in Dublin, and he said that the new record was almost finished. Obviously it took him a lot longer to deliver the goods, but it was well worth the wait. Much of "Fisherman's Blues" is traditional Irish folk, but the title track and also "World Party" are naturals for WBCN.... The CSNY album is a solid effort from all 4 members and I'm glad to see that the boys aren't afraid to rock! Steven Stills "Drivin' Thunder" is a slide guitar delight, and David Crosby's "Nighttime For The Generals" rocks with a vengeance. I can see this record still in current rotation next summer.... Listen to the Scruffy The Cat album, "Kissing Galaxies" is a genuine Rock and Roll chestnut by this fine Boston band.... Also the Big Dipper album "Craps" features a killer groove on the song "Ron Klaus Wrecked the House". Give it a spin.

Anthony Alfonsi, WDVE, Pittsburgh

Every now and then you hear how great an up-and-coming band is live, but when you go to see them it's not as great as you expected. Well there is someone who does live up to the expectations—Tommy Conwell. A lot of people told me how good his live show was, but I never got a chance to see it until last week. It didn't take me very long to agree with everyone else that Tommy and the Young Rumlbers are a band to really keep an eye on. A special thanks to Jim Dalbalzo and Doug Hammon of CBS for all their help in making the show a success for the station. Thanks to Tommy Conwell for coming up to the station and hanging out with Herschel.... The long awaited "American Dream" came in last week and it is filled with a variety of good music from this legendary band. I feel the songs relate to each other and that they explore the different ways the American Dream may sometimes be hard to achieve when you have to overcome the obstacles of life such as drug addiction, foreclosure on your farm's mortgage or even the difficulties of marriage. Some of the songs that stick out are "Night Song", "Nighttime For The Generals", "Name Of Love", "Got It Made", and "Don't Say Goodbye" which is a standard Graham Nash piano ballad.... Joan Jett's "Little Liar" is something that took me just one listen to realize it should be a hit. It might even do better than "I Hate Myself...". "Up Your Alley" might finally be the album that solidifies Joan considering the albums which followed "I Love Rock And Roll" were a little disappointing.

Chris Poole, KBPI, Denver

Our KBPI AM, which is currently simulcast, will become the Blade as of Monday 7:10pm. The Blade will broadcast at night from 7pm to 2am. It will be all Heavy Metal, live and local. We hired Spike The Rock Dog and Leather Steal for the airstaff and we will be having some fun with this one.

Jon Robbins, KGON, Portland

Inessa York exits afternoons and music here at KGON and Bill Prescott from KZAP will be replacing her. Bill joins us on November 30th and will be immediately available for music calls. He starts on the air December 5th.

Michael Hughes, WRDU, Raleigh

Here's a story. Once upon a time there was/is an artist that WRDU believed in—so much, that within the first three weeks of their release that record deserved even more airplay—so, we did. Soon, the record moved up to top 20 sales. Working hand in hand with Record Bar, we made the determination to break this artist known. Two weeks later, this artist's first release surfaced as the #1 selling record in the Raleigh/Durham/Chapel Hill area. They came to town. They sold out in advance. The night of the show, the artist came to WRDU to announce they added a show the very next night. That show sold out too! The record is still number one. The artist is Edie Brickell and the New Bohemians. Moral of the story: WRDU and Record Bar broke an artist to our market. Break it in yours! It feels good!

Wendy Steele, WLVQ, Columbus

"Johnathan Toledo" by hometown boys and Geffen recording artist The Toll, officially goes into heavy this week. This band is unique—very unformulated and cool. They dress normally and play straight ahead rock and roll, full of meaningful lyrics. The music makes you think. Yes the song is ten minutes long—O.K, so don't play it in morning drive. Obviously the place to start it is at night. Relax for a moment, I know there's not much time to do that, but anyway relax and put your mind into the thinking process that existed during progressive rock radio days. (What Fun!) "Wow man, check out this ten minute tune—this is intense!" I think you know what I'm saying.

Curt Gary, DC-101, Washington

An open letter to all local record reps in the Washington-Baltimore area: In the future, when you make the effort to bring an artist by DC-101, I would think it would be in your best interest to either bring a camera yourself or better yet a professional photographer so the time and energy spent by your artist can be put the good use. If you can't afford a camera, you're welcome to stop by DC-101 anyway.

Lee Randall, WDIZ, Orlando

DIZ world tour continues as we jet listeners to Philadelphia to see Gregg Allman and .38 Special. Thanks to Donnie Van Zant for the phone call (all rockers should have his sense of humor).... Thanks to Brian Howe of Bad Company and Howard Bernstein for an entertaining evening as they proceeded to for the first time to sell out the Brevard County State Fair.... The Moody Blues did a pro show, slick performance in Daytona.... This week Richards is rolling in Orlando as we jump on "You Don't Move Me".... And we're all over Aerosmith's nasty piece of history.

Patty Martin, KSJO, San Jose

"Armageddon It" from Def Leppard was my favorite off the album from the start so it only took about a year for it to be released as a single, what do I know? One thing I know is this tune works. Already the phones are great. Great enough to pop it up to power rotation. You can't go wrong with any song from this album.... Talk about the power of a record, not five minutes after playing Jetboy's "Feel The Shake" last Wednesday we got hit with a 4.7 earthquake.... Thanks to Robert Berry of 3 for co-hosting KSJO's "Best Of The Bay" hour with me and thanks to "Mr. Apple Computer/US Festival" Steve Wozniak for co-hosting KSJO's "Seven Days At 7" with Candi Chamberlain. Turns out "Waz" is a big fan of KSJO and the morning team, Perry Stone and Trish Bell and he plans to be a guest on their show soon.

Mike Jones, KISW, Seattle

Having been a Waterboys fan since long before Mike Scott doffed his shades, I must tell you it's a sheer pleasure to go out of the box on "World Party", a song destined to win over our audience with its unbridled originality.... Sam Kinison's "Wild Thing" continues to dominate the phones by a three to one margin over number two, which is Ratt.... Progress continues toward the KISW "Make A Wish" Radiothon, with FM-100 selling twelve hours of requests to benefit the Make a Wish Foundation on November 26.... KISW Rising Star Show #43, starring Jane's Addiction and Soundgarden, was a three day sell out. I'll give you a review next week.

David Sadof, KLOL, Houston

One of the more interesting records I listened to this week was "Jonathan Toledo" by the Toll. I was a little surprised that a band would release a 10 minute epic as the initial track from a forthcoming album, but at the same time I can respect a band that feels confident enough to make that decision. The song is well structured and does a good job of holding your attention, especially 5 minutes into it when the vocalist tells the story about the Indians and the museum in a story telling style that is reminiscent of what Jim Morrison used to do. By the way, wasn't "The End" on the Doors debut album? A powerful song and a strong nighttime record.... I also like the new Waterboys album from which we've chosen "World Party" for airplay. I really like the Irish influence that is prevalent throughout the album.... On the "Exposure" front some of the best stuff includes Cowboy Junkies, Julian Cope, Lime Spiders, Waterboys, Lilac Time and A House.

Elise Vander Borch, KPEZ, Austin

Whoever is responsible for canceling the Colin James shows through Texas ought to be strung up by their toenails and severely whipped 40 times with a dead guitar string, preferably the bottom E string. I mean, really now, Texas is blues-City. Actually I'm quite thrilled that he is opening for Little Feat and Keith Richards, but I sure do wish he'd head down this way soon.... Now that I got that out of my system—on the music adds, isn't the Everly Brothers, "Can't Get Over It" just the coolest song you've heard lately? From the opening drum licks past the false-ending on to the closing note it makes you glad rock and roll is going back to the roots. ZZ Top purists still complain about Jeff Healey's "Blue Jean Blues", (I think they're just too blown away to

admit they like it) but I like it and it smokes. Forget the guy's blind and quit reminding your listeners of that fact. Let his guitar wailing on the solo be the hook.... San Kinison moves up to heavy with #1 requests and screamin' d.j. response. Just keep this guy moving up.... I'll be in lovely Manitoba, Canada while you read this and as comedienne Kathy Landen says, "Going North of Minnesota in Winter? That's like going South of Hell in August!". Assistant M.D. Nancy Wallis will be talking with you record people, she's a sweetheart and she's got great ears. Looking forward to falling out and talking to you next week?

Fred McFarlin, WRFX, Charlotte

I've got a nagging cold, I just lost \$125, and George Bush is President. So ask me why I'm not in a great mood. I mean this "Bush Thing..". The guy is part of one of the most corrupt administrations in history, he gets caught selling arms for profit to a country that calls us the great satan, to fund a war Congress and the American people say they don't want to be involved in--and now he's President!! Go figger.... At least there's still lots of cool new music out there. Like the 3 Johns (Caroline), A House (Sire), Full Time Men (Coyote) and A.C. Temple (Further/Dutch East). Also, based on response to the tune on my "Fox Exposures" show, "I'm an Adult Now" by The Pursuit of Happiness is gonna be a phone-monster. That's it for this week--I'm going to pound some Nyquil and stick my head between two speakers.

Haz Montana, WXL, Quad Cities

Prediction for the year 2004: Geffen rep Starvin Marvin Gleicher's triplets, Simone, Lily & Benjamin, will be the first teen/sibling thrash metal trio to sweep the charts. Marvin will be their manager, begging us for tuition-support music adds.... Now, back to November '88: Sam Kinison rocks from light to heavy in mere days.... Aerosmith's "Chip Away..." is bound to garner even more new fans with the studio version of this rocker, and the new Dokken double live LP is a must. We're starting off with 5 cuts; give it a listen.... Happy Turkey Day to all Turkeys!!!

Max Volume, KRZQ, Reno

Let's begin with a big Nevada welcome to one of our format's biggest artists, and new resident of Nevada, David Coverdale. Actually he's been living in and around the area for a while, but we're awful damn proud to have him, and we're now proclaiming Reno, Nevada as the Whitesnake capitol of the world. I believe David gets a big kick out of our "Robert Plant of the day" promotion. Every day, morning team "Sarge" & "The Chase" pick out a plant, like, oh say, the "Wandering Jew", announce it, then later on, either David Chaney, (10a-3p) or myself, (3p-7p) take phone calls to win front row seats to Robert Plant & Joan Jett, Thanksgiving Eve, here at Reno's Lawlor Event Center. Big thanks to Robert's organization, for letting us buy the front row of seats.... We gave away a trip to Chicago to see John Hiatt in concert, through Budget Tapes and Records in Carson City. Tom & Kathy Fox are celebrating their tenth year in business at Budget in Carson, and over the years they have been very good to us. Whether they're helping us with the music library, or helping us with promotions, like "Budweiser Flight 96-ROCK to Pink Floyd" they are truly the best friends we have.... The wife and I were in Dallas over the weekend to have a little early Thanksgiving cheer with my Mom. What a beautiful city, nice folks too. Listened to KZEW, great sound, great jocks, great image, great day!!! Also heard Z-ROCK--Wow!!!, What a concept!! Great mix too!!! I seriously couldn't get enough Z-ROCK!! Well--See Ya!

WKDF, Slats, Nashville

I get off work at 5pm. Sift thru all the cars that look like mine in the parking garage. Slump behind the wheel, stick the key in the ignition, take a deep breath and hope I can hold it long enough to make it home before I soil myself in rush hour traffic. Turn on the radio. "WWWWild Thaaaang!!" That wreck on the freeway don't mean squat to me now. Sam Kinison goes to medium.... Can't wait to play TPOH today. I'm gonna do serious damage to the vinyl integrity of the Phil Collins record of my choice & whip into "I'm An Adult Now".

Ron O'Brian, KATS, Yakima

Robert Palmer hits Central Washington this Friday (Nov. 18). The concert is in Ellensburg, but being the power we are--KATS is the welcoming station. We had a very successful "Simply Irresistible" party at the Red Robin here Saturday night. A packed house was on hand as 15 contestants dressed up as the Robert Palmer back-up singers (from the videos) and competed for 2 tickets to the show, backstage passes and a limo ride to and from the show. Runner up (the only male entry) got a pair of tickets. All contestants received a cassette of "Heavy Nova". It was a smash! Thanks to EMI's Phillip Rauls for the help on this one.... Music department: What a return for CSNY! We like "That Girl"--obviously a single here. "Got It Made" and "Clear Blue Skies" both sound mighty fine. "Drivin Thunder" is a great mover...and "Don't Say Goodbye" is quite the ballad. As is the case with the Wilburys Lp...The vocal & musical work on this CSNY Lp is spread out so well, it really helps make the album!... Fleetwood Mac--incredible--a number 1 without a doubt and I'm anxious to hear the other new track as well.... Other personal favorites--Edie Brickell & Little Feat.

Tom Bass, WPLR, New Haven

Let's get started by saying thanks to everyone who helped out with our Southern rock free music weekend. Michael at MCA, Sue at A&M, Margaret Anne from Polygram, and Terry from Epic for making it all possible.... Musically speaking, the tremendous volume of requests for Sam Kinison's "Wild Thing", which we have been dropping in sporadically, have forced me to put it in rotation.... Keith Richard's "You Don't Move Me" has the guts that seem to have been missing from a lot of rock and roll for too many years. I

think it's great, and I'm curious to know what Mick thinks about it!... I was surprised by the new Fleetwood Mac track. I confess to being a doubter since "Mirage", but this is a pleasant song.... Oh yeah, a tip--we had been having great phones, but almost no retail on Steve Earle's "Copperhead Road". Then, spot checking our area record stores, we found out that everyone had it in the country section. If it's selling less than it seems it should be, check out those stores. It makes a difference!

Jim Steel, WIOT, Toledo

I was having one of those typical shitty days when nothing goes right and everything goes wrong. That was until I found out that Chrysalis had picked up the Jimmy Davis and Junction project. I always felt this one was one of the most overlooked Lps from last year.... The Phone buzz on Steve Earle and Melissa Etheridge is terrific--and CSNY--what a CD!

Brian Illes, WKFM, Syracuse

Well, there are 14 songs on the CSNY album and at least ten of them could go on the air right away. Besides the single, we'll go with "Got It Made", "That Girl", and "Driving Thunder". Neil Young has really got these guys back on track, and they sound as good as you would imagine they would. I also like "This Old House", "Nighttime For The Generals", and David Crosby's moving "Compass", which I've had the pleasure of seeing him do live. Speaking of live, if the "Children Of The Americas" Radiothon was any indication of how good CSNY will sound in concert, I hope they start booking the tour now.

Mike Gardner, KOAS, Big Island, Hawaii

The Pursuit of Happiness sounds great--a mixture of many good sound styles which makes them unique.... Still waiting for R.E.M., Traveling Wilburys and 'Til Tuesday--and would you believe, the Steve Miller album. Thanks to most of the companies for prompt service.... John Hiatt is very solid, Jeff Healey is strong, Dickey Betts is a prime example of the best in Southern Rock.... Try to listen to all of the Gillan/Glover album--some good stuff.... Bad Company, U2, Melissa Etheridge and Little Feat all adding to the growing list of holiday favorites.

Greg Mull, WRXK, Ft. Myers

It was the largest gathering of folks ever in Southwest Florida--96 K-Rock's second anniversary party concert. The bands were John Kilzer, Winger and Bad Company and the crowd numbered 15,000. To get in, all people had to do was present at least one dollars worth of canned food per person. The food went to the Southwest Florida food banks to feed the underprivileged families over the holidays. We estimate that \$72,000 worth of food was collected! Huge thanks go to Rich Tottoian, Richard Pachter, Vice President Danny Buch, and David Fleschman for their help in securing Bad Company. Also thanks to Brian Howe of Bad Company for the hospitality. More thanks to David Garbarino and Marco Babineau of Geffen for the help with John Kilzer. Nick Harris and Danny Buch (again!) helped with securing Winger for the date. Kip Winger had a tremendous effect on the younger females, these guys are gonna be stars! Finally I'd like to thank all those in the industry who have helped with the tremendous success of this station during the past two years, without your support it couldn't have happened.

Rick MacKenzie, WAAF, Worcester

I'll get to the music in just a second because this week the tunes take a backseat to what I've been up to--I'm engaged. I popped the big question over the past weekend. And no, I didn't meet her over the request line. It's a real thrill. As The Pursuit Of Happiness would say, "I'm An Adult Now".... Finally got to put the clog in the music drain this week, allowing us to get some great records on the air, namely: Dreams So Real, Winwood's "Dancing Shoes", Joe Satriani, House Of Lords (Thanks for your patience, Jim M.) and the newest from Fleetwood Mac, Aerosmith and depth material from C.S.N & Young. Super stuff! Thanks for listening. I couldn't even come up with any quotes this week--my head is still reeling.

Jay Sisson, WIXV, Savannah

Our PD is on vacation this week. Our playlist is frozen this week. I'm done talkin'.

Ty Banks, KQWB, Fargo

Well, in this month of Thanksgiving I'm thankful for a number of musical items. Thanks to R.E.M. for making our already hot telephones explode. Thanks to Starvin' Marvin for convincing me that Edie Brickell was magic. I'm thankful that Joe Satriani put in the many hours of practice that he did--he's the best today because of that. Thanks to Sam Kinison for a chain of honest belly laughs. And lastly, thanks to Kiss for putting out a song the whole family can identify with.

Tom Van Sant, WIZN, Burlington

Thanks to all who made WIZN's 5th birthday the huge success it's going to be. Chuck Chao at Creative Concerts for securing Pat Benatar to headline the festivities, Pat herself for the birthday ID, Kevin Sutter and Jay Miggins at Chrysalis for generous support of the show, and all our other friends at the other labels for the great support on our "Trip A Day" promotion.... Sam Kinison is exploding on the phones after only one week of test airplay. He's up to #2 most requested and "Wild Thing" is an add!... Ah, the fluid folksy sophisticated, hip, inspired and inspirational sound of the Waterboys. "Fisherman's Blues" is just the tip of a heck of an iceberg--the latest Waterboys album. "World Party" sounds like the obvious follow-up.... John Hiatt's "Paper Thin" is quite simply a killer. It sounds like it could have come from the new Keith Richards album except the vocals are good.... And "Little Miss S" is our next selection from 1988's best new artist, Edie Brickell and

the New Bohemians. They've dominated our top requests for the past 7 weeks, so naturally we have high expectations for this track.

Joe Marino, WCCC, Hartford

Check out Circus Of Power's "Motor". It kicks ass!! We tried it earlier and did so well that we're doin' it again.

Phil Manicki, WRKU, Youngstown

It's great to be back, now all we need is record service.... It's ladies week looking at the adds. Speaking of ladies, congratulations to KGB's Pam Edwards, the woman who put me on FM radio. (From M.D. Joe Piano) No matter what anyone thinks of "American Dream", as far as I'm concerned it's damn good to hear CSNY back with us on the airwaves.

Bob Jefferies, KBOY, Medford

One week's respite in the City Of The Angels. Sam Calle not only possesses a good ear, but who would have considered Long Beach the home of Japanese cuisine? Bubba, thanks for the memory!!... Meanwhile in the Northwest--Christopher Stoney out, R. Charles Snyder in. Veteran Southern Oregon programmer at both KYJC and KTMT now hosting mornings on KBOY and programming chores to boot. Look for the rock wars to heat up--welcome to the jungle, Charlie.... Musically, Steve Earle's "Copperhead Road" is top 5 phones.

Steve McNee, WZXL, Atlantic City

WZXL welcomes Kevin Walsh to nights replacing Jim King who joins the big breakfast morning team.... Also to our record company friends--we'd love Christmas ID's from your artists.

Roger The Dodger, KRNA, Cedar Rapids

The Assistant takes over since Kim the M.D. is under the weather and she's missing one incredible day of tunes to drool over. Bam, Powy! Sam Kinison's "Wild Thing" blows everyone out of the water to become top request after 2 short weeks. Sam, I think you move me and I'll be spinning this disc more for sure.... The future's blooming for Hothouse Flowers. The new track, "I'm Sorry" sounds so good on the radio, plus my mother calls to request it.... If you were thinking of giving up on Edie Brickell--don't. You and your listeners will appreciate the time you give to it.... And then there's the Traveling Wilburys. "Handle With Care", "Last Night", every cut on this CD can't miss--so where's Vol. 2 guys?

Johnny James, WCKO, Jackson

Where the hell is my Warner Brothers product?

Marty Meyers, KKTZ, Kilgore

We are doing double duty with the .38 Special but who can blame us, the band is perfect for us right now. The time off was obviously well spent.... Hothouse Flowers has done a good job of following up a promising lead track. "I'm Sorry" works on the air in a very convincing fashion.... "Ghost Town" is a great song. Cheap Trick fans aren't the only people who can appreciate this track.... The Alice Cooper really surprised me. This is a very creditable remake of a classic album track and when's the last time you heard Alice working with some back-up harmony?

Rob Wagman, WWRX, Providence

There's a mouse in my office but Terminex has come to save the day, good-bye Mickey, hope your 60 years were special.... All is rocking on the Rhode Island front but I can't decide what sounds better on the air; The Pursuit of Happiness or the new Charlie Kendall legal ID's and drops we just started using. It's obvious radio doesn't trust my personal fave Cheap Trick. After two rock radio successes from "Lap Of Luxury" and almost two million copies sold, the Tricksters are getting the Casper The Friendly Ghost treatment. AAAHH! ("Ghost Town")! Don't run from this one. It's got phones written all over it and debuts at top five this week.... Record reps have questioned us adding "Don't Bother Trying To Steal Her Love" from Duke Robillard on Rounder Records. Answer; Duke is a former member of RI's Roomful Of Blues and has a strong following in the area. If there's room for blues on your playlist, Rounder is out of Cambridge, Massachusetts. And keep in mind that George Thorogood's early successes were on Rounder.... Have a wonderful Turkey Day.

Jeni Gipe, WZBH, Georgetown

Maybe we shouldn't play Steve Earle. People will hear "Copperhead Road" go out and buy the album and listen to it over and over instead of listening to the radio.... The Children Of The Americas Concert was wonderful. I especially liked Randy Newman's set.... The latest on this end is that some of our listeners are faxing in their requests instead of using the phones. Aahh, the 80's.

Mike Stewart, WIMZ, Knoxville

The adds this week represent one of the strongest lists of new music we've had in a while. For instance, the new Jim Capaldi song is a truly great song. Nothing else sounds quite like it and that's a strength.... The Aerosmith track has been doing real well for us. We slipped it on over the weekend and the phones are already nuts.... If I know my market, this .38 Special song, "Little Sheba" has got to be the best add this week. This one should be in Power before long and is another indication that these guys are back.... We gave "Slow Turning" a good shot and we have transferred to "Paper Thin" as the project develops. John gets the nod at Medium and should do well for us.

Tim Brandow, WKQZ, Saginaw

Our biggest reaction artist has to be Melissa Etheridge. Every time we play it the phones continue to buzz. She was a slow builder to be sure, but now that the audience is familiar with her, she is a getting tremendous

response.... The strongest add this week has to be the Night Ranger. This one is different and sounds great on the air. It's one of those tunes that's good because it's different. You know it's Night Ranger the second you hear it but they have stretched their sound a bit.... This Joan Jett record is the best thing I've ever heard from her. This is a wonderful song and she does it credit.... Mike and The Mechanics is growing into a major record for the format. This one should be huge if first indications are anything to go by.

Lori Niks, WYBB, Charleston

.38 Special and the Gregg Allman Band were here in Charleston last weekend during the first leg of their tour. This time around they played in our outdated 2800 seat auditorium. Hopefully by the time they return, Charleston's long awaited twelve thousand seat arena will be finished.... Brian Krysz is leaving us and he was just getting tolerable, (just kidding Bri), this is my first position as MD and I owe what I've learned to Brian. It's only been four and a half months but I'll miss him as will everyone here at the Bee. Best of luck Brian.

Christina Gorton, KKZX, Spokane

Eddie Money is hot, this guitar work is really smoking. This is an extension of his first single and why not, it's a hit oriented album, how nice.... "Compass" should do real well with anybody above the 25+ line. It could be the perfect statement of David Crosby's, (or anybody's), troubles with a life in the fast lane. The old fat bald guys are bound to like it.... I still like the Traveling Wilburys. They have a nifty sound that is so well done that we can't get enough of them around here.... It's amazing how Aerosmith and Journey hit the holiday market with a greatest hits package. Surprise, surprise, surprise.

Al Scott, KZEL, Eugene

Poison is getting major phones with "Every Rose Has Its Thorn" at night especially.... In the better late than never category, this Jeff Healey guy is raw and we love the energy he lends to the mix.... Edie Brickell continues to do very well and is building across the board. This is a song that people can't get enough of.... The Fleetwood Mac is one of those tunes that is immediately identifiable and you simply must play this track if you have any sense whatsoever.... Bad Company is being measured for big things with this new track. "One Night" should follow up their initial success with an even stronger run on the charts.

Jeff Riedel, KKDJ, Fresno

U2 skyrockets from nowhere straight into Power with "Angel Of Harlem". These guys are unstoppable.... Dokken is moving up also with some serious support on the phones... Johnny Winter is doing very well around here. Sounds great and there's more where that came from on the album.

David A. Ross, KMJX, Little Rock

First of all, the Robert Plant show was phenomenal! The man had the crowd eating out of his hand and there were two encores. It was a tremendous thrill to meet one of my idols, big thanks to Eric McDonald and the management. Joan Jett opened up with a very lively set, like to thank her for the phoner and photo.... This week we're giving away Little Feat tickets for the Memphis show on the 16th.... Musically, the Crosby Stills Nash and Young includes some real gems. Give a listen to "That Girl", "Got It Made" and "Nighttime For The Generals".... Another deserving artist, Jimmy Davis, has a re-release--give it another listen. This is a very good album that got lost in traffic upon its initial release, and Jimmy is one of the nicest guys we've ever had the pleasure of working with.

Karen A. Small, WGIR, Manchester

We listened to the new CSNY album and started to mark off tracks that we'd like to put on the air. By the time we were done, just about every track had been marked off! "American Dream" is that strong of an album. The political themes are just as sharp and straight as those soaring harmonies. It's good to have CSNY together making wonderful music once again.... ROCK-101 is solidly behind the Winger project, this week we'll start with another track from the album, "Seventeen".... Cinderella's "Bad Seamstress Blues" has that touch of old Zeppelin blues that Album Radio's audience eats up. This one will slide on the airwaves very easily.... Coming up this week, the first annual ROCK-101 auction to benefit drug and alcohol recovery clinics in Manchester. We're eagerly looking forward to collecting a lot of bucks for United Way and these recovery programs.

Eric St. John, WNPQ, Canton

First of all, I'd like to call your attention to a song that is rapidly becoming one of my favorites. Dreams So Real's "Rough Night In Jericho" combines elements of the Smithereens and fine use of pure pop harmonies to come up with a great tune.... Speaking of great new additions to our playlist, Starship's "Wild Again" is yet another stunner from the "Cocktail" soundtrack. This one will have the ladies in your core reaching for the phones after one spin.... Also, I'd like to thank Lee Jerold of Elektra for the call in interview from Jeff Pilson of Dokken. It kept our phones ringing for hours afterward. It continues to amaze me how strong this band is in our area, I mean they could probably run for mayor--and win.... Sam Kinison has given us the perfect wake up call, in fact wake up jolt may be more appropriate. MTV has helped the success of this record, the video is a regular "Who's Who" of rock and rollers, and let's not forget the Jessica Hahn "sleaze factor" appeal. Already Top 5 phones here.

Dave Heyman, KRIX, Weslaco

Greetings from America's Hottest AOR! One of our new adds this week has forced me to make a very emotional confession. I was a teenage KISS

fanatic. From the time I was 12, I learned every lyric and lick on KISS' first ten albums. One Halloween I even painted my face with silver enamel paint, just so I could look like my hero, Ace "The Face" Frehley. Luckily I lived to tell this tale. So "Let's Put The X In Sex" is not just any add, it's my adolescence relived.... On a lighter note, welcome back to the ranks of AOR for the Starship. "Wild Again" is solid from the first note. Great build, great hook.... You can call me Captain Steubing, 'coz we're broadcasting live tomorrow from the maiden voyage of Le Mystral, we disembark from South Padre Island and sojourn down the coast of Mexico. I don't know how many FCC regulations we'll be breaking, but what do international borders matter? I'm bringing my own provisions, 'coz I don't know how far south we're going. That's all she wrote from "The land of the real man"—South Texas!

John Riggs, WKLC, Charleston

Alan Sells and I would like to personally thank all the wonderful record companies who have provided us with wonderful product for our wonderful free music weekend, you know who you are.

Pam Brooks, WPDH, Poughkeepsie

Tis the season to be jolly, and boy would I be if I could get a cut of the greatest hits packages out now for your Christmas pleasure. What a money maker!... In the better late than never category, my toes have been tapping as I drove to the debut for The Pursuit Of Happiness. Hard as it is to own up to, my before mentioned cash woes prove the scariness of adulthood. Thanks to this lighthearted romp from TPOH, I feel I have a better handle on it. Now if those darn creditors would just understand the life of someone in the music biz.... CSNY has emerged as the all around station favorite of the week. "Clear Blue Skies" and "Name Of Love" should be our next moves. When the Lp arrived everyone here put in their two cents, so I see much staying power for this fine new effort.... The Waterboys' "Whole Of The Moon" will always be one of my top ten favorite songs, so my spine tingled and my heart pounded as the laser hit the first wonderful note of "Fisherman's Blues". The whole project is stunning, I was in bliss for 55 minutes as the new offering washed over me. Beside the title track, I loved "World Party", "When Will We Be Married?", "We Will Not Be Lovers" and "The Stolen Child". What an exciting return to the airwaves!... Check out the Go Between's "Was There Anything I Could Do" on Capitol. It's a very catchy package all around, great hook and lyrics and a sound that could see lots of action. Another entry into the "Where do I put it" category.

J.D., WONE, Akron

This past week our two morning magpies Brian and Joe were at it again. This time around they camped out on the roof of the WONE studios. Why? To help raise food and create awareness for the Akron/Canton Food Bank. They vowed to stay up on the roof for either 97 Hours or until their goal of 9,700 pounds of food was collected. The boys went up on the roof Monday morning at 9AM and they didn't come down until 10AM Friday morning. Even after they surpassed their goal of 9,700 pounds of food on Thursday afternoon they stayed up there until the end of their shift Friday morning. Not only did they do their 6-10AM airshift but they did cutaways during the other day parts. It was no easy task. These two really had to brave the elements from rains, sleet and snow to winds which were absolutely amazing. However, they toughed it out. They camped out in a tent equipped with all the luxuries of home—a propane space heater, TV, phone, cots and even a port-a-john for when Mother Nature called. By the time it was all said and done, Brian and Joe helped collect close to 20,000 pounds of food and still more continues to come in.... Lost and still not found: Carolyne Heldman of MTV fame. If you know of her whereabouts, call the missing VJ hotline at 216-869-9800.

Bradley Jay, KZLR, Little Rock

This week was win a trip week at KZ-95. Tuesday, Dave and Teresa, our morning team, escorted four listeners to Dallas for a "Power Lunch" including limousine service and air fare, courtesy of Southwest Airlines.... Thursday the KZ-95 "Rock & Roll Patrol" photographed the 95 best looking "little feat" in Arkansas with the top 3 winning a trip including air fare and hotel accommodations to Dallas to see Little Feat in concert, courtesy of Warner Brothers.... Friday, we sent 4 listeners to Memphis to see Sam ("Wild Thing") Kinison in concert at the Orpheum Theater. Of course we threw in hotel accommodations so they could enjoy a night on Beale St.! More from the KZ-95 "Rock & Roll Patrol" next week.

Jeff Horn, WGLF, Tallahassee

We'd like to thank Richard Pachter for help with the Robert Plant promotion. Also take note of our new music hours: Mondays 10 am to noon and Fridays 2 pm to 4 pm.

Richard, KOMP, Las Vegas

92.3 KOMP is preparing for the annual Toys For Tots Christmas charity auction and we would appreciate any and all support of donations of promotional items from record companies. Anything from cassettes to T-shirts from the record you were working 8 months ago to Guns N' Roses welcome mats. It would be appreciated. Junk to you is valuable to us. Please send anything to our studios at P.O. Box 26629, Las Vegas NV 89126. Thank you and a happy Thanksgiving.

Lorraine Rapp, WAQX, Syracuse

I loved CSNY 18 years ago and I still love them now!

Meg Stevens, WAQX, Syracuse

And 18 years later CSNY have moved into the 80s with full force. Old sounds, new sounds— just great rock and roll. "Nighttime For The Generals" and

"Clear Blue Skies" are stand outs along with "That Girl" and "Soldiers Of Peace".... Thanks to Michael Williams of MCA for stopping by this week.

Paul Marszalek, WMAD, Madison

When Joe Satriani's first album came out I refused to add it. I was wrong, I was wrong. Matt and Mark at Relativity now have permission to spank my white ass until I whimper. That's all from the world's only gerbil powered radio station.

Kelly Cruise, WEGR, Memphis

With 13 remaining songs on CSNY's new album we went with "Got It Made" for the second track.... The Pursuit Of Happiness' "I'm An Adult Now" was almost humorous on first listen. It makes us baby boomers recall our youth but should hit home with 18-24 year olds.... Hometown rockers Jimmy Davis and Junction have a new single from their re-released "Kick The Wall" album and it's a definite mass appeal record. "Catch My Heart" should catch yours too.... Hothouse Flowers "I'm Sorry" gets down right to the soul. Put your hands on the radio and say, "hallelujah".... Many thanks to Gene Dries, Dave Dannheisser, George Gerrity and Larry Wall for your thoughtfulness.

Lin Brehmer, WXRT, Chicago

The long awaited Waterboys album features a masterpiece entitled "World Party". The record on the whole reflects an increasing use of acoustic instruments in popular music. From the well-received musical direction of Tracy Chapman and Michelle Shocked to the rollicking piano of Hothouse Flowers, some young performers seem to be writing music in reaction to the synthetic electronic instrumentation that has dominated this decade. Even a classy guy like Randy Newman has an album that recalls some of his older albums, sparser and more natural sounding than "Trouble In Paradise". Randy visited last week, played and sang on the air, and even told our listeners how lucky they were to have a station like 'XRT around.... We had a certain sense of dread anticipating the reunion of Crosby, Stills, Nash and Young, but they've done a fine job. The Stills-Young collaborations seem to have impressed us the most. "Nighttime For The Generals" is the highlight and Crosby's "Compass" is gripping.... We've gone deeper this week on Jeff Healey, Jane's Addiction, and Hunters and Collectors.... Initial reaction to Sonic Youth's "Teenage Riot" is excellent.... Two WXRT shows this weekend were remarkable successes. In Tua Nua seemed surprised by the sold-out enthusiasm for their Friday night performance. Joe Ely demonstrated to an adoring crowd Sunday night why he is the purest incarnation of American Rock N' Roll since Walter Carlos switched on Bach.... If you're in Tampa this weekend, look me up. I'll be at the Bears game. Woof.

Ron Sorenson, KBLE, Des Moines

Can you say Happy Birthday? Tuesday the 15th was KBLE's lucky number thirteen. My my how times flies!! Possible tentative probationary cautionary congratulations are also in order as regards our quest for a broadcast facility. We've passed through the crucible of the FCC hearing process to determine grant of the construction permit for the new Des Moines station. Our legal beatles say we're ahead by a toenail. If the honorable Walter C. Miller sees it that way toward the end of February when we expect the initial decision, you'll be able to hear us in your car next time you're in Des Moines. Good vibes and crossed appendages are always appreciated.... Many thanks to the promotion community for putting up with my part time effort as music director for the past several months. The adds are finally in the mail. And that reminds that KBLE has gone to an all CD configuration for new releases. We could use more timely service from Polygram, Geffen, Virgin and MCA. Hats off for superior service from Warner, Reprise, Elektra, Island, A&M and Cypress.

Jamey Karr, KACV, Amarillo

Don't blame me, I voted for Dukakis.... I'm giving all my good friends Scruffy The Cat this Christmas.... We'll be playing the Waterboys this time next year, I think.

John Loscalzo, WRCN, Long Island

God bless that pony tail hippy guy, Alex "Branola" Miller for bringing Hugh Cornwell up to the station. It was a blast and a half!... Good luck Eric Hodge at Mercury, God will smile on you with a big toothy grin. Thank you to all who support us. And for those who don't, I have the memory of an elephant.

Jody Petersen, WNCS, Montpelier

Thanks to Tony Chalmers for treating us to the Steve Miller tour opener in Burlington November 10, it's no wonder the man's a legend, not only did we hear the classics, but also lots of new material and the genius of Ben Sidran at the piano. Thank to Tom Jodka for joining the party and adding to the merriment.... Finally happy birthday to WIZN, we respect what you've done in Burlington in your first five years and wish you all the very best.

Mark Miller, KABL, Minneapolis

The Waterboys—Ahhh. Now everyone finally has a copy of one of the finest records of the year, "Fisherman's Blues". Play this record or else, you radio vermin! While each track is tremendous in its own right we're playing right off the bat "World Party" (his last collaboration with Karl Wallinger), "We Will Not Be Lovers", "Strange Boat" and "Sweet Thing" (which should appeal to quieter stations). There's something for everyone on this record so don't be the last one to figure out the obvious, a common problem in radio land.... I think the Go Between's single is very cool and I send out thanks to Capitol for signing this very important band. Check out "Was There Anything I Can Do?". It's in heavy rotation here at KABL.... The Royal Crescent Mob is making major gains here, and anyone who has seen them live knows they put on one of the hottest shows around. I was surprised reaction took as

long as it did, but the new album "Snob" is where it belongs, on the top of our playlist.... Trip Shakespeare is most requested here, top 3 on the playlist and is top 5 local retail. This should tell you something of their appeal and it's not strictly a local phenomenon as the majors bidding for the Tripster's services already know.... Cowboy Junkies will do really well for people in small doses. You should listen to the album accordingly to get the most out of this band. "The Trinity Sessions" is a really nice record.... Sonic Youth's "Daydream Nation" album shows a maturation of this band, with a greater sense of what they are all about.... I like Frank Tovey's new album "Civilian" on Mute Records. This is what dance music should be. There's an explosive quality that he and Matt Johnson of The The catch really well, and this is what separates them from the danceable garbage of the latest New Order clone that clogs up alternative dance clubs and radio.

Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix

At first listen my ears were confused. Upon further listening, Danielle Dax is a different formula of modern rock. I'm impressed.... Getting incredible audience response on Transvision Vamp's "I Want Your Love" remix. Big phoner!.... A House is everything that followers of modern rock from two or three years ago would want in a band at this point in time. Snappy sound with an aggressive lead vocalist.... Looking forward to the new Dead Milkmen album, "Beezlebubba". I'm sure after hearing "Punk Rock Girl" on the Hard Alternative Sampler the rest of the material will be amusing and very listenable.... Although early reaction doesn't appear to be astounding (from what I'm reading) on the Waterboys album, I'm very pleased. Many of the songs blend into a droning folk netherland, but there are some standout tracks. The only thing that could possibly hurt this album is that the good songs are just a tad long.... Full Time Men's new album "Your Face My Fist" is quite a re-entry after some very mediocre recordings. Of course it sure helps to be involved with some of the mighty mighties from the New York/New Jersey area like some of the Fleshtones, which has obviously influenced the record. This has to be the biggest surprise for me in the past few weeks.... It's no surprise for me, but Giant Sand, "The Love Songs" on Homestead Records is not only going to surprise some of you but absolutely knock you out. Careful listening to this very different offering will make some of you look very good in 1989.... If it didn't come out so late in the year, Realm's not so delicate thrash metal treatment of "Eleanor Rigby" would be the cover song of the year!.... I'm doing my revival of the Original Under The Covers special this Sunday. 70% new music from 1988 will be included.

Robert Greenbaum, WNHU, W. Hartford

Front 242 has a dynamite 12" that's sure to make people aware of this band.

Mike Thomas, WMDK, Peterborough

The best Celtic traditions of U2 and Hothouse Flowers--the new Waterboys albums is dynamite! My favorite song is "Fisherman's Blues" and don't miss "We Will Not Be Lovers". This is one of the better albums from Mike Scott, more like the first one and very easy to program and listen to, brimming with mass appeal.... The Rainbirds remind me of Sinead O'Connor meets the Sugarcubes. Katrina Franck's vocals are reminiscent of Bjork.... Cowboy Junkies is a very melodic album and I can see why Lou Reed picked her version of "Sweet Jane" as his favorite. This record should receive a lot of alternative exposure.... "Five O'Clock World" is an excellent remake of the Vogues tune and "Charlotte Anne" is haunting in its simplicity. I don't see why anyone would hesitate to play Julian Cope, especially after hearing the new album.... They Might Be Giants has really taken off for us. In the past week week "Ana Ng" has been our top request. It's definitely catching on for us after a three week span.... "Stay Awake" is a fun record, our feature album about two weeks ago. It's also fun to reminisce about these songs on the air. Our audience responded immediately.... The Pursuit Of Happiness is a great band out of Canada with Todd's influence flowing throughout their new album.... Out of Steve Earle's three albums, "Copperhead Road" is the best. "Johnny Come Lately" and "Back To The Wall" are two of my strongest picks. I wish I'd have been in the studio to see Shane McGowan and Steve Earle together. I wonder who consumed more alcohol in one sitting?... We're planning a Keith Richards promotion where we'll give away the Lp and the winner will win a limo ride to Boston to see him play.

Dana "Where's my panties?" Galloway, KCSF, San Francisco

My hovercraft is full of squid. My underwear remains non-existent. My non-existent underwear is full of squid. Have heard rumors that an unnamed highly-placed recently elected official will be indicted for his role in a certain well-known and highly "Contra"versial Senate hearing. Does this make sense? Who really cares? Music is the center of our lives, let us rejoice as we dance to samples of old Beatle's tunes. Hey, gimme a break, I am simply an unwanted cat dropping in the granola bowl of life. Meanwhile, back at the ranch--despite the thrashiness of S.F., Satriani makes his mark--is he a threat to Metallica? Time will tell.... King D's latest ("Dark Sides") is a MUST for lovers of off-key opera. I personally think the King is King, but then there's no accounting for taste, is there? Monte loves me.... Meanstreak is one of the few all-female bands that I have found is worth putting on the old TT's.... What else is there worth noting? Probably lots of stuff, but as usual my brain has failed me. I bid you adieu.

Caesar Ettore, WKVU, Villanova

My dialogue this week revolves around one band, this band being Armored Saint. Not only are the Saints a great band, but a great bunch of guys as well. Russ, Cheryl and myself had the pleasure of hanging out with them for most of the weekend during their stop in Philly. Highlights: the show of course! Saint raged live and there is no band (with the exception of maybe

Wrathchild), that can touch them. This show was enhanced by the fact that this was the final show of the King Diamond tour. Both bands played onstage pranks on one another. It was pretty funny watching Saint guitarist Dave Pritchard hop around with his legs duct taped together and Gonzo playing "Madhouse" as his drum kit was being disassembled. Other highlights of my Armored Saint weekend included bring Joey to get his first Philly cheesesteak, going to the Flyers game with the guys, watching the "sports" (that's a long story), the Robert Cray show (yes, I survived) and of course the local pub. Thanks for the weekend guys and remember "Saints Will Conquer".

Trey Burley, WZMB, Greenville

Records we like: Quiet Riot, Realm, The Stand, Vengeance and the BulletBoys. Vixen and Kix came through last week and put on killer shows.... The Slayer and Motorhead show in Greenville is canceled, sorry Steve.... "Beast From The East" rips both on the air and on the phone lines.... I just got my own personal CD player so any extra discs you reps have please send.

Mike Jones, WGIR, Manchester

The local boys really do make good this week, on "Whiplash" as Wargasm goes to number one. If you're still on the fence about Wargasm--get off and play them now or your gonna get splinters on your butt.... The new Kiss single has major phones here before we even started playing it. The audience knew it was coming. "Let's Put The X In Sex" shall we, and move this monster up the charts. Kiss is still raging hard in New Hampshire.... A double live Dokken package is welcome here anytime. Rock-101 plays lots of Dokken and I've been featuring various cuts on my nightly "Live Rock" show. The band that was brave enough to take an unknown band from California called Metallica on its first U.S. tour five years ago is back. Raven's "Nothing Exceeds Like Excess" is great. "Into the Jaws Of Death" is my fave and will hopefully put Raven back where they belong.... I saw Ian Hunter and Mick Ronson this weekend and they totally kicked ass, I just thought you should know.

Cole Gill, KSJS, San Jose

God, the Realm cover of "Eleanor Rigby" really shreds! Can't wait to hear more.... Joe Satriani's Ep is really enjoyable to listen to, so enjoyable in fact, that before I knew what happened I'd run out of gas in front of a lonely old house in Sacramento where this cute little old lady rented out rooms and, well, you know the rest.... Well say, speaking of renting rooms, I'm still looking for a new housemate. Isn't there someone crazy enough?... Thanks to Lori Blumenthal of I.R.S. for the Nuclear Assault tickets, the show was the most fun I've had in a long time. Everyone was there from all the local bands so it became quite a happening event. And my hat goes off to Dennis Pepa for the coolest stage dive ever witnessed.... Thanks to Peggy and Lulu at Atlantic for the AC/DC passes and let's see some more all female thrash groups.

"Perilous" Cheryl LeBeau, WHUS, Storrs

Whooosh.... POP! Chew, Chew, Chew... oh, excuse me while I remove this bubble gum from my mouth. Sorry to be disrespectful to the dialogue but we're doomed anyway now that Bush is in office. Life wouldn't be worth living except for these nifty new albums I got.... Holy Terror kicks ass. Hades is raising hell on the charts. Surprise hit of the week--More Dead Cops, (as if there weren't enough already).... Major upset!!! Anthrax is #1 this week, (as I always new in my heart).... Had Hades as guest DJ's on my show. They were even better than Cheryl Valentine. More guest DJ's in the future, (hopefully), include Liege Lord, Wargasm and maybe even YOU! If you wanna be on the show, give me a call.... I'll see you later dudes.

Lisa Walker, WPYX "Metalshop", Albany

Celtic Frost's Tom G. Warrior said in many metal rags that the follow-up to "Into The Pandemonium" would be a cross between it, and older Frost, (a la "Morbid Tales"). If the CD sampler is any indication of what to expect on "Cold Lake", he's accomplished his goal. "Cherry Orchards" shreds, and goes in at #4 this week.

Richard Pachter, Promotion In Motion, 407-482-6629

I had the pleasure of visiting with Greg Mull, Dick Tyler, and the staff of WRXK in Ft. Myers (and 13,000 of their listeners) as we celebrated the station's second anniversary with a killer concert from Bad Company, Winger and John Kilzer. My old pal, Rick Totoian of ESP Management joined us as we toasted Greg and Dick on their promotions to OM and PD, respectively. Both guys have paid their dues and then some, with Greg starting out as a child prodigy in the Carolinas and then coming to Florida to put WRXK on the air and on the map in a big way. And I have great memories of Dick's grace through the adversity of all those years hanging on at that other station in town. I couldn't be happier for both these great gentlemen. Let's hear it for the good guys!

Bernie Bernard, Voice Of America, Washington, D.C.

"Better late than never" department: We've been "incredibly Casual" this week, thanks to Brad and Rounder.... Los Lobos proved that true electricity comes from the heart, and not the amplifier--the "Pistola" concert was a smashing success--Cesar Rosas even quieted the few morons who yelled for the band's rock numbers by slipping in a few bars of "Purple Haze"... We're hoping the rest of the Waterboys' "Fisherman's Blues" is as good as the title track.... Thanks to Elektra for the Billy Bragg disc, and Island for Capaldi and the Cope.... We get letters--a listener in Kwara State, Nigeria, asked us to explain what "new wave" music was--which we did Thursday, on our worldwide music service--in less than three minutes!... "Show-of-hands"

department: How many of you were doing this the first time CSN&Y released an album?

Kenny Wilbury, Warner Brothers, 818-953-3723

A big, big thanks to everybody at rock radio for making "Handle With Care" by the Traveling Wilburys the #1 track in the country. Next up "Last Night" featuring Charlie T. Jr. (Petty). The CD pro is on your desk now! A great, great week at retail on the "Traveling Wilburys Vol. I" also!

Jeff Naumann, Virgin Records, 213-278-1181

New music comes your way this week from the Northern Pikes. "Place That's Insane" is chock full of hooks, neat lyrics with almost a Dire Straits feel. This is a good one.... From the almost gold Lp from Keith Richards, "You Don't Move Me" is just about locked, and boy it sounds great on the radio, too.... Colin James continues to pull in adds on "Five Long Years". Hear this song just once on the radio and you'll know it's a hit.... Virtually all the In Tua Nua shows have sold out and received rave reviews. You must catch this band live. You'll be convinced these guys and gals are future stars.... Programmers are showing a lot of enthusiasm on the re-release of "All I Wanted". Remember this song was a smash for about 35 stations this year.... It's a shame more stations haven't taken a shot on that upper demo smash from Maxi Priest. "Wild World" is familiar to adults, hip to the kids, blows the phones out and doesn't burn at all.... Finally, top 40 came in with over 100 out of the box adds on Steve Winwood's new single "Holdin' On". Smart programmers will take "Holdin' On" out of recurrent and put it back in high rotation for a while. Don't you think?

Paul Brown, Virgin, 212-463-0980

There's a band lurking out there. It's name is In Tua Nua. It is a band fronted by the talented Leslie Dowdall. We re-shipped the 12" of "All I Wanted". Back a couple months ago, you first received this track. It was busy both internally and externally. We got a toehold in New England and had a handful of legit stations experiencing big phones and sales. Well, once in a while you gotta go back and chase something that your gut tells you is the real deal. It's a lot less congested both internally and externally. We ask that you listen to "All I Wanted". Without distractions. Very simple. Very, very simple. The world would be a much nicer place if everything were so simple.

Sean Coakley, Arista, 212-830-2178

Dreams So Real has captured the hearts of over 100 stations in the past five weeks. This at the most competitive time of year when stations get most conservative (Bush league?) and new timers have to prove themselves around seasoned veterans. Dreams have certainly done so and deserve the immediate attention of the rest of absentee voters. Look for a charming little Christmas song to come your way from the Dreamers right after Thanksgiving.... "See The Light" will be the next track from Jeff Healey. We consider it an automatic and you will too!... Most amazing playlist observation of the week: WEBN is only playing one song from the Travelling Wilburys in Light f%*king rotation! Ha! I don't feel so bad now.

Mike Mena, A&M, 212-826-0477

As the year winds down and we start thinking of how much is in front of us, (and behind us) we can look forward to a little friendly competition in the form of a softball game at this year's Gavin convention. The East Coast alternatives are challenging the West Coast alternatives. The stakes are still up for discussion and suggestions are welcome. The dividing line is the Mississippi. Any East Coast people interested please contact me at A&M's New York office (212) 826-0477. Any West Coast players contact Judy Asman at (415) 386-KUSF. I know it's a little early but us East Coasters should get a practice or two in (though I doubt we'll need it) before it starts snowing.... Oh yeah, two of the best records this year should carry you through Christmas. The Feelies and the "Stay Awake" Disney compilation.

Michael Linehan, Reprise, 818-953-3750

It's a new concept in hitmaking—aging. Take a new release, let it cure for 5-12 years and presto—it's much better than it was when first recorded—a real gem so to speak. Of course makers of red wine have been familiar with this process for years but who would have thought that the principle could be applied to music? And what could possibly interest a 24-year-old more than a song that was recorded when he or she was 12? Well, gotta run and get these masters into our new Beechwood tape vaults. Check out the A House "Call Me Blue". It's gonna be huge at the turn of the century.

Kevin Sutter, Chrysalis, 800-283-8787

Boy AOR is lucky! Never have I seen a fourth quarter so dominated by quality music from both new and established artists. While the war horses have their place, it is a prudent programmer who seizes the opportunity to strengthen his position in the market place by subsidizing his playlist with new music that in many cases is more reactionary than the superstars. Case in point, The Pursuit Of Happiness' "I'm An Adult Now". Out just four weeks and facing an onslaught of superstar releases, but yet the listening public has gone on embracing them. They demanded their favorite station play it again. And who says new artists don't break on the fourth quarter. The net result of this is you have consumer confidence in your product (your air sound). Next step in success for TPOH will be their tour starting right after Thanksgiving.... The next quality artist we've introduced into the fourth quarter madness is the Waterboys. These guys offer you a particularly strong challenge. You must listen to their music and hear the mastermind at work. After all, this business can't always revolve around bullets and breakers. The Waterboys music offers the listener a strong reminder that what got them as well as ourselves into music was the songwriting quality of the musician. I dare anyone to challenge the songwriting quality of Mike

Scott. Go ahead, make my day. In any event, take pride in the fact that your listening audience has stuck with you through the years because of your quality air sound. So in your next music meeting sit with the Waterboys album and take the phones off the hook. Tell the sales manager to hype the accounts on the station, not the people in the programming department. Hell, I'll pay for the pizza if you're willing to make a lunch of it. Consider it a business meeting in absentia. By the way, during dessert we can talk about Pat Benatar, Jethro Tull, Jimmy Davis, or maybe even the Go-Betweens. Oops, they're not even on my label.

Jetson, Relativity Records, 718-740-5700

I'm entering my third week of being a record weasel and learning how to say things like, "You're beautiful, it's happening, it's the greatest record since Abbey Road, and let's do lunch." Hopefully I will soon be getting my very own satin jacket and I'll be off to a successful career in Records. But seriously, I've been very busy since I started at Relativity. The new Scruffy The Cat record is doing great, climbing the alternative charts. The title track, "Moons Of Jupiter" is the track most stations are playing. And how about that cool artwork? I appreciate all the stations that have made me feel welcome and don't forget, you're beautiful.

David Counter, Relativity Records, 214-324-9425

After almost a solid year on the road with his own trio and with the Mick Jagger band, Joe Satriani finally gets to come back home. And what do you guys do to him? You guys make his new track "Crush Of Love" one of the most requested, most played, most demanded songs on radio. You guys are great, thanks to all that believed from the start and all who believe now, that instrumental music does indeed have a place on the radio. Welcome home Joe.... Watch for those lovable Boston guys, Scruffy The Cat, scratching at your door. College and alternative radio has made their new album "Moons Of Jupiter" an out of the box sales leader at retail. Listen to this album and you'll remember why you got into this business in the first place, "Moons Of Jupiter" could be the most fun rock n roll platter of the year.... For all you rivet heads out there, be sure not to miss the new Raven album, "Nothing Exceeds Like Excess". No more of that wimpy stuff when they were on Atlantic, but back to the molten basics.... Also on Combat, the sleeper, a brand new band from San Francisco, Forbidden. These guys follow in the footsteps of proven monsters Exodus and Metallica.... Last but not least, kudos to Edie and The Bo's for their gig on Saturday Night Live last weekend. You all made all of us in Dallas proud.

Graham Hatch, Frontier Records, 609-799-7597

Chances are a year from now you'll look back on many of the records you're currently playing and say "I like that record but I wouldn't play it now". It's not 'coz they're bad records, it's just because they don't have any staying power. Let me tell you you're not going to have that problem with "California" from the American Music Club. I say that confidently 'coz I saw it with their last record. Mark Eitzel writes songs that are thought-provoking and substantial. Melody Maker's compared him to Gram Parsons. Option Magazine thinks he's an American Morrissey. I think he's more like a schizo Van Morrison. But either way this is a record that has more to say in 40 minutes than most bands do in a lifetime of releases. Maybe you'll miss some of the subtlety and mood on the first listen. But be a music lover, not a music director, and give this record more than a cursory listen. Any record you can comprehend in one listen can't be all that revolutionary.... And for those who like to rock, Mallet-Head is going to be on the road in January, dates to you as soon as I know. Hope you're playing those genius id's and just FYI, I just got some new demos from them a few weeks ago and I promise you they're not going to have the second record blues. These new songs are as good as any from the debut. A special 12" is shipping before Christmas, so you can keep spinning them in the new year. Happy Thanksgiving!!!

Colleen Baxter, SST Records, 213-835-8977

I just got back from the hospital where I was treated for a torn ligament in my left thumb. I got this injury by playing Nintendo video games. Konami, to be specific. It started innocently enough, I'd play a quick game after work to take out my aggressions. Then soon I was playing on the weekends and sometimes even before work in the morning. In a matter of weeks, I was hooked, and my health was in jeopardy. Then yesterday, the inevitable happened, and my thumb couldn't take the strain of even one more game of Konami. Now with the support of my friends, I'm trying to turn my life around and beat my addiction. My hand is splinted and bandaged, so Nintendo is out of the question; fortunately, it's my left hand, not my phone hand, so I can still pester you about our new releases: Grant Hart, Trotsky Icepick, Dinosaur Jr., Das Damen, Volcano Suns, Angst, Soundgarden and Bad Brains. Just take my story as a warning, and for God's sake, don't let this happen to yourself or, even worse, your children.

Jerry Rubino, Bar None, 201-339-8291

So there I was getting set to watch "China Syndrome" for the umpteenth time, when boom, our walls are shakin'. Not much thought of it at the time, thinking it was my landlords upstairs, but, no sirree, I find out a little later that about two miles away it's a chemical factory explosion! But heck, living in Hudson County, New Jersey, you unfortunately are used to this. Nevertheless I'm still here but most importantly you're still there and still digging They Might Be Giants. Remember what the video did for "Don't Lets Start"? Well watch out for "Ana Ng". It's bound for higher grounds. You should set up extra phone lines for TMBG phone requests.... Glass Eye's new five song Ep should now be in your hands, and should certainly be getting attention. Let me hear your feedback. Congratulations to Wayne,

NJ's own Dramarama on their signing to Enigma/Restless. It's been a long time and it's certainly due. I was the first ever to play them on the radio on WFDU-FM back in the winter of '83 and have never lost faith. I'd better stop now before Paul Vitigiano of Warner Brothers shoots me with his dangerous Ice-T zap gun.... So in closing here's this week's Super Segue: "Make a Play For Her Now" by the Bangles, "The Bells Of Love" by Big Dipper and "Ana Ng" by They Might Be Giants, of course. Later.

Charity Kurz, Mechanic Records, 212-226-7272

Who's dog? Who's God? I'm not really sure about the first one but Voivod is definitely GOD! And what could be more God-like than Voivod and Violence together? I think nothing. If they haven't already done your town than prepare yourself--they're on their way. If you happened to be hanging out in the New York club scene recently, you've probably already noticed four blonde souls who call themselves Stone. They are in NYC until they go on the road December 3rd. So far they have a few dates with Testament. Give me a call for more info. I will not be around the week of November 20th, though, since Lisa from Caroline and I will be journeying to London. I hope I can pick up a few of those attractive vomit bags while I'm there. See ya.

Cheryl "What are you looking at" Valentine, Metal Blade, 212-645-6208

An eventful time was had by all. Know what I mean, Vern? I be talkin' 'bout the Saint boys! They jammed and you missed it. Just as Dan "Help me get my buddies in" Sisto, Caesar Ettore (thanks for the crash pad), Russ Ceccola (you're a peach for driving), Sally "You don't have a pass" Vicious, or the Bims from Hell (is it time to go home, girls?). "Hi, who are you?" They understand just how great Armored Saint are and how huge they should be. Do You get it? It pains me to see the uneducated populace ignoring such an enormous talent. Wait 'til you hear their new songs: "Dropping Like Flies", "Reign Of Fire", "Spineless", and "War Zone". Are your audiences aware of this band? Don't be a brainless twit, play this Shit! like, terminology dude!... Are Sacred Reich in your Top 3? If they are, you rule and if they aren't, WHY? They debuted at #12 on the Concrete Retail chart and will be zipping up the radio charts pronto-like. This be a mega-request band.... Have you been paying attention to your Dead End Lp? For those with blinders on department, two tracks on Shambara are in English and we may even get Morrie into the U.S. for interviews.... Yo, Anvil heads! "Pound for Pound" is getting way cool (Jon Sutherland lingo) response and deserves to be superglued to your station turntable. Look for them to show up on tour with those masters of control, Liege Lord.... Keep those Omen poster requests coming--the strangest being from Tom Smith who wants a laminated poster. Hmm!

Kathie Reed Barr, Roadracer/Emergo Records, 212-219-0077

This is a crazy business! After one week, I'm just getting adjusted to working this side of the college radio scene! Those that I have talked to know the deal! (Right, Jeff from WRUB). Those that haven't should be hearing from me soon either by phone or mail. Call me if you have any questions or comments on The Waxing Poetics or Emergo.... Roadracer has so many releases to satisfy your appetite for metal. Holy Terror and Atrophy are sure to bring metal programmers to their knees, and Realm is another heavy hitter.... And just in time for the holiday season King Diamond's "Dark Sides" gives you a clean copy of "No presents for Christmas" for your listening pleasure. If you have any questions or wish to part with some of your sanity, give me a call!

Debbie Gregory, Roadracer/RC Records, 212-219-0301

Hitt-Man CD's are coming real soon. I promise, in fact I'll stake my reputation on it. (What do you mean what rep?) This gutsy, debut album contains the first single "Will You Be There?" Full of energy and style, not to mention a huge crossover potential, this cut should not be overlooked by any commercial metal/rock radio stations.... Meanwhile, Realm's "Eleanor

Rigby", is catching on quickly. This neck snappin version is a real mind blower. Check it out, but don't say I didn't warn you. For more info, call me at 212-219-0077.

Clarissa Garcia, Enigma Records, 213-390-9969 x215

You know, when I'm not appearing in the latest comic strip "Out Partying" (according to Biff from Saxon), or taking pictures of Sumo wrestler wanna-be's, I'm promoting the new releases from Motorhead and Death Angel. "No Sleep At All" is Motorhead's second live release. It's packed with everyone's faves like "Killed By Death", "Ace Of Spades", "Built For Speed", and so on. But wait--there's also "Just Cos You Got The Power", a track that's fairly new to the American audience. It was on the b-side of "Eat The Rich" in England only--check it out.... Death Angel's frolic across the nation in support of Frolic Through The Park has just ended. But the band will be a part of the killer bill out there in California: Motorhead headlining with Death Angel opening!!!! Confirmed dates include: 12/15-Wilson Theater in Fresno and 12/16-Santa Monica Civic Center in Santa Monica.... Stryper and Hurricane will be here: 11/21-Hartford, 11/22-Poughkeepsie, 11/23-Fairfax, 11/25-Buffalo, 11/26-Pittsburgh, 11/28-Hershey, and 11/29-Philly. Call me for more info.... In January, look for "Voices In The Night" by Mass, "Ain't Misbehavin'" by UFO, "Take A Bite" by Girlschool and "The Xenon Codex" by Hawkwind. 'Til then, have a happy turkey day and day off. Talk to you kids soon.

Megadon, Combat, 718-740-5700

"You can't run a successful metal show and not add Raven". That news comes from none other than Tracey Barnes at Z-Rock, and he's right. Okay, so most of you don't play metal 24 hours a day, but Raven are a slice of heavy metal history, and are a must-add.... "If you haven't listened to Forbidden yet, do it, or get a lobotomy". That's how Lora at KPGA feels, and many of you seem to agree. Forbidden are the next big thing, with rave reviews coming from all sides.... "Satriani is God!" according to Matt at WRTN, but everyone knows that! These releases are certainly ending 1988 off with a bang!... Now, here's the thought that should scare the hell out of you: by the time you read this, Givens and myself will have laid down backing vocals on the forthcoming Onslaught album. This is no joke! The Real Men finally make it to vinyl!!!!

Stewart Morales, Torrid Records, 914-644-3885

Working at a small independent metal label can be pretty cool at times, especially when you can concentrate your energies on pushing a band that you honestly believe in that has a great Lp. I've been a Hades fan since 1984, long before I got the job here at Torrid and most seem to agree that the new Hades Lp, "If At First You Don't Succeed", is quite an exceptional album. In last week's Hard Report, it shot up to #16! Meanwhile in CMJ, it debuted at #19 in their top 40 Hard Rock chart.... Thanks again to Charity (Sorry I missed violence) for the Hades live broadcast, but please turn down that thermostat!... Motley Stue picks--Manowar, the Cycle Sluts From Hell and Hades of course. Oh yeah, Happy Thanksgiving everybody!

Russell Gerroir, Concrete Marketing, 212-645-1360

Have you noticed that Britny Fox record you've had for a while suddenly experiencing a huge resurgence? These guys are back on the metal charts, hopping from the Poison to the Ratt tour, selling 20,000 records a week and getting the MTV exposure via Active rotation play.... Ozzy continues to get very solid support, #3* on all three metal charts, #15 Billboard Top Lp chart, front cover press coverage and an impending national tour.... Quiet Riot has good initial reaction--137* Billboard Lp chart, watch for big time metal chart action.... Check out Winger currently touring with Bad Company on the East coast. The video for "Madalaine" continues to be in Active rotation on MTV as Winger garners support fore the lead single. The new AOR/Metal single is "Seventeen" look for the video in a couple of weeks.

Stephen Page, KOME

"Joan Jett's 'Little Liar' is quite possibly the best thing she's ever done vocally and production-wise. It's totally accessible to all dayparts."

Kelly Wallace, WLZR

"No doubt about it—she has come up with one of the best songs in her entire career."

CHEAP TRICK

"GHOST TOWN"

Hard Hundred 42*

Over 70 Stations Deep

Rob Wagman, WWRX

"After two rock radio successes from 'Lap Of Luxury' and almost two million copies sold, 'Ghost Town' has got phones written all over it and debuts in our top five this week."

Tim Parker, KNCN

"The album is still selling and this is our fourth cut!"

Robin Mathieu, WBLM

"Comeback of the year!"

From the album **LAP OF LUXURY**
... so many units sold, it's frightening!
