RPM WEEKLY - Part 2
MAY 26th, 1973

STAMPEDERS: MWC RECORDS

It takes time
to put it together...

But it sure is worth it!

Why don't you come up and see us some time?

POPPY FAMILY PRODUCTIONS:

6945 Isleview Road, West Vancouver British Columbia Canada – (604) 922-2683
Four Hill Crescent, Scarboro (Toronto) Ontario Canada – (416) 533-8187

It has appeared in more than three quarters of a million copies of RPM, and it is worthy of repeating:

"...the prophets of doom the messengers of mediocrity, will be overwhelmed by the new generation of competent, creative, confident artisans and by all those of preceding generations who have already demonstrated their freshness of mind, their talent and their capacity for inspired leadership."

They are the words of Pierre Juneau, Chairman of the Canadian Radio-Television Commission, spoken at the time when the 30% Canadian content ruling was proposed . . . how true they were then, and how true they are now.

If the success of an industry cannot be judged by volume, it should be judged by activity. This directory of the active participants in the Canadian music industry is an indication that a great deal is happening.

That "new generation of competent, creative artisans" are obviously helping to create a niche for Canada on the world music scene. They have been capably assisted "by all those of preceding generations who have already demonstrated their freshness of mind, their talent and capacity for inspired leadership."

There have been highs and lows in the industry, but the future has never looked brighter. As more and more capable people enter the industry, a definite pattern of success begins to take shape. Our recorded music of today is the product of that success.

Granted, the process has been slow - but it hasn't ground to a stop, nor has it been set back by "the prophets of doom" or the "messengers of mediocrity." One day, it might even overwhelm the world.

Those who have contributed to the growth of our industry can look upon their accomplishments with pride. Those who have attempted to stifle our industry must now be realising their attempts are futile.

We have winners and we have losers - but the name of the game is the ability to sustain and continue to try. It isn't important to win . . . it is more important to play the game.

CAPAC: keeps on rockin' along

CAPAC is Canada's largest performing rights society, and it's by far the longest-established. But if you think qualifications like this mean that CAPAC doesn't have time for today's music, you couldn't be more wrong. Ask Gordon Lightfoot, or the Stampeders, or Edward Bear, or the guys in Crowbar. Ask Murray McLauchlan, Christopher Kearney, Doug Riley, Rolf Kempf, or the composers in groups like Perth County Conspiracy, Noah, Whiskey Howl, Fludd, Leigh Ashford, Downchild, or dozens of others. If you live in Quebec, ask Stéphane Venne, Jean-Pierre Ferland, Tex Lecor, Les Sinners, Pauline Julien, or Robert Charlebois.

Because CAPAC also represents the performing rights interests of members of affiliated foreign societies, we could refer you to some other people, too. Like the Rolling Stones, Carly Simon, Rod Stewart, Chicago, Led Zeppelin, Bob Dylan, Randy Newman, Carole King, Van Morrison, Neil Diamond, and thousands more who have asked CAPAC to administer their rights in Canada. So, if you like to be known by the company you keep, you owe it to yourself to find out all you can about CAPAC — especially if you write or publish contemporary music. Call Mary Butterill at 416-924-4427 — or try to reach some of our heavy friends.

CAPAC: in the middle of the road

If you write music for films, plays, musicals, and television, the chances are that people will call you a middle-of-the-road composer. There's nothing wrong with that, as Galt MacDermot, Gene Lees, Robert Farnon, Gordon Lightfoot, Milan Kymlicka, Robert Swerdlow, Marty Butler, and hundreds of other CAPAC members will tell you. CAPAC's job is to collect the performing rights royalties due to its members as efficiently and painlessly as possible. It's not an easy job, but CAPAC does it well and economically, with the help of a dedicated staff and a big IBM computer in the Toronto head office. We also represent the performing rights interests of members of affiliated foreign societies. Bacharach and David, Rodgers and Hammerstein, Duke Ellington, Irving Berlin, Jimmy Webb, Randy Newman and Rod McKuen are just a few of the composers who have asked CAPAC to administer their rights in Canada. If you want to know more about CAPAC, and how it can help you, give Mary Butterill a call at 416-924-4427. She's here to answer your questions.

Canada is CAPAC country

CAPAC — the Composers, Authors and Publishers Association of Canada — has always been involved with the world of Canadian country music. Some of the great veteran stars — men like Wilf Carter, Don Messer, Stu Davis, and Hal Lonepine — have long been part of CAPAC. CAPAC continues to represent their interests, just as it represents those of a new breed of Canadian country star — people like Stompin' Tom Connors, Roy Payne, Fred McKenna, Tom Kelly, Stevedore Steve Foote, Harry Hibbs, and the Family Brown. CAPAC's main role is to collect performing rights royalties from the organizations which use music in Canada, and distribute the money to the people who write and publish it. Last year, CAPAC members — and members of foreign societies affiliated with CAPAC — shared close to \$7 million. That, as they say in the country, ain't hay. If you write or publish country music — or any kind of music — you need to know how CAPAC can help you. Mary Butterill, who looks after CAPAC's repertoire, is waiting to hear from you — why not give her a call at 416-924-4427, and introduce yourself.

CAPAC: keeping it all together

If you've read the ads on the last few pages, you'll have got the drift of the message CAPAC is trying to get across. Simply, it's this: CAPAC is the only *Canadian-owned* performing rights society. It's members elect their fellow Canadian composers and publishers as directors to control and manage their own organization. CAPAC's main task is the collection of performing rights royalties, and the distribution of that money — close to \$7 million last year — to its members, and to the members of foreign societies affiliated with CAPAC. (Those societies, of course, are collecting royalties for CAPAC members when their music is played in 93 different foreign countries). CAPAC has been an important part of the Canadian music scene for a long time, but it hasn't grown fusty or lazy. It represents composers and publishers of ALL kinds of music — rock, jazz, folk, opera, M-O-R, classical, and you-name-it.

CAPAC has no secrets, and nothing to hide. If you're a Canadian composer or publisher, you ought to know everything you can about CAPAC. So call Mary Butterill at 416-924-4427. And think up some tough questions for her.

the day music stopped

Imagine that all music suddenly has ceased to exist. Composers have stopped creating. Musicians are silent. Records and tapes are gone. People have stopped singing. A universal language has disappeared in the flash of a moment.

All over the world, the blow is shattering. In Canada the economic loss is beyond belief. Hundreds of radio stations, deprived of the majority of their programming, are reducing their schedules or going off the air. Television producers are converting every existing program and every commercial with music to straight talk. Many sponsors are simply cancelling. The juke box is extinct. The recording industry has closed down. The music instrument manufacturing business is obsolete. Thousands of children who have been studying music no longer have any use for pianos or violins or woodwinds. Every symphony orchestra and opera producing group has dis-

banded. Most night clubs, theatres, dance halls, concert halls, ballrooms have shuttered their windows. Thousands of people who earn their living because of music are now unemployed. The tax loss is incalculable.

A fantasy? Yes, but it makes a point. Music is vitally important in all our lives, in terms of sheer economics as well as of culture.

We are proud that BMI Canada Limited, together with our affiliated composers and publishers, is one of the many organizations which play a role in supporting and fostering the miracle of music.

If yesterday had been the day music stopped, you wouldn't be hearing about it from us. BMI Canada Limited wouldn't be in business. Nor, possibly, would you.

Serving the creators and users of music since 1940.

If you have ever visited Ontario Place or a certain downtown Toronto German drinking hall, then you know what George Kash and The Oktoberfest Express can do to a crowd. People out for a quiet drink turn into a delegation from the United Nations right before your eyes. People who know nothing about traditional Hungarian gypsy dances or German beerhall songs are, all of a sudden, transformed into Old-country folk.

Their music ranges anywhere from Chicago to the once-banned Lili Marlene and takes everyone, young or old, straight or hip, right along with them. Theirs is a lively, gaggy, showy, funny and very moving type of music not above becoming addictive.

"Addictive" in that people who hear them once are always back to hear them again and again and again . . . They clown around, laugh, dance and generally carouse while on stage — and it all helps, for their way is not just the music but the way in which it is presented. They are the world's greatest beer salesmen.

"Keep On Chuggin'" is a record meant for everyone. Everyone who enjoys a good dance, a good laugh or just a great time. Whether on record or on stage, George Kash and The Oktoberfest Express is one way to pack a lot of pleasure into your life. Theirs is the real gemütlichkeit.

The Canadian record company that's come a long way

It was almost two years ago when a number of Canadian businessmen created Avenue of America Recording Limited with a nice new concept in the record industry. The skeptical record industry said, "good luck, it's going to be a hard trip."

The businessmen said, "let's record proven songs in the style of the original hits, package them attractively in sets, price them reasonably and then promote the heck out of them . . . sell music . . . not the artist.

"Then let's take the profits and put them into the promotion of good Canadian talent."

And that's exactly what Avenue of America have been doing. They have had successful record set promotions like: "Rock On" (30,000 people came to the "Rock On" concert at Toronto Island); "Love On" (40 great love songs); "50 Top Hits of 72" (still selling strong); "Grammy Awards" (a big seller in Canada and the U.S.)

This marketing approach was the foundation from which Avenue moved into the individual artist field under the G.A.S. label.

Today G.A.S. is carefully and cautiously developing new artists. Artists like: Abraham's Children (their hit single "Gypsy" is leading to a full album release); Rose; Side Effect; John Bennett; Robbie Lane; David George; Robbie Rae; Charlotte; and Doug Billard. And they all record for G.A.S.

It's been a good beginning for Avenue and G.A.S. Now Avenue is truly a strong force in the Canadian record industry . . . a force that you'll be hearing more and more in the 70's.

If you want to know more about this publicly owned Canadian company, write to them at 750 Supertest Road, Downsview, Ontario or call (416) 661-2221.

Carpenters carry sound insurance.

One of the country's hottest groups, Carpenters, needed a *portable* sound system that could give them recording studio control over the sound of things like "Close To You" and "We've Only Just Begun" in *live performances*. Solution? The Shure Vocal Master Sound System! The same system used on tour by The 5th Dimension, The Lettermen, Sergio Mendes & Brasil '77, The Association, plus hundreds of other groups. The Shure Vocal Master gives them utter reliability, complete control over vocal effects and over feedback —with 300 watts of peak penetrating power! Result? Audiences everywhere are hearing Carpenters as they sound on their recordings — naturally!

WHAT IS A MUSIC PUBLISHER?

A Music Publisher is a Specialist, who, among other things, can give song writers valuable advice on how best to slant their material to achieve hit parade status; who has the contacts to ensure that songs are placed with the best artists, and who prints and sells sheet music.

AT CHAPPELL, PUBLISHING IS OUR ONLY BUSINESS-NOT A SIDELINE.

CHAPPELL has a full time professional department whose main function is to place original songs. During the past year, we have placed CANADIAN songs with GINETTE RENO, BOBBY CURTOLA, CLIFF EDWARDS and many others. We have also recorded demonstration tapes with COPPER PENNY and HARRY MARKS and placed them with record companies resulting in U.S. releases.

CHAPPELL'S PRINT DIVISION is the largest in Canada, distributing music books and sheets to over 700 retailers. Our list of titles would knock your eye out . . . CAROLE KING, THE GUESS WHO, CAT STEVENS, NEIL YOUNG, JONI MITCHELL, THE STAMPEDERS and many more.

.....NEXT TIME SEE CHAPPELL
FIRST! WE DO MORE THAN JUST
COLLECT ROYALTIES.

We make things happen

Looking for someone in the Canadian music industry who knows a song or a talent has something before everybody knows? And knows what to do with it? Try us. Joe Probst, Bobby G. Griffith and Rob Liddell did in 1972. Ask them why they're glad they did. Then give me a call.

WORKING TOGETHER TO HELP BUILD THE CANADIAN MUSIC INDUSTRY

Together, we have grown right along with the Canadian music industry. Over the years we have discovered new directions, enjoyed successes, survived failures and learned a great deal. The best part is, we've had a hell of a lot of fun in the process.

Tamarac was established May 1st, 1963. It was ten years ago when we launched our first Canadian single.

Since that time, a great many artists have been involved with us and a great many singles and albums have been made available. All product has been Canadian content, and every release qualifies as Canadian content - to this day.

It began in May of '63 with "Stood Up" by Larry Lee. Later came "Big Town Boy" by Shirley Matthews and much later "My Girl Sloopy" by Little Caesar and the Consuls. We should also mention: The Big Town Boys, The Butterfingers, Robbie Lane, Bobby Kris, Dave Miekie, Ronnie White, Dee and the Yeomen, Jayson King, Hugh Scott, Jay Jackson, Greg Hambleton, Jimmy Dybold, Jack Hardin and the Silhouettes, The British Modbeats, Jack London and the Sparrows, Eric Mercury, The Ardels, The Counts, Spec Filter, Lynda Layne, The Rainvilles, The Charmaines, Tommy Graham, Jay Smith, Paul Clinch and the Cycle. . . .and many more.

In 1963, the best that Canada could offer in the way of recording facilities were 3-track studios. They were ill-equipped for record production in the very competitive North American market. As Canadian producers became more prominent, the studios improved over the years, turning out remarkably good product. Today there are studios with 32-tracks and the facilities are regarded as the finest in the world.

It was what happened in those early years of Canadian production that has led to Canada's position in the world music industry, today.

The Canadian recording stars of today were too young to remember that just ten short years ago, the potential of a Canadian artist was dismal.

Today we have a viable, aggressive industry. There is still room to grow, and Tamarac wants to be part of the new adventure of the growing music industry in Canada.

The Second Oldest Profession in the World

For years (the story goes) historians have tried to find out the meaning of square heel marks left in the sands of an ancient city that was dug up. It was only recently that the answer was revealed. It seems that the ladies of the night (of their time) cut the heel of one sandal to leave a mark in the sand wherever they wandered. Their customers could find them by following the marks of the heel left in the sand. As a result of these findings, advertising became the second oldest profession in the world.

You don't have to notch your sandal to become part of the growing trend to make your services or your product known. We can now offer you a wider audience than those ladies of ancient times. Be it information or hyperbole, the pages of RPM Weekly reach out to every aspect of the trade and the media. Record stores, rack jobbers, programmers, disc jockeys, juke box operators and many or most of the companies and individuals listed in this Directory will see and read your ad. The value of trade advertising is unsurpassed when it comes to reaching the exposure media whether it be by airplay or room in the browser box.

We offer instant service and cooperation to get your ad into RPM and RPM out to the trade. There is nothing you can do that has such a national impact on the trade as an ad in RPM.

We aren't here to pressure you into advertising, but why not test the marketing potential of RPM Weekly as your new imaginative campaign to get to the trade. Next time you think of a mailing piece or a direct mailing to the trade - think of RPM as an alternative. One phone call to us with an ad reservation and put the copy in our hands (even in its rough stages) and the next thing you'll see is the ad that has gone out to the trade of two countries. No setup to approve, no printing, folding, packaging, postage or mailing. We do it all, on a weekly basis.

We're here to provide a service to the industry. We package news, information and your pitch to the industry. Try RPM. It's consistent, it's reliable (since 1964) and it's read.

We're proud to be part of the second oldest profession in the world (if you believe that story).
