RADIO STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL, (HEAVY AIRPLAY AT EVERY STATION WHICH REPORTED); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT. IT ADJUSTS FOR MARKET SIZE AND FOR HEAVY OR MODERATE AIRPLAY. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RADIO AIRPLAY FOR BOTH NEW AND ESTABLISHED RECORDINGS.

COMMENTS:

Sorry we missed you last issue, but it's been a busy July in Beantown. The COZ News microphones capturing FCC Chm. Ferriss backstepping on the Carlin decision...Seals and Croft talking about their career slide since the "Unborn Child" album controversy...Naturopath Dr. Stan Maltrom and Vegetarian Gary Nolan joining us on "Crosstalk" for a chat about natural medicine and good eating...and a fascinating chat with John Steinway of piano fame explaining why his creations are well worth their \$17,000 price tag. Turns out that the 65 year old Steinway is a real fan of Chick Corea. Movie makes producing the "Brinks Bank Robbery" here in Boston, headquartered in our very office building in fact, were themselves robbed at gunpoint, the thieves stealing 10 reels of film of the most expensive scenes shot to date. And COZ News got exclusive sound of star Peter Falk saying that he'd like to help in the investigation, but he left his Columbo raincoat back in LA. Smells fishy to me. Congratulations to all those who fought for passage of Percy's cut-

off of federal funds for Mexican marijuana spraying, especially to KMET and S.C.A.M.S. for their outstanding petition drive. And to Dr. Peter Bourne, staunch supporter of paraquat, goes this month's karma award.

Anybody got any reactions to the first few issues of GOODPHONE? Some nice stuff in there, a bit philosophical perhaps, but stimulating. Noticably absent, however, is anything of a News or P.A. nature. Why is it that Radio Journalism always takes a back seat to the music?

COMMENTS:

Hello again. The heat is still settling from one of the hottest rock & roll shows to hit New England in some time. Some background - WAAF had originally planned to present The Cars & Creed in a benefit show for the Leukemia Society of America. The show was to be held outdoors in a local public park. We sold 6500 tickets in 3 days at \$1.07 each. 3-1/2 days before the show, the state attorney general shut us down, citing the old "Sunday permit" ploy. So we moved the entire show indoors to the Providence Civic Center, put an additional 6000 tickets on sale for \$2.50, and packed almost 11,000 ecstatic fans in on Sunday night. All to see The Cars! Three cheers for Lee and our promotion director Joe Biedrzycki for pulling the whole thing off in the face of political adversity, and thanks to our friend Frank Russo for coming to our aid. Special thanks to the entire band - Rick, Ben, Elliot, Greg and David; and to The Cars manager Fred Lewis for going way out of their way to make this happen. And of course thanks to Creed and to Kurt, Marty, and Mitch at Elektra/Asylum. The Cars ARE stars!

The new Ambrosia Lp is a killer. The title track & "Heaven" really stand out, and "How Much I Feel" has got to be one of the best cuts of the year, AOR or top 40. The Talking Heads' 2nd Lp is guaranteed to bring even greater success than their first. "Take Me To The River" works on only one listen. A great track! That's all for now. Have a good one!

- John

'DRC-FM brought Ted Nugent to Springfield on 7/27. The sold out show was a screamer; no matter what you think of Ted fastwise, he sure is good at what he does - and he put out 110!!!

Jay Crawford, ex-WPLR, ex-WHCN, ex-WVYD comes back to 'DRC-FM to help with weekends and vacations. It's great to work with him again! See WPLR when they come to your town - the great just keep on getting better!

Congrats to Dave Scott on going to WCNZ; also hellos to Dave Corry, John Labella, Gacey, Jerry Mills, Bill Robinson, Roger Lifeset & Nile Siesel.

The Cars fan club is driving down the hill...

COMMENTS:

This is my last WARUS report as M.D., as I will be stepping up to P.D. for a time, beginning on August 5. The new M.D. is Steve Stockman, who is moving up from the Production Director position to take over the new duties. Many, many thank to all of you who've made the M.D. job a pleasant one for me...please keep in touch.

Recent happenings include - an interview with the Ramones; a live remote from Scarborough Beach on July 29, when we did numerous giveaways and spun records; an exclusive interview with MAX HOMEY on Peter Simon's Reggae Bloodlines show. We've also been fortunate enough to land 3 songs off the forthcoming Peter Tosh album, one of them a great pairing with Mick Jagger. All sorts of Stones will be appearing on the album, which will be a dandy judging from the tapes we've got.

Adieu,
Glenn

COMMENTS:

While WRAS gets good service from all the folks, CBS and all its associated labels, ABC, RSO and WEA respond above and beyond the call of duty and that is greatly appreciated. We were the first station in Atlanta to play SGT. PEPPER in its entirety and audience reaction was 50/50. Aerosmith, Billy Preston and Earth, Wind and Fire received favorable reaction. In regards to Management changes, Susan Brown has been appointed Executive Assistant to the General Manager.

COMMENTS:

Jeff Ranz is now QSR Production Director, taking over for Bill Mims. Good luck Bill, we'll miss you. And a hi-ho to Mike Cooper, who Tampa/St. Pete radio will also miss. This market's really shakin'. We won our first league softball game and I don't feel like Billy Martin anymore. A comparison to the Atlanta Braves seems more like it.

COMMENTS:

Many thanks to Tom Petty and Ben Tench of the Heartbreakers for dropping by and for their incredible performance at our Birthday Party. What a pleasant surprise it is when you finally get to meet a long-time hero and he turns out to be even nicer than you imagined. I'm speaking of Martin Mull, who left Tampa in stitches at his 2 sold out concerts the other night. 11 o'clock just isn't the same since America 2nite came off the air. As we begin our second year with a rock format, we humbly thank all of you out there who have supported us. You know who you are...and who you aren't.

COMMENTS:

HOT FUN IN THE SUMMERTIME -
1 - More budget concerts - U.K. put on an awesome display before a packed house at the Riviera Theatre, then The Cars did a sellout rock & roll show at the Park West the next week. Our thanks to Jerry Jaffe and Richard Hall at Polydor, Ralph Ellen and Bob Destocki at Elektra, and the folks at Jam Productions.
2 - WXRT Day at King Richard's Faire - a return to the Renaissance for our staff and listeners, complete with copies of the Renaissance album to give away.

COMMENTS:

I have been liberally quoted (and misinterpreted) from a few comments I made in Walrus issue #240, in which I stated that P.D.'s should not be afraid to play new music before the songs are certified "hits." Let me briefly clarify.
In order to communicate to the people we are all trying to reach, we MUST play the music that they have indicated they want to hear (through record sales, requests, letters, research, and concert attendance.) However, there IS room to play "hits to be," albums with obvious commercial appeal (Van Halen, Nantucket, etc.) that people WILL like, if they can hear them. There's even room for a limited amount of "hits that should have been" (we can all think of groups that have many fine early albums, but didn't win mass popularity until later in their career. We should have been playing Fleetwood Mac, Billy Joel and Bob Seger long before their million selling Lp's.)
The key is to play GOOD music, and there is a degree of instinctive gut reaction that must be trusted. While

it is true that we must reflect our audience, we can and DO shape the tastes of our listeners by the music and news and commercials which we give airtime.
It is possible to entertain a mass audience and still take chances - we just need to guard against self-indulgence.

RETAIL STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL (TOP 5 SALES AT EVERY REPORTING RETAILER); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT ON THE HITS. IT ADJUSTS FOR STORE CHAIN SIZE AND REPORTED POSITION IN THE TOP 15. A SINGLE WEIGHTING SYSTEM WHICH ADJUSTS FOR STORE CHAIN SIZE IS APPLIED TO THE BREAKOUT REPORTS. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RETAIL INTEREST FOR BOTH NEW AND ESTABLISHED RECORDINGS.

COMMENTS:

Picture discs are not property... Heart's MAGAZINE is out and the Beatles' SGT. PEPPER is on its way. War has always given us good music to listen to and the YOUNGBLOOD soundtrack is no exception. It's a pleasure to listen to. As usual Earth, Wind & Fire exhibit their golden touch... "Got to get you into my life", off the SGT. PEPPER soundtrack is as smooth as silk. We're getting a great response from our customers for the CBS Star Power promotion. I'm anxiously awaiting a new LP from City Boy. Especially after release of their new single "5.7.0.5." A new Bowie LIVE is on the way with a fantastic selection of songs from Ziggy to the present. Bohannon's SUMMERTIME GROOVE is a fine LP. Give it a shot.

COMMENTS:

Business was best ever last week for Portland retailers. Strong releases and hot weather were a great combination. SGT. PEPPER looks like the worst movie of '78, but it also looks like a box office winner (again) for Stigwood. The progressive image our business could once claim is being eroded by this kind of product. Why can't The Cars, Springsteen or Alan Parsons sell 13 million? Let's promote good taste!

CONCERTIZING

KJHK-FM/Lawrence, Kan.

Artist(s): THE KINKS; BLONDIE
Place & Date: Uptown Theatre, Kansas City - 7/12
Type of Place: Reconverted movie theatre
Ticket Price: \$7.00
Capacity: 2000
Attendance: A nearly full house, all lead-acted but enthusiastic...
Audience Composition: Late teens, early 30's, plus a surprising scattering of younger teens
Production Values:
Musician(s): Headliner Opening Act
Material Quality: Top-notch Very good considering
Showmanship: Need anyone ask Irresistible
Sound Quality: Charming A vision to behold
Lighting & Staging: Fine Wall of sound
 Surprisingly cramped but minimal effective

Reviewer's Reaction: Blondie's delightful performance was nothing less than a triumph over adversity. Not many hit-time bands would relish the prospect of using instruments rented one hour before showtime. (Their equipment trunk was delayed and performing before an audience of whom few were totally unfamiliar with their material, thanks to Kansas City radio's shameless refusal to give Blondie for the latest Kinks LP, for that matter) one minute of airplay. The crowd was slowly but surely won over by the two-liters punch of (1) Blondie's intense power pop (including a snippet of the Bay City Rollers' "Saturday Night") and (2) ...Deborah Harry! Special kudos also to the frantic antics of drummer Clem Burke.

What can one say about The Kinks' Drawing from 15 years' worth of superb material (though wisely downplaying 1971-1978), the music was a masterful mix of delectable riff-rockers, gentler reminiscences, and boozey singalongs. Be warned... Ray Davies is as ornery as ever, rising to the challenge of an audience-prowled water-and-boom-toosing contest which left both stage and a fair portion of the front rows in a supine mess. The unbridled pandemonium peaked with the one encore, a startling, screaming blast of "Twist and Shout," which resulted in a frenzied-but-fruitless 15 minute roar for more...

KUT-FM/Austin, Tex. - Pat Cummins

Artist(s): BOB MARLEY & THE WAILERS;
Place & Date: Municipal Auditorium, Austin, Tex. - 7/23
Ticket Price: \$4.00 - \$8.00
Capacity: Around 8500
Attendance: Near sellout
Audience Composition: College
Production Values:
Musician(s): Headliner Opening Act
Material Quality: Excellent Fair
Showmanship: Excellent Good
Sound Quality: Good (poor ball acoustics)
Lighting & Staging: Good None to speak of
Reviewer's Reaction: After four scheduling and postponements, Marley and company finally brought their roots-ropes extravaganza to town. Opening with "Rastaman Vibration," the group moved through an initial set of classics, with new material conspicuously absent. After a brief interlude, the band reappeared for "Is This Love" and other numbers before closing with an electrifying "Exodus." Marley is the visual focal point, dancing, bobbing and weaving like a dreadlocked marionette, although lanky lead guitarist Junior Marvin almost stole the show from Marley at times. A triumphant performance.

TOWER RECORDS/San Francisco, Ca. - Marshall Arts

Artist(s): ROLLING STONES
Place & Date: Oakland Coliseum
Type of Place: Stadium
Ticket Price: \$12.50
Capacity: 65,000
Attendance: 65,000
Audience Composition: 6-50
Production Values:
Musician(s): Headliner
Material Quality: Excellent
Showmanship: Excellent
Sound Quality: Fair
Lighting & Staging: Fair
Reviewer's Reaction: It was an event, not a musical experience. Most of the new LP was performed as well as the old standards (classics!), even "In My Own Way" was thrown in. There was a two hour delay before they rolled. It was really not the music but the spectacle that moved us.

WFRB/Trinston, N.J.

Artist(s): THE STRANGLERS; DMZ
Place & Date: Sherwood Theatre
Type of Place: Converted theatre
Ticket Price: \$7.50
Capacity: 1100
Attendance: sold out
Audience Composition: College, 20's
Production Values:
Musician(s): Headliner Opening Act
Material Quality: Good Not applicable
Showmanship: Good Non-existent
Sound Quality: Excruciatingly loud
 Excruciatingly loud
Lighting & Staging: Excellent Fair
Reviewer's Reaction: DMZ were pathetically poor. Harsh, painfully loud, and their music lacking in imagination and flair, they were not well received by a crowd there for the Stranglers. And these four talented rockers from Britain did not dissappoint. Drawing from all three albums, the show was non-stop high energy. Two things kept this from being a great show however: the sound system which buried the vocals and was turned up to an unhealthy level, and the ushers who tried to keep people in their seats. This is not a hard you can watch sitting down! The Stranglers are certainly one of the New Wave's best: see them if you can, but take some cotton!

WKRD/Woodstock, Ill. - Michael O'Connor

Artist(s): FLEETWOOD MAC; WALTER EGAN
Place & Date: Alpine Valley, Wisc. - 7/18
Type of Place: Outdoor Pavilion/grass
Ticket Price: \$7.00 and \$12.50
Capacity: 20,000
Attendance: Capacity
Audience Composition: 15-40
Production Values:
Musician(s): Headliner Opening Act
Material Quality: Excellent Very good
Showmanship: Excellent Very good
Sound Quality: Excellent Excellent
Lighting & Staging: Excellent Good
Reviewer's Reaction: Fleetwood Mac was nervous; the crowd outrageously enthusiastic. After all, it's been 8 months since the last tour. Lindsey Buckingham either has grown bolder or the reins have been loosened. His well tuned voice and searing guitar work was impressive and dominant. Stevie Nicks and Christine McVie balanced each other well. Stevie, with gravelly voice, sang and pranced in flowing gowns that changed as often as the seasons...a poet and a visually dramatic one at that. Christine, more shy and to the side, sang with a honey voice that could melt you. Behind it all, Mick Fleetwood and John McVie were the beat and bass as essential as any foundation is to a superstructure. The Mac's confidence grew with the applause. After the third encore, Stevie intimated to the crowd, "you make working fun..."

WWSN-FM/Tampa/St. Petersburg, Fla. - Neal Mireky

Artist(s): PATTI SMITH GROUP;
Place & Date: Curtis Hixon Hall, Tampa - 7/7
Type of Place: Auditorium
Ticket Price: \$2.98 & \$3.98
Capacity: 7800
Attendance: 6200
Audience Composition: Upper teens - early 30's plus a few punks
Production Values:
Musician(s): Headliner 2nd Act Opening Act
Material Quality: Nonexistent Excellent Excellent
Showmanship: Too much Excellent Excellent
Sound Quality: Fair Excellent Excellent
Lighting & Staging: Loud Good Good
 Fair Good Good
Reviewer's Reaction: Riding the crest of her recent hit, Patti Smith drew 6200 to see her return to the stage from which she fell 2 years ago. There were only about 300 left when she came off 2-1/2 hours later. The overwhelming barrage of too-loud, unmusical noise was too much for all but the diehard fans. However, Tampanians are still talking about Patti's mesmerizing act. The band slid right into a groove and took the audience with them. Patti's stage presence is awesome. Local favorites, Hoosier got things started with a too-short set of orchestrated-rock originals in the New York style. A real find for the first record company smart enough to sign them.

WJLB-FM/Yalapaaloo, Mich. - Val Elliott

Artist(s): RENEY LOGGINS
Place & Date: The Auditorium (Chicago) - July 14
Ticket Price: \$8.50 - \$6.50
Capacity: 4000
Attendance: 4000
Audience Composition: Teens to late 20's
Production Values:
Musician(s): Headliner
Material Quality: Superb
Showmanship: Very good Exuberant
Sound Quality: Very good
Lighting & Staging: Good
Reviewer's Reaction: With the release of *Wightwater* and this tour, Loggins has really come into his own as a solo act and heading up a fine tightly blended band. From last year's tour, Loggins has switched his material from an extremely heavy reliance of Loggins & Messina material, to a strong showcasing of solo material. His genuine and gentle manner is a heart-warmer. But he'll rock and roll with the best of 'em. The vocal ability of Loggins (and his band) is phenomenal - the ranges are shifted gracefully, but encompass notes just within the range of sound. The crowd was enamored, I haven't seen this kind of magic happen since Seger recorded "Live Bullet."

WCC/ Eugene, Ore. - Michael Handler

CONCERTIZING

KLCC/Michael Handler Continued...

Reviewer's Reaction: Once the players got on stage (about an hour late) the crowd was with them. No earth-shaking jazz or musical statements were on the bill, of course, but it didn't seem to matter as the tunes and riffs came forth. What seems formula and trite on disc got a full, more improvised treatment in a club setting and this being the last show of the tour added extra spice to the last set. Special mention to studio man Ernie Watts (sax) and ex-Weather Reporter Alex Acuna (drums).

KUSP-FM/Santa Cruz, Ca. - Lance Linares

Artist(s): BOB MARLEY & THE WAILERS; IMPERIALS
Place & Date: Santa Cruz Civic Aud. (2 shows) - 7/18
Type of Place: Small auditorium
Ticket Price: \$8.50
Capacity: 1000!!
Attendance: 1000

Audience Composition: College age, 20's, 30's
Production Values:
Musician(s): Excellent **Opening Act:** A bit out of place
Material Quality: Excellent **Wished it was reggae!**
Showmanship: Excellent
Sound Quality: Excellent
Lighting & Staging: Good

Reviewer's Reaction: Santa Cruz (the small-town reggae capital of the West Coast) has waited over a year for Bob Marley & The Wailers to bring their Rastaman Vibration to our ears. Physical injury, politricks & the shit-stem denied us this honor until last Tuesday night. In the 2 shows (1/3 of his California tour) Bob's easy skanking and rasta passion flew on the wings of the right and tight Wailers. Excellent guitar interplay supplied by Jr. Marvin and Al Anderson pierced through the throats and attack of the Barrett Brothers while the syncopated riddims of Seeco on percussion and Touzer on keyboards propelled the music through the thick smokey haze surrounding the stage. As usual, both visually and aurally the 3-Threes represented the ites of a "back-up" sound. Santa Cruz is grateful for your appearance, Bob. May more of your idren grace our stages and airwaves...

KVFF-FM/Fresno, Ca. - Mark Jefferson

Artist(s): GEORGE BENSON; TOWER OF POWER
Place & Date: Cal-State Amphitheater - 7/14
Type of Place: Outdoor amphitheater
Ticket Price: \$7.50 (advanced) \$8.00 (day of show)
Capacity: Approx. 4000
Attendance: Approx. 3800 (festival seating)
Audience Composition: 30's

Production Values:
Headliner: Excellent **Opening Act:** Excellent
Musician(s): Excellent **Good**
Material Quality: Fair **Good**
Showmanship: Fair **Good**
Sound Quality: Good **Good**
Lighting & Staging: Fair **Fair**

Reviewer's Reaction: Tower of Power captivated the audience, displaying an upbeat jazz-funk musical energy, combined with the soulful vocals of Hubert Tubbs. George Benson, the headliner, performed technically well, but his musical content was repetitive, consisting entirely of successful jazz-pop material from his past three albums. Benson's performance lacked versatility.

WTAG/Murphysboro, Ill. - Todd Cave

Artist(s): THE KINKS; BLONDIE
Place & Date: Kiel Opera House - 7/25
Type of Place: A relatively intimate setting
Ticket Price: \$6.50 and \$7.50
Capacity: 3500
Attendance: 2500
Audience Composition: Primarily late teens and early 20's
Production Values:
Headliner: Excellent **Opening Act:** Fair
Musician(s): Excellent **Fair**
Material Quality: Excellent **Fair**
Showmanship: Charming **Fair**
Sound Quality: Excellent **Good**
Lighting & Staging: Excellent **Fair**

Reviewer's Reaction: Ray Davies is undoubtedly THE master showman. The Kinks followed a monotonous set by Blondie with an extremely powerful performance. The musical piracle was "You Really Got Me" amongst a proper mix of old and new. The manner that Ray keeps the audience in the palm of his hand is magical and special. If you're in the need of a little rejuvenation of faith in rock & roll's timelessness, see them soon. Very soon.

POO BOO MEMORIS/San Luis Obispo, Ca. - Paul Gabriel

Artist(s): CHEAP TRICK; NICK CILDFR
Place & Date: Cal. Poly State University
Ticket Price: \$6.00
Capacity: 1200
Attendance: 850

Audience Composition: College age
Production Values:
Headliner: Excellent **Opening Act:** Good
Musician(s): Excellent **Fair**
Material Quality: Good **Fair**
Showmanship: Excellent **Good**
Sound Quality: Good **Fair**
Lighting & Staging: Excellent **Fair**

Reviewer's Reaction: Sheer energy was the scene when Cheap Trick walked on stage for the beginning of their act. Opening with an explosive burst of light and sound, the initial shock lifted the crowd to it's feet where they stayed for the rest of the concert. The overall effect was deafening, more suited for a stadium show than a small auditorium. Rick Nielsen, lead guitarist, is definitely the center of attention in this group. Nielsen demonstrated a repertoire of 60's guitar styles that made the show both entertaining and historical. Vocalist Robin Zander did a credible job of singing considering the "wall of sound" he was competing with. The show consisted entirely of high energy rockers and proved to be an entertaining concert that provided the audience with 3 encores - Cheap Trick should be heard before they can't be seen.

JAZZ RECORD MART/Chicago, Ill.

Artist(s): BILL HEMMERSON
Place & Date: Rick's Cafe
Type of Place: Holiday Inn Jazz Club
Ticket Price: \$2.00/1 drink
Attendance: 3/4 full
Audience Composition: 20's - 50's

Production Values:
Headliner: Excellent
Musician(s): Excellent
Material Quality: Classic
Showmanship: Tasty - subdued
Sound Quality: Excellent
Lighting & Staging: Fine

Reviewer's Reaction: A treat to hear this legendary jazz vocalist live. Accompanied as on his Discovery album by two keyboards, he glides through the set with a grace that is brightly counterpointed by his intricate improvisational charm and complemented by his obvious involvement.

WRENCH ALONGS CONTINUED

The Emotions/**EMOTION**/Columbia JC 35325 (Close to the top of their pop R&B profession the Emotions heat up with the production of Maurice White. Good songs and an abundance of rhythmic movement show the bitterness side. "Whole lot of Shakin'" shows that quality best.)

Tommy Flanagan/**SOMETHING BURNING, SOMETHING BLUE**/Galaxy GXY-5110 (For years Tommy Flanagan has been the back-up for Ella. He is a classy player in his quiet way. As light as is the mood, it changes to a darker, more intense feel on Monk's "Friday the 13th.")

Poxy/**GET OFF**/Dash 30005 (Poxy is a very creative disco band. They try lots of arranging ideas both in their vocal harmonizing and in their instrumental underpinnings. They could do anything they choose to do.)

Red Garland/**RED ALERT**/Galaxy GAT-5100 (In a mild sextet formulation, Red is quite at home. Even with Harold Land and Ira Sullivan on tenors the feel is warm. Based on old tin pan alley songs the LP is locked into yesterday.)

Red Garland - Ron Carter - Philly Joe Jones/**BRESINCE**/Galaxy GXY-5106 (Philly Joe Jones' drumming shines delicately under both Ron & Red. Ron is very articulate, taking many leads and Red's playing cruises by effortlessly when leading or supporting. A sense of quality pervades.)

Paul Jabara/**KEEPING TIME**/Carnegie 9983-7102 (Paul may be a pop artist but, he is a songwriter with quite a knack for appealing songs. It's all in the direction the production takes. Harold Lloyd didn't use superimposed.)

Bob McIlpin/**SUPER TAR**/Butterfly BLY 010 (The songs are good, not more. The production is heavy. Chorus' and orchestrations fill in behind to create a pop-rock-disco genre.)

Blue Mitchell/**SUMMER SOFT**/ABC Impulse 1A-1547 (The pop-jazz of Blue Mitchell has lots of favors. That works to advantage because many like of this sort are too happily defined. Tracks like "A Day At the Mine," "Love Has Made Me A Dreamer," and "Funkhaiser" punch up the LP and keep it legit.)

Santa Barbara/**SENTRY**/Carnegie 9983-7109 (Sentry is another in the series of Santa Barbara quality disco suites. It is not the suite which draws our attention. It is the dramatic rock version of "Hey Joe" at the LP's end. They always do ours.)

Soul Children/**OPEN DOOR SOLICITY**/Stax STX 5105 (A traditional rhythmic & blues lineage gives Soul Children a solid base for their contemporary excursions. It is the security of moving from something to something which is at work here.)

Cal Tjader/**BEAT THE RHYTHM**/Galaxy GXY-5107 (Epitomizing west coast jazz Cal Tjader swings easy, just like the title says. Even the up staff is easy. Mellowphonic.)

SPECIAL PROGRAMMING

(Spoken, poetry - comedy and extraneous music.)

Byard Lancaster/**BYARD**/Philly Jazz 1 (The saxophone work of Byard Lancaster is not so outside that it defies gravity. Still, it is challenging. Melodically, a strong player he gets his weirdness more from his bending tonality. Write: Box 8167, Philadelphia, Pa. 19101.)

Bill Lewis - Alan Jamal/**THE RIVER**/Philly Jazz PJ 1002 (Just because of the nature of the two instruments - vibraphone and marimba - a spacey mood is predestined. Side one is more elusive. Still, it is the melodic integrity which will Lewis bring to both sides which enriches this album. "The Vanishing Man" is often beautiful. Write: Box 8167, Philadelphia, Pa. 19101.)

Alan Makowicz/**COLUMBIA** JC 35326 (From Poland, a pianistic wonder named Alan Makowicz spills his music onto this recording. His roots are jazz pianists from Art Tatum to Paul Hley. Makowicz slides in with the Jarrett's, Corea's and Tyner's on his first try.)

Glenn Murray/**Untouchable Factor**/Apple Corps/Philly Jazz PJ 1004 (There is a lesson in the irony that the more cohesive melodies "Apple Corps" and "One Up & One Down" feel free spirited. While the more avant, the supposedly freer pieces feel more inhibited and self-conscious. Free isn't free, it costs. Write: Box 8167, Philadelphia, Pa. 19101.)

CONCEPTS

SOME YOU WIN, SOME YOU LOSE

There are aspects of our album review section which can be seen as going beyond merely short statements about a lot of albums. Over the years there have been a few crusades which have laced through those writings.

It's good for the ego to have some of those ideas filter into practice and it is frustrating when you feel like you are running up against an implacable foe.

For the ego, it is a positive contribution, for the most part, that more and more artists are redoing old songs. We have argued that cause for years because it is tiring to listen to endless ten song albums which have only two or three real tracks. Artists have to edit themselves, not expecting that their own songs are always top notch. Further, there are hundreds of terrific songs which have been done only once. Great songs can and should have many lives.

So it is good to see the current trend toward the inclusion of outside material. It is a practice which has a tendency to raise the level of recorded music quality.

On the negative side of our crusade ledger is the co-opting of the record business by arrangers who thrive on high caloric orchestrations. Sweetening in order to reach a broader audience is anti-music. Though our position on this matter has often been oversimplified to say that we don't approve of strings, that's not true. Few things could be more misunderstood. Creative strings, molded to the character of individual songs and singers, are quite acceptable, even recommended when appropriate.

Well, there is some more whistling in the wind on that subject.

Some you win, some you lose.

MERIT ALBUMS CONTINUED

- Colin Blunstone/EVER EVEN THOUGHT/Rocket BXL 1-2903 (Congratulations to Bill Schnee for getting Colin to drop the overproduction with which he used to smother himself. A quality singer/songwriter, Blunstone is a virtual unknown after several Lps because he went against the R'n'R grain. All of that is behind him and its onward and upward from here. Still, mellow Colin Blunstone is no longer fighting his chances.)
- Alicia Bridges/Polydor PD 1-6158 (Sporting an old Bowie hairdo, Alicia is half disco queen - half singer/songwriter. Her ideas are original. "Body Heat" talks of the ultimate insecurity while "City Rhythm" defines the difference between city dwellers and others. While the ideas are intriguing, often the melodies which carry the message are merely passable. Potential.)
- Larry Carlton/Warner Bros. BSK 3221 (Granting that all of the players here are top drawer, why does the album go wanting? It may be because Larry's arrangements amount to a series of solos played over rhythm. He has not developed a personal statement, a sound context in which to place his tunes. The common sideman-turned-leader syndrome.)
- Bill Chinnock/BADLADS/Atlantic SD 19191 (Previously reviewed on South Country Records. A real street voice gives Bill a leg up. His writing is good though it tends to get beyond his ability to control. He can't write with the imagery of Springsteen or Waits, though he tries at times. A solid rocker.)
- Chick Corea/FRIENDS/Polydor PD 1-6160 (A gifted and prolific artist Chick Corea can work in any jazz motif with equal ease. Here with Joe Farrell, Eddie Gomez and Steve Gadd he operates in a hot, traditional mode. Naturally, it twists into a more contemporary feel at times, especially in the last track of each side.)
- The Crusaders/LACES/ABC-Blue Thumb BA-8030 (Clean tracks are the specialty which The Crusaders have defined for themselves. And that is precisely what they deliver. Mild quality.)
- Richard Davis/FANCY FREE/Galaxy GKY 5102 (Fancy Free is a cultured album. It is not a quicky jam. Driven by the extraverted play of Billy Cobham this straight jazz album has a full quality to it. Eddie & Joe Henderson push the top end too.)
- Dirty Angels/A & M SP-4718 (Insert the set order on each side to get the strength foot forward and the potential of Dirty Angels is apparent. "Fantasy" and "Honey Honey" are the tracks the band has to try to bottle to develop needed writing consistency.)
- Danny Green/NIGHT COO/ABC AA-1085 (If you can get beyond the album's cover, you'll find one real contender and few other decent songs. Danny's "Ask Her" leads off and is never matched again. Side one's character rocks while side two is a more natural mellow rock.)
- T. Life/TRUTH'S LIFE/WCA AFL 1-2473 (A first rank voice sends T. Life straight to the head of the class. He contributes good material too. Locally a descendant of Sly and Stevie and Larry Graham T.'s voice is even purer in some ways. He makes decent songs better.)
- John Mayall/THE LAST OF THE BRITISH BLUES/ABC AA-1086 (Mayall returns to his center of gravity. After excursions into associated styles - jazz, etc. he comes back home to the blues. This album seems joyful by comparison to some previous recordings. It has a raucous live quality which cuts against the grain of the polished productions we usually hear. But, that's Mayall.)
- Curtis Mayfield/DO IT ALL NIGHT/Curtom CUK 5022 (He has always operated in a separate but parallel groove. So it is no surprise to hear Curtis' version of disco music. His voice tightens and he builds great tension into the foundation.)
- Mose Jones/BLACKBIRD/WCA AFL 1-2793 (A well played, hot session gets good marks. Blackbird's outstanding presence is compromised by merely average material, an inhibiting but, not disastrous occurrence.)
- Clark Mountain Daredevils/IT'S ALIVE/WCA SP-6006 (In a live two record set the Daredevils have plenty of opportunity to show their range. And range is their story. They are an unusual blend of urban and rural, two influences which rarely mix as well.)
- D. J. Rogers/LOVE BROUGHT ME BACK/Columbia JC 35393 (D.J.'s productions are often big. But, his songs and his voice seem to require it. Rogers' songs have one other quality, they are almost universally appealing. He is above following trends.)
- Slave/THE CONCEPT/Cotillion SD 5206 (Don't dismiss Slave as just another funky, disco band. Not when they feature a cutting edge guitar, action packed, multi-dimensional arrangements and resilient sound. Decent melodies contribute too.)
- Stoneground/HEARTS OF STONE/Warner Bros. BSK 3187 (Some things never change. Stoneground, through all of their incarnations, has always suffered material deficiencies. They have always had to overcome them with a spirited performance. The story of Hearts of Stone is the same. Frustrating is that one of the Lp's best songs "Lead Me Down" has gotten buried.)

MERIT ALBUMS CONTINUED

- Talking Heads/MORE SONGS.../Sire SRK 6058 (Both Talking Heads' albums have presented them as computer-like automatons, one dimensional. That misrepresents what they really are. They are on the avant edge of the new wave and therefore, much more creative than most of the followers. Eno is still a good choice as producer. Not your average chicken-fried steak.)
- Art Thune/IN CONCERT/Kicking Mule KM 150 (If you miss the old days when a folk music singer was a raconteur too, Art's album will please you. His stories, his voice and guitar serve up classic tales.)
- Happy Traum/AMERICAN STRANGER/Kicking Mule KM 301 (Though he won't win any awards as a vocalist, Happy gets the point across. It is his guitar playing which speaks loudest on this album. He uses all of it to invest each song with appropriate color.)
- Various Artists/SIX PAK VOL. 1/Lone Star L - 4600 (A nice sampler of Texas country music including two tracks recorded in 1951 by the Lp's producer Willie Nelson. A stand out is the swing band called Cooder Browns. Open a cool one.)
- Korna Wright/CIRCLE OF LOVE/Rocket BXL1-2902 (Circle of Love floats on an accompaniment bed provided by the west coast studio grandees. When she gets a hold of decent melody the project rests easy, other times it seems to struggle for a comfortable position.)

SATISFACTORY ALBUMS

- (Albums of acceptable quality, which, of themselves, require only secondary progressive radio consideration.)
- Howard Kenney/SUPERSTAR/Warner Bros. BSK 3230 (Kenney will never be a superstar with songs as loosely hung as these songs are. His Smokey-like falsetto is, on the other hand, very appealing. If anything can carry Kenney to stardom it will be his voice. Better songs will speed the process. The first track is best.)
- Sail/STEEPIN' OUT ON SATURDAY NIGHT/W.A. GA-LA 906-W (Sail would make a terrific backup band for someone with material worth their energies. Their lyrics especially sound like they were made up on the spot. Using the obvious rhythm and saying nothing would be easier to execute in better than mediocre times. But, they can play - go for the two instrumentals on side two.)
- Various Artists-Soundtrack/WORKING/Columbia JS 35411 (Using the Lp jacket as an ad for the show is good marketing but, when it excludes anything important about the recording, it shows a fundamental disrespect for the medium. Working is a musical based on the great Steve Terkel book of the same name. The music is more Broadway waste with the notable exceptions of the three James Taylor compositions and a tune called, "Lovin' Al." Four out of 15 isn't bad.)

UNDEVELOPED ALBUMS

- (In our opinion, below standard Lps except where noted.)
- Various Artists-Soundtrack/HUMPHREYS/Columbia JS 35410 (This music comes from the N.Y. Shakespeare Festival presentation about teenagers. Like many of the songs written by Broadway type composers, the music here is terrible on the whole. Narrative lyrics rarely work in a melody, so the vast majority of these songs sound forced and unmusical. The allusions to rock and R&B are grossly emasculated.)

PRIME ALBUMS

- (Good albums which are not progressive, yet hold some interest for progressive audiences.)
- Allessi/DRIFTIN'/A&M SP-4713 (The sweet top soil of Louie Shelton's production is anchored by a punchy lower register. It keeps Allessi from driftin' too far afield. Their album is beautiful. It is the height of hip-MOR, creative and well written. Too good to be completely disregarded.)
- Susie Allanson/WE BELONG TOGETHER/Warner Bros. BSK 3217 (With a production approach which screams Top 40, Susie's nice voice has less of a chance to be heard on album radio than it might have had. Big orchestrations hallow around each, accentuated hook.)
- Roy Ayers/YOU SEND ME/Polydor PD 1-6159 (Classy production, the hallmark of Roy's work, is again much in evidence. Rhythmic and sensual You Send Me flows with grace. With the right melody Roy is better than average.)
- Vernon Burch/LOVE-A-THUM/Chocolate City CCLF 2005 (Burch's music is funky without sacrificing everything in the melody to do it. The production is very tightly wound making the hot tracks possibilities.)
- Kenny Burrell/TORMY MONDAY/Fantasy F-9558 (So melancholy. Kenny's guitar seems to cry much of the time, even in the up tempo tunes. Most of the Lp plays to the negative side of life, though it plays it cleanly.)
- The Dennis Coffey Band/A SWEET TASTE OF SIN/Westbound WT 6105 (The Detroit whiz has always been an R&B man and he continues that trend here. Hot funk and disco sounds are both driven. But, the title song stands above any partisan discussions.)

NEW RELEASES

SPECIAL MENTION ALBUMS

(These records, which, in our opinion, deserve special mention because they come closest to perfecting their musical genre regardless of progressive radio application.)

(NONE)

STRONGLY MERITORIOUS

(We feel that these Lp's have an extra edge.)

(NONE)

MERIT PLUS ALBUMS

(All Merit and Merit Plus Albums are recommended for serious progressive radio consideration, recognizing that not all of these recommendations are suitable for all stations. The Merit Plus Albums distinguish themselves with an extra vitality.)

Aerial/IN THE MIDDLE OF THE NIGHT/Capitol SW-11828 (Spiced with a few Beatle riffs Aerial issues 9 notable songs. Their delivery system is aggressive yet polished, harmonized yet, not saccharine. This band hits the rock midsection. Side one is strongest.)

Sonny Fortune/INFINITY IS/Atlantic SP 19187 (Sonny's album heroically splits before fusion, siphoning off some of its intensity, and after the old jazz days. He is in just the right place with good tunes and a modern recording style. He stretches out jus' enough.)

Leon Russell/AMERICANA/Paradise PAK 3172 (Like dominant genes, Leon's irascible personality pushes through the vinyl. His strong character pervades everything forcing the listener into a love/hate relationship with the Russellian essence. Toward love here.)

Leo Sayer/Warner Brothers BSK 3200 (Any discussion about Leo Sayer's current career has to include Richard Perry. Perry took Leo's character and polished it for mass consumption. This recording reduces the high gloss finish by degrees and, although it doesn't reclaim all of his sacrificed soul, the album is carried by Leo and superior song selection more than by the context. Rebound.)

MERIT PLUS ALBUMS CONTINUED

Richard Supa/TALL TALES/Polydor PD 1-6155 (Supa has shown his vocal power on several other, obscure albums. However, he has rarely shown quite the songwriting talent he manages in Tall Tales. A well balanced production never fights the thrust of the material. Above average.)

Livingston Taylor/3-WAY MIRROR/Epic JE 35540 (Liv Taylor lives again. His new album is a clean, contemporary success. Nick DeCaro's production is expert and tasteful - especially since he has been an over-arranger in the past. Nice tunes give Livingston his best chance to climb out from behind the shadow of his brother.)

Various Artists/SOUNDTRACK-ANIMAL HOUSE/MCA 3046 (A terrific soundtrack which uses great old songs, remakes great old songs and creates a few great new songs. If the movie is as good as the music, it's hot.)

Jesse Winchester/A TOUCH ON THE RAINY SIDE/Bearsville BRK 6984 (Winchester under glass. Jesse is served up in a splendid Nortbert Putnam production. It moves Jesse to a more accessible position by removing some core Winchester. So this very special talent is more like every other singer/songwriter, only a little better. This will probably be his most successful Lp. "I'm Looking For A Mirage.")

MERIT ALBUMS

Ambrosia/LIFE BEYOND L.A./Warner Bros. BSK 3135 (Life Beyond L.A. is masterfully produced and arranged. There isn't a note which has not been considered. However, the truth about Ambrosia's writing is that it is very average, both melodically and lyrically. It is not that the writing is bad, it is just not at the level required by the presentation.)

Michael Bloomfield/Takoma B-1063 (This is where Bloomfield belongs. His feel for the blues is so organic that it can be taken for the original without feeling a 2nd generation loss. Undiluted for a change.)
