# RADIO CITY

**S**moke is billowing out of an upper floor window as the men in their clean, Dallas fire machines speed to the hotel. It is a hotel stuffed with a radio programming convention. The slickered firemen hassle their way through the mob with extinguishers in hand. A half hour later they leave the scene after the blaze had been contained. No one hurt, no one had to be evacuated. In fact, no one evacuated themselves because this was a radio programming convention and a little fire was not about to disturb the convening that was going on in the lobby's pit. Everyone was there and it was intense. Not the fire, the convening.

That scene from a now famous Dallas R & R convention of several years ago represents the apex of the industry meeting routine. It was a zoo, but it had all of the ingredients for success. There are only two—one is social and the other is substance.

A couple of weeks ago, typical of the perplexities of these times, there were three conventions held in one six day period. None of them did it all, although it was the Abrams meetings which came the closest, especially on the content side of

the ledger. WSHE's **Neal Mirsky**, who only went to the Abrams meetings, explains his feeling that at other conventions "the one on one is the most valuable thing (offered) . . . When you put people up on a panel, in the spotlight, they feel this is their shot to impress everybody. Everyone seems to have a facade. Whereas when you get together in the room or in the hallways, the lobby, there's more general relating."

Neal expresses a theme heard over and over again by the Abrams people and by those unconnected. The social thing is good but the sessions suffer in the trade publication meetings. A reason for that weakness is articulated by panelist **Bob Coburn** (WMET, Chicago): "I had no contact with anyone before the panel . . . Nobody has a direction . . . It's kind of a wing it situation."

**Paul Kelly** (WQFM), who is just plain off of conventions, says, "They're really glorified parties . . . (One) particular convention had markets from #1 all the way to #200. What was a problem for the top 30 (market) wasn't a problem for the bottom 100 (markets)." He goes on to

**I**n case you have run out of reasons, excuses and dodges to use in avoiding the airplay of certain records, independent record promoter **Steve Leeds** has prepared the ultimate list. He shares it with us in the hope that it might come into general use. We could all save a lot of time if the reasons were reduced to numbers—no long explanations needed.

## REASONS NOT TO PLAY A RECORD BY STEVE

1. Not for us or our sound
2. No room
3. No label support
4. Want to give record the best shot so will have to wait till when we have more room
5. No local sales
6. No national action
7. Considering
8. Watching & waiting
9. Wrong image
10. It's not modal
11. Needs another copy
12. Poor reaction to feature
13. The jocks don't like it
14. No phone reaction
15. We played the import
16. We're gonna wait & see what the competition does
17. Will wait for the single
18. The record's not in the stores yet
19. Need approval from Atlanta
20. I like it but the P.D. doesn't
21. It was vetoed in the music meeting
22. Too hard
23. Too soft
24. It's wimpy
25. Not as good as the last Lp
26. It needs to be relistened to
27. Sounds too disco-ish
28. Sounds too pop
29. We didn't get the co-promotion
30. Trade #'s don't merit airplay
31. Sounds like everything else
32. It's not a good record
33. I don't like it
34. Too warped or it came broken
35. Ding in the vinyl on that track
36. Wrong Lp in the jacket
37. Saving room for new releases scheduled
38. Going into the book
39. Too many women
40. We don't have the album yet
41. No tip sheet advertising
42. Nothing hits me
43. Don't like the mix
44. Not enough guitar
45. Too many strings
46. Overproduced
47. Underproduced
48. Don't like the cover artwork
49. This particular cut is not consistent with the rest of the album
50. Our listeners won't be able to relate
51. Too rhythm oriented
52. Need more copies for each jock
53. Can't play too many singles
54. That music only works in the big markets

identify more of his feelings: "Everybody was talking about what was wrong and nobody told anybody how to fix it . . . They were talking in generalities."

The man from Milwaukee doesn't even like the social aspect of conventioning. He described a situation at a conclave where he spent two days just trying to get into a position to say hello to an old friend. For him it is frustration. "I just plain don't have the time. I have a station to run."

Some, like **Tack Hammer** (KQRS) "haven't gone to a trade sheet convention since the first R & R."

KMEL's **Bobby Cole** explains that, "If (he) was going to be away from the station, (he) could do more getting some other things done." Still, when he has gone to conventions he has liked the content side. He likes to "listen for someone to spark a thought." It's the social aspect which bothers him.

Memphis' **Tom Owens** (WZXR) notices that "you see the same people every year and every year they complain but they keep going." He isn't always complaining, however, he provides some insight into the problem too. People are going to

complain when, as he puts it, the sessions are "scattered and chaotic." Everything is too general. He's looking for some focus when he suggests that the topics should be more narrowly defined. "We have a problem here . . . for the next two hours address yourself to the problem." Here is where the Superstars' meetings seem to have the edge.

"It's no screwing around," **Dan Hayden** (WHCN) says. "We were down there and we worked real hard . . . there's talent development, promotion, state of radio, sales presentations, and there was one interesting idea where they had a board of general managers . . . that really does help."

If there is anything the Superstars' meetings seem to lack, it is on the social side.

One cannot help but come away from this series of conversations thinking that Lee Abrams could help by consulting publications on how to run a convention with substance and that there are lots of people who could help him run a convention with some fun in it. The same kind of fun that should be part of radio.

## NEW YORK AND LOS ANGELES

### LOS ANGELES

**KROQ & COLUMBIA IN TOMMY TUTONE TURMOIL:** Chuck Randall, KROQ's mid-day DJ, was threatened with an injunction by Columbia bigwigs after he played "Cheap Date," a track from the Bay Area band Tommy Tutone's debut. The problem? Apparently CBS staffers were bugged that Randall played the record two weeks prior to its official release. The practice of enjoining a station from playing an as-yet unreleased disc is usually reserved for heavyweights like Fleetwood Mac, Elvis Costello and the like, and Randall was riled: "When was the last time a record company asked a radio station not to play a new act?" The DJ couldn't believe the big to-do Columbia was making. "There were repercussions all the way to New York." But Randall went ahead and played the Tutone track again anyway. "Let 'em injunct me," he sneered defiantly.

**RONSTADT'S BAND STILL NAMELESS:** Waddy Wachtel, Dan Dugmore, Rick Marotta and Stanley Sheldon—L.A. kingpin sessioners and Ronstadt band alumni—have finished work on their Peter Asher-produced, all-digital disc for Mercury Records. The company's hoping for a May release but cover artwork has not been started since the foursome are still without a moniker. The group has gone through several choices (the Boys was one), but nothing's stuck. Meanwhile, Wachtel and Marotta have flown to Japan to back native superstar Goro Naguchi on his upcoming Oriental jaunt.

**WARNERS NABS A COUPLE:** Bugs Bunny's on the prowl again. This time the Burbank-based diskery has signed Anglo popsters 10CC for a long-term deal, and stolen from fellow WEA umbrella outfit Elektra, ex-Television frontman Tom Verlaine.

**IN OTHER SIGNING NEWS:** Keith Sykes (whose demos are getting heavy airplay on Chuck Randall's KROQ show) is reportedly being pursued by a swarm of companies. At the forefront are both wings of CBS—Columbia and Epic. Sykes' songs are rooted in an early rock (Sun Sessions-type) sound . . . Mercury has pacted Light of the World, a British R&B unit . . . Big Twist & The Mellow Fellows, a midwest blues combo, to Flying Fish Records . . . Another indie label, Waterhouse, has acquired Aztec Two Step. Their THE TIMES OF OUR LIVES is due soon . . . A reformed Humble Pie has been inked to Atco. The Pie's ON TO VICTORY just

shipped . . . Cris Rea to Columbia . . . I.R.S. has enlisted Santa Cruz's new wavers the Humans . . . Tonio K. has ankle Epic for Arista. His new LP: AMERIKA.

**SHORTS:** New Mercury act Van Wilks were known for most of their career (based in Texas) as the Fools. Unfortunately, EMI/America's the Fools beat them to the punch platter-wise . . . Waterhouse act the Lamont Cranston Band (named after crimebuster the Shadow) are set to open on Bonnie Raitt's upcoming tour . . . Welsh guitarist Deke Leonard (from Man) is playing on Walter Egan's new LP, which is being produced in L.A. by Earle Mankey . . . Bram Tchaikovsky's forthcoming Polydor LP was to be called THE RUSSIANS ARE COMING until someone at Polydor thought it might be too controversial considering all the anti-Soviet sentiment nowadays. Much to Bramski's chagrin the album is now called PRESSURE . . . Bob Dylan borrowed a harmonica from Mark Wenner of the Nighthawks blues band during recording sessions in Muscle Shoals. Dylan was in one studio, the Nighthawks, recording their Mercury debut, were in another. Word is that after Dylan espied Wenner's tattoo-covered body, he rushed over to a Muscle Shoals tattoo parlor to get his own flesh filled in. (A cross on his chest?)

**IN THE STUDIO:** Orleans are at Trident Sound with Brand X keyboardist Robin Lumley producing . . . Gary Myrick & The Figures at Wally Heider's with Tom Werman guiding their Epic effort . . . Rickie Lee Jones reteams with Lenny Waronker and Russ Titelman for a follow up to her Grammy winning first foray. They're at Warner's Amigo Studios . . . Jude Cole, Moon Martin's guitarist, is recording an album at Pasha Music House. Rob Grill is producing, John McVie from the Big Mac, Pink Floyd's Nick Mason and Little Feat's Kenny Gradney are all guesting . . . Ted Nugent in New York working on his next Epic LP. Lew Futterman and Cliff Davies co-producing . . . Peter Noone, toothy lead singer of Herman's Hermits, is in town cutting tracks. Some of Tom Petty's Heartbreakers are lending a hand there . . . Carlyne Mas at N.Y.'s Power Station with producer Steve Burgh, waxing her second collection for Mercury . . . Another Mercury group, Southside Johnny & Co., also completing their next record . . . Mike Chapman ensconced with his punky protegee Shandi, recording her Dreamland/RSO debut.

**VINYL DECISIONS:** New

records include THE KLARK KENT KOLLECTION and the Cramps' SONGS THE LORD TAUGHT US, both from I.R.S. and both due in late April . . . From Warners: Stephen Bishop's label bow, RED CAB TO MANHATTAN, Emmylou Harris' all acoustic ROSES IN THE SNOW and Robin Lane & The Chartbusters' debut . . . Squeeze's ARGY BARGY should be out momentarily from A&M . . . Likewise for Boz Scaggs' MIDDLE MAN on Columbia . . . The Scorpions' ANIMAL MAGNETISM ships soon from Mercury.

**FILM CORNER:** The Band's Levon Helm makes a fine acting bow in the Loretta Lynn bio-pic COAL MINER'S DAUGHTER. Helm plays Loretta's dad. Band compatriot Robbie Robertson just completed his first film starrer in Carny, opposite Jodie Foster and Gary Busey . . . The gun-toting terror of rock, Ted Nugent, is also said to be preparing for a movie career. He wants to make Charles Bronson/Clint Eastwood-type blood-and-gutsers.

### NEW YORK

**ROCKIN' NEWLYWEDS:** (Slightly belated) congratulations are in order for Boomtown Rats' mini-bassist Pete Briquette and Adron's own songstress Jane Aire, who tied the nuptial knot recently in the groom's home town of Dublin—Ireland, of course. The wedding took place only days after a pair of sold out homecoming gigs by the Rats, which were nearly cancelled by local authorities scared of potential crowd violence. The shows did go on though, without incident, we're told. Other recently mated notables include Thin Lizzy's Phil Lynott and Lou Reed (No, not to each other!). Now if we could only get the three fun couples together for a round of **The Newlywed Game** . . .

**JOIN TOGETHER WITH THE BAND:** Recent recruits who have been drafted to fill holes in the ranks of bands left shorthanded in the wake of "musical and personal differences" include Jude Cole as new guitarist for the Records, Snowy White ditto for Thin Lizzy, and Mike Bailey (drums) and Russell Webb (bass) who become the new rhythm section for the Skids. Cole, an alumnus of the Moon Martin Band, joined the Records at Town House Studios in London in time to appear on their forthcoming LP, which Craig Leon is producing. He replaces Huw Gower. White joins Lizzy after stints with Pink Floyd and Peter Green. He'll replace Gary Moore. The

two new Skids join in time for the band's first U.S. tour, projected for late this spring.

**INFLATION FIGHTERS:** Angered by what they deemed was an outrageously expensive ticket price (ten bucks!!) for their recent show at the Hotel Diplomat here, the Specials took their case to the streets. The band had posters printed saying that 500 tickets were being held to be given away to people who called one of three numbers at a certain time. The numbers given were the office phones of the show's promoter, Ron Delsener, the band's record company prexy, Terry Ellis and their booking agent, Ian Copeland. Copeland explained later that the high charge was due to an extremely expensive rental fee on the hall.

**NEW DISCS ON THE WAY:** Epic will inaugurate their new 12" 4-track collector's disc series dubbed "New Discs" at the beginning of May with four releases: Cheap Trick, New Musik, Propaganda and The Continentals. The discs, which will list for \$3.98 and, in special cases (like Cheap Trick's) \$4.98 will be used both to introduce new groups at a more affordable price than an LP and to fuel collectors with previously unavailable and/or hard-to-get tracks by their faves. The Cheap Trick New Disc, for example, will contain a live version of "Daytripper," a rare B-side and two studio outtakes. More on this experiment as it unfolds.

**BITS AND PIECES:** Snips, whom many will remember as the voice of Sharks and later Baker-Gurvitz Army, has completed an LP in London, which he co-produced with ex-Rich Kid now Ultravox guitarist Midge Ure. Expect it here this summer . . . Speaking of Rich Kids, bassist Glen Matlock, seen here with Iggy Pop last time around, has left the Ig and is in the process of forming a band with ex-TRB guitarist Danny Kustow . . . And speaking of Ginger Baker (I was), he's got a new touring band called NRG (that's "energy," geddit?) . . . Blues revival could be the Next Big Thing in the UK (just as soon as the Soul revival—just getting underway—runs its course). Pioneering the trend will be aptly titled The Blues Band, an outfit currently getting raves which is made up of such veterans of the last British Blues boom as Paul Jones, Tom McGuinness and Huey Flint (all of whom once played with Manfred Mann) . . . Kevin Ayers is alive and living in New York and has a new LP due out soon. He's also got a band together for eventual U.S. work, we hear . . . So upset are the Tourists with their British label, Logo, that they're moving

**CHART ANALYSIS**

BY GEORGE MEIER

Two stories come out of a close look at the Top 10 radio records this week. Happily, one of them is the tremendous enthusiasm for the current crop of albums. To make the point, note that 13 records have airplay percentages over .500. Just two weeks ago, there were only 9 records above .500. When you consider that many times we have had number 1 records which have operated in the lower .600's, this is a very encouraging and impressive circumstance.

The other notable pulse is the influence on the charts made by the South. There are several things going on there. Almost one year ago we were describing a shift in that region toward a Midwestern style. They have moved away from Southern rock toward hard rock and they have always been somewhat slower on new ideas than the two coasts. Hard rock and conservatism has always been the profile of the Midwest, now it is the profile of the South too.

PROOFS

1. There isn't a non-rock album among the top 7 Lps, even Linda Ronstadt and Billy Joel intensify this time, and it is the South which goes strongest for them all.
2. Also, it is notable that Marshall Tucker comes into the chart at the 16th position with merely moderate to heavy airplay in the South.
3. Meanwhile, where are The Pretenders, The Clash, Gary Numan and The Ramones weakest? In the South, of course.

In other radio regionals, it is the Northeast which bolsters Elvis Costello, The Clash, Warren Zevon and The Specials. Sue Saad and the Next get help out West and Rachel Sweet excels on both coasts.

On the retail side, the consistently powerful Pink Floyd shows no sign of diminishing. And Eagles won't go away in the South. Rush and Journey are significantly stronger in the Midwest and West while The Clash and Elvis Costello are stronger on the coasts.

to North America and not releasing anything to Logo until they're out of their contract.... Rainbow's recent gig at Wembley Stadium in London saw about a dozen kids arrested for ripping up seats when Richie Blackmore decided not to come back out and do an encore.

**WET INK:** England's Original Mirrors to Arista, LP shortly.... Unity to United Artists, LP in May.

newie at Rockfield Studios in Wales...The Inmates serving their second with producer Vic Maile in London.

**COMING SOON:** RSO's got a double-live Eric Clapton, recorded on last year's Far Eastern tour, on tap for May. They promise no overdubs, a rarity on a live album these days.... EMI's got Gambler, Aviator, Chuck Jackson and Kate Bush in mid-April. New Gerry Rafferty and one from ex-Righteous Brother Bill Medley from UA in the same release.... Polydor's April 21 release

| I don't see how Warner Bros. can expect to sell albums like Public Image Ltd. with a \$13.98 list price. What really kills me is the sticker on the LP that says "Specially Priced 2 LP Set." I think it is specially high priced. Why don't other labels adopt Columbia's idea with Lene Lovich (\$5.98 list) and The Clash (\$8.98 list). |  |

Thanks to Stiff/Epic recording artist Lene Lovich for her absolutely incredible performance at Peaches Maple Heights. Thanks also to everyone who contributed to pull it off. The 80's are more exciting everyday. It's a joy to hear refreshing new generation artists like Willie Nile, Suzanne Fellini, Tourists, Sylvain Sylvain, D.L. Byron, and Rachel Sweet to name a few. Also looking forward to the new Flash & The Pan. Can't forget LONDON'S CALLING.

Bob Kozlik's (local marketing mgr. for Pika Corporation in Cleveland) display of genuine interest provided the following food for thought...for months I've said my reports represents 9 stores. I don't see 9 catalog orders or 9 billboard orders - I see one (the one I do). Though I work closely with our distributor and try to maintain channels of communication with the other stores, I can accurately and honestly only report for one distinct personality and image. In fact, how can I claim to be the buyer -- I don't pay for what is ordered? Success is measured by one's own

merit, not by misleading half-truths. No violins, just thanks for listening.

Congratulations Steve, a long way from breakfast at the pancake house!! Business finally starting to pick up a bit... Lear Capitol Records... You must think we're all a bunch of idiots that wear vinyl for hats. The new Knack LP should be a \$5.98 list budget NCI a \$8.98 list three day special. Must have cost you heavy for "just a few days" in the studio. You won't find this store promoting such a slam to the record business.

## COMMENTS:

was disappointed to see Capitol join the ranks of those who force retailers on the west coast to send their returns to the midwest. This is just another knife in the back of the retailer. Well, the companies COULD start paying freight for defective returns, or have we already discussed that issue.

## COMMENTS:

WARNING TO LABELS!  
If you continue to cut promo service and materials and advertising bucks to retail outlets, you will continue to eliminate new music in the ever growing corporate structure of rock in the '80's. In fact, obtaining posters and other display materials has become increasingly more difficult -- can anyone help us sell your product?

NEW RELEASES

MOBY DISC/Sherman Oaks, CA - Kip Brown

Attendance: Sold out  
Audience Composition: Teenage, 20's  
Production Values: Headliner Opening Act  
Musicianship Very good Very good  
Material Quality Very good Good  
Showmanship Excellent Good  
Sound Quality Excellent Good  
Lighting & Staging Excellent Very good  
Reviewer's Reaction: Gary Numan exhibited a professional-ism that one mostly sees with a seasoned performer. He will be very big his next time out in the States. The crowd obviously liked him as they were on their feet most of the time.

BOO BOO RECORDS/San Luis Obispo, CA - John Huffman  
Artist(s): KENNY LOGGINS; JACK TEMPCHIN  
Place & Date: Cal Poly (SLO) - 3/9  
Type of Place: Gym  
Ticket Price: \$7.50; \$8.50  
Capacity: 3500  
Attendance: SRO  
Audience Composition: 18-30  
Production Values: Headliner Opening Act  
Musicianship Good Very good  
Material Quality Good Very good  
Showmanship Good Good  
Sound Quality Poor Poor  
Lighting & Staging Good Good  
Reviewer's Reaction: Kenny Loggins had the silk ladies pumping and grinding but beneath the gloss there was little to remember. Jack Tempchin was a surprisingly well received intro act whose wit and style added a needed edge to an otherwise sugary evening.

SOUNDS GOOD RECORDS/Chicago, IL - Doug Brown  
Artist(s): LENE LOVICH; BRUCE WOOLLEY  
Place & Date: B'Ginnings  
Type of Place: Club  
Ticket Price: \$5.00  
Capacity: \$9.50  
Attendance: 1050  
Audience Composition: College, 20's, 30's  
Production Values: Headliner Opening Act  
Musicianship Great O.K.  
Material Quality Good O.K.  
Showmanship Good O.K.  
Sound Quality Great O.K.  
Lighting & Staging O.K. O.K.  
Reviewer's Reaction: B'Ginnings was packed to the gills with Lovichites and the show was excellent except if you hate feeling like an oppressed sardine in a noisy environment, in which case the show was no fun at all. Lene's music was well chosen and well performed in concert, whereas Bruce Woolley's sounds better on record.

KFSR/Fresno, CA - Bret Kofford  
Artist(s): 999; DICKIES; THE CLAMS  
Place & Date: Warners Theater, Fresno, CA 3/9  
Type of Place: Old theater  
Ticket Price: \$7.50  
Capacity: 5000  
Attendance: 2500  
Audience Composition: College age  
Production Values: Headliner Opening Act  
Musicianship Good Good  
Material Quality Very good Fair  
Showmanship Excellent Good  
Sound Quality Good Fair  
Lighting & Staging Fair Fair  
Reviewer's Reaction: The Clams showed potential as a local new wave group. A stimulating performance by the energetic and humorous lead singer. The Dickies put on a superior stage show and played hard and fast throughout their entire performance. 999, after long gaps between bands kept the crowd on their feet during the whole performance. Lead singer Nick Cash had a great rapport with a surprisingly enthusiastic Fresno audience.

WTNY/New York, N.Y. - Kathy Nizzari  
Artist(s): THE CLASH; LEE DORSEY; B-GIRLS  
Place & Date: Capitol Theatre, N.J. - 3/8  
Type of Place: Auditorium  
Ticket Price: \$7.50; \$8.50  
Capacity: 3000  
Attendance: Sold out  
Audience Composition: Teenage, college students  
Production Values: Headliner Opening Act  
Musicianship Very good Fair  
Material Quality Excellent Good  
Showmanship Exciting Fair  
Sound Quality Fair Fair  
Lighting & Staging Routine Routine  
Reviewer's Reaction: Only during the Clash's live performances are you certain what they stand for and where they're headed. The Clash is determined and exciting. Neglecting much material from their melodic (?) London Calling Lp, they opt to play older and better material. Even the extreme heat did not stop the enthusiastic Jersey crowd from bringing the band back for two encores. Judging from this show, the Clash will always be welcomed in America.

KAOS/Olympia, WA - John Foster  
Artist(s): XTC; BLACKOUTS; BEAKERS  
Place & Date: 2/22  
Type of Place: Club (no liquor)  
Audience Composition: Good mix  
Ticket Price: \$7.00  
Capacity: 1000  
Attendance: 700  
Production Values: Headliner Opening Act  
Musicianship Excellent Excellent  
Material Quality Pretty good Very good  
Showmanship Interesting Excellent  
Sound Quality Good Good  
Lighting & Staging Very good Good  
Reviewer's Reaction: The Beakers with new female bass-player's "drifting" reggae-influenced sound are probably Seattle's best band now. The Blackouts had an off night; too bombastic and lacking in audience rapport. XTC has their show down, but they've done it a bit too often to seem involved.
