

ANTIQUE RADIO CLASSIFIED

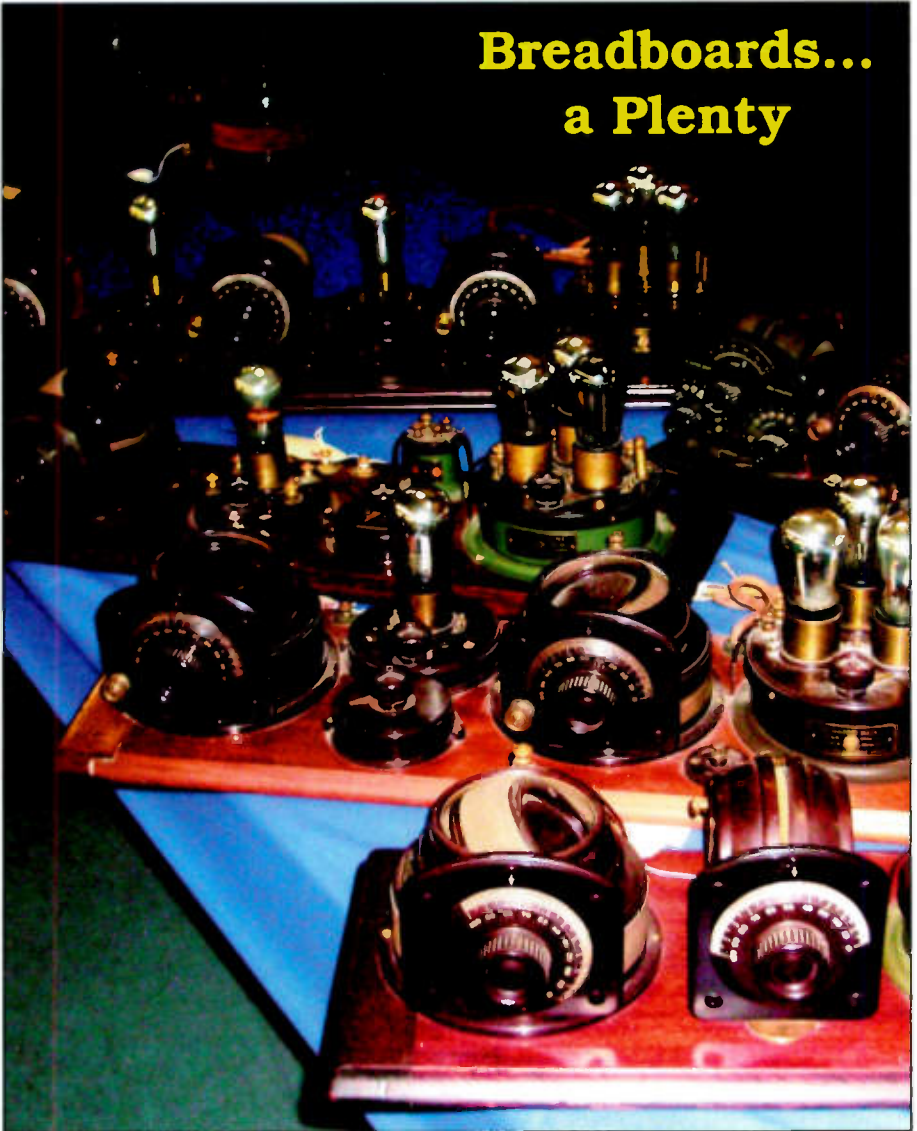

VOLUME 26

FEBRUARY 2009

NUMBER 2

Breadboards... a Plenty

A.R.C. — THE NATIONAL PUBLICATION FOR BUYERS AND SELLERS
OF OLD RADIOS AND RELATED ITEMS — WWW.ANTIQUERADIO.COM

**Carolinas Chapter
of the
Antique Wireless Association**

"Spring Meet in the Carolinas"

~ ~ Thursday - Friday - Saturday ~ ~
~ ~ MARCH 26-27-28, 2009 ~ ~

Charlotte, North Carolina

~ **The Sheraton Charlotte Airport Hotel** ~

I-85 @ exit 33, the Billy Graham Parkway

For conference group rate make your reservations directly with the Sheraton
by calling 704-392-1200.

Be sure to ask the Antique Wireless or AWA conference rate.

***There will be NO Buying, Selling, Trading, or Displaying of
Merchandise before 8AM Friday March 27th.***

Please note that there is no increase in fees again this year.

CONFERENCE FEES	In Advance	At the Door
General Admission -----	\$15 each -- (spouses free)-----	\$20 each
Vendor Space Rental -----	\$30 for FIRST space ----- \$20 for each additional space - - - - -	\$35 each
Saturday ONLY admission -----	N/A -----	<u>FREE</u>
THURSDAY "KICKOFF" LUNCHEON ---	\$15 each person, in advance	<u>ONLY</u>
ANNUAL BANQUET -----	\$25 each person, in advance	<u>ONLY</u>
SATURDAY LUNCHEON -----	\$15 each person, in advance	<u>ONLY</u>

PRE-REGISTRATION MUST BE POSTMARKED NO LATER THAN MARCH 13th.

If you have attended the Conference before, you will be mailed a brochure.
For a detailed Conference schedule and a printable Pre-Registration form
please visit our web page at: **CC-AWA.ORG**

Send Pre-Registrations to:

CC-AWA 2007 c/o Stephen Brown
3808 Champaign Street
Charlotte, NC 28210-6334

Want to learn how to fix old radios, we have the answer - RCA Training Course

We have the complete RCA Electronics Training Course on CD and already hundreds have been sold. This is a very extensive CD covering theory, experiments and repair lessons. Read full info at [http://www.radioera.com/mall/RCATrainingCourse.asp!](http://www.radioera.com/mall/RCATrainingCourse.asp)

ONLY \$ 99 + S&H

We now have a small mountain of vacuum tubes at very competitive prices - Thousands sold since our first posting of these tubes. All types including receiving and transmitting types. Call, write or email your inquiries. All tubes are tested before shipment!

Other CD-ROM Publications:

Riders Professional database driven 6-CD set - now only \$ 299 or \$ 59 per CD (4 volumes/CD)

Cunningham-Radiotron HI-Rez CD \$ 85

Service Manual Series Sets 1-200 - 8 CD's, with Sets 1-25, 26-50, 51-75, 76-100, 101-125, 126-150 151-175 & 176-200. Only \$ 79 each CD-ROM

All 8 SMS CD's (1-175) - \$ 569.00

Radiophile Vol. 1 - \$ 85

Radiophile Vol. 2 - \$ 85

Radiophile Vol. 3 - \$ 85

Antique Radio Repair Vol. 1 - \$ 85

Antique Radio Repair Vol. 2 - \$ 85

R390-R390A/JRR Technical CD - \$ 57

RCA Radiotron Handbook - \$ 67

RCA HB-3 Tube Manual - \$ 80

Zenith Trans-Oceanic - \$ 89

The Radio Boys - \$ 44

Amos 'N Andy - Vol. 1 - \$ 26

DialCord series - \$ 49

Collins Radio - Receivers - \$ 79

Collins Radio - Xmtrs/Amps - \$ 79

Collins Radio - Transceivers - \$ 79

Collins Radio - Accessories - \$ 79

Complete 4 CD Collins Set - \$ 279

RCA Service Notes - 4 CDs covering sets manufactured from 1923-1928, 1929-1932, 1933-1936 and 1937-1940. The most detail you will find on old sets. \$ 79 each. 4-CD set - \$ 299.

REA-Riders Complete Index - \$ 34

Record Changers - \$ 85

Military Radio V1 - (Compendium) \$ 57

Military Radio V2 - (Compendium) \$ 57

QST Series - 85 years of QST (1915-1999) in 12 sets of CD-Rom's @ \$ 39.95 per set or \$ 399 for all 12 sets

The *Hallicrafters* CD-ROM - \$ 89

Special Editions:

Collins R1051B technical manual - \$ 79

Collins ART-13 technical manual - \$ 39

Collins 618T technical manual - \$ 79

Collins 651S-1 technical manual - \$ 79

National R1490GRR17 technical manual - \$ 49

Dept. of Commerce - 1929 Ham Call Book - \$ 29

*** We have hundreds of other publications available on CD-ROM or DVD - Please inquire*

If A.R.C. inadvertently has infringed on a copyright, A.R.C. will pay an appropriate usage fee when notified.

POSTMASTER: Send address changes to Antique Radio Classified, P.O. Box 2, Carlisle, MA 01741. Printed in U.S.A.

PURPOSE. Antique Radio Classified is published for people involved in the radio collecting hobby. Its purpose is to stimulate growth of the hobby through the buying, selling and trading of radios and related items, and to provide a monthly forum for the interchange of ideas and information.

STAFF:

Publisher and Editor: John V. Terrey

Assistant Publisher: Cindie Bryan

Managing Editor: Dorothy Schecter

Advertising Manager: Cindie Bryan

Publishing & Editorial Staff: Ray Bintliff, Dave Crocker, Bobby Lyman

Founding Publisher/Editor: Gary B. Schneider

Contributing Writers & Consultants: Mike Adams, Richard L. Arnold, Richard Begbie, Ray Bintliff, Norman Braithwaite, Ray Chase, Dave Crocker, Dick Desjarlais, Alan Douglas, Richard Foster, Andrew Hayden, Jim Kreuzer, Phil MacArthur, Ron Ramirez, Gary Schneider, Daniel Schoo, Frank White, Walter Worth

CONTACTING ANTIQUE RADIO CLASSIFIED. All correspondence should be sent to:

A.R.C., P.O. Box 2, Carlisle, MA 01741.

Only UPS, FedEx, etc. items to street address: 498-A Cross Street.

Telephone: (866) 371-0512; Fax: (978) 371-7129

E-mail: ARC@antiqueradio.com

Web: www.antiqueradio.com

Please, no classified ads by telephone; thanks.

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest from its readers and publishes them as space permits. (See "Publishing Rights" paragraph.)

ANTIQUE RADIO CLASSIFIED

EDITOR'S COMMENTS

Calling all writers! The requests keep coming in for articles on a whole range of topics — from radio repair and restoration, audio, history, TV — you name it, and A.R.C. relies on you to fill those requests. Some of you may not realize that all our articles are contributed by your fellow collectors. The work of several longtime contributors like Daniel Schoo, Ray Chase, Dave Crocker, Ray Bintliff, Richard Arnold and many others may have become familiar to you. In more recent years, we've welcomed Phil MacArthur, Andrew Hayden, Paul Turney, and others on board. But the welcome mat is out there for all of you.

To begin with, do not think that you have to be a master writer. We have an editorial staff to help shape the article, guidelines to send you, and if necessary, we can tackle your grammar and spelling. Write about what you know — just be sure of your facts, as we rely on you for accuracy. The fun lies in giving a topic your own personal twist, not just directly from a book, but a different outlook that will appeal to a general audience.

Second, do not think that any subject has been exhausted. There is always a new perspective, even on an Atwater Kent breadboard, a Philco 90, or whatever you have acquired and find interesting. If you happen upon an obscure auction, there may be something there worth writing about. If you acquire a new radio and research it carefully, or if you do a repair or restoration and record the process with photos, you have an article. The possibilities are limitless.

One note of caution — please do not attempt to "lay out" your article with the photos embedded in the text as if ready for placement in the magazine. Always submit the text and photos separately. Leave the rest to us.

I must emphasize that good photos are essential to enhancing an article. If you are not a photographer, enlist the help of a friend with a high resolution camera to achieve photos of one megapixel or better. He or she might like to see those photos published. Both the article and the photos can be submitted by e-mail, but you may also send the text, prints and negatives via U.S. mail.

Photos could, in fact, be the inspiration for an article. Our lead article on Britain's Lizard Wireless Station by a new writer — A.R.C. staff member Bobby Lyman — is a good example. Like Bobby, you might be on vacation and come across something that is radio-related or a place that is steeped in radio history. A few photos, a few brochures, a little research, and you have an article.

Of course, there are simpler ways to be a contributor. One is to send photos of your latest find or an intriguing mystery set to *Photo Review*. Another is to respond to an article or to seek informa-

tion through *Radio Miscellanea*.

We can always rely on Phil MacArthur for good photos, as shown in his latest article on hand-wired table sets. Phil's surprise discovery when he opened the seemingly commonplace set reminded me of my own collector maxims — always look beyond the panel, and if you see a closed box in an antique shop, always open it.

As mentioned earlier, Phil is among our relatively new bank of writers. Adding Bobby Lyman and Dale Boyce to the "new" list, we have a variety of contributing writers this month. Dale's report on the Dick Bury estate auction Part 1 by Estes Auctions is an excellent presentation. Because this was, in Dale's words, "a battery set collector's dream auction," a battery set collector myself, I naturally had to attend, and I did contribute to the report. However, the major work is Dale's. He tabulated the results which totaled over \$200,000.

The quality of Dale's auction report is a reminder of the value of auction reports in general. They are more than just set values at a given time. In particular, they are vehicles for presenting photos of unusual sets that show up at such events. Examples at the Bury auction are the RPM Atwater Kent breadboard type units, a Zenith ZEV portable set, and an early Fleming valve. Again, photos are a way for us to serve you better.

At the risk of repeating myself, I urge you to contribute to A.R.C. in the form of an article so that others in the radio collecting community can share in your considerable knowledge. In short, you are this magazine.

A.R.C. Benefits. Be sure to take advantage of A.R.C. benefits: a toll-free number (866) 371-0512; Discover, MasterCard, American Express, Visa accepted; the Web, www.antiqueradio.com; books shipped free in the U. S. by USPS media mail; and for current subscribers, a 10 percent discount on all book orders.

Coming Radio Events. It's turning out to be a long cold winter for many parts of the country, so you may well need cheering up. Listed this month are 7 meets, 26 meetings, and 4 auctions. Getting to at least one will give you a boost toward spring.

Happy Collecting!

John V. Terrey, Editor

ON THE COVER

Our cover photo gives just a taste of the more than a dozen Atwater Kent breadboards offered at Part 1 of the Estes auction of the Bury estate. Six of them sold for over \$1,000 each, and total breadboard sales were over \$16,000. This may have been an unprecedented offering of so many breadboards at one auction in recent history.

WIRELESS HISTORY

The Lizard Wireless Station

The Oldest Surviving Wireless Station in the World

BY BOBBY LYMAN

Even on vacation, A.R.C. staff members can't help being alert to radio-related topics along the way. Bobby Lyman and her husband made a fall 2008 hiking trip to Cornwall, England, and brought home the following story for our readers. (Editor)

In the middle of nowhere on a coastal path in Lizard, Cornwall, England, we came upon the site of the oldest surviving Marconi station in the world. This strategic location high on a coastal bluff was ideal for transmissions. The unassuming sign is

Figure 1. A very unassuming sign welcomes visitors to the Lizard Wireless Station.

shown in Figure 1. Inside, Marconi still has a presence in the form of the small bust shown in Figure 2.

First, here is a bit of background. Marconi began his experimentation with electromagnetic radiation in 1894 at his home in Italy. His idea was to take the work of previous experimenters like James Clark Maxwell and Heinrich Hertz and make a form of practical communication without wires. By 1895, his

Figure 2. A bust of Marconi reminds visitors of the wireless pioneer who made radio practical.

transmission range had reached 2.4 km.

Italian authorities did not support his work, so at the age of 21, Marconi moved to a more supportive environment in Britain in 1895-1896. In 1897, Marconi formed the Wireless Telegraph and Signal Company, Ltd., to develop the equipment commercially. The range of transmission increased over the next few years, but the Navy was his only customer.

Figure 3. The Lizard Wireless Station in Cornwall, England, built in 1900, consists of two wooden huts.

In 1900, Marconi founded the Marconi International Marine Communication Company, Ltd., to increase business. The company leased wireless telegraph equipment to ship owners and put operators on board. The plan was to build eight coastal stations to communicate with the ships, the first of which was the Lizard Wireless Station.

THE LIZARD WIRELESS STATION

Built in 1900, the Lizard Wireless Station, shown in Figure 3, consisted of two modest wood huts, one for equipment and one for living quarters, plus a 38-meter mast, the support for long wire aeri-als. By 1903, an electric generator and electric light had been installed, but dry batteries provided power for the equipment at first.

At the Lizard, Marconi worked to prove horizons would not be a barrier with the curved earth surface in transmissions. He developed circuit components called "jiggers" to act as filters in transmitters and receivers and to allow tuning to a desired transmitter. Before this, with receivers open on a wide frequency band, messages got garbled.

On display at the Lizard is a re-creation of the wireless station, as shown in Figure 4. A closeup of the tape register is shown in Figure 5. Figure 6 is a 1901 photo of the equipment. Another type of detector invented by Marconi in the days of wireless — the magnetic detector — is shown in Figure 7.

The Telegraph Acts of 1868 and 1869 had given the post office a monopoly on messages sent by telegraph, but wireless was not a consideration then. However, privately owned systems for personal use were allowed a loophole. Nevertheless, the post office took over the Lizard in 1908-1909. Its location gave the Lizard the first contact with ships after long voyages and 1910-1913 was a busy time. The station closed in 1913 when a new station near Land's End opened. The Lizard reopened in 1914-1918 for war-related work, but closed again in 1920. In 2001, the National Trust reopened the Lizard as an operating station, recognizing its importance in wire-

(Continued on following page)

Figure 4. A re-creation of the Lizard wireless station.

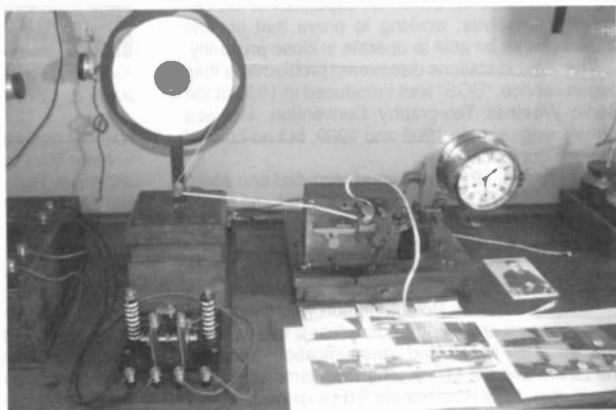

Figure 5. A close-up of the tape register.

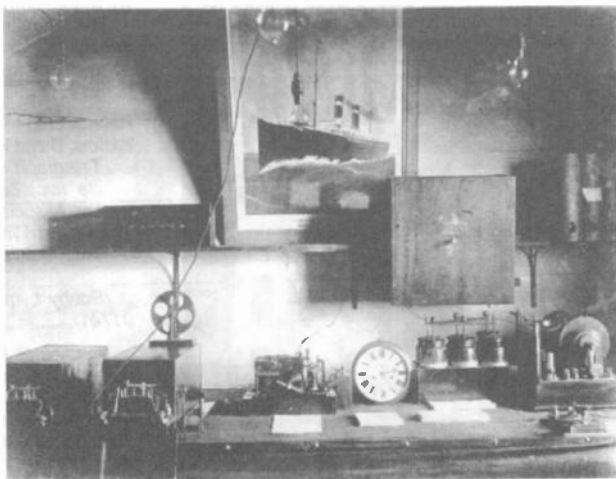

Figure 6. A 1901 photo of the original wireless station equipment.

(Lizard Wireless Station, continued)

less history. The Lizard Station website is www.lizardwireless.org.

MORE ON EARLY STATIONS

Early 1900 station equipment included the transmitter (a 10-inch induction coil with an interrupter, which produced a spark); capacitors (Leyden jars); an aerial transformer (or jigger); a coherer receiver; a Morse inker; a mast; and Earthing (buried metal plates).

Originally all Marconi stations used call signs to reflect their locations. The Lizard was LD, nearby Poldhu was PD, etc. Two letters became inadequate and Marconi stations added on an "M". Thus The Lizard station became MLD. Later post office ownership changed the call sign to GLD. Today the Amateur Radio Club at Lizard uses GB2LD for special events.

The Poldhu station, built 10 km away from the Lizard, was a high-power, large-aerial station. The two stations were connected by a telegraph wire, but did wireless transmission experimentation between themselves, working to prove that several stations might be able to operate in close proximity.

The various stations discovered problems as they began service. "SOS" was introduced in 1906 at the Berlin Wireless Telegraphy Convention. Distress signals were sent in 1908 and 1909, but no coastal stations got involved.

On April 18, 1910, the Lizard recorded and acted upon an "SOS SOS" call from the *Minnehaha* after it had gone aground. Communication went both ways, and a lifeboat began rescue.

The problems that surfaced included the ship's using the wrong frequency so that reception was difficult. The nearby Poldhu station was scheduled to begin news and weather broadcasts five minutes after the distress call, and communications between the Lizard and the *Minnehaha* were jammed during the 45-minute long broadcast. This exposed the fact that interference issues with adjacent signals had not been completely resolved.

The post office had paid a large amount for a station at Bolt Head to replace the Lizard, but the Bolt Head station heard nothing at all. Its location

Figure 8. Nearby the Lizard is Lloyd's Signal Station, ca 1909, certainly an architectural step up from the Lizard.

Figure 7. Another Marconi invention used in the early days of wireless — a magnetic detector.

was not geographically as suitable as the Lizard's.

Near the Lizard station is Lloyd's Signal Station, shown in Figure 8. Originally the Lizard received signals from merchant ships as they passed the coastal station. Lizard operators used landline telegraph to London to reassure the shippers who insured cargo with Lloyds that the ocean crossing had been successful.

Also nearby today is the Marconi Center in Poldhu Cove, open to the public. It hosts the Poldhu Amateur Radio Club and has exhibits and a video presentation. Web: www.gb2gm.org. The Porthcurno Telegraph Museum (also called the Porthcurno Museum of Submarine Telegraphy) is open year round with displays and hands on exhibits. Web: www.porthcurno.org.uk

The beautiful coastal path in Cornwall is reason enough to visit this section of England, but the connections to past telegraph history are an added bonus.

(Bobby Lyman, c/o A.R.C., Box 2, Carlisle, MA 01741)

Bobby (née Roberta) Lyman has been a member of the A.R.C. staff since 1987 when her next-door neighbor, John Terrey, asked her if she would like to help with his newly acquired publication. In August 1998, we published a "Staff Profile" of Bobby entitled, "Wonder Woman Works Here." She continues to live up to that description, as she multitasks both here and in her personal life, which includes tennis, bridge, and lots of travel.

RADIO MISCELLANEA

"Radio Miscellanea" includes items of general interest selected from A.R.C.'s incoming correspondence. "In The Marketplace" items are based on information submitted by the businesses themselves. "From The Internet" items are obtained from internet newsgroups and other internet resources. Submitted items should be verified for accuracy; items may be edited by A.R.C. for publication, and publication is not guaranteed. See the masthead for more details.

More on Philco 37-620 Restoration

Dear Editor:

I read A.R.C. from cover to cover each month and a few times afterwards. The Philco restoration article in the August 2008 issue threw up a flag. Replacing an electrodynamic speaker with a permanent magnet speaker seems sacrilegious to me. A "Want" ad in A.R.C. probably would have resulted in several offers; at least, it has done that for me a couple of times. There are a lot of very helpful restorers who read A.R.C. out there. However, the method described to calculate the field coil resistance was on the money.

In addition to the A.R.C. comment about replacing the 6F6 with a 6L6, I would add that a 6L6 draws 0.2 amps more filament current, further overloading the power transformer.

Since originality doesn't seem to be a factor here in this case, perhaps a couple of heat sinks attached to the power transformer and a fan are in order to give it a fighting chance. No criticism intended.

Irv Sanders, Harrisburg, PA

Article Kudos

Dear Editor:

I would like to comment on two articles in the July 2008 issue of A.R.C. Phil MacArthur's Zenith Royal 500 Series article was very well written with sufficient detail and excellent illustrations to maintain interest even for people who don't collect transistor radios. He obviously loves his hobby and takes the time to learn more about it.

Richard Arnold's article on the Sonora Gem also shows attention to detail and a great deal of research. When I wrote an article on the DuKane Ionovac, I too had the thrill of first-hand experience with an engineer who had been involved with the design of a classic piece of electronic history. When Mr. Arnold talked to P.W.C., he must have had the same thrill of being able to ask all of the questions that nobody else would have answers to and of getting the inside information.

I would like to commend both writers. Two fine articles in one issue will be hard to follow up.

Daniel Schoo, DeKalb, IL

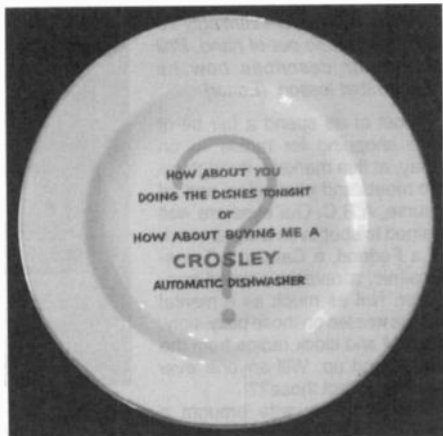

A.R.C. An Essential

Dear Editor:

It has been a number of summers since I had a conversation with you at one of the Radiofest meets in Elgin, Illinois. I'm not in quite as good shape as I was then, but am holding up pretty well for now. Though expenses continue to grow as energy costs rise, when it "gets right down to it," I find that A.R.C., always winds up on the list of items that are essential for me. Keep up the good work. I'll be looking forward to another year of enjoyment.

Thank you.

John H. Smith, Jr., Collison, IL

Another Crosley Product

Dear Editor:

This advertising plate from the 1950s for a Crosley dishwasher is just another reminder that Crosley manufactured a lot more than just radios, from household appliances to cars. The text reads:

HOW ABOUT YOU
DOING THE DISHES TONIGHT
or
HOW ABOUT BUYING ME A
CROSLLEY
AUTOMATIC DISHWASHER?

I found this plate in an antique shop in Alabama.
Mike Arthur, Pearl River, LA

Please, More on Early Audio

Dear Editor:

You have had several good articles on early audio equipment. I would really like more covering the 1940s to the 1960s.

S.J. Meyer, Avon Lake, OH

We have had other requests for articles on specific topics (another recent one was for articles on radio designers). We are open to all radio-related topics and hope that these suggested ones will find a willing writer. (Editor)

Great Ad Success

Dear Editor:

I have great success with my ads in A.R.C. Thanks.
Ed Allison, Sacramento, CA

Dear Editor:

I have gotten great response from every ad I have placed in A.R.C. I just love it!

Dave Oihus, Rapid City, SD

WITH THE COLLECTORS

Hand-Wired Radios in the Late 1960s

BY PHIL MACARTHUR

Never dismiss a seemingly insignificant radio out of hand. Phil MacArthur describes how he learned that lesson. (Editor)

Most of us spend a fair bit of time shopping for radios — on eBay, at flea markets, through radio meets and yard sales, and, of course, A.R.C. Our eyes are well trained to spot even a square inch of a Federal, a Catalin, a Trans-Oceanic, a reverse painted transistor. Not as much as a mental note is wasted on those boxy, ugly, AM/FM and clock radios from the 1960s and up. Will anyone ever want to collect those??!

So when my wife brought a cheap looking AM/FM table set

Figure 1. A front view of the hand-wired Zenith, model unknown, chassis No. 8NT121.

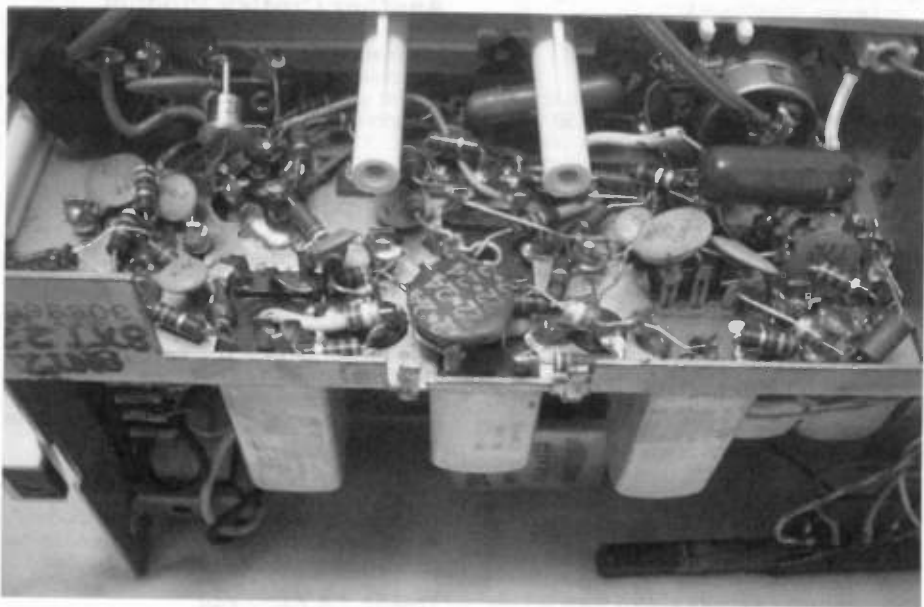

Figure 2. A bottom view of the Zenith, chassis No. 8NT121,

she found at the Salvation Army store for a buck, I wondered how I could tactfully explain to her that it wasn't a tube model and was therefore not worth anything. I planned to talk about how price competition had resulted in flimsy PC boards and poor workmanship. As part of the lesson, I popped the

back off — and dropped my jaw. Inside was a steel chassis, completely hand-wired with socketed transistors and all U.S. components.

This was a Zenith chassis #8NT121 (model tag missing) with date codes from February 1966. Figure 1 shows a front view of the set. Figures 2 and 3

show bottom and rear views of the chassis. I had thought that once Zenith adopted the PC board for the Royal 500B in 1957 that the only remaining hand-wired steel chassis products were the Inter-Oceanic (through 1970) and the Trans-Oceanic (through 1982) lines — the high-priced stuff.

MORE 1960S MODELS

I started buying more 1960s Zenith AM/FM transistor table sets to see just how long Zenith continued this ideal. I found a Model X480, an AM/FM/clock set with chassis No. 8XT22, date coded June 1967, identical to the above No. 8NT121.

Next came a Model Z476, chassis No. 8ZT18, AM/FM/clock radio, date coded April 1968, with a printed circuit riveted to a steel chassis, but with a separate hand-wired FM sub-chassis. There are no transistor sockets in this one.

Next came a Model A411, shown in Figure 4. This is an AM/FM with chassis No. 8AT18, date coded September 1969, with the heavy PC board riveted into a steel chassis. However, this one has soldered Motorola transistors and Japanese capacitors, and the FM front end is on the PC board with the rest of the circuitry. Figure 5 shows a chassis view of the set. You can tell that by 1970, engineering was beginning to lose the battle with the bean counters.

I haven't yet found any examples from 1970 or 1971, but by the time the Model E414 AM/FM appeared in 1972, production had moved to Korea, the steel chassis was gone, and all parts were from Japan.

I'd like to find the model number of that radio in Figure 1 with the No. 8NT121 chassis. Perhaps other manufacturers had similar heavy-duty, hand-wired units in their product lines. I guess we're all going to have to search a little more slowly through the markets — there are some real sleepers out there in those unassuming polystyrene boxes.

(Phil MacArthur, 60 W. Schuyler St., Oswego, NY 13126. keywestmac@verizon.net)

After 25 years of teaching in Key West, Florida, Phil MacArthur and his wife June happily retired and returned to the "four seasons Northeast." (And while we

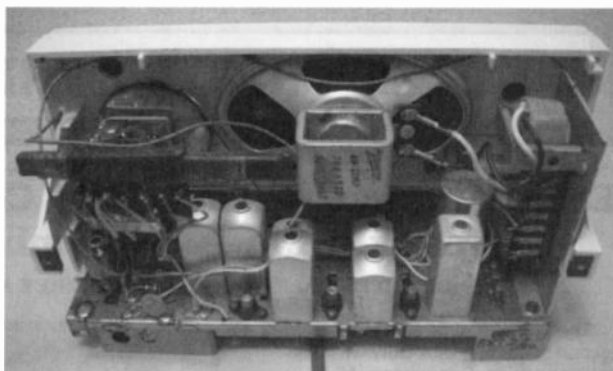

Figure 3. A rear view of the chassis, No. 8NT121. The model ID is stamped on the chassis tab, lower right.

Figure 4. A Zenith Model A411, date coded September 1969, which has the heavy PC board riveted into a steel chassis.

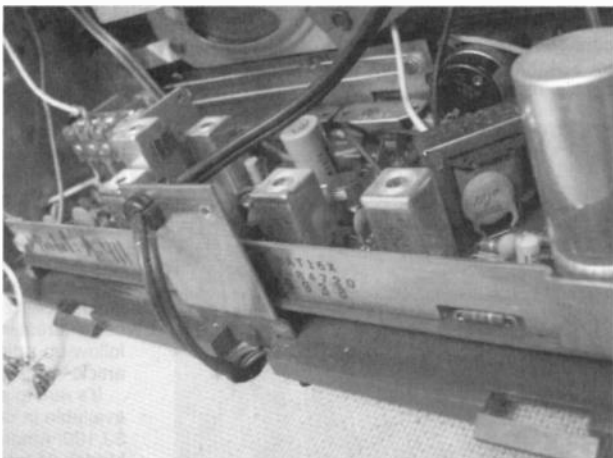

Figure 5. A view of the Zenith Model A411 chassis.

were gone, you guys invented the snow blower.) He collects Zenith Royal 500s and Trans-Oceanics, as well as the (probably famous) Realistic Flavoradios.

AUCTION REPORT

Estes Auctions — Dick Bury Collection Part 1 Burbank, Ohio — September 17, 2007

CONTRIBUTED BY DALE BOYCE, JOHN TERREY AND ESTES AUCTIONS

The first part of the great collection of the late Dick Bury was auctioned on September 15, 2007, at the Expo Auction Center in Burbank, Ohio. Once again Richard Estes and his crew did an excellent job of organizing and moving things along. Total proceeds were an impressive \$208,360.

The quality of the items in Dick's collection was outstanding. Dick and his wife Mary were well-known in the radio community, which has lost a true friend and a devoted collector.

This auction was an early battery set and wireless collector's dream. The collection was very complete and comprehensive — almost every major manufacturer was represented. Needless to say, your editor could not miss it and was happily rewarded by some nice items.

The highlight among the early wireless items was the rare Marconi 106B receiver, which sold for \$24,000. Among an array of a little more common but still

An assortment of Atwater Kent units for the breadboard series.

Five units from RPM (Radio Products Mfg. Co.), a sampling shown here, brought prices from \$200 to \$525. RPM units, variometers, AF amplifier units, and variable condensers are similar to Atwater Kent breadboard islands.

Complete with tubes, this scarce Sodian receiver/amplifier combination sold for \$3,400.

rare wireless sets were an IP501A, selling at \$5,000, and an even rarer matching IP503 antenna tuner, which was a bargain at \$1,400. Other manufacturers, such as Nesco, Wireless Specialty, DeForest, and Murdock also brought good prices.

All the important manufacturers of early battery sets were represented. Over a dozen Atwater Kent breadboards sold for up to \$2,500. A Golden Leutz 9 sold for \$2,100, indicating continued interest in a set that since has warranted two follow-up articles to Dan Schoo's October 2007 article on the subject.

It's rare to see Neutrowounds in all three colors available in one place. The rarest in red sold for \$3,100. Among the other offerings was a Federal Model 61 selling at \$875; a rare Zenith ZEV portable at \$7,500; a Grebe RORA at \$3,100, and a Sodian receiver with both amplifiers at \$3,400. The list goes on to include Adams Morgan, Cutting & Washington, Amrad, Kennedy, RCA, and Clapp-Eastham.

Dick also had an exceptional number of speak-

ers, over 40, in fact, selling for as much as \$3,100. Among the manufacturers represented were Federal, Music Master, Auto-Hom, Magnavox, Amplion, Westem Electric, and Mesco.

An unusual selection of vacuum tubes brought solid prices, including a DeForest Audion selling at \$2,000 and a Fleming valve selling at \$3,000. A large number of individual Atwater Kent breadboard parts were sold, as well as similar but rarer RPM breadboard parts. A large selection of books and magazines were also offered.

In all, this was an outstanding auction and most attendees looked forward to Part 2 a couple of months later.

Abbreviations: g=good, WT=with tubes, NT=no tubes, BB=brass-based, TT=tipped tube, PS=power supply, g fil=good fil, N.O.S.= new old stock, WE=Western Electric. All prices have been rounded down to the dollar. Some low cost items and items in poor condition or non-specific descriptions are omitted.

A warning: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

(Dale Boyce, 10230 West Greenwood Ter., Milwaukee, WI 53224. Estes Auctions, 7404 Ryan Rd., Medina, OH 44256; (888) 769-4992; E-mail: estesauctions@aol.com)

Dale Boyce is an electrical engineer and lighting designer who has been collecting radios and technology for over 35 years. He and his wife Chris have a wide-ranging collection, including 1920-1920 radios, horn and cone speakers, crystal sets, phonographs, TVs and equipment made by over 35 Wisconsin manufacturers, as well as technology items from 1855 to the present.

A.R.C. RATES & POLICIES

GUARANTEE. You may cancel your subscription at any time and receive a pro rata refund for issues not yet mailed. If errors to ads are made by A.R.C., upon request a free correction will be run in the next available issue.

PAYMENT. Send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA, MasterCard, American Express or Discover (\$10.00 min.) are preferred. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or e-mail. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by credit card is preferred if your order is over \$10. If under \$10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the last day of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. Originals must be the artwork size listed below. Send all artwork on disk or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$18.00 per photo for screening unless part of an existing electronic ad. Do not cut or trim photos or glue photos to artwork; submit separately.

If you are confused by these requirements and terms, please

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/16-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

A.R.C. RATES & POLICIES

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 50-WORD AD for subscribers in each issue; additional words are 10¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive months up to your subscription expiration; 12-months, maximum) you want the ad to run.

To minimize our typing errors: **Please write legibly.** Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital i and the small L.) Also: 0, O, o, Q and D; v, r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets] in ads.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Classified ads must have a standard heading such as **WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE.** This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address are **required** in all classified ads; we will add it if you forget.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 50 words may not be used for club activity ads. A discount on display advertising is available for clubs.

Classified Ad Rates per Month

Deadline: NOON ET- 10th of the month

Subscribers (First Ad):

First 50 words: **FREE!**

10¢ per word for words over 50

Subscribers (Ads after first ad):

10¢ per word for all words

Non-Subscribers:

30¢ per word

Please do not forget to send in the extra 10¢ per word when your classified ad runs over the free 50 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

PHOTO & DRAWING DETAILS

Deadline: 1st of the month
for all ads with drawings or photos!

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

\$10.00 per month for each photo or drawing

(If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: **WANTED, FOR SALE, etc.**, count as one word each time used in an ad. Name, address and (one) telephone number, count as 6 words, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address are required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

CLASSIFIED ADVERTISEMENTS

Estes Auctions

*Specializing in Vintage Radios
Complete Auction & Appraisal Service*

Estate Radio Auction

“The James Fred Collection”

Saturday, February 21, 2009 – 10 AM EST

at the Expo Auction Center
8157 Garman Rd., Burbank Ohio (Exit 204 off I-71)
then south on SR #83 to the Love’s Truck Stop, turn left
onto Garman Rd. and follow 7/8 of a mile to the auction site.

We will offer the collection of Mr. James Fred of Cutler, Indiana. Mr. Fred had been a collector and also a radio repairman since the 1930s. He ran a radio repair shop all through the 1930s until World War II. After the war he set up shop at his home and did business under the name Antique Radio Labs. His radio collecting taste covered every make from the early battery sets to the early 1950s units. From Admiral to Zenith. There are many parts, tubes, test equipment, books and magazines. The collection also includes some amateur radio pieces with a nice Pilot Wasp. Terms: Cash, check, Visa, M/C. 5% gallery fee. We wish to thank everyone for their support the past year and their continued participation in our monthly radio auction series. We look forward to bringing you more radio auctions this year and to getting to visit with you at the upcoming radio meets. All of us at Estes Auctions wish you the very best in the coming year.

Richard Estes, K8LRY - Auctioneer

RADIO XL

An Indoor Old Radio Flea Market

Biggest Show on the East Coast ★ Same Giant Location

Last Year: Nearly 600 Attendees ★ 62 Exhibitors ★ 93 Tables

Sunday, February 15, 2009 — 8:00 AM to 12:00 NOON

Registration begins for all at 7:30 AM

\$11 admission (spouse & children free) – Exhibitors see below.

Westford Regency Inn — Regency Room — Westford, Mass.

(I-495 at Exit 32 — directions below)

Refreshments will be available.

Visit John Terrey's Collection of Early Radio & Wireless

(1 PM to 3 PM – 5 miles from Regency Inn – get directions & sign up at meet)

Pre-registration & Information:

A.R.C., P.O. Box 2-W20, Carlisle, MA 01741 – (866) 371-0512 – arc@antiqueradio.com

Exhibitors: \$11 per person/family for admission plus \$33 per table. Table sizes and location assigned on a first come-first serve basis. Early registration is recommended. Last year's exhibitors in the main hall may request the same location, if we receive their paid registration by February 1, 2009. Four table limit per exhibitor. Exhibitors must occupy tables for entire show. Tables unoccupied 15 minutes prior to the end of the show will not have priority for the same location in 2010. Exhibitors may register at the door (if tables are available), or may pre-register by mailing payment to: Radio XL, c/o A.R.C., P.O. Box 2-W20, Carlisle, MA 01741. (Make check/MO to A.R.C.; Visa, MasterCard, Discover, American Express OK, too.) If paying by credit card, exhibitors may pre-register by calling (866) 371-0512 or faxing (978) 371-7129. **Note:** Show opens to all at 8:00 AM. At 7:30 AM, exhibitors may enter the hall only to deliver goods to their tables (no setup/no unpacking/no buying/no selling) and then must return to the foyer until the doors open for everyone at 8 AM. If desired, one person may sit at the table for security purposes (no setup/no unpacking/no buying/no selling). Speak with show manager for special situations. **Cancellation Policy:** Table fee will be refunded only if requested and the table is resold. If a table is not occupied by 9 AM, a table may be cancelled and resold.

Overnight stay: Westford Regency Inn at 1-800-543-7801. Mention Radio XL for special rates. Room reservations should be made by January 23, 2009 for special rates. Bring your family to enjoy indoor pool, health club, racquetball courts, three restaurants, bar, etc. Night skiing at Nashoba Valley Ski Area, only 2 miles away!

Directions: From I-495, take Exit 32. Follow "To Rt. 225" sign. At traffic light by gas stations, turn right onto Rt. 110-West for 0.4 miles. The Westford Regency is on the right. Use doors on right (north) side of Inn. Ramps at both show entrances! The Westford Regency Inn and Conference Center is a 193-room hotel with two restaurants and over 500 parking spaces. With over 20,000 square feet of conference space, we have room to expand our future radio meets!

presents

Another Great Radio Auction

Saturday, February 28, 2009 – 10 am CST

**at the VFW Hall, 509 W Main St.
Mesquite, TX 75149**

Sale items include estate and consignment radios and accessories. This sale will offer a nice mixture of items, from transistor to early battery, from cathedral to console, from AK to Zenith. Early phonographs, novelty and advertising items as well as a really nice Scott Philharmonic 30 tuber. Many nice HI-FI turntables, audio components, including McIntosh, Fisher, etc. Most items will be offered without reserve.

Don't miss this sale!

Check the photo line up at www.sargentauction.com More items being added up to sale time. Pre-auction (starts at 9 am) for lesser quality items and parts will be conducted on site prior to and after "main event". You may bid live for items in the "main event" auction via www.NAALive.com. Shipping services will be available or make your own arrangements for removal/pickup. All items will be sold "as is, where is". Announcements day of sale take precedence over other advertisements. On-site preview of sale items available Friday, February 27, 4pm to 8pm and day of sale 8am to 10am.

**Terms: Cash, check, Visa, Mastercard, and Discover
5% Buyers Premium for premises sales, 10% if sale via internet.**

Radio Auction

“The Lloyd A. Scott Jr. Estate Collection”

Saturday, March 21, 2009 – 10 AM EDT

at the Expo Auction Center
8157 Garman Rd., Burbank Ohio (Exit 204 off I-71)
then south on SR #83 to the Love’s Truck Stop, turn left
onto Garman Rd. and follow 7/8 of a mile to the auction site.

This collection from the late Mr. Scott of Bartow, Florida will be a large sale. Mr. Scott had a small AM broadcast station that we will be bringing to Ohio to auction. Also featured are three early ca. 1950s television cameras, one from the early '50s is WFLA-NBC camera, also an early 1950s field and studio combination camera. The family has a photograph with the camera being used at an outdoor site, several early '50s television sets, a selection of military radios, amateur radio transmitters, also amateur radio receivers. Mr. Scott was a ham radio operator. Also in this collection are two teletype machines, a variety of cathedral and tombstone style radios, wood and Bakelite radios. Horn speakers, 1920s battery sets, a large amount of radio magazines and books, advertising items, many tubes, all different types. Early style, transmitting, and hard-to-find Types 45, 80, 81, 46, 47, 24, 26, 27. We will be going to pick this very nice collection up soon and will have a more detailed listing in the March issue of *Antique Radio Classified*. Hope to see you at the sale.
