Easy guide to Yearbook use

The information in this book is massive (more than half a million words), but it has been organized for speedy reference. There are six main sections. Here are the titles and locations of these sections and brief descriptions of what they contain. Pages, incidentally, are numbered in six sequences—A through F.

Market Facts for All U. S. Counties (pages A-23 through A-98): Current statistics showing total homes, television homes, radio homes, retail sales, food sales, drug sales and passenger car registration for each county in the nation.

The Facilities of Broadcasting (pages B-1 through B-365): Directory of U. S. tv stations, including complete profiles of all stations on the air (B-3); Directory of U. S. radio stations, including complete profiles of all am and fm stations on the air (B-103); directory of radio and tv station representatives including personnel and stations represented (B-261); directories of personnel and rates of all national radio and tv networks (B-275); directories of radio regional networks (B-291) and tv regionals (B-293); directory of experimental tv stations (B-293); directory of international radio stations operating in the U. S. (B-293); directory of uhf tv translator stations (B-294); history of all tv station sales (B-296); directories of multiple station owners (B-301) and of newspapers or magazines holding interests in radio-tv (B-306); am stations grouped by frequencies (B-313); tv stations grouped by channels (B-325); alphabetical list of television station call letters (B-327); alphabetical list of am station call letters (B-329) and of fm calls (B-336); Canadian tv calls (B-338); personnel of the Canadian Broadcasting Corp. "ADVERTISERS DELIGHTED..."

"WMBR-FM on the air a few days with PROGRAMATIC. Our engineers are impressed with the performance of the equipment and our advertisers are delighted with the music."

*Sidney L. Belghley, Jr.
WMBR-AM-FM, Jacksonville, Fla.*

"SPONTANEOUS ADULT REACTION..."

"With PROGRAMATIC we have distinctively different programming and low cost operation. Spontaneous adult reaction far exceeds our fondest expectations."

*Lee Howard, General Manager,
WEAU, Eau Claire, Wisc.*

"AROUND THE CLOCK..."

"Thanks to PROGRAMATIC we're going 24 hours around the clock. Entire staff most enthusiastic. Has given our programming a terrific shot in the arm."

*Frank Lane, General Manager,
KRMG, Tulsa, Okla.*

"SEPARATE FM PROFITABLE..."

"Converted our FM Station from AM supplement to a profitmaker overnight thanks to PROGRAMATIC."

LAUGH

THINK

SCARE

CRY

IT TAKES ALL KINDS OF SHOWS...TO SELL ALL KINDS OF PRODUCTS...

Here are five important reasons why:

campaign strategy—Today the *campaign* is all. No individual show can do the complete job. The advertiser's ultimate goal is the total audience, *all* prospects—not just isolated groups. And this year NBC Radio continues to deliver more of the top campaign audiences than any other network.

pure economics—With NBC Radio you can make more advertising impressions for less cost. Further, NBC Radio can add more to an existing campaign than can any other medium. For example, an advertiser with a 90-minute TV Special can increase his reach by 28% for an 8% additional investment on NBC Radio.

program dispersion—NBC Radio gives advertisers more opportunities to reach more diversified audiences with: 44 hours of network programming per week; 14 hours of weekend Monitor; 10 hours of weeknight Monitor; 10 hours of morning dramatic programs weekly; 10 hours of afternoon variety programs weekly; Hot-Line Service; Monday-through-Friday News on the Hour; and Stardust—supplying top star identification 85 times weekly.

flexibility—Announcements are available in ninety, sixty, thirty and six second lengths. They can be ordered in the afternoon and on the air the same evening. Weekly plans begin for as little as \$300 and range to \$30,000. Advertisers may purchase entire programs, star vignettes, or a pure frequency schedule.

extra services—NBC Radio has pioneered the development of new links with both the consumer and the dealer. Among the most significant: NBC Radio's National-Local Plan with the advertiser's network commercial tailored for local dealer cut-in; editorial support such as the current "Summertime Is Outdoor Eating Time"; closed circuit dealer meetings; and a long list of inventive plans that add both reach and return for the advertiser.

These are the reasons so many advertisers are attracted to NBC Radio and why 52.1% of all reported sponsored hours in network radio are on the leadership network, the . . .

BARTELL FAMILY RADIO

NOW IN ITS 13th YEAR

Consistency . . . the mark of Professionalism

AND SOON SERVING OVER

TWENTY MILLION AMERICANS

IS PROUD TO PRESENT

“THE CRITICAL YEARS”

A bold, razor-edged documentary on juvenile delinquency.

Told by “Tommy”, a seventeen-year old who reveals the twisted code

of America’s misguided youth. His story — his personal crusade

toward good citizenship is breathtaking in its direct

simplicity. Already applauded by government

agencies and distinguished community

leaders, this will be the most widely

discussed broadcasting achievement of

1959. Another in the continuing series of

community services by Bartell Family Radio,

coast to coast.

... about **“THE

Hon. RICHARD M. NIXON
*Vice President
of the United States*

“I want to . . . congratulate

Unless otherwise indicated, all figures are as of Aug. 1, 1959

This is the national standard of mass for the United States . . . a platinum iridium cylinder known as Prototype Kilogram No. 20. Kept at the United States National Bureau of Standards in Washington, it is an accurate copy of the international standard kept at the International Bureau of Weights and Measures, at Sèvres, France. It is exactly 39 mm in diameter and 39 mm high. The last recomparison with its international prototype in 1948 showed that the United States standard has remained constant within one part in 50 million during approximately 60 years.

Unaided by such precise gauges, the measurements of mass audiences in television is a difficult business. American Research Bureau, pioneer in the field, is nonetheless regarded as the ultimate in precision (within its own strictly defined limits) in measuring this volatile mass, assessing its preferences, and reporting them to ARB clients with Accuracy . . . Reliability . . . Believability.

The standard by which others are judged

The important gauge of television's worth as an advertising medium is the amount and type of audience it can attract and hold. In measuring both dimensions of television's audience, accuracy, reliability and believability are the important criteria.

ARB measures these dimensions . . . by program, by station, by time period . . . both nationally and in every major TV market . . . with the utmost in

Market Facts for all U. S. Counties

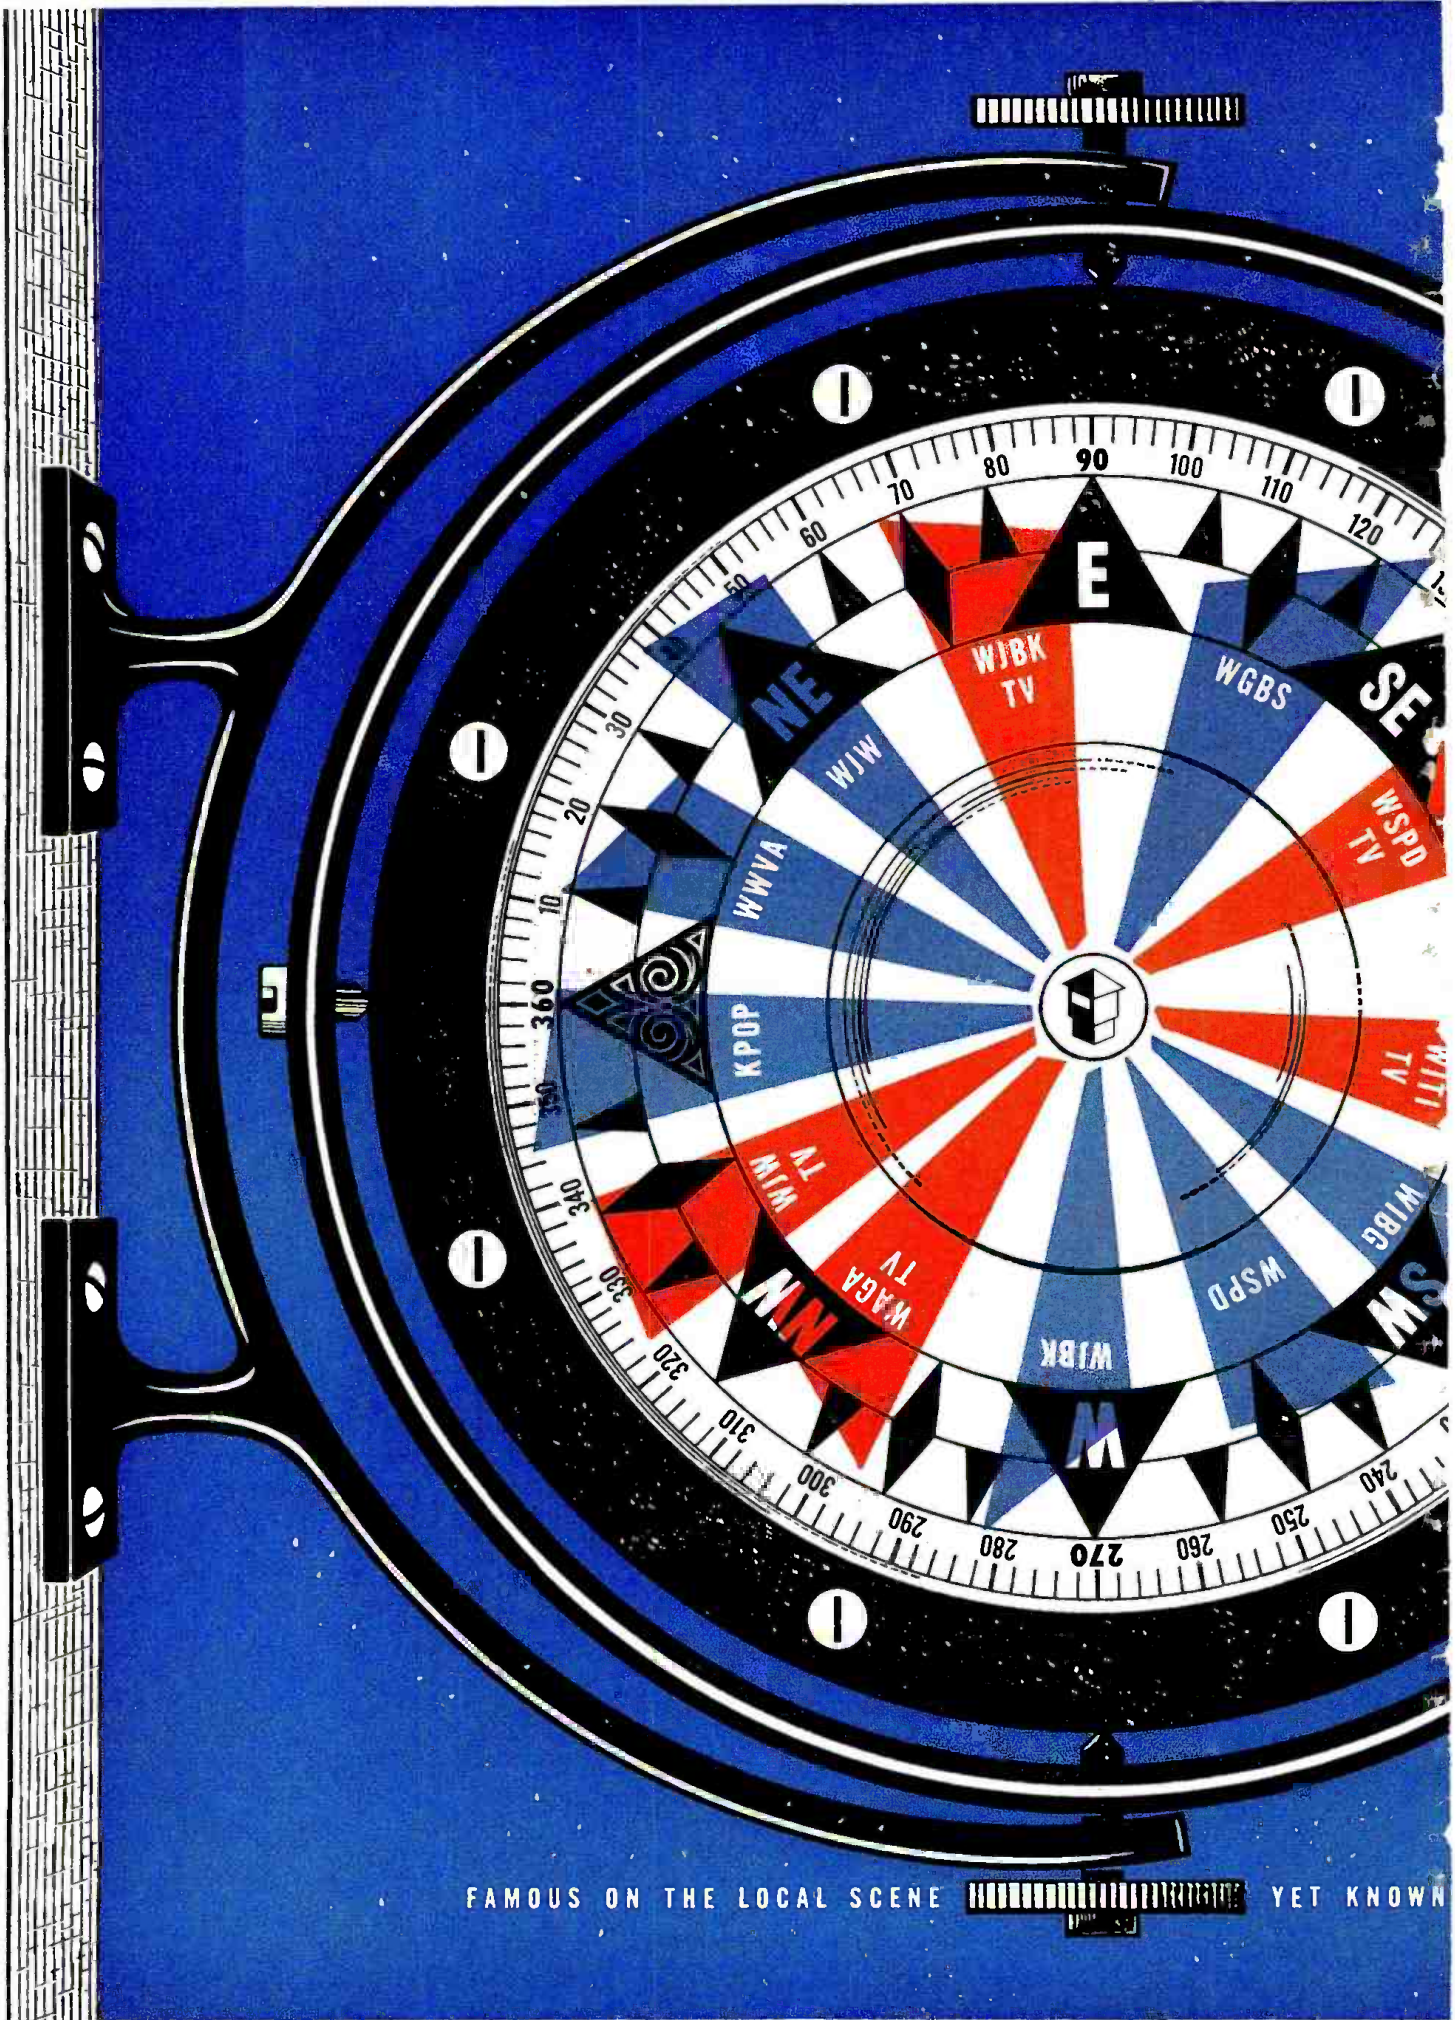

Sources and dates of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by *Sales Management* updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes"—as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied to the BROADCASTING YEARBOOK by

the A. C. Nielsen Co. and are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by *Sales Management*; no further reproduction authorized without express permission of *Sales Management*. "Passenger Cars" are official registration figures from the various states.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes" —as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

BEELINE[®] RADIO
delivers more for the money

Beeline radio covers 3 of the top farm income counties in the nation, including Fresno County, the national leader. If you're interested in cotton-picking, turkey-plucking counties, Fresno is number two in both. For an added fillip, there's Stanislaus County, number one in peaches, number two in dairy.

Agriculture is a big business — and a very profitable one. Dip into this rich market with a message on Beeline radio.

Purchased together, Beeline stations give you more radio homes than any combination of competitors . . . at by far the lowest cost per thousand.

The million dollar buyers* of broadcast advertising at the top 50 tv-radio agencies pick **BROADCASTING...**

AS THE BEST MEDIUM FOR A STATION'S ADVERTISING TO REACH THEM

They named **BROADCASTING**

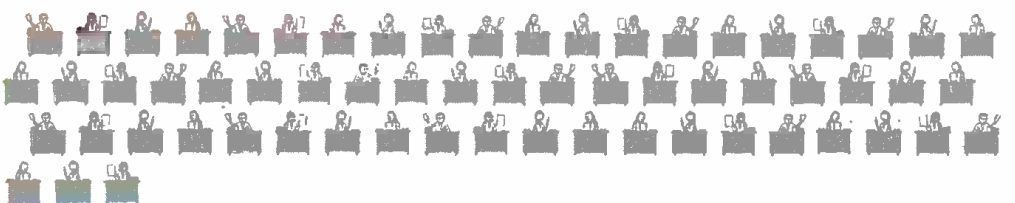

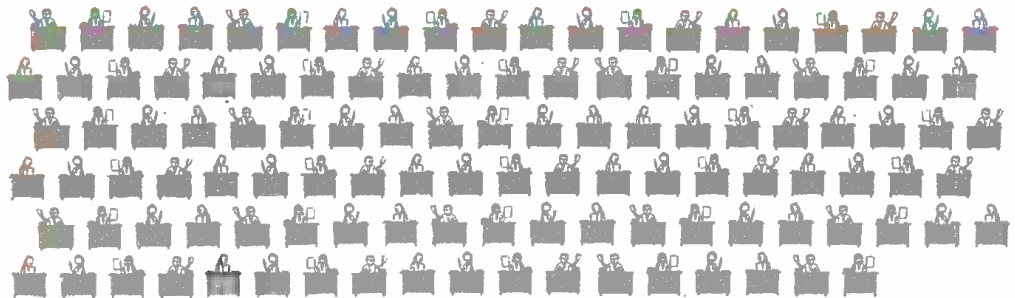

nearly 2-to-1 over Publication "B"

better than 10-to-1 over Publication "C"

by 39-to-1 over Publication "D"

and 59-to-1 over Publication "E"

whereas (alas) Publication "F" wasn't mentioned even once!

HOW DO WE KNOW? These are the findings of a brand-new readership study by American Research Bureau, Inc., conducted among the most important executives responsible for broadcast advertising decisions at the 50 biggest TV-radio agencies in America. If you want to know the *full* facts about their TV-radio business publication preferences, send for a copy of "What Do the Million Dollar Buyers Think?"—just off the press.

*A "Million Dollar Buyer" is an agency executive responsible, directly or indirectly, for allocation of over \$1,000,000 yearly in broadcast advertising. Of 400 respondents in the ARB study, 81% were.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes"—as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

What makes Fords move so fast in Washington? "The Sound of Quality' on WRC Radio represents an essential part of the Washington District Ford Dealers Association's overall marketing program." (signed) Robert L. Lewis, Chairman, Washington District Ford Dealers Advertising Association. The Ford Division of the Ford Motor Company also uses WRC Radio in its advertising campaigns. Here's further proof that, for national and local advertisers, WRC Radio's "Sound of Quality" is the power that accelerates sales in the nation's capital. NBC Leadership Station in Washington, D.C. White Columns The home of WSB Radio and WSB-TV

Your advertising in Atlanta belongs on the WSB stations

In few major markets of America do you find so high a degree of media dominance. In Georgia WSB Radio and WSB-TV are overwhelming firsts in audience, in coverage, and in facilities.

Thirty-seven years of programming in the public interest has earned for these stations an audience confidence and respect which

means much to advertisers. It means a *pre-conditioned* acceptance of your programs. It means an audience *more receptive* to products and services advertised on WSB Radio and WSB-TV. These are *tangible* assets . . . with a record of higher-than-anticipated dividends paid to sponsors. Certainly your advertising in Atlanta belongs on the WSB stations.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes" as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

WEATHER is news in Eastern Iowa, where frost bites bank accounts as well as fingers, and snow clogs feeding troughs as well as roads. "Rain by afternoon" means send the kids to the morning school bus complete with rain gear . . . and make hay in the north forty while the WMT stations shine.

Our weather radar installation permits WMT-TV camera viewing of storms in the making; in addition, it permits continual monitoring of the weather situation by weather-trained staffers. A direct wire to the Des Moines Weather Bureau serves us and our audiences with complete information on all conditions important to Eastern Iowans. We subscribe to a private weather reporting service whose details are WMTe'd six times a day, seven days a week. Special news correspondents throughout Iowa (more than

a hundred) frequently call in important or unusual weather news. Three wire services and two picture services provide our News Center with complete national and international coverage which of course includes weather.

Weather reporting is one of the reasons for WMT-TV's dominance of three of Iowa's six largest cities, plus coverage of well over half the tv families in Iowa—and one of the reasons that WMT Radio averages more audience than the combined total of all other radio stations located in our Pulse area.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes"—as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

“I want to think it over carefully”

“I’m very much interested in your proposition and I appreciate the time you’ve put into researching and preparing it, and the time you’ve taken to present it to me fully. Several factors are particularly arresting. But I don’t want to give it just casual consideration. Give me time to think it over carefully.”

The acquisitive, kinetic minds of top-echelon men respond to a worthy idea. One good measure of their interest is the time they take in considering an idea . . . holding it up to the light . . . examining every facet, weighing it against their own knowledge. When they *take* the time they demand the “total picture” to give them the proper background for pertinent ideas. That’s why key advertising and marketing men turn to Printers’ Ink . . . to give them the “total picture.”

Printers’ Ink is the only magazine edited for the complete coverage of the advertising and marketing scene. *Each week:* Printers’ Ink reports and analyzes important, pertinent news. *Each week:* Printers’ Ink probes, in depth as well as broad perspective, important trends and developments in marketing. *Each week:* Printers’ Ink presents selected, interpretive case histories of advertising accomplishments and techniques. That’s why men, in search of ideas and with their time at a premium, men like Mr. Stuart Sherman, whom you’ll meet on the next page . . . turn to Printers’ Ink *each week.*

BECAUSE IDEAS ARE AN EXECUTIVE'S MAIN BUSINESS

"Marketing concepts are, as they should be, constantly changing. For this reason no marketing man, however well established his personal theories, should overlook subtle daily changes, new approaches and constantly shifting outer influences.

"The whole gamut of marketing news and innovations is well covered in Printers' Ink. Reading each issue serves not only to keep me well informed but to activate many of the constant changes in my approach toward all phases of marketing in which I am involved."

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes" — as of Spring 1959 — were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

*Figures for passenger car registration in Minnesota are computed by the BROADCASTING YEARBOOK. The state Motor Vehicle Division compiles only total registrations for all vehicles but says that passenger cars represent about 75% of the total. Accordingly the figures in this column are 75% of total vehicle registrations, the latter supplied by the Minnesota Motor Vehicle Division.

There's a big new picture in the Carolinas' biggest market

The big new picture—the big new sales force—in this biggest market is Charlotte's WSOC-TV. Now NBC, ABC, Paramount, MGM, Warner Brothers, United Artists! In all the Carolinas only WSOC-TV has this program strength, plus high tower and maximum power—one of the great area stations of the nation. Get more for your money. Get on WSOC-TV.

The WSOC-TV coverage area is a fabulous market

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Television Penetration" and "Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes"—as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes"—as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

HERE'S WHAT DR. DICHTER FOUND OUT ABOUT HOUSTON RADIO

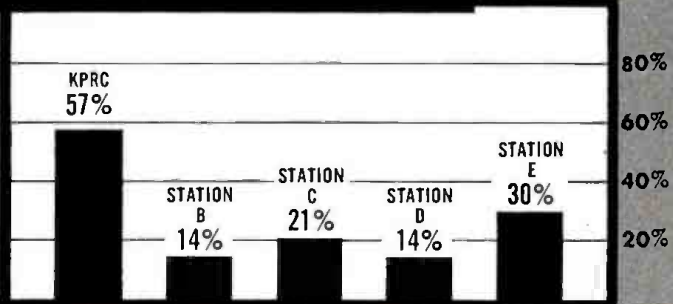

KPRC No. 1 FOR NEWS

"I turn that station on when I want to find out what's new—what's happening."

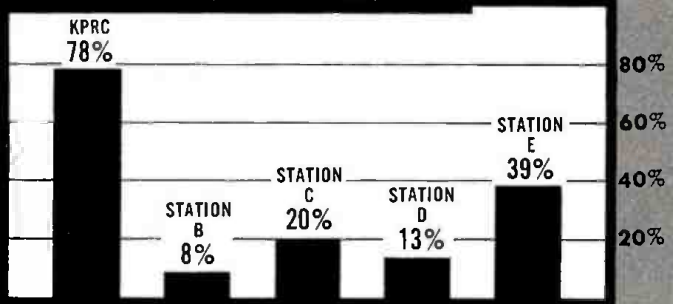

KPRC No. 1 FOR ADVERTISERS

"When they advertise something on that station I feel I can believe them!"

KPRC No. 1 FOR BELIEVABILITY

"You can generally believe them and trust what you have heard."

Should you like further information on this revealing Dichter Probe, wire, write or phone. A printed booklet, "The People Talk Back to Radio" will be forwarded, posthaste.

Sources of information: "Total Homes" were prepared by A. C. Nielsen Co. from estimates by Sales Management updated to Spring 1959 by application of growth patterns determined by special surveys of the U. S. Bureau of the Census. "Percent Tv Penetration" and "Tv Homes"—as of Spring 1959—were supplied by the A. C. Nielsen Co. "Percent Radio Penetration" figures were supplied by the A. C. Nielsen Co. and

are the figures currently in use by that company. "Radio Homes" are the product of multiplying Nielsen percentages of penetration by total homes. "Retail Sales," "Food Sales" and "Drug Sales" copyright 1959 by Sales Management; no further reproduction authorized without express permission of Sales Management. "Passenger Cars" are official registration figures from the various states.

DIRECTORY OF TELEVISION STATIONS IN THE U. S.

Note: Listed in this directory are (1) all cities to which television allocations have been made by the Federal Communications Commission and (2) all tv stations granted.

(1) With each city are shown the county in which it is situated and the television channels allocated to that city by the FCC. A plus or minus sign after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilocycles above or below, respectively, the normal carrier frequencies.

(2) Information for each station listed below has been corrected to Aug. 1, 1959. Where applicable, the follow-

ing data is shown: call letters, date station began (or intends to begin) operation, channel number, transmission facilities, address, telephone, teletype number, name of licensee, composition of ownership, network affiliation, sales representative, executives and Washington attorney. Color facilities of stations having them are also shown. Special note is also made of those stations now having a video tape recorder in operation. Uhf translator stations, authorized by the FCC to repeat the programs of commercial stations, are also listed under the station whose programs they repeat. Noncommercial channels are shown with asterisks (*).

When You're Buying TV Results it's **C P P** that counts

It takes all three . . .
C — Coverage,
P — Power,
P — Promotion,
to get maximum
TV results in any market.

In the big BILLION-DOLLAR-PLUS Mid-Gulf Area, WKRG-TV is one of the nation's most resultful combinations of C-P-P. Check list:

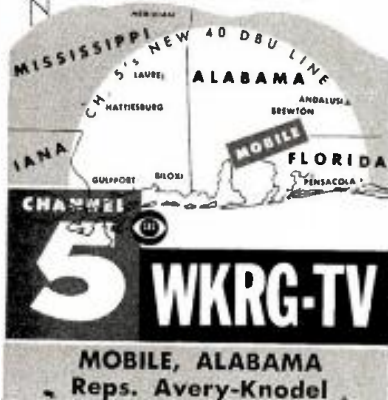

C — COVERAGE of this growing market finds WKRG-TV with a weekly bonus of 47,790 and 146,020 families over Stations "A" and "B".* New maximum-height tower, and continued maximum power, now is increasing this bonus.

P — PROGRAMMING top CBS shows, with outstanding films and feature-films . . . plus top local shows . . . has sent WKRG-TV's rating up . . . UP . . . UP!

P — PROMOTION is more than a "jumbo post card" at WKRG-TV. It starts by building audience for YOUR PROGRAM (or your spots) and extends to the point-of-decision . . . in-store . . . where sales are consummated.

Don't take our word! Check the facts. Call your favorite AVERY-KNODEL MAN, or C.P.P. (Himself) . . . C. P. Persons, Jr., Vice-President and General Manager of WKRG-TV.

You can eat your cake and have it. Not only is KERO-TV the only single advertising medium that reaches over 1,000,000 free spenders in California's Southern San Joaquin Valley, it also brings you a bonus of bigtime facilities, an alert, professional staff that makes every penny work overtime for you and a marketing and merchandising program that helps every commercial reach right to the retail counter. Good reasons to be in to the Petry man when he calls!

in **FRESNO** (California)

KMJ-TV is the big favorite of Fresno housewives. In the weekday hours between 8 a.m. and 5 p.m., KMJ-TV is the preferred station. The latest ARB* shows KMJ-TV first in 80 of 180 quarter-hours during this period — a 46% greater preference than the next station.

For daytime movies, KMJ-TV is also first choice with Nancy Allan's top-rated MGM Movie Matinee.

THE KATZ AGENCY, NATIONAL REPRESENTATIVE

Lunar Orbiter photograph of the earth.

How do you fit into the picture?

A communications revolution is changing our picture of earth. Satellites, microwaves, laser beams and other laboratory miracles will soon make possible vast global television networks capable of carrying a live TV signal virtually everywhere on our planet. Space-age technology, wed to television, has already created a new horizon for the international advertiser.

More than 100 nations already have television. Of these, two-thirds have some form of commercial television system. Right now, leading international companies are using television in many nations with amazing success and efficiency.

The story of international television *today* is a story of unlimited opportunity.

To help tell it, ABC International is touring a special presentation, "Television In The Space Age – The Challenge of Global Marketing," to key marketing centers around the world.

Its message? That the miracle of global TV is with us now. To be used now.

In one market or the world over.

ABC International is the hub of the Worldvision network, an association of commercial TV stations in 26 nations serving more than 20 million TV homes. For information on Worldvision—the new dimension in global advertising, phone or write today.

Discard Old Sales Maps

RICH CIA MARKET OUT-RIVALS MANY KEY METROPOLISES

* * *

A challenging market that counts its sales in billions has grown up on the Central Illinois Plains. What was once a loosely-strung marketing territory is a real sales entity—and has been since the mid-1950's. What's more, it's pulling 'way ahead of many an older, more famous, market.

Its name is CIA. Don't look for it on old-fashioned sales maps. CIA stands for Central Illinois Area. It was sired by a 1,000-foot TV tower. A leading urban land economist calls CIA a "television-created commercial region." Behind it is a unique television station's unique stature in a rich and widespread area.

CIA is a composite of five rich metropolitan areas: Bloomington, Champaign-Urbana, Danville, Decatur and Springfield. Along with these major centers, CIA embraces a total of 1,855 cities and villages in 54 counties. By adroit programming, dynamic on-the-spot news coverage of the entire area, top-featured CBS shows, and a relentless dedication to public service, WCIA-TV (Channel 3) has won the loyalty of viewers everywhere in this lush market.

Dr. Robert O. Harvey (University of Illinois College of Commerce and Business Administration) has recently prepared an analysis of CIA. Dr. Harvey's report carries a few surprises:

CIA's total retail sales of \$2,210,444,000 last year were greater than metropolitan Baltimore's. CIA bought more food than Baltimore's metropolitan market, more drugs than Denver's, more general merchandise and apparel than Houston's. Dr. Harvey's analysis shows CIA outstripping many another huge market, breathing on the necks of still more.

What's New About It?

Advertisers ordinarily find it costly, hazardous and complicated to cover big areas city-by-city, village-by-village. Through WCIA-TV, however, the advertiser has a unified market, created by a station that has earned its boundary-to-boundary audience.

If you are not now getting your share of this rich CIA market, or if you'd like to increase your volume there, Dr. Harvey's "CIA Report" is interesting and valuable reading matter. You can obtain a copy by writing WCIA-TV directly: 509 S. Neil, Champaign, Ill.

See How WFBM-TV Dominates Mid-Indiana!

First by a good margin, WFBM-TV dominates all other stations in Mid-Indiana both in total coverage and market penetration. Map shows county percentages measured by Nielsen Coverage Study No. 3, 1958.

where else . . .

—will you find satellite markets that are 33% richer and 50% bigger than the metropolitan trading zone itself?

—can so many satellite markets that are recognized retail trading centers in their own right be covered from one central point . . . and only one principal station with no overlapping network affiliates to do the complete advertising job?

only here! WFBM-TV is first in Mid-Indiana . . . dominates it completely, because WFBM-TV is the only basic NBC outlet penetrating this entire area. Let us show you how to test regional marketing ideas with amazing results. Call us for market information.

The Nation's 13th Television Market

...with the only basic NBC coverage of 760,000 TV set-owning families

Indianapolis itself—Major retail area for 18 richer-than-average counties. 1,000,000 population—350,600 families with 90% television ownership!

11 Satellites—Each a recognized marketing area—and well within WFBM-TV's basic area of influence. An audited audience of 412,800 more television homes.

TOPS IN "BOX OFFICE"!

WHO-TV's spectacular library of film packages*—loaded with award-winning movies — means "box office" for YOU, in Central Iowa!

Three times each weekday, thousands of viewers — men, women and children — watch film features on WHO-TV. WHO-TV programs these films in choice, low-cost time periods, and their ratings (Monday-Friday) are tremendously higher than those of competition, according to ARB for March 16-April 12, 1959:

- FAMILY THEATRE (Noon-2 p.m.).....44.3%
- EARLY SHOW—Cartoons (4:30 p.m.-5:05 p.m.).....36.1%
- EARLY SHOW—Feature (5:05 p.m.-6 p.m.).....29.9%
- LATE SHOW (10:30 p.m.-Sign-Off).....25.8%

PGW can give you all the details on WHO-TV and what "box office" in Central Iowa means to you. Ask your Colonel!

FOUR TIMES YOUR MONEY'S WORTH

In Shreveport, one of America's fastest growing markets, you get a lot more for your money when you specify KTBS-TV, Channel 3.

All Nielson surveys show KTBS-TV the dominant station in a market over four times larger than Shreveport's metropolitan area in population and income. Here is coverage that really counts—1,318,600 people with \$1,661,784,000 to spend.

Ask your Petry man for the story on the **FULL** Shreveport market. You'll find **KTBS-TV** not only gives you your money's worth, but more, lots more.

As Basic as the Alphabet

Every important advertising campaign should include Detroit... every Detroit campaign should include the WWJ stations.

Sources: Sales Management Survey of Buying Power, 1959. Fifth Quinquennial Survey of the Detroit Market.

Detroit Standard Metropolitan Area contains the greatest concentration of people and wealth in Michigan: 50% of the state's population, 53% of its retail sales.

Ever growing, this three-county area has a population of 3,910,000 and 1,120,000 families. (Total population in the WWJ stations' coverage area is over 7,000,000.)

The effective buying income per family is \$7,013—considerably above the national average.

Retail sales in 1958 totaled \$4,614,000,000. Food, automotive, drug and cosmetic purchases were high on the list of consumer expenditures.

Outstanding in volume of bank debits ("money at work"), Detroit ranks fourth in the nation, surpassed only by New York, Chicago, and Los Angeles.

In Detroit, 81% of families own one or more automobiles.

To the people of Detroit and southeastern Michigan, the WWJ stations are time-tested friends; believable, trustworthy, always welcome.

Since October, 1958, the newness and excitement of television—over KCMT—has brought a new design in family living to the people of central Minnesota. And, as a result of this exposure to television, their buying habits are changing, too.

For your merchandise or your competitor's merchandise, this rich farm and urban market spends 475 million dollars each year at the retail level. Farming alone creates a gross spendable income of more than 300 million dollars annually.

Who's presently using KCMT Television to capture this great farm, urban and vacationland market? Here are some of the "buy-words" moving merchandise over KCMT:

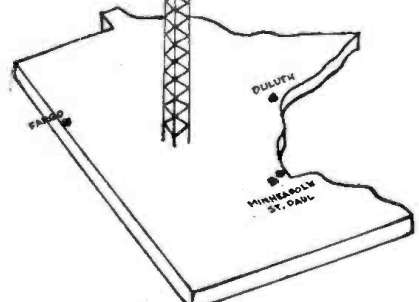

- "... Tastes good, like a cigarette should!"
- "... From the Land of Sky-Blue Waters"
- "... Live Modern ..."
- "... See the USA ...!"
- "... Mountain grown"
- "... Tower of power"

To do a selling job in central Minnesota, send *your* story winging out from Minnesota's tallest tower—KCMT Television.

Why the bowl of cherries, Tom?

“Life is *really* a bowl of cherries in the Fargo area, these days, for advertisers on WDAY-TV—our new 1206' tower is giving our advertisers 96% more coverage area . . . a 60% larger audience . . . and retail sales volume increased by 100%!

“You can imagine what this means to our dozens of top national advertisers. They were *happy*, even before we gave them this tremendous bonus. Now most of 'em say WDAY-TV is the best buy in America!

“As a matter of fact, the Market Data Section of Standard Rate & Data shows that Fargo is the No. 1 Retail-Sales-Per-Household Area in the United States . . . with an average purchasing power of \$5,970, as compared with the national average of \$3,944!

“Yes Sir, that's a bowl of cherries—tremendous extra *audience*, among people with tremendous extra buying power. What more could you want??”

Yours,

Tom Barnes

More Facts on WTAR-TV Tidewater, Va. (Norfolk-Portsmouth- Newport News-Hampton)

1. In the last Nielsen metro area ratings (4 wks., Mar.-Apr.) WTAR-TV led in 297 quarter hours vs. 148 for other two network stations combined.

2. In total coverage area (homes) WTAR-TV led in 342 quarter hours vs. 117 for other two combined.

3. Rated by homes viewing in total coverage area, 8 of the top 10 shows, are on WTAR-TV!

4. And with quantitative leadership you get qualitative superiority. The WTAR-TV audience is approximately 80% adults! This station is programmed to deliver customers, not numbers.

5. Our lower band, Channel 3, gives you a bonus... nearly 40,000 more TV homes than other Tidewater stations.

6. WTAR-TV's CBS Network programs are unduplicated in the metropolitan Tidewater area of about one million population. And no outside station has any appreciable coverage in Tidewater.

7. WTAR-TV is operated by the most experienced broadcasting organization in the area. WTAR Radio was the first station in Virginia in 1923. WTAR-TV, in April 1950, was the first Television station in Tidewater.

8. Summer Bonus! Vacation cottages line many miles of bay and ocean front within the metro area, and hundreds of thousands of vacationers swell the population during the long season. Over \$8,000,000 has been spent on new accommodations in past 2 years alone.

Tidewater tops all metro areas in the southeast except Atlanta and Miami. TIDEWTAR is a better way to spell it, and the best way to sell it, for WTAR-TV is the greatest marketing force in this great and growing market.

How KIRO-TV builds its "friendship rating"...

The best way to win a friend is to be one . . . and KIRO personalities work hard at being friends to the television viewers of the Puget Sound area. They are sincere, engaging people who keenly understand and sympathize with the needs and problems of their viewers. Best evidence of this is found in the increasing flow of letters we receive . . . letters with suggestions, criticisms and compliments. This we call our "friendship rating," which is so important in building loyalty for the products advertised on KIRO-TV.

sends the big picture

into the Industrial Ruhr of America

It's a big, big market, this 36-county area served by WTRF-TV from Wheeling, W. Va. Its industrial diversification keeps its people prosperous, makes it profitable for alert advertisers. The 2 million people on both sides of this rich Ohio River valley have a spendable income of \$2½ billion annually, and they are entertained and influenced by WTRF-TV, the dominant station in a dominant market. Basic NBC, equipped for network color.

IN WASHINGTON...

W U S T effectively sells the Negro market with \$550,000,000 in buying power

You're *missing* . . . really *missing* . . . the largest negro group of listeners with \$550,000,000.00 per year to spend if you aren't reaching the Washington negro market through WUST.

It's no secret that negro buying power is going up . . . up . . . up. But, did you know also that the average negro family in Washington earns \$4,000.00 yearly? *More*, probably, by the time you read this.

And they spend it *right here in Washington* . . . right here in WUST's front yard, where they get the hottest . . . happiest . . . most stimulating music and programming.

AND . . . we do more than *talk* to them . . . we *sell* them your product through smart mer-

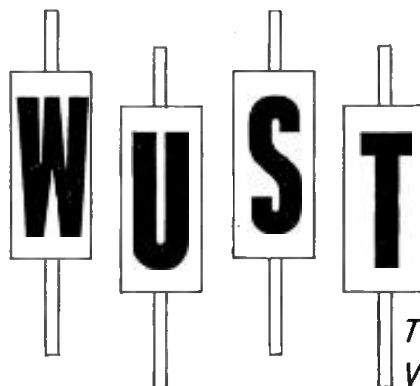

chandising that's more than hand-shaking and head-nodding. It's record-breaking and earth-shattering the way the negro trade reacts to WUST and its advertisers.

The Washington Negro Market is the most *reach-able* single market of its kind in all the world, if you *reach it* through WUST, *covering entirely*, and *penetrating effectively*, the entire area and population of the negro market (comprising more than half of Washington's population).

On the air — in the home . . .
off the air — at point-of-sale
— we'll help you sell this select negro market that's making merchandising history.

RCA Electronics introduces the tube of tomorrow

Called the Nuvistor, this thimble-size electron tube is likely to start a revolution in electronics. RCA engineers scrapped old ideas—took a fresh look at tube design. The result will be tubes that are far smaller, perform more efficiently, use less power, can take more punishment, are more reliable. De-

velopmental models now being tried out by designers will have a profound effect on the size, appearance, and performance of electronic equipment for entertainment, communications, defense, and industry in the future. It is another example of the way RCA is constantly advancing in electronics.

RADIO CORPORATION OF AMERICA

MUTUAL...

Of all radio networks — Mutual and only Mutual serves the best interests of the independent stations.

It's the only service any dynamic independent needs to supplement its own creative format in its market.

With The Mutual Service the voice of the independent remains just that. The authority, the solid rock security and the prestige of an international news staff (incorporating some of the best known names in the broadcast field) are its own to use. Beyond that — there's every latitude — every freedom to create the distinctive voice that has made independent radio the vital selling force it is today.

You can live with Mutual. You can grow with Mutual. You can make money with Mutual. That's why with stations (and advertisers) **MUTUAL IS HERE TO STAY.**

A SERVICE TO INDEPENDENT STATIONS

DIRECTORY OF AM AND FM RADIO STATIONS IN THE U.S.

Note: Listed in this directory are all am (amplitude modulation) and fm (frequency modulation) stations in the U. S. and its territories. Information for each station listed below has been corrected to Aug. 1, 1959. Where applicable, the following data are shown in this order: call letters, date station began (or intends to begin) operation, frequency, power, station address, telephone, TWX number, name of licensee together with date present licensee acquired station, national and regional network affiliations, national representative, hours of specialty programs (Negro or foreign language) broadcast each week, executives, companion fm and tv stations.

For each station associated with newspaper ownership

and/or multiple owners of radio and/or television stations the phrases "see Newspaper Ownership" or "see Group Ownership" appear after the name of the licensee. These refer to specialized directories which may be located by consulting the Facilities index on page B-1.

For fm stations which are companions of am stations and which duplicate the programming of the am, only facilities are listed. Fm stations which are programmed and operated independently are listed in greater detail.

Appropriate note is made of television companions of radio stations listed here. Full information about all television stations is presented in the Directory of Television Stations in the U. S. beginning on page B-3.

EXPLOSION!

That sound you're hearing from the lower left hand corner of America isn't caused by nuclear fission. It's the 19th market . . . bursting wide open. San Diego. Working, playing and buying at a furious pace. And KFMB Radio echoes the healthy, vibrant sounds. CBS speaks from around the world. Our own reporters know this market intimately — and vice versa. Happy music, nice personalities. Variety. Overall, San Diego's own bounce, pace and life captured by the station with the biggest audiences in the better part of Southern California. We have a corner on this corner of the country and it will throw open its pockets and purses for you through us. Touch our fuse and —stand back!

WGAY PIONEERS IN MAJOR PROGRAMMING "BREAK-THROUGH"

WASHINGTON, D.C.—WGAY, maintaining studios in Maryland, Virginia and the District of Columbia, has pioneered in two major "break-throughs" in present-day stereotyped programming. All newscasts are presented without commercial interruption, and the station features "Music-Casters" playing a wide range of music—from Mantovani to Crosby.

Nearly a million Government employees and their families now have their own "Voice of Government" Radio Station in this rich Metropolitan area, according to WGAY President and Chairman of the Board, Connie B. Gay.

Verified figures already obtained from home interviews and car-pool drivers show that over 62 per cent of these high income Government people turn first to 1050 on their radio dial (WGAY's better music frequency) to find out what goes on in their own departments. As a result, sponsors are experiencing results unheard of in Washington area merchandising.

IT PAYS TO KNOW THE ANSWERS

Today, people whose success in the broadcast advertising business depends on being well informed find BROADCASTING the most complete, authentic source of TV-radio news. For over a quarter-century they've found up-to-date answers on virtually everything about TV-&-radio in BROADCASTING Magazine, THE authoritative business-weekly in this multi-million dollar field. Edited by professionals for professionals, BROADCASTING stands alone as the best way to know about TV-&-radio and to advertise to those who make its major decisions.

More people pay to get BROADCASTING than for the next three publications combined. Be sure BROADCASTING is your G-2 source for the right answers.

No other Indianapolis station offers listeners so many different personalities . . . different voices . . . plus a variety of music to give a daily lift to their listening. This

variety assures an even larger cumulative audience. No wonder you get *more listeners, more action and more sales* when you use Indiana's BIG FOUR WFBM disc jockeys.

Ask your KATZ man for details.

*to sell the most Hoosiers
be sure your product
is cooking in the hottest pot!*

PEOPLE work – play – LIVE by RADIO!

WHO Radio Reaches From 18% to 35% of the Total Radio Audience in 93 "Iowa Plus" Counties, Sign-On to Sign-Off!

PAINTING or polishing, at work or play—radio is always close at hand. There's no other medium that sells *so often, so economically, so completely*. The "do-it-yourselfer" certainly can't mend screens while he watches television or reads a magazine or a newspaper.

But selecting believable, big-audience radio stations for your schedule is as important as radio's own special appeals.

WHO Radio is the very best in all Iowa—the station that is aggressive, alert, *alive!*

The 93-county area Pulse Report (Feb.-March, 1959) gives WHO Radio from 18% to 35% of the total radio listening audience—first place in every quarter hour sur-

veyed—the balance being divided among 88 other stations!

WHO Radio's superior facilities, personnel and programming pay off. WHO is a solid salesman—a "pro" that people BELIEVE. Ask your PGW Colonel for all the details on WHO Radio—serving *Iowa PLUS!*

DEFINITELY THE FIRST CHOICE FOR 19 YEARS

Again in 1959, WBOC Radio is the choice of more general advertisers day by day than any other medium in the central Del-Mar-Va Market. And these advertisers willingly pay the regular published rates because they know all others on WBOC do so.

Through the years WBOC Radio has built public confidence, prestige, stature that make possible maximum returns on the advertisers' investment.

study of
New England
radio!

RADIO STATION WHDH-BOSTON HAS PUBLISHED THE RESULTS OF A RADIO AUDIENCE IMAGE STUDY CONDUCTED IN THE NEW ENGLAND 25 COUNTY WHDH COVERAGE AREA.

The Audience Image Study is the work of Pulse, Inc. of New York, one of the nation's largest, most respected research organizations, and is the first of its kind ever undertaken in the New England market.

Eight thousand New England families were surveyed by Pulse, Inc. in a 1959 WHDH area study, and a representative sample of one thousand men and women 15 years of age and older were interviewed in depth in an effort to measure the character of the radio audiences of six leading Boston radio stations.

The intense national interest in "ratings" and the great need for more definitive information regarding radio audiences should make this WHDH report one of the most widely read studies in the history of New England radio.

To **WHDH** Dept. 4

6 St. James Avenue
Boston 16, Mass.

Please send me a copy of the WHDH Audience Image Study.

How to sell New York's CAPTIVATED audience

What makes a radio audience responsive? For one thing, the way listeners *listen*. WQXR's good music format compels active, attentive listening, captivates more than one million families, makes sales for over 400 advertisers. For listeners and advertisers alike, WQXR is America's Number One Good Music Station. Ask us to send you some case histories.

IN SYRACUSE THE BIG SALES ARE MADE IN AND TO THE SUBURBS!*

54.3% of all Syracuse department store credit customers and 61.4% of all credit sales are made to customers in the Syracuse suburbs. Syracuse suburbanites, (who make up 46% of Greater Syracuse population), spend more on the average, too! The same holds true for food, drugs, beverage and gasoline sales, too. WSEN programming is geared to and holds the modern adult buyer in upstate New York's most rapidly growing area.

Fargo is the SPENDINGEST city in the U. S. A.

And WDAY gets by far the biggest audience
in this 54-county area!

The Consumer Markets pages of "Radio Rates" show that Fargo is the No. 1 city in the U.S.A., for Retail Sales Per Family!

Also — the Jan. 19-Feb. 13, 1959 Pulse Area Survey shows that WDAY is *by far* the top station among 37 that compete for audience in our 54-county area.

All this confirms the wisdom of you advertisers who have been choosing WDAY *since 1922!* There just ain't no station anywhere else in the U.S. that does so much — for so many — for so little! Ask PGW!

BUCYRUS

Marion trading area offers national and regional distributors an ideal test market. Small enough to be economical, large enough to be indicative. It is a healthy, expanding, but conservative market. Competition among retailers is intense. Merchandise and services which can make the grade in the Marion Market will succeed in any normal American community. Nineteen years of personal service by veteran staff members offers the advertiser audience acceptance and product prestige.

FIRST in Popularity and Power for the 4th Straight Year...

WESC has ranked FIRST in listeners in the Greenville market four out of five times in the past five years. In fact, WESC has come out on top each year since 1956 — including the most recent 10-county survey (Pulse, April-1959).

WESC matches this listener dominance with an equally clear-cut power advantage, reflected in every Nielsen and engineering coverage study.

To be highest in listeners and coverage — and lowest in cost-per-1,000 — select:

Position*	Greenville Popularity Rank
