The Plus Value Facts...

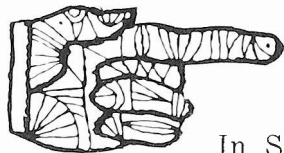

Statistics* show that the number of homes able to receive Channel 11 has increased more in the last two years than stations B and C combined in the Green Bay market.

Here are the facts . . .

	<u>WLUK</u>	<u>Sta. B</u>	<u>Sta. C</u>
able to receive	+25.6	+ 0.8	+ 5.5
average daily daytime	+70.4	+13.1	+13.7
average daily nighttime	+28.5	- 0.7	+12.4

...And

The Reason Why...

In September of 1961, Channel 11 began transmitting from the tallest tower above ground in Wisconsin with 316 kw. of power.

Check with Adam Young Co. or Harry Hyett, Mpls., and let them give you the facts about the greatest buy in Wisconsin.

First in Milwaukee*

...and still first!

Station Image, more than any single quality, has made Channel 4 Milwaukee's number one TV station . . . in the eyes of both viewers and advertisers. This "Total Image" is the sum of these parts:

PROGRESSIVENESS — The history of television in Wisconsin is literally the history of WTMJ-TV. It was the first station in Wisconsin on the air . . . with network shows . . . with color. And it's first in coverage (a population area of 4,468,903 people).

EXPERIENCE — Most of WTMJ-TV's people have worked more than 15 years in television and form Wisconsin's largest, most experienced station staff in live and network programming.

QUALITY PROGRAMING — Program policies of good taste are traditionally practiced in local production and in selection of network programming.

HIGH-STANDARD ADVERTISING POLICIES — Advertising rates are clearly stated and explained in an official Rate Card, with rates the same for all. WTMJ-TV does not "triple-spot," will not accept advertising it feels would be objectionable.

PROGRAM VARIETY — WTMJ-TV believes in programming to meet its community's varied needs: entertainment, information, education. Included in its balanced schedule are daily high-quality live shows and the station's own feature and news programs. For more detailed information on what makes up the Total Image of WTMJ-TV, write:

H-R OUTSELLS ITS COMPETITORS BECAUSE

H-R salesmen work for a **limited list** of choice stations in active markets.

One of H-R's basic foundation stones is its Limited List Policy . . . Every H-R salesman, therefore, is able to know **every** H-R-represented station **more thoroughly** . . . he is an **expert** on market, area and programming; a **specialist** on ratings, costs and efficiency of the H-R station **and** the competition. Agencies and advertisers know this,

and rely on H-R salesmen for all the facts. No other major station representative was founded on such a Limited List Policy . . . another reason why H-R outsells its competitors.

Can you use a national spot representative who will know your station better—be able to give you more thorough, more concentrated selling? If so, we'll be glad to show you many **more** reasons why H-R outsells its competitors . . . Call us.

Elroy McCaw, operator of KTVW, Tacoma, Wash. and 25% owner of KONA, Honolulu. (1955 Vol. 11:25, 28, 31). Subsequently, Founders Corp. (Tele-Trip Inc. subsidiary) exercised option to acquire 50% of KTVR from McCaw by assuming half of purchase price & liabilities. Founders also operate radios KPOA, Honolulu, and WTAC, Flint. (1955 Vol. 11:39, 47). Note: In 1959 McCaw's Gotham Corp. purchased Founders Corp. for 50% of KTVR for \$160,000 and became 100% owner. McCaw also traded KONA holdings to J. D. Keating (1959 Vol. 15:13).

KOAA-TV, Pueblo (Ch. 5)—Sold as KCSJ-TV with KCSJ to owners of KOA-TV, Denver, for \$1,250,000 by Star Broadcasting (subsidiary of Bankers Life & Casualty), with KOA-TV to dispose of the radio station later (1961-62 Vols. 17:35, 1:14). Bankers Life & Casualty Co., Chicago, acquired stations from owners Douglas D. Kahie (67%) and Robert L. Clinton Jr. (33%) by assuming \$23,000 in obligations. (1954 Vol. 10:35, 40). BTC-3856.

CONNECTICUT

WICC-TV, Bridgeport (Ch. 43)—Sold with radio WICC to Kenneth M. Cooper and associates for \$1,700,000 by Phillip G. Merryman group (1958-59 Vol 14:51; 15:9).

WHCT, Hartford (Ch. 18)—Sold to Hartford Phonevision Co. (wholly-owned by RKO General) for \$900,000 by Edward D. Taddei and associates (1960 Vol. 16:14, 23). Taddei group acquired station for \$250,000 from CBS after it took station off air Nov. 15, 1958 (1958 Vol. 14:45-46, 49). CBS acquired station for approximately \$650,000 from RKO General (then operating as General Teleradio), latter having acquired 45% formerly held by Gannett Newspapers' Hartford Times. Former call letters WGIH-TV (1955-56 Vols. 11:28, 36, 49; 12:8, 37).

WHNB-TV, New Britain-Hartford (Ch. 30)—Sold as WNBC with radio WKNB for \$1,044,000 by NBC to owners of WICS, Springfield, Ill. WWLP, Springfield, Mass. held an option for 1/3 as part of this transaction, but dropped it after FCC set this part of the sale for a hearing, stating that there would be an overlap of WWLP & WHNB-TV signals. New owners sold radio WKNB for \$225,000 to Sheldon I. Smerling and family (1959 Vol. 15:26, 28, 39). NBC purchased stations, operated as WKNB-TV & WKNB for \$606,000 cash plus assumption of about \$400,000 in obligations from group headed by adman Julian Cross (1955-56 Vols. 11:2, 9, 19, 22, 26; 12:50). Note: WWLP exercised option to pay \$348,000 for 1/3 for WHNB-TV (1960 Vol. 16:21), but this has been held up by the FCC (1961 Vol. 17:8).

WNHC-TV, New Haven (Ch. 8)—Purchase with radio WNHC by Triangle Publications, Inc. for \$5,400,000 from Aldo DeDominicis, Patrick J. Goode family, et al. (1956 Vol. 12:21, 22, 25).

Color Status of Network Affiliates

(As of October 15, 1962)

Information Furnished by NBC, CBS and Equipment Makers.

Duplication of Stations on Compilations is Due to Network Sharing of Stations.

(Listing of ABC or CBS affiliates as equipped for network color rebroadcast does not necessarily mean that they do broadcast network color. ABC and CBS affiliates rebroadcast network color only when special color loops to the stations are ordered. All NBC stations are permanently interconnected with color loops)

Color-Equipped NBC-TV Affiliates

Asterisk (*) Indicates Station Now Equipped to Rebroadcast Network Color.

Who makes possible the most advanced production techniques with tape? **AMPEX**

A little imagination goes a long way with an Ampex Videotape* Recorder. In fact, an Ampex VTR lets you produce sparkling spots on tape with virtually unlimited effects—easily, quickly and with less cost. It's possible with the Ampex Electronic Editor operating with Ampex Inter-Sync. You can assemble, insert, add effects or make changes until you get just what you want to see. And it's all done electronically. There's no cutting of tape. No need for film crews. No costly film processing delays; each spot can be played back immediately. You save time, save

tape. Add a Special Effects Generator and you have every transitional effect at your finger-tips. With over 1,000 VTRs in operation throughout the world, only Ampex offers you and your advertisers the most television production for your time, effort and money. Just what you'd expect from the company that invented the VTR! For details write: Ampex Corp., 934 Charter Street, Redwood City, Calif.—the only company providing recorders, tape and memory devices for every application. Sales and service throughout the world.

"Seat belts make the critical difference,"
says THE NATIONAL SAFETY COUNCIL

This arrow represents the critical distance between life and death, health and injury.

When your car stops short in a collision—or even in a panic stop—your body shoots forward. Seat belts can save you by maintaining the critical distance between your head and the nearest obstruction: windshield, dash or back of the front seat.

The National Safety Council says that seat belts in every car, used at all times by driver and passengers, could save at least 5,000 lives a year, reduce serious auto injuries $\frac{1}{3}$.

The use of seat belts is also endorsed by the American Medical Association, the U.S. Public Health Service and the American College of Surgeons.

SEAT BELTS CAN SAVE YOUR LIFE! USE THEM.

*Published to save lives in cooperation with The Advertising Council
 and The National Safety Council*

Assignments Affecting Borders

Channel Allocations for Canada and Mexico

Allocations within 250 miles of Canadian and Mexican borders are as agreed upon by U.S. and respective countries through exchange of diplomatic notes. Though allocations beyond 250 miles of border do not require agreement between countries, Canada reports assignments beyond 250 miles; Mexico does not.

Helen Hayes has some hints on helping overseas visitors feel at home

Help with directions

I've stayed in practically every city in America, yet I often have to ask directions. So imagine the difficulty our guests will have as they travel here. Be as helpful as you can. If you don't know the answer, find somebody who does.

Local customs

Visitors passing through your town need to know things about our stores—how and when we shop. Tell them, too, about traffic and parking regulations, opening and closing hours at museums and nearby recreation areas.

Transportation

It's surprising how visitors appreciate your words of advice—on where to get a taxicab; how to rent a car, how to locate the correct bus or train at a station. They will also be grateful for your pointers about our highways.

"Company's Coming! Everywhere I go people are talking about it and asking what they can do to help. I've been telling them that simple American hospitality is most important. I think a visitor will remember the busy Philadelphian who takes time to put him on the right bus just as vividly as he'll recall Independence Hall. And a courtesy extended by a Montana drugstore clerk will make an impression quite as lasting as Yellowstone National Park. So please remember that friendly Americans win America friends!"

* The equipment listed herein is considered acceptable for use in the television broadcast service, provided operation is in accordance with the Commission's rules and that the technical specifications as listed herein are not exceeded. "Type acceptance" is required for listing of transmitters and translators. For monitors, "type approval" is required for listing.

In most cases, type acceptance is based on measurements made when the transmitter is used with certain external components specified by the manufacturer. In such cases, the type number listed identifies the assembly, including the transmitter and external components identical to those used for the type acceptance measurements.

"Seat belts make the critical difference,"
says THE NATIONAL SAFETY COUNCIL

This arrow represents the critical distance between life and death, health and injury.

When your car stops short in a collision—or even in a panic stop—your body shoots forward. Seat belts can save you by maintaining the critical distance between your head and the nearest obstruction: windshield, dash or back of the front seat.

The National Safety Council says that seat belts in every car, used at all times by driver and passengers, could save at least 5,000 lives a year, reduce serious auto injuries $\frac{1}{3}$.

The use of seat belts is also endorsed by the American Medical Association, the U.S. Public Health Service and the American College of Surgeons.

SEAT BELTS CAN SAVE YOUR LIFE! USE THEM.

NOW - GO
12
CHANNELS

WITH THE NEW

JERROLD[®]

CHANNEL COMMANDER

- **Permits adjacent-channel operation on high and low bands**
- **Single unit processes, controls, and delivers antenna signal on any channel—including same channel**

You can now offer CATV reception on all twelve VHF channels with no adjacent-channel interference! By adding a Jerrold Channel Commander to your head end for each adjacent channel desired, you achieve 12-channel operation with minimum equipment.

The Channel Commander is a complete, compact unit which processes, controls, and delivers clear, interference-free signals on any desired VHF channel, including direct operation on the received frequency in both the high and the low bands.

In conjunction with Jerrold microwave and all-band-system equipment, the Channel Commander gives you command of the entire VHF band, lets you offer CATV subscribers the widest choice of entertainment possible over their present TV sets.

Channel Commander's compact modular design and compatibility with your present head-end equipment lets you "go 12 channels" immediately or in channel-at-a-time stages. Call your Jerrold factory representative or write for complete technical data.

WHY JERROLD BUILDS MORE CATV SYSTEMS on a "turn-key"* basis than all other manufacturing-contractors combined!

There's ample reason: Jerrald simply gives the owner more—takes every bit of responsibility along the way:

Check this typical Jerrald CATV "turn-key" package:

1. Antenna-site signal survey.
2. Pole-line survey (and assistance in dealing with utilities).
3. Complete systems engineering.
4. All equipment and materials, both construction and electronic—from the "antenna shack" to the "house drop".
5. Construction by the largest, most highly skilled force in the industry.
6. Activation of the new system.
7. *Thorough* checkout.
8. Training of your personnel in system operation and management.

9. Delivery of the fully operating system—on schedule.
10. COMPLETE FINANCING—*on terms to meet your needs.*

Small wonder, then, that system owners have found it simpler, faster—and cheaper—to rely on Jerrald from beginning to end rather than attempt to pull all the elements together themselves. Small wonder that Jerrald start-to-finish installations *during the past year alone* added facilities to service over a quarter million new CATV subscribers (see list below).

If *you* want the peace of mind that comes of dealing with a thoroughly integrated organization that knows your needs—leave it to Jerrald.

"turn-key": *You order the system built—we turn the key over to you when it's running full-tilt.*

CATV IS GOING WIDE BAND . . .

SKL

IS LEADING THE WAY!

As more and more CATV owners make the *wide band* decision for the construction of new systems and the conversion of old ones, they turn to SKL for equipment and engineering with *experience*.

First in the wide band field, SKL pioneered the all-channel CATV system a decade ago. Since then, thousands of SKL wide band distributed amplifiers and their associated equipment — over many millions of actual operating hours — have demonstrated their high fidelity performance, their continuing reliability, their low maintenance cost year after year.

They have built SKL's solid reputation for top quality. They have proved that in *every* way, SKL is *first* in wide band systems.

Just a Few of SKL's Wide Band "Firsts":

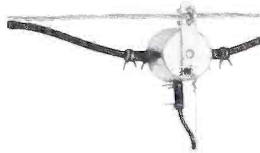

1950
First wide band distributed main line amplifier.

1952
First automatic level control unit for wide band systems.

THE DOMINANT VIEW IN THE NATIONS LARGEST

The Scranton-Wilkes Barre market . . . Third largest in the Third Largest State . . . from the area's highest tower, WDAU's dominant position is established beyond all doubt.

It's a fact . . . when you buy WDAU-TV, you buy consistent ARB leadership and extraordinary coverage that includes the world's largest Community Antenna (Cable) Television coverage of 130,000 homes as a plus.

But there's more to a WDAU-TV buy . . . a feeling of community acceptance . . . for WDAU-TV represents the pulse of Central and North-eastern Pennsylvania community life.

... that's how quickly ARB Overnight Surveys deliver needed audience data. It's also an important reason more and more stations, agencies and advertisers depend upon ARB during crucial periods of change in television scheduling.

Whether it's a change in competitive strength, in audience reaction to a new program or the need for additional decision-making data, practical telephone coincidentals can deliver overnight results for virtually any market. Yet, they are flexible enough that, at low cost, surveys can be tailored to deliver additional information on program-type preference, personality identification or commercial preference at the same time.

ARB Coincidentals make television planning complete. You have the information you need, when you need it — overnight!

IN-DEPTH

Not just some—but all the information a buyer of television needs
...in one spot!

What makes SRDS the indispensable buying guide of the television industry?

Simply this. Look where he may, no where else can an agency or advertiser buyer of time find the full-range of needed media/market data concentrated as it is in Spot Television Rates and Data . . . classified for instant, easy reference . . . accurate, complete — month to month . . . and supplemented by a regular flow of between-issue bulletins to catch all interim information changes.

In SRDS, complete station listings, station service-ads, graphic media/market maps, SRDS Consumer Market Data, plus a wealth of special service features all come together in unique fashion to give the agency buyer of time and his client advertiser all the essential quantitative and qualitative data they need as basis for decision . . . from campaign planning stage, through market selection, down to final television schedule.

SRDS service content under constant review

Geared tightly to changing agency/advertiser practices, SRDS constantly responds to new needs of anyone in advertising who participates in market and media selection. For instance, new in '62 . . .

TV Household Data Added — Current estimates based on 1960 Census data, by state and percent of U.S., by county and metro area.

TV Station Circulations Added — Figures based on ARB and NCS data now included in listings for most subscribing stations.

Negro Population Data Added — State-by-state data now pinpoints geographic location of 80% of U.S. Negro Market.

And in serving the buyer . . . SRDS also serves the seller

By anticipating this buyer need for accurate, in-depth buying information, SRDS also serves the needs of the station seller . . . because the seller knows that SRDS is the one central source where his latest media/market story is ready for instant reference at each stage and at the precise moment of each buying decision. This unique, built-in value of SRDS as a selling medium is recognized by media-sellers. For example:

In 1949, 1041 media placed 7596 Service-Ads, totalling 3811 pages. In 1961, 2125 media placed 18,717 Service-Ads, totalling 7903 pages.

Approximately 40% advertise monthly — they know they are supplying customers and prospects with up-to-the minute buying information, when it's needed, on a continual, year-round basis.

QUITE A PACKAGE!

1. STATION LISTINGS

Each commercial television station in the U.S. alphabetically positioned by state, city of origin and by call letters. Over 700 TV station "rate cards," including national, regional and state networks and groups, give detailed quantitative data . . . such as complete rate structures, feature programs, special facilities, color availability, and the like.

4. SRDS CONSUMER MARKET DATA

Up-dated twice a year and based on latest Census and Bureau of Budget reports, SRDS data is broken down by county, metro area and city — for every state. Basic data series of composite metro ranking tables aid in determining size, potential, and ranking of television markets.

5. SRDS SERVICE FEATURES

Special information categories throughout each issue, such as handy index to station representatives or promotion dates and three-year calendars, help make SRDS the one complete, all-embracing buying guide available to advertising people.

Rock-Ola Sets Plush Preview For New Line

Rock-Ola Records has announced a new line of 45's, the first of which will be released in January. The new line will feature a variety of rock and roll acts, including The Beatles, The Rolling Stones, and The Who.

CAPITOL MANAGEMENT TEAM (left to right)—Daniel G. Broun, vice chairman of the board; Glenn S. Wallkin, chairman of the board; and Alan W. Livingston, president, last week announced additional responsibilities as Capitol Records, Inc. announced a reorganization of its top executive structure.

Move Stresses Radio's Role in Disk Exposure

With a new emphasis on radio, Capitol Records is planning a major campaign to promote its new line of 45's. The company is working closely with radio stations to ensure that its new releases get the maximum exposure possible.

AWARD JUDY GOLD LP DISK

Judy Gold's new LP, "The Judy Gold Show," has been awarded the Gold Award for Best New Artist. The album features a variety of original songs and covers, showcasing Gold's unique talent and style.

Cameo Sets Up Deal For European Outlets

Cameo Records has announced a new deal with European outlets, allowing the company to distribute its new line of 45's in Europe. This move is expected to significantly increase the company's international reach and sales.

Diskeries Bid Wildly for Ricky

The album industry has started bidding wildly for Ricky Van Shelton's new LP, "The Ricky Van Shelton Show." The bidding is expected to reach into the millions of dollars, reflecting the high demand for Van Shelton's music.

ELVIS' GREAT NEW ALBUM, "GIRLS, GIRLS, GIRLS!"

Since January, Broadcasters throughout the world have been unanimous in their enthusiastic approval of Billboard Music Week's revolutionary new format. Through the use of quality coated paper, full color production and the expansion of editorial coverage in all facets of the music, record and programming fields... Billboard Music Week is must reading for Broadcasters.

Just one of the many reasons why Broadcasters find Billboard Music Week an indispensable programming tool is the weekly column by Bill Gavin, internationally known radio authority and program consultant.

Through information gathered via his network of 65 radio correspondents throughout the U.S., Canada and abroad, Gavin's column discusses new programming ideas and procedures and explores the effectiveness of programming policies now in use by Broadcasters.

Bill Gavin's column is just part of the editorial expansion which has recently occurred within the Radio-TV Programming section of Billboard Music Week, plus the inclusion of "Ready-To-Go Programming" charts of the best tracks on new Spotlitged LP's...and "Middle-Road Singles" selected from the current HOT 100.

Your own copy of Billboard Music Week every week is an investment in accurate, timely and authoritative information which can help and guide you and every member of your staff.

... symbol of service

TODAY, towers like this are dotting the American landscape with increasing frequency . . . serving the forgotten face of America: the countless communities denied clear, multi-channel television by distance, terrain and other reception problems.

TO GROWING millions of Americans, the tower of the community antenna television system is a symbol of service . . . bringing to them the otherwise unavailable sights and sounds of television.

TO THESE Americans, community antenna television means freedom of choice: freedom to make individual channel selection from one of several signal sources. It means the same opportunity for multi-channel viewing enjoyed by their fellow citizens living in areas devoid of reception problems. And it means that they can share—with all other Americans—in all that the wonder of TV has to offer . . . entertainment, information and education.

TV ANTENNAS perched atop the towers of more than 1,000 CATV systems bring within the range of TV signals a heretofore "lost" audience of more than 3 million Americans . . . bringing to cable communities the full benefit of TV communications . . . truly serving the public interest . . . to the end that neither distance nor terrain shall act as barriers to the public's need to be informed.

EACH upward inch of every CATV tower is a measure of success . . . a measure of the resourcefulness and ability of American enterprise to respond to public need. That CATV continues to grow attests to the effectiveness with which the need is met.

catv. . . an increasingly vital adjunct to America's great broadcasting industry . . . truly a symbol of service.

THE 17th ANNIVERSARY
EDITION OF THE

WORLD RADIO TV HANDBOOK

WORLD RADIO TELEVISION HANDBOOK 1963

The seventeenth edition of this worldknown handbook is now available extended and improved. The WRTH is the only Handbook that contains complete and exact information about all sound and television broadcasting stations in the world, including their frequencies, powers, hours of transmission, interval signals, announcements, programmes, staff-members etc.

The **WORLD RADIO TELEVISION HANDBOOK** is therefore an invaluable *vade-mecum* for all who are interested in broadcasting, who wish to keep in touch with its development in all parts of the world and who seek a ready means of locating programmes that they wish to receive.

The **WORLD RADIO TELEVISION HANDBOOK** is distributed to almost all sound and television broadcasting stations all over the world.

Approx. 18.000-19.000 copies are sold every year to broadcasting organisations, manufactures of electronic equipment, libraries, engineers, amateurs and listeners all over the world and it is expected, that the sale in 1963 will be **20.000 copies**.

A sales message in the **WORLD RADIO TELEVISION HANDBOOK** will increase publicity and sales all over the world. Leading firms in the electronic branch have for years been steady advertisers for their products.

WRTH's long established reputation for leadership in world broadcasting and television recommended by the United Nations, UNESCO, and all broadcasting organisations in the world that gives weight and authority to a sales message in the WRTH.

KEYSTONE STATIONS

EXCLUSIVE CBS

Keystone Stations cover Central Pennsylvania . . . without costly, wasteful overlap. Exclusive CBS affiliation offers you best network availabilities in Lancaster, Lebanon, Harrisburg, and York through one rate card, one buy, one confirmation.

Whatever you're selling, you'll make more sales in the important population centers of Central Pennsylvania at less cost with Keystone, the three-station group that serves more of the area with ghost-free, snow-free pictures than any other television station. WHP-TV, Harrisburg; WLYH-TV, Lancaster-Lebanon; WSBA-TV, York.
