THE STATION WITH A STUDER HAS A REPUTATION TO MAINTAIN.

Like Chicago's superstation WFMT, whose demand for uncompromised excellence led them to specify Studer decks for all their broadcast and syndication operations. People who know what quality is worth know they can't afford less than a Studer.

Broadcasters will find the Studer B67 of special interest. Portable enough to take on remotes, it's built to the Studer standard for chassis integrity: plugging in a new headblock requires no mechanical realignment. Three-speed operation, with quartz-crystal servo-locked capstan, and continuously adjusted tape tension servo-control reel motors are standard. So is a digital tape timer that reads positive or negative real time at all

speeds and in all operating modes to an accuracy of 0.5%.

Naturally, the B67 uses Cannon-type connectors, and ASA ballistic VU meters (augmented by IEC peak-reading LED's). And it gives you built-in editing facilities with a monitor speaker. Both mechanical and electrical construction is modular throughout, for rapid service and adjustment. Full remote control is available. And when you say that the record and playback heads are made by Studer, that's all that needs to be said. The B67 is available in 19" rack-mount, console and portable formats.

If your station is good enough to warrant a B67, call us.

Co-owned FM. WOF-FM has the same ownership as WOF(AM), and the FM listing contains only information different from the AM. Co-owned AM and FM stations are always listed together, even when they have dissimilar call letters.

(8) Frequency in megahertz, effective radiated power, and antenna height above average terrain. WOF-FM broadcasts in stereo.

(9) Programing. WOF-FM duplicates WOF programs 50% of the time and has a C&W format.
